Warm Debilitating Weather.

Many people, after a long spell of
oppressive heat, suffer from lassitu-
tude, loss of spirits, and a general
"run down" feeling. They need a
course of Ayer's Sarsaparilla, a
medicine which has revived and
restored to active life and health
thousands of such sufferers. A lady
recently returned to England from
South Africa writes concerning this

"Wonderful Medicine"

"While in Cape Town the past
summer I suffered greatly from the
long-continued heat. I was com-
pletely worn out; my blood seemed
to become as thin as water, and I
lost all energy and interest in life.
My friends recommended Ayer's
Sarsaparilla, and a course of this
wonderful medicine restored my
health and spirits. My husband
suffered in the same way as I did,
though not to such an extent, and
he also was greatly benefited from
the use of

JAPANESE IMMIGRANTS

GENERAL OPINION THAT THEY WILL YET BE LANDED.

Interviews With Prominent Officials
and Others on the Question—
More Investigating Going On.

The general talk about town
this morning is that the Japanese
immigrants whom the Supreme
Court decided yesterday had no
right to land will be landed in
spite of the decision and that
Collector-General Castle will re-
scind his former rulings. What
influence is being brought to bear
to cause this change in the pro-
gram cannot be ascertained. By
some it is credited to Minister
Damon's influence, the assertion be-
ing freely made that that official is
opposed to deporting these Japa-
nese and in favor of avoiding any
risk of trouble with the Japanese
Government about a few immi-
grants. Again, it is said that cer-
tain influences are being brought
to bear on the Executive by which
all of these immigrants may be
apportioned among the plantations
and allowed to land on condition
they sign contracts.

On the other hand should the
Collector-General reverse his de-
cision and allow the immigrants to
land, either as contract laborers or
otherwise, it is certain to cause
more or less friction between the
government and many of its best
and most substantial supporters
who believe that the time has now
come to settle the question whether
Japanese will be allowed to over-
run this country at will or not.

With a view to ascertain as much
of the truth as possible of what is
actually going on in the inner cir-
cles a BULLETIN reporter was de-
tailed to interview as many of those
concerned in the matter as could
be seen.

Collector-General Castle was
first seen. He had nothing to give
out for publication, in fact he
knew nothing about what was to
be done. The matter had gone to
his superiors and they would de-
termine it. Whatever decision was
arrived at he would be bound by
and would carry out.

A. S. Humphreys, attorney for
the Japanese Legation, was next
seen. He said there were no
new developments on his side
of the case. Certain repre-
sentations had been made to the
government on behalf of the
Japanese which he thought would
alter the status somewhat. From
what he had learned he was of the
opinion that the so-called investi-
gation made on behalf of the Col-
lector-General had been too hur-
ried and one-sided to get at the
facts, and that this would become
more and more apparent as suc-
cessive investigations were held.
"Why," said the attorney, "Min-
ister Cooper found one lot of
thirty men and seven women
who were here with contracts for
service with Theo. H. Davies &
Co. Their papers were perfectly
regular and their immediate re-
lease was ordered by the Minister.
And yet these same thirty seven
were in the list that the captain of
the Shinshiu Maru was ordered to
take back by the Collector-General.
I have no doubt there will be
others landed besides where mis-
takes have been made. What
course the Japanese Legation will
pursue is a matter I cannot go in-
to; indeed, I can tell nothing
about it until the Executive has
more fully defined its position.

Minister King was seen this after-
noon. He said there were no new
developments nor were there any
likely before tomorrow. Minister
Cooper was investigating the mat-
ter on behalf of the Cabinet and
there would be nothing done until
he made his report. There had been
no Cabinet meeting yet held on
the subject, but it was likely the
whole case would come before the
Cabinet and be settled whenever
Minister Cooper got through his
investigation.

Port Surveyor Stratemeyer said
all was quiet among the Japanese
at the quarantine station. As far
as he knew there would be no
trouble with them whatever de-
cision was arrived at. He thought
they were getting a little restive
over the repeated examinations to
which they were being subjected,
not being able to understand their
true purport.

Minister Cooper could not be
seen, as he went over to the quar-
antine station at 10 o'clock in
company with Collector-General
Castle, Stenographer Marx and
Adams and Interpreter Doyle, and
had not returned up to press time.

With regard to the stories in
circulation to the effect that Min-
ister Damon had made any prom-
ises to the Japanese Consul Gen-
eral or that he had declared him-
self in favor of landing the Japa-
nese, the BULLETIN is enabled on
the very highest authority to state
that they are utterly without
foundation and absolutely untrue.

GERMANY AND SIBERIA

German Merchants are Urged to be Up
and Doing.

