AGAIN IN QUARANTINE

THE AUSTRALIA NOT FREE THIS TIME.

Might Still be Held at San Francisco if She Had Communication With the Shore Here.

The steamship Australia is in strict quarantine. Just the same as for the past five months. The disappointed officers will have to spend six days more in Honolulu killing time aboard the vessel and they will not see the town till the next time they arrive here.

The quarantine is on account of the United States law which provides that home ports must continue their restrictions for thirty days after outside ports have been declared free. It will be the end of May before any vessel can expect to leave Honolulu and be received in the old way at San Francisco. The Australia will take a considerable cargo from here in addition to sugar, as well as many passengers, and by observing the precautions that have been put in effect, she will be able, it is said, to go right into the bay at San Francisco without any delay.

The Australia was met at the wharf this morning by a large crowd, all of whom expected that they would be able to go on board if they wished. But poles were in place to keep her six feet from the wharf, as in the past, and there was a strict order that no one must go on board. Friends who want to talk to Captain Lawless, Tom McComb, Joe Seelye, or any of the other officers may go up and about from the wharf, or make use of a telephone.

THE MYSTERIOUS SLOOP.

The mysterious sloop that came into Hanalei Bay Sunday afternoon is now hauled up on the beach high and dry. Marshal Brown's Japanese servant found the sloop bumping among the rocks, but straight upon her keel, and hauled her to a place of safety for the night. Monday morning he came into town and told the marshal about it, and the latter sent block and tackle and men enough to haul her upon the beach. She is not greatly damaged. Some of her planks are sprung and battered where she bumped on the rocks.

THE BILLS ARE APPROVED

McKINLEY "O. K.'s" ACTS OF THE COUNCIL.

Money Appropriated in Acts 2, 3 and 4 is Made Immediately Available—Other Matters in Cabinet.

The appropriation bills of the Council of State have been approved by President McKinley, and the expenditures authorized under them will now go ahead.

President McKinley telegraphed Special Agent Sewall to this effect, the message arriving by the Australia this morning. Mr. Sewall communicated the facts to Minister Mott-Smith.

The telegram was a surprise, as it was figured that the bills would not be heard from for some time. The President evidently acted immediately after receiving them.

The bills are approved from the date of their passage. This means that payments under them may begin at once. The Cabinet will proceed immediately to arrange for the various public works and other things provided for. At the meeting this morning the Cabinet approved the application of the Rapid Transit Company to lay its tracks on Alapai and South streets. In the matter the survey department replied that a majority of the property owners along the streets named had signed the petition for the track.

Minister Damon was instructed to place at the disposal of the Minister of Interior the sum of \$20,000, amount of appropriation for a garbage crematory. The session was quite short, terminating about 11 o'clock.

CIRCUIT COURT TODAY.

Several Matters Before the Trustees of Justice.

Wilder Steamship Company today noted an appeal from the decision of Judge Sullivan in the William Carson accident case.

In the case of Nahuwa, larceny second degree, appeal for mitigation, sentence of the lower court was confirmed. Kama, et al., charged with gambling, were tried by a native jury in Judge Stanley's court this morning and acquitted.

Keaweamahi, vagrancy, is on before a native jury this afternoon.

B. J. Fox and R. J. Walters failed to put in an appearance when their names were called. They are charged with disorderly conduct. On motion of their attorney the matter went over to tomorrow morning, when, if they do not appear, bail will be forfeited. Kauai vs. Achi is still on before Judge Davis.

CHAMBER OF COMMERCE.

Little Routine Business at Meeting This Morning.

The Chamber of Commerce had little business before it this morning. Routine matters were gotten out of the way.

A letter from the Philadelphia Museum thanking the Chamber for the neat certificate sent some time ago, stated that it had been hung on its walls. This certificate makes the museum a corresponding member of the local chamber.

A. A. Young and George R. Carter were nominated for membership and will be voted upon at the next meeting.

ENTHUSIASM FOR DEWEY.

CHICAGO, May 1.—Today's celebration, the first in America at which Admiral George Dewey could be present on the anniversary of the battle of Manila bay, was worthy of the famous victory. Fully 60,000 people were gathered along the line of march of today's parade and for four hours the Admiral was busy bowing acknowledgments of the cheers that met him from all sides. When the parade entered the thickly crowded streets down town the Admiral met with his real reception and it was most enthusiastic.

MYRTLE DANCE.

The Myrtle Boat Club will give a dance on Friday evening to members and its friends. Tickets may be had of members. The program is in the hands of an excellent committee and a good time is assured.

A PLEASURE AND A DUTY.

I consider it not only a pleasure but a duty I owe to my neighbors to tell about the wonderful cure effected in my case by the timely use of Chamberlain's Colic, Cholera and Diarrhoea Remedy. I was taken very badly with flux and procured a bottle of this remedy. A few doses of it effected a permanent cure. I take pleasure in recommending it to others suffering from that dreadful disease.—J. W. Lynch, Door, W. Va. This remedy is sold by all dealers and druggists. First President: First Governor

WASHINGTON, May 1.—President Dole has been selected as the first Governor of the Territory of Hawaii. The formal announcement will be made when the list of Hawaiian officials to be appointed by the President is complete. The President intends to make nominations for the remaining offices at an early date, so that the appointees may have all the time they need to arrange preliminaries. All territorial offices will be filled by citizens of the territory, and at least one of those positions recognized as United States offices will also go to a citizen of the islands. These places are United States Judge, District Attorney, Marshal and Collector of Customs. Of these four the District Attorney will probably be a citizen of Hawaii. Senator Cullom, who engineered the Hawaiian bill in the Senate, will probably get a place for one of his Illinois constituents. It is thought that M. M. Estee of California has an excellent chance for the position of United States Judge.

The Government received no dispatches from Judge Hartwell in regard to the matter, but it is more than probable that such were sent to catch the Rio de Janeiro, as Mr. Hartwell intended a few weeks ago to take that boat himself.

Alexander & Baldwin received a letter from their San Francisco agents stating that Mr. Dole had been appointed governor.

Mr. Dole's news is confined to the newspaper dispatches. He was not specially surprised at not hearing from Judge Hartwell on the Australia, anticipating that any messages would be sent to have sailed at the same time, but really got away late.

He says: "The position of governor will be new, and will carry with it grave responsibilities. It will differ from the old office of president. In some respects the responsibility will be less, but in others greater. If the news of my appointment be correct I can only say that I will do my best for the country at large, as I have done in the past."

The Planters' Association expects W. O. Smith to arrive by the Rio tomorrow. For this reason the members are not surprised that no word was received from him by the Australia.

TOWN TALK.

Town talk all of today has been on the appointments. In one circle there was a serious, but with the mass of people, including the conservative men, there was pronounced approval.

Mr. Dole has been showered with congratulations from every part of the city and from every nationality.

The Star conveyed to the governor the first news of his appointment. This was at 7:30 this morning, before Mr. Dole knew that the Australia was in sight.

Of course the appointment will have to be ratified by the Senate. In this case, however, there will be no partisan opposition, as Hawaii has wisely, thus far, kept out of national politics. Democrats will vote with the Republicans for the appointees.

