GRAND AND TRIAL JURORS OFFER ARRAY OF EXCUSES

Some of the Reasons Why Busy
Men Wish to Avoid a
Vacation in the
Jury Box.

At the opening of the August term of court this morning the court room was packed to the last square foot and the corridor and stairways were thronged with people, who were present as litigants, witnesses or spectators. When the bailiff rapped for order, the clerk was instructed to read the returns made for both grand and trial juries. After the reading of the lists those who felt that they had valid excuses which would enable them to escape jury duty were called upon by Judge Gear to speak out. Henry R. Macfarlane stated that he is the Consul at Hawaii for Denmark and therefore exempt from jury service. The court expressed regret at having so mandatory excuse presented at the very outset and excused the juror.

L. C. Ables walked to the bar of the court and made a strong plea in support of the excuse he offered, which was that he had served on juries more than his time. He claimed that the jury lightning had been hitting him for the past twenty-one years with clock like regularity and that while he is a loyal American and a good citizen he believed the honor of serving on a Grand Jury should be passed around. Mr. Ables was a member of the first Territorial Grand Jury and served on the trial jury in the Federal Court since that time. Judge Gear declared the fatality to be strong evidence of Mr. Ables' good jury qualifications and refused to excuse him.

James A. Low, manager of the Honolulu plantation, asked to be excused because his time would be occupied in the United States Federal Court as one of the defendants in the Pearl Harbor land condemnation suits. Judge Gear said that he would listen to the excuse when the land case demanded Mr. Low's presence. N. S. Sachs was excused because he had matured plans some time ago to leave for an extended trip to the Orient, August 16.

This encouraged George Castle to lay his vacation plans before the court. He said he had intended to leave tomorrow for the other islands on a three weeks trip partly for business but mostly for pleasure. The court declined to excuse Mr. Castle.

Fred Peterson gravely said "I am a notary, therefore would be pleased if the court would excuse me." "That is no legal excuse," said the court. "I beg the court's pardon," said Mr. Peterson. "I thought it was."

C. S. Crane was excused because A. W. Pearson of the trial jury who works for the same firm wanted to be excused. The reasons offered by Pearson were that all the officers of the Gazette Company are absent, with two on the juries. When a few details were explained, the court said, "Mr. Crane, you are excused."

Prince David Kawananakoa was excused until next Monday in order to allow him to go to Hawaii to attend to funeral of the late Mrs. Samuel Parker.

Excuses from trial jurors for temporary absence were quite numerous. B. F. Dillingham is on Hawaii on business, excused till Monday. P. C. Jones and Geo. F. Renton were given two or three days' leave. David Lawrence and M. P. Robinson were excused for the remainder of the week.

Neither jury was impaneled today and all jurors were excused until tomorrow morning at 10 o'clock.

College Hills

BEST TEST OF A NEW
SUBURB : : : : :

The fact that THREE RESIDENCES ARE NOW IN COURSE OF ERECTING, bids for another about to be opened and plans for several more in the hands of local architects, and all for BONA FIDE PURCHASERS, shows the vitality of the movement towards College Hills.

The approaching operation of the car line and water plant makes immediate occupation possible.

McClellan, Pond & Co.
or Castle & Lansdale

In the first roll call a grand juror, W. S. Wood, was not present. At the close of the examination, his name was called again, meeting with no response.

F. M. Beardslee, drawn on the trial jury, produced a letter from Dr. Cofer, stating that certain improvements on Quarantine Island would be greatly delayed unless Mr. Beardslee, the contractor, was excused from jury duty. The excuse was granted.

Charged With Adultery.
A. J. Gonsalves and Mrs. Mary Young have been arrested on the charge of adultery. They appeared in the Police Court this forenoon and the case was continued until the 7th inst. The two were arrested on the complaint of the husband of Mrs. Young who states that he and a number of friends surrounded the Paioa house into which his wife and Mr. Gonsalves were seen to go and advanced upon them unawares. It will be remembered that on Saturday last a suit for divorce was filed in the Circuit Court by Mrs. Young, asking for an absolute divorce from her husband on the ground of cruelty and several other grounds.

WAILUKU CROP FINISHED

Wailuku, Aug. 3.—The Wailuku plan crop finished grinding this year's crop last Wednesday. W. A. Bailey, sugar boiler, says that this year's crop yielded 7900 tons of sugar which was a fall of 700 tons below the estimate. There have been several causes for this large fall, but labor is the principal factor.

WATCH FOR "BILLY"

W. A. JOHNSON OF W. S. S.
CO. FITTINGLY REMEMBERED

Presented With Gold Watch at a
Dinner Aboard Kinau Sunday
Evening—Services
Appreciated.

There was a feast of reason and a flow of soul aboard the Wilder steamer Kinau last evening, the occasion being the dinner in honor of the safe return of Superintendent Engineer William A. Johnson, who has been in San Francisco for several months.

The dinner was given by the engineers of the company in grateful remembrance of the esteem in which the chief is held by these and also as a gathering at which a beautiful gold watch was presented to Mr. Johnson. The watch is engraved on one cover with the monogram of the recipient, while on the other is an enamelled three-bladed propeller. On the inside cover of the watch is the following inscription:

Presented to W. A. Johnson, Superintendent Engineer of Wilder's Steamship Company, H. L. U. S. A., by his grateful juniors for valuable assistance in January, 1901.

It was through the efforts of "Billy" Johnson that so many of the men in the engineer's department of the company passed such creditable examinations before the inspectors, sent here to examine men for certificates as engineers and captains and mates, and the men took Sunday's opportunity of remembering the chief's services.

The feast was spread in the dining saloon of the Kinau and was a splendid one in every detail. After the supper and presentation, the evening was whiled away in talk reminiscent of old times here and on the Coast. Toasts were given and responded to, and a song or two were sung.

