GOOD CONTEST IN VIEW

BALL GAME OF HONOLULU VS. FIRST REGIMENT.

New Pitcher for the Town Team—Wood to Be in the Box—Baker III—Effort to Stop Loud "Roosting."

The ball game between the Honolulu and First Regiments tomorrow afternoon will be contested for all there is in it. It will be the last chance the former will have to meet one of the strong clubs and they will try for a record play. On the other hand the soldiers realize that they will have to win both of the next two games to even up with the Stars and get a deciding contest.

The Honolulu will spring a surprise in the way of a new man in the box. It is H. Meek, the old pitcher of the Hawaiis, and a very hard man to bat. He has been in training for two weeks. George Woods will pitch for the First Regiments. Baker is sick and will not likely be able to play. This will greatly weaken the soldiers and give the Honolulu the best chance they have yet had.

Following are the teams as they will go in:
Honolulu. First Regiments.
Dayton Cunha
Meek Wood
Wodehouse Simerson
Lucas W. Woods
Lemon Gleason
Clarke Cummins
C. Holt Luluwa
E. Holt Hansman
Cupid Carlyle

There was unusual noise and "guying" in the grand stand at the base ball park last Saturday. A few bleachers made themselves conspicuous. The police seemed to have no orders to check the disorder. A San Francisco party who was present remarked that such racket would not be tolerated in an American town. Complaint has been general about this particular case. The base ball men are hopeful that disorderly persons in the grand stand will be brought up with a short turn tomorrow and on future occasions. They say the way things are allowed to go keeps a number of good people away from the games.

Take Warning

Any lady who neglects to buy some of the printed laws now offering at Kerr's at the ridiculously low price of 12 and 10 yards for \$1.00 deserves never to have another bargain offered to her. These goods are exceptional, and were cheap at the original price of 15 cents.

Business Men Appreciate Them.

A business man is quick to appreciate any labor-saving device. The business men who are the most successful, use a typewriter. They find that they can accomplish more and better work. No progressive business man, once acquainted with the usefulness of a typewriter, could be induced to change. The Peerless typewriter is a modern, up-to-date machine. Strong, simple, durable. AN INFUX OF CHINESE

NOT LABORERS, BUT CANDIDATES FOR COLLEGE.

Nearly One-Fourth of the Attendance at Punahou Preparatory—A Meeting on the Problem.

Something in the nature of a capture of the Punahou Preparatory school, on Beretania street, was made by the Chinese at the opening of the term this week. Professor French in principal here. He was considerably surprised and perhaps somewhat perplexed when twenty-six of the young Chinese who attend F. W. Damon's religious training institution appeared for enrollment at the branch of the old college. He seated them and found his total attendance 127, making the Chinese proportion nearly one-quarter. The boys and girls did not like the invasion. They had not noticed a few Chinese, but the great number flooded in at one time puzzled and bothered them. They told of the fact at their homes and many parents at once protested and complained. The objection seems to be simply that there are too many Chinese. The children of that race have always been well behaved and tractable in the schools, but there are many who remarked outright that the institution would soon be a Chinese establishment.

The trustees were in session on Thursday for nearly four hours discussing the situation and the problem and seeking for a way out of the difficulty. It was learned that the Chinese parents have conceived the notion—whether or no there is a foundation for it—that they are not welcome at the High School, a Government place of education. Goo Kim and others said that at Punahou the young of their race were always well treated.

There is a desire quite general on the part of those interested to make an adjustment that will be satisfactory to the old patrons of the school and college. To this end a test will be provided for entrance, the qualification being based on a recognized scheme. Its chief feature will be as to familiarity with the English language.

TRACK SCHEME.

All Seem in Favor of the Project for a Wheeling Course.

The proposed race course at the foot of Queen street is exciting great interest among local wheelmen. Never before has the opportunity presented itself to get a track so near the town center. The site is admitted to be perfect. All required is digging a drain pond and laying out the course. The soil will then be as hard as any in the country.

An additional scheme is to lay a horse track around the wheel course. By making the latter one-third of a mile the former can be made a half. It will cost little and will give an excellent short course near town. Mr. Desky prefers that the H. A. A. C. take hold of the scheme.

NON-COM. BOARD.

The non-com. board will meet in special session at regimental headquarters at 7:30 Monday evening to examine a few candidates who were unable to get out last week. Those to appear at that time are: M. Hirschman, Company F; W. H. Smith and H. Zerbe, Company D; Henry Klemme, Company A.

CHINESE ORCHESTRA.

A decree remanding the case of J. C. Ching vs. Lee Wai, et al., back to the Circuit Court has been signed by the Supreme court. The duty of the lower tribunal will be to ascertain just what instruments interfere with plaintiff's "sleep, peace and quiet," and stop them from playing.

BRYAN GETS THE BLAME

SUGAR AND THE POLITICAL AND FINANCIAL PERIOD.

A Hope for Relief in the Election of Maj. McKinley—Time Is Short—Centrifugals and Beets Down.

(Circular Letter No. 197.)
Honolulu, H. I., Sept. 10, 1896.
By the arrival of the S. S. Rio Janeiro this morning we are able to give you the following latest sugar news, dated up to the 3rd:

CENTRIFUGALS—These have taken a further drop to 3 1/4 for 96. No doubt this is caused by the political and financial situation, under which it is impossible for any improvement in trade to occur; you will observe thus far that the decline has been confined to spot sugars; holders of these undoubtedly are without courage and think it prudent to let themselves out before matters become worse. Fortunately the election is but two months off and we hope for a relief in the election of Mr. McKinley.

Following are the sales reported since our last: Aug. 29, 2400 bags, spot, 3 5/16c for 96; Sept. 1st, 400 bags spot, 3 1/4c for 96.
GRANULATED—The prices are unchanged, being 4.56c in New York and 4 1/2c in San Francisco.

BEETS have also taken a downward turn as you will note by the following quotations: Aug. 29, 98 2 1/4d per cwt; Aug. 31, 98 per cwt.; Sept. 1, 98 10 1/2d per cwt.

