AKINA WILL BE SPEAKER

KAUAI MAN TO CONTROL LOWER HOUSE.

William White may be President of Senate—Plans for Organization of Legislature Tomorrow.

The Legislature will meet at 10 o'clock tomorrow morning. The thirty members of the House will assemble in the old throne room. New desks and chairs have been provided and are in place. There are also desks for the speaker and the secretary and a long table for newspaper reporters. Akina, representative from Kauai, will be speaker of the House. He was selected by the independent yesterday, and as the Home Rule party has a large majority in the lower branch of the Legislature his election is assured. S. Meheua, a native composer on a local paper and a fluent speaker of English, will be the clerk. The sergeant-at-arms of the House is yet to be selected.

Akina, the coming speaker of the House, is a half Chinaman. This may be taken down with a gulp by many Americans but as a matter of fact Akina is a very intelligent and successful man in every sense. He is progressive, is well up on parliamentary law and will undoubtedly fill the office of speaker with dignity and with honor.

It is fairly certain this afternoon that William White, of Lahaina, will be the president of the Senate. The matter had been up to a late hour, but settled, but White is the choice of his party and, if he will accept, will be the original favorite for this honor but Mr. Brown preferred to work on the floor. Edgar Cayless, Mr. Wilcox's attorney in Washington, something over a year ago, will be the secretary of the Senate. A sergeant-at-arms is yet to be selected.

Mr. White (famously known as "Oily Bill") has been in politics many years. Even when out of politics he was in politics—his opponents say. His knowledge of English is not so keen as that of Speaker Akina, of the House, but his friends say that he will give perfect satisfaction in his high office.

The president of the Senate and Speaker of the House will have important responsibilities in the point of committee. While neither of the officials elect will at this time express themselves, it is understood that the policy of the Home Rulers will be to recognize the Republicans and Democrats on all committees. "We are not here," says one of them, "while we have a majority in both houses, and could control, we set the interest of the country above anything of the kind. We will put the best men, irrespective of party, on our committees."

Despite the almost superhuman efforts of the Home Rulers they have not, on the eve of the meeting of the Legislature, completed the work for which they were called to Honolulu a month ago. Several bills have not yet been adopted by them, and some that they hoped to consider have not yet been drawn. Within the party has been done a wonderful work and will go into the Legislature better prepared than the representatives of any party or faction in the past. Every man of them knows the ins and outs of every department and bureau of the Territorial government, and can whip off on his fingers facts and figures that would stun a legislator in other States. As a matter of fact, the Home Rulers, in informing themselves beforehand on every particular of their work, have set an example to a few gentlemen in the same line of business across the pond, as well as here.

The Dispensary bill has not been passed. It is still subject to amendment. The tax bill has not yet passed its first stage. The county charter bill has been adopted and will be one of the first presented. The town charter bill has not yet been received from the commission. A multitude of minor bills have been adopted, however, and the main points in the larger ones have been agreed on.

Governor Dole has finished his message but will not give out anything concerning it until after it reaches the Legislature. It covers a period of three years, going back to the Legislature of 1898, and remarks upon all public business since that time. A report is made of annexation, of the application of the Organic Act, of the progress and of numerous other things. Considering the number of subjects treated the message is not a long one.

DANGER OF FORFEITURE

THE BRITISH SCHOONER AT WAIMEA.

Waimea Not A Port of Entry and She Is Said to Be Guilty of a Serious Offense.

The little British schooner reported as the Abbie Cox, of Waimea, now said to be the Charlotte Cox, is already guilty of a violation of customs laws for which the penalty is forfeiture, it is stated. Waimea is not a port of entry and the master of the foreign vessel will have to account for his actions in getting there. He is within the collection district of Honolulu and according to law he should have made an entry within 24 hours of arriving within the limits of the district. Article 91 of the customs regulations provide that any vessel failing to so enter shall be forfeited. Unless good reason, such as stress of weather, etc., can be shown why the schooner's papers of entry have not reached Honolulu, she may be confiscated by collector Stackable.

The Star's article describing the easy possibilities for smugglers of Chinese goods on Kaula and other island coasts has aroused a good deal of discussion. The only thing in the way of such smuggling is the extreme severity of the penalty imposed by the United States government for such offenses. Loss of the vessel and life imprisonment for her master, and the risks run by those who engage in such a trade.

There are many miles of coast on the mainland which might be compared to the unguarded coasts of some of the Hawaiian Islands. It is well known that the long boundary line between the United States and Canada is not anything like completely patrolled. There are chances for smuggling here, but the punishment for those who are caught is heavy enough to deter most people.

Along the Pacific coast there are also unguarded places at which immigrant Chinese, or dutiable goods, might be landed though at considerable risk. As in Hawaii there are no ports unwatched, where a ship could come and go without business could be done, and the points where the risk would be least have dangerous coast lines.

If the Charlotte Cox proves to be guilty of violating the laws as seems apparent, she is liable to seizure in any American port at any time. She got away from Waimea will not help her, for the law contains provisions that give power to collectors, surveyors, naval officers, etc., in all American ports to seize her.

