Nerves Unstrung.

Weak Stomach; Pain in the Chest; Sleepless, Nervous, Irritable; all run

Down. Cured by

Dr. Miles' Nervine.

Nearly every disease is the sign of poverty, either of the blood or of the nerves. When the brain cells and nervous tissues are used up faster than they are repaired, not only the brain and nerves, but every vital organ of the body cries out for help. Headaches, neuralgia, heart disease, nervous dyspepsia and liver and kidney troubles run rampant in the helpless system, destroying whatever strength remains until at last the break-down comes and then—
Dr. Miles' Restorative Nervine is doing a world of good for such weak, nervous people, whose brain and body are overtaxed, but who may yet be saved from a state of indescribable wretchedness, and restored to lives of happiness and industry. By soothing and strengthening the secretive glands of the digestive organs it facilitates digestion and assimilation,

while the nervous system is rapidly built up again and put to work without confusion, thus bringing all the important organs into harmony and restoring perfect health.

"About seven years ago I was all run down with nervousness and heart trouble and was so bad that I had to give up work. I was nervous, sleepless and irritable all the time and although several doctors treated me I did not improve any under their care. Hearing Dr. Miles' Nervine well spoken of for such troubles I commenced using it and grew better from the start. When I had used three bottles I felt that I was cured; but I still kept a bottle of the Nervine on hand, and when I am unusually tired or nervous I take a dose and am all right again. I took Dr. Miles' Nervine and Liver Pills along with the Nervine and found them the best Liver Pills on the market."

THE RAILWAY TAXES

DECISION RENDERED BY THE SUPREME COURT.

The Company Exempt from Taxes on Property Necessary for the Maintenance of Its System.

The Supreme Court yesterday rendered a decision partly sustaining the Oahu Railway and Land Company in its claim that it was exempt from payment of taxes, under the special franchise granted it by the government. The franchise provides that property necessary to the construction and maintenance of the road shall be exempt from taxation for 20 years. The decision is written by Justice Gairbairn and concurred in by Perry. Frear did not sit in the case. The syllabus is as follows:

A tax on income is a substance and effect a tax on the property producing the same.

"Income derived from property exempt from taxation by contract, authorized by statute, is also exempt."

An annual subsidy granted by the legislature is not fairly necessary to the reasonable construction, operation and maintenance of a railroad after the road is completed and being operated at a profit, nor is such a contract exempting all the property of the railroad fairly necessary to the reasonable construction, operation and maintenance of the railroad.

The court holds that the subsidy of \$42,700 is a proper subject of taxation. Gairbairn says in his decision that it is evident that this annual subsidy is not now necessary to the construction or maintenance of the road. The road is now paying dividends, and the annual subsidy adds to the profits and should be taxed.

The case was submitted on agreed facts by Tax Collector Pratt and the railway company.

Thomas Pedro has filed an inventory of the estate of Samuel Pedro, an insane person, for which he is guardian, showing property worth \$200. The guardian appends a personal account of \$402 for the care of the insane person for 14 months.

A general denial has been filed in the case of A. J. Lopez vs. Rose Ladd et al.

David Dayton was yesterday appointed by Judge Robinson as administrator of the estate of A. B. Scrimgeour. The appointment was made for the purpose of carrying on the business of the Manufacturing Harness Company for the present.

An order was made yesterday by Judge Humphreys authorizing the administrator, W. C. Parke, to sell real property of the estate of Catherine P. Auld.

In the Federal Court yesterday Judge Estee stated that the petit jury for the next term would be drawn Monday.

LEFT THE "RUBES" AT HOME.

"Squire" Smalley, who is, with the possible exception of Mr. Astor, the staunchest Tory in the colony of American expatriates in England, has written to the London Times about President Roosevelt's coronation embassy. The letter is quite in the "Squire's" old pleasant vein. He cordially approves of the president's selection, and takes occasion to point out in a delicate way how not a single man in the outfit is from the West, and therefore likely to mar the sartorial harmony of the show by going to it in his shirt-sleeves or with his "putts" peeked in his boots—at least that is Mr. Smalley's implication. —Milwaukee Sentinel.

WILL MANUFACTURE COCOA.

"Commodore" Weaver is a passenger on the Sierra to the Coast, expecting to return on the same vessel and trip. He states that he is making the flying trip to buy machinery for the preparation of cocoa from the yield of cocoa beans on three thousand of the fifteen thousand acres controlled by the Weaver syndicate in Samoa. An ice plant and cold storage warehouse is in operation and machinery for electric lighting now on the way to Samoa the corporation having secured the franchise.

Mr. Weaver also reports a tremendous flood in Samoa just before the departure of the steamer, which did much damage in bringing down heavy rocks, some of them five feet square, on the lands of the Weaver syndicate.

YESTERDAY'S RAINFALL.

Heaviest This Year—Thunderbolts Interfere With Fuses.

The rainfall of yesterday, conceded the heaviest of the year, gave Honolulu and its suburbs a thorough wetting. Waikiki, which has escaped much of the recent rain, got its full share yesterday. The lightning gave a good many shocks, and did some damage in blowing out fuses. A large number of the telephones were temporarily put out of commission by the blowing out of their fuses and electricity can riot over the central switchboard for a while. The phones were most of the placed in working order again last night.

The Rapid Transit Company had a fuse block blown out and turned off their power for a few minutes. The silt brought down from the highlands in several places covered the tracks and temporarily stopped traffic. The entire delay along the lines being about forty minutes. The transformer on the switchboard of the Electric power station was blown out by "celestial fire" but the damage was quickly made good.

The Kewalo ditch back of the Makiki fire station broke its banks and flooded the property on the lower side, the new flume of the ditch being entirely washed away. The rain fell from 12 until 1 o'clock, was eight-tenths of an inch. The fall was probably heaviest on Punchbowl the slopes running in flood during the early afternoon. Some barrels of lime stored in the Automobile station on King street were slaked by the rain water reaching them and the slaked lime ran out the department. The barrels were packed out and a considerable number of them saved. The rainfall for twenty-four hours at Luakaha ending at noon yesterday was 7.23 inches.

CONTRACT FINISHED.

PAGO PAGO, March 8.—Messrs. Healy Tibbitts & Co. have completed their contract here. The last of the machinery is on board the schooner Julia T. Whalen for shipment to San Francisco. All their buildings have been sold and removed, consequently Pagatogo presents a rather bare appearance at the present time.

A GOOD THING.

