CONGRESS WILL PROBE FRIAR LAND CHARGES SEVEN INDICTED BY U. S. GRAND JURY

Congress Probe Friar Lands

WASHINGTON, D. C., June 24.—The House of Representatives today adopted the resolution introduced by Congressman Martin providing for a congressional investigation into the sale and disposition of Friar lands by the Philippine Government.

The adoption of the resolution means that a far-reaching investigation, with all of the authority of Congress behind it, will be instituted without delay, based on the charges made by Martin that the representatives of the Sugar Trust and other capitalists were "permitted to secure great tracts of land in the Philippines improperly."

Airship Carries 32

DUSSELDORF, June 24.—Count Zeppelin made a four-hour excursion in his dirigible airship today, carrying thirty-two passengers. The excursion was a success, without the slightest hitch in any part of the airship.

JOHNSON'S MANAGER

FENO, Nev., June 24.—Jack Johnson has declared that Flanagan shall continue to manage his affairs. It had been stated that former manager Little would be reinstated as Johnson's manager, but the big pugilist denies the report.

CHECK FORGER IS ARRESTED

F. L. Woods Charged With Copying Bath's Signature

This morning a young man named F. L. Woods appeared at the Police Court, charged with forgery. The crime was said to have been committed on June 1, and although the accused in person never presented the check to the bank on which it was drawn, he obtained \$40 on it from a saloon man, who kept the check in his safe.

The signature purported to be that of E. R. Bath, the plumber, and the amount of the check was \$278. Woods had worked for Bath for some time past and appeared to be a steady young fellow. It is, however, rumored that he has been mixed up with a sporty bunch of men lately and going the pace a little.

Yesterday the saloon man asked Woods to endorse the check and then later on presented it at the bank, where it was declared to be a forgery. Woods was then arrested and this morning was represented by Attorney Strauss, who asked for a continuance till June 28. Bail was fixed at \$1000 but up till noon today had not been found.

Smuggling seems to be running at a close second as a popular amusement in high society. Washington Times.

Federal Jurors Accuse Seven

Indictments Placed On Secret File—Final Report On Wednesday

Seven indictments were returned by the Federal grand jury this morning at 11:30 and placed on the secret file by request of Foreman Pratt of that body.

In making his report to Judge Robinson, the foreman stated that only a partial report was presented at his time, but that on Wednesday of next week the final report covering the deliberations of the body would be presented to the court.

Nothing startling was contained in the seven indictments already returned, and if any surprises are to be sprung they will be in the batch of indictments which are to be turned into court next week.

It is rumored that there are about twenty more indictments to be returned and the jury has been conducting investigations of witnesses almost daily for the past week.

Warrants were immediately issued for those named in the indictments returned, and Marshal Hendry will have them all apprehended this afternoon if they can be reached in that time.

LAND BOARD VOTES TO AWARD 24 MAKIKI LOTS FOR HOMESTEAD PURPOSES

Problems Of City Lands Are Discussed At Meeting

At the meeting of the Land Board this morning, that body agreed to put up at public auction certain lots in the city of Honolulu, and to homestead others at Makiki Heights by the allotment plan under appraisal rather than by auction.

For auction there are one lot at Iwilei, one at corner of Fort and Ku-

RESIDENTS ASK FOR NEW STREET

Alewa Heights Wants One Between Judd And Wyllie

Forty-five residents of Alewa Heights recently petitioned for a new street between Judd and Wyllie to join Liliha street and Alewa road and a jury has been drawn to look into the matter and report.

Property owners who would be affected by the new street crossing their land are D. Pahu, Mrs. C. Goo Kim, L. L. McCandless, Rooker Estate, S. M. Ballou, Kahape, Territory of Hawaii, S. Andrews and S. G. Wilder Estate.

Of this number Messrs. McCandless, Ballou, Kahape and Andrews have consented to the proposed road over their property.

In the petition it is stated that a street put through on the line indicated would save the residents of the heights half a mile travel in coming to the city, as at present the only way they can get to their homes in wheeled vehicles is by Wyllie street.

The new street would open up a considerable tract of property for residential purposes there being a distance of 2,250 feet between Judd and Wyllie streets now with no street in this distance.

DECLARE AGAINST WOOLLEY'S PLAN

The following resolution has been adopted, showing the sentiment of well-known residents of Maui toward the Woolley propaganda:

We, the undersigned charter members and executive committee of Anti-Prohibition Club No. 1 of Wailuku, Maui, hereby protest against the nefarious practices of the alleged prohibitionists on the island of Maui, and call on all good citizens of Maui to organize anti-prohibition clubs in their districts to combat the evils proposed to be inflicted on us by the aforesaid prohibitionists.

Irrigation Millions Ready

(Special Bulletin Cable.)
WASHINGTON, D. C., June 24.—An agreement has been reached between the conference committee on the irrigation bill, and the sum of \$20,000,000 will be appropriated for irrigation and reclamation work.

The Senate has receded from its session on the exclusive employment of army engineers in the work.

ROYAL SCHOOL CLOSING TODAY

Mayor Lukela Has Praise For Davis And His Kokuas

The Royal School this morning closed its school term with one of the most successful and prosperous years in the history of the school. This excellent result, evidencing the able and good training of their teachers will be recorded in the school diary to be carefully kept in the years to come.

Promptly at 10 o'clock, His Honor Mayor Lukela ascended the platform and after making a few introductory remarks in which he gave a brief account of the school and its affairs, he thanked the teachers for their kindly and persevering qualities which made them (students) what they are today.

The recitations were interesting. The gymnastic drills and fan dances were especially so. When room 12, under Miss Angus appeared on the platform, the pupils were cheered and applauded by the audience. The girls, nearly all of Japanese parentage, gave a dance with the fans.

No Interference, Says Kennedy

Inter-Island President Fought Rate Amendment At Washington

General Manager J. A. Kennedy of the Inter-Island Steam Navigation Company appeared well pleased at the outcome of the attempt made to apply the interstate commerce laws to the business of the steamship company of which he is at the head.

Manager Kennedy arrived by the steamship Sierra this morning after a hasty trip to Washington where he appeared before the various senate and house committees in behalf of the local steamship company.

The defeat of the amendment, or rather the elimination of the clause which had to do with the Inter-Island

THIS EVENING IS THE TIME

Bodies Of Royal Family Will Be Removed To Mausoleum

Eight o'clock this evening is the hour set for the beginning of the removal of the bodies of Royal dead from their recent resting places to the new mausoleum recently made ready for them under the direction of Superintendent of Public Works.

The Princess Kawanakoya returned on the Sierra this morning and it was only upon her arrival that other members of the family were waiting before having this work done.

None but members of the family may touch the caskets of the dead members of the family and the ceremony tonight will be of an impressive nature.

No outsiders will be present and the removal will take several hours during which time many of the ceremonies attendant upon funerals of the royal family in past years have been attended.

As soon as the caskets have been sealed up by workmen, within the next few days the time of the dedication of the mausoleum will be set and these ceremonies conducted publicly.

Senator's \$50,000 Bribe

WASHINGTON, June 24.—United States Senator Gore of Oklahoma created a sensation today, when he publicly announced that he had been offered a bribe of \$50,000 to withdraw his objection in the Senate to the McMurray contracts in connection with the sale of Indian lands in Oklahoma.

The disposition of the Indian lands has been before Congress for some time, and a number of large interests have been attempting to influence legislation favorable to themselves.

IRRIGATION DEADLOCK

WASHINGTON, D. C., June 24.—The committee on the irrigation bill is deadlocked, and the chances for an agreement do not appear to be promising.

SOLDIER DRAWS GUN ON WOMAN

At 6 o'clock yesterday afternoon a call for police was turned into the station, and Captain Baker and two officers went at once to Iwilei, where it was reported that a soldier had threatened to shoot a woman.

Upon arrival at Iwilei, the officers found that the soldier was in custody of another police officer, and that a revolver and "slung shot" had been found in the prisoner's possession.

The story of the woman who lives in the place is that the soldier and a friend went to their house and seeing an old man there tried to get him drunk so that they could rob him. As the old man did not respond to the invitation to go to sleep, the trouble started up, and in it the woman grabbed the soldier, who is alleged to have drawn his revolver and threatened to shoot her.

The whole party was conducted to the police station, where the soldier was charged with carrying a deadly weapon and the woman as a vagrant.