THE NEW GOVERNOR.

Sanford Ballard Dole was born in Honolulu in 1844. His parents came here from Maine in 1840, his father to become the head of the school then about to be started at Punahou, which has since become Oahu College. Sanford B. Dole received his early education under his father and in the schools of Hawaii. At twenty-two he entered Williams College, Massachusetts. He remained there for a year when he entered the law office of William Brigham in Boston, as a student, being admitted to the bar of Suffolk County a year later. He then returned to Honolulu, and began the practice of the law. He was a member of the legislature of 1884 and 1886, and in the reform movement which culminated in the revolution of 1897 was a member of the Executive Committee of the Hawaiian League. In 1887 he was appointed an Associate Justice of the Supreme Court.

With the overthrow of the monarchy he became the head of the Provisional Government, and with the establishment of the Republic of Hawaii, he was elected President. His biography since 1893 is largely the history of the Hawaiian Islands.

With the formal transfer of sovereignty he became by appointment of President McKinley the head of the local government under the provisions of the Newlands Resolution. In 1897 he married Miss Anna P. Cate of Massachusetts. Mr. Dole has been a publicist of recognized merit. He has contributed papers and articles on various themes both for presentation at the meetings of learned societies, and for publication in magazines and reviews. While still a student at Williams, he was one of the authors of a volume on the bibliography of Hawaii, a work that has been at the foundation of all subsequent publications on the same subject. He has contributed articles on Hawaii to a number of publications of an encyclopedic character, one of these being the article on the Hawaiian Islands for Johnson's New American Cyclopaedia.

The office of Minister of Foreign Affairs will be abolished on June 11. The Minister of Finance will be "treasurer"; the title of the office of Attorney-General remains as it is. The Minister of Interior becomes "superintendent of public works." Minister Young announces his intention of leaving for California shortly and would not accept the position. The Auditor-General becomes plain "auditor." The land commission is abolished, and the work of the three men is entrusted to a commissioner. There is to be a commissioner of agriculture, board of prison inspectors, and some other officers of much the old title. Governor Dole will make all of these appointments.

All United States officers, including judges, attorney-general, marshal, collector of customs, postmaster-general, etc., will be appointed by President McKinley. It is likely that only a part of the judges, and the attorney-general will be Island men.

WASHINGTON, April 25.—After a brief debate today the Senate agreed to the conference report of the Hawaiian civil government bill, the provisions relating to the right of franchise and imprisonment for debt having been amended to conform to the ideas of the Senate.

Cullom presented a conference report on the bill to provide a government for Hawaii, explaining that the principal changes made by the last Congress were the striking out of all provisions requiring the payment of taxes before registration to vote, and the elimination of the provision that a person may be imprisoned for debt or non-payment of taxes.

"If the conference report is adopted," suggested Jones of Arkansas, "the payment of taxes will not be a prerequisite to voting."

"That's it, exactly," replied Cullom, "and in addition there shall be no imprisonment for debt."

Tillman inquired what had been done with the provision requiring the President to appoint the officials of the territory from among the residents of Hawaii.

Cullom replied that the offices were to be filled by citizens of Hawaii. Tillman thought this provision ought to have been inserted in the Porto Rican bill, that "carpet-baggers" should not be "inflicted upon those people."

Foraker pointed out that under the Porto Rican bill the President, if he saw fit, could appoint all the officers of Porto Rico from the citizens of the island.

Platt of Connecticut protested against requiring the President to appoint officials of the islands from their inhabitants. The conference report was then agreed to without division.

THE PLAGUE AT SYDNEY

A HUNDRED AND FORTY-FOUR CASES.

Bacilli Found in Stomachs of Fleas Taken from Dead Rats—Sixty-Seven Patients in the Hospital.

The city of Sydney is in the midst of a most serious epidemic of bubonic plague. On the day that the steamer Aorangi arrived here this morning, left Sydney, eight cases were reported. For several days previous there had been three and four cases a day, and the whole city was concentrating its energies, as Honolulu did, to fight the disease. Up to April 25 there were 144 cases of plague, with 52 deaths. Nearly all the victims are whites only three among the lot being Chinese. There were 67 cases in the plague hospital on the 24th.

An interesting fact in connection with the bacteriological work being done at Sydney is the discovery of bubonic plague bacilli in the stomachs of fleas. The discovery was made by Dr. Frank Tidwell, who has been examining if fleas may transmit the plague.

Sydney is undergoing a great cleaning up. Thousands of tons of garbage have been destroyed and district after district isolated, while the inhabitants were compelled to put their premises in proper condition. A house to house inspection of the city has been made, and up to April 19, 11,550 premises had been examined, and 1,576 of them condemned, as more or less requiring cleansing.

As in Honolulu, the rats are receiving much attention in Sydney. Over 1,200 of them had been caught and killed up to the 24th of last month, and a large force of ratcatchers were out after the pestiferous rodents. The authorities had sent to India to get the services of a thorough expert on plague, to assist in the campaign to stamp out the disease. Business in the great metropolis of the Colonies is being brought to a standstill. There have been picket fences down the middle of some of the main streets, taking the places of the lines of armed guards who kept quarantine in Honolulu.

The doctors of Sydney are congratulating themselves on the comparatively low death rate among their plague cases. A good many more than half have escaped death so far, and it is stated that this shows remarkably good treatment. Prophylactic and serum have been sent for, but had not arrived when the Aorangi left. The remarkable low death rate may be partly accounted for, according to Honolulu opinion, by the fact that most of the cases are white people, as it is well known that the disease is most fatal to people of the various colored races.

CRUELTY TO ANIMALS.

Otsuka and Fred Newcastle were each fined \$10 and costs in the District court this morning for cruelty to animals.

BEFORE THE COURT.

Luiz C. Camara and A. G. Reis, who were arrested on suspicion of being the men who set the bomb at Portuguese Consul Canavarro's house several mornings ago, were before the District court this morning.

Camara and Reis are charged with intending to commit an offense with violence. The complaint, which is sworn to by Consul Canavarro asks that they be required to give bonds not to commit any violence against him. The police have a great deal of evidence showing that they have made threats, though the evidence is not complete to connect them with the actual placing of the bomb.

The hearing of the case was continued until tomorrow.

TWO SHIPS ARRIVE.

The ships Florence and Bengalore, from Newcastle, arrived this morning, and anchored outside the harbor, the tug being disabled and unable to bring them in. A schooner is also outside.

FROM KAUALA.

The steamers Mikahala and Walaalea have arrived from Kauai, bringing as passengers, F. Gay, W. L. Kinney, A. Seale, W. A. McMichael and J. W. Jones and wife. The two steamers brought 7,200 bags of sugar.

NAVY TRANSPORT SOLACE

ANOTHER STEAMER FROM SAN FRANCISCO.

Quarantine on Account of a Case of Sickness on Board—Left Just Before the Australia.

The United States navy transport Solace, Captain Herbert Winslow, arrived this morning from San Francisco, and was put into quarantine on account of a case of sickness on board. The sick man is a member of the band, who has some kind of fever, regarding which the doctors are not quite satisfied. The case is not thought to be a serious one, and the steamer will probably be released tomorrow morning. In the meanwhile she is strictly quarantined, and is lying near the Australia in front of the Oceanic wharf. The Solace left San Francisco about four hours ahead of the Australia.

