Pledged to neither Sect nor Party.

But established for the benefit of all.

FRIDAY, AUGUST 27, 1886.

WHAT HAS BEEN DONE.

The Legislative Assembly which opened on the 30th April is now close on three months in session, to-day being the 87th on which the House has been actually engaged in the despatch of business. We have often had occasion to characterize in strong terms the wordy harangues by which valuable time was wasted, but while we have no reason to withdraw what has heretofore been written on this point, we do not hesitate to accord many of the members high praise for the industry exhibited by them in the performance of their legislative duties. In this easy going climate, ordinary mortals are generally satisfied with very little work, and it would not be incompatible with the usual order for legislators to exercise themselves, like other people, in not doing too much. The principal acts which have been perfected and become part of the statute laws of the kingdom, are those relating to the rebuilding of the city of Honolulu, the practice in escheat of lands, the encouragement of steam navigation, and the inquests of fires. The act to regulate the erection and repairing of buildings in Honolulu is almost a transcript of the law of the city of San Francisco, on the same subject, and received the royal sanction on the 29th of May. Its salutary effects are already visible. It ought to be noted that contemporaneous with this act, provisions were made through the Interior Department for the extension and widening of streets. The re-built parts of the burnt district have not that solidarity about them which was described about a year ago in this paper as inviting a conflagration, and forming accumulations of pestilential centers. Buildings on opposite sides of the streets now stand about fifty feet apart; verandahs are raised to more airy heights and are less unsightly, eight feet alley ways run between buildings; and altogether the Chinatown of the future will be a great improvement on the densely peopled, close-packed fabrics that formerly suggested piles of lumber tumbled down from the moon. The fire limit has been considerably extended, and the redwood and pine of last year has given place to substantial, though not generally over beautiful large brick buildings.

DEBATES IN THE HOUSE OF REPRESENTATIVES.

Every visitor to Washington, of course, goes to hear a debate. In the House of Representatives he will be lucky if he hears anything at all. The hall is very large; its acoustic properties seem to be almost as bad as those of our Houses at Westminster, and the hubbub of conversation is incessant and unrestrained. I have seen a member leave his seat and come down to the open space by the Speaker's chair, where a select audience, standing, gathered round him. The perpetual rapping of the President's hammer serves only to increase the din. Without the voice of a Senator nobody can take part in what is ironically called a deliberation. On passing to the Senate you find yourself in a different atmosphere. But the interest in the debates in both Chambers is greatly diminished by the fact that the really important work is done behind the scenes in committee and caucus. The average of the speaking is, I should say, decidedly higher than in our Parliament, and it is no longer in the "spread-eagle" and "high-falutin'" style. Americans, though singularly impatient of criticism, are also singularly quick in profiting by it. But of the American speakers that I have heard hardly one, I think, has been free from a grave defect, attributable perhaps partly to college training in elocution. You all feel that they are speaking for effect; whereas, when you are listening to Mr. John Bright you feel that his single object is to communicate and impress his convictions. The fault was most conspicuous in Everett, whose language and delivery were perfect; his delivery, indeed, was too perfect, for he gesticulated not only with his arms, but with his legs. It was supposed that he even played little stage tricks to enhance the effect. Once, it was said, when he entered the hall to deliver a Fourth of July oration, a veteran soldier respectfully rose from his seat. "Sit down, venerable man," cried Everett in his most impressive tone; "it is for me to rise in your." "Why, sir," replied the simple-minded veteran, "you told me I was to stand up when you came in." [Goldwin Smith, in Macmillan's Magazine.

The act for the encouragement of steam navigation, passed the 30th day of June, gives steamship companies plying between ports in the Hawaiian Islands and foreign ports, as well as those carrying the Hawaiian mails exemption from port charges, import duties on coal, machinery and supplies, and other privileges.

A \$2,000,000 loan bill was introduced early in the session, to provide for certain internal improvements, but subsequent events seem to have caused a change of Ministerial policy in that direction, the Minister of Interior having announced a few days ago that sales of Government lands might be effected to a sufficient extent to realize the required amounts.

Prominent among the events of the session are the Thurston apology, the change of Ministry, the Kona and Kaanapali election cases, and the Molokai and Lanai investigations.

The Thurston apology was an hour's oration, probably the ablest delivered during the session, in response to a demand for an apology for a remark made reflecting upon the conduct of a Cabinet Minister. While the House accepted the "apology," it was plain that many honorable members were left under the impression that the plucky member for Molokai had administered some of his colleagues a very thorough castigation.

The Kona and Kaanapali election cases were petitions against the sitting members, in the former case, on the ground that the majority on which the member was elected, had been created by voters imported from other districts, and in the other case, that the successful candidate's majority was secured by a batch of voters in the district being shut off from the polls. Both members retained their seats.

The change of Ministry was consummated suddenly, the members of the new Cabinet taking their seats on the morning of the 1st of July.

The Molokai and Lanai investigations were enquiries into charges made by the lepers of Molokai against Minister Gibson, as President of the Board of Health, and by certain voters on Lanai against him as proprietor of the lands, in the former case that the wants of the lepers were not properly attended to, and in the latter, that coercion had been used by Mr. Gibson's agents to influence the votes of his tenants at last election. Beyond the airing of petitioners' grievances in the House, nothing came of either enquiry, except the adoption of a resolution that there was no evidence to implicate the Minister in the Lanai irregularities.

DEBATES IN THE HOUSE OF REPRESENTATIVES.