It is understood that collector Stackable is making an investigation in the case of the schooner Cox, and that her captain may meet with a sudden surprise.

OLYMPIA'S FIGUREHEAD

WILL RECEIVE HANDSOME NEW DECORATION.

"The Winged Victory" Will Lead the Famous Cruiser to Fresh Deeds of Naval Glory.

WASHINGTON, February 9.—The U. S. S. Olympia will be out of the hands of the dockyard repairers by June next and will then join the China Squadron. Her figurehead, it is stated, will be the handsomest of any in the service. It is a reproduction of the classic statue "The Winged Victory," cast in bronze. The cruiser bore no figurehead when she left the yard. She had on her bow simply the national shield in red, white and blue, with gilded scroll work, a device on all vessels of recent construction. According to specifications and preliminary models prepared by Naval Constructor Baxter, the new figurehead and scroll work will contain about 3,000 pounds of bronze, and will be a lasting, appropriate memorial of the Olympia's war service.

The figurehead, from the pedestal of dolphins to the eagle's head, will measure about seven feet. Scroll work containing the national coat of arms on either side will run aft and underneath the hawser pipes about twelve feet. For stern ornament Constructor Baxter has chosen this design: An open space in a scroll frame for the name Olympia, surmounted by a national shield with an eagle perched upon it, and on either side, running forward about six feet to the six-pounder, a scroll work, dolphins and figures emblematic of war.

MORE PLUMBERS ARRIVE

STOPPED BY THE IMMIGRATION BUREAU.

They are Finally Passed After a Careful Investigation to See If They are Under Contract.

The immigration bureau stopped two white immigrants who arrived on the steamer Aorangi from British Columbia, last Saturday, holding them until yesterday, when, after an investigation, they were allowed to land. It is not very often that such trials have been found necessary in the case of whites, but it was suspected from statements made by the immigrants that they were under contract. They are two plumbers from Victoria.

C. A. Jones, a master plumber from Victoria, and a companion were the two arrivals who had trouble in getting permission to land, and they may have the same trouble as others have recently had in getting into the local plumbers' union. One of them made the statement on board the vessel that he had the promise of a job here, and this led the immigration officers to suspect that the two men had been brought here under contract, on account of the recent plumbers' strike.

Yesterday Immigration Agent J. K. Brown and several other officials held an investigation. The two new arrivals were separately questioned for some time. It was finally decided that they had simply come here on account of letters sent by friends telling them that there were good opportunities here. This is not a violation of the law and the two men were allowed to land. Had it been found that they were under contract, written or oral, they would have been sent back to Victoria.

INTERPRETERS ARE NEEDED

THE DISTRICT COURT IN DIFFICULTY.

Enforced Adjournments and Postponements When the Circuit Court Sits. The Cases Today.

Judge Wilcox is having a hard time holding court just now, on account of the many demands for officials from the circuit court. Interpreters, police officers, witnesses and attorneys are sent for one after another, and the judge submits and lets them go. "It's about time the district court and the circuit court were divorced," said the judge yesterday. "We have enough work here to require our own court officers and the sooner the powers that be wake up to realization of that fact the better."

Two Japanese cases were postponed on account of the absence of the Japanese interpreter, whose presence was required in Judge Humphreys' court. Judge Wilcox ordered his clerk to enter on the record that the cases were postponed on account of the lack of an interpreter, and remarked that such cases would be continued until he could get the interpreter.

This morning the circuit court had David Kaapa and the interpreters again, and Judge Wilcox adjourned from half past ten till after eleven. "It's about time the district court and the circuit court were divorced," said the judge yesterday. "We have enough work here to require our own court officers and the sooner the powers that be wake up to realization of that fact the better."

Samuel Pedro was arraigned for gross cheat. He is said to have fraudulently obtained the signature of a woman with whom he has been keeping company, to a deed for some property. The case was postponed until Friday morning. Pedro is being prosecuted by Robertson and defended by Vivas.

VISITORS FROM THE EAST

TRAVELERS WHO CAME BY THE COPTIC.

Military and Naval Men of Three Nations—Returning Missionaries—Representatives of Commerce.

A fair sized number of passengers passed through here on the Coptic from San Francisco, to San Francisco. Only one cabin passenger, W. P. Goad of San Francisco, stopped over here. He is a son of the well known Southern Pacific attorney and is a prominent member of society on the Coast. He is a "Blingum" man. Mr. Goad comes from Yokohama where he went some weeks ago to attend the wedding of his relative, a daughter of Dr. McNutt of San Francisco.

Mr. and Mrs. W. M. Castle are through passengers. He is of the firm of Castle and Wolf of Manila. Mr. Castle went out to the Philippines since serving with the islands were annexed and has remained in Manila ever since.

Lieutenant G. J. P. Geiger and bride are traveling to America. He is an officer in the British army.

L. Horikoshi a big silk dealer of New York is returning to the States from a business trip to Japan.

Sergeant Major P. H. Konarsky of the Russian army is also a passenger on the Coptic. He was with the Russian forces during the Peking campaign and came from that quarter only recently.

