### BIG CROWD WELCOMES VESSEL

HONOLULU CITIZENS TURN  
OUT TO BID ALOHA TO  
VISITORS

ONE HOUR CONSUMED  
IN UNLOADING SHIP

Seventeen Passengers Added  
to Large List While Niag-  
ara Is in This Port

The Niagara will be thrown open to Honolulu between the hours of 2 and 5 o'clock this afternoon. Ample opportunity is now offered local visitors to range through one of the finest passenger and freight carriers that flies the British flag in the Pacific. The arrival of this vessel this morning awakened much interest. The arrangements for a local inspection of the handsome floating palace were concluded this morning following a conference between T. H. Davies & Co., local agents, and Commodore Gibb, master of the Niagara.

Streams of humanity for the space of an hour filed across two large gangways leading from the big new Canadian-Australasian liner Niagara to Alakea wharf immediately following the arrival of the steamer from Sydney, N. S. W., by the way of Auckland and Suva. The Niagara, now a visitor at the port, and to remain here until eight-thirty this evening before proceeding to Vancouver and Victoria on a maiden voyage, may well be said to mark the initiation of a new epoch in the growth of shipping between the Colonies and British Columbia. Steaming from Sydney at the noon hour on May 5th, the Niagara reached

(Continued on page two)

### MIND DISEASED, JAPANESE ENDS LIFE

With the ground beneath him strewn with empty bottles, a long knife and whetstone carefully wrapped in a newspaper and placed beside his hat and shoes, and a letter in his pocket telling the reasons for his act, Onishi Kuwataro, a Japanese 31 years old, was found dead behind the billboards at the corner of King street and the McCully road at 10:30 o'clock this morning, having committed suicide by hanging himself to a beam supporting one of the boards.

The body was discovered by J. J. Whitmore, a motorman who lives on King street opposite the scene of the tragedy. He immediately informed the police, and an examination of the body made by Coroner Rose gave evidence that the Japanese had been dead for some hours. That the Japanese nerved himself for his act was evident from the seven whisky flasks which lay on the ground, and a large knife which was found close by intimating that he had made other plans for his sudden demise, but finally came to the conclusion that death by hanging would prove the easiest way out of this world.

Coroner Rose found in the dead man's pocket a letter which was addressed to "any Japanese who would care to read it." When translated, the letter gave the reasons for the man's killing himself and the address of the

### SENATOR COKE ASSAILS FREAR

In Letter to Lane, Democrat  
Makes Bitter Attack on  
Hawaii's Executive

Senator James L. Coke has written to Secretary of the Interior Lane a letter attacking Governor Frear so bitterly that a select circle of Democrats who have seen the missive are stirred to the depths.

Governor Frear is accused of "prostituting his office" in making a number of appointments for four-year terms. He is accused of putting his personal friends in office, of showing undue haste in making his selections and in securing confirmations in the senate through the Republican majority which is declared to have jammed its way over the Democratic minority.

Senator Coke's letter was called forth, it was learned yesterday, by a cablegram from Secretary Lane either on May 4 or May 5 in which Mr. Lane stated that he was informed that Governor Frear was making four-year appointments. Lane asked as to the truth of this report, and Senator Coke answered both by cablegram and letter. The letter reached Washington a few days ago. Senator Coke this morning declined to make public the contents of either the letter or cablegram, nor would he say what Secretary Lane had cabled here, stating that he regards the correspondence as confidential. However, this letter was seen by a number of prominent Democrats and the vigorous manner in which he assailed Governor Frear has set the tongues buzzing with the interesting news. It is said on good authority that the governor was attacked for naming the public utilities commissioners "before the ink was dry" on the utilities commission bill passed by the legislature. The letter says it is reported that the Republican majority of nine jammed through the confirmations over the protests of the Democratic minority of six.

While Senator Coke would say nothing today regarding the contents of the letter, he very emphatically stated to the Star-Bulletin that he will stand by every statement made in the letter.

"I made certain statements in the letter everyone of which I will stand by," he said. "It is well-known that both Senator Metzger and myself protested strongly against the appointment of the utility commission at this time. I am not prepared to say what I told the secretary, but it is no secret that we resent Governor Frear's haste to fill up territorial of-

### DID QUARTETTE BECOME PAIR?

Niagara's Passengers Tell of  
Ocean Romance That May  
Have Ended Here

Hastily engaging a big seven-passenger touring car to transport them to the marriage license bureau of O. P. Soares in the Magoon building at the corner of Merchant and Alakea streets, two handsome young couples from the Canadian-Australasian S. S. Niagara this morning shortly after the palatial liner docked, made all apparent efforts to secure licenses which would cause the bells of a double wedding to ring in Honolulu. As the automobile stopped in front of the Magoon building one of the young men of the party dashed up the steps and made inquiry for the office of Mr. Soares, stating that he understood that marriage licenses were granted at that office. The fact that the young man grew impatient upon being informed that Soares had stepped across the hall for a minute is believed to have been the only thing that interrupted, temporarily at any rate, a double romance of the seas.

(Continued on page three)

### WALRUS HUNTING THE LATEST FAD OF MONEYED MEN

SEATTLE.—To hunt large and small game, secure live specimens of bird and walrus, take motion pictures and pilot a party of eastern millionaire sportsmen into the wilds of northern Siberia, Frank E. Klein-schmidt, scientist, huntsman and motion picture expert, sailed from Seattle today on the staunch little power schooner P. J. Abler, for a seven months' expedition to Alaska, Kamchatka and Siberia. These millionaire sportsmen, who are Marshall Scull and A. M. Collins of Philadelphia, and Dr. Elting of Albany, N. Y., became interested in the Bering sea country through seeing Klein-schmidt's moving pictures of walrus and polar bear hunts, made in the northland two years ago and exhibited all over the United States and in Europe.

Before action was taken to name a Democratic governor."

### NIAGARA PASSENGER LIST.

A complete list of the first and second cabin passengers, arriving this morning on the Canadian-Australasian liner Niagara, on her maiden voyage, will be found on page twelve of this issue of the Star-Bulletin.

### POSTMASTERS IN WEARISOME WAIT

Confirmation of Three Loyal

ate Committee—Kuhio  
Gets Busy

Aspirants for postmasterships in Hawaii must possess their souls in peace. The tariff fight, fate and Delegate Kuhio are standing in the way of the confirmation of three tried and true Democrats who have been nominated by President Wilson.

Though Wilson sent in three nominations weeks ago, as told in dispatches to this paper, not a word could be learned by the local Bourbons as to the prospects for confirmation. Yesterday the Star-Bulletin cabled to its Washington correspondent as follows:

"Are confirmations of postmasters blocked?"

Back came the following:

(Continued on page three)

### WHAT RAILROAD RUNS TO HONOLULU ASKED BY EASTERN FIRM

It would seem that after the name of Hawaii has been sung and shouted around the world for many years few persons would hold a grave doubt as to where it is located. But a startling discovery was made yesterday, showing that the residents of this world are not all informed of the geographical situation of the Hawaiian islands, when Lester Fishel received a communication from the Italia Spaghetti Company of New York, asking what railroad ran to Honolulu.

### GOVERNORSHIP STILL IN DOUBT

Frear Can Continue in Office if  
He Drops the Hint to Dem-  
ocratic Chief

[Special Star-Bulletin Correspondence]  
WASHINGTON, D. C., May 8.—The selection of a governor for Hawaii has spread to Oahu and is now injuring the fruit of several plantations was emphatically denied this morning by Harold L. Lyon, of the Hawaiian Sugar Planters' experimental station. He stated that after an exhaustive examination it had been proved beyond a doubt that the Kaula pineapple pest was not in existence here, and that there was no danger of its spreading to Oahu. It was reported from one or two parts of this island that evidences of the bacteria had been found, but after examination it was shown not to be the case. David L. Larson, of the same station, who was sent to Kaula when the report of the blight reached here, has prepared his report, and will submit it to Joseph Cooke soon. In his report, it is said, it will be stated that the loss of pineapples due to the pest will not exceed five per cent of the crop, and that there is no danger of its spreading, and that in all likelihood it can be exterminated on Kaula shortly. Since his return he has inspected several pineapple plantations on Oahu, where the pest was reported to have spread, but found that other causes, generally from the soil, had caused the injury to the fruit.

(Continued on page three)

### COURT DIGNITY LOWERED, AVERS ATTY. BITTING

The ease with which indicted persons recently have been escaping punishment in this court has become a byword and a joke on the streets. Heatedly declared Assistant U. S. District Attorney C. Bitting in federal court this morning.

"I do not mean to imply that this is the fault of the court. The acquittals that have made the court a laughing stock have been by the juries. It has reached a point where I have been approached on the street by a former juror in a certain case and told:

"We all knew the fellow was guilty but there was one small point you did not bring out, leaving a technicality, so we cleared him on the technicality."

(Continued on page three)

### WILSON AT WORK FOR AMITY

President Requests Congress-  
man Not to Make Speech  
That Might Offend Tapan

TOKIO RECEIVES REPLY  
OF BRYAN FAVORABLY

Indications Point to Settlement  
of Delicate Negotiations in  
Spirit of Friendship

(Associated Press Cable)  
WASHINGTON, D. C., May 21.—President Wilson's earnest desire not to offend Japan in any way nor to stir up unnecessary friction during the progress of negotiations looking to a settlement of the California controversy has been again manifested. Hearing that Representative Thomas U. Sisson of Mississippi had announced that he would speak Friday on the alien land ownership bill, President Wilson summoned the congressman and urged him not to do anything that would offend Japan while negotiations are under way. Advice here from Japan report that Secretary Bryan's reply to the Japanese protest has been favorably received.

### INSANE PATIENT RUNS AMUCK AND KILLS 5 PEOPLE

(Associated Press Cable)  
BOISE, Idaho, May 21.—Running amuck in the insane asylum here today, a male patient defied the efforts of keepers and nurses to subdue him until he had killed five other patients. His outbreak took the keepers by surprise.

### MEXICAN LOAN \$100,000,000

(Associated Press Cable)  
MEXICO CITY, Mexico, May 21.—The Mexican congress has sanctioned the loan of a hundred million dollars which will be borrowed of foreign financiers at six per cent, the customs duties being pledged as security.

### SUFFRAGETTES SMASH SCIENCE

(Associated Press Cable)  
EDINBURGH, Scotland, May 21.—One of the most serious suffragette outrages up to this time occurred early this morning when a bomb was exploded in the dome of the Royal Observatory, badly damaging the interior of the dome and wrecking many valuable scientific instruments and records. No estimate of the extent of the damage can yet be made.

SUGAR  
SAN FRANCISCO, Cal., May 20.—Beets: 88 analysis, 9s. 2 1/2-24. Parity 3.92 cents; Previous quotation, 9s. 3 1/4-14.

Articles of association have been filed with the territorial treasurer by fifteen Japanese desiring to incorporate under the name of the American Fishing Company, Ltd. The capital stock of the new firm is fixed at \$4500, divided into 450 shares, with the maximum limit of capitalization set at \$250,000. Katsutaro Yasui is named president, Jotaro Hamasaki treasurer, and Yasutaro Tsuguchi secretary. These, together with the twelve other incorporators, each hold thirty shares of the stock.

# CARGO AND CABIN

## Bark Allen Ready for Sea.

The finishing touches to the bark S. C. Allen, which has been in the hands of carpenters and shipwrights for some weeks, were completed yesterday and that vessel is being prepared to sail for the coast by the last of the week. It is possible that Captain Mather will be able to dispatch the reconstructed bark tomorrow. The Allen arrived here in March with lumber consigned to Allen & Robinson. Some weeks following the discharge of this cargo, and while the vessel was on the inter-island marine railway, fire did about ten thousand dollars' damage to the vessel. The after end of the ship was practically destroyed, while the cabins occupied by the master and his mates were totally destroyed.

## Predict New Steamer for Windward Ports.

That a 600-ton vessel will be placed on the run to Waikane, on windward Oahu, in the near future, was the opinion expressed by F. B. McStocker at the harbor commission meeting yesterday. He said the business in that section is increasing in great strides. Chairman J. W. Caldwell stated that a weight test of the concrete piling recently installed at the Waikane wharf has shown them to be in excellent condition.

The last of a shipment of coal, consigned to the local naval station, has been discharged from the British freighter Inverkip now moored at the Channel wharf. This vessel is scheduled to sail for British Columbia this afternoon, taking ballast only. It is understood that the vessel has been chartered to take on a shipment of lumber destined for Australia.

## PASSENGERS BOOKED

Per str. W. G. Hall, for Kaula ports, May 22.—R. S. Hosmer, Rev. F. G. Williamson, L. B. Blackman, W. O. Phillips.

Per str. Mikahala, for Molokai ports, May 26.—F. W. Peckles, H. O. Hookano, Miss L. Dudoit, Mrs. H. Fountain. Per str. W. G. Hall, for Kaula ports, May 26.—Mrs. W. H. Scott and party. Per str. Kinau, for Kaula ports, May 27.—Mrs. J. H. Harrison, Miss B. Malbury.

Per str. Kilauea, for Kona and Kau ports, May 30.—Mr. and Mrs. G. E. Smithies, Robt. Hind and party, Rev. S. S. Wallace and wife, Rev. and Mrs. D. D. Wallace.

Sir Wilfrid Peck of London, England, was married to Miss Edwina Thornburgh of St. Louis, in the latter place. There was a magnificent wedding, attended by over 1000 people.

## TINSMITH

N. Hara. Plumber, Tinsmith, roof repairing, etc. Estimates furnished free. 1328 Nuuanu nr. Kukui St. 5552-1yr.

## NOTABLES ON LINER MAKURA

Coming to a berth at the Ewa side of Alakea wharf shortly after the noon hour today, the Canadian-Australasian liner Makura, from Vancouver and Victoria is found to carry a number of notable passengers destined for the Antipodes.

Captain H. A. Morriaby reports the liner having sailed from Vancouver on the afternoon of May 14. The trip down to the islands was a pleasant one with light winds and fine weather throughout. Thirty passengers were landed here. To the Colonies are traveling 97 passengers in the several classes.

Cargo discharged here consisted of 154 cases of whiskey. Honorable James Allen, minister of defense for New Zealand, is a passenger to Auckland. Also Adolene Genes, a world-renowned dancer, is proceeding to Australia, where she will engage with one of the large vaudeville circuits there. The Makura is scheduled to sail for Suva, Auckland and Sydney at 6:30 this evening. A score of passengers have been booked for the Colonies in this vessel.

