THEY GET THE BEST CIGARS FOR LEAST MONEY.

Tobacco Man Says Goods Can Be Purchased Here Cheaper Than in Any Other Importing Country—Reason.

"These islands are a perfect paradise for the inveterate cigar smoker," said Mr. S. Rinaldo at the Hawaiian hotel this morning. Mr. Rinaldo is of the big tobacco firm of Rinaldo Bros., doing business in San Francisco and San Jose, and he is just starting out on a tour of the world, in which he expects to occupy a year's time.

"I say this not only because of the congenial climate he encounters, but my chief reason is from a financial point of view. People are buying cigars cheaper in Honolulu today than it is possible to buy them anywhere on this planet, where tobacco is imported.

"Look here," continued the San Francisco gentleman as he pulled from his vest pocket one of the finest Habanos in the market. "This cigar I purchased here in Honolulu for twenty-five cents. For that very same cigar I would pay forty cents in San Francisco. It would be almost impossible for me to get it cheaper. Cigars which we pay ten cents apiece for in Frisco you people in Honolulu get four and sometimes five of the same brand for a quarter. And why is this so, you ask?"

"Simply because of the import duty. We all buy our tobacco at the same prices in Cuba or the other tobacco countries, but when it comes to the Hawaiian shores for admittance an import duty of \$10 a thousand is imposed. This same duty applies on either high or low grade tobacco.

At San Francisco and all over the United States an import duty of \$4 a pound is charged. A thousand cigars like this Habano weigh about eighteen pounds, which would cost us \$72 duty. This does not include all. We are forced to pay ad valorem duty besides, which greatly increases the expenses. Then no wonder you people smoke the best there is at half the price we pay for them.

"Your Manila cigars are brought here from the Philippine islands for \$16 or \$18 a thousand. The excessive import duty keeps them out of the states pretty generally."

"How are prevailing prices in tobacco?" was asked Mr. Rinaldo.

"High and going up. The war in Cuba has decreased the output from that country. Scarcity in the best grade has brought on higher prices and cheaper tobaccos have had an advance in sympathy with the higher priced goods.

"There is only one Cuba in the world, and there is where the real fine tobacco comes from. In California, experiments were made in tobacco raising but failed. The soil and climatic conditions are not adapted for a fine tobacco. The stuff grows rank and strong.

"I believe that the same trouble is found in Hawaii. The tobacco that is grown here now experiences this trouble. It may be that with proper care and selection of good soil away from the sea tobacco cultivation would prove a success."

Mr. Rinaldo sails for Japan on the Peking Saturday.

MORRIS CASE.

In the smuggling case against A. L. Morris, tried before Judge Perry yesterday, the jury disagreed on a verdict, seven standing for conviction and five for acquittal. The jury was dismissed. The case has not yet been set for rehearing.

"Look Out for Squalls."

The latest squall is dimities at 12 yards for one dollar at Kerr's. Don't miss them.

Typewriters Repaired.

Repairing typewriters is one of our specialties. We can do it right, with despatch, and guarantee our work.

Old typewriters taken in part payment for the Peerless. New and second hand machines on hand.

Have you decided on a typewriter yet? The Peerless fulfill every claim made for them. Only a few more left. Get yours to-day.

PACIFIC CLUB SMOKER

GENERAL GOOD TIME IN GAY BOHEMIA.

Paul Neumann Presided in His Usual Jolly Manner—W. H. Armstrong Was Present—Gillig Party, Guests.

A general good time was had at the smoking concert given by the Pacific Club last evening. About a hundred clubmen and their friends attended and all thoroughly enjoyed the old fashioned Bohemian time which prevailed during the entire evening.

Jolly Paul Neumann presided over the festivities. He set the ball of pleasure in motion by making a few happy remarks in which he spoke of the Pacific Club. He then called upon Mr. W. N. Armstrong for a brief talk.

That gentleman responded with a genial spirit. He gave some reminiscences of his tour abroad with King Kalakaua and of his meeting Paul Neumann while traveling.

Attorney W. L. Stanley opened the musical feature of the evening's entertainment with a song. Then came W. B. Starkey, who pleased with a solo, as did also Alex St Martin Mackintosh. Lieut. Slater, of the Icarus, sang, and Lieut. Stafford, of the Alert, gave a selection on the zither, accompanied by Oscar Herold.

The jolly quartette of San Francisco Bohemians were there: Messrs. Donald De V. Graham, Harry Gillig, Frank Unger and Jerome Hart. Each of these gentlemen were very obliging and promptly responded with a song, save Mr. Hart, when called upon by the toastmaster of the evening. Mr. Hart responded to his name by relating some interesting incidents connected with the Bohemian Club of San Francisco in olden times.

Lieut. Phelps was in a jovial mood when it came his turn. He had just had his mustache "amputated," which attracted the attention of all his friends. After receiving congratulations on his good looks, something which had not even been suspected before, the lieutenant gave a comical song in fine style. So good was it that he was compelled to respond several times before his audience would consent to let him off.

Elegant refreshments were served during the evening. Major George C. Potter and Mr. George E. Boardman had the arrangements of the affair in hand.

BARK SIGHTED.

Soon after noon a bark was reported off Barber's point. The wind was favorable and at press time she is still too far off shore for the lookout to make her out. It may be the now long overdue Andvake, which left Newcastle on November 5 for this port. The Calleo, from Newcastle November 22, is also daily expected.

MR. MOTT'S LECTURE.

There was a good sized audience at the Christian church last evening to listen to Mr. John R. Mott, who spoke on Evangelization. Mr. Mott held that to evangelize was not to Christianize, but merely to bring people to the knowledge of Christ, of whom more than half the world knows nothing about.

CIRCUIT COURT.

The Dimond Case Nearing a Close—Ashworth Liquor Case.

When Judge Carter adjourned court yesterday afternoon the plaintiff in the Dimond divorce case rested his case. This morning the defendant's side was opened. Mrs. Dimond will not go on the stand until all her witnesses have been heard. Mr. Dimond will probably be called in rebuttal.