L. Midwood a business man of Shanghai is making a trip to New York.

E. H. Burrows is a judge in Shanghai who is taking a rest from the routine of administering justice to offend Chinese.

W. G. Greene, U. S. N., is returning to America as he will shortly be retired. It is said with the rank of rear admiral. He was in Honolulu some years ago on the Mohican and last summer went out to take command of the cruiser New Orleans. He has been serving with the Asiatic station until ordered home.

E. P. Marshall is a ten merchant of Amoy who is going to the States on business.

R. H. Percival is a Londoner who enjoys life traveling around the world. Mr. and Mrs. J. Smith, and two children, and Miss E. L. Bettelmyer are missionaries who are returning from Chinese stations.

CROWN PRINCE OF JAPAN

Among the passengers on the Coptic was J. A. Brady, an architect. He has just completed a very unusual mission in Japan. It was Mr. Brady who had charge of the erection of the elegant iron and steel palace of the Mikado's son at Tokio. When the Heir Apparent announced that he proposed having a palace erected which would resist shocks of earthquake his countrymen were inclined to ridicule the idea. He persisted however and finally awarded the contract to Americans who have completed the palace.

SNOW IN JAPAN.

The Yokohama papers received by the Coptic contain many dispatches relating to snow fall and snow storms at various points in the land of the Chrysanthemum. In some cases railroad trains were snowed up and many hardships were experienced by passengers.

THE RINDERPEST.

YOKOHAMA, February 7.—No fewer than 175 cattle have been destroyed in Nagasaki since the outbreak of rinderpest on the 15th January last.

MISSIONARIES MAY RETURN.

YOKOHAMA, February 7.—News has been received by wire that Mr. Fraser, H. A. Chumking, has given permission for lady missionaries to return to that port, but not to proceed into the interior.

LI HUNG CHANG.

YOKOHAMA, February 7.—The Japan Gazette says:

A Peking telegram to the Asahi dated January 14th states that Li Hung Chang whose death was recently reported by the Tien Tsin correspondent of the same journal, has completely recovered from his illness. He is hale and hearty now and is in excellent spirits. He was to take part in the conference of the military and naval commissioners to be held on the 15th inst. The Japanese say that any man who is erroneously believed to have died will live long, and we wish this may hold good in the case of China's Grand Old Man.

PRESIDENT MCKINLEY.

WASHINGTON, February 7.—By the advice of his physician, the president has decided to abandon all evening receptions for the winter, which is a great disappointment to the social population of Washington. There are only two weeks left before Lent. Neither the president nor Mrs. McKinley has fully recovered from the grip. While the president is transacting all necessary public business, he is still weak and depressed, and Dr. Rixey insisted that he shall not expose himself or be subjected to unnecessary fatigue until he is fully restored. It is probable that two state dinners will be given, one to the diplomatic corps and one to the justices of the Supreme Court, as the president considers them necessary, and the invitations will be issued at once, now that the official period of mourning for Queen Victoria has expired.

SNAPPED THE BABIES

PICTURES OF BIG AND LITTLE KIDS TAKEN TODAY.

Youngsters of the Kapiolani Maternity Home are to Help Big Fair and Luau Next Month.

It was "Baby Day" at the Kapiolani Maternity Home this morning. Dozens of lusty lumped youngsters who first saw the light of day at the institution were at the home helping to live up to the proceedings. The primary object for the presence of so many babies and children was the desire of the managers of the home to have the outfit photographed. In answer to a call, all of the mothers of "Kapiolani Home" babies who could be present donned their brightest gowns and logged up their young hopefuls and repaired to the home today.

Up to date the record of the home since its organization is 423 babies born, greater number of whom are still living. The children who were at the home today were a fine vigorous lot and splendid specimens of "young Hawaii." There were some older children of hand who were born at the institution years ago, but the majority were babies in swaddling bands. The oldest "Kapiolani Baby" was one of the Markham boys, who is ten years of age. Babies of the "cunning" age predominated, however. The idea was to take photographs of all the youngsters born at the Maternity Home and place the likenesses on sale at the fair and luau which occurs March 16th for the benefit of the institution, owing to the length of the annual meeting however no photographs were taken in the morning.

In addition to the gathering of infantile lumps, the Kapiolani Maternity Home and the Honolulu and Hoola Luau Society held their joint annual meeting in the chapel of the home. There was an excellent attendance and much interest was taken in the proceedings. Prince David who is the president of the Home presided. Special interest was lent to the gathering from the fact of this being the 23d birthday of the Prince. The home also recorded on February 19, 1901 by Queen Dowager Kapiolani and King Kalakaua, and the elegant grounds which it occupies were the gift of Princess David and Cupid. Since the death of the Queen Dowager Prince David has filled the position of president. The primary object of the home was to provide a place of maternity for the Hawaiian but foreigners are also admitted as patients. The affairs of the institution are in a quite a prosperous condition as was indicated by the various reports read today.

