MRS. BISHOP'S MEMORY IS HONORED

Services Are Held in Chapel of
the Schools Which She
Founded.

W. O. SMITH MAKES ADDRESS

Despite Inclement Weather, Many
Turn Out to Take Part
in Exercises.

Rain and wind marred the memorial services, held yesterday by the pupils of the Kamehameha Schools, and participated in also by the alumni and alumnae. But, although the weather caused the anniversary of Founder's Day to be cut short, it did not dampen the enthusiasm of those who strewed the tomb of Mrs. Bishop with flowers, or impair the earnestness of the tributes.

At the chapel in the Kamehameha Schools grounds, the memorial services were opened with prayer, and until the last flower was dropped at the mausoleum on Nuuanu avenue Bernice Pauahi Bishop reigned in spirit over those who gather annually to do honor to her memory.

The Hon. William Owen Smith, president of the board of trustees of the schools, delivered the address of the day, and songs and music rounded out the program. The music was remarkable, and the choruses of the boys and of the girls were particularly fine.

Tribute to Founder.
Mr. Smith's speech was a notable tribute to the princess whose earnest work for her race has a lasting monument in the splendid schools which yesterday celebrated her birthday.

"This is the anniversary of the birth of Bernice Pauahi Bishop, born December 19, 1831," said the orator of the day, in opening, "and it is well to observe anniversaries of this kind. It is to remind us and keep our memory fresh that we observe Christmas and the birthdays of our friends. In speaking of Pauahi—I do not know which name I like best—and her great love and the work which she has done for the people of these islands, the feature I would emphasize most is her thoughtfulness for others.

"Personally, she was a most attractive woman, handsome in person and engaging in manners. She was a refined, gentlewoman, wealthy, unassuming. In her girlhood and youth she was respectful and obedient to her parents and to her teachers, and much loved by them and by her companions. She was unostentatious and avoided display. She became the wealthiest woman in these islands, and was prudent and simple in her tastes, although her home, wardrobe and jewels were of a high order.

"She was very fond of children, but had none of her own. She was most thoughtful and considerate of others, and of rare judgment. Many sought her advice and assistance.

Hawaii's Women.
"Among the Hawaiians there have been a number of notable women. First of these was Kuahumahu, wife of Kamehameha I. She was a woman of rare character and ability. The King made her kuhino nui, and she was instrumental in breaking up the tabus, even before the missionaries came in 1820.

"Next to her was Kapiolani, who succeeded her as premier. Kapiolani was the one who defied the goddess Pele, and to demonstrate this she traveled on foot from Kona to Hilo, about 160 miles, stopping at Kilauea and openly defying the dreaded goddess.

"After Kapiolani, Kinau should be named, who was a daughter of Kamehameha I, and premier after Kapiolani. She was the wife of Kekuanaoa, and was the mother of two kings—Kamehameha IV, and Kamehameha V. Queen Emma, wife of Kamehameha IV, ranked among the notable and greatly beloved chieftesses.

Princess Pauahi.
"Bernice Pauahi Bishop lived in a different time from that in which Kamehameha lived. (Continued on Page Four.)

ANOTHER JAPANESE BARON IS COMING

Baron Kikuchi, president of Kyoto University, is a through passenger on the Japanese liner Nippon Maru, due here December 31 from Yokohama. He is en route to New York to attend the dedication of the Pacific Forum, where he will deliver an address on the "Progress and Development of the Japanese Race." If the vessel remains here over night, he will deliver a lecture under local auspices.

MUST PUNGE UP HIS POLL TAX

Inspector Noyes Will Contribute
Two Years' Assessments to
the Territory.

The tax office got it. An insatiable curiosity to find out what "it" is can be satisfied by asking Fred Noyes, who is night inspector at the customhouse. Mr. Noyes would mournfully inform you that "it" is his poll tax for the past two years. Mr. Noyes didn't want to pay his poll tax, and neither did any of his fellow-inspectors, and Charlie Wilder, who holds open the lid of the territorial strong box, instituted suit against him. The suit was decided by Judge Andrade last Friday, and Wilder, as a result, will hear an extra tinkle or two in that some strong box.

The federal officials, and particularly officials of the customhouse, have maintained that such a tax is unconstitutional when applied to them, as it reduces the stipend per annum that they receive from Uncle Sam. E. A. Dou-thitt, who represented Noyes, quoted as his principal authority the case of Erie County vs. Dominis, which was decided by the United States Supreme Court in 1842.

Mr. Dominis, or, rather, it should be Captain Dominis, was a skipper of a revenue cutter in the service of Uncle Samuel who was assessed under the tax laws of Erie county, New York. The doughty skipper raised a howl and, on the same grounds advanced by Noyes, won his "howl."

But Judge Andrade upheld the contention of the plaintiff, that this decision, which has become famous, applies only to income taxes and that a poll tax is a purely personal one and is perfectly constitutional.

This case has meant much to the inspectors and other officials at the customhouse, and Andrade's decision was eagerly awaited. This same interest, and also the fact that the decision against Noyes is, in application, a decision against all of them, will cause the case to be carried to a higher court. Deputy Attorney-General Sutton, represented the Territory in this case.

JAPANESE SCHOOL IS DEDICATED

The new Japanese schoolhouse at Waimanalo plantation was dedicated yesterday with considerable ceremony. This is the building which the Japanese of Waimanalo decided they wanted and for which Manager Chalmers gave much of the lumber. Editor Sheba of the Hawaii Shimpu made an address, and was followed by Manager Chalmers, who spoke on the present harmonious relations existing between the Japanese and the plantations.

PHYSICAL TEST IS TO COMMENCE TODAY

Today is the date selected by Colonel Schuyler, Fifth Cavalry, commanding officer at Schofield Barracks, for all army officers in and about Honolulu above the rank of captain to take the annual physical test required by presidential order during the Roosevelt administration. The officers will all ride horseback, covering a ninety-mile course. The officers to participate in the test are: Colonel Schuyler, Major Cree, Coast Artillery Corps; Major Dunning, Twentieth Infantry; Major Winslow, Corps Engineers; Major Hart, Commissary; Major Foster, Fifth Cavalry; Major Wadhams, surgeon.

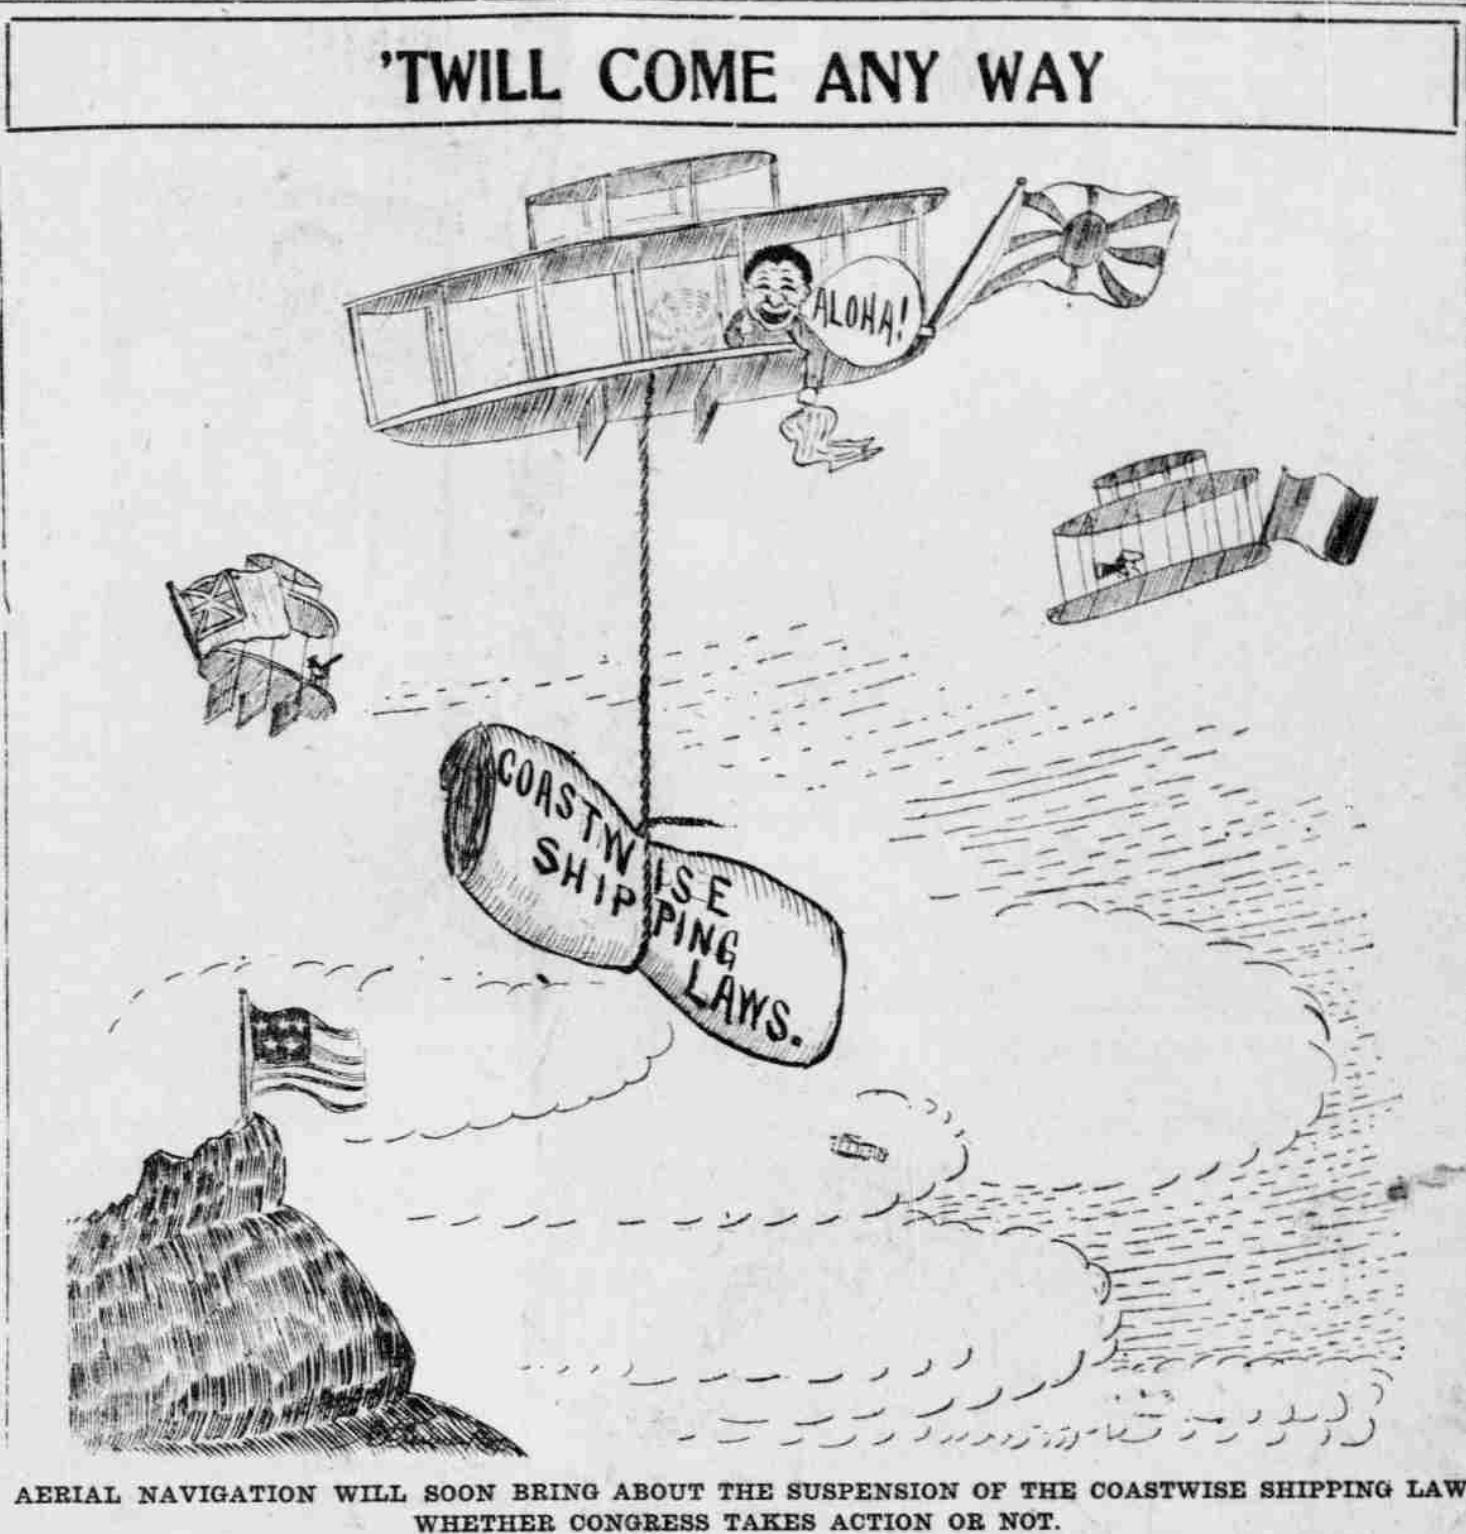

MORTGAGED HOME FOR SUFFRAGISTS

Mrs. Belmont Raised One Hundred Thousand Dollars
to Aid Cause.

(By Associated Press.)
NEW YORK, December 20.—In order to aid the suffragists in their fight, Mrs. Belmont placed a mortgage of \$100,000 on her Madison square home. The facts in the case became public yesterday when Mrs. Belmont bailed four striking workers out of jail. She gave her home as security for the bail money and made the statement that the property is covered by a \$100,000 mortgage. She then explained her reason for mortgaging the home.

MANY HUNTING FATALITIES.

CLEVELAND, Ohio, December 6.—Ten persons were killed and thirty-nine injured, six probably fatally, in Ohio during the three-week hunting season which closed Saturday night. Of those injured, many were crippled for life, several lost a foot, a leg or a hand, and a few were blinded.

DEFINITION OF ETERNAL LIFE

Rev. A. A. Ebersole Points Out
Importance of Proper
Understanding.

At Central Union church last night the Rev. A. A. Ebersole delivered a very strong address on Eternal Life and Its Proper Definition. He took as his text and his definition, John 17:3, "And this is life eternal, that they should know the only true God, and him whom thou didst send, even Jesus Christ."

