THE DAILY

Pacific Commercial Advertiser.

Be just and fear not:
Let all the ends thou aim'st at be
Thy Country's, thy God's, and Truth's.

MONDAY, JUNE 9, 1890.

A LEADER of the National Reform Party was heard to say after the Minister of the Interior had closed his able speech, that the rumors of an outbreak were merely got up for political effect. If so, how about the rumors concerning the treaty circulated before the election by the National Reformers? Were they got up for effect, too?

The reply of Minister Thurston, delivered in the Legislative Hall on Friday last was one of the most masterly forensic efforts ever made here. At the outset, he said he did not propose to use adjectives, but the nouns which he did use fell like blows from a trip hammer. There has been but one expression of opinion by fair-minded readers, that the conduct of the Ministry in the matter under discussion was above reproach or censure. If the facts are as stated, and if they stand uncontroverted by evidence as strong as has been produced, then the Ministry should be sustained by every honorable and law-abiding citizen.

What has become of the Anglo-Saxon love of fair play in the House? Thursday morning twenty-two members of the House, voted not to let the minority of the Foreign Affairs committee have an opportunity to report. A few days ago twenty-three members of the House voted not to let the Minister of the Interior reply to the charges brought by the Attorney-General against the Cab-

inet and the Marshal. On that occasion we noticed with satisfaction that Noble McCarthy voted to give the Ministry a chance, and we thought it was his love of fair play that made him do it. But Friday he voted against giving the minority of the committee a chance, and it looks as though his first vote had been a mistake.

Fair play and square dealing ought to be above party.

Why is the National Reform Party in the House so anxious to cut off debate on the most important questions? Twice they have made an onslaught on the Cabinet and have tried to cut the Cabinet off from a reply. This is like the Irish judge who wanted to decide the case without hearing the defendant because it was all clear from the plaintiff's story, and he knew it would not be so clear after the defendant's. Have the Opposition members an interest in suppressing the facts? It certainly looks like it.

This conduct is in very broad contrast with that of the Government, who court the fullest investigation. Rep. Marques sat up all night to prepare a report censuring the Minister of Foreign Affairs for not doing what he was going to do the very next morning—what he had actually made an appointment to do. There was no time to be lost or the grievance would have vanished into thin air. Rep. Marques probably feels the loss of sleep as much as anyone, which perhaps accounts for the loose and abusive tone of a report which was disingenuous from beginning to end.

CORRESPONDENCE.

We do not hold ourselves responsible for the statements made, or opinions expressed by our correspondents.

The Majority Report on Foreign Affairs.

MR. EDITOR: Absurd throughout!

It would be difficult outside of bedlam to find anything more ridiculous. The grotesque, the laughable, and the satirical are blended in about equal proportions. To begin with, the scope of the resolution under which the committee acts, is much beyond the rules of all the best governments of the world. Even where popular liberty goes, so far as it does in the United States, the committees of inquiry in Congress as to treaty negotiations, are always limited by the proviso, "if not incompatible with the public interest."

Full inquiry and discussion are postponed until a treaty has been negotiated, and then the question is on its ratification or rejection. The Ministers have certainly gone to the utmost limits of propriety in answering the extraordinary demand of the committee on Foreign Relations. The attitude and spirit of the majority of the committee are grossly improper, subversive of dignified government, and disrespectful to the United States, always a friend to Hawaii, to her autonomy, independence and welfare. Marques and his three associates are greatly troubled about the independence of Hawaii. What have they ever done for the independence of Hawaii? Nothing can more strongly tend to destroy the independence of a people than such insane twaddle as this of the majority of the committee of Foreign Affairs. It brings ridicule and contempt on the Hawaiian Kingdom.