After prayer had been read by the secretary, Mrs. Eugene K. Reis, read her report. She referred to the fact that the affairs of the home were in an excellent condition and that the receipts from private sources and the fees from patients had been \$1,182.55 during the past year. Reference was also made to the desire of the home for extending its scope by the addition of a gynecological hospital where surgical work could be performed exclusively for women.

In her report Mrs. Pierre Jones, the treasurer, called attention to the need for making a change in the investment of funds of the institution. The fund of \$100 a month which is to be paid to the home from the Kapiolani estate has been now reaching only \$4 per month in the past year. Reference was also made to the opinion of Mrs. Jones the money should be invested elsewhere in order that larger interest could be secured. The receipts during the past year had been \$2,449.39 which together with the balance of \$3,844.00 would bring the present balance to \$6,293.39 as the expenditures had been \$3,945.22. The heaviest expense was in the month of May when \$1,982.70 was paid out for repairs. Of the receipts, \$5,000 was simply the money upon which the Charles R. Bishop Trust had been paying an annual interest of \$300, that was returned to the trustees. The latter will now have to decide the best means of investing this money.

Mrs. Jones laid particular stress upon the need for making a \$10,000 addition to the institution, to be used as a gynecological hospital. The demand for such a place was imperative. The plan had not received a very liberal response from the merchants who had however expressed themselves as being in cordial sympathy with such a scheme.

Mrs. Marie Martin the matrons' assistant had been forced to resign on account of ill health and her place has been since filled very satisfactorily by Mrs. Annie Azlett Poole, Mrs. E. R. Wilson the matron was highly complimented upon her management of the institution.

The matrons' report stated that there had been 62 births during the past year and this number 42 were males. There had been two deaths and one still born. Seventeen of the cases were critical.

The old board of directors presented their resignation but they were unanimously re-elected as follows: president, Miss McFintyre, Mrs. Feabury, Mrs. James Campbell, Mrs. E. S. Cunha, Mrs. J. F. Bowler, Mrs. Irene Brown, Mrs. Luther Wilcox, Mrs. Carl Widemann and Mrs. Pierre Jones, treasurer. The following board of trustees was chosen: Prince and Princess Kalaniano'le, Mrs. T. R. Foster, Miss Peabody, Mrs. E. W. Macfarlane, Mrs. E. S. Cunha and Mrs. A. Mackintosh.

The other officers elected were president Prince David Kawananakoa, first vice-president, Mrs. James Campbell, second vice-president, Princess Kalaniano'le, secretary, Mrs. Eugene K. Reis, and treasurer, Mrs. Pierre Jones. At the conclusion of the meeting remarks were made by Prince David and others after which the party adjourned to the pavilion in the yard where lunch had been spread.

The plans for the fair and luau which will occur on March 16 were discussed at the lunch today. The idea is to make the affair as elaborate as possible for the funds are to go toward starting the proposed surgical hospital. A number of donations of money were received this morning for the luau next month.

At 2 o'clock this afternoon the excitement began. The crop of youngsters, big and little, to the number of 35 were grouped on the steps of the home and

WILL HEAR THE GILL CASE

JUDGE HUMPHREYS DEFIES THE CRITICS.

Friendship Cuts No Figure in the Administering of Justice—Inventory in Davies Estate.

Judge A. S. Humphreys will hear the Gill shooting case, despite objections of any that may object and the criticism of any that may feel inclined to criticize. He said so this morning. "The case will be called tomorrow morning and will doubtless be taken up. It was postponed this morning at the request of the Deputy Attorney-General. In unloading his mind on the subject Judge Humphreys told the Jurists and public that he would not permit public criticism to interfere with his duty in giving an accused man an early hearing. That a man was a friend of the court cut no figure. It was a frequent occurrence that friends of the court were before it. Personal feelings had often to be laid aside, and the circumstances in the approaching case were not different to numerous others. The court would hear and pass final judgment of the case despite the criticism of the public and the "mob."

Orman, who keeps ice cream place at Waikeiki, pleaded guilty to the charge of selling liquor without license and was fined \$100. He was fined \$500 in the police court.

W. Huihlee, charged with embezzlement, has been on trial since yesterday. He was accused of misappropriating \$15, the property of a blind man. The following jury is hearing the matter: Q. H. Berrey, W. J. Smith, Charles Hamey, W. J. Smith, Percy Lihman, George Markham, George Clark, James Spencer, T. H. Petrie, James Brown, A. Barnes, E. D. Greany. Argument is being heard this afternoon.

A corrected inventory of the estate of the late Theo. H. Davies in the Hawaiian Islands shows the same to be worth \$1,745,969.39. This does not include property and stocks on the mainland and in England.

In the matter of Robert Lishman vs. Hawaiian Guazette Company, filed in the sum of \$20,000, defendant has filed a general denial.

NEW STEAMER HANAIE

THE INTER-ISLAND COMPANY'S LATEST.

Due Tomorrow or Thursday from San Francisco—Will Be a Large Sugar Carrier.

The new steamer Hanaie of the Inter-island line is expected here tomorrow afternoon or Thursday morning. She was to have left San Francisco at noon on the 10th, by the last mail the Inter-island Company received word that she had finished loading on the 9th and would leave at noon the next day.

