PRICE FIVE CENTS.

HONOLULU MEN ARRESTED FOR HELPING REGO

Two of Them in Custody and the
Koloa Deputy, Spalding, is
Likewise in Oahu Jail.

There seems to have been something like a hui engaged in the loot of the United States Treasury through the Koloa post-office, with Manuel A. Rego as the directing head and perhaps as the principal beneficiary. However, it is not at all probable that Rego got it all.

Two men were arrested in Honolulu last night by United States Marshal Hendry, charged with complicity in the Koloa postal frauds, and John P. Spalding, who was Rego's deputy post-master, was brought down from Kauai yesterday also in the custody of the United States Marshal. And even this may not be the end.

The two men arrested last night were J. C. Abreu, formerly a clerk employed by Rego in his store at Koloa, and Guilherme Pereira, called also Brilhante, who is a stone mason and Rego's brother-in-law. The warrants upon which they were taken into custody charge them with presenting for payment to a disbursing officer of the United States money orders that had been issued by collusion and fraud.

It seems that the manner of operation of the ring, or hui, was for Rego or Spalding, or both of them, when there was a need of money to carry on Rego's Koloa business or for any other purpose to issue a money order, or a series of them, using the name of some prominent person on Kauai or known to be on Kauai who of course would know nothing about the transaction. This order or orders would be sent to or carried by a trusted agent to Honolulu, and collected at this end. Of course a variant of this system was to send the orders directly to the bank here for collection.

As Rego's credit was good, it was an easy thing in the beginning for him to "kite" the orders, although of course as the deficit grew, it became more and more difficult. It was, in fact, a system that was bound to give itself away sooner or later, and that for more reasons than because there were several people besides Rego who knew the facts.

The warrants for Abreu and Pereira, or Brilhante, were issued yesterday afternoon, and Marshal Hendry had no trouble, or very little trouble in finding Abreu at his place of business, a small store at 1461 Luzo street. The man did not show a great deal of surprise when he was taken into custody, merely saying as the door of Oahu Prison closed upon him:

"Well, that's all right. I only did it for Rego."

Pereira was somewhat harder to locate, and at first it was thought that he was trying to keep out of the way, at least until morning, the supposition being that he desired to wait until daylight, with the hope that he would then be able to furnish bail. Also, it had been said that Rego would go back to Koloa last night to help in straightening out his business affairs, and that he would take his brother-in-law with him. However, it seemed that the man was only out of the way by inadvertence, because he presently was taken into custody.

The two prisoners spent last night in Oahu Prison, where in another part of the building also Spalding was quartered. This young fellow Spalding, a half white, very tall, spectacled, looking much more like a student than a defaulter, was decidedly the coolest man of the four so far arrested for complicity in the Koloa frauds. His wife accompanied him from Koloa when he came down in the custody of the Marshal, and went with her mother and Spalding's mother to call upon him in the Marshal's office yesterday. In the presence of his female relatives, Spalding broke down for the first time since his arrest, mingling his tears with theirs.

Aside from that temporary weakness, he was calm and collected at all times, asserting that Rego and not himself was entirely responsible for the shortage in the postoffice funds. It will be remembered that from the first discovery of the frauds, Rego has blamed his deputy for their existence, and Spalding has blamed Rego.

Spalding was taken before United States District Court Commissioner Judd yesterday before noon, and was held to answer in the sum of \$10,000 upon a charge of defrauding the government by the issuance of a fraudulent money order for \$100 drawn in the name of A. Fernandez. His examination was set for next Monday at 10 o'clock a. m., and in default of bail he was sent to prison. He expressed the hope, however, that he would be able to give the bond. Later in the day he was taken back to the Marshal's office, but was returned to prison at 5 p. m., being unable to find sureties in the amount desired.

Rego made a statement yesterday to the effect that the shortage in Koloa had not been accumulated in only three months. "When the inference is sought to be established that this shortage occurred within the last three months," said Rego, "it seems to me that it is an attempt to lead people to infer that the Postal Department made an examination of the Koloa postoffice books not less than three months ago. There was no examination made three

RUSSIAN STRIKE IS RESUMED

Kuropatkin.
THE LATEST PHOTOGRAPH OF GENERAL KUROPATKIN AND HIS OFFICERS AT RUSSIAN HEAD-QUARTERS IN MANCHURIA.

A recent statement by Count Cassini estimates General Kuropatkin's present force in Manchuria at 350,000 men. A second army of 200,000, commanded by General Gripenberg, is said to be on its way to the Far East, and a third force, 150,000 strong, is expected to reach Manchuria early in the summer, when Kuropatkin will have at his disposal an army of 700,000 men. Now that Port Arthur has surrendered, two-thirds of General Nogi's army, or 50,000 men, have been hurried to the front to reinforce Field-Marshal Oyama, who is still encamped on or near the Sha River in Manchuria.

KINETOSCOPE SHOW ENDS IN CHINESE RIOT

With the collapse last night of a kinetoscope in the Chinese Theater on Liliha street, that famous structure was the scene of a semi-riot in which nearly five hundred Chinamen participated.

The theater was packed and Chinese came striding in even after the kinetoscope machine began to throw pictures on the screen. The lantern was placed in the center of the auditorium and the screen was elevated from the stage.

The pictures showed scenes from the war in the Far East. Things went well for a while and then, all of a sudden, the machine broke down. Then it was like old times, when the Flying Jordans had to fly from the same house under the same circumstances. There was first a rush to smash the machine. Police officers were present and tried to stem the tide of coolies which were bearing down on the luckless operator. A hurry call was sent to the police station, followed shortly by a second, to which Deputy Sheriff Rawlins and nine officers responded in the patrol wagon. When Rawlins reached the theater there was wild disorder. He managed to get inside with several officers and orders were given to clear the house. The Chinese were then clamoring for the return of their money. They surged about the entrance and in the cramped aisles. The crowd was worked out gradually, but not without difficulty, for many Chinese became belligerent and force had to be used with them.

Then came the familiar Chinese cry to rush the police, and the Celestials started back into the building. Rawlins and his men stood their ground and began a counter attack, which was successful. One big fellow in the crowd nearest Rawlins kept rolling up his sleeves and shouting in Chinese, but he never engaged in battle.

Then the mob attempted to wreck the box office. They clamored for their money. They thrust their arms in through the grating over the window, but officers stationed there prevented damage from being done, and finally got the kinetoscope man, the money and the machine safely out of the building.

THE BAND WAGON IS BEGINNING TO MOVE

Fight for the Speakership of the House is
Shaping Itself as the Statesmen
Gather Here.

There are eight votes in the Oahu delegation to the House pledged to support W. W. Harris for the Speakership.

Really, it begins to look as if it would soon be possible to follow the route of the band wagon. The statement that there are eight votes pledged to Harris comes from a gentleman who is in a position to know absolutely what he is talking about. Admitting

GOVERNOR CLOSING UP WORK ON MESSAGE

"No," said Governor Carter yesterday, "I did not finish up my message today, although I had hoped to do it. I was knocked out by some callers who simply could not be denied. But I hope to get it out of the way tomorrow, and will then get away to Wailua, if I can."

As a matter of fact, Governor Carter worked last night with his clerks in order to finish up the message if it could be done. A part of the document is in the hands of the printers. The whole office force was employed on its completion yesterday, and it will doubtless be finished in time to give the Governor the short rest that he desires to take before the opening of the legislative session.

Novel Window Display.

A very attractive and novel window display on Fort street is that of Henry May & Co., showing Heinz's Baked Beans and Tomato Soup. The center of the display is taken up by a very beautiful glass sign which is illuminated at night and is operated by clockwork to show a variety of colors. The whole arrangement is a clever piece of work designed by Mr. Carson of Henry May & Co.

Hilo Notes.

Company D., National Guard of Hawaii, propose to give an elaborate dance on Wednesday, February 22, in honor of Washington's birthday and as a dedication of their new armory.

Mrs. W. H. Shipman will accompany her husband to Honolulu on next Friday and remain with him during the legislative session.

From private advices it is learned that the mother of Dr. M. Wachs died at her home in Oakland, Cal., two days after his departure from Hilo on the S. S. Enterprise.

THE FIFTH'S AMBITION

Wants a Schoolhouse and an Extended Street.

The eleventh precinct Republicans of the Fifth District held a meeting last evening on the lanai of the Kalihi-waena school, and adopted resolutions for recommendation to the Legislature covering needs of the precinct and of the whole district.