The strong and well-managed governments of Europe tolerate no such nonsense and signs of anarchy in the islands and little countries near them. They just brush aside the noisy demagogues as they would flies, and place over them governors or viceroys to maintain order and decency. The United States, conscious of her great power, always generous toward the weaker nations, does not deem it expedient to intrude in the affairs of Hawaii, which is close to her doors. If anything can be destructive to Hawaiian independence and best interests, it will be the anarchy, the turmoil, and utter incompetency for government, of which the report of the committee on Foreign Affairs furnishes striking illustration.

Can anything be more ridiculous than A. Marques' claiming to speak for Hawaii? Who is he? Whence did he come? Think of his masquerading as a Hawaiian representative against the honesty and good faith of such men as Messrs. Damon, Thurston and Austin; men who, by many years of intelligent effort, have sought to promote the prosperity and good government of this little Kingdom. The hero of Samoa; was he not an associate of the adventurer Moreno in disorder and misrule? Is Marques hoping to play the part of the Italian adventurer? Is it the fate of Hawaii to be annoyed and made ridiculous by two Italian adventurers? Are such men to be tolerated in launching insult at the United States just at the time when cool prudence and common sense are needed to so negotiate with our great and generous neighbor that the business and prosperity of these islands shall be secured? There is no doubt that the United States is entirely willing to grant the most favorable terms to Hawaii in a new treaty. But she cannot be expected to do this, if Hawaii allows herself to be represented by such adventurers and charlatans as now are indulging in the grotesque and insane babble of the majority of the Committee on Foreign Affairs.

HAWAII NRI.

OUR SAN FRANCISCO LETTER.

Per R. M. S. Zealandia, San Francisco, May 31, 1890.

(From Our Special Correspondent.)

The Sugar Market.

New York, May 31st, C. O. can centrifugal 96 degrees, 5 7-16 cents; granulated, 6 1/2 cents.

Since the last letter the sugar market has exhibited more strength than for some time past. The California has advanced rates 1 cent all around, quotations being now on the basis of 6 1/2 cents for granulated. There are as yet no signs of any action on the part of the State Supreme Court in the American refinery case. Your correspondent has positive information that this decision has been in the hands of the typewriters for some weeks and had it not been that politics will be boiling over shortly and that politics has had much to do with the prosecution of the case against the American company, the decision would have been handed down long ago. This seems at first sight rather strange, but to any one who is familiar with politics in this State, the statement will not seem out of the way. The Supreme Court is evidently possessed of a desire to be on friendly terms with both sides.

The eastern market exhibits great firmness, and prices are certain to be higher.

Some Tariff Legislation.

It will be a pleasure to the Hawaiian planters to learn that the prospects of any tariff legislation by the Senate at this session are very slim. Unless the whip of the Republican party is applied very vigorously, that sedate body will take its own time in the consideration of the McKinley Tariff Bill. That measure was formally sent to the Senate in due course of procedure, and was referred to the Finance Committee on the 29th inst. That body has about decided to refer each division of the bill to sub-committees for consideration and report. If this is done, it means that the bill cannot possibly be placed on passage before the summer recess.

The action of the House on the McKinley bill has had a most disastrous effect on the price of the leading sugar stocks. As an example, Hawaiian Commercial is quoted at \$194 bid and \$194 asked, and Hutchinson Plantation Co. at \$23 bid and \$30 asked.

Hutchinson Sugar Company.

At the annual election of the Hutchinson Sugar Plantation Co., held May 13th, in which 41,780 shares of the capital stock were represented, the old Board of Directors were re-elected. They are John D. Spreckels, A. B. Spreckels, P. L. Lilienthal, M. Ehrmann and Louis Sloss. John D. Spreckels was elected President; A. B. Spreckels, Vice-President and Treasurer; and E. H. Sheldon, Secretary.

The annual report shows that the assets of the company amount to \$2,101,348.23, and there are no liabilities. The receipts for the year were \$568,234, and the expenditures \$424,031, including \$195,000 paid in dividends. The balance on hand is \$144,293.

Personal Mention.