The Hanaie will be the largest carrier in the Inter-island fleet, having a capacity of 12,000 or more bags of sugar. She is a vessel of 660 tons gross register. She was built with a view to securing large freight carrying capacity, but has accommodations for passengers. If she gets here before the Ventura she will bring later news from the coast.

Captain Green, formerly master of the Waialeale, is master of the new steamer. She will be put on the run to Kauai ports, taking a route something like that of the W. G. Hall. The Hanaie is the fourth largest vessel among the Islands fleet.

A LIFE POLICY.

Many young men go into the building associations and savings banks to secure a home, which is all right if they live and continue in good health; but how much better to insure their efforts for a home by securing a life policy and thus avoid the loss of it that home to the family at a time when they are most sadly in need of a home free from debt. The Provident Savings Life Assurance Society of New York is one of the strongest companies in the world and is represented in Honolulu by I. R. Burns; office in Magoon Building.

MEMORANDA.
Captain Johnson, brother of the master of the S. C. Allen and former master of the McNear, is interested in the schooner Twilight and will probably be her master when she has been repaired on the dry dock.
General order for the freight of the Aorangi and Alameda have been issued for seven o'clock tomorrow morning.

CANAL TREATY.
American Amendments Will Not be Accepted.

LONDON, February 8.—It has been learned by a representative of the Associated Press that a reply will shortly be sent to the United States Nicaragua canal project. It will not comply with the Senate's demands. Neither will it be in the nature of a flat refusal though for purposes of immediate construction it will be tantamount to such a refusal. It will consist mainly in a counter-proposal of proposals like to necessitate extended negotiations. The nature of the proposal is not yet ascertainable. Lord Pauncefoot will likely be the medium through which the answer will be sent and by whom the subsequent negotiations will chiefly be conducted.
In British official opinion it is likely that several months will elapse before the matter reaches a conclusion, by which time the Hay-Pauncefoot treaty will have lapsed, on the basis of the Senate's amendments. The British counter-proposals are now being formulated and it is hoped an entirely new agreement, satisfactory to both countries, will eventually be reached.
WASHINGTON, February 8.—So far as can be ascertained the Administration has not had any intimation of the counter-proposals the London dispatch says will be made in the matter of the Nicaragua canal project. There is a feeling of regret that the British Government has felt constrained to adopt such a course, as the hope was entertained that amendments to the Hay-Pauncefoot treaty might have been accepted in the spirit in which they were made.

Some Facts. Read This. So Much Is Said

And done in advertising to mislead the public that it is hard to pick out the grain from the chaff. Everybody says he's got the biggest stock—that his goods are better made and that he sells at the lowest prices.
Here are a few facts that our brother clothiers in Honolulu can't dispute: This is the only store in Honolulu that sells ready-to-wear clothing exclusively. We MUST have variety and sizes to fit you, because we have no (big profit) made-to-order department to fall back on.
We have two stores—each filled to overflowing with bright, new merchandise—every inch of space crowded. No other stores in Honolulu use more than one store for sale purposes.
We buy every stitch of our own goods for spot cash. We certainly ought to own our goods at bottom figures, and we only grow bigger by selling that way.
Nothing is too good for our trade. Suits this season as fine as cloth can be woven—up to \$25.00.
This motto rules the business. If you buy it here and it goes wrong, it is made right and your money back if you want it.

"THE ANGLE LAMP"
The Light that Never Fails

It seems almost incredible that any lamp could be good enough to take the place of electricity on even terms, yet such is the case with the ANGLE LAMP. All over the islands people are throwing away their old lamps and replacing them with this lamp, not merely because it costs about one-tenth as much to maintain (cost is no object to some people) but besides being infinitely cheaper it is more brilliant and more reliable in the bargain. It is a revelation to every one who uses it, and simply demonstrates that the old-fashioned lamp was a barbarous contrivance. THE ANGLE LAMP never smokes, smells or gives any trouble, is lighted and extinguished as easily as gas, and is the ideal light from every standpoint. We carry these lamps from \$1.50 up.

DIVINE ART OF HEALING**OLCOTT TO THEOSOPHISTS LAST
EVENING.**

Declares That Papa Ika is Not a Fake

and Explains Why—Laying on of

Hands—Hypnotism.

Father Olcott, of the Theosophical

society, had a large, intelligent and

earnest audience in Progress hall last

evening to hear his lecture on the

"Divine Art of Healing." He spoke, as

usual without notes and in an easy,

conversational manner. The lecture

lasted more than an hour.