Speaking first of how certain all the ancient philosophers were of the existence of a future life, and quoting from many of their writings, he then referred to the above description and said "It is a very important definition because it corrects the false conception, still held by too many people, that the Christian religion is a sort of life-saving apparatus, a sure means of getting safely out of this life of sorrows and woes into the blessed land above."

Continuing he went on to show the necessity of knowing God. "To know God by intimate association with Him through a long period of time and by actually engaging our powers in helping to make a reality the Kingdom of God here on earth."

An Interesting Address.
At the Epworth league meeting at the Methodist church yesterday, Miss Eva Boardman was the leader and delivered a very interesting and instructive address on "Leavening the Lump." She said in part:

"In the parable which we are studying, leaven is used to represent life. Leaven is an example of the rapidity and thoroughness with which some forms of life, under favorable conditions, are multiplied until they have penetrated to every part of the mass into which they are introduced. So Leaven is a fit symbol of our religious capacity for expansion.

"Our religion was introduced into the world a living, aggressive force, which in the first century was helped in its progress by the conditions into which it came. There was political unity, under the Roman empire, every part of the world being as open as every other part, to the missionary's work. The military roads made travel easy and safe. Greek was the common language of the people.

"Beside these conditions, there were favorable conditions which grew out of the preaching of the gospel. At Pentecost, men were converted from many lands, who went back to their own countries to become missionaries. Persecution scattered the Christians, who preached as they fled. The first Christians were not all slaves, nor poor, but men and women of all classes accepted Christ.

"The gospel was triumphant in the first century because there was no special missionary class. All Christians were missionaries. They did not wait for formal openings, if they could not find a crowd, they were satisfied to go to the individual. And also because prayer was exalted as a mighty and available force.

"No great enterprise was undertaken without it. From Pentecost forward (Continued on Page Eight.)

LAST TRIBUTES TO MISS SMITH

Beautiful Flowers Laid Upon the
Casket of Victim of Auto-
mobile Accident.

"She is not dead—she is just away," was the pretty sentiment uttered by Dr. Doremus Scudder, pastor of Central Union church, during the services held yesterday afternoon over the remains of the late Miss Harriet D. Smith, the young woman who lost her life in Wednesday night's auto accident. It was a line taken from the beautiful verses of James Whitcomb Riley, with the gender of the personal pronoun changed. Dr. Scudder read the verses through and not only to the bereaved girl companions of the deceased but to the company of friends gathered to pay a last tribute of affection did the verses seem singularly appropriate:

I can not say, and I will not say
That she is dead—she is just away!

With a cheery smile, and a wave of the hand,
She has wandered into an unknown land,

And she left us dreaming how very fair
It needs must be, since she fingers there,

And you—O you, who the wildest yearn
For the oldtime step and the glad return,—

Think of her faring as dear
In the love of There as the love of Here.

Think of her as the same, I say;
She is not dead—she is just away!

The services were held at four o'clock at the Kimball cottage on Lunalilo where the deceased with her companions, Miss Hegemann, Miss Lucy Hegemann and Miss Nason, have made their home since their arrival a few weeks ago on the steamship Mongolia. The beautiful casket rested in the little dining-room surrounded and laden with beautiful floral offerings. Pillows of fragrant Tantalus violets and wreaths of roses with clusters of waxen lilies were tenderly laid upon the casket.

The services, conducted by Doctor Scudder, were simple. The regular funeral service was read, and an appropriate portion of the Scriptures, while James Whitcomb Riley's verses were interpreted. There was no singing and after the brief ceremony all but intimate friends retired from the cottage, and the casket was then opened again for the dead girl's companions to gaze once more upon the face of their friend. For a few moments only these four were alone, and for the last time, and the casket was then closed and borne to the undertaking parlors of H. H. Williams, where it will remain until this afternoon when it will be taken aboard the S. S. Korea to be (Continued on Page Four.)

CASH OFFER FOR LIBRARY SITE

Failure of Exchange Proposition
May Lead to Outright
Purchase.

With the refusal of the directors of the Honolulu Library to consider the offer of exchange made them by the Young Men's Christian Association, it becomes necessary for the directors of the latter organization to cast about for some new plan. A meeting of the Y. M. C. A. directors will probably be held next Wednesday afternoon.

Although formal notice that the deal is off has not been given the association directors by those of the library, it is not thought that there is any hope of it going through. It is now thought that a cash offer will be made the library directors for their property on the corner of "Alakea and Hotel streets, and it is further thought that it will be accepted. It was supposed that the offer of exchange would be acceptable, as in conversation the directors of the library seemed to favor the idea.

Paul Super and several of the directors of the Y. M. C. A. favor the acquisition of the Waterhouse lot where Mrs. Kerns' jam factory is at present situated, whether the library plot is secured or not, but as there are others on the board who are not favorable to this scheme, it will probably receive a great deal of discussion at the next meeting.

MAJOR AND MRS. RAY LEAVE TODAY ON KOREA

Major Beecher B. Ray, Paymaster, U. S. A., and Mrs. Ray leave today on the Korea for San Francisco for the benefit of Mrs. Ray's health. Major Ray received leave of absence by cablegram from Washington only last Friday. His leave is for one month, although this may be extended, depending largely on Mrs. Ray's condition. Mrs. Ray has not been well since arriving from the Philippines. During the major's absence his duties will be performed by Major Hains, paymaster, who may arrive here on the Mongolia about December 27.

MADRIZ IS HAILED AS COUNTRY'S SAVIOR

Wild Demonstration Greets Him
on His Arrival at City
of Managua.

(By Associated Press.)

MANAGUA, Nicaragua, December 20.—Madriz arrived here yesterday and was hailed as the savior of his country, amid wild demonstrations. So dense was the throng of persons assembled to greet him that a party of Madriza's friends were forced to form themselves into a bodyguard and, with revolvers drawn, force a passage through the mob in order to reach the hotel.

VAST FORTUNE COMES TO PARR

Man Who Unearthed the Sugar
Frauds Will Receive Nearly
a Million.

LOEB APPROVES THE CLAIM

Law Provides That Discoverer
of a Swindle Shall Be
Rewarded.

(By Associated Press.)

NEW YORK, December 20.—At least \$700,000 will probably accrue to Deputy Collector of Customs Richard Parr for his part in unearthing the gigantic frauds connected with the weighing of sugar. Collector of the Port Loeb yesterday approved Parr's demand for a share of the money which the government recovered through his astuteness, and at the most conservative estimate the amount must be sufficient to make Parr a very wealthy man.

The law provides that in such cases, the person discovering a fraud shall receive not to exceed fifty per cent. of the money which the government recovers by virtue of the discovery. A restitution of \$2,000,000, representing duties evaded by tampering with the scales, has been made by the sugar interests. If the demands of those associated with Parr in running down the frauds are allowed, the share of the deputy collector will probably amount to \$700,000 or more.

Parr is the man who became convinced that employees of the American Sugar Refining Company were managing to evade duties in some manner, and instituted the search which disclosed the fact that the official scales were being so tampered with that every lot of sugar registered far below its actual weight.

TRAINMEN DEMAND INCREASED WAGES

Seventy-Five Eastern Railroads
Are Affected by Edict
Sent Forth.

(By Associated Press.)

PITTSBURG, December 20.—The Brotherhood of Railway Trainmen yesterday sent out notifications that a general increase in wages must be granted. Seventy-five railroads east of the Mississippi are affected by the demand, which goes into effect tomorrow. In its ultimatum, the brotherhood insists that increases ranging from five to forty per cent. be granted. About 75,000 trainmen would be concerned should the demand be complied with.

HAYSTACK MASTS SOON IN PACIFIC

Orders Are Issued to Equip the
Fleet of Admiral Sebree
in the Spring.

(By Associated Press.)

SEATTLE, December 20.—The warships of the Pacific fleet are to be equipped with the new skeleton masts in the spring. The order has been issued by the navy department and arrangements will be made at once to carry out instructions.

The skeleton masts, popularly known as haystacks, are already being installed as rapidly as possible on the vessels of the Atlantic fleet, and the new order indicates that the naval authorities have found them thoroughly satisfactory. The skeleton mast has been demonstrated to be more nearly immune from the effects of gunfire than any other type.

CHRISTMAS IN BETHLEHEM

A PRESENT-DAY CELEBRATION ON THE VERY SPOT WHERE, NEARLY TWO THOUSAND YEARS AGO, THE SON OF GOD WAS BORN AS MAN TO BRING THE GOSPEL OF HOPE TO THE WORLD.

M'BRIDE WANTS BLOODY KNIFE

Would Have Placed All Police Officials on Rack to Get Weapon.

Claudius McBride, sometimes lawyer, sometimes private secretary to Governor Frenar, or else claimant to the Acting Governor's job, met with another repulse last week in his capacity as an attorney. Having been chosen to defend Kato, a Japanese charged with assault with a deadly weapon, and becoming aware of the fact that the knife with which the assault was made was in the hands of the prosecution, he made a noble effort to obtain possession of it, and failed.

The prosecution did not care to let the defense see it; in fact, didn't even admit that it had it, but as McBride was sure that it did, he subpoenaed almost the entire police staff, and then some. Among these were Sheriff Jarrett, Chief of Detectives McDuffie, Deputy Sheriff Rose, County Detective Lake, police stenographers and police clerks.

One of these, he argued, had possession of that knife, and he wanted it badly. Deputy County Attorney Milverton of the prosecution, however, not caring to give the case away, went up to court to fight the motion to have the subpoenas issued, and won out.

There is a section in the revised laws that McBride thought favored him and which provided for the action which he wished, but Milverton showed the court that there was no precedent for its use in a criminal suit, and the motion was overruled.

Now McBride needs that knife in working up his defense, and he needs it to win out, or that is the way it looks to him. Meanwhile, he is wandering unconsolated about the haunts of the police to see whether or not that knife is sticking out of anybody's back pocket.

However, if he holds up Capt. Harry Lake, city and county detective, some dark night, he may discover it. Captain Harry found it in the brush near the scene of the scrimmage—or McBride has confidential information to that effect.

ACCIDENTAL SHOT IS CAUSE OF DEATH

Parker Ranch Manager Killed by Bullet From His Own Revolver.

The Hilo Tribune gives the following account of the killing of Wilcott L. Vredenburg, manager of the Waiki section of the Parker Ranch, on Hawaii last Sunday morning:

"Vredenburg went out hunting last Sunday morning, being accompanied by his son. Both rode horseback. Vredenburg shot a pig, and, placing his revolver in his pocket, he descended from his horse in order to despatch the wounded animal. The revolver fell from his pocket. It was discharged in striking the ground, and the bullet passed through the unfortunate man's heart.

"He fell to the ground and, saying to his son, 'I am make, I am make,' he expired on the spot. This happened about fifteen miles from Vredenburg's house.

"Vredenburg had been in the Hawaiian Islands for many years. He had an exceedingly large circle of friends all over the group, as he was an exceedingly pleasant and accomplished man. He was very practical, and added to this an unusual musical talent, one of his performances which secured him local fame being his ability to play the cornet and accompany himself at the piano.

"Vredenburg spent most of his life in Hawaii in the South Kohala district. He was first the principal of the public school at Waimea. Later on he went into the chicken business, and when the Puako plantation was started he became its manager. He then started in the automobile transportation business, with Waimea as his headquarters, and finally accepted a position as manager of the Waiki section of the Parker Ranch. When the ranch began extensive farming in this section, such as corn-planting and hay-raising, Vredenburg was in charge of this work."

PLAYED CAPTAIN IN FINE STYLE

Would-Be Skipper Anchors Craft in Stormy Waters of Wharf Slip.

There are many amusing stories told along the waterfront of the doings of Hawaiian sailors in the days when the monarchy was in the height of its glory. They tell a story down on the old Wilder docks of a crowd of Hawaiian sailors who visited the dock one night in an intoxicated condition. A steamer was tied up at the wharf with nobody aboard except a watchman; and he was asleep. The sailors thought it would be great fun to play captain and crew. One mounted the bridge while the others went into the wheelhouse. One called himself first mate and planted himself on the bow and others took positions which suited them. There were some who just played plain sailor.

"Hey, first mate, how much water are we drawing," shouted the "captain."

"Eighteen feet and running up on a reef," was the answer of the "mate."

"Let go the port anchor, then," shouted the "captain," and the anchor was tripped and all the chain ran out and finally snapped and went to the bottom of the slip.

"How's the water on the starboard side?"

"Eighty fathoms."

"Let go the starboard anchor," growled the "captain," and over went the starboard anchor and the chain ran to the end.

Finally one of the sailors known as Centipede got into a row on the bridge

and there was a free-for-all fight. The result was that one sailor fell over the side and was killed and Centipede fell and struck his head on a brass-railing. There was verdi-gris on the rail and the result was that Centipede lay in the hospital several months.

Recently a load of powder was stored in a hold. The captain asked a Hawaiian member of the crew if he thought it was all right. He received an affirmative answer, but an hour later the captain went below. He saw the same Hawaiian standing on a barrel, calmly rolling a cigarette and preparing to light up. The Hawaiian desisted and when ordered to get up on deck he complied with the order, but looked as if he thought the captain were crazy.

A short time ago a pig came to one of the employees of the Inter-Island steamship company. One of the sailors took it in charge, got drunk, forgot that he was only caring for the pig, collected a wheelbarrow full of shavings, got some irons, and dumped the lot on the wharf floor. He was calmly preparing to make a fire to roast the pig when an employee of the company kicked the shavings all over that portion of the wharf and promised to do the same with the Hawaiian if he tried any more experiments like that.

THE BONINE MAKES A RADICAL CHANGE

An important change takes place at the Bonine tonight, and from now on, every evening of the week will be an evening of entertainment, commencing at seven o'clock with frequent changes in clever vaudeville and the choicest products of the camera from all parts of the world.

WATCH FOR SYMPTOMS OF CROUP

Do not allow croup to develop. Chamberlain's Cough Remedy will prevent the attack. Watch for the first symptom, which is usually hoarseness, and give this remedy freely. It should always be kept in the home where there are young children. For sale by Benson, Smith & Co., Ltd., agents for Hawaiian Islands.

FRAMES

AND PICTURES, ENTIRELY NEW IN EVERY RESPECT. THEY'RE GOOD FOR CHRISTMAS.

