

WAS "HARMONY" THE "POLICY?"

THE POINT WHERE GOVERNOR CARTER FAILED

NOW BELIEVED THAT THE POLICY ROOSEVELT WANTED CARTER TO CARRY OUT, WHICH ACCORDING TO HIS SAN FRANCISCO INTERVIEW CARTER FOUND HIMSELF UNABLE TO DO, WAS TO SECURE AND MAINTAIN POLITICAL HARMONY.

Was the establishment of "harmony" in Hawaii the "policy" which Governor Carter referred to when he said in San Francisco that he and the President had agreed upon a certain policy which he found himself unable to carry out? There is considerable reason to believe that Carter had reference to a desire on the part of the Chief Executive that political harmony be brought about in Hawaii.

In the first interview from Carter yesterday after his conference with Roosevelt he stated that he had assurances of the President's support, but that harmony in Hawaii was not to be expected for some time. This is taken by many as evidence that the harmony proposition was largely the subject of the conference and that the assurance of support which Carter wanted was an assurance of support in spite of a failure to harmonize conflicting factions here. Those who take this view of the matter point to the fact that Carter's administration, as a business proposition, has frequently been declared satisfactory to those in authority at Washington and the fact that it has always been thoroughly understood that Carter possessed the complete kind of support and sympathy of Roosevelt.

"There is much to indicate that when Carter took office it was with an understanding that there was to be an end to political rowing in Hawaii," said a

local follower of the political situation this morning. "There is no doubt that President Roosevelt was tired of the constant bickerings that took place under the Dole administration and in appointing Carter hoped to settle factional fights here. When Carter took office his whole policy with the people was directed to harmonizing the factions, and he was highly successful in doing so."

"Everyone knew that Carter had the support and confidence of Roosevelt all the time and nothing except the political rumpus has occurred to change this state of affairs. It was when there was evident failure of the harmony idea that Carter began to consider resignation and finally went to Washington to see Roosevelt, saying in San Francisco that when he took the governorship it was with the understanding with Roosevelt that he carry out a certain policy, that he had found it impossible to carry out the policy and was therefore going to offer his resignation. No other policy which Carter has attempted has failed. As a further evidence that this is what Carter feared would be unsatisfactory to Roosevelt, the first thing he says after the conference at Oyster Bay is that he is to remain, but that harmony cannot be expected in the near future. I believe that Carter's idea of failure to carry out Roosevelt's policy is simply his

DECAPITATED HIS VICTIM

TINERATO SATO TO BE TRIED ON HAWAII FOR A MURDER OF EXTRAORDINARY BRUTALITY

A murder of extraordinary brutality is among the cases to be tried at the coming term of the Hawaii Circuit Court, for which Chester Doyle left today representing the attorney general's department. The victim was one Hui Sam, who was shot and then nearly decapitated near Hutchinson plantation. A Japanese named Tinerato Sato is charged with the crime.

Hui Sam was killed on April 28. His body was found some hours after the murder. He had been shot with a 33 calibre rifle and then a cane knife had been used to sever the head. The murderer had hacked away until he had almost cut through the bones and the head was nearly cut off. Some of the clothing, a watch, pistol and other property of the deceased were found in Sato's possession and he is alleged to have made a confession when first placed under arrest.

RUSHING SUGAR INTO THE TEXAN

BIG STEAMER IS TO TAKE 6,700 TONS AT THIS PORT—WILL BE DISPATCHED TOMORROW.

Sugar is being rushed into the S. S. Texan in order to dispatch her for Kaaanapali and Hilo tomorrow evening. The vessel will take a load of 6,700 tons of sugar at this port, about 2,500 tons more remain to be put into her. There was now at hand at the Railway wharf this morning about 5,800 tons of sugar, of which 2,700 tons had to be put into the Texan. The remainder will be kept on hand for sailing vessels. About 2,800 tons is to be loaded into the Hackfeld vessel. The Texan will load 1,500 tons of sugar at Kaaanapali and 4,900 tons at Hilo.

The next big steamer of the American-Hawaiian line to call here for sugar, will be the Arizona which will take 6,700 tons of sugar at this port.

Chester Doyle left at noon today for Kau on business connected with the Attorney General's department. He will be away for about two weeks.

MAY REDUCE POWER OF HAWAII'S GOVERNOR

SPECIAL POWER TO CALL UPON FEDERAL FORCES IN TIME OF STRESS WAS GIVEN WHEN THERE WAS NO CABLE COMMUNICATION WITH WASHINGTON AND MAY BE TAKEN AWAY NOW THAT PRESIDENT IS WITHIN CABLE.

It is predicted by some that the present discussion of the powers of the governor of Hawaii with regard to the calling out of federal troops will result in changes of both the law and the army regulations, which will take away from the island governor the peculiar powers conferred upon him. The section of the Organic Act which confers these unusual powers gives the governor of Hawaii powers not possessed by the governors of states. He is allowed "whenever it becomes necessary" to call upon the naval and military forces of the United States for aid.

The act giving these powers was passed before there was a cable to Hawaii. It declares that such actions of the governor as declaring martial law shall be "until communication can be had with the president and his decision thereon made known." When this act was passed the only way to communicate with the president was by mail to San Francisco. Now the governor of Hawaii can wire to Washington just the same as other governors, and it is thought that he will be placed in the same class with them as regards powers over the military and naval forces of the Union. In other states and territories, the governors if they want federal forces used, ask the President to use them.

