

IT DEPENDS ON WHAT HE DOES.

A GOOD ENOUGH GOVERNOR WHEN SIGNING EXPENSE BILLS.

STON  
S UPHELD  
empt Case  
to Pieces  
Easily.  
REYS'  
BAD BLUNDER  
How to Put the  
in Proper Legal  
Form.

Presar filed a decision  
in the case of the  
A. Thurston for a writ  
discharging the pe-  
rson on the ground  
that on the record to  
had committed any of-  
fense of or sentenced  
committed any offense.  
Bumpheys probably in-  
tend to fine and imprison  
for contempt of court;  
but say so. Neither the  
court nor the mittimus  
show "contempt," nor do  
the offense is, for which  
is prescribed. The sen-  
tence void, as the court  
find or imprison any  
principles, but only in  
of a specific offense of  
been specifically found  
sentence being illegal,  
decision to consider the  
made in Mr. Thurston's  
that the question which  
was a privileged  
the Grand Jury asking  
was illegally drawn.  
extension in full is as

tion of the Territory  
chambers.  
Habeas Corpus.  
June 12,  
C. J.  
being refused as a  
question put  
the Circuit  
Court, was ordered  
to appear and show cause  
why he should not be  
required to answer  
the questions asked, namely,  
whether he was a client of his.  
He was privileged from that  
ground that to do  
violation of his confiden-  
tiality to his client.  
which is set forth in the  
proceedings at the  
court and the said L. A.  
and there by the  
court directed to appear be-  
fore the court and answer  
the questions asked, and the  
said L. A. appeared there in open court  
and was adjudged that  
he was not a client of his  
and he is hereby  
ordered and adjudged  
to be imprisoned until he  
express his willingness  
to answer the said Grand Jury  
and the questions aforesaid,  
under the name of his alleged  
client.  
The petitioner declined  
to answer the questions  
and the court sentenced him  
to be imprisoned. It was  
stated that the petitioner  
was contempt. A person cannot  
be imprisoned for the commis-  
sion of an offense until he  
has been found guilty of the offense.  
The court clear from the evi-  
dence in the case tried before  
a defendant has committed  
an offense, but the court cannot  
find him guilty until the jury  
has found him guilty. The court  
cannot find him guilty until the  
jury has found him guilty. A  
contempt of court is a crime  
and the petitioner is a criminal  
and no one can be imprisoned  
until after he has been found  
guilty of an offense. The mittimus  
in the case of the petitioner  
was a contempt of court and  
the petitioner was convicted  
of an offense.  
June 12, 1892, the  
court and remain there until he  
answers to the court or ap-  
pears before the Grand Jury, or  
until the court has found him  
guilty. On habeas cor-  
pus, the court of the  
Territory, the following lan-  
guage was used: "The court  
finds that the petitioner is  
imprisoned by a party un-  
lawfully, and that the court  
is a mere nullity. The  
court shall be passed against  
the petitioner. The petitioner  
shall be released from this  
imprisonment. The court  
will be seen from this  
case." (Page 2)

IN JAIL FOR  
THEIR TREASON

Five Former British Officers Had  
Dealings With the  
Boers.

LONDON, June 6.—The Chronicle re-  
lates that five ex-officers and 100  
men are in English jails for traitorous  
dealings with the Boers. Most of them  
were convicted for allowing arms and  
ammunition to reach the burghers. The  
officers belonged to the auxiliary forces.  
They were at first ordered to be shot,  
but Earl Roberts commuted their sen-  
tences to penal servitude for life, and  
the men's offense was altered to be-  
ing asleep on post. There have been  
such cases since, according to the  
Chronicle, and General Kitcheners has  
had the delinquents shot, returning  
them as having died from enteric fever.  
CAPE TOWN, June 5.—The garrison  
of Jamestown, Cape Colony, which sur-  
rendered to Kriksinger's command,  
June 2d, numbered sixty men in all.  
Kriksinger's force is estimated to have  
totalled 1,000 men. The British killed  
twelve and wounded fifteen Boers be-  
fore they were overpowered by num-  
bers.  
ALIWAL NORTH, June 4.—Colonel  
White's column came in contact with  
Kriksinger's command northeast of  
Jamestown, June 3d, drove the Boers  
back, capturing fifty horses and mun-  
itions and recovered the stores looted  
from Jamestown.

DISMISSED FOR HAZING.  
A California Naval Cadet Goes to  
Coventry.

WASHINGTON, June 5.—Following  
the example set at West Point, the su-  
perintendent of the Naval Academy  
has caused a cadet to be dismissed for  
hazing. In this case, however, that of  
Calvin Joy Creassey of the fourth class,  
of California, the accused was tried by  
court-martial and regularly convicted.  
The statement in the case, made pub-  
lic by the Navy Department, is as fol-  
lows: "The court-martial before which  
Naval Cadet Calvin Joy Creassey,  
fourth class, was tried June 3d, con-  
vened by the superintendent of the  
Naval Academy, pursuant to the au-  
thority vested in him by the act of Con-  
gress approved June 23, 1875, having  
found the specification of the charge  
preferred against him proved, and that  
he was guilty of the charge, 'violation  
of the act of Congress approved on the  
23d day of June, 1875, to prevent hazing  
at the Naval Academy,' and said court  
having recommended that he be dis-

THE BAD POLICY  
OF THE ALLIES

Chaffee Says Delay in Evacuating  
Peking Has Been  
Serious.

NEW YORK, June 5.—A cable to the  
Sun from Manila says: General Adna  
R. Chaffee, who arrived today, had a  
few words to say on the Chinese situ-  
ation. He said: "The Chinese earnestly  
desire to resume the government, but  
the question of guarantees for indemn-  
ity is a serious one, which will re-  
quire much time, patience and forbear-  
ance to settle. Meantime lawlessness is  
spreading in Shan-si province, as no  
imperial troops are allowed there. Af-  
ter the evacuation by the allies the  
return of normal conditions will be  
gradual. Until then China will have  
no opportunity to prove her sincerity.  
It is manifestly impossible for her to  
do so before normal conditions are re-  
established."  
Chaffee said he believed the allies  
had lost all their gains by their pro-  
tracted stay. They had forfeited every  
right to reproach the Chinese by their  
persevering aggressiveness, unneces-  
sary expeditions which have inflamed  
the natives, and their insistence upon  
executions, all of which have placed  
foreigners in a more unfavorable light  
in Chinese eyes than before the Boxer  
troubles. Russia's strong influence at  
the Chinese court had been improved  
by her moderation.  
In conclusion, Chaffee said that the  
Chinese problem was not yet settled.  
He believes Russia intends to maintain  
her present influence in North China,  
but does not intend to extend it, except  
in Manchuria.

MRS. M'KINLEY BETTER.  
The President's Wife Passes Comfort-  
able Day.

WASHINGTON, June 5.—Dr. Rixey  
made his usual nightly visit to the  
White House shortly after 9 o'clock,  
and remained about an hour and a  
half. On leaving he said: "Mrs. Mc-  
Kinley is resting very comfortably  
now. She has gained a great deal this  
evening, but there is no marked  
change. She is doing very well."  
While the improvement in Mrs. Mc-  
Kinley's condition is slight, the fact  
that there had been no setback dur-  
ing the day, but, on the contrary, a  
slight gain, was gratifying to the  
White House household, and the Presi-  
dent expressed his pleasure several  
times during the evening. In view,  
however, of the gravity of the condi-  
tion of the stricken mistress of the  
White House, too much significance is  
not attached to the slight improvement  
shown. Both ups and downs have  
marked the progress of her illness, and  
it is realized that whatever gain or  
improvement is shown may prove but  
temporary.

Final Trial of the Wisconsin.  
WASHINGTON, June 5.—The Navy De-  
partment has authorized the final trial  
of the battleship Wisconsin, now on the  
Pacific station, about the 17th instant.

SEVENTY PERISHED  
IN THE GREAT FIRE

CHICAGO, June 2.—A dispatch to the  
Tribune from Oaxaca, Mexico, says: Fur-  
ther details of the great fire which raged  
on the Isthmus of Tehuantepec for sev-  
eral days have been received here. Over  
seventy people were unable to escape the  
rapid progress of the flames and were  
burned to death. The fire started on a  
coffee plantation, and owing to the dry-  
ness of the vegetation it was soon be-  
yond control and wrought great destruc-  
tion to growing crops. Many thousands  
of acres of coffee trees, bananas, orange  
trees and other tropical products were  
destroyed. Those who met death in the  
flames were all families of plantation la-  
borers, who, being unable to escape the  
fire, perished in their huts. The fire  
burned for ten days and was finally  
quenched by a heavy tropical rain.

CIVIL SERVICE IN HAWAII.  
W. A. Rodenberg En Route to These  
Islands.

William A. Rodenberg of East St.  
Louis, Ill., and now president of the  
United States Civil Service Commission,  
to which position he was appointed in  
March of this year, arrived here from  
the East yesterday and is a guest at the  
Palace. He is on his way to Honolulu  
to inaugurate civil service in the islands.  
"There are about forty Federal posi-  
tions in the islands that will have to  
come under civil service regulations,"  
Rodenberg said yesterday. "These posi-  
tions will have to be classified, and fol-  
lowing that, preliminary formality ex-  
aminations for the various positions will  
be held. To this end three examining  
boards will be established. One will be  
located at Honolulu and the other two  
will be on different islands in the group.  
I will know more about these matters  
when I get to Honolulu. Under the law  
of apportionment passed by Congress  
which requires the distribution of ap-  
pointments to departmental positions

Alexander of Serbia.  
NEW YORK, June 2.—A cable to the  
World from Paris says: Dr. Ravel,  
one of the medical lights called in  
Queen Draga's case, has just returned  
from Serbia and gives some amusing  
details concerning King Alexander's  
efforts to avoid paying full fees. He  
argued that a reduction ought to be  
made for the reason that there was no  
birth. A German doctor accepted a  
decoration in lieu of money, whereup-  
on Alexander tried to induce the other  
physicians to do likewise. The three  
Russians accepted, fearing to displease  
the Czar otherwise. But the French  
doctors insisted on the \$400 a day  
agreed upon. As most of the doctors  
attended the Queen for three weeks, it  
was a rather costly false alarm.

MAY SUE FOR DIVORCE.  
Mrs. G. M. Pullman, Jr., the Fair  
Plaintiff.

CHICAGO, June 5.—Mrs. George M.  
Pullman Jr. is going to sue for a di-  
vorce from her husband. It is under-  
stood that the papers have already  
been prepared and are now in the  
hands of Mrs. Pullman's attorney. In  
the bill prepared, it is said, the young  
wife has preferred serious charges  
against her husband. They were mar-  
ried in Long Branch in 1897.  
With the wife of Frederick V. Bow-  
ers, the musical composer and author  
of "Because," George made a meteoric  
trip to New York. In that city they  
lived at the Hotel Girard. Bowers  
sued his wife for divorce and Pullman  
for \$100,000. After the divorce was  
granted Pullman married Mrs. Bowers.  
Lieut. Neall Arrested.  
BUTTE, Mont., June 2.—John M. Neall,  
the one time petted and popular Jack  
Neall, stationed at the Presidio, San  
Francisco, who figured in a sensational  
scandal in relation to the funds of the  
Presidio Post Exchange about three years  
ago, has been arrested in Butte by De-  
puty United States Marshal Melkeljohn  
on the charge of forgery. Neall has been  
employed as an engineer of the Anacon-  
da Company for about a year, having se-  
cured the position at the solicitation of  
his friend, John W. Mackay. The officers  
refused to divulge the nature of the  
crime charged and Neall declares he is  
innocent.