Circuit Judge Perry's time was occupied this morning with the hearing of the Ashworth case, in which the defendant, proprietor of the Saratoga beach resort, is charged with unlawfully selling liquor. The witnesses for the Republic took up most of the time during the morning, telling how Ashworth had been trapped with marked coin, and a quantity of liquors, wine and beer found on his premises. The defense will be that the stuff was part of a lot seized on a previous occasion by the police authorities and returned to Ashworth, who stored it away in his cellar. The hearing will occupy all afternoon.

"Good Weather for Ducks."

We have ducks galore, in spots, stripes and figures. These goods are just the thing for between seasons, and make up stylish costumes. Eight yards for one dollar at Kerr's

THE MOUNTED RESERVE

SCOUT ORDER DRILL AT THE PARK LAST NIGHT.

Marksmanship Badges Now Being Given to Members of the Reserve—Shoot With Mounted Patrol.

There was fun at the drill of the Mounted Reserve troop at Makiki last evening. Over thirty of the boys turned out, which so pleased Captain Walter F. Dillingham that he resolved to put his men through the scout order drill movement.

The reserve was divided into three platoons, each in command of Lieut. Rice, Lieut. Sam G. Wilder and Sergt. Chamberlain. Capt. Dillingham commanding the battalion. Each platoon started from the town side of Makiki and scouted through the trees, rallying at Campbell's place in Waikiki.

The platoons commanded by Lieut. Rice and Sergt. Chamberlain arrived at the rallying point on time. After waiting a reasonable length of time a search was started for the third platoon. They were found wandering about among the trees and piloted back to Campbell's place. The Reserve came back to town in a body.

Marksmanship badges are now being given to members of the Reserve. They are of target design and of the regulation bronze color. To secure these members must score over 35 points in carbine shooting. Badges have thus far been given to Dr. Nichols, Howard, Gibbs, Talbot, Grace, Howard, Judt and Atkinson.

A match will take place Saturday afternoon between the Mounted Reserve and the Mounted Patrol. Both sides have been doing considerable carbine practice of late for the event.

COURT NOTES.

Two Suits for Damages Filed Today.

C. K. Kaiopahia has filed a suit in the Circuit Court against Liliakalani for \$840 damages. The plaintiff alleges that in January 1890, the defendant "broke in and entered the dwelling house" of the plaintiff in this city, ejecting the plaintiff and keeping him out until January 1897, and during the interval received and kept the profits from the tenants. The plaintiff recovered the land through the aid of the Courts, but now wants damages for being kept out of the property.

Alexander Akapo A. Aoma, also known as "Akepo Opio," has filed a suit for ejectment in the Circuit Court against M. Aoma, E. Iugham and Mrs. Nakai Everett, to recover possession of a tract of land in Keoneula, from which he claims to have been unlawfully evicted by the defendants. The plaintiff claims an undivided half interest in the property and the right of possession in common with the defendants. He also asks damages in the sum of \$500.

HONOLULU AS A HEALTH RESORT.

The annex of the battle Creek Sanitarium in Honolulu is growing in reputation. J. R. Mott, who has so ably conducted services and given such fine discourses upon true Christianity, has availed himself of the resources of the institution. After a two years tour round the world Mr. Mott was very much run down and the treatment at the Sanitarium has proved just the thing he needs. There is no doubt but that a large number of people on these Islands would be benefitted by the course of treatment at this institution. When its methods and results are thoroughly appreciated it will grow. Indeed, already people are coming to the Islands on account of the establishment of such a hygienic institution. By the S. S. Warrimoo Mr. G. P. Edwards, of Tacoma, arrived and at once went to the Sanitarium. The climate of the Islands, plus intelligent manner of treatment, will undoubtedly bring many an ailing patient to these shores who can be cured here, as he or she has no chance to be cured elsewhere.

BEST FOR WHEELMEN.

Careful wheelmen are never on the road without Reading's Russia Salve. It is the best thing extant for bruises, sprains and cuts. Sold by Hollister Drug Co.

Accommodating to Patrons

You can get Buffalo or Pabst beer at the Cosmopolitan, Pacific or Royal saloons. Exchangeable checks good at all the above-mentioned resorts are given in change if you only want one drink. "Best beer ever in Honolulu" is the verdict of many of our prominent citizens.

AN OLD ISLAND TRADER

CAPT. WHITNEY RETURNS AFTER A LONG ABSENCE.

Formerly Master of the Schooner Twilight, a Vessel that Made a Quick Run Between Hilo and Frisco.

After an absence of twenty years from Honolulu, his old stamping ground, Capt. Whitney returned yesterday as the managing owner and master of the smart little schooner Jessie Miner, which brought the first consignment of a big order for redwood lumber and shingles placed recently by Lewers & Cooke with the Miner Mills at Eureka, Cal. The entire order is for 800,000 feet of lumber and 1,000,000 shingles, but the Jessie Miner brought only 240,000 feet of lumber and 400,000 shingles. The next cargo will be brought out by the Bertie Miner, of which Capt. Whitney is also managing owner, but of which Capt. Raven is master. The latter vessel, a twin sister of the Jessie Miner, was to have brought the first cargo, but she had gone to San Francisco, failed to get a charter, and was laid up at the time the Jessie Miner sailed from Eureka.

Years ago Capt. Whitney was one of the best known of the island traders. At that time charters were plenty and rates high, and money was to be made in the shipping business. He was best known, perhaps, as the skipper of the schooner Twilight, which for a long time held the record for the run from San Francisco to Hilo at nine days. Capt. Whitney is doubtful if there are any "fore-and-afters" now in the island trade who have or can reduce the time. The Twilight repeatedly made the run under twelve days.

The Jessie Miner and her sister, the Bertie Miner, were built at Eureka under the superintendence of Capt. Whitney, who is the principal owner in both vessels. They are trim little "three-stickers," built on graceful lines, and great freight carriers. The slow run by the Jessie was due to heavy weather experienced on the Coast. All the way down it was a succession of southeast and south gales, and it was not until the trades were reached that the schooner ran well on her westerly course.

"The shipping business is not what it used to be here or on the Coast," said Capt. Whitney this morning to a Star reporter. "In the early days any kind of a lugger could pick up a full charter in any port she visited, and at rates that made many men very wealthy. What a contrast now! I have not declared a dividend on my vessels for eight years, and it commences to look now as if I will have to declare an assessment to keep my head above water. The Jessie had been idle for four months before taking this cargo. I have no return charter, and unless I can pick up a load of sugar, this trip will prove a losing one. I have a cargo half promised me, but it is not certain yet.

