

War Is Certain

TURKEY AND BULGARIA READY FOR A FORMAL DECLARATION AND THE POWERS TOLD THEY MUST PROTECT THEIR OWN LEGATIONS IN CONSTANTINOPLE—POWERS ARE PREPARING TO INTERVENE.

Associated Press Cable to the Star.

CONSTANTINOPLE, September 5.—War with Bulgaria is now inevitable. A revised ultimatum is now ready to be forwarded to the Bulgarian Government. The newspapers are most inflammatory in their tone, and a formal declaration of war is probable at any time. It is no longer regarded as possible to prevent such a step.

The various powers represented in Constantinople have all been notified that the Turkish Government cannot guarantee the safety of their legations from fanatics who are likely to attack them at any time. Steps are therefore being taken by the powers themselves for the protection of their respective legations. The city is in a state of the most intense excitement and outbreaks are feared.

BERLIN, September 5.—It is rumored here that Turkish troops have already crossed the Bulgarian frontier.

PARIS, September 5.—Russia and Bulgaria have come to an agreement, according to a report received here, under which the Russian Government is to assist Bulgaria in the present difficulty with Turkey.

LONDON, September 5.—In view of the preparations for war in the Balkans there is general preparation among the powers looking to intervention. The powers are likely to act together, it is thought, in attempts to settle the growing difficulty.

QUIET AT CRIPPLE CREEK

Associated Press Cable to the Star.

DENVER, Colo., September 5.—Affairs at Cripple Creek are quiet. There has been no demonstration since the troops were ordered to that place.

JUDGE ESTEE COMING HOME

Associated Press Cable to the Star.

SAN FRANCISCO, September 5.—Judge Morris M. Estee of the United States District Court of Hawaii, sailed for Honolulu today by the Alameda. He has been on a visit to his daughter here, accompanied by Mrs. Estee. This is his first vacation since he was appointed to his present position three years ago.

KUHIO'S SECRETARY.

Morris K. Keohokalele is to be the secretary to Prince Kuhio as delegate to Congress, it is reported. Keohokalele is a very well known Hawaiian and is secretary of the Kapiolani estate, limited. He is a close friend of the Prince and has a thorough command of both English and Hawaiian.

Prince Kuhio will probably leave some time next month for Washington.

POLITICS IN OTHER COUNTIES

THE MAKE UP OF THE MAUI COUNTY CONVENTION AND SOME OF THE MEN WHO ARE MENTIONED AS PROBABLE CANDIDATES WHO ARE TO COME BEFORE IT—EAST HAWAII.

PAIA, Maui, September 4.—The Republican primary elections passed off quietly last Saturday evening, and as a rule were very well attended. The result was very satisfactory, the conservative element in the party carrying the day in most cases. As far as is known at present the following will constitute the county convention.

2nd Precinct, Molokai—No returns.
3rd Precinct, Lahaina—A. N. Hayselden, G. H. Dunn and C. R. Lindsay.

4th Precinct, Honokohau—R. C. Searle.

5th Precinct, Lanai—

6th Precinct, Wailuku—J. W. Kalua, S. Keliinui, J. Kini Kaa, D. Crowell, William Saffrey, William Bal and George Cummins.

7th Precinct, Kahului—H. P. Baldwin, J. J. Walsh and W. Hardy.

8th Precinct, Kihei—James Scott.

9th Precinct, Makawao—George Copp and D. Norton.

10 Precinct, Hamakua—J. H. Nui, H. P. Robinson, S. E. Kama, H. A. Baldwin, D. C. Lindsay and W. O. Aiken.

11th Precinct, Huelo—W. E. K. Maikai.

12th Precinct, Keanae—W. F. Pogue.

13th Precinct, Hana—George O. Cooper, E. M. Hanuna, W. P. Haia, M. H. Reuter and J. K. Josepa.

14th Precinct, Kipahulu—No election yet.

15th Precinct, Ulupalakua—J. H. Raymond.

It is now thought by many that a strong ticket will be put up by the Republicans, and that they will be all of them good capable men. The plan of the Republican party is that the five supervisors shall be distributed, one to each district. The candidates who seem to have the strongest backing at present are W. F. Pogue for Hana district; H. A. Baldwin for Makawao; S. Kapu for Lahaina; Otto Meyer for Molokai; for Wailuku there are various candidates, no one of whom seem to be settled upon as yet, but among whom are R. A. Wadsworth and J. K. Kahookela.

For county officials the following are the most prominently mentioned:

For Sheriff—L. M. Baldwin or A. N. Hayselden.

For Clerk—J. N. K. Keola.

For Treasurer—W. T. Robinson or L. M. Baldwin.

For Auditor—A. N. Hayselden or J. N. K. Keola.

For Assessor—Charles Copp or W. T. Robinson.