An exchange says: The com-
mercial world are watching with
considerable interest the policy
which is being pursued by Ger-
many with reference to possible
trade openings in Siberia. As the
railroad across the Russian Em-
pire to Vladivostok nears com-
pletion, interest in its importance
grows. According to a report of
Mr. Monaghan, United States
Consul at Chemnitz, editors of
leading papers are putting the
German people on guard. They
want them to wake up and work
hard to get the advantage. They
urge the folly of waiting till others
have gone in and gathered the best
pieces. They point out the em-
pire's losses, because she be-
gan her colonial policy too
late. This is cited as an elo-
quent illustration of what a
stupid conservatism and hesitating
policy brings. They urge the
sending of an able Consul to Vla-
divostok, to represent and look
after German interests. The city
is to be the terminus of this great
transcontinental line. It is to
be the great commercial port of
that part of the world. It is urged
that a Consul be sent who has the
capacity to examine and compare
—a man who can and will give all
his time for the good of his own
country. They do not want a
merchant living in Vladivostok
to be made Consul, for his time,
they argue, will be too much taken
up with his own affairs. "We
want someone," they say, "who
will go over all the ground care-
fully, study it in detail, reporting
to the home Government as often
as he finds anything worth tel-
ling."

LOWERING A GRADE.

Another Slice Coming Off the Leleu
Hill.

Work is in progress for lower-
ing the grade of King street north
at Leleu, a gang of prisoners be-
ing employed making the coral
covering fly. This is where a slice
was taken off some years ago, the
hollow by the Chinese theater be-
ing raised at the same time. There
was some litigation on that oc-
casion, a property owner bringing
suit for damages, on account of
his frontage being hoisted in the
air. In connection with the pre-
sent operations of the Road Bu-
reau, the Hawaiian Tramways
Company is relaying its track
at King street bridge. The which
has been taken out and passengers
have to change cars, involving a
walk of about 100 yards from one
car to another. If the work is to
be as slow, proportionately, as
that of putting in a new switch on
Beretania street lately, the public
may expect to be inconvenienced
by it for two months at least. Ap-
pearances are that this will be a
much slower job than that other,
for a more broken-down-looking
gang of Japs than is employed
could not be mustered in a day's
travel.

UNITED STATES SENTINEL

ARRIVAL OF THE MARION TO RELIEVE THE ALERT.

She's an Old Acquaintance Her Ar-
rivalment and Comple-
ment

From an early hour this morn-
ing, when the U. S. S. Marion was
sighted off Koko Head, many peo-
ple on the city front were watch-
ing for the old war vessel. About
11 o'clock she was off the harbor,
and at noon was anchored safely
in naval row near the U. S. S.
Alert.

The Marion reports leaving San
Diego on Feb. 27. Fine weather
was experienced during the whole
voyage. Off the islands life boat
drill was had. Just before reach-
ing the harbor today, something
went wrong with the engines. The
tug Eleu put a hawser aboard the
warship and towed her into port.

The Marion is an "old timer."
She is built of wood, painted
black, and is the same style as the
Adams. The Marion is not a
stranger at Honolulu, having been
here before some years ago. There
are 155 sailors and 24 marines
aboard, besides the officers. One
8-inch muzzle loading rifle, six
9-inch smooth bore cannons, one
60 pounder and a number of smaller
pieces constitute the armament.

Following is a list of the officers,
some of whom are well acquaint-
ed in this city: Commander, Jas.
G. Greene; Lieutenant Comdr.,
J. K. Cogswell; Lieutenants, E. F.
Quattrough, H. M. Dombagh, F.
W. Kellogg, W. C. P. Muir, J. M.
Ellicott; Ensign, C. J. Lang;
Chief Engineer, W. H. Nauman;
P. A. Paymaster, T. H. Hicks;
1st. Lieut. L. H. Moses, U. S. M.
C.; Surgeon, C. P. Bagg; Gunner,
R. Sommers; Boatswain, S. R.
Boland; Sail maker, M. P. Barr,
Carpenter, B. F. Markham; Pay
Clerk, G. F. Southgate.

The length of the Marion's
stay at this port is indefinite. She
is here to relieve the U. S. S.
Alert.

ILLNESS OF CHIEF JUSTICE.

No Session of Supreme Court Today in
Consequence.

Chief Justice Judd being un-
able to take his seat this morning
on account of illness, the Supreme
Court adjourned until 10 o'clock
tomorrow morning.

J. K. Prendergast vs. T. P. Sever-
in, assumpsit, was tried by Judge
Carter this morning. Judgment
was given for plaintiff for the
amount claimed, \$11, interest and
costs. Kaulia for plaintiff; Davis
for defendant.

Valuable Number.

The Planters' Monthly for
March just issued contains P. C.
Jones, paper on Profit Sharing
entire, of which a summary was
given in the BULLETIN last month.
It has also a letter from J. B.
Castle on the same subject. One
of the most interesting articles is
an editorial on "Successful Graft-
ing of Sugar Cane," showing how
Mr. Whitney the editor, when a
planter on Hawaii, produced a
hybrid cane which was called after
him, has proved a superior plant
for uplands, and is now the prin-
cipal crop on Pahala plantation.

New Forestry Station.

Commissioner Marsden took a
wheel ride to the pali today, to see
how the new forestry station build-
ings were coming on. He found
that they would be finished Mon-
day or Tuesday. They consist of
a comfortable family cottage for
the forester, a house for the Japa-
nese mechanic and a propagating
house. The last will have room
for 150 boxes of young seedlings.
This station is not a nursery of
plants and flowers for distribu-
tion, as some have supposed, but
for forestry purposes pure and
simple.

"DOING" THE CUSTOMS.