During his remarks Mr. Olcott took

occasion to defend the hot stone walk-
ing feat of which Papa Ika is an alleg-ory exponent. The speaker had seen
the trick done many times. Hehad seen numerous people walk on
stones so hot that wood would be con-sumed upon contact with them, and
were not injured in the least. It was

purely a spiritual matter. The party

desiring to walk on the hot stones had
only to commune for a few hours with
the spirits, and the latter would placean etheric layer over the stones that
would act as an asbestos carpet to the
feet and thoroughly protect them. Theprinciple was purely scientific and was
verified by the teachings of Theoso-
phy. The speaker advised those doubt-
ing the genuineness of Papa Ika's ex-
ploits to doubt no more.The major portion of the address was
devoted to the subject of healing by
the laying on of hands. Mr. Olcott de-
clared that that was easy to do if one
only understood the principle. He gave
numerous instances by way of illustra-
tion, and stated that he had cured hun-
dreds of cases of different diseases.The whole thing was to treat the spiri-
tual body and make it work on the phy-
sical body. Hypnotism and kindred
sciences were dwelt upon and explain-
ed. Concluding he said:"People may laugh at my state-
ments, but I do not care, for I have
spent many years in the study of these
things, and I have the courage of my
convictions. If I wanted to do so, and
I have the power, I could tell every
one within hearing of my voice who
has a pain of any kind, to stand up,
and after I had commanded the pain
to leave you, at least three-fourths of
the people afflicted would sit down
with the pain gone. So powerful is
thought projected that you can kill a
person by it if the person is in a cer-
tain receptive mood."If evil is attempted, and the person
upon whom it is tried is good and vir-
tuous, no evil can affect them, and a
perfect man or woman is invulnerable
to the armor. If you wish to heal
you cannot take money or place your
power on a mercenary basis, but you
must be imbued with a benevolent feel-
ing towards mankind."Hypnotism is a thing which is ter-
ribly abused, and if a woman or young
girl permits herself to be hypnotized,
she subjects herself to a terrible dan-
ger, for if there is the least moral taint
in the mind of the operator then will
the subject be affected by it. When
the citadel of our own free will has
been broken into, there is a breach in
the wall for evil influences to enter."The subject of the address was
"The Decision Reserved"**JUDGE ESTEE AND THE BITTING
MATTER.**

Petitioner Speils in His Own Behalf

And is Supported by Mr. Baird—Court

To Visit Jail.

C. C. Bittling will have to wait until

next Monday morning to know the re-
sult of his petition to Judge Estee for
liberty under a writ of habeas corpus.
He is the attorney that was given ten
days imprisonment for contempt of
court. Judge Estee took up the matter
on the plea that the punishment was
being made unnecessarily severe on ac-
count of the petitioner being confined in
an establishment with felons and the
like. The case came up last week and
was continued to yesterday. Yesterday
morning, George A. Davis, attorney for
Bittling, failed to appear. Judge Es-
tee declined to postpone the matter
longer than the same afternoon, so Bitt-
ling presented his own cause.The contention of the petitioner was
that he was receiving unusual punish-
ment in being kept in a convict prison,
which was contrary to the Constitution.
He had no fault to find with the treat-
ment. A good bed had been given and
he was allowed to take his meals at the
table of the jailor. The objection was
the stigma attached to being detained
in such a place.District Attorney Baird, who appear-
ed in the case in an advisory capacity,
agreed that Mr. Bittling was being pun-
ished severely and contrary to the Con-
stitution. He took occasion to roast
the Territory for not having a special
jail built for cases of this kind.Attorney General Dole had very little
to say, further than that the jail was
there and spoke for itself. During his
remarks he invited the court to visit
the jail and see for itself the conditions
there obtaining. The court accepted
this invitation.At the conclusion of the hearing
Judge Estee announced that decision
would be reserved until next Monday.
Mr. Bittling is still out under \$250 bonds.**TENNIS CLUB OFFICERS.**At the annual meeting of the Tennis
Association, held yesterday afternoon,
the following officers for the ensuing
year were elected: E. H. Ross, presi-
dent; D. Howard Hitchcock, vice-presi-
dent; G. P. Wilder, secretary and treas-
urer.It was decided to have the regular
spring tournament begin on Wednesday
May 5.**THE "DEATH HAND."**

Player Expires Thirteen Hours After

Holding It.

NEW YORK, February 9.—The god-
dess of chance gave aged Jacob Cole
the "death hand" in a game of pen-
nycill at the Roosevelt club, Fordham,
and early yesterday he died in the
Fordham hospital, just thirteen hours
after the cards fluttered from his fin-
gers. He went to the clubhouse Wed-
nesday with his nephew, Edward Ber-
rian. They began a game of pennycill.
The elder man began to arrange his
hand when four cards dropped to the
floor. He picked them up—they were
the ace, king, queen, and jack of
spades.Although not superstitious, he frown-
ed. His hand trembled. Again the four
cards, constituting the "death hand,"
fell to the floor. He picked them up
again. His hands fell to his lap and
all the cards tumbled from his grasp.
His head fell back in the chair. He
never recovered consciousness.**Third Annual Report

TUESDAY, FEBRUARY 19, 1901.

The First Territorial Legislature of Hawaii will meet tomorrow. The work of the legislature will not only be of the most profound interest to the people of the territory but will be watched with the greatest interest by the public men and the public spirited men throughout America. This is the first territorial session outside of the continental limits of the United States to be given the full benefits of both the flag and the constitution. Annexation did not come without much agitation and much opposition. Many patriotic Americans doubted the wisdom of annexation. But annexation and the full rights of American citizens came. Upon the legislature will in large measure devolve the duty of justifying the promises made by our friends.

