## All Ready Play Ball

Two Great Games Today and  
To-morrow.

Everything is in readiness for the great baseball games today and to-morrow, August 14th and 15th, at Kahului and Wells' Park respectively. Both grounds have received a good deal of attention and are now in better condition than they ever were. The grand stands have also received some attention and everything possible has been done for the comfort of the spectators.

From reports received from the Big Island it is evident that the All Hilo team has been hard at practice and expect to return home victorious. Their lineup is a strong one and they have reason to believe their team to be invincible.

By last Wednesday's Claudine the following lineup was received: All Hilo—Harry Brown, c, D. Kealoha, p, Wm. Vannatta, 2b, Jos. Teves, 3b, C. B. Lyman, ss, Chas. Makamui, 1b, Geo. Todd, cf, Wm. Desha, rf, Geo. Desha, lf, Wm. Ahip, Jos. Canario and Alee Desha, subs.

The names of some professional players are seen in the above list and these with the aid of the other players in the team should be able to put up an excellent game.

Nevertheless the All Maui boys have much confidence in themselves. With their second base strengthened as also the outfield they feel that they could defeat the All Hawaii team should they meet again.

Upton and Myers will form the battery for the two games and much is expected from them. Upton has been down to work and reports his arm better than ever. With Myers handling him behind the bat there will be a lot of surprised residents of the Rainy City returning home next Tuesday.

Captain Geo. Cummings has had his men out every day and is much pleased with their showing. Garcia at second is playing in his old form and the fans who have watched him at practice are delighted.

A large crowd is assured for both games. Tickets have been placed on sale at various places by manager Mountcastle and are selling like hot cakes. The purchasing of tickets before the games will avoid the crush at the ticket office and will save much time. The games will be started punctually on the advertised hour in order to enable the spectators to reach their homes early.

There will be special trains run from all points for today's game at Kahului Park. The price of admission will be 25 cents and 25 cents extra for seat in the grand stand. Children, admission 15 cents, grand stand 10 cents extra.

Tomorrow's game at Wells' Park will be attended by the largest crowd ever assembled in Wailuku. Tickets are rapidly selling and the public is advised to go early and secure their seats. The game will begin at 3:30 p. m. The same prices charged at Kahului will prevail.

The promoters of these games are not in for the money there is in it but want to give the public the opportunity to see the local team in action against outside teams and certainly deserve the assistance of every one who loves our national game and wishes to see good, clean baseball.

All the baseball enthusiasts should turn out and witness these games, not only to encourage the home team but to show the visitors that Maui fans appreciate good sport.

## Popular Couple Wed

H. E. Savage and Miss Sutton  
United.

On Wednesday afternoon a very pretty wedding took place at the Kennells, Mrs. Dora von Tempisky's Makawao residence, when Mr. Henry E. Savage was married to Miss W. M. Sutton.

The bride was given away by Mr. Alexander McKibbin and was attended by Miss Alexa von Tempisky as bridesmaid with two sweet little flower girls, the Misses Aiken and White. The groom was supported by Mr. Steele of Hamakua.

The beautiful Episcopal ceremony was used and performed by the Rev. Canon Ault. After the service the whole party sat down to a very elaborate wedding breakfast. At 3:30 o'clock the wedding party left, amid showers of rice, for Kahului where they took the Claudine for Honolulu on their way to the Coast, where their honeymoon is to be spent, and if the abundance of old shoes and brooms bespeak happiness then their life will be indeed a happy one.

Both bride and groom are well known on Maui and are very popular. The bride has been nursing at Paia and Spreckelsville for the past year and a half. She was one of the nurses who attended the Hon. H. P. Baldwin during his late severe illness.

The groom is chief chemist at Puunene Mill and is very popular in social and tennis circles.