## PASSENGERS TO ARRIVE

Per M. N. S. S. Lurline from San Francisco, June 2.—Master Stanley and Redders Waldron, J. B. Gibson, Miss Loretta Blatt, Mrs. T. Mohrig, Mrs. R. C. Anthony and infant, Mr. and Mrs. J. C. Bridwell, Mrs. Gray, L. Young, E. Magoon, J. Baldwin, R. Bridges, Mr. and Mrs. Geo. R. Rider, Dickson Hitchcock, Harvey Hitchcock.

## PASSENGERS ARRIVED

Per C. A. S. S. Makura from Vancouver and Victoria—For Honolulu: Miss M. Doyle, Messdames Short and son, G. Whitney, C. C. Doyle, E. Whitehead; Messrs. F. N. Isitt, E. E. Robins, A. T. Short, G. H. Whitney, J. M. Whitehead; Misses Smith (2), A. Simpson, V. Glaisyer; Messdames Trowbridge, E. Ballif, C. Smith, E. G. Glaisyer, A. Skinner, Kendall; Messrs. C. Dale, J. H. Mann, A. Decker, A. Bruck, Trowbridge (2), A. L. Wilkes, J. Staker, C. E. Gaunt, C. J. Birnie, H. F. Kendall, J. Sinclair, J. Fyfe and 97 through passengers.

Per C. A. S. S. Niagara from Sydney via Auckland and Suva—For Honolulu: Mr. and Mrs. Lowe, Mr. Shutte, Mr. Luftringe, Mr. J. Pringle, Mr. and Mrs. Ball, Mr. McDiarmid, Misses (2) McDiarmid, Miss James, Mrs. Carroll, Mr. Whitmore.

The case of Lee Leong, who has applied for a writ of habeas corpus to prevent his deportation back to China by the immigration officials, was set for hearing in federal court today, but was continued to next Tuesday, May 27. Lee asserts he is a native of Hawaii, born at Waikiki, but the immigration authorities doubt the evidence of his nativity. He resided in China for many years, coming back to Hawaii only a short time ago.

CAPTAIN GIBB, of the Niagara, was entertained at a luncheon by T. H. Davies & Company at the Country Club today. Those present were Governor Frear, J. P. Cooke, C. P. Morse, general freight agent of the American-Hawaiian Steamship Company; John Drew, of Castle & Cooke; C. Hedemann, manager of the Honolulu Iron Works; F. M. Swany, manager of T. H. Davies & Company; Richard Ivers, of C. Brewer & Company; George Davies, F. Klamp and Captain Gibb.

Star-Bulletin • today's news today

## Band Played Wilhelmina Away.

The Royal Hawaiian Band played a lively and varied repertoire as the Matson Navigation liner took a departure for San Francisco this morning. Between five and six thousand tons sugar, molasses and scattered shipments of Hawaiian products had been safely stowed below, destined for discharge at the coast port.

The Wilhelmina sailed with but little available space unoccupied. At the last moment a number of applications for transportation were received. The Canadian-Australasian liner Niagara brought a half dozen passengers who continued the voyage to the west coast by the Matson steamer. Mail for the mainland was forwarded in the liner.

## Mauna Kea Carried Tourists.

A delegation of mainland tourists for Hawaii and its natural wonders in the inter-island steamer Mauna Kea, sailing at ten o'clock this morning. A considerable offering of freight was placed aboard before the vessel took her departure for Hilo and the way ports. The Mauna Kea will return here at an early hour on Saturday morning.

## RUMORED BOLT OF DEMOCRATS IS TONIC

There is a decidedly new spirit of optimism noticeable in the stock market now. The rumor that four senators were ready to bolt, leaving the Democratic ranks in order to vote against the free sugar schedule in the Wilson-Underwood tariff bill, is in part responsible for the brighter feeling among the sugar men here. And though the man reported to have received the message has denied its receipt, the growing confidence that the senate will vote down the free sugar clause and leave the tariff on the product as it is today, continues to spread.

With only one more senator needed to defeat the bill, and a number said to be on the brink of bolting, unequivocal opinions are being expressed here that President Wilson's championed bill will not succeed. The gloom which settled about the stock market only a few days ago, when it seemed certain that the measure would pass the senate with only trifling amendments, has almost entirely disappeared to give place to the brighter prospects of the bill being blocked.

While the business men here are figuratively holding their breath, waiting for word from Washington as to the final outcome of the fight, the men who are at the capital to oppose the Underwood measure are using every means to bring to the realization of the legislators the enormity of an act which would take the tariff off sugar, thus destroying the industry, so far as America is concerned.

Encouraging letters are being sent daily to the fighters in Washington by Honolulu businessmen, praising them for the fight they are making and urging them to continue it. And, similarly, letters are being sent here by the men in Washington, relating the progress made at the capital, and the growing hope that they will succeed in their fight.

Each report grows more encouraging as the day of the final fight nears. With the winning over of Senator Newlands, only one senator stands in the way of the defeat of the bill. That is to say one senator holds the balance of power. Let any one senator bolt—

## VESSELS TO AND FROM THE ISLANDS

(Special Cable to Merchants' Exchange)

Wednesday, May 21.  
SAN FRANCISCO—Arrived, May 20, 10 p. m. S. S. Lurline, hence May 13.  
YOKOHAMA—Sailed, May 17, S. S. Siberia for Honolulu.

Aerograms.  
S. S. TENYO MARU arrives from San Francisco 6:30 a. m. and proceeds to Yokohama about 5 p. m. same day.

S. S. NIAGARA proceeds to Victoria at 8:30 p. m. today.  
S. S. MAKURA proceeds to Sydney at 6:30 p. m. today.

## HARBOR BOARD IN FAVOR OF DEEP WATERWAY

The movement toward dredging and widening the Kalihi channel, to open up a deep waterway from the Honolulu harbor to Kalihi and greatly augment the available shipping facilities of the local port, was given added impetus yesterday when the board of harbor commissioners endorsed the proposal for the survey.

On motion by F. B. McStocker the board voted to inform Major Wooten of its acquiescence in the plan, which would establish a channel 600 feet wide from the local harbor to the Meanelus basin.

Because Alakea wharf is not insured against fire, the harbor commission denied the application of the local Amateur Athletic Association for permission to hold the swimming events in Alakea wharf on Kamehameha Day, June 11. The members said that even if police protection were furnished it would not be sufficient guarantee against smoking on the dock.

## PROMOTION FOR WEAVER.

Announcement was made at noon today by City and County Attorneys John Cathcart that P. L. Weaver will be appointed to the position of first deputy city and county attorney, upon the retirement from that office the first of the month of Fred W. Milverton.

It has been rumored about the city hall for a number of days that Mr. Weaver would be appointed to succeed Mr. Milverton, who informed the city and county attorney some time ago that he wished to resign.

The delay in the arrival of the great ship is attributed to the coaling at Auckland. The approach at Alakea wharf was the signal for a great outpouring of townpeople. Thousands gathered at the water's edge as the new leviathan slowly steamed to her berth.

The outward appearance of the vessel gives the impression of great bulk—her length is not apparently so proportionately large. She stands well out of the water, and her magnificent promenade decks are the feature of the vessel's build. On the voyage out from London the Niagara burned coal, and her engines proved extremely powerful. In fact, her officers state that on the run across from Sydney, some hours could have easily been saved had it been necessary. As a matter of fact, speed had to be slightly reduced, so that the time-table arrangements could be adhered to. The Niagara burned coal until she reached Honolulu, where her oil tanks will be filled, and thenceforward she will use oil fuel.

Nearly two thousand barrels of fuel oil are being pumped into the storage tanks in the liner today. At least two boilers will be fired by fuel oil on the remainder of the voyage to British Columbia. The vessel is easily the largest craft flying a British flag to have entered this port as a passenger and freight carrier. The appointments of the new liner are on a scale which has never been approached on passenger-ships in the Canadian-Australasian service. The

## WhyNot

use your credit as others do? You men, working for wages, you young men in offices on salaries, if you are ready for that new suit of clothes, you can get it for a few dollars cash and the balance at your convenience.

And furthermore, you will get as good clothes on credit as you can buy for cash. You will get them as cheaply as you can for cash. And you can get as good service with your credit as you get with your cash.

This is a new kind of credit store. Try it now. We guarantee everything we sell. Satisfaction or your money back. We feature SCHLOSS-BALTIMORE CLOTHES—You know what that means.

## NIAGARA BRINGS MANY TRAVELERS ON MAIDEN TRIP

(Continued from page one)

quarantine at day break this morning, her 622 passengers in the several classes, catching their first glimpse of the green-clad hills of Oahu.

Captain John Gibb, the veteran commodore of the Canadian-Australasian line, a familiar figure in Honolulu shipping circles, received a royal welcome from a host of friends and well-wishers, with the arrival of his handsome new command.

A Delightful Voyage.  
The fares were kind to the Niagara on the voyage from the Antipodes. With the exception of the first day out from Auckland, the weather was pleasant, and this meant much to the host of travelers, who soon got together in a series of deck sports and entertainments.

The delay in the arrival of the great ship is attributed to the coaling at Auckland. The approach at Alakea wharf was the signal for a great outpouring of townpeople. Thousands gathered at the water's edge as the new leviathan slowly steamed to her berth.

The outward appearance of the vessel gives the impression of great bulk—her length is not apparently so proportionately large. She stands well out of the water, and her magnificent promenade decks are the feature of the vessel's build.

On the voyage out from London the Niagara burned coal, and her engines proved extremely powerful. In fact, her officers state that on the run across from Sydney, some hours could have easily been saved had it been necessary. As a matter of fact, speed had to be slightly reduced, so that the time-table arrangements could be adhered to. cabins in all classes are roomy and beautifully furnished, with every possible luxury provided. Her decks are connected by an electric elevator, which, the passengers on the voyage state, is great convenience, especially in rough weather. The first-class dining-saloon is a fine room, running from side to side of the vessel, with an excellent arrangement of small tables seating four, thus eliminating the familiar long tables which have been customary in even the more modern vessels. A library and writing-room, and a spacious music-room, both furnished in the best taste, are also features of the accommodation.

## Niagara Carries Big Official Family.

Federal quarantine officers were called to pass upon 270 officers and crew in the big Niagara. Some delay was occasioned at quarantine owing to but one medical officer visiting this steamer. The muster of passengers was a slow job and it was well along toward nine o'clock before the yellow flag of quarantine was lowered and the liner began the journey to a position within the harbor limits.

A very complete description of the Niagara was set forth in the columns of the Star-Bulletin yesterday afternoon. Much interest has been occasioned locally over the general equipment found on board. Hundreds availed themselves of the opportunity to give a close inspection of the vessel.

The propelling machinery, a combination of reciprocating engines with a Parsons low-pressure turbine, is one of the latest examples of progress in marine engineering, that has been constructed by the builders. The superior economy of the system is due to the fact that increased power is obtained with the same steam consumption by expanding the steam in the low-pressure turbine beyond the limits possible with the reciprocating engine. Steam is supplied by ten cylindrical boilers, each fitted with four furnaces, and working under Howden's system of forced draught, the boiler pressure being 220 pounds.

A new feature is that this is the first vessel burning oil-fuel to have a British Board of Trade certificate for carrying passengers. For the purpose of carrying this fuel, the ship has specially-constructed bunkers of ample capacity to carry sufficient oil for the return journey, and also to carry coal should this be found necessary. The whole of the bunkers,

Nos. 2 and 3 holds, have been made air and oil-tight up to the main deck. Heavy fore and aft bulkheads are fitted throughout, adding strength to the ship and ensuring safety. Four electric engines are fitted to cope with the exceptionally complete system of lighting, etc., and to render it unlikely that any hitch will result in a breakdown. An emergency plant for light has also been arranged on the boat deck, so that in case of accident, light will always be maintained.

Although there are over 2000 lights throughout the ship, while an electric fan is fitted in each state-room. The hydraulic engine installed in the engine-room is capable of putting the whole of the ten holds through a complete cycle within the space of one minute. From this feat alone it may be gathered how powerful the installation is; the engine, in fact, is one of the largest and most powerful ever put into a ship for cargo-discharging purposes. The steering gear is of the hydralift type, embodying all the latest improvements.

Those Who Command the Niagara  
Many familiar faces are noted in the official family aboard the new Niagara. Captain John Gibb, now commodore of the Canadian-Australasian fleet was the recipient of much congratulation over his promotion.

G. H. (Tommy) Todd, one of the popular Union Steamship officials to make this port, was found in charge of the office in the Niagara. The complete list of officers includes the following: H. C. Hammond, chief officer; B. Spaul, first officer; W. A. Beasley, 2d officer; W. S. Kirkin, 3d officer; A. Russell, 4th officer; G. H. Hood, purser; J. E. Bayfield, surgeon; J. Dunlop, chief engineer; E. Read, chief steward; S. Stacey, wireless operator.

## Niagara Had Few for Here.

Sixteen passengers left the Canadian-Australasian liner Niagara upon arrival at Honolulu. Of this number a half dozen were desirous of continuing the voyage to San Francisco by the Matson Navigation steamer Wilhelmina. Federal Customs officers assisted the travelers in effecting a transfer to the American boat. The through list of 622 passengers included 215 first cabin, 178 second class and 215 steerage passengers. Out of a total cargo of 2500 tons placed aboard the vessel at Sydney, Auckland and Suva, but ten tons are to be discharged at Honolulu.

## Guardian's Sale

### of Valuable Real Estate Situate at Mokauea, Kalihi, Honolulu, Oahu

Notice is hereby given that pursuant to the license to sell the herein-after described real estate granted to the undersigned by the Honorable William L. Whitney, Second Judge of the Circuit Court, First Circuit, Territory of Hawaii, on the 22nd day of April, A. D. 1913, at Chambers, in Probate, No. 2736, in the Matter of the Guardianship of Charles Dwight and James Dwight, Minors, of Honolulu, City and County of Honolulu, Territory of Hawaii, the undersigned guardian of the persons and property of said minors, will expose and offer for sale at public auction, and will sell to the highest and best bidder for cash, through O. A. Steven, at his auction rooms, corner of Queen and Fort Streets, Honolulu aforesaid, on

SATURDAY, May 24, 1913

at 12 o'clock noon of said day, the following described property situate at Kalihi, Honolulu aforesaid:

1. Those two parcels of land situate at Kalihi, City and County of Honolulu, containing an area of 1 acre, 411-100 chains, being Apana 2 and one-half of Apana 3 of Royal Patent 1501, L. C. A. 1397, and more fully described in deed of Kewala and wife, recorded in the office of the Registrar of Conveyances in Liber 51, Page 298.