Ben Zablan presided and there was a fair attendance of voters present. Mr. Schnack introduced a resolution asking for \$30,000 for the extension of Vineyard street into the Fifth District. Mr. Cooke amended this so that it would read "a sufficient amount" to cover the expense of the extension and in this form the motion passed. It is proposed to request that the street be cut through as far as Houghtailing street.

Then came the question of a new school house for the district. Mr. Cooke said the district, or the precinct, needed a ten-room school house. The Fourth District had some large and fine schools, the Royal, Kaahumanu, and the Normal in course of construction, and others. Mr. Taggart, principal of the Kalihi-waena school, had told him that \$15,000 might cover the cost of a ten-room school. He did not believe the amount was sufficient. A fine school building, worth \$35,000, should be erected.

Mr. Taggart then stated that seven years ago Minister Cooper had called him from Wainane to take charge of the Kalihi-waena school, and he accepted on the strength of Mr. Cooper's statement that a new school was to be built there. Mr. Taggart stated further that he had talked with Superintendent of Public Instruction Atkinson about the matter and had been assured that the department had finished the big schools for the central part of the city, and it was now prepared to go ahead with the building of schools in the suburbs. Kalihi-waena was to receive attention, and Mr. Atkinson had stated to him that he was ready to do whatever he could for the district. The idea was to centralize schools for the higher grades into one big Kalihi-waena school.

The matter of asking the government to continue the extension of School street was discussed and acted upon favorably.

NEW COMMITTEES OF THE MERCHANTS' ASSN.

President George W. Smith of the Merchants' Association announces the appointment of the following standing committees, in accordance with the provisions of the by-laws of the association:

Public Affairs—James W. Wakefield, E. A. McInerney, F. L. Waldron. Publicity and Promotion—M. Phillips, J. A. Gilman, J. A. M. Johnson. Trade and Finance—J. A. Kennedy, J. G. Rothwell, W. H. Smith.

There was a meeting held last evening in the room of Co. C, N. G. H., for the election of a captain, first lieutenant and second lieutenant. Captain Coyne resigned. First Lieutenant and Second Lieutenant Geo. Smith were unanimously elected, respectively captain and first lieutenant. There was an exciting contest for the second lieutenant, George Moore being elected over William Olson by a vote of 21 to 10. A social session followed the election.

THE NEW FRENCH REMEDY, THERAPION.

This successful and popular remedy, used in the Continental Hospitals by Ricord, Rostan, Joubert, Vulpian, and others, combines all the desiderata to be sought in a medicine of the kind, and surpasses everything hitherto employed.

THERAPION NO. 1 maintains its world-renowned and well-merited reputation for derangements of the kidneys, pains in the back, and kindred ailments, affording prompt relief where other well-tried remedies have been powerless.

THERAPION NO. 2 for impurity of the blood, scurf, pimples, spots, blotches, pains and swelling of joints, gout, rheumatism, and all diseases for which it has been too much a fashion to employ mercury, sarsaparilla, etc., to the destruction of sufferer's teeth and ruin of health. This preparation purifies the whole system through the blood, and thoroughly eliminates all poisonous matter from the body.

THERAPION NO. 3 for exhaustion, sleeplessness, and all distressing consequences of dissipation, worry, overwork, etc. It possesses surprising power in restoring strength and vigor to those suffering from the enervating influences of long residence in hot, unhealthy climates.

THERAPION is sold by the principal Chemists and Merchants throughout the world. Price in England, 2s. 9d. and 4s. 6d. In ordering, state which number is required, and observe that the word "Therapion" appears on the British Government Stamp (in white letters on a red ground) affixed to every genuine package by order of His Majesty's Hon. Commissioners, and without which it is a forgery.

NINTH IS AFTER CASH

Committee Calls Upon Supt. and Talks to Him.

The Ninth Precinct of the Fifth District is anxious to get as much for improvements from the public treasury as possible, and to that end Representative Waterhouse and a special committee made a call yesterday afternoon on Superintendent Holloway and presented two letters voicing their needs. It is understood that the Superintendent's lump estimates out of the current fund proposed for the Fifth District have been cut by the Governor 40 per cent, and the Ninth wants as much of the remainder as possible. The letters received by Superintendent Holloway were as follows:

Honolulu, H. T., Feb. 10, 1905.
Hon. C. S. Holloway, Superintendent of Public Works, City.

Sir: We beg to advise you that at a special meeting of the above club held last evening, it was unanimously voted to endorse your recommendations to the Governor for appropriations for our precinct, to wit:

Extension Judd street to Asylum road.

Repair and macadamizing Nuuanu and Liliha streets.

Repair and macadamizing Judd street.

Repair, guttering and macadamizing Wyllie and Puunui Avenue.

Also that the club unanimously voted to ask for the macadamizing of the old Pali road from the lower end to the reservoir for the accommodation of the homesteaders resident thereon, the same being now in very bad condition for vehicles.

The undersigned were last evening appointed a committee to confer with you in respect to said appropriation recommendations.

By order of the Ninth Precinct Republican Club of the Fifth District.
(Signed)

J. D. AVERY,
EDGAR HENRIQUES,
A. ST. C. PHANALA.
Committee.

Endorsed:
(Signed)
F. T. P. Waterhouse,
Representative, Fifth District.

Honolulu, H. T., Feb. 10, 1905.
Hon. C. S. Holloway, Superintendent of Public Works, City.

Sir: The above club, in addition to the matters acted on and referred to in our other communication of even date, also last night voted to request of your department the following matters, which we were instructed to bring to your attention:

In order eventually to have a second Nuuanu valley drive and one safe from street cars, the club would like to see Puunui Avenue extended makua to the present Pali road near the Electric Light power house, and makai to Judd street, where it will connect with the extension of Judd to Asylum road already recommended by you and endorsed by this club.

We ask for this Legislature simply a survey and estimate of cost.

Some of the lights near lanes privately owned but publicly used could be better placed so as to light the lanes. We also ask for a few extra lights in the longer lanes.

We would ask for a survey to be made to reconnect the old pali road with the new one by an 18-foot road along the bank of the reservoir, also estimate of cost. The upper end of the old road at that point is now physically impassable.

The club asks for a survey and estimate of the extension of Waikahulu line about 100 or 200 feet to come out on Kuakini road.

The club further requests a small pipe line (2 ft. or 4 ft.) to run from the end of Puunui Avenue or the street just makai along that street toward the stream to accommodate those who otherwise can not obtain water. About 600 to 1000 feet will be ample.

Also that you instruct the Puunui-Kalihi Water Commission to also investigate the advisability of the government obtaining all the water rights in Nuuanu valley as a sanitary measure and for the public good.

Also that the government acquire title to all private lanes.

By order of the 9th Precinct (Fifth District) Republican Club:

Very respectfully,
(Signed)

J. D. AVERY,
EDGAR HENRIQUES,
A. ST. C. PHANALA.

Endorsed:
(Signed)
F. T. P. Waterhouse,
Representative 5th District.

NEGLECT ALWAYS DANGEROUS.

To the average man it seems childish to doctor a cold, and unless it becomes particularly annoying to him, little or no attention is given it. Often, a cold contracted in the winter is allowed to run until the opening of spring. This is a grave mistake, as even though the warm weather may bring relief, the system is thereby weakened and rendered susceptible to disease. A cold should never be neglected, whether it be a child or an adult who is afflicted, as health and often life is risked. A bottle of Chamberlain's Cough Remedy, costing but a small amount will bring speedy relief and by its use all dangerous consequences will be avoided. For sale by all dealers. Benson, Smith & Co., Ltd., Agents for Hawaii.

THE BAND WAGON IS BEGINNING TO MOVE

(Continued from page 1.)

it to be true, the situation upon analysis begins to clear a little.

In the first place, although it is perhaps not of the very first importance, Mr. Coelho has modestly eliminated himself from the field of possible gavel wielders, and outlined a program of economy and reform. That, all things considered, is creditable, very creditable indeed, as well as being discreet. Mr. Coelho's aspirations for the leadership of Maui, in fact, do not seem to extend, according to his own statement, beyond the floor.

Whether it extends to the swinging of the Maui delegation for Carlos Long, whether it even extends to the swinging of the Maui delegation at all, is a question that some other statesmen from the middle island will perhaps have something to say to when it comes to a show down. Maui wants to get into the band wagon—and the indications seem to pile up that the band wagon is not going to go so close to the Long road as some of that statesman's friends would like to have the public believe.

