#### THE ATTORNEY-GENERAL. Since our last issue, the vacancy which has existed in the King's Cabinet for several weeks, has been filled. Mr. A. Rosa is now Attornev-General. This gentleman is native born, and has gradually risen to the position be now occupies. He was educated at the Royal School, on leaving which, many years ago, he entered the public service in the Judiciary Department. After several years of honorable service in that department, he became attached to the Attorney-General's Department. Here he has also had the training

and experience of a comparatively lengthy apprenticeship. He has been Deputy Attorney-General for a considerable period past. Mr. Rosa is now head of the department, and a Minister of the Crown. Probably no native Hawaiian is so well qualified to fill the position. We congratulate Mr. Rosa on his merited promotion, and entertain the hope that he will discharge the duties of the office in a manner creditable to himself and his country, and satisfactory to the general public.

# Jubilee Birthday THE RECEPTION

# The Firemens' Parade!

Yesterday, His Majesty King Kalakana's 50th birthday, was a public holiday, and was celebrated according to the previously prepared of blue velvet which was presented programme, published in all the well arranged and efficiently carried out. But little, if any, fault can be found with the execution of the smoothly, pleasantly, and satisfac-

The celebration actually began on the evening of the 15th. The members of the Nihoa Society appeared before the King at the Palace about 6 o'clock, and presented His Majesty with their congratulations and a very handsome calabash. A little later, F. P. Hastings, Esq., Charge d'Affaires of the United States Legation, tendered to His Majesty the felicitations of the President of the Great Republic. His Majesty's | death still claim their victims, we Prime Minister also proffered congratulations to the King, accompanied by a pair of beautifully polished elephant tusks mounted on an appropriate stand. At midnight of the 15th a Royal salute was fired from the Punchbowl battery, the summit of Punchbowl was ablaze the promotion of the public health, with bonfires, rockets were sent up | so all over the town, church bells and the bells of the various fire companies rang out a tremendous peal, and for a half an hour or so the entire city happy realization under Your Mawas alive with noise.

Yesterday morning opened with fine weather. The sky was over cast, but no rain fell throughout the day. The streets were comparatively dry, but free from dust. Although rain threatened, it kept off until a little past dusk, when it fell in sufficient quantity to produce mad in the streets and some unpleasant-

THE POLICE. The first event on the programme of the day was the reception by His Majesty of the Police Force of the Kingdom. Shortly after 6 A. M., the Force, headed by the Marshal and Deputy Marshal marched to the Palace, and were received by His Majesty at the front entrance. The Marshal delivered an address expressive of congratulation and loyalty, which was graciously replied to by the King. The Police force then presented His Majesty with a book on a velvet cushion, containing a bank order for \$570.

ECCIPTIES.

After these, from 10 to 11 o'clock, came the following Societies:-Lifluckalani Educational Societyfirst and second divisions-Nicon Society and Hookuonomo Society. These societies assembled at Washigion' Piece, the city residence of R. H. Princess Lilio kalani, and marched in regular procession from there to the Palace, followed by the Royal Hawaiian Band without their instruments. The kahilis, the ladies' dresses, and the excellent order, all conspired to make this a very picturesque and pretty proression. The members of the various societies each carried in their hands suitable gifts for presentation to His Majesty.

DIPLOMATIC AND CONSULAR CORPS. At 11:30, the diplomatic and consular corps arrived and were presented as follows: Major J. H. Wodehouse, H. B. M.'s Commissioner: Monsieur Henry Feer, French Commissioner, accompanied by Madame Feer; Senhor A. de Souza Canavarro, Portuguese Commissioner; Mr. Taro Ando, Japanese Consul and Diplomatic Agent. accompanied by Mrs. Ando; Mr. F. Wight, United States Consular Agent at Mahukona; and Viscount Tori and Mr. Fujgita, of the Japanese Legation. GOVERNMENT OFFICERS AND HEADS OF

BUREAUS. Officers in the several departments and Government Bureaus next filed in. The Custom House guard consisted of nine men, followed by another detachment composed of Custom House officers, road supervisor, etc.