2. That certain piece or parcel of land situated at Mokauea, Kalihi, City and County of Honolulu, said Territory, conveyed to C. B. Wright by deed of Akani and husband, dated April 3, 1884, recorded in Liber 153, page 299, and containing an area of 1.70 acres more or less.

TERMS OF SALE. Cash in United States Gold Coin. Twenty per cent (20%) of the purchase price to be paid at the time of the sale, and the balance (80%) to be paid immediately upon the execution and delivery by the Guardian of the deed to the purchaser, deed at the expense of the purchaser, and sale subject to confirmation by the court.

For further particulars apply to O. A. STEVEN, Auctioneer, and Thompson, Wilder, Watson & Lymer, attorneys for said Guardian, at their offices, Campbell Block, Honolulu aforesaid. Dated Honolulu, April 23, 1913.

EILEEN DWIGHT, Guardian of the persons and property of Charles Dwight and James Dwight, Minors.

## AUCTION SALE

### A Real Estate Bargain

Good Income-Producing Property For Small Amount of Money

Saturday, May 24th  
12 o'clock noon

At my salesroom, corner Fort and Queen Sts., opposite H. Hackfeld & Co., I will sell a property situate on Lusitana street near Alapai.

Neat nearly new house of 6 rooms.

Lot 50 x 117, on the right side of the street.

A grapevine 50 x 50 ten years o'd

Water, gas, electric lights, all sewer connections made.

House rents for \$22.50 a month.

Grapes from vine realize \$50 a year.

Income	\$320.00
Property Tax	\$6.00
Water	5.00
Insurance	8.00
Sewer	3.00
Net Income	\$298.00

## GOVERNORSHIP STILL IN DOUBT

(Continued from page one)

among themselves, and assuming an irreconcilable attitude when a piece of pie appears on the horizon.

President Wilson has not indicated a disposition to go the entire distance with Secretary Lane and for the present drop the Hawaiian governorship problem. He continues to say that an appointment may be made within a few weeks, but gives no sign as to the identity of the possible selection.

As such matters are left largely to the heads of departments it seems quite probable Secretary Lane may be permitted to have his own way. In such an event the various candidates for governor now here will have to find home for funds. It will be a long and tedious wait. The pie will be more expensive than the rates now prevailing in the senate restaurant under the new change.

**Fear Needs Only to Drop a Hint.**

In addition to other troubles it is certain the new governor will have to hang around some time for his commission if Governor Fear drops the slightest hint that he would like to remain in office. The Republicans surely will oppose confirmation when the nomination finally does come into the senate, unless Governor Fear declares that he must relinquish his office and will consider no other course.

The Republicans are determined to worry the Democrats over all nominations filling terms that should have been included in President Taft's patronage. The Hawaiian governorship is a striking illustration of the manner in which the Democrats arbitrarily refused to play fair and nothing would

please the Republicans better than to conduct a warfare of reprisal.

**Candidates Beat the Bushes.**

Messrs. McCandless, Watson and Waller remain here beating the bushes to pick up a little additional influence and help their cause along in the direction of winning. Being the last to arrive, Mr. Watson has done the most hustling. His health has improved and he seems in pretty fit condition. According to his own words he will soon be in shape to run a race if it becomes necessary to do, any chasing of the Japanese.

A statement has been given out by Mr. Watson's physician saying that his health is such as to make certain his ability to discharge the duties of governor without detriment to the service or injury to himself. This has served to make the candidacy of Mr. Watson more formidable. In addition he has many good friends in public life and they are active day and night in his interest. These are led by Representative Humphreys of Mississippi, who originally filed Mr. Watson's name with the president and secretary of the interior.

It is natural that McCandless and Waller feel a trifle disheartened and irritated. They have been long in the fight and sought to secure an early settlement of the middle. It was supposed that President Wilson would clean up the Hawaiian slate at an early date after assuming office, as the vacancy in the governor's office has existed since December 18, 1911. The continued delay, and the prospect of more postponement, has caused everybody to become more or less disgruntled.

But such is the life of a politician.

To promote moral education in the schools of France independently of religious doctrine is the object of the "French League for Moral Education." The league offers a first prize of \$1000 and other prizes amounting to \$2000 for contributions to a bulletin which it publishes.

## SOLDIERS BUSY IN THE FIELD

(Continued from page one)

Now that the period of field training is on, the troops on Oahu are getting a foretaste of the strenuous hiking that is sure to fall to their lot before the period of garrison training comes around again. Climatic conditions here are such that the soldiers could take the field at any time of the year, but the times for instruction in the varied branches of warfare are arranged for less temperate climes, and the army here divides the work as prescribed by the higher ups in Washington.

The first battalion of the Second Infantry is in camp at Red Hill, and after maneuvers that are calculated to thoroughly familiarize the officers and men with the terrain, the battalion will move to Pearl City for further exercises.

C Company, which returned from a hike to the volcano yesterday, marched out to join its battalion this morning. The men found the march from Hilo to the crater and return hard on shoe leather, and remained a day in garrison to obtain a clothing issue.

A Company of the Second, Captain Cooke, is now at the volcano, being due to arrive at the crater this morning. At Lihue, I and K companies, First Infantry, returned this morning from a hike in the mountains, where the men were given a number of outpost problems, and the officers and non-coms drilled in map making. The companies left Schofield in a downpour of rain, but returned in fine shape and well pleased with the three-day outing.

Companies E and F of the First foot, Captain Thomas commanding, left Schofield this morning for a trip similar to that taken by I and K.

**Schofield Barracks Notes.**  
Lieut. Richard T. Taylor, Twenty-fifth Infantry, recently appointed from civil life, who arrived on the last transport, has been assigned to I Company. Lieut. John O'Brilly, Twenty-fifth Infantry, has been relieved from general recruiting service at Columbus barracks, Ohio, and directed to join his regiment. He has been absent from the regiment about two years.

Lieut. Joseph Marmon, who recently passed through Honolulu as transport quartermaster of the Dix, has been relieved from that detail, and has been granted leave of absence of one month and fifteen days before joining his regiment.

## DR. J. W. PLATNER TO VISIT IN HONOLULU

Governor Fear received a letter today from his former college classmate, Dr. John Winthrop Platner, a professor in the Harvard divinity school, stating the latter expects to arrive in Honolulu about August 22 on a tour of the world. He probably will remain here a fortnight and likely will be entertained at the governor's home.

Incidentally, Dr. Platner, who is said to be an excellent, forceful speaker may deliver several addresses during his visit. He has obtained a year's absence from his academic duties and will spend most of it visiting points of interest throughout the Orient and Europe. It will be his first visit to Hawaii.

## GOING TO LONDON.

Hugo P. Fear, brother of the governor, and who is a naval architect associated with the Union Iron Works at San Francisco, has been selected as a delegate to attend a big meeting of international engineers at London in October. The meeting has been called to discuss plans for providing greater safety in marine passenger traffic, a movement resulting from the Titanic disaster early last year.

## COURT DIGNITY LOWERED, AVERS ATTY. BITTING

(Continued from page three)

Within the last three months federal trial juries have acquitted two men accused of murder in the first degree, one man accused of adultery and two or three on opium smuggling charges. In all save the two murder trials the assistant district attorney has conducted the prosecution alone, yet in all the evidence of guilt apparently was strong—at least strong enough to obtain indictments by the grand jury. The defense in the first murder case rested mainly on a hypnotism plea, wherein the murderer stated his victim, through mental control, compelled him to commit the capital offense. In the second murder trial self defense was the basis of the argument on which innocence was declared by the jury.

Bitting's occasion for recalling these episodes to the mind of Judge S. B. Dole was that Solomon Haumea, a young Hawaiian accused of incest, this morning had entered a plea of guilty and his counsel, Jack Atkinson, begged for lenience. Bitting urged that the man be given a penalty commensurate with the crime, that the dignity of the court might be maintained. "So the people may know that this is a court of justice and not a clearing house for crime," he added.

Judge Dole continued the case until tomorrow, when sentence on the prisoner will be fixed.

## FINISHES AUDIT OF BOOKS OF Y. M. C. A.

W. J. Forbes, the local accountant, this morning finished his audit of the books of the Young Men's Christian Association covering the year from May 1, 1912, until April 30, 1913, and has affixed the following statement to the ledgers:

"This is to certify that I have compared all entries of cash payments made for the year beginning May 1, 1912, to and including April 30, 1913, with the several vouchers for the same; have verified the footings and amounts forwarded and have found them to be accurate and correct. I have checked all entries for cash receipts posted from the original stub entry book, verified the footings and amounts forwarded and found them correct as of April 30, 1913."

During the past year the business department of the association has handled \$53,635.44.

## YOUTH, AGED EIGHTY, BENEDICK ON MAINLAND

Taking unto himself a bride at the advanced age of almost four score years, Francis Cutting, prominent in San Francisco business circles for more than half a century as banker, fruit packer and director in a dozen large corporations, according to latest mail dispatches from the Coast, has married Miss Alice Marie Duren, a school teacher in the public schools of Oakland.

The utmost secrecy was observed by the octogenarian in obtaining the wedding license and in carrying out the details of the wedding. Throughout the afternoon preceding the nuptial service, it was announced at the palatial residence of Mr. Cutting at 274 Nineteenth street that neither he nor his secretary were at home. In the evening, Cutting and his bride slipped away for their honeymoon—destination unknown.

The aged bridegroom has enormous business interests in San Francisco and as far along the Coast as Alaska. The bride is thirty years his junior.

## LOOK TO CHIEF TO SETTLE DISPUTES

**Harbormaster Expected by the Board to Attend to Matters in His Own Office**

Just why any dissension in the harbormaster's office can not be settled on the spot without having to refer the matter to the board of harbor commissioners, is the question which the members of that body would like to have satisfactorily answered.

A letter received from Assistant Harbormaster John Dick by the board at a meeting yesterday afternoon caused some pointed remarks to be made by several of the members. It seems that Dick had been aboard a tug plying in the harbor. While on the vessel, Dick attempted to give orders to the skipper, whereupon he was promptly reminded as to who was master of the tug. Upon going ashore, Dick reported the matter to the board, which announced itself opposed to subordinate officers coming to it with official matters over the heads of their superiors.

F. B. McStocker, a member of the board, stated that Dick told him that the harbormaster had instructed him to send a letter to the board of harbor commissioners setting forth his case. McStocker, however, favored referring the matter direct to the harbormaster as it was desirable to get his stand upon the apparent flouting of the rules on the part of the captain of the tug, and with regard to the performance of duties prescribed by the rules and regulations of the port, which now govern the port until new ones are made. McStocker also stated that if the harbormaster or his assistant had no authority on board the vessel they should keep that fact within the limits of the office, and that if they had authority it should be recognized.

Colonel McCarthy said that the harbormaster had spoken to him about the matter, setting forth that while Dick was apparently a good man, he was rather officious and had at different times gotten into trouble with captains of various vessels, who objected to his presence on board. It is said that Dick's talk was largely responsible for the recent legislative investigation of the harbormaster's office. The board has referred the matter to the harbormaster.

## DID QUARTETTE BECOME PAIR?

(Continued from page one)

J. Alfred Magoon, who was talking to a friend on the opposite side of the street, saw the young man dash as hurriedly down the steps of the building as he had gone up, and the next instant the automobile with its four anxious occupants disappeared at a merry clip around the corner of the street.

Further inquiry made at Soares' office early this afternoon failed to produce evidence that the two couples had again made an attempt to secure licenses. At the office on King street of Reverend Abraham Fernandez, where marriage licenses may be had, and at other license bureaus in the city, it was denied that any licenses had been granted today to passengers of the Niagara.

Although several of the Niagara passengers, when questioned by a Star-Bulletin representative, were unwilling to divulge the names of the four romancers, it was intimated that a number of people on board were aware of the seriousness of two young men prominent among the passengers. No secret was made of the fact that a considerable quantity of rice, kept on hand by the steward's department for just such occasions, had been distributed to a knowing few as the ship came into port. It is said on good authority that the facts of the double wedding to be celebrated in the Paradise of the Pacific "leaked out" in some mysterious manner yesterday afternoon, and that the four young people were closely watched as they left the dock. This fact, it is said, accounts for the haste in which the prospective brides and grooms sought Soares' office.

It is reported that the interrupted wedding party is now on its way to Haleiwa and unless licenses are stealthily secured some time this afternoon the double wedding will be delayed until the Niagara reaches British Columbia.

## WEATHER TODAY

Wednesday, May 21.  
Temperature—6 a. m., 72; 8 a. m., 77; 10 a. m., 81; 12 noon, 80. Minimum last night, 70.

Wind—6 a. m., velocity 3, E.; 8 a. m., velocity 9, E.; 10 a. m., velocity 6, N. E.; 12 noon, velocity 7, E. Movement, past 24 hours, 184 miles. Barometer at 8 a. m., 30.01. Relative humidity, 8 a. m., 55. Dew-point at 8 a. m., 59. Absolute humidity, 8 a. m., 5.473. Rainfall, 0.

About five hundred tons ballast are going into the French bark Notre Dame d'Arvor, now lying at the railway wharf, preparatory to sailing for the north Pacific Coast. This vessel has been discharged of three thousand tons nitrates from South American ports. It is reported that the wind-jammer will load grain from a Sound port, destined for Europe.

## DELICATE CHILDREN

are often dosed with medicine when all they need is nourishment—good, wholesome food-value which they can digest.

In school days and changing seasons give the children Scott's Emulsion which scientific tests for nearly forty years prove to furnish just the working-energy and body-building elements which nature requires.

Scott's Emulsion is a simple and easily digested food and contains no wine, alcohol or drug.

Scott & Bowne, Bloomfield, N. J. 12-117

## CHINESE DRAMA IS EVENT OF SATURDAY

Carefully revised by Chinese scholars, the Chinese drama "Princess Soh Yit Ngo" will be ready for presentation next Saturday night before a mixed audience. It has meant a great deal of labor and time to the Chinese Students' Alliance, under whose direction the play is to be staged. Already a heavy item of expense incidental to the historical drama has been footed. When one comes to figure the many silk embroidered hand-made decorations and ornaments, the gorgeous costumes of the Orient, the hand-carved furniture and the many other distinctly Chinese articles not seen so commonly in the west, he will have an idea of what it will cost. It will be the first time that the stage at Charles R. Bishop Hall will be transformed into an Oriental court.