The general army discussion of the matter on the mainland appears to show objection to the idea of the Hawaiian governor having anything to say about federal forces, and it is believed that there will be a move to take away the special powers, now that Hawaii can consult with Washington by cable at any time.

LARGE SHIPMENT OF PAGO PAGO COPRA

SONOMA STOPPED NEARLY HALF A DAY AT THE TUTUILA PORT LOADING PRODUCT.

The S. S. Sonoma has the largest shipment of copra aboard that has been carried from Pago Pago in many trips. She stopped over eleven hours at Pago Pago loading copra. There is always some copra shipped by the Oceanic steamers, but not in such quantity as is aboard the Sonoma this trip. The vessel went out of Sydney and Auckland with more room than usual so she was able to load a larger quantity of copra. She arrived at Pago Pago on time to remain nearly half a day. The vessel took a good-sized crowd of passengers away today from Honolulu. Among those who departed was Miss Havens who has been the guest of the Youngs for some time. The Sonoma is due in San Francisco next Monday.

FIRST BUILDING OF MUDSTONE

A LANDMARK WHICH HAS TO MAKE WAY FOR THE MARCH OF MODERN IMPROVEMENT.

The tearing down of the old Cooke building on Queen street will remove an interesting landmark which for twenty-five years has been well known in Honolulu. The building was erected by A. F. Cooke, Robert Lishman being the contractor. "It was one of the first buildings composed of what is known as 'Punch-bowl mudstone,'" said Mr. Cooke, "and there was a good deal of joking when we put it up, as most people thought that the material was too soft and the place would fall down. It was originally intended for the storage of sugar and timbers were made very heavy in consequence. There is nothing of any historical interest about the building."

THE CHINESE BYCOTT.

VICTORIA, (B. C.), July 12.—Advices from Hongkong tell of a novel plan adopted by Chinese in Southern China to further the boycott against United States merchandise. Wealthy Chinese of Takhol, in the Sanning district, have imported thousands of Japanese fans on one side of which they have had sketches printed of Americans roughly treating Chinese, and on the other side sketches of buffaloes being beaten and ill-used are printed. Descriptions accompany the pictures calling upon the Chinese to fight the Americans by boycotting their goods. The fans are being widely distributed.

DISCOUNT CUT IN HALF.

Local bankers held a meeting yesterday and decided to discount Territorial warrants hereafter at the rate of one per cent instead of two per cent. Treasurer Campbell had a conference with the bankers on Saturday, at which time the matter was discussed and the meeting yesterday resulted in definite action. This will mean a saving of one per cent to all Territorial employees who have to discount their salary warrants and all persons having warrants as the rule extends not alone to salary warrants but to all warrants.

fight our battle by ourselves after the
treatment that we got from the Demo-
crats at the last election. What did
they do after promising that they
would not vote for a Republican? Why
any number of them turned around and
voted for Brown and threw down Poe-
poe."

"As for the story from Walluku," he
continued, "while it is perfectly true
that I went over there to investigate
the charges against Kahaulaio, it is
also true that there was no evidence
against him at all to show that he had
a letter urging Home Rulers to sup-
port Kalua.

"There was no such letter. People
said that they had seen something of
the sort, but they could not produce it
and the case naturally failed. The
statement that the standing of Pe-
ruvia Goodness was discussed is with-
out foundation."

Notley confirmed the story that the
executive committee, to the number of
65 have been convened to meet in Ho-
nolulu.

"They will meet on Thursday next,"
he said, and will decide on a meeting
day for the whole party. There is noth-
ing extraordinary about the meeting
as it will simply be the annual meet-
ing of the party. It should have been
held before, but the expenses due to
the county elections caused its post-
ponement. Personally I was in favor
of postponing it now for a year but it
was decided otherwise."

GOING EAST.

CAN'T GET THEIR PAY IN ADVANCE

COMPTROLLER DECIDES THAT
SOLDIERS BOUND FOR MANILA
CANNOT GET ADVANCE MONEY.

WASHINGTON, July 8.—The War
Department will take occasion on the
first opportunity after the convening
of Congress to suggest that provision
be made for giving officers and men of
the regular establishment one month's
pay in advance prior to their departure
for the Philippines on occasions when
they are under orders to the islands.
There has been nothing in the way of
a decision which will give more in-
dividual embarrassment than the ruling
of the Comptroller that the law under
which Army paymasters have been
giving a month's pay to soldiers and
officers when they went through San
Francisco in advance of the date when
it was due did not apply to regulars,
but only to volunteers of which there
is, of course none in the service now.

Altogether the decision operates as
a veritable hardship. It will compel
many people to get money where and
how they can, because nearly every
one about to go to the islands is found
without ready funds to meet demands
on account of the trip.

Of course there is no appeal from
the Comptroller's ruling. It must re-
main with all its blighting effect, and
the only remedy will be in getting Con-
gress to change the law and extend
the privileges of the old statute to
those of the regular establishment.

THE CHRISTLEY FUNERAL.
The funeral of Thomas Christley
takes place this afternoon at 4:30
o'clock from Mrs. Christley's residence,
No. 751 Lanialoa street, near the new
Normal school. Interment will be in
Nuuanu cemetery.