SUGAR STOCK seems to have taken exceptions to the downward tendency and shows its confidence in the ultimate results of the financial disturbance by steadily advancing. We give you below the closing quotations on dates given:

	Common	Prefer.
Aug. 29th	\$106 1/2	\$ 96 1/2
Aug. 31st	108 1/4	97 3/4
Sept. 1st	108 3/4	98
Sept. 2nd	112	99 1/2

ARRIVALS—There have been none.
SAILINGS are S. G. Wilder, for Honolulu, on the 30th ulto; Muriel, for Honolulu, on the 31st ulto.

VESSELS ON THE BERTH are Martha Davis, for Honolulu; no sailing date.

BICYCLE MEET.

The Half Century and Short Races for Tomorrow.

A large number of seats have been sold for the bicycle races at Kapiolani Park tomorrow afternoon.

The fifty-mile (half century) race will be the great event of the day. This race will be the first on the program. The two eighths and quarters will be run in the interim, thus keeping up the interest. Mr. Horstman has a record of 497 miles in 37 hours, 13 minutes and 11 seconds, which has not been beaten.

Sylvester and Sylva are well known from the number of races that they have taken part in, and for their plugging qualities as demonstrated by their individual time in the races around this island.

This will be no one man's race until the finish. The other races will be equally interesting. A large crowd is expected. The races will commence at 2:30 sharp.

PRICE TOO HIGH.

Obstacle Met in the Introduction Here of a New Horseless Carriage.

Theo. Hoffman reports that his effort to bring a horseless carriage to Honolulu is for the present a failure. He ordered one at the catalogue price of \$600. The firm has replied that the cheapest vehicle they now handle will cost \$1,250. From that figure the electric roadsters range up to \$5,000. Mr. Hoffman thinks the price too much for the luxury and will not order on his own hook. Another party is interested in the subject, however, and he and the electric light man may go halves and buy a carriage of good grade.

SHE IS A FINE STEAMER

TO MAKE A NOTABLE TRIP

A Passenger Steamer—Her Dimensions—Of English Build—Carrying the Hawaiian Flag.

The new Hawaiian steamer Aztec is not a bad looking craft. "Oh, she's a tramp about the size of the Albatross," said somebody who had looked at her yesterday. Not so. The Aztec is a first class passenger and mail steamer and will make San Francisco in seven days. She has the best of appointments and a fine set of officers. At present she is out of a job, but is destined to have a regular run before many moons.

The gross tonnage of the Aztec is 3508.43. Her length is 350 feet, breadth 43 feet and depth 29.3. On her present trip to Honolulu she brings 4,652 tons of coal. This is a big cargo and the vessel sets low in the water. She has four large hatches, two forward and two aft. After the Rio sailed Thursday afternoon the Aztec came in to the Pacific Mail wharf and is discharging her coal there.

The Aztec was built in England. She was originally the Canterbury. A few years ago she was purchased in San Francisco and put on the Panama route. At that time her name was changed. She now belongs to the Pacific Mail company. A short time ago they secured a temporary Hawaiian register for her and raised the flag of the islands on her main. Her business here at present is to secure a permanent register. She left San Francisco on August 23 for Nantaimo, B. C., and sailed from the latter place seven days later. From here she will return to San Francisco. There is talk of running her regularly to the Islands after a time.

GAINSBOROUGH.

Said to Be No Hope Now of Saving the Iron Hull of the Bark.

Hope of saving the wrecked bark Gainsborough is a thing of the past. She has bilged and the water in her rises and falls with the tide. At high water she stands sixteen feet and at low tide fourteen. If pulled off the reef, upon which she is firmly imbedded, she would certainly go straight to the bottom.

One of the most competent of the several admirals who have had the vessel in charge says if left to himself he would put several loads of light lumber in the hold with the hope of floating her to the marine railway. She is wide open at the bottom and a hundred pumps would not lessen the volume of water in her hold. The cent is being taken off as rapidly as possible.

OAHU PLANTATION.

Head Man of the Enterprise Will Soon Return to Oahu.

A substantial move is now being made in the matter of the new Oahu plantation. The proposed company is at present engaged in resurveying the tract and making analysis of the soil. Paul Isenberg, Sr., will shortly arrive in Honolulu, when the company will be formed and the papers signed. Everything should be under way inside of two months.

But Mr. Dillingham is looking still farther ahead. He has now evolved a scheme for another great plantation. The site is on the low lands at Waiiala. This will be taken up as soon as the new Ewa venture is under way. It is expected that the railroad will be extended as far as Waiiala within the next two years.

HEELED HER OVER.

The handsome ship John Ena, named for a well known citizen of this country, had an experience with the terrific and fatal explosion of the Pinole Powder mills, near San Francisco. The Ena was under tow by the crack tug Fearless of the Spreckels line. The pair were opposite the mills when the explosion took place. The tug was brought to a standstill for a few seconds from the concussion and the ship heeled over as if in a great gale.

S. T. ALEXANDER AT THE HEAD OF A TRAVEL PARTY.

In the South Seas—To Go First to Tahiti—Will Wind Up at Honolulu—On Unbeaten Paths.

OAKLAND, Aug. 30.—S. T. Alexander, the wealthy Hawaiian planter who lives in Oakland, will start next Wednesday with a little party upon an exploration of nearly all of the little known islands of the South Sea archipelago. The party will be composed of Mr. Alexander, his brother, the Rev. James Alexander, who is the author of a work on the islands of the South Seas, and Miss Annie Alexander, the daughter of the gentleman who heads the expedition. Miss Alexander will be the first American woman to set foot in many of the places that the party expects to visit, and the trip will be completely out of the beaten paths of tourists. It will be partly for exploration and partly for pleasure, and will occupy the greater part of a year. The start will be made from San Francisco on Wednesday next on the barkentine Galilee, and from the time that the vessel leaves the Golden Gate it will turn as far away from the usual Pacific ocean routes as it is possible to get and steer southwesterly for the Marquesas Islands.

This is a little group of islands that are under the control of the French. They are the most easterly of the Oceanic islands, and they are very far away from even the usual South Sea islands trading course. These islands will be thoroughly explored and then the party will move westward to the Society Islands, of which Tahiti is the largest and most known. This is a very wonderful island and very beautiful, and the party will make a stay in the group of a month or more, going into the interior of the islands, where few white people have ever been.

