Talks to Teachers on Character Building.

PRAISES THE SUMMER SCHOOL

Urges Pedagogues to Make a
Pupil's Character the Special
Object of Training.

SUPERINTENDENT ALATAU T. ATKINSON of the Department of Education made an address yesterday afternoon at the Normal School at the regular weekly meeting of teachers. The address was entitled "Character Building," and was a long, carefully written treatise on the forms of education which lead to the development of character in the students of the Hawaiian schools. The exercises were opened with the singing of America and closed with Hawaii Poiol. The school room in which the exercises were held was filled to its capacity. Mr. Atkinson said in part:

I have turned over in my mind with some care what I should write about for this afternoon's little lecture. There are many subjects which could be enlarged upon, and which properly treated would yield practical results in your school work. But after all that is the duty of your teachers in the summer school. They have taken pains to inculcate methods of teaching and ideas of practical utility in the school room. They have and will continue to be most earnest and painstaking in their endeavors. The summer school is an institution which has grown. There is more interest taken in the teachers through the summer school. It not only acts upon the teachers but it reacts upon all who take an interest in education, and by enlisting the good offices of others besides teachers to address you from time to time during the session, the breadth of view has been enlarged, and thoughts which would not otherwise occur have come before you.

Thus Governor Dole aroused a train of thought when he spoke of the many heterogeneous races which come under your influence in the schools, and urged the study and careful observation of their abilities and their proclivities. This was a new idea to many of you, probably to most of you, and it suggested a line outside of the regular routine. Principal Scott of the high school took up the scientific study of life, tracing from the protoplasm to the highest organization, and then showed why the young of that organization required such care, and such a time to prepare it for its life work. Inspector Baldwin generalized upon the question of teaching English, his object being to show that thought and expression must go hand in hand, pointing out from his experience, the failures which had been and were being made, and urging that every effort should be striven after to gain success, not because English was English, but because it was the only linguistic medium which we can readily use, and what we use should be of the best.

Lastly Dr. Rodgers gave a comprehensive sketch of physiology, and showed that the body is the temple of the soul, and that we should use it and not abuse it. He showed, with justice, the laws of health were not arbitrary but natural. That dirt and not the divine will was responsible for most of the epidemic diseases, and that if an epidemic of typhoid fever was on, it was much more efficacious for us to clean out our water supply, see what decaying matter was in our streams, examine our wells and see that they are not contaminated, than to rush to church and expect to be relieved by divine interposition from what our own folly of our own dirty methods had brought upon us.

To each of these gentlemen you owe a debt of gratitude. The seed sown by them will have fallen as the seed in the parable did, some on stony ground, some among thorns, and some upon good ground, bringing forth in various measures, some ten, some twenty, some an hundred fold. Talks like these, here a chord, there a chord, and the note thrills through the chaos of discordant sounds, true and clear as a silver bell, among a chime of meaner metal. Not all that has been said will be remembered, but some here, some there, and no good idea is ever completely lost.

My remarks to you this afternoon will, I fear, be more desultory than those of my predecessors on this floor. That is I may touch upon several subjects, confining myself to no one in especial. And first I would talk of character and the impression we make upon a character. To what does our education tend? Merely to the power of reading, of writing, of talking, of performing a few feats with figures, which are ahead of the savage and the dog and the monkey. Is there nothing deeper than this? Is this all we work and strive for? If so, we have really very little to be proud of. I do not think this is all. We have mankind given to us in the poet's second age.

FACTS FOR THE SENATORS WHO COME TO INVESTIGATE

WHEN the Commission of senators, members of the Committee on Pacific Islands and Porto Rico, charged with the investigation of affairs in Hawaii arrives in the Korea, September first, they will find every one of the trade bodies ready to assist in the prosecution of their inquiries. The movement for the formation of a committee of business men to serve the commission in procuring data which may be needed was inaugurated yesterday by the Chamber of Commerce.

After having given the subject of the proper course to pursue in relation to the commission some thought the initiative was taken by J. P. Cooke of Alexander & Baldwin. That there might be no suggestion of officiousness in the matter it was given the form shown in the following resolution offered by Mr. Cooke and passed without dissent by the Chamber:

Resolved, That the officers of this Chamber be requested to act in conjunction with the officers of the Merchants' Association in arranging a plan for the entertainment of the members of the Senatorial Commission, appointed for the purpose of investigating conditions in the Territory of Hawaii, and for the preparation of data concerning the business interests of the Territory which may be requested by the Commission. Be it further

Resolved, That the officers of this Chamber be requested to report their action for confirmation, at the joint meeting of the Chamber of Commerce and Merchants' Association.

As leading members of the Merchants' Association are known to be in favor of such action there will without doubt be provided at the next meeting of the two bodies in joint session, a committee, probably of five or more members which shall have in charge this work. The entertainment feature is the minor one, as the men who have looked into the matter are of opinion that there will be little time given by the commissioners to pure pleasure, but they will push their work so as to get home before the opening of the session of Congress.

Not excepting the commission which was charged with framing the form of government for the Territory, that body now coming will be of primary importance to the Islands. There is much to be learned and on account of the prominence of the senators the impressions made now will have weight in all future legislation.

Senator Burton, of Kansas, will precede his fellows. According to information received Col. Parker said yesterday that Mr. Burton would arrive next week in the Sierra. As soon as he comes he will be the guest of Mr. Parker at Mana, where there has been arranged a special shooting party. The senator is an ardent sportsman and will thus have an opportunity to get out after some big game. A special steamer will be chartered and the trip will be made quickly. Senator Burton will be returned as nearly as possible to the time when his colleagues are to arrive.

Mail Steamers Stop Visitors.

A new rule went into force on the water front yesterday which will make a big difference to the shipping people here. The Oceanic line refused to allow anyone to board the Alameda except those who had passage tickets. Passengers had to produce their tickets and a certificate of health from the Board of Health before they were allowed to go on the vessel. At the head of the gang plank these tickets were collected and once a passenger went aboard he was not allowed to visit the wharf again. There was considerable confusion as there were hundreds of people on the wharf who were there to see their friends off and all naturally wished to board the steamer.

It is said that all the other lines running to this port will adopt the same regulation in future. Many people consider the regulation ridiculous but it saves a lot of trouble to the steamship companies and there is no reason why a kiss and a hearty handshake would not do the one departing as much good if given on the wharf as it would aboard the vessel. Many friends of Admiral Merry wished to go aboard but there was no exception to the new rule and they had to be content with bidding him good-bye on the wharf.

WILLIAM G. IRWIN was elected as president of the Honolulu Chamber of Commerce at the annual meeting of that body held at 3 p. m. yesterday in the Chamber's room in the Hackfeld Building. Not only was the former president elected to succeed himself but all the other officers of the old board were also kept on. The reasons set forth by Vice-President C. M. Cooke that Mr. Irwin should again be at the head of the Chamber's affairs, were that he was so well known in San Francisco, New York, Washington and other cities, and whenever it was desirable that Mr. Irwin should represent the local body abroad he would be a factor of importance when considered as its president. The new board of officers is as follows:

President, William G. Irwin; vice-president, Charles M. Cooke; secretary and treasurer, Jas. G. Spencer; arbitration committee, C. M. Cooke, J. B. Atherton, F. A. Schaefer, W. F. Allen and F. M. Swanzy.

Those present at the meeting were C. M. Cooke, J. B. Atherton, W. W. Hall, J. G. Spencer, W. M. Giffard, H. A. Isenberg, Gerrit Wilder, J. P. Cooke, W. F. Allen, H. A. Parmelee, Cecil Brown and T. Clive Davies. Grinbaum & Co. addressed a communication to the Chamber in which it was stated that R. R. Berg was no longer representing the firm, Mr. Gartenburg now being their representative. Mr. Gartenburg was therefore elected to membership. J. A. McCandless was also elected a member.

J. P. Cooke reporting for the committee on Fire Claims stated that a report for the committees of the Chamber and the Merchants' Association was now ready, and he moved that the Chamber and Merchants' Association hold a joint meeting on Friday, August 22, at 2 p. m., it being understood that Mr. Pratt would be present to answer any questions regarding his trip to Washington. The motion passed unanimously.

By favorably considering a change in the by-laws the collector of the port of Honolulu is now entitled to honorable membership in the Chamber but without a vote.

A letter was read from Collector of Customs Stackable in which he stated he had received a department letter from Washington dated June 16 in which he was requested to make up an estimate of the merchandise imported here from the United States from July 1, 1901, to June 30, 1902, and he desired the co-operation of the Chamber in compiling such statistics, as the Customs Department here no longer keeps a record of such imports.