THE KOOLAU RAILWAY.
Acting Governor Atkinson and W. R.
Castle had a long conference yesterday
afternoon about the proposed Koolau
railway franchise. The acting gov-
ernor made inquiries regarding the pro-
posed road, and it is believed that he
will approve the charter as asked for.
A question has arisen as to the legal
authority of the Superintendent of
Public Works Holloway to grant the
rights of way asked for and it will be
submitted to the Supreme Court on an
agreed statement of facts.

Electrical Time Savers

There are many Electric Heating Devices made for attachment to
electric light and power circuits. They enhance the utility of domestic
and household appliances and may be attached to any ordinary lamp
socket.

ELECTRIC IRONS are so far superior to the old style irons that
arguments are unnecessary. It is sufficient to say that no one who
has ever used an electric iron is willing to dispose with it.

ELECTRIC WATER HEATERS boil water in five minutes with-

Carter And The Governorship

As far as is known here, there was no occasion for the resignation of Governor Carter—the people of Hawaii would very much like to know what the occasion was, for there are hints of some mysterious "policy" with regard to the affairs of the Territory which Carter feared he could not carry out for Roosevelt, and citizens of the Territory are naturally anxious to know what is to be done with them by the powers that be. Having offered the resignation and announced it, Carter did not seem to be in a very dignified position when he assumed to reconsider without any real change having occurred in the state of affairs which apparently brought forth the carefully considered resignation. However, that phase of the matter has passed now, and it is an accepted fact that Carter is to continue as governor and with the continued support of President Roosevelt, which few if any people here ever doubted his having. It is altogether likely that the unquestionable record of a satisfactory administration of the affairs of his office, as viewed both in the Interior Department and by the President, weighed heavily in the consideration of the matter at Washington, for there is much in the Carter administration which has been of great benefit to the Territory.

Governor Carter will come back here and find that as executive he will have the support of the best part of the community—as he always had until his actions affronted a large element of those most loyal to him. In the cable report of his present position, there is a hinted threat which may or not mean much. Carter told the Associated Press that "he did not hope for an early restoration of harmony in Hawaii." This might be taken as a threat to come back here with the renewed assurances of presidential support and fight for revenge on his local opponents. It will be unfortunate if this proves to be the case. There has already been a "restoration of harmony in Hawaii" and the late unpleasantness need not be revived. If the chief executive of the islands is to continue the notion of driving out of office and public life all those of whom he does not approve, there will indeed be no early restoration of harmony in Hawaii after his return.

Hawaiian business interests feel satisfied at the settlement of the uncertainties. They are satisfied with the way matters were settled, for they know that the affairs of the administration are in safe business hands when handled by George R. Carter. The Star said during the campaign, when it was opposing the ideas and methods for which Carter stood, that he had more support in the community than the vote was going to indicate. This has been amply shown by the vote and the events which followed the announcement of a resignation. The governor is to be congratulated on this fact and he is certainly to be congratulated on the confidence shown in him by President Roosevelt. Hawaii is quite prepared to drop politics and give greeting to a governor whom it knows to be devoted to public interests and able both by reason of natural ability and of his strong support at Washington, to do much for the islands.

Sampson And Newspapermen

A writer in the Sunday Advertiser last Sunday made some remarks about the late Admiral Sampson which were not complimentary, to say the least, to that officer. In this morning's Advertiser W. R. Castle, in a communication, warmly defends Admiral Sampson. The merits of this controversy, it is not proposed, at this time to consider. But Mr. Castle's zeal for Admiral Sampson has made slanderous accusations against the whole profession of newspapermen. Admitting, by inference, that Admiral Sampson was not what is understood by a "popular" man, Mr. Castle seeks, by inference and innuendo, to blame the newspapermen for it, and to defend Sampson, because the public is not attracted by those traits which he admits Sampson had, he accuses the whole newspaper fraternity of malice, and by necessary deduction, of readiness to bear false witness, of disloyalty to country, even of willingness to betray country. What Mr. Castle says on this point is this:

"Sampson was of a modest and exceedingly reserved nature. He was something of a martinet in his strict observance of naval etiquette and discipline, and this was counted against him. He knew how to keep his own counsel. Naturally this won him the cordial enmity of the newspaper fraternity, for nothing is of such overwhelming importance to them as to publish news of the army and navy, even more in war times than in peace. It is of more importance to publish the plans of a campaign, even if the country is seriously injured, than to refrain. It is of secondary importance that the army suffers defeat, because the plans are made known to the people, and incidentally to the enemy."

This is simply repeating an ignorant and malicious slander. The best proof of it is that there cannot be named a single newspaperman who has risen to prominence in his profession who is not in his character and work the complete refutation of everything stated or implied in this querulous accusation of Mr. Castle's. Among newspapermen as among lawyers, there are some who have low ideals and resort to sharp and underhanded practices. But speaking of them as a body, there is not any class of men in the world who carry inviolate so many confidences of others; who are trusted with secrets of supreme importance with no other guarantee than their own professional and personal honor.

No one has the contempt of the newspaperman so certainly as the man in important position who is a babler, loquacious, or even who is not self-contained. The newspaperman does not seek to know the individual's secrets, but only those things which the public is entitled to know. The obligations of truthfulness, of honor, or probity, of loyalty to country are just as sacred to the newspaperman as to any other, and so far as accuracy is an element of truth, and the inviolability of confidence an element of honor, there is no class of men who, as a class, have as high a regard for them as newspapermen.