The Cook or Harvey Islands will next be explored, the headquarters of the party being at Rarotonga, the chief of this group. By this time it is expected that supplies will have been somewhat exhausted, and a trip will be made down to New Zealand for a very short time, and to refit.

They will then go nearly northward to the Tonga or Friendly Islands, to Samoa, over to Fiji and all through the wonderful islands that make up the many groups in this neighborhood. The interiors of all of these islands will be visited and the flora and fauna studied carefully. As the visitors to these islands are almost exclusively traders and those who care only to touch on the coast, Mr. Alexander will probably add something of importance to the knowledge of the world upon these islands.

A return will be made to New Zealand, and this island will be gone over very thoroughly. If the party is well at this stage of the trip they will go to Sydney, Australia, and then to Brisbane on the same continent. From there they will go to Java and make a trip through this island. They will wander through the many islands of this neighborhood, will finally go up to Singapore, and will then touch at all of the ports on the Chinese and Japanese coast, going to Canton, Hongkong, over the scene of the late Chinese-Japanese war, and will return to Oakland, stopping at the Hawaiian Islands, their old home, where they will be the guests of President Dole, who is their warm friend.

THE COURT ON KAUAI

CIRCUIT TERM CASES OF INTEREST ARE HEARD.

Attendance of Attorneys—A Pake

Sorry He Appealed—Reasonable

Doubt—Lihue Is Pleasant.

Star Newspaper—The Circuit Court

of the fifth judicial circuit, Island of

Kauai, was opened on September 2,

Judge Hardy presiding. There were

about fifty cases, civil and criminal, on

the docket.

The Attorney General was present

and prosecuted some cases on behalf

of the Government. The criminal

cases this term are principally misde-

meanors.

When I left one Chinaman had been

convicted of larceny and sentenced to

imprisonment for three months, he

having appealed to the Circuit Court

from a District Court, when for the

offense he was sentenced to pay a fine

of \$50. His appeal landed him in jail.

Exceptions filed.

Two Chinamen were placed on trial

for conspiracy but escaped because of

a "reasonable doubt" in the minds of

the jury. Reasonable doubt is an old

horse and has been ridden for at least

seven centuries. Lawyers still find

him valuable, and in criminal cases

when everything else fails, use him.

The lawyers in attendance, including

Deputy Attorney General Dole, are Mr.

Stanley, Mr. Magoon, Mr. Rosa and

your correspondent.

The cases on the calendar cannot be

gone through with this term. One im-

portant civil case, involving valuable

water privileges, is now on trial and

Mr. Magoon will as usual hurry the

case through, but it is likely to last

some time, notwithstanding the efforts

of this well known attorney. The

court will not adjourn for at least ten

days.

Your correspondent found justice

administered as well as it is anywhere

he has been. The presiding magis-

trate is respected by the lawyers, jury-

men and suitors for his marked im-

partiality.

The hotel accommodations and bath-

ing privileges at Lihue are equal to

any in the neighboring Republic; the

people are kind and hospitable and

your correspondent will remember

with pleasure his short visit to the

Island of Kauai. LEX.

"STYLE" IN FURNITURE

It is equally as poor taste to buy "out-of-date" Furniture as an "out-of-date" Bonnet or Wrap. We have the advantage of all others in having the only absolutely new and "up-to-date" stock of Furniture exhibited in Honolulu—and yet we ask less than you pay for the old elsewhere.

Bedroom Suits.

In Oak or Birch, are selected by people whose tastes run to the refined or elegant. For room decoration as well as for service, there is a certain elegance and richness about these woods not found in any other, and yet the prices are not what you would imagine them to be. Birch sets, with dressing cases having cheval plate mirrors, are preferred by ladies because the long glass allows them a view of the full figure. The old fashioned large, square glass is quite as fashionable and as much in demand because the bureaus to which they are attached give larger space for clothing.

We have them in all styles and in modern designs. Price, from \$25 to \$40.

Chiffoniers.

In these days when the ladies require many changes of clothing, there is a demand for space in which to put things away. The bureau drawers are crowded. A Chiffonier is necessary in every house where store room is scarce. These are made nowadays for gentlemen as well as ladies; some have a drop lid which unfolds to the gaze a regular receptacle for pens, ink, paper and other articles of stationery.

Side Boards.

Nothing sets off a dining room to more advantage, or adds to its convenience more than a Side Board. No dining room is complete without one. We have them to suit all tastes and purses.

China Closets.

There is scarcely a family in Honolulu, or anywhere else on the Islands, who has not a few choice bits of china stowed away in out of the way places. Give them light—let your friends see them.

China Closets in oak are the proper thing, and a dining room is not complete without one;—the price has been an obstacle in the past, but over-production by a leading furniture maker in the States has helped us to offer them to you at ridiculously low prices. See those with the oval glass. Prices range from \$20 to \$45.

Secretary Book Cases.

Wall pockets and shelves for books are out of date; fashion demands something more modern and more artistic in design.

The Way to Tell a Good Bicycle

From a bad one is very simple if you follow the rules correctly. Start at the tire on the front wheel and go upwards, carefully inspecting every spoke, nipple, etc., and when you come to the steering head stop for a moment, and if you see anything like this

You are lucky. You can then stop your inspection, and take it for granted that the bicycle is all right.

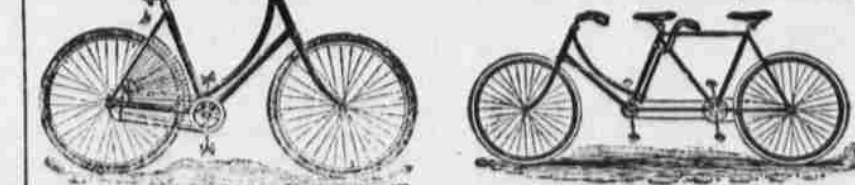

Cleveland Bicycles have a World-Wide Reputation, and there is no risk in purchasing such a good wheel.

Cleveland have been sold in this city for the past five years and not a Frame of a Cleveland Bicycle has ever broken. This is a record that no other bicycle sold here can claim. Cleveland riders are proud of their mounts.

