PRICE 5 CENTS.

PROHIBITION FOR HAWAII? HOUSE TO PROBE M'CROSSON BILL

Congress Halts McCrosson Bill

Information On Wahiawa Water Supply Wanted By House Committee

The Committee on Territories of the House of Representatives has held up all action on the McCrosson Wahiawa bill, a cable having been received by Governor Frear today, stating that this action has been taken. The cable also states that no further consideration will be given the measure until more information has been presented before the committee.

The protests that were hurled to Washington by Castle & Cooke and other interests that would be affected by the interruption of the Wahiawa water supply, under the terms of the McCrosson bill, have undoubtedly had the desired effect and resulted in halting all action on the measure until full particulars in regard to the objections raised to it are presented before the committee.

In accordance with the cable request, Governor Frear will send to Washington on the Lurline tomorrow all of the data obtainable on the status of the Wahiawa water supply and the results that would follow the carrying out of the terms of the measure as taken to Washington by McCrosson.

Instead of holding a public meeting on the McCrosson bill tomorrow night, as planned Saturday, the Republican Territorial executive committee has decided to hold an executive session tomorrow and then determine when the public meeting is to be held. The members of the committee are of the opinion that the terms of the bill are entitled to the most careful consideration, and believe that more time should be given in preparation for the public meeting.

T. J. O'BRIEN, EMBASSADOR OF UNITED STATES TO JAPAN BRINGS MESSAGE OF PEACE

It is a message of peace that is being borne across the Pacific by Thomas J. O'Brien, ambassador of the United States to Japan, who today is making a temporary stay at Honolulu.

Despite the ever-recurring war stories originating from disgruntled correspondents returning from the Far East, or from certain commercial interests along the Pacific Coast of the United States, Ambassador O'Brien is a pronounced optimist.

Accompanied by Mrs. O'Brien, the official is returning to his post at Japan after a two months' leave of absence spent in the States.

"There is absolutely no ground for the senseless rumors of war between the United States and Japan," declared the ambassador this morning. "Japan will proceed with the outlined program of maintaining and making additions to her fleet, as do other countries. The report that the Japanese government had awarded a contract for two big battle-ships need cause no alarm. The fleet now maintained by that nation must necessarily undergo a process of elimination in order to make way for vessels of larger tonnage and of more modern construction and armament."

Continuing, Ambassador O'Brien stated: "Japan is still recovering from her late war with Russia. The country has no available means for entering into conflict unless forced to do so by another nation. Her industrial and agricultural development will require all the available time and attention to recover prestige lost during the last war."

Embassador O'Brien declared that his visit to the United States bore no political significance.

"I am just on a vacation like any other citizen and am going back to work much benefited by my visit to

the United States. I have not much to say that would be of interest to the public, unless it is to repeat what I said before—that the relations of Japan and the United States are most cordial at this time.

"There is a large trade between the two countries, and so far as I can see there is no cause for any rumor of war. Emigration to this country from Japan has almost entirely ceased compared to what it used to be. The government is discouraging the migration of its subjects, stating that they are needed at home to assist in the development of the country."

The diplomat ridiculed the war scare which perennially makes its appearance with the arrival of some of the lesser lights among newspaper correspondents who have visited the Orient within the past ten years. When informed that at least two newspaper men and novelists had passed through Honolulu, predicting a near approach of hostilities between Japan and the United States, Embassador O'Brien declared that such statements were silly and had absolutely no foundation in fact.

"Let me impress it upon you that the relations between Japan and the United States at the present time are the most friendly." The fact that it has been alleged that the report of Secretary of War Dickinson had been withheld from the public appeared to have no significance to Embassador O'Brien, from the tone of his conversation on board the Manchuria this morning.

The United States diplomat spent considerable time at his former home at Grand Rapids, Mich. He has visited Honolulu on several occasions and announced that he was always delighted at an opportunity to visit the city.

Prohibition Bill In Congress Woolley At His Work Again

(Associated Press Cable.)
WASHINGTON, D. C., Dec. 19.—Prohibition for Hawaii is again threatened. An effort is to be made to pass a prohibition act that will apply to Hawaii. The final form in which the measure will come up has not been made public, but it is expected to be a bill for abolition of the saloons throughout the Territory, in spite of the returns from the plebiscite, which showed that the people of Hawaii are overwhelmingly against prohibition.