Miss Tessie Fair, the eldest daughter of ex-Senator James G. Fair, and Herman Oelrichs of New York, will be married on the 3d of June. One of the most magnificent gifts is a "lei" which was sent by King Kalakaua. It is one of the royal collection and was made for the Prince of Wales, but for some unknown reason was never presented to him. It is almost priceless, as it is made of the royal feather, which is worth twice its weight in gold. It is a brilliant yet deep-glowing yellow, and is beautifully shown off by the handsome case in which it was sent.

P. C. Jones, the capitalist and planter, arrived on the 28th inst. from his eastern trip. He was at once sought out by the reporters of the San Francisco press, but had little to say. His time was spent in looking over the situation and in seeing what can be done in case the American refinery case is decided adversely to the trust by the State Supreme Court. Mr. Jones was, up to the time of the transfer of the refinery to the trust, one of the heaviest owners of the company's stock, and rumor once had it that he was largely instrumental in aiding that transfer. He has nothing to say about the refinery situation or about the sugar tariff, except that he, in common with all the Hawaiian planters, is bitterly opposed to free sugar.

Capt. H. Z. Howard, formerly of the steamer Resolute has been appointed superintendent of the Oceanic dock, vice Capt. George H. Douglass. Capt. McGlaughlin of the tug Active, has taken the place of Capt. Howard on the Resolute. Capt. H. Marshall, of the tug Alert has taken command of the tug Active, and Capt. Silovich, first mate of the tug Relief takes charge of the tug Alert. Capt. Douglass is still very ill and at times little hope is entertained for his recovery.

King Kalakaua's Violentist.

At a dinner given at the Bohemian Club recently to Henry Hey-

man, the recipient was invested with the insignia of a Knight Commander of the order of the Star of Oceania, a Hawaiian order. King Kalakaua, who has appointed Mr. Heyman solo violinist to the royal household, was represented on the occasion by his Majesty's special deputies, J. D. Spreckels, E. R. Lilienthal and Louis Sloss Jr., who invested Mr. Heyman with the jewels and ribbons of the order. Among those present were Henry Heyman, Consul-General D. A. McKinley, E. R. Lilienthal, John D. Spreckels, Dr. James E. Lilienthal, J. H. Boalt, Leon Sloss, Joseph D. Redding, Nathan Landsberger, Geo. T. Bromley, Walter L. Dean and Louis Sloss Jr.

Two Terrible Accidents.

The 1:30 P. M. narrow-gauge local train, between Oakland and Alameda, ran into an open drawbridge on Webster street, on the 30th, and the engine, tender and first car went over into the bay.

The car was crowded with passengers, and as far as known, thirteen persons were drowned.

Among the victims whose bodies have been recovered are H. W. Auld of Honolulu, Martin Kelly, the Assistant Chief Wharfinger, and Mrs. Bryan O'Connor, widow of the late Bryan O'Connor of O'Connor, Moffatt & Co., the dry-goods merchants.

A terrible panic ensued on the train just after the accident. It was soon found that there was no danger of the other cars plunging over into the water. The railroad company at once sent out wrecking parties, and hundreds of small boats repaired to the scene. It was soon ascertained that there were thirty-five occupants of the first car, and only a few of them have been accounted for. They must have been drowned like rats. The engineer, Samuel Dunn, and Fireman O'Brien were both lost.

The accident was caused by the opening of the bridge to let the yacht Juanita pass. The engine driver saw his mistake too late. The whole train would have undoubtedly followed the engine, tender and first car, had not coupling broke. The signals were alright and the blame is attached to the engine driver.

The ship Onida, with cannery supplies for the Thin Point Packing Co., was wrecked on a sunken rock near Sanak, on April 26th, and became a total loss. The hull was insured for \$15,000, and the cargo for \$42,000 in the Anglo-Nevada Assurance Corporation, and \$4,000 was insured elsewhere, making a total of \$61,000.

Panama Canal Contract.