The Custom House employees presented His Majesty with a splendid cane of kanwila wood, with a gold mounted head bearing the Hawaiian Coat of Arms, and the motto "Ua Mau ke Ea o ka Aina i ka Pono" (In righteousness shall the nation be established). Landscape views in and about Honolulu are also engraved on the sides. A gold band also bears the inscription ; "Presented to His Majesty Kalakana I. on his fiftieth birthday by the members of the Bureau of Customs. Hon. John M. Kapena, Geo. E. Board-man, A. Fuller, W. The Post Office clerks also presented themselves in a body. The officers and members of the Board of Health, under convoy of Mr. F. H. Hayselden, Secretary, marched in, two abreast, the secretary bearing a solid silver box, on a cushion by the clerk, Mr. F. J. Testa, while local papers. The programme was Mr. Hayselden read the following

> To His Majesty King Kalakana I .- Sire: Speaking in behalf of Everything passed off the officers and physicians engaged in the service of the Board of Health, I beg to offer our warm and loyal congratulations on the anniversary of Your Majesty's fiftieth birthday, and at the same time present for Your Majesty's acceptance a small cash box as an expression of our loyal devotion to Your Royal per-

We desire to rejoice with Your Majesty on this memorable jubilce celebration at the general welfare of the people, for although disease and have reason to believe that general good health prevails and it shall be our constant aim and purpose to so endeavor in the exercise of our several duties that the liberal means provided by the Legislative Assembly shall be made most available for that general well-being shall prevail, and Your Majesty's noble motto of "Hooulu Lahui," or "Increase the nation," shall become a jesty's beneficent reign.

God bless Your Majesty. FRED. H. HAYSELDEN,

Secretary. Honolulu, November 16, 1886. SCHOOLS, SOCIETIES AND CHURCHES.

Among the most imposing of the processions which filed into the Palace grounds during the afternoon, were those of the Hooulu Lahui Society, the Lahui Kaumakapili, the Kaumakapili congregation, the Hooulu Lahui Malie Kamalu, the Puuwai Lokahi Association, and the Poola Association. Nineteen very small children, about 125 native women, nearly all costumed in white and most of them waving pretty kahilis, the rear being brought up by 12 boys and 25 men, was a very fine spectacle. Another society en-tered with 24 kahilis and consisting of women and girls, each one holding in her hand what seemed to be a piece of eoin, and also presented a very fine appearance. The rear of one of these companies was brought up by a native bearing aloft a cane stalk, 12 feet long with 37 joints,

One of the girls walked in advance of the procession, and carried a present from the school, consisting of a silver fork and spoon in a case of silver and curiy maple covered with gold colored plush, with His Majesty's initials, monogram and crown inscribed, and also a handsome banner birthday card. The Hawaii Fire Engine Company came in, led by the Reformatory school band. The Fishermen's Society made an imposing appearance. Borne in front was a flag, with the words, "Ka Hui Makeke Nalaniehiku" (The Seven Kings' Market Society), while eight stalwart natives bent under an extemporized hand-barrow bearing an enormous calabash over which was a festooned done shaped canopy, from the center of which hung a large portrait of His Majesty, and in conformity with an ancient Hawaiian custom said to have some special reference to the reigning family, two of the processionists bore large kukui nut flambeaux wrapped in ti leaves. These torch-bearers also stood, one at each corner, at the foot of the Palace steps until the torches burned out. The parade of the Royal School was superb. The boys, in uniforms of white, striped with red, headed by two drummers, marched in eight abreast, to the

At night-fall, the verandahs around the Palace were lit with colored lanterns, fixed at short intervals along the railings, and with the decorations, gave the building a very pretty and artistic appearance. Promptly at 6:30, the electric light was turned on. The apparatus had been placed in position, and a preliminary light up was made on the previous night. On three sides of the Palace, in the lanai, and at the entrances from Punchbowl street and Palace Walk, and also outside the closed gate on King street, ten burners of 2,000 candle power were fixed. The electric light at once threw a flood of radiance over the Palace and grounds. It was turned off, on the arrival of the firemen and while the fireworks were in progress, and turned on again afterwards. This arrangement, it seems, has given currency to a false rumor that the light proved a failure by going out. THE FIREMEN'S PARADE.

