SYRUP OF FIGS

ONE ENJOYS

Both the method and results when
Syrup of Figs is taken; it is pleasant
and refreshing to the taste, and acts
promptly on the bowels, cleanses the
system effectually, dispels colds, head-
aches and fevers and cures habitual
constipation. Syrup of Figs is the
only remedy of its kind ever pro-
duced, pleasing to the taste and ac-
ceptable to the stomach, prompt in
its action and truly beneficial in its
effects, prepared only from the most
healthy and agreeable substances, its
many excellent qualities commend it
to all and have made it the most
popular remedy known.

Syrup of Figs is for sale in 50
cent bottles by all leading drug-
gists. Any reliable druggist who
may not have it on hand will pro-
cure it promptly for any one who
wishes to try it. Do not accept any
substitute.

The London Electrical Review, in an
article on thunderstorms, states that the elec-
tric charge is due to the friction between two
currents of air which differ in tempera-
ture or in hygrometric condition. It de-
scribes in detail observations of a storm,
which tend to prove the explanation offered.

Horses raised in high altitudes are said to
possess wonderful capabilities of speed be-
cause a larger amount of air must be in-
haled into their lungs to do the necessary
work. On a ranch in New Mexico, situated
8,000 feet above the sea level, the experi-
ment of raising swift steeds is soon to be
tried.

The Snow Sheds of the Union Pacific.
With two and sometimes three engines,
our heavy train, now divided into two sec-
tions, climbed up the high wall of the Si-
erra Nevada. We passed through the mag-
nificent scenery of Shady run, Blue can-
yon and Giant and Emigrant gaps. In run-
ning 107 miles we had climbed nearly 7,000
feet, sometimes over very steep grades. Be-
fore we reached the summit snow sheds
began to appear and soon became practi-
cally continuous.

It was the month of May, and the moun-
tains were still covered deep with snow.
We rode through 40 miles of these wooden
tunnels, from whose windows we could
now and then catch glimpses of wild wastes
of snow covered mountains and at other
times forests of pine and fir trees. With-
out these tunnels it would be impossible to
operate the road in winter. They are built
in the most thorough manner—often upon
solid foundations of masonry—and are sepa-
rated by iron plates into sections to guard
against the spread of fire.

There are automatic electric fire alarms
in one of the largest sheds and an engine
with a tank close at hand is kept ready to
flood any section that should catch fire.
The sheds are patrolled and guarded in a
careful manner. Such attention is due not
only to the passenger and freight traffic
which the road conducts, but to the value
of the sheds, which average from \$5,000 to
\$10,000 per mile. Several miles, where
bridges and precipices made the construction
difficult, cost as much as \$80,000 per
mile—Observer.

FRIDAY, SEPTEMBER 28, 1894.

A DISPATCH from Peoria, Ill., declares the whisky trust is in financial straits—in fact, hard up for coin. It is the true trust can soon recoup itself by selling out by the drink.

The *Ka Leo* is pouring out its wrath on the native Republicans and seems to be following the *Bulletin's* weak policy of "striking at everything in sight," as a recompense for political and journalistic failure.

Did any Royalist ever see that autograph letter received by the ex-queen from President Cleveland? If not, why not? It is in existence; and it doesn't need the consent of the late Royalist Commission for those who want to get back into politics to tell what the letter contained.

The *Ka Leo* has lately made the startling discovery that Hawaii will be the future battle-ground between the civilizations of the East and West. This is another case, evidently, of the prophetic eye in a fine frenzy rolling; the last time Mr. Bush's eye rolled to no purpose was when he saw that U. S. dispatch boat in the offing, which was to bring news of restoration, *WIFE*.

The fact that the Royalist leaders cannot control the natives as formerly seems to be worrying them considerably. Every steamer arriving from the other islands brings them news of the loss of prestige and votes, as the hopelessness of restoration reaches the native mind. There seems to have been some political fatality, favorable to the Republicans, which caused the Royalist leaders to stay out of politics until it is now too late for them to attempt to manipulate the natives in the coming election.

ANOTHER FLYING MACHINE.

Since the days of Frank Mariott and the *News Letter's* scheme, San Francisco has been without a real genuine flying-machine crank until the late advent of Captain Maximilian Wolff. The Captain is a German who does not speak English, but this has not prevented him from catching the Yankee cue and springing upon the public a flying-machine that will fly like a bird and pay like a sugar trust.

