## MIGHT BE DIRECT SERVICE

AUSTRALIA MAY HAVE A RIVAL FOR A TIME.

Should the Planters Ship Their Sugar Over the Pacific Mail Route the China Would Run on This Route.

The sugar planters who are in the compact to ship 50,000 tons of Hawaiian sugar to New York refiners via Cape Horn by sailing vessels and the railroads, have yet some arrangements to complete for the transportation of their product.

Of the total amount to be shipped, 50,000 tons must go across the United States by railroad. It is quite generally understood that this sugar must be carried to the railroad terminus on board steamers.

John F. Hackett of the firm of H. Hackett & Co., agents for the Pacific Mail Steamship Company, stated in an interview this morning that the planters had not arranged for the shipment of the 50,000 tons over the Pacific ocean to the railroad terminus. This would be settled shortly.

It is understood that this sugar will be hauled by steam and that the Oceanic Company could not hope to haul it, owing to the attitude taken by Claus Spreckels against the compact. President Collis P. Huntington of the Southern Pacific, having an interest in the Pacific Mail Steamship company, may have the effect of that line securing the contract for the haul. If this is done, it has been stated that the big steamship China, having the Hawaiian register, will be put on the Honolulu-San Francisco run to carry the sugar.

## TOMORROW'S WEDDING.

Miss Charlotte Hollister Parmelee and Frederick Herbert Smith Ewing will be married at Central Union church tomorrow afternoon by Rev. D. P. Birnie. Miss Helen Sorenson will be the bridesmaid and Miss Harriet Lewers the maid of honor. Clifton Tracy will be best man.

## ARE PUSHING THE WORK.

Road Bed Between Kaena Point and Waialua Nearing Completion.

Frank Andrade of the contracting firm of Andrade & Armstrong, came up from Waialua Saturday, and remained over Sunday. This firm has the contract for building the grade of the Oahu railroad from Kaena point to Waialua. Mr. Andrade says that their gangs are working both ways on the grade and will have completed their work in seven or eight weeks. He is confident that Manager Dillingham will have his construction train into Waialua by April 1.

"We are working about 170 Chinese on our contract," said Mr. Andrade, yesterday. "They do piece work with the greatest of satisfaction. We prefer to work Chinese rather than Japanese, because they are much easier to handle and are less liable to create trouble."

## WANTS TO BE AN AMERICAN.

A. V. Peters, a prominent young Portuguese, who is an ardent annexationist and who was one of the committee that presented the annexation resolutions of the Portuguese Union to Senator John T. Morgan, has received several letters from people in the States commending him for the stand he has taken. The Belgic brought a letter from John C. Fleming, manager of the New York News Agency, asking Mr. Peters to send his photograph and account of his life to the agency for publication in the largest American dailies.

## WILL GO TO NEW YORK.

Secretary E. D. Tenney of Castle & Cooke will leave for New York on the next Australia to be absent several weeks. He goes, so it is said, to arrange for the reception of the Hawaiian sugars which will be shipped around the Horn and across the United States next season.

## PUT OFF UNTIL NEXT YEAR.

The damage suits brought by S. Ah Mi against Sheriff L. M. Baldwin and his deputy, W. H. King, have been put off for trial in the First Circuit Court until next February. Ah Mi claims that the police officers injured his reputation to a great extent by searching his premises for opium which they failed to find.

## YORKTOWN SAILS TONIGHT

THE BALTIMORE BRINGS HER ORDERS.

The Flagship Arrives in Port—Flag Transfer Today—Great Activity in Naval Row.

There is plenty of life and movement in Naval Row today. The U. S. S. Baltimore arrived in port yesterday, and is to receive the Admiral's flag today, and the U. S. S. Yorktown is under orders to sail for San Francisco at 5 p. m. Such a general shaking up means an endless amount of work, and coal barges and supply boats have been bumping up against diplomatic launches all morning. Cannon have been booming, too, and all is bustle and confusion on the bay.

The Baltimore arrived yesterday morning, about a day earlier than she was expected, and has found an anchorage between the twin gunboats already in port. She had a pleasant trip down, steaming all the way at moderate speed. To the ordinary observer she is much like the Philadelphia, except that she appears to set much higher out of the water. She carries an armament of four 8-inch guns, six 6-inch guns, two rapid firing machine guns of modern design, each capable of firing 600 shots per minute, and a great array of smaller, rapid firing instruments of destruction. Her crew consists of 361 men. Following is a full list of her officers:

Commander, Captain N. M. Dyer; lieutenant commander, G. Blocklinger; lieutenants, W. Brauersreuther, A. G. Winterhalter, F. W. Kellogg, J. M. Elliott and C. S. Stanworth; ensigns, G. N. Hayward and W. S. Whitfield; naval cadets, D. W. Wurtzbaugh, I. C. Wettengel, C. M. Tozer, T. A. Kearney and A. MacArthur; medical inspector, J. C. Wise; past assistant surgeon, F. A. Heiler; assistant surgeon, R. K. Smith; paymaster, E. Belkows; chief engineer, A. Kirby; past assistant engineer, W. P. Winchell; assistant engineers, H. B. Price and H. I. Cone; naval cadet (eng. div.), C. P. Burr; chaplain, F. S. Freeman; captain of marines, O. C. Berryman; first lieutenant of marines, D. Williams; boatswain, H. R. Brayton; gunner, L. J. Connelly; pay clerk, W. J. Corwin.