The Solace is on her way to Manila, with stores for the navy, and carrying a number of naval officers who are to join the United States fleet in the far East. The officers on board are Commanders G. O. Coffey and Charles G. Bowman; Assistant Paymasters H. R. Insley, G. H. Reeves, S. Rhodes, Walter Camp and R. Spear; First Lieutenant W. Hopkins, Second Lieutenants J. N. Wright, J. McE. Huey and A. S. Williams.

In addition to Captain Commander Winslow, the Solace has the following officers: Commanders F. Coffin and G. S. Willis, Surgeon W. H. Rush, Assistant Surgeon J. Stepp, Paymaster J. S. Phillips, First Lieutenant B. F. Rittenhouse, A. W. Machinists J. W. Murray, C. H. Housung and A. T. Percival, Pay Clerk F. K. Hunt.

On temporary duty: Lieutenants W. B. Fletcher, W. D. Brotherton, Percy N. Olmsted, J. L. Sticht and Lewis B. Jones, Acting Quartermaster Jacob Jacobson. Paymaster Insley and Lieutenant Wright are accompanied by their wives.

The Solace will take coal here. She will have the berth to be vacated by the army transport Warren.

ARMSTRONG SMITH.

Receives Alexander Young's Handsome Present on His Arrival.

SAN FRANCISCO, April 26.—Armstrong Smith, who volunteered as a nurse for the Honolulu plague hospital at the beginning of the bubonic plague outbreak, arrived here on the Australia. He found waiting for him a very handsome gold watch and chain, with the inscription on the inside of the watch, "Presented by Alexander Young to Armstrong Smith, in recognition of his services at the plague hospital, April 10, 1900."

Mr. Smith on receiving this, expressed his pleasure at the sentiments it denoted. He wished, however, that the services of the other nurses at the hospital should not be overlooked in the sentiment of the people of Honolulu of gratitude for services at the plague hospital.

Mr. Smith leaves May 12, for New York.

TENNIS TOURNAMENT.

The spring tennis tournament begins this afternoon at 4 o'clock. By the results of the drawing the play will be as follows:

MEMORANDA.

The Aorangi and Australia, were sighted within fifteen minutes of each other this morning; the Australian boat at 5:15, and the steamer from the Coast fifteen minutes later. Under the new system there were two custom house men on deck for each. Scandal was told to the Australia, and Kismet to the Aorangi.

The Aorangi left Sydney on the 24th of April, and Brisbane on the 27th, speaking the Warimoo on the 27th. She had a good deal of rough and squally weather.

The rough weather which the Australia encountered immediately on leaving here last time continued for some time, and she was ten hours late at San Francisco. She made the trip back in six days and fifteen hours.

A bark was reported ten miles south early this morning.

SWAM ASHORE.

SAN FRANCISCO, May 2.—A Japanese jumped overboard yesterday morning from the steamer Rio de Janeiro and swam ashore in order to obtain an order of the Federal Quarantine Office which denied him a landing at this port. Inspector Chaloner of the customs force subsequently apprehended the escaped immigrant and returned him to the steamer. The offending Japanese will be returned to Japan on the Rio de Janeiro's next trip. Meanwhile special care will be taken to prevent a further escape.

AT SAN FRANCISCO.

SAN FRANCISCO, May 2.—The ship Falls of Clyde sailed today for Hilo; the steamer Belgian King sailed yesterday from San Diego for Honolulu. The steamer Thyra arrived today at San Diego, from Honolulu. The bark Kailani sailed yesterday from New York for San Francisco. The steamer Centennial arrived yesterday, ten days from Kahului. The schooner J. H. Bruce sailed April 30 from Gray's Harbor for Honolulu. The steamer Cleveland arrived from Hilo April 30. The steamer Westminster sailed April 30, for Honolulu and Manila. The bark Highlands arrived at Port Townsend April 30, from Honolulu, and proceeded to Port Blakeley. The ship Charles E. Moody passed Neah Bay April 30, from Honolulu. The bark Martha Davis cleared for Hilo April 27. The bark Albert was released from quarantine yesterday. The barkentine Amelia sailed from Eureka April 27, for Honolulu. The ship Henry Failing sailed from New York for Kahului April 26. The British ship Carned Llewellyn, from Hamburg for Honolulu, passed the Isle of Wight April 25. The schooner Twilight sailed April 28, for Kihel and Fanning's Island. The bark Edward May, sailed for Honolulu April 26.

NICARAGUA CANAL.

WASHINGTON, May 1.—Under the order made by the House last week, today and tomorrow were set aside for the consideration of the Nicaragua canal bill. An unsuccessful attempt was made to reach an agreement as to the length of general debate and the division of time. Mr. Hepburn then offered the amendments of the committee substituting the word "protect" for "defend" and the words "provision for defense" for "fortification for defense." He made the opening argument in support of the bill. Mr. Hepburn was followed by Mr. Shackelford, who made the minority report in favor of an additional section providing that the canal should not be built if the Hay-Pauncefote treaty was ratified. He favored building the canal along the line of his report.

Mr. Lovering of Massachusetts, supported the bill.

PRESIDENT'S FLAG.

Private Secretary Porter wants the president to replace the flag of the Union that flies from the top of the White House with his own flag. He gives as his reason that the Stars and Stripes float from the tops of all the department buildings, but on the White House the president's own flag ought to be seen.

ANOTHER RAILWAY.

Russia is preparing to construct a new railroad going from the south of European Russia to Turkestan. It is intended to connect the commercial centers of Russia with Central Asia by the shortest route. Two projects exist, and neither of them has been finally decided upon. Either one of them would be less costly than the Siberian Railway, with the natural resources of Turkestan territory are scarcely inferior to those of Siberia.

New Spring Neckwear

Is coming. Cupid calls it good and beautiful. No article of wear partakes of so many patterns and makes as does neckwear. When you see the new the old that you thought beautiful grows stale. We have just received our new spring stock and if you don't say that they are swell when you see them we will quit importing.

WE ARE NOT exactly selling our goods at auction, but we are doing the next best thing by selling them at greatly reduced prices. It is not our habit to carry goods over from one season to another, so we must sell our remnants of sizes at once, and at such prices that you will save money by buying of us. These goods must sell even if we incur a war in doing so. Boys' and Men's Clothing, Underwear and Men's Furnishings. We mean business. Call and have a look.

Economy these good times some one says—but the smokers we cater to are men of affairs who know what's what and we'll get their cigar trade if we convince them they save money buying here.

We pay a little more than some dealers for cigars to get extra care in the selection of the tobacco leaf and for better work.

Our specialty is selling imported cigars that you pay more for elsewhere—and don't get as good tobacco either.

