## OUT OF POLITICS

McCANTS STEWART QUILTS THE GAME.

Sends in His Resignation as a Member of the Republican Territorial Central Committee.

T. McCants Stewart has sent in his resignation as a member of the Republican Territorial Central Committee. He says that he is out of politics "for the present." His letter of resignation, sent to Chairman J. A. Kennedy of the committee, states that he has neither the time nor the physical strength necessary for the coming campaign, in which he would be in politics at all, he would be making a fight for city and county power.

Stewart has given a proxy to James L. Holt up to June 5, by which date it is expected that a successor to Stewart will have been appointed. The appointment is to be made by the chairman.

The letter of resignation is as follows: Honolulu, Hawaii, May 17, 1902. To J. A. Kennedy, Esq., Chairman, and members of the Republican Territorial Central Committee.

Gentlemen: Under the rules of the convention, you are authorized and empowered to fill all vacancies arising in your committee. From this I conclude that my resignation should be sent to you.

The coming campaign will require hard work from all republicans, especially from those who shall be charged with the management of the party. I am in favor of county and municipal government. If I were to stay in your committee, I would favor making this an issue at the primaries, and pledging every candidate to vote for it before nominating him for the legislature.

This together with campaign work would involve me in a struggle, for which I have neither time nor physical strength. I, therefore, hereby absolutely resign as member of the Republican Territorial Central Committee, to take effect on the 7th day of June, 1902; and I resign now so that my successor may be deliberately chosen, and may assist in preparing for the primaries, and that there may be no doubt as to my determination not to be a candidate at the next Republican primaries, and as to my withdrawal from politics for the present.

Very respectfully,  
T. McCANTS STEWART.

Stewart has been a very active member of the Republican committee, having been a regular attendant at meetings and always to the front in discussion. The rules of the party as adopted are very largely his work, and he was a leader in the fight for "open" primaries, which was before the committee for a long time.

Life at 40,000.—All Over in a Few  
Moments.ST. THOMAS (D. W. I.), May 3.—It  
is estimated now that 40,000 persons  
have perished from the volcanic eruptions  
at St. Pierre, the surrounding islands,  
and on other West Indian islands.  
FORT DE FRANKS (Martinique),  
May 9.—Of the 20,000 inhabitants of St.  
Pierre it is thought that not a single  
one escaped the terrible eruption of  
lava from Mount Pelee yesterday morn-  
ing. Eighteen vessels in the harbor  
were all burned and sunk and the total  
numbers of passengers and sailors res-  
cued from them is thirty. All the rest  
are dead.The Governor of Martinique, M. L.  
Mouttel, who started for St. Pierre the  
day before, has not been heard from  
and is thought to have perished. His  
staff Colonel and wife were with him.  
Senator Knight, President of the Gen-  
eral Council, must also be dead, as well  
as United States Consul T. T. Prentiss  
and all the other Consuls.The wiping out of the city was ac-  
complished in a few minutes. After a  
week of rumblings in the interior of the  
volcano followed by showers of lava  
dust Wednesday's molten lava burst  
suddenly at 8 o'clock yesterday morn-  
ing. St. Pierre was destroyed and all  
of its inhabitants killed almost in a  
twinkling. Those who saw the eruption  
from the sea say that masses of  
fire fell from the sky.Although St. Pierre is only fifteen  
miles from here, it is impossible to ap-  
proach it on shore. Hot ashes and ruins  
block all approaches. The cable to St.  
Pierre is destroyed. Every available  
vessel has been sent to the harbor of  
St. Pierre to rescue survivors, if any  
there be. The French cruiser, Suchet,  
which was here during the night and  
brought the first definite story of the  
disaster, has gone to Guadeloupe for  
provisions and will reach St. Pierre  
harbor tomorrow morning. It is  
thought that the residents of adjoining  
districts not overwhelmed, who were  
dependent on the city for their food  
supplies, will be in danger of starva-  
tion unless help soon reaches them.The commander of the Suchet re-  
ported that he saw the eruption and  
went in as close to St. Pierre as he  
dared. He rescued about thirty persons  
from vessels in the harbor, eight of  
them from the Quebec steamer, the Ro-  
ralma, which exploded and sank after it  
had been set afire by lava. All of the  
rescued persons are burned, some of  
them terribly. A number of officers of  
the Suchet were sent ashore in small  
boats, but they were unable to penetra-  
te the town. They saw heaps of bodies  
upon the wharves, but they did not see  
a single living being. They report that  
not a single vessel in the harbor endur-  
ed the torrent of fire, all burning and  
sinking. The commander of the Suchet  
believes that not a single person in St.  
Pierre at the moment of the outbreak  
escaped; that the entire town is de-  
stroyed, and that probably many of the  
surrounding parishes are devastated.The cable repair-ship Grappler of the  
West Indian and Panama Telegraph  
Company was in the harbor and was  
one of the vessels destroyed, being one  
of the first ships to disappear.The Roralma was owned by the Que-  
bec Steamship Company. Captain Mug-  
nah was in charge of it, and F. Ince,  
Mrs. F. J. Ince and Mrs. Stokes were  
among the passengers.Another vessel that was recently at  
St. Pierre and was probably set afire  
and consequently lost, was the Anna  
E. J. Morse, owned by J. S. Winslow &  
Co., of Portland, Me. Captain Parker  
was in charge. He arrived at St. Pierre  
two weeks ago.The manager of the Francois sugar  
factory here tried to reach St. Pierre  
today, but failed. He came back re-  
porting that the coast was covered with  
ashes, the town enveloped in dust, and  
landing impossible.Few details of any kind can be ob-  
tained about the preliminary stages of  
the eruption. Cable connections with  
St. Pierre were broken Tuesday and  
Wednesday, probably by earthquake  
shocks. On Wednesday a shower of  
boiling mud is said to have descended  
on a factory two miles from St. Pierre  
wrecking it and killing many employees.**SUGAR.**NEW YORK, May 9.—Raw, firm;