This morning the Baltimore saluted the Hawaiian flag. This afternoon Admiral Miller will transfer his flag to her from the Bennington.

The Yorktown received her sailing orders yesterday afternoon, immediately after the arrival of the Baltimore, and it has required some fast work in order to get her ready for sea on time. Additional coal was taken on board this morning, and everything made ready. She will probably get her anchor up by 5 p. m. The Yorktown was not expected to depart until the latter part of the week, but there is no grumbling, for most of her officers and men have been away from home for a long time.

The Baltimore is here to remain for an indefinite period, probably until the differences between Japan and Hawaii are settled and Congress has come to a vote on annexation. The Bennington will also remain as a dispatch boat.

## ONLY SLIGHTLY BRUISED.

Carlo Long, who played center rush for the Punahele on Saturday and was injured in the left thigh, will not be laid up for ten weeks. Mr. Long expects to be out and attending to business in three or four days.

## GOING ON TODAY.

## MUST SERVE FIVE YEARS

JOHN BURKE PAYS FOR THE MURDER OF MILTON.

His Five Accomplices Receive a Year Each—Accounts of the Bishop Estate Trustees Approved.

John Burke, the young Hawaiian lad who was convicted by a jury of his countrymen last week, of manslaughter in the third degree, for the murder of John Milton, was today sentenced to a term of five years imprisonment at hard labor in Oahu prison. He was also commanded to pay the costs of his trial.

The five Hawaiians who were the associates of Burke in the crime, but who were only found guilty of assault and battery, were each given a year in the penitentiary at hard labor as well as to pay costs.

These Hawaiians, together with G. O. Malina, who was acquitted, were with Milton in a drunken brawl, at Iwele, Honolulu, last summer. Milton was found dead shortly after parting company with his Hawaiian associates.

Judge Perry imposed the sentence.

Circuit Judge Stanley today stated that he had read the master's report and examined the accounts of the trustees of the Bernice Pauahi Bishop estate. He ordered that the trustees are only entitled to charge commissions on the net receipts from the Mokuai ranch and not on the gross receipts. The overcharge of \$1443.18 for commissions, he commanded the trustees to surcharge in their next accounting to the court. Otherwise the accounts of the estate as submitted by the trustees to June 30 of this year, were approved.

Judge Perry has denied the motion of Isabel E. Davis to compel her husband, from whom she is suing a divorce, to pay additional attorney's fees.

The suit for divorce brought by Pipilani against Kaoo was dismissed today.

The Carroll divorce case was continued until next term.

The decision in the Muller divorce suit will be given on Saturday.

L. K. Puahi, with J. A. Magoon as surety, has appealed the case of Kapilani against Puahi.

## SAILORS' HOME NOTES.

Seamen are Being Well Looked After There.

M. T. Bluxome, manager of the Sailors' Home, wishes to inform all those interested in "home" work that it is going on as well as ever. Every Sunday Mr. Bluxome carries large bundles of reading matter aboard all the different ships in port, at the same time inviting the men to attend the different services held during the day and also to the Home.

The latter invitation is very generally accepted, the men taking advantage of the benefits offered in the way of baths, billiards and reading room; also many of them like to lay out on the grass under the shady trees and talk and smoke their pipes. In the past few months, shipping not being heavy, the percentage of men in port has been small, therefore fewer have visited the Home.

It is to be hoped that the services formerly held aboard the ships, in port, will be resumed shortly. Plans are now being formed, and Mr. Day may be in charge again. He is a most faithful and vigorous worker.

Reading matter of any kind is always acceptable, especially pictorials, as the sailors are very fond of these. The manager cordially invites all interested to call and inspect the Home.

## TELEGRAPHIC BREVITIES.

The Indians in Colorado are on the warpath on account of the enforcement of the state game laws. Serious trouble is expected. The U. S. are now journeying from Utah to join their brethren.

Porto Ricans are talking about any uprising in Spain's minor colonies in the West Indies. They throw out dark hints about an expedition that is daily expected to land and talk with confidence of being able to sweep Captain General Marin and his 5000 Spanish regular troops into the sea.

Henry George died suddenly in New York on the 29th, of October, of apoplexy. It came to the citizens of that city, already overwrought in this unparalleled campaign, with a shock, and created a profound sensation. Henry George, Jr., has been nominated to take his father's place on the Jeffersonian Democratic ticket and he has accepted the position.

The opponents of autonomy for Cuba are seeking to create difficulties for Marshal Blanco, who succeeds General Weyler as captain general of Cuba. The situation in that island is the same as it was six months ago. The military operations of the Spaniards are suspended. The troops are solely employed in guarding the railroads and it is estimated that 40,000 soldiers are on the sick list.