MAKIKI LOTS FOR HOMESTEADS

(Continued from Page 1)
were eligible to be homesteaded. Also that all lots in the city should be advertised a shorter time in the papers here, as they were only for homestead, anyway.

Notice is to be inserted in advertisements that anyone who desires to object to the sale of lots by auction or allotment may do so, and in this way everyone will have an equal chance at them.

The board desires to experiment with the allotment principle and has selected the Makiki lots for this purpose, which will be drawn at the appraisal value by those who put in applications.

In the past when lots for homesteads have been put up at auction they have been bid up to ten times their appraised value by excited contestants who desired them very much.

This plan is bad for the Territory and bad for the homesteader who pays several times the real value of the lot, and if the allotment plan, where everyone has an equal chance in the drawing, is successful, it will do away with this injustice.

The Superintendent of Public Works has a plan whereby a small tract of land can be exchanged with property owners in Kaimuki and the whole crater made a part of the public park which has already been started out there, but this question was not discussed formally at the meeting.

Chairman Carter and Mr. Kinney were absent from the meeting today, and Mr. Brown was appointed chairman of the meeting.

COHEN'S PLAYERS HAVE ARRIVED

Ten principals and a bevy of pretty chorus girls, members of the Casino Musical Comedy Company, who are under contract to Joseph Cohen of the New Orpheum, arrived this morning on the S. S. Sierra. The company is headed by Miss Maud Rock, well, a prima donna of musical comedy fame, whose wonderful voice and pretty face have won for her a place in the front ranks of the profession. Besides Miss Rockwell there are four other stars, all of whom are well known throughout the States.

The new company is under the direction of Frank B. Blair, who for years occupied the important position of producer at the Casino, New York. Harry Stewart, Harris McGuire, Harry Garrity, Frank Blair, Maud Rockwell, Ethel Cannfield, Volma Steek, Beth Lang, Mary Atwood, Ethel Haines, Rita Abbott, Evelyn Shaw, Gladys Clifton, Hazel Hall, Maud Nipert and Edith Cathcart.

OVER FOUR thousand tons of coal consigned to the United States naval station has arrived at the port by the Norwegian freighter Torvald. This vessel was seventy days in making the passage from Baltimore where the shipment of coal was taken aboard. The Torvald met with some very nasty weather in rounding South America. For two days gales and heavy seas kept the steamer back, the green water sweeping her decks as she neared the Straits of Magellan. The vessel will commence to discharge coal at the naval bunkers. When the work is completed the steamer may be sent to Australia for further orders.

UNDER A TIME charter of £800 a month, the British steamship Riverdale was to arrive at Portland early in June to load lumber for North China. She is from the Philippines, where she recently arrived from Newcastle, N. S. W., with a cargo of coal. The steamer is of 2752 tons net register and will take out about 3,500,000 feet of Oregon fir. She is in command of Captain Hay.

THE PACIFIC Mail liner Manchuria from Hongkong via Japan ports is due to arrive off the port at about nine o'clock tomorrow morning. The vessel will leave fifteen hundred tons of oriental cargo. The vessel is expected to sail for San Francisco at five o'clock the same evening.

BEFORE SAILING for Kona and Kau ports at noon today the Inter-island steamer Mauna Loa underwent some minor repairs. The steamer carried an unusually large list of cabin and stowage passengers.

TWO HUNDRED backs of later mail arrived at the port this morning by the Oceanic steamship Sierra. The vessel brought considerable express matter.

This afternoon at about one o'clock a small boy named Maka was knocked down by a motorcycle on Queen street. The lad was not hurt much and as it was his own fault that he was hit, no proceedings were taken in the case.

ROYAL SCHOOL CLOSING TODAY

(Continued from Page 1.)
Another interesting feature of the program was the doll drill by "little nurses."

Board of Supervisors.
Aside from principal J. C. Davis, the school management is under the School Board of Supervisors. There are six members of the board, which consist of Miss Thomas, Miss Kamana, Miss Daniel, Mr. Teshima, Mr. Pereira and Mr. Kahn.

Prize for Davis.
The parents of the students of the Royal School who attended the exercises this morning said that they were glad that their children obtained their education under the tutelage of principal Davis. They also had words of praise for the other members of faculty.

The teachers' names under principal Davis are: Mrs. Brown, Mrs. MacCallum, Miss Ladd, Miss Lyett, Miss Angus, Miss Bindt, Miss Douglas, Miss Browning, Miss Grace, Miss McLain, Miss Pihel, Miss Robertson, Miss Morrison, Miss Goo Kim, Miss Tanager, Miss Whitman and Miss Paxton. Some of the graduates will enter the Normal, while the rest will go out in the world to make their marks. The Royal School closed its work with success and prosperity.

WATERFRONT NOTES

HANS BENSON and John Larson, two San Pedro fishermen, are held by the Mexican authorities at Ensenada under suspicion of being responsible for the death of Peter Hanson. News of their being held in a Mexican prison was brought to San Pedro by Captain J. E. Swensen, master of the sloop Yankee Boy. While working in a small boat off Santo Tomas with Benson and Larson, Hanson was drowned. The body was buried on the shore and no suspicion of foul play was attached to the two men under arrest by the other members of the crew. A few days later, however, the Mexican authorities became suspicious and Benson and Larson were taken into custody pending an investigation.

THE BIG NEW United States naval collier Prometheus which recently arrived on the Pacific coast has been designated to come to Honolulu and tow the disabled cruiser Chattanooga to Puget Sound navy yard. The vessel is scheduled to go out of commission upon arrival there. The Cleveland and the Chattanooga are taking on coal and supplies preparatory to getting away. The Cleveland will go out of commission at Mare Island. The Prometheus is said to be well adapted for the work of towing the cruiser to Puget Sound. At any rate the feat can much better be accomplished by the collier than were it attempted by the cruiser Cleveland, is the opinion of local naval officials.

CAPTAIN George Piltz will assume command of the bark Alden Besse when that vessel sails for San Pedro, Southern California, the last of next week. Captain Piltz will remain ashore, as he has business interests here that will prevent his making the trip across the Pacific. Captain Piltz is an old South Sea trader. For twenty years he operated vessels in and among the islands of the Southern Seas and at one time in his career he was rated as very wealthy. Captain Piltz of the Inter-island service is a son. The Alden Besse is expected will take a good sized cargo to the mainland including a shipment of pineapples, rice and scrap iron.

THE STEAMERS Lyra and Pleiades, of the Boston Towboat Company, the latter running under charter to the American-Hawaiian Company between the Coast and the Hawaiian Islands, are on the market, according to the annual report of the company. The Boston Towboat Company recently disposed of the steamer Hyades to the Matson Navigation Company for \$225,000. It is reported that several inquiries have been received, which may soon lead to the Lyra and Pleiades changing hands.

OFF TO A missionary gathering to be held at Kailua, some seventy passengers will sail for the Hawaii port at three o'clock this afternoon. The occasion is the celebration of the 90th anniversary of the landing of the first missionaries in the Islands. The party will include delegates from all over the group.

ACCORDING TO advices received at the local agency of the American-Hawaiian line the freighter Arizona sailed from Salina Cruz for San Diego, San Francisco, Seattle and Honolulu yesterday. This vessel is bringing New York cargo via Tehuantepec.

IN INTER-ISLAND steamship circles the steamer Cascade is hereafter known as the Walpole. The vessel has been renamed, authority to change her name having been received from Washington.

THE ARRIVAL of the bark S. C. Allen at Fort Bragg is reported through the Merchants Exchange. The vessel sailed from Port Allen some weeks ago.

THE SAILING SHIP Alexander Gibson will leave Puget Sound this summer for her last passage around the Horn. For two years she has been idle at San Francisco, but is now engaged to carry lumber and heavy timbers from Tacoma to New York, where she will be sold and converted into a barge. The Pacific National Lumber Company is the charterer.

THE NORTH German Lloyd liner Main arrived at Philadelphia recently with the largest number of passengers brought by any vessel during the history of the port. She carried 2300 steerage and 50 cabin passengers.

ONE YEAR FOR BAD CONDUCT

E. E. Lane, who was charged with assault on a girl of tender years, appeared in the District Court this morning and, on the charge being reduced to one of lewd conduct, pleaded guilty and was sentenced to one year's jail.

It is believed that the matter has not ended here, however, and that the case may go before the grand jury. Lorrin Andrews appeared in court this morning, and wished to prosecute, on behalf of the parents of the child, on the original charge, but Deputy County Attorney Milverton decided to reduce the charge and prosecute on the lighter one. In Milverton's opinion it would have been extremely hard to obtain a conviction on the charge first laid against the defendant.