W. F. Allen said he understood the collector had visited the various shipping houses in the city and most of the latter had agreed to keep a record hereafter of such receipts. Mr. Spencer announced that letters had been sent to the merchants by him covering this ground. He also stated that since June, 1902, the collector was keeping a record of mainland manifests and hereafter this method of collecting statistics would not have to be continued. W. W. Hall said that shippers at mainland ports forwarding goods to Hawaii would hereafter make reports to the collectors of their respective ports.

J. P. Cooke then presented a resolution regarding the coming of the senatorial commission, which was adopted.

A letter was received from W. C. Weedon, dated San Francisco, in which he announced that he had received letters from the mayor of Baltimore and the president of the largest chemical works in St. Louis to give lectures there. He had arranged for a lecture in San Francisco to which the Chamber of Commerce had been invited. He thought it advisable for him to go on to St. Louis as soon as possible. He stated that reports of seismic movements in Southern California were much exaggerated.

S. De Freest, a Customs broker, asked for the endorsement of the Chamber of Commerce for the position of United States Shipping Commission, the post about to be vacated by W. Porter Boyd. He said he had the endorsement of nearly all the merchants of Honolulu. The matter was referred to Messrs. Cooke and Spencer.

The secretary's report was read and

ginning of life. That is the time when the impressions for good or for evil can be made and are made. That all impressions can last is not possible. If you take a handful of old coins, you will find some of them as fresh and clear cut as they were the day when they left the mint. You will find others in which the impression is much blurred and worn, and there will be yet others where the impressions seem to be entirely lost, but heat these latter coins and there will appear upon the glowing metal the impression made long ago.

So it will be with the human character that we strive to impress. Some of it will retain all the delicacy and the refinement of the first impressions, even when life is drawing to a close and it is approaching that last scene which all must come to. Never obliterated, never forgotten, it has been the guide through life in sunshine and storm alike. The teacher who made the impression of character may have passed away, his or her work may have been forgotten, the very name may have been lost in oblivion but the impression on character remains.

In others again the fine traits of the character may be worn away, the original impress may have lost its clearness, the image may be blurred, but it is there. The main attributes of strength, of probity, of refined feeling of honor, of kindness and of humanity are there, and influence the conduct and still mark the character of the man who has been impressed as a child. And yet again, all the characteristics may seem to have been swept away and the person may seem to have no character at all, and yet unexpectedly under the fire of adversity, under some strong impulse of passion, the impression made so many years ago, the impression which has been apparently completely obliterated, will shine out like that upon the glowing metal of the heated coin, and will make the individual act as no one would have credited that he would act. How often do we say of a person whose character we have thought little of, and yet who has risen to some act of self-abnegation, or of strong character power, "I never expected that; I did not think he had much character in him." It was the early impress showing itself when it seemed to be obliterated.

Now you might justly come to me and say, how are we to teach character? How are we to impress upon those committed to our charge this indelible and precious attribute? What could I reply? Could I reply, we will put down the teaching of character in the course of study? We will get a book which will tell of character. And we will divide it off into sections, and some shall be in large type, which must be learned by the pupil first, and some shall be in small type, which the teacher can read and explain, and we will have everything beautifully cut and dried, and when we are through, our children, with good memories, will remember every word, and proceed to forget it when they leave school, and those who have poor memories won't have any idea about it except that they got headaches from trying to learn it, and the result will be no impression upon the virgin metal which makes up the mind and the soul that is committed to our charge.

Character training will not come from any particular book, but it may be developed from everything that we teach. It may come from all books. It can be developed from the reading lesson, it can be the essence of the language training. It is present in the music of the child voices in the playground. The first halting steps in art hold it. It is part of our work when we are teaching the deft fingers to manipulate the fibrous threads that form the airy patterns of our gossamer lace. It is a part of the rougher work of the boys' hands, and they learn to use their knives or to manipulate tools, and it is a part of our singing, our sewing, our reading, our writing, our drawing, our all.

Unless we make all these things tend toward character building we are but giving our attention to the husks of education. We are creating a being like that which Frankenstein made, adept in everything but a very overshadowing horror. That is what education without character will produce and has produced. Fortunately for us we have always kept character before us, but in the haste aimed at making the child's character the most important attribute to develop in the child.

I will grant that the development of character in children is a hard task, and especially is it a hard task when we have not the home training to help us that we find in some parts of the mainland, in some parts but not in all. When I look upon the heterogeneous mass which comes into our schools, a mass drawn from so many nationalities and having such entirely different standards from those to which we have been trained, I confess myself that it seems an almost insuperable task. But if we can meet the task of assimilating this mass of pupils as far as language goes, if we can give the husk, we can assuredly give the kernel. After all, our teaching amounts to very little if we only aim at giving a knowledge of English and so forth, and do not put that English to its legitimate purpose. Our purpose is not to make talking machines, mere phonographs, which will give forth a hollow, mockery of what has been spoken into them, but our purpose is to make thinking, orderly, high ideal men and women, people who will help to raise the standard of their surroundings and will form a portion of that great army of progress which is forever marching onward till it passes the curtain of the unknown, but leaving behind it the stamp of its ideals imprinted upon its endless following. Our outlying section of this great army is a small one, and may not be as well drilled as it might be, but it is a section of this mighty army, and it can do good work, ennobling work, and can win glory for itself and glory for its people.

We have only to look upon the great outer world to see what are the results of education only on one side, of giving the husk without the kernel. We see brilliant minds, constantly going astray, forgetting their duty to their fellows and looking purely after self. Lack of character brings in its train misery and moral death. And this not only affects those that suffer from lack of character themselves, but it affects everyone it touches, it spreads like a canker through those who are brought in contact with it. Lack of character is the base of anarchy. The characterless person does not rule himself, he may have a standard but it is a vitiated standard, a rotten standard. If, then, a person has only a vitiated standard and no ideals for himself, he

them who have been instructed in college French or college German find that they can make their way readily in countries where those languages are spoken. The explanation of this is that at universities and colleges the cart is put before the horse. The attempt is made to read first and talk afterwards, and the result is naturally failure. We are striving to come to the natural process, to put the horse safely in the shafts and drag our books after us instead of pushing them before us. We may make some failures, but in the main we are succeeding remarkably well.

This is our platform, language. With us, by unavoidable course of circumstances, the English language. Upon this platform we build our mental education. There is nothing which a teacher cannot build upon this platform provided he or she knows how to build. We cannot give forth what we do not possess. We have certain prescribed subjects in which we must instruct our pupils. We have to give them training in mathematics, or the rudimentary mathematics of arithmetic. We must teach them to write. We must teach them how to make out accounts. We must instruct them in rudimentary history, in geography, we must give them a knowledge of anatomy, of physiology, of hygiene. We even are ordered to give them rudimentary ideas upon art, and give them some little knowledge of drawing. We must teach them to sing, to sew and to use their fingers.

A teacher may be able to do all this and yet give but a narrow and mayhap a useless education. And yet another teacher may do all this and give a broad education. Why? Because the one confines the work to just the subject in hand, while the other gives life and breadth to the subject in hand. The one gives forth or grinds forth a grist of dry bones, while the other draws from a well of ever increasing knowledge. How does anyone acquire possession of this precious well? By constant and unending study and observation. There is nothing that one can learn and observe that cannot be put to profit in the school room. A teacher cannot be too broad mentally. The more a teacher knows, the more can be given to the pupils. The mere knowledge and training which you acquire at the normal school, the smattering you pick up at the summer school, all point you in the right way. The ones give foundation and the other stimulates ideas. But the heart and life of teaching must come from yourselves. To train other minds, to raise them to a higher plane, we must train our own minds and rise to high planes ourselves. We must make our teaching live and have a being and thus we shall successfully cultivate the mind, and help it to join our own efforts in the formation of character.

The Roman author got off a good saying once when he wrote the words, "mens sana in corpore sano"—a healthy mind must have a healthy body. We have looked at the moral and the mental aspects; we will now glance at the physical. We have not so much trouble with physical attributes in this favored land, as there is in a land of crowded towns and congested dwellings. But if the moral and mental faculties are in our charge, so are the physical. Much attention is given to athletic exercises in our higher places of learning. It is true that athletics may be and have been overdone, but the value of athletics properly conducted cannot be underrated either for their physical or moral influence.

But we have not to consider advanced athletics, such as I have alluded to. We can, however, consider the healthy games of the children placed in our charge. Indeed, it is a part of a teacher's duty to become interested in the outdoor games of the pupils. Not only should they be encouraged in these, both by precept and example, but there should be some regular physical training introduced into every school room. In the summer school we have attempted to give those who have attended some idea of what this training should be. Those who attend the normal school have a special training in this work. It is regular exercise which can begin with the receiving room, and which can be continued into the highest classes.