"In San Francisco harbor the ships lying idle foot up to nearly 100,000 tons register. The Bertie is among them. Lumber cargoes from Puget Sound to foreign ports, at losing rates, and sugar charter her or at Manila, after a long run in ballast, are about the only offers. I am not a croaker, but it appears to me that there is no money at all in the shipping business now."

Capt. Whitney was master of the famous schooner Karua when she went down off the California coast in 1868. He and his crew went without food or water for ten long days before they were rescued. He recalls his experience very vividly, even after the thirty years that have intervened, and tells a most interesting story of the wreck.

THEY CHUMMED TOGETHER.

Mr. Harry Ashland Greene, the Monterey banker who is putting in the winter on Hawaiian soil, found an old time friend in Honolulu in the person of G. W. R. King, of the Annexation Club. Mr. Greene and Mr. King first met each other about thirty years ago and became companions. They had not seen each other for twenty-four years.

WHITE GOODS.

Fine white goods in plaids and stripes, 9 yards for \$1; Victoria lawns only 60 cts. for a piece at N. S. Sachs'.

IT'S A PUZZLE.

To find a more pleasant or convenient way of seeing Honolulu and environs than on a wheel. First class bicycles to rent at the HAWAIIAN CYCLERY, Way Block, King street.

A SMALL POX EPIDEMIC

DR. ELDRIDGE WRITES TO THE BOARD OF HEALTH.

Disease First Appeared at Kobe and Has Spread Rapidly—New Regulation Adopted by Board.

Recent reports from Hawaiian Sanitary Inspector Eldredge for Japan, give the information that the small pox epidemic is assuming very large proportions in Yokohama, the last port in Japan on the route to this country. The prevailing epidemics in that country first broke out in the Kobe district and have rapidly spread.

At the regular weekly session of the Board of Health yesterday afternoon, Dr. F. R. Day introduced a temporary health regulation affecting all Japanese immigrants, which was passed by the Board. Hereafter these immigrants will be kept in quarantine fourteen days in stead of five, as at present.

Mr. George E. Boardman, agent of a Japanese Immigration company, was before the Board with an application to land a lot of Chinese from the district of Manchuria, in North China, en route to Honolulu, in Japan, without first undergoing quarantine in China. Mr. Boardman was informed that this would be perfectly satisfactory to the Board as long as health regulations were carried out in Japan. It makes no difference to the Board how the Chinese or any other nationality reaches Japan, as long as the health regulations there were complied with, everything would be satisfactory.

Dr. Wood explained that an arrangement had been made in the matter of Chinese immigrants, whereby they were examined and their clothing disinfected before leaving China, the quarantine being undergone while en route to Japan. There is now established in Japan three hot air plants for the disinfection of clothing. One at Nagasaki and one at Kobe owned by the Government, and one at Hongkong owned by the Pacific Mail Steamship company.

A report of the number of school children vaccinated in the district of North Kona was received from Inspector General Townsend.

Dr. Oliver, of the leper settlement, was granted a brief vacation in order that he might visit Honolulu on business matters.

Superintendent Meyers, of the leper settlement, in his report to the Board, stated that Mr. Clark found that algaroba trees did not thrive in the district on account of the wind. The superintendent also stated that he had informed Mr. Hutchinson to make no changes in the road without first obtaining permission from the Board.

The Sanitary Committee, through its chairman, Dr. Emerson, made a report on the location of the new Government nursery in Nuuanu valley. The report was accepted.

A number of applications for the position of leper officer were received and filed.

Present at yesterday's meeting were Acting President Cooper, Drs. Day, Wood, Emerson, Monsarrat, Fish Inspector Kelipio, Messrs. Theo. F. Lansing, C. A. Brown.

"Blessed Are the Dead that the Rain Rains On."

This saying does not apply to the living, and if you don't want to be blessed with a severe cold, the outcome of a good drenching, buy one of Kerr's English rain coats, that will withstand any storm. Only a few left.

Heart Disease Kills Suddenly,

but never without fair warning. By an occasional fluttering, a perceptible palpitation, shortness of breath, etc., in many ways the victim fully notified. But his friends are ignorant, and the warning is disregarded, until loving associates are shocked and dismayed by another sudden death.

"My wife suffered years with heart trouble which the doctors called incurable valvular coagulation of the heart. She took 3 bottles of Dr. Miles' Heart Cure six months ago, and has not suffered since. She sleeps well, and is like a new person altogether, and says Dr. Miles' Remedies are gold to her."

F. B. JACKSON, 701 S. 27th St., Omaha, Neb. For sale by druggists on guarantee that first bottle will benefit, or money refunded.

ENCOUNTERED A BARRIER

DELEGATES FROM CANADA MAKE LITTLE HEADWAY.

Ways and Means Committee Will Not Consider Any Reciprocity Scheme That Will Injure American Farmers.

WASHINGTON, Feb. 6.—The two members of the Canadian Parliament, Sir Richard Cartwright and Mr. Davies, who are in Washington in the interests of closer trade relations with the United States, interviewed a number of public men today. They were escorted by Representative Hitt, of Illinois, who introduced them to leaders of both Houses. They had a half hour talk with Speaker Reed which ended with the remark by Sir Richard Cartwright that it seemed to be the idea of the people of each country that if they could build a high tariff wall around their own domains they could enrich themselves at the expense of their neighbors. Speaking for the Canadian administration, he said it was their hope that the United States would see that reciprocal arrangements would benefit both peoples.

The Canadians have encountered a barrier to the success of their mission in the Ways and Means committee, which is framing the new tariff bill. They base their reciprocity scheme upon an exchange of concessions, by which Canada will admit the manufactures of the United States upon favorable tariff terms in return for tariff concessions to Canadian products. The members of the Ways and Means Committee have announced their intention to give particular benefits to American farmers and to secure to the American farmers the entire home market for their products. Several of them said today, that they would not consider any reciprocity scheme which would take any part of the home market from the farmers. Their policy of giving the farmer ample protection is shown in the agricultural and lumber schedules of the new tariff bill, which have become known. The Canadians have met with another discouragement in the immigration bill, now before Congress, which excludes Canadian laborers from the United States.