PEARL WINS IN A GALE OF WIND

Skipper Stone Beats All of the
Wrens—Was a Most Exciting Event.

Standing of Boats in Freak Series.

Boat	1st	2nd	3rd	Pts.
Pearl	1	0	0	3
Dancing Sally	0	1	0	2
Ehakamanno	0	0	1	1

The weather man turned right around yesterday and, instead of teasing the small-boat sailors with a dinky little attempt at an occasional puff of wind, he sent out a real northerly gale.

All the morning it blew and it blew, and by the time the boats were ready to start, the wind was coming down over the hills with great force.

There were four wrens in the race. The Galloping Mary was not there, as there was nobody to sail her, but Ray Rietow's newly-launched wren was at the starting line. Also there were two Pearls. Luther Hough sailed the Pearl, Skipper Stone was at the helm of the Dancing Sally, Charlie Wilder sailed his wren, and Kenneth Brown the Roaring Gimlet, Ray Rietow steered his wren, and Max Bolte skippered the Ivy.

At the start all the boats moored. Those who had anchors dropped them and put floats on their lines. At the signal to go, everybody hoisted sail and went speeding down the harbor for the spar and bell buoys.

All the wrens got away clear, but there was quite a mixup between the two Pearls, and Max Bolte drifted over onto the sand before he got clear. The Pearl soon began to gain on the wrens and she took the lead before the first round was finished.

As usual, Mr. Stone sailed a remarkable race. He easily outdistanced all the other wrens, and made it hard for the winning Pearl. He again demonstrated the fact that he is the jim Dandy small-boat sailor of Honolulu and has all the others beaten at every point of the game.

The race was exciting all the way through. The force of the wind made it necessary to reef, and every craft took in all the canvas possible, except the Pearl. The gallant little craft kept all her rags showing, and weathered it through in great shape.

While an interesting and properly exciting event, the idea of the standing start did not meet with general approval, on account of the likelihood of collisions happening.

The next freak race will be next Sunday, starting at the same time unless the committee decides to have it in the morning. Several of the small-boat sailors would like to have the races in the morning. Will McNerny and Charlie Wilder have both said so; the Galloping Mary is all for the morning, and if the other sailors are agreeable, it would be a great convenience to some of them to have the races earlier. An expression of opinion on this point is requested.

Now that the walking races are over, the fans are beginning to sit up and take notice about the big Diamond Head-J. A. C. series that is due to start next Sunday. Everything points to intense interest in the games.

Eddie Fernandez is back in town and will be able to play for the sparklers next Sunday. He was out to watch the walking race yesterday.

MORE INTEREST IN ATHLETICS

Field and Track Events to Be Revived by an English Association.

LONDON, December 4.—The English Amateur Athletic Association has

started a campaign for more interest in British field athletics. The neglect of field athletics in the British Isles has been pointed out time and again in the press until finally the association has been compelled to take some steps. The central body of the association recently voted the sum of \$300 to its three branches, namely, the North, the Midlands, and the South. Prizes will be purchased with these amounts to stimulate interest in contests, and in addition the necessary paraphernalia, such as hurdles, shots, hammers and so forth, will be provided.

England hopes to equal the United States in field athletics, but the sporting writers point out that it will require much hard work even to approach the high standard set in the States. The colonies will be asked to brighten up their field sports and competitions will be held to breed brawn and experience. Coaches are lacking, but a movement is on foot to establish an advisory club, which will provide competent men to lead the efforts of the athletes.

The Amateur Athletic Association of Great Britain will not send a team to Athens in 1910 to compete in the Olympic games. It was pointed out that the young athletes could not be expected to drop their business affairs every two years for a period of six weeks or two months to compete in the international games. Then too, training takes up a great deal of time, so that the affairs of many of the men suffer greatly. But in 1912 England hopes to have the strongest team in the world in the Olympic games.

International sports will be somewhat dead in 1910. So far as known now, England will not try to bring back the international polo cup from America. Sir Thomas Lipton will not try to lift the international yachting cup until the following year. Neither American nor England will be represented in the Olympic games. It is reported that the invasion of American horses will not be so strong next year, owing to the different circumstances arising which affect the turf in the States. There will be some international boxing, but the big fellows will not be in it. Field sports will not have sufficiently advanced to hope for international games in 1910. Our only hope lies in the international collegiate meet.

We are now looking for Freddie Welsh to fight and whip Battling Nelson, acquiring to himself the title of lightweight champion of the world. Of course, Welsh is already lightweight champion of England, but he wants to get at Nelson. Both are willing to fight, but Nelson will not enter the ring unless for a forty-five round bout. At ten or fifteen rounds Welsh would get the decision, but it is really doubtful if he could cope with the superhuman staying powers of the Americanized Dane.

BRITONS OUT TO WIN INTERNATIONAL CUP

NEW YORK, December 5.—Three British-built motor yachts will compete for the international cup next summer.

Walter Murray Beiling, secretary of the Motor Boat Club of America, has just received word from the Motor Yacht Club and the British Motor Boat Club that they will ship to this country two and one of the 40-footers, respectively.

There has been considerable discussion in Great Britain as to which of the organizations should challenge for the international trophy, but as both have done so matters have been considerably simplified.

The motor boat that will represent the British Motor Boat Club is now being designed by Charles Burgoyne and will be constructed by the Orleans Motor Company of Twickenham, but

work on the others to be sent by the Motor Yacht Club has not started as yet.

In view of the strong British endeavor to secure the trophy, American motor boat enthusiasts will find it necessary to be up and doing if they desire to successfully contend next summer.

Sport Notes

Johnny Murphy was an interested spectator of the race yesterday and was tickled all over to see his friend Dick Sullivan win.

Will Chilton was unable to act as a judge yesterday. He telephoned in from Ewa, or somewhere down the line, that his buzz cycle had broken a hind leg or something and that he would have to take the train in.

Eben Low sailed down the course yesterday on the deck of a fore and aft cayuse. He carried a belaying pin with which to keep the crowd back, and was the real old cowboy sailor. His horse quite understands him when he sings out orders to "wear ship" or "haul yer luff."

(Additional Sports on Page Six.)

THE DIPLOMATIC SERVICE.

Secretary Knox's plan to increase the efficiency of the diplomatic service, which has been approved by the President, is in logical extension of the principle adopted by Secretary Root, says the Washington Star. The service was for many years regarded as chiefly political in its character, posts of importance being given almost exclusively to partisans without reference to experience or special fitness. The purpose of the present secretary of state is to secure for the important work of representing the United States abroad young men of ability who will be induced by the circumstances of the service and by the prospect of promotion and reward to consider such occupation as a permanent career.

The merit principle of retention and promotion is by this latest order firmly established as the basis of the service. Places are to be filled by a process of careful selection, incumbents in the service working upward from minor posts to those of major importance, with the secretaryships of legation considered as definitely a part of the diplomatic establishment so that the holders of these places become eligible to promotion to ministries upon demonstrating their fitness.

The present position of the United States with relation to other countries renders it in the last degree important that it should be represented abroad by men who are in thorough sympathy with the national policies, and at the same time equipped by nature and by experience not merely to handle difficult questions in emergencies, but to adjust to the routine of foreign representation with a maximum of benefit to the home government. The test of a diplomatic representative does not necessarily lie in the manner in which he conducts some great negotiation or handles some delicate question possibly involving a breach of relations. Our interests are largely those of peace, and it is important that a nation occupied in the widely extended lines of trade which the diversified industries of the United States now follow should be constantly in harmonious touch through its diplomatic service with the commercial forces of the world, and should be in a position to take advantage of all opportunities for trade expansion.

Our foreign service, developed on the principles advanced by Secretary Root and extended by Secretary Knox, should soon become as efficient as any in the world. American schools and universities are preparing young men in great numbers for professional careers. The United States should enjoy the benefit of the participation of some of these well-trained citizens in its own work, and by rendering the diplomatic service attractive by offering the inducements of promotion and permanence, it will draw into the ranks of its foreign representatives many men of the highest capacity who heretofore have been discouraged from considering this line of employment other than as a means to other ends.

BOREAS AND THE EYESORES.

For once at least the storm king has joined hands with those who are striving for a more attractive city. Old Boreas has laid numerous billboards low, and there are those folk who are unkind enough to chuckle with fiendish glee at the havoc wrought.

Promotion literature is discreetly mute regarding the omnipresent billboard, and while it dwells at length on the beauties of the royal palms which nod their heads in the gentle breeze, no mention is made of the stalwart barriers which, in letters more brilliant and varied in hue than Joseph's coat of many colors, tell to the world at large the wonders of Peckham's Purple Pellets.

Honolulu is enterprising. Her tramway system is thoroughly up to date, her electric and gas equipments are on a par with those of any city in the world, a telephone service as nearly perfect as human ingenuity can evolve is rapidly being installed, and she can boast the very latest thing in billboards.

But things which pass muster in one part of the world are not always equally desirable in another. Billboards may be wholly in keeping with the geographical and architectural scheme of Shanty town, but they do not seem to harmonize with hibiscus hedges, Poinciana regias and breadfruit trees. They appear about as incongruous as would three brazen spheres in Paradise.

Then there is another side to the billboard question—that of safety to the community. The shock to the eye, caused by turning suddenly from the contemplation of a scene of tropical splendor only to encounter a parti-colored libel on a gentleman cow is bad enough, but the shock to the skull which a husky billboard, giving way before the lusty attack of a well-developed trade wind would cause, might prove even more disconcerting.

If folk must sing the glory of their wares on the public streets, can't something a little less hideous than the stereotyped billboard be evolved? Berlin has a system of kiosks which, while they may lack architectural merit, at least do not mar the entire landscape. The man whose view of the mountains is obscured by a glaring sign announcing that Squirreline Oil is good for the chilblains, is not likely to feel any great desire to purchase any of the aforesaid oil and thereby supply the money for the erection of more billboards.

ARE THEY UNPATRIOTIC?

Five transatlantic liners recently left New York city for various destinations in Europe, and aboard these great floating palaces were more than six hundred cabin passengers. Two of the steamers flew the British flag, one flew the Kaiser's emblem, and possibly two of them flew the Stars and Stripes. The New York Herald gives a partial list of well-known Americans leaving on the quietest of steamers, but said nothing whatever of the lack of patriotism manifested by those who did not travel on the American boats, although all vessels steamed out of New York harbor under the very shadow of the Statue of Liberty.

King Gustav, of Sweden, worked a day carrying sacks of coal in order to know what a stevedore felt like. He didn't have to do that. A note, enclosing return postage, dropped to His Honor the Mayor of the City and County of Honolulu, would have brought him the information.

When the Japanese of Waimanalo plantation, old and young alike, turned out and built themselves a schoolhouse, they set an example which many citizens of this Territory might well follow.

An alert constituency compels many a member of congress to reciprocate and declare that he expects a great deal from the White House this winter.

Those London lecturers who are showing moving pictures of Roosevelt in Africa are pretty sure to be on the next list of Ananias Club eligibles.

If Deputy Collector Richard Parr keeps on, he may find that being right is a mighty sight more profitable business than being President.

Some of the utterances of the presiding genius of the Hilo Tribune's editorial sanctum show the effects of long association with the calf.

When the ships of the Pacific fleet get their haystack masts, there won't be much of the picturesque left about our men-o'-war.

Mr. Peary has not taken possession of the lecture field to the extent that the abdication of Dr. Cook seemed to invite.

Nobody takes the trouble to inquire what Tammany thinks of Gaynor as a presidential possibility.

"What do you think of a man with a rip in his coat and only three buttons on his vest?" "He should either get married or divorced."—Boston Transcript.

"They say his wife was the inspiration of some of his best plays." "Yes. He produced them before he was married."—Chicago Record-Herald.

"Nice car." "Yes." "Is it the latest thing in cars?" "I guess so; it has never gotten me anywhere on time yet."—Houston Post.

MRS. BISHOP'S MEMORY

(Continued From Page One.)
human and Kapiolani lived, and while her achievements were somewhat different in character, she was animated by similar lofty ideals and purposes. Her provision for the establishment of these schools and the wishes which she expressed in relation to them showed a high thoughtfulness for others, and a desire to benefit the people of these Islands.

"She had the opportunity to be a queen, which she declined, and with her great wealth she might have done much more for her personal gratification. In her directions for the establishment of these schools she stated that she wished the boys and girls to be trained to become good and industrious men and women, and their training to be thorough as far as it went."

"Mrs. Bishop desired to do all she could for the advancement of her race and desired that those who had the benefit of these schools be taught the principles of the Christian religion."

"She knew the past history of these Islands and the power of their old religion and of the tabus and of the human sacrifices that had been offered, in the belief that they were a tribute to the gods. Many had suffered death—men, women, and children—for breaking the tabus."

The Work of the Founder.

"It was to further the enlightenment, education and character of the people that she established these schools and made such ample provision for them, and it is in her memory that we are holding these services today. Her knowledge of the history of the rise and fall of nations and the principles upon which true progress is made, moved her to undertake this work."

"The main point which I wish to present to you is the thoughtfulness which Kapiolani had for others. Few can be kings or queens or attain wealth or a high position, but all, even the youngest, can follow her example in being thoughtful of others."

Lest We Forget.

"We forget too easily and too much and it is well to observe anniversaries like this and be reminded of things which are helpful. Let us remember the words of Kipling:

"Lord God of Hosts, be with us yet,
Lest we forget! Lest we forget!"

At the Mausoleum.

Special cars took the Kamehameha companies, uniforms, equipments, flags and all, to the mausoleum, on Nuuanu avenue, where is the tomb of Bernice Pauahi Bishop, princess royal of the blood of the kings of Hawaii, and the ceremonies commenced there at four o'clock. It was there that the rain marred the program, and as it increased as the exercises advanced, and showed no signs of abating, those in charge were forced to cut the program shorter than intended.

The Kamehameha cadets' drill was spoiled by the rain, and as the balance of the exercises was all arranged for out of doors, they, too, suffered on account of the weather. As the last flower fell upon the grave, the special cars were again filled and returned to the schools, closing the exercises that marked another anniversary of founder's day of the Kamehameha Schools.

LAST TRIBUTES TO MISS SMITH

(Continued from Page One.)

taken to San Francisco, whence it will be sent on to Boston.