Every visitor to Washington, of course, goes to hear a debate. In the House of Representatives he will be lucky if he hears anything at all. The hall is very large; its acoustic properties seem to be almost as bad as those of our Houses at Westminster, and the hubbub of conversation is incessant and unrestrained. I have seen a member leave his seat and come down to the open space by the Speaker's chair, where a select audience, standing, gathered round him. The perpetual rapping of the President's hammer serves only to increase the din. Without the voice of a Senator nobody can take part in what is ironically called a deliberation. On passing to the Senate you find yourself in a different atmosphere. But the interest in the debates in both Chambers is greatly diminished by the fact that the really important work is done behind the scenes in committee and caucus. The average of the speaking is, I should say, decidedly higher than in our Parliament, and it is no longer in the "spread-eagle" and "high-falutin'" style. Americans, though singularly impatient of criticism, are also singularly quick in profiting by it. But of the American speakers that I have heard hardly one, I think, has been free from a grave defect, attributable perhaps partly to college training in elocution. You all feel that they are speaking for effect; whereas, when you are listening to Mr. John Bright you feel that his single object is to communicate and impress his convictions. The fault was most conspicuous in Everett, whose language and delivery were perfect; his delivery, indeed, was too perfect, for he gesticulated not only with his arms, but with his legs. It was supposed that he even played little stage tricks to enhance the effect. Once, it was said, when he entered the hall to deliver a Fourth of July oration, a veteran soldier respectfully rose from his seat. "Sit down, venerable man," cried Everett in his most impressive tone; "it is for me to rise in your." "Why, sir," replied the simple-minded veteran, "you told me I was to stand up when you came in." [Goldwin Smith, in Macmillan's Magazine.

"Please, ma'am, I wish to give you a month's notice, ma'am."

"Why so, Mary Ann?" "Well, ma'am, not that I want to say anything against you, but since you've put that billiard-table up, ma'am, I don't call it a respectable house."

Miss Philadelphia: "And so you enjoyed your tour in Europe?" Miss Boston: "Oh, indescribably."

"Did you see the aqueducts in Rome?" "Yes, and they swam beautifully." "Swam! What swam?"

"The aqua ducks, of course."

A fashionable Journal says:—"Bows on chairs have had their day." Probably so; but beaux on chairs are still having their nights.

Mauve is a favorite color in England, and was selected by the Princess of Wales for the costume she wore at the state ball.

A young woman of Woodstock, Canada, crossing a field heard a distant crack of a rifle, and then felt a slight blow on her back. Investigation showed that a rifle bullet had cut her dress as cleanly as a razor, and had just grazed her corset.

LOCAL & GENERAL NEWS.

THE PLANTERS' Monthly for August is out.

THE front of Mr. J. F. Colburn's hay and grain store is being built of pressed brick.

MR. L. J. Levey will sell 100 large bales of hay at auction, at 12 o'clock noon to-morrow.

THE Cameo cigarette at the Beaver has been favorably reported upon by connoisseurs.

THE S. S. Marara, from the Colonies for San Francisco, will be due here to-morrow.

MR. Aginton, the famous skater, will make his first appearance at the Yosemite Skating Rink this evening.

THERE will be a matinee at the Skating Rink to-morrow afternoon, when Mr. Aginton will exhibit his agility.

OF 32 canary birds Captain Phillips took from Hongkong on the Allie Rowe but 10 of them lived to reach Honolulu.

EVERY member of the Hawaiian Tribe of Redmen is expected to be at the Knights of Pythias' Hall, at 7:30 this evening.

THERE is a rumor afloat that a Syndicate, composed of the moneyed Chinese of Honolulu, will be formed for the purpose of purchasing the Steam Laundry.

MR. N. S. Sachs, proprietor of the Popular Millinery House, Fort Street, will flash upon the community to-morrow afternoon with an interesting announcement.

AT King Bros. Art Gallery, Hotel street, may be seen a large crayon picture of Hon. J. A. Cummins, taken from a photograph, by the Michigan Portrait Co.

ONE of the Myrtle crew harpooned a squid, near the Immigrant landing, Kakaako, yesterday. The slimy, all-legs wiggling fish changed colors several times while dying.

THE foundations of the pillars that support the upper floor of Messrs. Wilder & Co.'s building having decayed, which has caused a settling of the upper story, stone rests are now being placed under the pillars.

THE schooner Mary Foster went aground on the Waikiki side of the passage, while entering the harbor, last evening. Her sails were lowered, and boats put out to tow her off, which they ultimately succeed in doing.

AFTER disposing of a drunk and hearing a nolle proes, the Police Court this morning took up the Ryan-Garlone assault and battery case. Our reporter found three pages of evidence booked at noon, at which time the court was taking a recess. The hearing was continued in the afternoon.

THE item in yesterday's issue referring to the departure of the Seventh Day Adventists, was not intended to convey the impression

that every adherent of that persuasion was leaving the country, but that Messrs. Scott and La Rie, the leaders, are going. These gentlemen are much respected in this community for their uprightness of character and gentlemanly bearing, even by those who do not accord with their teachings. They expect to return to Honolulu at the close of the California Conference.

THE BARK CALIFORNIA.

The American bark California, which arrived yesterday, 26 days from Port Townsend, W. T., has ploughed the waves for the past 38 years. She was built in Jersey City in the year 1848, for the original Pacific Mail Steamship Co. and the United States Government, for the mail service between San Francisco and Panama. Her dimensions are, length 225 feet, beam 31 feet, and depth of hold 20 feet, while she has register of 795 tons. Her bottom is put together closely and solidly with timber of time oak. Her hull is of Oregon cedar. About 10 years ago she was purchased by Mr. N. Bisher, of San Francisco, who placed her on the dry dock and gave her a thorough overhauling from stem to stern at the cost of \$45,000.

THE LEGISLATURE.

