MORE LOCAL MILITARY PLANS

HERE TO START MARINE POST

COL. DENNY, U. S. M. C., ARRIVES TO DETERMINE PLANS FOR AMERICA'S GREATEST MARINE CORPS QUARTERS AT PEARL HARBOR NAVAL STATION AND WILL ALSO MAKE FIRST MOVE FOR PERMANENT HONOLULU BARRACKS—ARRIVES ON KOREA.

Colonel Frank L. Denny, United States Marine Corps, and Mrs. Denny, were passengers for Honolulu in the Pacific Mail S. S. Korea from San Francisco this morning, going to the Young Hotel where the Colonel will make his headquarters while in this city on the important mission of establishing Marine Corps posts at Pearl Harbor and on a site near Honolulu harbor.

Colonel and Mrs. Denny left Washington on October 9 for the Pacific coast and Honolulu. They expect to be in this city between six weeks and two months, during which period the Colonel will complete all arrangements in regard to sites and plans for the big barracks and quarters for Marines at Pearl harbor, soon to be one of the most important naval bases in the world, and for the headquarters in Honolulu, where Marines will also be stationed.

Miss Denny, their daughter, during the absence of her parents in the Paradise of the Pacific is stopping with her aunt in Washington, at the Marlborough.

The Marine posts on this island are to be the most important of all United States Marine posts, Philippine stations probably ranking next and in this strategic position in the Pacific it is expected that duties of the utmost importance will be delegated to the Marine Corps. Eventually, the Pearl Harbor quarters will accommodate several thousand Marines and it will be

the biggest outpost of Marines in the United States. Several hundred will be constantly stationed at Honolulu. In an emergency Marines would be tented at Pearl Harbor in addition to the numbers housed in permanent barracks. The Pearl Harbor scheme will be such that the permanent quarters erected will be easily capable of enlargement.

A novel and ingenious plan for barracks and quarters in tropical and outlying army posts is under consideration. The idea is to construct these buildings to be made of concrete, three stories high, with the colonel's and lieutenant colonel's quarters at the corners, the field officers' at the center of the principal facades and the smaller apartments between, with the bachelor's quarters adjoining the barracks. The general depth of the structure is proposed to be thirty feet and the dimensions of the principal quarters is thirty by forty feet; those of the colonel and lieutenant colonel, however, being 56 by 65 feet on the outer face, in order to give size enough to secure adequate light and air on the inner side of the quadrangle. The court within the officers' quarters is to be 293 feet by 523 feet. The rear side of the quadrangle is allotted to quarters for the men, and an extension of the building enclosing another quadrangle to the rear affords sufficient barracks and storerooms. The plan is wholly tentative at present, and, if approved, will be first tried probably in Hawaii.

Sheba's Stabber In Jury's Hands

The jury in the case of Mori, the Japanese charged with the attempted assassination of Editor Sheba of the Hawaii Shimpo, is still out, at 3:15 this afternoon, standing eleven to one for conviction.

After being out more than an hour without rendering a verdict, the Mori jury was permitted by Judge De Bolt to go to a cafe for luncheon.

At a quarter after eleven this morning the jury trying Tomikichi Mori for attempt to murder S. Sheba retired to consider their verdict.

They had been addressed by M. F. Prosser for the Territory, E. A. Douthitt for the defendant and City and County Attorney J. W. Cathcart for the Territory in the order stated. Instructions of the court took Judge De Bolt half an hour to read, and at their conclusion J. Lightfoot noted exceptions to many of them by numbers.

Mori evinced the same callous indifference to his serious position which he had shown throughout the trial, excepting for the earnestness he displayed on the witness stand whilst developing his plea of being assaulted under sudden provocation of insult. As the jury were retiring Mori grinned broadly at them over his shoulder as if the proceedings were a comedy.

Mr. Cathcart in concluding his address laid stress on the evidence of the witnesses who were present at the interviews with Mori directly after he had stabbed Sheba, to the effect that he never once mentioned any insulting language or demeanor on the part of Editor Sheba as having provoked him to commit the deed. Comment was made on Mori's statement on the stand that he did not understand the question put to him after arrest, in answering which he admitted that his intention was to "get rid of Sheba." Mr. Cathcart maintained that having received an exclusively English education since he was twelve years of age, attending both the Royal and the High schools here, Mori knew perfectly the meaning of the question mentioned. It was safe to say he understood English better than he did Japanese. Mori was calm and collected when he made his statements immediately after his arrest. He was quite cool the instant after he had struck Sheba three times in the head and neck with the knife, as shown by his request to those who seized him, "Do not handle me

HAWAII'S COUNTY ATTORNEY DEAD

(Special Wireless to The Star.)

HILO, October 27.—County Attorney Williams died in this city at half after seven o'clock last evening, Tuesday.

FIRST AMERICAN WOMAN TO FLY

(Special Cable to The Star by the United Press.)

WASHINGTON, D. C., October 27.—In an exhibition test flight near this city today Wilbur Wright, the famous aeronautist, in the presence of thousands of excited spectators, many of whom came from other cities especially to witness the spectacle, carried Mrs. Ralph Vandeman with him in a brief but successful trip in his air machine.

The plucky woman, who is the wife of the Army captain of the name mentioned, of California, is the first American woman to undertake such a flight. She was four minutes in the air with Wright.

CENSUS MAN HAS ARRIVED

DR. VICTOR S. CLARK COMES FROM WASHINGTON TO CONDUCT DECENNIAL CENSUS AND QUINQUENNIAL LABOR INVESTIGATION IN TERRITORY OF HAWAII—WILL APPOINT HIS OWN SUBORDINATES—TO REMAIN SIX MONTHS.

In the steamship Korea arriving this morning Dr. Victor S. Clark, the census commissioner, arrived both to take the 1910 census of the Territory of Hawaii and to conduct the investigation of labor conditions here which is made every five years. Dr. Clark was here about five years ago, where he investigated and reported on labor conditions for the bureau of labor of the Department of Commerce and Labor. So far three volumes of reports on labor in Hawaii have been issued.

From his previous visit Dr. Clark is somewhat familiar with local conditions. He will probably remain on this occasion until the middle of next year. For the census work he will appoint all the enumerators and clerks required. Dr. Clark called on Governor Frear this morning. His headquarters will be in the Capitol. Superintendent of Public Works Marston Campbell will set up offices for him in the veranda rooms behind the Senate chamber which he will occupy after the special session of the Legislature which will open next Tuesday and last probably from ten to thirty days.

Governor Frear stated this afternoon that, besides some new features in the coming decennial census for the nation at large, there would probably be some special branches of information covered in the census of this Territory, as in the cases of

Alaska and Porto Rico. It will be a more complete census than last one.

Regarding the labor investigation, the Governor stated that it would not include any collecting of local opinions. It will be a scientific investigation of facts relating to labor in this Territory.

Dr. Victor Selden Clark is a man of scholastic attainments and much experience in public affairs. A native of New York State he was educated in New York and Minneapolis, graduating at the University of Michigan with the degree of Litt. B. in 1890. He became an honorary fellow of Chicago University and, after studying at Gottingen and Bernese universities, a fellow of Columbia University from which he received the degree of Ph. D. After being a high school principal and superintendent in Minnesota 1893-97, he was appointed superintendent of public instruction and president of the insular board of education of Porto Rico under the military government. Since 1902 he has been engaged in investigating foreign and insular labor conditions for the United States Government. He is a collaborator in charge of the divisions of manufactures and economic history of the Carnegie Institution. As editor and author he is credited with many works, including reports on labor conditions in Cuba, Hawaii (1903, 1905), New Zealand, Australia, the Philippines and Java.

PORTUGUESE ARE COMING

Cabled advices to the Board of Immigration are to the effect that the steamer Swanley left Funchal yesterday with Portuguese immigrants.

roughly." It was of himself thus he was thinking when Sheba's life blood was streaming from the wounds he had inflicted. He had no thought for Sheba's wife and children who might be widowed and orphaned as the result of his blows, so fierce that the good steel broke with the impact of one of them. Counsel insisted that the idea of insult never occurred to the defendant until he came to the witness stand and made his appeal to the jury. "Do not handle me roughly." With this quotation

grants for Hawaii, and is expected to arrive here on December 10.

A. J. Campbell, the special commissioner, is on his way back to London to await further instructions.

from the defendant's mouth Mr. Cathcart concluded his address.

THREE DAYS OF SPECIALS. Immense savings on special items at Sachs' Dry Goods Co. for Monday, Tuesday and Wednesday. The goods are priced far below the regular cost. This furnishes an opportunity for alert buyers.

Fine Job Printing, Star Office.

OFFICERS HERE GIVEN ORDERS

(Associated Press Cable to The Star.)