A Mine Full of Pepples.

The extraordinary resuscitating power of light received a curious illustration a few years since in the silver mines of Idaho. The mines were abandoned more than 2000 years ago as unworkable, and were filled for the most part with the "slag" from the workings of the miners.

It was discovered that this slag contained plenty of silver, which could be easily rendered available by modern appliances. Accordingly it was removed to the furnace, and when cast the mine was visited a wonderful transformation was found to have taken place.

Instead of a heap of rubbish the mine had become a gorgeous flower garden. The entire space was covered with a brilliant show of pepples. This produce vegetable life, says Popular Science News, belonged to the same age in which the mines were worked. Twenty centuries old were these peppy seeds, yet when the removal of the slag allowed the light to fall upon them they sprang into life and bloom under its influence.

I have given Chamberlain's Cough Remedy a fair test and consider it one of the very best remedies for croup that I have ever found. One dose has always been sufficient, although I use it freely. Any cold my children contract yields very readily to this medicine. I can conscientiously recommend it for croup and colds in children.—Geo. E. Wolf, Clerk of the Circuit Court, Fernandina, Fla. Sold by all druggists and dealers. Benson, Smith & Co., wholesale agents for H. I.

HALF AND HALF.

The Royal, Pacific and Cosmopolitan saloons are now serving half and half for their customers. Two glasses are sold for a quarter. They still supply Pabst and Buffalo beers at the same price.

BY AUTHORITY.

GOVERNMENT BUILDING LOTS ON MOUNT TANTALUS.

Thirteen Building Lots have been recently surveyed on Mount Tantalus above Honolulu, and are now ready for sale.

Applications for the same will be received at the Interior Department and they will be sold at Public Auction when a sufficient number of applications have been filed to warrant the sale.

The lots vary in size from 1/2 to 3 acres, and in elevation from 1200 to 1600 feet.

All lots have frontages on the carriage road newly constructed to Mount Tantalus upon an easy grade.

All the lots have the number plainly displayed near the road and corner stakes marking outside boundaries.

A Blue Print of these lots will be shown to any one desiring to inspect the same, on application at the Interior Office, where full particulars of upset prices at auction, terms and conditions of sale may be obtained.

J. A. KING,

Minister of the Interior.

Interior Office, February 15, 1897.

THURSDAY, FEBRUARY 18, 1897.

A POSSIBLE INDUSTRY.

This is an age of many inventions. We use all kinds of artificial substitutes for natural products, and frequently find the artificial substance of more value than the real. But certainly artificial silk is one of the most astounding of inventions.

The invention has been made and patented by a Frenchman, Count Hilaire de Chardonnet, a graduate of the Polytechnic School of France. His process is by both mechanical and chemical means to obtain a fibre from wood which equals in brilliancy and softness of texture the silk obtained from the silk worm. Indeed the silk is said to be far superior to the best products of China and Japan.

The invention was completed in 1891 and a company was formed and works put up. The wood is reduced by chemical means to a liquid of a nitro-cellulose character, which is passed, under great pressure, through glass tubes, at the extremity of which is a capillary opening. By this process the liquid is turned into a tiny filament of silk, which is scarcely perceptible. How small these filaments are can be judged that it takes ten of them to make up the thickness of a human hair. These filaments pass through guides on to the bobbin, as many being passed as the thickness of the thread requires. After being spun the silk is dinitrified, to render it non-inflammable. It is then stretched and ironed on rollers. The latter process gives it the peculiar lustre which, it is claimed, makes it even more ornamental than natural silk.

The manufactured article is much cheaper than the natural product and will in time be used not only for dress goods, neckties and so forth, but will come in as cheap material for underwear and so forth.

We have stuck our noses so deep into sugar that we in the Islands can hardly see any other industry, but there seems no reason why the forests of east Maui, where the country needs clearing, should not be turned into wood pulp and then into silk. If some enterprising man would only take hold of it there might be a fortune in it, even for the Islands.

COFFEE PICKING.

A petition from Keamae, District of Hana, has been received, or shortly will be received by the Board of Education relative to the matter of allowing children of school age a certain time "off" in order to pick coffee during the season. As far as The Star can learn the proposal is that during the season the children should be allowed three days for picking coffee and should have three days of school every week. The question has already been thought of. On page 37 of the Report of the Board of Education for 1896 Mr. Atkinson, ex-Inspector General of Schools, who compiled and wrote the report, said: "It will be necessary, in time, to meet the needs of coffee planters and to arrange the long vacation that it may fall in with the coffee picking season. In that way the children will be enabled to earn money, will be taught practical industry and will not lose the advantages of education. It is always well to meet a practical difficulty in a practical way. It is to be hoped that the Board will view the matter in this light."

What was written in 1896 is true at the present day. The proposal of instituting a plan where there are three days on and three days off is, to the writer's mind, impracticable. In the height of the coffee season children would be kept from school on the three school days, and who could blame them for trying to earn an honest quarter when it was there to be got. Certainly The Star could not, in spite of its appreciation of the advantages of education. Even when school work is regular and not intermittent, as this would be, it is hard enough to get children into school in the country districts. They are forever begging off to do work of some kind, and it is impossible for the teachers to refuse them sometimes, as in the case of the mother of the family being sick and having no one to attend to the babies. The elder girl must, under such circumstances, be allowed to take charge of the helpless

ones. The teacher, however, must always satisfy himself personally that the claim is good, otherwise bogus sickness is soon thrust upon him.

Another idea suggested is that the schools in coffee districts work half time, and this does seem feasible, on the plan that half a loaf is better than no bread. But some such method was once adopted as an experiment, and it was found that the children could not stand the strain of the double work, and were sleepy and apathetic in school.

The view set forth in the last educational report seems to be the most practical. It is not necessary that the long vacation should fall at the same time on all the districts of the Islands, though it is convenient for the teachers and the officers of the Board that it should do so. But practical difficulties must be met in a practical manner. It must be remembered that on either the three day system or the half time system, in order to fill out the school curriculum, the vacations of those districts, where such plans are adopted, would have to be curtailed.