FILIBUSTERS ON THIRTEEN KILLED FORMER U. S. GUNBOAT? IN NEW YORK EXPLOSION

(Associated Press Cable.)
NEW ORLEANS, La., Dec. 19.—The former United States gunboat Hernet is said to have been purchased by Honduran revolutionists, fitted out with stores, ammunition and rifles and sailed for Honduras to take part in the revolution.

STEAMER FAST ON ROCKS AT VANCOUVER

(Associated Press Cable.)
VANCOUVER, B. C., Dec. 19.—The steamer Prince George is fast on the rocks at the entrance of the harbor here. The extent of the damage has not been ascertained.

LT.-COL. BENET GOES TOMORROW

Has Inspected Heavy Guns at
Honolulu Forts During
Week.

Lieut.-Col. J. Walker Benet, who has been inspecting the heavy guns and ordnance at the posts around Honolulu for the past week, will leave for San Francisco on the Lurline tomorrow.

In speaking yesterday afternoon, at the Monna, of the work here, he said that the work was merely routine, and that there were no gun tests made during his present visit. Lieutenant-Colonel Benet is in charge of the arsenal at Benicia, Cal., and is an armament officer for the Western district, which includes the Pacific Coast States and Hawaii.

Either he or his assistant here has to make an inspection of the district each year. This is the first time Lieutenant-Colonel Benet has been in Honolulu, and he says that the name "Paradise of the Pacific" leaves nothing more to be said of Hawaii.

Two fifteen-pound guns are being mounted at Fort Armstrong this week, these guns being placed to protect the mine area of the harbor, and within a few months four more mortars will be mounted at Fort Ruger. The four now mounted there were tested last year, so there was nothing in the testing line for Lieutenant-Colonel Benet to do there.

There are no guns at Fort De Russy yet, and it is not known when the pieces for that station will be here ready for mounting, according to the armament officer.

At Pearl Harbor there are now two 12-inch guns mounted, and more to come.

In speaking of the number of troops necessary to garrison the whole of the coast defense forts to work the heavy guns, Lieutenant-Colonel Benet said that a garrison might be placed in each fort, or only one garrisoned and detachments placed in the others.

Generals Bliss and Aleshaire went over this matter when they were here, but as to what report was made Colonel Benet did not know.

In addition to the work of inspecting the guns and armament, the officer has to inspect range-finding instruments and all other apparatus used in the firing of heavy guns.

COALITION WAS A SUCCESS IN ELECTIONS

(Associated Press Cable.)
LONDON, Dec. 19.—The British general elections are complete, and according to the returns the government party has won a remarkable victory. The government will have 197 seats in the House of Commons as against 273 for the opposition. The Unionists concede that an attack will be made on the House of Lords. The coalition of Liberals, Laborites and Irish Nationalists resulted in the victory of the government party.

DWIGHT FOR JOB EBEN LOW WANTS

Result of Caucus Among Supervisors Starts Small-Sized Row.

Before the newly-elected Board of Supervisors has taken its seat, something more than a flurry has been caused by the slating of Eben Low for chairman of the finance committee instead of the roads committee, and news came from the Coast today that clues have been found leading all the way from San Francisco to the Orient by way of Honolulu.

So far as is known, none of the local customs or immigration men are suspected, but it is certain that Honolulu, as a port of call, is to be drawn into the investigation.

The sensation from the Manchuria, caused by the capture of the fifteen Chinese on the night of December 4, was heightened with another cap-

ture yesterday.

Health—Krugger, chairman; Atana, McClellan.

Police—Murray, chairman; Krugger, Arnold.

Public expenditures—Atana, chairman; Murray, Krugger.

Finance—Low, chairman; Atana, McClellan.

Roads—Dwight, chairman; Low, Arnold.

Fire and light—Arnold, chairman; Low, Murray.

It appears that a week ago, while Low was absent, the five other members of the board held an informal caucus and determined to put Sam Dwight at the head of the roads committee. Formal decision was reserved, however, until Low came back from his trip to another island. Yesterday the second caucus found the supervisors still of the same mind, and Low was given a committee he declares he does not want.

Harry Murray, who is spokesman for the caucus, said today that a good deal of opposition has arisen among local business men to Low's appointment.

"Most of the members of the board have learned, in talking with the business men, that they want Dwight on the roads committee instead of Low," says Murray. "Dwight is a resident of the Fifth District, and the fifth feels that it deserves special attention. There is no animosity against Low. The members simply feel that Dwight's selection will be more generally satisfactory." He declined to be more specific as to the nature of the opposition.