"The worst cold I ever had in my life was cured by Chamberlain's Cough Remedy," writes W. H. Norton of Sutter Creek, Cal. "This cold left me with a cough and I was expectorating all the time. The Remedy cured me, and I want all my friends when troubled with a cough or cold to use it, for it will do them good." Sold by all druggists and dealers. ## DENY THEIR FATHER'S BILL

GUS AND RUDOLPH SPRECKELS MAKE STATEMENTS.

Insist That Claus Spreckels' \$60,000 Loan to Princess Ruth Did Not Concern Hawaiian Sugar Company.

Important papers bearing upon the big suit which the Hawaiian Commercial and Sugar Company has brought against Claus Spreckels came by the Belgic and were placed on record in Clerk Smith's office this morning.

The papers include the depositions of Colonel Samuel Parker, C. Augustus Spreckels, Rudolph Spreckels, Russell J. Wilson, M. S. Wilson and Charles S. Wheeler, all stockholders in the Hawaiian Commercial and Sugar company, who testify against the claim brought against the company by Claus Spreckels for a loan of \$60,000 advanced to Princess Ruth during her lifetime.

The elder Spreckels claims that he paid over this money to the Princess in order to secure a fee simple title to the lands now embracing Spreckelsville plantation.

Colonel Parker, a resident of Honolulu, but now in California, denies that this is true. He says that he has known Claus Spreckels since 1878 and was acquainted with Princess Ruth Keelikouli in her lifetime. In 1880, Col. Parker says that he was requested by Mr. Spreckels to enter into negotiations in his behalf with Princess Ruth for the purpose of purchasing from her her claims to crown lands. Mr. Spreckels informed him at the time that he was desirous of securing a fee simple title to the lands on the Island of Maui, at the town of Spreckelsville.

Colonel Parker adds that he procured a deed from the Princess for \$10,000, which Mr. Spreckels paid over. He insists that no loan of \$60,000 was made to the Princess by Mr. Spreckels in consideration of the Princess' claim to the crown lands. At this time, Colonel Parker says Mr. Spreckels had business transactions with W. G. Irwin, Princess Ruth and himself. He admitted that a debt against the Princess held by Bishop & Co. was cancelled by Mr. Spreckels but denies that it had any connection in the sale of Ruth's interest in the crown lands.

Gus and Rudolph Spreckels corroborate Colonel Parker's statement. They insist that their father has no \$60,000 claim against the corporation of which they are officers and shareholders.

## WILL SAIL NEXT WEEK.

Only a few passengers are booked to sail on the Australia next week. W. M. Gardner, special correspondent for the New York Sun, is returning home after a long visit to the Islands. He is accompanied by his wife.

Mrs. Ashley, wife of Captain W. G. Ashley of the Finance department, accompanied by the children, will go to California on a visit.

The other passengers are Miss A. E. Newcomb and B. R. Banning.

## ACCEPT THE FAITH.

There was a good audience at the Christian church last night. Two persons united with the church. This makes four accessions since the return of Evangelist Garvin. The outlook for the future growth is promising.

Yesterday was communion Sunday at Central Union church. Three persons were received into the church.

## CAN ANSWER THEIR MAIL.

Business men are counting upon answering their mail by the Australia tomorrow in time to catch the departure of the Rio de Janeiro for the States.

## RESISTING TEMPTATION.

Balzac, the great French writer, used to say: "I can resist everything excepting temptation." In these modern times of ours we naturally infer that he was thinking of bicycle riding. ## PROGRESSIVE PHYSICIANS

It is that which is the foundation of the human system, whether food or medicine, is of very little benefit to the system. This, probably, accounts, at least, to some extent, for the failure of cod liver oil to be of use in many cases. Hitherto its name as a "supplement" has been to its detriment, and its superlative objection. This obstacle is now wholly overcome in

## WAMPOLE'S PREPARATION.

which contains the life-building and medicinal power of the oil, extracted by a process from Fresh Cod Livers. The taste and even the smell are thoroughly disguised. In addition to the reconstructed oil, the preparation has the rare curative virtues of the Syrup of Hypophosphites, Extracts of Malt and Wild Cherry Bark. Taken before meals it aids digestion, enriches the blood, repairs waste, renews strength and vigor and prevents and cures Rheumatism, Bowel Complaints, General Debility, Lung troubles, and all diseases due to impurity of the blood. Palatable as honey. Sold by chemists.

HEALTH DEPARTMENT, BUFFALO, N. Y.

TO WHOM IT MAY CONCERN:  
I take great pleasure in saying a few words regarding the merits of WAMPOLE'S PREPARATION. From a long experience in the use of Cod Liver Oil, I have no hesitation in saying that I regard this as the best preparation of Cod Liver Oil on the market. It is pleasant to the taste, can be tolerated by the most delicate stomach and is productive of the most marvelous results in all cases where it is indicated.  
It can be given to persons who have a strong antipathy to oils of all kinds, without their knowing that they are taking it. I predict for this article a field of usefulness and an extensive demand.

EDWARD CLARK, M.D., City Hall Physician.

## WHAT SAILOR MEN TALK OF

ITEMS OF INTEREST ALONG THE WATER FRONT.

Captain Plunkett's Hard Luck—Confusing Harbor Lights—Departures of Sailing Vessels—Gossip.

The Jessie Minor will sail in ballast on Wednesday for Eureka.