The "Summary" matter published in this issue compels the omission of yesterday afternoon's and this morning's legislative reports, both of which will appear in full to-morrow. Yesterday afternoon the House came to a vote on the resolution introduced by Mr. Dole at the morning session relative to unauthorized borrowing by the previous Government. The Government were supported by 21, and opposed by 16, the four Ministers voting with the majority. Two bills, one relating to the seizure of spirituous liquors and the other providing for measurement of vessels upon registry at the Custom House, passed third reading. The bill to amend a session law of 1884, relating to street railroads, was read a second time. The bill to subsidize the Oceanic Steamship Company was discussed on the second reading, the House adjourning without coming to a vote. There was no business of importance transacted this morning.

HAWAIIAN HOTEL COMPLIMENTARY CONCERT.

Last night, the occasion being a complimentary Band concert to H. R. Armstrong, Esq., the Hawaiian Hotel premises presented a gay and animated scene. The front of the building was both illuminated and beautified by Japanese lanterns. Light was furnished to the grounds and roadways by torches. The Hotel guests and visitors sat on the balconies, occupied seats on the front lawn, and promenaded the walks. The Band, which was stationed in the rotunda near the main building, played and sang an appreciated programme, ending with God save the Queen and Hawaii Pono. In addition to the guest of the evening, H. R. Armstrong, Esq., His Majesty the King, Princess Liluokalani, Governor Dominis, foreign representatives, prominent Government officials, and many of the elite of the city were present, evidently enjoying the calm atmosphere, friendly intercourse, and the music of the Band.

BUSINESS ITEMS.

DRINK Val Blatz Beer—bottled expressly for this climate.

ARTISTS' Materials, Plaques, Panels Stretches, Canvases, etc., at King Bros' Art store. 11 6t.

For fine Ice Cream, Cakes and Candies, go to the reliable Elite Ice Cream Parlors, 85 Hotel street. Their Ice Cream is recognized as the best in town by all connoisseurs. 9t

KAPIOLANI BATH HOUSE!

Kapiolani Bath House!

If cleanliness is next to godliness, go to the above named resort, near the Marine Railway, where you can get the best appetizer in the world—fresh air and salt water bathing and boating. Refreshments and coal drinks upstairs. 16

THE undersigned respectfully informs Heads of families, Restaurants and Private parties that he sells his now universally acknowledged superior Ice Cream, for which the demand has doubled in the short space of time of 1 month, cheaper than what adulterated compounds of so called Ice Cream is sold for.

F. HORN.

Practical Confectioner, Pastry cook and Ornamentor. 13

THE finest, most delicious and richest steam made Ice Cream, for its purity and genuineness, I herewith publicly guarantee can only be found in Honolulu, at the Pioneer Steam Confectionery, Bakery and Comfortable Cool Ice Cream Room, Hotel, between Nuuanu and Fort streets, Mutual and Bell Telephone No. 74.

WAR DECLARED AT THE TEMPLE OF FASHION!

S. Cohn & Co. have determined to fight opposition and great preparations are made in regard to reducing prices of the entire stock of Clothing, Gents' Furnishing Goods, Boots and Shoes, Dry Goods, Fancy Goods, etc., etc. The great fight will commence on the first day of September. Goods

will be sold at such prices as will convince the trade, more especially some of the upstart retail shops, of the absurdity of cutting down living prices, and we mean to "fight it out on this line" until the trade, or rather those upstart retail shops come to realize that the best way of conducting business is on a solid legitimate basis. We will cut and split prices of every article above mentioned. In fact no reasonable offer will be refused. This is NO HUMBUG. We mean what we say, and intend to act up to it. Lookout for the 1st of September.

S. COHN & CO.

PATRONIZE HOME INDUSTRY by buying cigars of J. W. Hingley, Cigar Manufacturer, at the Crystal Soda Works, where he is prepared to fill all orders at the lowest possible wholesale prices. Island orders solicited and promptly filled. The attention of dealers is respectfully invited to the fact "no license is required" to sell these cigars. Do not forget the name J. W. Hingley, nor the place Crystal Soda Works, Hotel street. 66 ly

FOR RENT.

That very desirable Cottage on Kikau street, property of Mr. J. F. Smith, and adjoining the residence of W. R. Castle, Esq. One of the most suitable houses in town for two single gentlemen or small family. Everything in tip-top order. Ample accommodations for two horses and carriage. Apply to the Hawaiian Carriage Manufg Co's office. [405 1m

SPECIAL.

THE undersigned respectfully calls the attention of the Ladies of Honolulu to the new and superb stock of Goods which has just come to hand from Europe and the United States, comprising the following articles:—

A splendid line of Linen Lawn dress patterns in 12 yard lengths. These goods will be found on inspection to be the choicest in this market and at such prices as will suit the times.

White dress fabrics in Plaid and striped, Nanook, checked, Cambric, plain Nanook white Pique Victoria Lawns, &c.

A choice selection of Plaid Bunting in evening shades.

Black and colored French Cashmere in all the leading shades.

Volcano of Kilauea

The new and staunch

Steamer W. C. Hall

Leaves Honolulu at 10 o'clock A.M. on

FRIDAY, September 3rd.

The steamer passes along the entire coast of the leeward side of Hawaii, affording tourists a panorama of charming scenery, and will stop at Kilauea, Kilauea Bay, where sufficient time is allowed to visit the Monument of Captain Cook.

Tourists by this route reach Punaluu at 5 o'clock on the day after leaving Honolulu, being only one night on the vessel, making the entire passage in smooth water. At Punaluu there is the

FINEST HOTEL ON HAWAII,

and from there tourists will be conveyed by railroad to Pahia, thence by stage coach to Half-way House, where horses and guides will be in attendance to convey them to the Volcano.

Tourists will have two nights and one whole day at the Volcano House.

Tickets for the round trip, \$50, which includes all expenses.