The members of the legislature will not be in Honolulu, that is all of them will not be in Honolulu until the arrival of the Claudine from Maui and until the Hawaii men come up on Saturday, and so if statesmen are to observe the Sunday law, as they should, it is not at all likely that there will be a caucus of the full house until Monday. Nevertheless, the developments so far make it possible to get some kind of line upon what will probably be done when the caucus does meet.

The Hawaii delegation, as was stated by Carl Smith yesterday, is absolutely unpledged, to Holstein or anybody else. It is for nobody, and against nobody for the Speakership. That is a block of seven votes that are to be won by the man who can make the best case in the minds of the delegates. The Hawaii delegation—and, it is believed, most of the other delegations, want to do what is for the best interest of the Territory, and in that view will in all probability swing for that man for Speaker who, while he will wield the gavel ably and discreetly, will present the prospect of the cleanest administration—the man, in a word, with whose name no taint of graft can possibly be associated.

And that is the public interest in the Speakership contest. The friends of Hawaii do not want to witness the spectacle that was presented to the world by the House two years ago. The good men in that body were absolutely helpless in the hands of a lot of reckless grafters who cared for nothing at all but the loot they were enabled to get away with.

The Hawaii delegation is unpledged. That is seven votes. The Maui delegation is unpledged, likewise, whatever may be asserted in behalf of Coelho or Carlos Long. The Kauai delegation, as everybody knows, is for Knudsen—a man as clean and honest as there is in the House. There are eight Oahu votes for Harris.

That is to say, there are thirteen votes out of twenty-nine not pledged to anybody—or, eliminating Coelho on Maui, there are twelve votes from Maui and Hawaii unpledged. There are eight on Oahu for Harris. There are four on Kauai for Knudsen, but not unfriendly to Harris. That leaves but five of the Republican twenty-nine in the possible Long column. From the unpledged and the pledged, it does not seem possible to figure this in any other way.

If Holstein had the seven of Hawaii solid for him he would be a factor in the situation, but he has not got them. There are in fact, probably three on Hawaii who would not be for him in any event. There is at least one on Maui who would not be for either Long or Coelho, in any event. Really, if Maui wants to get into the band wagon, it is coming close to the time to climb aboard.

A caucus of Fifth District representatives was held last night, and it was agreed by the representatives to put Fred Waterhouse in the race for the Speakership. Whether this is a serious movement, future developments will show. If it is, it complicates the situation. For the present, however, it tends to unify the delegation for other purposes—and that may be all that it is designed to accomplish. A second caucus of the delegation will be held tonight.

That is the situation as it stands at this writing. As to the minor positions in the organization, those wait upon the Speakership contest. From the way that matters look, however, it is more than likely that the whole session will be a clean one and that the legislature of 1905 will be one whose record may be looked back upon with pride by the people of the Territory. Of course the Speaker-elect, whoever he may be, will have something to say as to the balance of the organization, and the complexion and character of the committees will be entirely his work. In the naming of the committees lies the most of his power for good, and evil.

The roll of membership of the two houses has been made up, and is as follows, the members all being Republicans, save where otherwise indicated:

SENATORS.			
Names.	District	Island	P. O. Address

HONOLULU MEN ARRESTED FOR HELPING REGO

(Continued from page 1.)

months ago; during the whole of two years there was no examination of the books.

"It is a surprising fact to me that no examination of the books was made in that time. Why, the idea of \$27,000 being taken inside of three months! If I had taken the money I certainly would have skipped the country."

That, however, might not have been quite so easy to do as Mr. Rego would seem to think. Uncle Sam has very long arms indeed, when it comes to reaching after evil doers.

"Another thing about which there seems to be a wrong impression," Rego is quoted as saying further, "I have not made any of my property over to my wife. I am worth about sixty thousand dollars. I did purchase, at one time, a piece of real property on this island, with my brother, each of us taking half interest, but I have made over none of my property."

"When Postal Inspector Hare came to the conclusion that there was a shortage he told me that if I would give him my check for the amount of what seemed to be the shortage he would call it all off; that everything would be all right. He wanted me to come to Honolulu to go around among my friends to see if I could raise the money to deposit against the checks, so that, as I understood him, everything would be all right and settled up without further difficulty."

"As to that," said Postal Inspector Hare when his attention was called to this statement, "it is absurd to say that I promised Rego clemency, or that there would be no prosecution of the charges against him under any circumstances whatever. I had no power to make any such promise, nor to perform it if I had made it."

It is a fact that Inspector Hare holds Rego's checks for \$27,000, given to cover the shortage, to meet which checks Rego had but a few hundreds of dollars in bank. And he knew that he had but a few hundreds to meet it when he gave the checks. This fact was established by the testimony of Inspector Hare, given at Rego's preliminary examination.

And Mr. Hare is right in the statement that he had no power to promise Rego that there would be no prosecution in case the shortage were made good. The United States Postoffice Department does not do business in that way. It prosecutes, and sees that the shortage is also made good if possible. But it always prosecutes. That is a fact which cannot be too strongly borne in mind by gentlemen who are inclined to juggle public funds.

SCRUTINY OF BILLS.

The Civic Federation could make itself useful, as soon as the Legislature meets, by appointing a law committee to scrutinize bills in process of enactment. It goes without saying that underhanded schemes of all kinds will be tried, some of them comparable to the baiting of a few years ago by which, under innocent wording, was concealed the power to pack juries that a since discredited judge desired to use for political ends—and for that matter did use. The Governor is not a lawyer and the Attorney General's department is overrun with work, and it would be no reflection upon the good intent of either if, in some instances, the joker in a given bill was not discovered until too late. Even in States where the Governor, himself a lawyer, is empowered to hire a special staff of legal advisers to examine bills, the correlative work of a Civic Federation is often fruitful and is always appreciated. Too many trained eyes can hardly be had to scrutinize the work of the tricksters, not necessarily legislators themselves, who try to use a law-making body to hold up the taxpayers or to exploit the treasury.

It is reported that one of the schemes, already laid out, is to manipulate the license law in such a way as to tax the private dairyman out of existence in the interests of the Dairyman's Association. This is not a widely important matter in itself but it shows the possibilities of the legislative game. Several franchise propositions will be worth looking into sharply, and all the proposed amendments to the tax laws. Indeed no bill conferring special privileges or changing essential features of any law ought to be enacted without a thorough examination of its details. Too many measures do not reach the public by title at all; they are merely identified by the figures of section and paragraph. All these should be held up to the light.

Professional scrutiny of proposed laws means work, of course. But no Civic Federation ever amounted to anything which confined itself to resolutions and parade. To realize the objects of such a body, one of which is to protect the community from bad laws, the midnight oil must be burned. No doubt the Civic Federation of Honolulu understands this well enough, but it can do no harm to remind it, in no carping spirit, that it is time to get ready.

Seventy thousand children in New York go to school every morning practically without food, because their parents are too poor to provide it for them. And this condition the Salvation Army has undertaken to remedy by establishing stations where such little ones may be fed. That is practical Christianity, and the work should have the help of all good people—but although the fact is vouched for, it hardly seems possible to us in this land of plenty that such appalling destitution can exist. And when cold is added to hunger, its effect is a thousand times worse. This is a thing that the poor of Honolulu cannot realize, of course. There is poverty here. There is poverty everywhere. "The poor you have always with you." But the poor do not go hungry here, and they are not cold. And so the greatest evils of poverty are spared them.

The Rhodes scholarship letter undoubtedly came here but was lost in the pigeon holes at the capitol. It was sent to all the States and Territories; and a reminder has since come, in the form of the circular printed lately, that Hawaii is expected to do its duty. No doubt a letter to the custodians of the Rhodes fund would set the matter aright and give the island youth a free educational opening to be compared with that of West Point and Annapolis.

The Senate of the United States takes its time even about Territorial confirmations. There is no reason to suppose that the Wilder boom has run off the track. The chances are that it is on a sliding waiting for the main trains to go by.

Mr. Rego was named on the straight ticket last fall, but was so busy with his official affairs, now exploited in court, that he withdrew his name. That is why his presence in the Legislature this winter is denied to the taxpayers.

Look out that, with all the fame the Fushimi punchbowl is receiving, tourists do not, when coachmen offer to take them on the Punchbowl scenic trip, consider it an invitation to the executive mansion.

Let us hope that the President or any of his cabinet did not burn a hole in the Constitution by smoking any of Prince Fushimi's Manila cigars.