There's one good thing when they feel dry that business men cannot pass by. For far and wide it's same you hear. They stop to drink of "Rainier" beer. On draught or in bottle at Criterion.

KONA RUBBING AND THE COURT.

The Kona plantation has just got out of the hands of the Philistines, as represented by the Circuit Court, and has now a chance of recovering itself. Talking with a shareholder, an old resident of Kona and a man who has invested everything he could scrape together on the venture, he expressed himself in very bitter terms of the court, far too bitter to reproduce in these columns. He regarded his escape from ruin as very fortunate indeed, for according to him the court was quite willing to wreck the plantation to satisfy its own vanity and get fees for its friends, fees, he added, which they had had to put up every stick of furniture, every shuck that they owned, in order to obtain the money to pay.

The Kona plantation was a good proposition and it had and has a fine lot of cane, which if ground, will materially decrease the debt. The work has been carried on economically, and the shareholders are in the main people who have saved money by hard work. It was not a wise move to try to wreck a plantation of this kind. It was distinctly a poor man's plantation and not a rich man's.

The learned and self-conscious Judge who blundered into an act of practical injustice to a large number of hard working and saving men, because his self love was wounded in that he was not consulted as to how the receiver should be, must find that cloak of self-consciousness and self love, somewhat meager covering against the blasts which are blowing from the injured stockholders. From an election point of view, the First Judge of the First Circuit Court would not have anything but a very cold glare from Kona. And it must be remembered that Kona has friends in Honolulu, and when we have municipal government Kona opinion will influence votes for mayor, a position that one member of the Circuit court implies to.

And after all what has happened to Kona. The original proposition has been practically carried out. The financial aid needed has come as it was intended to come and Judge Humphrey's attack on S. M. Damon has practically come to naught. That is the trouble with ill temper, self-consciousness and self love. It leads to mistakes, which according to Tallyrand are worse than crimes. Nothing has been gained in the matter of justice or equity and a set of deserving people have had their pockets pinched at a time when they could least afford it. Verily this is a record for the Circuit Court to have made.

PORTO RICO-HAWAII.

An interesting bill introduced by G. H. Garrison, the auditor of Porto Rico, to provide for the expenses of carrying on the Government of that island, has just come to hand. The bill was introduced into the Legislature on January 23, and was to cover the expenses from June 30, 1902 to June 30, 1903. The Legislature of Porto Rico can only sit sixty days, so there is ample time for the appropriations to be made before they are needed.

The legislative machinery consists of an Executive Council of five members, and a House of Delegates consisting of thirty-five members. The members of the Executive Council each receive \$2,000 per annum, and as far as one can judge can fill other well paid positions as well. Thus Mr. Garrison is a member of the Executive Council and as auditor also draws \$4,000 per annum, which is certainly a neat salary—combined with the above \$2,000.

The thirty-five members of the House of Delegates are allowed five dollars a day for their sixty days service, which is \$200 apiece. The clerk gets \$250 for the session, the messenger \$70, and the whole legislative work of the lower house, including printing, typewriting, copying, the purchase of books, the mileage of members and other miscellaneous expenses must come within \$22,625. Compare this with our lavish expenditures as made by the Home Rule party, and remember that Porto Rico is an island with between 800,000, and 900,000 inhabitants, while the Territory of Hawaii has perhaps 150,000. The census figures were 154,991. Legislation is cheaper in Cuba than it is here.

On the other hand the Governor receives \$8,000, and the Secretary \$4,000. The Governor's office totals up \$11,840, while the Secretary's office, in which are a large number of clerks and considerable contingent expenses is allowed \$22,000. All heads of departments receive \$4,000, starting from the Attorney General, with the exception of the Treasurer, who gets \$5,000 per annum. These salaries are certainly liberal, and considering that Porto Rico is not an expensive place to live in they are far in advance of what we have here, seeing that this is one of the most expensive places in the world to live. Moreover to all these officers traveling expenses are allowed. The Governor lives rent free in the executive mansion and is allowed \$12,500 for repairs, keeping up the grounds, employees, purchase of furniture and miscellaneous expenses. The Governor of Porto Rico rather has a pinch.

There are many other items of expenditure which are of interest. Take for instance the educational expendi-

ture for one year, this amounts to \$44,600, or more than one million of dollars for a biennial period. But then the appropriations for books, stationery, teachers' institutes, traveling expenses and superintendence and so forth are on a liberal but not on a lavish basis. Take the matter of books and school supplies for instance. The allowance given by the Porto Rican Legislature is \$2,000 for a year, and there is a further \$2,000 allowed for their distribution, making in all \$4,000. This moreover does not include the books of the High Schools at San Juan, Ponce, Mayaguez and Pajaro, for which \$2,750 are appropriated, nor does it include \$2,250 appropriated for the Normal school for similar purposes. The total is a little over \$4,000 for this item alone. Certainly Porto Ricans are going to have well fitted schools.

The salaries paid to rural teachers are low. In ungraded schools \$20 per school month, which means about nine months in the year. In graded schools not less than \$30, and not more than \$50 per school month. But these schools are at present taught in Spanish, and the introduction of teachers of English comes at a higher rate. There is a strong belief in the necessity of inspection and there are allowed nineteen inspectors for the island. Rather a comment upon some of the remarks of the Home Rulers during the last Legislature.

Another interesting matter is to find that there is a small leper colony at Porto Rico. The cost of it is not great. It is allowed \$8,500 a year. There are thirty-six patients and nine employees to look after them, and the subsistence of both patients and employees is reckoned at twenty cents per diem. It would be interesting to work out what the cost of the Molokai settlement is, but this review of Porto Rican matters must come to an end. Prisoners the Porto Rican government calculates to feed at the rate of fourteen cents a day.

There is one very significant section in the bill which shows how utterly irresponsible the Governor of Porto Rico can be. Section 5 says:

"Section 5. When, in the opinion of the Governor, the interests of the public service require it, he may authorize transfers from appropriations provided for any particular department of the regular Government to appropriations of like general character provided for the same department, and may also, in like manner, authorize transfers from one sub-head of appropriations to another sub-head."

This is a power that no free Legislature would confer. We suffered from it under the monarchy, and we did away with it. There may be things to learn from Porto Rico, things to copy and things to avoid.

The door to adulteration is wide open in the cheese industry. Natural and some chemical fats find their way readily into cheese vats. Milk of all qualities and in all stages is used, and potatoes that are worthless for marketing purposes are ground exceedingly fine for cheese making, and it is said that even the blood from the slaughterhouse sometimes plays a part in this manufacture.