Attorney Straus appeared for the accused, but as Lane pleaded guilty, there was no evidence brought forward in the case.

STOCKS SHOW BETTER MOVEMENT

Pronounced activity did not enter into the transactions on the Stock Exchange this morning, although there was a far healthier showing of movements of stocks than at any session so far this week.

A small block of five shares of H. C. & S. changed hands at 40. This is a slight topping from the quotations earlier in the week. On Tuesday this stock was held at 39 7/8.

McBryde and Olan, both at season sales and between boards, are frequently on the move in small blocks, but with little fluctuation in the price. Sixty-two shares of McBryde moved over at season sales this morning at 5.625, the same price prevailing on 200 shares between boards.

Olan is holding at a fairly even figure, 5.125, and with only thirty shares coming out at that figure. Fifty Oahu Sugar Co. changed hands between boards, with no up or down tendency, and five Honokaa went at 19 at season sales, a slight rise over asked at opening of week.

HALF HUNDRED TOURISTS COME

(Continued from Page 1)

he been so inclined through necessity.

"There was fine weather all the way down," was the cheery comment from Purser "Tom" Smith as he greeted the customs officers and newspaper men this morning. Purser Smith is never so much in his right element as when he officiates as the custodian of a ship full of people. He is ever active in looking to the care of his charges. If any one ever leaves the Sierra, tugging off an over-ripe grouch, after having first met Smith, then his or her particular case is hopeless.

Ten steerage passengers arrived by the vessel. There is but one important change in the official staff of the liner. E. J. Burke now presides over the wireless telegraph instruments in place of J. H. Sellers, resigned. Burke only arrived at San Francisco by the Mariposa three hours before the time set for the departure of the Sierra. He made a hasty transfer of his effects from the other vessel. He did not have time to get acquainted with the great Paris of America after his long sojourn in Tahiti.

Included in the 1619 tons of general cargo are two automobiles. The machines are owned by parties who are making a visit to the islands.

The musical comedy company that comes here under the auspices of Manager Joe Cohen gave a concert on last Thursday evening. Their efforts toward adding to the entertainment of the passengers met with merited appreciation.

General George Uhler, United States Inspector General of marine vessels, arrived from Washington. General Uhler made but a very short stay in San Francisco, the time between the arrival of his train from the east and the departure of the Sierra being but a few hours. He comes here on an official visit and will remain over for a brief season only. General Uhler was formerly national president of the Marine Engineers' Association of the United States.

F. B. Blair is a theatrical man from the coast and he is in charge of twenty-one musical comedy people who open at Joel Cohen's new play house. The company is pronounced a well-balanced one and the artists have been selected with unusual care by Mr. Cohen while on his recent visit to San Francisco.

E. S. C. Crabbe, Mrs. Crabbe and two children were met at the wharf by Senator Clarence Crabbe. "Ned" Crabbe has been away on the coast for the past five years. He is a son of the Senator, who now glories in the fact that he is a grand-daddy.

Charles G. Bockus is back from one of his regular business trips to the mainland. He reports all sorts of excitement on the coast over the outcome of the fight controversy.

William Heilbron was numbered among the returning passengers by the Sierra.

The arrival of Princess David Kawanakawa and her suite was the occasion of a considerable outpouring of society people at the wharf. Colonel Sam Parker, John F. Colburn and Territorial Treasurer D. Lloyd Conkling were among the delegation that boarded the custom launch at an early hour this morning and extended a greeting to the Princess before the vessel reached the wharf. The boarding party were well supplied with leis. The Princess arrives here in time to participate in the removal of the royal dead, which solemn ceremony takes place this evening.

J. A. McCandless, Mrs. McCandless, J. C. McCandless and James S. McCandless were enrolled among the passengers arriving by the Sierra.

J. A. Kennedy, president and general manager of the Inter-Island Steam Navigation Company, expressed himself as feeling much improved in health as a result of his trip to the mainland. While in the States Mr. Kennedy went to Washington and

LAUPAHOEHOE IS FIRST TO LOSE

Four hundred acres of land in the center of Laupahoehoe plantation have been surrendered to the government as application has been made for homesteading this part of the plantation.

The strip comprised in this tract asked for homestead extends from the beach to the forest line and practically cuts the plantation in two.

This land was asked for some time ago and it is a part of the plantation released in 1908 under a lease to run until 1923.

Laupahoehoe plantation is the first one to lose any portion of its lands under the provisions of the Organic Act, but it is expected that many others will have to give up portions of their holdings to homesteaders in the near future.

Under the interpretation of the Land Board of the provisions of the amended act any plantation has to give up tracts of land which are applied for by homesteaders, and as soon as those who are eligible to take homesteads realize this the best lands in the Territory will probably be taken up in this manner.

In a recent case at the London Sessions it was stated that a convict, who had served a number of periods of imprisonment, sent out billheads on which was printed "Fifteen years' government work." Altogether he had been in prison fourteen years and two months.

Disabled teachers in Munich receive pensions of 75 per cent. of their salaries, and a schoolmaster's wife who loses her husband gets three-fifths of his salary, with an allowance for every child under twenty.

succeeded in defeating the project of placing the inter-island steamship service of Hawaii under the jurisdiction of the Interstate Commerce Commission.

F. G. Bolton is a member of British Parliament and represents New Zealand. He is returning from Great Britain, where he has spent several months. Mr. Bolton will avail the Canadian-Australian liner Maruka, due to arrive here tomorrow from Vancouver. This vessel is expected will sail for Australian ports this evening of the same day.

W. D. Alexander is a son of Professor Alexander of this city. He has met with considerable success in his extensive mining operations in Arizona and New Mexico. He comes here on a brief visit.

Judge C. A. Sturtevant and Mrs. Sturtevant expect to spend several weeks in the islands. Judge Sturtevant is connected with the Supreme Bench of California and has made his home at San Francisco.

Paul D. Scheeline is a well known San Francisco stock and bond broker. He is here on a business mission.

Francis B. Smith, constructing engineer for the United States government at Pearl Harbor has returned from a consultation with the engineering chiefs on the mainland regarding the proposed change of plans at the Hawaiian naval base.

Nearly fifty passengers who arrived by the vessel are said to be tourists who expect to remain in the islands for periods ranging from ten days to several months.

E. M. Cheatham, manager of Ehlers & Co., is back from a business trip to the coast.

Otto Wix, the famous artist who painted a series of pictures on Hawaii, has been visiting in Mexico. He arrived by the Sierra this morning.

FRIDAY JUNE 24, 1910

A man must train himself for his opportunity; for a great occasion is worth to a man exactly what his antecedents have enabled him to make of it.—Matthews.

It seems that the ranks of Woolley's "guerrillas of evil and timidity" are inclusive of some names better known to the American people than that of the prohibition agent from Chicago.

Mr. Kennedy's statement in today's Bulletin explaining the fate of the Inter-Island traffic amendment before Congress, will be read with interest. The results show that his trip to the national capital was a good strategic move.

Agent Woolley has stated that "we will have to shoot them in the back as they run"—his fleeing targets being those opposed to his propaganda. That is about the only way he can stop the people of Hawaii from running to the polls on July 26th and casting their ballots against prohibition hypocrisy and Woolleyism.

PROHIBITION REPUDIATED AFTER FAIR TRIAL

With a characteristic disregard for self-evident facts the Morning Mother of Blind Pigs states that "prohibition is a 'growing force,' and observes that "Hawaii might as well get into line now as later."

The followers of Woolley will no doubt contend that prohibition is a "growing force" in the state of Alabama, which has endured a prohibition law for several years and has now repudiated the principle and with it the once popular governor of the State, Cromer, who has gone down to decisive defeat on a clear-cut issue of prohibition and local option. The voters discovered that the prohibition foisted upon them by the "rum and ruin" agitators was against the best interests of the State and of the people. They cast it aside and with it the Governor who was elected upon a platform of prohibition.

The prohibitionists will no doubt contend that prohibition is a "growing force" in the State of Illinois, where the recent option election resulted in overwhelming losses for the supporters of the "Anti-Saloon Leagues."

If prohibition is a "growing force" it is "growing" toward a period of enlightenment, when even the prohibitionist will be able to discern the essential falseness of his position and the hypocrisy of prohibition legislation.