A dispatch from Paris dated the 24th inst. says that the Panama Canal committee has reported that the proposed new route is in impermeable soil throughout the entire length. The water in the reservoirs is not subject to diminution. The surveys have proved that proper precautions can be taken against earthquakes.

M. Santereau has telegraphed from Colon his willingness to take a contract to complete the canal in four years.

Pacific Mail Deal.

There is a new deal in the affairs of the Pacific Mail Co. At the meeting of the stockholders on the 28th inst. C. P. Huntington, Henry Hart, I. E. Gates, Calvin S. Buce, Samuel Thomas, Olive H. Payne, Edward Lauterbach, Charles McGhee and J. B. Houston, were made directors, and subsequently Houston was made president and Lauterbach vice-president. This effectively kills George Gould's project to run a line of China steamers from Tacoma, and it is said insures the consolidation of the Pacific Mail and Occidental & Oriental Companies. The total earnings last year were \$4,065,000, the expenses were \$3,550,000 and the net earnings were \$515,000. Dividends of 2 1/2 per cent. per annum were paid last year after deducting \$250,000 paid in repairs to tressels.

Prospects for Shipping.

Private advices have been received from Washington indicating that the Parquet Tonnage bill and the Mail Subsidy bill have both a fine chance of passing at this session. Both have been favorably reported by the House and Senate committees, and both have been read twice in each branch. Their third reading will be urged at the earliest possible opportunity.

The passage of either bill would practically revolutionize the commerce of the Pacific ocean, and would center here a fleet of merchant vessels, the equal of which has never been seen on this ocean.

San Francisco News.

Decoration Day was appropriately celebrated in San Francisco and throughout America.

Charles Francis Adams, President of the Union Pacific Railway, is in the city. His arrival has given rise to a story that the road is to be built to San Francisco. The Santa Fe Company has just secured complete control of the Atlantic and Pacific and St. Louis and San Francisco roads, and new rumors that their line will be extended into San Francisco.

W. D. English is in the field for the Democratic nomination for Governor and proposes to stay. His friends claim that he will have the solid Alameda county delegation.

John F. Naughton, secretary of the Guarantee Endowment Association, who has been on trial for the murder of Marcus M. Herr, on

February 3d last, was acquitted by the jury in the case.

Miller & Lux, the Southern Pacific Co. and Philip D. Armour are interested in a project to establish a million dollar beef packing house at the Fourteen Mile House in San Mateo County; another packing house is talked of at Point Pinos on the bay.

Antonio Mendora, who killed his wife for consorting with other men, has been convicted of manslaughter.

It is reported among the politicians that ex-Governor Perkins, William L. Merry and a number of other Republicans, who have made their mark as well in commercial affairs, intend from this time out to advance the candidacy of W. W. Morrow for Governor.

William Danphy, the millionaire cattle man, is lying seriously ill at the Fifth Avenue Hotel in New York.

Wilson Barrett, the English actor, is now filling an engagement in this city. He was given a great reception on his arrival by his former London friends.

Meetings are being held by committees of the mercantile organizations to arrange for the California display at the World's Fair.

The dynamite cruiser Vesuvius is to go into commission next week, after which she will be subjected to experiments.

An equestrian statue of General R. E. Lee was unveiled at Richmond, Va., on the 29th inst. The ceremonies were attended by Generals Fitzhugh Lee, Joseph E. Johnson, J. A. Early, and James Longstreet, and by 140,000 ex-Confederate soldiers.

The Colorado Indians are expecting the advent of a Messiah.

The Supreme Court has denied the application for a writ of error in the case of Kemmler, under sentence of death by electricity. The opinion was by Chief Justice Fuller.

The court held that a change in the form of death was within the legitimate sphere of the legislative power of the State. The Legislature of the State of New York determined that it did not inflict cruel and unusual punishment, and its courts have sustained that determination.