Will Mr. Castle just stop to think for a minute what it means to direct his accusation, as he does by its terms, against such men as the late John Hay, whose first direct public influence was as a newspaperman; against Whitelaw Reid, our ambassador to Great Britain; against Charles Emory Smith, former minister to Russia, and later postmaster general; against a score of other men who have risen to similar distinction. Will he stop to think for a minute what it means to direct his accusation against such men as William E. Curtis, who has been the depository of more confidences of statecraft and of war plans, than probably any adviser any President has had in the past twenty years; against Walter Wellman, against Frederick Palmer, against Oscar K. Davis, of the New York Sun, against Richard Harding Davis, against Ned Hamilton of the Examiner; against George Ade or John T. McCutcheon; against a score of others who have made honorable names for themselves in the past seven or eight years.

Will he just stop to think what it means to make the accusation against the scores of newspapermen throughout the length and breadth of America, each in his own community, trusted with confidence as no

Other set of men, not even lawyers, are. The truth about men in public life does not suffer at the hands of newspapermen because of unfortunate temperament, reserve, modesty or timidity, except as those qualities usually do obscure from all observers more important qualities. Admiral Sampson was not the victim of newspapermen.

Open letter to Captain Berger: "Dear Captain, Why not play 'Carter, Carter, Oh, you Governor Carter.' Haf you noticed that he is not going to resign already yet?"

It is entirely in keeping for the Home Rule party to plan for perpetuity by a continuous campaign of oratory.

With the reputation he has acquired with his hunch, Governor Jack ought to be able to sell tips on the races.

The letter to Land Commissioner Pratt from the man who wants to start a silk factory sounds very much like the appeal to Andrew Carnegie of the man who wanted funds to start an orphan asylum, and finally compromised on a second-hand suit of clothes.

The spectacle of Senator Hewitt, Dr. Thompson and Miss Ben Taylor stripping cane in the field would look like the system of producing sugar cane had been revolutionized.

A fire that killed twelve people and destroyed a half a million dollars worth of property would make most small places feel that they were humble, whether that was their name before or not. Still, Humble, Texas, sounds more like a joke, than it does like Texas.

How much of that 2,500,000 barrels of oil that burned at Humble, Texas, yesterday belonged to John D. Rockefeller?

Seaman Whitlock, charged with desertion from the Bennington, may not be in a very happy plight; but still, doubtless, he finds some satisfaction in it.

Forecastle talk and what an alleged deserter says the Chief Machinist said of the condition of the Bennington's boilers, may not count for much, but if the investigation into the causes of the Bennington disaster is to be thorough, account of it, for what it is worth, must be taken.

High Sheriff Henry says that convicts must work if they want to keep healthy. But it is suspected that there are some who do not ask to be too healthy.

If either President Roosevelt or Governor Carter expects a state of harmony in which there shall not be keen struggle for political supremacy, political preferment, and political power in Hawaii, or any other American community, they are looking for the millennium a long time ahead of schedule time.

Admiral Lord Charles Borensford, who has sent the condolence of the British

MCANTS STEWART LEAVES THE ISLANDS

MORNING STAR WAS ROTTEN

MISSIONARY SHIP'S FRAME HAD DECAYED IN A SHORT TIME AND IS BEING REPLACED.

Just how the missionary steamer Morning Star manager to weather all of the storms that she encountered recently is the matter which is puzzling the shipwrights at the Marine Railway at present. The Morning Star is up on the ways and a mere casual examination shows that she is practically rotten from stem to stern, that is to say the frame, or what the ordinary landsman calls "the ribs" of the ship are in such a condition that they are quite unround.

When old seamen look at them they shake their heads and mutter things while others suggest that a good little cherub sat up aloft and took particular care of the vessel whose mission it is to spread light amid the darkness.

The remarkable part of it is that the Morning Star is practically a new ship having been built only five years ago at Essex, Mass. Her ribs are of oak and planking of pitch pine. The planking showed very little sign of deterioration but when in order to do some minor repairs some of it was ripped off, the fact was disclosed that the oak ribs had decayed appallingly. They are now being replaced by ribs of Oregon pine and the whole construction of the hull is being changed to permit of ventilation.

"There was no allowance for ventilation at all," said one of the shipwrights this morning "and a ship's frame needs ventilation as much as a man's does. The Morning Star certainly was lucky in coming through the weather she did in her condition."

STILL ON THE GRILL

(Continued from page one.)

and the witness stand the cross-examination had few equals in local court history.

Low admitted in answer to a question that the Parker ranch cattle were remarkably free from disease, considering the largeness of the herd—there are 30,000 head—and the country they roam over. He insisted, however, that there should have been hospital paddocks for the treatment of those who were hurt or diseased. He gave as instances some bulls which he said appeared to be tuberculous, but which were left to mingle with the rest. He also said he had seen several imported Hereford bulls lying dead.

Low said that it was highly injurious to the herd to allow the tuberculous bulls to go free, as they would introduce the disease. "If Mr. Carter knows anything about cattle he knows that such animals should be kept separate," said the witness.

"Suppose as a matter of fact that he knows more about the matter than you do, and that he knew at the time that those bulls did not have tuberculosis, and knows the same thing now?" said Kinney.

"I am very glad to hear that," replied Low.

Low declared that paddocks were always in demand. He said he had seen cattle on the Parker ranch out with broken legs, left with the herd to die without care. Later he corrected this and said that they were two or three heifers, he was not sure which. He said they were of good breed and ought to have been saved, but this also was corrected.

"Are there not medicine boxes at the various paddocks?" asked Kinney.