Delegate Wilcox keeps his dupes in the territory supplied with false information, and they think that the Delegate ranks about next to the President. The fact is that Mr. Wilcox has practically no influence. He has been found out, his shallowness has been plumbed, and the few that have used him for their own ends have flung him aside like a squeezed orange.

Yesterday's storm though short was sharp. The ground must be thoroughly saturated and all our underground reservoirs must be full. The air is full of dampness, indeed it may be said to be saturated. As the sun rose this morning it was a curious sight to see the heat of the rays vaporize the clinging mists and draw them up, as it were, into the clouds.

Commissioner Wray Taylor has been wise in appointing an expert who will examine imported plants and present the introduction of insect pests. It is a most necessary precaution, and had we had the same precaution years back, before the advent of Koehle and Perkins, we would have saved many hundreds of thousands of dollars. Of course now the greatest care must be taken against insects attacking cane. We have enough draw backs without having any that we can avoid.

The photographs which superintendent Boyd has of the Hamakua bridges are worth pages upon pages of manuscript upon the damage done by the storm. Mr. Boyd criticized the Hamakua Road Board for its method of building bridges and abutments, and the Road Board thought Mr. Boyd was wrong. Now that there is hardly a bridge or a culvert left in the district, the Road Board begins to think Mr. Boyd was right, but it has proved a very costly lesson to the public purse.

The Albatross, which arrived on Monday, will be devoted to the study of our deep sea fisheries. That these are of great value is well known, but they have never been properly developed. Indeed all our fisheries need proper care and development. The shore fisheries under the old Hawaiian law of the right of the Konahiki to take a certain fish protected the fish to a certain extent. It was the germ of a general law, and showed the astuteness of the ancient Hawaiian. But it was only a germ, and of late years the germ is practically dead, and every oriental fisherman has done what seemed good in his own eyes. If we can get our shore fisheries properly protected, and our deep sea fisheries developed, we shall have a very valuable industry at our hands.

CONGRESS ABRAIGNED

A MAN WHO SAYS A MISTAKE WAS
MADE.

Hawaii Ought to Have Been Left to be
Governed by Those Who Best Know
How.

[Henry L. Nelson's Washington Letter
to Boston Herald.]

Our colony of Hawaii is growing more
and more troublesome, and it is likely
to present to the government a serious
problem of a different character than
any that can issue out of the Philippines
or Cuba. We will have to admit that
unlike Governor Taft's 19 per cent of
the Philippines, there is no considerable
number of Hawaiians who can be en-
trusted with the power of government.
This is because the majority are not
only deficient in political talent, but
in event of their getting into power, the
civilization and property interests in the
islands, which are considerable, would
be under the power of an ignorant and
weak proletariat. The native Kanaka
is the normal South Sea Islander in
point of character, and he has no love
for the white people who have over-
thrown his royal family and establish-
ed themselves over him as governors.

So far as we have progressed in our
attempt to govern these islands, we
have created a lot of complications
which hamper the people whom we
have set up as governors, without ap-
parently doing the natives any good.
Perhaps here is an instance where we
shall eventually demonstrate that it
would have been better for us to adopt
Governor Taft's expression with respect
to the Philippines, if we had never
gone there.

When the revolution was accomplish-
ed, Mr. Dole and his friends, as well
known, strongly desired annexation to
the United States. They expected a
great benefit from connection with the
Union. Among their brightest hopes
was that of Hawaii erected into a state
which should not only have the
benefit of the laws of the great republic,
but help make them and administer
them. If they had foreseen all that has
happened, they would not have been so
earnestly in favor of annexation, but
would have accepted the decision of
Cleveland as the final one for their
own interests. They would have
gladly seen the flag hauled down and
disappear from the islands, and would
have undertaken for themselves the
government of the people among whom
they had been born and whom they
knew thoroughly well. The sons of the
missionaries, as they have been am-
erically called, if left to themselves, would
be able to maintain their power over the
natives, as they were able to win it,
and would give the islands the best
government that they could give. It is
doubtless the fact that Mr. Dole and
his associates understood this when
they offered themselves and their pos-
sessions to the United States just as
they did. They took the government away from
the queen, confident that they would be
the best administrators of the islands
and their people. But they felt that
they needed protection from the assault
of powers that would some day desire
to annex the islands, and therefore they
turned to the United States, which was
and is the only power to which they
saw to belong. They expected when
the annexation took place that their
capacity and their character would be
recognized by the president in making
appointments to the island offices, and
that the native Kanaka would remain
without the right to vote, and the con-
sequent right to turn the whites out of
office, and practically to restore the rule
of the royalist party, which fell with
the overthrow of the queen.

But Mr. Dole, who is known in this
country well and who is a man of large
ability and high character, was almost
at once disappointed. He learned im-
mediately that Hawaii was to be a
possession, not a state, and that the
Pacific coast politicians were to
have the patronage of the islands. A
letter received from him soon after an-
nexation expressed the utmost despon-
dency over the outlook, for it was then
rumored that the governor of the new
colony would be a local politician from
the Pacific Coast. This rumor turned
out to be false, but there followed a
general raid on the judicial offices,
which resulted in the appointment of a
number of loose characters to the bench.
These men succeeded some excellent
judges, mostly American, who now find
it extremely disagreeable to practice
as lawyers before their former courts.
Some of them have even left the islands
and have come to this country, and
there is no beginning to be heard of
an urgent request for their return, in
order that they may save the islands
and their people from the dangers of
corruption and misrule, which now threaten
them.

The last governing Hawaiian requires
that the government be run by the
judges of the supreme court and the cir-
cuit court shall be citizens of the terri-
tory, citizenship being gained by a
year's residence if the applicants are
already citizens of the United States.
There are three judges of the supreme
court and six of the circuit court. Eter
of California, was appointed judge of
the federal court; Baird, of Wyoming,
was appointed United States district at-
torney and after his decease was suc-
ceeded by Brooks of Wyoming. Eter,
formerly secretary of Senator Cullum,
who was the author of the government
bill, was appointed United States mar-
shal. A son-in-law of Representative
Hayburn of Iowa has succeeded Mr.
Haywood as commissioner of internal
revenue. Five of the six circuit judges,
Galbraith, Humphreys, Gear and Little,
were not residents of Hawaii when the
revolution broke out, and all of them
were opposed to the party which de-
throned the queen and worked for an-
nexation. All four of these judges, how-
ever, have ranged themselves actively against
Mr. Dole and his friends, and have tried
to make the president believe that the
American residents who had gone
through all the critical years prior to
annexation were anti-American, hostile
to American institutions and the Ha-
waiian race. Humphreys, Gear and Little
have been especially bitter, show-
ing abuse upon Mr. Dole and his
friends, and these two are doing all
they can to get Mr. Dole removed.