The S. S. Rio de Janeiro is expected tomorrow morning from Yokohama.

The U. S. S. Yorktown is booked to sail for San Francisco at 5 p. m.

The Ke Au Hou will sail sometime tomorrow for Lahaina, with coal and then to Kukaia to load sugar.

The W. G. Irwin will probably sail for San Francisco tomorrow morning with half a cargo of sugar and some coffee.

The Martha Davis will sail for San Francisco on Wednesday at noon, according to Captain Friis' present plan. She only has sugar enough for ballast.

The W. G. Hall arrived from Kauai ports yesterday, after experiencing a very rough trip. She brought down 2761 bags of sugar for the Irwin, 210 bags of rice, 150 sheep and 10 hides.

The Helene arrived yesterday morning from Maui ports, with 146 bags of sugar, 250 bags of corn, 144 bags of potatoes, 50 bags of bones, 50 head of cattle, 11 hogs, 26 hides and miscellaneous freight. She had some bad weather.

The new search light on the steamer W. G. Hall created quite a stir on Kauai. Captain Haglund turned it on Koloa while approaching the town, and still two miles off shore. At first the people thought a thunder storm was approaching. Then the report got out that a Japanese man if war was off port, and there was great excitement for a time.

The bark Mohican was cleared at San Francisco on the 27th with a general merchandise cargo. Among the principal shipments were the following: 166,684 lbs barley, 27,354 lbs middlings, 145 cts wheat, 24,034 lbs shorts, 8750 lbs powder, 5500 lb lumber, 3550 lbs lead, 253 pkgs hardware, 25 bales bags, 1000 gals oil, 1895 gals wine, 183 hogs, 23 pkgs machinery, 3 pkgs groceries and provisions, 300 blbs lime, 58,000 bricks, 61,937 lbs oats, 1253 bales hay.

Complaint has been made by the masters of steamers coming in from the southwest at night that the red light at the forepeak of the U. S. S. Bennington is very confusing. For the guidance of the vessels entering the harbor at night the government has provided a red light on the light house and a green one on the custom house, upon which bearings are taken. The Bennington's red light hangs at about the same height as that on the light house, and is very easily confused with it on a dark night. The matter should be attended to.

The little schooner Norpna, who sailed for Kona ports Saturday evening, with a cargo of general merchandise, returned seven hours later in distress, with five feet of water in her hold. The seams near her stern had opened and the water was pouring in faster than the pump could keep it out, so Captain Nilson decided to turn back. Fortunately the cargo was not much damaged. It was all taken out on the Irmgard wharf yesterday. George McDougal, the owner, said this morning that he would have the vessel overhauled and reekled on the marine railway, and that she would probably be off in time to resume her journey on Thursday.

Captain Plunkett of the British bark Iredale, which arrived last Friday from Liverpool, had his wife and his young son with him when he left home, but Mrs. Plunkett was taken ill, and he transferred her, off the Brazilian coast, to a German bark bound for Savannah. After two months of anxiety he has learned since his arrival that the bark arrived safely at Savannah, but being from Santos was detained fifteen days in quarantine. Fortunately the British Consul was very kind, and Mrs. Plunkett stood the siege well, leaving Savannah for New York in better health. From New York she will go by steamer to her home in England. This is Captain Plunkett's first voyage to Honolulu, although he has been on the Pacific Coast. The Iredale experienced ten days of very bad weather rounding the Horn, but was not damaged beyond losing a few sails. She brings to Hackfeld & Co. 2350 tons of general merchandise, including two five ton sugar crushers. Captain Plunkett has not received orders from this port. The Iredale is discharging at the Irmgard wharf.

## SPORTS LAST SATURDAY

PUNAHOU WON AN EASY VICTORY  
OVER THE REGIMENTS.

George Sharrick Proves Himself the  
King of Cyclomere—Other Races—  
Company D Wins Elvin Trophy.

The Military lads were badly beaten  
at football on Saturday afternoon,  
the score at the close of the game be-  
ing 42 to 6. The men comprising the  
Regiment team showed every evi-  
dence of lack of practice, while the  
college students' excellent work proved  
that they had been faithful in this  
respect.

The Regiment team towered over  
their antagonists in height, weight  
and strength apparently, but they  
lacked science and skill. The many  
fumbles and off-side playing on the  
part of Captain Austin's men were  
costly for the team from the barracks.  
The defensive work was not what it  
should have been and the tackling and  
interference was weak.

The Punahou did excellent work.  
From what can be learned the Town-  
ies will have to fight a much stronger  
team, as other material will be on  
hand in the championship game that  
is to be played on Thanksgiving day.  
David Dayton and Conner W. H.  
Babitt are among the new men who  
will add strength and spirit to the  
Punahou team.

The Regiment had the kick off at  
the opening of Saturday's game. The  
Punahou scored a touch down five  
minutes afterward. Ella Long secured  
a second touch down for his team  
by breaking through the left end. It  
was the splendid interference of the  
Punahou team that enabled him to  
do this.

The Regiment did clever work by  
picking up the ball on Punahou's fumble  
and by clever plays through the  
center scored a touchdown.