NEWS OF WORLD  
CONDENSED

Smallpox is spreading in California.  
A \$50,000 store fire occurred in Kansas  
City.  
A son of Jim Hill has married in New  
York.  
The Bismarck monument at Berlin was  
unveiled on June 6.  
The Spanish Liberals were victorious in  
the recent elections.  
It is reported that France intends to  
annex Hainan next month.  
The Duke and Duchess of York will  
spend two days in Victoria, B. C.  
Senator McLaurin of South Carolina  
may resign before Congress meets.  
Healer Dowie announces that he is the  
Prophet Elijah returned to the earth.  
Senator Bard of California had a bad  
fall by being thrown from his buggy.  
The Prix du Jockey Club of \$27,500 for  
3-year-olds was won at Paris by Saxon.  
A family at Berkeley, Cal., were evic-  
ted from their home by a swarm of bees.  
Armour Institute is to be completely  
reorganized and enlarged by Dr. Gun-  
saulus.  
Rev. J. M. Potts, a well-known writer  
of Alabama on the Bible and Holy Land,  
is dead.  
A. B. Spreckels has resigned as a mem-  
ber of the California State Board of Ag-  
riculture.  
Land in Butte has begun sliding again,  
five large cracks appearing in the earth,  
causing much alarm.  
English employers and workmen have  
been urged to visit the United States  
and study American trade methods.  
The scarcity of platinum is causing  
much alarm. It now sells for twice as  
much as gold and the supply is very lim-  
ited.  
J. C. Stubbs of the Southern Pacific de-  
clines that he will leave that road to be-  
come a commissioner of transcontinental  
roads.  
The Spanish military attaches at the  
various embassies and legations abroad  
have been withdrawn for reasons of  
economy.  
The milk supply of the United States  
will be the first subject considered in  
the scientific researches of Rockefeller  
Institute.  
Thunderstorms in Europe have caused  
much damage. The Ursuline Convent at  
Bosphorus on the Rhine was demolish-  
ed and three women killed.  
Governor Gage of California has of-  
fered a reward of \$1,000 for the conviction  
of the leader and \$400 for each of the  
other participants in the Modoc lynch-  
ing.  
The Spanish Government has dismiss-  
ed the Prefect of Corunna, where serious  
riots have occurred, and the torpedo boat  
destroyer Audaz has arrived to maintain  
order.  
Prof. J. O. Snyder of Stanford married  
Miss Frances Arle Hamilton of Alame-  
da. Prof. Snyder has been closely asso-  
ciated with Dr. Jordan in his work of  
classifying fishes.  
Richard C. McCormick, Territorial Gov-  
ernor of Arizona from 1895 to 1899, As-  
sistant Secretary of the Treasury in 1877-78,  
Congressman from New York, is dead.  
His wife was a daughter of the late Sen-  
ator Thurman.

## THE SPIANS WON'T COME

Neither Neills Nor  
Henry Miller  
To Play.

LILLIPUTIANS  
ARE ALSO SHY

Looks as if Honolulu Would Have  
to Rely on Its Home  
Talent.

After the departure of the Lilefords the dramatic outlook for Honolulu is a dreary one for some time. Not only is the Neill engagement practically annulled, but the last mail brought the news that the Henry Miller company would positively not play Honolulu, being booked for the whole of the season and this summer for Mainland dates. Companies claim that Honoluluans are too exacting, wanting twelve new plays in a four weeks' season and only turning out three nights a week. Salaries have to be paid by the week and the receipts after all expenses and waste time are taken into consideration do not present a margin of profit that justifies the trip. It seems that Honolulu must be, perforce, content to take such passing companies as may stop over here merely to suit their own convenience.

Even the plans of these latter "gang aglax." Ryley, who was due to arrive about next week, with a vaudeville combination en route to the Philippines, has not been heard from by the local managers who signed contracts with him, and the Lilliputians seem also to have determined to stay in Australia for an indefinite period. It is therefore up to the local boat clubs and others to provide amusements. A local dramatic club should prove a success in this town, and it is a matter of surprise that one has not been regularly inaugurated. There is plenty of talent here and as that is needed is an impressario of sufficient talent and energy.

## UNITED STATES NAVAL MODELS

The remarkable activity being displayed by the various powers in the line of making extensive additions to their navies is one of the most ominous signs of the times.

At the present time Great Britain is building four first-class battleships, three first-class armored cruisers and two sloops of war. Since the commencement of last year she has launched thirteen new vessels and is now contemplating building a number of submarine boats, and about twenty-five other vessels of war. Russia is building no less than twenty-one new ships, of which two are first-class battleships and four armored cruisers. She has also ten torpedo boat destroyers ordered. Russia has launched during the past year no less than three first-class battleships, two of which, the Retvizan and Variaz, were built in this country.

Five first-class battleships are being built by Germany, two cruisers, an armored cruiser and a number of torpedo boat destroyers. France has laid down a 12,000-ton armored cruiser, after having launched three already during the year, as well as a number of torpedo boat destroyers and submarine boats.

While these remarkable additions have been made to the navies of Europe it is satisfactory to know that the United States has at the present time no less than fifty new ships in course of construction which when completed will, it is estimated, give us one of the most efficient navies in the world. Five of these new vessels are to be first-class battleships, the Maine, Missouri and Illinois being built respectively by Cramps, the Newport News Shipbuilding Company and the Union Iron Works.

Six armored cruisers are included in the program. Three of these twin-screw cruisers are to be sheathed, and will constitute a most formidable part of our Navy. The cruisers will be named respectively the Nebraska, California, Maryland, Colorado, West Virginia and South Dakota. The displacement of the sheathed vessels will be 13,000 tons and that of the unsheathed cruisers 13,400.

In speaking these new battleships and cruisers, ex-Chief Naval Constructor, Rear Admiral Philip Hichborn, says: "It can be stated with complete assurance that the designs embody in an unusually well developed degree all the elements of seaworthiness, offensive and defensive power, speed and coal endurance and that in all essentials they are superior to all previous designs of similar character produced in this or any other country."

The battery carried by these vessels is unquestionably the heaviest battery afloat. The arrangement of it is such as to give a powerful bow, stern and broadside fire. For the 12-inch and 8-inch guns the American system of mounting in turrets has been adhered to.

Special provision will be made for insulating magazines by air spaces, and also for cooling them by direct connections with the refrigerating plant.

The battery will consist of four 12-inch B. L. R., 40 calibers in length, eight 8-inch B. L. R., 45 calibers in length, and twelve 6-inch B. L. R., 60 calibers in length. The secondary battery will consist of twelve 3-inch B. L. R. (14-pounders), twelve 3-pounders, four 1-pounders (single shot), four 1-pounders (single shot), two 3-inch field guns, two machine guns, six 0.30 calibre automatic guns, and two submerged torpedo tubes.

The four 12-inch guns are mounted in pairs, on the middle line of the vessel, in electrically controlled, balanced, elliptical turrets, having an arc of fire of 270 degrees. Of the 8-inch guns of the Pennsylvania class, four will be mounted in pairs in two elliptical turrets superposed on, and rigidly connected to the 12-inch turrets, and four in pairs in two electrically controlled elliptical, balanced turrets, with inclined port plates, one on each beam and with an arc of fire of 180 degrees. The eight 8-inch guns of the Virginia class will be mounted in pairs in four electrically controlled elliptical, balanced turrets, with inclined port plates,

one on each beam near the forward end of the superstructure, and one on each beam near the after end of the superstructure—the guns so mounted to train through an arc of 115 degrees. The twelve 6-inch guns will be mounted in broadside on the gun deck, six on each side, and will have an arc of fire of 110 degrees.

There will be ample provision for supplying ammunition to the guns, the chains of supply being so distributed that there will be a complete round of powder and projectiles delivered by each 12-inch turret hoist every 90 seconds, one complete round of powder and projectiles by each 8-inch turret hoist every 50 seconds, and supply of ammunition for the 6-inch guns sufficient to provide three complete rounds per minute for each gun. The rate of supply of ammunition for the 14-pounders will be six rounds per minute for each gun. There will be two submerged torpedo tubes located in one compartment.

The armored cruisers, six in number, will have a length of 502 feet, beam 60 feet 6 inches, and a trial displacement of 13,400 tons on 24 feet 6 inches draught, the coal bunker capacity being 2,000 tons.

The armored cruisers outlined in the accompanying plans are identical in dimensions, interior arrangements and batteries, the only variation being that three are sheathed with wood and coppered and three are unsheathed. They are designed for a speed of at least 22 knots and will have a very large radius of action.

The armament will be mounted as follows: Four 8-inch guns, in pairs, in two electrically controlled, elliptical, balanced turrets, having inclined port plates, one forward and one aft, on the line of the keel, and having an arc of fire of 270 degrees. On the upper deck, at the corners of the superstructure, four 6-inch guns will be mounted, one at each corner, each having an arc of fire of not less than 115 degrees. On the main or gun deck ten 6-inch guns in broadside will be mounted, five on each side, having an arc of fire of not less than 110 degrees; that is, 55 degrees forward of and abaft the beam, except the forward pair, which are to be sponsored and will fire directly ahead. The secondary battery will be mounted in the most commanding positions, having as large an arc of fire as possible; the automatic 1-pounders to be mounted in the lower military tops, and two single-shot 1-pounders in each upper military top.

Suitable means will be provided for a rapid and efficient supply of ammunition for all the guns of the main and secondary batteries. The rate at which ammunition will be supplied to the 8-inch turret hoists is one complete round of powder and projectile to each hoist every fifty seconds. The rate of supply of ammunition for the 6-inch guns will be three complete rounds per minute to each gun. The rate of supply of ammunition for the 14-pounder guns will be six rounds per minute to each gun. The rate of supply of ammunition for the 3-pounder and 1-pounder guns will be ten rounds per minute to each gun.

The protected cruisers will have a length of 424 feet, beam 66 feet, and a trial displacement of about 9,700 tons on 23 feet 6 inches draft, the coal bunker capacity being 1,500 tons.

On the main deck will be mounted six 6-inch guns on pedestal mounts, with shields. Two of these guns will be mounted on the middle line of the vessel, one forward and one aft, each having an arc of fire of not less than 270 degrees. The other four 6-inch guns on the main deck will be mounted in sponsons at the corners of the superstructure.

On the gun deck, eight 6-inch guns will be mounted, four on each broadside, in a central casemate, the forward and after pairs being in sponsons directly under the 6-inch guns at the corners of the superstructure on the deck above.

Twelve 14-pounders will be mounted on the gun deck, three forward and three aft on each side. Six 14-pounder guns will be mounted within the superstructure, three on each side. The twelve 3-pounder semi-automatic guns will be mounted on the superstructure deck. In the lower military tops the four heavy 1-pounder automatic guns will be mounted, two on each mast. In the upper military tops four heavy 1-pounder, rapid-fire guns will be mounted on the gun deck, two forward and two aft. Arrangements will be made whereby all the guns which do not train fore and aft, or nearly so, can be quickly and conveniently dismounted, housed and secured, so as to leave the ship's side practically clear.

There will be a sufficient number of electric power hoists direct from the magazines to the battery decks to furnish an ample supply of ammunition to all the guns of the main and secondary batteries; also suitable means for supplying the guns in the tops. The rate of supply of ammunition for the 6-inch guns will be not less than six complete rounds to each gun per minute. The rate of supply of ammunition for the 14-pounder guns will be not less than 15 rounds to each gun per minute. The rate of supply of ammunition for the 3-pounder guns will be not less than 30 rounds to each gun per minute, and for the 1-pounder rapid-fire guns not less than 30 rounds to each gun per minute, while for the 1-pounder automatic guns the supply will be not less than 100 rounds to each gun per minute.

## BOARD OF EDUCATION.

### A Routine Meeting Held Yesterday Forenoon.

The Board of Education held a meeting yesterday forenoon at which all the members, with the exception of Mr. Von Holt, were present. Routine business was mainly transacted, consisting of transfers of teachers, and a consideration of applications for positions in the schools.

Sarah E. Greene was transferred from Kaula to the Kaahumanu school. The change will take effect in September.

A leave of one month's absence was granted to Miss Alice Smith, principal of Waianae school. The furlough will begin on September 1.

The board approved Superintendent Atkinson's granting a leave of absence to Miss Helen Robertson, of Kaula school, on account of sickness.

H. S. Townsend's resignation as principal of Kaahumanu school, was accepted, to take effect at the close of the present term. Mr. Townsend leaves shortly for Manila, where he will engage in educational work.

M. F. Scott, school agent in North Kona, reported the completion of an addition to the Hualaia schoolhouse. He recommended the appointment of Miss Lillian Claypool as an assistant in this school. No action taken.

A life certificate was voted for E. W. Estep, who has been in the service of the schools for a decade with a general average of 90 per cent.

The Normal School summer term of eight weeks commences July 8. Examinations for teachers' certificates will be held during the term.

The resignation of J. C. Lenhart, principal of the Kalawa school, in North Kona, was accepted, as he intends leaving soon for the Philippines to teach the Filipinos. He has been connected with the Kalawa school for five years.

Jack—Don't you think that woman, as a rule, prefers a man who is her master?

Ethel—Not at all. She prefers one who thinks he is.—Tit-Bits.

## SCIENCE AND NATURE.

The snakes and wild beasts of India kill thousands of human beings and cattle every year, but in 1899 the number of deaths was larger than usual, due, perhaps, to the floods of that year, which drove the snakes to the higher lands, where the homesteads are. The official reports show that 24,621 people died of snake-bite, and 2,966 from attacks by wild beasts. During the same year upward of 98,000 cattle were killed, 89,238 by wild beasts and the rest by snakes.

## HE WILL USE KITES.

Among the adventurous explorers now planning an expedition in search of the hard-to-reach North Pole is Captain Bernier, of Quebec, who will take with him strong kites fitted with cameras, by which, even if he fails to get near the Pole, he purposes to take photographs of such points as he cannot reach. The success that has attended the use of the camera by the aid of kites at great heights leads him to believe that the method may be practicable in the Arctic regions.