These officials, most of them men of
not much character, are the contribu-
tion of the executive to the Hawaiian
problem. The contribution of Congress
was a system of government which
made the legislative branch necessarily
hostile to the government, for universal
suffrage brought into the Legislature a
majority of persons attached to the
royalist cause. If annexation had not
taken place, Dole and his friends, as I
have said, could easily have maintained
themselves in power, and would have
ruled the island in their own way,
doubtless to the advantage of the na-
tives and to the increase of the pros-
perity of the colony. But we interfered
and the first step which we undertook
was to hamper and discredit those
whose lives and training had fitted
them as experts in the government of
Hawaii. The principal charge against
Governor Dole is that he does not get
on with the natives. In other words,

he does not yield to the people who be-
lieve the revolution, attached the queen
and the royal family in political con-
duct and methods which rendered the
revolution inevitable.

The problem before the United States
in Hawaii was comparatively simple. If
we were bound to have the islands, the
best thing that we could have done was
to leave their government with their
own best people. But Congress thought
that it knew better than Mr. Dole and
his friends, and universal suffrage
was granted to the Kanakas, because
Senator Cullum was coming up for re-
election and said that he could not face
his constituents if he denied to the na-
tive Hawaiians the right to vote. Here
is an experiment in colonial government
presenting very different problems from
those of the Philippines, but which we
have attacked with singular incompet-
ency and wrongheadedness.

George Carter, the son of the former
minister from the islands to this coun-
try, is on his way to see the president.
He is a representative of the same ele-
ment in Hawaii as Mr. Dole and is the
latter's friend. It is expected by the
Hawaiians who were here that he will
sustain the governor, but it may be
that he will suggest a new appointment
in order to harmonize the relations of
the whites with the natives. Nothing
that Mr. Carter can do, however, will
change the fact that a wrong step has
been taken and the wrong kind of gov-
ernment has been established in Hawaii,
because Congress has followed its own
notions rather than the well-grounded
opinions of men who are fitted by birth
and training to prescribe the character
of government which is best for the Ha-
waiians.

Whether Congress will ever remedy
the wrong it has done is doubtful. Ha-
waii, however, ought to be an object
lesson and ought to teach our lawmakers
who are too ready to undertake prob-
lems of which they are ignorant, that
even people who have any portion of
civilization are those who are best fit-
ted to govern their own land and their
own neighbors.

A BOOK REVIEW.

Mrs. Robert Wilcox has received a
beautiful book called "The Life of
William McKinley," sent to her as a
present by the author of the book. It
is a very large book, bound with a
beautiful soft-leather, and the words
are in gilt let-terms.—Home Rule Repub-
lican.

DIED.

CREWES.—In Honolulu, March 24, 1902,
William Crewes, a native of Penzance,
Cornwall, aged 51 years. He was for
many years a resident of Honolulu.
He left a widow and several children.
The funeral took place March 25. The
interment was at Makiki cemetery.

KILOHANA ART LEAGUE.
W. K. Vickery will give a talk on
Leonardo da Vinci's "Last Supper" and
Raphael's "St. Martin" at the Y. W.
C. A. The titles of the series are as
follows:

"Scenes and circumstances of his
early life. Read David Copperfield."
"His earlier works. Read Sketches by
Box and Pickwick Papers." "Scenes of
his historical works. Read Barnaby
Rudge and Tale of Two Cities." "The
homes of his child characters. Such
as Little Nell, Paul Dombey, Little
Dorrit." "The works of his later
years: "Gads Hill and Westminster
Abbey."

MONEY FOR MEMORIAL FUND.
While there are yet one or two small
amounts to be collected, all the returns
from McKinley Memorial Polo games
have been accounted for and there re-
mains a nice little balance of \$250 to be
applied towards the fund, the exact
amount being \$250.25. The money will
be turned over as soon as the last re-
turns are handed in.

HENRY MACFARLANE HURT.

Wrenches Ankle in a Runaway This
Morning.

Henry Macfarlane met with an ac-
cident on his way to town this morning
that fortunately terminated in nothing
worse than a badly wrenched ankle pre-
venting him from coming down town to
attend to business.

Mr. Macfarlane was driving to town
along the Waikeiki road this morning in
a buggy drawn by the two little black
Shetland ponies that have occasioned a
good deal of notice in town the last
few days. The little fellows are very
spirited and despite their diminutive
size, hard to hold, having figured in one
or two little excitements that came
close to being runaways.

This morning they got the best of
their driver Waikeiki of the Ena road
and started towards town at full tilt.
This was about nine o'clock. Just be-
fore reaching the Ena road Mr. Mac-
farlane was thrown out and twisted or
sprained his ankle in alighting. About
two hundred yards farther on the driver
stopped a similar fate and the ponies
went ahead until they ran into a fence
on the bend of the road towards King
street. The ponies were uninjured,
though the harness and rig were badly
demolished.

MAY BUY IN BOND ISSUES.

A rumor was liberally disseminated on
the streets yesterday and this morning
that a firm of capitalists were on the
ground to buy up certain bonds, Rapid
Transit being prominently mentioned,
and investigation shown some grains of
truth in the statement, although the
Rapid Transit company are not par-
ticularly interested in the deal. The
firm of Rollins Brothers of Boston have
for years dealt exclusively in bond is-
sues and now have a representative in the
city, Mr. J. B. Rollins, who is looking into
the possibility of investments of his char-
acter in Hawaii. J. B. Rollins, who is
presently staying at the Mauna, is acting
for the Boston firm in the capacity of
local agent and will during his stay look
into various bond issues here with the
possibility of Rollins Brothers taking
up such business in that direction as
may prove available.

SHE HATED TO WAIT.

Charles Walstrom, a farmer of Wood
township, Wright County, Missouri, se-
cured a license here a few days ago to
marry Miss Nancy Cover of Chicago.
Their engagement was the result of a
correspondence through the agency of a
matrimonial bureau. Miss Cover was
to come to Mountain Grove station and
be met at the depot by her intended
husband. She arrived but her fiancé
was not present to her great surprise.
She went to the hotel and when Wal-
strom came in she announced that the
wedding was indefinitely postponed. He
begged her to marry him, but Miss Cover
remained obdurate. She will return to
Chicago next week, so she says.