THE EAST'S SERVANT PROBLEM.

The servant problem is becoming so serious in the States that co-operative living in the country and apartment-house living in the city are making inroads upon the typical American home. Formerly the servant-class grew with each shipload of immigrants from Ireland, Germany and Scandinavian countries, and it was possible, for a small outlay, to get willing and obedient help. Since then several things have operated to reduce the supply. Immense manufacturing growth, the building of innumerable mills, have taken girls from the kitchen to the loom, it being their idea that the latter employment is the more honorable of the two. New work for women, the telephone service, type-writing, trained nursing, etc., have called for the brightest of the female working population and paid its recruits far better than domestic service possibly could. Cheap land in the West, opened by a network of railways, have taken working families where they may work best for themselves. Two other factors are reducing the visible supply of Americanized servants—the public school with its incentives to young people to rise above a menial station and a change in the character of immigrants, from the original Celtic and Teutonic strains to Latin and Slav, these latter classes being inadmissible to American households.

It is becoming, therefore, an issue between getting on with no servants or looking about for a new source of supply. Europe is not a satisfactory goal to those who choose the latter alternative, the British and German dependencies having diverted the best class of servants with the promise of cheap homes. Nobody wants the negro outside of the South, and he is not admired there. What remains are the best servants in the world, the Chinese and the next best servants, the Japanese. The former are a servile race; the latter have a lower-class population—not speaking in the criminal or disorderly sense—who, though made more or less "cocky" by national successes, are likely to retain their servile characteristics for a long time to come. Of the two Asiatic groups the Japanese are the only ones who enjoy free entrance to the United States.

It would seem to be worth the while of Japanese emigration companies to provide skilled cooks, waiters and the like to meet this wide demand. Training in American cookery could be imparted in Japan itself and the skilled servants sent to sub-agencies in all the large cities of the United States where they would be distributed among households as wanted. Every year, after the people had begun to appreciate the labor of a servant who does not set himself up at once as his master's equal, would increase the demand. There is a political side to this question also, which may well attract the notice of Japanese public men. The concentration on the coast of so many Japanese is reviving the old exclusion spirit in which there are limitless opportunities of harm. That way war might lie. But a wise distribution of these people would dispose of half a million coolies or more without menacing any American interest or attracting any particular notice. It ought to be worth trying, for it would not only afford Japan an outlet for surplus population, but would check a serious drawback to American family life.

On the whole, it does not now seem at all likely that President Roosevelt will force the matter of tariff revision at this time. "If the people of the east put wool on the free list, we of the west will put woollens on the free list," said Congressman McCleary of Minnesota at a banquet in Boston the other day. "If you put hides on the free list, we will put the finished product on the free list." And the day has gone by when the east could rule the west at Washington regardless of the will of the west. Perhaps nobody realizes that fact more acutely than the President. And, too, statesmen are coming to see that possibly General Hancock was not so far wrong as he was considered at the time when he said that the tariff was a local issue. Every tariff bill that has ever been passed has been a matter of compromises.

General Nogi has written a poem commemorative of the capture of 203-meter hill, of which the following is said to be a literal translation:

How arduous must be the climbing of Ni-Rei-San,
But man's ambition expects to surmount great difficulties.
Steel and blood covered the mountain;
Its very shape was changed;
The whole world gazes in wonder on Ni-Rei-San.

And recent advices from the seat of war in Manchuria are to the effect that it was so cold on a recent battle field that the blood froze in the wounds of stricken soldiers. There is grim material for the muse here, assuredly.

It is to be hoped that no frantic effort will be made to head off the filibustering expedition about to start from New Orleans for San Salvador. They need a civil war down there once in awhile so that they may be reminded

that they are still alive, and any American who has no better sense than to put himself up as a target to furnish a San Salvador holiday is hardly worth saving.

A member of the Illinois legislature recently said that the place was a great public auction, where special privileges were sold to the highest bidder, whereupon all the members have bought guns and the two houses meet fully armed. The purchase of the guns seems to have been in part the effect of guilty conscience, and in part a measure of self-defense.

The Fifth district ought to have a big schoolhouse and the city as a whole ought to insist on the extension of Vineyard street.

Certainly the laughter cure for dyspepsia will work. The point is to induce the dyspeptic to laugh.

HELP WANTED FOR A NOBLE WORK

One of the interesting travelers from Japan now in Honolulu is Mr. Yoshihiro Igarashi, whose home is in Gifu. It will be remembered that at the time of the great earthquake upward of ten years ago this town suffered perhaps more than any other in the empire. The earthquake was followed by a disastrous fire, these two calamities in many cases wiping out entire families and in others taking away one or both parents. The pitiable plight of those who had lost all their property and especially of the large number of homeless orphans throughout Central Japan, moved the hearts of the people and under the new sense of responsibility awakened by Christianity several notable charities were born. Among the most deeply stirred was a humble Christian by the name of Igarashi, living in Funagawa in Gifu province. This man opened his home and filled it with orphan children. Some of his neighbors were moved to aid him. The work grew, and before long was transferred to Gifu. Gradually, as the institution enlarged, new friends were made, until all over Japan the Gifu Orphanage became known, and generous givers, foreign as well as native, rallied to its support. Unfortunately the war, while multiplying dependent children, cuts off the financial ability to maintain charities, and Gifu asylum has felt severely the stress of the burden Japan is carrying. Mr. Igarashi, therefore, decided to visit America to secure aid for his noble work. Honolulu people, who may be moved to help him, may rest assured that their contributions will assist a most worthy cause—one to which many of the leading foreign merchants and missionaries in the empire are constantly giving.

HIGH SHERIFF SUSPENDS OFFICERS

The Honolulu police force will begin to have the impression that Roosevelt is in their midst and watching the movements of individual members who swing the billy. High Sheriff Henry has taken much the same stand that Mr. President Roosevelt did when he was a New York Police Commissioner, for two members are now under suspension for having violated the rules and regulations imposed by him.

Peter Kanae, son of Captain Kanae, was suspended for making the arrest of a couple of Chinamen in a manner quite unnecessary. He slapped one of the men under arrest. The High Sheriff is intent on having arrests made properly and without unnecessary force.

A CHANCE FOR A GOOD HOME.

If you want a fine lot ready for building at Kaimuki, do not buy before you have consulted the undersigned, who offers bargains at your own terms and without interest.

Two 50x100 Kewalo lots at \$300 each. A nice lot, with a new, comfortable house, at Kalaupalea, Kalaui, for \$950. One pretty home (new house) in Nuuanu Tract, provided with Government water, \$700; bargain. Also in the same tract (the coolest and healthiest place about the city) some fine, cheap lots at your own terms.

J. H. SCHNACK.

Something Worth While Reading.

The Relief and Burial Association has now the membership of 476, and had no death since its organization. Remember we refund all that each member has deposited with us during life, with interest to date, and each member will also receive as death benefits \$100 for funeral and burial expenses. Don't let this go by, come and be a member.

RELIEF AND BURIAL ASSOCIATION.

Dyspepsia

What's the use of a good cook if there's a bad stomach—a stomach too weak properly to digest what is taken into it?

The owner of such a stomach experiences distress after eating, nausea between meals, and is troubled with belching and fits of nervous headache—he's dyspeptic and miserable.

"I have been troubled with dyspepsia and have suffered almost everything. I have tried many different remedies, but could get no relief until I began taking Hood's Sarsaparilla. After the use of this medicine I could eat without distress, and today I am as well as ever, but I always keep Hood's Sarsaparilla on hand." Mrs. J. A. CROWELL, Canajoharie, N. Y.

Hood's Sarsaparilla and Pills

Cure dyspepsia, strengthen and tone all the digestive organs, and build up the whole system.

OUR CABLE STATION IN MID-PACIFIC

BY DR. MARTIN CROOK, OF COLUMBUS, GEORGIA.

On April 9 and 10 of last year the cable ships Anglia and Colonia sailed from London to Manila via Suez canal for the purpose of laying the Commercial Pacific cable. Most people are aware that this cable now stretches from San Francisco to Manila, having three intermediate stations, Honolulu, Midway and Guam. Without entering into the details of the laying of the cable, one of the greatest enterprises of the kind that the world has ever known, it is the purpose of the writer to give an account of the life of the cable colony at Midway Island before and after the arrival of the above mentioned ships, and, in addition to this, a brief description of the island itself, which possesses a unique interest for the people of the United States.