After a clear trial of a prohibitory law the State of Alabama—with the most pronounced local conditions of the negro problem that have secured supporters for prohibition in several southern States—has repudiated the principle absolutely.

Prohibition is surely a growing force toward proving the utter failure and falseness of prohibitory legislation.

FALSITY IS SHOWN.

When at a loss for a pretense of argument in favor of prohibition Thurston's prohibitionist organ endeavors to color its police news to make it appear that every crime on the day's calendar is directly attributable to liquor.

In referring to this phase of the question, which Thurston's paper is now endeavoring to include in the local issue, Rev. Minot J. Savage says:

"I believe that the common talk that traces all crime or nearly all, to drink is false and misleading. Is there no crime in Mohammedan lands? Is Spain above the moral level of the rest of Europe. And yet it is almost a model land in the matter of temperance. A little more drunkenness, a little less of the moral temperance that makes the bull fight a national pastime, might even improve them. Scotland is many times more drunken than Spain, but which are the better people?"

FOR CLEAN STREETS.

The broom will soon be a relic of the past as a utensil for cleaning the house floors. Cleaning the house by the vacuum process has arrived at such a state of perfection that there is no question of its doing the work in a more thorough manner by digging deeper than a broom, but it retains the refuse and dust instead of scattering them about the house to settle again.

Vienna is the first municipality to our knowledge to use the vacuum process in cleaning the city streets, and the experiment has proved to be far ahead of anything in the way of the old-fashioned street sweeping system.

With the old method, such as is used here in Honolulu, much of the sweepings are simply scattered about, and what does not settle down on the streets, finds its way into the stores and offices.

A certain amount of the sweepings is taken up by the hand sweepers after the machine has piled up the heavier part of the top dirt and scattered the lighter material to the four winds, loaded with microbes and a mass of discomfort.

With the vacuum process there is no scattering, no spreading of microbes or dust. The refuse goes into the machine and that is the last of it. The proper dumping place is reached.

The vacuum process is a success. Why not try it here?

CURTIS AIR KING.

Up to the present moment, Glen Curtiss is surely king of the air. Although Paulhan's last flight was some forty miles farther in the reach, still, the dash made by Curtiss down the Hudson, the difficulties he overcame and the conditions he encountered when placed beside those that marked the flight of Paulhan, places the latter in second place in aerial navigation.

Although he won great victories at Rheims, Curtiss has been in what might be termed the second class as regards cross-country air maneuvers with heavier-than-air machines. Bleriot, Paulhan, and De Lesseps were air kings in a class by themselves until Curtiss made that wonderful flight from Albany to New York.

To Americans this latest scout by Curtiss holds exceptional interest. A hundred years ago the little steam, or Clermont threaded her way up this same stream that acted as a guide to the man-bird, in his flying dash that established a through-the-air record by an American.

Another feature of this wonderful flight is that Curtiss landed on the very spot where, just a year ago, he was almost weeping as he defended himself against the bitter comment that was hurled at him on his abilities and his motives.

HALF-ACRE HOMESTEADS.

The call of the small farm has struck the Massachusetts Legislature. Its first expression finds utterance in the provisions of the Mellin Homestead bill that has been characterized as the most paternalistic measure ever put forth in the commonwealth.

What might give Hawaii special interest in the bill is its presentation of half-acre lots for homesteads. This makes our local schemes of eighty-acre homesteads and two and five-acre homesteads appear liberal indeed.

The terms of the bill that "passed to engrossment" in the Massachusetts House of Representatives are explained by its author as follows: "There will be a homestead commission, a director of the bureau of statistics, the head of the State Agricultural Bureau, a member of the State Board of Health and four others, one a woman and another a labor representative."

"The State will issue bonds, \$100,000 worth. When \$50,000 of them are sold then the commission can buy the first land. Then they would divide it up into half-acre lots, find the ac-

tual cost per lot and add to this five per cent, for the price at which to sell. This five per cent. would pay for laying out the streets and other details.

"When the second \$50,000 of bonds has been sold then they would begin to erect houses on the half acre lots. Meantime those who want to own homes begin to buy the \$5 and \$10 bonds. When a man had \$100 in bonds he can buy one of the houses and lots and pay \$15 a month for it. The bonds he owns will count in the payment.

"They cry paternalism and socialism against this bill, but it will let a man own his own home and get it easily. The State is paternalistic now and the quicker we realize it the better. Our schools are paternalistic, our sewers, our streets, the whole thing.

"This measure embodies more of real good to the honest, saving work-

er, I think, than any ever proposed in Massachusetts. I believe if enacted into a law it will justify itself here. And if it does it will not be many years before such a law will exist in every State in the Union."

CASES CONTINUED

All cases brought in the Federal Court this morning for plea were continued until August 29 when they will be set for trial.

The cases continued included those of three Russians charged with trespassing on the quarantine reservation to which charge they pleaded not guilty, and Phoney Davis with three counts on one indictment charging adultery to which he entered a plea of not guilty.

Davis was represented in court by Attorney Strauss but the Russians had no counsel.

THE OIL BOOK

An Authority
On California Oil

Sent Free
Upon
Request

A weekly publication devoted to the oil industry and the inter-
ests of those who have invested in oil stocks or who are thinking
of investing.

The many thousands of investors who live in California or ad-
jacent States, and are thus more closely in touch with the great oil
industry of California, have long been aware of the opportunities
for profitable investment offered in the shares of California oil com-
panies—have taken advantage of the opportunities and made large
sums of money thereby—are constantly increasing their holdings
and adding to their profits.

There are thousands of other investors who would gladly avail
themselves of the opportunities for such profitable investment if
they knew of them. The Oil Book is particularly valuable to these
seekers for safe and profitable investment because it deals with the
oil industry; tells what is going on; gives information that enables
one to select the right kind of investment; shows how extremely
profitable investments have been made and can be made.

While enormous profits have been made in the past by those
who were far-sighted enough to realize the growing importance of
California's greatest and most profitable industry, it must not be
thought that such opportunities no longer exist. The fact is that
the industry is really only at the beginning of a wonderful growth.

Greater sums of money are being invested in it than ever before.
Millions upon millions of English capital have recently been in-
vested in the California oil fields and millions more are seeking
investment. There is an old saying that "a prophet is without honor
in his own country." This is true of the California oil industry.
We do not realize how great it is—how profitable it is. But others
do, and that is why the millions are pouring in from abroad to share
in the profits from it, and other millions coming from all parts of
this country to aid in its greater development.

Read The Oil Book; it tells all about these matters. Comes to
you weekly—full of the news that you should know—tells you of
the opportunities—contains items of news about scores of com-
panies each week—what they are doing and the progress being
made. It also contains special articles by recognized authorities on
oil matters. It is handsome, illustrated. Neither pains nor ex-
pense is spared to make it of interest and value to every one. Fill
out the coupon and send for it today.

A GLIMPSE OF STAGELAND

"Behind The Scenes" At Opera House On Saturday

A glimpse behind the scenes will be accorded every visitor at the Royal Hawaiian Opera House on Saturday when the popular McRae Stock Company make their farewell appearance in the presentation of "Dorothy Vernon of Haddon Hall," a sister play to "When Knighthood Was in Flower."

There are very few persons outside of the profession who possess an adequate conception of the vast amount of executive ability, coupled with real hard work, that is necessary to stage a production such as the McRae have been putting on the local stage for the delectation of Honolulu playgoers.

Mr. Henry McRae announces that at the conclusion of the first act, the curtain will be raised upon a bare stage.

Then will follow the rapid shifting of scenery, the lowering of drops, the setting of "backs" and "sides."

The spectator will be initiated into all the little matters that go to make up the setting of a stage for the proper presentation of an act.

They may be spared the somewhat crusty and at times highly spiced comment from the stage manager when he employs language more forcible than polite in his endeavor to speed the lagging stage hand, but none of the spice and dash that attends a visit behind the scenes of any well regulated theater will be lacking.

Those who witness the presentation of "Dorothy Vernon of Haddon Hall" will also note the rapidity with which stage furniture and "props" are hustled to their places and thereby complete the picture to be set before the audience.

The master hand of the stage director will be seen in every movement.

The McRaes will sail for San Francisco by the first available transportation to the coast. They go to San Francisco to open for a season at the Savoy. There will doubtless be a bumper house to speed the McRaes a rousing farewell.