The charges against Robert Wilcox for treason may not be substantiated, but they will have the effect of weakening whatever influence he might have gained in Washington. It is a pity the case was ever brought forward as no good can come of it either way. It was brought against the wishes of the Republican party here.

The Russian calendar is now thirteen days behind the calendar of the rest of the world. Russia still clings to the Julian calendar. That calendar made the year 1900 a leap year, while the Gregorian calendar did not. Accordingly the two calendars were separated a day farther apart than they were. January 1, 1901 occurred in Russia on January 14 according to our calendar.

The opium decision has far reaching results and opens the prison gates to several unfortunate celestials who have been working for the public rather than for themselves. The great fear is that the opium habit may spread from the Chinese to other nationalities. We know that it once made a commencement in this direction and that it was a serious menace to the native Hawaiian. No one wishes a repetition of the experience.

The Queen of Holland has just been married. One wonders whether her career will be as long and as prosperous as that of the deceased Victoria. Of material wealth Queen Wilhelmina has enough and to spare. She is one of the richest of European sovereigns. She has an imperious temper which has shown itself on several occasions and which may involve her in struggles with her parliament. Time will show.

The situation in the Transvaal remains unchanged. The Boers have taken to holding up trains in the manner of highway men and robbing the passengers. This is certainly not war, but mere plundering. The effort to rouse the Dutch element in Cape Colony has not succeeded however, and the bulk of the people are heartily sick and tired of the hopeless and unnecessary struggle. In the present guerrilla fashion, however, it may be prolonged indefinitely.

The Wisconsin Legislature is considering a bill making interesting changes in the marriage laws of that state. It provides that the probate court of each county shall appoint three physicians, whose duty it shall be to pass upon all applications for marriage licenses; and that no license shall be given unless the applicants receive from the examining board a certificate showing that they are free from ailments that may be deemed a bar to marriage, including insanity, drunkenness and constitutional disease.

The Albany Journal makes an appeal to the bachelors of that city to patronize the florist, the candy-maker and jeweler and to "shine up" to the sweet girls of the city, and after the wedding bells have pealed out, to stay in Albany. The reason is the loss of population in New York's capital city, shown by the last census, and Mayor Blessing's discovery that Albany is the only city in its class whose death rate is larger than the birth rate. The former is 26.90 per thousand, and the latter 13.97—which is a degenerate showing, indeed for an American city.

Whether there will be a dissolution of parliament in Great Britain or not has been the subject of controversy. The present parliament has only just been elected, and it would involve an enormous expense if there was a dissolution. A statute passed in the reign of Queen Anne enacted that parliament had to be dissolved within six months of the demise of a sovereign. The Reform act of 1867 provided that, in future, the life of the parliament in existence should not be determined by such demise but should continue in existence up to its statutory limit of seven years. Of course for just cause parliament can be dissolved at any time, for the sake

of appealing to the voters. It is not likely that Edward VII will want to appeal to the country for an entirely new set of men and ministers.

A correspondent of the New York Sun has compiled some gruesome but interesting statistics of the suicides recorded by that newspaper during 1900. The total number of self-murders was 591, of which 459, or 77.3 per cent, were committed by males, and 135, or 22.7 per cent, by females. The following table of percentages shows the popularity of the various methods:

Methods.	Male.	Female.	Total.
Shooting.....	43.1	9.6	25.5
Poison.....	25.9	55.5	32.9
Gas.....	8.0	10.4	8.4
Hanging.....	7.4	6.7	7.3
Drowning.....	5.9	7.4	6.2
Cuts, Stabs.....	5.7	3.7	5.2
Leaps.....	1.7	3.7	3.2
Other methods.....	1.5	3.0	1.9
Not stated.....	1.7	..	1.3
Total.....	100.0	100.0	100.0

Thus it appears that shooting was the first choice of men and poison that of the women by a large per cent. This indeed, has been the case for many years, though the percentages have varied from time to time.

FAMINE IN CHINA.

The accounts received of the famine and famine ravages in the Chinese provinces of Shansi and Shensi seem appalling beyond belief. That parents should offer their children for sale, and whole villages turn to cannibals seems almost to stagger belief.

But Archibald R. Colquhoun in his "China in Transformation" so clearly sets forth not only the causes but the conditions of famine in China as to give a graphic realism to the accounts of the present famine. He says:

"The three great enemies of the supreme Government in China have been famine, provincial autonomy, and rebellion. Famines are caused in China by various calamities. Locusts and rats may devour the growing crop of a whole province; deficient rainfall may prevent the crops, particularly on the loess, from coming to maturity; or unseasonable snow on the highlands or heavy and continuous rainfall may breach the dikes and cause inundation, thus bringing starvation and its accompanying horrors home to millions. China, however, is a land of such variety and contrast that, though there may be famine in one or more provinces, at the same time there may be abundance in neighboring ones. But here, as elsewhere, without communications, a failure of the local crops means famine; while a bumper harvest depreciates the value of the produce, so as scarcely to repay the labor of reaping. It is mainly the difficulty encountered by the Government in transporting the food supply that leads to the terrible loss of life. To carry for long distances the enormous amount of grain required, over terribly defective roads—especially in the north, where no good water-way exists—is an impossible task.