Apply to HARRY ARMISTEAD, Agent, at Williams' Photograph Gallery, Fort street, or at the office of the I. & S. N. Co., Esplanade. [30 6m

FRIDAY, AUGUST 27, 1886.

HONOLULU HARBOR AND WHARVES.

Increased harbor and wharf accommodations is among the requirements of Honolulu. Every cent of the money voted for this purpose the other day—\$40,000 for dredging the harbor and \$40,000 for new wharves and repairs—can be at once used to supply deficiencies. Indeed, a very much larger amount might be advantageously expended for deepening and enlarging the harbor, and for building and extending wharves. Our own steamers and sailing vessels are steadily growing in numbers, creating the necessity for a proportionate growth of wharfage space for their accommodation. And the probability is—we might say, certainly—that in the near future foreign shipping will use this port to an extent hitherto unknown. It is only saying what has been said a thousand times, and what everybody admits, to say that the completion of the Panama canal will effect great changes in the shipping routes of the world, and that Honolulu, because of its geographical position, must necessarily become an important port of call. That the canal will ultimately be completed, and probably within a few years, there is good ground of hope. The government of this country would be wise in preparing for the event, by enlarging the harbor and increasing the wharves, to the full extent of its means. Even leaving the Panama canal out of calculation altogether, there is a promising future for the port of Honolulu. The growing trade of North-western America, Australasia, and the innumerable islands of the Pacific will steadily continue to bring this port into prominence and importance. We shall be benefited in proportion to the conveniences we are prepared to furnish the shipping engaged in the trade referred to. It is a question if the reclaiming of land at the city front, which has been going on for years, was a wise step. Time may prove that dredging was the proper thing to have done—increased of water rather than increase of land. Be that as it may, no time should be lost in deepening the harbor that remains in parts where needed.

A PUBLIC LOAN.

We cannot say, with the *Gazette*, that "we object and have always objected to a loan being contracted with anyone." Within moderate limits and for purposes of internal development, we are and always have been favorable to a loan. A man in business may sometimes acquire wealth by the aid of borrowed capital that he could never hope to attain without it. He may also borrow too largely, or use injudiciously borrowed money, and ruin both himself and the lender. What is true in these respects of individuals is also true of governments. The trouble with this country is, not that it has borrowed too much, but that the borrowed money has been injudiciously expended. The proof of this latter proposition lies in the fact that there is no equivalent to be seen for the amount borrowed and expended. Any practical business man, with a true perception of the country's needs, and invested with authority to follow his own judgment, could have placed the million dollars, more or less, where the country at large would have been adequately benefited, and the increase of revenue would have met the interest on the money expended almost from the start. In our opinion, borrowed money should be used only for internal development and improvement, and on reproductive public works. Roads, bridges, wharves, jetties, etc., come under this head. Moreover, we are of opinion that a couple or three millions of borrowed money could be advantageously employed in works of this nature on these islands, and properly placed, the public income would be so augmented that the payment of interest and repayment of principal would be no intolerable burden.

BANANAS IN SAILING VESSELS.

This morning's *Advertiser* asks, in reference to the petition praying that lowering of freight on bananas between here and San Francisco be made a condition of any subsidy to steamers, "has it ever occurred to the petitioners and their friends to think what would become of the banana business if the steamers in question were withdrawn, and the carrying trade to the coast was again left to sailing vessels?" This question seems to imply that the *Advertiser* is not informed respecting the banana trade previous to the establishment of regular steam

communication with the Coast. At one time bananas were exported in sailing vessels only, and since steamers have been regularly running, and until quite recently, they have been sent to the Coast in considerable quantities by sailing vessels. True, the banana business has been considerably expanded by the steamers, but the expansion has been too rapid and too large, so that the trade has become unprofitable, and many cultivators are discontinuing the production of bananas. Here a few months ago three or four bunches of good fruit could be purchased for the amount of freight on one bunch to the Coast. Banana cultivation at such prices is not only unprofitable, but leads straight in the direction of the insolvency court. There has been no money in banana raising for a long period past, and unless prices go up or freights come down many now engaged in that line of cultivation contemplate turning their attention to something else. When the planters sent their produce to San Francisco in sailing vessels the supply was not so great, and prices were consequently better. There was money in bananas in those days, and some cultivators made little fortunes, ceasing to plant when planting became a losing venture. To be sure, it is not so safe to export bananas by sailing vessels as by steamers, because the former are longer going, and uncertain as to the time they will require. But if the fruit is cut at a certain stage of development, carefully handled, and properly taken care of on board, it will arrive over in good condition after being eighteen or twenty days on the water. So let it not be imagined that the banana business is entirely dependent on steamers.—[Aug. 20th.]

HANDS OFF.

Mr. Kaubane said in the House yesterday that "it is only of late years that we have heard in this country of Government candidates, or Ministerial candidates," and expressed the opinion that "it would be much better if the Ministry left the elections alone, allowing the people to vote as they please." Everybody who has been sufficiently long in the country knows the above statement of fact to be correct, and many people agree with the expression of opinion. Our political system, in so far as it relates to the so-called responsible Ministers, is somewhat unique, in some respects differing from every other constitutional system of which we have any knowledge. A Ministry here stands or falls solely by the Sovereign's favor, without regard to public sentiment. Neither the written constitution nor established custom requires it to be otherwise. Neither the people nor their representatives in the legislature assembled possess any constitutional power, real or nominal, to dismiss or appoint a cabinet. Then, why should the Ministry in any way interfere with the election of the people's representatives? The Ministers are not necessarily chosen from either branch of the legislative body, and as a matter of fact seldom are so chosen. Of the present cabinet, one minister only is either a noble or representative. Its predecessor was similarly constituted; and seldom has it been otherwise. If ministries here were composed of members of the legislature, as, for instance, in England, we could see reason for their campaigning at elections; but as they are not so composed, we are decidedly of opinion that they should keep their hands off and let elections alone.—[Aug. 25th.]