The pall-bearers were Messrs. F. E. Thompson, Ollie Sorenson, Will Roth, W. W. Williamson, Cushman Carter and Tom King. Mrs. Babbitt, Mrs. Fred Carter and other ladies took charge of the floral pieces, and at the request of the three companions of the deceased most of the beautiful flowers were sent to the hospitals for distribution among the patients.

The remains of Miss Smith will be met at San Francisco by her brother Dr. Stafford Smith of New York. Mr. Thompson and Mr. Sorenson are both going to San Francisco on the same steamer and will meet Doctor Smith and aid in shipping the remains back to Miss Smith's old home.

By the ALAMEDA, sailing the 22nd inst., you still have a chance to send some of our

HEAVY RAINS ON THE SOUTHERN ISLANDS

Wireless Messages Indicate That Precipitation Has Been General.

F. A. Schaefer & Co. received news on Saturday from Honokaa that there had been a plentiful fall of rain there in the last few days. Irwin & Co. received similar information from Paauhau, and Davies & Co. received word that heavy rains had fallen in the Hawaii mountains, and that snow was capping the highest peaks. The storm was general yesterday on Hawaii and Maui. Wireless messages from Kahului stated that the seas were rough there, and incoming pursers from Kamaui report very rough weather along the Garden Island coast.

On Oahu there were several heavy falls of rain on Saturday and yesterday. The Rapid Transit had sweepers out on Saturday night when it seemed that the rains would cover the tracks with debris. A number of trees, principally algarobas, suffered the loss of many limbs, principally through being soaked with rain, after which the wind tore them off easily. A few billboards blew down and those who passed the fallen eyesores hoped they would never go up again. There was general comment that billboards were dangerous to life and limb, as they were liable to topple over during heavy wind storms, and being built of heavy lumber and faced with tin, would easily kill anyone caught under them.

The telegraph wire to the Kahuku wireless station was out of commission during Saturday night, but was repaired yesterday.

WATERFRONT NEWS

Oil to Quell Seas.

The use of oil as an effective method of battling with heavy seas on the Great Lake is being advocated by Capt. G. A. Winterhalter of the United States hydrographic office.

"Our office at Washington has recently distributed over 10,000 pamphlets advising the use of oil in storms as is done on the ocean," said the captain in a recent interview.

"Twenty-five years ago vessels commonly used this means of combating high waves, but with the incoming of a new generation of seamen it seems to have fallen into gradual disuse, until today, it is seldom resorted to at all. I know of no valid reason for the decline in its utilization.

"Our office during the course of its investigations inquired widely into the subject of the use of oil on the oceans and finds that it is a growing factor in the sea carrying trade. What is efficient in quelling turbulent seas on the oceans will surely be effective on the Great Lakes. I think that within the next five years comparatively few of our lake carriers will put out from port in the stormy seas with being provided with oil for this use."

Kinau's Extra Trip.

The Kinau arrived at 7 o'clock yesterday morning from Kauai, a little late owing to having made an extra trip to Niihau with the family of Aubrey Robinson. The Robinsons recently returned from the mainland. Heavy weather is reported by Purser Logan all along the Kauai coast. The Kinau brought about 6700 bags of sugar.

Notice to Mariners.

San Francisco, December 9, 1909. Blunts Reef, California.—Notice is hereby given that Blunts Reef Light-Vessel No. 83, stationed 17-8 miles 61 deg. 20 min. (SW 1-8 S) from Blunts Reef, seacoast of California, and 41-2 miles 85 deg. 00 min. (WSW, southerly) from Cape Mendocino Lighthouse, was reported out of position December 7, 1909, about one mile north of Cape Mendocino. She will be replaced on her station as soon as practicable.

San Francisco, December 10, 1909. Ano Nuevo Island, California.—About January 10, 1910, the 12-inch steam whistle at Ano Nuevo Island Light-Station, California, will be replaced by a 6-inch compressed air siren, to sound thus:

Blas, 2 seconds; silent intervals, 3 seconds; blas, 2 seconds; silent interval, 30 seconds.

L. H. B. list of lights, etc., Pacific Coast, 1908, page 14, No. 21.

L. H. B. list of buoys, etc., Pacific Coast, 1908, page 20.

San Francisco Bay Entrance.—Referring to local notice to mariners of December 6, 1909, relative to replacing San Francisco Light-Vessel No. 70 by Relief Light-Vessel No. 76 about Jan-

uary 1, 1910, notice is hereby given that Relief Light-Vessel No. 76 will only show one fixed white light without scilicet, instead of two as before reported.

Korea Here at Nine.

At nine o'clock this morning the Pacific Mail steamship Korea will arrive off port from Yokohama. Owing to the fact that she has only 300 tons of freight for this port she will be able to leave for San Francisco at five o'clock this afternoon. Among the returning passengers is Ed Lord, who has been touring the Far East. Mr. Lord is said to have been regarded around the Far East as one of America's big millionaires, the report was spread that he had gained his fortune through some great public works. An oriental potentate was seriously considering offering him a decoration until he found that he had only dredged Honolulu harbor, making it possible for Uncle Sam's big fleets to enter it safely and moor alongside the wharves.

Among the passengers who will depart for the Coast today will be Prince and Princess Kalaniana'ole, who will go to Washington. The Delegate will be in Washington in time to take his seat in the House for the post-holiday session.

Why Funnels Slant.

The smokestacks on ocean vessels of recent years have been made to slope backward more particularly to give the steamer a rakish air, the mast also being given the same slope, says a writer in St. Nicholas. As to the effect on the draft, there is a slight one, as the wind pressure on the front of the stack sloping up and over the top of the stack is more apt to draw the smoke out than cut it off, but from all we are aware of, this seems to have been held of secondary consideration.

The shape of the smokestacks also is changing from round to oval, so as to present less surface at the front.

Rough Weather Trip.

The steamer Noeau brought the following cargo from Hanalei yesterday: 1654 bags rice, 36 bags bran, 20 bundles hides. The Noeau was unable to work on December 15 owing to a heavy northwest swell. The little steamer experienced very rough weather on the inward trip.

Alameda Goes Wednesday.

While the Alameda is putting out a big cargo of general merchandise, a new cargo of Island products is going into her holds. When the vessel sails on Wednesday morning, she will have a big lot of Island products, principally canned and fresh pineapples, rice, sugar, bananas and coffee. This will be the last trip of the Alameda to the Coast under the agency of W. G. Irwin & Co. When she returns next trip she

will be under the new agency of Brewer & Co., which corporation has absorbed Irwin & Co.

Shipping Notes.

The Iwalani's cargo from Koloa included 4624 bags sugar.

Purser Logan of the steamer Kinau reports the following sugar on Kauai awaiting shipment: K. S. M., 1700; M. A. K., 17,851; G. & R., 1341; MeB., 9575; L. P. A., 1260; H. M., 520.

The Matson steamer Hilonian is due tomorrow afternoon from San Francisco.

HILO TEACHERS WANT ALL THEIR SALARY

Hilo Tribune.—The Hilo Teachers' Union last week went on record against any tinkering by the board of education with the present salary schedule. A resolution was carried expressing the sentiment that no changes should be made therein until more money became available, when the salaries might be raised.

The meeting took place in the Hilo High School last Saturday forenoon, and was attended by a large number of teachers from Hilo and the vicinity. The only matter which was discussed at any great length was that of the salary schedule, in regard to which several motions were offered, but several other motions relating to the course of study, were passed without much debate.

MORE SOCIAL PLANS ARRANGED BY Y. M. C. A.

Honolulu by Moonlight Is Next Offering on the Schedule.

The social committee of the Y. M. C. A. met last week to complete arrangements for Christmas-week entertainments, and the plans for a New Year's dinner are now laid and ready for practical application. That practical application will be participated in, it is hoped, by one hundred young men. It will be held at noon on New Year's Day and seventy-five cents a plate will be charged for the privilege of attending.

The next round-up of the association will be held on January 22 and will be along the same lines as the sea trip on the S. S. Alameda, held a few weeks ago, and which proved such a success. This time it will be known as "Seeing Honolulu by Moonlight." Trampcars, conductors, Orpheums and operahouses will figure prominently in this entertainment, and it will be in every way as novel and unique as was the initial attempt at this sort of amusement.

JAPANESE LABORER FALLS TO DEATH

Hilo Tribune.—Sato Kumichi, a Japanese laborer employed on the work on the Hilo Railroad extension, was killed by accident last Saturday morning, falling from an embankment to his death.

Sato was working with a wheelbarrow and shovel on an embankment near Puuoa. On one side the bank fell off abruptly down about eighty feet to the sea, and on this side a couple of small trees were growing. It appears that Sato tried to pry these trees out with his shovel, and that he lost his balance and fell over the side of the cliff in doing so, for his shovel went over the bluff with him, while the wheelbarrow remained on the roadbed. He fell straight to the bottom, hitting his head against the rocks, and his body was covered with bruises.

TRENT TRUST CO., LTD.

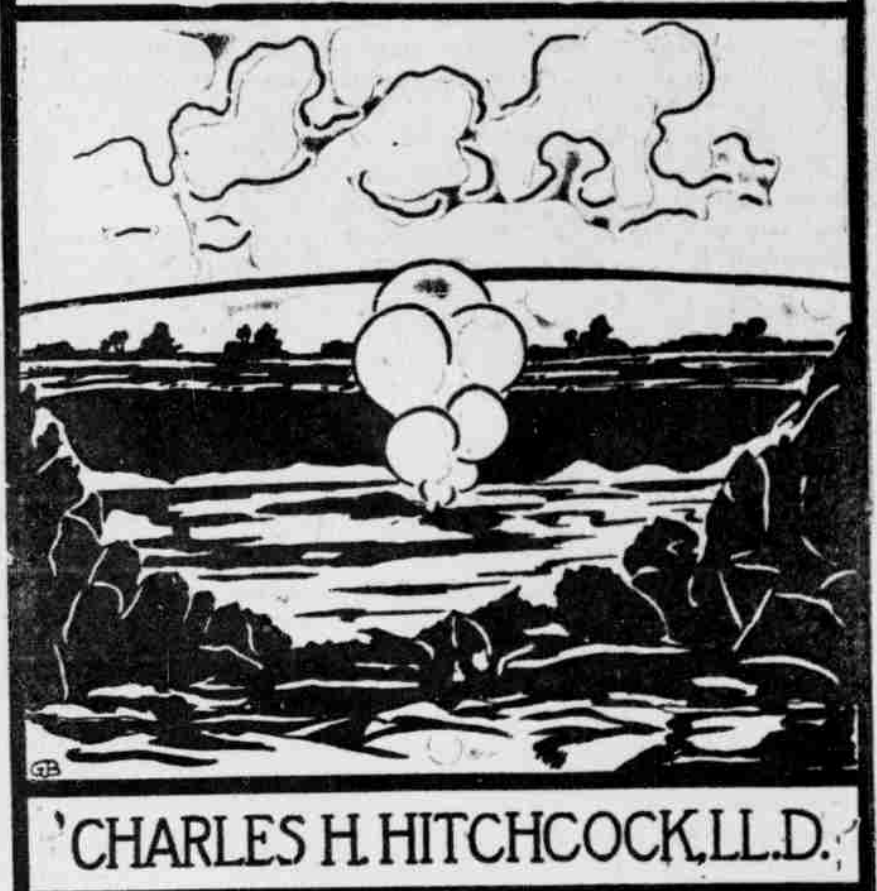

PROTECTION FOR THE STRANGER.

Chicago Tribune.—It is not a reflection on the worldly wisdom of the guests whom the livestock show will draw to Chicago that Postoffice Inspector Stuart has appealed to Chief of Police Steward for aid in protecting the visitors from the wiles of swindlers. It is possible that if the same ingenuity which is used on the men from the smaller towns and from the country were turned loose on the native Chicagoan, he would find himself in the meshes, although he is trained, as the stranger can not be, to look with hostile eyes on the approaches of plausible but unknown persons. The best advice, which can be taken in proportion as it is needed, is that the visitor within our gates view with suspicion the stranger who is cordial, plausible or helpful, and that his suspicion be proportionate to the stranger's cordiality and plausibility.

INTERNATIONAL SLANGWHANG-ING.

New York Tribune.—A writer has just been convicted in this city of criminal libel against a member of the Mexican government in a book apparently composed for the purpose of assailing the president of that republic. The interesting feature of the case is that the libel was committed against a conspicuous officer of a foreign government. Far too often writers of books, as well as of newspaper and magazine articles, and also public speakers, seem to think that foreigners, and especially foreign rulers, are fair and safe targets for any shafts of detraction and abuse. It is true that immunity is generally enjoyed by their makers, even when the attacks are untrue and libelous because the injured person is far away and has not the time or the inclination to take the matter into court. That circumstance, however, aggravates the offense. The libeler says things about a foreigner which he would never dare to say about a person in this country. Moreover, it is the head of a state who is libeled, and therefore the utterance is calculated not merely to do harm to an individual, but also to create misapprehension and ill feeling between two nations.

Cartoonist Strickland's Impressions of the Kalakaua Avenue Walking Race.

DICK SULLIVAN STILL HOLDS THE WALKING CHAMPIONSHIP

Ayres Keeps Up With Dick for Half the Distance, but Pace Is Too Hot-- Kaoo Not There.

	Time	Mins.	Secs.
1. Dick Sullivan.....	15	10	
2. H. M. Ayres.....	16	04	
3. M. G. Jardine.....	16	34	
4. L. O. Rosa.....	16	35	
5. Nigel Jackson.....	16	53	
6. Wilson Feagler.....	17	26	
7. G. B. Henderson.....	17	43	
8. Sam Hop.....	18	10	
9. Kahea.....	18	12	

S. H. Webb won the veterans race in 21 minutes 45 seconds; Evergreen Kalbe was second. Marino, the only contestant in the heavyweight class, went over the course in 22 minutes 30 seconds.

Dick Sullivan easily defeated H. M. Ayres over the Kalakaua avenue walking race course yesterday afternoon by fifty-six seconds and a distance of just about two hundred yards. Antone Kaoo did not show up at all, greatly to the disappointment of the thousands of spectators who were out to watch the race.

For just about half the distance Ayres kept level with Sullivan but, shortly before the car tracks were reached, he began to fall behind and Sullivan kept increasing the distance between them for the balance of the race.

After Ayres came the rest of the contestants all pretty well bunched together. Jardine and Rosa had a hot tussle for third place. They made excellent time down the home stretch, but Jardine had just a trifle more sprint left in him than Rosa and managed to butt into the tape just one second in the lead.