Clever Scheme of a Belgian Merchant
for Revenge.

According to the story told by
the Brussels correspondent of the
Pall Mall Gazette, a glove mer-
chant in that city imported one
thousand pairs of gloves. The
Customs appraiser considered them
declared at too low an estimate,
and the Treasury took the goods,
paying the merchant the price at
which the goods were declared.
By this operation the merchant
lost a heavy contract, and made
up his mind that the Treasury
should suffer. Another case of
the same quantity was addressed
to him and declared at the same
value as the former. Again, and
much in anger, the officials seized
the goods, paying the merchant
the declared value, which was in
reality the exact price at which
they were invoiced to him. The
day came for them to be sold.
Several glove merchants went to
the warehouse ready to purchase;
but, to the utter dismay of the
officials, and especially of the
particular appraiser who had ex-
ercised his right of pre-emption,
it was discovered that all the
gloves were left handed. There
were no buyers. Shortly after, a
seemingly disinterested little man,
who appeared more like an "old
clo" merchant than anything
else, went to the warehouse and
said he had heard that some
gloves were lying there which
were unsaleable; what could he
have them for? "Oh!" replied
the appraiser, "if you will pay the
storage and cartage you may take
them away." This was done
without hesitation, and in three
hours they were safely lodged in
the warehouse of the original
glove importer. A month after-
ward 1000 right hand gloves ar-
rived, addressed to the same mer-
chant. They were passed without
demur. This (adds the corres-
pondent) is the usual result when
a Belgian official tries to be
clever.

JAPANESE MEETING AGAIN.

Their Consul-General Asked to Com-
municate With His Government.

There was a second meeting of
Japanese last night at their hall
over Luce's store to discuss the
decision of the Supreme Court on
the Shinshiu-maru's immigrants.
The proceedings were orderly, al-
though some of the speeches made
were quite bumptious.

Mr. Takezawa presented the
following resolutions, which were
adopted and the meeting came to
an end:

"Whereas, We cannot find right
reason for the action of the Gov-
ernment of Hawaii in refusing to
permit the immigrants from the
Shinshiu-Maru to land here, and
"Whereas, According to the de-
cision of the Supreme Court, the
Japanese citizens of Hawaii are de-
nied the protection of the law in
their individual rights, and
"Whereas, This action of the
Republic of Hawaii is in contra-
vention of the 'most favored
nation clause' in its treaty with
Japan, and
"Whereas, We consider that
this action establishes a precedent
for all future cases; therefore, be
it

"Resolved, That the Japanese
residents in Honolulu communi-
cate through their Consul with
the Government of Japan, stating
the facts of the case and abide by
the decision of the officials in
Tokio."

Delinquent Taxes.

In another column Tax Asses-
sor Shaw calls for tenders for
publishing the Delinquent Tax
List for the year 1896, in the En-
glish and Hawaiian languages in a
weekly newspaper. Persons who
are behindhand with last year's
taxes should make a note of this
fact if they do not wish their
names printed once a week for
four weeks.

THE BOARD OF HEALTH

MEMBERS ACT AS EXPERTS ON JAPANESE KIMONOS.

Matters at the Leper Settlement—Re-
ports from the Slaughter Houses
and Fish Market.

In the absence of Minister
Cooper, Dr. Emerson presided at
the meeting of the Board of
Health yesterday afternoon, there
being present besides the chair-
man members Lausung, Keliipio
and Wood, Secretary Wilcox and
Agent McVeigh.

Ministers of preceding meeting
were read and approved.

The usual report from Dr. Mon-
sarrat on animals slaughtered be-
tween March 3 and 17 was receiv-
ed; also his report under the Act
to Mitigate.

Inspector Keliipio reported the
examination of 30,363 fish during
the week ending March 10 and
48,128 for the week ending yester-
day.

Mrs. Emilie Macfarlane's report
of receipts and disbursements of
the Maternity Home was received
and filed.

Dr. Eldredge, medical inspector
for the Hawaiian Government at
Yokohama, sent an elaborate re-
port showing the progress of the
smallpox epidemic in Japan.

The report showed that between
February 5 and 22 there had been
a total of 8676 cases of smallpox
in the Japanese Empire, with 2026
deaths. Dr. Eldredge also sent
an elaborate statistical report on
infectious diseases in the Empire.

An application was received
from Henry C. Watt, L. S. A., for
permission to practise medicine
in the Hawaiian Islands, which
having been favorably passed on
by the Board of Examiners was
granted.

The application of a native to
go to Molokai as kokua for his
wife was denied.

Agent Meyer of the Leper Set-
tlement made his usual report on
the condition of affairs at that
place. A petition from a num-
ber of lepers asking for the ex-
pulsion of C. Kopena from the
Leper Settlement was referred
back to await the action of the
District Magistrate. Two cases
of reported leprosy were ordered
to present themselves for exami-
nation at the next regular exami-
nation.

The Secretary was ordered to
advertise for bids for supplying
the Leper Settlement with beef,
tenders to be opened on March
31.

The Board then went into
committee of the whole on the
bids for Japanese kimonos and
on motion accepted the bid of
Yanase & Co. for 500 at 60 cents
each.