For Attorney—N. W. Aluli or W. E. Crockett.

For Surveyor—P. E. Lamar or Hugh Howell.

HILO, September 3.—The following are the delegates elected to the county convention of the County of East Hawaii, from the Hilo or Fourth precinct:

T. M. Rowland, A. B. Loebenstein, A. R. Hitchcock, W. Todd, Jr., E. N. Holmes, William Higgins, Jim Morris, H. Ludloff, A. C. McKenny, John Kaai, Jr.

Four of these and perhaps five are said to favor Lorin Andrews for Sheriff. At the meeting of the precinct club the evening before the primary, a resolution was passed adopting the unit rule for the delegates from this precinct in the convention.

In the Waiakea precinct the following are the delegates elected: George Kaihenui, Otto Rose, John Bohnenberg, J. D. Lewis, C. N. Prouty, J. P. Fernandez, Jr.

Among the candidates talked of for the county offices of East Hawaii, are L. A. Andrews and Ben Brown for sheriff; George H. Williams for tax assessor; N. C. Wilfong for auditor; C. H. Williams for attorney; Tom Cook for surveyor; A. E. Sutton and Fred Lyman for treasurer; Norman Lyman for county clerk; W. H. Smith for county attorney and George Paty for supervisor.

BERGER AND THE BAND VOCALISTS

THE WOMEN WHO SING IN THE BAND GET COCKY AND LORDED IT OVER THE PLAIN HORN BLOWERS BECAUSE THEY WERE GETTING BIGGER PAY THAN THE LATTER.

Kappelmeister Berger of the government band has been advised by Attorney General Andrews that if he hires two singers for the band he must pay them the full salary of \$50 per month each for singing. When draws, with the result that he was told that the law did not allow him to hire two singers and pay them less than the full sum per month. Berger has a new scheme now, it is stated, and that is to hire four singers and use them alternately, so that two will be entitled to one-half the salary.

The trouble in the band is said to be largely due to a howl from the instrumental musicians, who don't get such big wages as the warblers. Captain Berger says that the two lady vocalists get more than a first class prima donna. They only sing three or four hours a month and get \$50 for it.

The ladies who receive this liberal remuneration are said to have stirred up the trouble by lording it over the instrumentalists. The latter work all evening, instead of for a few minutes, like the singers, and the two ladies did some gloating, calling the violinists and the wind men and the drummers slaves in comparison with themselves. A strike was threatened because the ladies were declared to be getting too much and Berger proceeded to cut them down by dividing the appropriation.

The rate of \$50 per month was placed in the bill by the efforts of Kumalae, one of the singers being a sister of his. He is interesting himself to see that the singers get it, but Berger may have a new scheme to spring yet, to divide up the two items of \$50 per month each.

Fourteen Porto Ricans

Witnesses Against Le Brun and Puig, Charged with Forging Postal Money Order.

The United States District Court was full of Porto Ricans this morning, when the cases of Francesco Le Brun and Claudino Puig, charged with forging a postal order, were called. No less than fourteen of them were witnesses, summoned to the preliminary examination before Commissioner Douthitt.

(Continued on page five.)

WILL BE THE MOSQUITO KILLER

DR. C. A. PETERSON WILL PROBABLY BE CHOSEN TO HEAD THE MOVEMENT.

Dr. C. A. Peterson, of the government dispensary, will probably be the man to head the mosquito campaign, if the committee in charge raises funds sufficient to carry the work. A meeting of the committee will be held next week and if the situation warrants it, a start will probably be made.

"The work calls for a man of scientific education," said Dr. Cooper "and Dr. Peterson will be able to fill that bill, I think. He can continue his present work at the same time. The plans will have to be carried out in a scientific way and by a man of energy, and Dr. Peterson is favorably considered for the position, though no definite decision has yet been made."

The anti-mosquito work is still confined to the Sanitary inspectors, who are working on such places as they find where mosquitoes may breed. In some localities it is claimed that there is an appreciable difference in the number of mosquitoes since the campaign started, but those in charge do not anticipate any particular results until the general campaign is started, and every yard and garden is thoroughly looked after.

A UNION OF BILL COLLECTORS

A NEW KIND OF COMMERCIAL RATING PROPOSED BY MEN WHO CHASE DEBTORS.

"We are going to organize a collectors' union or combination," said a local bill chaser this morning, "and agree upon rates for which we will collect from various parties. I am refusing all bills against some except for twenty-five per cent of what I collect, others ten per cent is all right. We should all get together and agree upon a schedule of rates."

"The man who proposes a bill collectors' union, which is something novel in the way of unionism, is A. Schoelkopf, who spends his time chasing the elusive dollar for other people who have bills they cannot collect. Schoelkopf says that he is able to make up a schedule of how various parties should be rated, from the point of view of the man who has to collect from them. 'Some of them you might have to call on twenty-five times for fifteen dollars,' he said, 'and I won't take those kind of bills for ten per cent.'"