Among those present were the Hon. and Mrs. H. P. Baldwin, Mrs. Dowsett, Mr. A. McKibbin, Mr. and Mrs. F. F. Baldwin, Mrs. L. von Tempisky, Miss Armin von Tempisky, Miss Alexa von Tempisky, Miss Helen Spaulding, Mr. Henry Pogue, Mr. and Mrs. J. B. Thomson, Mr. and Mrs. White, Mr. and Mrs. W. O. Aiken, Miss Woods, Miss Anderson, Miss Heusner, Miss Loy, Mr. Steele, Mr. R. von Tempisky.

## Crystal Wedding

Celebrated by Principal and  
Mrs. C. E. Copeland.

Fifteen years ago last Sunday, August 8th, Mr. and Mrs. Copeland were married at Delaware, Ohio. They celebrated this event by inviting some twenty of their Wailuku friends to their home on Monday evening.

The guests brought numerous and sundry packages with them, which upon being opened were found to be nothing but jokes. After every such crystal present had been disposed of, the real gift from friends arrived, and proved to be two dozen cut glass desert dishes.

The house was beautifully decorated for the occasion with ferns, white roses, and other cut flowers. After Pedro and dominoes had been enjoyed, Mrs. Copeland served delicious refreshments. Before leaving the hospitable home, the friends wished Mr. and Mrs. Copeland many future years of happiness.

Those present were: Miss Lida Crickard, Judge and Mrs. Selden B. Kingsbury, Manager and Mrs. H. B. Penhallow, Mr. and Mrs. D. H. Case, Mr. and Mrs. R. A. Wadsworth, Rev. and Mrs. R. B. Dodge, Mr. and Mrs. C. D. Luffkin, Mr. and Mrs. A. M. Nowell, Mrs. Margaret Baggs.

## Racing Enthusiasts

To Meet on Next Tuesday  
Evening.

Those interested in racing will meet at the Maui Hotel next Tuesday evening the 17th, and will change certain of the by laws and will begin the work that will result in bringing all of the horses of note to Maui next fourth of July and give Maui first place in racing circles where her honesty and square dealing in the past entitles her to be Maui is not too far from either Oahu or Hawaii to attract horsemen while a trip during the holidays for residents to Maui of those islands should be as thoroughly enjoyed as is a visit of residents of Maui to either of our sister islands.

Maui is to be the racing center of the territory and next Fourth of July will see the best races here that we have ever enjoyed.

## Hamakua Ditch Work

Rushing Irrigation Scheme  
Through in Fast Time.

With eight hundred men at work the dirt on the new Hamakua ditch is being made to fly in even better shape than was anticipated by the promoters of the big task. Over 10,200 feet of tunnels has been completed in the mountain section alone and in addition to this 1700 feet of tunneling in the open country has been placed out of the way.

In the Kukuhihale section the open ditch work has been practically completed and the concrete work is being commenced. The new feature in this line is that all the concrete will be reinforced with wire mesh, something which has never been done with the concrete ditch linings in this Territory before.

The work on the Paauhau section of the job was only started about six weeks ago but has been pushed ahead so fast that 3100 feet of the open ditch has been dug while 900 feet of the tunneling has been finished. In the Honokaa section but six miles of the open ditch remains to be dug.

W. G. Irwin, who owns a large interest in the Paauhau plantation is now making an inspection trip over the work and is said to be very enthusiastic over what is being done. The added water which the work will bring to Paauhau will mean a great deal to the future of the plantation.

## Making Improvements at McGregors Lighthouse.

Lighthouse Engineer A. Richley arrived in Wailuku Monday evening with a corps of assistants and has been at work since at the lighthouse at McGregors. Mr. Richley was met at McGregors Wednesday by Lieutenant Houston who came to McGregors on the U. S. L. H. tender Kukui.

The lighthouse will probably be removed to higher ground and out of the dust from the road that so much interferes with the light now being seen at a distance. Mr. Richley is having water tanks erected for the light keeper.

## Supervisors Meeting

Many Matters of Importance  
Before the Board.