The bill of the Hawaiian Ga-
zette Company for printing 500
copies of the laws and rules per-
taining to the Board of Health
was allowed.

The regular order of business
being ended the Board went into
executive session and the reporters
were dismissed.

A Doctor's Decree.

The following terse sayings are attributed by the Medical Record to the late Dr. Frank H. Hamilton: "1. The best thing for the insides of a man is the outside of a horse. 2. Blessed is he who invented sleep; but thrice blessed the man who will invent a cure for thinking. 3. Light gives a bronze or tan color to the skin; but where it uproots the lily it plants the rose. 4. The lives of most men are in their own hands and, as a rule, the just verdict after death would be *felo de se*. 5. Health must be earned—it can seldom be bought. 6. A change of air is less valuable than a change of scene. The air is changed every time the wind is changed. 7. Mould and decaying vegetables in a cellar weave shrouds for the upper chambers. 8. Dirt, debauchery, disease and death are successive links in the same chain. 9. Calisthenics may be very genteel, and romping very ungentle, but one is the shadow, the other the substance of healthful exercise. 10. Girls need health as much as boys, more than boys. They can only obtain it as boys do, by running, tumbling—by all sorts of innocent vagrancy. At least once a day girls should have their balms taken off, the bars let down and be turned loose like young colts.

A Curious Industry.

London has a curious industry, that of the traffic in what are known as funeral horses, that is, horses that are perfectly black. Robert Roe, of Kensington Park Road, has imported these stately animals, says the Strand, for upward of twenty-five years. It seems they come from Friesland and Zealand, and cost from £40 to £70. There must be about 900 funeral horses in London. The average undertaker, however, keeps neither horses nor coaches, but hires them. A white spot takes a large sum off the value of a funeral horse. A white star on the forehead may be covered by the animal's own foretop, and a white fletch painted with a mixture of lamp black and oil.

A long flowing horse tail is sent with a "composite" horse—a Dutch black, not used for the best funeral work, owing to his lack of tail. He is sold to a country jobmaster, with a separate flowing tail, bought in Holland for a shilling or two. In the daytime the "composite" horse conducts funerals, the tail fastened on with a strap; but at night he discards it and gayly takes people to and from the theaters. Worn-out funeral horses are shipped back to Holland and Belgium, where they are eaten.

Reasons Why.

There are two reasons why people are now paying car fare all the way from Waikiki to the Palma Grocery and back. Reason 1. It is the only place on the Islands where the celebrated Salvation Army ten is sold. Reason 2. After paying car fare both ways patrons find they are money in pocket by dealing at this "live and let live" establishment. We also deliver goods between Diamond Head and Moanalua free.

When "The Fever,"

the Bicycling fever, catches you (or you catch it) we would like a chance to prescribe for you, not that we expect to effect a cure, only to sell you a wonder in wheels.

This is what one of the Hawaiian College boys writes to his father regarding the best wheel to buy for his sister: "I hold the Rambler second to none in the country (the U. S.), and if anyone can show a wheel which has traveled as many miles as mine has with as little expense as mine I would very much like to see it. Besides changing the gear from 64 to 70 and the saddle to one of later pattern my entire expense for the wheel has been fifty cents. That I think is a pretty good record, don't you? I am very much afraid that my tires, the same ones I got on the machine, will not last me through the next season. They are almost worn through all over. It will cost me from \$12 to \$15 to get new tires put on, but it is legitimate wear. I never knew a pair of tires to wear as long and as well as these have, considering the amount of travel. When you consider that they have traveled as far as from Cleveland, O., to Honolulu, over all sorts of roads and paths, you will see that they must needs wear some."

The above opinion you will find to be the opinion of about every rider of a Rambler in this city, and there are a lot of Rambler riders here. Our trouble has been to get enough wheels, the makers not realizing that we want '97 stock before the snow has melted in their country. By the Australia this week we received 7 ladies' wheels, and six of them we have sold. By the Miowera mail we ordered 20 Ramlers and by this week's mail we are ordering 5 more, and we have orders in for 2 Racers, so by return Australia we will have 27 Ramlers, and in future we do not propose to lose the sale of any wheels by not having them on hand. Remember that the Rambler is fitted with the only tire that has proved entirely satisfactory in this country, the great "G. & J." There are imitations to this tire to be found here, but if you don't find it out when you buy them, you will after you have used them a while, to your sorrow. The genuine "G. & J." tire is to be had only at the Rambler Agency, and there you can get the right article, fully guaranteed.

Spring exhibitions of art are held the world over—why not silver, glassware or crockery? The advantage in most presents is in the fact that they answer for any season in the year. A Christmas present of cut glass would do as well for a birthday in July. Our goods are seasonable.

Dorflinger's cut glass, the best in the world, because the cuttings are perfect and the designs unique. Best for the purchaser because the price is low. Best for the home because it is useful and decorative.

Our silverware is the same sort you buy of exclusive dealers in silverware. The weight is the same, the designs are the most modern and elegant, and the price is the same as you pay to the dealer in San Francisco. Ours is made by the Whiting Manufacturing Company, and has no superior. The pieces include everything to be found in a silversmith's.