Aching Bones,

pain in the back running up the spinal column to the base of the brain, eyes feverish and bloodshot, a stuffy feeling in the head, scalding discharge from the nose, sneezing, sore throat, cough, pain in chest—these are all signs of grip's ravaging effect on the nerves. Grip weakens the heart, congests the lungs, destroys the appetite and lowers the vitality of the whole system. The best and safest remedy for overcoming the depressing and prostrating effects of grip is Dr. Miles' Nervine. It invigorates the appetite, assists digestion, quiets the nerves and brings restful, refreshing sleep. It builds up the nerve tissues, overcomes the aches and pains, steadies the nervous heart and puts new life and energy into broken-down men and women as nothing else can.

"Four years ago I had a very severe attack of La Grippe, which settled in the back of my head and spinal cord. I had distressing pains in my head and back, my bones ached all the time and I became extremely nervous and restless. I could not sleep for days and nights together, my brain became seriously affected and I thought I should lose my mind. For two years my condition grew steadily worse and then I commenced taking Dr. Miles' Nervine. In a few days I was able to sleep naturally and continued to improve from that time on until my health was completely restored." MISS SUE GODWIN, Opelika, Ala.

TO CHECK FORCE OF WAVES

NEW INVENTION PUT FORWARD
IN FRANCE.

A Light Net Proves a Successful Break-
water in a Heavy Sea—Better Than
Oil.

An Italian gentleman, Baron Benvenuto d'Alessandro, living in Paris, 62 rue Bossiere, has invented a new method of protecting vessels at sea, entrances to harbors, lighthouses, etc., from the force of waves and surf, which he claims is more efficient than the use of oil.

His invention consists in retaining on the surface of the water an unobmergible floating net by means of outriggers when used to protect vessels in storms at sea, and by attaching it to buoys when used to protect lighthouses, hydraulic works in construction, entrances to harbors, etc.

He bases the idea of his invention upon the principle that in covering the surface of the sea with a thin, flexible, light, and floating body of whatever nature, the part covered forms a crust under which the molecules of the imprisoned mass of water cannot move in the same manner as the surrounding body of uncovered water, the result being that even the most violent waves upon reaching the edge of the crust, instead of climbing over it, of breaking or of destroying it, will pass under it as if there was a fall or difference of level, become flattened out, and lose much of their force.

Trials of the floating net have been made—in 1891 at Quiberon, department of Morbihan and in 1892 at Cherbourg. The following are translations of the report made by Captain Lequellier, chairman of a committee of the Societe de Sauvetege at Quiberon, to the president of the Societe Centrale de Sauvetege, at Paris, and of notes upon the trials at Cherbourg taken from Baron d'Alessandro's pamphlet called "Le Flotant."

Quiberon, November 14, 1891.

The President: I have the honor to call the attention of the Central Life-Saving Society to the trials which were made in our waters of a floating net, which is intended to be used as a net against the force of heavy seas and as an advantageous substitute for oil. This net which is very simple, is covered with a composition which renders it buoyant and unobmergible and has a surface of about 1,000 square meters (1,196 square yards).

I, together with the captain of the life-saving boat, Mr. Le Chanjour, assisted the inventor, Baron d'Alessandro, during the different trials which have been made since September 12. He has shown us many different ways of placing the net. At first it was anchored at each end, then it was towed across the waves; but, finding that the resistance was too great, and that it was impossible to continue the trials, we changed it.

On November 9 we anchored one end of the net head to the wind, leaving the other free to float in the breakers. During the evening of November 10, the results were favorable. The waves did not break on the surface of the net, and the effect was absolutely the same as if oil had been used.

We also observed that when the boat was under the lee of the net, the sea was smooth, and the contrary was true when the boat was withdrawn from its shelter.

During the trials in company with the Baron and the captain of the boat, I have been able to see that this net would be of great service to our navy, and merits further attention.

AFTER A PRINCE.

German Reichstag Wants Him Punished for Murder.

A month ago Herr Bebel, the German socialist leader, interpolated the government in the Reichstag, demanding to know what disposal military authorities had made of the case of Lieut. Prince Prosper Arenberg. Arenberg, who is the head of the royal house of that name, some time ago secured an appointment to a post in German West Africa. Having had a quarrel with a native, he ordered a soldier to shoot the man. This soldier at first refused to do, but on being threatened, finally fired, wounding the native in the leg. The Prince then dispatched him in cold blood with his revolver. For this murder Prince Arenberg had only been sentenced to a short term of imprisonment, but before his time had expired he had been allowed to return home on a furlough, and had until recently been living as a free man in one of the leading hotels in Hamburg.

After Herr Bebel had concluded his interpolation Dr. Von Buchka, the director of the Colonial Department of the Foreign Office, replied that he could furnish no information upon the subject, as the matter was still before the court-martial, the proceedings of which would be held at Berlin. For this murder Prince Arenberg had received no undue consideration on account of his royal rank, and that he had ordered him arrested as soon as he had received the documents from Africa. He admitted that the Prince had once felt military discipline for having mistreated an orderly. Dr. von Buchka further agreed with Herr Bebel that punishment inflicted through bodily injury was far too frequent in the colonies. He had recently informed the governors that such punishment should only be applied in cases of absolute necessity. Herr Grober, the leader of the Centre, then declared that his party cherished the hope that the prince would be treated with the full severity of the law. Similar statements were expressed by Dr. Hasse, a National Liberal, and Herr von Kardorff, a prominent Conservative.

At the rate of progress now being made it will take a considerable portion of the next century to raise the American flag over all the 1,200 or 1,300 islands of the Philippine group.—Philadelphia Ledger.

DEWEY AS AN ARTIST.

While a student at Norwich university Admiral Dewey took lessons in painting in water color, and proved an apt pupil. He produced several promising bits of work, mostly in sketches, one of which has been rescued from oblivion, and, in a large frame, now adorns the walls of one of the university classrooms.

S. B. DOLE.

Sanford Ballard Dole has made a big mark upon the history of Hawaii. He has been the first and only president of the independent Republic of Hawaii, and now he will be the first governor of the Territory of Hawaii, for there can be little doubt but what the nomination of the President will be confirmed by the Senate.

Governor Dole is well and favorably known in Washington. He has made a very favorable impression upon the leading men of both parties, both in the Senate and in the House, as well as in administration circles, and his name carries weight in Washington.

That during his career as chief executive he may have made mistakes, only proves that the future governor is human. He has guided the ship of state in perilous times, when men's minds were intensely heated, and his administration, though meeting with criticism, has commanded respect.

The duties of governor will be more onerous than those of President, and will entail grave responsibilities. These Mr. Dole's experience in affairs will enable him to bear with dignity and ability. To some the appointment of Mr. Dole will be a disappointment, but to the large majority it will be highly satisfactory, for it gives assurance of conservative administration, and honesty in the conduct of executive affairs.

FINIS CORONAT.

Signed. The bill making Hawaii a Territory of the United States is now history. The struggle which has been going on for twenty years, and the idea which has been incubating for over fifty years has reached its final consummation. On August the twelfth eighteen hundred and ninety-eight the struggle was practically ended by the act of annexation, but the coping stone of the whole fabric, the organic law which was required to complete the work had to wait till April thirtieth, nineteen hundred before it was finally rounded out.

The territorial bill in its final stage has had very little alteration from the bill which was printed when the conference committee had got through its labors. The main change is not making the payment of taxes a prerequisite of voting, and the abolishing of imprisonment for debt, a statute which has not been applied for years.