Fine Job Printing, Star Office.

WAS NOT HER IDEAL

REV. VICTOR MORGAN'S DIVORCE
SUIT.

He Sends an Answer From San Fran-
cisco and Asks That the Suit be Dis-
missed.

The Rev. Henry Victor Morgan has
sent from San Francisco an answer to
the divorce suit brought against him
here by Mrs. Christian Morgan, to-
gether with some letters he received
from her, all evidence in support of his
denial of her charges. Mrs. Morgan
alleged failure to provide, declaring
that she had received little or no sup-
port from her husband.

Morgan's statement is a long one, de-
scribing his ill health while here and
his mind decision to go back to the
coast. Soon after, he says, he received
letters showing that Mrs. Morgan had
decided to ask for a divorce. She wrote
him to that effect in one letter in which
she stated that she had gradually
erred in thinking he was her "ideal."
"I thought so once," she says, and then
she adds that it was a long time be-
fore it dawned upon her that he was
not.

Morgan pleaded with her to ask for
a simple separation and not friends
here to do likewise, but Mrs. Morgan
was determined. The husband says
that he has always been ready and
willing to support his family. He asks
that the divorce be denied and that he
be given custody of the children.

Morgan was formerly pastor of the
Christian church of Alameda, California.
While here he officiated in the
church at Ewa.

CAUGHT A DESERTER

Lieutenant Rodman, commander of
the government ship Iroquois, was a
busy man today while the Sierra was
in port. He was engaged in hunting
for a deserter from the American ship
Abdenda which is stationed at Pago
Pago.

The deserter was an officer on the
Abdenda. The commandant at Pago
Pago suspected that he had stowed
away on the Sierra, so notified Admiral
Merry to try and recapture him. The
deserter evidently got wind of the fact
that the local naval authorities were
after him, so with the connivance of
some of the men on the Sierra stowed
away and escaped capture. Captain
Hoodlette, the commander of the Sierra,
promised to have the man hunted up
and placed under arrest by the time
the American ship San Francisco de-
serter will then be turned over to
Admiral Glass the commandant at
Pago Pago for court-martial on the
charge of desertion.

SOON BEGIN TAKING SUGAR.

The Edward Sewall is getting a quick
discharge at the Pacific Mail wharf and
will be rid of all her cargo of coal by
the end of next week, it is thought. She
will probably have to move away from
the wharf tomorrow in order to give
the American Maunaloa the usual berth.
After getting rid of the coal, the Sewall
will load sugar for New York.

PREDICTS NO SABBATH.

Startling Statement by Rev. Lorimer at
New York.

In discussing "America's Religious
Crisis" Rev. Dr. George C. Lorimer,
pastor of the Madison Avenue Baptist
church, said at New York recently.

"Religion, especially evangelical reli-
gion is today of very low vitality. The
attendance at church service is shame-
fully small."
"We are attacked by secular writers.
They tell us that the industry is de-
teriorating, that the churches have lost
their influence with the schools and that
education alone can encompass all the
activities of life. They say that the
churches spend more for the super-
stition of life than for the gospel and
point with scorn at the ice-cream sup-
pers and other cheapening methods of
obtaining money to support the gospel.
They condemn us for sending mis-
sionaries abroad when our people are spir-
itually starving at home."

"But, however true these accusations
may be in part, they are overdrawn.
They must be taken with an allowance.
Yet a thoughtful man will not ignore
them. He must admit that there is a
crisis in American religious life."
"As has been said, we live for money
by day and pleasure by night. I have
no fear in saying that at the present
rate at which we are living in fifty
years we will have no sabbath."

SIMPLICITY THE ORDER.

Apparently, there is to be no dramatic
ceremony on the occasion of our talk-
ing over the Danish Islands. A small
military force will be sent to lower the
Danish flag and raise that of the United
States, and the attendant ceremonies
will be of the simplest character. This
will be in strong contrast with the trou-
ble and expense experienced in taking
possession of the Philippines.—Philadel-
phia Ledger.

GERMS BY THE YARD.

Yells of Stock Brokers Declared to Be
Unhealthy.

Dr. Emil Roux of the Pasteur Insti-
tute, Dr. Pozzi, who performed the fa-
mous operation upon Sarah Bernhardt,
and Dr. Bergeron have been studying
the question of microbes in Paris with
the most astonishing results, says a
Paris dispatch to the New York Journal
Tribune as the Hotel Dieu there are 40-
500 microbes to a square yard and that
at La Pitié hospital there are almost
twice that number to the square yard.
"The house is also badly infected, say
these doctors, having about 10,000 mi-
crobes per yard. The physicians say
that the selling of the traders makes
the air very impure there, and although
they have no strict data their opinion
is that the atmosphere of the New York
stock exchange and the Chicago board
of trade must be just as bad. Air from
the main sewer of the city, they say, is
not as impure as that at the bottom, yet
the death rate of Paris is not out of
proportion to that of other cities."

SHE COULDN'T WAIT.

Mrs. Deborah Doty died at Frews-
burg, N. Y., recently while the family
were making preparations for a cele-
bration of her 100th birthday. She was
born in Amsterdam, N. Y., March 6,
1798.

VALUABLE CROPS.

Nuggets of gold weighing from a
quarter of an ounce to one ounce were
found in the crops of chickens and
ducks in a Chicago market. The fowls
were shipped from Effield, Wis.

Ads under "Situations Wanted," in-
serted free of charge in the Star.

GOOD FRIDAY.

On Good Friday, there will be ser-
vice at Central Union Church at 7:30
o'clock in the evening.

At the German Lutheran church on
Good Friday there will be service at
11 o'clock in the forenoon and Holy
Communion at 12 o'clock.

On Easter Sunday at the Lutheran
church there will be Sunday School at
10 o'clock and service at 11. This even-
ing at 7:15 there will be instruction to
the class to be confirmed.

Maundy Thursday services at the
Roman Catholic cathedral will be:
Procession from Mass with Holy Com-
munion, 11 a. m.; 2 p. m. washing of the
feet; 7:30 p. m. Portuguese sermon
with benediction.

The services in St. Clement's chapel
on Maundy Thursday (tomorrow) will
be: Morning prayer, 8 a. m. Holy Com-
munion, 11 a. m.; 2 p. m. washing of the
feet; 7:30 p. m. Portuguese sermon
with benediction.