A FACT WORTH RECORDING.

A gentleman from Honolulu who was in San Francisco during the encampment of the Grand Army of the Republic says that he did not see, in public or private, one intoxicated man wearing the badge of the G. A. R. Considering that there were about 16,000 men in line, and that the period of observation extended over several days, this is a remarkable fact worthy of mention. The veterans of the war that assembled in such numbers in the great golden city of the West, gave evidence that they were gentlemen as well as soldiers.

EDITORIAL NOTES.

A contemporary intimates that the trip round this island is becoming popular. If the roads were put in the state that they might be—by the expenditure of some of the money now wasted in fuss, feathers, and fetichism—the tour of Oahu would become a joy to our own

people and the delight of strangers within the coral gates.

An exchange says: "Swearing is wholly unknown in Japan. The worst word a Japanese ever applies to a man whom he dislikes is 'beast.' This is not likely to be true very long after some of the Japanese laborers in Hawaii return home. The Japanese are swift learners and as susceptible, therefore, to vulgar and vicious influences as any race equally smart. There is probably as much coarse swearing to the square inch in Honolulu as anywhere in the world."

THE BASEBALL MATCH.

There was a pretty fair gathering at the Makiki recreation grounds on Saturday last, on the occasion of the match between the Honolulu and the Hawaii clubs. Only a two-thirds game was played, six innings being more than enough for the audience and a healthful sufficiency for the players. It was not expected that the Hawaii would win, but few, probably, expected to see it beaten by 20 runs. Something less than a million errors were credited to the losing club, and a good many to the winning one. The Honolulu team was: Wodehouse, Out, Whitney, Moore, Thurston, Low, Castle, Parker and G. Wilder. The Hawaii: Kaia, Rosa, Fredenburg, Kahala, David, Bright, Knaukai, Desha and Morton. For the Honolulu Wodehouse scored in the 1st, 5th and 6th innings; Out, the same; Whitney, 1st, 3rd and 6th; Moore, 2nd, 3rd, 5th and 6th; Thurston, the same; Low, 1st, 3rd, 5th and 6th; Castle, 1st, 5th and 6th; Parker, 1st and 5th; Wilder, 3rd and 6th, being put out between bases 1st, 4th and 5th. For the Hawaii Kaia scored in the 1st; Jos. Rosa, 1st and 2nd, being left on bases 3rd and 5th; Fredenburg, 1st and 2nd; Bright, 3rd; Desha, 2nd and 3rd. This was Rosa's first game in the Hawaii's first, and he proved a valuable accession, making his base every time he took the bat and running like a deer. Good for the BULLETIN type! Following is the score by innings:—

Honolulu	6	2	5	0	7	8
Hawaii	3	3	2	0	0	0

Mr. Chas. Wilder acted as umpire, making very equitable decisions, and Mr. J. Winter, captain of the Benedict club, kept the score with a sharp lookout on the points of the game.—[Aug. 16th.]

A BOLD ROBBERY.

Yesterday between 10 o'clock A. M. and 4:45 P. M., the residence of Mr. Daniel Logan, of this paper, at Palama was burglariously entered, and a variety of articles carried off. The premises adjoin the Reformatory School lot, the rear of the buildings being within about two feet of the fence. The family were absent during the hours specified above. The house was entered by a side window on the mauka side. The upper sash had been down to the first catch. The burglar climbing up the side, evidently reached over the sash, loosened the catch inside and got the window open. The rooms were all ransacked, the back door opened, and the stolen goods carried out by it. The thieves left a trail of small articles, dropped on the ground, from the back door to the school fence. The top of one of the fence pickets was found newly broken off. The indications were that the burglars had come and gone over the school fence. The principal articles taken are a suit of men's clothes, a number of coats and other articles of wearing apparel, a medium sized valise, a silver watch with gold plated chain. The value of the articles missing is about \$75. The matter was at once placed in the hands of the police, for investigation.—[Aug. 18th.]

THE WAIKALEALE.

The Inter Island Steam Navigation Co.'s new steamer Waiakaleale, named after a peak on Kauai, arrived this morning 104 days from San Francisco. She came in command of Capt. Godfrey, who reports light winds and calms all the way. The Waiakaleale is schooner-rig and something similar in appearance to the steamer Bishop. She is docked at the foot of Fort street and was visited by many people during the day. Her hurricane deck, which is wide and free, contains the pilot house and rooms for the captain, first and second mates, and the purser. These rooms are cool and comfortable, though void of gorgeousness. The main deck contains four double state-rooms, two on the starboard and two on the port side, for passengers. Adjoining the state-rooms and near the center of the ship, is the saloon, a very cool room, of ample size, and connected with the pantry. At the after end of the main deck are the toilet rooms. There is no cabin below, as the other steamers have. The Waiakaleale has large deck room, big hatch-ways, and good-size freight capacity. She is about 130 feet long, 35 feet in width, 8 feet depth of hold, and is 255 tons American measurement. Her average speed is 8 knots per hour, with a consumption of 3 tons of coal per day. The greatest distance made in one day while on her way here from San Francisco was 225 miles, the least 190 miles. She behaves handsomely when under sail or steam, and

though chiefly intended for a freight boat, she can nicely accommodate several cabin and many steerage passengers. Her engines were made by Messrs. Hinkley, Spiers and Hayes, Fulton Iron Works, San Francisco, and are about 280 horse power. Her engine room is something splendid. It is spacious and has its levers, gauges, and tools arranged in a handy way. The Waiakaleale brought a quantity of assorted merchandise for the I. I. S. N. Co. She will sail for Kauai next week, on the steamer Iwani's route, while the last named vessel lays up to receive new tubes in her boiler. There will necessarily be some changes among the officers of the Inter-Island steamers, but they are not yet known.—[Aug. 18th.]

