SATURDAY, NOVEMBER 9, 1895.

Mr. Olney will miss a lot of excitement and perhaps some fine fun if he quits his job at this stage.

Venezuela is boldly talking resistance to Great Britain. She is probably thinking up hard on some other plan, however.

In an interview at San Francisco, Consul-General Mills spoke in warm praise of the Hawaiian Board of Health.

It begins to look serious in the far east. Great Britain, with her present premier, will stand no fool, isness from Russia or any other power. Here is an occasion, too, which may severely test the new greatness of Japan.

Papers in the States give the impression that Mr. Rose withdraws his America cup challenge as a balm to the wounded feelings of Lord Dunraven. It is very doubtful if the Royal yacht club ever sends another sloop over the Atlantic.

It is true that eight rebel bullets harmlessly pierced the cloak of General Campos, the patriots should take a week off and indulge in target practice. But perhaps the old general bears a charmed life. In that instance the Cubans need an improved anana.

The Japanese war department anticipates a continuous campaign in Formosa. Improved rice cleaning machinery and a beef tinning plant have been sent to the island for army uses. Japan does not yet accept horse flesh. For mixing the same with beef a woman has recently been imprisoned at Tokyo.

One of the howling swells of the way down East is trying to keep out of court. The man is Col. Van Allen. The plaintiff is a husband who claims to have been wronged. The pair are great society people. Col. Van Allen was in politics a couple of weeks since. He was named by Mr. Cleveland to be Minister to Italy. The plain people protested from all directions that the "Colonel" was a snob and he had to go.

Talk on taxes are now foremost in political discussions. Certainly these are but subsidiary to the question of revenue. All sorts of plans for getting more in rates from the property holders are advanced, and some New Zealand ideas will be brought home by Attorney-General Smith. It still seems to THE STAR that the present system, which has stood the test of time and trial very well, is too good to be discarded until conclusively shown to be ineffective. It is notorious that the trouble is in certain short assessment returns. This fault is just as possible in any of the plans offered as in the one now used. The secret of the unrest is that some of the economists are settled in the belief that wealth can be created by legislation. This is an experiment that sometimes seems to promise abundant fruit, but that always ends up in disaster.

So far but one design for a Great Seal of State has been turned in to the Legislative special committee selected to manage a contest and make a report to the legislature. No drawing can be received after Dec. 1st., and the present outlook is for only a minimum of competitors. The Commission would like to have about a score of sketches and wonders why Art League members and others skilled with the pencil fail to furnish drawings. There is a prize of \$50 to the contestant whose idea is endorsed by the assembly. But this, of course, is a small affair compared to the distinction of furnishing the Great Seal. The only hints offered by the Commission are as to size and the retention of the national motto. THE STAR suggested that no very radical departure be made from the old stamp. There is an almost unlimited field for those having a conception of a design.

Beer-A Promoter of Temperance. In order to impress upon your mind the fact that the Seattle Brewing and Malting Co.'s beers are mild, light, bright and lively, we below give the average per cent. of alcohol in various liquors in comparison: Rainier Beer, 1.4; Olympic Beer, 3.4; Ale, 7.4; Cider, 8.6; Claret, 13.3; Whisky, 54.0. On draught at Criterion Saloon. W. Clark Russell, being crippled by rheumatism, dictates all of his stories to his son, who writes them on a typewriter.

Timely Topics.

There are two newspaper contests now in progress in this city; one is to determine the most popular cyclist and the most popular wheel at the same time and the other is elect three men who will race for a wheel, the winner to make his own selection. After these contests are over with it will be in order for someone to get up another scheme and if they are wise they will adopt 290 "Jim" Quinn's suggestion: "Contest for most popular lackman, winner to receive a silk sash and a bag of oats." Of course "Jim" would win the prize, but the contest would be interesting and would furnish food for thought while the losers were hauling tourists to the Pali at a dollar-a-minute rate.