PRINCES ASKED TO PAY THEIR DEBTS

SUIT BROUGHT AGAINST KALANI-ANAOLE FOR MERCHANDISE AND DAVID AS AN ENDORSER.

W. W. Dimond and Company have brought suit against Prince Kuhio Kalaniano'le for an old account of \$259.10, which the plaintiff claims to have been trying for a long time to collect from the Kapiolani Estate, which is supposed to pay the prince's bills. The account began in December, 1901, and is for various household articles, such as plates, vases, etc., and plaintiffs claim that they have not been able to collect the amount. The suit is brought against the Prince individually, though the efforts to collect have been from the corporation. It is stated that there are a number of other accounts which are likely to follow this one into the courts. The complaint filed in the District court, after the usual preliminaries, sets forth as follows:

"That defendant is indebted into plaintiff in the sum of \$259.10 for goods, wares and merchandise sold and delivered unto the defendant by the plaintiff at the special instance and request of the defendant, between December 13th, 1901 and May 8th, 1903, as appears by the bill of particulars hereto attached and made a part hereof; that the defendant, although often requested has not paid the said sum nor any part thereof and that the same is now due and owing to the plaintiff.

"Wherefore plaintiff asks judgment against defendant for said sum of \$259.10 together with interest, costs and attorneys' commissions herein."

Thayer and Hemenway are attorneys for the plaintiff.

Another suit was begun yesterday against Prince David who also relies on the Kapiolani estate to pay his accounts, for a sum alleged to be due on a promissory note which he endorsed.

The Kapiolani Estate is the corporation of a part of whose property a San Francisco bank recently assumed partial management as stated in The Star, because payments were not made on time on a \$300,000 mortgage. The Company took occasion to announce after The Star's giving the news, that it had large sums of money coming and was in prosperous condition.

COUNTY BOOKS

Auditor Fisher sent to the mainland recently for some sample county books and blanks of all kinds and by the last mail he received several sets. They will be of much use to him in preparing the books for the various counties in the islands. The last legislature left the matter of preparing books with Fisher and the sample books were sent for as an assistance in this work.

COOPER IS BACK.

Superintendent of Public Works H. E. Cooper returned on the Kinau today from his trip to Maui, where he went to investigate the needs of the various districts in the matter of public improvements. Cooper visited many points on the island and gathered much information which will help him in the matter of preparing books with Fisher and the sample books were sent for as an assistance in this work.

THE WILCOX ESTATE.

W. O. Smith, as temporary administrator of the estate of L. W. Wilcox has filed final accounts and a petition for discharge, having been appointed executor under the will. The accounts show receipts of \$990.70 and disbursements of \$1,305.29.

THE FOLLY TO BE FEARED.

A friend and supporter of the disbarred attorney George A. Davis writes the following with reference to published reports that there was pistol talk in connection with the disbarment cases tried here:

"The community did not and does not today know that Andrews has anything to fear but the folly of his press agents."

On July 29 in the Supreme Court George A. Davis, standing in a threatening attitude close to Lorrin Andrews and answering a sarcasm on the subject of his pitol pocket bluff, said in substance: "The pistol will be there some time."

In view of this, the only assumption on which Mr. Davis' friends can say that Andrews has nothing to fear is that the statements of Davis are not worth any attention. If that is the case then the folly is that of Davis and not that of those who are absurdly termed "press agents." If Davis is so irresponsible that it is folly for representatives of the press to heed what he says, his disbarment was an even greater blessing than Honolulu people generally thought heaven was bestowing upon them.

As a matter of fact, since the sensational cases which were tried in the Supreme Court last August began, nothing has been commoner in Honolulu, among all classes, than expression of the fear that there would be deplorable personal encounters. A newspaper which failed to mention this failed to fully present the news of the cases, and any newspaper correspondent who neglected to give it some place was ignoring matters properly mentionable. That the Mainland newspapers gave it more prominence than those here did is due to the single fact that they do not know George A. Davis, while the papers here do. Locally his defenders have taken the remarkable position of complaining because he was not regarded as irresponsible and unworthy of notice.

ORGANIZED GRAFTS.

Though the post office scandals no longer occupy the telegraphic headlines, the investigations still go on, and more and more people are caught in the meshes of the law. Assistant Postmaster General Bristow continues his work fearlessly, and the more he probes, the worse does it appear. Whatever is investigated, it always is traced back to A. W. Machen, who seems to have looted wholesale. The ramifications of the conspiracy seem truly marvellous, but wherever there was money made, toll was paid to Machen.