It was on the morning of April 29 of last year that fifteen operators of the Commercial Pacific Cable Company stood on the decks of the chartered steamer Hanalei, viewing a faint white line along the northern horizon. It is no wonder that these men were out of their bunks at daylight straining their eyes to catch a glimpse of that almost imperceptible stretch of sand; no wonder that they had rushed from their cabins half clad and with uncombed hair. The captain of the ship had just reported that Midway Island was in sight and as these men were to be stationed there for at least one year it was not surprising to see so much interest manifested.

The Hanalei anchored two and one-half miles to the westward of the island and the superintendent of the station went ashore at once and selected a suitable site for the temporary buildings. Lumber was then loaded and work was begun on these buildings in order to have everything ready for the arrival of the Anglia and Colonia, these ships being expected about June 15.

But before we proceed any farther let us get an idea of the location of the islands forming the Midway group. For those whose maps have not been magnified to the extent of showing every visible speck of land in the northern Pacific, it may be well to say that this group of islands is found twelve hundred miles northwest of Honolulu and in about the same latitude as Galveston, Texas. The name "Midway" was given to them because at the time of their discovery by Captain Brooks in 1859 they were supposed to be half-way around the earth from Greenwich, but it is now known that they lie about two and one-half degrees from the one hundred and eightieth meridian.

There are two islands in the group; one called Sand or Western Island, the other Eastern Island. Between the two is a mere islet known as Middlebrook. There are no natives on any of them. They are owned by the United States and fall under the jurisdiction of the navy.

As Sand Island is the home of the staff of operators through whose hands messages to and from all parts of the world pass daily, it naturally attracts most of our attention. It is here that four opera-

CABLE BUILDINGS IN COURSE OF CONSTRUCTION.

tors transmit most of the messages to our newspapers concerning the Russo-Japanese War; it is on this heap of sand, a mile and a half in length and three-quarters of a mile in width, that the Commercial Pacific Cable Company has established a transmitting station through which the United States government messages pass to Manila and other points in the Far East.

Sand Island is an almost verdureless waste of coral sand. An occasional sand dune covered with a few short, sickly-looking shrubs may be seen and at two places coarse grass and shrubs are found, but these are very limited in extent. With these exceptions the island is as barren as the Desert of Sahara; it is absolutely without vegetation.

Since Midway is in mid-ocean, it is interesting to note that while one sand heap is forty-three feet in height, the place where the temporary buildings stand is only about eight feet above the sea. But Nature has erected a coral reef around the islands, and this reef, fifteen miles in circumference, five feet high, and from twenty to twenty-five feet in width, forms a perfect protection against the waves of the mighty Pacific. Were it not for this reef Sand Island could never have been utilized as a cable station.

The glare of the sun upon the sand is fearful in its intensity, necessitating the constant use of goggles as a protection to the eyes—the glare is more intense than that of snow. Some of the men failed to use the goggles and I believe that their eyes are permanently injured.

As soon as the tent was pitched a well was sunk four and one-half feet in depth and it was astonishing to find fresh water which at first was milky-white in color, but which upon standing became as clear and as palatable as any water in the world. It is astonishing that it was not brackish, but that fresh water could be obtained anywhere on the island was an exceedingly pleasant surprise to the little body of men.

There are at least twenty-five varieties of sea-birds at Midway. Most of them are so gentle that they may be picked up and held in the hand without the least difficulty. An albatross laid her egg on one of the golf tees, and she seemed so contented there that it was thought best to move the tee to another place; but even then the birds were so gentle and so numerous that they would be struck with the balls. This occurred more than once and one bird was killed in that way.

The terns, or sea-gallows, are most numerous and their eggs, being edible, are eaten in large quantities. It is a peculiarity of the sea-birds to lay only one egg in a season. Only two varieties of those at Midway have nests; the others lay their eggs on the bare sand.

There are several birds of rare plumage, and when the Hanalei

HIGHEST POINT OF MIDWAY ISLAND.

arrived there were thirty-nine Japanese on Sand Island. These Japanese were slaughtering the pretty, innocent birds in large numbers. The feathers of the birds were shipped to Yokohama on a schooner then anchored about half a mile from shore.

Fish of many varieties are found near the reef and are so easily caught that there is no sport in fishing. Turtles are occasionally caught but are rather small. Sharks are numerous, but fortunately do not come near the beach; consequently they do not interfere with swimming, a favorite pastime of the people at Midway.

On June 3 Lieutenant Commander Rodman, U. S. N., who had been appointed governor of Midway, arrived on the U. S. S. Iroquois. It was at this time that the first mail bag was received, the islanders having been without mail for a month and a half.

When Captain Rodman came ashore the superintendent of the station reported that the Japanese were slaughtering the birds in large numbers and the bodies of these birds, left upon the sand to decay, were producing an almost intolerable stench; were causing the house flies to multiply rapidly; and lastly, but most important, the decaying bodies would sooner or later contaminate the water supply. Captain Rodman firmly but politely informed the Japanese that they must leave the island, which they did shortly afterward.

On June 16 the Anglia was sighted, and on the eighteenth the Colonia. The former laid the cable from Manila to Guam, the latter the Guam-Midway section, and now the Anglia was ready to lay the section between Midway and Honolulu. The part of the cable between Honolulu and San Francisco was completed in December, 1902. The Anglia reached Honolulu on July 3 of last year, thus completing the long stretch across the Pacific, which required more than 8,000 miles of cable. On July 4 President Roosevelt formally opened the cable by sending the first message, which was to Governor Taft at Manila.

After this the operators settled down to business and the news of the world was known at Midway before it was printed in the newspapers. This fact alone was a great help to these men when, at a later date, the Winter storms set in and they suffered both in mind and body, because it was impossible to land mail and provisions. Everything was done by the officials at New York to make it as pleasant and as comfortable as possible for those at Midway, but the little colony seemed to have a series of misfortunes during their first year's stay.

During October last it became necessary to order a new supply of provisions, and the schooner Julia E. Whalen was sent from Honolulu with six months supply and the mail which had been in the postoffice at Honolulu for a month. The Whalen on the night of her arrival (October 22) struck the north reef and was wrecked. Her cargo was all lost, including two large bags of mail. No lives were lost, but how it was possible for the crew to lower a boat and get safely out of those immense breakers (a three-days gale had been blowing) is a mystery which I hardly think the captain can unravel.

As soon as possible the Iroquois came to bring provisions for the islanders and to take the Whalen's crew to Honolulu. When she arrived the supply was quite low. She remained only twenty-four hours.

When the Winter gales set in the sand began to drift. At times it would be blown through the air at the rate of thirty miles an hour. It was so disagreeable to have the sand blown in their eyes, ears and noses and often cutting their faces, that most of the men preferred remaining in their rooms day and night. And even in these rooms with all windows and doors shut they were not rid of the sand, for it would drift through every crack and crevice.

During the Winter months the atmosphere is usually quite humid, and when the rooms became damp they remained so. And if anyone wants to see a gloomy, lonely, desolate picture, let him stand in one of those damp rooms with the temperature at fifty-two degrees (that was the minimum for last year) and look out over this desert island during a gale, while the sand is being driven in perfect clouds across the view and in the distance the waves with an awful roar are breaking in masses of spray up on the reef.

The men sent to Midway were selected because of their social and equable dispositions, because they would make the best of their environment. Through all this they were happy and contented; they had expected these things from the start. But at a later date the conditions became more serious. It was on the third day of last January, after a quiet and uneventful Christmas and New Year's day on the island, that the cruisers New Orleans (flagship),

(Continued on Page 6.)

The making of a will is a serious matter, and the person who has the interest of his beneficiaries in mind, and desires his wishes carried out can have this safely done by appointing this company as executor.

Dandruff is a contagious disease caused by a microbe.

NEWBRO'S HERPICIDE

THE ORIGINAL remedy that "kills the Dandruff Germ."
Newbro's Herpicide can come too late. If the dandruff microbe has destroyed the hair follicles and left the scalp bald and shining all remedies are worthless. But, like the dandruff, if Herpicide comes while life still remains in the follicles, the hair is freed from disease and begins its natural growth again. Don't neglect dandruff or falling hair. Wonderful results follow the use of Herpicide. It is an exquisite hair dressing. Stops itching of the scalp instantly.

GOING! GOING!! GONE!!!