From what is known of the Honolulu Firemen, whether on duty or holiday, it would be quite enough to say that they mustered for a grand procession, to convey the idea that the affair was a splendid success. On this occasion, they excelled themselves. The parade was literally, as well as figuratively, one of the most brilliant pageants ever seen in this city. The decorations of the engines and hose carts were on the most elaborate scale. The procession, starting from the bell tower, filed through the principal streets, the line of march being heralded and illuminated all the way with the roar of bombs, the flare of torches, the flying of rockets and bangolas, the blaze of Roman candles, and the flashing of many colored lights. The members of China Engine Company distinguished themselves by each man swinging a big Chinese lantern. The procession was headed by the Hon. John Cummins, Marshal of the Day, on a grey charger. The music was ably supplied by the Royal Hawaiian and by the Reformatory School bands. A halt was called in front of the palace where His Majesty was seated on the verandah. Three rousing cheers were given, and Chief Engineer Charles B. Wilson stepped forward and presented the following address:

Your Majesty: On behalf of the Honolulu Fire Department I have the honor and pleasure, as their elected Chief, to present their loyal homage and congratulations upon

this auspicious occasion. As subjects of Your Majesty, w renew the assurances of our loyalty and fraternal regard, for we can never forget that the Honolulu Fire Department was honored by your active participation and member-

grow in the future for your honor and your Kingdom's welfare. His Majesty in reply said that the pageant of the firemen was very gratifying to him. He reciprocated the good wishes of the department, and was satisfied that the evidences of efficient organization before him would not be wanting in the future. During the halt in front of the Palace, the scene was one of unique and weird splendour. The gorgeously decked and lofty Palace front, enlivened by the smiling faces of finely dressed ladies looking down from the verandahs; the flying of rockets; the glare of hundreds of torches; the brilliantly decked engines; the flash costumes of the firemen in their red shirts; the smoke from terches and rockets and many colored flames, hanging low in the damp air; the faces of the concourse of spectators gathered from all the earth and illumined by the flash of the lights: all combined to produce a picture the outlines of which can never be obliterated from the memory of those who witnessed

The firemen were followed in their parade by the boys of the Royal School, bearing torches which contributed not a little to the brilliancy as well to the extent of the pageant, the whole being estimated at about half a mile in length. Having made the circuit of the Palace three times, the companies marched out and returned to their respective engine

The fronts of the engine houses were all but covered with lanterns, mottoes and luminous devices of all kinds. The bell tower and hall of No. 2, in particular, was an exhibition of itself. The front of the building was a pyramid constellation of colored lights, tastefully arranged. the colors blending in a highly artistic manner. The other engine houses, together with the front of the Pacific Hose Company's building, were decked after the same fashion as No. 2, though not quite so elaborately. Strings of lights also were run up each side of the flag-staffs, and were visible at long distances. Altogether, the firemen are to be congratulated on the splendour of their demonstration.

THE FIREWORKS. The fireworks, at the Palace, were generally voted the most magnificent display of the kind ever seen in this city. It is impossible to do justice to the display in a newspaper report. The roof of the Palace was selected as the place from which they were mostly set off. The whizz of rockets ascending high into the air, the blaze of Roman candles, the glitter of calcium lights, and the bursting and flying of every description of pyrotechnical material, together with the luminous mottos and devices exhibited on a frame erected for the purpose, on King street in front of the Music Hall, held the Royal Family with their guests, as well as the large crowds of persons assembled at various points on the grounds, spell-bound in silent admiration for probably an hour or more. The fire-works being over, the electric light struck up again, whereupon the BULLETIN reporter

left, and retired to the land of nod. The Royal Hawaiian Band was stationed in a fine pavilion on the grounds, and played at intervals, throughout the day. ### A Woman's Sufferings and Gratitude.

A Voice from Austria.