## AUTOMOBILE IN SYRIA.

While it may sound strange, it is nevertheless true that inquiries about automobiles are being made in Syria. Only one specimen, an inferior second-hand French machine, has been seen there, so it is reported by the American consul; but it is thought that in Syria and Palestine, with their lack of railroads and street cars and with their rapidly developing carriage-road systems, automobiles would do well. A new road is now being built between Sidon and Beirut, and will soon replace the ancient bridle path. While this road will be level, others throughout this region are steep and make numerous sharp turns. Vehicles for use, therefore, must be strong and durable. Between Haifa and Nazareth, the most satisfactory carriages employed in the tourist traffic are powerful, two-seated surreys made in Buffalo, N. Y. In these parts, horses suffer greatly from the heat; this difficulty would not apply to a machine. In Beirut alone, 500 carriages are running, and hundreds more are in use in the Lebanon and in Palestine. The country is poor, and, except possibly for the accommodation of tourists, there would not at present be much demand for automobiles outside of Beirut.

The tourist traffic has more than doubled in Syria during the last ten years. At present, about 750 foreign tourists pass through Beirut annually, most of them proceeding to Haifa and Damascus. Twice this number go through Palestine. Gallies is also growing in favor among tourists. The figures given do not include pilgrims, thousands of whom seek the holy places, nor the special excursions which lately have come into vogue. Recently, the Celtic was there with 829 American tourists; while the Augusta Victoria brought some 400. Among local physicians, there is a growing sentiment in favor of the automobile.

## ST. PIERRE.

No seismic disaster in the world's history has equaled in the influence it has had through literature and art, the destruction of Herculaneum and Pompeii in A. D. 79. From the rediscovery in 1755 of the remains of Pompeii, until the present, that cataclysm has stood in both literature and art for the figurative extreme of sudden and awful destruction. Yet the destruction of St. Pierre in the island of Martinique only the other day, in suddenness and awfulness falls little if any short of the Pompeian horror. The accounts so far received, while leaving no doubt of the awful and complete destruction are yet wanting in those details from which literature might draw for its descriptions and art for its materials. What is known now is what has been seen from outside the scene of disaster. This is awful enough in its enormity. But there can be no doubt that the horrors revealed when once the scene can be visited will give material for the highest flights of the descriptive harpist.