Those present were: W. A. Johnson, superintendent engineer; Captain Clarke, superintendent; A. W. Keech, Inter-Island Company; W. Quinlan, K. R. G. Wallace, James Lynch, A. W. Watkins, O. Wilder, I. King, R. Windrah, Chas. T. Littlejohn, Chas. A. Kibling, T. A. Burningham, W. McGregor, James Sutherland, A. L. Inman, Capt. Parker, Capt. Wm. Bennett, Capt. Fred Bennett, M. M. Kohn, A. P. Taylor, A. Harford, H. Moelne, A. Anderson, Chalmers Graham, Joe Little, George C. Beckley, Wm. McKay, Captain W. Clarke, Jack Wagner, Wm. Jarrett, Geo. Beckley, Jr. and H. Wharton.

UPHOLD DR. COFER.

At a meeting of the Territorial Medical Society held Saturday evening it was resolved that the recent attacks made upon Dr. L. E. Cofer of the United States Marine Hospital Service for alleged impropriety and discrimination in examining passengers on the America were unjust, uncalculated for, and not justified by the facts. It was brought out during the meeting that Dr. Cofer had called upon the Japanese Consul and Mr. and Mrs. Okabe and made explanations which were accepted by those parties as satisfactory and that Dr. Cofer's call was returned by them.

Philadelphia vs. Police.

A team of ball players from the U. S. S. Philadelphia will cross bats with the police team on the Makiki recreation grounds at 3:30 o'clock tomorrow afternoon. The police, feeling that they need practice, hit upon this plan of getting it, challenged the navy men and were quickly taken up. The Phillie men are all old baseball players and a good game is expected.

COMMISSIONER BOYD

RETURNS FROM HAWAII
PLEASED WITH PROSPECT

Great Opportunities Still Ahead for
Small Farmers and More
Lands to be Open-
ed Up.

Land Commissioner E. S. Boyd was at his desk in the land office this morning for the first time in three weeks, having returned yesterday from an extensive tour of inspection on the island of Hawaii.

"I am greatly pleased," said Mr. Boyd to a Bulletin reporter, "with the condition in which I found the people who have taken up small land holdings from the government. They are prospering, and are doing all that could be required in the way of complying with the conditions of their agreement. Some have even undertaken to do too much which is a virtue rather than a fault. Another thing which pleased me fully as much, is the opportunity which exist for more small farmers on the Big Island. The field is large for the future small settler. The land which will be opened for settlement is even better than that already taken up."

There is one serious drawback to the development of these small settlements, I refer to the roads. They are in an abominable condition. In many places, the owners of these small farms have been unable to haul lumber or other necessities to their lands and if they raised big crops, they could not be hauled away. There are practically no roads to or adjacent to the tracts opened up to the small farmer. In the future my preliminary step in opening new tracts will be to open a road. In Hamakua there are no highways worthy the name. The sum of \$12,000 was expended on the road from Waimea to Hanalei, a distance of twelve miles. This road is, however, well nigh impassable. It is rough and utterly bum. The former road engineer is to blame for this condition. He has done reasonably well on the main highways but has neglected the by roads totally.

The next tracts to be thrown open to the small farmer are Oloa, Kanihiki, Nanawale, Omoa, Kehena and Kalapana. Applications are in the office now, covering the entire area which is about 2000 acres. The allotments will be made between August 10 and September 10. There are unsurveyed tracts in Hamakua and North Hilo, aggregating 3000 acres which will be opened up as soon as possible.

Mr. Boyd's special business to Hawaii was in connection with the Kuaui boundary case, remanded back to the commissioner for settlement. Mr. Boyd said: "So far as I am concerned, the matter will be settled out of court. I talked with all parties and the probability is that they will compromise."

BROKERS WILL RIDE.

The members of the Honolulu Stock Exchange have been invited to take a ride on the car of the Rapid Transit Co. this afternoon. The party will leave the power house on Alapai street at 3 o'clock.

Porto Rican Captured.

High Sheriff Brown received news by the Kinau Saturday afternoon of the capture of a Porto Rican plantation laborer at Wailuku for whom the police had been searching for the past week or so. He was convicted in the District Court at Wailuku on the charge of larceny in the second degree. He escaped, and the police were at once sent after him. He hid himself away in good shape, but the police were a little too numerous for him, and he was unable to get away very far.

Wants Damages

A Marques has brought suit in the District Court against H. L. Evans and Yokohama for the recovery of \$36,500, alleged to be due on certain damages to a piece of property included in the Palolo lots now on sale. Plaintiff claims that the defendant on June 20 of the present year wrongfully and unlawfully tore down a stone wall about certain property belonging to her. It was 135 feet long and 5 feet high.

Archie Gilfillan leaves for the Coast in the Peking tomorrow and the boys intend giving him a send-off that he will not soon forget. The Fearless has been chartered and his friends will be out in great numbers to give him the proper kind of a farewell.

THE CALENDAR CALLED

LAWYERS ARE ON STAG
AND CASES ARE READY

August Term Starts Out at Brisk
Gait With Promise of
Big Clean Up of
Litigation.

As soon as the two juries were disposed of by Judge Gear this morning the calendar for the August term was called. The lawyers were all present and the work was handled with rapidity. Counsel in all the criminal cases were ready and all these cases went over, to be set for trial at a later date.

The divorce calendar was called and cases set for trial as follows: Kellikuala vs. Kellikuala, August 23; Houpo vs. Houpo, August 14; Ah Sam vs. Tom Chan, August 7, at noon; Kellawe vs. Kolomona Kimoko, August 8, at noon; Kaonohi vs. Kaleialoha Kaonohi, August 12, at noon; Sam Moe, vs. Chong Quon, August 10; Lopez vs. Lopez, August 9; Hattie Kanani vs. Joseph Kalo, August 13; Napua vs. Napua, August 12; Daniel vs. Daniel, August 16; Noholoua vs. Noholoua, August 9; Peters vs. Peters, August 19; Nunes vs. Nunes, August 20; Strauss vs. Strauss, tomorrow at noon; Merrill vs. Merrill, continued to November term; Christley vs. Christley, next Saturday at 9 o'clock; Kumalae vs. Kumalae, continued until November term.