SAN FRANCISCO, October 27.—Colonel Schuyler, Commander of the Fifth Cavalry at Leliehua, Oahu, and Captain Castner, Construction Quartermaster, Leliehua Camp, Fifth Cavalry, and Captain Day, Quartermaster, Leliehua, Oahu, have been ordered to undertake the plans of a military reservation for the cavalry in Honolulu.

CONDOLENCES TO JAPANESE

(Associated Press Cable to The Star.)

WASHINGTON, D. C., October 27.—United States Minister to Japan O'Brien has been instructed to officially condole with the Japanese government for the assassination of Prince Ito.

TOKIO, October 27.—The State funeral of the late assassinated Prince Ito will be held in this city on Thursday, November 4.

The late Prince Ito has been given the posthumous honor of advancement in rank to the first grade at court.

NEW YORK, October 27.—The National Conservation Association, with Ex-President Elliot of Harvard University, as its head, has been formed to promote legislation.

WASHINGTON, D. C., October 27.—Espinoza, Minister from Nicaragua, has resigned.

KOREANS WHO PRAISED ASSASSIN ARE ANARCHISTS

THOSE WHO TOOK PART IN PROCLAMATION COMMENDING THE MURDERER OF PRINCE ITO MAY BE LIABLE TO DEPORTATION—WERE SUSPECTED IN CONNECTION WITH THE MURDER OF MINISTER STEVENS.

It is possible that the Koreans who are responsible for the circular commending the assassination of Prince Ito may be subjected to deportation proceedings in the federal courts here, on the ground that they are anarchists.

Any alien in American territory who has not resided in the country more than three years, is subject to deportation if proved to be an anarchist.

The question which may be raised, is whether adoption of such a resolution, or circular, as the one endorsing the assassination of Ito, is evidence of anarchism. In the opinion of the best lawyers, endorsement of such a crime is itself proof of anarchism, and any Korean proved to have endorsed it is an anarchist and liable to be deported if his length of stay in the country is within the three year limit.

The local Koreans who adopted the sensational Ito circular are the same crowd as showed satisfaction at the murder of American Minister Stevens,

in San Francisco. In fact they were strongly suspected of complicity in that crime, and an investigation was made with the expectation of possibly connecting some of the local men with it.

Have your typewriter, cash registers and adding machines repaired by the Office Supply Co. They have a complete repair department for this work.

FOR WHOOPING COUGH. Give Chamberlain's Cough Remedy. It will keep the cough loose, expectation easy and render the fits of coughing less frequent and less severe. For sale by all dealers, Benson Smith & Co., agents for Hawaii.

SAVE Doctor's Bill

Where do you have your shoes repaired? Did you ever stop to think that there is a difference in the price of leather that goes into the repair of shoes.

We cannot afford to jeopardize our reputation by using inferior materials. We pay a higher price for our sole leather than any other repair place in town and we have two of the best workmen to put that good material in the proper place in the proper way.

Rainy weather is coming, so just look up those shoes with the thin and worn outsoles and bring them in to us to be fixed up.

Times of the tide are taken from the U. S. Coast and Geodetic Survey tables. The tides at Kahului and Hilo occur about one hour earlier than at Honolulu. Honolulu standard time is 10 hours 30 minutes slower than Greenwich time, being that of the meridian of 157 degrees 30 minutes. The time whistle blows at 1:30 p. m. which is the same as Greenwich, 6 hours, 0 minutes. The Sun and Moon are for local time for the whole group.

Do You Realize?

That despondency in women is a mental condition often traceable to some distinctly female ill!

Women who are well do not have the blues, neither are they irritable and restless. Derangement of the female organism breeds all kinds of miserable feelings such as backache, headache, and bearing-down feelings. Try Lydia E. Pinkham's Vegetable Compound. There is no doubt that it has made many remarkable cures of female ills after all other means had failed. There is hardly a day that some woman does not write us that this simple old medicine, made only of roots and herbs, has cured her of a severe illness after several doctors had done their best and failed.

Here are two such letters—read them—they are genuine and reliable.

Baltimore, Md. — "For four years my life was a misery to me. I had suffered with female troubles so long that I was discouraged. I had given up all hope of ever being well when I began to take Lydia E. Pinkham's Vegetable Compound. It restored my health and I felt as though new life had been given me, and I am recommending it to all my friends." — Mrs. W. S. Ford, 1938 Lansdowne St., Baltimore, Md.

Rockland, Me. — "I was troubled for a long time with pains in my back and side and was miserable in every way. I had doctored until I was discouraged and thought I would never get well. I read a testimonial about Lydia E. Pinkham's Vegetable Compound and thought I would try it.

"After taking three bottles I never was so well in my life. I am recommending Lydia E. Pinkham's Vegetable Compound to all my friends." — Mrs. Will Young, 6 Columbia Avenue, Rockland, Me.

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No sick woman does justice to herself who will not try this famous medicine. Made exclusively from roots and herbs, and has thousands of cures to its credit.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health free of charge. Address Mrs. Pinkham, Lynn, Mass.

AT THE THEATERS

Owing to the sloppy condition of the streets the crowds at the picture shows have not been large these couple of nights, so Manager Congdon has decided to repeat the excellent program of the week's first half at the Park tonight. This program has been arranged with great care, and will be much enjoyed if the weather will only permit the people to witness it. "The Sandman" will again be the feature film. It is a pretty bit of fun, and will entertain young and old. The little girls will again appear in their catchy song specialties. Mr. Congdon plans to change the program tomorrow night.

OLIVER TWIST.

Oliver Twist, Bill and Nancy Sykes, Fagin and the rest of the bunch in Charles Dickens' great story will be seen at the Empire theater this evening. To be sure there will be no audible interpretation of "Oliver Twist," but the pictures will tell the leading points of the tale. The play is staged by a good company and is bound to make a hit. "The Frolicsman's Bride" is another good selection, depicting deeds of daring and carrying pretty thrills of the finer sentiments throughout. Besides these leaders Manager Overend will treat his friends to several excellent comedy sketches.

ART THEATRE.

The cheapest excursion rates ever offered are those by Messrs. Balley and Lawson to New York and London and return; and are for \$5c 10c, 15c and 25c pay your money and take your choice. "The Moving Picture Route" is the one traveled for on the Art theatre program for today and tomorrow and two films worth seeing to say nothing of the balance of the entertainment. The title of these pictures are "Sight-seeing in New York" and "The Great Zoological Gardens of London." Great children in particular should see these films. Parents owe it to their kiddies from an educational standpoint to provide them with dimes and nickels with which to see the show after school either today or tomorrow. They can thus visit the largest menageria in the world, containing a wonderful aggregation of wild beasts and from the "Gardens" take in the largest city on the western hemisphere with its far famed

Singer building 43 stories high, and also another marvel of architecture, now in course of construction, to wit the tower of the Metropolitan Life Insurance Co., which rears its walls 60 stories above the sidewalk. When finished this will be the highest structure in the world, as is now the Singer structure. Besides seeing these famous Brooklyn bridge will be crossed. This bridge was over ten years in building and cost millions of dollars. Many other novel, instructive and interesting subjects will be shown on the same screen. Everybody, big and little should see these great films.

by notifying the Star Office; Telephone 365.

The Supreme Court of the Territory of Hawaii has declared both THE
HAWAIIAN STAR (Daily) and THE SEMI-WEEKLY STAR newspapers
of general circulation throughout the Territory of Hawaii, (suitable for ad-
vertising proceedings, orders, judgments and decrees entered or rendered
in the Courts of the Territory of Hawaii.)

Letters to THE HAWAIIAN STAR should not be addressed to any in-
dividual connected with the office, but simply to THE HAWAIIAN STAR,
or to the Editorial or Business Departments, according to tenor or purpose.

GEORGE F. HENSHALL.....MANAGER

WEDNESDAY.....OCTOBER 27, 1909

AN ANNOUNCEMENT.

The Star has joined the United Press telegraphic service,
and now enjoys the distinction of having the cable service of
both the great American newsgathering associations. The Unit-
ed Press is the one great American rival of the Associated Press.
The Star remains a member of the latter and will continue to
receive its splendid service just as before, and as other local
papers do. In addition, we now have the service of the United
Press daily. This gives us a DOUBLE CABLE service, and
is bound to add to the interest of each evening's report of the
news of the world.

GAMBLING, GRAFT AND POLICE "RECORDS."