When possible, as in the very large schools, regular gymnastic exercises can be introduced, but these require more and special training on the part of the teachers, for crude and unsupervised gymnastic work is often apt to be hurtful. But in the slight physical training I have indicated every teacher can acquire the power of giving instruction. Children in all our schools should walk and run well, should hold themselves well. They should be encouraged in out of door games, and both girls and boys should take part. The healthier your pupils are, the better pupils they will prove. From their games, if properly supervised, they will learn self control, alertness, and the valuable lesson of give and take. You do not want to molly-coddle their play, but you want to supervise and direct it.

You young teachers, who are now starting out in life, embracing a noble and worthy profession, are better equipped than many of your predecessors. You have a most important work to perform, you join those who have grown gray in the service, and as time goes on you will fill their places. Upon your efforts depends the future of many hundreds of your fellow beings. You may train their minds, you may train their bodies, but your work is but incomplete and worthless unless you have added to it honest, true, high-minded character. You have given to your charge, almost as soon as they can toddle from their mothers' arms, being with immortal souls and with immortal aspirations. Upon you who go to teach those who will probably never rise high in the education scale devolves the duty of developing and so stamping the generations which are to follow that, with all their faults of education and manner, they may rise to that higher plane of character which is superior to culture, superior to polish, superior to skill, which makes of mankind the ruler and the regenerator of the world. Fail to do your duty and you have injured not yourself, but have injured hundreds, perhaps thousands; for as a stone dropped into a pool gives increasing circles reaching wider and wider, so your neglect may reach and act upon those whom you never knew or saw. Succeed in your duty and you may not receive the praise of men, but as the life work is ended you can lay it down with honor, and the satisfaction that you have fought a good fight, and that resting time cannot be filled with vain regrets for what has been left undone. Nothing that we do can be perfect, but if

FACTS FOR INVESTIGATORS.

The plan of the Chamber of Commerce to secure the formation of a committee of business men, to prepare for the commission of Senators data that may be requested in the pursuit of their mission, commends itself as a wise move. The men who will visit the islands to make the investigation are those who will have little time for the social side of Hawaii, owing to the pressure of the business which brings them. It will be, then, not a junket but a business journey.

The commission has power to send for persons and papers and will have the assistance of officials who have been here before and know how to get about, and to reach the points which furnish the motive for the inquiry. The entertainment of the Senators is only a side issue. The hospitality of the islands is too well known to need a committee to assure such visitors of a distinguished reception. They will be shown everything of interest, and so long as it does not interfere with their duties will indulge in social pleasures. But business is the motto of such men as Senator Mitchell and Senator Foster, men who have aided in the upbuilding of the great Northwest, and of Senator Burton and Senator Blackburn, who represent the older portions of the nation.

It may be taken as assured that the work of committee of business men will be appreciated by the commissioners. What they want is facts, and if they can find well informed men ready to give them the data concerning the business interests, they will assuredly embrace the opportunity to secure such aid. It would be a misfortune should the Chamber and the Merchants fail to have business men represented. There are other committees ready to take a hand in meeting and talking to the commissioners, one of the first to be named being that of the Home Rulers. It is easy to see that Cayless, who was the ruling spirit in attempting to secure pressure from Senator Blackburn to force the Democrats into Home Rule ranks, expects to have his own way in presenting the conditions here to the commission, and the tinge which would be given to such a recital is easy to conjecture.

Personality will not count, however, with such a commission. Facts and not arguments will be sought and found, too, and that the statements of affairs will be in accord with the records of the men who make up the actual business community, is assured when such bodies as those moving in the matter take it in hand. The proper presentation of the true condition here is not a subject for partisanship. It calls for the highest form of non-partisan action, and this will be given in the considerations by the trade bodies.

There is a vast difference between the present grand jury and some of those the country was suffering from a year and more ago. The existing body has attended strictly to business, has done no politics and exploded no fireworks. For the reform which has been wrought in grand jury methods the Advertiser feels like accepting as well as extending congratulations.

By reason of a directed verdict in Gear's court, it is now legally safe to adulterate milk in the ratio of ten per cent. About the only relief left to the public is the exposure of the names of implicated dealers, a service which the Advertiser, with Food Commissioner Shorey's help, will always be glad to perform.

CURING CONSUMPTION.

When Scott's Emulsion makes a consumptive gain flesh it is curing his consumption.

The weight is the measure of the consumptive's condition. Every pound of weight gained is a matter for congratulation.

Exactly what goes on inside to make the consumptive gain weight when taking Scott's Emulsion is still a mystery.

Scott's Emulsion does something to the lungs, too, that reduces the cough and the inflammation.

More weight and less cough always mean that consumption is losing its influence over the system.

For all stages of the disease Scott's Emulsion is a reliable help.

adopted. He reviewed the work of the Chamber for the year, its change of quarters for the new and handsome apartment given gratis by Hackfeld & Co. He told of the raising of \$4,000 for the government to continue the work of the Fire Claims commission; appropriation of \$600 a month to enable the Board of Health to enlarge its sanitary inspection of the city; the renewal of the commission of William Haywood as representative of the Chamber of Commerce at Washington; the adoption of a seal; the instructions to Mr. Haywood to favor the passage of the fire claims bill in Congress; the petition sent to Congress favoring the Mackay cable and the payment of the fire claims which was endorsed by the San Francisco Chamber of Commerce and Board of Trade of California; the employment of W. C. Weedon for six months to lecture on the mainland of Hawaii; the proposition to make exhibits at St. Louis and Osaka, Japan.

The treasurer's report gave receipts of \$2,620.81, expenses, \$951.80, leaving a balance on hand of \$1,669.01. W. F. Allen was appointed auditor to go over the accounts.

It was ordered that the constitution and by-laws of the Chamber be newly printed.

Itching Skin

Distress by day and night—

That's the complaint of those who are so unfortunate as to be afflicted with eczema or salt rheum—and outward applications do not cure. They can't.

The source of the trouble is in the blood—make that pure and this scaling, burning, itching skin disease will disappear.

"I was taken with an itching on my arms which proved very disagreeable. I concluded it was salt rheum and bought a bottle of Hood's Sarsaparilla. In two days after I began taking it I felt better and it was not long before I was cured. Have never had any skin disease since." Mrs. Ida E. Ward, Cove Point, Md.

THIRTEEN TRUE BILLS

Grand Jury Makes Preliminary Report.

The grand jury made a preliminary report to Judge Gear yesterday afternoon returning thirteen true bills and nine cases ignored.

The report is as follows:

"To the Honorable Circuit Court aforesaid. The grand jury respectfully reports that no bills of indictment have been found in the following cases:

"Territory vs. Sam Paahao, assault with weapon; Territory vs. Susumaga, assault with weapon; Territory vs. Keamoku, assault with weapon; Territory vs. Sam Ili, malicious injury; Territory vs. Un Gin, larceny second degree; Territory vs. Kolomona, larceny second degree; Territory vs. E. Hartman, larceny second degree; Territory vs. Huliha alias Huliha, larceny second degree.

"The grand jury further reports that true bills have been found in thirteen cases and the said bills are herewith turned into court.

"GEO. T. KLUEGEL,
Foreman Grand Jury."

THE TRUE BILLS.

The following are the true bills returned:

Cheong Kwai—Assault with intent to murder. Defendant is alleged to have shot one, Fong Quane.

Umemoto—Assault with intent to commit murder. Defendant is charged with having stabbed a Japanese woman named Hachyo.

R. Duncan—Malicious injury. Duncan is said to have torn down a frame stable, valued at \$300, and belonging to Annie Akong.

Antone Perry—Seduction. Hannah Tripp is the complaining witness.

Benjamin Haahoe—Assault and battery with weapon. Haahoe is alleged to have wounded Rebecca Houghtaling with a shot gun.

Jose Reveira and Chito—Burglary first degree. The defendants are alleged to have broken into the store of Goo Kim, and to have stolen two watches valued at eleven dollars.

William Reed—Assault and battery with a weapon. Jerry Cronin is the complaining witness, alleging that Reed stabbed him.

Florence Andino, Manuel Moral and Kaino Martin—Assault with weapon. The defendants are alleged to have wounded Ueda Takematsu; the last two named aiding Andino.

William Pangelly—Assault and battery with weapon. The defendant is alleged to have assaulted Thomas Dunlin with a knife.

Ah Sang—Larceny second degree. Defendant is alleged to have stolen silver valued at two dollars from George Hafner.

Ah Sang—Larceny second degree. Stealing jewelry worth twenty-two dollars from G. Dietz.