There seems to have been nothing too small to make money out of. It has just been discovered that John T. Cupper, Mayor of Lock Haven, Pennsylvania, paid a bribe to Machen for a contract to paint mail boxes. He was allowed to paint them as often as possible. Never were mail boxes so resplendent. By this means he is said to have obtained \$18,000 for unnecessary work. Out of this pay he drew checks in favor of one William C. Long, and W. C. L. checks were handed to Machen. The rake off was ten cents a box. The prices paid for painting were exorbitant and the contract was let without competition, or if there was competition it lay in what the size of the rake off should be, Mayor Cupper won at ten cents per box.

Another contract was of leather satchels and sacks for carriers. Many of the articles were unnecessary, are unused and are now in storage. For eighteen thousand carriers forty thousand equipments were ordered, and bribe money passed through one of the clerks to Machen. Another source of funds came from the Postal Service and Lock Company, and the bribing go-between was the wife of one of the partners in the concern. In fact everything that was used about the postal system paid its toll directly or indirectly to Machen. Carts, animals, paint, equipment, harness, sacks, locks and anything else that could be purchased, formed a source of revenue.

Shall we ever know how much has been made away with? Most likely not. A large amount has been brought to light, but there is undoubtedly a great deal more that will never come to light. In its inception the nefarious scheme was most probably well covered up from sight. It has been a continued success which in this case, as in all similar cases has made the conspirators careless. The ramifications that have been discovered, however, show a lack of political and commercial morality which is simply appalling. One wonders how far corruption extends.

A combination of the big plantations on Maui is talked of. After all there is nothing new under the sun. In the late eighties there was a scheme to consolidate all the Hilo plantations. In some way or other King Kalakaua was to participate in and benefit by the deal. The matter went so far that three experts came out from England to look into the matter. One of these gentle-

men enunciated the statement that there were two ways of running a plantation. One was to keep it up to the very highest degree of efficiency, have the best of cultivation, the finest machinery and be thoroughly up to date. The other was to take no care at all, and let every thing run down to the lowest notch. He said he found both methods in vogue in the Hilo Dis-

been wondering which the plantations
referred to were.

There is quite a little doing in stocks.
Transactions are now reported daily,
where formerly there was not a sale

Candidates for the county positions
are coming along thick and fast. There
will be no lack of choice when the con-
vention meets. Some of the men who
have come forward have absolutely no
chance, the delegates in certain cases
are already pledged and the nomina-
tions assured. In one of two cases
there will be some what of a close
struggle—seeing the elements are di-
vided. The Home Rulers have yet to
show their hand, but with one excep-
tion they are not likely to make much
of a showing in the county of Oahu.

Mr. Kanuha has been spending the
last couple of days or so in trying to
explain to certain of his friends to
whom he owes something, for favors
past, and has a lively sense of favors
yet to come, how it was that he ap-
peared to be a supporter of McCants
Stewart in the seventh, but was really
one of his bitterest opponents. Of
course if McCants Stewart had won
out there would have been no need of
this elaborately embroidered explana-
tion. If McCants had been in the way
of election, ex-Senator Kanuha would
have been clinging very assiduously to
his coat tails. As it is rumored that
the gentleman from the seventh is go-
ing to run in the Home Rule interest,
perhaps Mr. Kanuha might like to try
his hand there.

The sugar boom continues, and be-
tween now and the end of the year the
four cent mark which was predicted
last fall, will, it is hoped, be reached.
The feeling of confidence in sugar in-
vestments, which has been rudely
shaken, will return and, before long, the
depression, which has rested upon the
community will give way not to a
boom, but to a return to reasonable
values.

Before long the entire British peer-
age will be Americanized, and most
prominent American families will con-
sider themselves out of it, unless they

Through the Glass.

The best way to find out whether an
apple is sound at the core, is to cut it
open.

And it is the same with everything.
To find out how a thing is constructed
it must be taken apart, wheel by wheel
lever by lever. Each screw, bolt and
nut must be safely put aside. Nothing
can be lost that is necessary to com-
plete the perfect whole.

Often times a useful thing is so sim-
ple in its construction, and its parts so
few that to take it down seems useless.
This is the case with the Douglas Tank.
But to show its mechanism E. R. Bath
has caused to be made and installed a
beautiful, glass tank and it is on dis-
play in his windows at 165 King street.
The inspection of the public is respec-
tfully invited.

"VOLCANO" MARSHALL.

By letters from Shanghai, it is learned that William H. Marshall, "Volcano" Marshall, is no longer editor of the Shanghai Times. His removal from that position followed shortly an article appearing in the paper charging the British Consul General, the American Consul, and the British Assessor at that place with being in a conspiracy to surrender the reform journalists of whom the cable has had much to say lately, to the Chinese authorities for decapitation, being influenced thereto by a bribe of 100,000 taels.