From this on the Punahou team scored  
touchdown after touchdown. Geo.  
Fuller, Prince Cupid and Antonio  
Long performing the honors.

Carlo Long, center rush for Punahou,  
was injured in the left thigh and  
his place was taken by W. Rawlins.  
Will Soper succeeded Ella Long as the  
right half and Professor Ingalls went  
to quarter for Kluge.

At the opening of the game the  
line up was as follows:

Regiments—Sam Wallis, center;  
John Cockett, right guard; G. Hough-  
tailing, left guard; H. Peterson, right  
tackle; M. Hirschman, left tackle; W.  
Sproat, right end; H. Myrhe, left end;  
E. Kilby, quarter; R. Friedersdorf,  
right half; Gus Becher, left half; Ed  
Austin, captain, full back.

Punahou—C. Long, center; J. L.  
Howard, left guard; J. Lane, right  
guard; C. Holt, right tackle; S.  
Johnson, left tackle; A. Lawrence,  
left end; H. Kluge, quarter; Cupid  
Kalanianale, right half; E. Long,  
captain, left half; G. Fuller, full back.

### AT CYCLOMERE PARK.

Large Crowd Witnesses Some Fine  
Racing.

George Sharrick, champion of the  
Pacific Coast cyclists, won his match  
race with Allan Jones of San Fran-  
cisco at Cyclomere Saturday evening.  
The first mile heat was won by Shar-  
rick in 3:37.3-5. Jones fell from his  
wheel at the finish. The second heat  
was won by the Tacoma man in the  
time of 2:29.2-5. Jones finishing a  
close second.

M. Rodriguez won the first heat in  
the mile novice and Nigel Jackson the  
second heat. Rodriguez took the final  
heat in 2:51. Jackson coming in sec-  
ond.

D. G. Sylvester won the half mile  
professional in 1:07, having 80 yards  
handicap. Whitman was second. Mar-  
tin and Sylva collided in this race.

E. Williams won the mile open for  
boys and J. Botelho was second. The  
time was 2:46.4-5. Young Crabbe fell  
in the first lap.

Tom King won the first heat of the  
two-thirds mile amateur handicap in  
1:42. Damon won the second heat in  
1:50. The final heat was won by King  
in 1:48.2-5, with Damon a very close  
second. Both started from the  
scratch.

### THE MATCH SHOOT.

By a score of 403 to 395, Company D  
won over Company B in the shoot for  
the Elvin trophy.

Following is the score of the two  
teams:

D—Harris 44, Sam Johnson 43, Bur-  
nette 42, Butler 41, Captain Berg-  
strom 40, Cook 40, Lemon 40, Boyd 39,  
Bergan 38, Smith 36, Total 403.  
B—Atherton 42, Riley 42, Olson 42,  
Fraser 42, Winant 40, Ward 39, Giles  
38, Angus 37, Weedon 37, Thrum 36,  
Total 395.

## THE FOREIGN NEWS.

Dates have been received by the Belgie from San Francisco to Saturday, the 30th. No very important events are reported as having occurred. The death of Henry George, one of the rival Democratic candidates, which occurred three or four days prior to the date of the election, would seem to strengthen the chances of success of the regular Democratic or Tammany ticket, headed by Van Wyck. Although the name of Henry George, Jr., was promptly adopted by the party, thus making no change in the printed ballots, it is not likely that the son received the support which his father would have had.

The reply of Spain to the offer of the United States to mediate in Cuban affairs—a summary of which appears in the New York World—is spoken of as a masterly effort in diplomacy, in which Spain presents her side of the case with great skill, respectfully declining the offer of mediation, and clearly stating how the United States has failed to act the part of an impartial observer. The full text of the dispatch will probably be received by the next mail.

## THE FUR SEAL QUESTION.

An international conference is now in session at Washington to discuss measures relative to the protection of fur seals in the Northern Pacific. The parties directly interested as owners of the fur seals and their breeding grounds, are Russia, Japan and the United States. Great Britain was invited to join the conference, and consented to do so, but later, at the instance of Canada, as was thought, withdrew, and declined to be a party to it. Experts from various countries have given testimony, and it is said that the conference has advanced to an important stage, and accepted a proposition which will make a complete change in the sealing question. This proposition provides for the suspension of all pelagic sealing for a specified period of years. Such a decisive step, if agreed to by Russia, Japan and the United States, would, it is understood, not involve any concerted action to menace the claims of Great Britain and Canada to the right of pelagic sealing on the high seas, but would rather be a proposition expressive of the conclusions of the three most interested powers that in the interests of humanity and the preservation of the seal herds of their respective governments, all nations, including Great Britain and her colony, Canada, should unite with Russia, the United States and Japan, in such effective prevention of pelagic sealing on the high seas as will put an end to it, and thereby secure the preservation of the seals.