WELCOME RAIN.

Rain began, in gentle showers, at an early hour last evening, and continued through the night. It has also been showering, more or less, most of the day, somewhat retarding building operations on the many new structures in the course of erection. Rain was badly needed, and its advent is therefore welcomed. Cattle down country have been suffering for lack of grass, and vegetation in general is in a languishing condition. The rain will produce a covering of green in a day or two, and all nature will smile. Although we have not had enough yet.—[August 19th.]

HONOLULU RIFLES.

The Honolulu Rifles, in response to an order from H. F. Hebbard, First Lieutenant commanding, assembled at the old armory last evening in good force. After gathering all the company's traps, and placing them in a baggage express, the members formed line. Three rousing cheers, with a tiger, were then given for William Williams, of Williamsburg, and the old armory. Having shouldered arms and formed the line of march, Mr. W. King drummed the Rifles to the new armory, formerly the Central Park skating rink, where they were introduced to their new captain, Mr. V. V. Ashford. The captain elect, without stiffness or formality, made a spontaneous speech expressing his admiration for military discipline while in the ranks. He further said that no military organization could become a success without discipline. After briefly alluding to the past, present and future actions of the Rifles, and expressing his interest in the company's welfare, he thanked them for the honor they had conferred upon him, by electing him Captain. Shortly after the company was dismissed to allow the member to put their accoutrements in order.—[Aug. 19th.]

FROM THE VOLCANO.

Messrs. Wilder & Co. have received from Mr. C. S. Wight, who is on a visit to the volcano, the following interesting letter: "Last night at about 11 o'clock we noticed a large bright glow through the rain, indicating the greatest activity in the crater. We started immediately after breakfast to investigate. On our way, as we neared the crater, we found that hot air and sulphur fumes were issuing from cracks previously cool, and upon closer approach we were hardly able to proceed, on account of the great quantity of sulphur fumes that came up from cracks under our feet. Several large cracks opened during the night, and others that were only an inch or two wide are now nearly a foot. Upon reaching the point of observation, where seats have been made out of sheets of lava, we found that a new lake had broken out. It is about 600 feet long by 300 wide, and during our stay it was continually in the greatest activity, boiling and surging like a huge cauldron."

A little to the right a new blow hole has broken out. This also is very active, putting like the exhaust from a huge engine. At times it shoots up solid streams of lava, a foot in diameter and 30 feet high. And again the whole top would break off, and it will vomit forth a stream of white hot lava several feet in diameter.

A large cave in has occurred on this side of Halemauau. The guide went below and secured some fine coin specimens for us. He was very nearly caught by a stream of lava that broke out to one side of him. Although he was nearly a hundred yards away when it commenced to flow, it was so large and ran so quickly, that for a few minutes we were afraid that it would surround him before he could get away. The guide informed us that he has seldom seen it so active, even previous to the falling in of Halemauau.

Hot air and sulphur fumes are coming in great and increasing quantities from the cracks in the floor of the old crater, to the northward of Halemauau, and there is every indication of intense action there in the near future.

There was an earthquake at 11 this morning.

Volcano House, Aug. 17, 1886, 2 P. M.

SOME temporary changes are to be made in the O. S. S. line. Mr. W. G. Irwin, who has received but meagre intelligence of the contemplated changes, can give no further information than that the S. S. Australia will, on her next trip, go through to the Colonies; that the Zealandia, and probably one of the other steamers, will lay up for repairs.

A BOARD OF UNDERWRITERS.

The fire insurance agents of Honolulu held a meeting this morning at the office of Mr. Jaeger. The formation of a Board of Fire Underwriters which has been mooted for some six months, came to a focus. Mr. Schaefer was elected President, Mr. G. W. Macfarlane Vice-President, and Mr. C. O. Berger, Secretary and Treasurer. A constitution and by-laws which had been carefully drawn up were adopted. The object of the Board is to promote harmony among the insurance agents, and to establish just and equitable rates on all property insured. A list of rates will shortly be prepared and printed.—[Aug. 20th.]

THE BANANA BUSINESS.

EDITOR BULLETIN:—Please oblige by giving insertion to the following facts relating to the banana trade, as an offset to the insinuations of to-day's *P. C. Advertiser*:—

When the Suez was running freight came down to 40 or 50 cents per bunch, and continued after the Mariposa and Alameda commenced running, until Spreckels bought off the P. M. steamers, when they went up to 75 cents.

But by the competition and low freights exporters paid as high as \$1 per bunch, here and caused such a stimulus to the business, that double quantities were planted; but by the time they were ready for shipment Spreckels & Co. had everything their own way. Freights were raised; accommodation was fearfully bad.

Fruit was ruined by bad usage—one particular thing the narrator saw while the passenger to San Francisco last year. The sailors were allowed to run over the fruit, stow ropes thereon, paint their flag-staff thereon, and no cover on bananas, but every step taken ruined so much fruit.

Last year nearly every steamer carried over 3,000 bunches bananas. This year about 2,000. BANANA.—[Aug. 20th.]

GEO. W. DE LONG POST, C. A. R., OF HONOLULU, IN SAN FRANCISCO.