Ah Cheong—Larceny of jewelry worth \$15 from Geo. Hafner.

Jose Reveira—Larceny of jewelry worth \$35 from Isaac Louis Cockett.

RELEASED ON TECHNICALITIES. Two prisoners defended by F. M. Brooks were released yesterday by Judge Gear upon a directed verdict, because of legal technicalities.

In the case of Wing Sing, who was charged with headless driving and sentenced to pay a fine of ten dollars by Judge Wilcox, the jury was directed to bring a verdict of acquittal because of the insufficiency of the complaint filed in the District Court. The complaint failed to specify that the defendant's headless driving was "dangerous to the life and safety of another" and this omission Judge Gear held to be sufficient to set aside Judge Wilcox's sentence.

In the case of Nishimoto fined \$50 by Judge Wilcox for selling watered milk the jury was directed to acquit because of a definition of the Century dictionary that milk is from eighty to ninety per cent of liquid. Food Commissioner Shorey testified that the milk showed 89.30 liquid and but 10.1 of solids, and that ten per cent of water had been added. When the Century dictionary was introduced, Shorey stated that as a general proposition, milk might be from eighty to ninety per cent liquid, but he had never seen milk of lower standard than 88.5 and had tested a good deal of the lactical fluid. Judge Gear granted Brook's motion for a directed verdict of acquittal.

Under the court's ruling it will be almost impossible to secure further convictions for the sale of adulterated milk, as a ninety per cent liquid test would allow leeway for considerable added water.

VERDICT OF ACQUITTAL. A verdict of acquittal was returned yesterday in the case of Frank Le Bron charged with vagrancy. A small boy who was arrested at the same time as Le Bron was sent to Reform School. He told the court yesterday that he liked the place and was willing to remain.

CONTEST FOR A CHILD. There was a contest yesterday in Circuit Court over the custody of a child, the son of John Gouvels who was recently divorced from his wife. The ex-wife petitioned for the custody of the child, which the father had taken, there having been no order made at the hearing of the divorce case. Judge Gear denied the motion, it appearing that the child was being well treated by Gouvels though he disclaimed the parentage of the boy.

REPORT ON BISHOP MUSEUM. F. E. Thompson, as master, made a lengthy report yesterday upon the accounts of the trustees of the Bishop Museum. The report was approved by Judge Humphreys and Thompson allowed a fee of \$275.

Accompanying the report was evidence as to Oahu Plantation bonds in which part of the funds have been invested by the trustees. August Ahrens, manager of the plantation, testified that the property was in good shape,

that the labor situation is good, and that the dividend this year, estimating at the present price of sugar, would be one-half of one per cent.

Cecil Brown of the First National Bank, C. M. Cooke of the Bank of Hawaii and E. I. Spalding of Spreckels' bank all testified that the bonds of the Oahu Sugar Co. were amply secured.

The master's recommendations that the report be accepted and the investments approved were accepted by Judge Humphreys.

ANSWER IN HOLT CASE.

A demurrer was filed yesterday by some of the heirs as to the bill to set aside the probate of the will of Robert William Holt. The defendants allege: "That said petitioners have not in and by their said petition made or stated such a cause as entitles them or either of them to the relief prayed for or any relief in respect to the matters in said petition stated."

"That it appears in and by said petition that said petitioners are estopped by their own laches and the laches of those under whom they claim from the right of being heard upon the matters set up in said petition."

HANKEY SUE FOR DEBT.

Bishop & Co. yesterday filed suit against Frederick W. Hankey claiming the sum of five hundred dollars with interest at eight per cent. from June 23rd, 1902. The suit is on a note for that amount given by defendant to Samuel M. Damon and by him assigned to Bishop & Co.

Elizabeth K. Pratt yesterday began suit against Y. Ahin and Yee Ham, partners under the name of Y. Ahin & Co., claiming the sum of \$350 alleged to be due for rent upon certain lands at Waiwala.

Chu Gem has sued Young Chee and Young Pow doing business under the firm name of Wing Mow Chan for foreclosure of mortgage given to secure five notes of \$1,000 each. The property so mortgaged consists of buildings, etc., in a lease given by J. A. Magoon.

LILLUOKALANI MAKES ANSWER.

An answer was filed yesterday by Ex-Queen Lilluokalani to the bill of C. B. Wilson to declare a trust for certain property at Waikiki claimed by him. She denies that she made no endeavors to sell the land, but says the property was sold to Cecil Brown for \$4,000. She disclaims also any knowledge as to the petitioner expending \$500 for improvements.

The Ex-Queen says further that the service rendered to defendant by plaintiff and his wife was without promise of pay, for the reason that petitioner was under obligations to respondent for financial assistance rendered, which had never been repaid. Lilluokalani says further that she allowed said petitioner and his said wife to occupy said premises without demanding rent on account of the close friendship existing between petitioner's wife and this respondent, and by reason of the fact that she believed that said petitioner was in poor circumstances financially and could ill afford to pay rent.

CIRCUIT COURT NOTES.

Malle Keka has filed her report as administratrix of the estate of Maria Kopena, showing property worth \$4,147. Among the items listed are "1 horse (old and blind \$10)" and "1 gold watch (out of order \$15)."

A discontinuance has been filed in the divorce case of Solomon A. Hiram vs. Kaupena H. Hiram.

The will of J. H. Harrison was filed for probate yesterday, with a petition for the appointment of Cecil Brown as administrator. The estate is valued at \$7,000. To his daughter Phoebe, wife of Samuel Johnson, decedent leaves \$10; to his son Henry James is given the donkey engines and property used in his stevedore business. To his wife is given one-third of the remainder, and the balance then remaining goes to the son Henry James.

An answer was filed yesterday by J. M. McChesney in the case of Queen's Hospital vs. Waikiki Land and Loan Association et al.

The children of John Umi have asked for a court order reimbursing Milla Perry for money expended for their support.

A motion for a new trial has been filed in the case of William Schneider. Judge Gear has ordered that a new bond be given, the Attorney General objecting to the one given for appearance at the trial.

Bishop Report has been given ten days further time to answer or demur in the case of Oahu Railway and Land Co. vs. John K. Sumner et al.

Judge Robinson made an order yesterday allowing J. A. Magoon, spendthrift guardian of Rebecca Patee, to build a house for the use of his ward. The money so spent must however be obtained from the sale of a \$4,500 note of Lizzie Keola at not less than par, and one given by Enoch Johnson for \$500. The house is to be built on King street at a cost of \$4,000, the plans to be approved by Becky.

Judge Robinson has declared the estate of H. C. Norton insolvent upon the petition of G. F. Morgan. An order for a pro rata distribution of the amount on hand, \$34.95, was made.

The hearing of the case of Lum Ah Lee vs. Ah Soong et al., action for damages for trespass on water rights, is still dragging on before Judge Robinson.

RICH LAND

—IN—

Central Kona FOR SALE

By order of REINNE RODANET, Trustee, I offer for sale those certain parcels of land situate at Onouli, South Kona, Island of Hawaii, described in Royal Patent (Grant) No. 1162 to F. O. Schulze, and containing 174 acres, Royal Patent (Grant) No. 2862 to Awahea and containing 729 75-100 acres, situate at Keopuka and Onouli, Island of Hawaii.

This is a tract of over 900 acres, situated in the most fertile and richest portion of the Island of Hawaii. It faces the new Government road, extends to the sea, and is five minutes' walk from Kealahou Bay, by way of the old Government road which runs through the property. Portions of the land are already under cultivation.

This tract is so situated that it is about midway between Kailua and Hookea, and five miles from Napoos, three most important ports of the Kona district. It has sufficient elevation, running up to fourteen hundred feet, to be particularly healthy, and its soil is well adapted to the growth of sugar cane, coffee, fruits, dairying, or for the promotion of diversified farming.

Oceans of this land have easy access to several ports for export, and with the advent of the Kona Railroad will find themselves in close communication with the thriving City of Hilo. This, of course, affords a splendid opportunity for the exporting of farm products to the California markets.

With the revival of the Kona Sugar Co., considerable portions of this land can be successfully planted to sugar cane.

This is one of the most splendid opportunities for a good investment that has been put upon the market for a considerable period of time.

Eye Accuracy

If there is one business more than another requiring careful and accurate attention, that business is the fitting and making of glasses to correct visual defects, and that such care is given in my optical department is fully evidenced by the constantly growing clientele.

As already advertised, I am now devoting my entire time to the optical department, making that a leading feature of my business, watching each detail, from the fitting to the finishing of glasses, so no error can creep in.

If a perfect knowledge of the eye and its needs, applied in a conscientious manner will give perfect results, you may safely entrust your difficult optical work to this department.