An attempt was made to blow up the Haymarket monument in Chicago on the 24th inst. The monument was erected in memory of the policemen who were killed by dynamite bombs. Dynamite was used on this occasion as well.

Senator Quay will have to resign the Chairmanship of the Republican National Committee or fight for the place. Leading Republicans are fast making up their minds that he is too heavy a weight for the party to carry, unless he can in some way meet the grave charges against him.

Robert Hardies a Los Angeles lawyer was murdered by Apaches in Arizona on the 25th inst. Another Apache outbreak is feared.

The Senate has authorized the construction of three heavily armored fast line of battle ships to cost \$4,000,000.

Foreign News.

Eyraud, the French murderer who was arrested while in hiding at Havana, is about to be taken to Paris for trial.

Henry M. Stanley and Lord Salisbury are at outs over a discussion of the British Central African policy. Stanley says that the British are timid and irresolute as compared to the Germans, which greatly wounds British pride.

A dispatch from Ottawa says: The Dominion government has informed the owners of sealing vessels on the Pacific Coast that they can offer no assurance that their vessels will be free from molestation if caught by American cruisers in Behring sea, and in hunting seals in those waters they must take the whole responsibility for what may follow.

The latest report from Jersey is that General Boulanger contemplates making an expedition to Africa. He says he will never again enter politics. The French people are ungrateful to their exiles and martyrs. He is anxious to serve his country on the remote frontier if not permitted to do so at home, and declares that he would rather die the death of a soldier than rot in political exile.

The Emin Relief Committee has received a letter from Dr. Peters, dated Bahahya, Uganda, saying that he is about to return to Bagamoyo.

Prince Dolgourouki and Prince Gredroye are trying to marry the widow of J. C. Ayer of patent medicine fame. She has a fortune of \$3,000,000 and Dolgourouki who is a brother to the morganatic wife of the late Czar Alexander II., is said to have the better chances of getting the money and, incidentally, the widow.

The Dominion government will shortly be asked to incorporate and subsidize a company which has a plan on foot to build a railroad line between Vancouver and Alaska.

Death of H. W. Auld.

The community was shocked on the arrival of the Zealandia to learn that Harry W. Auld, clerk in the Custom House, had met with his death in a railway accident at Oakland. Particulars of the disaster appear in our San Francisco letter. Harry went over to the Coast for a pleasure trip, and when he was drowned was on his way to get his sisters Edith and Maud and bring them to Honolulu. A pocket book, letters and initials on his clothing proved his identity. Consul McKinley also recognized him. His sisters hearing of the accident, went to the Morgue, Sisters of the Convent accompanying them, but nothing could induce them to enter the room where the remains lay. His pocket-book was brought to them, and after a half fearful glance at its contents their long crying gave way to convulsive sobs. The body was taken to the undertakers to be embalmed and will be brought to Honolulu on the Zealandia.

The deceased's full name was Henri Wilkulant Auld, son of Mr. James Auld, employed at the Press Publishing Co.'s office. He was born October 12, 1863, consequently at the time of his death was 26 years 7 months and 18 days of age. There was not a more promising Hawaiian in the Kingdom. He was beloved by all who knew him, and he held a very promising situation in the Custom House which he filled with much credit. Sympathy is expressed on all sides for his widow, father and sisters.

A Runaway.

Yesterday evening a few minutes before 8 o'clock the horses attached to a Palama trancar ran away, the brakes being defective. The driver took out the coupling pin freeing the animals from the car. They kept along, but finally one of them fell and was so badly hurt that it was not expected to recover. The car was stopped, the occupants escaping injury.

THE STARS WIN.

An Uninteresting Game of Baseball at the Makiki Grounds.

The game on Saturday at Makiki, between the Stars and Honolulu, was very uninteresting after the third innings. There was a large attendance of spectators, some of whom got wet, as it rained considerably during the afternoon, and the game had to be stopped twice on that account.

Messrs. W. A. Wall and M. K. Keohokalole were the umpires.