The incessant round of petty gambling raids and graft talk emanat-
ing from the local police station is becoming a tiresome farce. And
the efforts of some of the police to make a "record" by gathering in
as big crowds as they can of insignificant and often innocent gamblers
no longer works the community. Regardless of law and decency, it
seems to be the established custom to rush in and arrest every gathering
of Chinese or Japanese who sit down at a game of dominoes, if a
police officer thinks there may be anything wagered on the result,
while from one end of the city to the other white games of bridge,
poker and other delectable contests variously described as games of
chance or skill run on unmolested. Let a crowd of little wharf rats
start to roll dice, probably having about two bits in the whole crowd
to roll for, and they achieve, if an officer can catch them, the dignity
of police court cases, an experience which probably does them more
harm than the game would do. But it all makes a showing, and
every now and then somebody points with pride to an enormous total
of arrests for a given period as showing wondrous police efficiency.
In the meanwhile burglars might also roll up some figures and last
Sunday ought to be dubbed Blind Pig day.

There is one kind of gambling that ought to be pursued relentlessly
in season and out, at any cost, and ought to be punished with all the
severity the statutes allow. It happens to be the kind most easily de-
tected. It is the gambling that is conducted as a business, for profit.
These are the games which bleed the laboring man, victimize the clerk
and lead to poverty and embezzlement. Every such game is a base
swindle. No such games can run without considerable patronage and
the quest for patrons inevitably must furnish clues for the police. A
che fa game, for example, needs so many patrons that to run it at a
profit in the face of hostile and energetic police would be impossible.

OUR "MAYOR'S MESSAGES."

We shall have to disclaim any such view as that incompetence is
worse than graft, despite the Advertiser's attributing such an expres-
sion to this paper. What was referred to yesterday as worse than graft
was the mayor submitting to the Board of Supervisors a message veto-
ing a pure milk ordinance, when the message was written by counsel
for milk dealers whom the ordinance was designed to reach. It is
worse than graft because it is graft with incompetence added. For-
merly the mayor's messages were written by a political trouble-maker
in the pay of a partisan Democratic committee, an outrage to which
The Star referred at the time in no uncertain terms. But it was not as
bad as to have veto messages written by financially interested parties.
Our mayor is certainly making a record. We have not observed those re-
sponsible for his leadership in Honolulu's first start as a municipality
to be bursting with pride over their achievement. Probably as the
next campaign approaches they will be running for cover, and "Thou
canst not say I did it!" will be the prevailing cry of Democratic lead-
ers. However, this Banquo will be found as untractable as the original,
and probably quite as effective.

Of course the police graft charges should be investigated. But
equally of course the investigators will have to know what they are.

Judge Dole's endorsement for another term as federal judge came
as a matter of course. Not only the bar, but the community, is unani-
mous in appreciation of his services, and in pleasure that his fears of
some months ago, of enforced resignation for his health's sake, no
longer exist.

EDITOR SMITH PROBABLY HEARD FROM.

It was remarked in these columns when Editor Walter G. Smith
left Hawaii that he would probably be often heard from on Hawaiian
affairs. We don't know whether the following is from his pen or
not, but it is an editorial in the San Francisco Chronicle, on which he
has become editorial writer, and is a comment upon the call of an
extra session of the Hawaiian legislature:

"The most important American step taken by the local gov-
ernment of Hawaii since annexation is that attributed to Gov-
ernor Frear in the announcement that the public lands of the
Territory will be opened to settlers as fast as they can be sur-
veyed.

"There is a total area of about 1,000,000 susceptible acres
of land in Hawaii, exclusive of that which the conservation
officials may rescue from the desert and including the 200,000
acres from which upward of \$35,000,000 worth of sugar are
annually extracted. On land not needed for further sugar de-
velopment pineapples, tobacco, cotton, small fruits and a
variety of tropical and even temperate zone farm produce may
be grown. But for the opposition of a class of planters, in-
cluding foreigners and absentee American landlords, all this
surplus land would have been long ago occupied by thrifty
producers; but the planters feared that small farmers would
get their labor from plantations, thus reducing the cane field
supply, and that their demand for land would raise its price

and that of leases. Hence the obstructive policy which Presi-
dent Roosevelt denounced in at least two of his messages, and
which Governor Frear will, unless thwarted by powerful influ-
ences, succeed in overcoming.

"But this land policy is not merely one of farm development
—it has its political and sociological side. The white popula-
tion of the Territory, exclusive of Portuguese, is now reck-
oned at about 10,000 and the total population, according to
the Governor's recent estimate, about 175,000. Japanese born
on the soil will become voters in the next few years. There
are over 7000 in sight. The only way to meet the peril is to
man the land with American citizens, white ones preferred;
and fortunately there is land enough for the purpose and a
rich market awaiting its peculiar crops."

This paper did not go the length of saying that incompetency of the
Mayor was worse than graft. What it said was that the conduct of
the Mayor, in allowing himself to be made the tool of selfish interests,
as against the public good, was worse than graft. This is a perfectly
obvious proposition, for such conduct not only opens the door to graft
but inflicts immediate injury upon the people. Vetoes written by paid
attorneys and policies dictated by irresponsible partisans without the
backing of intelligent or intelligible reasons for the positions assumed,
if not overcome are destructive of honest and sane popular government.

The bland nerve of Mori's defense defies comparison. He coolly
tells the jury he did stab Sheba. But he was so aggravated that he
had an uncontrollable impulse to punish Sheba by using a knife which
he held open in his hand, concealed in his coat-tails. This is as if a
thief should confess taking money on the ground that he wanted it.

Commercial News

BY L. D. TIMM NS

Pioneer has led in activity both on
and the stock boards since yesterday
morning. This was however to be
expected. There were those who pre-
dicted boom figures for this stock dur-
ing today, but such have not appeared,
although the stock is strong and in-
clined upward. Between boards, 5
shares sold at \$184.75, followed by 10
at \$185. The latter figure seemed to
form the basis of transactions on the
board, 6, 7, 15 and 20 shares bringing
it. At the close of the morning ses-
sion \$184.75 was offered for the stock,
but holders demanded \$185.50.

Between boards 15 and 55 shares of
Olaa sold at \$5.75 and the stock ap-
peared strong. On 'Change this morn-
ing \$5.625 was offered for the stock,
but none was to be had for less than
\$6.

A large block of Honokaa, 100 shares,
sold on the streets at \$19.25. The
same was offered for more but holders

Two side sales were \$3,000 Waialua
fives, on the street, at \$100.75, on a
basis of the last previous sale; and 5
shares O. R. & L. Co. at \$135.

Between boards some brewery stock
found buyers, 25 and 50 shares selling
at \$24, an advance from \$23, caused,
doubtless by the settlement of the dif-
ferences between the Brewery and the
police department.

MILITARY MAGAZINE.

Tenders for building the fine maga-
zine at Port Shafter for the war de-
partment resulted as follows: Lucas
Bros., \$3,260; E. P. Chapin, \$3,324; W.
G. Chalmers \$3,988. In the regular or-
der of things, Lucas Bros. will get the
contract. The building will be of
corrugated iron, with concrete piers.

WILL TAKE VACATION.

position will be filled during the year
by A. M. Nowell of Wailuku, Maui.
Mr. Atherton has not been well for
the past few months and his physician
has advised a rest and change from
office work and responsibility. He has
not as yet made any definite plans for
the future, but expects to rest for two
or three months, after being relieved
of his office work, and will probably
leave for an extended trip in the states
in the early spring of 1910.

NEW UNION GRILL.

George Lycurgus is to make an up-
to-date Delmonico of the Union
Grill. The old place was good enough
for the old Honolulu; but with new
and larger buildings springing up
around, the Grill building has been
left "in the shade." The dining hall

is to be extended makai until cooks
will be able to hang their pans on
"Pop" Cunha's rear wall. The second
floor will be equally commodious.
Mr. Lycurgus stated this morning
that the building would be of brick,
with handsome, tile ornamentation,
and fitted up in New York style.
When completed the cost will have
been something like \$50,000.

WIRELESS PARALYZED.

The wireless telegraph system of
the islands has been practically par-
alyzed since yesterday morning on ac-
count of surplus electricity in the air.
Last night it was found impossible
to reach any vessel at sea except
the Korea, which was close in; and
she was only picked up after many
unsuccessful efforts to reach her.
This morning messages for the other
islands were received, but no prom-
ises were given as to when they
would be gotten through.

"The electrical trouble started
about a week ago," stated Manager
Balch this morning, "and was at its
worst yesterday afternoon and last
night, when our entire system was
practically out of commission. Our
operators stood by at the various
stations (or I presume they did); but
it was only occasionally that we
could get a word through. Steamers
in talking distance of the islands
cannot be reached. We only picked
up the Korea last night when she
was close to Oahu.

Manager Balch could not, of course,
forecast when the trouble would be
over. Were it a case of wires or
pieces, he could figure; but when it
comes to God's business the wireless
wizard politely but urgently insists
upon side-stepping. In the mean-
while, a large number of messages
for the other islands and for ships
at sea have piled up in the local of-
fice of the wireless company.