SHIPPING INTELLIGENCE

ARRIVING.

Saturday, September 5.
Gaso Schr. Eclipse, Gahan, from Kohala and Maui ports at 10 a. m.
Schr. Kawailani, Ulunahae, from Koolau ports at 6 a. m. with 600 bags of rice.

FOURTEEN PORTO RICANS

Continued from page one.)

Le Brun and Puig are alleged to have obtained the sum of three dollars from the Post Office, by forging the name of one Sophia Dagnin to a postal order from Kauai, and the fourteen Porto Ricans had all either seen something of the order or had heard the defendants telling how they had made \$3 in a very easy way.

The money order in question was sent from Kauai to Mrs. Sophia Dagnin in Honolulu, by her son-in-law, Francesco Le Brun is living with a woman whose name is much like that of Mrs. Dagnin, which contained the money order for \$3. He consulted with Puig, according to the prosecution's theory, and the two arranged the plan to forge the signature and get the \$3. Their own boasting about the great success they achieved developed a good deal of the testimony against them. Both are charged with forging a postal money order, and are liable to heavy punishment.

KINAU BROUGHT MANY PASSENGERS

Arrived Ahead of Time This Morning From Hilo and Way Ports—Saw No Volcano Fire.

The steamer Kinau came into port this morning from Hilo and way ports with her decks lined with passengers. She was considerably ahead of schedule and made the trip in good time. She arrived before 10 o'clock. The vessel had 112 cabin-passengers. Many of the passengers were school teachers returning from their vacations, to report for school duty on Monday.

Admiral Beckley, the purser of the vessel, says that he heard nothing of the reported outbreak of Mauna Loa. The Kinau was in Hilo on Thursday night, when the supposed volcano fire was seen by Captain Mosher and the officers of the Iwalani. Nobody from Hilo appears to have heard of any outbreak of the volcano.

Dr. J. S. B. Pratt returned from a trip to Hilo.

C. N. Prouty, Jr., arrived to pay a visit in Honolulu.

R. W. Atkinson returned from inspecting plantation interests on Hawaii.

Miss Daisy Lishman returned from a visit to Hawaii.

Superintendent of Railway Mail Service George W. Carr returned from a trip of inspection.

J. Coeper came over from Hawaii.

L. A. Thurston returned from a visit to Maui, in the interests of the Kihei deal, whereby the upper lands of that plantation will probably be disposed of to Haiku and Paia.

Mrs. Dr. George Herbert returned from a visit to Hawaii.

Prof. A. F. Griffiths, the forestry expert, returned from a trip to Hawaii.

G. H. Gere came from a visit to Hilo on business connected with the public works department.

Fred W. Beckley and wife returned from a visit to Maui.

FEDERAL OFFICERS IN POLICE COURT

Appeared as Witnesses For Prosecution in an Assault and Battery Case—Defendant Was Found Guilty.

Three United States officials were witnesses this morning in the police courts. They were United States Attorney Breckons, United States Marshal Hendry and Japanese Interpreter of Immigration Gaffney. They were called at witnesses for the prosecution in the case of assault and battery against Okazaki charged with attacking Fred K. Makino.

The fight took place in a Japanese club on River street near Hotel street last Wednesday afternoon. There had been a dispute between the two Japanese. Okazaki is a wrestler. Some time ago he was beaten, he claimed, by three other Japs who inveigled him into a gambling game and committed assault and battery on his pocket book and his person. The men were tried and acquitted. Okazaki claimed that Makino had thrown him down by enabling the defendants to escape conviction.

The men got to quarrelling over the matter while they were at the club on Wednesday. The wrestler was, the prosecution claimed, the aggressor. The Federal officials were in an adjoining room and they ran in when they heard the row. They saw Makino on the floor and the other man belaboring him. The Marshal separated them and put the wrestler out of the place. The court fined Okazaki \$25 and costs. An appeal was taken.

MRS. GERTZ IS STILL ON DECK.

Objects to "Per Curiam," Which She Says Is Neither English Nor Hawaiian.

Mrs. Anna Gertz this morning filed another motion in the Supreme Court, for a rehearing of her old case against Magoon which all the courts have repeatedly declared to have been settled years ago. This time she wants a general new deal on the bench, for she says that Chief Justice Frear and Associate-Perry are disqualified, also Judges De Bolt, Gear and Edings, and that she is not at all sure about Galbraith.

"The decision is signed 'per curiam,'" says Mrs. Gertz, "and this is not either an English or Hawaiian term. It may mean that the court cannot decide."

Mrs. Gertz asks that Governor Dole supply new judges and direct Attorney General Andrews to handle her case, as she is not learned in the law.

VESSELS GET SAILING ORDERS.