The Stars were first to bat. Chandler popped one up to Desha, who muffed, and he got to second on a passed ball. Chan. Wilder took his base on balls. J. Perry struck out. Wodehouse retired at first, Chan. Wilder tallied on a passed ball and Chas. Wilder tied to W. Lucas.—For the Honolulu, Wodehouse was fielded out by Chas. Wilder. G. Lucas tied to A. Rosa. Whitney hit a grounder to E. Wodehouse, who fumbled, and then made a bad throw to first, the runner going to third. Friedenberg hit to Wodehouse, who fumbled. A. Lucas got in a two-bagger, sending Whitney across the plate. Friedenberg was put out between third and home.

Second innings.—A Perry went out at first from Chas. Wilder. Conrad fanned out. Winter placed one in right field for three bases. Carter followed with a single, Winter scored. Carter made an attempt to steal second, but failed.—Desha got a base on balls and stole second. Parker tied to Chandler, and Coyne was retired at first, Carter assisting. W. Lucas hit to E. Wodehouse, who made another bad throw to first, allowing Desha to tally. Wodehouse made a safe hit but G. Lucas ended the innings by flying to Conrad a most difficult but pretty catch.

Third innings.—Chandler fanned out, Chan. Wilder tied to Whitney, and J. Perry was out at first from W. Lucas.—Whitney got his base on balls and stole second. Friedenberg hit to Wodehouse who for the third time made a miserable throw to first, Whitney scoring on the error. A. Lucas was put out at first. Desha rapped a single to center, Friedenberg crossing the home plate. Parker hit to Chas. Wilder who fumbled. Coyne died a first. W. Lucas got in a single, Desha and Parker both retired. Wodehouse tied to Chas. Wilder.

Fourth innings.—Wodehouse made a safe hit and stole second, but was put out between second and third. Chas. Wilder struck out. A. Perry got four bad balls, took his first and went to second on a passed ball.

At this point the rain came down so heavy that play had to be stopped for several minutes. When it was resumed the ball was hard to hold, the ground was wet, errors were made, and taken altogether the balance of the game was of the most uninteresting nature. The Stars eventually won easily. Following is the official score:

DR. JOSEPH HASS'

Hog and Poultry Remedy

A Certain Cure for the Diseases of

HOGS AND POULTRY

1st. It puts your pigs in first-class condition.

2d. It stops cough, and regulates the bowels.

3d. It will keep sows healthy during pregnancy, and superinduce a sound progeny.

4th. It will arrest disease in every instance, if administered before the vital parts are beyond the reach of aid.

5th. It destroys worms and hastens maturity.

6th. It is a thorough preventive. Feeders who use it all the year round have no disease among their swine.

7th. It will repay its cost many times over in the extra pounds of pork it will make without extra feed. Hogs treated with it will gain two or more pounds, while others are gaining one. The reason is it regulates the digestive functions and enables the animal to convert every particle of food eaten into pork, involving no waste. Hundreds of testimonials from breeders in England, Germany, Scotland, Ireland, the United States, New Zealand, and Australia.

TESTIMONIALS:

"Dr. Hass' Hog Remedy is a certain preventive of disease, making pigs thrive well and gain flesh fast."

(Sd.) J. N. WALTON, Birmingham, Eng.

(Purveyor to H. M. the Queen and H. R. H. the Prince of Wales.)

"Our experience has shown that Hass' Remedy will prevent disease in hogs and that the increase in flesh by its use more than covers the cost."

"GILLILAND, HACKWORTH & BUCKLES, Coffeeville, Kansas."

"A good investment as a pork producer, to say nothing of its preventing disease."

"L. R. WOODS, Keene, Kentucky."

"I do not think it safe to be without Hass' Remedy to prevent disease. After a thorough test I am sure it is a valuable medicine as well as a pork producer."

"B. F. DORSEY, Breeder Perry, Illinois."