Out of the 190 civil cases all were ready for trial except, perhaps, a half a dozen which were continued. There was but one default, that of defendant in Kwong Now vs. Kilioni. The case of Gehring & Butzke vs. Campbell & Minton was dismissed.

Judge Gear ordered the entry "Gear disqualified" made in eighteen cases. The matter of the guardianship of Genevieve Dowsett was settled today. The accounts of J. M. Monsarrat guardian of her person and estate were ordered confirmed and the master's report confirmed. Monsarrat on his own request and with the approval of the ward was discharged and his bondsman released. A. B. Wood was appointed guardian of the young lady's estate, under bond of \$75,000. Mrs. Phoebe K. Raymond was appointed guardian of her person.

The petition of W. W. Williams for an administrator in the estate of J. H. Hunt, deceased, was considered by Judge Gear today. George Ashley being appointed under bond of \$1000. S. F. Chillingworth gave notice that a client represented by him by the name of Emily Hunt would claim a share in the estate. The estate is valued at upwards of \$8000.

Bill for partition of real estate has been filed in equity by Victoria S. Buffandeau vs. A. A. Montano. The petitioner claims a two-thirds interest in lands in Manoa valley.

Magoon & Thompson for plaintiff have brought suit against Ah Chew to recover on a promissory note of \$3671.02. The note was made June 1 and is due on demand.

Executive Council Meeting To-day

The Executive Council today denied a request, from T. H. Davies & Co., to put in moorings and buoys in the Hilo harbor it being the policy of the government to keep all such matters in its own control. The matter of replacing the fence along the property of Bruce Waring & Co. on Port street was discussed. It was ordered replaced.

A request was received from the trustees of Oahu College asking for a quit claim deed to certain lots on Vineyard street, near the Peck property. The request was denied. Members of the Council claim that the land belongs to the Territory and that the trustees are seeking to get hold of it.

Salt Lake, Utah, July 25.—W. E. Samuelson, of Provo, Utah, broke the world's unpaired bicycle record here tonight, riding a mile in 1:53 2-5.

McInerney Libel Suit In Federal Court

In the Federal Court today the libel suit of E. A. McInerney & Co. vs. the bark C. D. Bryant came on for trial. The suit is brought to recover on goods destroyed or damaged in the fire which occurred on that vessel while at the wharf. The goods were valued at \$1100. At the sale of the cargo these goods brought \$391. The plaintiffs ask for judgment for the balance. The defense will put on witnesses this afternoon. Hatch & Silliman represent the plaintiff; Kinney, Ballou & McClannahan for defendant.

"Mail advices say it is reported in Pretoria that Lord Kitchener will give up his command August 31, and proceed to England, where he will remain five months, then taking over the supreme command in India, and that Sir Bindon Blood is expected to succeed him in South Africa."

THAT WRECK STORY WAS ONLY A FABLE

The exciting railroad accident that according to this morning's Advertiser took place yesterday appears entirely different in the light of facts, few of which the Advertiser published.

As train 12 pulled into the O. R. & L. yard yesterday evening one of the passenger coaches jumped the track. The car did not tip over. There was not a broken pane of glass in the car that went off the track or any other car of the train. The only damage done was one broken step and a break in a small spring under the car.

There were no flying splinters and if any passengers left the car through the windows, they did so because they preferred a window to an open door. So far as known all passengers made their exit through the doors at either end. The train was moving at a very moderate rate and was immediately brought to a standstill when the car left the track. The car did not turn over slowly. It did not turn over at all. Doubtless the passengers were somewhat shaken up but at no time were any lives in danger. Officials at the railroad office are wondering what brand the Advertiser smokes.

Senator McLaurin Ruled Out.

Columbia, S. C., July 25.—The Senate Executive Committee late tonight adopted a resolution ruling Senator McLaurin out of the Democratic party. The action was totally unexpected.

WAS IN QUARANTINE

THE PEKING WAS DELAYED
THIRTY HOURS IN JAPAN

Will Sail for San Francisco Tomorrow at Noon—Has Much
Freight for This City
—Passengers.

The City of Peking, almost two days late, arrived from the Orient very early this morning and anchored off port to await the quarantine inspection. The big vessel, as was surmised, was detained at Yokohama about thirty-six hours by the United States quarantine official, who found a case thought to be smallpox among the firemen. After a closer examination, the fact developed that it was not smallpox, and the vessel was permitted to sail.

From the time Yokohama was left until off these islands strong head winds were encountered, and the vessel's progress was retarded. She left Hongkong on the 13th and Yokohama on the 25th. During the passage she passed and spoke the Doric, Nippon Maru and Peru.

The Peking has about 800 tons of freight for this port and will have to take 350 tons of coal and a supply of water. She is expected to sail for the Coast tomorrow at noon.

Among her passengers are many army and navy people. The German army is represented by Lieutenants Gilles, Gronewald, J. Gueterian and Wenderoth. F. Reinsdorf of the German Consular Service is also aboard.

Captain G. W. Pigman, U. S. N., formerly of the Monterey, is bound home. Mrs. A. F. Dixon, formerly Miss Woods of this city, now the wife of the chief engineer of the battle ship Oregon, is a through passenger. Mrs. J. D. Seale, a daughter of the late Jesse D. Carr of California, is on her way home from the Orient in very bad health. From here she will be attended by Dr. L. W. Thorne, who arrived from San Francisco in the Peru last week to meet his patient here.

Of the other cabin passengers, Rev. M. J. Children is a missionary from India, and S. M. Fox an English tourist on his way to Samoa from this port.

KAUAI IS DOING A LITTLE BUSINESS

Lihue Has Ice Factory
and Soda Water
Works.