The Anti-Saloon League will hold its
semi-annual convention at the Young
Men's Christian Association hall to-
morrow evening. Addresses on the
"Prohibition System" will be made by
W. C. Smith and Rev. W. D. Westcott.
Officers for the ensuing term will be
elected. A cordial invitation to the
public to be present is extended.

IT WOULDN'T STOP.

The inoffensive snow-sweeper, so
familiar to all the inhabitants of the
northern American cities, has caused a
great deal of commotion in Paris. It
was introduced there this winter to re-
move the snow from the tracks of the
street railways, and when it came
whirling along, the morning of the
first snow, was hailed by many shiver-
ing citizens who took it for some new
sort of electric conveyance. As it
did not stop as the police regulations
of the city require, scores of angry
people complained that day to the pres-
ent of police.

DAMAGE DONE ON KAUALA.

The Waialeale which arrived this
morning from Waimea, Kauai reports
that the Waialeale valley was flooded by
the recent rain storm and that one of
the reservoirs on the McBride planta-
tion broke and overflowed. Consider-
able damage was done about the lake
and it was reported.

Ayer's Cherry Pectoral

It often cures a fresh cold in a single
night, and it masters chronic coughs
and bronchitis in a short time. Con-
sumption is certainly prevented, and
cured, too, if taken in time.
If anybody tells you that consump-
tion cannot be cured, they are certainly
mistaken, for we have thousands of
those cases reported to us, absolutely
cured, and no mistake about it.
Put up in large and small bottles.
Ayer's Cherry Pectoral Plaster placed
directly over the tender, aching lung
is a great aid to the Cherry Pectoral.

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass., U. S. A.

THE BOARDING SCHOOL

THE LARGER PLANS FOR ITS EN-
LARGEMENT.

Manual Training and Self-Support the
Dominant Features of the Institution.
Plans for New Buildings.

The Hilo Boarding School has just issued a prospectus outlining its plans and hopes for the future. The purpose of the prospectus is indicated in the short preface which is as follows:

"This prospectus giving a glance at the past of the Hilo Boarding School, is especially designed to call the attention of the friends of education in Hawaii to the future possibilities of the institution if given the needed support. The accompanying illustrations show what skilled architects have planned in new buildings and ground arrangements. The realization of these plans depends upon the generosity of believers in practical education."

The prospectus then proceeds: The Hilo Boarding School was founded in 1836, by Rev. D. H. Lyman. The original plan was to fit the Hawaiian boys to become useful, Christian citizens and this has ever been the first aim. From the founding of this school, manual training has always been its strongest feature. At a reunion given at the Hilo Boarding School last June, the alumni were called upon to make a few remarks and it was especially gratifying and encouraging to listen to the handsome, stalwart, grey-haired men who responded to this call—men who have made something of themselves, and who have the respect of all who know them. In those old days, when civilization was just appearing in these islands, and when money was very scarce, these same men, then members of the Hilo Boarding School, turned their hands to many useful employments. They were no government school boys on this island, hence "Father Lyman," as he is universally called in this country, formed a normal class, and the Hilo Boarding School Boys taught nearly all the schools on the island of Hawaii. There was as great need of ministers and he added a theological class, and sent his young men out to preach in the different parts of the island. As donations came to the school, work shops were started, though the appliances were necessarily meager. The tuition was then as it still is, \$25 a year, but the boys were mostly too poor to pay even that. None, however, were refused admittance. If they had no money, some benevolent person was asked to support them.

The course in the academic department covers eight years, beginning with the lowest primary. Classes assemble from 8:30 a. m. till 12 m.; with a study hour in the evening from 6:30 to 8:30. Instruction is given in reading, mathematics, geography, history, language, the sciences, drawing and music. In our course of study we aim to keep in touch with Kamehameha Manual School, and boys graduating here are encouraged to continue their work at Kamehameha. This is one reason why Hilo Boarding School boys of later years have been lost sight of, since their work is the same as practical as the work at Kamehameha, they go into the world as Kamehameha graduates.

The work in manual training department is all practical. The boys raise on the school farm, food for their tables such as taro, vegetables and fruit. The work is the same as practical as the work at Kamehameha, they go into the world as Kamehameha graduates. The work in manual training department is all practical. The boys raise on the school farm, food for their tables such as taro, vegetables and fruit. The work is the same as practical as the work at Kamehameha, they go into the world as Kamehameha graduates. The work in manual training department is all practical. The boys raise on the school farm, food for their tables such as taro, vegetables and fruit. The work is the same as practical as the work at Kamehameha, they go into the world as Kamehameha graduates.

The carpenter boys are instructed in the usual elementary exercises. They have made their own working benches, built the lavatory, made cabinets for the class rooms, mended chairs, desks and fences. In fact, they do nearly all the repair work. We seldom hire a carpenter.

The printing class, after learning to set type, prints all our programs, bill heads, circulars, prayer-meeting topics and blanks of all kinds.

The wood-turners have made stools for the boys' rooms and occasionally some practical work for the school, but their time is mainly taken up in turning calabashes from the beautiful island woods. These are polished and sold to tourists and others. This department nets us several hundred dollars every year. The boys who are too small to enter the shops, are instructed in sewing and knife-carving.

With one branch more, the manual training is covered, and this is the domestic department, the cooking and kitchen work, the sweeping and cleaning. The boys do all this, no servants are employed in the school.

As time passed, conditions became such that 4 years ago, we were able to start what is called the "work scholar ship" system. In those days we found a difficulty in meeting the \$25 tuition fee. This means that a boy pays for his scholarship in work instead of money. Every boy in the school is required to work three hours on the school farm, the "work-scholarship" boy works four. He keeps his own time-book, and, at the end of each month, he goes to the farm teacher, and they go over their respective accounts to see if the time tallies, for they are credited by the hour.

This system has done as much as any part of our teaching in developing manliness and independence. The boys have grown to feel that it is more honorable to earn what they get, than was the old way of accepting help from others. Besides this, it is making them business-like, and they are learning the true value of labor; and, at the same time the value of money. We have dwelt at length upon the due value of labor; and, at the same practical side of our life here, because we wish the reader to understand how self-supporting our boys really are. The work-scholarship system has shown an immediate result in developing in the boys a desire to support themselves.

As a general thing the boy enters school with no large amount of worldly goods. He must immediately provide himself with school books, a suit of white clothes for Sunday and a military cap. And, unless the boy has an unusually kind father, he earns these for himself after he enters school. He does this by working extra hours in the school and doing odd jobs in the town on his holidays. He either does his own washing or earns money to hire it done. Besides his necessary

expenses he will, during the year, work out for tuition free.