Near the village of Zuringdorf, in Lower Austria, lives Maria Haas, an intelligent and industrious woman, whose story of physical suffering and final relief, as related by herself, is of interest to English women. "I was employed," she says, "in the work of a large farmhouse. Over-work brought on sick headache, followed by a deathly fainting and sickness of the stomach, until I wa unable to retain either food or druk. I was compelled to take to my drink. I was compelled to take to my bed for several weeks. Getting a little drink. I was compelled to take to my bed for several weeks. Getting a little better from rest and quiet, I sought to do some work, but was soon taken with a pain in my side, which in a little while seemed to spread over my whole body, and throbbel in my every limb. This was followed by a cough and shortness of breath, until finally Feould not sew, and I took to my bed for the second, and, as I thought, for the last time. My friends told not that my time had rearly come, and that I could not live longer than when the trees put on their green nee more. Then I happened to get one of the Seigel pamphlets. I read it, and my dear mother bought me a bottle of Seigel's Syrup, which I took exactly according to directions, and I had not taken the whole of it before I felt a great change for the better. My last illness began June 1, 1882, and continued to August 9th, when I began to take the Syrup. Very soon I could do a little light work. The cough left me, and I was no more troubled in beathing. Now I am perfectly cured. And oh, how happy I am! I cannot express gratitude enough for Seigel's Syrup. Now I must tell you that the docto s in our district distributed handbills cautioning people against the medicine, telling them it would do them medicine, telling them it would do them no good, and many were thereby influenced to destroy the Seigel pamphlets; but now, wherever one is to be found, it is kept like a relic. The few preserved are borrowed to read, and I have lent mine for six miles around our district. People have come eighteen miles to get me to buy the medicine for them, knowing that it cured me, and to be sure to get the right kind. I know a woman who was looking like death, and who told them there was no help for her, that she had consulted several doctors, but none could help her. I told her of Sales le Sales le sale wrote the name Seigel's Syrup, and wrote the name down for her that she might make no mistake. She took my advice and the Syrup, and now she is in perfect health, and the people around us are amazed. The medicine has made such progress in our neighborhood that people say in our neighborhood that people say incy don't want the doctor any more, out they take the Syr p. Sufferers from yout who were conned to their bed and could hardly move a finger, have been cured by it. There is a girl in our disrict who caught a cold by going through some water, and was in bed five years with costiveness and the many years with costiveness and rheumatic pains, and had to have an attendant to watch by her. There was not a doctor in the surrounding cistrics to whom her mother had not applied to relieve her child, but every one crossed them-selves and said they could not help her. Whenever the little bell rang which is Whenever the fittle bell rang which is rung in our place when somebody is dead, we thought surely it was for her, but Seigel's Syrup and Pills saved her life, and now she is as healthy as anybody, goes to church, and can work even in the fields. Everybody was astonished when they saw her out, knowing the beautiful statement was say her bad been they ing how many years she had been in bed. To day she adds her gratitude to mine for God's mercies and Seigel's Syrup.

"Stoke Ferry, January 9th, 1884. "Gentlemen,-I have used Siegel's Syrup for several years, and have found it a most efficacious remedy for Liver complaints and general debility, and I always keep some by me, and cannot speak too highly in its praise—I remain, yours truly, Harriett King."

December 26, 1888. "Dear Sir,—Mother Seigel's medicine sells exceeding well with us, all that try it speak highly in its favor. We had a case of a young lady that had been troubled many years with pains after eating. She tells us that the pains were entirely taken away after a few doses of your medicine.—Yours truly, E. PEEL."

The Effects have been Wonderful.

" Ilford Road Dispensary, Dukinfield, May 3, 1884. "Dear Sir,—I am happy to inform you that the sale of your Syrup and Pills increases here continually. Several of my customers speak of having derived more benefit from the use of these than from any other medicine. In some in-stances the effects have been wonderful. Having a little curiosity to know how such stories grow in travelling, I took the liberty while at the village of Llangsty to call upon the Vicar, the Rev. T. Evans, and to enquire about this wonderful cure. Though a total stranger to him, both he and his wife most graciously entertained me in a half hour's conversation, principally touching the case of Mr. Pugh, in which they seemed to take a deep and sympathetic interest, having been familiar with his sufferings, and now rejoiced in what seemed to them a most remarkable cure.

The Vicar remarked that he presumed his name had been connected with the report from his laving mentioned the case to Mr. John Thomas, a chemist of Lianon. He said Mr. Pugh was formerly a resident of their parisa, but was now living in the parish of Lianddeinol.