AS WELL AS SOME
OTHER ATTRACTIONS

Dramatic Circle is Just Now Doing
a Little Stunt—Will be Ready
to Delight Public
Soon.

Kauai is coming to the front with strides that will soon result in the total eclipse of Hilo. This is particularly true of Lihue. What with an ice factory, a soda water factory and many other smaller enterprises, this place will soon become the envy of a great many other places on the islands with opportunities every bit as good.

Just a short time ago, there was a meeting of the stockholders of the ice works at which it was decided to increase the capital stock of the company. All of the new stock was subscribed for at the meeting by the original stockholders. The plant itself will soon be enlarged and the output will soon be large enough to supply the whole island of Kauai.

A bakery was recently started in the town of Lihue and this place is getting the patronage of the people all over the island. All that now remains to make a perfect town out of Lihue is for someone to start up a newspaper and, to tell the truth, there are some enterprising citizens of the place who are talking up a newspaper scheme now.

Lihue even has a dramatic club which has already given a very creditable performance and which now has in contemplation a minstrel show for some date about two months hence. Practice has already begun and great strides are being made. Prominent among the performers will be Digby Sloggett of this city who is now a member of the force of lunas at Lihue plantation.

The dramatic club has already drawn up plans for a social hall and the best part of it all is that the club has \$1500 which is to be spent toward the erection of the hall. At the last entertainment, \$87 was cleared, all of which goes to show that the Lihue people, besides being loyal to home industry, are fond of amusement.

Passengers who arrived from Kauai in the W. G. Hall Sunday, state that the long wharf the Cotton Bros. have been working on for several months past is nearly completed. It runs about a quarter of a mile out into the water and steamers from Honolulu can go directly alongside and take sugar from the Lihue and Hanalei mills when it is completed. This will be a great improvement over the old state of affairs.

Deputy Sheriff Halvorsen of Waimea has resigned and his place has been filled by W. A. Wright, a brother of Treasurer Wright and a man who knows Kauai like a book.

Fell From Mango Tree.

News came by the Kinau Saturday of the death of Molokai of a Chinaman, Ah Kam, by name, on July 26th. It seems that the Chinaman went into a yard near his home at night time and, climbing up a mango tree, started to pick some of the fruit that the Chinese have such a penchant for. He was just leaning out on a branch for a particularly luscious-looking bunch when there was a crack. The branch broke and he was precipitated to the ground, suffering severe injuries. This was on July 23rd. The poor fellow lingered along for three days and then died. He was known as a very good Chinaman and had many friends.

ATHLETIC ARE VICTORS

SATURDAY'S GAME WAS SPLENDID EXHIBITION

Stars Went to Pieces in Seventh Inning—Braced Up at the Last
—Good Crowd—Enthusiasm in Plenty.

The lovers of baseball were treated to six innings of almost faultless baseball in the game between the Stars and Honolulu Saturday afternoon in their great struggle for the league championship. Six innings of baseball that was as near the standard of professionalism as possible. Six innings of the very best playing that has ever been seen on a Honolulu diamond, but the seventh was altogether different. It was positively sad. Something happened and the Stars are still wondering why they did not foresee it in time to avert the catastrophe. The final result was a victory for the Honolulu Athletic Club, the score being 12 to 5. Following is a summary of the game as taken down the official scorer:

Scorer—Lorrin Andrews.

The Honolulu went to the bat first and they had the pleasure of seeing among the crowd of nearly two thousand people present, a very large number of their supporters who were ready for anything in the line of noise and encouragement. Babbitt was in the box for the Stars and his fine work, assisted by the support of the team, resulted in three outs for the Honolulu in about as many minutes. The Stars then went to the bat and succeeded in scoring a run but the work of the Honolulu was so perfect that there wasn't a chance for any more. In the second inning, the Honolulu secured a run and the crowd went wild. The Stars were shut out and the score was tied. In the third inning, the Stars made one run and the Honolulu were shut out, thus giving the Honolulu a lead of one run. In the fourth, the Honolulu tied the score again and shut out the Stars. In the fifth and sixth, neither team could score and people were simply standing on tip-toes.

This was the time Babbitt should have been taken out of the box for it has been proven that he is good for not more than five innings against a team like the Honolulu. He is an excellent pitcher but he cannot last. For some reason or other, the Stars failed to take advantage of past experience and kept Babbitt in the box with the result that the Honolulu went to the bat and simply knocked the ball all over the field. The Stars became rattled and made a number of costly errors which brought in run after run for the Honolulu until the score during the inning stood 9 runs. The Stars then took a brace and stopped further action on the part of the Honolulu. However, it was too late. The damage had been done. The score stood 12 to 5.

The Stars got in a little work themselves and pulled out two runs after the second man had been put out. In the eighth inning the Stars retired Babbitt and put Castle into the box. The pitching of this plucky little player at once showed that, had he been put in the box one inning earlier, the result might have been different. Each team scored a run and that ended it, for nothing was made in the last inning.

GASOLINE CARRIAGES

NEW COMPANY WILL BUILD THIS HORSELESS VEHICLE

Orders Gone Forward for Material
—Meanwhile Expert Machinists Are Busy in Various Lines.

The Motor Carriage and Machine Co. is a new firm opened up for business on Union street. The active managers of the new concern are I. W. Schoening and S. I. Stewart, two expert mechanics. The headquarters of the firm are at present in a frame building. As soon as Mr. Walters comes home from Germany, work will begin on a new fireproof building on an adjoining lot which will give this bustling concern a home in keeping with its purposes.