The principle of home rule is applied very satisfactorily, and the offices will be filled with citizens of the Territory of Hawaii, thus saving us from the disadvantage of a carpet bag administration.

The appointments of Governor, Chief Justice, Justices of the Supreme Court, and Judges of the Circuit Court will be nominated by the President, subject to the advice and consent of the Senate. The Governor, subject to the advice and consent of the Senate of the Territory of Hawaii, will appoint the Attorney-General, Treasurer, Commissioner of Public Lands, Commissioner of Agriculture and Forestry, Superintendent of Public Works, Superintendent of Public Instruction, Auditor, Deputy-Auditor, Surveyor, High Sheriff, Members of the Board of Health, Commissioners of Public Instruction, Board of Prison Inspectors, Board of Registration and Inspectors of Election, and any other boards of public character that may be created by law. When the Senate is not in session he can make such appointments by granting commissions, and he may by the advice and consent of the Senate of the Territory of Hawaii, remove from office any such officers.

The powers of the Governor are more extensive than those of the President of the now expiring Republic of Hawaii, and upon his tact and judicious use of that power will depend the smooth working of the machinery of government. It is fortunate that this power must always be vested in a citizen of the Territory.

We can congratulate ourselves upon this successful outcome of a very prolonged effort. The writer of these lines looked to this ultimate result many years ago. We have knocked at the door of the United States, asking for admission years upon years. At times it seemed as if the door was ready to open, and then it was closed again. But through it all there were those here who consistently and earnestly worked in spite of discouragement, in spite of that hope deferred which maketh the heart sick, and who may now look with satisfaction upon the completion of a great work, which circumstances have assisted in a happy and felicitous manner.

We stand now on the threshold of a new era. The pages of the old history of Hawaii are closed, both as a monarchy and an independent Republic. There can now be no slip between the cup and the lip, no hanging up of the

bill for a future session, we are now and forever an integral portion of the United States, and we will share in the magnificent future of one of the greatest powers that the world has ever seen.

Before us we have a prospect of ever increasing prosperity. Our industries will be fostered and protected. We have done with all fears of foreign encroachment. We have only to attend to our own affairs and make a record for ourselves by our industry and enterprise and show that we can govern ourselves honestly and well.

The opportunity is now before us of electing a legislature upon independent lines, and that is what the thinkers and well wishers of the Territory of Hawaii should unite upon. Upon our legislature will depend our first success. We can see from the President's action that he favors independence in Territorial government. Our first duty is plain, we want the best men in the country, irrespective of political lines. We need such men as William Wilder in the Senate, and many like him, but a strict party vote would throw him out of the ticket.

The Islands can rejoice today. The last year of the century is bringing us good fortune and good luck.

A GREAT STEP FORWARD.

Hawaii will have the honor of being the first place where wireless telegraphy will be installed as a complete system. Wireless telegraphy has been in use between Great Britain and France. It was used at the International yacht race last year, was used at the naval maneuvers, and so forth. But it has been reserved for Hawaii to adopt it as its exclusive inter-island system, demonstrating that for distances between islands such as we are, the cable is a useless and cumbersome method of communication.

Since the arrival of Expert Bowden we are beginning to learn more of the possibilities of wireless telegraphy. We had an idea there would have to be stations at each side of each channel and then that the telephone lines would have to be used till the next station was reached. The reality is very different from this. It is very much such a revelation as struck one when using the Roentgen ray for the first time, and one was disposed to pull up one's sleeve before the bones of one's arm were shown. Of course, it mattered not whether the coat was thick or whether one had three coats on—the bones showed out clear, without any reference to coats or shirts.

So it is with the wireless telegraphy. Mr. Bowden tells us that Honolulu will not need even to speak to Maui, but will be able to talk directly with Hawaii, without the intervention of either Molokai or Maui. Moreover, when the inter-communication between the Islands is perfected, Mr. Marconi's representative promises that steamers two hundred miles from the group will be able to communicate their news.

This is all very wonderful and hard to realize, but there is every reason to think that the case is understated, rather than overstated. We shall open our eyes in a few weeks, and such methods of communication will revolutionize a good deal of our business procedure; just as the ocean cable has revolutionized the business of the great continents.

But if what Mr. Bowden promises is realized, what wonderful possibilities are opened. If you can communicate 200 miles, why should you not communicate 2,000 miles, and if this is so, what need of an expensive cable between here and the Coast. One begins to see why Marconi's system has been decried. It is likely to cut into many monopolies. It is also clear why it should find an easy home here, because there are no monopolies to fight it. Success is what everyone hopes for this venture in inter-island communication. Mr. Cross is to be congratulated upon his acumen in organizing the company and bringing it to practical fruition.

A REFORMER.

Leung Chi-tso left by the steamer yesterday for the other Islands of the group, where he will carry on his reform propaganda. During his stay in Honolulu he has labored indefatigably for the cause of which he is so able an exponent, and has won, not only the majority of his countrymen, but many Westerners over to a thorough belief in the honesty and uprightness of his work.

Naturally the officials deride him, and as is usual, impugn his motives. But there never has been a reformer yet who has not been vilified by the official classes. The Gracchi of Rome were vilified, and lost their lives for their cause, at the hands of their ingrate countrymen. The Jews complained against the purest and most blameless Reformer that ever appeared upon earth, that he was a "wine-bibber, a friend of publicans and sinners." Luther was vilified. Cromwell was vilified. Washington was vilified. Throughout the whole range of history, whether the reformer be religious or political, his life is made a burden to him, and it is only years afterwards that he is universally revered for his work and the good that he has done.

But the man with high ideals cares not for the abuse, the misunderstanding, the falsehoods which are circulated about him, any more than he cares for the personal risks he runs. His cause is his life and he willingly lays it down, if by his death he can help to carry out those ideals. Mr. Leung's ideals are high, they may even be Utopian, but they are grand in their conception. To attempt the regeneration of so mighty an empire is indeed a colossal task. So colossal that we hardly realize it.

These are only a few lines, but for the WEEK, BARGAINS can be found in all lines, in all Departments at our Store on Queen Street.

We have received Ex "Warrimoo"

What we believe will be the last shipment of European Goods to come in under the old tariff, and while we have been importing all kinds of staple and fancy dry goods direct right along, the shipment just to hand, will place us in a very enviable position. Out of the very many kinds of goods included in this shipment, we desire to talk of only one kind to-day, the kind of goods that we excel in, and the kind that every lady in the land is interested in. We mean:

"Black and Colored Grepons"

Dame fashion has decided, that crepons will be more largely worn this season than ever. We had a presentiment of the kind, and made our purchases accordingly. The result is,

The largest and most representative line of Popular and Exclusive Designs ever Imported,

Only one piece of a kind tho' don't forget that, it is important. We found out long ago, that in a small community like ours, it is a mistake to import more than one piece of a kind. Ladies do not like to feel that there are dozens of the same kind of dresses to be seen on Fort Street every day in the week. We wish to impress upon you however, that although our stock is large to-day, the ever increasing demand for popular and good wearing materials will soon diminish it, "and that these goods cannot be replaced at the prices we are offering them at to-day."