He strongly vouched Mr. Wm. Pugh's character as a respectable farmer and worthy of credit. I left the venerable Vicar with a live ter sense of t e happy relation of a pastor and people, feeling that he was one who truly sympathised with all who are afflicted in mind, body, or estate.

On my return to Abert stwith, I was

On my return to Aberystwith, I was impressed with a desire to see Mr. Pugh, whose reputation stood so high. His farm is called Pancom-Mawr, signifying "above the dingle," situated near the summit of a smooth round hill, overlooking a beautiful valley in which is situated the lovely ivymantled Church of Llanddeinol. I found Mr. Pugh, apparently about 40 years old, of medium height, rather slight, with a pleasant and intelligent face. I told him I had heard of his great alliction and of his remark, able and almost miraculous reliaf, and that I had come to learn from his own lips, what there was of truth in the reports.

Mr. Pugh remarked that his neighbors had taken a kindly and symp-

bors had taken a kindly and sympathetic interest in his case for many years, but of late their interest had been greatly awakened by a happy change in his condition. What you report as hav-

his condition. What you report as having heard abroad, said he, is substantially true, with one exception. I never unedrstood that my case was ever given up as hopeless by any Physician I have been treated by several Dottors hereabouts, as good as any in Water, but unfortunately no prescription of their ever brought the desired relief.

Fifteen years ago, he said, I first became conscious of a sour and deranged stomach and loss of appetite, which the Doctors told me was Dyspepsia. What food I could hold in my stomach seemed to do me no good and was often thrown up with painful retchings. This was followed after a time with a hoarsewas followed after a time with a boarsewas followed after a time with a boarseness and a raw soreness of the throat
which the Doctors called bronchitis,
and I was treated for that, but with
little success. Then came shortness of
breath and a sense of suffocation, especially nights, with clammy sweat, and I
would have to get out of bed and sometimes open a door or window in winter
weather to fill my large with the cold weather to fill my lungs with the cold nir.

that I could not sleep in bed, but bud to take my unquiet rest and dreamy sleep sitting in an armchair. My affliction seemed to be working downward into my bowels as well as upwards into my lungs and throat. In the violent cough-ing spasms which grew more frequent, my abdomen would expand and collapse and at times it would seem that I should suffocate. All this time I was reduced in strength so that I could perform no hard labor and my spirits were conse

quently much depressed.

This medicine they dministered to me according to the directions, when to their surprise and delight no less than my own, the spasm ceased. I became a ease, and my stomach was calmed. My bowels were moved as by a gentle cathartic, and I felt a sense of quiet comfort all through such as I had not before realized in many years. I could walk around the house and breathe comfortably in a few hours after I had taken the medicine. I have continued to take the medicine daily now for something over two mouths, and I can lie down and sleep sweetly at nights and have not since had a recurre co of those terr ble spaces and sceatings. I have been so long broken down and reduced in my whole system that I have not tried to perform any very hard out-door labor, deeming it best to be prucent lest by over-exercion I may do my-self injury before my strength is fully restored. I feel that my stomach and bowels have been and are being thoroughly renovated and renewed by the medicine. In fact I feel like a new

Early in this last spring I had a still more severe spa-medic attack, and my family and neighbors became alarmed, believing that certainly I would not survive, when a neighbor, who had some knowledge, or had heard of the medicine, sent to Aberystwith by the driver of the Omnibus Post, some seven miles distant, and fetched a bottle of Mother

Seigel's Corative Syrup.

I have been much congratulated by my neighbors, especially by the good Vicar of Llaurystyd, who with his sympathetic wife have come three miles to shed tears of joy on my recovery.

I bade Mr. Pugh good-bye, happy that even one at least among thousands had

found a remedy for an aggravating dis ease.

Believing this remarkable rase of Dyspeptic Asthma should be known to the public, I beg to submit the above facts as they are related to me 259 It wiyl.