Moreover the question of the salaries of teachers under such circumstances would have to be considered. At the present time the teachers are paid monthly throughout the year, vacations and all. The system is a good one and is more and more being adopted throughout the States, though many States pay for the actual teaching work and take no account of vacations. It is so much work, so much pay, and the contract is ended, though it may be renewed later on. The result is a peripetetic class of teachers, who are ever moving about from one country to another, and from one state to another. This is more true of the West than of the East.

It is plain that if the three day system be adopted the Board of Education cannot, or perhaps it had better be said, should not pay full salary to teachers who are only working half time and then pay them full wages for vacation, and the same is equally true of the half day system.

There is much to be said "pro" and "con," and it is a question which should not be too hastily decided. It is a necessary question to be met in a practical manner. Of all things a falling off in the standard of education must be guarded against. Injustice to the teacher must be guarded against and injustice to the tax payers' pocket must also be guarded against. This The Star is assured, the Commissioners of Education will surely do.

Up to the present time Russia has had no general census. A census of the civilized parts has often been taken, but a census of the whole of the Russian dominions has never been taken. This census was so have been completed on February 9—or January 28 according to the Russian calendar, which is twelve days behind the rest of the world, and will be thirteen days behind in 1900. The census is to include all inhabitants, without exception. The enumerators will have a lively time among the Khirgiz, the Turcomans, the Kalmaucks and other semi-civilized tribes. Besides the mere computation of age and sex the professions, religions, nationality, wealth, including number of horses, cattle, etc., occupations and many details too numerous to mention, are to be taken. As this is by ukase of the Emperor there will be no appeal from the order. The object of the mighty undertaking is not only to supply data for the Imperial Government but also for the social institutions which are, under its auspices, working in the far off provinces of the Empire. This Russian census will require an army to take and a couple of brigades to classify.

Bull fighting in Spain is rather an expensive luxury. According to U. S. Consul General Bowen, of Barcelona, during the bull fight season from April 5 to October 20, 1896, there were 478 bull fights in Spain, and 1218 bulls, valued at \$300,000 were killed. The horses destroyed were 5,730, valued at \$200,000. The matadores employed were twenty-three in number and received among them \$221,500. The most successful and popular, Guerrita by name, appeared in sixty-eight fights, killed 174 bulls and received for his services \$51,000. The Consul adds that the interest in bull fights is by no means diminishing in Spain, on the contrary, it seems more intense than ever. With a people trained under such sights as the bull ring brings before the eyes, is it any wonder that we hear of the atrocities that occur in Cuba and the Philippine Islands. The Spaniard is getting as evil a name as the Turk. The fact is both are a survival of the Middle Ages, and both want reforming or wiping out.

Make your advertising an investment, not an expense.

PRESIDENT DIAZ DECORATED.
BERLIN—The Reichsanzeiger officially announces that President Diaz, of Mexico, has been decorated by Emperor William with the grand cross of "Rainier." President Diaz issued an edict to the effect that no beer except the sparkling "Rainier" be served in public places, or on state occasions. On tap or in bottles at the Criterion.

Timely Topics.

FEBRUARY 11, 1897.

New Process "Blue Flame" Oil Stoves, Golden Anvil Ranges, Pansy Stoves.

Nothing is so annoying in business as being disappointed in the arrival of goods that are easily turned into money and in a great many instances prevented from filling orders that have been placed in advance. This has been our experience with the New Process "Blue Flame" Oil Stoves. Owing to the immense sale of these stoves in the United States, the makers have been unable to ship until now our invoice ordered some months ago, the same having arrived on the last Australia.

Possibly the most positive proof of the success of the New Process Stove is the result obtained in baking. By the use of a simple device it is impossible to turn the wick too high, thus ensuring a steady, perfect flame at all times. The use of coal oil (kerosene) is so general that every household is provided with it; hence there is no annoyance in the matter of procuring fuel. The number "105" has three burners, and No. "106" four burners, otherwise, they are exact counterparts of each other.

We have a few of the small sizes in Golden Anvil Steel Ranges, and a fine stock of Pansy Stoves in numbers 5, 6 and 7.

W.W. DIMOND'S

Our customers tell us that our novelties are the best that have ever been sold in Honolulu. As a rule kitchen novelties and labor saving tools don't amount to much. Ours do.

The Quick-Cut Mincing Knife is one that cuts around the corners. Being made half round, it is the best for chopping in a bowl. Fifteen cents is the price.

Every housekeeper knows that small bits of soap accumulate in the kitchen until they are thrown away. The Kitchen Soap Shaker, made of wire, enables you to economize in respect to soap.

Half the fun of camping out is in being able to flip a Flap Jack in the pan; but half the hunters and half the cooks don't save how. We have a Cake Turner that does the flipping automatically. It costs 15 cents for a dollar's worth of satisfaction. It's made on the no-wear-out principle.

The Premier Egg Cup is a novelty that should be in every home. It saves scorching the fingers in opening the egg; it saves disappointment in the way of matured eggs being sent to the table, for by its use the age of an egg is ascertained before it leaves the kitchen. It guarantees satisfaction in every way.

We've more novelties than we can write about in one ad. Sink Brooms at 15 cents is one of them, and World's Fair Toothpicks is another. All good for the house.

For staples we have: Handsome Candelabra Lamps in Brass; Royal Banquet Lamps (wrought iron), for \$6.10 each; Crystal Font Street Lamps; Brass Railroad Lamps excellent for steamer pursers; Wire Epergnes for the table. All cheap.

Mr. W. W. Dimond.
VON HOLT BLOCK.

Canned Goods.

Crackers.

In the early days of Leadville, Colorado, some of the houses there were roofed with tin, in which vegetables and fruit were preserved. The altitude of that thriving district prevented the growing of "garden sass," and the people, perforce of this condition of affairs, depended for their supplies, upon such things as were put up in the canneries of the East and California.

It would be interesting to know how many thousands of cases of canned goods are consumed annually in Honolulu. Our trade in this line is enormous, notwithstanding the fact that the people in Honolulu can grow their own vegetables and are in close touch with the fruit markets of San Francisco.