Sam Hop and Kahea had a great time between them to see who would let the other be last man. Sam Hop backed up at the last and, although hard pressed by the Hawaiian, came in in eighth place by a margin of two seconds.

Only Two Veterans.
Only two contestants turned up for the veterans' race, S. H. Webb, last year's veteran champion, and Evergreen Kalbe. The only entry in the heavyweight class to show up was Marino. He started with the two old men and came in after Webb.

Webb walked a very good race. He kept the same pace all the way till the very last when he came in with a great sprint and showed that he could have made better time if he had been pressed.

An Annual Affair.
The event was a remarkable success in every way. There is no doubt about its popularity as an annual affair. Big as was the crowd of last week, the number of spectators out yesterday must have been nearly double. The entire course was lined with people looking on and far ahead of the

hind the walkers the road was black with autos and rigs.
But, in spite of the huge crowd, the policing was perfect. All spectators were kept on the right side of the road and the walkers were not crowded nor inconvenienced in any way.

At the finish a lane was kept open through a solid mass of humanity for a full two hundred yards. By the tape the crowd was so dense that it literally blocked the road and, if a street car had happened along about that time, it would have had a hard time to wedge its way through.

Pirate Kid Was There.
Jack Scully, the hack inspector, and Eben Low rode at the head of the walkers and kept the road clear while, all along the line, were mounted police who saw that the autos and rigs kept well to the right side of the road.

Arthur McDuffie was there to supervise matters and the way in which the course was policed and kept clear was a credit to everybody who took part in it.

Choosing the Prizes.
After the race all the competitors gathered in the judges' room at the Waikiki Inn and each one chose a prize in turn. There being so few who qualified for the final race, there was a big overflow of prizes and everybody who entered got two of them. Sullivan and a few of the front ones each took three. In addition to those prizes Sullivan also took the Scully cup for the championship.

Jack McFadden was on deck, looking as perky as ever. This irrepressible youth came up to the judges' auto and inquired, with a wide grin, whether he could give them any assistance. This reference to his action of the week before was not received with any very violent appreciation by anybody.

Story of the Race.
It was just a quarter of three when Scully fired the gun for the start, and the nine men set out on their grind over the mile and seven-eighths course. The police kept the rigs and autos back, and those who had not secured a good place had to be content to go on ahead or drop back behind and watch the walkers as best they could from a distance.

Sullivan took the lead at the very start, followed by Sam Hop and Ayres. The whole bunch kept together for about three hundred yards, but the terrific pace that Sullivan made soon began to tell and Sam Hop dropped back to give place to Ayres, who was almost up with Sullivan.

Then Ayres pulled up level with Sullivan, and they kept step for the next half mile. It looked very much as though Ayres would be able to keep up the pace and that the finish would result in one of the closest tussles ever seen here.

But the pace was too much for the British veteran. His steps grew shorter, and although he tried to quicken

them sufficiently to make up, he began to drop behind. When the carline was reached he was a full twenty yards to the back.

Meanwhile, the bunch behind were providing some excitement. Jardine was setting a fast pace, and was not far behind Ayres. In fact, at one time it looked as though he might make a bid for second place.

Rosa kept with Jardine, and Jackson kept up the pace well for some distance, but this was not a marathon and he was unable to keep even with his younger and lighter opponents.

In spite of the terrific pace he was setting, Dick Sullivan did not slacken at all when he saw that he had Ayres going, but kept it up even faster than ever. At the finish he came down the stretch with a magnificent burst of speed and was greeted with a terrific ovation by the crowds, who, though disappointed that Kaoo was not in the race, showed that the victory was a popular one by the noise they made.

And the Band Played.
The band was outside the Waikiki Inn and played during the afternoon, thus keeping the spectators content during the wait between the finish of the preliminary race and that of the final.

The weather was delightful until after the race and everybody had gone home. Then it began to rain, and it certainly made up for having kept off during the race. The water came down in torrents, and all those who were not near to some friendly shelter got thoroughly drenched.

Who Chose Which.
The prizes chosen by the various competitors were as follows: Scully cup, Dick Sullivan; Fred L. Waldron's prize, H. M. Ayres; H. Hackfeld & Co.'s, Kalbe; J. Carlo's, Wilson Feagler; H. F. Hill's, L. O. Rosa; M. A. Gunst & Co.'s, Jardine; W. C. Peacock & Co.'s, Henderson; E. O. Hall & Son's, H. M. Ayres; W. C. Bergin's, Marino; Monty Montgomery's, Sam Hop; Lovejoy & Co.'s, Kahea; Thos. F. McTighe & Co.'s, Kalbe; Hawaiian Star's, Jardine; Metropolitan Meat Company's, Webb; Chambers Drug Co.'s, Ayres; Oat & Mossman's, Rosa; Advertiser's, Webb; Silva Toggery's, Sam Hop; H. F. Wichman & Co.'s, Jackson; Hollister Drug Company's, Jackson; Honolulu Photo-Supply Company's, Rosa; A. B. Arleigh & Co.'s, Sullivan; A. M. Dietz Jewelry Company's, Feagler; J. E. Soper's, Marino; Honolulu Drug Company's, Henderson; R. F. Ehlers & Co.'s, Sullivan; Palm Bakery's, Jardine; South Sea Curio Company's, Sullivan; Bergstrom Music Company's, Kahea.

Thanks to Officials.
The committee wishes to thank all those who helped to make this annual event such a grand success—the judges and all other officials, and especially the merchants who so generously offered prizes for the event.

The judges were Senator C. F. Chillingworth, Walter Drake, Jack Scully, Pete Barton, C. G. Bartlett and Will Chilton. The finishing judges were Charlie Lynch and Will Bergin. The timers were G. J. Boisse, W. McTighe and P. Maurice McMahon. Johnny Anderson was announcer and master of ceremonies.

Dick Sullivan and Johnny Murphy wish to thank all their friends very cordially for their idea of starting a benefit here for the grand little boxer. Dick says that it is not necessary and that, Johnny being a comparative stranger here, it would be an imposition. They appreciate the kindly spirit in which the thing was started, but would much rather not.

HILO SPORTS FOR NEW YEAR'S DAY

The Hilo papers contain announcements of the program for the sports on New Year's day in that bustling town. The arrangement would indicate a desire to give everyone a chance, and one of the horsemen carries to the winner \$1000. This will be between Webber, a good old horse, once the property of the late Prince David, and Major Collier, a horse with a record. Webber has appeared in several events in Hilo, and usually as a winner. The program includes the following:

Baseball.
Three-quarter mile match race between John T. and Pocahontas.
One mile and a quarter between Webber and Major Collier for \$1000 a side.
Half mile for racers owned by Japanese.
Fifteen-mile Marathon; three money prizes.
Half-mile race for lunas on field horses.
Three-quarter mile for Hawaiian-bred horses.
Three-quarter mile free-for-all.
Half-mile bronco busting race.
Half-mile cowboy race.

In addition to these races there will be athletic events for money prizes. These races will be seen by those who go up on the excursion promoted by the Inter-Island S. N. Co., to leave here on New Year's eve, and to return Monday morning. It will be an opportunity for those who have never seen the wonderful volcano in action. It will be a chance for those who have gone on other occasions when the fare was \$50 to have the same enjoyment this time at just half that cost. The trip to the volcano will be worth the price even if there was nothing else to see, and a number of persons are going with the intention of leaving by the early train direct for the volcano. The management of the Hilo Railway Company will have a train to meet the steamer, and there will be no unnecessary delay on arrival.

LOCAL BREVITIES.

Leahi Chapter No. 2, Order Eastern Star, meets this evening at half-past seven o'clock.

Harmony Lodge 1, O. O. F. meets this evening at half-past seven o'clock in Odd Fellows hall.

W. H. Smith was a spectator of the race yesterday and viewed from the vantage of a seat on a very fine-looking horse.

There will be a choir rehearsal of Christmas music this evening at half-past seven o'clock at the Central Union church.

The funeral of Mrs. Henry E. Harrison will take place at three o'clock this afternoon from Williams' Undertaking Parlor.

The directors of Ewa plantation have declared the regular monthly dividend of one per cent, and an extra, or special, dividend of two per cent, payable December 31 inst.

Owing to a mistake it was stated yesterday that the exhibition of water color works of Miss Julie Raymond would be kept open tonight and tomorrow evening. They will be open from ten to five during the day but will not be open in the evening at all. They will also be on exhibition Saturday.

L. Ah Leong was arrested yesterday on a complaint similar to that entered against the brewery several months ago. Ah Leong was found delivering groceries from his wholesale grocery establishment on King street yesterday, which is a violation of Act 15 Session Laws of 1905, and which carries quite a heavy penalty.

A scrap at Waipio road near the government pumping station was about all that enlivened the police yesterday afternoon and a hurry telephone call was answered by them on the jump. The scrimmage turned out to be only a drunken disagreement between a native and his wife and the officers returned empty handed.

PERSONALS.

The McLarens of Seattle have taken the bungalow at Haleiwa for a week.

Mrs. Clifford Kimball is in town spending the holidays with her parents on Pihai street.

Mrs. van Schuyver and daughter of Portland, Oregon, have their motor at Haleiwa and are entertaining a party of young people there.

Mrs. W. C. Forde of Eccles, California, who has been visiting with her sister, Mrs. Egbert Roberts, for several weeks, will return to the Coast on the Alameda.

Mrs. Nellie Johnson will open dress-making parlors, 1119 Union street, and Mrs. Caroline Fernandes will have Madeira work for sale. Orders will be taken for embroidery and stamping, done reasonably.

MANY NOVELTIES AND SOUVENIRS FOR CARNIVAL

The Alameda brought several large cases for the Princess Rink when she reached here Friday last, and those cases contained enormous quantities of wonderful paper novelties to be used for the Christmas Eve carnival to be held at the Princess Rink. Among the numerous articles are thousands of confetti of all descriptions consisting of confetti bombs, rockets, serpentine, motors, etc.

There are also gorgeous souvenirs in the shape of beautiful Merry Widow hats, ladies' parasols, caps and hats of all nations, comedy creations such as clown caps, Happy Hooligans, etc.

Some of the novelties, such as the hats and parasols, are wonderful and beautiful effects and hard to realize that they are made of paper.

If a window can be secured an exhibit will be made of them which is bound to create a great deal of attention.

Steamer Time-table Postcards Out.

Why Not Silver

FOR A CHRISTMAS GIFT? No house-keeper can have too much of it. Even a small gift of

COMMUNITY SILVER

is sure to give pleasure. The new "Flower-de-Luce" pattern has a dignity and beauty heretofore found only in the best Sterling. Every piece of Community Silver is plated heavier than triple and will wear a lifetime.

W. W. DIMOND & CO., LTD.
53-55-57 King Street.

Appreciation

Run over in your mind a list of suitable Christmas gifts, and we challenge you to name one more appropriate, more useful, more appreciated than a pair of shoes.

There are shoes and shoes, but when presenting a pair, see that they are a standard make and a little better grade than the recipients would themselves buy.

Remember the "Hanan," the finest shoe in the world for men.

The "Laird Schober & Co.," for thirty years leaders in women's and children's shoes.

We have these goods. Get a Christmas order.

McInerny's SHOE STORE

WHAT THE PRESS AGENTS SAY.

The Sword of the King.

The Dramatic Mirror gives the Vignette people full credit for the reproduction of the play, The Sword of the King. It was performed by a company of talented artists and photographed by artists who know their business. This film is to be the feature at the Park Theater this week. There will be other good ones and Signor Travato will sing picture songs. The girls will present a new act. The show at the Park on Friday and Saturday nights was as good as any program ever presented at a motion picture theater in this city. The Andersonville film was especially interesting. The old fashioned costumes with the hoop skirts of that day and bonnets which would be considered freaky compared with today's pench-baskets of commerce went to make up a scene that was well presented.

Orpheum.

The new bill to be presented at the Orpheum tonight by Jack Golden and his excellent company will consist of two clever musical comedies each in one act. The New Teacher and the exuberantly funny farce entitled, Hello. There will also be some good vaudeville. The holiday week promises to be one of extraordinary attraction at this popular playhouse.

Bonine.

There is an unusually interesting series of clever scenes on at The Bonine for this week. Entertaining bits of musical vaudeville by Ford and Hovey and an exceptional lot of ingenious European conceptions in animated photography that will entertain and keep you guessing. The parks of Berlin will be an entertaining treat for you, and send you home with a pleasant thought, but this is only one of a great lot of new things just received. Every one of which you will want to see. So bring your wife along and a good cigar and enjoy an evening of travel.

Today is "Souvenir Day" at Sachs Dry Goods Co. A handsome bound book given away with each \$2.50 purchase at the Sachs' store. Don't fail to see the grand holiday display at Sachs'.

Beautiful souvenirs in antimony. Packed carefully for mailing. Hawaii & South Seas Curio Co., Young building (Bishop street next cable office). Fibers, coconut cups, oriental goods. Largest Pacific souvenir curio store in the world.

THE VOLCANO.

Not in many years has the crater at Kilauea been as active as at present. The fires there kindle a desire for knowledge of a scientific nature, and, as far as known, the book recently published by the Hawaiian Gazette Co., Ltd., entitled "Hawaii and Her Volcanoes," by Charles Hitchcock, LL.D., is the only one in existence that fully describes the phenomena. This book is on sale at the different book shops here, and is one that should be in every library. It is fully illustrated by engravings from photographs and sketches and is sold for \$2.00.

"Waterhouse Trust"

REAL ESTATE FOR SALE

Well, we have sold our College Hills bargain, advertised last week. Our bargains seem to take.

Here's a few more.

Two building lots in Manoa, \$2000 and \$950, respectively. Good soil, good elevation, and price and terms right.

At Kaimuki, on 12th avenue, we have four (4) of the best lots left. This is the locality that has an unrivaled view of Honolulu Harbor and the Waianae Mountains, and where the best residences in the tract have been built. These lots are cleared and improved. A bargain at \$3800.

"Waterhouse Trust"

Fort and Merchant Streets.

DEFINITION OF
ETERNAL LIFE(Continued from Page One.)
The work was carried on, only as the Spirit led the way.

"In modern times, conditions are more favorable to the spread of the gospel than ever before, knowledge of the world, and its people; easy and safe travel by land and water; the freedom of printing; and the control of missionary lands by Christian nations, who help the missionary, all tend toward an easy spread of the gospel."