The witness indulged in a broad smile and was silent. "I am willing that the stenographer shall put that smile on the record," said Kinney. "If it is desired."

"We'd better have a camera and get your face too," said Low. "In the meanwhile answer the question," replied the lawyer, and Low told about the medicine boxes, indicating that their contents were not such as they

LEFT TO BEAR HER PAIN ALONE

UNHAPPY FLIGHT OF A YOUNG HAWAIIAN GIRL WITHOUT RELATIVE OR PARENT.

Alone in the world without mother, sister or even a woman friend of any kind, poor little Lizzie Daniel, a pretty Hawaiian girl of less than eighteen, went through the pangs of motherhood yesterday morning about eight o'clock and lay without attention until late in the afternoon. The child had suffered sadly indeed for her sin but there could be no one so uncharitable as to grant her no sympathy in her distress.

It was nearly four o'clock yesterday afternoon when Police Lieut. Luthiwa and Officer Willis were called by J. E. Overton, proprietor of the White House a lodging house on Nuuanu street, and were told of the circumstances. The girl had been rooming there and had locked herself in her room. He had heard her call out and had then ascertained what was the matter. Dr. Day was notified at once and the unfortunate young mother was, under his instruction, removed to the Maternity Home. The child was alive and strong in spite of its neglect, but the girl was very weak. She refused positively to give the name of her seducer but those who know her give the name of a Portuguese in the public employ as being responsible for her condition.

WILL P. LEWIS' LAST JOURNEY.

The service connected with the removal of the body of the late William P. Lewis from the undertaking parlors to the S. S. Sonoma were of the simplest description this morning. Rev. Mackintosh at ten o'clock in the presence of the bereaved family offered a brief prayer and the subsequent removal of the remains was not attended by any service. This was done in deference to the wishes of the family of the deceased who wish the funeral services to be held at his old home in San Francisco. The widow and brother of the late Mr. Lewis will accompany the remains to the coast. The floral tributes sent today by sorrowing friends were particularly beautiful.

SCIENCE FOR FARMERS.

Superintendent of Public Works Holmway has been asked by the Acting Governor Atkinson to turn over to the Board of Agriculture and Forestry the natural science books which are in his possession, from the Hawaiian Historical Society. They were used by the old commission of agriculture.

Acting Governor Atkinson has written a letter to the Board of Supervisors asking them to grant vacations to the county employees who are members of the National Guard and who may be chosen to go to the national rifle match at Seagirt, New Jersey.

should have been. He had not been able to observe them all.

Kinney returned to the bulls and the tuberculosis, and the noon recess found the matter considerably in the air. Low said he wanted to correct the statement that he had seen the imported bulls suffering with tuberculosis. He had seen one bull so suffering, and said it looked like one of the imported ones. Kinney also obtained an admission that the imported bulls were kept for a time in a paddock, instead of being turned loose unaccompanied, as had been stated before.

At the opening of the session Fred Wundenburg was called to answer to a request made yesterday to produce a wireless said to have been sent him by Low at the time of the attempt to place Low in charge and remove Manager Carter. Wundenburg said he had absolutely no recollection regarding such a message.

DER BAND UND DER MEISTER

CAPTAIN BERGER IS A LITTLE OF THE IDEA THAT THE SPIELERS WILL REMAIN IN HONOLULU.

Kapellmeister Berger is afraid that the trip of the Hawaiian band to Portland, to play at the Clark and Lewis fair there, is off.

"It is all in the air," he said this morning. "I am not very enthusiastic about going on the basis proposed. Joe Cohen wants us to go and then to tour twenty places or so on the Pacific coast. Well, that means a whole lot of hard work and much responsibility and I am not eager to assume it. Of course if it is decided to go, we will go but up to the present nothing has been decided."

HUTCHINSON AFFAIRS.

H. E. Cooper is on his way to Kau, Hawaii, in connection with the affairs of the Hutchinson Plantation. The lease on some 800 acres of cane land will fall in next October and a number of homesteaders are opposing its renewal on the ground that they wish to take up the land. Cooper will confer with them and see just what their desires are. If possible, it will be arranged that the homesteaders produce cane themselves under contract with the plantation people.

ST. LOUIS ALUMNI.

An Alumni Association of St. Louis College has been formed with the following officers: James L. Holt, president; P. Gleason and Rev. Father Stephen, vice presidents; Dr. John F. Cowes, recording and financial secretary; Charles H. Rose, treasurer; Senator John C. Lane, sergeant-at-arms; Jason Andrade, E. A. Berndt, Charles J. Cooper auditors.

The formation of the society is the result of a suggestion made recently by Brother Bertram in his farewell address.

COL. BAKER STAYED OVER.

Col. John T. Baker of Hilo did not depart for Canada on the Manuka as he intended to do. He came up from Hilo on Saturday but was subpoenaed as a witness in the Parker ranch case and had to give up his trip through the Dominion for the time being. Last year the colonel had to forego a trip to the St. Louis exposition owing to the same case.

failure to make matters run any more smoothly than Dele did."

Acting Governor Atkinson this morning repeated his emphatic statement of yesterday that there was nothing in the reports of a disagreement between Roosevelt and Carter regarding the land policy. "It is all nonsense," he said. "It was simply a guess and it was a wrong guess."

In reply to a question as to what actual differences if any there had been between the president and the governor, Atkinson said that there had not been any. "I know all the correspondence and can say that they have not had any differences calling for discussion. The governor is in accord with the President's ideas about lands and I believe about all other policies here."