Carmanian To Take Long Trip From Honolulu—Goes to New Caledonia—Other Vessels Departing.

Captain Bunn of the Carmanian has at last received orders. He will go from Honolulu to New Caledonia where he will load his vessel with ore for London. The vessel will not depart for some days as considerable lumber with which to construct shifting boards and decks will have to be loaded. The Carmanian will depart about the end of next week. She has been in Honolulu since July 26. Most of the time she has been anchored in the stream waiting for orders.

The Norwegian bark City of Agra has received orders to proceed to Eureka to load lumber for Australia. She sails Tuesday.

The British ship Brunel has been ordered to Port Townsend. She will get away Monday.

The Fearless moved the barkentine Archer into the stream this afternoon to fumigate. The Archer will probably take sugar ballast for San Francisco.

The bark R. P. Rithet is in the stream, waiting for the steamer Mauna Loa to arrive from Hawaii ports with sugar.

The bark W. B. Flint arrived this morning from San Francisco in 15 days. She experienced calm weather during the trip. She brought no passengers, but had 1,520 tons of freight for Makaweli and Honolulu. Of this amount about 600 tons goes to Makaweli.

The Flint will sail about Wednesday for Makaweli. She will not get a return cargo of sugar, as there is none on hand at Makaweli. She will take about 4,500 railroad ties from Makaweli as ballast, and proceed from that port to Kahului, where she will load between 400 and 500 tons of scrap iron for San Francisco.

FORMER ST. LOUIS STUDENTS TO MEET

WILL HOLD AN IMPORTANT CONFERENCE TOMORROW MORNING TO CONSIDER PLANS.

Quite an important meeting of the former St. Louis College students will be held tomorrow morning at 10 o'clock at the college hall.

The meeting is called for the purpose of hearing the report of the special committee appointed some time ago, to draft a constitution and by-laws for the government of the new association which it is proposed to form. The plans are for all of the former students of St. Louis College to form a new association, under the name of the St. Louis College Students Association.

An election of permanent officers of the new association will probably be held tomorrow. The following are the members of the committee that is to report on the plan of organization: John C. Lane, James L. Tolt, Charles E. Rose, Carlos A. Long, William S. Ellis, James A. Thompson, and William Jarrett.

YACHTING.

The Hawaii Yacht Club will hold a Chowder at the club house at the Peninsula. Tomorrow morning there will be a regatta in the east and middle lochs for yachts of all classes except the third.

FRIVOLITY FREAR.

The roof garden of the Young Hotel should be crowded tonight as Freear will give a really fine program. As will be seen by reading the program, published elsewhere, Freear will appear in nine specialties besides his part in a three-man comedy. Ernest Kaal, Stanley Livingston, F. M. Bechtel—a master of the English Horn—the Tuxedo quartette and the Government band will also be heard. Tickets, which are limited, should be obtained today to avoid disappointment. The dancing after the stage entertainment will be one of the pleasant features of the evening.

No Strength

Are you easily tired? Is your work
a burden? Do you often feel weak
and faint? Is your appetite poor?
Are you easily discouraged? Then
your nerves are weak and your blood
impure. Sickness is not far away.

Mr. Frederick Devigne, of Claremont, Cape
Colony, South Africa, sends his photograph
and this letter:
"My blood often becomes impure, causing
eruptions on the skin, and my general system
gets all run down, causing indigestion and
great debility. But I take Ayer's Sarsaparilla,
which quickly brings me out of my troubles.
For all those who are debilitated and
weakened by the long, hot summers of our
country, there is no remedy equal to this
grand family medicine."

AYER'S Sarsaparilla

There are many imitations "Sarsaparillas."
Be sure you get Ayer's.

Always keep your bowels in good condition
with Ayer's Pills. They are purely vegetable,
act on the liver, and cure constipation, bilious-
ness, sick headache, and all liver troubles.

SCIENCE FORMERLY EXTOLLED MOSQUITOES

One of the most interesting things in modern scientific progress is
that up to a few years ago it was believed that the mosquito, instead of
spreading malaria, helped to check it. Therefore the insects, though
acknowledged to be irritating, were classed among beneficial species.

As late as 1888, in a work on natural history written by a corps of
learned men, it was announced that the larvae of mosquitoes, in devour-
ing decaying vegetation, were checking the spread of the miasma which
otherwise would arise from these decomposing particles, and as miasma
then was believed to be the source of malaria, voracious larvae were ex-
tollled as beneficial scavengers.

To understand the scientific story of mosquito and malaria, one
should keep in mind that malaria is caused by a little parasite of the or-
der of protozoans, which inhabits the blood and devours its corpuscles.
It is, therefore, a microorganism, or animal, and not a plant, as are the
bacteria of many diseases.