We teachers at the Hilo Boarding School, who have seen the strength of our boys to meet these demands, feel that they compare favorably with any class of American boys. I have before me two pictures of our school boys, one taken a few years ago when so many of them were dependent on charity for their support; the other, taken just June, under our present system. The former shows a motley array of untidily clad boys, with a doleful look in coats and shoes—a happy company, none the less, and untidied by their personal appearance. In the latter picture, each boy is dressed in a spotless white uniform and a neat military cap. He stands like a soldier. He seems to feel his self-reliance and a glow of pleasure in the knowledge that he has paid for every garment on his person. He cares for clothes more, because he knows how he can earn them.

This is, as I said in the beginning, an old school. The buildings have grown old in hard service, and the time has come, when they can no longer meet the needs as class room buildings. For dormitory purposes, they have long been the discouragement of preceding principals and teachers.

Another want has long been felt by the trustees and the people on this side of the island and that is, the need of a boarding school in which girls can be taught the domestic sciences. At a meeting of the trustees of the Hilo Boarding School last June, it was resolved to make use of the beautiful grounds of the Boarding School to start such a school.

This co-educative plan would necessitate the erection of two large buildings at an outlay of \$25,000 for each. One for girls and one for boys. The girls building would contain on the first floor, the dining hall for both schools, the kitchen, sewing room, sewing and knife carving rooms; the basement being supplied with laundry conveniences. The second floor would contain dormitories for the girls and rooms for the lady teachers; the boys' building on the first floor, school rooms for both girls and boys, office, reading room and boys' sitting room; the second floor, boys' dormitories and rooms for gentlemen teachers.

As yet co-education in the boarding schools has not received a trial. We believe the time is ripe. We believe in the proper development of Hawaiian youth, that there are problems which can be better solved by co-education than by any other means. This co-educative idea seems to be particularly adapted to the conditions of this school. The boys would act as the producers to supply the tables with the fruits of the farm and gardens. The girls would turn these productions into palatable dishes for the tables.

The school is opened to all nationalities. This plan which would triple the present number of pupils, would necessitate the purchase of more land, and an increased endowment fund. The whole plan requiring an outlay of \$100,000. The scheme is a large one, but we wish only to state our needs, and are gratified to know that assistance will come.

The following is a list of the present board of trustees, viz: F. S. Lyman, president; Rev. C. W. Hill secretary; C. E. Richardson, Rev. S. L. Desha, G. W. A. Hapal, N. C. Wilfong, Mrs. J. L. Richardson, Dr. Frances Wetmore, Rev. J. Kuthane, Rev. S. C. Lullian, Rev. O. P. Emerson, W. W. Hall, J. B. Atherton, Principal and treasurer, L. C. Lyman; vice-principal, Rev. R. K. Baptiste; teachers, W. H. Beers, Mrs. Ella Westervelt, Miss Maude O. Hansen, David Keshi, Mrs. J. T. Lewis.

BOYS' BRIGADESPORTS

FIELD DAY EVENTS SHOW GOOD ENTHUSIASM

Plenty of Competitors Promise Keen Rivalry for Honors on Saturday Afternoon—The Full Program.

The battles for the Boys' Brigade contest are now closed and the showing promises excellent sport for next Saturday afternoon. Six athletic or games events are represented in all and every event has plenty of competitors to make matters interesting. The rivalry for honors between the factions is very keen and if the weather continues fair there is a practical certainty of local records being slipped in the short races. The longer distance events cover portions of the Kapiolani track that are not in the best condition, the first quarter being too sandy and the third too much exposed to the valley winds.

The cup to be presented to the winning team on exhibition in Wickham's window and makes a trophy to be proud of. It is of plain gold shape, graceful in outline and generous in proportion. The tickets at twenty-five cents each have been placed on sale in the hands of a select few of the more energetic hustlers among the clubs and leagues of the city.

The competing clubs will be Honolulu Athletic Club, Kamehameha Athletic Club, Maile Hima Athletic Club, Y. M. C. A., Punahou Athletic Club, Artillery. The complete list of events and entries is as follows:

One hundred yards: H. A. C.: En Sul, Price, S. A. Crook, L. R. Crook; Kam.: Akana, Pa. M. L.; Hopkins, Platts, Punahou, Gay, Y. M. C. A.: Pierson, Mayall; P. A. C. Kaulukou, Holmes; Artillery: Wheeler. This race will be run in two heats, as follows: First heat: Platts, Kaulukou, Gay, Holmes, Pierson, Punahou, Akana, S. A. Crook. Second heat: L. R. Crook, Hopkins, Wheeler, Price, Pa. En Sul, Mayall. First and second in each heat to run in final.

Half Mile: H. A. C.: Cooper, M. Anderson, Williams, Sherwood; Kam.: Scharsch, Kamali; M. L. J. Anderson, Gay, Y. M. C. A.: For, Jenkins, P. A. C.: Brown, Allen, Ryecroft.

Hundred yards hurdles: H. A. C.: Holt, En Sul, Kam.; Harbottle, Hamauku, Kaulukou, M. L. Wright, Cockett, P. A. C.: Miller, Hapal, Dickson; Artillery: Tinkle. First heat: Cockett, Holt, Dickson, Tinkle, En Sul, Kaulukou. Second heat: Wright, Kamauku, Harbottle, Miller, Hapal. First and second to run in final.

Selection—"The Toyador," Monckton.

Waltz—"Lei Hima," Petrus.

Selection—"American Melodies," Confetto.

"Star Spangled Banner."

JAPANESE DROWNED.

Saki, a Japanese, was drowned Monday afternoon in the Waikiki stream, a quarter of a mile from Pearl City. He was working on the Oahu railroad, getting drift away from the bridge, when all of a sudden he was carried off. His body was found yesterday morning a mile and a quarter away, fifteen hours after his disappearance.

HONORS TO BRIGHAM.

Elected a Member of the Anthropological Institute.

William T. Brigham, Curator of the Bishop Museum, has been elected an honorary member of the Anthropological Institute of Great Britain and Ireland. In notifying Prof. Brigham of his election, Prof. Alfred C. Haddon of Cambridge University, president of the institute writes: "I was very pleased that a few days ago the institute formally acknowledged the great work you are doing for Oceanic ethnology by electing you an honorary member."

"We fully realize the difficulties that beset one isolated as you are, and we thoroughly appreciate your enthusiasm and ability, which have so successfully surmounted all the obstacles. May you long be spared to continue your studies and to enrich our beloved science."