YOUNG MEN'S CAMPAIGN Republican Club Elects New Men.

The Young Men's Republican Club
swung briskly into the campaign last
night in the Maile Ilima hall on Fort
street. The annual meeting and elec-
tion of officers for the ensuing year was
held, at which there was a large at-
tendance of the younger element of the
Republicans of the city and much en-
thusiasm was manifested. A canvass
of all the precincts here will begin and
captains of precincts were named last
night for both the fourth and fifth dis-
tricts. The club does not propose to
waste time, but will send its workers
out into the field at once and continue
to bring young men into the organiza-
tion until the day of election.

Lorrin Andrews heads the club as
president for the ensuing year and in
his speeches last night he indicated
that no time was to be lost, but that
a thorough canvass should be made.
The club will have for its main object
the enrollment of young men as mem-
bers of the club, canvass every pre-
cinct and aid the district and precinct
organizations of the Republican party
in every way possible. The election
last night resulted as follows:

President, Lorrin Andrews;
First Vice-President, S. M. Kanaka-
nui;

Second Vice-President, J. D. Marques;
Recording secretary, D. H. Case;
Corresponding secretary, P. R. Helm;
Treasurer, A. W. Seabury,
Sergeant-at-arms, George Hubbell.

The enrollment committee, appointed
by the president, is as follows:

Fourth district—1st precinct, P. R.

Helm; 2nd precinct, W. W. Harris; 3rd
precinct, E. A. Mott-Smith; 4th pre-
cinct, Mr. Nott; 5th precinct, C. C.

Swain; 6th precinct, Mr. Wolf.

Fifth district—8th precinct, Mr. Ka-
leikau; 9th precinct, A. W. Seabury.

Jonah Kumalae was also added and
other appointments will be made short-
ly. The committee went to work last
night and the list of captains of pre-
cincts will be named at once.

At the opening of the meeting by the
president, it was stated that the an-
nual meeting should have been held in
May, but owing to the club being with-
out headquarters it had to be deferred.

Arrangements had been made, however,
to use the Maile Ilima hall on Fort
street, opposite the Club Stables, for
the remainder of the campaign, and
would be open at all times for the ac-
commodation of members. In respond-
ing to the call for a speech after be-
ing elected to the presidency, Lorrin
Andrews said he was gratified to find
the club at his back, and he would do
what he could to make it an energetic
factor in the campaign. He wanted to
see a hearty and earnest campaign
carried on and asked for the full sup-
port of the members. Treasurer Sea-
bury said that he hoped he would not
have to call twice on the members for
their campaign assessment.

It was suggested that dues of \$1 for
the campaign be required, both of the
old members and the new ones. This
met with objection, others favoring
voluntary subscriptions at the various
meetings. The discussion resulted in a
change being made in the by-laws
whereby a levy upon the members for
a campaign fund, \$1 to be paid by each
member. This plan met with favor and
at the close of the meeting the treas-
urer stopped a brisk flow of dollars
at his desk.

The president was also empowered to
appoint a campaign committee of ten,
the personnel of which will be announ-
ced this week.

A. W. Pearson said that the matter
of canvassing the precincts was the
most important feature of the club's
work and should be taken up at once.

He suggested that the precinct captains
again get to work, subdivide their pre-
cincts and place the sections in the
hands of men upon whom they could
depend on to perform that duty well.

By this means the names of all voters
throughout the city would be obtained
no matter to which political party they
belonged. With these names in the
hands of the secretary the club would
be in a position to put out organized
effort in every precinct. The meeting
passed a motion to this effect.

The president announced that the or-
ganization in the Fifth District was
somewhat lax and needed careful at-
tention. One of the duties of the com-
mittee of ten would be to fill up the
gaps in that district and see that it is
thoroughly canvassed.

MISS LITTLE'S

HOTEL ANNEX

By General Request the Band
Will Play on the
Beach.

A new departure in the public concerts given by the Hawaiian government band will take place this evening when, by general request, a special moonlight concert will be given at the Hotel Annex, Waikiki. The band will either be stationed under the spreading hau tree on the lawn near the sandy beach, or upon the lanai of the hotel overlooking the ocean. As the lawn is extensive, and one of the most striking and picturesque scenes of Honolulu is displayed by moonlight along the crescent shore, lovers of music will find the new concert place a delightful retreat. A new ragtime march by "Sonny" Cunha will be rendered. The concert will begin at 7:30, the program being as follows:

PART I.

Overture, The King's Lieutenant. Titi
Intermezzo, My Secret. Costa
Selection, Bohemian Girl (by request).
(a) Mikio. (b) Ua hiki No Me A'u

Want an Aerial Truck.

The new era of building in Honolulu which has brought about business blocks six stories in height, has caused a demand for better fire protection, and to this end the bids are now asked for a sixty-five-foot Aerial turn hook and ladder truck complete with standard equipment and of first class workmanship and material. Sealed tenders will be received up to 12 o'clock noon, Wednesday, September 17.

Methodist District Conference.

Rev. George L. Pearson, of the Methodist Episcopal church, will tomorrow, commencing at 9 a. m., hold a district conference in the Methodist church for the Japanese workers in the Methodist mission in the Hawaiian Islands. Annual reports will be made up and sent on to the annual Methodist conference. Work for the ensuing year will also be planned.

A Giant Watermelon.

A "sweetheart" watermelon, grown at the Wahiawa colony, Oahu, weighing 52½ pounds, the largest ever grown there, was on exhibition yesterday at the Colony store on King street. The name "sweetheart" comes from the fact that in this variety the heart of the melon is sweeter than the rest of the meat.

The Bishop's Reception.

Satisfaction of judgment was filed yesterday in the case of Hans Lorenzen vs. Inter-Island Steam Navigation Co. The company has paid the \$100, which includes costs, upon the judgment obtained in Federal Court by Lorenzen for injuries sustained by reason of being struck by a sling of sugar while the Irmgard was being loaded. An appeal was noted by the defendant, but this has now been abandoned.

The court of tax appeals heard the cases of the Campbell Estate and of J. P. Mendonca yesterday. In the latter case there was a difference in assessment upon business property, Assessor Pratt claiming that it should be three dollars a foot on a 70-foot fronting basis, while C. Bolte, who appeared for Mendonca, insisted that 60 feet was sufficient for a business frontage, though conceding the value at \$3 per foot.

\$5 REWARD

See the five big silver dollars in our window.

They are yours if we use the name you suggest for our new tonic drink.

It is a good drink and needs a good name—that is why we are willing to pay \$5.00 for one.

Tones up the nervous system, the stomach, and, in fact, the entire body. A delicious cure for that tired feeling.

Now get to work and try and think of a good name. Five dollars per think is going to be easy money for somebody. You may get it. You had better try for it, anyway; that part of it costs you nothing—you don't even have to try the drink unless you want to.

We advise you to try it, however. It will stimulate your thinker as well as your body.

Write the name you think best on this slip, with your name and address, enclose in sealed envelope, and send it to the HOBSON DRUG CO. before August 31st, 1902.

Half Hose at Half Prices

A Great Bargain for Men

There are always plenty of bargain opportunities for the ladies, but seldom do men have a chance to buy two pair of half hose at the price of one. It's the little savings that count too, and there is no man so prosperous that he can afford to pay fifty cents for hose that we are offering for twenty-five cents this week. If you haven't time to come yourself, better send your wife and let her buy a new dress with the money she saves. We have two qualities on sale consisting of

Fine Lisle Hose, Regular at 50c
This Week Reduced to - - - 25c
Lisle Hose, Heavier, at - - - 35c

California's Admission Day.

A meeting of native Californians will be held on Friday evening, August 15, at 7:30 o'clock, to make arrangements for celebrating the coming 9th of September, Admission Day. The announcement cards give the place of meeting at the drill shed, but as this building is now under the control of the United States military authorities, and the edict has gone forth that no meetings can be held there, it is possible another place will be announced.

Montebello May Sail Today.

The French bark Montebello, Captain Marchandaux, has completed discharging 1800 tons of coal at the Navy wharf and is now at the quarantine wharf, where she will be fumigated before leaving for San Francisco. She will probably sail today. She has 1200 tons of coal for San Francisco.

Refurnished Commandant's Office.
Captain Whiting, Commandant at the Naval Station, had his offices refurnished and they now present a very cozy appearance. New tables, big floor rugs, and mirrors have been put in.

Shipping Notes.

The schooner Robert H. Hind will leave Kauai soon with a cargo of McBryde sugar for San Francisco.

Purser Friel of the steamer Kauai reports that five thousand two hundred and fifty bags of sugar are left on Kauai.