Atkinson said he did not know when to expect Carter back, but thought word would come soon. He is awaiting to know how long the governor will be away before taking up some matters with heads of departments, which will be left to Carter if he is returning. Atkinson is inclined to think that Carter may take a vacation, but will perhaps come here before doing so."

MANY NEW STUNTS

There'll be no staleness about the Kamehameha Minstrels' program at the Orpheum on Saturday evening for many new stunts have been concocted, some original and all highly diverting. The services of those royal musicians, the Senior and Junior Kawaihau clubs have been enlisted, and these talented organizations will render the latest melodies and some of the old favorites.

Now songs galore have been grafted on to the olio and a buck and wing dancer will shake his feet in a way warranted to please the most fastidious of experts de la jigge.

A man by the name of James Kujolia, has been unearthed who does amazing things on a trapeze, and the promoters of the performance have prevailed upon him to give an exhibition of his prowess on the swinging bar.

The Bergstrom Music store is the place to buy tickets and the box office will open on Thursday.

HELP FROM WASHINGTON

STANLEY DOLLAR TESTIFIES IN THE FEDERAL COURT AS TO HOW HIS COMPANY WIRED TO THE NATIONAL CAPITAL TO GET A LICENSE TO ENABLE THE STEAMER STANLEY DOLLAR TO GET AWAY FROM HERE.

Stanley Dollar testified in the federal court this morning that it was because of his company's representations at Washington that Inspector Bermingham came here on the Manchuria to pass the steamer Stanley Dollar and give her a license to carry passengers. Dollar was on the stand most of the morning, under examination by E. C. Peters. He told of his many efforts to clear the vessel, and how Stackable refused to grant clearance until July 15, after Bermingham had given the license.

Dollar said that the first order from Washington led to the appointment of Captain Niblack to examine the vessel. Stackable making the appointment, Niblack made the examination and filed a report declaring the Stanley Dollar to be fit for carrying 500 passengers. The witness said he expected to clear after that, but this was stricken out on motion of Davis. Dollar said then that Stackable still refused to grant clearance, on the ground that the statute had not been complied with. "He did not say in what particular," said the witness.

"We telegraphed to Washington, through our San Francisco office," said Stanley Dollar, "and had them send out a local inspector to pass the vessel. I telegraphed to San Francisco and San Francisco telegraphed to Washington. They had been trying to get an inspector sent here before, but Washington though matters could be arranged here."

The testimony as to what Washington thought was stricken out on motion of Davis. The witness said that Inspector Bermingham came on the 14th and immediately passed the vessel, after an examination. She was in the same condition of fitness as when first arriving here and when examined by Niblack.

Peters wanted to know about the demands for return of passage money, by the Japanese who took passage and are now libelling the steamer. Dollar said that their attorney, George A. Davis, made the demand on him in the office of Attorney J. W. Cathcart, counsel for the steamship company. "I offered to return the passage money," said Dollar. "Mr. Davis refused to accept it, and said that I would have to pay also a counsel fee of \$150 for the Japs."

The witness was turned over to Davis for cross examination, though he had been called by Davis, and was flying at once. Davis tried to get testimony that Kikutake had solicited passengers for the steamer as agent of the Dollar company, but the witness stopped at testifying that Kikutake had paid in the money. Judge Dole sustained objections from Cathcart and Peters when Davis tried to press matters further.

"They're both on their feet every time I get near the heart of the case," said Davis. He called Kikutake as the next witness.

SAILING VESSELS ARRIVE FOR SUGAR

HELENE COMES FROM SAN FRANCISCO IN 14½ DAYS AND W. H. MARSTON FROM HILO.

Two sailing vessels arrived in port yesterday. One was the schooner Helene from San Francisco and the other the schooner W. H. Marston from Hilo.

The Helene arrived off port Sunday 14½ days out. She was too late to enter. She came in in the morning. The vessel experienced good weather during the trip. She sighted only the S. S. Enterprise. The Helene has about 1,300 tons of general stuff including a deck load of lumber. She brought four passengers for Honolulu. She has a new master, Captain H. Larson, formerly master of the bark Isaac Reed, a lumber bark operating out of Puget Sound. Captain Thompson the former

ARRIVED LEAKING

The bark Mary L. Cushing arrived off port this morning 31 days from Newcastle via Auckland. Her length of passage was due to the fact that she had had to put into Auckland because of a leak. She lightened her cargo by taking out 700 tons of coal and then resumed her voyage to this port. She is leaking slightly, so her master has cabled to his owners for permission to discharge at this port. She has 1,350 tons of coal aboard. The vessel sprung a leak once before when out of Newcastle bound for San Francisco. She is supposed to discharge at Eleale.

The Marston left Hilo Saturday morning at 10 o'clock and arrived yesterday about 8 o'clock. She came down for 1,400 tons of sugar, having loaded 900 tons at Hilo from Pepeekeo Plantation. The schooner goes to San Francisco from this port.

A CRECHE OR DAY HOME FOR BABIES

HOW KAHUKU PLANTATION LOOKS AFTER BABIES WHILE PARENTS ARE IN THE FIELD.