Tonic for impaired health. Spruance, Stanley & Co's (San Francisco) "Kentucky Favorite" whisky, unsurpassed for medicinal purposes.

## ONE GRAND REMEDY

There are many remedies, and few cures, for loss of muscular strength; for those weaknesses which deprive the body of its strength. There is one grand and effective remedy when it is applied right—that is Electricity. It will cure when given to the body in the right way. That explains it.

## DR. McLAUGHLIN'S ELECTRIC BELT

This grand, never-failing appliance pours its vital energized parts in a steady, gentle stream, so that the electric current comes a part of the anatomy, never to leave it. I have seen of application, the result of twenty years of study, and cure after every similar appliance fails. Try it. The Electric Belt is the one that does not burn nor blister, and is a powerful current through soft, cushion electrodes, and having a regulator.

## FREE BOOK

Let me show you what it is and how done. Write for an illustrated 80-page book, giving full information, also upon which I will advise you free if my Belt will cure you.

## AMERICANS HONORED

### The Banquet to the New York Men.

LONDON, June 5.—The banquet tendered by the London Chamber of Commerce to the delegates of the New York Chamber of Commerce at Grocers' Hall tonight was one of the handsomest affairs of the kind ever given in a city famed for lavish hospitality. No effort was spared to honor the American guests; but it must be confessed that the latter did not sustain the reputation America has for brilliant dinner speaking. Nor did the British speakers do much to relieve the tedium of four hours' speaking. All the speeches, however, teemed with extreme friendliness and faith in the establishment of permanent friendly relations. All the speakers expressed the belief that Great Britain and the United States would rule the destinies of the world, and their unwritten alliance would always work for peace and the benefit of mankind.

Lord Brassey presided. On his right was Mr. Choate and on his left Lord Lansdowne, Morris K. Jessup, Andrew Carnegie, Cornelius N. Bliss, Lord Alverstone (Lord Chief Justice of England), Clement A. Griscom, George G. Ward, Lord Strathcona and Mount Royal, Levi P. Morton, Lord Avebury (president of the Associated Chambers of Commerce) and J. Pierpont Morgan were among those seated at the table of honor. In all nearly 300 were present. In welcoming the guests Lord Brassey, who made the first speech, said: "We welcome them as the representatives of the skill and enterprise which have turned the vast resources of the American continent to the service of mankind. We are largely sharers in these benefits. Our teeming millions could not live without the food America produces and the raw material for our industries. America teaches us lessons not only in the creation, but in the liberal distribution of wealth."

Mr. Jessup, president of the New York Chamber of Commerce, replying to the address of welcome, spoke in part as follows: "It is said that kind words are the music of the world. For the gracious and kindly words with which you have made us welcome, and for the generous warmth of our reception, manifested in every eye and felt in the clasp of every hand, it is my privilege to express the thanks of the New York Chamber of Commerce, and especially of my associates here present as your guests at this memorable banquet."

Mr. Jessup then reviewed the founding of the New York Chamber of Commerce, and said: "We do not forget how you instilled into our minds habits of industry, thrift and fair dealing, so that now, in the dawn of the twentieth century, we are able to state with some pride that the business relations between the two countries amount to the astounding sum of \$900,000,000 yearly."

"We are of the same race, the same blood, the same language and traditions, we have the same religion, civilization and laws, and we need the same Bible. No, sir, we can only be rivals in the effort each may put forth, actuated by the same desires, to carry to the ends of the earth the blessings of our civil and religious liberty. To this end we will work hand in hand, shoulder to shoulder, heart beating with heart, and not resting satisfied until the remotest ends of the earth shall feel the effects of our unselfish purposes and desires, and all the world be in touch with us."

Mr. Jessup was followed by Lord Avebury, A. Foster Higgins and A. Barton Hepburn. Mr. Hepburn aroused interest by an intimation that the United States was entering upon the stage of tariff relaxation. "Over two years ago," observed Mr. Hepburn, "President McKinley, in a speech at Boston, said: 'We are not talking about tariff now, and in his recent trip across the continent he made no allusion to the tariff, but greatly emphasized the necessity of cultivating outside markets; and the chairman of the Republican campaign committee has announced that the tariff will be taken from all the so-called trust commodities, and our ability to produce has so largely outgrown our capacity to consume that the 'open door' is rapidly becoming the shibboleth of America.'"

Lord Alverstone paid an eloquent tribute to the United States. Mr. Carnegie, who had the best reception of the evening, then rose. He dwelt upon the importance of the growing friendly relations between the two countries and continued as follows: "The horoscope of the future shows that common dangers are likely to draw us closer and closer, and if ever the banners here entwined together have to be unfurled side by side in self-defense against any foe or combination of foes who may undertake to disturb the peace I pity that enemy."

Embassador Choate made a brief speech. Referring to the debt Great Britain owed to the New York Chamber of Commerce at the time the Venezuelan difficulty arose Lord Brassey said he desired to mark Great Britain's deep sense of the service rendered. "To no other nation," he continued, "are we drawn as we are to our kinsmen across the Atlantic. The wisely directed friendship of our two peoples—not as yet, and perhaps never to be, cemented by formal alliance—should be a potent influence. Working together for the common good of all mankind, we may keep open the door for trade, we may spread civilization, we may protect the oppressed, and we may establish peace among the nations."

There was a murmur of expectancy as Lord Lansdowne, the Foreign Secretary, rose to toast President McKinley. "I imagine," he said, "that this honorable duty has been assigned to me because I am connected with the Department of Foreign Affairs, and because it may be that a toast, coming from my lips, may seem to denote something more than a mere private expression of admiration and good will. I think I may say that to all subjects of his majesty it requires an effort to think of our relations with the United States as foreign relations. (Prolonged cheers.)

"All these, who, like myself, are servants of the public, feel that they hold

an unwritten commission that no pains shall be spared to maintain the most friendly relations. With regard to President McKinley we think of the great office he fills, and, in addition to his public cares, we remember the burden of private anxiety he has to bear, and it is the prayer of our whole country that his wife may be restored to health, and that he may continue to be to the whole world a potent influence for the good of the human race."

### BARONESS VON KETTELER

American Widow Honored by the Kaiser.

BERLIN, June 5.—Emperor William's reception today of Baroness von Ketteler, who was accompanied by her mother-in-law, was most kind. His Majesty listened with interest to the recital of the widow's sorrowful experiences during the siege of Peking, and also to her account of Baron von Ketteler's death. The Empress, who was present at the audience, often interrupted with questions, evincing the highest regard for the widow's courage and subsequent nursing of the sick and wounded. Her Majesty, at the Emperor's request, placed the insignia of the highest class of the Louise order on the widow's breast.

In the evening the two baronesses dined with the Emperor and Empress. The baronesses are the guests of Emperor William. They will dine tomorrow probably with the Duchess of Albany, and may return to the Ketteler estates, near Munster, Westphalia, the next day. A watering place. The widow has not yet recovered from the attack of nervous prostration from which she has been suffering. Both ladies arrived at Potsdam without anybody, even the officials of the United States Embassy, being informed of their visit. Emperor William's invitation to the two baronesses was contained in an autograph letter couched in the most sympathetic language.

The widow was formerly Miss Maude Ledyard of Detroit, Mich.

### CHINESE WILL RESUME.

Gradual Restoration of Their Control at Peking.

PEKING, June 2.—At a meeting of the generals of the allied troops today it was decided to transfer the administration of the city of Peking to the Chinese officials gradually during June.

Count von Waldersee, accompanied by his staff, will leave Peking tomorrow. Two special trains will run all the week, taking troops to Taku. The Germans are removing an extraordinary quantity of baggage, including Chinese carts, tables and chairs. The Baluchi Regiment left this morning amid impressive ceremonies and farewells. All the other British troops, with their bands, and every American officer in Peking was present, the Americans being particularly anxious to show their appreciation of the manner in which the British bade farewell to the American troops.

### SALVATION ARMY.

General Booth and Son May be Reconciled.

CLEVELAND, Ohio, June 2.—After five years of rivalry between leaders of great religious movements, the famous breach between General William Booth, founder and head of the Salvation Army of the world, and his son, Ballington Booth, head of the Volunteers of America, is to be healed. I. D. Hazard, financial secretary of the colonization and settlement department of the Salvation Army of America, announces that negotiations are being carried on with a view to effecting a reconciliation between General Booth and his son. He adds his belief that the breach between father and son will be healed.

### Actor Hearne Dead.

NEW YORK, June 2.—James A. Hearne, the well-known actor and playwright, died at his home in this city this afternoon of acute bronchitis and pneumonia, after an illness of eight weeks. Hearne was taken ill in Chicago while playing in "Sag Harbor," a play of his own composition. He came at once to his home, took to his bed and never arose. It had been supposed for some days that he was improving, but Saturday night there was a change for the worse, which resulted fatally. At his bedside when he passed away were Mrs. Hearne, his three daughters and his five-year-old son. Hearne had a beautiful home in this city, and was accounted wealthy. The body will be cremated. It has not yet been decided when the funeral will be held.

### Chinese Tea Shipments.

TACOMA, Wash., June 2.—Oriental advices arriving today indicate that Chinese tea shipments will be shorter this year than for several years past. The crop is fair, but owing to disturbed conditions, a large part of it will not be brought down to the sea coast. It is reported from Shanghai, Amoy and Foochow that up to this time not over half as much silver, lead and opium have been sent into the interior in payment for tea as in previous years. Steamers now leaving Chinese and Japanese ports will bring to the Pacific Coast the first of new-crop tea to be received in the United States.

### American Envoy to the Vatican.

NEW YORK, June 5.—A cable to the Sun from Vienna says: A journal here declares that the United States contemplates accrediting a representative to the Holy See in consequence of the large increase in Roman Catholic American citizens resulting from the annexation of Cuba and the Philippines. There is often delay, the paper says, under existing circumstances in diplomatic intercourse between Washington and the Vatican. It is said that the Pope is personally desirous of a resident American envoy, and that he will facilitate the latter's task.

### Irish Troops Riot.

LONDON, June 2.—A military riot occurred last night at Shorncliffe. A detachment of the Dublin Fusiliers, actuated by some imaginary grievance, wrecked their barracks rooms. The guard was called out to arrest the ringleaders and shots were fired by the Fusiliers, who met the re-enforcement guard with a volley of ball cartridges and with bayonets. Two men of the guard were seriously injured by bayonet thrusts. The riot lasted for two hours.

Rev. E. M. Stires, the recent pastor of Grace Episcopal Church, Chicago, has insured his life in favor of the church for \$100,000.

## PIONEERS OF RELIGION

The Session of the  
Hawaiian  
Clergy.

NEWS FROM HILO  
ON SATURDAY

Something About the Evangelical  
Association Whose Business  
Closes at Hilo Today.

Today and this evening the final evangelical services of a week's series of religious revival meetings will be conducted at Hilo by the Hawaiian Evangelical Association, and tomorrow Rev. Mr. Kincaid, Mr. Theo. Richards, Mr. Frank Damon, Rev. W. D. Westervelt, and other ministers and laymen who attended the annual convention, will begin their return voyage, arriving here Saturday, via the Kinai.

No reports have been received of the success of the association's plans, as there have been no steamers in since the first day of the series, but it was the intention of the ministers to arouse a great deal of enthusiasm, and to centralize the religious interest of the Island by the nightly meetings, that were to extend one week, beginning Thursday, June 6. It is expected that the delegation will bring a good report of the week's work on Saturday.

This is the first of the annual meetings that have been held outside of Honolulu, and Hilo was determined upon this year for the reason that the association wished to broaden its circle and create a new center, so that the people of the other Islands may come within closer scope.

The Hawaiian Evangelical Association has been in organization for many years, and was at first composed of only the old missionaries, when they were the sole representatives of Christian work in the Islands. As their labors began to bear fruit, however, there were many natives who became ministers, and later the association became largely a native organization. Even now the native ministers outnumber the American ministers in the association.

The delegation that attended the Hilo convention this year left on the Kinai on Tuesday, June 4, and among the delegates were Rev. W. M. Kincaid, representing Central Union Church; Mr. Frank Damon, superintendent of the Chinese work of the Islands; Rev. O. H. Gulick, superintendent of the Japanese work of Hawaii; Mr. J. Leedingham, of the North Pacific Institute, accompanied by four of his theological students; Mr. Theo. Richards, who goes as a general active worker, and who will direct his male quartet (the four theological students referred to); Miss Francis Yarrow, representing the Christian Endeavors; Rev. Mr. Westervelt, secretary of the association; Rev. Mr. Thwing, at the head of Chinese branch work, and also general superintendent of the Maui Chinese work, and Mr. Wong, pastor of the Chinese Church, who recently arrived from Canton, where he has been nine years in religious work.