Such catastrophes as this and of the one only two years ago at Galveston, throw into strong relief the impotence of man against the forces of nature. Nature in her milder and more docile phases has been trained to do man's bidding. But her might has not been slackened nor her fury curbed.

All contracts made hereafter for transportation of merchandise from European Russia to Siberia and intermediate ports will contain a clause that such goods must be conveyed on ships flying the Russian flag. This refers mainly to naval supplies, but the Ministry of Finance has perfected arrangements for the shipping of Russian products to the Far East. On May 1, 1902, the entire maritime coast, from Posiet to the Bering Sea, will be closed to foreign ships by imperial decree. This will seriously affect the coal interests of Sakhalin. At least twenty-four ships yearly are now necessary to bring the coal cargoes required for Vladivostok from Sakhalin.

The approach to Honolulu from the Channel wharf ought not only to be made into a good road, but an attractive avenue. In about two years Admiral Merry has changed a swamp on to which he pumped coral from a dredger into a green garden, with handsome algarobas rising already to the dignity of shade trees. This shows what can be done. There is no reason why a few years should not see this road from the wharf, at which so many travelers arriving here make their first landing, a beautiful driveway. At present it is an abomination, and in wet weather almost impassable. It is a poor way to introduce the city to new arrivals to have them trudging along such a road, or bumping along it in a hack. The Superintendent of Public Works will do well to make improvements here.

The retirement of T. McCants from the Republican Territorial Committee removes from the meetings of that body one who has added much animation to the deliberations.

shaped to a considerable extent, at least, the phraseology of its resolutions. He has been indefatigable in seeking to impress his ideas on the policy of the committee, nor need he be dissatisfied with his success.

The name of the volcano, Pelee, whose activity destroyed St. Pierre, is grossly similar to the name of our own volcano goddess.

The arrival of the United States gunboat Manila this morning recalls the brilliant exploit and victory of Admiral then Commodore Dewey, which took place four years ago. The Manila was then a Spanish naval vessel, but by capture and the fortune of war was transferred from Alfonso to Uncle Sam.

Next Tuesday Cuba assumes her place in the sisterhood of nations as a free and independent government and country. "Cuba Libre," the dream of at least two generations of Cuban patriots will then be realized. What shall be her fate, will depend on her patriots. The world wishes her well, and America has a special solicitude for her success.

The enforcement of decorum on the street cars is a matter that concerns the entire public, and the entire public and all decent individuals will support the street railway companies in enforcing it. Incidents are constantly occurring which should be sternly repressed.

Pain's statement that he has not elected to conduct a single track street car system with horse power may be the truth, but if it is the Hawaiian Tramways Company has lamentably failed to carry out its intentions. Years ago Honolulu would have received with joy an intimation that the company wanted to put in electric power, but hope deferred often maketh the heart skeptical as well as sick, and now the public has about settled down to wait, thankful for any little favors the courts will do to hurry a settlement of the many questions the rival companies are disputing.

Advices from Washington indicate that the chances for assistance of Hawaii in paying off the fire claims are very good. There is a very kindly disposition towards the Territory among men in public life in the national capital, according to the correspondence of men who know, and the right sort of work in Washington will do much for Hawaii. The fact that the Territorial delegate is not able to do such work and fails to get the attention or command the respect of influential men has made it necessary to send special agents able to intelligently discuss Territorial affairs. Such conditions should be a lesson to voters. The next delegate should be a man able to perform the duties of the position.

In connection with the terrible volcanic disaster on the island of Martinique and the news that Vesuvius has shown new activity, comes word of some slight signs of activity in Kilauea. It may be that scientists from the present phenomena may add much to our knowledge of seismic phenomena.

Hawaii is not such a tropical country after all. The Rapid Transit company has found it advisable to do away with khaki uniforms and have its carmen dressed in cloth, as the conductors and motormen found khaki not warm enough early in the morning and late in the evening.

The Democrats appear to be finding "issues" at last. The tariff controversy is being revived, and there is the "kill and burn" policy in the Philippines for a campaign cry. Present indications are that there will be something like a return to Grover Cleveland's campaign motto—"a tariff is a tax," and a strong effort by the Democrats to carry the country for tariff reform. The tariff question seems to be one that will not down.