Pains and Aches Vanished

PAINE'S CELERY COMPOUND CURES AFTER SIX YEARS OF SUFFERING.

SAN FRANCISCO, CAL., April 5, 1894.

WELLS, RICHARDSON & Co.,

Gentlemen:—I have been tortured for the past six years with sciatica, and since the beginning of this year have been almost entirely confined to my room, unable to move myself without great trouble. I have had leading doctors prescribe for me, but have got little relief from them. My nerves became so unstrung through loss of sleep and worry that I felt certain I should go crazy, and any little thing would shake them so I could not work.

Noticing your advertisement in the newspaper, I decided to try Paine's Celery Compound, for I had many times heard of celery being a good thing to build up the nerves. The result was indeed magical. After finishing half a bottle, my pains and aches seemed to vanish. I have now taken six bottles and feel as well as I ever did. I am now able to sleep soundly and eat three square meals a day, something I could not do before I used Celery Compound. I am thoroughly recovered from sciatica, and am thankful to have found a medicine which readily does all that it claims.

Sincerely yours,

Outhbert Lawson

FRIDAY, SEPTEMBER 11, 1896.

Spain might with fine profit sublet its Cuban contract to Great Britain.

Trainloads of California fruit have been sold at auction in New York and London at less than the freight charges. Hawaii's export trade has never been hit like that.

It must indeed gladden the hearts of the Summer School promoters to see a number of its graduates win higher grade certificates than they would otherwise have been able to obtain.

If the Independent or any other paper will point out a single erroneous or misleading statement in the recent editorial "Hawaii Nei Today," The Star will cheerfully make complete correction.

The much discussed and long delayed project for a bicycle race track for Honolulu is now taking shape. It will be an institution for clean sport. Neither money racing nor betting will be permitted.

What an admirable woman is Clara Barton with her banner of the Red Cross and its assurance of relief to sufferers without regard to nationality or religion. There is element of the dramatic in return to Turkey upon another outbreak when she was well upon her homeward journey.

Comment on the Vermont Republican majority and the 40,000 audience Bryan had for his first speech in Ohio seems to quite balance in its own peculiar way. The Democrats declare the Vermonters are bloated bondholders and the Republicans scorn the mass meeting members as anarchists and enemies of the country. After all the whole fight, down beneath the surface is nothing more than wily and desperate struggle for mere party supremacy.

The gold party convention at Indianapolis is too much of a blue stocking affair to appeal at all to the masses of the voters. The gentlemen of this division are not practical politicians. Their efforts will be without much result. The way for the disgruntled to fracture the backbone of a party is not to leave it and sulk and organize and reorganize. Bolting has never counted for much. The man who "knows the ropes" in the game of gaining ballots and managing parties will stay within his own organization through thick and thin. The better is a mugwump and the mugwump has yet to accomplish any real work.

The Government and the citizenship at large of the Islands should spare no effort in the direction of settling Americans and Europeans upon the coffee lands of the group. The rice industry of the country is in the hands of the Chinese. They gained possession honestly and maintain it by work close to endurance of hardship. But in the south in the United States, citizens of the land grow the white grain. They have machinery and methods unknown to the industry here. In this fact is perhaps found the secret of the absence of white proprietorship of Hawaiian rice patches. The Chinese have not gone into coffee to any extent, but may turn their hands to it almost any time. In this new industry the Japanese have already "arrived." They own land in fee simple and are cultivating it after their tireless and inexpensive plans. This means that coffee will be cheapened. But it is not so much that matter and it is not at all race preference or discrimination that should be considered excepting on a plane far beyond the common prejudices and arguments. American and European settlers should be afforded advantages and inducements because they will make and produce the citizenship that the Islands must have.

The people of Hawaii in general are singularly obedient to the rules for government control, protection or safety of the community. There has been very little opposition to the order of the Board of Health for inoculation against small pox. At Oakland, Cal., hundreds of children have been taken from the public schools because the

parents objected to vaccination. First the objection was to local virus. There was importation and then protest against the procedure under any circumstances. In Australia quite a large percentage of the population pays a fine of a pound sterling a head rather than submit to vaccination. Hawaii's still more stringent health regulations require a personal health certificate from a physician for each pupil. To the layman this seems useless, but in face of the rule, attendance at the schools is larger than ever before. The quiet compliance shows a confidence in the Board of Health inspired more than anything else perhaps by the manner in which the cholera epidemic of 1895 was handled. The country is now in the first anniversary of that visitation. Therefore, and because the necessity for the precaution should be apparent to all, it is once more suggested that there be a general cleaning up of the city from end to end on a fixed day, strictly after the fashion of the memorable and effective feat of a year ago.

RECLAIMING SQUARE MILES.

According to a recent article in the New York Herald, "the Egyptian Government will shortly proceed to excavate the Raiyan Canal on plans proposed by Mr. Cope Whitehouse, of New York City. The Raiyan canal is to be 10 miles long, and will connect the Nile river with a tract of 250 square miles of land a few miles southeast of Cairo and 120 feet below the level of the Nile. By draining the surplus flood waters of the Nile into this tract it is estimated that crops worth \$70,000,000 can be raised on what is now a desert, and that better control will be given of the Nile floods with favorable effects on the sanitary conditions of the Lower Nile. Mr. Whitehouse discovered this tract while traveling in Egypt, and having bought the tract has had plans for its development before the Egyptian authorities since 1891. It is estimated that the canal will cost \$3,000,000."

A PRETTY SPEECH.

This was Mr. Cleveland's reply to the high-flown address of Li Hung Chang, conveying the compliments of "His Master" to the President of the United States:

"We feel that in the arrangement of your tour you have not allotted to your sojourn among us sufficient time to gain adequate observation of all we have accomplished as a nation. It will not, however, escape your notice that a rich and fertile domain has here been quickly created by those who were assured that they would reap where they had sown, that a strong and beneficent Government has been here established by those who love freedom, and that we have a generous and patriotic people, who love their Government because it is theirs, constructed by them, administered by them and protected and saved from harm by them. We heartily wish that your stay with us may be most pleasant, and that at its close you may enjoy a safe and agreeable return to your home and your field of duty and usefulness."