The County fathers met in their rooms Wednesday afternoon. All of the members were present while County Clerk recorded their acts as provided by law.

After the board was called to order by Chairman Pogue, County Clerk Kaee read the minutes of the previous meeting. The minutes were approved as read.

D. Quill wrote the board to the effect that he had purchased four large mules of the Schuman Carriage Company to Honolulu for \$1,000 for the County.

Sheriff Saffery wrote the board acknowledging the receipt of a communication regarding school police.

The secretary of the Board of Health wrote that the necessary papers are being prepared for the formal turning over of Malulani hospital to the County of Maui and that as soon as these can be prepared the formal turning over of the property will be done.

Marston Campbell wrote the board that he had repeatedly written Mr. Hose, the Superintendent of the Lahaina Water Works to turn over the same to the County of Maui. This has been done since by Mr. Hose.

Sister Marianne wrote the board acknowledging receipt of communication from the board in regard to securing the services of two more sisters to assist in the work of mercy now being done by the sisters at the Malulani Hospital. Sister Marianne wrote the board that she had forwarded the communication to her superior and had recommended the appointment of the additional members to the work here.

Sheriff Saffery wrote the board for needed supplies and in reference to phones that had been ordered put in the houses of certain police officers who had not as yet been accommodated.

Deputy Sheriff Edgar Morton wrote the board that he and Judge Guy S. Goodness had assisted an indigent by advancing money. He also wrote asking for supplies and in regard to the recommendation that one of his telephones be cut out.

Superintendent R. P. Hose wrote the board enclosing an inventory of the Lahaina Water Works and requested that the same be signed by the board. The inventory had been checked up by Mr. W. L. Decoto and found correct and signed by the board.

Superintendent of Public Instruction, W. H. Babbitt, wrote the board refusing to turn over the school property to the counties and referred to Act 100 of the last Legislature to justify this course. The Superintendent took the stand that while the care and repair and maintenance is made a part of the duty of the counties the possession and custody must remain in the Territory.

J. D. Tucker wrote the board that his office would keep the county officials informed of the progress made in the matter of the exchange of lands for the stable site.

A communication was received from Superintendent of Public Instruction, W. H. Babbitt that no teacher could be furnished for the school at Kailua nor any additional teachers in any of the other schools.

**Assist Good.** The local baseball associations are doing much **Clean Baseball.** to encourage the national game on Maui, and are deserving of the support of all lovers of good, clean baseball. The expense of having an outside team come here and play baseball is large and these associations are risking much in advancing these expenses. There is very little fear that the games will not be well patronized in good weather, but it is the uncertainty of the weather which is a stumbling block in all negotiations to have teams come here.

There is also a large number of dead beats who can well afford to pay to see a game but rather hang around the outskirts of the grounds and beat the association out of the admission price. The sheriff will undoubtedly look after these persons and have them vacate the grounds of the plantation, for it is certain the management of the plantation does not consent to having people trample down the young cane.

There is much local baseball fans can do to assist these associations in providing good, clean baseball on Central Maui, but all the association ask is the attendance of all baseball enthusiasts and that the knockers leave their hammers at home.

Let us all treat the visitors cordially in order to live up to the reputation Maui has attained for good treatment.

**An Opportunity.** There is at this time a better opportunity for the laboring men to better their condition by taking contracts than ever before and those of that class who are wise will take advantage of the opportunities thus afforded to secure cultivating contracts on the plantations and avail themselves of steady employment, free from the irksome dictates of an overseer and a means of earning according to the amount of labor one performs.

Especially to Hawaiians should the contract system appeal. There are thousands of Hawaiians in the islands who understand the cultivation of cane and have seen and have done the work from early childhood. If they will take contracts on the same basis that the Japanese have been taking them, they should make better wages than they now do and be entirely independent. The advances made by the plantations are sufficient to meet the necessities of life while the work is easy and the returns good.