In crockery this is the help-fullest of stores. Make the most of it. Its every day selling is a series of agreeable surprises to China lovers. Genuine French China, Royal Worcester, Crown Derby and Coal Port go to you for what they are worth—nothing better for wedding presents.

Our stock of lamps is the largest and the assortment the best in Honolulu—some for oil and others for electricity.

MADE THEM ASHAMED.

And It Was Well Done, Whether He Intended It or Not.

"The greatest of all faults is to be conscious of none"—that is, of none of our own. Perhaps the second greatest is to be conscious of all of our neighbors' faults. This weakness is not a newly discovered one. People knew about it some time ago. Aesop did when he wrote:

"Every man has two wallets, one behind and one before. The one behind is filled with our own faults, and the one before with those of our neighbors."

From that Aesop drew a conclusion as to which faults we see the easier. His conclusion holds good today, not so much, let us hope, with most of us as with the two old ladies in this little story.

They had been entertaining, or perhaps boring, a roomful of company with dissertations upon the general disagreeableness of another woman. She was ugly and didn't know it; she was spiteful and didn't care; her father was a vulgar plebeian, etc.

In the midst of it all a very genial and pleasant looking old gentleman entered the room. Perhaps he had not caught the drift of the conversation; perhaps he had. At any rate, he chose to act as if he had not.

"Oh," he cried, his face lighting up with pleasure. "So you are discussing Miss ——. I'm so glad, for I'm very fond of her."

"Why, pray?" asked one of the old ladies, a little embarrassed.

"I'll tell you one thing that happened this very day to show you why. I heard somebody in her presence make a disparaging remark about your son, madam, and I noticed how quickly Miss —— turned the conversation. I cannot help admiring a person who does not like slander."—Philadelphia Times

A NEAR EVENT.

Europe is becoming all agog with anticipation of the new opening for trade shortly to be provided by the Siberian railway. Vladivostok will on the inauguration of that great artery of traffic spring into huge importance as an entrepot of the commerce of Europe, Asia and all the shores of the Pacific. It will as certain as fate be the terminus of steamer lines from the Pacific Coast, calling at ports of Japan as steamers do now running thence to Hongkong. The distance from Yokohama to Vladivostok is about the same as that from Yokohama to Hongkong, while the distance from Hakodate to Vladivostok is only about half that from Yokohama to Hongkong. As between direct steamer routes from San Francisco to Vladivostok and to Hongkong, there is an advantage in favor of Vladivostok of probably a thousand miles in round figures. The opening of the Siberian railway, therefore, means that the Hawaiian Islands will be touched by vast new creations of commerce, and have their position as the crossroads of the Pacific realized in a greater degree than may have been imagined only a few years ago. Even the opening of a canal across Central America, which is only as yet a dim and distant prospect, might not have results more important in their bearing upon the destinies of Hawaii than the opening of the Siberian railway, which in the near future is to be a fact accomplished. For one thing, the approaching event is going to make these Hawaiian Islands and the Empire of Russia quite intimate neighbors.

THE TWO KINDS.

An editorial in the Planters' Monthly insists that "cane sugar is superior to beet sugar in every respect." Also that the people of the United States will not be satisfied with beet sugar alone, or even in the chief proportion, but must have at least half its supply in cane sugar. It gives figures to show that the consumption of sugar is immensely greater, in proportion to population, in those countries that have been using mostly cane sugar, than in countries whose supplies are confined almost wholly to their own productions of beet sugar. Not only that, but the only countries exhibiting an increase of sugar consumption worth mentioning are those that have given the preference to the cane product. It is to be hoped that these statements will be borne out by future experience, as they mean a great deal to the fortunes of Hawaii. They bear out the opinion given by James Dunn, a sugar factor of Glasgow, until lately the Hawaiian consul at that city, in an interview he gave the writer at Honolulu some years ago. If the theories in question can be upheld by unchanging facts, it is worth while pushing the discussion and making it prominent. There is danger that beet sugar may, by artificial aids of national protection and municipal subsidies be forced down the throats of American consumers until through usage their taste may be vitiated in favor of the inferior article. It has become common knowledge that the consumers of coffee in different countries have come, by the involuntary use of the adulterated article, to acquire a distaste for pure coffee. As a matter of fact the tooters of beet sugar in the United States are now strenuously arguing that beet sugar is superior to cane sugar in both strength and purity. The question is of huge importance to Hawaii and ought to be forced to a universal decision if possible.

Bicycle development has been about as rapid a process as anything in the nineteenth century. One of the greatest improvements was the pneumatic tire, and now a remarkable improvement in making tires is announced. A machine has been invented in England for that purpose, which turns out 3000 tires a day, doing the work of 150 men. Its product is a single tube tire better in every way than any kind heretofore produced. This invention ought to make bicycles cheaper.

A Newcastle, England, firm has obtained an order from the Spanish Government for a pontoon capable of lifting a vessel of 14,000 tons, to be placed in the Philippine Islands. This looks like Spain's succumbing to her sea of troubles in that distant quarter not a little bit.

Purely for its curious interest, and not to put mischief into the minds of local importers, is the story of a Belgian's "doing the customs" reprinted elsewhere.

A VOICE FROM THE BLEACHERS.