This morning Low personally interviewed a number of business men and, it is reported, found none of them willing to declare himself against Low for the chairmanship. Bertram von Damm also went to a number of business men in Low's interest and says that all of them think Low would be satisfactory at the head of the roads committee.

The mayor will probably call all of the new supervisors together this week to talk over legislation.

The Great American Show, Asia Park, gives a free exhibition outside the tent at 7 p. m. every evening.

Regular dishonesty is easier to manage than irregular honesty.

Smuggling Ring On The Pacific

Chinese Taken Through Honolulu By Liners From The Orient

The port of Honolulu promises to become involved in one of the big smuggling sensations for years. Friday, December 9, immigration and customs officials in San Francisco captured five Chinese, four coolies and a young girl, hidden around in various parts of the vessel, two of them in a lifeboat, where they were well supplied with food and water. Following this, Collector of the Port Stratton suspended one inspector, dismissed, and gave two more twenty days' lay-off.

The boldness of the plans to get the Chinese from these two vessels leads the authorities to believe that there is a big ring in the immigration and customs departments at San Francisco and that the Chinese are handled by an organized gang of smugglers.

Today the Manchuria arrived from the Coast with the fifteen Chinese that were captured on the night of December 4 in San Francisco. They are in the steerage, and during the stay of the liner in port will be carefully guarded.

Officers of the vessel declare that they have been unable to find the secret room where the fifteen were hidden all the way across the Pacific. There are seven women and eight men, and they will probably be followed by the five captured from the Manchuria.

Continued on Page 4.

WORLD-TOURING HUPMOBILE HERE

Little Car Making Sixty Thousand Mile Trip to Test Endurance.

The first automobile on a world tour to make Honolulu arrived in the city this morning by the Manchuria from San Francisco, this machine being a Hupmobile touring car which left Detroit on November 3.

From the plains to the desert and then across the mountains this little twenty horse-power machine has made its way, traveling over roads that in

many cases would have been impossible for a heavy touring car.

In charge of the trip is J. R. Drake, treasurer of the Hupmobile Company. T. M. Hanlon, a mechanical expert of the company, and T. C. Jones, publicity agent.

About forty cars accompanied the little Hup from Detroit to Chicago, agents of the company in nearby cities and friends of those starting on the world-enraving tour.

This car which has started on the long trip, that is reckoned to take two years, is one of the new touring cars of the company. For the past three years a runabout has been made but this is the first year of the touring car.

It is a four cylinder, four passenger, 20-horse power car, with the same motor as the runabout, and weighs, with its three passengers, less than 2,000 pounds.

SUGAR

SAN FRANCISCO, Dec. 19.—Sugar: 96 degrees test, 3.99c. Previous quotation, 4.5. Beets: 88 analysis, 98, 0.1-24; parity, 3.89c. Previous quotation, 98, 0.1-44.

A liquid laugh is said to be less stimulating than a liquid "smile."

Officer Bergan crossed the erratic course pursued by one Oplop on Saturday night and the man was lodged at the central station charged with drunkenness. He drew a fine of three dollars and the trimmings this morning.

Many a man has lost a dollar in trying to save a nickel.

MONDAY DECEMBER 19, 1910

There are a thousand hacking at
the branches of evil, to one who is
striking at the root.—Thoreau.

Organic Act tinkering is as danger-
ous for Hawaii as tariff tinkering is
for the nation.

Congress should be requested to
hold up all the water bills until the
Legislature can be heard from.

Kill all the mosquitoes you can.
This is the first rule in the list of
directions on how to exterminate the
mosquito.

The short session being the time
when legislative jobs are put through,
the prohibitionists appear to have
started in with their crooked work.

Ambassador O'Brien's views on con-
ditions in the Orient are particularly
pleasing because, although a diplo-
mat, we believe he tells the absolute
truth.

Burbank has discovered a new
species of plant life related to the
lantana. The only interest it arouses
locally is the hope that it will never
come cousting.

Every person who has cash on
hand will find 1911 the best possible
year for buying the securities that
Honolulu offers investors. The price
will never be lower.

How would you like to be a clerk,
working extra hours, beyond your
strength, under the high pressure that
characterizes the Christmas rush?
Buy your presents today.

Naval plans on an elaborate scale
would be expected from Japan since
China has decided to have a navy. If
Japan should fail to hold its naval
superiority, it must soon suffer the
fate of a subject nation.