KENNEDY ON TRAFFIC RATES

(Continued from Page 1)
nedy intimated that in his opinion the matter of bringing the steamship under the inter-state commerce law was a dead issue for a long time to come. He believes that Congress not only defeated the proposition but took a decided stand in favor of the steamship company by the adoption of a declaration against never placing water transportation under the control of the inter-state commerce commission.

"The railway rate bill has become a law," stated Mr. Kennedy, "but it will not effect us in the least. I was on the ground practically all the time that it was under consideration. The bill went to conference with the house copy containing the clause applying the inter-state rules and regulations to water transportation in the Hawaiian Islands. The senate copy of the bill contained a clause calling for the prohibition of the application of inter-state commerce regulations to water transportation everywhere under the jurisdiction of the Federal government."

Mr. Kennedy learned that a wonderful assortment of misinformation had gone on to Washington in regard to the management and operation of the inter-island steamship service in the Hawaiian Islands.

"That was a part of my mission to the national seat of government," stated Mr. Kennedy. "The statement had been made before the Congressional committee that the passenger rates exceed 12 cents per mile. This is absolutely false and only goes to show the method being adopted by those who are endeavoring to have the inter-state commerce law applied to water transportation here. Instead of the passenger rates being 12 cents per mile, they are just about half that rate or within a fraction of 6 cents per mile, and in many instances lower than that, as anyone can figure out for himself if he will take the trouble to do so. These rates apply to first-class passengers, and one fact which seems to have been overlooked, is that meals and berths are included in these rates, whereas on railroads no meals or berths are furnished first class passengers, and an extra charge is always made for same."

Mr. Kennedy has continued all along that there is every reason why the inter-state commerce law should not be applied to water transportation anywhere and the people and government of the United States have always been careful to see and to recognize a clear distinction between railroad and water transportation.

In the first place it should be remembered that although the inter-state commerce law has been in operation as to railroads for a great number of years, it has never before been applied to water transportation, except where connection is made with railroads and a through rate of freight established. Congress has recognized this distinction for the past twenty-two years.

Manager Kennedy found that the contention of the mainland railway managers was to the effect that the inter-island business here is practically that of a local railroad company. They believed if the company had not been placed under the inter-state commerce laws, and made to publish its rates and submit to the conditions of those laws, the railroad company would be found entering the steamship business itself to insure rates to its overland shippers beyond their local and terminal ports.

The railroad company's attitude in the matter is said to be due to an opinion that the inter-island rates are too high, and that the proposed Federal regulation would cause reductions to the benefit of settlers, "small farmers," etc.

I did nothing while away towards the increase of the service between island ports. We may take up the matter of ordering a new passenger steamer at another time. My trip to Washington was purely a business one, and I am satisfied at the way the matter terminated.

Mr. Kennedy declares that he has regained his health while away. He left here from a sick bed and the trip has proved very beneficial.

Some people have as much faith in weather reports as they have in patent-medicine testimonials.

FOR MEN WHO ARE HARDEST TO PLEASE

ADLER-ROCHESTERS are not for men who find ordinary clothes "good enough." They are made for those who demand all that is possible in fit—the best in style, materials and workmanship. And since 1869 they have never disappointed. Today they're worn by the fastidious men of six nations.

Every garment in our stock gives ample proof of these facts.

ADLER-ROCHESTER CLOTHES

You'll find among them this season's most fashionable shades—grays, blues and browns—in the finest fabrics, the handsomest patterns. A trip through the new Adler-Rochester plant—America's finest tailoring institution, where 1611 windows give light and air; where vacuum cleaners operate and the air is changed every eight minutes; where the artisans employed work amid home comforts—would make you forever a convert to Adler-Rochester clothes.

The trip may be impossible, but you can see the RESULTS of these ideal conditions in our store: Pay us a visit today.

FINE RACES ON SUNDAY NEXT

FIFTY ENTRIES FOR FOUR BICYCLE RACES

Winners of Ten and Fifteen Mile Races Will Compete in Championship Three Miles Event—First Race at Half-past Eight.

On Sunday next at Kapiolani Park the much-talked-of bicycle race meeting will take place, and judging from the number of entries received for the four events, the meet will be a very successful one. No less than fifty cyclists of all nationalities have entered for the races, and some of the best riders in town will compete.

The cyclists of the city are worked up over the meeting, and for some weeks past a big bunch of riders could be seen at the park doing training stunts. The majority of the men are in excellent condition, and there should be some fine sprinting done during the progress of the long-distance races.

Japanese merchants of the city have certainly made good over the proposition, and the way they have come through with prizes that are well worth winning is a credit to them. Fine bicycles are provided as prizes, and the fortunate winner will be very proud of their tokens of victory.

Besides the four races for which entries have already closed, there will be a championship event open to the winners of the ten and fifteen-mile races, which will be run early in the day. This three-mile race should prove to be a splendid one, as the cream of the riders will take part in it. By winning out in the ten and fifteen-mile races, the cyclists will have proved their speed and endurance, and when they meet in the three-mile event, a race well worth going miles to see should eventuate.

The first race will start at half-past eight o'clock on Sunday morning, and by that time a bunch of sports should be out enjoying the fresh breezes at the park instead of snoozing away between the blankets. The list of officials and entries for the different events follow:

Judges—W. T. Rawlins, W. W. Harris, K. Yasumori, Ed. Townsend.
Starters—A. Q. Marcellino, K. Sada-yasu.

Announcers—John Anderson, T. Onodera.

NEW SCHEDULE IS ARRANGED

GOOD DEAL OF SQUABBLING EXISTS AMONG THE TEAMS

Cavalry and Guards to Play Two Games on Sunday—Hawaiian Band at League Grounds Tomorrow.

At the meeting of the military league executive yesterday, a lot of dirty linen was washed and much said about the different rows that have occurred during games at Leliehua and elsewhere. The principal trouble seemed to have been between the N. G. H. and the Cavalry, and some of the remarks passed out by the Fighting Fifth men appear to have been fairly hot. An umpire that the Guards took to Leliehua with them was not much admired by the Cavalry, and from all accounts there were squabbles over the decisions.

The Guards were also to blame, according to the evidence of some of the Cavalry officers, and, taking things generally, there has been some nasty work going on between the teams.

After the "washing" was over, the question of a new schedule was taken up, and after much discussion an amended one was adopted. Under the new arrangement, on Sunday next the Guards will play two games at Leliehua.

The Cavalry at Leliehua always turn out to meet the train when the town teams go out there to play, and the expense money is always ready for the lads who make the train trip. The Fifth take their opponents to their mess room and entertain the bunch well. On the other hand, the Fifth say that when they come to town no one meets them, and if any of the boys happen to be broke there is a good chance of their going hungry, as no one except the Marines have ever done them a good turn in the way of entertaining.

However, all the plikla seems to be over, and the series may go on now serenely to the end. Tomorrow afternoon the games at the league grounds will be: Marines vs. Port Shafter; Port Shafter vs. Hospital Co. On Sunday the N. G. H. will go down to Leliehua and play two games against the Cavalry.

The Hawaiian band will be at the league grounds tomorrow, and Captain Bergey will have a special program that will make the players feel good. The Marines have had a winning streak lately, and the Shafter will have to look to their laurels tomorrow. The standing of the teams in the military league is as follows:

	G.	W.	L.	Pct.
Cavalry	10	7	2	.769
Marines	12	7	3	.616
Hospital Corps	9	5	6	.555
N. G. Hawaii	11	6	5	.445
Port Shafter	12	4	8	.333
Port Ruger	10	8	7	.399

The military league teams want to play a series of games against the Wasedas, but it is doubtful if the same can be arranged. However, some arrangement may be come to about gate receipts, and then the games may be played.

GOV. GILLET TALKS OF JEFFRIES-JOHNSON AFFAIR

Considered It His Duty to Stop Fight—Would Arrest Everybody Connected With Show.

SACRAMENTO, June 15.—"I consider it my duty as Governor to stop the fight, and that is all I will say to supplement my letter to Attorney-General Webb," said Governor Gillett at the Capitol concerning his orders to have the Jeffries-Johnson fight stopped. "I have carefully gone over the situation and acted according to what I believed to be right and no more than my duty."

The Governor states that he has been led into many controversies already by being misquoted in newspapers from one end of the country to the other on the fight situation, and will not say anything more than is necessary in an official way. He adds that he has disposed of the matter now to Attorney-General Webb, and that ends it so far as he is concerned. His views on the fight and circumstances causing him to order it stopped and his reason for doing so at this date would not be divulged.