The war over Primo beer licenses is only a beginning of a very serious practical discussion in the Territory. Sooner or later the public will have to take hold of the liquor question as a political issue. The Anti-Saloon League is doing missionary work and laying foundations and the day will come when it will be up to the voters to declare a policy. The dispensary plan that was so nearly victorious in the last Senate will be heard from again. Prohibition also has its adherents and the future will probably see a very lively campaign on the subject.

The Harvard Bulletin prints each month a list of the articles by Harvard men in the leading magazines. In line of the April magazines are 12 such articles, and in 12 of the March issues were 21.

The women at Iowa university are being trained in the sprints and the high and broad jumps, branches of athletics in which they have not usually indulged. A small field is set aside for their use.

The temperance sociological club at Ann Arbor recently held two public meetings on the saloon problem. At the first "Doc" Rose, a saloon-keeper, spoke on "A Liquor dealer's view of the problem," and at the second a minister and a prohibitionist presented their views on the subject.

## FAREWELL PERFORMANCE.

Elleford's Will Close Their Season Tonight.

The last performance of the Elleford company will be given this evening at the Orpheum. "New York Day by Day" which proved one of the most popular bills of the season will be presented, enlivened with many specialties for a farewell performance. The Ellefords leave for the coast to fulfill contracted engagements on the Alameda and will seize the opportunity of seeing a little more of the country on Monday and Tuesday than the arduous work of daily rehearsals has hitherto allowed them to enjoy. At the matinee this afternoon "Little Lord Fauntleroy" will be given for the benefit of the children with Baby Lillian in the role of Fauntleroy. The Ellefords have concluded a very successful season catering to large audiences in satisfactory manner and carrying out all their promises. The bill tonight is full of comedy and exciting climaxes and situations and should draw a big farewell house.

A fair sized audience witnessed the Ellefords in Little Lord Fauntleroy at the Orpheum last night. The play went with a dash which spoke well for the attention it received in rehearsal. "Baby Lillian" repeated her success of the previous night in the title role.

## NEW COMET.

BERKELEY, May 3.—An interesting discovery concerning the new comet first observed by Professor Brooks two weeks ago has been made by Professor Armin O. Leuschner of the University of California, and three students, William E. Johnson, William E. Johnson, and H. H. Curtis, and T. A. G. Weymouth. They have found that this new comet is between the sun and the earth—a position in which no other comet has ever been discovered. It revolves around the sun, making the circuit in 320 days, or one-fourth the time required by any comet before recorded. The discovery is due to a new method of determining orbits recently invented and perfected by Professor Leuschner, without which it would have been impossible to have learned these facts from the available material. As soon as the discovery of the comet by Professor Brooks was announced observations were begun at the Lick Observatory. On the morning of April 17th, Astronomer Alker secured an observation of the new body and telegraphed it to Berkeley. Nine hours before on the same night another observation was secured at the Royal Observatory at Königsgberg, Prussia, which was also wired to Berkeley. Computations were commenced at once, with remarkable scientific results. It is supposed that this is the same comet which was observed in 1748 for three days only, and has never been seen since that time. Professor Leuschner's results have been telegraphed to the Harvard Observatory, which is the American station for the distribution of astronomical discoveries.

ASTOR AND LIPTON AS PEERS. The latest coronation rumor is a revival of the statement that William Waldorf Astor will be made a peer in June. Of late Mr. Astor's gifts to scientific, educational and patriotic institutions in Great Britain have been large and numerous. Rumors still insist that Sir Thomas Lipton will receive a peerage in recognition of his work in connection with the King's dinner to 500,000 poor on coronation day.

ASSETS AND LIABILITIES. Schedule of the Paradise of the Pacific.

The schedule of assets and liabilities of the Austin Publishing Company was filed in the United States District Court yesterday, showing assets of \$4,694.38 and liabilities of \$4,460.26. It is said that several parties are looking for a chance to buy the paper. The liabilities include the following:

William Langton, services as manager, \$140.75; Mrs. E. A. White, services as assistant, \$8; William Langton, balance of salary as manager, \$1590.29; Mrs. E. A. White, services as assistant, \$197; M. P. Robinson, \$1893; Catton, Neil Co., \$154; Mansard Collier Co. of San Francisco, \$55.24; Honolulu and Hawaiian Paper Co., \$108.15; Ah Chee Bros., \$125.