"All the talk in the world will not convince you so quickly as a trial that the Tribune is almost perfection." The foregoing is absolute truth and applies to all wheels that are made by the Black Manufacturing Company. We wish to speak of one wheel in particular this week; it is the model G or in other words the Ladies' Tribune. We have one in the store that we are anxious to show people. It is without any question the handsomest wheel that has ever been shipped to this country and it is as good as it looks. The wheels are 28 inches front and rear with piano wire tangent spokes, 28 to front and 32 to rear wheel; pneumatic tires and special dust proof ball pedals. The finish is black enamel with nickel trimmings and spokes. As the quality of the enamel used on a bicycle has much to do with the appearance of the entire machine, good mechanical work must be backed by a fine and durable finish. To obtain this the makers of the Ladies' Tribune use not only the best quality of enamel, but polish the work carefully apply and bake four successive coats, and finally, polish the whole until a proper lustre is secured.

The nickel plating on the Tribune Bicycles is of the most superior quality and elegant finish. The greatest care is used in this important feature, and no small parts slighted. Every piece is finely polished, then covered with a heavy deposit of pure nickel, and carefully buffed. The result is: The Ladies' Tribune shines like a darkey's heel, only it is a prettier polish. This wheel is narrow tread. This feature, like other good things, has been overdone by many, and in some cases carried to an extreme which has deprived both wheels and frame of their proper strength. We believe in a reasonably narrow tread, and the tread in the Tribunes will be found as narrow as it is practical to make it and still retain the stiffness of frame for which the Tribune wheels are noted. This Ladies' wheel is fitted with a mud guard—a precaution that is necessary in this country where showers and water carts are plentiful. This bicycle is recommended as a thoroughly reliable wheel, light, strong and easy running. They have been well tested, and their superior is not made. We have another good model H. It is guaranteed to stand up well and to ride easy. It is very light weight, and as strong as a diamond frame. It stands two inches lower than the Ladies' Tribune. The finish is jet black enamel with all bright parts heavily nickel plated on copper. It is a most elegant wheel for ladies and the maker's guarantee goes with each one.

We are receiving a large share of the local bicycle business and buyers are pleased with the wheels purchased at this store. We intend to sell a great many more wheels before the year is out because the Tribune and Monarch cycles are both standard makes and are marvels of beauty, strength and swiftness.

Chinese Teasaking. A translation of a Chinese recipe engraved on many tablets manufacturing the Celestial Kingdom is as follows: "On a slow fire set a tripod. Fill it with clear rainwater. Boil it as long as would be needed to turn fish white and lobster red. Throw this upon the delicate leaves of choice tea. Let it remain as long as the vapor rises in a cloud. At your own drink the pure liquor, which will chase away the dre cloud of trouble."

Foreign Office Notice. FOREIGN OFFICE, 1 November 9th, 1895. Be it known to all whom it may concern MR. H. SHIMAMURA, having presented to the Department his commission from His Imperial Majesty the Emperor of Japan, as Consul General, and his credentials as Diplomatic Agent, he is hereby acknowledged, by direction of the President, as Consul General and Diplomatic Agent for the Empire of Japan at Honolulu, and all his official acts, as such, are ordered to receive full faith and credit by the authorities of this Government.

Tenders for School Houses. Tenders will be received at the office of the Board of Education until MON. DAY, November 25, at 12 o'clock noon, for the erection of two School Houses, 40x20 ft., at Waianda, district of Hanalei, Island of Kauai, and one 40x20 ft., district of Oahu, Island of Oahu, Hawaii.

The Board does not find itself to accept the lowest or any tender. By order of the Board of Education JOHN F. SCOTT, Secretary.

The Conspiracy Failed. The young attorney was telling the story to a Buffalo Express reporter. "The fellow came into my office," he said, "and we had a long conversation. Finally he said something he didn't like, and he got mad. He said he would make a complaint against me, and I told him he couldn't, he too quick about it. Then he asked me how I spelled my name, pretending he wanted to make a note of it in a memorandum book. I told him. He looked over it for awhile, then passed me the book and asked me to write it. I was glad enough to get rid of him, and I did write it.