SOAP MAN HERE.

John Chestre, of the Levers Pac-
ific Plantations, Limited, Chevre,
England, is a through passenger in
the Korea, here today. Mr. Chestre's
concern buys most of the copra of
the Solomon group and other Pacific

friend of J. T. Thilotsen, managing
director of the concern, and Chestre
brought letters from that official to
the local man. Mr. Chestre is spend-

MUNITION OF WAR,
GOLD, TOURISTS AND
PERPETUAL WIRELESS

With the finest wireless possessed of the Korea's wireless, for he reached by any steamship in this ocean, the Pacific Mail S. S. Korea, Captain Sandberg, arrived this morning from San Francisco, having left the Golden Gate on Wednesday, October 20.

She was sighted off Koko Head at 5:30 this morning, was off the harbor at 6:40 and alongside the Hackfeld wharf before 8 o'clock, where sixty cabin passengers for Honolulu disembarked and one hundred and fifty through saloon travelers came ashore to see what could be observed of the city before sailing time for the Orient, at 4 o'clock this afternoon.

KOREA'S GREAT CARGO.

The Korea's load amounts to more than six thousand tons, more than this vessel has taken from the mainland States for several voyages, and is accounted for by the fact that the United States government is shipping 3,000 tons of supplies to Cavite and Manila, the transport service not being equal to the task of keeping supplies on the move as needed.

There are aboard, also, 700 tons of cotton for the mills at Kobe, 200 tons of cargo for Honolulu, including six automobiles and a quantity of merchandise.

Applications for passage were so numerous at San Francisco that the securing of staterooms was a difficult matter. In the steerage quarters, going through, are 450 Chinese and Japanese. From Honolulu the big boat takes 70 Chinese, 30 Japanese, 5 cabin and 11 deports.

KOREA'S WIRELESS.

Constantly in communication, either with Frisco and other mainland wireless stations or the Kahuku station on this island, the passengers of the Korea were kept in touch with the world's news by aerogram, and the number of commercial or business messages sent ashore at either end during this initial wireless trip of the Korea breaks all records.

NEVER OUT OF TOUCH.

The Korea sails at 4 p. m. today for China and Japan ports by way of Manila. She will not at any time, unless something goes wrong with her five-kilowatt apparatus, be out of communication with land stations and when she is not talking with Honolulu she will be conversing with Manila or other Far Eastern stations.

Wireless Operator Phelps is proud

Fine Job Printing, Star Office.

HONOLULU BRIDE IN RENO
WAITING FOR A DIVORCE

RENO, Nev., October 16.—There has been residing in Reno since last July a professing young woman of only nineteen summers, who does not deny that she is a member of the local "divorce colony." Owing to the desire of this talented girl—for she is a mere girl, and a Smith College girl at that, having graduated a year ago last June—to live quietly and avoid publicity, she has busied herself with various diversions, free from public notice, and few residents are aware of her presence.

Yet she is a girl who has a history as interesting as it is unique, Miss Florence G. Batterson lived with her father, a prominent business man of Philadelphia, until she entered college. Completing her studies, the young woman went to Honolulu to accept a position as instructor in the government Normal School. She soon became and her half-brother, F. Parker Warinfatuated with David Dowsett a half-white and one of the heirs of the famous Dowsett estate of Hawaii, who was engaged in the real estate business and a member of the University Club, Honolulu. Dowsett was already the husband of a native hula dancer, but he quickly secured a divorce, it is said from the dancer that he might marry the young American girl.

The wedding occurred the day after Christmas last year but the wedded bliss of the newly mated couple was destined to be shortlived. According to report, his actions became such that within three months serious trouble arose in the Dowsett household, and the young bride resigned from her position in the Normal School and departed from the islands. She came to Nevada, Philadelphia, until she entered college. Completing her studies, the young woman went to Honolulu to accept a position as instructor in the government Normal School. She soon became and her half-brother, F. Parker Warinfatuated with David Dowsett a half-white and one of the heirs of the famous Dowsett estate of Hawaii, who was engaged in the real estate business and a member of the University Club, Honolulu. Dowsett was already the husband of a native hula dancer, but he quickly secured a divorce, it is said from the dancer that he might marry the young American girl.

Make Denatured Alcohol for 8c a Gallon

The navies of the world have adopted tax-free commercial alcohol for smokeless motive power for ships. It saves boiler room, coal room, handling of fuel and is a little cheaper than steam power. Just think! 80 per cent of water is the principal part converted into alcohol by chemical action in contact with fermented vegetable waste matter and oxidized saw-dust, wood syrup and lime or any carbo-hydrate. Combining with 94 per cent, oxygen or atmospheric air when used for motive power, heat or other light purposes. The real denatured alcohol opens an absolutely new market for the use of saw mill waste, pulp, paper and chemical fibre mill waste product, and for millions of tons of farm products that even the world's greatest monopoly cannot touch. Our denaturizing distilling apparatus is constructed of steel plate galvanized and the highest grade seamless copper tubing, tested to 300 pounds pressure. Its conductivity makes possible the instantaneous hot steam alcohol distilling. A very simple but serviceable still and doubler, that will produce tax-free denatured alcohol daily for 8 cents a gallon. That what is the most difficult to secure is that which we prize the most. No government supervision, no speculative futures, the market demands the product. The motor boats, the automobiles and the navies of the world use it. Unquestionable references. We are ready to negotiate with responsible individuals on very liberal terms.

This wood waste alcohol distilling apparatus is of untold benefit to farmers, lumbermen, varnish makers, paint manufacturers, soap makers, paper pulp and chemical fibre mills, etc., for the utilization of wood waste by distillation, which puts real denatured alcohol beyond competition with gasoline or kerosene.

Address today:

The Wood Waste Distilleries Co., Inc., Cleveland, Ohio, U. S. A., desires to establish western and far eastern agencies, they have a very flattering proposition to offer.

SPORTS

ARMY MEN TO PLAY HAWAII CHAMPIONS

CAPTAIN SHELDON WHO COMES ON NEXT TRANSPORT WAS ONCE SIXTH IN TENNIS STANDING OF ENGLAND—INTERESTING HISTORY OF AMERICAN ARMY MAN WHO WAS IN BRITISH SERVICE AND ALSO A SOLDIER OF FORTUNE.

When the transport Logan, due here on or about November 4, arrives, from Manila, the local tennis tennis lovers will have a chance to see a few sets of doubles which should prove as interesting as the match which recently took place on the Beretania court when Roth and Gee played Long and McLaughlin who were on their way to retrieve the Dright Davis cup from Australia. The same local team will compete against Captain Walt Johnson and Captain Raymond Sheldon, both of the Eighteenth Infantry and among the best tennis players who wear the uniform of Uncle Sam.

Captain Sheldon has a history such as very few army officers can boast of. He is an Englishman by birth and has, since his youthful days, been a military man, though having seen service under several different flags. He first was in the English service and worked his way up to the rank of captain. Then he decided that he was not having enough action for his money and went out on his own hook, becoming a soldier of fortune. He wandered wherever there was the best chance of seeing fighting which was interesting and full of excitement, finally landing in the Philippines.

While in Manila he accepted the opportunity given him of taking a commission in the Philippine score and rose with rapid accumulations of honor to the rank of major. His services had been such in this branch of the service that he was offered a commission as first lieutenant on the regular army and promptly accepted. Since that time he has been promoted to a captaincy. To come back to the tennis proposition, however, he has won distinction in sport as well as in military service and when in the British Army was credited with standing sixth in the list of English tennis players with only such men as the Doherty brothers, Dr. Pim and Mahoney considered as his betters at the game. It will be seen that he is an expert of great ability, for it must be acknowledged that the English have many more first class players than we have in the United States, though when it comes to the actual championship our men have been able to hold their own.

Captain Johnson is also very well known in the line of athletics and is a tennis player of undoubted ability. When E. S. Gee, the present champion of Hawaii, was in Manila he played against Johnson often and in the last tournament in which he took part, suffered defeat at the hands of the infantry officer.

Even Match Is Expected By Fans

RILEY IS THE FASTER OF THE TWO BUT CULLEN CAN LAND HARDER AND BOTH HANDS ARE DANGEROUS—CALL AND LUMEY RICHARDS IN FOUR ROUND BOUT—TERRY TO GO SIX ROUNDS WITH KID FRANKLIN.

The fight on Saturday night between Charlie Riley and Dick Cullen should be extremely interesting and we will see Riley up against a new combination in the fact that he is facing a man who has a hard kick in both hands and who knows the game from A to Z. Riley is acknowledged by those who have seen both men try out to be the faster of the two, but he has not the punch that his opponent has which may make some difference. Both men are now in good shape and tomorrow will finish up their training with the exception of light work.