Local interest in the cricket games as reflected from the "bleachers" is increasing. During Saturday's games the "bleachers" were particularly vociferous and kept the players under a running fire of good natured banter. One small boy brought down the crowd by advising the batsman to "go buy a case of Ramier Beer and get some life in you." The crowd applauded the remark, knowing that Ramier Beer is celebrated for its invigorating and strength-giving propensities.

"TRIBUNE" 1897 WHEELS, ETC., ETC.

We have just received our 1897 TRIBUNE WHEELS and invite inspection. We have them both for LADIES and GENTS and we have plenty of them on hand and more on the way.

The '97 Tribune is an improvement over its predecessors and is second to none. Among the changes made we might mention the increase of the upper frame tube to 1 1/8 in., and the adoption of one inch tubular seat post, secured by clamp, retaining otherwise the same form of forging into which the rear tubes are brazed. The crank fastening is also improved, and secured more positively by the use of a small key instead of clamp screw; the matched corrugations of the shaft and crank are retained.

We are selling '97 Tribunes at \$110.

For a good, strong, durable wheel for every day use we have the "STORMER." It is a cheap wheel for the money and will be found quite as serviceable as some of the higher priced ones. It is the '97 pattern and has all the late improvements.

We also have a few "ZIMMY" wheels on hand, which we are closing out at \$45. They are cheap at double the money.

We carry a full line of bicycle sundries of all kinds, such as wooden handle bars, shoes, pumps, etc., at reduced prices.

HOUSEKEEPERS who are wise will not be persuaded into purchasing the unreliable baking powders which some dealers wish to sell for the sake of the additional profit derived therefrom. Crudely mixed from low-grade, impure ingredients, such powders cost but half as much to make as the highly refined, absolutely pure Royal Baking Powder, although retailed at the same price. They are unwholesome and lacking in leavening strength.

Royal Baking Powder gives the greatest value for its cost, and there is no other baking powder or preparation that will give such satisfaction, or make such pure, wholesome and delicious food, or which in practical use will be found so economical.

Rattlesnakes, Butterflies, and ... ?

Washington Irving said, he supposed a certain hill was called "Rattlesnake Hill" because it abounded in—butterflies. The "rule of contrary" governs other names. Some bottles are, supposedly, labeled "Sarsaparilla" because they are full of... well, we don't know what they are full of, but we know it's not sarsaparilla; except, perhaps, enough for a flavor. There's only one make of sarsaparilla that can be relied on to be all it claims. It's Ayer's. It has no secret to keep. Its formula is open to all physicians. This formula was examined by the Medical Committee at the World's Fair with the result that while every other make of sarsaparilla was excluded from the Fair, Ayer's Sarsaparilla was admitted and honored by awards. It was admitted because it was the best sarsaparilla. It received the medal as the best. No other sarsaparilla has been so tested or so honored. Good motto for the family as well as the Fair: Admit the best, exclude the rest.

Any doubt about it? Send for the "Curebook." It kills doubts and cures doubters. Address: J. C. Ayer Co., Lowell, Mass.

PIE IN BOSTON.

The Experience of a Man From the West Who Broke Into Society.

A well known man in his line of business has his office in Park row. He formerly lived in Boston, and before that he had tried the vagrancy and uncertainties of one of the border cities when it was on the "top crest of the advancing wave." He made the transfer directly from the western desolation to the center of cultivated gravity.

"I had never lived in the east," he said, "nor had my family. We concluded among ourselves, in a quiet way, that we would follow the customs of the elect as far as our means and opportunities would allow. As we used to say in Kansas City, it was hard sledding for some time. We made no headway. My wife is a pretty good entertainer and does the social business for the family. Whenever she concocted an afternoon tea or a dinner, she consulted with me about the table, and I always gave her my idea, and then she did as she pleased. But somehow we didn't seem to get in the swim—or the family didn't. Of course I made acquaintances in business, but that does not branch into society. I was in a complaining mood one day when I was with a Boston man who had come to be quite chummy with me in commercial matters, and unburdened myself to him about the exclusiveness of those whom we had hoped to cultivate. I spoke of the dinner we had given and of the poor results. He asked me minutely what we had had on such occasions and called off every article. "What kind of pie did you give?" he asked.

"Pie?" I exclaimed. "You didn't suppose we would offer Boston people pie?" "Then he explained to me that that was a mistake many western people who came to Boston made—that they thought pie was too far west and vulgar. But he assured me that Boston society had pie three times a day, and that though a man and his wife had every other requirement of New England, and had not pie, they could not win. I knew pie was a western staple. In some sections out there pie comes first and last, and is handed out between meals. And we were warned that it was considered plebeian in the east. So we studiously cut it out of our social functions and came very near being ostracized. As soon as we discovered the cause my wife got up a dinner that included every sort of pie she knew anything about. I think she had a cut of a pie on her invitation, and a souvenir pie was given after the dinner to each guest. From that on our social status was established. Of course, pie is vulgar in New York, but it is not a bar within itself."—New York Sun.

Anchored.