Delegates from all the Islands were to attend, and among those outside the Honolulu delegation are Mr. Stephen Desha, who is pastor of the Congregational Church at Hilo, and Rev. Mr. Lydgate, of Kauai, who superintends all the work of that Island.

The religious meetings of the annual conventions have always aroused much interest and enthusiasm, and with the force of energetic religious workers that came together at Hilo, there probably was a roving series of evening services. Full reports will be brought by the ministers on Saturday, when the Kinai arrives.

### POLICE OFFICERS HAVE A TUSSELE

Japanese Gamblers Resist Arrest and One Has His Eye Put in Mourning.

While making an arrest last night of Japanese gamblers who were indulging in a game of Russian war in the back room of a Japanese store on Liliha street several of the special officers of the police department had a lively fight. One of the officers was kicked on the shins and otherwise touched up by the husky Japs, who tried to escape, but the plucky badge-wearers held on to their prisoners through thick and thin and brought them to the police station, where they were charged with gambling.

Officer Kealahia, with Apana and Ah On, made a sudden descent on the players, who numbered about forty. They were grouped about the center of attraction and did not notice the approach of the officers until Ah On made a dive into the middle of the crowd and grabbed the dice and box, as well as other adjuncts of the game. The other officers tried to head off a stampede out of the rear door. In the melee Apana was roughly used by several Japs who jumped him. He caught one around the neck, striking his heel on the officer's shin. A quick movement of Apana's arm, a sounding whack from his fist and the Japanese succumbed. Ah On had a tussle with another player, who objected to arrest, and in the mix-up received a black eye and a bruised mouth. The officers were able to catch four gamblers and bring them to the station. They were released on putting up cash bail.

Tourists and visitors should not fail to take a ride on the Pacific Heights Electric Railway. Unsurpassed view of ocean, mountain and valley, and the finest of Hawaii.

## HORSES WERE PLAYED OUT

One of Them Fell While Being Shod and Wrecked Kitchen.

The cruel overworking of weak horse-flesh by the Chinese hack-drivers was evident yesterday, after the rush of Kamehameha Day. On King street three of these hard-driven animals were seen to fall down between the shafts, completely exhausted, unable to respond with further effort to the cruel beating they received at the hands of the drivers.

On Tuesday one of the hacks, after carrying numerous loads of human freight to the race track, was seen to amble off the road into a banana patch, the driver asleep on the seat and the horse's head drooping. The vehicle came to a halt in the edge of the banana field and then both horse and driver slept until aroused by the rush of the returning caravan.

Another scene was witnessed in a roadside blacksmith shop further out on King street. Two blacksmiths were trying to shoe a worn-out old hack horse, which was apparently too weak to stand on three legs. It finally fell over, the first time towards the outer door; the second time it fell against the side of the shop and a board was broken. On being helped to its feet again the horse stood for a few moments, but at the first blow of the shoeing hammer the animal again tottered and lunged forward, this time into the small kitchen at the rear of the shop. There was a loud crashing of dishes and the horse suffered some severe cuts, while the kitchen was completely wrecked.

## WILL THERE BE AN ERUPTION?

News of a Possible Outbreak From the Kilauea Crater.

The report of an earthquake being felt at Waiohinu, Hawaii, on June 8, which appeared in yesterday's Advertiser, coupled with news brought by Captain Simerson of the steamer Mauna Loa, that smoke has been seen issuing from the crater of Kilauea, seems to point to another eruption. Captain Simerson says he watched the crater from Honuapo, about thirty-five miles distant from Kilauea, and in the three days he remained there the smoke increased in volume. Residents of Honuapo had been watching the scene, and called his attention to it upon his arrival. His last view of the volcano revealed great volumes of smoke pouring out of the crater. The inhabitants expected a flow of lava in a short time. The last eruption occurred about four years ago.

## PORTO RICANS WASHED.

The Channel Wharf Was a Big Bath House Yesterday.

The Porto Rican immigrants who arrived on the Colon on Tuesday were all treated to a disinfecting bath on the channel wharf yesterday. As there were nearly 800 of them, men, women and children, and all had to be washed and their clothes fumigated, the work occupied the greater part of the day. At 4 o'clock in the morning Jack Lucas and Dr. Charlock were on hand and the bathing commenced.

There was a compartment for the women and one for the men; when one was sent into the bathing room his or her clothes were taken, a check being given in return, and the things were fumigated. When the bather came out he was given a kimono to wear until the fumigation of his clothes had been completed.

A number of the laborers were sent to different plantations yesterday afternoon on the Island steamers. The rest will go today. After each one had had a bath and received his fumigated garments he was presented with a tag indicating his destination and was also given an order on the plantation store for \$5 worth of goods.

The Porto Ricans are for the following plantations: Olowalu, Ewa, Kilauea, Paauhau, Hakalau, Wailuku, Honoumuli, Pacific Sugar Mill, Honokaa Sugar Company, Lihue and Hutchinson.

The Colon sails this week for Port Los Angeles to bring back another load of immigrants.

HILO LITTLE HAS A KICK

Protests Against Legislative Cuts.

AMUSING LETTER TO EMMELUTH

Senate Takes Things Easy and House Wrangles Over the Appropriation Bill.

The Home Rulers were all broke up yesterday morning. Between the holiday of the day before and the gullotting of Wilcox, they were not in either the best of humor or a condition to do much legislative work. During the day several indirect references were made to the decapitation of the late secretary of the Board of Health, but only once was the matter referred to personally, when Mossman used the incident as a cudgel with which to get his fellow members into the way of thinking that a certain salary should be raised. It was thought that the day would not pass without some reference being made to the matter in an official way, but there was none. Whether the Independents are laying low, or intend to let the matter go by altogether, remains to be seen.

In the forenoon the Legislature did nothing but cut salaries on all sides. Once or twice reference was made to McKinley's advice. When the afternoon came all this was changed. The lawmakers had found some friends whose salaries they thought ought to be raised, and they raised them. There was no talk about "What will Washington say" if salaries are not cut to the lowest figure. Beckley even went so far as to suggest that a man should be paid what he was worth to the Territory.

It is thought that the Legislature will be through with the Appropriation bill in a few days.

MORNING SESSION.

The Legislature was half an hour late in meeting yesterday morning. When the business of the day was taken up, the survey department was the subject upon which reduction of salaries was based. There was quite a difference of opinion regarding the disposition of salaries and positions. Emmeluth made the first long speech of the morning, in which he stated that the survey department was not the source of information it should be. Only recently, he had gone to that department, and asked for certain data. Instead of getting them, he was forced to pay one of the employees of the office the sum of \$200, by engaging him as a private individual. The speaker said that it was an outrage to have men employed in a public department and then be forced to pay him an additional fee in order to get information that was supposed to be part and parcel of the public archives.

The speaker also suggested that there be a schedule of fees fixed, so that the public might be thereby protected from overcharges on the part of clerks and deputies.

Prendergast agreed with everything that the previous speaker had said. Dickey followed, and explained that the man who was employed to do Emmeluth's work was the meteorologist. The meteorologist works in the survey department voluntarily, and having a thorough knowledge of the Hawaiian language, he is of great assistance to the natives. The speaker then said that the gentleman under discussion was not the sort of man to overcharge anyone who had employed him. The abolishing of this department would be a great disaster to the Territory. One man could not do all the work. It would be impossible for him. Dickey concluded by stating that the Organic Act expressly states "there shall be a surveyor."

Prendergast once more took the floor, and said, "This department should be turned over to the road engineer. The survey department has been doing work of late that I very much condemn. I refer particularly to the extension of School street, that has been proposed. Instead of running it on a straight line, they have turned the road into King street, cutting through the property of private individuals, in many cases ruining the same. All this is done that the Rapid Transit Company may be benefitted."

Then Prendergast took a huge blueprint from his desk, showing the lands and the streets in question. He concluded by saying that the committee had had another and better route surveyed. The cut by this latter route was higher up, cutting through some government land. The saving to the Government by this second plan would amount to something like \$50,000.

Remarks in behalf of the survey department followed from Dickey. The surveyors received their instructions from the Department of Public Works. After some more discussing, the salary of surveyor was fixed at \$5,400. The following items were inserted in the bill: Forester, \$2,040; expert forester, \$2,040; tannal laborer, \$528; three laborers, \$1,296; office boy and messenger, \$120; wagon driver, \$528; surveyor, \$5,400.

AFTERNOON SESSION.

As soon as the House was called to order in the afternoon, the salary of

VOLCANIC UPHEAVALS HERE MAKE CALIFORNIA QUAKE

A belt of the earth lying between the twentieth and fortieth parallels of north latitude and extending completely around the globe has just experienced an extraordinary disturbance which suggests many interesting questions as to the part which earthquakes may play in the ultimate fate of our planet. California, Hawaii, Japan, China and Italy have all been more or less severely shaken, and all nearly at the same time.

Thus it appears that America, the Pacific Ocean, Asia and Europe were last week involved in a chain of earthquakes encircling the globe in the north temperate zone. Since it has been proved by means of seismographic instruments that the shocks of a great earthquake is transmitted directly through the rocky ball of the earth, the suggestion that the recent earthquakes were not isolated phenomena gains in probability.

The idea of a highway of earthquakes—a line of fractures in the crust of the globe, linking the places which have simultaneously suffered, and particularly Hawaii and California—naturally suggests itself. In this respect of the matter our new possessions in the Pacific acquire a fresh and startling interest, for these islands form one of the most powerful volcanic centers on earth. It is known that at some distance off the California coast the ocean bottom is peculiarly liable to upheavals, and it is not impossible that similar conditions prevail all the way out to Hawaii.

It is not necessary, however, to assume that a great shock originating in those islands should be transferred all the way through the bottom of the Pacific to our coasts in order to produce earthquakes in California. If similar conditions prevail in the underlying rocks a single cause affecting the crust of the earth would produce simultaneous shocks in widely separated places linked together by the invisible framework deep beneath. A violent disturbance in Hawaii might be transmitted in this way to California rocks without manifesting itself at intermediate points of the ocean bed, but running through the skeleton of the earth far below the bottom of the ocean.

And even more distant places than California may conceivably be affected by a great shock originating in the center of the Northern Pacific. The earth appears to have upon its surface many critical points—all more or less intimately associated, despite their distance apart—where internal disturbances are most frequently and violently

felt. Several of these points lie within the earthquake belt under discussion. They generally correspond in location with places where the earth's crust is heavily weighted and presumably seriously fractured.

Take, for instance, the five points where the earthquakes were felt last week. Each indicates a spot where a gigantic burden presses upon the rocky shell. The Hawaiian Islands are simply the summits of a group of enormous mountains; California marks the western edge of the broadest and most complicated portion of the Rocky Mountain uplift; the Alps of Europe border the northern side of the Mediterranean region of earthquakes; the far mightier system of the Himalayas and their related mountains; and the volcanic peaks of Japan rising on the verge of a wonderfully steep and profound furrow in the ocean's bottom, show the situation of the great earthquake centers of Asia.

One of the most important questions raised by such phenomena relates to the increase or decrease of volcanic and earthquake forces. Has the globe yet reached a point in its history where geological changes may be expected soon practically to cease, or has it yet many violent upheavals and subduences in store? Will Hawaii become in the future a greater or a lesser center of disturbance of the earth's crust?

As far as the information it furnishes goes, the moon seems to tell us that the last scene in a planet's history before the destruction of all life on its surface is a scene of extreme and fiery violence. Evidently the close of the moon's career as a planet possessing some resemblance to the earth—if it ever really had such resemblance—was marked by a grand outburst of volcanic energies which rent and shattered it from end to end, and left its surface a petrified chaos. But the telescope shows that on the moon, too, there were regions where no volcanoes sprouted, although there could hardly have been any spot on that devastated little globe where the shock of the final earthquake failed to be disastrous.

All this would appear more startlingly significant for us if the moon did not so widely differ from the earth in magnitude. On account of the earth's great comparative mass it may never become, as the moon was, the victim of its own explosive violence.

There is one fact connected with the recent earthquakes which ought not to be omitted. They occurred at, or near, a time when the moon was both in the full phase and in perigee, or at its nearest point to the earth.—Garrett P. Serviss.

In a continuous uproar. There is no statute that authorizes a Judge to make them stay and by cutting salaries you not only do injustice to those who are at work but make all the employees of the department restive and anxious to get away, and I submit to you as a citizen, as well as a Senator, that if you wish to have a case tried for yourself, you would want the best officers, the best lawyers and the best of everything to try it. You cannot gauge the business in Hilo by Kauai and Maui. I do more business in my court in one year than the Third and Second Circuits combined. I wish to impress upon you the importance of dealing with us in the matter in a business-like way. This is not a question of politics. It is a question of plain business, and I don't think the salaries of the subordinate officers of the court ought to be cut. It may be possible that some of those Honolulu fellows could stand a cut because they all get such tremendous salaries, but the idea of making the clerk of the Circuit Court which has a territory as big as all the rest combined work for \$25 a month, when Henry Smith, the smallest circuit of the group, gets \$4,000 a year, and he does one-half the work physically that Dan Porter does in Hilo in handling the business of the respective offices.