Captain Blanchard of the ship Bangalore shipped a Portuguese woman as stewardess to care for Mrs. Blanchard on the trip around the Horn.

Mr. A. Walker is now chief engineer of the gasoline schooner Eclipse, vice Mr. Nunes, who is going to the coast. Mr. Kelly is second engineer.

The steamer Kauai had the following freight from Kauai ports yesterday: 1250 bags of sugar, 200 head of sheep, two horses, two pigs, four hives, thirty bags of taro, thirty bags of bottles, seventy-five packages of sundries.

A COLD AT THIS SEASON is most annoying, and should not be neglected. Chamberlain's Cough Remedy will relieve the lungs, make expectoration easy, effect a quick cure and leave the system in a healthy condition. It always cures and cures quickly. Benson, Smith & Co., Ltd., wholesale agents, sell it.

BOXERS READY FOR CONTESTS

Articles have been signed for the boxing contest of Saturday evening which insure a contest which will give those who follow the many art of self-defense some delight. According to the articles there must be a decision by the referee upon the points of the contest.

The arrangements for the evening's sports are complete. The principal event of course will be the windup, between Weday and Kaminsky, a ten-round go under Queensbury rules. Both men are getting into condition, working hard, and yesterday both said they were in fine fettle. They will have to make a good showing if the game is to thrive here. The last appearance of Weday left a bad taste in the mouths of the sporting folk, and it will take clean work now to arouse any interest in boxing. For this reason the provision is made that in the event of any such tactics as marked the Opera House take no contest will be declared, and the stake money withheld, and the decision must follow the contest. The men are determined to win on points and there will be little trying for a knockout. The police will be on hand ready to stop the go if it becomes brutal.

The four-round contest between Spider Jackson and Jack Edwards promises to be of interest equal almost to the main event. The men will go in at 128 pounds and each believes he can win handily. They are dissimilar in the extreme, the former being long and thin, and the latter stocky and short. They are both skilful and will be watched with interest.

The seat sale begins this morning at the Orpheum, and from the talk concerning the exhibition there should be a lively demand for the seats.

Inter-Island Co. Changes.

It is said that the Inter-Island Steamship Company will shortly inaugurate several changes in the running of their steamers. These include the laying up of the steamer Mauna Loa for repairs. The steamer W. G. Hall will probably take her place on the run to Kona, Kau and Maui ports and the steamer Mikahala, which is now undergoing repairs, is to be put on the Hall's run to Kauai ports.

Chas. Gay, J. K. Farley, John Fassatt and W. J. Lucas of Kauai were arrivals yesterday at the Hawaiian hotel.

OF THE MULTITUDES

who have used it, or are now using it, we have never heard of any one who has been disappointed in it. No claims are made for it except those which are amply justified by experience. In commending it to the afflicted we simply point to its record. It has done great things, and it is certain to continue the excellent work. There is—we may honestly affirm—no medicine which can be used with greater and more reasonable faith and confidence. It nourishes and keeps up the strength during those periods when the appetite fails and food cannot be digested. To avoid imitations and substitutions, this "trade mark" is put on every

bottle of "Wampole's Preparation," and without it none is genuine. It is palatable as honey and contains the nutritive and curative properties of Pure Cod Liver Oil, extracted by us from fresh cod livers, combined with the Compound Syrup of Hypophosphites and the Extracts of Malt and Wild Cherry. Taken before meals it creates an appetite, aids digestion, renews vital power, drives out disease germs, makes the blood rich, red and full of constructive elements and gives back to the pleasures and labors of the world many who had abandoned hope. Dr. S. H. McCoy, of Canada, says: "I testify with pleasure to its unlimited usefulness as a tissue builder." Its curative powers can always be relied upon. It makes a new era in medicine and represents the best medical advice of the twentieth century. Effective from the first dose. "You cannot be disappointed in it." Sold by all chemists the world over.

PRICE FIVE CENTS.

A great many people want long, heavy hair, but how to get it, that is what puzzles them. The fact is, the hair needs a little help now and then. The roots require feeding.

Ayer's Hair Vigor

If your hair is fading or turning gray, begin at once with Ayer's Hair Vigor. It will positively restore color to your gray hair, all the full, rich color it had in early life.

As a hair-dressing you will certainly like it, for it keeps the hair soft and glossy and prevents it from splitting at the ends.

Do not be deceived by cheap imitations which will only disappoint you. Make sure that you get the genuine Ayer's Hair Vigor.

RACES ON MAUI'S BIG HOLIDAY

OF COURSE there were people of Maui who did not attend the racing at Spreckels Park on August 12, the great holiday of the island, but those who did numbered in the thousands and the sport they had was well worthy of the day and the crowd. Only one incident marred the sport of the day, but the ill-feeling caused by the displacing of a Honolulu horse which came in first, by reason of a claim of foul, passed and from that time the sports went off without other than interesting and pleasing features.

Carriages, train and saddle horses carried the crowds of spectators to the park and before the races had been called at ten o'clock in the morning there was a greater number of people within the enclosure and about its fences than had been gathered in the recollection of the oldest enthusiast. The absence of a band caused the waits to seem longer but the people formed more of a family party than anything else, and the way they enjoyed every moment of the time made the day pass without any dragging. There were a number of visitors, the Honolulu party which made the trip for the purpose of playing baseball with the Maui's came in for entertainment at the hands of the Mauiites and Prince Cupid and his party the central features of a grand stand poterie.

The day was nearly a perfect one, the wind not being too strong for the comfort of the visitors, and while the track was a trifle hard for speed the races were in most part close and furnished excellent sport. The judges, W. F. Pogue, C. B. Cottrell and T. M. Church did not get the flyers out with any great degree of rapidity and it was after the appointed hour that the horses which were to compete for the first event, the three-eighths mile dash were sent to the post. There was considerable jockeying before they got away, Black Bess in the lead with Maui Rose, who carried a load of local money close up. Jennie E. was at the pole and going well in third position and the light weight Starlight back. Within a few yards of the start Black Bess was pulled into the pole, crowding back Jennie E., being never headed, won by an easy length from Maui Rose the others trailing. Thomas, on Jennie E., protested that he had been crowded by Black Bess, and the starters giving the same testimony, the judges set Black Bess in fourth place, giving the race to Maui Rose, Jennie E. second.

Immediately there was a roar. De-vauchelle, owner of the disqualified horse, kicked long and loud and Lucas, who had an entry in the harness event swore by all the straps and wheels at the track that he would not start a horse as the Honolulu men could not get a square deal and tried to induce others to draw out. A Lahaina bar-keeper, Carlyle, who had some money on the race also howled long and loud and it was nearly an hour before the next race could be brought off, the Honolulu drivers being hard to deal with. Davis was asked to scratch Sambo, but he with true sportsmanlike spirit refused saying that he had come to race and would do so. Finally the other Honolulu men decided that they would go out and do so.

It took two heats to decide the first harness event. Faro Bank, Grandpa and McKinley faced the starter. Faro Bank was sent out in front by Lucas and held his lead to the three-eighths pole where McKinley, pacing like a clock, went away and took the heat in 2:37 1-5. There was then considerable betting based on the assertion of the Maui men that McKinley was as steady as shown in every heat. But when again they came out McKinley could not be held down and broke so badly that he had to be practically pulled up and Faro Bank went on and distanced both the winner of the first heat and Grandpa, driven by Bellina, winning the heat and race. The second heat was negotiated in 2:32 1-5.

The three-quarters mile dash was a fairly good race, the Iron horse Amarino, showing his speed and quality by winning pulled up. Jennie E. showed the way for an eighth but was there collared by both the winner and Rosalba. They ran like a team for a half mile, until in the stretch Amarino pulled away and won as he pleased, from a very tired horse, Rosalba, in 1:21 2-5. Sambo and Columbia Maid were down for a duel, McKinley having won one heat being scratched out of this event. Sambo was in form and when Davis sent him away in his stride it was simply a matter of pacing to the wire. Columbia Maid was not going well, and did not have the speed, so was distanced, the heat deciding the race. The time was 2:33 3-5.

The Japanese race was a scramble, much of the money of the speculators being placed upon a rangy black, but the light weight boy could not hold him true, and taking the curves wide made it impossible for the horse to win, the race being taken by a speedy brown, Yokohama.

Amarino annexed another stake in the mile dash, permitting Nellie C. to make the running for seven-eighths, and then romping home a winner by a short length in the slow time of 2:02 3-5. There were three entries in the Polo pony event. Von Tempsky nursed his

Samuel S. White, Winner of Sandow Medal.