Just as he was going out he thought struck me that perhaps that was only a gonyourous note. The notes I thought of it the more I became convinced that that was his game, and I ran after him backhanded. I caught him just as he was going out of the door. I took him by the shoulder and asked him right out if that wasn't his motive in getting my name as he did. He stammered and stammered. I had him dead to rights, and he finally confessed that he had intended to make a note of the name and get it disconnected. "What did you do?" asked his friend. "I told him to go on and get out of the room. I told him to go on and get out of the room. I told him to go on and get out of the room."

SCRIBNER'S PILLS CURE BILLIOUSNESS. 25¢. HOBRON DRUG CO.

SEQUAH cures chronic cases. Forty years ago Mr. F. Stubbs of South Dunedin, commenced to have sciatitis. He spent time and money looking for a cure, but until he used Sequah's remedies he was never free from it. Grateful for his release from such a complaint of so long standing, Oct. 17th, 1894, he writes: "I thank you for the great benefit I have received from the use of your Sequah Oil and Cure. I have been troubled for over 40 years with sciatitis. I tried different remedies and spent a lot of money doctoring with no benefit. I decided to give your remedies a trial. In a few days I found great relief, and now I can climb a ladder or dig with a spade, neither of which I have been able to do for the past 30 years. I trust others similarly afflicted will try your remedies, from which I have received such wonderful benefit. Yours gratefully, (Signed), F. STUBBS."

THIS WEEK We want to say

That the very latest filibuster story is to the effect that Ezeta, the well known revolutionist, is to come to Honolulu in a rakish looking craft with the avowed intention of wiping the Hawaiian Republic off the earth. Of course he won't come; but if he should decide to do so, we would give him a good run for his money. When the filibusters do come, they will sack the stores; our store would naturally attract their attention first because we carry such a large stock of New Goods—goods that we want to dispose of before the invasion. This week marks a Special Sale of Blouses for ladies; Children's Dresses and Pinafors; Skirt Embroideries, and Fine Laces, both Linen and Valenciennes—all perfect goods and at low prices.

VENEZUELA WILL RESIST. Hopes to Have the Assistance of Some Neighbors.

CARACAS (Venezuela), Oct. 25.—The greatest excitement was caused here by the news from England that that country is determined to continue its course.

News received through private channels from the United States is not the least encouraging, though the Government still persists in positive assurances of help from the United States and that the fleet is already coming.

Letters from Georgetown say that the British authorities there are not idle, sending large quantities of ammunition toward the frontier.

It is positively stated that Venezuela has promised in case war breaks out that a number of the Latin American countries will join her, principally Brazil and Ecuador, and that the former will then test her case against Italy and England.

The work favoring a general Latin-American alliance against European encroachments which commenced four years ago is promising excellent results.

A SUGGESTED EXPOSITION. Proposed Fete de Siecle Affair at Washington.

WASHINGTON, Oct. 25.—The suggestion that a great exposition marking the close of the present century be held in Washington in the summer of 1900 is meeting with much favor at the capital.

Besides commemorating the close of a century, such an exposition would mark the centennial anniversary of the founding of the seat of government in the District of Columbia.

In June, 1800, the public offices were transferred to Washington and opened on the 15th of that month.

WILL STAND FIRM. The President and Cabinet decide to enforce the Monroe Doctrine.

WASHINGTON, Oct. 25.—From 11 o'clock this morning until three this afternoon the President and his Cabinet officers, with the exception of Secretary Smith, sat around the table in the Cabinet room of the Executive mansion.

The principal topic of discussion was the Venezuelan dispute. During the absence of the President and his Cabinet in Atlanta the clerks in the White House have made a great collection of newspaper clippings from American public sympathizers with Venezuela and with Mr. Olney's plans.

But it is also learned that there is a diversity of opinion among the members of the Cabinet as to the proper course to be pursued.