PERRY AND DAVIS MET IN
POLICE COURT YESTERDAY

There was fun in the District Magistrate's court yesterday afternoon when former Supreme Court Justice A. Perry and Attorney George A. Davis faced each other in a case involving a fee of \$12.50. When Davis and Perry met it is something like Greek meeting Greek. To Davis, the presence of Attorney Perry is combative per se. The case in question was about as follows:

One Vasconcelles about a year ago went to Attorney Cunha and asked what he would take for a house on property of the Dowsett Estate outside the city. Mr. Cunha, according to the testimony, said \$200. He said he would take \$100 cash down and wait for the remainder for a few weeks, until a clear title from the government could be obtained. Vasconcelles had only \$20 in his pocket and paid that, and the next day came back with \$80 more. The three weeks passed and no title. Months passed and merged into a year. Vasconcelles said he went to Mr. Cunha time and again and finally Mr. Cunha proposed to give him 8 per cent for the loan of the money. Vasconcelles took Attorney Correa into his confidence and they visited Mr. Cunha, where Mr. Davis also had his office. There was a somewhat stormy scene in which Davis is said to have risen to the heights of eloquence and noise. In fact Vasconcelles stated on the stand in answer to Davis's question as to whether he could understand his English:

"Well, I can understand a little, but you talk too loud."

Amid the general titter which followed, Davis shouted back in his oratorical manner:

"Yes, I do talk loud sometimes, but by talking loud they heard me in Washington."

Every time Mr. Perry arose to make an objection, Mr. Davis arose also and asked the court to make the "Hon. A. Perry sit down." When Mr. Perry said the Portuguese interpreter had not interpreted one important word correctly, Davis shouted: "The Hon. A. Perry has no right to set himself above the interpreter, whom he himself selected to be the interpreter in this case. Anyhow, who is before this court, counsel or the defendant?"

When the noise of conflict subsided, it was brought out that when no satisfaction could be obtained from Davis or Cunha, Vasconcelles had gone out and retained Mr. Perry as his legal representative. It is said that at this time Davis deposited the \$100 in a bank and notified Vasconcelles that it was there to the credit of "A. Perry." When Judge Perry wrote out a check to get the money the bank notified him that attorney Davis had garnished the amount. Davis, for Mr. Cunha, wanted a fee of \$12.50 out of the amount.

Davis was particularly caustic in his reference to Judge Perry when he said: "What is the Hon. A. Perry, late of the Supreme Bench, doing in a little \$12.50 case?"

Judge Whitney decided the case in favor of Vasconcelles and against Davis. An appeal was noted.

OUR CABLE STATION.

(Continued from page 5.)

Cincinnati, Raleigh and Albany, commanded by Admiral Cooper, called to bring mail and a few provisions. Very few provisions were landed, because at that time the cable ship Scotia, owned by the Commercial Pacific Cable Company, was on her way from London to Manila, Guam, Midway and Honolulu with six months' supplies for Midway. Knowing that the U. S. Army transport Sheridan, sailing from San Francisco February 1, would call at Honolulu and Guam, the superintendent at Midway (who is also postmaster) cabled the postmaster at Honolulu to ship the mail to Guam and there the Scotia would get it and take it to Midway. This was done as requested, but just as the Scotia was entering the harbor at Guam (and before the mail had been put aboard) she struck Spanish Rock, and, with the exception of six hundred miles of cable in her tanks, was a total loss. This occurred March 10. The provisions at Midway were very scarce and the men were disappointed and discontented. Only a few cans of beef and some rice were left, and often the sea was too rough for fishing. There were no vegetables. Everybody had grown tired of canned beef, and two-thirds of the colony ate only dry rice and that three times a day. Fortunately, there was an abundant supply of lime juice, which possibly prevented an epidemic of scurvy.

Arrangements were at once made to send the transport Buford. She was sighted at Midway March 28. The sea was very rough and the waves were breaking on the bar across the harbor entrance. The Buford anchored just outside this bar and about four miles from shore. With breathless anxiety the islanders watched to see if the captain was going to send a boat ashore, and there was a cry of joy from the little group when it was noticed that two boats were being lowered. The strong and courageous sailors were willing to try to get provisions and mail ashore. In a short time the boats were loaded and the long row through a rough sea and against a head wind was begun, and the anxious little crowd on the island watched those sailors "buffet with lusty sinews" the waves that threatened to engulf them. At one time a boat would be seen on the summit of a wave and at another time it would disappear, apparently swallowed up by the mighty deep. Those ashore wanted to signal the sailors to turn back, but knew that they would not see the signals. Finally the boats began to drift toward the leeward reef and after a determined attempt of four hours to pull to the windward the sailors were ordered to return to the ship. It was a bitter disappointment to see this failure, and yet the islanders were glad that the boats were headed for the ship, because it was dangerous to attempt to cross the bar.

When the boats returned to the ship the captain signalled: "How much supplies have you?" to which Midway answered: "One week's." The captain then signalled, "I will put to sea—good-bye," and the Buford sailed to Manila with the supplies and six weeks' mail. The captain was asked to wait a day or two till the sea calmed down and then the supplies could be landed, but he refused. It seems that there was some kind of an understanding that the Iroquois would make an attempt if the Buford failed, so she came down on April 9 and successfully landed provisions and mail, the first to be received at Midway in more than three months! It is needless to say that there was a feast on the island that day.

Much more could be told about the little colony, but this will suffice. I may add that the officials of the Cable Company are taking great pains to better the conditions at Midway, and I am sure that they will succeed. This Christmas found the men living in permanent buildings, both expensive and comfortable. In addition to this many other improvements are being made. Let us hope that all will go well with the cable men this Winter and may they have a merry Christmas and a happy New Year. They certainly deserve the best.

TO DREAM ON VERDICT

Jury in Damage Suit Sent to Hotel.

More Evidence About E. M. Jones in His School Days.

Testa Wants to Choose His Own Judge—Japanese Divorce Case.

At 8 o'clock last night the jury in W. O. Barnhart's \$5,000 damage suit against the Honolulu Rapid Transit & Land Co. were sent to a hotel to dream off their disagreement at that hour existing. They had received the charge of the court about three and a quarter hours previously.

When counsel shortly before 6 o'clock agreed to allow the jury to go out for dinner, a message came back that there was absolutely no hope of their agreeing on a verdict.

Judge De Bolt asked counsel if they were willing that the jury should be discharged.

Mr. Humphreys decidedly objected, saying Mr. Barnhart was a poor man and could not well afford another trial. The time was altogether too short in which a discharge should be granted to the jury. In the case of H. R. Hitchcock vs. Hawaiian Tramways Co., he, as presiding judge, held the jury to consideration of their verdict for 27 hours, and the Supreme Court sustained the verdict obtained at the end of that time. The case was reported in 14th Hawaiian 137.

The court then adjourned until 7:30 p. m., the jury being notified to return to the jury room at that hour.

Shortly before 8 o'clock Judge De Bolt informed counsel that the jury had reported to him their continued disagreement. Mr. Humphreys again refused to consent to a mistrial, once more referring to the Hitchcock vs. Tramways case.

Judge De Bolt then directed Bailiff Hopkins to find hotel accommodations over night for the jury and continued the case until 10 o'clock this morning.

Mr. Humphreys for the plaintiff and Mr. Withington for the defendant stipulated before the court that, in case of the absence of counsel when a verdict was returned, an exception with notice of motion for a new trial might be entered as by the losing party.

After Mr. Withington had concluded his address to the jury for the defendant early in the afternoon, Mr. Humphreys raised a point about the court's instructions. While the jury were excused the point was argued out, with the result that one of the instructions was modified. The effect was that the jury were left to decide whether or not there was evidence showing that the Rapid Transit Co. was responsible for the prosecution of Barnhart for assault and battery. Mr. Withington made supplementary remarks based on the modification.

Mr. Humphreys made his closing address for the plaintiff, occupying more than an hour, the court delivered its charge and, at 4:42 p. m., the jury retired to consider their verdict.

THE JONES TRIAL.

Three witnesses were on the stand in

Rheumatism

If your muscles are sore, bones ache, joints feel stiff, and if pains dart through your body, it is probably rheumatism. Purify your blood, get out all the rheumatism poison—no need of your suffering in this way.

We have the following letter from Mr. R. J. Rowland, of Manumotu, Australia. Mr. Rowland also sends his photograph.

"I suffered greatly with rheumatism, which laid me up for a long time. I tried a great many medicines, but they were of little or no use. A friend who had taken Ayer's Sarsaparilla induced me to try it. I thought it would be just like all the other medicines. But there was a great and pleasant surprise in store for me, for after taking one bottle I was better. The swelling began to go down, the pains began to leave me, and I felt better in every way. After taking only five bottles I was completely cured. While I was taking the Sarsaparilla I also took Ayer's Pills to keep my bowels in good condition."