At present a force of expert machinists is kept busy in the general machine shop. They repair everything in light and heavy engines, printing presses, linotypes, typewriters, cash registers, safes, vaults, time locks, bicycles, dynamos and all kinds of electric mechanism no matter how intricate. Later on the company will branch out in the line of building horseless carriages. Orders for material for three vehicles have gone forward and a number of persons have placed with the firm orders conditional upon a satisfactory demonstration of the merit of the carriage. There is a field in Honolulu for the horseless carriage. The automobile is too expensive for general use by private parties and in business. This new company will build and put on the market a gasoline carriage for less than \$1000 which will develop eight horse power, run 150 miles without replenishing the oil tank and climb Tantalus and Punchbowl as easy as running a level. It will be some time before these vehicles can be turned out. However, when they appear they will be neat in design and graceful in appearance. Nothing can beat the gasoline carriage as a delivery wagon and they will probably find a general use among the merchants.

The Honolulu gasoline carriage will be run by a lateral double cylinder engine. Two explosions occurring simultaneously neutralizes all vibration. Eight gallons of water forms part of the equipment and with the radiator system perfected it will not be necessary to add more than one gallon weekly, when running steadily. The weight of the carriage will be 600 pounds and it is designed to carry four people.

Mr. Schoening has had a great deal of experience in the business of building gasoline carriages. In Chicago in 1895, he built in sixty days, from the inventor's drawings, a gasoline carriage for the Times-Herald race. This carriage is still working out its career of usefulness on the streets of Chicago. Mr. Schoening came to Honolulu in 1898, and has always held a firm faith that the gasoline carriage would solve the problem of rapid transit on the streets of Honolulu and on the country roads.

General Kitchener's success in South Africa has not been as marked as many had anticipated. He withdraws, however, with the satisfaction that the army office at the other end of the cable has been largely responsible for whatever degree of failure is to be scheduled against him.

The press of these islands needs no defense against such half baked maulin charges as those published by the New York Tribune. Like all newspapers the editors of the island press have at various times been charged with all the crimes in the category by the same kind of curs that produced the Tribune article. These editors, however, are not apologizing to anyone. They do not have to, and certainly not to any snipe gathering denizen of the Bowery who through some apparent mistake earned a few dollars by handing a fake yarn to the Tribune. Hawaii's newspapers have their enemies and each paper is thankful for the enemies it has made. The author of the Tribune article can never rise to the dignity of an enemy. His station in life is at the outlet of the sewer.

KEEP UP THE FIGHT.

The Hilo Tribune taking up the discussion of the duty on coffee accepts the said truths spoken by Mr. Haywood regarding the improbability of Congress granting a protective duty for this local product, and counsels the small planter not to bank on the prospect of higher prices on account of a protective tariff.

The advice of the Tribune is in keeping with the facts of the situation at present, but it is to be hoped that the coffee planters, the business men and the press of the country will not "lay down" and calmly accept the death of the coffee industry simply because there seems to be little chance of securing favorable legislation. It may be accepted as an absolute truth, that the coffee growers of Hawaii will never obtain any assistance from Congress if they throw up their hands and give up.

It is true there is comparatively little American money invested in coffee. The same was true of the tin plate industry and a hundred and one other industries of the Mainland. It is not true now for no other reason than that Congress urged by the business men of the country enacted a protective tariff for the product of these mills. Where is the citizen of Hawaii who is ready to admit that the coffee mills and coffee fields of this Territory are not of as much importance to the welfare of the country as the manufacturing establishments throughout the Mainland, created by the McKinley tariff. This Territory may be a small factor in the national game. It should never be allowed to become so insignificant that its people refuse to make themselves heard in Congress and by reason of their inactivity allow an industry to die out.

A protective tariff for coffee may be improbable but by no means is it impossible. Protection for coffee means a new prosperity for American citizens. It not only opens an acceptable field of labor for the present citizens of the Territory but makes it possible for citizens of the Mainland to establish homes in this and other new possessions. It furnishes an opportunity for the small American farmer with practically no barriers.

Shall Hawaii give up the fight for the protection of coffee just because someone fears Congress will turn a deaf ear?

TERRITORIAL TEMPERANCE

Saturday evening at a meeting of the Francis Murphy temperance pledge signers, called for the purpose at Francis Murphy hall, most important changes were made in the method of management of the movement for practical temperance. The officers of the Gospel Temperance League had filed their resignations with President Franklin Austin to enable him to effect the more permanent organization.

A new charter was adopted which changes the name to the "Francis Murphy Temperance Club Association," and places the power of organizing clubs in all parts of the Territory in the hands of a territorial central board of trustees of five members, and at the same time allows each club the fullest possible measure of self-government, with its own club secretary and local board of directors, all acts of the various clubs, however, being subject to the approval of the central board of trustees.

Franklin Austin was elected president of the new organization by acclamation with power to appoint the central board of trustees to assist him in his work. Upon being called upon to name the trustees, Mr. Austin appointed, subject to their acceptance, J. P. Cooke, auditor; W. D. Bancroft, secretary and treasurer; Mrs. J. M. Whitney and Moses Nakulua, directors. These names were approved by a unanimous vote.

Francis Murphy Club No. 1 was then organized with W. H. Bradley, club secretary and musician; C. J. Austin, F. G. Noyes, A. B. Wallace, Harry Tromby and Mr. Hagius as directors. After 9 o'clock the regular Saturday evening entertainment was given, in which C. S. Desky's flute performance was the principal feature. Mr. Desky so pleased his audience that he was compelled to respond to four encores.

CONSTITUTION INJURED

Newport, R. I., July 25.—The Columbia today, in a rattling thrash to windward from New London to Newport, gave the Constitution a great and unexpected beating. The Constitution finished a good third of a mile off.

The victory was surprising for the race was sailed in weather that, as a rule, has just suited the Constitution, the wind never exceeding a 12-knot gale and the sea being comparatively smooth. It was not until Newport was reached and the Constitution had been shackled to her moorings that an intelligent explanation of her rare good drubbing could be given.