The recent labor troubles that have been brought about by the Japanese agitators about the towns have not created greater confidence in the Japanese laborers who have gone on strike or have taken an active part in the recent labor troubles.

While many hundreds of Japanese will doubtless be given renewals of contracts it is safe to say that since the recent labor troubles there will be a disposition to look with greater favor on other nationalities.

Let the Hawaiians and laborers of other nationalities take advantage of the present opportunities and secure cultivating contracts wherever they can. It will be to their interest to do so.

**Passing of the Japanese.** The agitation created among the Japanese laborers by the drones of that race is probably the beginning of the end of Japanese ascendancy as a labor element of the islands and the time will come when the name of Makino and his henchmen will be hated as earnestly by the remnant of the Japanese colony that is left here as is Sheba hated now among the ignorant laborers.

During the early years of the history of the sugar industry the planters imported Chinese almost exclusively for a number of years. These men constituted by far the greatest element of the laboring class. All went well for a time until they became unmanageable and acts of violence were frequent. The Chinese were under a penal contract system that made it obligatory for them to labor unless they were ill. It was not uncommon for a Chinaman or even a whole gang of laborers to announce to their luna "We will be sick tomorrow" and on the following day not a single one of them would turn out to work. At that time there were many wealthy Chinese merchants in the islands. These men did not try to exercise a good influence over the laboring class and in time they were superseded by the Japanese who for a time did well.

It would now seem that the Japanese leaders are allowing their unprecedented opportunities to slip from their fingers as did the Chinese and in the course of five or ten years the Japanese business men will be in the same position as the Chinese are now. It seems strange that the more far seeing Japanese did not grasp the situation as Sheba did and stem the tide that means the ruin of the interests of Japanese in this territory.

When it is too late the Japanese of Hawaii will see that Sheba is their best friend and the higher wage agitators their worst enemies.

**MILAN, August 11.**—Lieutenant Mina made an aerial record yesterday by ascending seven miles in a balloon.

**WASHINGTON, August 11.**—Ambassador Takahira sailed from Seattle enroute to Japan yesterday.

## Elks Capture Los Angeles

Honolulu Bunch Make Big Hit in Southern City.

Among the one thousand lodges that were represented at the great conclave of the Elks at Los Angeles from July 10th to the 17th none made a more decided impression among the residents of the "Land of Sunshine" than did the twenty men who marched in the big parade under the insignia of the Honolulu lodge. Their numbers were not many but the distinctive feature of the leis, something that hundreds of those who witnessed the Elks parade had never seen before, was something that helped to bring the representatives of the Honolulu lodge into prominence at every turn.

Elks now living in California that first owed allegiance to the Honolulu branch of the order exerted every effort to reach Los Angeles and swell the numbers that acted as the representatives of the order in the islands during the week of festivities and joy making that followed.

It was without doubt one of the most successful affairs of the kind ever held in the history of the order.

It was a round of successful festivity from the first day and everyone entered into the spirit of the occasion. There was an unexpected number of members who formerly lived in Honolulu that came to swell the ranks. The picture that was taken on the day of the parade shows a number of familiar faces and all did their part in keeping the delights of the Territory of Hawaii well to the fore.

The delegates to the convention were N. Emmett May, H. E. Murray, L. L. Harding, E. Lord, Geo. T. Kluegel, H. A. Wilder, F. S. Peachy, J. R. Shaw, N. B. Lansing, Wm. C. Crook Jr., C. M. Taylor, R. E. Maynard, H. H. McClintock, H. H. Simpson, J. S. McCandless, W. A. H. Connor, E. M. Brown.

Los Angeles is an ideal convention city and the arrangements for the gathering of the Elks and their entertainment was left largely in the hands of Motley Flint, who has had large experience in work of that kind. As a result nothing in the way of entertainment was unsuccessful.

The program of entertainment included trips to all the nearby beach towns of which Southern California abounds and which possess the most modern attractions in the way of enjoyment.