Now I am anxious that the Sheriff of Hawaii and all my other court officers be given good salaries. In cutting, I only refer to the High Sheriff and Attorney General, because both of them get too much pay. In offices like that the cut should be made, but not in subordinate offices which are usually filled by poor men financially. The Attorney General, as we all know, is not worth the salary; would be mighty dear at \$100 a month; and the High Sheriff's office ought to be abolished. It is un-American and un-Republican, but if cuts are to be made, these are the class and character of offices which should receive them.

I wish you would present my compliments to all my friends and explain to them the sentiments which I have presented herein. I have not the time to visit Honolulu and discuss this interest of ours with you in person, but I am pleading in the cause of justice and right and not in the interest of politics or of party. If I had 1,000 votes on the floor of the House and Senate chamber, I would vote them in favor of cutting the heads of departments and not the subordinate offices.

With kindest regards,  
GILBERT F. LITTLE.

The letter caused considerable merriment, but was not spread upon the minutes of the Legislature.

THE FURTHER PROCEEDINGS.

Ewaliko moved that the district judge of Hilo have an increase in salary. A few days ago it was made \$2,800. Ewaliko wished to make it \$3,000. The motion was lost.

Mossman moved that the salary of the physician at Waiakala be raised from \$560 to \$1,200. The motion was carried.

It was moved by Kaumakao that the district magistrate of Kipahulu be given a larger stipend. He was, said the Representative, the smallest paid officer in the Territory. The motion was carried.

Keliko moved that the salary of the judge of the Third Circuit Court be reduced from \$1,500 to \$600. He worked but two weeks out of each year, and the first-mentioned figures were entirely too much. Emmeluth said the brother member who suggested a reduction should be given a medal for the same. The motion was lost.

Beckley moved that the position of district magistrate be raised from the

(Continued on Page 13.)

CHARLOCK THE MAN

Temporarily Takes Chas. Wilcox's Place.

FINAL DECISION IS POSTPONED

Several Names Talked Over for the Position of Permanent Secretary of Board.

The Board of Health at its regular weekly meeting held yesterday afternoon, appointed C. Charlock, register of births and marriages, as temporary secretary of the board, to fill the vacancy caused by the discharge of Charles Wilcox. The appointment is made pending the consideration of applications for the position, the board being of the opinion that promotion should be obtained in all cases where it was possible. Mr. Charlock has for many years been an able assistant in the Board of Health office, and in various capacities has given satisfaction as a careful, conscientious and energetic worker.

The question of Wilcox's permanent successor was brought up toward the close of the meeting, and the matter was thoroughly discussed. F. C. Smith suggested the name of Mr. Charlock, as he believed in promotion by civil service rules.

Attorney-General Dole suggested the name of Harry Mossman, a former clerk in his office, and at present clerk to Deputy Sheriff Chillingworth. He stated that the young man had entered his office as a messenger, but he told the high sheriff it was a waste of good timber to keep him in a place where there was little prospect for advancement, and he was accordingly promoted to an important clerkship in the high sheriff's department. Mr. Dole recommended him as a very competent, absolutely honest and industrious man.

Dr. Sloggett proposed the name of Arthur Johnstone, whom he described as a man well known in the community, well acquainted with books, a conscientious worker and a man of science, and these attributes he believed fitted him for the position of secretary. He was a personal friend of his, but that "didn't cut any figure whatever." Dr. Sloggett in advancing the claims of Mr. Johnstone, said he did not believe any one could be gotten to fill Mr. Charlock's position if he was promoted. F. C. Smith did not believe in keeping a man at a lower salary all his life, simply because he filled the office so well that it would be difficult to find a successor. If a man was competent he should be given the benefit of the larger salary.

President Cooper read an application which lay on his desk, sent in by J. M. Riggs, brother-in-law to Judge Humphreys.

The selection of a permanent secretary will be made within the next two or three weeks. In this connection Mr. Mott-Smith announced that he was to leave for the coast, to be gone at least three weeks, and possibly longer, and he asked permission to hand in his resignation to the president of the board, to be acted upon in case of any urgent need. Otherwise the resignation will be withheld until his return. The board granted his request.

Auction Sale

BUGGIES

ON SATURDAY, JUNE 15th.

At 12 O'CLOCK NOON.

At my salesroom, 65 Queen street, I will sell at public auction a choice lot of buggies and drags. Some of them almost new.

## JAS. G. BLAINE AND HIS BRIDE, MISS MARTHA HICHBORN

The marriage of James G. Blaine, son of the late Secretary of State, and Miss Martha Hichborn, daughter of Rear Admiral Hichborn, late chief constructor of the navy, probably occurred in Washington on June 4th. There have been reports that the wedding was opposed by Admiral and Mrs. Hichborn, but this has been denied.

WAS MERELY A FAKE.

Governor Dole Has Not Resigned and Does Not Expect To

The statement published in yesterday morning's Republican that it was informed "upon the most responsible authority" that Sanford B. Dole had sent his resignation as Governor to Washington, was answered by the Executive in emphatic terms to an Advertiser reporter yesterday afternoon.

"I have not resigned, nor do I intend to," said he. "I am going to Hawaii to be absent a month or two for the benefit of my health, and, upon the recovery of my strength, will resume my duties."

In regard to the contention of the Legislature as to Mr. Cooper's right to act as Governor and as to the disability of Governor Dole, the Governor said, "My physician states that I am unable to perform the duties of Governor now, and I feel myself that I am not. I cannot attend to official work at present. My health has run down and I am going away to build it up."

Mr. Cooper was also interviewed in regard to the report, which names him as the successor recommended by Governor

Dole in his alleged resignation, and he replied: "There is absolutely no foundation for the statement, and I have not the least idea how the rumor originated." Governor and Mrs. Dole will leave for Hilo, and from there will go to the Volcano House. They are to be the guests of Mr. Eben Low, and will remain at the mountain home of Mr. Low for some weeks. Outdoor exercise and hunting is the program prescribed for the Governor, and he will give himself over entirely to rest and recreation.

A recent cablegram from Hongkong announces to the Navy Department the departure of the U. S. S. Newark from that port en route for Colombo, Ceylon. Capt. B. H. McCalla, U. S. N., remains in command, and will bring the ship to the New York navy yard. Following his return to the United States, Captain McCalla will assume command of the battleship Kearsarge, now in the New York yard undergoing repairs to her injured battery. The Newark will be given a thorough overhauling and repair before again going into commission for sea service, and will probably again go abroad, possibly as the relief of the Chicago, at present the flagship of the South Atlantic Station. Rear Admiral B. J. Cromwell, U. S. N., commanding.

How tired you look. How you long for a good rest. It's work through the day and worry through the night. Already you have nervous dyspepsia, nervous sick headache, and neuralgia. Your food distresses you. You are "all tired out," and you suffer from terrible depression.

## Ayer's Sarsaparilla

is what you need. It keeps you up when especially pressed with work. It cures dyspepsia, and it builds up exhausted nerve tissue.

Pure, rich blood, a strong digestion, a clear skin, steady and vigorous nerves; these may all be yours if you only use this great blood-purifying and blood-forming medicine.

## HOOT MONS WON GAME

Defeated Univese  
In a Cricket  
Contest.

WINNERS ARE  
A STRONG TEAM

Bob Anderson Struck a Batting  
Streak—Bowling Was Uni-  
formly Good.

The first cricket game of the season, between teams representing Scotland and The World, was played at Makiki on Kamehameha Day, the "Hoot Mons" proving victorious, as usual, by 70 runs.

The Scots went to the wickets first, and thanks mainly to an excellent contribution of 50 by Bob Anderson, compiled 114 runs. Anderson's fifty, which was obtained by dashing cricket, included one four, three threes and ten twos. Craik and Sinclair assisted their side with thirteen and fifteen runs, respectively.

The World offered but feeble resistance to the bowling of McGill, R. Anderson and Sinclair, and were all out for forty-four; Jordan and Pinala being responsible for twenty-one runs between them.

Being more than the requisite number of runs behind, The World followed on, but did not fare much better than in their first venture, having, when time was called, lost six wickets for thirty-nine runs.

The Scots won the game by their excellent fielding and bowling, the analysis of three of their trundlers, McGill, Anderson and Sinclair, reading very well indeed.

A pleasing feature of the game was the appearance of several old players who, it is to be hoped, will henceforth devote more of their leisure to cricket than has been the case so far this season.

D. W. Anderson, last year's captain, was on the field for the first time this season, and kept wicket splendidly. J. Penny, who took part in the game, is another of last year's prominent players. His visits to the Makiki ground are far and few between, on account of his duties at Ewa. He did not experience the best of batting luck on Tuesday, being foolishly run out by Jordan, when he was getting nicely set.

A new bowler was discovered in the person of D. McIntyre, who promises with practice to become formidable with the ball.

The score of Tuesday's game was as follows:

SCOTLAND.	
A. W. T. Bottomley, b. Thomas	8
R. Anderson, c. Penny, b. Pinala	50

There will be a game at Makiki on Friday afternoon, particulars of which will be announced later. There will also be a game on Saturday afternoon, commencing at 4 o'clock.

### READ IT IN HIS NEWSPAPER.

George Schaub, a well known German citizen of New Lebanon, Ohio, is a constant reader of the Dayton Volkszeitung. He knows that this paper aims to advertise only the best in its columns, and when he saw Chamberlain's Pain Balm advertised therein for lame back, he did not hesitate in buying a bottle of it for his wife, who for eight weeks had suffered with the most terrible pains in her back and could get no relief. He says: "After using the Pain Balm for a few days my wife said to me, 'I feel as though born anew,' and before using the entire contents of the bottle the unbearable pains had entirely vanished and she could again take up her household duties." He is very thankful and hopes

that all suffering likewise will hear of her wonderful recovery. This valuable liniment is for sale by Benson, Smith & Co., Ltd., wholesale agents.

### STALE BREAD ECONOMY.

A Long Island man who was showing a friend a couple of hunting dogs at his place the other day, looked up as he heard the sound of approaching wheels. "Here's the bread man," he remarked, and as his friend gazed in surprise at the open cart laden with bulging sacks, thinking it the strangest baker's outfit he had yet seen, the owner of the dogs bought a barrel of the merchant's stuff.

"It's for the dogs, you know," he explained as the wagon drove off. "Broken up and mixed with other things it makes good food for them. That man goes very well with his stale bread business. He buys the bread at a low price in the city, when it is too old to sell to customers there. But it hasn't reached the dog stage, then, by any means. He first retails it as long as he can to the Italians who work on the roads and do all the hard labor hereabouts. I believe they wash it down with beer of about the same stage of freshness. Well, when the bread gets so stale that even the Italians can't eat it, it is ready to be peddled around among the villages in the neighborhood. The farmers buy it to feed their pigs and chickens, and a good many people use it, as I do, for their dogs, so there is no loss or waste to cut down the dealer's profits."—New York Tribune.

### EVERY DAY FACTS.

Honolulu Produces Its Share—This Comes From Kawaihau.

What makes anything a fact? Isn't it an occurrence of statement that can be proven true and correct in every particular? What constitutes conclusive evidence to the mind of a Honolulu citizen? Is it the statement of some one made in Texas or California? We think not, but when some of our own people make a statement and it is indorsed by many, there can be no question about that. Under these circumstances we call them facts, and they are every-day facts, because they are occurring every day. Don't take our word for what is said. If you are not satisfied, ask them; people don't make such assertions without good reasons.

The Rev. J. Nua of Kawaihau informs us:

"I suffered from kidney trouble, which was, I believe, caused by my lifting heavy weights whilst young. Pains in the small of my back were one of the symptoms of my complaint. My trouble extends back to the time when I was 28 years of age, and as I am now 49, that is a considerable period. During all this time I was subject to pains in the back. They continued despite the fact that I consulted several physicians and took numerous remedies. No relief thus gained can be compared to the benefit obtained from using Doan's Backache Kidney Pills. I have got on wonderfully well since taking them. I am quite satisfied with the result, and shall always have some of the pills by me, even when going from Honolulu to other missionary fields in the South Pacific. There is no other remedy like Doan's Backache Kidney Pills for kidney complaints, including backache."

It is important to get the same pills which helped Mr. Nua—DOAN'S BACKACHE KIDNEY PILLS. Therefore, ask for Doan's Backache Kidney Pills.