## TUBERCULOSIS CURED BY ELECTRICITY.

A cure for this disease has recently been discovered by a Dr. Crotte of Paris. His method is characterized by the use of electricity, which, however, only plays a limited part in his process. He uses electricity—the old fashioned frictional sort—and powerful antiseptics, believing the first allows the second to get in its work. The electricity he employs is produced by the old fashioned machine consisting of a glass plate which revolves between rubbers. He resorts at the same time largely to antiseptics, the one which serves his purpose being "formal." He prefers this to any other, partly because it can be administered in a gaseous form, thus penetrating more intimately into the system, partly on account of its recognized action upon living tissue. In recording the facts of this new treatment, the Petit Journal of Paris, commenting on its apparent simplicity, remarks that one-sixth—some say one-fourth—of civilized humanity is tuberculous, and that undoubtedly many are cured by the unaided efforts of nature. In proof of this it is pointed out that in many instances post mortem examinations reveal the tell tale scars in the lung tissues, all showing that the subject at one time must have been consumptive. Therefore, since nature unassisted by doctors or science can perform these cures, what may not be hoped, it is asked, in the future, provided the right way to help her in her healing work be really discovered? Dr. Fran-

cisque Crotte believes he has laid his hand on the right way to combat tuberculosis by the combined use of electricity in its simplest form. It now remains to be seen what the Academy of Sciences will report in connection with his treatment, applied to animals as well as humanity.

## THE BICYCLIST'S DREAM.

An anonymous writer contributes the following sentiment, which must have been composed on a prize bicycle, while speeding over Kewalo track at a 2:30 pace: "All the world's a cycle path; all men and women are born cyclists; all in their cycling race of life have their 'tumbles' and their 'punctures,' and all in their rounds ride many a favorite bike, till the end is reached, when cycles change to angel wings, bearing their riders past unknown cyclomeres, beyond this mundane cycling sphere."

## BET SUGAR PLANT FOR DENVER.

Plans contemplating the investment of from \$500,000 to \$1,000,000 by eastern capitalists in sugar factories and refineries, have been consummated in Denver, Colo., and an agreement has been signed by 100 farmers pledging themselves to the cultivation of 1000 acres of sugar beets for the purpose of supplying the material to these factories and refineries with which to carry on the industry. It is expected that a sugar refining business amounting to a million and a half will be established in the state.

## Timely Topics.

November 3, 1897.

The days are dark and dreary; the nights are dark also. Darkness comes early, too. The moon is a bit unreliable—but our lamps—never. The subject of lamps is a good one at the present time. We can talk about lamps because we carry a stock that cannot be excelled in Honolulu. They come in all sizes, styles, and prices. We have hanging lamps, from moderate cost to elaborate designs; hall lamps; piano lamps; banquet lamps; lamps for the boudoir; nickel-plated lamps for students; bracket lamps; two, three and four-light chandeliers. We have mammoth Rochester lamps which can give electric arc lights cards and spades for brilliancy. Some people go through the house in the middle of the night playing blind man's buff over tables, chairs and other old things, in vain attempts to locate a particular object, when if they had a small night lamp, such as we sell, they might have avoided personal injury and the breaking of a commandment. A piano lamp would add wonderfully to the appearance of your parlour—why not get one now? It will make your home comfortable—and comfort and happiness go hand in hand. Besides, you can get one without spending the last dollar you've got.

**PICTURES READY TO HANG**

AT THE KILOHANA ART LEAGUE EXHIBITION.

About Sixty Pictures on the List—Mr. Wuttke's Work to be Seen—Some of the Exhibitors.

The rooms of the Kilohana Art League were thrown open this morning for the reception of pictures for the semi-annual exhibition, which opens next Monday evening. The exhibitors are somewhat less in number than at the last exhibition, and canvases not so numerous, but an excellent showing will doubtless be made. According to the present prospects there will be between fifty and sixty pictures on exhibition, representing the labors of about a dozen devotees of art.

Of course Howard Hitchcock's work will be the chief attraction on the list. He has some fifteen canvases, all in oil, and will be about the only exhibitor in oil. He has gone in this time for evening effects, and his efforts have been crowned with success. There are among the pictures, however, some bright and pretty sunlight things that will prove attractive. It is needless to say that his subjects are all Hawaiian, and all, with a single exception, from studies made on the big Island. On the whole, his collection is a very excellent one.

Mrs. Graham has sent in a pretty cluster in water colors, some fine wood carvings, and has promised some things in plaster that will be very acceptable. She has done a lot of work.

Miss Nalte will have some nice things in painted china to show. Her work is charming and is bound to attract attention.

Miss Bessie French will exhibit some pretty things in water colors, and so will Mrs. Kelly and Miss Bessie Afong. Philip H. Dodge will have three canvases up, and A. A. Macurda will send something in.

Mr. Davey, the photographer, is going to have some of his color work on exhibition.

An effort is being made to induce C. Wuttke, a clever artist of Munich, who is a visitor in the city, to exhibit some of his work. His pictures will not be regularly entered, but merely put on exhibition in order to add interest, and give the author a chance to get acquainted with the local patrons of art.

The pictures will be hung by the end of this week. On Monday evening the exhibition will be opened to members, and on Tuesday, the 16th inst., to the public at large.

**DEATH CAME AT LAST.**

Major C. T. Gulick Passed Away Yesterday Morning—Funeral Tomorrow.

Major Charles T. Gulick died shortly after 9 o'clock yesterday morning at his home on King street.