A great deal of interest will be centered around C. Y. Kwal, known on the stage as Shen Mu Kai, a young professional who will take the leading role of Prince Chu. Some years ago he was still in the local schools, but because of his dramatic talent, he was picked for the stage. It was this young prince who came to the rescue of the tottering dynasty, and who restored the throne to his father after the foreign tribe had gained temporary possession. Later in the play, he succeeded in overthrowing his father's minister, who had made himself the ruler and the first of a new dynasty. Even in the love game, the prince will have a difficult role, for it happened that the widowed king, his father, also fell in love with his sweetheart.

## JAPANESE ENDS LIFE

(Continued from page one)

place where he had lived while in Japan. His name was also given, but where he worked in Honolulu was not mentioned. The letter is as follows: "I have been entered by a fox, owing to which I have been ailing for the past three months. I have been treated by Dr. Ishimori, a priest, and received medicine from him. I have been sick since March and have been dissipating to a great extent, having started drinking before I received treatment from the priest. I got worse and on April 15 I intended to die. I bought me a pistol and put twenty dollars in my pocket. Then I went to a Dishi (priest) who prayed over me, and I continued to visit him for one week, but I did not get well. Therefore, I lodged at this place for four weeks. The priest said that my sickness was imagination and that, owing to the fox in me, no matter what undertaking I entered into I would have no success, and therefore I thought it better for me to die. Today I am to end my life in a very shameful manner. I haven't a cent nor any friends. I beg that the government take my remains and bury them. I also wish to think Mr. Kubo for his help during my sickness."

Although no one could be found this morning who knew the dead man, it was intimated that he was one of the many who were treated by the Japanese alleged healer, Hamaguchi. Coroner Rose will hold an inquest this afternoon.

## Increase Your Appetite with SIROLIN

an excellent aid to the treatment of diseases of the respiratory organs. SIROLIN is known and endorsed abroad as well as in this country as being an honest preparation that fulfills all claims made for it.

SIROLIN is strongly recommended for all those suffering from Lung Diseases.

Sirolin is sold in 75c and \$1.00 bottles by all leading druggists or can be obtained from the Hollister Drug Co., Honolulu.

## The Clarion

## POSTMASTERS IN WEARISOME WAIT

(Continued from page one)

masters have never been reported from the senate committee. They the not opposed by Republican congressmen, but Delegate Kuhio has refused his approval. Kuhio objects especially to the nomination of the postmaster for Hilo. He wants another selection.

"C. S. ALBERT."

H. D. Corbett is the Hilo man whom Kuhio is opposing. Kuhio is a political associate of George L. Denha, the present Republican postmaster. The fact that the appointments have not yet been reported from committee is taken by local Democrats to prove that the tariff fight is occupying practically all the attention of the Democratic senators just now. Possibly Hawaiian patronage is being used as a political club in this case as it is in other cases.

WEDNESDAY ..... MAY 21, 1913

## CONCRETE ROADS WINNING FAVOR

About the quickest way to interest a citizen in matters municipal is to hit his pocket.

Consequently there are many hundreds of citizens of Honolulu who are actively interested in street and road-building problems, for their pockets have been hit early and often to pay for highways hardly worth the name.

Not long ago there was a good deal of agitation for a road-laboratory, to be established under the department of public works. That Honolulu could benefit by some expert advice in road-building is evident from even a casual inspection of one piece of highway in the new belt road system, the Heeia section. Complaints of gross incompetence in the building of this road are coming faster every day. If half of the reports are true, Honolulu has tossed off a good many thousand dollars that might have been saved.

The state of Oregon, after long and costly experience with incompetent road-builders, has worked out a system of expert advisory assistance that has revolutionized the construction of highways in the state. The dean of the state university school of engineering is an official adviser for the state and his school conducts a series of practical tests, both of paving mixtures suited to various types of road, and of the roads themselves after construction. It is now of very great local interest to know that Oregon is abandoning macadam road construction and adopting a mixture of concrete, using a native volcanic soil element which has been called "puzzolan". According to the Concrete Era, which indorses the use of the new mixture as far superior to macadam, the cost of a barrel of the blended cement is \$1.44 in Portland. The same journal declares that macadam pavement is rapidly falling in disfavor all over the country. The state of New York has spent \$65,000,000 upon macadam roads; but a few months ago, in popular election, \$50,000,000 was voted which will be used in tearing up the macadam roads and replacing with concrete. A curious fact is that macadam roads were the factors which made possible the adaption of power traction including mechanical trucks and automobiles, to the country; and now it is the mechanical transportation agents which are tearing macadam to pieces, and necessitating a heavier type of road construction. This is eventually to be concrete.

Macadam roads in Oregon, particularly in Lane county, cost to lay 51.3 cents a square yard; in Massachusetts, not including contractor's profit, estimated at 20 per cent, 6-inch macadam cost 54.7 cents; and in New York the same costs 57 cents. But the upkeep is the expensive feature of such roads. Of course, this varies under local conditions. Estimates range from 6.82 cents per square yard per annum to 36 cents a yard.

The annual cost of maintenance of macadam in Paris is said to be one-third of the cost each year. That is to say, a macadam road must be rebuilt every three years. The figures, collected by the United States office of public roads make the average cost of maintenance in this country 5.7 cents a yard a year, and double this for bituminous macadam.

"Maintenance figures published only a few years ago now appear ludicrous," declares Dr. E. H. McAlister, the state adviser above referred to. "Massachusetts thought that it would be able to maintain its macadam roads indefinitely at 2.3 cents; in three years the cost has soared to 5.7 cents, and now the attempt to maintain macadam roads has been practically abandoned, and all sorts of surfaces, patented and otherwise, are being tried out in the hope of saving some of the many millions of dollars which the state has put into macadam roads."

"The mileage of improved roads in Oregon is relatively insignificant. Traffic is small because no large traffic is possible, thus maintenance here is still low. But with the expected development of the state it is safe to say that within the next five years the figures here will have passed the cost reached in so many other places."

"It is my purpose to compare the cost of concrete with that of macadam. Four inches of concrete will withstand a greater strength than six inches of macadam. On the average, where traffic is not unusually congested four inches of concrete is sufficient."

## NAILING SOME STATEMENTS

Two of the sugar bulletins published in the Washington papers as display advertisements from the domestic sugar producers' bureau come

as a pat answer to the recent plausible explanation of what Wilson means by "legitimate" industry. They were published before Wilson's now-famous explanation was made by Senator Ollie James, but they could not have been more pertinent had they been written in direct answer to James' speech in the senate.

The two bulletins are as follows:

"THEY SAY that the Domestic sugar industry has been given its chance and has not made good."

"THE FACTS ARE that the importance of an industry is in proportion to its purchasing ability of labor and material. This sugar industry distributes throughout the United States at least \$110,000,000 annually. It has already lowered the price of sugar materially. If it is allowed to continue its expansion so that it will produce all the sugar consumed in the United States it will keep the price of sugar low and at the same time will distribute at least \$220,000,000. Is not that worth while? Get the facts."

"THEY SAY that with 'Free Sugar' the price will be less."

"THE FACTS ARE that we had 'Free Sugar' for two full years, 1892 and 1893. Here is how the consumer fared: Average wholesale price of refined sugar, under 'Free Sugar,' for years 1892 and 1893, 4.59 cents. Average wholesale price, under Domestic Competition, February and March, 1913, 4.19 cents. Here is how the Refiner fared: Average Refiners' Margin under 'Free Sugar' for years 1892 and 1893, 1.09 cents. Average Refiners' Margin under Domestic Competition February and March, 1913, .68 cent. Get the facts."

## THE JAPANESE IN CALIFORNIA

The San Francisco Examiner brings out the first definite set of statistics on the Japanese situation that we have yet seen in an American paper. Providing, of course, that the statistics on the California situation are correct, the following article by Percy F. Montgomery, formerly a U. S. government agent in the Far East, is of unusual interest at this time:

How long would it take for the Japanese or the Chinese, or the two, to swarm over the Pacific slope if they were not repressed? We do not know, but there are undeniable facts that will help us to judge.

Chinese and Japanese have moved toward this continent systematically for about half a century. What has this movement accomplished? Let us see just the general facts without the intricate details. Hawaii, first in the pathway of this movement, shall be our first example, and the state of California, the ultimate terminus of the movement to date, the second example.

The Japanese came to Hawaii to work as agriculturists. The United States government published several years since, in Document No. 66, Bulletin of the Bureau of Labor, the following facts with regard to Hawaii:

In the year 1904, out of a total of 1,629 persons of all nationalities holding licenses for twenty-seven kinds of occupations, from banking to fish drying, 1,241 were Japanese, and 81.08 per cent of the school children in our American island territory were Japanese.

The board of education reported that white children (Occidentals) came home from school with their dialect materially affected because of the preponderance of Orientals attending the schools. Thirteen years ago, in 1900, there were engaged in "gainful occupations," males, 63,563 Japanese and Chinese against 20,384 whites, or 75.63 per cent. This number has materially increased, as far as the Orientals have been concerned.

Politically, Hawaii is American territory. In point of fact, it is known to those cognizant of military conditions, and the government at Washington best of all, to be strategically Japanese now as it has been for many years.

The density of population in Japan is about 340 to the square mile. In California it is about 14 to 15 per square mile.

Field notes, taken in 4,102 farms, practically every farm of value in the state of California, showed 1,733 operated by Japanese without any assistance from white men, 862 Japanese and whites on shares, and 1,407 operated solely by white labor. Japanese owned 199 farms of a total acreage of 10,791, and leased 110 farms of a total acreage of 115,000.

Incidental to this farm property is an urban property. Japanese own 110 pieces of urban property valued at \$4,000,000, and invested in industrials of their own \$16,114,407. Of this trade 36.80 per cent was with the white man on his own ground. The total number of Oriental firms in business is given at 2,548, but 2.30 per cent of which have been in business ten years. Of the total number of firms now in business 67.70 per cent have opened shop in the past seven years, or since 1906.

The Japanese does not assimilate with the white resident, but lives a communistic life, where the cost of living is reduced to a minimum and competition is eliminated. The report shows that on a minimum wage basis of \$1.25 per diem 20 cents to 30 cents was spent for living. On a minimum basis of \$2.50, the sum of 60 cents is given as a fair average of the amount spent to live.

Wearying statistics could be given without end. After all, they are but the more or less inaccurate records of human happenings.

Scientists know full well that the white man and the Oriental will no more assimilate in California than has the white man and the Oriental in China or in India.

Sloum is no name for the way those troops left New York for Hawaii.

## LETTERS ON TIMELY TOPICS

[The Star-Bulletin invites free and frank discussion in this column on all legitimate subjects of current interest. Communications are constantly received to which no signature is attached. This paper will treat as confidential signatures to letters if the writers so desire, but cannot give space to anonymous communications.]

### ON THE JAPANESE

May 20, 1913.

Editor Honolulu Star-Bulletin.

Sir:—Without taking issue with the Rev. Doremus Scudder on the main point of his peace day talk (the naturalization of the Japanese), it is certainly pertinent to criticize two of his many-times-repeated premises.

Dr. Scudder says: "After years of study of him (the Japanese), I will back him for adaptability to conditions and harmonious response to environment with any specimen of genus homo producible."

Oblige me by laying a little money the other way. I challenge Dr. Scud-

der to produce even one other nation's emigrants who are not more "adaptable" and more "harmoniously responsive to environment" than the Japanese.

Taking the broad view of things and leaving out of consideration all isolated cases, can Dr. Scudder point out any colony of Japanese in any section of the world—ANY section, mind you,—who have not immediately founded a tiny Japan there, and, what is more, kept that tiny slice of Japan there?—resisting all overtures and chances of becoming assimilated with the conditions obtaining in that particular country?

This is no argument against naturalization. I don't care to discuss that question. But it would seem that a man of the local prominence of Dr. Scudder would at least base his arguments on a plausible premise instead of such "David Starr Jordan reasons" as apparently actuated him in his Peace Day sermon.

Very truly yours,

EDW. W. P. ST. GEORGE.

## WOMAN'S SESSION PROVES BIG SUCCESS

The meeting of the Woman's Auxiliary was held yesterday morning beginning with a celebration of the Holy Communion in St. Andrew's Cathedral, the preacher being the Rev. F. G. Williams, after which the women adjourned to the Memorial Hall for organization and business.

This meeting was one of the most successful and most enthusiastic of any that have been held in the history of the church in Honolulu.

Punctually at 2 o'clock business was resumed in the Memorial Hall, the first appeal being made by the Rev. F. W. Merrill, from Kohala, who appealed for funds to erect a building in which services and Sunday School could be held and which could be used by the Hawaiian pastor for the use of his Sunday school. The Rev. Mr. Merrill began his Sunday school with 13 scholars and it now numbers 75. Immediately after his appeal pledges began to come in and before long he had pledged to him \$125. Half of the price of the building is to be raised by Mrs. MacDougall of Kohala. A very pretty and useful church has recently been built in Waiman, Hawaii, and dedicated by Bishop Restarick, which cost about \$575.

The next appeal was made for Lahaia, where there was a debt on the parsonage of \$1800. The Woman's Auxiliary assumed the responsibility for paying the interest on this amount and has made efforts from time to time to reduce the principal, until it was reduced to \$1100. Pledges were made to the amount of \$305 for the further reduction of the principal and a motion was made and unanimously carried that the auxiliary throughout the islands concentrate its efforts during the present year for the extinction of the debt.

The next appeal was made by the Rev. Mr. Cullen of Paaulo, to build a Japanese church on the lot owned by the church. He received a substantial amount, as also did the Rev. Shim Yin Chia of St. John's Church, Kula.

Reports showing successful work accomplished from all the guilds and branches of the auxiliary throughout the islands were then read. The report from Wailuku showed that its debt had been reduced to \$150, where, as two years ago it was \$3000. This, in addition to a new organ which has been installed and paid for at a cost of \$2000.

It was a great pleasure to have with us Deaconess Yeo and her assistant, Miss Burton. The deaconess has been in charge of a girl's rescue home in Washington, D. C., for many years and has done a remarkably good work. She gave a most interesting talk on her work.

The Woman's Auxiliary alone, without the guilds, has reported receipts of over \$1800, which is the finest showing they have ever made.

Interesting addresses were made from different workers in the field, Chinese, Japanese, and Korean.