Yesterday Riley took on Nelson and Richards for a hard boxing bout and gave both of them all that they needed for exercise, though at the end he was fresh as could be. He is in fine condition and ready to put up as fast a go as he has ever shown the local sports, which means that everything on his end will be satisfactory.

Cullen did not box yesterday afternoon but contented himself with smashing the defenceless punching bag for several rounds, skipping rope till the average mortal would have fallen down from sheer exhaustion and doing a good bit of shadow sparring in which no one was hurt. Cullen appears to be down to shape at present and has not an ounce of fat on his body. It is likely that he will be allowed to gain a couple of pounds between now and Saturday morning which he can easily drop by keeping away from liquids during that day.

Two preliminaries will be put on in place of the Sarconi vs. Terry go, which had to be called off on account of the fact that Sarconi broke a rib while mixing things with Riley. Limey Richards, who has been taking Riley's punches as part of his daily routine, will go on with Jack Call for a four round bout. The two men will go into the ring at about 160 pounds and should put up a fast bout for that length of time. The second bout will probably be between Kid Terry and Kid Franklin, both of whom are well known here. Terry is in perfect condition and Franklin, luckily enough, has been keeping himself in shape on the chance that he might get in on a bout. They are scheduled to go six rounds and should make a good match. Franklin will have a little the best of the weight but Terry is the faster of the two.

The seats for the fight, which are on sale at Fitzpatrick's cigar store, have started with a rush and the majority of the best are already gone. One prominent young business man of the city has taken a block of a

dozen and is going to give a novel stag dinner to a number of his associates after which the crowd will adjourn to the scene of the boxing. The roofing of the arena is something which will make considerable difference in the advance sales as it means that all will be able to see the fighting without discomfort.

TENNIS MATCH IS PROPOSED

BERETANIA AND PACIFIC CLUBS MAY TAKE UP ANNUAL DOUBLES EVENT—FIVE TEAMS EACH.

The next event of interest in tennis circles, outside of the match which is to be played between Mrs. Coulter and Miss Miriam Hall will probably be a doubles tournament between the Beretania and the Pacific Tennis clubs. The idea is one which has been talked over for some time and it is proposed that the event shall be an annual one with five teams to play for each club. One of the members of the Beretania club has offered to pay half the cost of a permanent trophy which shall be played for each year and held by the club winning it for that space of time.

The peculiar part of the thing is that when the men come to be sized up the Pacific Club seems to have the stronger combinations, though E. S. Gee and Captain Lowe could probably defeat any team which could be brought out by the downtown men. Still the Beretania clubs are by far the favorites, and it is safe to say, see three times as much play as the courts of their rivals.

An off-hand glance at the players who would probably take part shows the following named: Pacific Club, C. R. Hemenway, John Waterhouse, Geo. Davies, George Waterhouse W. Williamson, Clarence H. Cooke, Richard A. Cooke, W. Roth, W. H. Babbitt and S. M. Ballou; Beretania Club: E. S. Gee, Captain Lowe, David Anderson, A. L. Caste, Theodore Richards, Atherton Richards, R. Sinclair, C. G. Bockus, L. S. Connors and Sonny Cunha.

The Haleiwa Hotel will be the mecca of the golfers on Sunday when an open tournament will be held. If the weather clears up by tomorrow afternoon the roads should be in fine shape for autos.

KETCHEL HAD NO CHANCE

JOHNSON WENT DOWN IN THE TWELFTH BUT CAME UP AND ENDED FIGHT AT ONCE.

SAN FRANCISCO, October 17.—In one of the most spectacular flashes that has ever attended a heavy-weight championship fight, with the holder of the title sprawling on the canvas one moment and Ketchel down for all time the next, Jack Johnson knocked out Stanley Ketchel in the middle of the twelfth round at Coffroth's Mission-street arena yesterday afternoon. It was a sensational wind-up to what had been a thoroughly one-sided bout in favor of the black.

The crowd couldn't believe its eyes as it saw Johnson on the floor, taking his time in recovering himself. And before they had fully digested that the Texan made a fierce lunge at Ketchel, caught him two vicious left and right punches to the jaw, delivered with so much force that the negro fell over the prostrate Ketchel and went tumbling into his own corner as Referee Jack Welch was tolling off the seconds that were spelling defeat for the Michigan boy. Ketchel was completely out. Lifted back to his corner, the beaten man was too dazed to talk, and was quickly removed to his dressing-room for further treatment.

Next to the defeat of Ketchel, and perhaps in spite of that, the knock-down of the heavy-weight champion was the spectacular feature of the performance. Ketchel swung a hard right as the two men were advancing. To the writer and to 90 per cent of those who were in a position to follow closely what was happening, the punch seemed to glance around the back of Johnson's head. Apparently, also, it had little force, and there was genuine surprise when Johnson dropped down, spun around on his knees with a smile on his face and took advantage of the count that the rules of the prize ring permitted him.

Ketchel says that he landed a hard punch, Referee Jack Welch affirms that the blow struck Johnson, and the colored man himself declares that he was hit behind the ear as he was coming in, and that the impact of the two bodies rushing together was what made him fall. He says also that the blow dazed him for the moment, but it is significant that, once on his feet, he was not so dazed but that he rushed Ketchel more viciously than at any previous stage of the match, and had so much force behind the right and left he swung in rapid succession that the right glove shows where Ketchel's teeth pierced through the leather.

It may have been a straight knock-down that Ketchel scored; it is possible, of course, that the negro could not save himself, but the writer did not see a punch that would have such an effect, and it must also be remembered, that such an ending would be of vast assistance to the handling of the moving pictures. Ketchel was apparently too weak to have landed a telling blow in the ninth, and the way he fairly collapsed when Johnson put his force behind two punches is the best indication of his condition.

REGATTA FOR SMALL YACHTS

COMMITTEE SELECTED TO HANDLE RACING AND COURSE DECIDED ON FOR SUNDAY'S SPORT.

The meeting of the Honolulu Yacht Club was held last night at the Lytle residence and the main result was the election of a regatta committee consisting of Bob Hendry and George Turner, who will arrange for a series of races to take place between the sea weeds and the other small boats of their class which are now here on, to be built. The initiation fee of the club, which will act as a junior auxiliary of the Hawaii Yacht Club, has been placed at fifty cents with monthly dues of twenty-five cents.

Another matter of importance which was taken up was the decision of a course for a race to take place next Sunday. It was decided that a course starting at the Myrtle Boat club going out and around the bell buoy and then back into the harbor where maneuvers would be made around the marine railway dolphin and the quarantine dolphin would give a chance to test the boats and the seamanship of their owners. The best feature of such a course is that with a pair of glasses one can follow the little craft from start to finish without a change in position. There will be give entries in the race to be held on Sunday. Anyone wishing to join the club is requested to drop a line to Max Bolte, P. O. Box 225.

NEW RECORD IN MARATHON

SEATTLE, Wash., October 27.—Henri St. Yves won the Marathon derby at the baseball grounds this afternoon in 2:32:39, breaking his own world's record of 2:40:50 3-5, made at the New York Marathon derby. John Marsh, the Englishman, was second, several laps behind. Johnny Hayes of New York was third and J. F. Fitzgerald fourth.

St. Yves won the race over the full Marathon distance of 26 miles 385 yards, having a lead of fully four laps over Marsh, his closest competitor. He was in excellent form and made frequent sprints before the

grandstand, passing competing runners in a spectacular manner.

When the shot was fired for the final lap the French runner let himself out and made the round in whirlwind fashion, crossing the tape at full speed. He appeared to be in good condition at the end of the race.

Besides finishing second, Marsh has the honor of breaking the ten-mile record of 57 minutes and 16 1-5 seconds made by St. Yves last April. Marsh's time for the ten miles was 54 minutes and 50 seconds flat. At this time Marsh was running a yard ahead of St. Yves, who soon passed him.

SPORTDRIFT

The members of the Kailhi Athletic Club should remember the meet-

ing to be held this evening at 7, at the residence of the treasurer, W. P. Young, instead of the secretary's residence as previously stated, and all be present if possible.

The measurements of Riley and Cullen, as printed in the morning paper, savor a good deal of the guessing contest proposition. With both men weighing 133 pounds it does look a little strange that Cullen should be taller, have a bigger chest, larger biceps, forearm, thigh, calf and neck. The only place where Riley is given the best of it, is in reach where he wins by an inch. The extra inch on his finger tips must be horribly heavy or perhaps Cullen is hollow. Such measurements are worse than worthless.

Fine Job Printing, Star Office.