The improvement in Captain Wolff's invention over all previous failures is that it needs "neither engine, nor fuel, nor battery, nor electric motor." It will be worked by the force of gravitation supplied by two heavy anchors dangling in mid air; and in this respect will remind Hawaiians of the late Royalist cause, which proposed to run a government without political force. Captain Wolff's flying machine follows the Royalist theory further and proposes to evolve 16,000 revolutions in thin air to one revolution of the gravitating axle. This is to be accomplished by a series of cogs outnumbering all of the Royalist politicians of Hawaii. Captain Wolff should hasten to take a lesson in theoretical mechanics from applied politics and it may save him from hereafter striking the solid earth real hard, as did the Hawaiian Restorationists.

THE KOREAN QUESTION.

Japan claims that her present policy toward Korea is to preserve the independence of that peninsula, and by the arbitrament of war to force China to sign a treaty of peace, which shall secure the Koreans from the threatening yoke of Chinese bondage. The new treaty between Japan and Korea merely states this policy in detail and provides that Japan will undertake to assist Korea and furnish her with the "sinews of war" until such a consummation is reached.

The fact that China enters a similar plea and claims her attitude toward Japan and her invasion of Korea are to release that nation from the diplomatic intrigues and bullying of the Japanese Government places Korea very much in the light of Alsace.

Lorraine, Poland, Turkey or any other weak and desirable territory which becomes the bone of contention between greater powers. In the present instance, however, it is safe to say the fate of Korea will not be decided by the outcome of the war between China and Japan, no matter which side is victorious, whether it is long drawn out or peace treaties are speedily reached. This is evident to every student of history, who for the past twenty years has been able to read between the lines that the Orient has been really under the control of European nations.

Korea is the natural outlet of the great Siberian railway, which, as soon as completed, will make Russia a daily and practical political factor in the East, as England has been for two decades or more. When the boundaries of Russia and England are determined in the East the fate of Korea will be known and not before. The gain or loss of a dozen naval or land battles by the Chinese and Japanese will cut no figure in the ultimate settlement of the old Korean trouble, and the most that can be expected from the present war will be a more speedy precipitation of the end.

In case the late Japanese victory does not prompt Japan to attempt the invasion of China she will be able to hold her own and may drive China out of Korean waters. The moment, however, Japan makes a move for invasion and raises the war cry of "on to Peking" she will be overtaken by disaster and overwhelmed by numbers.

Viavi Testimonial.

Having received so much benefit from the use of Viavi I am anxious the public should know what a blessing has come to us with the Viavi Remedies. I have suffered with a complication of diseases for six years, have been in the hospital in San Francisco but have found nothing that has benefited me so much as Viavi.

I would recommend it to the suffering people of Honolulu.

Any one wishing to ask me in regard to it may call at my home on Beretania near Niuani street.

Only a Scar Remains

Scrofula Cured—Blood Purified by

Hood's Sarsaparilla.

"C. I. Hood & Co., Lowell, Mass."

"It is with pleasure that I send a testimonial concerning what Hood's Sarsaparilla has done for my daughter. It is a wonderful medicine and I cannot recommend it too highly. Sarah, who is fourteen years old, has been

Afflicted With Scrofula

ever since she was one year old. For five years she has had a running sore on one side of her face. We tried every remedy recommended, but nothing did her any good until we commenced using Hood's Sarsaparilla. My married daughter advised me to use Hood's Sarsaparilla because

MR. CUSTOMER

DEAR SIR:

In reply to yours of 30th ult. we would say that we have all the goods you ask for. In most of the cases the prices you quote are our regular prices, but on some of the items our prices are lower than you mention, and we shall of course give you the benefit of the reduced rates.

Razors and Strops.—We are glad you have decided to try our new "set blade" razors, and patent swing strops, as in the country ever man has to do his own shaving and as shaving becomes a pleasure with these "tools" we know you will have a large demand for them. In regard to **Lawn Sprinklers** we will say that we have sent a very simple one, which cannot wear out or get out of order, the price you see is low, and they will do good work.

Pocket Knives.—We send what you order in this line and will say that we have lately received a fine assortment so can furnish anything in this line from 15 cents to \$4.00 each. Yes, we have the **Clauss Knives**, have sold them for a year, either in sets or single bread knives. Our stock of **Butcher and Hunting Knives** is also complete.

Soap.—As you did not say how many bars you wished to the 100 lbs., we are sending one case each 42-50-60 and 70 bars to 100 lbs. We carry a heavy stock of this article and, as you will notice, it is a first grade Laundry Soap, and we have put it in at a very low figure.

We regret that you got "nipped" on that "bargain" in **Fence Wire** and note that in future you will come to us and get a first class article. We thought when you told us of your "buy" that before it had been up long you would see you had a "sell."

In closing let us say that we have a large and varied stock of Hardware, Ship Chandlery, Paints, oils, and leather, and when filling your orders will always charge the lowest prices.

Truly Yours