"It is just as I say in my letter," he declared. "If injunctions don't work I want the law enforced by having principals, promoters, seconds and everybody connected with the fight arrested. Prize fighting is a felony and this fight from all I can learn is nothing else than one. It is not a sparring exhibition as allowed by law. The very advertisements proclaim it to be a prize fight. My letter defines the situation thoroughly, and that is all I have to say."

WASEDAS TO BE MET BY BIG COMMITTEE

All Arrangements Complete for July 1—Japanese Plan Great Reception for 'Varsity Men.

When the Wasedas reach Honolulu on July 1 they will get a great reception from the ball players and everyone else in Hawaii. Mayor Fern will be on hand at the head of the reception committee, and the Japanese 'varsity men will be welcomed in great style.

The Wasedas will be taken all over the city and then to the Auma Club, which will be their headquarters while they are in Honolulu. The team will play its first game on Hawaiian soil on Sunday, July 3, and the opposing nine will be an All-Oahu league one. Then on the Fourth the Wasedas will meet the Chinese Athletics, and a great game should be played.

On the evening of July Fourth a reception will be held at the Auma Club, and a big turn-out of all the ball players and their friends is expected. The local Japanese are going to make the visit of the Wasedas a memorable one, and as long as the Nipponese are in Honolulu there will be one round of baseball and sports going on in their honor. The reception committee will be as follows: Mayor Fern, W. W. Harris, Mr. Onodera, representing the Japanese press; Yasumori, Townsend, Sada-yasu, Kawamura, Lau Taz, Captain Ramsey of the Marines, M. Paresa and Maruyama.

ILL HEALTH CAME WITH EACH SPRING TIME

THIS OREGON WOMAN'S SUFFER-
ING CAUSED BY THIN BLOOD.Under Tonic Treatment Her Appetite
Was Restored and Every Symptom
of Her Trouble Disappeared as
Her Blood Was Built Up.

Weak, pale, nervous, ambitious people have their "most trying time" in the spring and early summer when the effect of the shift-up, inactive life of the past winter shows itself. To be strong, active, energetic, hungry may seem impossible to the sufferer with thin, sluggish blood but it is not as the following case shows:

Mrs. L. H. Lischer, whose husband is a grocer, of Dayton, Ore., has found Dr. Williams' Pink Pills to have so much merit that she gives them hearty praise. She says:

"About fifteen years ago my blood became thin and I was generally run down owing to weakness common to my sex. My heart bothered me, my stomach was weak and I had no appetite. I was subject to dizziness and headaches and felt tired and without ambition. I was nervous and could not sleep well. This was my condition every spring as the confinement indoors during the winter seemed to impoverish my blood.

"The doctors said that I needed something to build me up but they never seemed to help me. It was not until I tried Dr. Williams' Pink Pills that I found a medicine adapted to my case. The pills helped me in a few days. My appetite picked up and I grew stronger. By the time I had taken six boxes my blood was in good condition and I was cured.

"I take Dr. Williams' Pink Pills every spring and am in good health as a result. I have taken the pills after childbirth and I have found nothing better to strengthen me. They are good for the nursing mother and child. I can hardly find words to express my gratitude for being restored to good health."

Our valuable booklet, "Plain Talks to Women," will be sent free to any suffering woman upon request.

Dr. Williams' Pink Pills are highly recommended for anemia, chlorosis, delayed development, after-effects of childbirth and leucorrhoea.

Dr. Williams' Pink Pills are sold by all druggists, or will be sent, postpaid, on receipt of price, 50 cents per box; six boxes for \$2.50, by the Dr. Williams' Medicine Company, Schenectady, N. Y.

MEETING OF COMMITTEE HELD

Bush Elected Chairman of Promotion
Committee. Succeeding Mc-
Lean—Routine Business Taken
Up.

At the meeting of the Promotion Committee yesterday afternoon G. F. Bush was elected chairman to succeed J. J. McLean, who resigned last week on account of going to the mainland for a trip of several months.

He has been a member of the committee for the past three years and is one of the most enthusiastic workers of the committee.

The matter of electing a new member to the committee was held over until the next meeting when W. H. McInerney is to advise the committee if he can accept a position upon it. Press of other affairs both business and social, were given yesterday as the reason that he could not accept, but he has the matter under consideration.

Other matters taken up by the committee at yesterday's meeting were reports from Secretary Wood and Mrs. Headlee, the entertainment of delegates from National Editorial Association and the report that automobile drivers were working against Haliwa hotel.

This last matter was brought to the attention of the committee by a San Francisco business man who recently went around the island by automobile and who was told to take luncheon as there was no way of getting it on the road.

The committee is going to investigate this matter for it was probably some disgruntled driver who had a grudge against the hotel management for some real or fancied grievance.

Should this be the case then that driver is apt to find that knocking doesn't pay in Honolulu from one who depends upon the tourist public for a livelihood.

EAST LAS VEGAS, N. M., June 4.—A serious Indian outbreak has occurred at the ancient Taos Pueblo, 70 miles northwest of here. Judge John R. McFie, who was holding court there, has appealed to Governor Mills at Santa Fe for troops to prevent a possible massacre.

General A. Brooks ordered Company H of the New Mexico National Guard at Santa Fe to hold itself in readiness to proceed to Taos at a moment's notice on a forced march. The company was until recently a cavalry troop and is the crack military organization of the territory.

The prosecution of several Indians for infractions of the law is said to have caused the outbreak. Telephone and telegraph wires have been cut by the renegades.

**TAFT WOULD
INJURE PARTY**

WASHINGTON, D. C., June 23.—President Taft today defied the labor unions of the country, announcing in his support of the anti-union clauses proposed as amendments to the Sundry Civil Service Bill that he wished the amendments adopted, even if it cost him the support of every union voter of the country.

The matter, affecting the reelection of so many of the members of the House this fall, occupied the attention of the members of the lower chamber nearly all day today, and the final vote was recorded as a momentous one.

The stand the President has taken in the matter is looked upon as one that will affect the chances of the Republican party very seriously in November.

TO CORRAL THE COLORADO.
WASHINGTON, D. C., June 23.—Senator Flint will introduce a bill tomorrow placing two million dollars at the disposal of President Taft for the carrying on of emergency work to check the damage being done in Southern California through any further overflowing of the Colorado River. This year the State and the Southern Pacific Railroad spent large amounts in attempting to turn the river back into its old channel, the floods resulting from the overflow having done immense damage.

SUSPENDED CHIEF BACK.
CLEVELAND, O., June 23.—Chief of Police Johler, known as the Golden Rule Chief, who was suspended, pending an investigation of charges of graft made against him, has been declared not guilty and has been reinstated. His suspension attracted wide attention on account of the fame he gained through the commendations passed upon his work by former President Roosevelt.

FATAL TRAIN WRECK.
CITY OF MEXICO, June 23.—Twenty Federal soldiers were killed today in the wreck of a train. They were part of an additional force being sent into the disaffected regions along the Texas border.

CANADA SHAKEN BY QUAKE.
YARMOUTH, N. S., June 23.—This section was visited today by a series of sharp earthquake shocks. No lives were lost, but several buildings were destroyed and a number damaged.

SCHOOL DAYS ARE OVER

Last Evening Normal School Gradu-
ation, and Today Public Schools
Hold Closing Exercises—Ball
Tonight at Moana.

At the graduation exercises of the Territorial Normal and Training school last evening in the school hall the two principal speakers were Superintendent Pope, who talked to the graduates upon the training they had received and traced the development of the normal work in the Territory, and Hon. W. O. Smith, whose subject was "Happiness and the Joy of Living."

Principal Edgar Wood of the school made some very pertinent remarks to the graduates upon the importance of their work and the importance of their places in the community in which they lived, after which diplomas were presented.

At the closing exercises of the Academy of Sacred Hearts a dramatic entertainment was given yesterday afternoon. There was an exhibition of school work, and the program included two plays, "Ancilla's Debt," and "No Cure, No Pay." Two recitations were given, one by Miss Francis and the other by Miss E. Levey.

The pupils of Waikiki public school had a treat yesterday in a freezer full of ice cream and today they are enjoying a picnic.

Captain Berger and the band lent assistance at the Central Grammar school yesterday when the lower grades held their exercises, those of the graduating class being held today.

Exercises at Kaahumanu school were held this morning, those of the lower grades commencing at 9:30 and the grammar grades at 11 o'clock. The graduating class has thirty-one members, twenty of whom have applied for admittance to McKinley High School, one to Punahou, two to Normal and three to Kanehahameha.