AYER'S Sarsaparilla

There are many imitations Sarsaparillas. Be sure you get Ayer's.

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass., U. S. A.

HOLLISTER DRUG CO., Agents.

the Jones murder trial yesterday. George Nawaakoa's examination, begun on Thursday, was concluded. E. B. Mikalenii, another of defendant's former schoolmates, followed. Then Charles W. Cross, who worked with Jones on a wreck in Honolulu harbor, was called and his examination in chief stated.

The tenor of testimony by all these witnesses is that Jones was of defective mental capacity and balance.

TESTA LIBEL CASE.

F. J. Testa has filed a lengthy motion asking Judge De Bolt to transfer his libel case to Judge Robinson. He alleges that Judge De Bolt prejudged his case on the occasion of the mistrial; also that Judge De Bolt is prejudiced against him on account of criticisms and jokes about his honor, which have appeared in defendant's paper. The Attorney General is also charged by Mr. Testa with holding personal feeling against him, manifested by not speaking as they pass, and with having expressed a hope, when the jury were out at the mistrial, that if Testa was convicted the court would sentence him to imprisonment.

COURT NOTES.

H. G. Middlelitch, trustee, vs. H. T. Mills is the next case set before Judge De Bolt.

Chito Kawakami sues her husband, Kawakami Keyi, for divorce on the ground of failure to support. The couple were married in Japan.

Judge Dole yesterday overruled the motion to quash summons in the Wing Tick Co. bankruptcy case.

Prepared for Croup.—The time wasted in sending for a physician when a child shows symptoms of the croup, often leads to fatal results. A reliable medicine and one that should always be kept in the home ready for immediate use is Chamberlain's Cough Remedy. It never fails and will prevent the attack if given as soon as the child becomes hoarse, or even after the croupy cough appears. For sale by all Dealers. Benson, Smith & Co., Ltd., Agents for Hawaii.

DELEGATE MUST SAY WHO IS WINNER

"I did not say that young Ohrt led in the examination for the West Point cadetship," said Superintendent of Public Instruction Atkinson yesterday. "As a matter of fact, I had no means of knowing, at that time, who was in the lead. I know now, yes; but it is not my business to give it out. The names of the candidates, and their standing has been sent to the Delegate in Congress, whose business it is to give it out, or not, as he likes, and to make the appointments. I have done all that was required of me in the matter."

THE COMING NATIVE FESTIVAL

It is unusual, in fact noteworthy, that an opportunity should be afforded for a stranger in Honolulu to witness, and, in fact, be a part of an Hawaiian festival occasion. It is in the nature of a feast day that makes the occasion for the luau this evening, to which the Hawaii Promotion Committee has been granted the privilege of extending invitations to one hundred strangers. Arrangements indicate that the feast will be purely Hawaiian, no attempt being made to cater to appetites which are not accustomed to mid-sea food, so that the guest who would appreciate fully the luau must be prepared to eat of dainties hitherto unknown, prepared in the traditional Hawaiian style.

There will be lacking nothing in the arrangements. The ferns and flowers and greenery which always surround such an occasion all will be there, and the setting will be in perfect accord. The house is one of the old-time mansions, whose wide lanais and galleries afford an excellent opportunity for the display of splendidly set tables, covered with the poi bowls and historic dishes.

The tickets have been limited to one hundred, and there are still a few to be had at the various hotel offices or at the Hawaii Promotion Committee, or Trent & Co., Fort street.

HOE DOWN AT HALEIWA HOTEL

There will be a country dance, a hoe-down, at Haleiwa Hotel this evening. Manager Bidgood expects sixty or seventy people there. There will be a good musical program, a special dinner and a cold supper to be served during and after the dancing. Country and city folks will mingle in an old-fashioned time.

Lace Design Competition.

The Carter and Allen prizes offered under the auspices of the Kihohana Art League for typically Hawaiian designs for lace making are as follows:

Insertion 3/4-inch and upward.....\$5.00
Edging 3/4-inch and upward.....5.00
Motif, for trimming.....5.00
Dollies, round or square, 6-inch.....10.00
Wide border, with corner piece.....15.00
3 and 6 inches.....15.00
Collar, large or small.....15.00

Competition confined to residents of the Hawaiian Islands. The best design from each class to be chosen, judged solely upon artistic and practical merits, and to be surrendered upon receipt of prize money. Each competitor eligible for not more than three prizes. Jury of decision—Mrs. Cora R. Brunson, Mrs. Henry Wilcox, Mrs. C. du Roi, Mrs. S. C. Allen, Mrs. George B. Carter, Mr. E. A. P. Newcomb. It is desired that competitors leave their names and addresses with the Secretary of the Art League, and the finished designs are to be submitted not later than March 17, 1905.

READ ALL OF THIS

You Never Know the Moment When This Information May Prove of Infinite Value.

(From the Sydney, N. S. W., Herald.)

It is worth considerable to any citizen of Honolulu to know the value and use of a medicine, for if there is no occasion to employ it, in the meantime, frail humanity is subjected to so many influences and unforeseen contingencies that the wisest are totally unable to gauge the future. Know then that Doan's Ointment will cure any case of hemorrhoids, commonly known as piles, or any disease of the cuticle or skin, generally termed eczema. One application convinces—a continuation cures. Read this proof:

Mr. William Gilliver, of the well-known firm of Gilliver & Curtis, railway and general contractors, and whose private address is "Avoca," Bankstown, a suburb of Sydney, N. S. W., has written the following unsolicited letter, which we herewith publish in full:

Messrs. Foster, McClellan Co., 76 Pitt St., Sydney, N. S. W., February 14, 1899.

Dear Sirs:—In justice to you and suffering humanity I write to say that I suffered from itching piles for 22 years. I tried many doctors and pretty well all kinds of patent medicines, but got relief for a short time only. Seeing your Ointment advertised, I bought a pot and did not use more than one-half of it, not six months ago, and I am perfectly cured. You may use this as you wish.

Yours gratefully,
WILLIAM GILLIVER.

Doan's ointment is sold by all dealers at 50 cents per box or will be mailed on receipt of price by the Hollister Drug Co., Honolulu, agents for the Hawaiian Islands.

RHODES SCHOLARSHIP A DEEP MYSTERY

"I do not believe that there ever was a letter or a communication of any kind came to anyone in authority in Honolulu in reference to the Rhodes scholarships in Oxford," said Superintendent Atkinson yesterday. "I know that my department never received any. I remember that the statement was published that such a communication had been received, and I made inquiry concerning it at the time. The Governor's secretary, Mr. Hawes, it was then, told me that he had received such a communication, and said that it had been sent to my office. It never was sent, and he was unable to deliver the goods. My impression, at the time, was that he had become interested in the Rhodes scholarships, as I was, and that he received a communication relative to a West Point or Annapolis cadetship, and somehow got the impression in his mind that it referred to the Rhodes matter."

In the meantime, the fact remains that the statement was published, and not denied at the time, that Hawaii had been officially notified that it was entitled to two Rhodes scholarships. It was a most explicit publication, the names of Secretary Hay and of the manager of the Rhodes trust being mentioned, which would hardly have been the case if there had not been some official ground for the publication.

And the fact also remains that no official action was taken at this end, and that if Hawaii was entitled to the two scholarships, they have been lost for the present. Whether they can be recovered might perhaps be a more fruitful matter for official inquiry, than a perfectly vain search at this late date for a hypothetical official letter.

An Enjoyable Outing.

The most attractive day's outing is that afforded by the excursion down the railroad line. The HALEIWA LIMITED, a first-class train, leaves Honolulu every Sunday morning at 8:22 o'clock making the run in two hours, the rate for round trip being only \$2.00. From 10:22 a. m. until 8:10 p. m. is spent at the beautiful HOTEL HALEIWA, with fresh and salt water bathing, tennis, golf drives and walks, shooting or fishing and you are back in town at 10:10 o'clock in the evening.

HEINZ

Baked Beans —AND— Tomato Soup

These solve the problem for a quick and delicious meal.

When the cook is away it is not the least trouble to prepare a dainty repast in five minutes with Heinz' Baked Beans and Tomato Soup. The housewife should always keep a supply on hand.

You are probably using Heinz sweet pickles and others of the 57 varieties right along.