That the gathering was one of the largest that has ever been held in the history of a fraternal order is shown by the fact that approximately 48,000 Elks were registered at the Los Angeles hotels and that it is estimated by the railroad companies that were engaged in the passenger traffic from out of town points that fully 100,000 visitors came to Los Angeles during the week of the session.

Incidental to the object of the visit to Los Angeles the Elks who represented the Territory of Hawaii also did something in the line of promotion work. If all of those who stated they would come to the islands during the course of the next winter find it possible to keep their intention there will be between five and six hundreds visitors that first manifested an interest in Hawaii through conversation with the lei distributors from the mid-Pacific.

The leis made a great hit with everyone and they could have disposed of hundreds more if they had them but that as it was the supply soon ran short.

"A good time and some work for Hawaii" is a summary of the trip to the big convention.

## Assassination Is Threatened

Strike Leaders Recipients of Threatening Letters.

From the Hawaiian Star.—Japanese strikers are returning to Waipahu and Aiea plantations in large numbers, but a few remaining out. The city camps are being abandoned. The planters see the end of trouble, and anonymous letters to prominent prosecutors are about all that is emphasizing the vanity of a hopeless cause, though threats of assassination are now not limited toward those who are bringing Higher Wage Association leaders to justice, but are being voiced toward the leaders themselves, rumors of vengeance on unsuccessful strike leaders, at the hands of Japanese who have lost heavily through the strike, now alarming the already worried Makino and Negoro.

"The strike situation is now undergoing the clarifying process," said E. Faxon Bishop, representing the Planters' Association this morning.

"Laborers are returning to the plantations, we are not worrying, and the strikebreakers will be continued for the present. The strikebreakers went to work this morning and they will go to work Monday."

Agents for the Honolulu Plantation, Aiea, report their old Japanese laborers returning to the fields today, and a thousand men are back to work on Waipahu, five hundred leaving the town camps yesterday afternoon for the country, and Japanese who had been in camp at Waipahu returning to their duties yesterday at noon.

The city strike camps are being deserted and the orders of the Higher Wage Association, that all men return to work, are for the most part, being obeyed.

Little remains of the strike except the soreness of a few anonymous trouble-makers who are expressing their fevered emotions and endeavoring to terrify the community by sending threatening letters to prominent men identified with the prosecution of the leaders of the Higher Wage Association for alleged conspiracy.

E. Faxon Bishop, while he does not consider it a threatening missile, was recently in receipt of an anonymous communication, in English, typewritten, asking him what he intended to do about the situation, a newspaper clipping being enclosed. He paid no more attention to the matter than to destroy the letter.

In stating that the strike situation is now undergoing the clarifying process, E. Faxon Bishop is of the idea that what remains of the strike will naturally settle itself without further trouble, forces having been set in motion that can result in nothing but the wind-up of the troublesome affair.

In regard to threatening letters, to W. A. Kinney, Judge De Bolt and others, the police are inclined to believe that they are not in the nature of empty threats and they are, therefore, doing all in their power to ascertain the source or sources of the unlawful epistles.

Y. Kimura, editor of the Hawaiian Japanese Chronicle, is the latest recipient of a threatening letter, the writer of which declares he came from Kauai to kill Sheba and was disappointed when Mori got ahead of him at the assault, but he intimates that he will complete the job that Mori began when Sheba gets out of hospital. The writer condemns Kimura for being a friend to Sheba and declares that he, Kimura, is in danger of his life for condemning Mori for trying to kill Sheba.

ASSASSINATION TALK.—Among a certain element of the Japanese colony there is praise for Mori and talk to the effect that Sheba should have been killed, but there is also talk of another kind of

## Suggest Arbitration

Horsemen Propose a Scheme for Race Settlement.

Hilo, August 3.—As an aftermath of the race fiasco in Hilo O'Rourke and Brughelli have written the Fourth of July committee as follows: Hilo, Hawaii, July 31, 1909. To the Fourth of July Committee, 1909.