SUPPOSED TO BE FUNNY.

(Mavericked.)

Fond First Mamma—Ah, Mrs. de Smith, I'm so glad to see you. I've such news to tell. Percy Hawkins is going to marry our little Alice. Dear child, it doesn't seem as if I could bear to part with her!

Second Fond Mamma—No, you've had her on your hands so long now I should think it would be rather lonesome without her.

PYTHIANS AND SUICIDES.

CLEVELAND, O., Sept. 1.—Today's session of the Supreme Lodge, Knights of Pythias, was the warmest of the convention. The report of the board of control, Uniform Rank, recommended that suicides be debarred from all death benefits if death occurs within a period of five years after joining the order, aroused a strong opposition. A compromise was affected whereby the heirs of suicides will be settled with on the graduation system of life expectancy as used by the American Board of Underwriters.

The Perfect Article

Of the perfect article in draught beer don't hesitate to drink the famous Pabst Milwaukee Beer on tap at the Royal, Pacific and Cosmopolitan saloons. Scientifically accurate and as near perfection as possible. Supreme award at World's Fair.

A long-winded ad containing little reason, like a bin of chaff with a few scattered grains, is not worth the trouble of looking over.

Timely Topics.

September 7, 1896

This extremely hot weather is very severe on housekeepers who are without ice boxes, or perhaps an old leaky one that is worse than none at all.

The Alaska Ice Chests and Refrigerators are built on honest principals of honest materials. We have the ice chests in four sizes, from the small chest suitable for small quantities of provisions, meats and other perishable foods to the largest chest for families of greater numbers.

If you prefer a refrigerator to an ice chest the "Alaska" Refrigerator is the best in the market. Some of our competitors are making considerable noise about mineral wool lining. It is not always the opinions of experts who establish an article, but the people who are forced to use that article year in and year out. Those who have used the "Alaska" Charcoal Lined Refrigerator prefer them to those which have the mineral wool lining.

While we are on a cooling subject we will mention the "Gem" Ice Cream Freezers. These are carried in various sizes to suit small families or ice cream parlors.

Life's luxuries are what make it worth living and they are usually expensive. But Iron Baths are luxurious but not expensive. They may be made as beautiful and expensive as you wish by outside decorations, but they are all alike inside—the best.

We have a 3-4 inch garden hose that is finding a ready sale because it is the best in the market.

By the Transit which arrived on the 4th inst. we received 100 Jewel Stoves and Ranges, one large car load, direct from the factory at Detroit.

This is our third shipment, and we find that we have only 4 stoves left from our previous lot.

The excellence of these stoves has already been proved by the large sale, but we will name three points:

First. Long life from the heavy high grade of iron, which is the same in the \$12 stove as in the \$50 range.

Second. Economy in the use of fuel.

Third. Quick and even bakers.

We propose leasing these stoves on the following terms:

When the stove is delivered one-third of the price is paid in cash, and the balance monthly thereafter in five equal payments.

If before the expiration of the five months, the lessee wishes to pay off the balance, he will be entitled to a discount of five per cent. on the amount unpaid.

If a customer wants to buy outright, he gets five per cent. discount on the whole amount.

Jewel Stoves and Ranges can be had only of us.

A dinner cannot be considered much unless the soup is good and how many cooks in Honolulu know how to cook a soup? A combination of water and a few vegetables underlying a greasy scum is called soup by the average celestial and yet a lot of people put it into their stomachs once a day and consider themselves well fed.

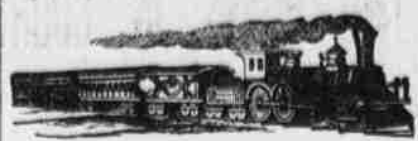

To get good soup it is necessary to procure the kind that is made by persons whose education has been entirely in soup. Everybody knows Hucking's, if not from experience then by reputation. They are pure in quality and of delicious flavor. We have in stock all the varieties made by this well known firm. Look at the list:

Mock Turtle; Tomato; Julien; Ox Tail (soup and bouillon); Mulligatawny; Bouillon of Beef; Consomme of Chicken; Okra or Gumbo.

Then we have Sniders Tomato Soup an excellent article and inexpensive. In Morton's Soups we have Giblet; Ox Tail; Ox Cheek; Mock Turtle; Mutton Broth; Hotch Potch; Soup and Bouille; Vegetable; Tomato and Mulligatawny.

Cures Talk

"Cures talk" in favor of Hood's Sarsaparilla, as for no other medicine. Its great cures recorded in truthful, convincing language of grateful men and women, constitute its most effective advertising. Many of these cures are marvelous. They have won the confidence of the people; have given Hood's Sarsaparilla the largest sales in the world, and have made necessary for its manufacture the greatest laboratory on earth. Hood's Sarsaparilla is known by the cures it has made—cures of scrofula, salt rheum and eczema, cures of rheumatism, neuralgia and weak nerves, cures of dyspepsia, liver and kidney troubles, catarrh and malaria.

Such Cures as This Prove Merit.

"My little nephew was a plump and healthy baby until a year and a half old, then sores broke out behind his ears and spread rapidly over his head, hands and body. A physician said the trouble was scrofula humor in the blood. The child became one complete sore. We had to restrain his hands to keep him from scratching the sores. We were induced to try Hood's Sarsaparilla, and in a short time he had more life. He improved rapidly, his skin became entirely clear of sores and he is now a healthy child." MRS. FLORENCE ANDREWS, Clearfield, Iowa.

The cleanest, brightest safest and really, in the long run, the cheapest and best light for use in the family residence, is the incandescent electric light. Safe; nothing could be safer. A few days ago a prominent gentleman of Honolulu came rushing down to the office of the Electric Company and said: "Give me figures for wiring my house, and I want it done at once; no more lamps for me. Last night a lamp tipped over and it came so near setting fire to the house and burning my children and I take no more risks." This is the sentiment of quite a number in the past few weeks, who have ordered their houses fitted with the perfect light. Just think it over and make up your mind that you want the best and safest light; send for the Hawaiian Electric Company and tell them what you want. We have a complete stock of everything in this line and have just received a lot of the very latest designs in chandeliers.