The Constitution following right in the wake of the Columbia, the leading yacht in the big sloop class, struck twice on a ledge near the Race Rock lighthouse. There was a substantial bump on each occasion of the strike, and after this accident the Constitution acted like a lame duck. Mr. Duncan, who is in command said this evening that he believed that some of the plates on the leaden keel were wrenched off by the force of the impact on the hard rock, and that these plates, forming a fin, acted as a drag on the yacht, and made her incapable of showing her usual racing form. A diver was sent down shortly after the Constitution had been docked tonight, but was unable to make a satisfactory examination, and Mr. Duncan decided not to race the boat further until she had been hauled out and opportunity given for a thorough investigation. There will be no race between the big sloops tomorrow, therefore, and the Constitution is expected to go to Bristol to be docked in the morning.

The official finish time was: Columbia, 6:21:55, and the Constitution, 6:34:16. Elapsed time: Columbia, 6:34:16; Constitution, 6:58:31. The course covered was 40 nautical miles.

SATURDAY'S ACCIDENT.

Mr. Colton, formerly of the O. R. & L. Co., Mrs. Colton and a young lady friend, had a very unpleasant experience on Beretania street Saturday afternoon while on their way to the baseball game in a hack. They had just reached Union street when the horse became frightened at something and turned suddenly into that thoroughfare. Before any of the occupants of the hack knew what had happened, they found themselves on the ground. Fortunately, neither one of the ladies were hurt but Mr. Colton was kicked by the horse with the result of some very painful bruises.

The story got about after the occurrence that the accident was the result of the carelessness of the driver but Mr. Colton, speaking to a Bulletin reporter about the affair this morning, said that the driver was in no wise to blame. The horse had become frightened and had gotten beyond the control of the driver. He said further that the man was very nice about the whole affair. He took his passengers back to the stand and there had them transferred to another hack. They were driven out to the baseball grounds, and upon their offering to pay, the hackman refused to take a cent and drove off. Mr. Colton stated that an attempt had been made to get him to have the hackman arrested for carelessness but that he did not intend to do anything of the kind.

An Eastern paper states that "a green little boy, in a green little way, a green little apple devoured one day, and the green little grasses now tenderly wave o'er the little green apple boy's green little grave."

"Miss Passe was bit on the cow by a dog while riding on her wheel."

"You mean on the calf, don't you?"

"Did you ever see a calf 48 years old?"

"No one," gravely announced Socrates, "can arrest the flight of time."

"No!" quizzically interrupted a bystander. "I thought anybody could stop a minute."

And even the disciples of the great philosopher were forced to smile behind their togas.

"Now," remarked the bride, as they departed on their wedding tour, "let us act so that no one will know we have just been married."

"All right," responded the groom. "Just lug this valise."

WIND AND WEATHER

HYDROGRAPHIC FORECAST FOR MONTH OF AUGUST

Area of Calm and Storm Predicted for North Pacific Ocean—Typhoons and Monsoons

---Honolulu.

The following forecast of wind and weather in the North Pacific ocean for the present month, is taken from the Pilot Chart issued July 17:

The main body of the ocean is covered by an area of high barometer, the minimum pressure (30.30 inches) occurred within the area 37°-42°N., 140°-160°W. Around this area the winds circulate in the same direction as the hands of a watch, northwesterly and northerly winds prevailing between the maximum and the coast; northeasterly and easterly winds (the NE trades) on the southern slope; southeasterly and southerly winds to the west of the maximum; southwesterly and westerly winds on the northern slope (to the eastward of 180° Direction will vary from north along the meridian of 125° W. to east in mid-ocean. From 140° W. to 160°E. the freshest and the steadiest trades will be found between the parallels 15°-20°N.

In Honolulu the average prevalence of the trades during August is 30 days. Tedious calms, often extending over several days in succession, will be met throughout the belt 0°-10°N., 120°E.-180°; also throughout a triangular area the base of which rests on the American coast from Cape Lucas to the Gulf of Panama, the vertex lying in latitude 5°N., longitude 130°W.

Winds along the American Coast.—Along the American coast and westward to the 135th meridian the prevailing direction of the wind will be northwesterly. North of 45° and to the westward of 125°, westerly and southwesterly winds will be found more frequent. Between 40°-45° the wind becomes somewhat more northerly, 68 per cent of all the winds between 125°-130° coming from this octant NW-North. To the southward of 40° the winds will be almost exclusively from the northern semicircle, except in the immediate vicinity of San Francisco bay, where southwesterly winds will be frequent. Continuing southward, northwesterly winds may be expected between the coast and a line drawn from 35°N., 130°W., to 15°N., 110°W. South of 15° and as far west as the 130th meridian, SW'y winds will prevail, becoming successively S'y and SE'y as the equator is approached.

Area of Low Barometer.—The area of low barometer which covers Bering Sea during the winter months has already begun to manifest itself, and as a consequence the prevalence of the W'y winds in the higher latitudes is somewhat more apparent than during July.

SW. Monsoon.—The SW. monsoon maintains its full strength throughout August and September, extending northward to the latitude of Shanghai and eastward to the 130th meridian. It possesses neither the strength nor the persistence of the winter monsoon. Along the coast of lower China it blows frequently from the SE. quadrant. During its prevalence the land and sea breezes are also more clearly defined than during the NE. monsoon, and vessels hugging the coast are thus enabled to make headway against it.

Along the western coast of the Philippine Archipelago during August and September light SW'y and W'y breezes will prevail, becoming variable or falling calm after sunset. A steady breeze from any quarter during the entire day is an indication of the existence of a typhoon, the center of the disturbance bearing 2 to 4 points to the left of the point toward which the wind is blowing. For Manila the average climatological conditions during August are as follows: Pressure, 29.83 inches; temperature, 80.8° Fahr.; rainfall, 13.8 inches. During September they are: Pressure, 29.83 inches; temperature, 80.4° Fahr.; rainfall, 14.9 inches.