MANOA VALLEY.

Opportunity is given to purchase in Manoa Valley a beautifully situated property containing all the necessary essentials for a homestead, and where healthful climate and picturesque scenery are in the midst of historic surroundings, and all in contact with improved grounds, planted with various foreign fruits, as well as supplied with fruit trees indigenous to Hawaii. The acreage of 46.64 acres in fee simple and 31.16 acres under long and favorable leases.

Included in the improvements on the fee simple portion is a roomy, modern dwelling house furnished with sanitary and other conveniences; there is also situated thereon a roomy carriage shed and stables.

The celebrated Waiakaeakua (Water of the Gods) Falls is in near proximity, and the cool, clear, sparkling water therefrom flows through the grounds, supplying ample opportunity for increased irrigation to the acreage already planted and which is capable of considerable improvement.

To Attorneys,

And to whom it may concern:

I beg to call your attention to my capabilities as an auctioneer, and respectfully solicit such business as might be at your disposal. I act as referee; conduct such sales as are formally demanded in the transaction of legal affairs; make appraisements and act as administrator of estates. I have all the facilities necessary for the successful conduct of this special class of business. I am a licensed auctioneer, thoroughly familiar with all the requirements demanded in the office as such, and PERSONALLY CONDUCT all sales. In short, I will take full and complete charge of all affairs appertaining to real estate.

Real Estate Owners.

My Real Estate Department is devoted to the listing and sale of Realty, and is most thoroughly equipped. My methods are peculiarly my own and are uniformly of satisfaction to all with whom I have business relations, as in all the departments the utmost courtesy is extended to all. Special attention given to the subdivisions of outlying tracts. Twenty-five and more years experience justifies this statement.

ROBERTS' HARD PROBLEM MORE AFRAID THAN EVER

BOERS IN HIS FRONT SEEM UNDISMAYED.

Dickson's Attempt to Surround General Botha's Force Fails and Almost Results in His Own Capture.

LONDON, May 8.—It is difficult to unravel the tangled stories coming from the north of Transvaal, but apparently the British forces are engaged in a movement having for its object the hemming in of the Boers still in that district. While Generals French and Buller are holding the Boers at Tzaneba, General Broadwood's cavalry has been pushed on Houtnek in the hope of intercepting the Federal convoys between Ladybrand and Winburg. As General Botha has been reinforced there is every prospect of sharp fighting. The new scene of operations and the general movements of the various columns are taken to indicate that Lord Roberts is deploying his army preparatory to beginning his northern march. It now seems likely that it is the Commander-in-Chief's intention to advance simultaneously from Kimberley, Bloemfontein, and Ladysmith, with the view of preventing the Boers from concentrating their forces at any given point. A dispatch from Bloemfontein, dated yesterday, chronicles the prevailing opinion among the townspeople there that the war is not likely to last more than six weeks, on the British advance begins, but adds that the correspondent has been unable to discover any ground for this opinion beyond the fact that General Carrington has arrived at the Marandellas base, whence a flying column will be dispatched in a direction not made public.

A dispatch from Pretoria gives the text of President Kruger's proclamation expelling British subjects from the Transvaal. It says:

"As numerous burghers insist on the removal of the British, and as the Government is desirous of complying with the wishes of burghers and others favorable to the Republic, all Britishers residing in the district and town of Pretoria and the Witwatersrand gold fields must leave the state within thirty-six hours from noon, April 30. Exceptions will be made in the case of those obtaining special permits."

Lord Roberts forwards a list of the casualties of General Ian Hamilton's force, April 30, as follows:

Killed: Major Showers, Lieutenant Parker and one private. Wounded: Four officers and five men. Missing: Ten officers and ten men.

A dispatch from Mafeking, describing the Boer attack of April 11, says: "The bombardment of the Creusots was the hottest of the siege. Many shells entered the hospital and woman's laager. Under cover of the artillery a force commanded by Cronje (the younger), including the German corps, advanced close to Fort Abrams. The garrison laid low until the Boer force was at close range, when they fired a volley, killing five, wounding many, and the attack was repulsed. The bombardment then ceased. The Boers, under a Red Cross flag, later were permitted to recover their dead."

An order has been lately issued an order that every burgher between the ages of sixteen and sixty must report in laager at one of the camps and as a result of this order every able-bodied man is in the field. Yet no amount of figuring will show that the Boers have anything like 40,000 men pitted against the British 200,000 or more.

MINING HORROR.

Over 250 Miners Lose Their Lives in Utah.

SALT LAKE, Utah, May 1.—The mining camp at Scofield, Utah, was today the scene of the greatest mining disaster that has ever occurred in the West. Mine No. 4, used as a powder magazine exploded and the result is 250 lives have been lost, the entire number of miners at work in the mine when the explosion occurred. Up to 10 o'clock tonight 85 bodies had been recovered and the search continues. The scene at the mine is heartrending in the extreme. Women and children were waiting and moaning and crying out the names of their loved ones, and as every man is brought from the mine on a stretcher, and the covering from the face is raised, shrieks awful to hear penetrate the dark and gloomy atmosphere as some one rushes forward only to faint at the foot of their husband's or father's corpse.

THE WARREN VERY READY FOR QUARANTINE.

Did Not Want to Receive Port Physician or Pilot, Though Informed of the End of Quarantine.

The transport Warren yesterday afternoon gave the officials who wait in the pilot boat to board her a more lively reception than any steamer has done since plague began. The information given by Dr. Wood that there had been no plague for 38 days; that quarantine had been off for eight days; and that the steamer would be given a clean bill of health, seemed to have no effect. Captain Pierce yelled from the bridge for Dr. Carmichael, and in spite of Dr. Wood's statement that he was the port physician, the captain shouted to his men to keep Dr. Wood off, as the latter was going up the gangway. Dr. Wood's turn came later.

After refusing to allow Captain Cameron, the pilot, to go on board, Captain Pierce shouted his permission for Cameron to board the vessel to anchor her. "If Captain Cameron goes on board before I inspect the ship's papers, he will be put in quarantine on board," said Dr. Wood. Then the order was given for the doctor and pilot to board the vessel. Dr. Wood got through with his business in remarkably short time, and returned to the pilot boat, while Cameron anchored off a vessel to wait while Captain Pierce communicated with Dr. Carmichael. The last time the Warren was here Dr. Carmichael dealt rather severely with her, and she was quarantined in San Francisco, but the people on the transport yesterday overlooked the fact that conditions are different after quarantine is declared off.

The Warren has a larger number of soldiers on board than has passed here for many weeks. There are about 500 enlisted men on board, in addition to a number of officers, many of them turning to duty as being invalided home, and seventy-five hospital corps men. The men were allowed on shore last night, as the vessel came in and removed all quarantine restrictions, as was expected, as soon as Dr. Carmichael was heard from. She is taking coal at the end of the Pacific Mail wharf.

Captain Hart, formerly in command of the Warren, is ill in San Francisco, suffering from the effects of an accident he sustained while on the Mariposa, when two of his ribs were broken. Captain Pierce, who now has the Warren, was formerly on the Sheridan, which Captain Hart will take. Captain Miles, U. S. A., is still quartermaster in charge of the Warren.