TWO BOATS IN COURT

SCHOONER MAHIMAH AND THE YACHT SPRAY.

A Libel Is Dismissed—Recalling a Wailua Wreck—Master Capable—Curtis Is a Plaintiff.

The suit of Pat Curtis against Dr. Underwood and J. K. Sheridan for undisputed possession of the yacht Spray will be heard in Chambers next Wednesday. A. S. Humphreys for plaintiff; Creighton & Correa for defendants.

In the matter of Queen Dowager Kapulani vs. L. K. Puahi (W.), bill for accounting, defendant has noted exceptions to the ruling of the court overruling demurrer and has appealed the cause to the Supreme Court. Appeal has been allowed by Judge Carter.

Judge Carter has filed a decision in the case of John F. Bowler vs. L. Ahlo, libel for damages on account of the wreck of the schooner Mahimahi, in which the said libel is dismissed. It appears that plaintiff chartered the Mahimahi to one Ho Pai Yet for six months from June 15, 1894, for the sum of \$125 per month, the owner to have the right of choosing and placing a master in command. Ahlo signed the charter, guaranteeing the payment of the rental and the faithful performance of all conditions by the charterer.

After using a master of the owner's choosing for a time the charterer requested permission to place in command a master of his own choice, which request was granted by the owner. On November 14, 1894, the vessel went ashore off Wailua and was lost. The court finds that the accident was not caused by carelessness of the master; that the charterer had faithfully complied with all conditions; and that plaintiff has no claim for damages on account of the loss of his schooner.

Ruth Horn has been appointed administratrix of the estate of the late F. Horn, to serve without bonds.

A petition has been filed for the appointment of J. M. Peenahale as administrator of the estate of the late Kahewawani. The estate consists of lands in Hana valued at \$1,500.

It must not be understood that the numbers will come in the order given above, as the committee has the arrangement of the program still in hand. Other numbers will be added.

Mrs. S. A. Kell, of Pomona, Cal., had the bad luck to sprain her ankle. "I tried several liniments," she says, "but was not cured until I used Chamberlain's Pain Balm. That remedy cured me and I take pleasure in recommending it and testifying to its efficacy." This medicine is also of great value for rheumatism, lame back pains in the chest, pleurisy and all deep-seated and muscular pains. For sale by all druggists and dealers. A TERRIBLE CASE OF
ECZEMA
CURED BY
Ayer's Sarsaparilla

Mrs. E. Wyatt, of Fort Road, West Hindmarsh, So. Australia, writes of the sad condition of her little daughter, whose portrait she also sends:

"My daughter was afflicted with Eczema of the most aggravated type. The disease first appeared in eruptions on her head, then her hair began to fall out, and in spite of the best medical advice and treatment she grew steadily worse. The sores were full of matter and were extremely offensive. Her eyes became affected, and she was, in truth, in a terrible state. My neighbors were very sympathetic and took great interest in the case. They persuaded me to try Ayer's Sarsaparilla, and I am most thankful to be able to say that this wonderful medicine completely restored my daughter's health. She has now as good a head of hair as anyone could wish, her eyes are perfectly well, and she is a fine girl of eight years with every prospect of growing up to be a strong and healthy woman."

WITH THE FIRST REGIMENT
BUSINESS TRANSACTED AT A
MEETING OF COMPANY D.

Honorary Member—U. S. S. Adams
Shooting Team—The New Range—
Prize Drill for January 17, 1897.

Company D held a business meeting Thursday evening, Capt. McCarthy in the chair. Business of two months, including reports, was transacted. The treasurer reported a balance of \$324 on hand. A. A. Buchanan was elected to membership. Ex-Captain W. C. Wilder, Jr., was unanimously elected an honorary member of the company. Sergt. Runsey resigned from the office of treasurer but the same was not accepted and the gentleman consented to continue in office. He was given a vote of thanks for past faithful and efficient services.

The U. S. S. Adams may challenge Company D for a friendly match at Kakaako in the near future. Officers of the warship are working up the matter and will try to exchange conditions with Capt. McCarthy in the next few days. Their team is said to be good for about 400.

Mr. J. H. Day, the new druggist at Benson, Smith & Co's, has applied for membership in Company B and will be attached to the hospital corps. He has served in the same capacity in Coast companies and is considered a very capable man.

Private Wheeler of Company B has applied for a discharge. He has accepted a position in the railroad office at Kahului and will leave in two weeks for his post.

Company D has failed to get a match with any of the other companies for tomorrow afternoon. They say that that large score of last Saturday has unnerved the marksmen.

It is officially announced that the new range at Kakaako will be open tomorrow afternoon. If the companies will move their targets over this afternoon or tomorrow morning practice may begin at the time indicated.

There will be no meeting of the companies at the drill shed tonight.
Lieut. Col. Fisher is at work upon a scheme to make January 17 a prize drill day. He purposes to collect by subscription about \$500 and offer two or more prizes, the first of which shall be \$250. Company D voted last night, expressing it as the sense of the meeting that the prizes be in the shape of trophies in place of cash.

The Company D "sawed-offs" will issue a challenge to any team in the regiment for a ten-man shoot, men to be less than five feet, seven inches high.

TROTTERS AS ROADSTERS.

Good Prices Always Ready For Road Horses of Style and Stamina.

On a certain large eastern breeding farm the head trainer, who is really an integral part of the concern, is this summer devoting his time, energy and experience to getting the young broods ready for a sale this fall on the metropolitan market as roadsters. Hitherto this trainer has annually sailed forth with a strong stable, generally taking with him a number of very fast colts and fillies, but this year he is working the 4-year-olds, 5-year-olds and older horses in pairs and singly to wagon in order that he may have them perfectly conditioned when they are exposed for sale next November or December. There is food for much thought in this fact. This farm has bred a great number of record takers and has a wonderfully well bred lot of brood mares and stallions. Entire horses that took fast or fairly fast records as 2-year-olds, 3-year-olds or 4-year-olds have been added to the list and are now undergoing a course of education similar to that given to those added to the list early in life and to the fillies. The reason, of course, is obvious. For good road horses of style, beauty of conformation, speed and attractive action round figures can always be obtained. Even if the speed is not so great, satisfactory prices will be obtained if the other qualifications are possessed. On the other hand, even for promising trotters and pacers, the figures to be obtained are not so large, and an immense sum of money must be expended on them before the purchasing public will believe that they can win.—Horseman.