Kaimuki Government Reservoir

Will be installed by the Government at once, and assures Kaimuki, and especially the New District now being opened up by this company, with plenty of water for all time to come.

The Waialae side, where the New District is located, beginning at the highest point on the Kaimuki tract, has a very deep soil, and, with the excellent water supply assured, plenty of vegetation is also assured. Those who build in the New District will have no difficulty in providing lawns, flowers and ornamental trees, adding to the beauty and attractiveness of their New Homes.

The Kaimuki Ocean View Improvement Society

will be organized and promoted by this company for the purpose of looking after the general improvement and welfare of the New District. This society will water the shade trees and care for all the improvements made by this company and assist in preventing any undesirable people from living or any objectionable buildings from being erected in this select and ideal residential district, located on the Waialae side of Kaimuki, the high valley on the seashore.

Our prices, \$500 for corner lots and \$400 for inside lots

together with liberal terms, gives you a splendid opportunity for either investment or homesite.

You are hereby directed to appear, and answer the Petition in an action entitled as above, brought against you in the District Court of the United States, in and for the Territory of Hawaii within twenty days from and after service upon you of a certified copy of Plaintiff's Petition herein, together with a certified copy of this Summons.

And you are hereby notified that unless you appear and answer as above required, the said Plaintiff will take judgment of condemnation of the lands described in the Petition herein and for any other relief demanded in the Petition.

WITNESS THE HONORABLE SANFORD B. DOLE, Judge of said District Court, this 12th day of July in the year of our Lord one thousand nine hundred and nine and of the Independence of the United States the one hundred and thirty-fourth.

(Sgd.) A. E. MURPHY, Clerk.

(Endorsed)

"No. 61. DISTRICT COURT OF THE U. S. for the Territory of Hawaii. THE UNITED STATES OF AMERICA vs. HAUKU SUGAR COMPANY, et al. SUMMONS. ROBERT W. BRECKONS, Plaintiff's Attorney, UNITED STATES OF AMERICA, Territory of Hawaii City of Honolulu."

I, A. E. MURPHY, Clerk of the District Court of the United States of America, in and for the Territory and District of Hawaii, do hereby certify the foregoing to be a full, true and correct copy of the original Petition and Summons in the case of THE UNITED STATES OF AMERICA vs. HAUKU SUGAR COMPANY, et al., as the same remains of record and on file in the office of the Clerk of said Court.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed the seal of said District Court this 12th day of July, A. D. 1909.

(SEAL) A. E. MURPHY, Clerk of United States District Court, Territory of Hawaii.

NEWS IN A NUTSHELL

Paragraphs That Give Condensed News of the Day.

Col. Z. S. Spalding arrived in the Korea.

Noite's is the place for a good, quick meal at a low price.

A. R. Traphagen, formerly a leading architect here, arrived in the Korea.

Dr. A. G. Hodgins returned in the Korea after an absence of many months.

J. F. C. Hagens, manager of Pacific Guano & Fertilizer Co., returned in the Korea.

Mr. and Mrs. Alexander Young and Miss Bertha Young returned from San Francisco in the Korea.

L. J. Warren of Smith & Lewis' law office, with Mrs. Warren and Miss Warren, returned home in the Korea.

Thomas O'Dowda, the veteran sugar holler of Ewa, and wife returned in the Korea from a short visit to the Coast.

For decades Noite's has been the noonday rendezvous of the busy business man. Everything cooked right and served quickly.

Three first class barbers are always in attendance at the Union Barber shop the cleanest and most up to date shop in the city.

The Leonard Refrigerator is unquestionably the best refrigerator in the market. Fine stock at H. Hackfeld & Co., agents.

Joshua D. Tucker, head clerk of the land office, returned in the Korea from San Francisco, where he has been doing masonic work.

Noite's is open from early morning until 7:30 p. m. Standard meals are served at all intervening hours. Dining hall is large and cool.

If all good people will drink Primo Beer moderately they will longer retain the bloom of youth upon their cheeks and preserve their bodily vigor.

M. J. Bissell and daughter will leave in the Manchuria for Tucson, Arizona, where Mrs. Bissell is staying. Possibly they may not return to Honolulu.

Ant troubles may be eliminated by the use of Black Maria ant poison which is sold only by Benson, Smith & Co., Ltd. It drives out of the house the ants which gather indoors during damp weather.

You are able to get better satisfaction at the Metropolitan Market when ordering meats than is to be obtained elsewhere. Order by phone 45 and you will have prompt service.

Irene H. Holloway, guardian of Francis Hyde H. Brown, has filed her tenth annual account. She received \$15,393.34 and paid \$12,715.80, leaving a balance of \$2,677.54 in hand.

Mrs. James Dodd is seriously ill.

C. H. McBride has appealed to the Circuit Court from judgment for \$55.91 against him in favor of the Hawaiian News Co. in the Honolulu District Court.

In the conduct of business the saving of time is an important consideration. Liberal use of the wireless in communicating with your customers on the other islands effects a great saving in time and consequently in money.

If your hair is continually falling off and the dandruff scabs are evident on your coat collar, then you should use Pacheco's Dandruff Killer immediately. It's the only tonic that will remove the cause—the parasite that destroys your hair.

First United States Judge Sanford B. Dole has been strongly recommended by resolution of the Hawaiian Bar Association for reappointment by President Taft. His term will expire on November 23.

Commissioner Marston Campbell announces that the Kulaimanu lands in Hilo district will be opened for homesteading after the cane crop is removed next year, the tract being under lease to a sugar planting corporation.

It is officially said to be probable that the Olehena tract, whose lease failed to attract a bidder at the appointed time of sale, will be added to the Kapaala lease to be put up for sale. The water supply of the Olehena lands is controlled by Col. Spalding, or the McKee Sugar Co.

A Korean circular was issued here yesterday morning which approved of the assassination of Prince Ito and expressed the opinion that the dead opened a chance for the independence of the twenty million Koreans. Rev. C. Ming, a Korean clergyman, is quoted as saying that, while he could not condone the action of the assassin, he was willing to state that the Koreans have been badly treated by the Japanese and by Ito in particular.

Th Army transport Buford, which reached Honolulu Oct. 7, from Man-

WIRELESS STOPS CRY OF BABES

Mrs. Alexander Isenberg and her two children, Rudolph and Alexander, were passengers for their Honolulu home in the Pacific Mail S. S. Korea when that vessel left San Francisco bay, but they did not arrive in Honolulu when the big liner made port this morning.

Just out of San Francisco a heavy fog settled over the sea and the Korea came to a stop on account of the danger of encountering shipping during the thick, grey gloom. Her siren screeched and moaned to warn other vessels that might be near of her presence and the fearful din was constant, every now and again being mournfully answered from out the clouded distance by other sirens and whistles.

The weird orchestra of befogged steamships frightened the little Isenberg children so that they wept and refused to be comforted and something of their uneasiness was conveyed to Mrs. Isenberg who sent a wireless message ashore thereby hiring a tug, which tug felt its way out through the fog and took mother and children aboard to return them to San Francisco.

Mrs. Isenberg gave up staterooms in the Korea, when she returned ashore with her children, to Mrs. and Miss Roth.

CI Y DOC TNARMED

City and County Physician Bruce McV. Mackall automobiling it over to the windward side of this island in the interests of typhoid fever cases, broke his left arm as an incident to the cranking of his machine. Nevertheless he will, with his left wing in a sling, continue his duties at the public dispensary and the prisons also conhandle diphtheria cases, so acting that ters of health to windward and at Ewa. He is called to Ewa this afternoon to handle diphtheria cases (so acting that the disease will get no nearer Honolulu than it now is).

Dr. Mackall's left arm is broken in two places. He successfully set it himself, unfortunately though preferably left-handed, he is ambidextrous.

WHEN WOMEN STOOP TO CONQUER

In police court this a. m. four Chinese gamblers were assessed \$25 and costs and six of the same nationality were discharged for lack of conclusive testimony as to their alleged guilt. Three Port Rican dalliers with chance were fined each \$5 and costs.

Mrs. Nelson was severely lectured and fined the costs of court for swatting over the head of a Portuguese baby with a stick, for that the infant had played on her lot. Next time the lady will go to jail, probably, or to the insane asylum unless she quits gazing into the liquor-receptacle when it is fiery.

Eva, little Ewa Hammond, who threw a rock on to the head of a female friend, got off easy. In her case sentence was suspended when she might have gone to prison for five or six months for brutal assault.

However, the fact that Eva had just got joined to a man, in holy wedlock, was taken by His Honor as an extenuating circumstance, and it is presumed that the occupation of honeymooning will for a while at least prevent her from throwing rocks promiscuously.