Doan's Backache Kidney Pills are sold by all druggists and storekeepers at 50 cents per box (six boxes for \$2.50), or will be mailed on receipt of price by the Hollister Drug Co., Honolulu, wholesale agents for the Hawaiian Islands.

### A Man's Likeness

If you want a photograph that will represent you as you are, we know you'll like what we make for you. There's artistic merit in them, too.

They are mounted in the late oval style, and are just the thing.

## Steam Plow Ropes

**HAWAIIAN COMMERCIAL AND SUGAR COMPANY.**  
Sackville, Maui, March 27, 1901.  
**WILDER'S STEAMSHIP COMPANY.**  
Agents John A. Roebing's Sons Co.  
Honolulu.  
Gentlemen: Yours of March 25th re  
catalogue of ship chandlery goods has  
been received.  
We have used a number of the John  
A. Roebing's steam plow cables, and  
have found them far superior to the  
English cables and at the same time a  
great deal cheaper. In fact, we sent for  
some of these cables, and we put a new  
Roebing and a new Fuller cable on the  
same set of steam plows, one on each  
engine, of course, and that was consid-  
erably over a year ago. The American  
cable is much better than the English  
cable in every way, and today is not  
nearly as badly worn. We are perfectly  
satisfied here that the American cables  
are the best.  
We shall certainly bear in mind your  
stock of goods whenever we need any-  
thing in your line.  
Very truly,  
(Signed) W. J. LOWRIE,  
Manager.

# NEWS OF THE WATERFRONT

## Something About Each Ship in Port.

### The Olympic's Captain Congratulated on Her Run.

**CAPTAIN GIBBS**, master of the fine  
four-masted bark Olympic, was  
congratulated on every hand yester-  
day on account of the speedy trip of  
his vessel from San Francisco. As has  
been stated, the Olympic arrived here on  
Tuesday, making the run from the Coast  
in ten days.

The Olympic has of late had bad luck,  
and that she should have covered her-  
self with glory on the last trip is very  
pleasing to her commander and his  
friends. Her preceding trip here from  
the Coast was a most exciting one. She  
was partially dismasted and lost a man  
overboard in a whirlwind. The conse-  
quence was that she had a long and un-  
comfortable passage to Honolulu and a  
long wait in port here while she was be-  
ing fitted with new spars. Her return  
to the Coast after she had been repaired  
here was slow. But the Olympic has  
demonstrated what she can do when she  
has all her poles in working order. She  
is a fast sailer when she is in condition  
and she is certainly in the best of con-  
dition now. The Olympic is herself  
again.

#### Coal for the Naval Station.

Honolulu is one of the most important  
of Uncle Sam's Naval stations. There is  
already more coal stored here for the  
Navy than at any other station and there  
is a large quantity yet to come.

Two British vessels are to bring loads  
of Cardiff coal to Honolulu from Eng-  
land and two American vessels are com-  
ing with big cargoes.  
The Kinross and the Euphrates, with  
1,983 and 2,400 tons of coal respectively,  
are on their way here from England,  
and the Benjamin F. Packard and the  
Susquehanna, with 3,100 and about 1,000  
tons of coal, from the east coast and Ca-  
vite, respectively, will come here before  
long.

#### About the Ships in Port.

The bark Albert, Captain Griffiths, ar-  
riving from San Francisco on May 30,  
now at the railway wharf loading sugar  
for San Francisco, is a vessel of 624 tons,  
was built at Port Blakeley in 1890, is 182  
feet and 1 inch long, 38 feet and 3 inches  
beam and 14 feet and 6 inches deep. Her  
home port is San Francisco.

The bark Alden Besse, Captain Kiesel,  
arriving from San Francisco on the 11th  
instant, now in the stream with a gen-  
eral cargo, awaiting a berth, is a vessel  
of 842 tons, was built at Bath, Maine, in  
1871, is 164 feet and 5 inches long, 35 feet  
and 3 inches beam and 20 feet and 3  
inches deep. San Francisco is her home  
port.

The Archer, Captain Hardwick, ar-  
riving from San Francisco, her home port,  
on the 10th instant, now unloading 1,500  
tons of general merchandise at Brewer's  
wharf, is a barkentine of 845 tons, was  
built in 1876 at Sunderland, England, is  
185 feet and 2 inches long, 31 feet and 6  
inches beam and 11 feet and 1 inch deep.  
She was formerly the British bark Archer.

The Amelia, Captain Willer, arriving  
from the Sound on the 3d instant, now  
at Allen's wharf discharging 800,000 feet  
of lumber, is a barkentine of 338 tons,  
has a length of 153 feet, a beam of 37  
feet and a depth of 10 feet. She was  
built at Coos Bay, Oregon, in 1870. Her  
home port is Port Townsend.

The Ariel, Captain Slater, arriving from  
Newcastle on the 1st instant, now at the  
railway wharf discharging coal, is a  
schooner of 687 tons.

The Argus, Captain Hunter, arriving  
from Bremen on the 31st of May, now  
at the Irrigard wharf discharging a  
large cargo of general merchandise, is a  
British ship of 1,543 tons.

The Abner Coburn, Captain Murchison,  
arriving from Newcastle on the 11th of  
May, now at anchor outside of the har-  
bor, is a ship of 1,572 tons, with a length  
of 225 feet, a beam of 43 feet and 2  
inches and a depth of 18 feet and 5  
inches. She was built at Bath, Maine,  
in 1882.

The Bertie Minor, Captain Ravens, ar-  
riving from Eureka on the 6th instant,  
now at Allen's wharf discharging lum-  
ber, is a schooner of 230 tons, is 130 feet  
and 3 inches in length, 32 feet and 5  
inches beam and 9 feet and 8 inches in  
depth. She was built at Fairhaven, Cal.,  
in 1884.

The Battle Abbey, Captain Mechie, ar-  
riving from Newcastle on the 1st instant,  
is a British bark of 1,465 tons. She is at  
present at the railway wharf unloading  
coal.

mussen, arriving from Tacoma on the  
22d of May, now at the railway wharf  
discharging coal, is a ship of 1,545 tons.  
She is 233 feet and 9 inches long, 43 feet  
and 4 inches beam and 18 feet and 2  
inches in depth. She was built at Bath,  
Maine, in 1882.

The Charles B. Kenney, Captain An-  
derson, arriving from Newcastle on the  
2d instant, now at the railway wharf un-  
loading coal, is a bark of 1,014 tons and  
was built at Bath, Maine, in 1878. She is  
172 feet and 2 inches long, 37 feet and 2  
inches beam and 22 feet and 8 inches  
deep.

The C. F. Sargent, Captain McVillie,

BRIG J. D. SPRECKELS, NOW IN GUAM.

arriving from Tacoma on the 2d instant,  
now at the railway wharf discharging  
2,500 tons of coal, is a ship of 1,556 tons.  
She was built at Yarmouth, Maine, in  
1874. She is 230 feet and 3 inches long,  
41 feet and 3 inches beam and 17 feet  
and 9 inches deep.

The Defiance, Captain Bunn, arriving  
from the Sound on the 2d instant, now  
at Allen's wharf, is a schooner of 625  
tons. She was built at Hoquiam, Wash-  
ington, in 1897. She is 179 feet and 8  
inches long, 37 feet and 7 inches beam  
and 13 feet and 7 inches deep.

The Diamond Head, Captain Peterson,  
arriving from San Francisco on the 11th  
instant, now in the stream awaiting a  
berth, is a bark of 952 tons.

The General Fairchild, Captain Elles,  
arriving from Newcastle on the 5th in-  
stant, now at the railway wharf dis-  
charging coal, is a bark of 1,307 tons. She  
was built at Freeport, Maine, in 1874. She  
is 203 feet and 4 inches in length, 38 feet  
and 8 inches beam and 24 feet and 3  
inches deep.

The George Curtis, Captain Calhoun,  
arriving from San Francisco on the 31st  
of May, now loading sugar for San Fran-  
cisco at the Emmes wharf, is a bark of  
1,680 tons. She was built at  
Waldoboro, Maine, in 1884. She is 240  
feet and 7 inches long, 42 feet and 4  
inches beam and 25 feet and 2 inches in  
depth.

The Gerard C. Tobey, Captain Gove,  
arriving from San Francisco on the 27th of  
May, now loading sugar for San Fran-  
cisco at the Emmes wharf, is a bark of  
1,389 tons. She was built at Bath, Maine,  
in 1878. She is 208 feet and 4 inches long,  
29 feet and 1 inch beam and 23 feet and 6  
inches in depth.

The Governor Robie, Captain Harrington,  
arriving from Newcastle on the 2d  
instant, now at anchor in the stream, is  
a ship of 1,627 tons. She was built at  
Bath, Maine, in 1883. She is 224 feet  
and 1 inch long, 41 feet beam and 23 feet  
and 8 inches in depth.

The H. D. Bendixson, Captain Oleson,  
arriving from Newcastle on May 27, now  
at Sorenson's wharf discharging coal, is  
a schooner of 570 tons.

The J. C. Potter, Captain Lorentzen,  
arriving from Tacoma on the 11th in-  
stant, now in the stream, is a ship of  
1,244 tons. She was built at Searsport,  
Maine, in 1898. She is 190 feet long, 36  
feet and 7 inches beam and 24 feet deep.

The John Palmer, Captain Delano,  
arriving from Newcastle on May 30, now  
at the railway wharf discharging coal,  
is a barkentine of 1,080 tons.

The Jabez Howes, Captain Clapp, ar-  
riving from Tacoma on May 31, unload-  
ing 2,500 tons of coal at the railway  
wharf, is a ship of 1,521 tons. She was  
built at Newburyport, Mass., in 1877. She  
is 218 feet and 8 inches long, 40 feet and  
1 inch beam and 26 feet in depth.

The J. C. Pfleger, Captain Potter, ar-  
riving from San Francisco on the 3d in-  
stant, now discharging a general cargo,  
is a barkentine of 950 tons.

Mrs. William Campbell is official in-  
structor and supervisor of golf in Bos-  
ton, says the New York Tribune. She is  
a Scotch woman, and came to this coun-  
try with her husband seven years ago.  
After his death, there being no one else  
competent to succeed him as greens keep-  
er of the public links, the office devolved  
upon Mrs. Campbell.

## CANNOT GO TO MOLOKAI

Leper's Wife Denied  
Right of a  
"Kokua."

WOMAN MAKES A  
PLEA FOR HUSBAND

Contents "The Tie Made Sacred  
at Altar Cannot Be Broken  
Except by Death."

A petition was read at the Board of Health meeting yesterday from a young Hawaiian married woman named Kaianai, who asked for leniency toward her husband, who had just been ordered to the leper settlement, or to allow her to accompany her husband. Her letter was carefully indited, and appealed to the sympathies of the board's members, but their judgments were flinty, and her request met with a denial. The board merely followed its usual procedure in such matters, as by doing so, they avoid establishing a precedent which would result little short of disastrous to the general morale of the Settlement. As the husband of the young wife is not helpless from his infirmity, and not in need of a helper, his wife cannot accompany him. Her petition read as follows:

"The petition of the undersigned, a native Hawaiian woman, now residing in Honolulu, humbly represents unto your honorable body, as follows:

"First—That her husband, Kaianai, is at the receiving station at Kalihi. He was taken there last Monday, June 3, and under the order of your honorable body, as a suspect.

"Second—Petitioner, with all due respect to your honorable body, and also to the law of the land which prompted you to do your duty, respectfully prays you that her said husband should be permitted to stay out here, if he is one of those doubtful cases; and in the meantime to be allowed to get his medicine or medical treatment at the government dispensary in this city.

"Your petitioner must state that her husband has been very good to her, and that the tie between her and her said husband, which was made sacred eight years ago at the matrimonial altar cannot be broken, except by death.

"And if your petitioner's prayer cannot be allowed by your honorable body, and that her husband is doomed to be taken to Molokai, then she, your petitioner, would humbly beg your honorable body to grant her permission to go with her said husband to Molokai as his 'kokua.' MEKALA."

Ambrose Hutchinson had his usual weekly "kick" letter on the president's table about taro. He declared that Superintendent Reynolds' dealings with him had ruined him as a taro planter, and the usual rigmarole which accompanies Hutchinson's plaints. The letter was handed to Mr. Reynolds, who left for the leper settlement on the Lihue last evening.

Owing to the absence of Mr. Auld, the report of the paial committee was not made. A general discussion on the supply and demand of paial and taro took place, however, in which long and short term contracts were discussed. Mr. Dole was of the opinion that if eight-year contracts were entered into they had better be done with the approval of the Legislature. If the price of taro went down in future years, while the board by its contract would be compelled to pay a higher figure, he felt certain the board would feel quite cheap.

Mr. Dole asked if taro could be obtained from any other islands in the Pacific Ocean. Dr. Pratt said taro was raised elsewhere, but it could not be imported, owing to its decaying and souring. Superintendent Reynolds stated there was sufficient taro growing on Molokai to supply much of the leper settlement's demands for the coming year.