The direct cause of death was a cancer. He has been an intense sufferer for the past two years.

Major Gulick came to Honolulu when he was 9 years old. He was 56 years of age at the time of his death. He was with the Honolulu Iron Works for a number of years, and was prominently identified with the monarchy, several times being a member of the Cabinet. During the last revolution he was arrested for misprision.

The funeral will occur tomorrow afternoon at 3:30 o'clock from the residence, and will be under the direction of Ed A. Williams. The old volunteer firemen and Masons will attend in a body. The Masonic ceremonies will be preceded by a service by Rev. H. H. Parker.

**THE PALL BEARERS.**

The pall bearers at the Gulick obsequies will be Hugh McIntyre, D. Dayton, C. H. Eldridge, J. M. Monsarrat, W. M. Graham, Rev. Alex Mackintosh, John Soper and D. B. Smith.

**WAS A TRUE COMRADE.**

Volunteer Firemen Regret the Loss of Major Gulick.

All the old volunteer firemen will attend the funeral of the late Major Gulick tomorrow. The members of engine company No. 1 will assemble at the old Bell Tower at 2:30 o'clock, where they will adopt resolutions and attend the funeral.

Major Gulick was secretary and treasurer of this organization for 21 years.

**AN ACID TANK EXPLODES.**

Frank Freitas, a helper in Wright's blacksmith shop, was seriously injured this afternoon by the explosion of an iron acid tank.

The head of the tank blew out, and struck Freitas in the calf of the leg, knocking him down, and passed on out through the roof.

**HOW TO CURE BILIOUS COLIC.**

I suffered for weeks with colic and pains in my stomach caused by biliousness and had to take medicine all the while until I used Chamberlain's Colic, Cholera and Disarrhoea Remedy which cured me. I have since recommended it to a good many people. Mrs. F. Butler, Fairhaven, Conn. Persons who are subject to bilious colic can ward off the attack by taking this remedy as soon as the first symptoms appear. Sold by all druggists and dealers. **Can't Eat**

This is the complaint of thousands at this season. They have no appetite; food does not relish and often fails to digest, causing severe suffering. Such people need the toning up of the stomach and digestive organs, which a course of Hood's Sarsaparilla will give them. It also purifies and enriches the blood, cures that distress after eating and

**Distress After Eating.**

"I have been troubled with indigestion for some time. After eating anything that was sweet I was sure to experience great difficulty and distress. Last fall I began taking Hood's Sarsaparilla and am glad to say that my stomach trouble has entirely disappeared. I can now eat a hearty meal of almost any kind of food and have no trouble afterwards. Hood's Sarsaparilla has also cured me of nervous spells." JOHN H. HOMERGAARDEN, Wheatland, Iowa. FEDERAL JUDGE HOLDS THEM EQUAL WITH MEN.

An Opinion That May Nullify the Existing Exclusion Law—Has a Strong Local Bearing.

Since the Cabinet has decided to follow to the letter here the Chinese exclusion laws now existing in the United States, Circuit Judge Hanford in the case of Mrs. Guelim, recently filed at Seattle, will be of some interest here, especially because if it is upheld by the Supreme Court most legislation will be necessary to keep the Chinese out. Says a recent dispatch in the San Francisco Chronicle:

"Now that the written opinion is on file it is said that United States District Attorney Brinker will immediately place its contents before Attorney General McKenna in the expectation that immediate steps will be taken to have the decision appealed from. Government officers say that if the higher courts sustain Judge Hanford, Congress will have to enact a new exclusion law."

"In his decision Judge Hanford recites the fact that the defendant is the wife of a Chinese merchant, lawfully domiciled and doing business as a merchant in this State. She was arrested because she came to this country without a certificate from her home government. The question in the case is, says the Court, whether she was entitled to be admitted on her arrival without the certificate required of Chinese persons privileged to enter by Section 6 of the act of 1884. Judge Hanford refers to a case which came before Judge Dundy, of Portland, Ore., in 1890. Judge Dundy held that the wife and minor child of a Chinese merchant, lawfully residing in the United States, were not of the laboring class, and therefore he held that Section 6 of the act of 1884, if applicable to such cases, must necessarily be to exclude them and deprive them of the rights granted by the treaty of 1880."

"I find, says Judge Sanford, support for this decision in the opinion of Judge Sawyer in the case of Ah Moy, wherein he shows that the Chinese exclusion acts were intended to apply to laborers as a class, and that the wife of a Chinese person has the same status as her husband, and belongs to the class to which he belongs, whether she is in fact a laborer or not. Also in the decision of the Supreme Court in the case of Lau Ow Bew, wherein it was held that a Chinese merchant having an established mercantile business in the United States and maintaining therein a commercial domicile, upon returning from a temporary absence, was entitled to enter and remain in this country without producing the certificate required by Section 6 of the act of 1884."

"I agree with Judge Dundy that the admission of Chinese merchants with their families is not to be regarded as a mischief which the Chinese restriction and exclusion acts were intended to remedy. Chinese merchants in this country are doing an important part, and no benefit whatever can accrue to the people of this country by depriving them of the liberty to dwell within our borders with their families under the protection of our laws."