Electricity In Fencing.

An invention has just been tried in London which is said to do away altogether with the difficulty constantly experienced by an umpire in judging hits between two equally matched competitors at fencing. This end, it is declared, has been achieved by covering the front of each jacket with fine copper or brass wire gauze and connecting this with the adversary's foil and an electric bell (of the burglar alarm pattern) and battery in the same circuit. It follows that when a hit is made the circuit is closed and the bell rings and continues to ring until stopped by the person in charge.

A special arrangement in each foil handle provides that only a direct point produces a ring. Two entirely electrically distinct circuits are used, each including a bell, foil and jacket. Flicks or blows or grazes produce no result. The bells being of different tones and moreover placed on opposite sides of the room, there is no difficulty in deciding who has scored a hit or, in cases of almost simultaneous hits, who delivered the point first. By a simple arrangement the wires passing from the batteries to the combatants' collars are kept well out of the way, however sudden may be the movements of advance or retreat.—New York Herald.

Novel Scheme For Athletic Contests.

There is a movement on foot at the University of Chicago to hold a novel series of athletic contests, baseball, football, tennis, handball and track races. The students who wish to enter will be divided into four classes—namely, all students in the northern states will constitute one, southerners a second, westerners a third and easterners a fourth. These four divisions will organize themselves into four athletic associations and elect their own officers. Once a week they will meet as contestants in some line of athletics, and the division running the greatest number of points in a quarter will receive a suitable prize.

Modern Amateurs.

"This later day amateurism," says John Pringle of Pittsburgh, "among the best performers is only another name for professionalism. If we take the very best foot runners, we will find that they do little else but run races, and somebody must find them the money to live on. They toil not, and the only thing they can spin is a scheme. There may be exceptions, but they do not alter the facts as stated. Season after season athletes are kept to compete in the leading events, just as the 'pros' are, with the difference that the amateurs are better taken care of than the professionals."—New York Sun.

CHAPTER V.

Phyllis thanked him for his beautiful gift, but the talking was soon entirely on Humphrey's side as they walked along. He told her of the latest movements of the world of fashion—a subject which she would willingly have discussed to the exclusion of anything more personal—and his measured language helped to still her disquieted heart and brain. Had not her own sadness been what it was she must have observed his embarrassment. At last he abruptly changed the subject.

"I am glad you are pleased with my little present," he said. "The truth is that I brought it to propitiate 'ee and to get you to help me out of a naughty difficulty."

It was incredible to Phyllis that this independent bachelor—whom she admired in some respects—could have a difficulty.

"Phyllis, I'll tell you my secret at once, for I have a malicious secret to confide before I can ask your counsel. The case is, then, that I am married. Yes, I have privately married a dear young belle, and if you knew her, and I hope you will, you would say everything in her praise. But she is not quite the one that my father would have chosen for me—you know the paternal idea as well as I—and I have kept it secret. There will be a terrible row no doubt, but I think that with your help I may get over it. If you would only do me this good turn—when I have told my father, I mean—say that you never could have married me, you know, or something of that sort—'pon my life it will help to smooth the way mightily. I am so anxious to win him round to my point of view and not to cause any estrangement."

What Phyllis replied she scarcely knew, or how she counseled him as to his unexpected situation. Yet the relief that his announcement brought her was perceptible. To have confided her trouble in return was what her aching heart longed to do, and had Humphrey been a woman she would instantly have poured out her tale. But to him she feared to confess, and there was a real reason for silence till a sufficient time had elapsed to allow her lover and his comrade to get out of harm's way.

As soon as she reached home again she sought a solitary place and spent the time in half regretting that she had not gone away and in dreaming over the meetings with Matthias Tina from their beginning to their end. In his own country, among his own countrywomen, he would possibly soon forget her, even to her very name.

Her listlessness was such that she did not go out of the house for several days. There came a morning which broke in fog and mist, behind which the dawn could be discerned in greenish gray, and the outlines of the tents and the rows of horses at the ropes. The smoke from the cauldrons filled the air heavily.

The spot at the bottom of the garden where she had been accustomed to climb the wall to meet Matthias was the only inch of English ground in which she took any interest, and in spite of the disagreeable haze prevailing she walked out there till she reached the well known corner. Every blade of grass was weighted with little liquid globes, and slugs and snails had crept out upon the plots. She could hear the usual faint noises from the camp, and in the other direction the trot of farmers on the road to Weymouth, for it was market day. She observed that her frequent visits to this corner had quite trodden down the grass in the angle of the wall and left marks of garden soil on the stepping stones by which she had mounted to look over the top. Seldom having gone there till dusk, she had not considered that her traces might be visible by day. Perhaps it was these which had revealed her trysts to her father.

While she paused in melancholy regard she fancied that the customary sounds from the tents were changing their character. Indifferent as Phyllis was to camp doings now, she mounted by the steps to the old place. What she beheld at first averted and perplexed her. Then she stood rigid, her fingers hooked to the wall, her eyes staring out of her head, and her face as if hardened to stone.

On the open green stretching before her all the regiments in the camp were drawn up in a square, in the midst of which two empty coffins lay on the ground. The unwonted sounds which she had noticed came from an advancing procession. It consisted of the band of the York hussars playing a dead march. Next two saddle soldiers of that regiment, guarded on each side and accompanied by a clergyman. Behind came a crowd of rustics who had been attracted by the event. The melancholy procession entered the square and halted beside the coffins, where the two condemned men were blindfolded and each placed kneeling on his coffin. A few minutes' pause was now given while they prayed.

A firing party of 12 stood ready with leveled carbines. The commanding officer, who had his sword drawn, waved it through some cuts of the sword exercise till he reached the downward stroke, whereat the firing party discharged their volley. The two victims fell, one upon his face across his coffin, the other backward.