A bill for damages caused to the Hackfeld wharf through the docking of the steamship Hilonian some time ago is to be sent to Castle & Cooke through the harbor commissioner, which firm is the agent for the Matson Navigation Company.

## EPISCOPALIANS TO HAVE SEASON OF PLEASURE

With the work of the eleventh annual convention of the Episcopal Church of Hawaii practically completed, the time between now and the close of the session will be given over to varied forms of entertainment for the visiting delegates and clergymen. Under the auspices of the Men's Club a dinner will be given at the Pacific Club this evening, while tomorrow afternoon from 4 until 6 o'clock the guilds of the Epiphany Mission, Kaimuki, and the Hawaiian congregation, will hold a reception in the St. Andrew's Cathedral grounds.

Following the adjournment of the meeting of the Woman's Auxiliary at 1 o'clock yesterday afternoon, those who attended repaired to the parish house where luncheon was served by the guilds of St. Andrew's and St. Clement's. The business of the afternoon comprised reports of the church work at the different branches of the organization, including Kohala, Waiman, Lahaia, and Hamakua. The report of the Junior Auxiliary was also presented, the meeting being closed with a discussion of the year's work of the missions.

During the course of the session yesterday afternoon more than \$200 was raised in pledges toward the payment of the \$950 debt which exists against the Episcopal Church at Lahaia. The matter was brought up by one of the Lahaia delegates, and nearly every person present heartily responded to the aid of the little church.

## REV. FATHER MAXIMIN ON TRIP TO EUROPE

Rev. Father Maximin of the Catholic cathedral left in the Wilhelmina this morning for San Francisco, from where he will journey to Europe to represent the local mission of the Sacred Heart at the semi-decade conference of the Missionary Fathers of the Sacred Hearts which convenes at Braine-le-comte, Belgium, in September.

Father Maximin is accompanied by Father Otto, who was delegated to represent the Pahoa Mission at Puna, Hawaii. Aside from attending the conference and presenting the reports of their respective churches, the clergymen will travel to Germany, where they will visit their parents and relatives. Following the adjournment of the convention, which lasts a week, Father Maximin will return to his station here.

## CHURCH DEED RECORDED.

A deed vesting the title of lot No. 131 of the Kulaokahua plains in the trustees of the First Methodist Episcopal Church was recorded yesterday afternoon. The Trent Trust Company was the grantor, it having held the property as trustee until the purchase price was paid. Another deed was recorded which transferred the title of the church property at Beretania and Victoria street from James T. Wayson, James A. Lyle, Arthur Coyne, E. C. Smith, Richard Trent and Charles J. Day, as trustees of the church, to the board of trustees as a corporation.

Employer—Do you know the duties of an office boy? Office Boy—Yes, sir; wake up the bookkeeper when I hear the boss coming.

## MISSIONARIES ARE NOW MAKING HOMEWARD TRIP

Concluding a very successful mission in the Antipodes, Dr. Wilbur Chapman and C. M. Alexander, world-famous evangelists, who passed through this city a number of months ago, are returning to the mainland as passengers in the Canadian-Australian liner Niagara, that called here this morning enroute to British Columbia.

Dr. Chapman and Alexander, together with several members of their evangelistic party were met at the wharf by a delegation of local religious workers.

Night after night, the evangelists offered an appeal to the masses in the large Australian and New Zealand cities, their efforts toward an enlist-

ment of recruits for Christianity meeting with the greatest success.

The farewell meetings held at Melbourne, Sydney and later at Auckland are represented as being tremendous successes. The evangelists visited extensively throughout the Far East during their absence, their campaign being declared a distinct success at Manila and along the China coast.

## SERGEANT HOWARD WEDS MISS BURKE

Sergeant Clark Will Howard, Twenty-fifth Infantry, and Miss Burke, for some years a resident of Honolulu, will be married this afternoon at the residence of Hen Wise, 1463 Nuuanu street. Chaplain Scott of the colored regiment is to perform the ceremony. Sergeant Howard, after a short honeymoon, will take his bride to Schofield Barracks, where he is stationed.

Gibbs—it is very evident that your wife has a mind of her own. Gibbs—You think so? Well, so did I but she keeps telling me that her mind is made up.

## What About Your Will?

If you haven't yet attended to the important matter of arranging your affairs, do so at once. The AMOUNT of your property isn't the important thing; it's whether you have so arranged matters as to avoid litigation after your death.

## Mrs. Peck's Card Party.

Although the day was exceedingly warm, some very good bridge was enjoyed at the card party given by Mrs. Philip Peck Tuesday afternoon at her home on Kewalo street. Competition was keen but in the end the prizes, dainty little affairs of ribbon silk and gold lace, went to Mrs. Day, Mrs. Lackland, Miss Lydia McStocker, Mrs. C. A. Brown and Mrs. Stone. The house was most attractively decorated with the ever popular yellow coreopsis, with palms and maiden hair ferns. At about 4 o'clock good things to eat were served, after which playing was resumed. Mrs. Peck's guests were Mrs. Frank Halstead, Miss Lydia McStocker, Mrs. Richardson, Mrs. Day, Mrs. F. B. McStocker, Miss Julie McStocker, Mrs. A. Hocking, Mrs. Edward Grossman, Mrs. Davidson, Mrs. Lackland, Mrs. Ormond Wall, Mrs. Nelson Lansing, Mrs. Gartenberg, Mrs.

C. A. Brown, Mrs. Stone, Mrs. Unger, Mrs. Fred Smith, Miss Florence Hoffman, Mrs. Sam Peck, and Mrs. Hyman. The affair was given in honor of Mrs. Peck's sister, Mrs. Hyman, who has recently arrived from the States.

## Luncheon at College of Hawaii.

As a culmination of their year's work in the Domestic Science department of the College of Hawaii, and in proof that they really had mastered all the difficulties of culinary art, Miss Lillian Boyd and Miss Marilla Flint were hostesses at a most dainty and delicious luncheon yesterday. The affair took place in the college dining-room which was prettily decorated with golden coreopsis and maiden hair ferns. The entire menu was cooked by the two young hostesses and the zesty manner with which the guests cleared up their plates was ample evidence of the toothsome nature of the

past. Warm admiration and hearty congratulations were showered on the two girls whose skill had concocted the dainty meal. The guests on this occasion were President Gilmore, Miss Marjory Smith, Miss Miriam Clark, Miss Florence Lee, Mr. Leslie Clark, and Mr. Marcellino. A similar affair to this is being planned for Friday by the members of the special cooking class, which those fortunate enough to be invited are anticipating with much pleasure.

## Miss Alice Cooper's Announcement Luncheon.

The engagement of Miss Alice Cooper to Mr. George Bailey of Boston was announced at a luncheon served at the Boston Art Club given by Mrs. Charles Bennett (formerly Genevieve Langton of Honolulu) and Mrs. Scott. The table decorations were all in pink. The centerpiece was a huge pink rose on a Jack Horner pie, from which were white ribbons tied to the place cards—silver cupid's and hearts. In the pie were golden wedding rings on which perched white doves. From the rings hung a tiny heart and a cupid bearing the names of Alice and George. Over the table hung a lovely pink umbrella made of pink paper and covered with hearts, and from each spoke hung a little cupid. Rose petals were used profusely, not only for decoration but for ammunition with which to bombard the coming bride. There were many Honolulu girls present at the luncheon, among them being Miss Vera Damon, Miss Letitia Morgan, Mrs. Paul Withington (nee Constance Restarick), Mrs. Chamberlin (nee Miss Edna Gunn), Miss Marjorie Chapin and Miss Cordelia Gilman. Although no definite plans have as yet been learned, Miss Cooper writes that the wedding will take place in Honolulu some time in June. Local people received the following cards by the last mail: "Betroted, Miss Alice G. Cooper, Mr. George W. Bailey."

## Two engagements of interest to Honolulu People.

The engagement is announced of Miss Hazel Nolting, daughter of Mr. and Mrs. W. F. Nolting of Manila, to Mr. White, eldest son of the late Senator N. White of Los Angeles, the wedding to take place some time in June. Miss Nolting has many friends in Honolulu. She was graduated from the University of California with the class of 1911 and was a member of the Chi Omega sorority in that college. Announcement is made of the engagement of Miss Ethel Brown of Laramie, Wyo., to Capt. Robert Walter Mearns, 20th U. S. Infantry, stationed at Fort Douglas, Utah. The wedding will occur in June. Capt. Mearns is well known here, having been stationed with the 20th at Fort Shafter two years ago.

## Marriage Announcement.

The following announcement has been received by many local people: Mrs. William W. North announces the marriage of her daughter Helen Gertrude to Lieutenant George Ernest Lake United States Navy. On Thursday, the Fifteenth of May, One Thousand Nine Hundred and Thirteen, Honolulu, Hawaii.

## Mrs. Peck's Dinner.

Mrs. Philip Peck was hostess at a birthday dinner last Saturday night in honor of her son, Mr. Sam Peck. The table was prettily decorated with delicate pink carnations, place cards and other table accessories harmonizing. The guests were Mr. and Mrs. Sam Peck, Miss Stella Peck, Mr. Merle Johnson, Mr. and Mrs. Ormond Wall, Mr. and Mrs. Unger and Mrs. Hyman.

Lieut. F. F. Rogers, U. S. N., and his sister, Miss Fay Rogers, who have been registered at the Pleasanton for the past week, sailed yesterday on the Shinyo Maru for their home in the States. While here Lieut. Rogers was best man for his brother officer, Lieut. George Lake, at the latter's wedding to Miss Helen North last week.

Mrs. Hyde-Smith has been confined to her room for the past week with a sprained knee. Though not serious at all, it is nevertheless very painful, and much sympathy, accompanied by beautiful flowers, has been showered upon her. Mrs. Hyde-Smith expects to be about very shortly, however, as her knee is improving rapidly.

Mrs. John Fuller, Mrs. Jane Walker and the Misses Walker returned on the Shinyo Maru on Monday after a tour of several months through Japan, China and the Philippines. Though enthusiastic over their trip, they were one and all highly delighted to be in Hawaii once more.

A farewell banquet and reception for President Gilmore are being planned by the students and faculty of the College of Hawaii, as part of the commencement festivities of next week. The dates have not been definitely settled upon as yet.

"Captain Arthur B. Owens, U. S. N., and Mrs. Owens, who have been at the Mare Island navy yard for the last year and a half, sailed Monday for Honolulu, where the former will be stationed for the next three years."—San Francisco News Letter.

Mr. Alexander Hawes Jr. is registered at the St. Francis Hotel in San Francisco. This being the first time Mr. Hawes has been in "Frisco" since

FUN IS FURIOUS IN A NIGHT  
IN AN ENGLISH MUSIC HALL

Valentine and Bell, comedy trick cyclists, direct from the Pantages circuit, who will open at Bijou theater Thursday evening.

The best for the last, is the motto that Billy Reeves is following in closing his Honolulu engagement.

"A Night in an English Music Hall," in which the fun sets out at a fast and furious pace, is an act that holds the boards for a full half hour, requires sixteen people to present in its entirety, and is declared superior to anything that this comedian has ever attempted on "short time" circuits.

Imagine a stage within a stage, a long train of comedians, jugglers, neomancers, ballet dancers, soubrettes, tragedians and monologists all putting forth their best efforts along the line of burlesque, and passing in review before an "audience" in which Billy Reeves and one small boy, form a distractingly funny but disturbing element.

Reeves has been joined by a considerable company of players, which is now rehearsing for the star production that is to open at Bijou Theater on Thursday evening, May 23.

Patrons of the Bijou will have no reason to complain of a lack of variety offered at this popular house for the week. Manager McGreer announces

the brief engagement of Valentine and Bell, trick cyclists, working in comedy, characterized as a classy act and one seldom placed on exhibition in low-priced places of amusement.

Valentine and Bell open in a turn that is entirely new to local theatergoers tomorrow evening. Valentine is a comedian of more than ordinary ability. The pair were a headline feature on Pantages circuits on the mainland and the show presented by the cyclists is described as a "scream" from start to finish.

Bert Wiggin did not have far to go to create a riot of mirth at the Bijou last night in his new turn, "Fun on Joy Street." This is one of Wiggin's star acts and gave ample opportunity for the comedian and juggler to display to good advantage his many talents as a comedian of high order.

Miss Alice Teddy, the trained bear, figures in a new turn this week, the clever brain having taken to some startling feats in tumbling. Manager McGreer has under consideration the giving of one more children's matinee before Alice Teddy and her guardians sail away for California.

## Household Millinery

## You Can't Be Happy With a Headache

Probably more pleasure is spoiled because of headaches than from any other reason.

When your head aches it not only makes you unhappy but it is very apt to interfere with the pleasure of anyone else around you. One can't be expected to be very cheerful and pleasant when one's head is simply splitting.

And there is no need of suffering. Keep a box of

## Stearns' Headache Wafers [Shac]

in the house when you are at home—carry it in your bag when you travel. That insures you against the annoyance of headaches—your own and other people's.

Stearns' Headache Wafers are as pure as they look, and the snow-white wafers certainly indicate purity in the highest degree. One dose cures, and leaves your head "clear as a bell."

It is so much better than any other kind that your own interest demands that you insist on STEARNS'—the genuine.

"She doesn't think much of her husband." "No." "No, she says even the things he says in his sleep are terribly dull and uninteresting."

### LOCAL AND GENERAL

Reversing the circuit court, the supreme court yesterday remanded for new trial the case of Walter E. Wall against Herman Focke for moneys alleged to be due on certain notes and agreements. The lower court had denied a motion for re-trial.

A 19-ton tandem steam road roller, purchased by the city and county, was taken to Kalihi this morning and will be put into service at once. The new machine is of the two-roller type and will be used in alleyways, lanes and for minor repairs on streets.

The harbor commission yesterday formally authorized the appointment of Frank C. Poor as clerk of that body, to assume his duties July 1. Poor is a former employee of the Inter-Island Steam Navigation Company and is thoroughly familiar with the island harbors and waterfront affairs and conditions.

Deputy U. S. Marshal David Sherwood leaves today for Hilo with a warrant for Charles Schreiber, the baker on the Wilhelmina who was arrested in that city last Saturday at the instance of R. W. Breckons on an opium smuggling charge. It is reported Schreiber had four or five times of the contraband in his possession when apprehended.