Cyclonic and Anticyclonic Circulations.—Temporary areas of alternately high and low barometer, with attendant anticyclonic and cyclonic circulation, will be found moving in a generally E'y direction across the ocean in temperate latitudes. In advance of the former the weather is dry (large difference between the wet and the dry bulb), the barometer rises, the thermometer falls, the clouds (cirrus, cirro-cumulus, alto-cumulus) tend to dissolve, and the general direction of the winds is polar or W'y; in advance of the latter the weather is damp (small difference between the wet and the dry bulb), the barometer falls, the thermometer rises, the clouds (cirro-stratus, alto-stratus, nimbus) tend to gather, and the general direction of the winds is equatorial or E'y. The eastward passage of an anticyclone is marked by light winds and fair weather; of a cyclone, by gales, rain and foul weather.

Typhoons.—During August and September the occurrence of typhoons in east Asiatic waters attains its maximum frequency, and four, five or even six of these storms may be expected during these months. Earliest signs the approach of a typhoon is the failure of the barometer to respond to the diurnal oscillation.

Fog, Mist and Haze.—Coast of China from Hongkong to Shanghai, 4 per cent; (i. e., 4 hours in each 100). East-ern Sea and Gulf of Pechili, 8 per cent; Japan Sea, 10 per cent; Bering Sea, 30 per cent; Gulf of Alaska north of 55°, 18 per cent, south of 55°, 32 per cent; American Coast, Puget Sound to San Francisco, 49 per cent; San Francisco to Cape San Lucas, 33 per cent.

Gales of Force 8 and Over.—China Sea north of 10°, 1 per cent; east of the Philippines and Formosa, 4 per cent; south and east of Japan, 3 per cent; 40°-50° N., 150° E.-180°, 3 per cent. Elsewhere rare.

IMPRESSIVE SERVICE

MANY FRIENDS PAY LAST RESPECTS TO THE DEAD

Eulogistic Remarks of Rev. H. H. Parker of Kawaiahao When Speaking of Mrs. Samuel Parker.

The funeral services over the remains of the late Mrs. Samuel Parker took place at the home on King Street Sunday afternoon, the Rev. H. H. Parker of Kawaiahao church officiating. The rooms surrounding the reception room where lay the body, were thrown open and seats placed about for the many friends of the family who were present to pay their last respects to the dead.

Set about on all sides and hanging from the walls were hundreds of various floral designs, while the coffin resting in a perfect bed of flowers and greens, was covered by a great pall studded with little bunches of white flowers and maiden hair. Kahili in a number of stands about the room lent an imposing appearance to the scene and eight young Hawaiians standing motionless at the sides of the coffin slowly waving their kahili back and forth, gave testimony of the high degree of the lady whose death is so much regretted.

The band, stationed at a position on the Ewa side of the driveway and near the front part of the yard, began playing at about 2:45 o'clock, starting with Old Hundred and continuing with solemn selections until the hour set for the service. Shortly before this time, the members of the family took their places at the head of the coffin. Col. Samuel Parker, the bereaved husband sitting between his two daughters, Mrs. Woods and Mrs. Carl Widemann. At the foot of the coffin sat Queen Liliuokalani and Prince David Kawanakoa.

In the meantime, the choir from Kawaiahao church and Wray Taylor, the organist, had taken their places and, at the proper time, the services were begun with the hymn "Rock of Ages." Rev. H. H. Parker read selections from the 23d Psalm and portions of the 15th chapter of Corinthians, following this with an impressive prayer.

Mr. Parker then spoke in a eulogistic strain of the life of the deceased, her love of family and people and, above all, her implicit faith in the Almighty. He referred to a conversation which he had had with the dead lady during the troublous times of a few years ago and mentioned particularly her solicitude for her people. At the close of these remarks, the choir sang "Jesus, Lover of My Soul" and then the benediction was pronounced.

The body will be taken to Waimae, Hawaii, in the Kinau for burial. The family and a large number of friends will accompany the remains to their final resting place.

THE TWO BUILDERS.

Two men, a Chinese legend runs, Once found that each must build a house. And each, in building, was An artisan most skilled.

But one thought of the days of work, And weary was at heart.

The other thought not of the toll, But how 'twere best to start.

The one knelt down before his Joss, With countenance dismayed.

He asked the Joss to build the house, And prayed and prayed and prayed.

The other gathered up his tools, And straight the task assailed.

He hewed the joists, and hung the doors, And nailed, and nailed, and nailed.

The one prayed on before his Joss, Through all the weary while.

The Joss peered from the altar smoke With something like a smile.

The other, when he built his house, Took all the extra planks.

And burned them at the Joss's feet— An offering of thanks.

The one looked up from where he knelt And cried, "Oh, wretched man, You did not wait for holy aid, Yours was a wicked plan."

The other smiled and answered him—"I'd not ask Joss to bless A quality that might be termed As simple laziness."

The beauty of the legend is That it may be applied To any work we attempt, Or any faith beside.

For, asking Providence to do Some toll which we would shirk, Is apt to teach a lazy man The usefulness of work.

—Josh Wink, in Baltimore American.

GROCERS SHOWN UP!

Office of
CARROLL WHITAKER
ATTORNEY.

Hilo, Hawaii.

Hilo, Hawaii, June 7, 1901.

Dear Sirs:—In my innocence I purchased here in Hilo a jar of your Pickles (put up by Mrs. E. G. Kidd, Richmond, Va.). It brought me great trouble, and one of three things must occur:

1. You must stop making them; or
2. I must get them at less expense; or
3. I'm a ruined man.

Since my first venture I've had many "jars." My family from early morn cry "Pickles," neighbors ring the door-bell and about "Pickles," relatives visit me in expectation of "Pickles." Your pickles are my Nemesis. Please, Dear Sirs, quote them by the Keg, Barrel, Hogshead, Ton or Shipload, and "pre-serve" me.

Yours very truly,
CARROLL WHITAKER.

PACIFIC UNION OIL CO.

Located in the Famous Coalings Oil Fields of California.