**A LITTLE CAKE TALK.**

Cake is cake; yes, sir; just as water is water. Some is good; some very good; some past description—bad. Some cakes you buy are made in an indifferent manner, of poor material and flavored with what? You can taste the Asiatic maker and his cigar or cigarette at the first bite. Why not buy a good article from a clean, well conducted shop, where tobacco is never used and where cleanliness is practiced to an extent almost unknown in the average bakery. We will make you a layer cake from 50 cents up, tastefully ornamented, and guaranteed good to eat. Our ginger snaps and ginger bread are selling like hot cakes. Have you tried them yet? Yours,

Few people realize how much of the artistic instinct enters into the creation of a thoroughly stylish though "somewhat different" tailor made suit. **Company.**

The cleanest, brightest safest and really, in the long run, the cheapest and best light for use in the family residence, is the incandescent electric light. Safe: nothing could be safer. A few days ago a prominent gentleman of Honolulu came rushing down to the office of the Electric Company and said: "Give me figures for wiring my house, and I want it done at once; no more lamps for me. Last night a lamp tipped over and it came so near setting fire to the house and burning my children and I take no more risks."

This is the sentiment of quite a number in the past few weeks, who have ordered their houses fitted with the perfect light.

Just think it over and make up your mind that you want the best and safest light; send for the Hawaiian Electric Company and tell them what you want.

**WHALEERS FAST IN THE ICE**

EIGHT VESSELS DOOMED TO SURE DESTRUCTION.

The Food Supply is Short and it is Believed That the Loss of Life will be Very Great.

Eight whalers, instead of five, as previously reported are fast in the ice off Point Barrow, and on at least one of them, the Jeannie, there will be great suffering. Not only is the ship so far away that there is no chance to take her supplies, but her men who are facing a food shortage, have no appliances with which to make the shore, over 150 miles of ice.

The full list of the vessels known to be fast in the ice in addition to the Jeannie, are Newport, Orea, Jessie Freeman, Belvedere, Fearless, Rosaria and Wanderer. The news of this condition of affairs in the whaling fleet was brought out of the Arctic by the steamer Karluk, which was barely able to reach free water with her seven whales. The ice was fast closing in about Point Barrow when the Karluk made her way southward. As the floes were driven in by the wind the little steamer was kept busy backing and filling, dodging about a floe, until at length she found herself all clear and through the straits.

The catch of the Karluk is one of the heaviest of the season, although all of the whalers which had been spoken had made some progress, says the San Francisco Chronicle. The Karluk reports that none of those vessels which are stuck in the ice are close to any supply station and there will be trouble for the men on board them sure. The ships are separated, and no communication was had with them by the steamer which escaped. The Karluk left St. Michaels October 14 and is expected to arrive here in a few days.

The ice tongue is a great field of ice that extends southerly from the far northern polar region down nearly to Behring straits and wages with the wind between the Alaskan and Siberian shores. The tongue is of perpetual ice, and with a westerly wind in the Arctic seas for a few days the great mass of the grinding floe is carried over to the eastward until it rests against Point Barrow and completely blocks the passage of vessels to the whaling grounds north of the American continent. But it leaves a wide space of clear water along the coast of Siberia.

The ice tongue is relentless. Few vessels have been known to escape out of its grasp. The Navareh, that a few weeks ago was reported wrecked with the loss of more than half of her crew was caught by it before she could make her way past Point Barrow, and there is little hope of ever seeing even a bit of wreckage from her. In 1871 thirty-three whaling vessels were wrecked up by the tongue of ice, and only a few shattered timbers were ever seen of them afterward.

Five years ago twenty-two vessels were caught in the ice the same way and none of them escaped. They were all crushed during the long Arctic winter.

LIKES A GENTLEMAN'S GAME.

"Brick" Whitehouse Says Order Should Prevail in Football.

L. M. Whitehouse, known among his friends as "Brick" Whitehouse, is one of the best football authorities in the Islands. He has played on different college teams and is an admirer of good manly sport.

In speaking of football he said: "I sincerely trust that the season's games will be played off without any ill feeling among the men. Where two teams decide on officials for a game the least they can do is to abide by their decision, no matter if the decisions appear to be incorrect. It is utterly impossible for any official to please everybody on each ruling, as two men seldom see a point in the same light. A man that cannot play football without losing his temper should not play at all, as he cannot play the game he is capable of playing if his mind is continually in a revengeful ferment. No one but the captain should say a word while on the field of play, and every player on the team knows this."

The three year old boy of J. A. Johnson of Lynn Center, Ill., is subject to attacks of croup. Mr. Johnson says he is satisfied that the timely use of Chamberlain's Cough Remedy, during a severe attack, saved the little boy's life. He is in the drug business, a member of the firm of Johnson Bros., of that place, and they handle a great many patent medicines for throat and lung diseases. He had all these to choose from, and skilled physicians all ready to respond to his call, but selected this remedy for use in his own family at a time when his child's life was in danger, because he knew it to be superior to any other, and famous the country over for its cures of croup. Mr. Johnson says this is the best selling cough medicine they handle, and that it gives splendid satisfaction in all cases. Sold by all druggists and dealers.