Anchored is what the man said when he dropped into the Anchor Saloon. Why? said his friend. Because you can always get a cool refreshing drink served by gentlemanly attendants, and if you happen to drop in during lunch hour you will be regaled with solids as well as liquids. In fact the lunch at the Anchor is said by many to be the best in town. The celebrated Seattle beer is on tap. It is sparkling and ice cold. The finest of wines and liquors in town are to be had at this popular resort.

For more than fifty years
has PERRY DAVIS' PAIN
KILLER stood the test
against all remedies prepared
to eradicate pain, and today
stands at the head of the list
among the medicines that are
so essential to keep at hand in
the home.

It is not a new fangle remedy
nor do the proprietors lay
claim to any wonderful revela-
tion of the ingredients that en-
ter into the manufacture of
this ever popular remedy.

It is perfectly harmless, you
need have no fear of becoming
habitually inclined to its use.

For Colic, Cramps, Dysen-
tery, Colds, and all painful
affections, a few doses will cer-
tainly give relief. You cannot
afford to be without a bottle
in the house.

Your forefathers used it
and found it beneficial.

Why experiment with some
remedy that is new and its effect
on the system unknown?

It has many rivals but no
equal.

How to Tell a Lady.

A company of women was discussing
lately how to know a lady in a casual
encounter. "You may tell her," said
one, "by her boots, gloves and handker-
chiefs." Another thought her skirt
binding told the story, and a third de-
clared that her language would betray
her, "and it's words, not ideas, that
concern this particular test," the speak-
er added. It is undoubtedly true that,
while the nicety of the small essentials
of a woman's toilet indicates a certain
degree of refinement of taste, they are
not the unmistakable mark of birth and
breeding. Many would much more read-
ily give the preference to the intonation
of the voice and the use of words as a
sure sign. A fine detail in clothes now
is quite possible to almost any observing
person; an unmistakably coarse, not to
say vulgar, looking woman is often irre-
proachable in the matter of boots,
gloves, skirt bindings, etc. The charm
of a well modulated voice, using good
English, undefiled by slang or provincial-
isms—this is often acquired without
the right of culture.

How to Prepare Shredded Eggs.

Boil 6 or 8 eggs hard; remove the
yolks and cut the whites into shreds or
pretty fine pieces. Put a large table-
spoonful of butter into a pan on the
range. Add a scant tablespoonful of
flour or corn starch, if preferred, and a
half pint of milk or more to make a
creamy sauce. Season and set over boil-
ing water to keep hot. Toast several
squares of bread and butter them. Cover
with the mixture. Put the yolks through
a coarse sieve or vegetable press and
sprinkle over the toast. Set in the oven
about 3 minutes, although this is not
necessary. Serve at once.

How to Wash Blankets.

Cut up some good yellow soap and
boil it in a jelly with soft water. Put
some of the boiled soap in warm, soft
water, adding a large tablespoonful of
ammonia to every tub of water to make
a good lather. Wash the blankets in
two tubs of this kind, then
rinse in plenty of warm water slightly
blue. Wring out thoroughly, shake
them to raise the nap and hang out to
dry. They will be much improved by
being shaken twice more during the
latter process. Take the blankets in at
night before the dew falls, place them
in a clothesbasket, cover with a cloth
and stand in the kitchen. If possible,
they should be hung out of doors for
three or four successive days to dry
thoroughly, and care should be taken to
select a sunshiny, breezy day for the
washing.

after all.
She—What! Has something disagree-
able happened at the club?—New

Citizens Attention.

These are days of considerable
anxiety and perplexity to all who
have possessions or other interests
in the Republic of Hawaii, and it
is time that our citizens came to a
mutual understanding on several
important issues. The prospects for
Annexation appear at present
vague and indistinct, and our
destiny cannot be foretold with
certainty. There are those, also,
who still fondly cling to the hope
of a return to the old order of
things, and who cannot be per-
suaded otherwise, yet this out-
look appears far more lazy than
that of Annexation even to the
Monarchy. But, fortunately, in
the midst of all this uncertainty
there is solace in the fact that
Buffalo Beer has come to stay and
that patrons of all sorts and
opinions may equally share the
benefits of its invigorating and
sustaining properties. We are
moreover assured that this favorite
brew will continue to be dispensed
as heretofore at the Royal,
Pacific and Cosmopolitan Sal-
oons.

CITY FRONT NOTES

SOME MARINE JOINTINGS OF TODAY.

U. S. S. Marion From San Diego—Bark
Highland Light in Port—The
Kaena Departs.

The Keahou leaves at 4 today for Koloa.

Tomorrow, high tide large 3:54 a m; high tide small 3:55 p m; low tide large 9:56 a m; low tide small 10:45 p m.

The James Macee came in with a load of Garden Isle product this morn. The James leaves again at 4 this afternoon for Kapa.

The U. S. S. Marion saluted the Hawaiian flag as soon as she had arrived in the harbor, and was answered by the Kakaako shore battery.

The schooner Kaulilua, which sailed yesterday for Maui, was anchored off port today. She split her propeller trying to beat up the Molokai Channel.

All Inter-Island steamers will have electric lights after this. Those without modern illumination are now being supplied with electric plants.

Yesterday afternoon, the American bark Highland Light, Lewis master, arrived from Departure Bay with coal for Allen & Robinson. She made the passage in 23 days.