"One thing which retards its growth, is the ignorance of Christians concerning the work being done. 'Ignorance is the mother of prejudice.' If you are prejudiced against missions, it is because you do not know about the work. The more we know the more we are ready to do."

"The spread of the heaven may be hastened by the recognition of missions as the great, primary obligation of the church. So long as we consider missions as secondary, we shall make little progress toward leaving the lump of the world's life with the gospel. Also by a greater faith in prayer. A lack of mission-spirit is evidence of a lack of prayer spirit."

"In short, by the application of first century ideals to twentieth century conditions. Every phase of the first missionary advance has its lessons for today."

A Forward Movement.

The Rev. William Brewster Oleson spoke at the Central Union church yesterday morning on "A Forward Movement." This was in reference to the work of the Hawaiian Board, hung up near the pulpit were blank maps of the Islands, with the various churches and missions of the board shown in red ink.

He said that the board was doing its very best under present conditions, but he called for a forward movement and a greater activity and interest shown in the work by all Christians in the community.

Thy Will Be Done.

The Rev. William H. Bliss preached at St. Andrew's cathedral yesterday morning. His was a pre-Christmas sermon, and he spoke generally of the blessings that have come through the holy incarnation.

He spoke of the joy and confidence, the peace and freedom from over-anxiety that come from a perfect faith and trust in God. He also referred to the failure on the part of many people to rightly interpret, "Thy will be done," in the Lord's Prayer, by forgetting the "as it is in heaven." He said that too many are attributed directly to God, when they come really in the natural course of things and have not been sent as punishments. "To suffer them bravely and try to find a lesson in their affliction, is best."

The Rev. Mr. Bloom, missionary at Pauilo, who is on his way back to his mission after a trip to the mainland, preached at St. Andrew's cathedral last night on "What Think Ye of Christ?" He spoke of Christ's friends and enemies, and what they thought of Him, and said that this question is one of great importance and should be answered carefully by all of us.

Church Notes.

Doctor Wadman preached at the Korean church yesterday morning, Rev. C. Min interpreting for him.

Doctor Wadman preached to Japanese at the King-street Methodist church last night. As he speaks their language, he needed no interpreter.

Doctor Pond of Oberlin College, Ohio, spoke at the prison service yesterday, his subject being "Examining Yourself." Frank Cooke had charge of the service.

Doctor Jones preached both morning and evening at the Methodist church yesterday.

Christmas entertainments this week will be at the Methodist church on Wednesday night at half-past seven; at the Susannah Wesley Home on Thursday night, and at the Korean Home on Friday night.

The Central Union church had charge of the service at Leahi Home yesterday.

The Epworth League will have charge of the Leahi Home on Sunday. There will be a service of song and gifts.

BOATMAN MAHUKA CAN NOT MIX CHURCH AND POLITICS

Down at the Old Boat Landing Square, Where Boatman Mahuka Is Still King.

"I'm out of politics and, therefore, I am not bothering any more about wanting to be governor of Hawaii."

Boatman Mahuka, the veteran of the boatlanding oarhandlers, makes a philosophic response when asked nowadays if he still harbors any aspirations for the governorship. He gives David Harum replies to questions about his vocation and his aspirations.

"To be in politics, one has to lie a good deal, and if a man goes to church as I do, his conscience won't allow him to remain long in politics," said he yesterday.

Not so bad for a Hawaiian who has

been a boatman for more than thirty years. For more than three decades Mahuka, the elder, has made his headquarters at the historic boatlanding near the old Brewer wharf, now the Matson wharf. In the good old days there were thirty to forty boatboys, for these men are always called boys. There was plenty of money to be made then, for steam freighters were a novelty and the harbor was thick with sailing vessels, the majority of them lying at anchor in the stream, so that the row boats had to be used between shore and ship. Warships were plentiful during the days of the monarchy and the officers paid well, especially when they had a boat load of ladies to take out

to the old wooden cruisers or the steel ships of the present day.

"I thought then that we would always have good times on the front and I didn't save the money that I made," said Mahuka. "I wish I had," he added with a sigh. "The boatlanding was the liveliest place in Honolulu. We carried the big bugs and the little ones. When the overthrow came there were plenty of warships here at one time, mostly lying in the stream, and we had plenty of work day and night. They landed marines and bluejackets in those days. Yes, it was very lively. But now it's a dreary place, the old boatlanding, and business is very dull so that there are only six of us left. That means only about three there dur-

ing the day and the others at night. The old boatlanding was once a great place, but the business is all gone. No, I'm not in politics any more. I go to church."

AMERICANS SAIL ON FOREIGN FLAG SHIPS

New York Herald.—Six hundred and thirty-five cabin passengers will leave this port today for Europe on board five transatlantic liners.

The Caronia, of the Cunard line, for the Azores, Madeira, Gibraltar, Genoa, Naples and Fiume, will carry 263 first cabin travelers, including Mr. and Mrs. George De Forest Barton, Mrs. Johnson Blakely Creighton, Mr. and Mrs. J. M. Cumming, Mr. and Mrs. E. Tiffany Dyer, Mrs. William Goddard, Mrs. F. H. Heald, Miss Constance Heald, Mr. and Mrs. R. J. Kilpatrick, Mr. and Mrs. S. D. Kilpatrick, Miss Katherine R. Kilpatrick, Gen. G. H. McGibbin, Miss McGibbin, the Rev. and Mrs. H. W. de Nancrede, Mrs. A. Wilder Pollard, the Misses Pollard, A. J. H. St. Denis, Marquis and Marchioness Francesco Theodoli and Baron and Baroness Waldemar von Zedwitz. There will be sixty second cabin passengers on board.

For Hamburg on board the Pennsylvania, of the Hamburg-American line, there will be thirty-five second. Among the former will be Mr. and Mrs. Frank W. Flanner, the Misses Flanner, Miss Ruth Henley, Dr. W. H. Outway, Miss Margaret B. Rudd, Mrs. E. R. Stearns and Miss Anna Talbert.

The Philadelphia, of the American line, for Plymouth, Cherbourg and Southampton, will take out seventy-five first cabin passengers and twenty-five second. Among the former will be Mr. and Mrs. M. S. Ayau and family, W. B. de Billier, Mrs. C. E. Coddington, F. G. Cowie, Herman Ellis, V. A. Garcia, Miss Frances C. Griseom, Miss R. J. Hayes, Q. R. Lane, Sir James Moody and G. S. Simpson.

On board the Minnetonka, of the Atlantic Transport line, for London, there will be fifty cabin passengers, including Mr. and Mrs. Walter A. Feltyberger, Mr. and Mrs. C. H. Hewett, Miss Clara Hewett, the Rev. T. J. Kelly, Mr. and Mrs. Henry K. Webster and Mr. and Mrs. H. A. Wilson.

For Glasgow, on board the Columbia, of the Anchor line, there will be eighteen first cabin and forty-four second cabin travelers. Among those in the first cabin will be Mrs. High Martin, William Motherwell and Mr. and Mrs. George Preston.

WHERE IT'S TOO HOT AND TOO COLD

CHICAGO.—The principles of freight car refrigeration are being applied to passenger coaches by several railroads running out of Chicago. The results of experiments have been so satisfactory that it is generally predicted the railroads of the country will adopt the new plan, which provides for the cooling of the air in coaches in warm weather and the equable heating of the coaches in winter.

Thomas H. Garland, general agent of the refrigerator service of the Burlington railroad, whose ventilator system has been widely adopted by the railroads, has completed a satisfactory system for the uniform heating and cooling of freight cars and is now turning his attention to making it adaptable to passenger service.

Mr. Garland's plan provides for the circulation of cold or hot air through pipes laid between double floors. The passenger plan follows the same general outline except that the piping is entirely out of sight.

SHE CHATS WHILE SURGEONS OPERATE

NEW YORK, December 7.—Dr. Leo Berger and Dr. Benjamin Jablons of Har Moriah hospital operated Sunday on a woman for intestinal trouble while the patient alternately read a prayer book, chatted calmly with the doctors and nurses and discussed the progress of the operation without feeling the pain.

They used novocaine. The subject of this operation is Mrs. Ida Moskowitz, seventy-eight years old. When the physicians began to inject the novocaine she opened her prayer book and began reading.

After the operation Mrs. Moskowitz was allowed a glass of water and some food, something impossible for twenty-four hours with patients who have been given ether.

"Novocaine was discovered by a German physician," said Doctor Jablons last night, "but American physicians have perfected it. It is injected into the tissues at the point to be operated on and the affected part becomes dead to all feeling."

A GOOD HOUSEHOLD LINIMENT

When a bottle of Chamberlain's Pain Balm is kept in the house, the pains of burns and scalds may be promptly relieved, cuts and bruises quickly healed, swellings promptly reduced and rheumatism and neuralgia robbed of their terrors. In fact, for the household ill, it is just such a liniment as every family should be provided with. For sale by Brown Smith & Co., Ltd., agents for Hawaiian Islands.

We have just placed on sale a complete assortment of

ROXWOOD ENAMELED ARTWARE

the most artistic enameled ware yet produced.

The lining being a
PURE IVORY WHITE

and the outside blended from a
REDDISH BROWN BODY

to an almost black, presents a real artistic appearance that rivals even the most expensive pottery.

RHEUMATISM IS PREVALENT

Conditions of the Past Months Have Caused Much Suffering.

A Strong Reason Why People Should Know of the Tonic Treatment Which Cures the Disease Through the Blood.

Although rheumatism is a disease of the blood wet, damp seasons are an exciting cause and especially are those who have had a previous attack liable to suffer from the disease at such times. This shows that the rheumatic poison was not driven from the system but was simply "kept down" by the treatment employed. When conditions favorable to the disease were met the trouble promptly reappeared.

The promise made for the tonic treatment of rheumatism is that it cures are permanent and that the patient does not have an attack of the same old trouble every year.

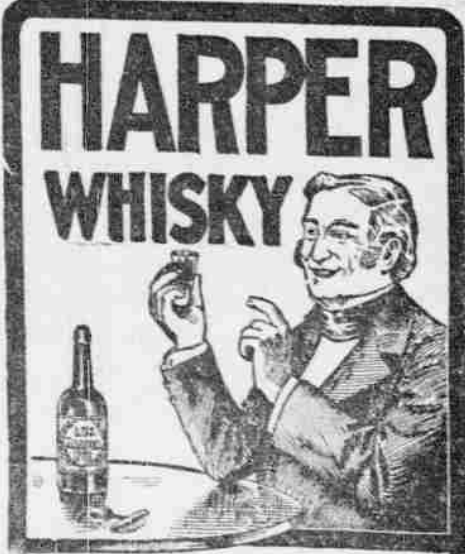

Mrs. A. G. Propst, whose address is Box 17, R. F. D. No. 6, Albany, Ore., was cured by this treatment. She says:

"Through overwork my health became run down and rheumatism followed. I was treated by two doctors for about two months but they did not give me much help. The rheumatism was in my limbs and was worse when I stood up. At such times the pain would be so severe that I could hardly walk. I was not able to do much work for I was obliged to lie down quite often through the day. Besides suffering from the rheumatism I was troubled with nervousness. I was dizzy very often and would see black specks before my eyes. The doctors told me that my circulation was poor."

"When I read in a paper that Dr. Williams' Pink Pills had cured rheumatism, I decided to give them a trial. I began to get better during the second week and continued using the pills. I gradually grew stronger, the dizziness left me and I got so I could walk without any pain. The rheumatism has entirely disappeared and I have had no return of it. I recommend Dr. Williams' Pink Pills to my friends right along."

A booklet, "Diseases of the Blood," will be sent free to any sufferer from rheumatism upon request. Write for a copy today and learn how to cure yourself.

Dr. Williams' Pink Pills are sold by all druggists, or will be mailed, postpaid, on receipt of price, 50 cents per box; six boxes for \$2.50, by the Dr. Williams' Medicine Company, Schenectady, N. Y.

Kentucky's most famous and best; the World's most famous and best; the whiskey that has girdled the Globe. Sold by W. C. Peacock & Co., Ltd. MERCHANT ST.

Luxurious Furniture At Small Cost - - -

The holiday season is one when one who has struggled to furnish the bungalow or cottage should remember that money spent for Christmas gifts would be well spent if used in more completely furnishing the home. Now one can get in Fumed Oak beautiful furniture at comparatively small cost. It is ideal for bungalow use.

Fumed Oak is the name of all kinds of furniture which has the Fumed finish. This finish has been handed down from English craftsmen and was first called Old English Finish, and is obtained by staining the bare wood a beautiful brown tint by means of the fumes of acids. Thus the finish is permanent and of a soft color, which will harmonize with almost any surroundings. It is not expensive.

This year we have Fumed Oak in stock in the following lines of Goods:---

Parlor Tables Complete Bedroom Sets
Chairs Fancy Lounging Room Pieces
Arm Chairs Rockers Stands
Telephone Stands Tabourettes
Tables, large and small Pedestals
Dining Sets Reception Chairs Bureaus
Desks Chiffoniers and Other Articles

These Goods are nearly all made in the Arts and Crafts style. The Arts and Crafts Goods are pieces made on straight lines, but a great improvement over Mission Furniture, both in artistic appearance and in strength and comfort.

We have a store full of these and other lines of furniture of every grade. Let us have your Christmas order and delivery will be made promptly at any time you specify.

by President Shall Begin Work Only
as Secretaries.

WASHINGTON. — Appointments to the United States diplomatic corps and the service of the department of state henceforth will be only after examination.

Secretary Knox today made public executive order 1134 of President Taft, which establishes for the state department services tests identical with those already in force for consular aspirants.

Secretary Knox on November 26 wrote to President Taft as follows: "It seems particularly desirable that in the interest of a more efficient foreign personnel an effort should be made to test more fully the qualifications of young men desirous of entering the diplomatic service as secretaries and to provide regulations which shall tend to encourage such a degree of efficiency on the part of secretaries as may justify their promotion to the grade of minister. It is also of the highest importance that there should be a closer relationship between the two branches of the foreign service and the department of state than has hitherto existed."

In reply the President issued the executive order, which particularly provides that "an efficiency record shall be kept of every officer in the diplomatic service. Initial appointments from outside the service shall be only to the class of third secretary of embassy, second secretary of legation or secretary of legation at such post as has but one secretary assigned to it. Vacancies in higher classes shall be filled by promotion from the lower grades, based upon efficiency. All secretarieships in the diplomatic service shall be graded according to the importance, volume, difficulty, or other aspects of the work done by each mission in proportion to the number of men allotted to it, and this classification shall be made known to the members of the service."