In any event the tragedy was involved and perhaps Eva had some excuse for losing her sweet temper, inasmuch as another Waikiki lady had called her unpretty names.

la, reports that wireless messages were exchanged with the Pacific coast four days before arriving, thus covering a distance of 3,500 miles. The Buford has the most powerful wireless equipment of any vessel in the Pacific—Army and Navy Journal.

Directors of the Y. M. C. A. will appoint a committee of five to have full charge of building operations, and offer the chairmanship to T. Clive Davies. This committee will select the architect. An effort will be made to buy the Honolulu library site for an addition to the premises of the projected edifice. John R. Mott, chairman of the international committee of the Y. M. C. A., will be invited to assist in laying the corner stone of the new building. By the voting in of 175 new members last night the membership of the association is now more than 600.

GREAT CROWDS AT KASH STORE SALE

The corner of Hotel and Fort streets today has reminded one of a Territorial election with the suffragettes also in action. From 8 o'clock in the morning the four corners were crowded with humanity, and the waiting throng has enlarged rather than diminished with the approach of afternoon.

The center of attraction has been the Kash store, which announced a great sacrifice sale of men's furnishing goods to start at 8:30 o'clock. Mr. Cooper, the new manager, had advertised the sale and was frank enough to quote some of his prices. From Waikiki to Moanalua and even from miles in the country people flocked to the great sale. They were there long before 8 o'clock, and crowded the sidewalks or waited in the mud of the streets.

At 8:30 Manager Cooper loosed the bolts of his door and looked out. There were more people outside than the store would hold and hundreds more were waiting in the middle distance. There was only one way, and that was to let in a few at a time. This scheme was tried until about 11 o'clock, when it was seen that in place of dwindling the crowd was actually getting larger. It was then that a sign was posted up notifying the people outside that the doors would not be opened until 12:30 this afternoon.

During the afternoon the place has been jammed and the clerks have had the time of their lives waiting on the customers. Their first instruction is to thoroughly satisfy one person before proceeding to serve another. In that, as well as many other ways, the sale is making the hit of a life time in Honolulu.

The sale will have continuance tomorrow.

PROBATE MATTERS

C. T. Akana petitions that he be appointed guardian of his grandson, Ching Chew Fong aged eleven years and living in China, for the purpose of withdrawing and holding in trust for the minor a deposit of \$240 with the Phoenix Savings, Building & Loan Association of San Francisco and now has an agent in Honolulu winding up its business here.

John Marcellino, Job Batchelor and M. T. Simonton, appraisers, value the estate of Carrie Marks Alexander, a deceased minor, at \$1663.65.

Judge Robinson approved the accounts and ordered the discharge of Christina Gilliland, guardian of her three minor children now come of age.

THE KOKI CASE.

Argument was proceeding this morning before U. S. Judge Woodruff on the demurrer to the plea in bar in the case of Koki, charged with embezzlement. District Attorney Breckons represented the Government, and Messrs. Kinney and Ballou the defendant. The plea in bar is based on the claim that Koki has already been tried for the same offense. Koki was the subject of several indictments connected with irregularities discovered in the post office at Waima, Hawaii, under his postmaster-ship.

The Federal grand jury stands excused from duty until Monday next. Tomorrow the trial jurors are due to appear.

SATURDAY NIGHT.

That the management of Haleiwa will give a grand full moon dance at the hotel next Saturday night is an announcement that will be received with pleasure by the hundreds who usually go there on occasions of this character. There will be excellent music and the floors are in fine condition. The roads down are in such splendid condition that there should be a large number of auto parties go down for the night. Parties taking the afternoon train will find Haleiwa a delightful place at which to stop over Sunday.

The forthcoming Cook-book will deal with little else than ices.—Chicago Evening Post.

STEEL TRUST WINNING CHINA

WASHINGTON, October 15.—It is understood here today that the United States Steel Corporation is getting ready to make a strong bid for control of the coal, iron and steel business of China. The mines in this rich territory are said to be already held by the big American concern.

Reports made by travelers who have recently returned from that part of the world, together with data which consular agents have presented, have made it appear that the great American corporation is much farther along the road to the control of a vast business in the Orient than is generally known.

Only vague information has been obtainable as to the holdings of iron and coal which have been gathered up for the steel corporation in China but it is positively declared that vast deposits in the province of Shan Si, believed by many people to be the richest in the world, have come into the control of the corporation.

For many years this province of Shan Si has been regarded by experts familiar with its conditions as the ideal region of all the world for iron and steel manufacture. If the iron ore deposits of the upper lake region of the United States were alongside great coal mines and quarries of the best grade of limestone, the condition would be comparable to that existing in Shan Si. Everything needed for the most economical production of the best iron and steel is at hand there and the transportation facilities will be of the best, because of the possibility of developing at small cost the best water transit.

The United States Steel Corporation, it is now explained, several years ago conceived the idea that there must some day be a tremendous demand for iron and steel in China. The Steel Corporation's far-sighted managers anticipated an era of building and investigated the possibility of making steel rails and other heavy iron products in China. They found that the country has everything necessary, including an unlimited supply of the cheapest labor in the world.

Efforts were inaugurated, it is said, to obtain control of necessary deposits of coal, iron and limestone. There are enough of these materials now under the dominion of the Steel Corporation in Shan Si, it is declared, to make rails and other steel for all the railroads China will need in hundreds of years, even if it should take on the most unexpected development.

Several years ago a plant was erected in that province for experimental purposes by the Americans. It has shown that the coal and ores are capable of the best that was hoped for them and that Chinese labor can be trained very readily to do the work as well as the white workmen of the Occident.

People who have studied this experimental work in China express the opinion that a generation hence the United States Steel Corporation will be dominating the steel business of the far east as completely as it does that of the United States now.

There comes also from the Alabama iron district an interesting narrative of projects of the Steel Corporation plans for the further development of the industry in that region. The big American steel concerns control the great ore deposits of the province of Santiago, Cuba. This is said to be the richest large deposit in the world, because it contains an admixture of nickel in the proportion necessary to make the finest steel.

This Cuban ore, it is explained, is to be brought to a great plant which is being established on the Warrior river in Alabama, and there smelted. The reduction of the duty on ore gave the assurance that this project would be successful. The transportation will be as cheap as, or cheaper than bringing the Lake Superior ores to the Pennsylvania furnaces, while the Cuban ores are declared much better than those of the Superior region. Vast changes in the whole iron and steel industry are predicted as a result of this development of the Cuban ores, and the South is in line for immense benefits.

Murder of Prince Ito Will Not Swerve Japan

(Associated Press Morning Service.) TOKIO, October 27.—So great has been the influence of the late Prince Ito, who fell beneath the blows of the assassin's knife on Monday, that his death has been regarded as a public calamity, and as something that might alter the whole tenor of Japan's negotiations in the Manchurian situation. So much has been said along this line that yesterday an official statement was given out by the premier to the effect that Japan's course on the Asian mainland would continue the same as outlined, irrespective of the death of Prince Ito.

CANNON'S STRANGE SPEECH. HICKMAN, Kentucky, October 27.—Speaker Cannon, who had left St. Louis applauding his speech in favor of the issuance of bonds for the purpose of securing funds for the improvement of the inland waterways, spoke here last night, his speech being one against the issuance of such bonds.

FAMOUS GENERAL DEAD. BURLINGTON, Vermont, October 27.—General O. O. Howard, who greatly distinguished himself in the Civil War, died here yesterday.

RUSSIAN RELATIONS UNCHANGED. ST. PETERSBURG, October 27.—It is officially announced that the murder of Prince Ito, who was about to consult the Russian officials at Vladivostok regarding the claims of Japan and Russia in Manchuria will not affect in any way the relations between the two nations.

RUSSO-ITALIAN PACT. PARIS, October 27.—A Paris publication announces that in the recent conference between Czar Nicholas and King Humbert it was agreed between the two sovereigns to work together for the economic development of Montenegro. It was further agreed to preserve the island of Crete for the Cretans, allowing them to manage the internal affairs of the island for themselves. The Italian King pledged the support of Italy to Russia in working out her policy in the Balkans.

The great significance of this, if the report is true, is that it isolates Germany more effectively, Italy having been heretofore in closer alliance with Germany than with Russia and considered an ally of Germany in the Balkan situation.

STEAMER WRECKED. EASTPORT, Maine, October 27.—The British steamship Hestia, bound from Glasgow for Montreal, went ashore here in a storm yesterday and is a total wreck. At least twenty members of

an active interest in politics as long as I live and to take part in the discussion of public questions.

"Do you believe party lines are being eliminated?"

"I think that for the last fifteen years there has been increasing independence in the voter. I do not believe, however, that in our lifetime we will see but one party. I see no sign of a drift in that direction."

DEPENDABLE PROPRIETARY MEDICINES.