The great significance of the mosquito discovery in regard to malar-
ia is, as explained by the medical men of the army who have led the
scientific world in these practical methods of controlling fevers, that if
all the mosquitoes in the world, of the disease transmitting genus, were
destroyed, malaria would speedily become extinct. Experiments prove
that the minute malarial protozoan cannot, unaided, develop into full
maturity in the human system.

When a mosquito of the genus Anopheles bites a person whose
blood is surcharged with these minute creatures, some of the protozoans
are swallowed by the insect. Now a strange event takes place. In that
mosquito's system the malarial microorganisms, which in the body of a
human being would not attain full development, begin to grow amaz-
ingly until, in the course of a few days, they become five times their
former size. At one point in their career of development they are
known as zygotes, and next as blasts. Arriving at a state of maturity,
still in the mosquito's body, they select their mates.

THE SECOND RACE FOR THE CUP

IN THIS THE SHAMROCK SAILED
CLOSE TO RELIANCE LOSING BY
LESS THAN TWO MINUTES.

NEW YORK, August 25.—When the
yachts reached the starting line, shortly
after 10 a. m., the wind was south-
west and blowing about four
knots, not enough to send them over
the course within the time limit, but
there were indications that there would
be enough wind later.

The preparatory signal was fired at
10:45 the warning gun at 10:55 and the
starting gun at 11:00. The Naviga-
tor signaled that the race would be
over a triangular course, ten miles a
leg, the first leg south, the second
northeast by east, half east, and the
third northwest by west, half west. The
wind at that time was due south and
had begun to freshen.

In the preliminary jockeying Captain
Barr of the Reliance got the windward
position, blanketing the Shamrock III,
and clung to it though various maneu-
vers until the warning gun had been
fired, when Captain Wringe had got
clear of the Reliance.

At the sound of the gun the Sham-
rock III bore off to leeward and away
from the Reliance, while Captain Barr
tacked under the stern of the Naviga-
tor as the starting gun was fired, and
crossed the line only thirty-six seconds
behind the gun. The Shamrock kept
away from the line almost until the
handicap gun, then tacked and crossed
it handicapped by nineteen seconds, for
which allowance was made to her. The
nineteen seconds were dead loss. The
official starting time was: Reliance,
11:00:30; Shamrock, 11:02:00.

The actual starting time of the Sham-
rock was 11:02:19. Both went across the
line on the starboard tack, but held
that tack for not more than a minute
and then headed for the Jersey coast.

Once fairly away Captain Wringe of
the Shamrock resumed his tactics of
the previous race, gave his boat a good
rap and sailed through the Reliance's
lee and got under her lee bow, while
Captain Barr pinched the Reliance close
into the wind and began to cover the
distance to the windward mark. Cap-
tain Wringe's maneuver gave him a
wind clear of interference and when
once satisfied the Reliance could not
blanket his boat he flattened in his
sheets and began to point closer to the
wind. Captain Barr, however, was nur-
sing the Reliance up to windward in
masterly fashion.

Half an hour after the start the dis-
tance between the two boats had wid-
ened materially, the Reliance pointing
higher and the Shamrock footing fast-
er.

They were half a mile apart when
they tacked off Highland Beach, at 11:
42. The Reliance was the first to go
about. When both yachts were filled
away it was clear that the Reliance was
gaining. The Shamrock was far astern
and very little to windward of the Re-
liance's course. Meantime, the wind
had been increasing and was now blow-
ing at the rate of seven knots. The
Shamrock III was heeling prettily,
moving through at a fast clip and mak-
ing much more fuss under her bows
than the American boat. Captain Barr
was pinching the Reliance into the
wind until her little baby jib topsail
fluttered. The race was being fought
out on the same lines as the previous
one, and there was little danger that
the race would not be finished within
the time limit. Without making another
tack, both boats made the turn of the
first mark as follows: Reliance,
12:21:30; Shamrock, 12:24:45.

Though the Reliance had a lead of
three minutes and fifteen seconds, she
still lacked six seconds of making up
the time allowance and the difference of
one minute and twenty-four seconds at
the start. Officially the Shamrock III
was still six seconds ahead of the slip-
pery Yankee craft, but it was evident
that the latter had won the race, bar-
ring accidents. In a breeze varying
from four to ten knots an hour she had
made good the time allowance in a ten-
mile thrash to windward, and there was

every reason to believe that in reaching
and running, which are her two strong-
est points of sailing, she would quickly
overcome that official six seconds. Both
captains broke out balloon jib topsails
when they squared for the second turn.
The wind was so far aft that they
quickly decided that, instead of being
a broad reach, as intended, the course
to the turn was a run. Spinnaker booms
were guyed out, and the great sails
added to the tall reaches of canvas.
Staysails were taken in, and, with spin-
naker booms guyed well forward, the
yachts ran away for the turn. Both
were heading off their course a bit in
order to make their spinnakers draw
well, and they ran that way for half an
hour, when the Reliance smothered her
spinnaker and began to set her stay-
sail. During that time she did not ap-
pear to have gained an inch, but im-
mediately on laying her true course she
began to draw away. Ten minutes after
the Reliance the Shamrock III also
took in her spinnaker, set her staysail
and headed for the mark. With the
wind over their quarter, both yachts
made the time of it, but it was ap-
parent that the Reliance was gaining.
They made the second turn as follows:
Reliance, 1:17:50; Shamrock, 1: 21: 45.