Maui spokesmen claim to want bet-
ter schools, but they should not allow
a disgruntled and troublemaking
school teacher to warp their better
judgment, when considering the ways
and means of improvement.

Senator Lodge's speech on the tar-
iff seems to put him on record against
the stand patters and in line with the
administration's plan of changing one
schedule at a time. Mr. Lodge is thus
going after the Administration sup-
port. He needs it.

Now is the time for the Chamber of
Commerce and the Merchants' Asso-
ciation to step in and express a posi-
tive opinion on the enemies of Haw-
aii who ask Congress to pass laws
directly opposed to the overwhelming
verdict secured direct from the peo-
ple.

This, right now, is the time to push
that One Hundred Thousand ball
along, no matter whether it is up hill
or down dale, keep it going. One
Hundred Thousand population for Ho-
nolulu in 1915 is no dream but a pos-
sibility. Don't talk of what you are
going to do but get in and do it.

The Kau irrigation proposition is
one that would justify the Territory
in guaranteeing the bonds necessary
to carry the project through, with
proper protection of the interests of
the people. But it is not of such re-
markable value as to warrant sur-
rendering public rights and privileges
to a private corporation, and tinkering
with the Organic Act to bring it
about.

Honolulu merchants have this year
done everything in their power to fa-
cilitate Christmas shopping. Displays
of Christmas goods in all the stores
are of a decidedly seasonable char-
acter. There are but five days more
in which to do your shopping and it
would be well to make your selections
before the goods have been "picked
over." Shop early. Yourself, the clerks
and the merchants will feel
better satisfied.

Fellow Citizen Keefe should re-

member that this is already an Amer-
ican Territory and we are doing what
we can to Americanize the Filipino.
That's a phase of it that is worth con-
sidering unless Mr. Keefe believes
with those who want to get rid of the
Filipinos and leave the Philippines to
the unhappy fate of taking the best
that would be coming to them from
European or Oriental nations.

Prohibitionists are placing them-
selves squarely in opposition to local
self-government in Hawaii. What do
loyal Americans do to people of that
stripe?

One of the favorite criticisms of
newspapers is the charge that they
seek the sporting news of the schools
and colleges rather than the details
of the stunts done by those proficient
in their studies. If this criticism has
any foundation in fact, it may also
be said with full measure of truth
that the average educator makes no
particular effort to place the exhibits
of proficiency before the public
through the newspapers. The Bul-
letin recently published the Honor
Roll of the Punahou Preparatory that
is quite as interesting to as wide a
circle of readers as the names of the
football team and the score of the
season's games. This paper would
gladly publish the honor roll of each
school in the city and Territory, but
apparently the school administrators
haven't the time to send the names to
the paper.

ROOSEVELT AND HONOLULU.

Theodore Roosevelt is billed for an-
other tour of the country.

Why should he not include Hono-
lulu?

Why don't the numerous local
friends of the ex-President work their
pull with him to secure to this city
the honor of entertaining him as a
guest?

Their pull was worked to a frazzle

when they wanted appointments. The
people would like to gain a personal
acquaintance with Theodore Roose-
velt, fellow citizen.

RESPONSIBILITY FOR COTTRILL.

The most serious phase of the ap-
pointment of Mr. Cottrill of Ohio to
be Collector of Internal Revenue is
the loss to Hawaii of the recognition
of its right to furnish the men for
local offices whether Federal or Ter-
ritorial.

The responsibility for this loss must
rest with the Governor of the Terri-
tory.

Hawaii presented to the President
a house divided against itself. The
Governor must accept responsibility
for this, because the Delegate and the
Republican National Committeeman
called upon him with a view to "get-
ting together" on the Revenue Col-
lectorship. The Governor then and
there had the opportunity of express-
ing his definite preference and throw-
ing the responsibility for refusal to
accept his candidate upon the Dele-
gate and the National Committeeman.

As usual, in this conference he was
evasive, and after the verbal sparring
match called the chairman of the Re-
publican Territorial Committee into
consultation with the result that a
further division was created by that
committee reversing itself.

It is the old story of dark lantern,
back-room methods and the usual
product of failure and community dis-
gust.

As for Mr. Cottrill, the Bulletin
sees no good reason why he should
be opposed on the sole ground that
he is a negro.

There is no doubt that being of the
negro race he has a difficult position.
But his efficiency as a public officer
will be the final test by which he will
be judged.