The first anniversary of the publication of the Hon. Mun. Bo. the Chinese newspaper published by the Yee Hing Association, was celebrated Monday evening, in a gathering at the home of the newspaper, attended by officers of the association and members of the staff of the paper. An anniversary edition, replete with photographs on timely topics was issued the same day.

Governor Frear announces that hereafter repairs on roads in the Makiki district and elsewhere must be provided for by the city and county government, and that the territory is no longer responsible for the condition of such highways. The original work on these roads was paid for by the territory, out of the funds derived from the sale of the lands in the districts affected, but now their maintenance depends on the local government, he asserts.

### NURSERY STOCK IMPORTED ONLY UNDER PERMIT

The new rules regulating the importation of nursery stock has just been issued by the United States Department of Agriculture, and placed in the hands of E. M. Ehrhorn of the board of agriculture and forestry, who has been appointed a representative of the federal government in that department.

The rules state that all woody plants are included within the meaning of nursery stock, as well as field-grown florists' stock. It is recited under the third regulation that all persons wishing to import by mail, express or freight or otherwise such stock from any part of the world must first apply to the secretary of agriculture, stating in the application the general nature and quantity of the nursery stock, the locality where grown, and the address of the exporter, together with the name and address of the proposed importer.

Blank forms are given in the bulletin to be followed when making application for a permit, and also a copy of the permit is given, signed by the secretary of agriculture. The present regulations are to take effect the first of the month. The purpose of the restrictions is to prevent the spread of dangerous plant insects.

Mr. Ehrhorn is in possession of all necessary blanks.

**MRS. PALMER WILL TAKE CHARGE OF PLEASANTON HOTEL**

The Pleasanton hotel will be under new management beginning the first of the month. At that time Mrs. Hannah Palmer, at present manager of the Courtland, will take over control of the beautiful hostelry on Wilder avenue.

For some time negotiations have been underway, the contract held by Mrs. L. M. Gray, the present manager of the Pleasanton, having expired. John A. Palmer, husband of Mrs. Palmer, will manage the Courtland.

There's only one good weapon for fighting the hot summer so near at hand. That is—get an electric fan from the Hawaiian Electric Co. and watch the mercury look baffled.

It certainly is a mighty comfortable feeling when one knows there's a few dollars tucked away in his name in the Bank of Hawaii, ready for the proverbial "rainy day" that comes to all. Better start saving now.

All the schoolgirls will be a-running to Hollister's now—fresh "Pig 'n Whistle" candy came in on the last boat. (And more than girls will be present, for mamas and papas know the "Pig 'n Whistle" quality, too.)

It's a mighty good hint, you know how you like to receive unexpected messages of greeting from your friends—so don't forget that they, in turn, would appreciate a friendly word via wireless. The Mutual Telephone Co.'s office is open till 11 p. m. for messages to ships at sea.

### Morning on Change

The market was unusually quiet this morning. It held its purse strings, and very little trading was done. During the session only a few small sales were made, including 100 Pines which sold at 33, an increase of half a point over the last sale made Monday. A few shares of Pioneer, Hawaiian Commercial and Olau were traded in. Pioneer held its own at 18.25 and Olau at 1.50, but Hawaiian Commercial dropped to 25.

The Kekaha Sugar Company announced dividends reduced from one to one-half of one per cent, beginning July 1.

Activity in the bond market was even more wanting than in the sugar market, no sales being recorded.

"Why did she want to set her husband's will aside?" "Merely because it was her husband's, and she had got in the habit of setting it aside."

## WELL SWIM EXHIBITION TODAY

Australian Cricketers Will See World's Champion Water Sprinter in Action

Although Australasian sportsmen were disappointed in the nonappearance of Duke Kahanamoku in the big swimming events of the Antipodes this spring, a chosen few of the enthusiasts from Kangaroo land will have a chance of sizing up the champion's style and class. By special request from the members of the All-Australian cricket team, that is en route to Canada and England on the Niagara, Duke will go through some swimming stunts at Waikiki this afternoon.

It will be the first opportunity given local swimming fans to see the big islander in exhibition or competition for some months, and it is expected that there will be a large turnout to witness the aquatic stunts.

Duke is scheduled to swim in front of the Outrigger Club and Moana Hotel at 4 this afternoon. Probably several other members of the Hui Nalu will show the Australians what they can do in the way of water transportation.

**Cricketers Arrive**  
The Australian cricketers are a husky aggregation of athletes, and if looks go for anything, they should put up a strong argument against the best that Canada and England can produce. The men are the crack players of Australasia, but they have done considerable playing as a team, and are not merely a collection of individual stars. The Australians made a smart appearance, and wore straw hats with the distinguishing mark of a green and gold band with crossed cricket bats.

The team will play its first matches in Victoria on May 29, 30 and 31, stopping en route through Canada at Edmonton, Prince Albert, Montreal and other points, where matches have been arranged.

The Australians will first be seen in the United States at Philadelphia, where they will play June 20, 21 and 22. Among the more prominent contests that have been scheduled in the east is one against an All-America team at Philadelphia, July 4, 5 and 7. The team will visit Bermuda, sailing July 16 and will be gone for about ten days. Returning to the states, another All-America contest will be played on the Staten Island grounds on Aug. 1 and 2. The players who comprise the team are Warren Bardeley, Arnot, Campbell, Gedy, Collins, Crawford, Diamond, Down, Emery, Macartney, Malley and Mayne.

## 'BUD' ANDERSON IS JOE MANDOT'S JINX

LOS ANGELES, May 21.—Fight fans were given a surprise when "Bud" Anderson handed Joe Mandot the sleeping potion in the twelfth round of their fight last night. The men were even up to the final session, when the Vancouver, Washington, scrapper waded in and finished the argument with a clean knock out.

## 'GUNBOAT' SMITH WINS FROM JESS WILLARD

SAN FRANCISCO, May 21.—"Gunboat" Smith proved himself one of the most unreliable in-and-out fighters in the ring, when he fought Jess Willard here last night, before a big crowd of hungry fight fans. Smith got the decision at the end of twenty rounds of indifferent fighting, which lacked class throughout. A better showing was expected of the Californian, on account of his recent eastern fights.

## FORMER SHERIFF SENT TO PRISON TWO YEARS

STOCKTON, Cal., April 30.—Police Eals, aged 68, former chief of police of Cripple Creek, Colo., ex-sheriff of a Kansas county, and sought by the police of many cities, was sentenced to jail by Judge Smith of the superior court to two years at Folsom for grand larceny. Eals secured \$200 from a Stocktonian which was paid him for an interest in a business that did not exist. Eals departed with the money. He is said to have worked the same game in many cities of the west.

## The Shadows On A Fine Face!

Ever see them? Is your mirror a flatterer? In this age the exception is a truly well person, free from the wasting tendencies of weakened overwrought nerves. Nervous debility reflects indigestion, insomnia, failing memory, irritability, melancholia, weakness of vision, poor hearing and private ailments. And it puts its shadows on the face for all who know to read. Watch the faces. Read the lesson. See yourself. Apply the remedy, for the shadows do not wash off. For nervous debility and its kindred ailments—try the wisdom of the Orient—the Little Persian Nerve Essence tablets. The proprietors, The Brown Export Co., 95 Liberty St., New York, N. Y., U. S. A., guarantee a complete cure in the full treatment of six boxes or will refund the cost. In cases not chronic, one box often suffices! If you have a friend who has shadows—tell him about the Persian Nerve Essence.

Sent by mail postpaid, \$1.00 per box or full treatment of six boxes for \$5.00 Am. Cy. or you can obtain them from your druggist—advertisement.

## NEWS THAT'S COMMENT THAT'S NEWS

## STICK WORK IS WINNING FOR PUNAHOU

The Punahou baseball nine is starting out the year with a splendid record. To date Punahou has participated in five interscholastic games, and has not suffered a single defeat. No other team in the interscholastic league can boast of a record like this. Punahou bids fair to take the championship again this year, and with a big lead, too. Oahu College has won the position it now holds by hard work, and it is by hard work and practice that it expects to take the championship.

Punahou players are making good batting averages, and bringing in many runs for the team. A man that can go up to the plate and feel confident that he can make a hit, and then do it, is a great asset, and not a game has been played this season in which the need of good batters was not felt by one side or the other. That Punahou has several classy stickers is a point which adds a great deal to the team's chances of finishing at the top. The best batter on the Punahou team, as shown by the results so far obtained, is "Bill" Inman, captain and pitcher of the team. Inman has played in five games this season, been at bat eighteen times and has made eight hits. Ernest Gay comes second with twenty times at bat and seven hits. Other Punahou batters have made records which compare well with these. The nine best Punahou batters, and their averages are as follows:

	G.	At bat.	Hits.	Pct.
W. Inman	5	18	8	.444
E. Gay	5	20	7	.350
H. Baldwin	5	22	7	.318
W. Hitchcock	5	20	6	.300
A. Yap	5	20	6	.300
S. Sakai	5	21	6	.284
L. Wishard	5	22	6	.274
D. Wadsworth	5	15	4	.266
H. Fassoth	5	22	4	.181

## TRIS SPEAKER GOING STRONG

Tris Speaker certainly has got off to a good start even if the rest of the speed boys haven't. During the first two weeks of the championship race the star outfielder of the Red Sox hit at a .437 clip and fielded smoothly, playing in the same smooth manner that marked his work in 1912, when the Chalmers jury of baseball sharps voted him the most valuable American League player.

That batting average of .437 and fielding percentage of 1.000 hardly do Speaker justice. Mr. Smoke obtained a batting credit by getting fourteen hits in thirty-two times at bat, but besides obtaining fourteen safeties he worked the pitchers for twelve passes and reached first base on errors four times.

Until Walter Johnson fitted jackets of white on the Red Sox, Speaker had scored in every game in which he had played and in only two contests had he failed to make a hit. Walter Johnson and Byron Heuck were the men who stuck ciphers into Speaker's base-hit column and they also were the only pitchers who fanned him during the first fortnight's play.

Speaker's base running average at the end of the second week of the campaign was 500. He had executed four successful steals and had been thwarted the same number of times when he started out on thieving expeditions. The backstops who stopped the Bostonian were Ira Thomas and Jack Lapp, the former having cut Speaker down three times when he tried to pilfer.

**Valuable in Field**  
Tris had three assists from the outfield in his first ten games, figuring in two double plays. These figures show just how valuable Speaker was to his team in the first two weeks of the season.

Actually at bat—Forty-five times. Reached first base—Thirty times. Sacrificed—Once. Runs batted in—Five. Passes received—Twelve. Times fanned—Twelve. Hits scored—Nine. Runs made—Fourteen. Bases stolen—Four. Thrown out trying to steal—Four. Putouts—Twenty-one. Assists—Three. Errors—None. Double plays started—Two. Men thrown out—Three.

## YESTERDAY'S SCORES IN THE BIG LEAGUES

NATIONAL LEAGUE

At Detroit—Detroit 8, Philadelphia 7.	
At Cleveland—Cleveland 10, Washington 9.	

## Hans Lobert of Phillies a Second Faster Than En Sue on Bases

PHILADELPHIA—Who is the fastest runner in the major leagues? On hand you will say Ty Cobb or perhaps Bob Bescher of Cincinnati or Clyde Milan of Washington. Well, you are wrong. All of the afore-mentioned are wonderfully fast base runners, and all three have led their respective leagues in the bag pilfering line some time or another, but the honors of being the fastest runner in the big shows belongs to Hans Lobert, the Philadelphia Nationals' third baseman. Members of the Phillies declare they will back him against any other ball player in the country at clipping the sacks. He is also the holder of the record. At Cincinnati October 12, 1910 he circled the bases in 13.45 seconds. However, fast as he is, Hans has never been able to lead his league in bag pilfering. This year he is playing a fine game at last station and batting strongly. Last season he hit .327.

It will be of interest to Honolulu fans to compare Lobert's base-running record with that of the fastest local man. On April 29, 1912, En Sue circled the bases in 14.45 seconds, winning the event in the baseball field day held on that date.

## BRAINS AS WELL AS BRAUN NEEDED FOR RING SUCCESS

Jimmie Britt hasn't been in the spotlight to any great extent recently, but once in a while the little Californian breaks loose with some stuff that sounds like the old days. In an interview published in a coast paper recently, James Edward tells how a man can become a great fighter by using his brain for other purposes than to stop punches.

"Why do many fighters go so far up the pugilistic ladder and suddenly stop? Well, listen—Jimmy Britt, one of the cleverest and most experienced boxers in the world, straightened the pin in his tie, drew his chair up closer and continued—"because they don't study."

"Few fighters ever reach the top. And those who do are not champions because of their natural ability alone. They study. They figure things out. They go along for a while, winning battles, drawing some and losing a few. They reach the second class, that is, the near-champion class. Then, do they just train, spar and take off eight before an important battle? No. They study as well."

"And you ever know a fellow-sufferer at school when you were a kid, who, naturally bright, seemed to know every lesson or his class without having to study? And did you notice how some kid when he got into the higher grades ran down with a bump when the time came to study? That was because he did not study, he did not apply himself. He got along well enough until the time came when his natural ability would not carry him any further—and then he stopped."

**Wins Rights Naturally.**  
"It is so in everything, baseball or any other kind of athletics. A fighter may be the class of his town. He wins the championship of the town because he is bright, and just wins battles through his natural resources. He meets challenges from other towns and wins. But he does not use any systematic methods, but he just luck."

"Then our champion gets a real match. He signs with a man of reputation. He goes down to the mat and he is to lose when the fight comes on. He goes toward the end of the battle, he weakens. He is losing. Why? He has nothing to fall back on. He has spent all his natural ability, and is beaten."

"But the fighter who is carried to the near champion class by ability and then systematically studies out his battles, is the conqueror. He figures out why a boxer fights. Is it just a habit that will do him no benefit, or does he accomplish something by sticking his mat within a foot of his opponent's face and then stop. He studies these things out. Does he needlessly sidestep when no real good is the outcome, or does he jump lightly to one side at the right moment? Does he figure just now is the best way to sup over the winning punch, whether a body blow or a face blow is the better. He watches these things closely.

"There are many examples of the

## CANARIO LEADING THE Y. M. C. A. ROLLERS

In the handicap bowling at the Y. M. C. A. yesterday, Canario pulled out ahead of all the other contestants by rolling four high games, giving him an average, with his handicap, of 182. There were several changes among the bowlers in the second division, the most noticeable being Harris' rise from 150 to 163.

**Individual Handicap Bowling.**  
(Standing May 20.)

Genoves (20)	13	130	150

Numbers in parentheses represent handicap given each game.