The assets of the concern, consisting chiefly of the newspaper plant which is inventoried at \$265, a note for \$388.30 against J. Nawahi, and a large number of open accounts.

The largest debtors are J. J. Williams, \$54.89; Honolulu Blue Book, \$350; Fire Claims Commission, \$40.75; J. F. Testa, \$111.10; Moana Hotel, \$194.45; The Volcano (Ayres & Sabini) \$148.40; The Spokesman, \$83.50; Honolulu Photo Supply Co., \$100; George Kila, \$16.25; Evening Bulletin, \$280.81; O'Leary, \$13.15. There is also listed a number of names of persons owing subscriptions for the Paradise of the Pacific, the total being \$26.

SOUNDED GENERAL ALARM. High Sheriff Brown gave the officers a surprise last night. He caused a general alarm to be sounded in order to test the working of the new system established with the force. The alarm was sounded by means of some loud and long toots from the fire whistle. Out of a total force of 76 men, no less than 62 men responded at the police station. Within forty minutes after the first alarm, 56 names had been checked off the list.

MAY REFUND DUTIES. SAN FRANCISCO, May 10.—With the evident intention of refunding duties paid on imports from the island possessions within the debated period when their status was in doubt the Secretary of the Treasury has instructed Collector Stratton to furnish him with a record of such entries, whether a formal protest was filed at the time or not. This record is to cover merchandise from Porto Rico entered at this port between April 11, 1899, the date of the treaty with Spain and May 1, 1900, the date the Foraker act went into effect; also merchandise from the Philippines entered at San Francisco between April 11, 1899, and the date of the Philippine resolution of 1901. Few entries were made from Porto Rico, and those from the Philippines were, according to the customs officials, far below those since that period. As the entries from different countries are not kept separate in the Customs-house records, however, considerable work would be entailed in preparing such a list as the Secretary requires, and he has authorized the temporary employment of an additional clerk for that purpose. To fill this position Collector Stratton yesterday appointed J. B. McChesney, former principal of the Oakland High School.

HOG CHOLERA. Report From Washington on a Disease Here.

Director James Smith has received from Washington an answer to some inquiries he sent regarding hog disease here, which is declared to be hog cholera. Smith sent the spleen and lung of a pig affected with the disease to Washington, and an examination was made. The report is as follows: "Dr. A. C. True, Director Experiment Stations. "Dear Sir: I am in receipt of your letter of the 23rd inst., together with the correspondence of Mr. Jared Smith, and also the specimens of spleen and lung of a three months' old pig for-

warded from Honolulu, Hawaii, for diagnosis. "In reply I would say that a microscopic examination of sections of the spleen has demonstrated the presence of an organism which morphologically could not be differentiated from the hog cholera bacillus. The histological appearance of the spleen structure was also indicative of hog cholera. The microscopic examination of the lungs showed a catarrhal pneumonia, but no specific micro-organism could be observed in any of the sections. Very respectfully, "D. E. SALMON, Chief of Bureau."

### WARDE AS "RICHELIEU"

Tonight Mr. Warde presents one of his greatest characterizations, the Cardinal Richelieu, in Balzac's famous play of that name. In this play the church and state come in conflict and the exemplification of that noted line "the pen is mightier than the sword," is witnessed. It is one of standard classic plays and a treat in store for the theater-goers. The following is the cast of characters: Louis XIII., Harry M. O'Connor; Gaston, Duke of Orleans, John T. Harris; The Chevalier de Mairprat, Barry Johnston; Count de Haradas, Charles D. Herman; Le Sieur de Beringhen, John E. Hynes; Cardinal Richelieu, Frederick Warde; Joseph, Francis D. Lightning resulted in several fires, one of which destroyed the machine shops and a section of the foundry of William and Philip Medart's patent pulley plant in South St. Louis. ## THAT TIRED FEELING.