The Secretary of State with the Attorney-General and the Secretary of the Navy appear to have been more radical in their views than conservative men like Lamont, Morton, Carlisle and Wilson. It can be said positively, however, that all were agreed that the Monroe doctrine must be applied to the Venezuelan question, and that this doctrine must be enforced.

WAR SEEMS IMMINENT.

RUSSIA'S ACTION LEADS RIGHT UP TO A CRISIS.

Her Grip on China—On the Scene With a Fleet of Fishery Ships—The British Press.

LONDON, Oct. 25.—A dispatch from Shanghai yesterday afternoon, announcing the departure of a fleet of fifteen Russian war ships from Vladivostok for Chemulpo and Fusan, Korea, and the Times dispatch from Hongkong announcing that Russia had obtained the right to anchor her fleet at Port Arthur and construct railroads on the Liao-tung peninsula, are looked upon generally as a sudden reopening in an unexpected quarter of the wide Eastern question in its widest sense.

It is admitted here that the situation is so grave that, should the new project be adopted, it would make a war, in which several nations will take part, more than probable. It would be added that there is every reason to believe that the story from Hongkong is authentic. The afternoon papers of the city all publish long articles agreeing that British intervention in the far East is necessary.

The St. James Gazette says: "Even war with Russia would be less disastrous than to allow her without a blow to get a grip upon China. She could throttle all the other powers and choke off their commerce. Unless Russia and China give the necessary assurances, it is a case for an ultimatum perhaps the most serious step our diplomacy has had since the Crimean war."

"The impression is general in the official world, and it is echoed by the press, that neither America nor Germany can allow the Pacific Coast to become a Franco-Russian lake," as the Globe puts it, "and it is generally thought that the diplomats will be sufficiently strong to combine to resist Russian aggression."

The Pall Mall Gazette sums up the startling news from the far East with the statement that "Russia has annexed China," and in the course of a long article on the subject adds: "If this treaty is to stand, roll up the map of Asia."

In conclusion, the Pall Mall Gazette urges the reoccupation of Port Hamilton by the British and the immediate strengthening of the British fleet in Chinese waters. "Japan, lose her fleet at the first blow."

Since this important news was circulated, the greatest activity has been displayed in the Government offices here, particularly at the Foreign Office, and the coming and going of messengers was continuous throughout the morning and business hours of the afternoon.

At the different clubs, "war scares" in the East is eagerly discussed, the great number of affairs in Venezuela having most completely dropped out of recollection in the alarm of the moment. Nobody seems to doubt the report that the recently agreed upon recognition of the Russian ultimatum has obtained rights to which the most favored nation clause is not applicable which may cause a great war.

The correspondent of the Times at Hongkong, who sent the sensational news, is described by his newspaper as being "in close relations with men who are able to penetrate beneath the surface of things," and it is therefore concluded that the news he has just sent cannot be disregarded.

The Foreign office declares today that it has no confirmation of the report.

Made a Baronet. LONDON, Oct. 25.—Sir Joseph Reynolds, Lord Mayor of London, has been made a baronet.

Captain Morse to Retire. Captain H. G. Morse, late of the steamship Alameda, is going on the stage and will make his debut in November. He will lecture on his personal experiences during forty-five years' service on the sea and also touch upon the Hawaiian question.

IN MEMORIAM. Captain Henry Wentworth, M. I. N., died (London Chron., October 25). Speak, oh my soul, and let thy thought be of one named beyond all praise, who, in his life, has been a blessing to the world.

Lighting thy candle, sleep with no regret, knowing that thy soul is in the hands of God, and that thou art at rest.

From the pages of his life and all its varied scenes, we have gathered up a few lines, and we hope that they will be a comfort to those who are mourning for him.

Thou art at rest, where we know is no more pain, and where there is no more sorrow.

Thou art at rest, where there is no more pain, and where there is no more sorrow.

MR. OLNEY MAY RESIGN. WANTS POSITIVE POLICY IN THE STATE DEPARTMENT.

Went to the Condition—Hawaii a Fore Spot—Hedgehog in the Cabinet.