"The assistant secretary of state, the solicitor for the department of state, the chief of the diplomatic bureau, the chief of the bureau of appointments and the chief examiner of

the civil service commission, or persons designated in their stead, are hereby constituted a board whose duty it shall be to determine the qualifications of persons designated by the President for examination to determine their fitness for possible appointment as secretaries of embassy or legation.

"The examinations shall be both oral and in writing and shall include the following subjects: International law, diplomatic usage and a knowledge of at least one modern language other than English, to wit, French, Spanish or German; also the natural, industrial and commercial resources and the commerce of the United States, especially with reference to the possibilities of increasing and extending the trade of the United States with foreign countries; American history, government and institutions; and the modern history since 1850 of Europe, Latin America and the Far East. The object of the oral examination shall also be to determine the candidate's alertness, general contemporary information and natural fitness for the service, including mental, moral and physical qualifications, character, address and general education and good command of English. In the determination of the final rating the written and oral ratings shall be of equal weight. A physical examination shall be supplemental.

"Examination papers shall be rated on a scale of 100, and no person with a general rating of less than 80 shall be certified as eligible.

No person shall be certified as eligible who is under 21 or over 50 years of age, who is not a citizen of the United States, or who has not been specially designated by the President for appointment subject to examination. The names of candidates will remain on the eligible list for two years. In designations for appointment subject to examination and in appointments after examination, due regard will be had to the rule that, as between candidates of equal merit, appointments should be made so as to

tend to secure proportional representation of all the States and Territories in the diplomatic service; and neither in the designation for examination or certification or appointment after examination will the political affiliations of the candidates be considered."

NO EXPERIMENT.

You are not experimenting when you buy Chamberlain's Cough Remedy. You are getting a preparation that has an established reputation for good backed by a third of a century's constant use. It is famous for its prompt cures of coughs, colds, croup and whooping cough. For sale by Benson, Smith & Co., Ltd., agents for Hawaiian Islands, honest medicine.

CHRISTMAS CANDIES

The Alexander Young Cafe manufactures its candies daily. This is why they have that delicious "Home Made" flavor so foreign to candy of mainland manufacture. Cleanliness is our watchword, and we invite inspection of our factory.

"A. Y. C." on a box of candy is what "Sterling" means on silver.

PARASITES OF HORNFY BUSY

Carabid Beetle Is Successfully
Eliminating Pests of the
Dairy Farms.

Steps are being taken to import pa-
rasites of the hornfly, and material con-
taining several species have been re-
ceived by E. M. Ehrhorn, superintend-
ent of entomology of the board of ag-
riculture, who, in cooperation with O.
H. Swezey of the H. S. P. A., is doing
all he can to get the parasites estab-
lished. In his last report to the board,
Mr. Ehrhorn says:

"We received four shipments of
hornfly parasites from Mr. Koebeler,
three of these containing the same spe-
cies which arrived last month, and all
were turned over to Mr. O. H. Swezey.
I am pleased to be able to report that
three large colonies of home-reared
parasites (Alysids) have been liberated
on favorably-located dairies. The last
shipment from Mr. Koebeler contained
a good colony of *Aphodius finitarius*, a
carabid beetle which may be consid-
ered a good factor in preventing maggots
of the hornfly and other stable flies
from propagating in manure, owing to
the beetle's habit of feeding on the
fresh dung and disturbing the dropp-
ings in such a manner, by its own
work and that of its larvae, to cause
the quick drying up of these, thus re-
ducing the breeding places of the flies
materially. We shall soon be able to
liberate these beetles at higher eleva-
tions as recommended by Mr. Koeb-
eler."

Since the above report was submit-
ted, the last sending of beetles has
been liberated on the Island of Ha-
waii.

FORECLOSURE ON GAYETY THEATER

Hilo Tribune.—Carl Smith has taken
possession of the Gayety Theater, and
G. F. Affonso is now in charge. The
action was taken under foreclosure of
the mortgage of Bailey and Lawton to
the Hilo Mercantile Company, and no-
tice has been made that the property
will be offered for sale at auction on
January 5.

MUCH POWER IN WHITE PLAGUE FIGHT

SAN FRANCISCO, December 7.—An
ordinance giving the health officers al-
most radical authority and power to
separate a consumptive mother from
her children, a husband from his wife
or to take any member of a family
from the home to a place of isolation
if they do not carry out its provi-
sions, was passed today by the board
of supervisors for the guidance of per-
sons afflicted with tuberculosis.
The ordinance, after declaring tuber-
culosis a communicable disease, sets
forth the regulations for the guidance
of physicians and their patients. It
invests the health officer virtually with
unrestricted power. He may close up
a place if his orders for sanitation and
disinfection are not obeyed; he may
punish a victim of the "white plague"
for carelessness, and if he deems it ad-
visable, he may forcibly remove a per-
son from his home.

LAHAINA JOTTINGS.

The supervisors are making their
semiannual inspection of the county.
They spent Friday at Lahaina exam-
ining the school property, the jail, court-
house, and roads. Mr. Pogue commene-
d inspection on December 3 and ex-
pects to get home on the 24th.
Miss Miriam Hall of Honolulu was
in Lahaina last Friday. She gave a
violin recital in Wailuku last Tuesday.
The Rev. Leopold Kroll and Mrs.
Kroll returned from Honolulu on Sat-
urday morning with their little boy,
Leopold, who has had a successful oper-
ation for appendicitis at the Queen's
Hospital.
C. D. Lufkin spent Saturday in La-
haina on his way from Honolulu to
Wailuku.

One of the most unique pieces of
furniture in the Islands is a center-
piece recently presented to Mr. and
Mrs. Thomas Dunn of Lahaina. It is
made of nine kinds of Hawaiian wood
cut into one hundred and eighty-nine
pieces.

Saturday was a very showery day in
Lahaina. It has made the plantation
look fine.

Miss MacDonald of the Normal
school is visiting at Lahaina.

AN INVITATION TO WOMEN.

The Lydia E. Pinkham Medicine Com-
pany of Lynn, Mass., cordially invite
any woman interested to call at their
laboratory at Lynn, Mass., and see for
herself the care which is taken with
the vast correspondence received from
the women of this country. No letter
or testimonial has ever been made
public without the written wish or
consent of the writer. No confidence
has ever been violated, and never in
their history have they sold or dis-
posed of any of their letters from
women. It is for these reasons that
thousands of suffering American women
every year feel free to write Mrs.
Pinkham for her valuable advice, which
is always given free of charge.

Fitzpatrick Brothers have a large
stock of goods suitable for the Christ-
mas season. Harvard and Yale tobacco
jars have arrived and are suitable for
smokers who were once in either of
those institutions of learning. The
goods are of rare good quality.

A PERMANENT XMAS GIFT

For a Xmas gift that you cannot eat up or wear out
and one that will last and increase in value, we recommend
a lot in the New Ocean View District. Such a gift will serve
a double purpose and enable the father to encourage his
son to become a property owner and take more pride in the
growth and development of the city in which he lives, making
him a better and more useful citizen. It will enable the
wife to help her husband to make a good investment and pro-
vide a beautiful homesite that will increase in value. It will
enable the young man to prove to his sweetheart his good
intentions to save and accumulate something in life. It will
enable the parents to save and acquire for their child the
title to desirable property that will increase in value as the
child grows older. A more valuable Xmas Gift cannot be
suggested. For those who cannot afford to give \$400.00,
they may give only the amount of the minimum cash pay-
ment, which is \$50.00, and then permit the son or person
to whom given and who should be encouraged to save and
make a good investment to pay the balance in monthly in-
stallments. We have printed sale agreements for this pur-
pose, so that you can deliver the property immediately, to-
gether with your receipt for the first cash payment. Call
and see us about the matter.

Our Prices

\$500 for corner lots and
\$400 for inside lots. Size
75 feet by 150 feet, with
liberal installment terms,
or 5 per cent. discount
for all cash, makes it
possible for you to buy
for yourself or give to
your relative a beautiful
ocean view homesite and
Christmas greeting that
will always be remem-
bered.

ARMY AND NAVY NEWS

Fine Record With New Torpedo.

The officers and crew of the destroyer Paul Jones, which has just been at target practice in Magdalena Bay, are elated at the record made with the new Bliss-Levitt torpedo. It is unofficially reported that the marksmen of the Paul Jones made ten hits out of a possible eleven, under the direction of Lieut. S. M. Davis.

Test Warship Efficiency.

WASHINGTON, December 4.—In an attempt to determine the comparative efficiency of warships of the same class, the navy department has handed down an order for the standardization of trials of vessels prior to their acceptance by the government. All the vessels of a class, the regulations provide, shall be tried over a measured mile course, at as nearly the same displacement, trim, condition of bottom and weather as possible. The displacement and trim will be those of average cruising condition for each class.

The trials will consist of progressive runs in order to obtain the necessary points for laying down the curves of speed, indicated horsepower and speed revolutions.

"Standardization plans conducted uniformly in accordance with the foregoing plan," the order says, "will furnish comparative data of great value to the department in the elimination of the least efficient propellers and thereby increase the general efficiency of the fleet."

America Still Second Naval Power.

According to Mr. Pittman Pulsifer, author of the Navy Yard Book, published by congress, the United States is still the second naval power in ships actually in commission. Mr. Pulsifer, who was until last March the clerk of the senate committee on naval affairs, is an acknowledged expert in naval matters. Last year he maintained successfully in the face of considerable opposition that the United States was the second strongest naval power. This year on being questioned on this point, he said:

"Perhaps the most prominent feature in the naval world is the struggle of Germany to overcome the effort of Great Britain to maintain a two-power navy. As the navies now stand, considering only ships in commission, the relative position of the powers has not changed during the year. In ships completed, considered either in numbers of the larger craft, total displacement, or armament of the largest cal-

iber, or in all by gunships, the United States is still ahead of Germany.

"Cloves, in his Naval Pocket Book for 1908, in a comparative summary of 'the fighting ships,' puts the United States, with fifty-three, ahead of Germany, with fifty-one. Germany has two all-big-gun ships completed, while we have the South Carolina and the Michigan, and early next month, January, will have two more—the Delaware and the North Dakota. But taking the list of ships built, building, provided for and projected, Germany is equal, if not ahead, of the United States.

"This should be of little concern to our people, for we should not enter into the scramble to see which country shall have either the most or largest ships. Our interests should lie principally in maintaining an adequate navy, having more concern about the quality of the ships and seeing that in providing and planning for each, the best naval architecture prevails and that our officers and men are well trained in gunnery."

The Lamson Makes 29.7 Knots.

The new torpedoboot-destroyer Lamson is having her final test off Cape Henlopen. In the trials already made the vessel has shown an average speed of 29.7 knots an hour, 1.7 knots above the contract requirements. The maximum speed developed was 31 knots an hour, but the officials in charge of the test believe the Lamson can exceed even this rate of speed.

ALL WRONG

The Mistake is Made by Many Honolulu Citizens.

Don't mistake the cause of backache. To be cured you must know the cause. It is wrong to imagine relief is cure. Backache is kidney ache. You must cure the kidneys. The following statement shows you how:

Samuel E. Vaughn, retired, 601 South St., Iola, Kans., says: "For some years I was afflicted with kidney complaint and finally diabetes set in, making my condition critical. The kidney secretions were very unnatural, deposited a sediment and were at times too profuse, then again scanty. I also had severe attacks of pain in the small of my back and sometimes I could hardly get around on this account. I was very nervous and often had such terrible dizzy spells that I was afraid to walk. I tried a number of remedies, but I never found more than temporary relief. Finally I had the good fortune to hear of Doan's Backache Kidney Pills and I procured a supply. The contents of three boxes rid me of diabetes, greatly relieved the pain in my back and toned up my whole system." (Statement given in June, 1905.) On January 27, 1909, Mr. Vaughn

PERJURY ON ALL HANDS

Charges and Countercharges Are Made in Fight Over a Billiard Table.

Maui News.—As a result of a civil suit brought to determine the ownership of a billiard table, five Japanese of Hana are now in jail charged with perjury, while another is out on one thousand dollars bail.

The case came up before Judge Kingsbury last Friday, and as two of Attorney Case's witnesses were evidently lying, he referred the court to that section of the law which gives circuit judges the authority to summarily commit for perjury.

Judge Kingsbury at once committed two of the witnesses of Mr. Case. At this point Mr. Correa, who represented the other side, stated that he would render any assistance possible in bringing to justice the parties who had committed perjury.

The following day some of Mr. Correa's witnesses were committed for perjury and others investigated. Attorney Correa went to the county attorney's office and a warm spat took place between him and Deputy County Attorney Vincent.

When the case came up again in the circuit court, Judge Kingsbury expressed himself very strongly on the matter of perjury and on coaching witnesses. He said he had been sorely vexed and discouraged because so many come into court and commit perjury.

He said that while he was satisfied that the witnesses in the case had been drilled, a study of the testimony convinced him that it was not done by an attorney.

JAPANESE ARE HARD TO KILL

Though Blown Sixty Feet Through the Air, Nipponese Yet Lives.

One of the two donkey engines on the wharf at Port Allen blew up on Saturday and seriously injured two Japanese employees, one of them so seriously that when the Kinau left the Garden Island he was expected to die.

The Kinau brought few details of the accident, and nothing whatever as to how or why it happened. The donkey engines are used for hoisting freight out of the boats from steamers which anchor in the roadstead.

One of the Japanese, who works on the engine, was blown about sixty feet away and was badly injured. The other man had an aerial flight of about forty feet, but it is thought he will live.

ANY CADILLAC PISTON FITS ANY CYLINDER

"But how do you know which piston will fit which cylinder?" is a question invariably asked by those seeking information about the construction of a motor car; and frequently asked by experienced mechanical men.

In the great Cadillac plants at Detroit the answer is always this:

"We don't need to know. Because any piston will fit any cylinder."

And this answer invariably elicits the novice's explanation of his notion of how certain pistons are designated for certain cylinders—that each pair must be numbered, or tied or wired together, to insure their fit and proper action in the assembled engine.