What constitutes a load depends on the strength of the man or beast who has to carry it and the conditions under which he carries it. We hear people continually talk of being tired who have not done a sufficient amount of work to make them so. This sensation is popularly spoken of as "that tired feeling." People who have it often take stimulants to drive it away; the relief, however, is but momentary. A relapse follows and they feel more weary and depressed than before. For the trouble is not in the muscles but in the blood. Certain humors or poisons, arising from indigestion or otherwise, deprive the blood of its sustaining life-giving power, producing a result similar to what would follow from too much exertion and too little rest. But whereas in the case of a healthy person the tired feeling would pass away under the influence of sleep and repose, it is not so in this instance. On the contrary, sleep itself is broken and imperfect, and the sufferer rises in the morning unrefreshed and feeling as heavy and dull as when he went to bed. An effective remedy like WAMPOLE'S PREPARATION is needed to purge the blood of the impurities which prostrate the nerves and sap the sources of physical vigor. It is palatable as honey and contains the nutritive and curative properties of Pure Cod Liver Oil, extracted by us from fresh cod livers, combined with the Compound Syrup of Hypophosphites and the Extracts of Malt and Wild Cherry. In all cases of Wasting Disease, Rheumatism, Bowel Complaints, Fevers, Poverty of Blood, Weakness and lack of Nervous Tonic, it comes more nearly to being a specific than any other known remedy. You may trust it on its merits. Effective from the first dose. "You cannot be disappointed in it." Sold by all chemists.

ed that publication of this order be made once a week for six consecutive weeks in the "Hawaiian Star," a daily newspaper published in said Honolulu, in this District.

## No Strength

Are you easily tired? Is your work  
a burden? Do you often feel weak  
and faint? Is your appetite poor?  
Are you easily discouraged? Then  
your nerves are weak and your blood  
impure. Sickness is not far away.

Mr. Frederick Dwyer, of Claremont, Cape  
Cod, South Africa, sends his photograph  
and this letter:  
"My blood often becomes impure, causing  
eruptions on the skin, and my general system  
gets all run down, causing indigestion and  
great debility. But I take Ayer's Sarsaparilla,  
which quickly brings me out of my troubles.  
For all those who are debilitated and  
weakened by the long, hot summers of our  
country, there is no remedy equal to this  
grand family medicine."

AYER'S  
Sarsaparilla

There are many imitations "Sarsaparilla."  
Be sure you get Ayer's.

Always keep your bowels in good condition  
with Ayer's Pills. They are purely vegetable,  
and on the liver, and cure constipation, bilious-  
ness, sick headache, and all liver troubles.

"PING-PONG ANGLE."  
LONDON, May 6.—"Ping-pong angle"  
is the latest companion to "tennis al-  
bow." The medical name is tenosynovitis,  
and it hits much.

An account of a case of "ping-pong  
angle" is given prominently in the Brit-  
ish Medical Journal. The patient had  
considerable swelling subsided after a  
day passed in bed. An examination  
showed acute inflammation of the  
sheaths of the tendons connected with  
the muscles around the shin. The at-  
tendant ascribed the suffering to the  
results of ping-pong playing, and he  
wrote to the Medical Journal warning  
players that the game involves a great  
strain on the shin bone and muscles,  
and until a costume and footwear ap-  
propriate to the popular sport is evolved  
the disease is likely to frequently occur.

in town and Weeday at Long Branch.  
Weeday will have to train down several

finance, has been granted a permit to

York. Captain Stephen O'Brien's report

Green declared she was in the habit of  
carrying large sums of money, stocks,  
bonds and jewelry. She also said it  
was her intention to secure pistol per-  
mits in all the large cities in which she  
does business.

## VESUVIUS.

NEW YORK, May 4.—A cable to the  
World from Naples says: The central  
cone of Mount Vesuvius suddenly col-  
lapsed Friday evening and a large gap  
is now seen toward Pompeii. Long and  
very deep cracks have also made their  
appearance along the sides of the vol-  
cano. Professor Mattel of the Vesuvius  
Observatory says the collapse will be-  
followed soon by startling volcanic  
manifestations, resulting in the form-  
ing of a new cone in the direction of  
Naples. Considerable alarm is felt by  
the city's inhabitants.