Mr. R. W. Laine returned by the steamer Australia this morning, and speaks in raptures of the treatment accorded to him by the people at the Coast, and not only to him, as the representative of Geo. W. De Long Post, but to all the G. A. R. boys, their families, "cousins and their aunts." Everything that willing hands and overflowing hearts could do was done, and the 20th National Encampment of the G. A. R. will long be remembered as the best thing on earth! The gavel sent by the Post here to the commander-in-chief, was presented to him by Department Commander W. R. Smedburg in his happiest manner, and accepted by Comrade Burdett in a few well chosen remarks, in which he complimented Hawaii and the Hawaiian flag which Commander Laine took with him was carried in the grand procession by Comrade W. E. Smith, and was accorded the post of honor with Lincoln Post, and at a meeting subsequently was donated to Lincoln Post by Commander Laine, from Geo. W. De Long Post, and in accepting it the commander paid a high compliment to the Post and the comrades of the "advanced picket guard of the G. A. R.," and it was accorded the post of honor in the hall. This was the first time the flag of Hawaii was seen in the streets of San Francisco, and was received with cheers all along the line.—[Aug. 23rd.]

THE BASEBALL MATCH.

LAST OF THE SEASON.

The last baseball match of the Honolulu League for the season of 1886 was played on Saturday afternoon. There was a goodly assemblage of spectators, and Mr. Hart was on hand, as usual, with ice cream and cooling drinks. A miserable match was played. It was twice interrupted by brisk showers, and there was a lackadaisical air about the play of the losing club, which threw a haze of gloom over the diamond. The Benedict received as had a beating as the Hawaii on the previous Saturday. Honolulu had its old team, with one or two exceptions, Morton, of the Hawaii, playing instead of Markham, off on his honeymoon. The teams were: Honolulu—Wodehouse, Out, Whitney, Moore, Thurston, Low, Castle, Parker and Morton; Benedict—Chas. Wilder, Lishman, J. Winter, Chan, Wilder, Lyons, F. Winter, Booth, Spencer and Wall. The match collapsed with the sixth inning, when Honolulu, which was not whitewashed at all, had 18 runs; and the Benedict, whitewashed four times, had 4.

Honolulu went first to bat, and Wodehouse, Out, Moore, with a three-base hit, and Thurston scored. In the second inning, Morton, Wodehouse and Whitney scored; third, Castle; fourth, Wodehouse, Out, Moore with a two-base hit, and Thurston; fifth, Wodehouse and Out; sixth, Thurston, Castle, Parker and Morton.

For the Benedict, J. Winter made the first run, in the fourth inning; and Spencer, Chas. Wilder and Lishman scored in the fifth. F. Winter took Wall's place as pitcher in the fifth inning, somewhat to the embarrassment of the Honolulu before they caught on to his style; but whatever advantage was gained by this swapping of horses in the stream was lost in the new pitcher's

erroneous throwing to bases. The Honolulu should not have scored so heavily, had the fielding of their opponents been at all prompt and precise.

Mr. Henry Kaia umpired the game very judiciously, and Mr. Gardner Wilder kept the score.

The following summary of the season shows the number of games won and lost by each of the league clubs:

	WON.	LOST.
Honolulu	10	1
Hawaii	5	8
Benedict	3	9

—[Aug. 23rd.]

THE SAILORS' HOME.

The Sailors' Home Society held a meeting this forenoon. The action hitherto taken by the trustees was approved. Arrangements with the Government are not yet perfected, but it seems to be pretty fully settled that the old building is to be removed, the government taking half the land now held by the Society on Bethel street, while the society will retain the other half, and erect on it a smaller, but more substantial structure.—[Aug. 25th.]

A SAD CASE.

When the schooner Dora Blumh was last here a man by the name of Miller shipped on her as a cook. He drew \$50 advance which was to maintain his wife and baby during his absence. On the night before the sailing of the Dora Blumh the \$50 were stolen from Mr. Miller's clothes, at the house where he lived on Emma street, leaving the family penniless. He was averse to going away and leaving his wife and child with no visible means of support; but he was arrested and taken aboard ship and there confined until the vessel got under way. Miller, before leaving his family, took what photographs they had, also all the jewelry and other valuables. It seems that Miller was lost overboard on the second night out, and was seen no more. The sad news reached the almost frantic wife by the last mail. Mr. Miller was an American, about 30 years old, and is spoken of as a strictly temperate, steady, and upright man.

Mrs. Miller is a German, 23 years of age, and has a baby three months old. She is living with a German family on Fort street, next to the Chinese Church, receiving her room and breakfast from them gratuitously, while Mr. Walters, of the Royal Saloon, provides her with an evening meal. Mrs. Damon visited the bereaved woman the other day, supplied some clothing for herself and child, and was rewarded with the unfortunate woman's gratitude. Mrs. Miller who is yet destitute of money and many necessities, has placed her sad case before Mr. Glade, German Consul, who will send her to San Francisco by the Australia next Wednesday.

If Mrs. Miller is able to procure a few dollars, she will go to San Luis Obispo, California, where she has an uncle, and where she will be properly cared for. If any of the charitable disposed ladies of Honolulu would kindly take this case in hand, they would have the gratification of relieving the needy, and doing God service.—[Aug. 26th.]

LOCAL DIARY.

WEDNESDAY, August 18th.

CAPTAIN Phillips, of the Allie Rowe, has promised to bring about 40 canary birds from Hongkong, for friends here.

THURSDAY, August 19th.

Mr. Kekoa was absent from the Legislature to-day, and his chair was turned upside down.

A YOUNG married man of this city, who is well known to the business community, is one of the lucky ticket holders in a late Louisiana lottery.

THE weather report this morning was as follows: Waimanalo, squally; Mokuia, squally; Ewa, raining; Waimanalo, raining; Heeia, showery; Halemano mountains, raining hard.

FRIDAY, August 20th.

By the Hall—strong trades in the channel—nothing fresh from the Volcano.

At Macfarlane & Co.'s Kaahumanu street store there can be seen a live curiosity, in the form of a seal that waddles about, and grunts at the least exertion.

MESSRS. Egan & Co. are opening a new store, Mechanics Bazaar, at the corner of Fort and Merchant streets. Their formal announcement will appear to-morrow.