Our stock is large and contains everything in this line. We have Peeled Peaches, Eva Apricots, Prunes, Pears and Cherries dried, and with the same excellent flavor as the fresh goods.

Mackerel and Salmon Bellies in kits, new catch and just arrived. Delicious Crackers, in two-pound tins; Dainty Chips; High Teas, and Welsh Rarebit; Cracknels and Palace Mixed in quarter cases; Ginger Snaps and Nick Nacs; Oak Asparagus; Queen Olives; Maple Syrup, and Dried Beef.

OWING

Clam Chowder.

We've written of whiped Maple cream before—here is another reminder: For layer cake nothing like it has ever been devised for people who like the flavor. We have had a run on this for a month. The stock is getting lower.

Quick luncheons are often necessary in the home circle. Plenty of things in our stock will be found useful, but nothing is any better than either Potter & Wrightington's or Burnham & Morrill's Clam Chowder. Tinned goods are good only when they closely resemble the natural article. That's why we are free to recommend this chowder. A Maine man could not tell the difference between these goods and clams fresh from Scarborough Beach. If you are fond of chowder try this brand.

IN THE CIRCUIT COURT OF THE FIRST JUDICIAL CIRCUIT, RE- PUBLIC OF HAWAII, IN PRO- BATE.

In the Matter of the Estate of Robert E. Brewer, Minor. Before Perry, J., At Chambers.

ORDER TO SHOW CAUSE ON AP-
PLICATION OF GUARDIAN TO SELL
WARD'S REAL ESTATE.

On reading and filing the petition of Nannie R. Rice, the Guardian of Robert E. Brewer, a minor, praying for an order of sale of certain real estate belonging to the said ward, being an undivided one-twentieth part of the lands and hereditaments on the Ewa makai corner of Judd and Liliha Streets, in Honolulu, which were conveyed by Emma Kalelelanani to John D. Brewer, by deed dated the 29th day of April, A. D. 1875, and recorded in the Registry of Deeds in said Honolulu in Book 42, pages 187-188, and now owned by the heirs of Charles Brewer and said minor as tenants in common, and setting forth certain legal reasons why such real estate should be sold, to-wit: that the other owners have agreed to sell their interests therein, and that the title is in dispute and may be the subject of litigation, and that therefore it would be for the benefit of the said ward that his interest in said real estate be sold and the proceeds put on interest or invested in some productive stock:—

IT IS HEREBY ORDERED, That the next of kin of the said ward and all persons interested in the said estate, appear before this Court on Friday, the 5th day of March, A. D. 1897, at ten o'clock a. m., at the Court Room of this Court in said Honolulu, then and there to show cause why an order should not be granted for the sale of such estate.

AND IT IS FURTHER ORDERED, That a copy of this order be published on each Saturday for at least three successive weeks before the said day of hearing, in The Hawaiian Daily Star newspaper, published in Honolulu, the last publication to be not less than ten days previous to the time therein appointed for said hearing.

Dated, Honolulu, H. I., Jan. 29, 1897.
(Signed) A. PERRY,
Second Judge of Said Circuit Court.
Attest: P. D. KELLETT, Jr.,
Clerk First Circuit Court.

A BICYCLE AMBULANCE.

Novel Vehicle That Is In Use in Chicago.
It's Good Record.

The Windy City has the latest innovation in the bicycle world in a bicycle ambulance, which was invented by Dr. J. T. Hinkley, Jr., of the Chicago hospital and built by the Iroquois Cycle company of that city. The practicability and careful construction of the ambulance is evidenced by the fact that the parts were assembled for the first time on the evening of July 3. The ambulance was propelled from the factory, on the West Side, to the hospital, a distance of about seven miles, through a heavy rainstorm, without an accident, and the following morning it was pressed into heavy service and was used the entire day in picking up injured wheelmen. Upon the Fourth of July it made probably a dozen runs, and since that time it has been in constant use and has brought patients from all parts of the South Side and one from far upon the West Side. All of this service has been accomplished without a mishap of any consequence. The ambulance weighs about 170 pounds and can be propelled with a patient at a speed of 15 to 20 miles an hour on Chicago streets without great exertion. Being constructed upon tandems, with pneumatic tires, and having very sensitive suspension springs and a pneumatic mattress, it is absolutely noiseless and without vibration. In consideration of these facts and the fact that it is ever ready and can be mounted and started at a moment's notice, it makes an ideal conveyance for the sick and injured. Although the Chicago hospital is provided with one of the finest horse ambulances in the west, the bicycle ambulance is used in preference.—Exchange.

SHORT CYCLE ITEMS.

A tight chain is an abomination, and so is one that is too loose.
Leather tires were hopefully looked for last year, but did not put in an appearance.
The conventional cycling costume makes the best skating costume that can be devised.
Heat and dryness are propagators of sulphur bloom. Tires keep best in a place that is moderately cool and moist.
Long distance riding is considered a killing sport, and yet there are more old campaigners at it than are to be found in ordinary racing.
The Massachusetts board of health credits the bicycle with being largely responsible for the decrease in consumption which has been noted during the past few years.
The cyclist on a country road at night always puts his best ear forward. It is said that very few individuals have two equally good ears, and this undoubtedly explains why it is that the average rider proceeds at night with his head turned half sideways.—American Cyclist.
Washington once threw a dollar across the broad Potomac. We will try to make your dollar go farther if you use these columns to boom your business.

Pure

Blood is essential to perfect health. This is a scientific fact. Every organ, nerve and muscle must be fed and nourished. It is the function of the blood to furnish this nourishment, and the quality of nourishment these organs receive depends on the quality of the blood. If the blood is

Rich

Pure and full of vitality it will properly feed and support the whole mechanism of the body. If it is poor and thin disease and suffering will be inevitable. The great success of Hood's Sarsaparilla in curing stubborn cases of scrofula, eczema, rheumatism, neuralgia and many other similar troubles, is based upon its power to enrich and purify the

Blood

This is also the reason for the great popularity of Hood's Sarsaparilla as a building up medicine. By making pure, rich blood, it gives vigor and vitality even in trying seasons, when, owing to impoverished blood, thousands are complaining of weakness and weariness, lack of energy and ambition, and that tired feeling.