At the figures presented by would-be contractors, who agree to supply 400 paials each week, at about \$1.25 per paial, the Board of Health would be at an expense of about \$500 a week, or \$21,000 a year. The matter will be called up again at the next board meeting.

## CEMETERY FOR INSANE ASYLUM

Trustees of the Bishop Estate  
Turn Over a Tract of Land  
to Board of Health.

For one dollar as a consideration, the trustees of the Bishop estate have turned over to the Board of Health for the use of the Insane Asylum, a plot of ground 100 feet square, situated at Kapalama, on the northwest side of the Kalaepohaku Cemetery. The square parcel of real estate will be used by the Insane Asylum authorities as a burying ground for the inmates. The grant gives the board the use of the land for twenty years, and the board accepted the offer with thanks.

It was pointed out to the board that under the present regulations all burials shall take place in Pearl City Cemetery, the health department would be at a great expense in transferring the dead from the Insane Asylum there, and matters could be simplified by the acceptance of this tract of land belonging to the Bishop estate. The only expense to the health department attached to the acceptance is in the revenue stamps upon the lease, and in fencing off the land, the latter to cost about \$65.

The following letter explains the po-

sition of the Bishop estate in granting the lease:

The trustees of the will of Bernice P. Bishop made the following offer to Insane Asylum for a burial site:

Again referring to your application for a cemetery site at Kapalama, I would advise that at the board meeting held on June 7 the trustees voted to offer you the following proposition:

A paid-up lease for \$1 for a term of twenty years from July 1, 1901, of a certain piece of land, 100 feet square, situated at Kapalama, Honolulu, on the northwest side of the Kalaepohaku cemetery, upon condition that you furnish this office with proper survey of the lot, and also the survey of the Kalaepohaku cemetery as now fenced.

Further, that you construct and maintain a good and substantial fence around the land demised, within sixty days from date of lease. The lessee to comply with all the rules and regulations of the Board of Health relating to cemeteries. All expenses to be borne by lessee.

Very respectfully,

E. T. WINANT,

Secretary B. P. Bishop Estate.

MINSTRELS SATURDAY.

Healini Burnt Cork Performance to be Repeated.

The sale of seats for the Healini Minstrel performance, to be given Saturday evening in the Hawaiian Opera House, will begin this morning at 9 o'clock at Wall, Nichols Co.'s. Now that the "boys" have their sea-legs on and are over their "first appearance" trepidation, they will be able to give a smooth performance. A few of the numbers will be cut out of the program, and where long waits occur, or are supposed to occur (for the boys vow none will take place Saturday evening) new talent will be on hand to fill in. It is planned to keep the show moving with a rush and to inject new and witty sayings into some of the dialogues.

One of the principal attractions for the performance will be the first appearance upon a public stage of Ralph Yardley, the advertiser cartoonist. Mr. Yardley, with charcoal and big sheets of paper, will delineate the features of some of Honolulu's well-known residents, and all the public men who have been depicted in the famous cartoons of the artist will be drawn in full view of the audience. Honoluluans have had a curiosity to see the artist and the Healini (Yardley is a Heian) have smoked him out of his sanctum for a few hours.

The performance will commence on time and will end at a seasonable hour.

## ODORS OF KEWALO ARE DISCUSSED

Opinion from Attorney-General  
Asked by Health Board as  
to Abating Nuisances.

The insanitary condition of Kewalo was again subjected to a siege of discussion at the Board of Health meeting yesterday afternoon. There were present Dr. C. B. Cooper, President; Frederick Smith, E. A. Mott-Smith, Dr. Sloggett and Attorney General Dole. Mr. Auld was unable to be present owing to an engagement with the Grand Jury. Dr. Pratt reported that Judge Stanley, representing a client, a property owner in the above-stated district, desired to know to what extent the Board could abate nuisances. The condition of Peck's stables was cited, it being stated by Judge Stanley to Dr. Pratt, the executive officer of the Board, that the filthy water and sewage emanating from the Peck premises was beyond endurance. It is in this district that the Board has asked an appropriation for constructing a drainage ditch to carry away the refuse water to the sea.

As nothing has been heard of the matter from the Legislature, although it is one of the most imperative sanitary measures needed in the city of Honolulu, an opinion from the Attorney General has been requested by the Board as to its power in abating nuisances. Upon the suggestion of the Attorney General a report of the condition of the district immediately in the vicinity of Peck's stables will be made at once and submitted to Mr. Dole. A committee, consisting of Dr. Sloggett, chairman; Dr. Pratt, and F. C. Smith, was also appointed by Dr. Cooper to investigate the place.

## HOW TO GAIN FLESH

Persons have been known to gain a pound a day by taking an ounce of Scott's emulsion. It is strange, but it often happens.

Somehow the ounce produces the pound; it seems to start the digestive machinery going properly, so that the patient is able to digest and absorb his ordinary food, which he could not do before, and that is the way the gain is made.

A certain amount of flesh is necessary for health; if you have not got it you can get it by taking Scott's Emulsion.

You will find it just as useful in summer as in winter, and if you are thriving upon it don't stop because the weather is warm.

If you have not tried it, send for free sample its agreeable taste will surprise you.

SCOTT & BOWNE, Chemists,  
409-415 Pearl Street, New York.

## In Time And on Time For the Races

Just from the factory, a large  
lot of horse-timing Watches,  
single and split seconds, minute  
registers, in silver and gun-  
metal cases; perfect Watches,  
fully guaranteed in every re-  
spect, and made by the same  
maker who makes my high-  
priced chronographs.

The Prices Are  
\$11.50  
to \$25

and every Watch a reliable one.  
We are watching them close-  
ly, and have them well regulat-  
ed, so they will not deviate a  
fraction from correct time.  
You can depend upon these  
Watches, which are not too  
cheap to be good, but just  
cheap enough to be safe  
Watches to buy.

H. F. WICHMAN,  
FORT STREET.

## The Days of Tight Belts Are Over Cling-Surface

"CLING-SURFACE" IS A BELT  
filler, which produces a clean,  
clinging surface on the belt after it  
has penetrated the belt, and it is  
a belt preservative, making  
keeping the leather, cotton or rope  
flexible and elastic, vastly increas-  
ing its life. It also acts perfectly  
on rubber belts.

One-third more power is trans-  
mitted by its use, or in other  
words, a belt two-thirds as large  
will transmit the power of "Cling-  
Surface" is used.

Send for a sample ten-pound tin.

Price 50c per lb.

LITTLE GIANT  
FIRE EXTINGUISHER

The only chemical fire extinguisher  
that is ready at any time. Will not  
deteriorate. No dangerous acids or  
chemicals in it. Can be handled by  
a child.

Price \$3 each.

# Historical Honolulu

OR A CENTURY OF

## HAWAIIAN EVOLUTION.

This valuable record of the most important events in the History of Honolulu for the past hundred years was compiled and published at great expense in 1899.

Its historical and descriptive articles are by the very best recognized authorities on Island matters and are handed from absolutely impartial standpoints.

It is finely illustrated and contains portraits and biographical sketches of the principal business and professional men of the Islands.

This is a publication that no student of Hawaiian History can afford to be without. A limited number of copies still for sale by The Hawaiian News Co., Golden Rule Bazaar and Thrum's Book Store.

# NA-KUPUNA!

## THE HAWAIIAN LEGEND OF THE CREATION.

(BY JULIAN D. HAYNE.)

WITH ARTISTIC ILLUMINATIONS BY VIGGO JACOBSON.

The Gazette Co. has recently secured a few copies of this much talked of publication, which is now out of print, and these copies will be placed on sale at the book stores.

Julian Darwin Hayne is a man who will long be remembered in Hawaii for his many brilliant accomplishments and his wonderfully checkered career.

The legend is well written and the artistic element reflects great credit upon Mr. Jacobson.

Though but few people here have seen this book, nearly all have heard of it and will be glad of the opportunity to secure a copy.

## SIX PRIZE STORIES

FROM THE LITERARY BRANCH OF

## The Kilohana Art League.

A neat and interesting souvenir of Hawaii, neatly gotten up and handsomely bound.

The stories are ALL HAWAIIAN, having a distinct Island flavor and apart from its value as a souvenir the book is an interesting one.

PUBLISHED BY

## The Hawaiian Gazette Co.

and for sale at the book stores.

## YESTERDAY IN COURT

### A Japanese Suit For Breach of Promise.

#### GRIEVANCE OF "TOMY"

**Commissioner Robinson Will Take Testimony in Dora Bluhm Salvage Suit.**

The breach of promise suit of the Japanese woman, Tomy, against Yasumi, occupied all day yesterday in the First Circuit Court before Judge Gear. Paul Neumann representing the plaintiff and Robertson & Wilder the defendant.

According to the story of Tomy, she was married to Yasumi according to the Japanese custom in Japan some time ago, having gone through a celebration that is usually accepted as a wedding ceremony there. Some time after this celebration, Yasumi told Tomy that he had to go away to enter the military school, having reached the age of twenty-one years, the age at which the Japanese law requires the men to enter the military school. Instead, however, of entering the school, Yasumi, Tomy says, skipped out for Hawaii, and when she followed him, she found him at work on the Makaweli plantation. There was a reconciliation, and the two lived on the plantation together. Yasumi acting as interpreter and Tomy taking charge of a plantation store, also doing sewing and other work. She earned about \$3,000, all of which she turned over to Yasumi, and all went well until one day she was sent word by her husband that she must leave, and that, as she was not his wife legally, according to American laws, she must not come back to bother him or he would have the police after her. She says that she had often asked him to marry her according to the American ceremony, and he promised to do so "mahope." When she was threatened with arrest, she became frightened and ran away to Honolulu, where some friends advised her to get an attorney and sue Yasumi—hence the breach of promise action.

At 4 o'clock yesterday afternoon the case was continued until this morning. The evidence is not yet all taken. Judge Humphreys departs for the mainland on Friday, via the China, on sixty days' leave of absence. He intends, however, remaining until perhaps the middle of September on an extension of time.

#### COURT NOTES

In the case of L. R. Burns vs. Mutual Telephone Company, which was dismissed from Judge Edging's court on motion of defendant upon the ground that said court had no jurisdiction, the plaintiff has filed his bond on appeal to the Supreme Court, in the sum of \$100, with J. Alfred Magoon as surety, together with his bill of exceptions.

Deed of adoption was yesterday filed by Mrs. Haalo Makia and John Makia, her husband, adopting Kulia, a female infant, daughter of Maria Makaanani, who gives her consent.

R. Isaacs & Brothers of San Francisco have brought suit in the First Circuit Court against the Pacific Import Company for \$229.74 as a balance on merchandise account. J. M. Davidson for plaintiff.

Andrews, Peters & Andrade, attorneys for the plaintiff, in the case of Edward Hoffschlager & Co. vs. G. C. Akina et al., have filed a motion for the continuance of the matter for the term, basing the same upon the pleadings, proceedings had and affidavits filed. The motion was presented yesterday morning before the First Judge, Robertson & Wilder appearing for the defendant.

The First Judge yesterday filed formal written judgment in the case of W. S. Noblitt vs. the Board of Health, which was a proceeding against the Board of Health for revoking a physician's and surgeon's license, ruling that the proceedings of the defendant in "causing the revocation of the license of the said W. S. Noblitt to practice medicine and surgery as a profession in the Territory of Hawaii, were and are absolutely null and void, and unsupported by any competent legal evidence taken in said proceedings, and that said proceedings have not been sanctioned by the party complaining of them, to wit, the relator, W. S. Noblitt, and that the said proceedings were without warrant or authority of law; it is thereupon considered, ordered and adjudged that the said proceedings be and they are hereby declared and adjudged to be null and void and of no effect, force or virtue, and said proceedings and all action thereunder are hereby set aside, annulled, quashed and held for naught."

C. C. Bittling was attorney for the relator and Paul Neumann for the defendant.

#### RECEIVER APPOINTED.

The First Judge yesterday issued an order appointing Henry Davis receiver to receive and take account of all the property belonging to the partnership of Silva & Vivas, the respective counsel in the case of John M. Vivas vs. M. Gusmano Silva having requested that a receiver be appointed. By the order both parties to the case are enjoined and restrained from collecting any debts or in any way interfering with the duties of the receiver. The amount of the receiver's bond was fixed by the Court at \$1,000. A. J. Correa represents the defendant.

#### PROBATE.

J. Alfred Magoon has filed his accounts as guardian of Kalia Kapukina, charging himself with \$2,649.68 and asking to be allowed \$2,559.50, leaving a balance to the estate of \$90.18.

J. Alfred Magoon, as guardian of Rebecca Panee, a spendthrift, yesterday filed his annual account, charging himself with \$9,650.68 and asking to be allowed \$4,743.78, leaving a balance to the estate of \$4,906.90.