KAIWILAHIA mill has stopped grinding for the season. The new cane, being well watered with frequent showers, is looking splendid, and is so abundant that it will keep the mill in operation the whole year, at the next grinding.

HORIZONTAL bars and rings are to be put up in the Rifles' new armory, for the boys to exercise themselves with. Mr. Alex. Robertson will present the company with a set of boxing gloves, and it is likely that a set of chess pieces will be presented to the organization. The armory is being fitted up by degrees, and as it will be open every evening, except Sundays, it is likely to become a pleasant resort for the members.

SATURDAY, August 21st.

THE Post Office at Waiohinu, Hawaii, together with the storehouse adjoining, belonging to Mr. C. Meinerke, were burnt to the ground last Sunday. Hardly anything was saved.

Mrs. Savage, while standing on a table to hang a bird cage, the other night, missed her step and fell to the floor. Although no bones were broken, she received a nasty shock,

which confined her to her bed for a day.

KOOLAU NOTES.—Plenty of rain in some parts, and where such is the case, rice crop looks well. Hamula needs rain, rice plant dying there for want of water. The loss will be considerable if the drought continues. Cook's well-boring machine is in operation at Kahuku.

A HORSE drawing an old fashioned break on Fort street this morning, stumbled when in front of Lucas's mill. The occupants of the vehicle (2 natives) were thrown out, one striking the ground on the right of the horse and the other on the left. One of the natives fell on his right leg, breaking it just above the ankle. Parties who witnessed the accident picked up the injured man, and, after binding his fractured limb, placed him in a carriage to be taken home.

MONDAY, Aug. 23rd.

MR. A. W. Richardson, after passing an examination, and thereupon proving himself qualified for the position of Consular Clerk, received his appointment as such from President Cleveland by the Australia this morning.

ONE of the passengers by the steamer, this morning, from the coast, is Mr. R. J. Agington of Boston, Mass., one of the ablest roller-skaters in America. Mr. Agington's exploits on the skates are very highly spoken of by United States papers. Honoluluans who fancy skating may have a chance of witnessing the gentleman's skill.

THE proprietors of the Elite ice-cream saloon will probably be formed into a stock company. Mr. Hart, manager, speaks of having the establishment divided into 600 shares, of \$10 each, and circulating the stock among the young men of this city, so that they might induce to purchase their smoking material at the Elite, and thus enable the company to declare dividends.

TUESDAY, August 24th.

MESSRS. C. R. Bishop & Co. received \$50,000 in U. S. gold by the steamer yesterday.

THE foundation of Mr. Mendonca's new brick building, near the corner of Nuuanu and Hotel streets, is being laid.

CAPTAIN Freeman of the steamer Iwani, will take the steamer Waiakaleale on her maiden trip to Kauai this evening.

MR. P. C. Jones' bookkeeping class at the Y. M. C. A. Hall now numbers 23 members, about one half of whom are native Hawaiians.

CAPTAIN Bates, of the steamer W. G. Hall, took command of the steamer Iwani on her trip to Maui and Hawaii, this morning.

CAPTAIN Nye has resigned the captaincy of the steamer C. K. Bishop and has been succeeded by Mr. Chan, lately chief officer of the W. G. Hall.

AN oyster-eating contest took place at a Makiki residence last night between two well-known young men of Honolulu. They consumed 2 tins (six dozen) between them, one winning by 16 oysters.

THE sailing of the barkentine Livingstone for Hongkong, was postponed until this afternoon. She took 176 Chinese stevedore passengers, besides some old iron and copper, valued at \$95.00.

PRESIDENT Merritt, of Oahu College, returned by the Australia. He was very successful in the object of his visit to the Coast, having secured four, first-class teachers for the Collegiate Department, and for the Preparatory School.

QUONG Sam Kee & Co. having called for tenders to erect three two-story brick buildings on the corner of King and Maunakea streets, received the following bids: Lishman \$13,500, Lucas \$12,285, Harrison Bros. \$11,998, Mayhew \$11,216, Cavanagh \$10,903, and Lincoln \$10,700. The contract has not yet been awarded.

WEDNESDAY, August 25th.

THE Hawaiian brig Allie Rowe, Captain Phillips, 60 days from Hongkong, is anchored off port with 25 Chinese passengers on board.

THE following officers have been elected for the coming year by the Olowalu Sugar Company: W. G. Irwin, President; H. B. Macfarlane, Vice-President; W. M. Giffard, Treasurer; C. O. Berger, Secretary and Auditor.

THERE are two maps posted up at Messrs. Out, Jr. & Co.'s door, one representing Great Britain and Ireland, and showing how much of the country favors home rule, and the other representing the world, and conveying an idea of the extensiveness of the British empire.

THURSDAY, August 26th.

MR. Gardner Wilder will shortly leave for California, to complete his study of law.

THE seventh-day Adventists will shortly depart from this coral strand for California, partly because of the conference to be held in that State in September next, and partly because of the smallness of this field of labor.

MR. Harry Dennison, Third Assistant Engineer of S. S. Australia, was arrested at 8 o'clock last night, with 5 tins of opium in his possession. He was caught by the Custom House Guards and taken to the Station House. Bail fixed at \$1,000. Case to come up on Saturday.

Election of Officers.

AT the annual meeting of the Halawa Sugar Company, held August 23, 1886, the following officers were elected for the ensuing year:

John H. Paty	President
Peter C. Jones	Treasurer
Joseph O. Carter	Secretary
George J. Ross	Auditor
Directors—Thos. R. Foster and Jas. A. Hopper.	
J. O. CARTER,	Secretary Halawa Sugar Co.

Honolulu, Aug. 23, 1886. [12 1m]