Sirs: We desire to have the differences of the meeting at Hoolulu park on July 3rd and 5th adjusted by arbitration, and ask that you cooperate with us.

We to appoint one man, you to appoint one, and the two to select the third, then all matters to be adjusted by them, all parties agreeing to abide by the decision of the committee.

Respectfully,  
FELIX BRUGHELLI.  
JOHN O'ROURKE.

The above is the text of a letter which has been sent to Chairman Moir of the Fourth of July Committee. It is self-explanatory.

Mr. Moir, when reached on the telephone yesterday forenoon, stated that he had not as yet received the letter, and when the contents thereof were made known to him, he stated that he could not say as yet what attitude he would take in regard to the matter. He thought that this would depend to a great extent on whom Brughelli and O'Rourke selected as their arbitrator. In this connection he mentioned the fact that he had heard that they intended to put up a certain man (whom he named), who had been quoted as saying that the entire race affair was the outcome of a scheme on the part of the judges to do up O'Rourke.

Mr. Moir did not know if this were true, it being only hearsay as far as he was concerned, but he did not think that such a man would make a very good arbitrator.

Manager Wright of the Volcano Stables, who is a member of the committee, stated that he was much in favor of the arbitration idea, as outlined, as he thought that this was the best way in which to get all the questions which have arisen, settled. Wm. McKay, the third member of the committee, said when seen yesterday afternoon, that he did not wish to express his opinion until after the proposition had been regularly laid before him.

assassination and that is the assassination of Higher Wage Association leaders by men who consider themselves the victims of a system that was not so much determined to win higher wages for the laborers as it was in gathering in good salaries for the leaders. There are two sides to the standing of the Higher Wage Association leaders, one lot of Japanese is regarding Negoro, Makino, Soga and others as martyrs for that they are suffering prosecution in an alleged attempt to better the conditions of the laboring Japanese, while another lot is considering the leaders, particularly Negoro and Makino, as adventurers who have taken advantage of the laboring class merely to better their own conditions financially and otherwise.

There are among those affected by the strike, many men with families who gave up more than a mere daily wage to follow the standard of the strike scheme and who have lost hundreds of dollars and, perhaps, the chance to recuperate their losses, in the many weeks that the strike has endured. Homes have been broken up and thoughts of injustice are rankling and, therefore, it is not to be wondered at that there are rumors of the possible assassination of Makino and Negoro. And Makino and Negoro are well aware of this condition of affairs and it is not improving there rest, nor bettering their health. It is not government prosecution, alone, that they fear, but it is the possibility of attack from among their own countrymen when least expected.

## Need Rigid Inspection

To Prevent Introduction of Destructive Insects.

The following has been sent out by the Department of Agriculture. Dr. L. O. Howard, Chief of the Bureau of Entomology of the U. S. Department of Agriculture, has returned to Washington from Europe, where he has been engaged during the past month in interviewing paid and volunteer agents of the Department of Agriculture and the State of Massachusetts who are assisting in the importation into the United States of the parasites and other natural enemies of the gipsy moth and brown-tail moth. In the course of this work, Doctor Howard visited France, Holland, Germany, Russia, Austria, Hungary, Switzerland, and England, and the results of the trip are already evidenced by the receipt at the parasite laboratory, Melrose Highlands, Mass., of a greatly increased amount of parasitized material, which is being handled at that point by expert assistants and will subsequently be liberated in woodlands ravaged by the gipsy and brown-tail moths. A great interest is shown in the different European countries in this very large-scale experimental work, and the official entomologists and others are anxious to do everything in their power to help the United States.