J. Alfred Magoon has filed his annual account as guardian of J. Blaisdell Magoon, charging himself with \$18,125.78 and

asking to be allowed \$15,833.33, leaving a balance of \$2,292.45.

#### FEDERAL COURT NO JURISDICTION.

Argument was had on the habeas corpus matter of Greaterex, Lee and Young, the English employees of T. Clive Davies, who were refused a landing by Collector of the Port Stackable, before Judge Estee yesterday morning. T. McCants Stewart, appearing for Mr. Stackable and Hatch & Silliman for petitioners, Judge Estee ruled that he had no jurisdiction in the matter and that the only appeal from the judgment of the Collector of the Port in such cases is to the Secretary of the Treasury. Hatch & Silliman have declared their intention of immediately taking this appeal.

W. D. Schmidt, a native of Germany, was yesterday, by process of the United States District Court, made a citizen of the United States.

In the matter of the salvage suit of the Inter-Island Steam Navigation Company vs. schooner Dora Bluhm, Commissioner Robinson has been by Judge Estee ordered to take testimony.

The matter of Hatfield and Johnson, mates of the Balafutha, held on charge of assault and battery, Commissioner Robinson has continued the proceedings until Monday at 2 p. m.

#### MANY A MOTHER'S WISH.

Many a mother of a peevish, restless, sickly child has wished that her little one was as strong and rugged as an Indian babe. Such mothers can make their children strong and well, if they rid the child's system of worms, which cause nine-tenths of children's troubles. Kickapoo Indian Worm Killer will do it. For centuries the Indians used it to make their babies rugged, powerful, fearless. What it has done for the child of the forest it will do for the child of the civilized—cure. That is what it has been doing for years. You can get it of your druggist for 25 cents. Be sure to get the genuine. The child's life is too precious to trifle with worthless substitutes. Hobron Drug Company, agents for Kickapoo Indian Remedies.

#### NORRIE'S HEALTH RULES.

**How the Editor of the Independent Keeps Healthy.**

The Advertiser has recently published several interesting articles in regard to how people should regulate their diet in these Islands, especially during the hot season. We agree with the editor of the morning paper that very little meat should be used (especially at the present price) and that a diet appropriate for cold countries is not suitable here. While our dyspeptic colleague preaches well, his appearance indicates that he does not practice his excellent theories, and that a large sirloin steak with trimmings, at the Grill, does not come amiss to him, even if he regrets it later on. We have experimented for years and found that the safest mode of living is something like the one adopted by the writer.

Get up at 5 o'clock and take a walk for one hour for physical benefits. Return at 6 o'clock and read the advertiser for mental benefits and take a gin fizz to hold the editorials down. Take a bath and for breakfast drink a cup of hot bouillon made from Armour's extract, and eat three soft-boiled eggs (no bread) and drink a pint of undiluted milk. For lunch eat a little fish and fruits and light vegetables and take a glass of white wine and Sauerbrunnen. For dinner a plate of soup, a small piece of rare roast beef or mutton and light vegetables with a bottle of claret. For supper we suggest a dozen raw oysters, a Welsh rarebit, a bottle of champagne and a pretty companion—but supper is not always necessary in the tropics. We hope our colleague will try our prescription and he will find that his shadow will never grow less and that he can with safety discontinue his sound-food editorials.—Independent.

#### HOW TO AVOID TROUBLE.

Now is the time to provide yourself and family with a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. It is almost certain to be needed before the summer is over, and if procured now, may save you a trip to town in the night, or in your busiest season. It is everywhere admitted to be the most successful medicine in use for bowel complaints, both for children and adults. No family can afford to be without it. For sale by Benson, Smith & Co., Ltd., wholesale agents.

# COLLEGE HILLS.

The three most important things about a home are:

1st. Healthfulness.

2nd. Attractiveness.

3rd. Neighborhood.

## As to the First:

College Hills has an elevation of from 150 to 250 feet; invigorating, cool air, directly off the mountain tops; large lots with plenty of breathing space. LESS HUMIDITY in the air than is found down town.

Perfect Sanitation.

## As to the Second:

College Hills affords superb views of Diamond Head, Waikiki and the Ocean.

It also has the magnificent vista of Manoa Valley, "The Hawaiian Bit of Switzerland."

The great variety of contour in the ground, the winding streets and good quality of houses to be built, will make it unquestionably the

Most Beautiful Residence Section of the city.

## As to the Third:

College Hills Deeds protect buyers from all danger of Chinese Shacks and Japanese Shops, and limits the suburb to strictly residence purposes. All houses must cost a minimum of \$2,000.

The substantial class of people who have already bought insures you good neighbors. Property in such a neighborhood always advances in price rapidly.

## Electric Car Line is Being Rapidly Built WATER SUPPLY READY IN JULY.

With all these superior advantages, large lots (over 1-3 of an acre) at College Hills, cost you only from \$900 to \$1,500. Easy terms; 1-3 cash, balance at 6 per cent interest.

Lots will be Shown you on Request by the Sales Agents

### HILO LITTLE HAS A KICK

(Continued from Page 9.)

fifth to the sixth class. The motion was carried. The salary was fixed at \$1,200.

Mossman took his turn in grinding a political axe. He moved that the salary of the Hawaiian interpreter be raised from \$6,000 to \$7,200. He said that it was just as well to let the Hawaiians have all that was coming to them, as the haoles were drawing the color line, and putting out natives who were in office. Evidently the Wilcox incident had hit Mossman with force. The motion carried.

The House at 3:30 p. m. openly entered on a campaign of cutlery sharpening, and fully two-thirds of the Representatives had salaries of one or more of their henchmen increased, or put them in line for promotion. Beckley forgot to say anything about McKinley's sermon on retrenchment and reform. Finally Emmeluth moved that the Department of Public Instruction be taken up. Dickey seconded his motion.

A motion to cut the salary of the school superintendent met with considerable opposition. On the second reading it had been made \$6,000. It was finally raised to \$7,200. For back salary he was apportioned \$3,750. Four inspectors were given \$25,000. The secretary was voted \$3,600. The fund for the salary of the assistant secretary was placed at \$3,000. The stenographer was voted \$1,500.

The House then adjourned for the day.

### PROCEEDINGS OF THE SENATE

To all outward appearances the Senate was taking interest in nothing yesterday, but to those who understood the drift of things, it was patent that the Wilcox matter was ranking deep in the hearts of the Senators. The Independents are very angry at the dismissal of Wilcox, who, like himself, thought that the man who is "a brother to the Delegate," had a leadpipe each on the job. The Independents will retaliate by a further reduction of salaries in that department, and do whatever is within their power to make matters unpleasant for the men who have the public health of this city under their direct charge.

The Senate was slow in coming to order this morning, owing to the fact that a quorum could not be secured. After the upper house had consented to convene, the minutes for the past two days were read and approved. After a long pause, during which time there was not a quorum present, Mr. Kalanikouani introduced the following resolution:

"Resolved, that the sum of \$1,800 be inserted in the appropriation bill for the road from Hinaikamalama, Nioloa, Honolulu, Island of Oahu, which runs from Nuuanu street to the stream and then back to the boundary of the street named, fifty voters of the locality named, having petitioned for such road during the regular session,

and this petition having been laid on the table to be considered with the appropriation bill."

This resolution was tabled, as was the following:

"Whereas, on the fortieth day of the regular session, the committee on public lands reported on a petition signed by the voters of this city, and asking for the extension of Fort street to the Pauoa road, and

"Whereas, said committee recommended that an item of \$70,000 be set aside for the purpose named, now therefore

"Be it resolved, that the sum of \$20,000 be inserted in the appropriation bill for the extension of Fort street to the Pauoa road in the Fourth District of the Island of Oahu, in accordance with the prayer set forth in the petition mentioned."

After this, item 150, salary of commission, deputy assessors and collectors under the tax bureau, was read and passed. The Senate thereupon adjourned until today at 2 o'clock.

### SETTING HEN RIDES 14 MILES.

A fourteen-mile straw ride was the experience of a setting hen, the property of Mrs. Walter O. Ensor, of Strawberry Hill Farm, near Cockeysville, says the Baltimore Sun.

Mr. Ensor had loaded the wagon with baled straw about three weeks ago, and consigned it to J. T. Norris & Son, at Govanstown. Mr. Ensor, without discovering that in the meantime the hen had made preparations to hatch out a brood of chicks in the wagon, left home at 2 o'clock yesterday morning and drove to Govanstown. The road is rough, and the wagon, having no springs, swayed from side to side as the wheels passed over slanting places and gullies. The hen bore all with silent patience, and her presence was not discovered until Mr. Ensor was about to unload. Mr. Norris bought the hen and her twenty-five eggs, and placed them in a more secure nest. She settled down to business, and the outcome will be watched with interest. A question has been raised as to whether the chickens will be Govanstown or Strawberry Hillers.

### TWO SERIES OF NUMBERS.

Prof. Asaph Hall has recently drawn attention to the following series of numbers.

1x9+2=11  
12x9+3=111  
123x9+4=1111  
1234x9+5=11111  
12345x9+6=111111  
123456x9+7=1111111  
1234567x9+8=11111111  
12345678x9+9=111111111

1x8+1=9  
12x8+2=98  
123x8+3=987  
1234x8+4=98765  
12345x8+5=9876543  
123456x8+6=987654321  
1234567x8+7=9876543210  
12345678x8+8=98765432109  
123456789x8+9=987654321098

—The Equitable Record.

If the London Daily Mail is to be believed there are women in the English metropolis wearing a perpetual bloom of youth upon their cheeks, put there with the tattooing needle. These complexions will never fade; not even death can dim their glow.

NEW YORK BUILDINGS ON VALUABLE LAND.

It is said that the cost of the buildings shown in the illustration is not equal to the value of the small plots of land upon which they stand. One is at the corner of Fifth avenue and Twentieth street, the other at Forty-second street and Broadway. As the picture shows, the buildings are located upon exceedingly narrow strips of land.

### THE PHILOSOPHY OF SIMON FROST.

Some folks passes fer geniuses when they're really only jest a little bit mused up in their notion department.

It's the fools that ain't afraid; brave men are them that kin control their fears.

The pen's mightier than the sword, an' the tongue's mightier'n both uv 'em put together.

Ye can't tell nothin' 'bout how fast a feller kin run till somethin's chasin' him.

When ye hear a feller whistlin' at night ye can't tell whether he's happy or whether he's only tryin' to keep from gittin' skeart.

Hosses eats the tallest grass in the meadow, the cattle kin git enough on what's left, an' sheep kin pasture after the catle git through.

Believe ev'rybody's honest till ye find out different, only find out quick as ye kin.

The brightest colors is the ones that generally fades the quickest.

In all the pictures I ever seen o' the Man with the Hoe he was a-leamin' on it waitin' fer quittin' time.

When a feller falls heir to a lot o' money he gen'rally begins to put on airs.

An empty house is better'n a bad tenant.

It's uncomfortable to bite a worm when eatin' an apple, 'specially fer the worm.

It don't make no difference what kind o' an animal it is there's always somethin' bigger that preys on it.

Don't judge a man by the comp'ny he keeps, but by the good he does 'em.

When ye're a-goin' to lick the boy remember you was one onct yerself, an' remember what your o' man done to you; then see if ye kin beat him at beatin' the boy.

"No's" a little word, but there's times when it's a mighty hard un to say.

A man ain't a fool when he kin make a livin' by bein' one.

There's some folks that can't never make 'emself agreeable, 'cause the Lord done it fer 'em.

There ain't much good in a feller that can't see the good p'int in others.

There ain't nobody that starts out to make a failure in the world, but there's a mighty big lot uv 'em that does it, somehow.

It's a blame sight easier to tell somebody else how to make money than it is to make it yourself.

Keep in front o' a mule an' behind a bull.

When a man gits on the right track he mustn't forget that there are switches.

Don't never look behind ye while runnin' a race; ef ye do ye're liable to stumble.

### KING EDWARD'S DOUBLE.

An amusing incident occurred during the Easter holidays at Boulogne.

The editor of a London weekly—a gentleman who bears a striking resemblance to King Edward—was enjoying his cigar in one of the principal cafes of the town, when he suddenly became aware that his presence was causing unwonted interest and no little commotion. Presently an old gentleman rose up and shouted, "Vive le Roi de l'Angleterre!" a sentiment which was heartily joined in by most of the people in the cafe. The conductor of the orchestra, not to be behind hand, immediately struck up "God Save the King," but this was too much for the journalist, who made a bolt for the door and made good his escape.—London "M. A. P."

My little son had an attack of whooping cough, and was threatened with pneumonia; but for Chamberlain's Cough Remedy we would have had a serious time of it. It also cured him from several severe attacks of croup.