#### We should Blot Out Disease in Its Early Stages.

The disease commences with a slight derangement of the stomach, but, if neglected, it in time involves the whole frame, embracing the kidneys, liver, pancreas, and in fact the entire glandular system; and the afflicted drags out a miscrable existence until death gives pancreas, and in fact the entire glandular system; and the afflicted drags out a miscrable existence until death gives relief from suffering. The disease is often mistaken for other complaints; but if the reader will ask himself the following questions he will be able to determine whether he himself is one of the afflicted:—Have I distress, pain, or difficulty in breathing after cating? Is there a dull, heavy feeling, attended by drowsiness? Have the eyes a yellow tinge? Does a thick, scicky mucous gather about the gums and teeth in the mornings, accompanied by a disagreeable taste? Is the tongue coated? Is there pain in the sides and back? Is there pain in the sides and back? Is there a fullness about the right side as if the liver were enlarging? Is there verigo or dizzlness when rising suddenly from an horizontal position? Are the secretions from the kidneys highly coloured, with a deposit after standing? Does food ferment soon after cating, accompanied by flatulence or belching of gas from the stomach? Is there frequent palpitation of the heart? These various symptoms may not be present at one time, but they tormeat the sufferer in turn as the dreadful disease progresses. If the case be one of long standing, there will be a dry, hacking cough, attended after a time by expectoration. In very advanced stages the skin assumes a dirty brownish appearance, and the hands and feet are covered by a cold sticky perspiration. As the liver and kidneys become more and more diseased, rheumatic pains appear, and the usual treatment proves entirely unavailing against the latter agonising disorder. The origin of this malady is indigestion or dyspepsla, and a smah quantity of the proper medicine will remove the disease if taken in its incipiency. It is most important that the disease should be promptly and properly treated in its first stages, when a little medicine will effect a cure, and even when it has obtained a stiong hold the correct remedy should be persevered in until every vestige of the disease is eradicated unti when it has obtained a stiong hold the correct remedy should be persevered in until every vestige of the disease is eradicated, until the appetite h.s returned, and the digestive organs restored to a healthy condition. The surest and most effectual remedy for this distressing complaint is "Seigel's Curative Syrup," a vegetable preparation sold by all chemists and micine vendors theoughout the world, and by the proprietors, A. J. White, Limited, London, E. C. This Syrvp strikes at the very foundation of the disease, and drives it, root and branch, out of the system. Ask your chemist for Seigel's Curative Syrup.

"Sir,—It gives me great pleasure to be able to add my testimony in favour of your valuable Syrup as a curative agent. I had suffered for some length of time from a severe form of indigestion, and the long train of distressing symptoms following that disease. I had taid at

the long train of distressing symptoms following that disease. I had tried all possible means to get relief, by seeking the best medical advice. I had swallowed sufficient of their stuff to float a man of-war, so to speak, but all to no avail A friend of mine, coming on the scene A friend of mine, coming on the scene in the midst of my sufferings, brought with him a bottle of your Seigel Syrup; he advised me to try it, stating he felt confident it would benefit me. Being weary of trysng so many drugs, I condemned it before trial, thinking it could not possibly do me any good, but ultimately determined to take the Syrup. After doing so for a short time it worked such a change in me that I continued taking it for nearly two months, and I then felt thoroughly cured, for I have then felt thoroughly cured, for I have discontinued its use for five weeks, and feel in the best of health, and can par-take any kind of food with case and comfort. I am therefore thankful to you that, through the instrumentality of your valuable medicine, I am restored to the state of health I now enjoy.—Yours truly, W. S. FORSTER.

"Messrs. White and Co., London.
"Gentlemen,—It is with great pleasure that I add my testimony to the wonderful effects of Seigel's Syrup. For years I nad been suffering from billous attacks, which began with giddiness; then a mist would come before my eyes, so that I should not be able to recognise any one or anything at the distance of a so that I should not be able to recognise any one or anything at the distance of a yard or two from my face. This would be followed by excessive trembling of my knees, so that I could not stand without support; after which a severe headache would occur, lasting often two or three dags. I have tried various remedies for these distressing symptoms, but until I tried Seigel's Syrup I had no relief. Since then I have had excellent health in every respect, and if ever I feel a headache coming on I take one dose of the Syrup, which arrests it. Hoping that this testimonial may be the means of inducing others (who suffer as means of inducing others (who suffer as I used) to try the Syrup, as I feel sure they will receive speedy benefit and ultimately be cured, I beg to remain, yours faithfully,