The brown-tail moth, it will be remembered, was accidentally introduced into this country upon plants imported from Europe. Many other injurious insects have been brought in in the same way, and the danger still exists in the absence of any national quarantine and inspection law. Such quarantine and inspection laws are in force in nearly all the civilized countries of the world, and the United States is almost unique in its indifference to this great danger. The amount of money that has been spent by the different States in New England and by the General Government in fighting the gipsy and the brown-tail moths alone would support a national inspection service for many years. Last winter there were brought into the United States, mainly at the port of New York, thousands of apple and pear seedlings from France which carried the winter nests of the brown-tail moth. These seedlings were distributed all over the country. An effort was made, through the assistance of the custom-house authorities and the railroads, to trace all of these shipments to their destination and to secure inspection and destruction of the injurious insects before the opening of spring. It is probable that these efforts were successful, but the experience emphasizes the necessity for a national law.

Doctor Howard was instructed by Secretary Wilson to visit the leading exporting nurseries in Holland, France, and England in order to determine the efficiency of any inspection service that might exist in those countries. He found that the inspection service in Holland is excellent, as conducted by J. Ritsma Bos, of Wageningen, and his assistants. Nursery stock bearing the inspection certificate of these officials can be accepted in this country without any danger.

In France it was found that no governmental inspection service exists and that the certificates which have hitherto accompanied nursery stock from that country can not be relied upon. After consultation with the leading nurserymen and the authorities of the Ministry of Agriculture of France, Doctor Howard was assured by the Director of Agriculture, M. Vassilliere, that the French Government will immediately establish an official inspection service, under the direction of Dr. Paul Marchal, a thoroughly competent man well known for his work on injurious insects, so that in the future nursery stock coming from

France and bearing the inspection certificate of the Ministry of Agriculture can be relied upon.

In England, it was found that no governmental inspection service for home nurseries exists. Officials of the Board of Agriculture assured Doctor Howard that it is the desire of the board to establish such a service, but that the demand must come from the English nurserymen. Members of the Council of the National Association of Nurserymen, of England, were then interviewed, and it seems reasonably certain that this influential organization will request the Board of Agriculture to establish such a service under the direction of some competent entomologist like Mr. Cecil Warburton, at Cambridge, or Mr. F. V. Theobald, of Wye.

## Hawaiians Are Drowned

Caught In Squall And Do Not Return.

Hilo, Hawaii, August 10.—Kailiannu and Nakahina, two well known Hawaiians from Waikanae, have been missing ever since July 25. When last seen they were drifting in a boat in the teeth of a squall along the Puna coast, and there is every reason to believe that they have been drowned.

The two men were members of a party of four who went fishing near Kapoho. Kailiannu and Nakahina were in a whitehall boat, and the others in a sampan. On Sunday they were fishing near Kapoho, and during the afternoon the two Hawaiians who are missing, transferred all the contents of their boat, with the exception of a bottle of water, to the sampan which was the larger of the two crafts. During the night the men in the sampan saw the light used by them while fishing until a squall sprang up which endangered both the boat and the sampan. In order to seek safety on the open sea the men in the sampan cut both their anchor ropes, but their steering oar broke, and they had a hard time to get out, but finally managed to do so by means of the jib. In the meantime the boat was drifting Hilo-wards, while the sampan was drifting the other way, its occupants being unable to come to the rescue of Kailiannu and Nakahina on account of the accident to their steering

gear. When they last saw the two unfortunate men they were having a very hard time of it, the squall being a very heavy one, and it is the firm belief of the men in the sampan that the whitehall boat could not possibly ride out the gale. As a matter of fact, the sampan almost foundered, and the occupants were unable to make a landing until last Wednesday, when they managed to get up to the old wharf in Reed's Bay.

The survivors immediately made a report of the matter to the relatives of Nakahina and Kailiannu, and a search went on during the rest of the week, but with no success. Yesterday it was reported that a fishing party of women from Pahoehoe had found wreckage from a boat and fishing tackle on the beach, and it is believed that this is a sure indication of the unfortunate fate which overtook the two fishermen.

## Juror Fined By De Bolt

### Varick Forfeits \$12.00 for Misconduct.

C. A. Varick, the juror whose absence owing to intoxication on Friday, prevented the conspiracy trial from proceeding that day, took his medicine in court.