If Mr. Cottrill comes here with the
idea of running other things than his
office, he will get himself into a peck

The serious illness of "Mother" Rice
is the occasion for his departure.

suspected smuggling of opium to the
enlisted men on Angel Island, San
Francisco harbor. One of the sol-
diers has already been arrested and
is undergoing severe examinations.
Concerning this, a San Francisco pa-
per says:

The entire upheaval in the customs
service now is believed to be a "back
fling" from H. H. North, the deposed
immigration inspector. Customs in-
spector Stratton, despite the amount
of suspicion being cast upon his of-
fice here, according to one of the
secret service men now in town,
gradually is cleaning up the affairs
of his office, and the recent sensa-
tions have developed as a result.

The weekly trips of certain enlist-
ed men on Angel Island are believed
to indicate that opium has been
dropped from incoming steamers of
the Pacific Mail in lots of from fifty
to a hundred pounds. The drug will
float for a long time, and it is be-
lieved that those in the scheme, head-
ed by an outsider, simply pick it up,
tow it ashore to a canoe and then
have it distributed to the men who
take it to this city and dispose of it
here to certain Chinese.

Christmas Jewelry

Jewelry is liked by everyone.
It is the gift for Christmas. The

**DR. MACKALL
IS ENDORSED**

County Committee Recom-
mends City Physician to
Succeed Himself.

Dr. Bruce McV. Mackall was en-
dorsed to succeed himself as city and
county physician at a meeting of the
Republican county central commit-
tee at noon today, thus ending what
looked like the beginning of a scrap
in party ranks.

The committee named last week
to look up Mackall's record, consist-
ing of Chairman William Henry and
George Davis, did not find any proof
that he is not a good Republican,
which was the charge made, and so
reported. Thereupon he was endor-
sed and Dr. J. H. Raymond endorsed
for second choice.

Now is the period of time between
awhile ago and after awhile.

**LORD GETS BIG
QUARRY PLANT**

Contractor Pays Fifty Thou-
sand Dollars for Machinery
to Build Breakwater.

E. J. Lord of the Lord-Young En-
gineering Company returned today
from the Manchuria from the Coast,
where he went to purchase machin-
ery for the construction of the Hilo
breakwater, including his quarrying
apparatus. The machinery, he says,
will be shipped direct to Hilo by the
Matson boats, and will begin to ar-
rive about December 31.

Mr. Lord has purchased a plant
at an expenditure of approximately
\$50,000, and it will take about three
months to assemble the entire outfit,
after which work will be rushed as
Lord knows how to rush it.

Don't try to raise a disturbance un-
less you would lower yourself.

Shoes of Quality

Laird Schober Company, manufacturers of fine shoes, have filled our order for pumps made of

SATIN DE LAINE

Rich in appearance beyond the ideas of the most exacting person. Heels are covered with the same material as the upper part of the shoe.

BLACK SATIN SLIPPERS

Wonderful creations for evening wear. Louis XV. heels. A cluster of rhinestones on the shoe upper adds a touch of elegance that is unusual.

NEITHER STYLE HIGH-PRICED.

Attention is called to a line of white canvas pumps for wear with shirtwaist dress and afternoon.

LOCAL AND GENERAL

Mr. and Mrs. W. R. Castle returned on the Manchuria today.

It goes without saying that everything is best at The Encore.

Dr. F. L. Ferguson has resumed practice in the Arlington Hotel.

Mr. and Mrs. B. F. Dillingham came on the Manchuria from the Coast.

Mrs. Dickerson will keep open evenings beginning Saturday night.

When in search of Christmas gifts go to Miss Woodard's. Open evenings.

Mr. and Mrs. F. A. Schaefer were returning passengers on the Manchuria.

The Anchor is the only genuine curio saloon in Honolulu. "Sure, Mike."

Have candy fresh and fine. Benson, Smith and Company, Hotel and Fort streets.

Hotel Arlington entirely remodeled. Rooms newly furnished. Hot and cold baths.

Wall, Nichols Co., Ltd., the big toy store, will be open every evening until Xmas.

Corpulent people should try the "Briggs System" of reducing. It never fails to produce results.

James D. Dole returned today from the Coast, where he went on business connected with the pineapple industry.

Pay cash and ask for green stamps. They're free. Call at the show rooms and see what you get 'free' for stamps.

Tickets for the boxing contests at the Asahi Theater, on December 26, are on sale at Fitzpatrick Bros., on Hotel street.

The Princess Kawannakoa was an arriving passenger on the Manchuria today, after spending several months in San Francisco.