A large baby home has been established at Kahuku plantation, in which about forty babies of plantation laborers are cared for every day while their parents work. Nurses are provided by the plantation, and every care is given to the little ones, who are left in the home in the early morning by their industrious parents, and are called for when the day's work is over. The Hawaii Shippo, which claims the credit for urging, more than two years ago, the establishment of such an institution, says regarding it:

For the sake of the moral conditions in the camps, to enable the Japanese to keep up their industry as they wish to and for the sake of the plantations themselves, needing laborers as they did, was urged the establishment of boarding schools, or homes for the little children. Up to very recently nothing of the kind was attempted, as far as we are aware, but last March Kahuku plantation took the lead. It has provided a new building for the purpose, about 25x25 in size, and employs three nurses all the time. We are informed that the entire expense is not more than \$50 per month, at which rate the enterprise must be financially worth while. At half past four in the morning the mothers who want to go to work with their husbands leave the little children, some of them not yet past the age of nursing at the breast, in this home. Then the mothers go to the cane fields, satisfied that their babies are in good hands and will be cared for properly and given some good teaching. At night they call at the home and take their little ones away. By this plan the mothers have a chance to work, so that they spend their time well, the plantation profits by their labor, and above all, the little ones begin life in good surroundings. The home is in general charge of the Rev. Tokimasa.

No charge is made for the care of the infants in this home. Milk is provided free of charge, by the plantation and there are amusement and instruction for the babies. The whole scheme tends to bring about better conditions in the camps. It is an innovation on which Kahuku plantation is to be heartily congratulated. The Rev. J. W. Wadman, who has charge of Christian missionary work among Japanese in these islands, has expressed himself as heartily in favor of such an enterprise, and will encourage the establishment of more homes of a similar character.

GEAR DENIES KINNEY'S STORY

SAYS THAT THE STATEMENT AS TO THE CARTER INJUNCTION IS ABSOLUTELY UNTRUE.

A portion of the proceedings in the Parker ranch case was reported in the Advertiser on Sunday as follows:

"Do you not remember that Magoon sent you a wireless telling you that he would arrange for an injunction, so that you could take possession without bloodshed?" asked Kinney (of Eben Low).

"I don't remember."

"Then Kinney proceeded to read the application for an injunction restraining Carter. He said that Gear had been just about to sign the injunction at one time, when a hearing was asked for."

"Magoon broke in to say this was untrue, and was unfair to Gear."

"Ballou and I went both in court," said Kinney, "and Ballou will bear me out in the statement." He insisted that the hearing had been asked for, and that it had resulted in the order not being signed.

"Magoon said that he would have Gear called to disprove the statement, which he said was unjust. He would not have Gear injured by such a statement."

Former Judge Gear was seen this morning regarding the statement made by Kinney and was emphatic in his denial of the story as published.

"If Kinney is correctly reported," said Judge Gear, "he has made a statement which is absolutely incorrect and untrue. I do not see how he could so have put himself on record for what he is so reported to have said is exactly the reverse of the facts."

"The circumstances were like this: I was on the bench at the time and the Parker case was on. One day Mr. Wilder accompanied by either Mr. Ballou or Mr. Kinney came to me in chambers and told me that they understood that an injunction was to be sought for against Carter to restrain from further participation in the management of the ranch. I had heard nothing about it and told them so. They then asked me if I would refuse to sign a preliminary injunction until such time as they could be heard. I replied that if an application for an injunction should be made to me I would certainly let them know."

"A day or two after this, continued Judge Gear, 'the papers were presented to me in chambers asking for an injunction to prevent Carter's interfering with Low's management of the ranch. I told Mr. Magoon that I would not sign the injunction without giving the other side an opportunity to be heard.'"

INTERESTING LETTER

WRITTEN BY A NOTABLE WOMAN

Mrs. Sarah Kellogg of Denver, Colorado, Bearer of the Woman's Relief Corps Sends Thanks to Mrs. Pinkham.

The following letter was written by Mrs. Kellogg, of 1628 Lincoln Ave., Denver, Colo., to Mrs. Pinkham, Lynn, Mass.: "Dear Mrs. Pinkham: For five years I was troubled with a tumor, which kept growing, causing me intense agony and great mental depression. I was unable to attend to my house work, and life became a burden to me. I was confined for days to my bed, lost my appetite, my courage and all hope. "I could not bear to think of an operation, and in my distress I tried every remedy which I thought would be of any use to me, and reading of the value of Lydia E. Pinkham's Vegetable Compound to sick women decided to give it a trial. I felt so discouraged that I had little hope of recovery, and when I began to feel better, after the second week, thought it only meant temporary relief; but to my great surprise I found that I kept gaining, while the tumor lessened in size. "The Compound continued to build up my general health and the tumor seemed to be absorbed, until, in seven months, the tumor was entirely gone and I a well woman. I am so thankful for my recovery that I ask you to publish my letter in newspapers, so other women may know of the wonderful curative powers of Lydia E. Pinkham's Vegetable Compound."

When women are troubled with irregular or painful menstruation, weakness, leucorrhoea, displacement or ulceration of the womb, that bearing-down feeling, inflammation of the ovaries, backache, flatulence, general debility, indigestion and nervous prostration, they should remember there is one tried and true remedy. Lydia E. Pinkham's Vegetable Compound at once removes such trouble.

No other medicine in the world has received such widespread and unqualified endorsement. No other medicine has such a record of cures of female troubles. Refuse to buy any other medicine.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Address, Lynn, Mass.