A PERFECT man in physical form, is the designation given to Mr. Samuel S. White, the young American collegian now in Honolulu who was awarded the Sandow medal in 1899 at the Crystal Palace, London, for being the best developed man to appear in the competition. Those who have seen Mr. White's enormous muscles and extraordinary physique from neck to torso and from shoulder to wrist, have been amazed at the development attained by him. He is in fact a second Sandow. Mr. White is neither tall nor short, five feet nine and one-half inches in height, broad of shoulder and chest, and standing on finely moulded legs whose muscles are like bands of steel. Every movement made by him indicates that

he is in the pink of health. Mr. White's extraordinary, some might say, abnormal development, is the result of the most careful training carried on for years. "Of course," said Mr. White yesterday, "when one begins to develop, the development comes on largely at first. It is not the years that bring the muscles into the form that brought me the Sandow prize, for after a few months, when I went in for steady, systematic training, my development had practically attained the present proportions. The rest was a continual hardening and training of those muscles already raised into prominence. Oh, yes, I generally keep up my training, but recently in my travels through the Orient I have been somewhat lax. However, when I reach the mainland I shall be as systematic as before."

Bruner, the hack horse which Balentine rode in the gentlemen's race here on July 26th, was well away in the lead in the 3/4 mile dash. Maui Rose could not be held on the track, turning wild and thus being dropped out of the going. Jennie E. made a strong bid but could not catch the Honolulu horse, which won by an open length in 1:23. Mollie Conners took the mile from the same horse as she liked, being pulled all the way to make the race of interest. The time was 1:51 2-5. Leonard was to make a balloon ascension, the Racing Association having offered \$30 and the people con-

HONOLULU WIN BASE BALL GAME

THERE may be baseball enthusiasm in other parts of the United States, even a few fans claiming this city as their home, but Wailuku produces the greatest number of howling, screeching and fit-throwing followers of the national game to its population, not only on the islands but in the country, if the record breaking crowd of Tuesday is a criterion. It was the return match between the Maui and Honolulu, and the play, while marred by spots of ochre, had in it much of real interest.

Maui presented almost the same team which appeared here and Honolulu had practically the Athletic Club team, with the exception of Marcellino, who going into right sent Louis to second and moved the others to the right one step. It was a battle of the bat in every sense, for the Maui on their own grounds managed to get nine hits off Joy while the visitors in turn took fourteen out of the two men opposed to them. Jackson lasted only four innings, and then giving place to Searle, the Waikapu twirler, guarded the center garden and watched his successor during a fusillade which meant hits and runs.

But the crowd was one of the features. There were men, women and children who gathered for the purpose of shouting, it seemed, and they did not overlook an opportunity to carry out their design in making up the greatest crowd of the season. They shouted when Garcia hit safely in the first, when Searle struck out Joy in the sixth, and over Cummings' triple in the ninth, and in between did some of the most astounding kind of screeching that is possible to imagine. If the team had played up to the rooting there would have been only one ending to the game, the annihilation of the visitors, but when hits would count they were not in the wood.

Counting began the first time up. Williams hit to first and his single was too hot for Pickard to handle. Louis fanned and Cunha hit the first ball up for a single to right sending Williams to third, from which corner he counted a moment later on Hansman's out at first. Joy was hit by a pitched ball and according to the rules went to his base but used there. The second was the heart breaker. With two men out on flies Marcellino sent a pop into the space behind the pitcher and both short and second met for it and it fell out of Garcia's hands. Williams was there for a kink and after a steal both counted on Louis' long hit over second. Jackson smiled feebly when the crowd shouted to strike out Cunha and sent up a bale of hay which the little man pushed out into the lantana behind left field for three sacks. The Honolulu contingent was wild and when a moment later Joy hit over second and scored his catcher, there was more joy, the inning netting four, not a one earned.

The comedy of errors in the third consisted of the first one, when Rosecrans threw wild and let Thompson safe. Then on a foul fly and out Cummings tried to stop the runner at second, the baseman letting the ball go by and the third in turn failing to handle Cornwell's assist Thompson scored. Cunha tagged up one in the fourth on his own double and Joy's triple, and Louis added a mark on his and Cunha's doubles in the sixth. Thompson and Aylett walked in the seventh and when on Marcellino's out Pickard tried to catch the former at third and threw wild they both counted. Again in the eighth Cunha rounded the bags on his walk, Joy's sacrifice and the error of the second on Hansman's fly, the throw being low and Rosecrans getting squarely in the way so that Cunha fell over him. Thompson's hit ended the run getting with Cunha's count.

Maui began to score in the first. Garcia hit over second and aided by a passed ball scored when Marcellino dropped Jackson's fly, which he got to only after the hardest run. They did no more until the fifth. Searle had gone into the box and held down the visitors and signaled his change of base by hitting. Garcia followed suit and both came home on a push over second base by Jackson. There was a

NEWS OF THE WATERFRONT.

BIG CROWD TO SEE STEAMER OFF

Admiral Merry Among the Many Passengers of the Alameda.

As Rear-Admiral J. F. Merry, U. S. N., walked up the gang plank of the steamer Alameda shortly before noon yesterday he was tendered a great ovation. The Admiral is returning to the Coast. He was loaded down with leis and as he stood half way up the plank and bowed, the Territorial band played "Auld Lang Syne." Many army officers and all officers and nearly all the men of the Naval Station were on the Oceanic wharf to watch his departure. The Admiral goes to report to the Navy Department in Washington, where he will receive leave and then go to his country place in Maine for a rest.

The Alameda left for the Coast shortly after noon having a very large number of passengers and with an enormous crowd filling the wharf to watch her departure.

She carried the following passengers: Admiral J. F. Merry, Prof. Marques, Mr. and Mrs. H. W. Hyers, Miss Dowsett, Miss Makee, O. E. Weller, J. M. Oat, F. J. Turk, E. N. Parker, J. K. Parker, J. C. Guinnane, E. Kruse, R. Hind, L. L. Greenwell, M. Hall, Charles L. Rhodes, Mrs. F. B. McClanahan and daughter, Dr. and Mrs. Howard, A. A. Brown, Mrs. Knowlton, Hugh F. Sturtevant, S. M. Palmer, E. E. Hartman, H. W. Baldwin, K. Yasutake, K. Kunoaki, Mrs. Jacobson and 2 children, Mr. and Mrs. Brown, Mrs. Segdum, Miss L. Wilhelm, Master Wight, Master Gunn, Misses Wight, Mr. and Mrs. John F. A CURSE ON HONOLULU CITY

Spanish Gypsy Utters One When Leaving on Alameda Yesterday.

Carrying, it is said, big bags of gold, a party of Spanish gypsies, who have been in Honolulu begging and fortune-telling for several weeks, left for the Coast by the Oceanic liner Alameda yesterday. The gypsies left Honolulu because of a promise they made in court recently to leave the country if they were not prosecuted.

They took stowage tickets, paying for them \$30 each, and when they leaned over the rail of the lei bedecked steamer yesterday they presented a very unkempt and dirty appearance.

One of the gypsy women was accosted on the wharf by a representative of the Advertiser. She said:

"You write for paper? Allright! Me tell you. You put it in paper. In six months me say what you call Bowl-punch will be all fire. Hell will break loose. All you dirty white people, you yellow and you brown devils will be buried by many big mountains which jump up from sea. Then big wave come and sweep all way. Oh, me tell you. Me hot stuff on speak English. Me can talk. You unjust, you poor, dirty people will all be buried, Caram-ba! Oh! Me know it. Stars, Moon and Sun and voice of gods all say it. You tell all peoples that. Some few good peoples can sail away."

"You don't like Honolulu then," remarked the reporter.

"Go on! Me like it! You ask me like the devil. Me say no. You ask me like Honolulu. Me say no. All same. You comprehend me?"

"But don't you think our city a beautiful one?"

"Oh, me laugh! Yes Palama—beautiful—Plenty fine boulevards. Yes, yes, hot stuff. And Kakaako a fine place too. But all be wiped by big, hot stuff volcano."

"Oh, yes, Havil—a fine countree, a fine countree—what you call a garden of the gods—a fine countree—a fine countree."

Rising to her full height, her head thrown back upon her shoulders, a hand on one hip, and with her eyes sparkling and rolling about, the sarcasm of the gypsy was of a kind that would remind one of the gentle irony of the times of Nell Gwynne and King Charles II.

It is safe to say that this particular lot of gypsies will not return to Honolulu.

Fine Levied Yesterday.

Collector Stackable yesterday levied a fine of \$100 on Captain Brown of the treasure schooner Herman for not having a certified copy of the vessel's manifest from San Francisco. Captain Brown now stoutly maintains that it is not necessary to have such a document but would be unable to leave this port without paying the fine.