There are some cattle roaming about Palolo Valley, which if not taken care of immediately, will be impounded by residents.

Mrs. E. M. Marshall will hold a fur sale at 1925 South King street above Artolesan, on Thursday, Friday and Saturday. Furs and begonias, etc., from ten cents up to four dollars.

C. M. Fassett, a prominent business man of Spokane, Washington, is a passenger on the Manchuria. He is taking a tour of the Orient with Mrs. Fassett.

J. P. Morgan, president of the Chamber of Commerce, arrived today on the Manchuria, from the Coast. He has been taking a long rest for his health.

Sachs' Big Store will be open every evening this week and there will be special inducements for the Christmas shoppers. See the advertisement for evening specials.

E. J. Lord, who went to San Francisco to purchase machinery for constructing the Hilo breakwater, arrived home today on the Manchuria, after placing big orders on the coast.

The new reading and recreation room that has been provided by the Honolulu Iron Works for the benefit of its employees, was opened today. There will be a Bible class at the room on Sundays.

The Filipino who killed his companion in Honolulu last August has been found guilty of murder in the first degree. The jury in Judge Parsons' court, Hilo, was only out a few minutes, taking but one ballot.

Wireless advices from Hilo state that Bernard Kelekolio, known as the "Boy Orator," and Miss Hannah Wai-lani were married last Saturday evening. The ceremony took place at the home of the bride's parents.

Miss Power will be pleased to advise gentlemen in their choice of a pretty trimmed hat for their wives' Christmas present. Beautiful stock now on display. Boston Block, Fort street.

Superintendent Rider, of the Kaaka Mission has written a personal letter to H. M. de Leon, the general manager of the circus now showing in the city, thanking him for the treat he gave to the large number of children under his care.

The engagement is announced of Miss Jane Nascimento, for many years with Mrs. C. L. Dickerson's millinery store, to Sylvester Gardia, ticket agent at Waipahu for the Oahu Railway and Land Company. The wedding will take place on a date to be set in the near future.

The Civic Federation, at a meeting recently, discussed the Dooliver-Davis bill now pending before Congress providing for Federal aid of schools in States and Territories. The Federation passed a resolution approving the bill. The Federation further urged the encouragement of children's parks and playgrounds.

SMIFFEN LANDS BOUGHT BY RANCH

Maui Real Estate Is Sold at Good Figure to A. M. Brown.

(Special Bulletin Correspondence.)
WAILUKU, Maui, Dec. 17.—The sale of the Sniffen estate in Kula by Commissioner E. H. Hart, clerk of the Second Circuit Court, took place at noon today in front of the Wailuku Courthouse. There were about twenty people present, and among them were Judge A. A. Wilder, A. M. Brown, Robert Shingle of the Henry Waterhouse Trust Co., Attorneys J. L. Coke and D. H. Case, Tax Assessor J. H. Kunewa and Patrick Cockett.

The pieces sold and amounts realized were as follows: Kohao, 800 acres, \$4000; Alae, 2030 acres, \$4,000; Ill of Kailua, 450 acres, \$1500; J. R. Cockett land, 100 acres, \$3300. All the above four pieces were bid in by A. M. Brown for the Cornwell Ranch. J. P. Cockett bid on the last piece until within \$25, when he stopped. Mr. Brown also bid \$5000 for the Sniffen homestead. The Alae piece went for about \$2 an acre, while the last two pieces went for about \$40 an acre. There were small farmers present at the sale and they could not raise nor afford to buy 2000-acre lots, while they were willing to bid in anything less than 200-acre lots. Robert Shingle of the Waterhouse company filed a notice this morning that the mortgage would partially release the five pieces sold for \$6000, although there is a \$27,000 mortgage held by them on the entire property.

The above sale is subject to an appeal by Henry Hapai and other defendants now perfected and will go for hearing before the Supreme Court.

Manchuria Sailing at Five Thirty.
Steamers fairly hustled the large cargo of the Pacific Mail liner Manchuria today. The vessel arrived with nearly fifteen hundred tons of freight for this port but nevertheless the agents H. Hackfeld & Co. announced that they would dispatch the Manchuria for Japan ports and Hongkong at five thirty this evening. The vessel is taking away a number of cabin and Asiatic steamer passengers.

BISHOP WILL IS CONSTRUED

Supreme Court Passes On Important Question By Trustees.

In a decision handed down by the Supreme Court this morning, it is held that under the will of Bernice Pauahi Bishop the direction to the trustees "to devote a portion of each year's income to the support and education of orphans and others of indigent circumstances" refers to support and education at the Kamehameha Schools, and not to support independently of education.