Proven oil lands, completely surrounded by as rich oil-producing wells as there are in the State, yielding from 50 to 250 barrels per day.

Contract prices for oil at the Coalings wells, 70 cents per barrel.

With twenty-five producing wells of 100 barrels each per day, you can make your own calculation as to profits.

The oil industry of California is in its infancy, yet many fortunes have been made by judicious and lucky investments in oil stock. Many more will be made in the near future.

The average advance on original sales of oil stock in twenty leading companies in California has been from \$1 to \$108 per share.

Oil lands have advanced from \$1.25 to \$10.00 and \$20.00 per acre.

When the Pacific Union Oil Company has a number of producing wells on its property, its stock will have the same show for even a greater advance, as some oil stock has advanced from \$1 to \$1,500 per share.

The Pacific Union Oil Company has no salaried officers, and is controlled by well-known gentlemen of integrity, who will see that the money derived from the sale of stock will be legitimately applied to the development of its property.

For further information, apply to J. H. FISHER & CO., Stock and Bond Brokers, and Hawaiian agents for the sale of a limited amount of Pacific Union Oil Company stock. Stangenwaid building, Merchant street. 1903-1mo

HOMEWARD BOUND

The Mail Steamer Aorangi Comes and Goes—Was a Day Late in Leaving Coast—Many Passengers.

The gunboat Bennington and the mail steamer Aorangi entered the harbor Saturday afternoon almost together. The warship came from Yokohama in fourteen days and the mail boat made a fast run from Vancouver which port she left twelve hours behind time.

The Bennington is homeward bound after an absence from San Francisco of over three years. For several months before annexation she was stationed in this harbor and left here in February, 1898, for the Asiatic station. She has seen some stirring times since she was last here and did her share of the work in the Philippines. Commander E. K. Moore, who was here in the Boston during the trouble in 1892-93 is in command of the Bennington. He is well acquainted here as since his first trip in the old sloop-of-war Portsmouth in 1873 he has been a frequent visitor. Her officers, several of whom are known here, are as follows: Commander E. K. Moore, U. S. N.; Lieut. R. F. Lopez, U. S. N.; Lieut. N. A. McCully, U. S. N.; Lieut. S. E. Moses, U. S. N.; Lieut. G. L. P. Stone, U. S. N.; Ensign G. B. Rice, U. S. N.; Ensign W. H. Reynolds, U. S. N.; Ensign A. Crenshaw, U. S. N.; Ensign W. C. Asserson, U. S. N.; P. A. Surgeon R. M. Kennedy, U. S. N.; P. A. Paymaster G. C. Schafer, U. S. N.; Pay Clerk E. C. Griawold, U. S. N.

The vessel carries a crew of 164 enlisted men and 18 marines. She will remain here until Thursday taking coal and water and continue to Mare Island where she will go out of commission. She has been in active service continuously for two years.

The Aorangi which was expected early Saturday morning from Victoria was late in arriving as she was delayed twelve hours waiting for the mails. She left Vancouver early on the morning of the 27th and made the run to port in seven days and a few hours. Her passenger list for port was a large one and she had over eighty through passengers for the Colonies. The vessel left here shortly after 2 o'clock Sunday morning as she is making an effort to arrive at Sydney on schedule time. Purser Mason furnished the following report of the Aorangi's trip to port: In consequence of a delay in the arrival of the mails at Vancouver, the R. M. S. Aorangi, C. W. Hay, commander, left that port one day late. Called at Victoria, B. C., and after taking on mails and passengers there, proceeded on her voyage on the 27th July, from which date until the 30th of July, westerly and west north westerly winds were encountered, after which easterly and east north-easterly winds set in and prevailed until arrival. Throughout the weather has been fine and the sea smooth, though strong adverse currents have somewhat retarded the ship's progress.

Passed and exchanged signals with the company's S. S. Moana at 2:50 a. m. on the 2d inst.

Billy Keating, an old resident of the Islands and a stone mason by trade, died at Ewa plantation on August 1. Deceased was a native of Canada of Irish descent. He came here twenty-five years ago and worked for John Carden for several years. The wife of the deceased is expected by the next steamer from the Coast, she having been sent word of the illness of her husband.

Legal Notices.

IN THE CIRCUIT COURT OF THE FIRST Circuit, Territory of Hawaii. In probate, at chambers. In the matter of the estate of A. C. Peatana, deceased. ORDER TO SHOW CAUSE ON APPLICATION TO SELL REAL ESTATE. On reading and filing the petition of M. A. Gonsalves, of Honolulu, Island of Oahu, as administrator of the estate of A. C. Peatana, deceased, late of Honolulu aforesaid, praying for an order authorizing and licensing the said administrator to sell certain real estate belonging to said estate described as follows: All that certain parcel of land, situated on the East side of Makiki Street, Honolulu, Oahu, fronting 1/2 foot on said Makiki Street, with a depth of 1/2 foot, and bounded on the north side by land of John Ouderkirk, on the south side by land of Henry Lane, and on the east side by land of Henry Lane, and containing an area of 1/2 square foot, with two cottages thereon; and setting forth certain legal reasons why said real estate should be sold to wit: That there is not sufficient personal property belonging to said estate to pay the valid debts against the same, and that such debts aggregate the sum of \$3145.

Now, therefore, it is hereby ordered that all persons interested in said estate appear before me at chambers, in Probate at the Court House in Honolulu aforesaid, on FRIDAY, the 5th day of SEPTEMBER, 1901, at ten o'clock in the forenoon, and there show cause why such order should not be issued. And it is further ordered that notice of this order be published at least three successive weeks before the said day of hearing in the Evening Bulletin, a newspaper of general circulation, published in Honolulu aforesaid, the last publication to be not less than ten days previous to the time herein appointed for said hearing.

Dated Honolulu, T. H., this 31st day of July, A. D. 1901.

GEORGE D. GEAR,
Second Judge of said Court.