Hood's Sarsaparilla

Is the best—in fact the One True Blood Purifier.

In the ... Rain Storm

the man got very wet. The wetting gave him a cold. The cold, neglected, developed to a cough. The cough sent him to a bed of sickness. A dose of Ayer's Cherry Pectoral, taken at the start, would have nipped the cold in the bud and saved the sickness, suffering, and expense. The household remedy for colds, coughs, and all lung troubles, is

Ayer's Cherry Pectoral.

PREPARED BY
Dr. J. C. Ayer & Co.,
LOWELL, MASS., U. S. A.
Gold Medals at the World's Chief Expositions.

Beware of cheap imitations. The name—Ayer's Cherry Pectoral—is prominent on the wrapper, and is blown in the glass of each bottle.

LIGHTS FOR THE STATION

NEEDED IMPROVEMENT FOR THE
QUARANTINE ISLAND.

Liberal Offer Made by Hawaiian Electric Company—Board of Health Auxiliaries to Put in Electric System.

The Government quarantine station is soon to be ablaze with electric lights during the evenings and Chief Quarantine Officer J. D. McVeigh and his men are happy. The secretary of the Board of Health has already been instructed to advertise for bids for the wiring of the station and the furnishing of an engine and dynamo.

Mr. McVeigh has not been idle since this much needed improvement was first talked of. He has made a careful survey of the station and found that eighty-five lights are needed. This number is distributed throughout the building and on the outside. There will be sixteen lights placed around the upper corral and twelve lights around the lower corral on the outside. Lamps around these corrals will be placed on posts with a tin reflector behind. This, Mr. McVeigh believes, will be ample light with which to carry on the outside work.

A question which the Board of Health must determine after the bids have been submitted, is whether to outfit the station with an engine and dynamo, or to connect it with either the Government service or the Hawaiian Electric plant. The chief quarantine officer says that he would much rather have a dynamo put in. Besides Mr. McVeigh there are two other men employed on the quarantine force who are engineers and who understand how to operate the engine and dynamo.

Some idea of the cost of this improvement can be ascertained from propositions submitted to the Board yesterday by the Hawaiian Electric Company. That company agreed to wire the quarantine station and put in eighty-five lights, everything complete, for \$555. As regards a pole line, the same would have to be run from King street to the station, a distance of nearly a mile, for \$234.60, the Government to have the post holes dug with prison labor. This would make a total cost of \$800.60.

The Electric Company would make a reasonable charge for the power furnished.

To supply an engine and dynamo with sufficient power to run 100 lights the company would charge \$775, in addition to the \$555 for wiring, making a total cost of \$1,330.

There is an appropriation balance for the present year in the treasury to the credit of the building maintenance fund of the quarantine station of \$3,165. Dr. Day stated that the quarantine station was at present in good condition and unless something unforeseen happened that it would not be necessary to draw on this fund for the next ten or twelve months. He could see nothing that would hinder the Board from making the contemplated improvements.

It is quite probable that the station will be lighted with electricity within the next three or four weeks—something that the employees in that institution will be truly thankful for.

ELECTION NOTICE.

Notice is hereby given that at the Annual Meeting of the Shareholders of the HAWAIIAN AGRICULTURAL CO., held this day, the following named persons were elected to serve as officers of the Company for the ensuing year, viz:

Chas. M. Cooke, Esq., President.

A Little Knowledge

Is a Dangerous Thing.

A person unacquainted with Bicycle construction attempting to dismantle a wheel or effect a home repair will often do more damage in five minutes than a skilled mechanic can repair in a day. The mechanism of most Bicycles is very intricate, with left hand lock-nuts and very fine threads, which will slip if the least bit overstrained.

Many of the parts require special wrenches to turn them, of which we have a large assortment, together with the other tools used in Bicycle construction, and a skilled mechanic to do the work.

We make a specialty of repairing Bicycles. No matter how badly used up they are we can put them on their wheels again. Our work we guarantee. Our charges are moderate. We don't want the earth—only a chance to live.

Call and get an estimate on your work at the

Honolulu Cyclery,

281 KING STREET.

Improved No. 2 Bulls-Eye (1896 Model.)

For square pictures, 3 1-2x3 1-2 inches. Size of Camera, 4 1-2x4 1-2x5 3-4 inches=116 cubic inches. Weight, 18 ounces. Length of focus of lens, 4 14 inches.

This Camera is built on the "Cartridge System" and can be loaded in daylight. Fitted achromatic lens, set of three stops, socket for tripod screw, and improved rotary shutter for snap shots or time exposures. The slides for changing stops and for time exposures are alongside of the exposures lever and always indicate by their position what stop is before the lens, and whether the shutter is set for time or instantaneous exposure. There is, therefore, no danger of the too common error of making snap shots with the smallest stop in the lens, or setting the shutter for a time exposure when a snap shot is intended, or vice versa. Handsomely finished and covered with leather.

No. 2 Bulls-Eye, fitted with achromatic lens, \$8.

A \$25 Nursing Bottle

for 25 cents.

The "Best Nurser" is worth \$25 to any mother—we think more. Why? Because it will prevent wind-colic, collapsed nipple, cross baby.

The plan of this bottle is simple, yet scientific. In the bottom of the bottle is a valve. As fast as the milk is drawn the valve allows the air to enter, this prevents the child from sucking in wind because the air comes in back of the food, not through the nipple, which causes so much wind-colic.

If there were only a few "Best Nursers" they would be worth \$25 each, but we will give you all you want for 25 cents apiece, complete with nipple and valve.

NEWS IN A NUTSHELL.

Bits of Paragraphs that Give Condensed Notes of the Day.

Sugar has taken a slight advance.

Dr. Oliver of Molokai will visit Honolulu next week.

Mounted Reserve had a drill at Makiki last evening.

The quarantine station is to be lighted with electricity.

A list of new books received at the library, appears in this issue.

D. K. Brown, charged with embezzlement, will be tried tomorrow.

The three Chinamen who assaulted Huihui will be tried tomorrow.

Wall, Nichols Co. carry a full line of writing and wrapping papers.

N. S. Sachs has a notice regarding accounts due him, in this issue.

Education Board is in meeting at the Judiciary building this afternoon.