The case was brought before Judge Robinson in the Circuit Court for a construction of the will on this point, and his decree is affirmed in the decision of the Supreme Court. The trustees wanted to know whether they could support indigent persons independent of the school or pay tuition for pupils attending other schools.

COLD CHEER FOR TROPICAL SUNDAY

"This beer belonged to me," declared a Chinese witness under oath before District Magistrate Lymer this morning, during a hearing of a case wherein Lum Moon, the proprietor of the Canton Cafe, was charged with selling liquor without first having secured a license to dispose of the same.

The statements coming from several Chinese witnesses, that they had been in the habit of making small purchases of bottled hops and transferring the same to the ice-chest at the Canton Cafe, had something to do with the release of the incarcerated Lum Moon. The proprietor of the restaurant was found not guilty and released at the conclusion of the taking of testimony.

Licenses Inspector Fennell made the arrest on last Saturday noon. He visited the place of business in company with Special Officer Minvielle, and by the aid of a marked 25-cent piece, purchased a bottle of beer.

LAND BOARD ASKS QUESTIONS

Mauities Declare That No Deception Planned or Intended.

The Land Board was in session at the Capitol this morning, the most important business before the board being the investigation of alleged misrepresentations and lack of good faith upon the part of a number of applicants from Maui.

A subpoena was issued at the last regular session for Charles Wilcox, whose statement was needed in connection with an allegation that a number of applicants for public lands on Maui simply wanted the lots for the purpose of cutting firewood.

This statement was denied emphatically by Wilcox, who asserted that the land applied for could all be developed under the terms of the home-esteading law and that the applicants could live upon it according to the requirements.

Wilcox was insistent that there was no intention upon the part of the Maui applicants to deceive the Commissioner of Public Lands or in any way to avoid the provisions of the land law.

O. V. Tavares of Maui was called upon for a statement in connection with the failure of a land application placed in his hands to reach the commissioner within the specified time. Tavares declared that he was in no way to blame for the failure of the application to reach Honolulu, asserting that all of the signers of the petition were informed that a deal was pending whereby another section of land in Kula would be applied for, under an agreement with the Cornwell Ranch representatives.

A fable is an open-faced lie with a moral attachment. The same having come from an ice-box located at the rear of the place. The Chinese claimed that the beer supplied the officers had been furnished by a wholesale liquor store across the street.

The bottles of nut-brown that Fennell found in the refrigerator were claimed under oath to be the property of certain Chinese gentlemen who had been in the habit of keeping a supply of cold refreshment at the cafe ice-box.

DOLE SAYS NO PINEAPPLE DEAL

Declares Coast Trip Was Pleasure as Much as Business.

James D. Dole, the pineapple man, returned today on the Manchuria from a trip to the Coast. Mr. Dole declares that his trip was as much for pleasure as for business, and that the reports that were current here after he left, concerning a deal with Armour & Co., were incorrect.

"I did not see any of the Armour people on the Coast, and, of course, have not made a deal with them," said Mr. Dole today. "My trip did not result in any business worth mentioning, and was as much for pleasure as for business."

FILIPINO USED NAUGHTY WORDS

A Filipino declared this morning that he had become so drunk that he failed to note what he was doing and this blunder resulted in his being gathered in by the police upon a charge of assault upon a Russian woman.

Judge Lymer, sent the Filipino to three months labor at the City and County Jail.

A Russian woman named Daria was the complaining witness who declared on the stand that the Filipino had been encountered while she was on King street last Saturday night. The man offered an insulting proposal which she spurned. Becoming angered, the ward of the far away Philippines struck out and landed several blows upon the woman's face and body.

Bark Welch Off for San Francisco.

Captain Kelly, master of the American bark Andrew Welch hopes for a favorable passage to San Francisco. That vessel was towed to sea at noon yesterday, taking about five hundred tons sugar ballast. One passenger left for the coast by the bark. A number of friends of the popular skipper were at the wharf to bid him bon voyage.

NO EVIDENCE OF FOUL PLAY

Inquest Held This Evening to Inquire Into Death of Hawaiian.

Under the direction of Dr. Emerson an autopsy was performed this morning to ascertain the extent of the wounds sustained by Charles Naibe, who fell a distance of about twenty-five feet to his death from a veranda of a River street tenement last night.