The Cadillac Company, ever since it has manufactured motor cars, has employed a method which requires no such means of identification; and which, moreover, makes it absolutely certain that any piston will exactly fit any cylinder when the work on the engine reaches the assembling stage. This is a method of accuracy of measurement in which the one-thousandth part of an inch is the standard.

Cylinders and pistons are ground to size on this minutely accurate scale. A cylinder bore must be exactly four and one-quarter inches in diameter—exact to the thousandth part of an inch.

To prove that each cylinder, as it leaves the workman's hands, is ground with this nice degree of exactness, a final inspection is made with gauges supplied for the purpose.

One of these gauges is exactly the

size to which every piston is ground. It is marked "4.250—Go"—which means that it is exactly four and one-quarter inches in diameter and should enter the cylinder. The other is marked "4.252—Not go." The diameter of this gauge is just two one-thousandths of an inch greater than the other, and it, of course, will not enter the bore of the cylinder before the inspector.

The size of the pistons is proved by snap gauges set to similar measurements. Each cylinder—each piston—is submitted to the test before it may be sent to the engine assembling department; and when they are delivered there, it is impossible that any piston will not fit any cylinder—not loosely and with too much play, nor too snugly, but exactly.

It is these methods of exactness in manufacture which made the winning of the Dewar trophy, in the British standardization test, so easy for the Cadillac; and which are responsible for the holding of compression for two weeks, as recently reported from Seattle.

COLDS ARE DANGEROUS.

If more people would make an attempt to get rid of the colds from which they are suffering, as a result of this changeable weather, there would be a decided decrease in the number of cases of pneumonia. A few doses of Chamberlain's Cough Remedy will cure your cold, and all danger of its hanging on until spring and resulting in pneumonia may be avoided. HAWAII HAD A SPOKESMAN THERE

National Farm Congress at Chi-
cago Heard of Islands From
Prof. George Mead.

The Chicago Examiner of November 21, in its accounts of the session of the National Farm Land Congress, gives some space to an address given by Prof. George Mead of the University of Chicago, who visits in Honolulu frequently and is related to the Castle family. Of his address the Examiner says:

"Hawaii was not so remote that it did not have a spokesman at the land congress. Information concerning the opportunities for farmers to take public lands there and raise valuable tropical crops were told by Prof. George H. Mead of the University of Chicago, who formerly resided on the island. Mr. Mead was named by Gov. W. F. Frear of Hawaii as his personal representative at the convention.

"When the islands, however, were annexed and this American community became in deed as well as in spirit a part of the United States, the further immigration of Orientals was stopped. The Chinese were excluded and the Japanese had ceased coming because, by an agreement between the government at Washington and the Japanese government, no more Japanese may emigrate from Japan to the United States, that is, of the laboring class.

"It is of great moment to this Territory of the United States that more Americans should come in there and continue the traditions of this American colony.

Americans Much Desired.

"The Hawaiian Islands, as you know, were really taken possession of by the American people through their missionaries," said Professor Mead. "Away back in 1820 the first missionaries went there and were received by the chiefs and the King into the council of government, and they established a constitutional government there. The na-

tives, however, had disappeared, unfortunately, before that other present which the Western world gave to the Hawaiian Islands, and this American community, which really constitutes the first colony which America has ever established, had to turn to the industries exploitation of the Islands. They established the sugar industry there, which, of course, has to be conducted upon a large scale. It is not an occupation for the small farmer. Laborers had to be brought in, and oriental laborers were brought in, so that at the present time, out of the population of 170,000, some 90,000 are Orientals, mainly Japanese.

"There is not a large amount of land at the disposal of the government, but there are some 100,000 acres of land upon which a very interesting and profitable industry may be established and carried out by the small farmers. They are, however, tropical industries. The land itself is generally heavily overgrown, and it is expensive to clear this if one hires labor for that purpose, but when it is cleared it is possible to get very large returns, all the way from \$50 to \$100 to the acre by means of these industries, which can be opened up.

Sisal a Good Crop.

"One of these industries is growing pineapples. I presume many of you have eaten Hawaiian pineapple. They have a very large canning industry there, and it is possible to get all the way from \$80 to \$100 from pineapples. Another industry is the sisal industry. That plant grows from seven to ten years. It must be planted three years before you are able to take off a crop, and then the leaves are cut, the fibers are extracted and it makes the most valuable known fiber for cordage with the single exception of Manila hemp. By means of this one can make \$40 or \$50 or \$60 to the acre.

"It is also possible to introduce Manila hemp. It used to be assumed that Manila hemp could not grow elsewhere than in the Philippine Islands, but it has been proved that it can be grown in the Hawaiian Islands, and that a very profitable industry can be developed in that way. Two other industries are cotton and tobacco. They have experimented in the islands with various types of seed and have found a number of seeds which produce some of the best cotton that is to be found in the world.

"Tobacco is another industry that is just being introduced into the Islands. There are two or three comparatively large companies there, a number of farmers have taken it up, and they produce the best character of Cuban and Sumatra tobacco there, for which they get excellent prices. This is a crop which the small farmer can take up, especially if he can put himself near some of the larger establishments where they have expert men for curing the tobacco."

RATTLESNAKE POISON CONSUMPTION CURE

PHILADELPHIA, December 4.—Rattlesnake venom, scientifically termed "crotoalin," is a new remedy that is arresting and curing cases of consumption, and one which may yet receive the \$100,000 prize offered by a Yale alumnus for a cure of the white plague, in the opinion of noted physicians.

In the current number of the American Journal of Clinical Medicine the results of a preliminary investigation of rattlesnake venom as a curative agent are given in an article by Dr. Thomas J. Hayes of this city. Dr. Hayes is a well known authority on consumption.

In this article, which is entitled "The Action of Crotoalin," Dr. Hayes says:

"The writer's own experimental study of this substance, undertaken a number of years ago, led him to believe that it profoundly affects the cerebro-spinal nervous system and especially that part of the spinal cord which

comprises the respiratory center and other closely allied functions. The average hypodermic injection of crotoalin is 1.100 grain, although it is often advisable to begin with 1.200 grain, or even a smaller amount, and it is essential to increase the dose to 1.50 grain or even more, and repeat at more frequent intervals in cases where quite a number of injections have been made.

"The cough and expectoration, the two very harassing features in every case of phthisis, almost without exception, yield readily to the action of this drug, whether administered subcutaneously or internally, or both. The patient has a decided increase in strength from the very beginning of the treatment. This has been so evident and so constant that it seemed almost anomalous in the absence of an increase in flesh."

NO OPIUM IN CHAMBERLAIN'S COUGH REMEDY.

There is not a particle of opium or other narcotic in Chamberlain's Cough Remedy, and never has been since it was first offered to the public. It is as safe a medicine for a child as for an adult. For sale by Benson, Smith & Co., Ltd., agents for Hawaiian Islands.

SAKE CASES AGAIN HEARD

Tom Fitch on Hand to Argue for
the Local Japanese
Importers.

New York Commercial, November 27.
—The United States Supreme Court will hear final arguments on Monday in the case of Komada & Co. regarding the classification of sake under the Dingley tariff. Sake is the national beverage of Japan, and, with the growth of immigration of the Japanese to the Hawaiian Islands, and to the Pacific Coast, has become an important factor in transpacific commerce, as the beverage is in heavy demand in the island possessions of the United States, as well as in California, Oregon, Washington and other western States. The case to come before the Supreme Court stands in the name of Komada & Co., as principals, but the entries of importers generally make it of exceptional importance.

The sake litigation started in 1902, and has dragged along in one phase ever since. Should the court decide in favor of Komada & Co. the treasury will have to refund to importers excess duties ranging from \$500,000 to \$1,000,000. Several years ago the treasury department acquiesced in a finding in favor of Mishimiya & Co., of this city, but when it was ascertained that refunds aggregating half a million dollars were involved, the government directed that a new case be framed.

The action is pending on a writ of certiorari to the United States circuit court of appeals of the ninth circuit, which reversed the judgment of the circuit court for the northern district of California in favor of Komada & Co.

Is It Wine or Beer?

Sake is fermented from rice and water by a process similar to brewing, and contains no added alcohol. The question at issue is whether it was properly classified as a still wine by similitude and dutiable at fifty cents a gallon, or whether it should have been classified either as a beer by similitude, dutiable at twenty cents a gallon, or as a nonenumerated manufactured article at twenty per cent. ad valorem. Prior to 1894 sake was classified as a distilled liquor. In that year a Japanese importer named Wozens protested against this classification, and alleged sake should be classified as a still wine by similitude. The board of general appraisers decided that sake is not spirits manufactured or distilled from grain or other materials, and is not distilled or compounded with distilled spirits. The treasury department accepted this decision, and the classification of sake was changed from that of a distilled liquor to that of a still wine by similitude.

Importers began, however, in 1902 filing protests against the classification of sake as a still wine, alleging that it was either a beer by similitude, or a nonenumerated manufactured article. One of the protests was lodged by Nishimiya & Co. of New York. It was decided by the board of appraisers against the government and later was decided by the circuit court in favor of the importers. The government then took an appeal to the court of appeals, which affirmed the ruling of the lower tribunal. When the secretary of the treasury was advised of the decision of the appellate court in the Nishimiya case, he acquiesced and ordered the accruing refunds to be paid. Ten days later, however, the secretary withdrew his acquiescence on the ground that sake is an alcoholic beverage and that an acceptance of the decision would necessitate a payment of \$500,000 in refunds to importers.

Tax Internally as Beer.

Finally, however, the refunds were paid by the government, and a new case ordered made up, which is the Komada protest. This issue has had a run before the board of appraisers and the courts, with the result that the decision of the court of appeals was against the contention of Komada & Co. that sake is a nonenumerated manufactured article and therefore entitled to enter at twenty per cent.

At the argument of the case in Washington before the Supreme Court, Thomas Fitch, W. Wickham Smith of the law firm of Curie, Smith & Maxwell, and John M. Thurston, former United States senator from Nebraska, will appear for the importers; James McReynolds, assistant to the attorney-general of the United States, will represent the government. Speaking for the importers, Mr. Smith said yesterday:

"The court of appeals in New York decided that while sake had some of the characteristics of wine and some of the characteristics of beer, it did not resemble either article sufficiently to have the resemblance determine its classification. As a matter of fact there have been established on the Pacific Coast a few breweries where sake is manufactured. The government taxes this as beer and makes the manufacturer take out a beer license.

"The import duty on beer is lower than that on wine so when the sake is imported the government is not satisfied with the beer duty but takes the wine duty. This practise on its part we claim is the strongest kind of ratification of the decision of the court of appeals of New York that sake resembles both wine and beer and we think that all the facts justify the inference of the New York court that it doesn't resemble either sufficiently to bring it under the similitude law, and it should therefore be taxed at twenty per cent. as a manufactured article not enumerated."

YOU WILL NOT

be deceived. That there are cheats and frauds in plenty everybody knows; but it is seldom or never that any large business house is guilty of them, no matter what line of trade it follows. There can be no permanent success of any kind based on dishonesty or deception. There never was, and never will be. The men who try that are simply fools and soon come to grief, as they deserve. Now many persons are, nevertheless, afraid to buy certain advertised articles lest they be humbugged and deluded; especially are they slow to place confidence in published statements of the merits of medicines. The effective modern remedy known as **WAMPOLE'S PREPARATION** is as safe and genuine an article to purchase as flour, silk or cotton goods from the mills of manufacturers with a world-wide reputation. We could not afford to exaggerate its qualities or misrepresent it in the least; and it is not necessary. It is palatable as honey and contains all the curative properties of pure Cod Liver Oil, extracted by us from fresh cod livers, combined with the Compound Syrup of Hypophosphites and the Extracts of Malt and Wild Cherry; and how valuable such a blending of these important medicinal agents must be plain to everybody. It is beyond price in Debility, Lung Troubles and Blood Impurities. Science can furnish nothing better—perhaps nothing so good. Dr. W. H. Dalfie, of Canada, says: "I have used it in my practice and take pleasure in recommending it as a valuable tonic and reconstructive." It is a remedy that can afford to appeal to its record and represents the science and knowledge of bright and aggressive medical investigation. "One bottle convinces." At chemists.

IN THE CIRCUIT COURT OF THE FIRST CIRCUIT, TERRITORY OF HAWAII.—AT CHAMBERS. IN PROBATE.

In the Matter of the Estate of Kapea, Widow of Kaiakawaha, of Waialua, Oahu, Deceased.

On reading and filing the petition of R. W. Kalanialuwalu (k) of Opihahi, S. Kona, Hawaii, alleging that Kapea (w) of Waialua, Oahu, died intestate at said Waialua, Oahu, on the 2nd day of October, A. D. 1909, leaving property in the Territory of Hawaii necessary to be administered upon, and praying that letters of administration issue to David K. Baker;

It is Ordered, That Monday, the 17th day of January, A. D. 1910, at ten o'clock a. m., be and hereby is appointed for hearing said petition in the courtroom of this court at Honolulu, at which time and place all persons concerned may appear and show cause, if any they have, why said petition should not be granted.

Dated at Honolulu, November 26, 1909.

By the court: V. M. HARRISON, Assistant Clerk.

Dec. 6, 14, 20, 27; Jan. 3.

TENDERS WANTED.

Sealed tenders will be received by the trustees of the Queen's Hospital for furnishing the hospital with drugs, medicines, medical and surgical supplies for a period of twelve months from January 1, 1910, in quantities as called for by the Superintendent.

Form of tender and list of articles will be supplied upon application to the Superintendent at the hospital.

Tenders must be submitted on or before December 22, 1909.

A bond in the sum of \$1000 will be required from the firm whose bid is accepted as a guaranty that all supplies named on the list will be furnished as required by the hospital during the period.

The tenders will be considered as a whole. The hospital reserves the right to accept or reject any or all bids.

By order of the trustees.
W. W. NORTH,
Treasurer, The Queen's Hospital.
8512—Nov. 19, 24, 26; Dec. 1, 3, 8, 10, 15, 17, 19, 22.

DIVIDEND NOTICE, NO. 150.

The directors of this corporation having declared a dividend of 3 per cent. (1 per cent. regular, 2 per cent. special), Dividend No. 150 is due and payable on Friday, December 31, 1909, to stockholders of record at the close of the stock-transfer books, Tuesday, December 21, 1909, at 12 m.

Stock-transfer books will be reopened Saturday, January 1, 1910.

CHAS. H. ATHERTON,
Treasurer, Ewa Plantation Company.
Honolulu, December 18, 1909.