## TWO-MAN TEAMS TO ROLL NEXT

In spite of the long run of tournament bowling, local rollers show no signs of flagging interest, and the suggestion of a doubles tournament has met with keen approval. Eight teams have already entered, and there is a chance of several more getting into the event which will start either tomorrow or Friday, depending on the way entries come in today.

"The idea is to make this tournament snappy all the way through," said Manager Wisdom of the "Y" alleys this morning. "The schedule will be framed to give every team at least one crack at every other team, and the whole event will be run off inside of a couple of weeks."

Following are the pairs entered to date:

Relow and McTigue.
Roberts and A. E. Tinker.
Winne and Mills.
Milton and Clymer.
C. A. White and Franz.
H. White and Wisdom.
L. J. Scott and Rasmann.
R. E. Scott and Haney.

## HUGH M'INTOSH HERE ON JUMP

Hugh McIntosh, the man who put Australia on the fight map, hesitated in Honolulu for a matter of minutes this morning. The well-known promoter was a passenger on the Niagara, but when the new Canadian-Australian liner touched the dock, he was one of the first ashore, and rushed off to attend to the formalities of transshipping on the Wilhelmina, sailing at 10 o'clock.

McIntosh is noted for the way he handles big business on the jump, and when he learned that the Wilhelmina was about to sail the Australian hustler decided that it was up to him to save a few precious hours by changing ships. The way he legged it from the immigration office to the booking agents was an eye-opener for those more sedately inclined.

McIntosh has sold out all his fight interests in Australia to "Snowy" Baker, and is now giving his entire attention to theatrical ventures.

## NOT ALLOWED TO PLAY GUEST USES REVOLVER

DAYTON, PA.—Refused permission to play the accordion at a party, Joseph Conjan emptied his revolver into the guests, shooting four, three of whom will die.

He then fled and is being pursued by Pennsylvania state constabulary.

## HAWAIIIS LUCKY TO GET CHILLINGWORTH

While many of the fans here would have followed with interest the work of Henry Chillingworth, had he gone to the coast this spring and tried out with the Sacramento team, as originally announced, the decision of the fast local shortstop to stay at home is very acceptable to the fans. "Chilly" was a great asset to the J. A. C.'s last season, and was conceded to be the best shortstop in the league. When his old team broke up this spring, Chillingworth went over to the Hawaii camp, and to date has shown all his old-time dash in his new uniform.

## GOLF GOSSIP

It may not always be pleasant but it is at least interesting to see ourselves as others see us. A number of the British papers have been commenting on the possible American entrants for the amateur championship at St. Andrews, and the professional Hovlake. According to The World of Golf one way and another the present year promises to provide something in the nature of a feast of international golf.

If all the plans come to pass the supply of that inviting dish in 1913 will be the most plentiful that the game has ever known. It is curious that this should be the situation in the very season in which the England and Scotland match has been abandoned.

A tasty snack will be provided at St. Andrews in May, when several distinguished Americans will take part in the British amateur championship. It is thought that J. D. Travers will be unable to visit this country, but Charles Evans, Jr., and Fred Herrishoff are understood to be likely starters. There are people who think that Mr. Evans is the best amateur in the states in spite of the fact that he lost to Mr. Travers in the final of the American championship last year. In any event the visitors will be heartily welcome.

**Two Americans**  
From what we have seen of the two men in this country, we would plump for Mr. Travers as the superior golfer on the ground that he can put "stop" onto his long iron shots, whereas Mr. Evans, whose methods indicate the possession of a natural system of applying "pull" to the ball is apt to be handicapped by too much run on the green. Still this is a matter of opinion.

Two American ex-champions, W. C. Fownes and E. M. Byers, and the well-known Massachusetts golfer, Heinrich Schmidt, are practically certain to play in the British championship at St. Andrews.

Mr. Byers is not a stranger on this side. He is a slightly built player, who gets an astonishing long way with his wooden clubs, considering his physique. Mr. Fownes is one of the youngest of America's leading players. The curious thing is that most of the best players in the United States are young men. W. J. Travis, who is just over 50, is considered almost patriarchal.

**The Open Event**  
At Hoylake in June there is the prospect of a special repeat of instructive strife in the shape of a contest between American and British professionals. The fate of this event depends upon the caliber of the United States professionals who cross the Atlantic for our open championship, but it is gathered that they will be a formidable party, and if such prove to be the case it is not unlikely that the match indicated will be held in place of the England vs. Scotland contest. Subsequently, the Americans will play in the open championship, so that the Union Jack and the Star Spangled Banner will be in opposition for a long while.

Then, in the autumn Edward Ray and Harry Vardon will go to America determined to bring back the open championship of the United States to England. Vardon won the event in 1900, when J. H. Taylor was sec-

**Yesterday's Games.**  
L Co. 4, E Co. 3.  
F Co. 18, I Co. 0.

The two leaders in the race for the regimental championship of the Twenty-fifth infantry made their lead a little more secure by annexing a victory apiece yesterday.

After F Co.'s slaughter of I Co. in the opening game, an immense crowd of first and second battalion rooters gathered to cheer for E Co. for an L Co. defeat would have put F Co. in first place.

L Co. opened with some new faces in new positions, Willis being on third until he went into the box to relieve Smith in the second and Franklin on first where he played the game of his life, making one beautiful double play unassisted.

Loia pitchers—Waterhouse for E Co. and Smith for L Company—were plainly nervous. A pass in the first, followed by Williamson's error, gave E Co. its first run. Willis scored for L Co. on a fielder's choice and a passed ball. In the second two pretty hits by Johnson and Franklin netted L Co. another.

For E Co. Waterhouse, in the third, made first on a scratch hit, was advanced and scored on Green's double, and Green scored on Willis' error.

L Co. tied the score in the fourth when Johnson made his second hit in the game—a double—and scored Smith, who had advanced from first base to third base on William's error in dropping the ball on each steal.

In the fifth L Co. took the lead when Williamson hit for 3 bags and scored on a wild pitch.

Willis retired Smith after E Co. had batted in the two runs in the third and pitched a great game.

It is some task for a southpaw to pitch against a team of seven left-hand batters and do it in the manner Willis did yesterday. The victory was a fight, inning by inning, for L Co., and the umpire's decisions on close plays all were in E Co.'s favor, particularly on two close decisions at home plate, both of which lost L Co. a run. As the series are approaching completion the excitement is intense.

ond, and we cannot express other than confidence in the ability of our representatives to repeat the triumph. However, the standard of golf in the states must have improved in 12 years, and the task will be no easy one.

**Choice of Model**  
Ray and Vardon afford such contrasts in style that the states will be hard put to it to know whom to copy. It is said that the younger Americans glory in hard hitting, and when they see Ray thumping the ball like a Hercules, they may feel that the right sort of model has come among them. There cannot be any golfer who hits quite so hard as Ray. Yet who could resist the perfect rhythm and supreme grace of "Vardon"? As a stylist, Vardon without an equal, and with all the symmetry of his movements, there is a fine infusion of dash in everything that he does. So that, one way and another, the rising generation of American golfers will have plenty over which to ponder.

J. J. McDermott, M. J. Brady and T. L. McNamee, probably the three best professional players in the states, will be among the competitors in the open championship at Hoylake. Massey was the winner the last time the event was played at Hoylake. Is the Royal Liverpool Club's course going to be the scene of another "foreign" victory?

## ATHLETICS GIVE GIRLS GOOD MORAL BALANCE

CAMBRIDGE, Mass.—That the athletic girl is less liable to succumb to temptation than her sister who does not go in for athletics is the opinion of Dr. Dudley A. Sargent, director of athletics at Harvard.

"The social evils are the result of life's forces being turned into wrong channels," Dr. Sargent says. "The eternal longing to externalize one's self—that is, to find an outlet for the emotions—is an inherent one in human nature. The basic impulse may find natural healthy expression in athletics, or it may find some sinister form."

"Woman is more emotional than man, and with her the sex attraction is apt to be more blind. Athletics offer the girl who is budding into womanhood not only the opportunity to acquire a sound healthy body, but a moral and mental equipoise which I believe can be acquired in no other way. It is certain that girls of athletic tendencies are less liable to go astray, because they find in athletics a safe outlet for the emotions. It would seem to be nature's own scheme for preserving the moral balance."

Three-fourths of the teachers in Alabama are holding their first position. Only 7 per cent of the teachers now employed have taught more than two years.

The foreign interest in American physical education movements is shown by the fact that a recent German periodical devoted its leading article to "The Camp Fire Girls of America."

## OVER-NIGHT FEDERAL WIRELESS To the Advertiser

Majority members of the senate finance committee held their first meeting today to hear preliminary reports from the subcommittees working on the tariff bill and suggesting revisions for the approval of the entire committee and the Democratic caucus.

Senator Stone reported that the metal schedule practically had been finished by his subcommittee, but that it was being considered a second time with the aid of an expert from the customs appraiser's office in New York.

Some changes in the schedule have been made, but it is believed they are not of such a character as to arouse opposition of the house Democrats.

Senator Johnson reported that the chemical schedule had been finished by his subcommittee and about thirty changes had been made, affecting chiefly dyes used in the manufacture of cotton goods.

No reports were made relating to sugar and wool.

Search for a friend who attacked and strangled to death Grace Johnson, a pretty 14-year-old girl of Trafford near Pittsburgh, Pa., is being made throughout all the adjacent country. Police, state mounted police and sheriff's posse with bloodhounds are aiding in the search.

The girl left home yesterday to walk to school. When she failed to return search was made and her body was found by the roadside.

Predictions that the California-Japanese land dispute will be settled or that steps will be taken in the courts to settle the trouble before the Webb bill becomes effective in August, were freely made today by administration leaders.

The cabinet today discussed the situation brought to a crisis by Governor Johnson signing the bill.

Secretary Bryan reported the details of his conference with Ambassador Chinda, who this morning forwarded the answer to Tokio.

President Wilson and his advisers are confident that the dispute will never go to arbitration. His advisers say that an arbitration commission could only decide whether the California bill violates the American-Japanese treaty.

A test of the bill in the courts, or a decision by the United States supreme court as to whether Japanese are eligible to citizenship is believed to be the most likely solution of the difficulty.

Andrew Carnegie's method of doing business was explained today at the government suit for the dissolution of the Steel Trust by Charles M. Schwab, the corporation's first president under cross-examination by former Secretary of War Dickinson.

Schwab freely admitted that a pool in steel rails existed even before the United States Steel Corporation was formed. Schwab asserted that in 1898 the Carnegie Steel Company refrained from making girder rails for a consideration paid by a competitor. He also asserted that once Andrew Carnegie refused to organize a selling company to market the products of certain steel companies "because it would have been unlawful."

Three women, one with a baby in her arms, were among fifty-seven persons arrested today in the vicinity of the Price Silk Mill, Paterson, N. J., where some of the workers had returned to work. More than 1200 strikers and sympathizers gathered to jeer the returning workers and the arrests occurred when an order to "move on" was disobeyed. The woman with the baby was immediately paroled.

Victory for the union street car men who have been paralyzing Cincinnati by a strike which almost absolutely tied up traffic was clinched today when the cars, under a peace agreement, began running normally again.

By the peace pact signed late last night, the unions are recognized by the street car company. The demands of the men for an increase of wages will be arbitrated.

Because the newspaper accused him of being intoxicated, former President Roosevelt will leave New York on Saturday for Marquette, Michigan, to personally appear in his libel suit against George Hewitt, editor of the Marquette Iron Ore. Robert Bacon, William Loch, Gifford Pinchot, O. K. Davis, Gilson Gardner, John Callan O'Dougherty and Dr. Lyman Abbott will accompany Colonel Roosevelt to give evidence, it is believed, as to his habitual sobriety.

Envoys of the Balkan States now in London met privately today to prepare a request to the Powers to modify the peace proposals made in behalf of Turkey.

The ambassadors of the Powers also met at the foreign office to discuss the situation, especially the demands of Greece regarding the status of the Aegean Islands and the location of the Albanian frontier.

It was pointed out by Secretary Garrison today that the movement of troops from Fort Slocum, New York, and other Eastern points to the Pacific coast was being made under an order issued March 15 by former Secretary Timson, which directed immediate recruiting of two thousand men to bring the Hawaiian garrison up to its full strength.

Army officers say it is difficult to secure recruits on the Pacific coast and that it is necessary to enlist the men in the Eastern and Middle Western states.

The order for two thousand recruits has nearly been filled, and the war department officials say the movement will go on for some time.

Organized labor was given a severe arraignment in Detroit today by John Kirby, Jr., president of the

## For the Children

When the children are weak, when they do not care to play, when they are fidgety, when they keep thin, and when they have no appetite; this is the medicine they need—

**Ayer's Sarsaparilla**

SOLD FOR 60 YEARS

No alcohol in this medicine. No habit-forming drug of any kind. Perfectly safe in every way. Ask your doctor for his approval.

Talk to the children about this great rule of health—"Have daily movements of the bowels." Ayer's Pills are sugar-coated, gently laxative. Dose, one pill, only one pill at bedtime.

Prepared by DR. J. C. AYER & CO., Lowell, Mass., U.S.A.

National Association of Manufacturers, in making his annual reports. Among other things he said:

"Conspicuous in the momentous events of recent years that have transpired in the field of American industry is the tragedy of Los Angeles and the drama at Indianapolis. As a reward to the principal accomplices in this conspiracy, one after another, through the power of the invincible inner circle of the American Federation of Labor, they have been re-elected to their respective offices. Point to me one single labor leader who has arisen and indignantly demanded that such type of leadership be barred forever from the administration of union affairs."

Threats to spread the waterfront strike to the port of New York and eventually to all Atlantic coast points were voiced in Philadelphia today by leaders of the Industrial Workers of the World.

Captain Robert Bartlett, who commanded Peary's ship on his Polar voyage, was today chosen sailing master of the Wilhelmsen Stefanson Arctic expedition.

Reports from Switzerland that King Peter of Serbia is soon to abdicate were not denied at the royal palace today.

The statements, which emanated from Bern, were that King Peter has determined to leave his throne on the conclusion of the Balkan War.

"Justifiable homicide" was the verdict at Vallejo, today, of a coroner's jury which heard the circumstances under which Joseph Hoversby, a navy yard employee, shot dead F. B. Raney, alleged to have been Mrs. Hoversby's affinity. Hoversby surprised Raney with his wife and killed him and he fled from the house.