NEW RIFLES FOR N. G. H.

The local National Guard is expecting an outfit of Krag-Jorgensen rifles instead of the Springfield rifles recently ordered by Adjutant General Soper. Hawaii is entitled to an annual appropriation of \$5,000 value received in equipment for the use of the National Guard and the new order for rifles will practically exhaust the present appropriation much of which has been used up in clothing and accoutrements. The Krag-Jorgensen rifles are expected under a recent order of the War Department concerning the arming of the National Guard.

FROM PAGO-PAGO.

Among the passengers on the Sierra was John B. Leonard, superintendent and engineer for Healy, Tibbets & Company at Pago Pago. He has been connected with the work from the time the first pile was forged by the Carnegie Co. in Pittsburgh, U. S. A. until the work was completed.

BOOKS FOR THE BLIND.

New York's free circulating library for the blind, which occupied the basement of the St. Agnes' parish-house in East Ninety-second street, Manhattan, has become, in the six years of its existence, the largest library of its kind in the United States. When the great city library now building on the site of the old Forty-second street reservoir is completed, the library for the blind will have quarters there.

BROUGHT OUT THEIR DEAD.

A party of prospectors reached Boise, Idaho, recently after a terrible 14 day's journey through the snow from the Thunder mountain district, bringing with them the bodies of three of their companions who were victims of snow slides. The bodies, frozen and wrapped in hides, were drawn over the snow of the mountain passes, the prospectors undergoing almost incredible hardships to bring out the bodies of their dead friends.

HOW TO PREVENT PNEUMONIA.

You have good reason to fear an attack of pneumonia, when you have a severe cold, accompanied by pains in the chest or in the back between the shoulders. Get a bottle of Chamberlain's Cough Remedy and use it as directed and it will prevent the threatened attack. Among the tens of thousands who have used this Remedy for colds and the grippe, we have yet to learn of a single case that has resulted

will sing one of the principal solos.

G. Kunit, the owner of Vailima, Rob-
ert Louis Stevenson's old home in Sa-
moa, arrived by the Sierra yesterday.
He will remain here about three months
and then go to Germany.

MEMORIAL COMMITTEE MEETS.
Temporary Chairman Appointed During
Governor's Absence.

At a special meeting of the McKinley
Memorial Executive committee yester-
day afternoon called to select a tempo-
rary chairman during the absence of
Governor Dole at Washington, F. A.
Schaefer was elected for the pro tem-
porary office. Those present were Gov-
ernor Dole, A. G. Hayes, secretary, J. G.
Kothick, Rev. W. D. Westervelt, K. J.
Imanishi.

The Japanese subscriptions to the
fund have been coming in steadily and
have up to the present been far more
numerous than the individual subscrip-
tions of Americans and other nation-
alities. Commenting on this fact, the
committee expressed the belief that
pressure should be brought to bear upon
the delinquent nationalities in the group
to send their subscriptions in more
promptly. J. G. Rothwell proposed that
a suggestion for improvement in the
system of making collections be drafted
and reported upon at the next meeting.
The proposition was adopted.

A vote of thanks was also extended to
Mr. Rothwell for his work as treasurer
during the absence of C. M. Cooke, J.
A. McCandless was added to the com-
mittee on grounds during the governor's
absence and will co-operate with C. M.
Cooke and F. A. Schaefer in that mat-
ter.

HARBOR AND MUD

MANY SAW ONE AND EXPERI-
ENCED THE OTHER.

Hundreds of Hacks and Carriages Drive
Through Water and Slush to the
Channel Wharf Today.

More people saw the improvements
that are going on at the Waikiki end of
the harbor today than have probably
ever seen them before, because there
were more people who went down to
the channel wharf than have been there
since this work began.

What most of them will probably re-
member most vividly is the mud. The
explanade from the Fish market past
the naval wharves to the Honolulu
Iron Works was a sea of mud through
which hundreds of hacks and carriages
splashed their way. Pedestrians found
fairly good walking, if care were ex-
ercised, between the course of the car-
riages and the harbor.

Just beyond the marine railway,
where the Myrtle Club house used to
stand, the dredger is at work dredging
the slips for the new Bishop Estate
wharves. The material from the dredg-
ing, broken coral and water is being
forced through a line of pipe to the area
Waikiki of the Healan club house, and
between it and the extension of Punch-
bowl street which leads from the Iron
Works to the Channel wharf, the de-
bris from the dredger flanks the thir-
droughfare leading to the channel wharf
and is built up about two feet higher
than the roadbed being held in place by
a board wall. Through the crevices of
this wall the water pumped up with
the debris flowed over on to the road-
way making it impossible for pedes-
trians until a pathway had been made
along the Waikiki side of the road-
way with sand bags and pieces of
boards.

Through the water covering the road-
way, hacks and carriages splashed their
way, to the discomfort of their occu-
pants and of those who walked.

LIQUOR IN PAGO PAGO.
PAGO PAGO, March 23.—A stringent
Ordinance was issued yesterday re-
specting the importation and sale of
spirits and spirituous compounds.

It forbids the importation and sale of
all compounds and preparations of
which spirits are a component of chief
value, and says: "Among such com-
pounds or preparations are: Cordials,
liqueurs, arrack, absinthe, kirschwasser,
bitters, schnapps, kola, medicinal pre-
parations containing alcohol, and other
beverages of like nature, of whatever
name."

"Also bay rum and Florida water and
other such preparations as Jamaica
ginger, lemon and other extracts that
may be used as a beverage and produce
intoxication."

DRAUGHTSMAN GOING.
One of the draughtsmen of the survey
office will go with Captain Rodman on
the tour of the Iroquois, to serve in
making charts. Rodman needs a chart-
man, and Surveyor Wall will grant a
vacation without pay to one of his force
in order to allow him to make the trip.

FOOD!

How is your appetite? Leading ques-
tion, we know, but it means one of two
things—health or illness. No matter
how much or how excellent your food
is without a normal appetite, you can't
enjoy it. The digestive apparatus gets
run down. It needs toning up.

**Royal
Malt
Extract**

a pure malt extract made from whole-
some barley is a tonic par excellence.
It will restore the appetite, tone up the
stomach, and banish fatigue and weak-
ness. A few bottles will probably be all
that you will need and make you feel
like a new being, with vim, vigor, and
renewed strength.

Be sure you get the Royal Malt Ex-
tract and except no substitute. Price
25 cents per bottle; \$2.50 by the dozen.