Royal School exercises were held today and at Pohukiana and Kaithi-waena closing exercises were also held.

Closing the day and the school year the graduating class of McKinley High holds its graduation ball at Moana hotel this evening.

Short Stories For Evening Hours

THE UNFORESEEN

"Why, Lucia! You here?" The speaker ran up the steps of the suburban way station and dropped his suitcase on the platform.

Lucia Adams went eagerly forward, "Ken," she said, softly, giving both her hands to the newcomer.

Kenneth Moore was a tall, fair young man, of a somewhat confident bearing, perhaps the effect of which, however, was pleasantly relieved by a winning gentleness of manner.

"Whither away?" continued the girl, with brave cheerfulness.

Her companion looked at her bravely, hesitating, then: "It's the mining appointment we've been hitting our little dreams to, dear?"

"Not Mexico?" she exclaimed, bewildered by the unexpectedness and the magnitude of the impending journey.

"Yes."

"But it was not to be till autumn," Lucia protested.

"I had a long telegram this morning," the young man explained. "The summons to come immediately was imperative. I did some record speed packing and have been looking for you ever since. Where have you been?"

Lucia's face showed distress. "I spent the morning alone in the woods. I had an unhappy time with Aunt Ellis last night."

Rather more surprised than concerned, "What was the difficulty, sweetheart?"

"You—or rather Mr. Wilson." She was visibly perturbed. "Last night I tried to tell Aunt Ellis about you—about us. She was vastly unsympathetic."

Both pained and perplexed for the time, "I thought Aunt Ellis was my friend. But where does Mr. Wilson come in?"

Lucia, blushing, spoke with an effort: "Aunt Ellis wants me to—to marry him."

"Not against your will?"

"I suppose not (wearily), only in accordance with hers. My usually good aunt has mysteriously developed a distressing worldliness. You and I, she desires me to remember, are not overburdened with riches, and Mr. Wilson is, somewhat. She has invited him to visit us for a fortnight and has just gone over to Weston in the runabout to meet his train. No sooner was she out of the house than I decided I simply couldn't stay at home and be nice to Mr. Wilson. I'm going to the city to grandmother's. I wrote Aunt Ellis a hasty note, suggesting that she might tell Mr. Wilson that grandmother would be so ill for a fortnight she couldn't do without me, and then I rushed down here, expecting to make the 2 o'clock, forgetting for the moment that it had been changed to the 2:40. I've been waiting here ages. Now, sending an apprehensive glance down the station drive to where it connected with the highway: 'I'm afraid I'll return by this road before our train comes.'"

Her hand touched his coat sleeve appealingly, caressingly, to be quickly withdrawn as the sound of carriages wheels and gay voices changed the quiet scene into one of animation.

A moment later a crowd of young people swarmed over the platform, assembling at the opposite end from that to which Kenneth and Lucia had drifted. A lively distribution of balls of confetti immediately began.

"A wedding party," breathed Lucia, brightening.

But alas for the best laid scheme of merry-makers! A distant whistle announced the approach of the train, and still no bride and groom had appeared to submit themselves to the last gay rites of a well-regulated wedding.

"What shall we do with all this beautiful confetti?" softly wailed a pretty girl.

"Fred thinks that young man and girl over there," indicating Kenneth and Lucia, "look very much like a bridal couple," someone whispered suggestively.

"They're the targets for my ammunition," approved a jovial little man. "They sure look the part."

"Suppose we make a mistake; suppose they're not?"

"Oh, they are. Like as not they've run off, too, and left a lot of loving friends in the lurch," supplemented an elaborately doleful voice.

The snubbing noise of the train as it showed up for its stop at the station prompted the two innocent travelers to turn to witness the chagrin of the unwitting wedding guests. They fronted a merry-eyed, merciless company—

whooping, shouting, laughing—and were instantly enveloped in a glittering shower of confetti.

The passengers peered from the car windows in eager interest.

The engine's bell began slowly to clang. The soft, brilliant rain of confetti was still pouring pitifully about the confused girl when she felt herself lifted to the steps of the nearest car.

Kenneth's arms released her as he said something about Aunt Ellis' arrival with a man in a runabout. Lucia could hear him but dimly through the rumble of the train and the cheers of the wedding party.

The car they entered, dripping confetti as they walked, was crowded. An old gentleman arose to give Lucia his seat. "Just married, eh?" he asked, winking at the young man and beaming with good will and fatherliness on the embarrassed girl.

"To the back platform, please, Ken," the supposed bride urged in an undertone.

They were speeding through the deepest, the greenest of woods. The silver rails, reflecting the emerald of the foliage, stretched swiftly back along the roadbed. But Lucia was blind to this beauty. The tears were in her eyes as she asked gently:

"For how long, my Ken?"

"Three years, you remember." He studied her face for a thoughtful moment, then, "Why not go with me, Lucia? We would be married as soon as we reach the city."

"Oh, Ken, I can't."

"And why not, sweetheart? We've just time, and you are not the girl to care for the fuss and feathers of a wedding. Besides, we've had all that," he ended with an irresistible smile.

But Lucia was firm. "That's just it, Ken," she said seriously. "Aunt Ellis back there at the station—she'll think I've—I've eloped with you, and I wouldn't do such a thing. It wouldn't be fair to Aunt Ellis after all she's done for me."

"Tickets!" The voice of the conductor startled them.

They were well acquainted with all the conductors on the line, of which they had long been patrons, and by the time they had curtailed this one's attempts at congratulation they were at Northwood, their first stop.

Here Lucia insisted on leaving the train, intending to return home, and Kenneth got off with her. On the platform they found a penitent Aunt Ellis—what she had done with Mr. Wilson they did not ask—the trusty little runabout having easily made better time than the "accommodation" train. Lucia told her story simply and quickly, this time into wholly sympathetic ears. Aunt Ellis was not slow to see her chance to make amends.

At her invitation they piled into her small electric carriage which she said should make all lawful speed to grandmother's, where her dear Lucia should have a happy, if impromptu little wedding and leave for Mexico showered with blessings.

"Oh, Aunt Ellis," said Lucia, radiantly, "I feel like a heroine in a romance!"—Boston Post.

HEALANI BOAT CLUB
SMOKER THIS EVENING

Fine Program Arranged and Musical and Athletic Stunts Will Keep Visitors in Good Humor.

This evening at the Healani Boat Club there will be a real good smoker pulled off and some novel stunts will be introduced. Besides a fine musical program, a lot of water events will be staged. The high diving by searchlight should be really good, and some of the experts on the high trapeze will also do some marvellous stunts.

Then there will be a couple of boxing bouts that should be very interesting, and the men who are to take part in them are the real thing with the gloves. It will also go to show how alive the Healanis are now since the new blood has been introduced.

Invitations are out for the fun, and all those fortunate enough to get one of the pasteborders should feel thankful. A big crowd is expected to attend, and the popular boathouse should be packed with well-wishers of the Healanis.

THE proprietor of a Portland, Ore., dry-cleaning establishment writes:

I have used Ivory Soap for over two years, for all kinds of cleaning and dyeing, with the most perfect results. As a dry-cleaning soap, it acts like magic and is far superior to any of the benzene soaps supplied to the trade. It removes dirt, without injuring the most delicate color or fabric.

RECREATIONS

NEW RULE AT THE PARK.

The demand on the part of parents for five-cent seats in the reserved section of the Park Theater. Theatrical Manager Condon to discontinue selling children's tickets for less than the regular admission to that part of the Park, which is fifteen cents. The entire of a gentleman with three children the other night, each occupying seats at five cents, while an elderly couple paying fifteen cents each were obliged to stand, brings Mr. Condon to a realization of the eternal fitness of things. Mothers with children, except those in arms, will be asked to pay fifteen cents each for seats for their young hopefuls when they go to the Park tonight to see one of the grand old Western pictures and a series showing the wonderful scenery of the Park of Caserta. The Denmore Sisters and Thompson gave a laughable sketch last night that was much enjoyed. It will be repeated tonight. This will be the last week of funny Warner, the man who keeps everyone in a good humor.

THE EMPIRE THEATER.

There will be a complete change of program at the Empire Theater, tonight in the pictures as well as the sketch put on by the Royals. These two clever artists are endeavoring themselves to the Empire audiences in a most lasting way. Their playlets are always full of clean and wholesome humor and there are now whole families who visit this theater when the program is changed. The playlet that will be presented tonight promises to be as funny as any yet given. The pictures are the very latest and the piano music by Harry Well will complete a program warranted to make you enjoy yourself for more than an hour.