The Reliance was leading by three
minutes, fifty-five seconds, having
gained forty seconds in the run across
from the first to the second mark. She
had overcome the time allowance, made
good the difference at the start and es-
tablished a margin to her credit of thirty-
four seconds. With a close reach still
to be made, there was faint hope for
the challenger. The Reliance, whirled
about the mark, jibed over, trimmed in
her sheets and romped away on a close
reach toward Sandy Hook lightship and
the finish line. She was three-quarters
of a mile away before the Shamrock III
rounded the mark. Both yachts were
heeling about the twelve-knot wind
from south by west and were sailing at
least one mile an hour faster than the
wind was blowing. Their sheets were
eased just enough to put them on al-
most their best point of sailing and on
upon which the Reliance has often de-
monstrated that she is faster than any
racing craft ever built. She was heeled
just enough to bring her long over-
hangs to bear and give her the benefit
of her greater sailing length.

The guide vessel, Coastwise, was
scurrying along ahead of her at full
speed, but the Reliance was overhaul-
ing her inch by inch, and when the
lightship hove fair in sight, about two
miles away, was not more than a quar-
ter of a mile astern of the guide vessel.
A mile further on the Coastwise sheer-
ed off and gave the Reliance a clear
course to the finish. As the wind soft-
ened the Reliance first set a baby jib
topsail, which the Shamrock had been
carrying since turning the second mark,
and then exchanged it for a big reach-
ing jib topsail, in which the Shamrock
promptly followed suit.

When the Reliance was a quarter of a
mile from the finish line the wind died
away considerably, but the Shamrock
III came booming along, carrying a
splendid breeze and fast overhauling
the leader. It looked as though the
British boat was going to get within
her time limit, but the finish line was
too close, and the Reliance slipped
across it with one minute and nineteen
seconds to spare. The Shamrock III
finished in a softening wind and both
boats were taken in tow to Sandy Hook.

THEY ALL LOVED JACK-NIT.

Officially some of the members of the
English court may be in mourning, but
down under the crepe there is a subtle
feeling of gladness, for Jack is dead.
Jack was the pet dog of the king, and
had a favorite habit of attaching him-
self to the members of the court with
rather more force than court etiquette
called for. He died suddenly; rumor
has it that he choked to death, and
every one is looking to see whether or
not any member of the cabinet is short
of any part of his raiment.

FARMS COME WITH FAME.

It is said that Georges Ohnet, the
French novelist, has bought a beautiful
chateau. There are no chateaux in the
United States which can be bought by
rising young authors, but it is hinted
that there are still a few desirable
farms left in Indiana.

CALL THEM LIQUID TARTS.

vity. It is lamentable, the Nebr-
askan good women think, to have for
their tables and entertainments any-
thing that's called by that wicked
name.

You Will Be Happy if Well.

Paine's Celery Compound

Bestows that Health and
Vigor that Makes Liv-
ing a Pleasure.

If you are sick and out-of-sorts, it is in your power to make yourself healthy, strong, and happy.

There is not the slightest reason why you should go through life feeling sickly, miserable, languid, and melancholic. To be well and strong, means happiness and true joy. If you are sleepless, rheumatic, neuralgic, dyspeptic, or have the shadows of disease hovering over you; if you are not as bright, energetic, and strong as you were some weeks ago, the use of Paine's Celery Compound will tone up and fortify your whole system, cleanse the blood, correct digestion, sharpen the appetite, and conduce to restful sleep. Thousands and once in a half-dead condition owe their present good health to the use of Paine's Celery Compound. Mr. Wm. S. Gibson, of Pleasureville, Ky., who, through sickness and suffering, was brought near the dark grave, writes as follows, regarding his marvelous cure:—

"I have been broken down in health and strength, nervous system shattered, kidneys out of order, had nervous and trembling spells off and on for the last ten years. I have taken three bottles of your Paine's Celery Compound and all of the above mentioned troubles have left me, and I can now do a good day's work. I go about my business all day long and it doesn't worry me, and I now feel better than I have in ten years. I have a good appetite, and can eat and get around on foot as active as when I was a boy. My age is 65 years."