Health is too valuable to risk in experiments with unknown and untried medicines or methods of treatment. Remember that it is Lydia E. Pinkham's Vegetable Compound that is curing women, and don't allow any druggist to sell you anything else in its place.

be heard as the matter was one of such grave importance. Accordingly I sent word to the other side and as a result Messrs. Kinney, Wilder and Ballou came up to my chambers where the matter was discussed. I continued it for a day or so and as a result the injunction was not granted by me.

"The suggestion that I was just about to sign the injunction when a hearing was asked for is absolutely outside of the facts."

PUENENE SUGAR.

WAILUKU, July 21.—The total sugar that will be shipped from the H. C. & S. Co. for the 1905 season will reach 43,300 tons, which includes a portion due to the grinding of Kihel cane. The season has been a most successful one with the big plantation, the average tonnage per acre reaching 84 tons, the highest on record for Puene Sugar Plantation. During the season just closed there were no interruptions on the plantation from labor troubles or bad weather. The big mill now works like a charm under the superintendence of J. N. S. Williams, grinding the season's crop with comparative ease.

I suffered severely from this terrible disease for over three years and tried the prescriptions of numerous physicians, but found nothing that did me any good until I tried Chamberlain's Colic, Cholera and Diarrhoea Remedy, two small bottles of which entirely cured me and I have since had no return of the disease."—Herman Stein, 212 N. TRAVELS ON SONOMATHIRTEEN SALVATION ARMY
PEOPLE ARE EN ROUTE FROM
AUSTRALIA TO MAINLAND.With thirteen Salvation Army people
aboard an unlucky number say the superstitious, the S. S. Sonoma
arrived this morning on time from the
Colonies. That superstition of the unlucky
number was dispelled this trip
however for not a sign of a storm or
bad weather or bad luck was encountered
by the craft during her entire run
from Sydney to this port. From Captain
Hartman down to the scullion who
peels potatoes, all of the ship's
people are feeling delighted over having
escaped the hoodoo. When the voyage
is resumed again at 3 o'clock this
afternoon, the heavy weight of
apprehension will fall upon the shoulders
of the crew once more and remain
there until the boat reaches San Francisco,
the spell of that unlucky number
will be upon them.The following compose the Salvation
Army crew: Colonel Kyle, Mrs. Kyle,
Miss P. Kyle, Miss L. Kyle, Master H.
Kyle, Brigadier Glover, Mrs. Glover and
Infant, Master Glover, Miss H. Glover,
Col. Pearl, Mrs. Pearl, Master A. and
B. Pearl and Miss F. Pearl. The
members of the army are en route to
new posts of duty on the mainland.
Col. Pearl who has served 20 years in
Australia is going to New York to be
chief secretary to the United States.
Colonel Kyle has been ten and a half
years in Australasia in army work and
is going to Toronto to be the chief
secretary of the Dominion of Canada
while Brigadier Glover goes to one of
the Canadian provinces as provisional
officer.The Salvation Army is in quite a
dourishing condition, the officers report,
throughout Australasia. There are 64
social institutions and numerous homes
and shelters. The party will not stop
over at Honolulu but continues to San
Francisco today.SONOMA ARRIVES
ON TIME TODAYVESSEL HAS A FAIR SIZED CROWD
OF THROUGH PASSENGERS—
WILL TAKE HONOLULU PEOPLEOn time from the Colonies, the S. S.
Sonoma arrived this morning en route
to San Francisco. She left Sydney,
July 19; Auckland July 14 and Pago
Pago July 18. Pleasant weather was
experienced throughout the entire run.
The vessel has a smaller crowd than
usual. A special excursion from Sydney
to Del Monte Cal., was advertised by
the Oceanic Company but the excursion
did not attract many people on the
present trip of the vessel. A regular
three weeks' excursion will be run
over the company's line during the
summer season.Among the passengers going to San
Francisco is Dr. E. W. Godding, who is
the American representative at Melbourne.H. J. Saunders is a member of the
Australian parliament going to England
on a visit.Mrs. G. A. Hodson wife of the purser
of the Sonoma is a through passenger
for San Francisco.T. Lovell is a business man of Australia
going to the mainland, on a visit
accompanied by his wife.The Sonoma takes a fair sized crowd
of passengers from Honolulu for San
Francisco. She will load while in port
the usual quantity of fresh fruit and
refined sugar. The vessel sails at 3 p.
m. today from the Oceanic wharf for
San Francisco.VIDA ASSAULT
CASE POSTPONEDA SUBPOENAED WITNESS FAILS
TO PUT IN AN APPEARANCE AND
THE TRIAL GOES OVER.There was considerable unquenched
curiosity about the proceedings of the
police court this morning as it was
understood that the charge of assault
and battery against Dan Vida which
was preferred by Frank Kruger was to
be tried. It was generally known that
Judge Humphreys who has the defence
in hand, had subpoenaed a number
of ladies who might be able to throw
light on the case and there was a
mild speculation over what their testimony
might be.It was 11:35 before the case was
reached on the calendar and then Judge
Humphreys announced blandly that he
was not ready to go on as one of the
witnesses, a most material witness,
had failed to appear although proper
service had been made.County Attorney Douthitt pressed
for an immediate hearing of the case.
He thought that the hearing of testimony
should be commenced and that
proceedings should be issued against the
missing witness to compel attendance
in court.Judge Whitney inclined to the view
of the defence and did not think that
it would be advisable to begin a long
case with an important witness absent.
After a brief discussion the case was
set for hearing at 2 o'clock tomorrow
afternoon.FRENCH AND GERMAN LESSONS.