## NO TERMS OFFERED

SALISBURY ON THE PEACE NEGOTIATIONS.

The British Premier Denies That Brit-  
ain Has Receded—A Capture of  
Boers.

LONDON, May 7.—The Premier, Lord  
Salisbury, as president of the annual  
grand habitation of the Primrose League  
at Albert Hall, today spoke to an im-  
mense audience in a much less pes-  
simistic vein than when he was last  
heard in public. He congratulated the  
league on the staunch support given to  
Conservative governments, one result of  
which was that Great Britain was now  
supreme in Egypt, while with regard to  
Ireland, the country need no longer fear  
the "insane, suicidal projects of im-  
perial disruption supported by many of  
the opposition statesmen."

Turning to the peace negotiations,  
Lord Salisbury announced that "Great  
Britain has not receded one inch from  
her former position. As to rights we  
claimed and the policy we intended to  
pursue we are exactly where we were."  
The Premier repudiated the assertion  
that Great Britain was weakening on  
the subject of the peace terms. He de-  
clared the country could not afford to  
submit to the suggestion that affairs  
should be allowed to slide back into a  
position where it would be in the power  
of the enemy when the opportunity  
sued him to renew the issues for  
which the country had fought during  
the last three years.

When the conflict was over all possi-  
ble would be done to mold their present  
opponents so they could take up their  
position in the empire which had con-  
ferred so many blessings on the human  
race. But it must be thoroughly un-  
derstood that the whole government of  
the country was to be of such a character  
that it would be impossible that the  
struggle could be renewed. It was im-  
portant that this should be made clear,  
for some people thought the empire  
might become tired. He did not wish  
to convey the idea that there was any  
feeling of bitterness toward the Boers,  
for there was nothing the Government  
more earnestly desired than that they  
should enjoy all the privileges con-  
ferred on their brother nations by the col-  
onial system.

Further advices received here from  
South Africa announced that 200 of the  
Boers had been captured and that ten burgh-  
ers were killed in the neighborhood of  
Lindley, Orange River Colony, yester-  
day.

Lord Kitchener, in reporting the cap-  
ture of Boers near Lindley, said that  
the British troops forming a continuous  
line left the Frankfort, Heilbron and  
Trodorf line at dawn without wheels  
of any sort and proceeded rapidly south  
reaching the Kroonstad and Lindley  
neighborhood with the result announced.  
The British casualties were nil. The  
captured men represent the most irre-  
concilable Boers in the Orange River  
Colony.

The town of Okiep, Western Cape  
Colony, which had been besieged since  
April 4 by a Transvaal force under Com-  
mandant Smuts, has been relieved by a  
British force under Colonel Cooper. The  
garrison was in good health and only a  
few of the troops were wounded. The  
Boers retired south.

Lord Kitchener, in reporting the relief  
of Okiep, adds that the Concordia dis-  
trict, in about the same part of Cape  
Colony is clear of Boers.

## THE MODEL PUBLICAN.

He Does Not Sell Liquor—He Gives It  
Away.

SPOKANE (Wash.), May 4.—Lord  
Sholto Douglas, brother of the Marquis  
of Queensbury, gave away his gin mill  
tonight, a drink at a time, and retired  
from the saloon business in a blaze of  
glory. It was the wildest Sunday even-  
ing the tenderloin of Spokane ever saw  
or ever will see. The saloon was packed  
in less than ten minutes after Lord  
Sholto gave out that his stock of li-  
quors was to be disposed of for the ask-  
ing, and a howling, shouting, swearing  
mob of tramps, loungers and even sol-  
diers from Fort Wright fought for  
place of vantage at the bar.

A few days ago Sholto received a  
£2000 remittance from England. He  
announced that he and his wife were  
going to the continent. He could not  
find a purchaser for his joint, and  
when he learned that the Sunday re-  
ceipts aggregated only \$1.45 his disgust  
took such violent form that he told the  
bartender to give away the place. In-  
deed, Lord Sholto jumped behind the  
bar himself and helped pass out beer,  
whisky, gin and any old foundations  
for a free Jag.