S. S. City of Peking

The steamer City of Peking, which broke her shaft and had to be towed to a Jap port, may be expected here anytime as the shaft could be replaced easily as soon as the steamer reached a dry dock. She had an extra shaft on board. She had been scheduled to arrive here last Sunday.

TO NAVIGATE IN THE LAGOONS

How Herman Will Get About in Tight Corner of South Seas.

The fact that the mysterious schooner Herman carries a steam launch which will be used to tow the small vessel in and out of lagoons in the South Sea Islands in the hunt for treasure seems to indicate that Captain Brown knows that an island of certain sort of formation in the South Seas is the one which contains the treasure but is not exactly certain which island it is and for that reason will have to visit many small islands before he finds the right one.

Everything is not as harmonious aboard the vessel as might be expected.

The sailors say that they are only getting the usual rate of sea wages and the usual sea food and that their articles do not provide for any extra pay if the treasure is found. One may say: "What does Captain Brown want of pick axes, shovels, trucks, steam launch, and those things if he isn't looking for treasure. We've got enough shovels down there to put a half hundred men to work digging so it must mean that the island that the treasure is supposed to be on is inhabited and that Captain Brown will get the natives to assist him in digging for it."

"Arms? Yes, we've got a small arsenal aboard and I reckon if it come to a case of 'have to' we could fight a little bit," continued the sailor, "but I think that there won't be much trouble as Captain Brown knows the ropes pretty well."

"What kind of a man is Captain Brown? Well, he ain't so bad, some people think he's a bit of a crank but I tell you all the matter with him is that he is nervous and impatient to get at the treasure. He doesn't do much of the work of running the schooner—he leaves it to the mate."

RULES ARE ADOPTED

For Inspection of the Fish at Hilo.

BOARD OF HEALTH AND PHYSICIANS

Regulation Regarding Report on Contagious Diseases to Be Strictly Enforced.

Yesterday's meeting of the Board of Health was brief and of little importance. There were but two topics considered, the adoption of rules for the government of the Hilo Fish Market and a discussion of reports upon contagious diseases.

There were present at the meeting President Sloggett, Dr. Moore, F. C. Smith, Paul Isenberg and E. P. Dole with Executive Officer Pratt.

Two physicians who had failed to report the presence of contagious diseases in cases attended by them appeared before the Board and were notified of the urgent need of a strict observance of this rule, and also of the penalty for such neglect. There having been some laxity in the past by physicians in the reporting of cases to the Board of Health, it was decided upon motion of Mr. Isenberg to notify every physician in the city of the necessity for complying with the law, so that there can be no excuse for further neglect.

To make the rule of still more force it was decided that the Executive Officer refuse to issue burial permits, in case of death, unless it is known positively that death is due to natural causes.

RULES FOR HILO FISH MARKET.

In regard to the new fish market authorized at Hilo the committee reported the following rules which were adopted by the Board:

1. Market at Waiakae to be a wholesale market only, and all fish offered for sale in Hilo shall first pass through this market and be inspected and counted, and after such inspection shall be delivered and recounted at the retail market.
2. Wholesale to mean dealings between fishermen and holders of stalls in the present retail market on Shipman street.
3. Fish left over and unsold at 6 p. m. to be inspected and if found in proper condition may go to cold storage and on being again offered for sale shall be labelled as iced fish.
4. Market fees of the wholesale market shall not exceed ten per cent of the sales actually made there.

CONFERENCE WAS IMPORTANT ONE

Japanese Preachers and Converts Have Finished Week of Daily Sessions.

What is considered to have been one of the most important conferences of Japanese preachers and converts in Christian evangelical work in the Hawaiian Islands ended yesterday at noon in the Japanese Methodist church on Nuuanu street, after a week of daily sessions. Each day the meetings were largely attended, and the utmost interest was manifested both by the Japanese and the foreign people who assisted. Addresses made by the Rev. Mr. Kosaki, pastor of the First Methodist Church of Tokyo, as well as by foreign ministers of Honolulu, were of a high order, and all tended to stimulate a deeper Christian feeling.

The sessions were practically those of a summer school of instruction for Japanese Christian workers, and Japanese from various islands were present. Among those who made addresses were Dr. Alexander, a former missionary in Japan, who spoke on doctrinal themes; Rev. George L. Pearson, on "The Preacher and His Message"; W. A. Bowen, on Sunday school work; Rev. Mr. Kosaki, religious and modern thought as viewed from the Japanese standpoint; O. P. Emerson, on prayer. Rev. Mr. Rice and Rev. O. H. Gulick also delivered addresses.

TEN BOLD ASSERTIONS.

Regarding Chamberlain's Colic, Cholera and Diarrhoea Remedy.

1. It affords quick relief in cases of colic, cholera morbus and pains in the stomach.
2. It never fails to effect a cure in the most severe cases of dysentery and diarrhoea.
3. It is a sure cure for chronic diarrhoea.
4. It can always be depended upon in cases of cholera infantum.
5. It cures epidemic dysentery.
6. It prevents bilious colic.
7. It is prompt and effective in curing all bowel complaints.
8. It never produces bad results.
9. It is pleasant and safe to take.
10. It has saved the lives of more people than any other medicine in the world.

These are bold assertions to make regarding any medicine, but there is abundant proof of every one of the above statements regarding this remedy. Every household should have a bottle at hand. Get it today. It may save a life. Benson, Smith & Co., Ltd., wholesale agents, sell it.

The McKinley Park

Work on the McKinley Park will soon commence, as a large amount of money has been subscribed for that purpose. Its location being on King Street, and the additional fact that the ELECTRIC ROAD runs straight out has established this thoroughfare as the main avenue of Honolulu. The beautiful PAWAA TRACT lies mauka of this line, just beyond Waikiki Road. Lots in this location are the most desirable in Honolulu. On account of the sheltered condition of this tract, it is free from the severe winds and rains that come down from the Manoa valley; yet it is subject almost continually to a mild, healthy breeze, rendering it from 10 TO 15 DEGREES COOLER than Ewa of Punaluu Street. On account of the low prices asked and the very small amount down and easy terms, the opportunity to purchase a beautiful home site comes within the reach of all; but after September 15th, the prices of these lots will be ADVANCED 20 PER CENT. So now is your time to see

NO TRACE OF CEYLON OF UNTOLD VALUE

Albatross Searched

HER CREW NOT
ON BIRD ISLAND

Captain Thomas Had Instructions
to Look for Overdue Bark
and Crew.

Another link has been added to the chain of a story which leads people on the waterfront to believe that the old wooden bark Ceylon, Captain Willer, plying in the guano trade between Honolulu and Laysan Island, has met with some mishap. Captain Thomas, of the U. S. F. C. S. S. Albatross, which left here recently for Bird Island, is now returning and reports that he found no evidence of ship-wrecked sailors on Bird Island, nor saw anything of the overdue vessel on his trip out and back.

The Albatross had instructions from Commandant Whiting, of the Naval Station, when she left this port, to keep a sharp lookout for the overdue vessel and also to search Bird Island for ship-wrecked sailors, as Mr. Alexander Isenberg, of the firm of Hackfeld & Co., thought that their vessel may have met with some trouble and as Bird Island is in the track that the Ceylon would sail to Laysan Island, it would have been possible that the crew of the Ceylon had reached there.

The Albatross arrived at Nihaui Island on August 9, on her return trip from Bird's Island, and Captain Thomas then stated that they had found no trace of the Ceylon or her crew.

The Albatross is expected to arrive at Honolulu early on Friday morning.

The Information Contained in This Honolulu Citizen's Statement is Priceless.

The hale, the hearty, the strong can afford to toss this paper to one side impatiently when they read the following, but any sufferer in Honolulu who has spent a mint of money and suffered hours of excruciating torture caused by kidney complaint, pain in the back and sides, headaches, nervousness, frequent thirst, hot, dry skin, shortness of breath, evil forebodings, troubled sleep, puffiness of the eyelids, swelling of the feet and ankles, loss of flesh, or dark-colored urine, will stand in his own light if he does not follow the valuable advice offered by this resident:

Mr. H. G. Crabbe, of Nuanu street, this city, formerly a merchant and clerk, now a collector, writes: "My age is 69 years, and I am blessed with children and grandchildren. For about two years I have been troubled with a severe pain in the back. A short time ago I purchased some of Doan's Backache Kidney Pills at Hillier & Co's Drug Store, and found great relief through using them. I keep some of the pills by me as a safeguard against attacks of my old complaint, which I need not fear so long as I have a remedy like Doan's Backache Kidney Pills to combat them."

For sale by all dealers; price 50 cents per box, six boxes \$2.50. Mailed by the Hillier Drug Co., Honolulu, wholesale agents for the Hawaiian Islands.