"The story of the 1878 famine illustrates well what such a calamity means in China. In that year Shansi and large portions of Chihli, Shensi, Shantung, and Honan were suffering at the same time from famine. In Shansi it was at its worst. The people there were hemmed in by a belt of famine-stricken country which it took weeks to cross. The poor peasantry clung to their homes until their last cash was spent, praying each day for rain that never came, and vainly awaiting the Government relief. At last, penniless and weakened by starvation, they started—sometimes with wives and children, sometimes abandoning these—on their march to reach the food districts. Few succeeded. A consular officer, despatched on a merciful mission, says that of the thousands who thus attempted to escape only those on the outer confines of the famine district succeeded in doing so. The Chinese Government has been the subject of considerable opprobrium in connection with famines, but its character for apathy and incapacity is not altogether deserved. The history of Indian famines should make us reflect before we too severely blame the Chinese Government for its want of success in famine relief. The system and appliances were faulty. The Government, finding itself powerless to deal with the transport, was compelled to attempt relief by distributing money. The cost of cart transport from the Chihli plain to Shansi was officially stated to be £12 per ton! In addition to want of communications, official corruption, as usual, found its opportunity. Thus came about the strange anomaly that, while people were suffering from starvation, relief was generally given in money rather than grain. When money began to fail, and general starvation set in, the Government imported silver as fast as it could, impressing into the service all available carts and animals. But the official rate of hire is considerably below the ordinary one, and there are other obvious reasons why Government work is unpopular in China. The transport owners, therefore, avoided all parts where "requisition" was liable to be enforced, and the Government scheme of transport was brought to a standstill. The rates were then raised to the market standard, but much time had been lost, and in the mean time thousands upon thousands died from want. The wolves attacked not only children but adults, in broad daylight and in the village streets. There is no need to dwell further upon the horrible scene; it is sufficient to state that the consumption of human flesh became a practice, and grew to frightful proportions. It being stated that five people out of ten in Shansi learned its taste."

the month to serve during the absence
of the regular interpreter, John E.
Hale, which will be for sixty days.

The final meeting of the Home Rule
League Convention will be held this
morning evening. At that time the
municipal charter bill will be passed
and will be sent to the Legislature on
Thursday.

NEW YORK TO ASIA BY RAIL.

Capt. Henry Points to a Possibility of
the Near Future.

SEATTLE, Wash., February 4.—"I
no longer a young man, believe I will
live to see a continuous line of rail-
ways from New York to St. Petersburg
and other European capitals."

"Such a highway in the nature of
things is only possible by way of Bering
strait, and work on one of the principal
connecting links will be com-
menced within twelve months. I refer to
the building of a railroad from Port
Valdes on the sea to the American
Yukon. That great enterprise will un-
doubtedly be inaugurated within a
year."

It was the foregoing that Capt. John
J. Henry, the noted Alaska pioneer,
told today. This Copper River steel
highway is sure to be built. After
crossing the mountain range the rail-
road will follow the Tanana to its
mouth in the Yukon. From this point
north, seems more certain than it
will be projected to Nome up through
that district and across Bering strait
into Siberia. Such a project would
of course involve an international com-
pany and international co-operation,
and these results will be forthcoming.
It requires no great stretch of engineer-
ing imagination to conceive the idea of
a railroad across Bering straits. It is
but twenty miles on the American side to
Bromide island and less than that
to the Siberian shore."

CHIVALRY.

The criticisms of the manners of the
Hawaiians may need to be revised after
their polite consideration in leaving un-
molested some very sweet chrome-plated
tobacco boxes, with a bottle
and a glass, and a box of sandwiches
of the sort, on the way, which had been
sent by friends at home to the lady in
blue, and were captured en route. Of
course the boxes took the tobacco, but
they chivalrously left the sandwiches.

THE DRESSY MEN

**Who Want
Correct Shirts**

This store is becoming a men's store as
well as a women's store. And why, indeed,
shouldn't men consult their pocket books when
they buy, as well as women? This week we're
going to give every man a chance to save
many dollars on his shirt bill for a year to
come. This wise:

We have placed on our counters and in
our makai window, our entire shirt stock, and
they're going, gentlemen, going

Every Shirt at 75 cents

without reserve or hold over.

Now these shirts are not old plugs or
relicts of the product of '95. They are up to-
date shirts; just such shirts as regular fur-
nishers charge \$1.50 and \$2.00 for. We're
selling them in a lump, so we can afford to
take less than he.

THE LARGE SIZES predominate,
hence stout gentlemen, who sometimes find it
hard to get suitable patterns in 16 or 17, will
have great fun among this stock.

In conclusion—If you can't come in your-
self, let your wife come and pick out a few for
you. Shirts are not like cigars and this is too
good an opportunity to be missed.