They can all be procured at any time from

MARX CONCERT WILL BE GIVEN TONIGHT

Tonight at the Hawaiian Opera House, Miss Drusilla Marx will give her concert in aid of the Young Women's Christian Association. The concert will begin at 8:15 and the doors will be open at 7:45.

The concert will be one of the musical treats of the season and there is promise of a large and fashionable audience to greet the young singer who has recently been singing in grand opera in Italy. Miss Marx will be assisted by Miss Ramus, the violinist; Miss Elise Werthmueller, the pianist; with Mrs. L. Tenney Peck, as accompanist, each having an artistic ability well-known in musical circles. The program will be as follows:

- (a) To a Wild Rose, (b) Scotch Poem
..... Edward McDowell
Miss Elise Werthmueller.
Romanza "Mignon".....Ambrose Thomas
Aprile Tosti
Miss Drusilla Marx.
Concerto-Adagio - Finale.....Bruch
Miss Ramus.
Cavatina "Les Huguenots".....Meyerbeer
Miss Drusilla Marx.
On Wings of Song.....Mendelssohn-Liszt
Minuetto a l'antico.....Seeböck
Prelude C sharp minor.....Rachmaninoff
Miss Elise Werthmueller.
O del mio dolce ardor.....Gluck 1714-1787
Se Tu m'ami.....Pergolesi
Lieder Schuman
Miss Drusilla Marx.
Mrs. Tenney-Peck-Accompanist.

BUSINESS LOCALS.

Dr. C. B. Cooper is one of the latest disciples of the automobile.

Jean Sabate is again about town. He says he walked himself into ze gran fatigue yesterday seeing the sights.

A. R. Gurney Jr. has left the Pacific Hardware Co., employ to become a surveyor for the Board of Fire Underwriters.

Hawaiian lodge meets tonight for work in the first degree. Visiting brethren of the order are fraternally invited to attend.

A suggestion has been made that Rep. Kaline, who is a clergyman, offer the opening prayers in the House and thus save the expense of a salaried chaplain.

This is the afternoon of the Kiloana Art League at home and lace exhibition. Another day an opportunity will be afforded for scholars and others to see the lace work.

G. H. Greene and S. A. Greene and family take this opportunity to thank their many friends for their floral contributions and kind sympathy tendered them in their late bereavement.

A bill will be introduced early in both houses of the Legislature to confirm the compilation of Hawaiian laws prepared by the commission for which provision was made last session.

Major W. B. Davis, Medical Department U. S. A., who has been in charge of the army hospital branch of Honolulu for the past year and a half, leaves today in the transport Sherman for Manila.

E. D. Tenney, C. M. Cooke, Paul Isenberg, George M. Rolph, F. J. Lowrey, E. F. Bishop, C. H. Atherton and Alex. M. McBryde made a trip in automobiles to visit the Wailua dam construction.

The Honolulu Iron Works have just completed the new twelve-roller mill for Makaweli plantation, the entire work having been done in that establishment. It is one of the largest sugar mills ever constructed.

Association football between Maile Ilima and Punahou today at 3:45 sharp. The game will be played at the baseball grounds and will be an interesting one, as both teams have had hard practice the past week.

Melville Nicoll, the son of Mrs. Coon, on Emma street, was operated on yesterday afternoon by Drs. Wood, Taylor and Day and was taken to the Queen's Hospital later. Young Nicoll has been very sick the past two weeks and is now very much better.

The Hackmen's Union has elected the following officers: L. E. Twomey, president; J. D. Rooney, vice president; F. H. Lillis, treasurer; M. P. Cropley, secretary; F. B. Blackburn, sergeant-at-arms; John McGuire, L. E. Twomey and Manuel Correa, delegates to the Labor Council.

Special preparations are being made for the big temperance rally in the M. E. Church next Sunday evening at 7:30. With R. H. Trent, Esq., presiding, Senator Dickey speaking on his proposed local option bill, Attorney Withington giving some of his experiences in San Diego along the line of civic reform and addresses by one or two other prominent citizens on other sides of the temperance question, the interest ought to be such as to attract all classes. There will be special music. Come one, come all.

The Hind Plantation Company, Ltd., filed its articles of incorporation with the Treasurer yesterday. The incorporators were John Hind, president; Robert Hind, vice president; James Matthew Hind, secretary; George U. Hind, treasurer, and Alice H. Hind, Eleanor Margaret Scherstein and Augustine Douglas McBryde. The principal place of business is at Kohala, on the island of Hawaii, and the object of the incorporation is to engage in the business of sugar planting. All the powers necessary to carry on this business are asked for. The capital stock of the company is to be \$100,000, divided into 600 shares, with power to increase to one million of dollars. With the request for a charter is filed a deed to all the Hind lands at and near Kohala.

island steamers of 500 tons; Lorie

Poulous, first assistant engineer of

inter-island steamers of 1,000 tons; Harry

F. Moene, first assistant ocean, unlimited;

William Lyett, first assistant

ocean steamers of 2,500 tons.

MILLION DOLLAR

CARGO OF SUGAR

The American-Hawaiian freighter

Arizona is taking in sugar at the rail-

road wharf and will leave for Del-

aware Breakwater, via Kahului and Hilo,

tomorrow afternoon.

The Arizona will take a cargo of

11,400 tons of island sugar, divided as

follows: 8,630 tons from Honolulu; 1,500

tons from Kahului, and 1,264 from Hilo.

The cargo at present figures is

worth about a million dollars. The

vessel will probably get away from

Hilo on her long voyage around the

Horn about February 16.

A wireless message was received yesterday

morning from Kahului by Hack-

feld & Co., agents for the American-

Hawaiian line, to the effect that the

Nebraska had almost finished loading

and would leave for San Francisco

this afternoon.

The Nebraska sailed yesterday from

Seattle for San Francisco, and will sail

from the latter port for Honolulu direct

on February 16.

The California will sail from New

York for Honolulu, via San Francisco,

on February 25.

OIL GREAT SUCCESS

ON ARIZONAN.

The American-Hawaiian steamship

Arizona, now at the railway wharf,

has proven to be a great success as an

oil-burner. The vessel was changed

from a coal to an oil-burner about five

months ago at New York. The best

time the Arizona made under coal

from New York to San Francisco was

62 days. Her maiden trip under oil-

burning was in 54 days, and even this

time will be improved upon.

That trip made a saving of eight

days in time and ten men less were

carried in the engine-room. At the

same time the vessel's cargo capacity

is increased to 400 tons more freight.

The great space formerly taken up with

coal can now be utilized, or at least

the greater portion of it, for the storage

of freight.

The American-Hawaiian line has nine

steamers, four of which have been converted

from coal to oil-burners. These are the

Nebraska, Nebraska, Arizona and

Alaskan. The remaining five boats

will probably be changed over to oil.

Siberia Here Monday.

The Pacific Mail liner Siberia is expected

here on Monday morning from

Yokohama en route to San Francisco.

The vessel has 600 tons of freight for

Honolulu, and will have room for about

100 passengers.

The Pacific Mail steamship Korea is due

here February 20 from San Francisco.

The vessel should arrive early in the

forenoon.

SHIPPING NOTES.

The report of Purser Bane of the

Iwawani, which arrived yesterday, is as

follows: Fair weather on outward trip.

S. S. Nihon loading sugar at Waianae.

Has 2,400 bags aboard and will get

balance of cargo at Makaweli. She

will arrive at Honolulu Saturday morning.

Kauai arrived Anahola 7:30

morning of 9th, and is loading sugar.

Has 3,300 bags on board and will leave

for Honolulu tomorrow (Friday)."

The big American ship Dirigo may

leave port next week for Delaware

Breakwater. She will carry one of the

largest sugar cargoes ever packed into

one vessel.

The Canadian-Australian steamship

MIOWERA is due today from Victoria

and Vancouver. She will probably sail

in the afternoon for Suva, Brisbane

and Sydney.

Instead of returning to the coast per

the Siberia, the two Federal inspectors

of hulls and boilers may not conclude

their work until just prior to the de-

parture of the Alameda. They will in-

spect the schooner Rosamond now at

Eleele, Kauai, which will receive a new

certificate.

The provost guard from the trans-

port Sherman was about town yester-

day. All except first-class men were

required to be aboard by 11 o'clock last

night. Men on special leave are re-

quired to be aboard by 10 this morn-

ing. The transport will sail for Ma-

nila at 11 this forenoon.