Judge De Bolt gave a severe reprimand to him and fined him \$12, being the amount of jury fees he earned on four days of last week.

Editor Negoro's cross examination was resumed at the hands of W. A. Kinney. The defendant witness volunteered many speeches with his answers, being indulged by the court in some cases and not in others.

One article from the Nippu Jiji on which he was questioned covered a letter from the "Japanese Union" of Hana, Maui, addressed to the "Higher Wage Consummation Society" of Honolulu. There was a request attached that the editor "revise and publish" the communication.

It covered a resolution passed at a meeting of the Hana minor, which urged the raising of contributions for the Oahu "brethren" as rapidly as possible, and contained the declaration, "We refuse to subscribe to the Hawaii Shinpo." Negoro had received other similar letters and until shown this one in print said he did not remember it particularly. He said he did not read the articles over very carefully before passing them to the printer. The publication of this one was an oversight. It could not be construed as guilty knowledge against the editors of the Nippu Jiji was one of the opinions he ventured.

"If we had any official connection with those outside organizations," Negoro said, "we should have been careful about any suggestions of violations of law. We did not feel any stirring of mind

that we ought to set those laborers right. We did not have any official connection with the Aiea laborers when we advised them not to violate the law.

"In some cases we did give official advice, in others we neglected to do so. You cannot blame us, Mr. Kinney, for doing good things in one case and omitting to do good things in other cases."

He said he did not feel responsible for anything like that, when the passage was quoted to him:

"There are dark nights as well as moonlight nights. Look out you do not get crippled."

Negoro admitted that prizes were offered for the best songs and rhymes on Russian spies and planters' dogs. Here is part of one such poem:

"If they would only cease wagging their tails to please the red-haired foreigners and come over to our society, we would supply them with food.

"These tame-looking, tail-wagging animals, the wild pig and the prairie (grass) dog, will fall into the hands of some hunter or other.

"Throughout the eight islands of Hawaii there is not a single man who does not hate the dog and the pig because they prevent the rise of wages.

"They cannot be left as they are now. Because when dogs and pigs are free to go where they please, there is no saying when and where or whom they will bite.

"As an ending of the affair this time call together a few hunters and quickly slay the dog and the pig."

Negoro, on being asked about this feature of his paper, gave a prelude in the form of a comparison between strikes abroad and the Japanese strike here. In the latter there was no firing of pistols or flashing of knives.

Kinney jerked him up on the knife proposition, which caused a heated protest from Lightfoot against ringing in the Sheba stabling.

"This thing was addressed to laborers among whom you had to go constantly and advise them to keep the peace?" Kinney asked with reference to the dog and pig lyric.

"No," Negoro replied. "You cannot say that this thing was addressed to the laborers. It was an inspiration."

"Was it an inspiration to say 'Sheba will not die on bed or mat?'"

"That is poetic, the witness answered. 'It was in the funny column. It is addressed in Japanese language for Japanese readers.

"I am speaking for the Jiji. These articles did not call for violence."

"Was it not a part of the conspiracy," Kinney proceeded to ask, "to have these associations on the surface not connected with you, so that if they did anything unlawful you could not be held responsible?"

Lightfoot's objection to the word conspiracy, on the ground that conspiracy had not been proved, was sustained and Kinney substituted the phrase "plan of the Higher Wage Association" for "your conspiracy."

Negoro answered by quoting portions of the six rules adopted at a mass meeting at the Japanese Y. M. C. A. hall. Asked if there was no check on the part of members upon the actions of the officers, Negoro told about a very informal mode of deliberation pursued by the members of the executive committee. There were minutes of the transactions in a book, but the meetings would perhaps be a casual coming together of Makino and himself on the street. When formal meetings were held all of the committee of twenty might not be present, but outsiders were permitted to come in and listen. The officers were recognized as the executive committee.