FIRST PRESIDENT, FIRST GOVERNOR

(Continued from page 4.)

WASHINGTON, April 12.—The conference report on the Hawaiian bill was adopted by the House and now goes to the President.

WASHINGTON, April 30.—The President signed the Hawaiian bill at 12:43 o'clock today.
When Hawaii was annexed to this country it had a bonded debt of about \$4,000,000 drawing a heavy rate of interest. This debt still exists, but under the act signed by the President today it is to be assumed by the United States. Secretary Gage does not intend that it shall be added to the bonded debt of the United States if it can be paid immediately. The terms of the debt will be looked into, and if they permit payment at any time the debt will be wiped out as soon as the law goes into effect in forty-five days. Secretary Gage will soon send to Hawaii money and Treasury agents to exchange the Hawaiian for American currency. The exchange will be made as in Porto Rico. It is understood that there is \$1,000,000 in minor coins in Hawaii which will have to be exchanged for currency of this country.

DIED THIS MORNING.

George Baker died this morning at 4:30 o'clock, at the Victoria Hospital for incurables. He will be buried at 4:30 o'clock this afternoon. He was very well known in Honolulu.

MR. AND MRS. CLAY CLEMENT.

Mr. and Mrs. Clay Clement arrived from Sydney by the Aorangi, where they have been with the Nance O'Neill company. They have been called back to America by the death of Mrs. Clement's sister. Mr. and Mrs. Clement are the guests for the day of Dr. and Mrs. Hoffman. They leave at 5 o'clock this afternoon.

GREAT PAINTER DEAD.

BONN, May 1.—Michael Munkacsy, the celebrated painter, died in an asylum here today. He will be buried at Budapest.

The cleanest, brightest, safest and really
the long run, the cheapest and best light
for use in the family residence, is the incan-
descent electric light. Safe; nothing could
be safer. A few days ago a prominent gen-
tleman of Honolulu came rushing down to
the office of the Electric Company and said:
"Give me figures for wiring my house, and I
want it done at once; no more lamps for me.
Last night a lamp tipped over and it came so
near setting fire to the house and burning my
children and I take no more risks."
This is the sentiment of quite a number in
the past few weeks, who have ordered their
houses fitted with the perfect light.
Just think it over and make up your mind
that you want the best and safest light; send
for the Hawaiian Electric Company and tell

HOT FIGHTING AT CATUBIG

FILIPINOS HOLD AMERICANS FOR
FIVE DAYS.

Surround Them in a Church—Our Sol-
diers Only Rescued by the Arrival of
Reinforcements—Details.

MANILA, May 2.—The American par-
tison of Catubig, Island of Samar, con-
sisting of thirty men belonging to the
Forty-third Regiment has been attack-
ed by rebels.

Twenty of the Americans were killed.
The remainder were rescued.
The Americans were quartered in the
Catubig church, which the enemy, num-
bering several hundred men, surround-
ed and fiercely attacked. The Americans
fought for two days and then the rebels
managed to ignite the roof of the church
and it burned away and finally fell upon
those inside the edifice. The walls re-
mained intact, however, and were used
as a shelter by the besieged Americans
for three days longer, the enemy at-
tacking the building from all sides at
once.

The Americans continued firing from
the windows and doors of the church
and did good execution among the Fili-
pinos. It is estimated that over 200 of
the latter were killed, many dead bodies
being removed from the scene of the
fighting. After five days' resistance by
the Americans, a lieutenant and eighty
men arrived from Labon and engaged
the besiegers, who thereupon retired.
The fortunate arrival of these rein-
forcements prevented the annihilation
of the American force entrenched in the
church who had repeatedly declined to
surrender when ordered.

The ten survivors were without food,
had little ammunition and were ex-
hausted when relieved.

This fight has encouraged the Fili-
pinos, who are now acting in an ag-
gressive manner and threatening that
section of the coast, particularly the
town of Catarman, whence the guerilla
will probably be withdrawn to Laoan.

KITTREDGE-BALDWIN

OAKLAND, April 26.—No prettier
wedding has been seen this year than
that which was celebrated at the hand-
some home of Mr. and Mrs. E. H. Kit-
tredge tonight, when Miss Harriet Kit-
tredge became the bride of Frank Bal-
dwin of Maui. The residence was elegantly
decorated for the event, and over
200 guests were present at the cere-
mony, and the supper which followed.

The marriage took place in the draw-
ing room.
Promptly at 8:30 o'clock the strains
of Mendelssohn's "Wedding March" an-
nounced to the guests the approach of
the wedding party. It was awaited in
the drawing room by Rev. Charles R.
Brown, who united the young couple,
assisted by Rev. J. K. McLean, and by
the groom and his brother, Arthur
Baldwin, who was best man. The ush-
ers, Alexander Rutherford of New
York, Wallace Alexander, Walter Perry
Johnson and Walter Starr, led. Then
came the bride's sister, Miss Ethel Kit-
tredge, who was maid of honor. The
bride followed leaning on the arm of
her father. She was gowned in white
satin, trimmed with Duchess lace, and
wore a veil that fell to the long train.
She carried a bouquet of Easter lilies
with a shower arrangement of orange
blossoms. Her veil was caught in place
by a diamond sunburst, the gift of the
groom. Miss Ethel Kittredge wore pink
chiffon and carried pink roses. Mrs. E.
K. Kittredge wore a handsome toilet
of black lace in chrysanthemum pattern
over white satin.

The ceremony was followed by the
supper, which was held in a marquee
built on the lawn.

At the first table were Mr. and Mrs.
Frank Baldwin, Miss Ethel Kittredge,
Arthur Baldwin, Miss Bernice Landers,
Robert M. Fitzgerald, Miss Jean Hush,
George Wheaton, Miss Carmen Moore,
Wallace Alexander, Miss Bessie Palmer,
Walter Perry Johnson, Miss Gertrude
Allen, Walter Starr and Mr. and Mrs.
Oscar Gowing. At the second table
were Mr. and Mrs. Irving Lundborg,
Miss Florence Hush, Dr. Roy Belden,
Miss Eleanor Warner, Francis Johnson,
Miss Florence Starr, Edmund Baker,
Miss Mary Barker, Phillip Clay, Miss
Emma Greenwood, Bernard Miller, Miss
Jean Howard and Bryant Grimwood.

METHODIST CONFERENCE.

Admits Equal Lay Representation—Im-
portant Matters Discussed.

CHICAGO, May 2.—The Methodist
Episcopal Conference, by a unanimous
vote, decided today to admit equal lay
representation to all Methodist confer-
ences. The conference this afternoon
voted to admit the provisional dele-
gates.

A determined effort will be made to
raise the ban on dancing, card-playing
and theater-going, and arguments ad-
vanced for the consecration of Bishops
of limited jurisdiction, and the drop-
ping of the time limit on pastors.

RACE HORSES COMING.

Seven Left San Francisco on May 1
For Honolulu.

News arrived by the Australia that
seven running horses had left San
Francisco on the first of May for Hon-
olulu to take part in the June 11 races.
James McAuliffe, one of the most
noted jockeys on the Coast, arrived this
morning for the races.