Dispatches today from a Vienna news agency declare that Essad Pasha, the Turkish commander who sought the sovereignty of Albania, has been assassinated by followers of Riza Bey.

Emma Goldman and Dr. Ben Reitman, her manager, were taken from a Santa Fe train at four o'clock this morning and put in jail. They came from Los Angeles and had been advertised to lecture here tonight. Later they were placed on board a train and sent north.

This is the second time the two notorious anarchists have been run out of San Diego.

There was no serious Independent Workmen of the World trouble to rouse the people to the fever pitch on the present occasion, but the citizens thought it best to take the anarchists in hand before the people could gather to take summary measures.

LEGAL NOTICE

IN THE CIRCUIT COURT OF THE First Circuit, Territory of Hawaii, at Chambers—in Probate. In the matter of the estate of Jane Browne Massey, deceased.

On reading and filing the petition and accounts of E. H. Wodehouse and Robert Wallace, executors of the will of Jane Browne Massey, deceased, wherein they ask to be allowed \$651.65 and they charge themselves with \$114.62, and ask that the same may be examined and approved, and that a final order may be made of distribution of the property remaining in their hands to the persons thereto entitled, and discharging them and their sureties from all further responsibility as such executors.

It is ordered, that Monday, the 16th day of June A. D. 1913, at 9 o'clock A. M., before the judge of said court at the court room of said court at Honolulu, Island of Oahu be and the same hereby is appointed as the time and place for hearing said petition and accounts, and that all persons interested may then and there appear and show cause, if any they have, why the same should not be granted.

By the Court:  
(Seal) **O. K. AONA,**  
Clerk.

Dated at Honolulu, this 7th day of May, 1913.

## Why We sell and recommend United States Tires

It is because we know it is good business policy to push a brand of tires which give our customers the fewest causes for complaint.

Experience with practically every tire on the market has proven to us that United States Tires come the nearest to being "trouble-proof," both for the man who uses them and the man who sells them.

Cost no more than you are asked to pay for other kinds. : : :

VON HAMM-YOUNG CO.,  
AGENTS

## Cycling Joys

The fine and necessary exercise: the "brushing of mental cobwebs away," no stopping at every street corner; city streets and country roads all possible to you; getting home for lunch, or back to work on time—all of this possible if you own a bicycle.

## DR. FILIPPI SILVESTRI MAKES HIS FIRST REPORT ON PARASITES

Italian Entomologist Covers, in Detail, Work in Wilds of Africa in Search of Insect to Destroy the Mediterranean Fly, Covering a Period of Almost 2 Year

Dr. Filippi Silvestri, Italy's famous entomologist who has spent almost a year, under the employ of the Territory of Hawaii, searching for a parasite that would exterminate the Mediterranean fruit-fly, has issued a statement, covering his research work, his hopes and anticipations. The statement, of which a translation follows, was made yesterday afternoon:

"In May of 1912 I was engaged by the commissioners of the board of agriculture and forestry to undertake an expedition to tropical West Africa in search of a parasite on the Mediterranean fruit-fly. After securing a twelve months leave of absence from my government and having in the meantime obtained credentials to the various governments of Great Britain, Germany, France, Portugal and Italy, I left Portici, Italy, in July, 1912, and proceeded to the West coast via Bordeaux and Canary Islands.

"During the expedition I visited and investigated fruit-fly conditions in parts of Senegal, French Guinea, Gold Coast, Dahomey, Kamerun and Nigeria, and also to a slight extent in Angola and the Congo. After meeting with more or less obstacles in the way of climatic as well as physical conditions, I succeeded in securing four or five new and undescribed species of fruit-flies of the genus Ceratitis to which the so-called Mediterranean fruit-fly belongs, besides observing a number of species already known to science. With one or two exceptions all of these species, including the Mediterranean fruit-fly, were not found in great abundance.

"After careful scientific observations it was soon apparent that the reason of the scarcity of most of the species was because the fruit-flies were kept in check by natural insect parasites. During the progress of my research work I bred out a number of parasites from both the larvae and pupae of practically all species of fruit-flies observed and eventually found that the latter were to a great extent attacked in common by one or more of the same species of parasites. These latter I succeeded in rearing in numbers and my time and the season being short, I concluded to arrange my transportation to Cape Town, South Africa, where I knew I could secure an abundance of Mediterranean fruit-fly material for breeding and rearing, such of the parasites as could successfully be transported to the latter locality.

"Cape Town and its neighborhood in South Africa is well known to be badly infested with the fruit-fly pest and it was an easy matter to secure there an abundance of infested fruits for breeding purposes. At the end of March, after a three weeks' sojourn at Cape Town, and having strong colonies of at least three species of parasites together with a lesser number of two other species, I decided to take steamer from there to Sydney, New South Wales, direct, where I knew I could secure an abundance of Mediterranean fruit-fly material for breeding and rearing, such of the parasites as could successfully be transported to the latter locality.

"Cape Town and its neighborhood in South Africa is well known to be badly infested with the fruit-fly pest and it was an easy matter to secure there an abundance of infested fruits for breeding purposes. At the end of March, after a three weeks' sojourn at Cape Town, and having strong colonies of at least three species of parasites together with a lesser number of two other species, I decided to take steamer from there to Sydney, New South Wales, direct, where I knew I could secure an abundance of Mediterranean fruit-fly material for breeding and rearing, such of the parasites as could successfully be transported to the latter locality.

"Whether or not at a later meeting Supervisor Pacheco will be able to restore Dias to his position, he succeeded last night in having the resolution voted down by a three to two vote. This he did notwithstanding a showing made in the resolution that by reason of the former clerk's discharge, the county was saving \$115 a month.

"It is expected that Supervisor Pacheco will follow the victory of last night at the next meeting with an action to reinstate Dias. This will probably be brought before the body in the form of a petition.

"Predictions had been made that the matter of the transfer of the water and sewer systems would come up last night. But no action was taken on the matter. A special committee, headed by Supervisor Petrie, is understood to be thoroughly studying the situation, with the view of making recommendations to the board, and until its work is completed the proposed transfer will remain in abeyance, so far as the board proper is concerned.

"The remaining business of the meeting was routine. Several petitions for permits were acted upon. Ponciano Farhola asked to be allowed to open a dance hall at 305 Vineyard street. His petition was referred to the police committee after some discussion. The bad condition of the Kapahulu road was brought to the city fathers' attention by communications sent to them and signed by residents along the thoroughfare. It was pointed out that the road is in an almost impassable condition. It was asked that the board have it macadamized and curbed. The communications were referred to the road committee.

"The board did, however, find time to refer to the proposed transfer of the water and sewer systems toward the close of the meeting when a motion was passed instructing the clerk to communicate with the governor, asking for all data on hand regarding the systems.

"The next meeting of the supervisors was set for May 29 at 12:15 p. m.

The government of Belgium has invited the United States and the separate states to be represented at the First International Congress of Cities to be held in Ghent in July. The congress will be devoted to the two main topics of city building and the organization of municipal life.

handed by me on the voyage. "I am sorry to say I did not come across any parasites for the species of cotton boll worm which you have here in Hawaii. While searching for parasites on the fruit-fly I devoted much attention to the boll worm but did not find it in evidence anywhere in the parts of West Africa I visited. I secured some information, however, as to possible localities on the East Coast where this particular species of boll worm is said to exist and if opportunity is afforded me later I may be in a position to succeed in securing effective parasites on that pest.

"I was also aware that you have had the melon fly here in Hawaii for some years and the president of the board of agriculture and forestry in securing my services particularly referred to this pest as well as that of the cotton boll worm. I was unable, and in fact did not expect, to find that particular species of fruit-fly in West Africa. It belongs to an entirely different genus of fruit-flies from that of the so-called Mediterranean fly and is supposed to have its home in India, where I have no doubt it has its natural parasites. Should I go to East Africa at some future time to search for parasites on the cotton boll worm it would be an easy matter to take in India on that particular expedition and good results would possibly ensue. In West Africa I, however, met with one or two other species of the same genus of fruit-flies as your melon fly and from these bred parasites.

"I am already experimenting with the pupae of the melon fly in the Honolulu insectary, and would not be at all surprised to find that one or more of the parasites I have just introduced may incidentally if not effectively attach themselves also to the melon fruit-fly. It is, however, altogether impossible to give any assurances on this point any more than it is possible to say that any of the parasites will surely acclimatize themselves and do effective work in Hawaii under natural conditions as they undoubtedly do in their native habitat as well as in captivity in the insectary.

"Effective parasitic work is altogether problematical and the fact that the success obtained in securing a parasite on any particular pest or of its introduction into any country must not be intended to mean that its final establishment under natural conditions is a foregone conclusion. Whilst Hawaii has heretofore been specially successful in parasitic research work because of the eminent scientists who have been in charge of field and laboratory operations other countries have not all met with equal success. I have particularly referred to the successful work done by the entomologists of the Hawaiian sugar planters' association. Combating insect pests by means of natural insect enemies is not universal by any means and such work might well be considered as only just begun. In this particular line of entomology I am most interested having, already introduced into the agricultural districts of Italy many beneficial insects.

"I am obliged to leave in about two weeks, my twelve months leave of absence as professor of entomology in the Royal School of Agriculture at Portici, Italy, expiring at the end of the coming month.

"F. SILVESTRI"  
Honolulu, May 20, 1913.

## FORMER QUEEN ENJOYS VISIT TO HAWAII

Tendered a luau last Saturday by her hostess, Mrs. Nawahi, to meet more informally the officers of the various Hawaiian societies who have entertained her, Queen Liliuokalani, according to dispatches from Hilo, is thoroughly enjoying her visit. Sunday the queen and her suite went to Hanalei in a private car, which was placed at her disposal by Superintendent Miller. The queen may return to Honolulu next Friday on the Mauna Kea, but her plans are not as yet definitely made.

## TO NAME ENGINEER.

Selection of an engineer for the harbor commission will be made by that body next Tuesday afternoon. This office was created by the recent legislature and the salary fixed at \$250 a month. The only applicant for the position is...

## HAIR STOPS FALLING, DANDRUFF DISAPPEARS—25 CENT "DANDERINE"

Save Your Hair! Beautify It! Invigorate Your Scalp!  
Danderine Grows Hair and We Can Prove It

Try as you will, after an application of Danderine, you cannot find a single trace of dandruff or a loose or falling hair and your scalp will not itch, but what will please you most, will be after a few weeks' use, when you will actually see new hair, fine and downy at first—yes—but really new hair—growing all over the scalp. A little Danderine now will immediately double the beauty of your hair. No difference how dull, faded, brittle and scraggy, just moisten a cloth with Danderine and carefully

## ONE DOSE MAKES INDIGESTION GO

All Stomach Distress Quickly Ended with "Pape's Diapepsin"

You don't want a slow remedy when your stomach is bad—or an uncertain one—or a harmful one—your stomach is too valuable, you must injure it with drastic drugs. Pape's Diapepsin is noted for its speed in giving relief; its harmlessness; it's certain unfailing action in regulating sick, sour, gassy stomachs. It's millions of cures in indigestion, dyspepsia, gastritis and other stomach trouble has made it famous the world over.

Keep this perfect stomach doctor in your home—keep it handy—get a large fifty-cent case from any drug store and then if anyone should eat something which doesn't agree with them; if what they eat lays like lead, causes headache, dizziness and nausea; eructations of acid and undigested food—remember as soon as Pape's Diapepsin comes in contact with the stomach all such distress vanishes. Its promptness, certainty and ease in overcoming the worst stomach disorders is a revelation to those who try it.—advertisement.

## ARMY AND NAVY NOTES.

Ordinance Sergeant Oscar Mann, having reported this date in compliance with paragraph 22, Special Orders, No. 76, war department, April 2, 1913, will proceed to Fort Ruger, H. T., reporting on arrival to the commanding officer, for assignment to station and duty at the sub-post, Fort De Russy, H. T.

Corporal Owen E. Lynch and First-class Private Thomas E. Ayres, Signal Corps, having this date in compliance with paragraph 11, Special Orders, No. 84, war department, April 11, 1913, will proceed to Fort Kamehameha, H. T., reporting on arrival to the commanding officer, for duty in connection with the Fire Control installation at that post.

By virtue of General Orders No. 18 Colonel Daniel M. Appel has been officially designated department surgeon, relieving Lieut. Col. H. I. Raymond, former chief surgeon, who leaves for station on the Coast on the transport sailing the first of June. Colonel Raymond will remain on duty at his present station until the transport sails.

The commanding officer, Fort Shafter, H. T., will issue, as necessary in the military service, orders directing the travel of officers and enlisted men of Company I, 3d Battalion of Engineers, and for the transportation of such men and supplies as may be necessary in the completion of the military survey of Oahu.

Under the provisions of paragraph 1434, Army Regulations, Private William J. Boressoff, Troop G, 4th Cavalry, Schofield Barracks, H. T., is transferred to the Hospital Corps, and assigned to duty at that post.

## GRAFT COMMISSIONER PROVES A HERO

Newly-crowned a hero by the residents of Hawaii, Commissioner Long of the Hawaii graft commission, which is probing into the county financial tangle, is reported to have rescued a Hawaiian lady from death by drowning. According to the story told in Hilo, Long plunged into a stream near Pahala and rescued the woman who had been swept from her feet in the swirling waters.

BARTLETT SECURES DIVORCE. Encountering no contest Charles G. Bartlett, manager of the Honolulu Brewing and Malting Company, obtained his divorce from Mrs. Ora E. Bartlett in Judge Whitney's court yesterday afternoon. The hearing did not continue for more than ten minutes, consisting chiefly of two or three brief statements by Bartlett and a perusal by the court of some semi-private evidence submitted by Attorney Frank Thompson, for the libellant.

Bartlett testified that his wife, who has been in San Francisco for more than a year, had refused on three different occasions to return to the home he had provided for her here.

The decree is to take effect June 1. sition at present is R. B. Park, who for several months has been serving in the public works department. Park was employed by the Hawaii belt road commission last year and prior to that time had been several years in the federal naval service, in the Philippines and on the Pacific coast.

TO DECORATE GRAVES OF HONORED DEAD

The George W. de Long Post of the Grand Army of the Republic will observe Memorial Day by holding their rites in commemoration of the dead soldiers in Nuuanu Cemetery between the hours of 10 and 12 o'clock on May 20. This announcement was filed with the board of supervisors at the meeting last night and met their instant approval. The veterans of the war of 1861 have also signified their intention of turning out in force on Memorial Day.