WASHINGTON, Oct. 25.—There is a sensational rumor afloat in Washington tonight that Secretary Olney, of the State Department, and President Cleveland do not agree regarding the foreign policy to be pursued by this Government.

When Mr. Olney was transferred from the Department of Justice to the State Department, it was asserted that he only consented to this transfer on condition that he would be permitted to institute so vigorous a foreign policy that the Administration would regain what prestige it lost in dealing with Hawaii.

That Mr. Olney instituted the vigorous foreign policy respecting the Cuban revolution and the Venezuelan boundary dispute is now known to be a fact. Until recently, it is said, he has had the enthusiastic support of President Cleveland, but within a short time, according to stories afloat tonight, President Cleveland, Secretary Olney and other members of the Cabinet have disagreed regarding the course this Government should pursue in dealing with these foreign complications.

The sensational part of the story is that Secretary Olney, unless the letter the policy that Olney has mapped out, will tender his resignation, as a result of the trouble growing out of the differences of opinion said to exist. It is asserted that if Cleveland and the other members of his Cabinet do not support Olney in handling the Venezuelan dispute and his Cuban policy, the Secretary of State will resign within sixty days.

What the Fashion Papers Say? It has been decreed by Dame Fashion that feathers and wings are to be the correct thing for adorning ladies' headgear this fall. Do you wish to be in the swim? Then visit L. B. Kerr's, Queen Street, and get your pick of his millinery goods.

Sir Robert Peel's Affairs. LONDON, Oct. 25.—The Bankruptcy Court recently gave its approval to a scheme by which the unsecured creditors of Sir Robert Peel were to receive ten shillings on the pound, provided the sum of £10,000,000, deposited for that purpose, was sufficient to get around to that extent. A short time ago Mrs. Langtry tendered proof of Sir Robert's indebtedness to her in the sum of £4,500, and the deposit has consequently been increased to £12,500.

Diplomatic Affairs. The new Japanese Consul called on Minister Cooper this morning and the pair exchanged cordial addresses. The Consul met President Dole informally.

This afternoon Minister Cooper is returning calls made during the week.

Gen. Dickinson Makes a Big Defense Argument. The Durrant case was still on when the S. C. Allen left San Francisco, October 26. On the 25th General John H. Dickinson argued all day for the defence. Stenographic reports of his speech appeared in the papers of the 26th. The attorney went at the task in a methodical and business-like way, and made no preparation and spoke off-hand during the entire argument, covering about six hours. Although his effort was a critical review of the testimony, he drifted through the case through the evidence, refreshing himself at times from the notes on the case before him. The next mail may bring the close of the big trial.

A Rejected Faculty. ANN ARBOR (Mich.), Oct. 25.—Senator David B. Hill addressed 2,000 students in University Hall tonight. His subject was "Old Landmarks." The speaker was introduced by Edward J. Ryker, president of the Students' Lecture Association. So strong has the feeling against him prevailed among the faculty that President Angell refused to introduce him.

The Oregon. Night work has been discontinued on the Oregon and the employees of the yard are now working eight hours a day. Secretary Herbert said work had been pushed for the reason he was tired of the delay in completing the Oregon.

Republican National Convention. The papers and people of San Francisco are working hard to bag the Republican National Convention, which will meet next June. The Call puts up \$5,000, Examiner \$7,500 and Chronicle \$7,500. Various persons and corporations are coming forward with substantial donations, and the move is endorsed by many prominent men of the State. Over \$50,000 are now in the Convention fund.

Heavy Civil Suit. Bishop & Company have taken steps to have their two mortgages on the estate of the late Walter Murray Gibson foreclosed. The property involved is land on the island of Lanai, 30,000 head of sheep and the Gibson premises near the Opera House in Honolulu. Claim foots up \$65,533.71.

Armenian Slughter. CONSTANTINOPLE (Turkey), Oct. 25.—Reports received here from Erzeroum say that serious disturbances, accompanied by extensive bloodshed, occurred at Erzeroum, where it is said sixty Armenians were killed.