The need of more stables at the track
is now felt, and the Jockey Club should

hurry up more at once. Ten new ones
will be required before the Coast horses
arrive.

CALL AND INSPECT OUR SAMPLES

THE REPUBLICAN PRIMARY

REGISTRATION TO BEGIN NEXT FRIDAY.

Lists Will Be Kept Open Until Day of Primary Election—Temporary Chairmen of Precincts.

At a meeting of the Republican committee held last night arrangements were completed for opening the rolls for Republican registration on Friday, May 11, and to keep the same open until May 12. On the evening of that day Republicans in the various precincts will meet for the purpose of forming clubs and facilitating enrollment.

The committee on primary organization presented a lengthy report. The first half consisted of a call in which the aims of the Republican party of the islands were outlined, and concluded with the following plan:

Every person intending to act with the Republican party is requested to attend on Friday, May 11, at 7:30 o'clock p. m., at the usual polling place or such other place within the precinct as may be designated by the temporary chairman for the precinct who has been appointed for the purpose of organizing the club.

Upon being called to order each meeting will appoint an enrollment committee, whose duty it shall be to immediately open a roll for signatures to the following declaration:

"The undersigned hereby declare that they are Republicans and that they intend to act with the Republican party."

All persons signing such roll shall thereupon become members of the club, together with such other residents of the precinct as shall thereafter sign it. The meeting will then proceed to elect from among its members a permanent chairman, a secretary and such other officers, and take such further steps as may be necessary to effectuate a permanent organization of the club.

Each club will also appoint judges to preside at the primary election.

It will also be in order to nominate candidates for the election for delegates to the district convention, for which election said primaries are to be held. The enrollment committee shall thereafter cause said roll to be kept open and available for signatures at some convenient place up to the time of the closing of the poll on May 12th.

The poll shall be kept open at each primary from 4 o'clock p. m. to 6 o'clock p. m. of said date, and no person shall be entitled to vote thereat unless he shall have signed the club roll.

Each precinct on the island of Oahu shall be entitled to elect at such primary one delegate to the district convention, except the Second Precinct of the Fourth District, which shall be entitled to elect two such delegates. Each delegate is required to be a member of the precinct for which he is elected.

Each delegate elected shall be entitled to receive a certificate of election from the judges of election for his precinct.

The following temporary chairmen were announced in the Fourth District: First precinct, J. A. McCullough; second precinct, J. A. Gilman; third precinct, A. L. C. Atkinson; fourth precinct, C. L. Crabbe; fifth precinct, T. E. Wall; seventh precinct, left blank for the present.

In the Fifth District the following appointments were announced: First precinct, Frank Pahl; second precinct, George Weight; third precinct, C. P. Hauken; fourth precinct, R. Gilman; fifth precinct, George E. Renton; sixth precinct, Frank Archer; seventh precinct, W. L. Wilcox; eighth precinct, W. C. Archer; ninth precinct, George H. Carter; tenth precinct, J. L. Kaulukou.

PORTO RICO'S GOVERNOR. SAN JUAN, Porto Rico, May 1.—The inauguration of Charles H. Allen, former assistant secretary of the United States navy, as Civil Governor of Porto Rico took place today. The ceremony was most impressive. Governor Allen made his inaugural address.

BIG FIRE IN OTTAWA. OTTAWA, Ontario, April 26.—A fire which has raged here since 11 o'clock in the morning, has burned over five square miles of territory, destroyed 2,000 buildings, rendered 7,000 people homeless, entailed a loss of \$17,000,000, and caused the loss of seven lives.

VICTORIA LEAVES IRELAND. DUBLIN, April 26.—Queen Victoria left Ireland today, sailing from Kingston at 1:15 on the yacht Victoria and Albert, and arrived at Holyhead at 6:30 in the evening. The party will take the train for Windsor tomorrow. Before leaving Ireland she issued through Earl Cadogan an expression of her gratification at the reception she had received from her Irish people.

JAP IMMIGRANTS. WASHINGTON, April 30.—California's Congressional delegation has been for several weeks considering means for checking undesirable Japanese immigration. Representative de Vries has prepared a bill providing for the restriction, if not the exclusion of the incoming hordes of the Mikado's subjects. However, de Vries will await developments before introducing this most important measure. Representatives Loud and Kahn were informed by Secretary of State Hay today that the State Department was not aware of any action being taken by the Government of Japan relative to the restriction of Japanese immigration.

AN ANCIENT BELIEF. The ancients believed that rheumatism was the work of a demon with a man. Any one who has had an attack of acute or inflammatory rheumatism will agree that the infliction is demonic enough to warrant the belief. It has never been claimed that Chamberlain's Pain Balm would cast out demons, but it will cure rheumatism, and hundreds bear testimony to the truth of this statement. One application relieves the pain, and the quick relief which it affords is alone worth many times its cost. For sale by all dealers and druggists. Benson, Smith & Co., general agents, Hawaiian Islands.

BUSINESS MEN'S MEMO. Wednesday, May 9. The seventh assessment of ten per cent, or \$2.00 per share, due May 1st, delinquent May 15th, on the assessable stock of McBryde Sugar Co., Ltd.

Two and one-half per cent assessment on the assessable stock of Olua Sugar Co., Ltd., is due and payable October 1, 1899, and 2 1/2 per cent additional on the first of each succeeding month, including July, 1900.

Sixth assessment of 10 per cent, or \$1.00 per share on the assessable stock of Waiakua Agricultural Co., Ltd., is due and payable April 16, 1900; delinquent May 16, 1900. FOR RED ROUGH HANDS ITCHING BURNING PALMS

FOR PAINFUL FINGER ENDS
One Night Treatment. Soak the hands on retiring in a strong, hot, creamy lather of CUTICURA SOAP. Dry, and anoint freely with CUTICURA, the great skin cure and purest of emollients. Wear, during the night, old, loose kid gloves, with the finger ends cut off and air holes cut in the palms. For red, rough, chapped hands, dry, fissured, itching, feverish palms, with shapeless nails and painful finger ends, this treatment is simply wonderful.

HOW TO CURE TORTURING, DISFIGURING HUMORS. Bathe the affected parts with HOT WATER and CUTICURA SOAP, to remove the crusts and scales, and soften the inflamed, cracked, bleeding, or thickened cuticle. Next apply CUTICURA Ointment, the great skin cure and purest of emollients, to allay itching, irritation, and inflammation, and soothe and heal. Lastly, take a full dose of CUTICURA RESOLVENT, to cool and cleanse the blood, and expel HEMORRHOIDS. This single treatment affords instant relief, permits rest and sleep, and points to a speedy, permanent, and economical cure of the most torturing, disgusting, itching, burning, and scaly skin and scalp humors, rashes, and irritations, with loss of hair, when all other remedies, and even the best physicians fail.

Sold everywhere. Price, The Set, \$1.25; Soap, 25c.; Ointment, 25c.; Resolvent, 50c. (each 25c.). Postage 10c. Cuticura Soap, Boston, U.S.A. British depot, F. NEWBERRY & SONS, London. How to have a perfect skin.