The U. S. steamship Marion arrived from San Diego, California, which port she left on the 27th of last month. She comes to relieve the Alert.

The baby steamboat Kaena departed at half past ten o'clock this forenoon for Wai alua ports. Captain Smythe was in command. The Kaena flew a brand new flag at her mainmast head. When her nose pointed toward the mouth of the harbor, the steamer seemed to be anxious to reach the blue water, showing herself to be more speedy than she used to be. Quite a crowd was on the wharf to see her off.

PASSENGERS ARRIVED

From Kona per star James Macee, Mar 18—Mr Wolf and 5 deck passengers.

Unlucky Torpedo-Boats.

The sinking of the French torpedo boat No 86, in consequence of a collision, is the fourth boat of that class which has had bad luck. Sixty-three of these boats, ranging from fifty-four to fifty-six tons displacement, were built between 1885 and 1892. Their contract speed was twenty knots with 520 horse power, but the first lot of thirty-five boats were found too slow and heavier boilers were put in. This reduced their stability and led to accidents. In 1889 No 102 capsized in a moderate sea and drowned six men. Three weeks later No 110 went down in a squall off Cape Barleur, drowning all hands. In 1894 No 120 burst a boiler and killed two men, and now No 86 has gone to the bottom.

Remodeled British Ironclads.

The Monarch, rated a third-class turret-ship in the British navy, built in 1892 has been thoroughly refitted and re-engined at a cost of \$500,000 and was commissioned last month as a guardship in Simon's bay, Cape of Good Hope. The hull, built of iron at the Chatham dock yard twenty-seven years ago, is still in excellent condition, and so are the Warrior, built in 1861; the Northumberland, 1865; Devastation, 1873; Sultan, 1871; and Thunderer of 1877 all of which have either been recently refitted or are now at the dock yard being put in condition to meet present requirements.

BORN.
11—At Kamaoka, Oahu, at 7:30 o'clock on the morning of March 17, 1897, to the wife of Hansell K. U., a son.

At the Hawaiian Hotel.

The government band will play at the Hawaiian hotel this evening, commencing at 7:30. Following is the program arranged:

PART I.
March—El Cantillo, Sousa.
Overture—Valse, Rigo.
Selection—Italian Melodius, Remezotti.
Carnet Solo—The Surf, Steinhauser.
Mr. Charles Krenter.

PART II.
Echo Quartet—Thurongian Forest, Kiesler.
Fantasia—Tamborine, Boggetti.
Ballad—That Low, salt Refrain, Lord.
Waltz—Town of songs, Steinhauser.
Hansell Pined.

Reasons Why.

There are two reasons why people are now paying car fare all the way from Waikiki to the Palama Grocery and back. Reason 1. It is the only place on the Islands where the celebrated Salvation Army tea is sold. Reason 2. After paying car fare both ways patrons find they are money in pocket by dealing at this "live and let live" establishment. We also deliver goods between Diamond Head and Moanalua free.

HARRY CANNON,
Palama Grocery.

PRESIDENT DIAZ DECORATED.

BERLIN—The Reichsanzeiger officially announces that President Diaz, of Mexico, has been decorated by Emperor William with the grand cross of "Rainier." President Diaz issued an edict to the effect that no beer except the sparkling "Rainier" be served in public places, or on state occasions.

W. W. DIMOND'S

Spring exhibitions of art are held the world over—why not silver, glassware or crockery? The advantage in most presents is in the fact that they answer for any season in the year. A Christmas present of cut glass would do as well for a birthday in July. Our goods are seasonal.

Dorflinger's cut glass, the best in the world, because the cuttings are perfect and the designs unique. Best for the purchaser because the price is low. Best for the home because it is useful and decorative.

Our silverware is the same sort you buy of exclusive dealers in silverware. The weight is the same, the designs are the most modern and elegant, and the price is the same as you pay to the dealer in San Francisco. Ours is made by the Whiting Manufacturing Company, and has no superior. The pieces include everything to be found in a silversmith's.

In crockery this is the help-fullest of stores. Make the most of it. Its every day selling is a series of agreeable surprises to China lovers. Genuine French China, Royal Worcester, Crown Derby and Coal Port go to you for what they are worth—nothing better for wedding presents.

Our stock of lamps is the largest and the assortment the best in Honolulu—some for oil and others for electricity.

Dr. G. R. Dimond.

LEWIS & Co.

If a man's dinner is right, and he rises from the table conscious that his wife has used the same judgment as to price that she did in the selection of the articles dispensed of there can be no indigestion to follow. Our goods are of the kind which bring health, happiness and a fat purse.

Table delicacies are a fad with us—they are bought because we know the average Honolulu is fond of good things for the stomach. Our prices are below the average and special inducements are offered to cash purchasers. Our latest importations include the best goods obtainable in the English markets.

Copeland's English Peas; Cod's Roe, Mackerel in Mustard Sauce and Cambridge Sausages are thus as well put up that it would be difficult to detect the difference between them and the same articles direct from the market. "Teyssomeau" is a long name to put before Pate but the combination makes the best but ever placed before a gourmet. These are goods that anyone may eat without fear of indigestion following. They are put up in the best factories in Europe and come to us in elegant condition.