It must be admitted by every fair-minded, intelligent person, that a medicine could not live and grow in popularity for thirty years, and today hold a record for thousands upon thousands of actual cures, as has Lydia E. Pinkham's Vegetable Compound, without possessing great virtue and actual worth. Such medicines must be looked upon and termed both standard and dependable by every thinking person.

FAVORS ALDRICH BANKING PLAN

R.M. LA FOLLETTE

MINNEAPOLIS, October 11.—Senator Aldrich's Central Bank plan does not meet with the approval of Senator La Follette, who left here today for Jamestown, S. D. Before boarding his train for the western city, La Follette said: "I sincerely hope that the measure will not pass. I believe that it is a general plan to center the country's financial power in banks controlled by the Morgan-Rockefeller interests and that sentiment for the proposed institution is being manufactured. I see such similar articles in so many of the papers that I do not believe their appearances are accidental."

You Want the News First?

Here is some advice---

Honolulu more than any other city in the world, is a place where the EVENING PAPER gets the news first. The clock here is over two hours behind the clock at San Francisco, five hours behind New York and ten to eleven hours behind the clocks in the European capitals.

This means that when THE STAR is going to press The Day Is Closed In Washington, Chicago, New York and Europe and almost over in San Francisco. The news of the day is here for THE STAR.

Under modern conditions it takes practically no time to prepare and transmit news and

The Star gets every Evening the Cable Dispatches giving

The News of all the World

For the day just ended

Here are some of the features that go to make the evening paper the predominating factor in an advertising campaign:

It is delivered at the home each night when the whole family has plenty of time to read it.

It is carried home by the business man when his day's work is done and it stays there. A morning paper is usually carried down town by the head of the family and hurriedly read.

The evening paper is not read hurriedly, but thoroughly, so that all the advertisements receive their share of attention.

It presents the store news a little ahead, giving the prospective purchaser time to plan a shopping tour for the next morning.

The evening paper presents the news the day it happens. The morning paper the day after.

The evening paper presents the news first. The morning paper merely elaborates it.

The Evening Paper

Prints Daylight News

The morning paper takes what is left.

Two Great Press Associations' Cable News to "The Star"

The Star, Retaining Membership In The Associated Press, Greatest Newsgathering Organization In The World, Has Also Joined The United Press, Its Great American Rival. * The Star Now Gets Cable Service Every Day From Both

* Up to now Honolulu's newspapers have been served almost exclusively by the Associated Press. * Splendid as that service has been, and still is, we believe that a supplemental and independent report from its rival association will be of great value. * In harmony with the progress Honolulu is making as a community, The Star has improved its telegraph service by adding the service of the United Press Associations. * In the reporting of great events, it will at times be of the deepest interest to compare the two reports of these great newsgathering organizations.

ELABORATE PLAN FOR EDUCATING CHINESE IN THE UNITED STATES

WASHINGTON, Oct. 4.—It is not likely that Congressman Edwin Denby of Detroit, even though he should remain permanently in the public service will ever participate in any achievement more creditable to himself or more useful to mankind than that which is about to culminate in the education of hundreds of Chinese boys in the schools and colleges of the United States.

For years to come 400 of these young Chinese are constantly to be kept in the educational institutions of this country, those who graduate being at once replaced by fresh recruits. Most of these boys are to come here at the age of 14, and as the course they are to pursue will take eight years, they should return to China as thorough Yankees as it is possible for a Chinese to become. The effect upon China as time goes by cannot fail to be marked, and the ultimate advantage to the United States, in a material sense, ought to be great.

The honor of originating this great educational movement probably lies somewhere between Mr. Denby and Elihu Root. Each had a large hand in its inception but it is thought that Mr. Denby first proposed it. At any rate it appealed mightily to the imagination of Mr. Root, then secretary of state, as it did also to that of President Roosevelt. And with the aid of these two Mr. Denby put through the House the legislation needed to carry out the idea.

The project arose out of President Roosevelt's determination not to have the United States make any money out of the Boxer uprising in China. The powers required China to reimburse them for the expense of the march of their allied troops for the relief of the foreigners and diplomatic corps in Peking.

When the United States government footed up its expenses it was found that it had been awarded millions more in damages than would cover the bill. President Roosevelt advised Congress that for the good of all concerned this surplus ought to be returned to China, and at this point Messrs. Root and Denby collaborated on the proposition to advocate that China use the income

from these returned millions for a long series of years to educate Chinese boys in the United States. China accepted, and the first 40 boys are about to leave China to begin their studies. The number will be increased to 400 as soon as that number of lads can be prepared, and after that this number will be kept in this country all the time.

It must be stated, however, that all the credit in the transaction does not belong to America alone. The authorities of China have something due them for their perception of the advantage their country will reap after these young men return home and take their place in the activities of China. We of the United States know that the young Chinese could not be sent to a better place to imbibe the education with which they will help modernize their own country, and therefore we can concede the statesmanship of those high officials of China who were well enough informed to perceive that which we so well know.

The Chinese government is going into the enterprise with such precautions and care as will insure its success. It is not the intention to select the boys by favor. Neither are they to come from any particular class or region. All China is to have an opportunity to contribute its youths. A preparatory school is to be conducted at Peking where the boys will be trained in language, habits, manners, etc., to the end that their transition to this country will subject them to no sudden stunning change. Having embarked upon the project the Chinese, like the wise people they are, propose to secure all there is in it.

The boys are to be taught specialties. Some are to become finished engineers. Some will study medicine, some law, others agriculture and yet others forestry, mining, chemistry, architecture, banking, physics etc. Only the best equipped, mentally and physically as determined at Peking, will be sent over, and when they return they are to have opportunity without delay to give the Chinese people the advantage of what they have learned. A bureau of the Chinese government, known as the American Educational Mission Bureau, has been established

to have entire charge of the selection of the boys to be sent to this selection and to see that they are not lost sight of when they come home after the completion of their American education. It is proposed to give them the backing of the Chinese government to every possible extent as fast as they graduate in order that the Chinese people at large will receive the utmost possible benefit from them and that which they have learned.

There is no doubt that the Chinese government has been moved to go thus thoroughly into the matter by the success of Chinese educated in the United States and now engaged in business and the professions in China. A number of Chinese who studied railroad engineering in this country have been especially notable in their accomplishments. Some of the best bridge work and general railroad construction in China was done under their direction, and the Chinese are very proud of the fact. The Chinese government realizes that within a few years China will be the scene of the greatest boom in railroad building in the world and they are patriotic enough to desire that this should be carried on by native sons.

With the railroads will come, of course, the general westernizing of the entire empire, and the boys who study in the United States are to be the men to set the pace in the westernizing process. The relations between the United States and China have been close and friendly for many years, but there can be no doubt that this educational movement will knit the two countries much closer than they ever have been. And this is capable of much emphasis when it is remembered that the boys educated here are to be government proteges when they go home, and in fact those who study for that particular purpose will at once enter the Chinese civil service and become officers of their government.

It is anticipated that the various state universities will receive most of these Chinese students as fast as they prepare themselves for college.

TOBACCO HEART.

Constant use of narcotics has a paralyzing effect upon the heart action. It is first noticeable through a dull, uneasy pain around the heart, accompanied with palpitation, shortness of breath, trembling, etc. You should stop the progress of the disease at once with Dr. Miles' Heart Cure. It strengthens and repairs the nerve tissues, and restores healthy heart action.

BISHOP TRUST CO. LADIES DEPT.

The Bishop Trust Company, Ltd., beg to announce that on January 1st, 1910, they will open a Ladies Department in connection with their Trust business, where ladies, desirous of saving money, or with property interests, or funds to invest may call or correspond and receive advice as to opening a bank account, putting their funds out at interest, buying real estate, stocks or bonds, or investing in any other class of security. Under the laws of the Territory a woman can hold property in her own right.

The Bishop Trust Company feel that they have been fortunate in securing for this Department the services of Miss J. T. Macintyre, who is well known to the business community of Honolulu as the manager for eight years past of Bishop & Company's Savings Bank. Miss McIntyre will have an office in the Bishop Trust Co's building on Bethel street, where she will be found daily from 9 to 12, after the 1st of January.

All accounts and transactions strictly confidential.

The football game last Saturday at the Alexander Field was a great success from the spectators standpoint and should mean that the game next Saturday between the College of Hawaii and Punahou will attract a big crowd.

CHAMBERLAIN'S PAIN BALM.

You will hunt a good while before you find a liniment that is equal to Chamberlain's Pain Balm. In cases of rheumatism and sciatica it relieves the intense pain and makes sleep and rest possible. Soreness of the muscles, swellings and lameness are quickly relieved by it. For sale by all dealers, Benson Smith & Co., agents for Hawaii.