H. Lose, assignee for the estate of M. S. Levy, has a notice in this issue.

The post office people look for the arrival of the Peking tomorrow evening.

Royal Arch Chapter No. 1 will hold a stated meeting this evening at 7:30 o'clock.

A meeting of the Board of Trustees of the Queen's hospital was held this morning.

J. T. Waterhouse mentions canned and dried fruits and vegetables in his ad today.

A social dance will be given tomorrow evening by Oahu Lodge, Knights of Pythias.

Charles Molteno is connected with the European Barber shop on Merchant street.

The Pacific Hardware Co. publish testimonials regarding the worth of the Secretary Disc Plows.

Minnie C. Riel, who deserted her husband, will be given a hearing in the Police Court on Monday.

The steamship Chittagong will bring 1500 barrels of cement to Honolulu on her next trip from the North.

Tomorrow afternoon the Hospital Flower Society will hold its annual meeting in the Y. M. C. A. hall.

Mr. W. W. Hall and a number of associates interested in coffee cultivation will go to Kona tomorrow morning.

The Nuolu and Noola Lulu society will hold its annual meeting tomorrow at 10 at the Kapihohi Maternity home.

An interesting match between the Mounted Reserve and Mounted Patrol will take place on Saturday afternoon.

Dr. Walters, in a letter to the Board of Health, states that he will return to Lihue, Kauai, upon his return from Japan.

Mr. and Mrs. David Rice of Boston, who have been visiting friends on the other islands, are now staying at the Hawaiian.

A bark was sighted about 12:30 o'clock; she is coming from the southwest. It is probably a vessel from Newcastle.

The election of directors for the Oahu Sugar Company, which was to have taken place this morning, has been postponed.

The Warrimoo brought a letter to Castle & Cooke stating that centrifugals were selling at 3 5-32 and beets at 8 shillings 11 1/4 pence.

Mr. and Mrs. French, who were expected on the steamer Monowai from San Francisco, will probably reach the city on the next Australia.

There will be no cricket match between the Icarus and Honolulu teams Saturday afternoon. Honors are evenly divided as things stand at present.

There will be a parade and drill of the first battalion this evening, the second battalion, under command of Maj. Jones, will turn out tomorrow evening.

Every morning before breakfast, or every evening in time for dinner Love's bakery wagons will deliver fresh bread, rolls, cakes or pastry fresh from the ovens.

Moepono, who was the defendant in the liquor selling case tried before Judge De la Vergne last November, was arrested this morning on the charge of perjury.

Hawaiian Postal Savings Bank Term Certificate No. 491, favor of C. Kaiser, has been lost. All persons are warned against negotiating the same, as payment has been stopped.

Samuel Savidge, Sr., is just recovering from a very severe illness. He got down to the office for a while this

morning but, on the doctor's advice, did not attempt to do much work.

John Sylva, "the Mauna Wonder," has issued a challenge for \$100 a side to Wm. Norton, for either a one or five mile race. Sylva to ride his wheel and Norton to drive his horse Ralph.

Manager Murray, of the Bank of British Columbia at Vancouver, and Mr. George L. Courtney, the Canadian Pacific Railway Passenger and Freight agent at Victoria, will return on the Miowera.

Prof. J. W. Yarnley requests all members of church choirs and choral organizations to meet at the High School building, Emma street, on Tuesday, February 23, for the purpose of organizing a choral society.

The regular weekly meeting of the Christian Workers will be held tomorrow afternoon, Friday February 19th, at 3:30 o'clock at the Y. M. C. A. hall. Mr. J. R. Mott will address the meeting. A cordial invitation is extended to all to be present on this occasion.

Fish Inspector Keliipio states that the sales at the new fish market do not compare with the enormous sales made at the old market. At present some forty or fifty thousand fish are disposed of every week. The price of fish is cheaper than ever before.

A concert will be given by the Haggy club on Saturday evening at the Arlington. Those who will participate in the entertainment are: J. W. Yarnley, G. R. Harrison, J. T. Stewart, T. E. Cowart, F. Wilburton, G. D. Moore, Walter Brash, W. Mitchell and R. S. Seringeour.

Mr. Ward L. Smith, of Fredericks-town, Mo., was troubled with chronic diarrhoea, for over thirty years. He had become fully satisfied that it was only a question of a short time until he would have to give up. He had been treated by some of the best physicians in Europe and America but got no permanent relief. One day he picked up a newspaper and chanced to read an advertisement of Chamberlain's Colic, Cholera and Diarrhoea Remedy. He got a bottle of it, the first dose helped him and its continued use cured him. For sale by all druggists and dealers, Benson, Smith & Co., wholesale agents for H. I.

The present state of the tea-trade can't continue. Americans drink the worst tea in the world, and pay double for it.

Schilling's Best is the remedy. Proof: the grocer gives your money back if you don't like it.

A Schilling & Company San Francisco

"Put Me Off at Buffalo"

The title of this well known song as well as the song itself emanated from the brain of an employee of the Buffalo Brewing Company. This excellent beer is on draught at the Cosmopolitan, Pacific, and Royal saloons. The interchangeable check system is found very valuable to patrons.

Honolulu Royal Arch Chapter No. 1.

STATED MEETING OF HONOLULU ROYAL ARCH CHAPTER, No. 1, will be held THIS (THURSDAY) EVENING, at 7:30 o'clock, at Masonic Temple. All sojourning Royal Arch Masons are fraternally invited to attend.

T. E. WALL,
Secretary.

Honolulu, February 18, 1897.

Best Tonic.

How is your appetite? A leading question, we know, but it means one of two things—health or illness. No matter how much or how excellent food you have, without a normal appetite, you can't enjoy it. The digestive apparatus gets run down. It needs toning up.

The "BEST TONIC," a pure malt extract, made from wholesome barley, by one of the largest houses in the world, is a tonic par excellence. It will restore the appetite, tone up the stomach, and banish fatigue and weakness. A few bottles will probably be all that you will need and set your digestive organs right.

Be sure that you get the genuine. Look for the round trade mark, and accept no substitute.

Price 35 cents for large bottle; 3 for \$1.00.

Cheaper by dozen.
