WHAT IS RAW MATERIAL?

THE Tariff experts make long disquisitions on the difference between manufactured articles and raw material. What is raw material? It is something in the production of which human labor has not been used. The steel of which the saw is made is not raw material, for it is made from iron smelted by human labor from ore. The ore is not raw material for human labor has been invoked to mine it. The leather of which your shoes are made is not raw material, for the tanner made it from a hide. The hide is not raw material, for labor killed and skinned the steer. And the steer was not raw material for it took labor to raise and feed him.

Cloth is the so-called raw material from which the tailor manufactures a coat. Wool is the so-called raw material from which the spinner constructs the cloth, and human labor has been used to shear the sheep. Even the tree standing in the forest is not the raw material of lumber, for human labor was required to survey a road through the forest to reach the tree.—*Los Angeles Times*.

It is now more than one year since President Wilson took the oath of office, and still the good old republican territorial officers of Hawaii are undisturbed in their positions. That is good, and it goes to show that decent Democratic timber is lacking in Hawaii. Not that some decent democrats cannot be found here, but they are few and far between.

It's up to the Democratic party to make good now. Everything the farmer has to sell brings less money than for years past, while everything he buys costs as much as ever. He wants to know the whyness of this whichness, not for the purpose of satisfying his political curiosity but for very vital business reasons.—*Joliet (Mont.) Journal*.

It is something new for the Territory of Hawaii to have a malihini office holder dictate as to appointments and other matters of importance. It is also strange to hear of a peddler like "Mailbox" Barron telling of how the Governor of Hawaii consulted him regarding the nomination of the territorial secretary.

The Hawaii Promotion Committee deserves the support of the whole of Hawaii. The tourist crop is one that most people will have to depend upon a little later on, when the policy of the man who declared he would never "injure a legitimate industry," begins to show its effect.

Through the death of Captain Penhallow, Maui lost a citizen who can be ill spared. The deceased gentleman was a straight, clean noble minded man, and he was beloved by all with whom he came in contact. All Maui joins in sympathy with the bereaved widow and family.

The sooner the question of Circuit Court judgeships is settled, the better it will be for all concerned. The uncertainty is worrying lawyers, the public and the judges themselves. Perhaps it is all up to "Old Rose" and, in that case, only democrats will get a chance.

The amount of prize money suggested by the executive committee of the Maui Racing Association is quite enough, considering the times, and it is to be hoped that the members of the association back up the committee this evening at the general meeting.

Everybody should buy tickets for the big Race Club ball. The affair is for the purpose of raising funds to tide the racing association over a bad time. The ball will be well worth the admission money and the people who attend it will have a good time.

The Ad. Club excursion to Kauai was evidently a great affair and the get-together spirit seems to have been abroad. Maui should be the next calling place of the Honolulu live wire organization.

Already a tentative slate for the next board of supervisors is being made up. Good men are available, but it remains to be seen if the voters will elect them to office.

With the men of Ulster sworn to fight with arms against the establishment of an Irish Parliament, it would appear that England is up against a tough proposition.

Mexico does not seem to be so much in the limelight just now, and Secretary Bryan must feel glad, as he can now devote more time to lecturing at a dollar a ticket.

It is to be hoped that the dredging of Kahului harbor will go on in safety, and that the accidents of last year will not be repeated.

Baseball will soon be with us again and the Maui Athletic Association can be relied upon to arrange a fine schedule of games.

America's new Tariff law reads well in every country in Europe.

SAVED HIS TREASURE.

Clever Ruse of a Blind Man Who Had Been Robbed.

"My great-uncle, who was blind," said a Frenchman, "once buried \$4,000 in gold louis under a pear tree in his garden. His neighbor saw him do it and in the dead of night came and stole the money, replacing the earth carefully."

"Some days later my uncle brought fifty more louis down to the pear tree for burial. He soon discovered his loss, and, silently weeping, he, too, replaced the earth."

"He knew whom to suspect, and that night he called on his neighbor. He seemed thoughtful and distrustful, and the neighbor asked him what oppressed his mind."

"Well, I'll tell you," said my great-uncle frankly. "I have 1,000 louis hid away in a safe place, and today a tenant paid off a mortgage, and I have another 1,000 louis in cash on my hands. I don't know whether to seek out another hiding place for this money or put it where the other is. What do you advise?"

"Why," said the neighbor eagerly, "if your first hiding place is safe—and you declare it to be so—I should certainly put this money there too."

"My great-uncle said firmly that that was what he would do on the morrow. It was the wisest course. Then he took his leave."

"And when next day he went to the pear tree again there, sure enough, was his lost 1,000 louis, all put back again."—Exchange.

Diplomacy.

The Fussy Patron—Why, mercy, this shoe is a 6! The Tired Clerk—Pardon me, madam, you have it upside down. It is really a 9—child's size. What a perfect fit!—Cleveland Plain Dealer.

Find the cause of each wrinkle on a man's face and you will find it was put there by worrying over something that worrying could not help.