As the volley resounded there arose a shriek from the wall of Dr. Grove's garden, and some one fell down inside, but nobody among the spectators without noticed it at the time. The two executed hussars were Matthias Tina and his friend Christoph. The soldiers on guard placed the bodies in the coffins almost instantly, but the colonel of the regiment, an Englishman, rode up and exclaimed in a stern voice, "Turn them out—as an example to the men!"

The coffins were lifted endwise and the dead Germans flung out upon their faces on the grass. Then all the regiments were marched past the spot, and when the survey was over the corpses were again confined and borne away.

Meanwhile Dr. Grove, attracted by the noise of the volley, had rushed out into his garden, where he saw his wretched daughter lying motionless against the wall. She was taken indoors, but it was long before she recovered consciousness, and for weeks they despaired of her reason.

It transpired that the luckless deserters from the York hussars had cut the boat from her moorings in Weymouth harbor, according to their plan, and, with two other comrades who were smarting under ill treatment from their colonel, had sailed in safety across the channel. But, mistaking their bearings, they steered into Jersey, thinking that island the French coast. Here they were perceived to be deserters and delivered up to the authorities. Matthews and Christoph interceded for the other two at the court martial, saying that it was entirely by the former's representations that these were induced to go. Their sentence was accordingly commuted to flogging, the death punishment being reserved for their leaders.

The visitor to Weymouth who may care to ramble to the neighboring village under the hills and examine the register of burials will there find two entries in these words:

"Matth: Tina (Corpl.) in His Majesty's Regmt. of York Hussars and Shot for Desertion, was Buried June 30, 1801, aged 22 years. Born in the town of Saarbrück, Germany."

"Christoph Bless, belonging to His Majesty's Regmt. of York Hussars, who was Shot for Desertion, was Buried June 30, 1801, aged 22 years. Born at Lothaargen, Alsatia."

Their graves were dug at the back of the little church near the wall. There is no memorial to mark the spot, but Phyllis pointed it out to me. While she lived she used to keep their mounds neat, but now they are overgrown with nettles and sunk nearly flat. The older villagers, however, who know of the episode from their parents, still recollect the place where the soldiers lie. Phyllis lies near.

THE END.

Nasty American.

Among my fellow passengers recently on one of these good but very slow ships, the Irrawaddy, was a little curly haired English boy who had evidently been brought up in the strictest sect of the aristocracy—an embryonic Englishman of the Englishmen.

"Do you speak French, little boy?" said a good lady to him, who was trying to scrape acquaintance with the youthful Briton.

"Oh, naow," said the little chap. "Do you speak American?" then asked the lady.

"Oh, naow," he replied, with a still stronger emphasis.

"But wouldn't you like to learn American?" persisted the lady.

"Oh, naow, thanks," answered, this sturdy little patriot. "It is very, very nasty to speak American."—North American Review.

Tennyson's Prediction.

It has been learned that Tennyson predicted the day of his death. Just a year before his death friends of the poet were visiting Aldworth House. The late Lord Selborne turned to Tennyson and remarked, "You ought to be happy here." "Ah," sighed the poet, "I have only a year to live!" His hearers laughed at the remark, but it was a prophetic assertion that was verified to the minute.

Affability, mildness, tenderness and a word which I would fain bring back to its original significance of virtue—I mean good nature—are of daily use. They are the bread of mankind and the staff of life.—Dryden.

The Metonic cycle of 19 years, at the end of which each new moon comes back into the same day of the year, was among the most remarkable discoveries of ancient astronomy.

Mrs. E. E. Davis of San Miguel, Cal., says: "I am trying in a measure to repay the manufacturers of Chamberlain's Cough Remedy for the great good their remedy has done me. For years I was a constant sufferer from weak lungs and bronchial asthma. My rest at night was disturbed by a hacking cough, so that I felt miserable the greater part of the time. Many remedies recommended by friends were tried, none of which proved suitable to my case. I did not experience any beneficial results until I began taking Chamberlain's Cough Remedy. After two bottles of the large size have been used I am pleased to state, my health is better than it has been for years. Th soreness has left my lungs and chest and I can breathe easily. It has done me so much good that I want all who are suffering from lung troubles, as I was, to give it a trial." For sale by all druggists and dealers. Have you a leaky gutter? If you have, make it perfectly clean and dry, apply a good coat of No. 3 P. and B. Paint over the leaky spots; then take a piece of stout Manila paper, or a piece of common cotton cloth, paint it well on both sides; lay it over the first coat, giving the whole a final coat, and there will be no more leak there. Or if the whole gutter is bad, make it clean and dry, and apply a paste of P. & B. Paint and Portland Cement.

CROPPING OUT.

Customs Removals Were Made Simply on Suspicion.

It may now be stated positively that no "crooked work" was proved against either Fisher, Severin or Cook to cause their removal from the customs service. The heads of the department have started out on a campaign, the object of which is to remove the stigma of suspicion that has so long rested over the custom house. It was stated by a cabinet minister this morning that in future no person against whom there was the least suspicion of doing "crooked work" would be retained a moment in the service. The gentleman referred to admits that perfectly innocent men may suffer, but says the Government is determined that there shall be no cause in future for all the talk that has been going on in the past.

HARBOR FISHING.

A Rush at the Business After the Twelve Month of Strict Tabu.

Natives have swarmed to the wharves today with their fishing tackle and have met with great success. They are fast getting onto the fact that the tabu has been lifted. During the period of over a year in which fishing in the bay has been prohibited fish have swarmed into the harbor and can now be seen by hundreds in the water. Last night Chinamen were around the lighthouse with nets. Today there are three full tables of harbor fish at the market. More are constantly coming in. Mr. Kellipio states that if the supply increases in the same ratio during the next few days prices will be greatly reduced. Among other specimens a very large tuna was taken from the harbor last night.

SONS OF ST. GEORGE.

The celebration of the Sons of St. George, British subjects and friends generally to take place at Independence Park on the evening of September 25th will be a big affair. The committee, W. F. Reynolds, chairman, has been diligently at work for several days. As previously announced the program will consist of a ball and social, to begin at 8 o'clock. The affair is "in honor of the fact that Queen Victoria has been so privileged that she has reigned over the British Empire longer than any of her predecessors." Her reign began in 1837, fifty-nine years ago.