Every thirsty man for blocks around  
fought his way in and lingered near  
the bar until the last drop of alcoholic  
beverage was consumed. Finally one  
excited hobo ran behind the bar, seized  
a bottle of absinthe and passed it  
around, and immediately the odor of  
absinthe was wafted through the  
rooms from breaths laden with many  
other kinds of liquors. His lordship  
still owns the fixtures in the saloon,  
but he has not a drop of liquor in the  
premises.

Art League will give a piano recital  
Monday evening, May 19, at 8 o'clock,  
at the home of Mrs. S. N. Castle, Pun-  
ahoua, Manoa.

## SAMPSON FUNERAL.

WASHINGTON, May 16.—Secretary  
Moody on May 8 issued the usual for-  
mal order announcing to the service the  
death of Admiral Sampson and direct-  
ing display of mournful emblems and  
the firing guns at naval stations. The  
Secretary himself issued an order in-  
viting all officers in Washington or vi-  
cinity to attend the services at the  
Church of the Covenant, and directing  
that duty at the Navy Department  
navy yard and elsewhere be arranged  
so as to permit as large an attendance  
as possible.

Reverend Admiral Terry, assisted by Lieut-  
enant Henry George as Adjutant-Gen-  
eral has been placed in charge of the  
funeral arrangements. The services at  
the church took place at 10:30 a. m. Fri-  
day, May 13. President Roosevelt and  
nearly all the members of his Cabinet  
attended services at the church. The  
President however did not expect to be  
able to attend the exercises at the  
grave.

## CORONATION ARRANGEMENTS.

King Edward recently paid a private  
visit to Westminster Abbey, which is  
now almost hidden from sight by the  
hideous scaffolding of the encircling  
stands. The King minutely inspected  
the arrangements, expressed satisfac-  
tion at them and congratulated the  
Duke of Norfolk, the hereditary Earl  
Marshal and Chief Butler of England,  
on the way in which the work had been  
executed.

Arrangements are pending by which  
those who are to be present at the coro-  
nation will have a short interval for re-  
freshments. This will be done by the  
establishment of a lunch room in one  
of the ancient cloisters. Even at the  
Abbey ceremony the service will be  
very long and it is considered essential  
that the party and the guests should  
have some handy place where the pangs  
of hunger and exhaustion may be allayed.

The peacemakers are, in consternation.  
According to the present arrangements  
the latest hour at which they will be  
admitted to Westminster Abbey on  
coronation day will be 8:30 a. m., while  
they are advised to be present at 8  
o'clock. The calculation is made that,  
in order to adjust their robes and pre-  
pare other details the peacemakers will  
be obliged to rise long before the sun is  
up on the day the King is crowned, and  
even then, as the Westminster Gazette  
says, not all the artists of Paris and  
London will be equal to the emergency.

## RIVALS KISS AND MAKE UP.

Melba and Nordica have buried the  
hatchet finally in Paris, thanks to the  
latter's husband, Herr Dohme, who  
pleaded alternately with the rival song-  
birds for several days, until they con-  
sented to meet. Perhaps the most as-  
tonishing part of the ceremony was the  
presence of Jennie de Reszke, Nordica's  
former pet aversion, as the fourth per-  
son at the luncheon at which the Amer-  
ican and Australian prima donnas ex-  
changed a historical kiss of peace. Mel-  
ba changed a historical kiss of peace. Mel-  
ward.

## THE SHODDY BILL.

The attention of President Roosevelt  
was called by the representatives of \$4-  
000,000,000 worth of invested capital to  
the fact that Congress has as yet taken  
no action on the Grosvener shoddy bill,  
action on which has been insistently  
urged by the Hearst newspapers. Im-  
mediate action is demanded by the Na-  
tional Livestock Association and it has  
issued a bulletin and has reproduced  
editorial utterances, one from the  
Hearst newspapers, calling attention to  
the dishonesty of the shoddy business.  
Here is the extract from the editorial:  
"The use of shoddy in woolen goods  
is essentially dishonest unless it is  
sold to the consumer with the full  
knowledge of the proportion of shod-  
dy which is used; hence, every person  
who wears woolen goods is interested in  
the passage of the Grosvener bill."