AT THE NOVELTY.

In the matter of good singing, first class acting and resplendent costumes Orton and Leota will be seen at the Novelty Theater tonight. Their work is perfect in its way. They have an entirely new and refreshing line of songs and jokes that strike you as entirely original as soon as you hear them. The gowns of Miss Leota are gorgeous and places her in a class by herself. There will also be a change of pictures.

SPRECKELS' ARE STILL AT IT

OLD WILLS ARE BROUGHT FORWARD

Bitterness Between the Children Is Shown Openly in Court While Lawyers Contest for Departed's Millions.

SAN FRANCISCO, June 11.—Three millionaire brothers, John D., Adolph and Claus A. Spreckels, who are ranged on opposite sides in the battle for the millions left by the late sugar king, Claus Spreckels, sat in Judge Coffey's court yesterday while their attorneys quoted from ponderous law books and maneuvered for advantageous positions.

Millions were spoken of with the nonchalance with which a lucky schoolboy would talk about a big bag of marbles; old family troubles of the Spreckels were discussed by John D. and Adolph Spreckels.

At the conclusion of the day's session the court records found themselves incumbered with two former wills made by the sugar king, which he had revoked, and a lot of legal argument by Attorney Chas. Wheeler, who represents Rudolph and Claus A. Spreckels and their sister, Mrs. Emma Watson-Ferris.

Cold Glances Exchanged.

Rudolph Spreckels and his sister were not present in the courtroom. The bitterness that existed between Rudolph and Claus A. Spreckels and their other brothers was made manifest by the cold glances that shot back and forth between Claus and his opponents.

Although Attorney Wheeler expounded his argument mainly to an exposition of the law, which he said upheld his contentions that John D. and Adolph Spreckels were not entitled to a share of the sugar king's estate left at his death, because they had both shared heavily in their father's wealth during his lifetime, he occasionally referred with striking emphasis to "the equality among children" and "fairness among heirs," which he said did not exist in the case at bar.

"Talk of equality," said Wheeler, as he looked in the direction of the attorneys representing John D. and Adolph Spreckels, "and then think of what these admitted gifts meant—\$11,000,000 to each of these two older brothers, just 45 per cent. of the entire estate of Claus Spreckels. The father parceled out to these two sons 45 per cent. of his vast estate, leaving 55 per cent. to be distributed among his widow and three other children. Our statutes were created to promote greater fairness, greater equality among children. Is this equality?"

Old Feud Touched Upon.

The old feud of years gone by, when the late Claus Spreckels opposed his youngest sons, were spoken of slightly by John D. and Adolph Spreckels, who were both witnesses. By adroit questioning the attorneys for the witnesses only brought out a few short statements to show that the enormous gifts were made by Claus Spreckels because he wanted to exclude Rudolph and Claus A. Spreckels from sharing in his estate.

John D. Spreckels was the first to assert that his father intended to disinherit Rudolph.

"Referring to the gifts prior to 1897," said Spreckels, "my father always stated to me that he made the gifts because, he said, 'I do not wish my sons Rudolph and Gus (Claus) to have any share in my estate.' He said also, 'I do not wish to have any question arise as to these being gifts.'"

"Are you sure that he used the word 'estate'?" asked Wheeler.

When in Fear. "Well, I don't know," replied Spreckels. "He said, 'I don't want those boys to have any of my money.'"

"Then he said money and not estate?" inquired the attorney.

"Well, he said any of my money or estate," the witness answered.

The testimony of Adolph Spreckels was to the same effect, except that questions were asked of him concerning his father's attitude toward Mrs. Ferris in 1896.

"The marriage of my sister Emma in 1896," said Adolph Spreckels, "to Mr. Watson caused an estrangement between her and my father."

Attorney Peter F. Dunne, who appears for John D. and Adolph, endeavored to go further into the differences between parent and children, but an objection from Wheeler prevented an exposition of this matter.

Talks of "Advancements." Wheeler argued that both brothers had admitted they had received more than their share of the estate, though he said they may have done it unknowingly. "These admissions," said Wheeler, "show that these two brothers received their share of the property as advancements, the father intending, as they have said, to leave no share of his estate to the other children. Plainly, then, they admit

that their share of the estate was advanced to them."

Much stress was laid upon the clause in the Claus Spreckels will in which he said he left his two oldest sons nothing because they had received large shares of the estate during his lifetime.

Not only was this clause emphasized by Wheeler to support his claims, but he referred to clauses which appeared in the two revoked wills of 1893 and 1908, which were introduced in evidence. The latter will was made three days before the great fire. In both Claus Spreckels declared that he had during his lifetime made large gifts to his two sons, John D. and Adolph, and had therefore left them out of the will.

Intention of Father. "There is no question," said Wheeler, "that Claus Spreckels intended these immense gifts as advancements, and he so charged them in his last will, which is before your honor."

He also spoke of the gifts made by Claus Spreckels to his oldest sons of stock in the Independent Gas and Electric Company and of the many millions the two brothers probably had received during the existence of that corporation.

The case will be heard again next Monday, when Attorneys Peter F. Dunne, Samuel Shortridge and Morrison & Brobeck will present their side.

ROOSEVELT'S SPEECH SCORED IN PARLIAMENT

Denounced by Liberal Members As Interference With England's Affairs.

London, June 13.—Theodore Roosevelt's Guild Hall speech led to a lengthy discussion of Egyptian affairs in the House of Commons tonight, the Conservatives demanding to know what course the ministers proposed to pursue, and some of the Liberals denouncing what they term Mr. Roosevelt's interference.

Arthur J. Balfour, leader of the opposition, expressed warm appreciation of Mr. Roosevelt's sympathetic and kindly treatment of the subject. There was nothing in the speech, he said, to which the most sensitive Briton could take exception. The situation in Egypt, he declared, called for prompt action.

Sir Edward Grey, the Foreign Secretary, replying in behalf of the government, announced that Roosevelt's speech had been communicated to him before it was delivered. He had seldom listened to a speech with greater pleasure. Its friendly intention, he said, was obvious, and taken as a whole, it was the greatest compliment to the work of one country ever paid by a citizen of another.

CLARA MORRIS, FAMOUS ACTRESS, GOING BLIND.

NEW YORK, June 10.—Clara Morris (Mrs. Frederick C. Harriott) is critically ill at her home in Yonkers. Aside from her physical condition, grave fears are entertained for her eyesight, which has been threatened for the last three months. At her home it was said that the actress has been confined to her bed since March and that she has been gradually sinking. Regarding her eyesight, it was said that she could see only dimly. Several specialists have been attending her. Following a general breakdown, her eyes began to give her trouble, and it appears that the oculists have been able to do little to relieve her. The last time Clara Morris appeared on the stage was on April 16, 1909. The occasion was a benefit performance for her at the New York theater. She took part in the sleep walking scene from "Macbeth." Surrounded by the members of the Twelfth Night club, which had arranged the testimonial, she spoke for nearly ten minutes, sitting in an armchair. She told the audience that she was not of those who believed the American public was unappreciative of the artist, and her case gave the lie to the perusal statement that woman's greatest enemy is her sex.

WORTH MOUNTAINS OF GOLD

During Change of Life, says Mrs. Chas. Barclay

Graniteville, Vt.—"I was passing through the Change of Life and suffered from nervousness and other annoying symptoms, and I can truly say that Lydia E. Pinkham's Vegetable Compound has proved worth mountains of gold to me, as it restored my health and strength. I never forget to tell my friends what Lydia E. Pinkham's Vegetable Compound has done for me during this trying period. Complete restoration to health means so much to me that for the sake of other suffering women I am willing to make my trouble public so you may publish this letter."—Mrs. CHAS. BARCLAY, R.F.D., Graniteville, Vt.

No other medicine for woman's ills has received such wide-spread and unqualified endorsement. No other medicine we know of has such a record of cures of female ills as has Lydia E. Pinkham's Vegetable Compound.

For more than 30 years it has been curing female complaints such as inflammation, ulceration, local weaknesses, fibroid tumors, irregularities, periodic pains, backache, indigestion and nervous prostration, and it is unequalled for carrying women safely through the period of change of life. It costs but little to try Lydia E. Pinkham's Vegetable Compound, and, as Mrs. Barclay says, it is "worth mountains of gold" to suffering women.