While the examination of the skull fails to reveal a fracture of the bone, there is a scalp wound, star shaped, which would indicate that the man sustained a serious bruise upon the head, and it is this blow that undoubtedly caused death.

The fourth rib shows a fracture while there is a bruise on the abdomen that caused a slight flow of blood. Deputy Sheriff and Coroner Charles Rose will hold an inquest this evening.

An investigation made by the officers today has revealed no evidence of foul play. It is alleged that Naibe was under the influence of liquor at the time he fell from the veranda to the ground below. His head is believed to have struck a stone if the bruise there can be taken as an indication.

The deceased man has been employed by the City and County in the work of constructing roads and resides at Palolo. His age is given at about thirty years and it was at the residence of a brother that the accident occurred.

Palmer Woods is quoted as saying: "I have served my time in politics, at a sacrifice of business interests, and now I feel that I must devote myself to my own affairs. I know nothing about this movement. Of course, I would be an unworthy citizen were I indifferent to the public good, and unwilling to do my share of service. When the business interests of the Territory unite on a man to serve in Congress, that might be considered a supreme call, I suppose, but I understand Prince Cupid will serve out his term, so any such contingency is in the distance."

While it is well to meet your obligations promptly, it is better to have no obligations.

Strange as it may seem, it's usually the good liver who has a bad liver.

RECREATIONS

NEW BILL AND NEW MUSIC AT BIJOU

The new Bijou will make an entire change of program this evening. For an after piece the laughable farce, "Two Awful Dads," will be put on. Walter Perry will have a part in the farce and will also do his monologue act in the vaudeville. This bill this evening promises many surprises. Gladys Middleton, the girl of the big wardrobe, will introduce some of her latest song hits. Dunn and Branton have a new stunt to offer while the other members of the Bijou players will put on new and novel acts.

"Amateur Night" which made such a big hit with the Bijou patrons last Friday will be repeated again Friday night.

MUSIC PROGRAM FOR THE WEEK

1. March—Stars and Stripes Forever
2. Overture—Light Cavalry (by request)
3. Waltz—Marschella (by request)
4. Rag—Honolulu Rag (by request)
5. Selection—The Fortune Teller (by request)
6. Song—Every Little Movement (by request)
7. Waltz—Nuptial (by request)

This is the last week of some of the Bijou favorites. Arriving on the Wilhelmina next week a bevy of new talent will take the places of some of the present players and there will be a general all around change in the acts. Tonight an entire new bill will be put on including items by the vaudeville artists which will be seen here for the first time. A one act after piece by the members of the American Musical Comedy company will be one of the features. It is called "Two Awful Dads" and is said to be one of the funniest farces ever presented here. Walter Perry, the clever monologist, who is one of the happiest mediums of the Bijou players, will have a part in the after piece. He will also do his regular vaudeville stunt and will tell some of his best and newest stories. Dunn and Branton, Vernet Hughes, James Rowe, Gladys Middleton and other Bijou favorites will be seen and heard in new changes.

The success of the first "amateur" night, which was tried for the first time last Friday, will be repeated next Friday night and as there is a

waiting list of enough to go around several times there will be just as much fun coming to the patrons as marked the show of last week.

COMPANY OF SIX IS HERE TO OPEN EMPIRE

A company of six people arrived on the Manchuria today to open the Empire Theatre tomorrow night, under the new management of J. T. Seully.

The players are entertainers who have a varied lot of amusements to offer. There are the Gladstone Sisters, whose tricks are as mystifying as any that have ever been shown here. The new people are regarded as first class players, and the Empire, through them is certain to have an auspicious opening.

The new house, or rather the remodeled theatre will present an entirely different aspect. The interior has been entirely changed, the walls newly tinted, making the auditorium bright and cozy, while the stage has been so much enlarged that any dramatic production can be easily staged. There will be an orchestra of several pieces.

The gallery, which has been a reserved section, has been changed and seats now are installed where the moving picture cabinet formerly occupied valuable space. The cabinet has been moved back, and a new machine will be installed to make the projection of pictures on the screen as near perfect as possible. The whole house is equipped with opera chairs, and is the only moving picture theatre in the city having such chairs.

There will be but one entrance—on Hotel street.

WATERFRONT NOTES

Alakea Wharf Barren of Freight.

Prior to the arrival of the Pacific Mail liner Manchuria from San Francisco this morning, the Alakea wharf was practically barren of freight. The great structure was placed in order and given a cleaning under the supervision of the officials. The Manchuria's shipment of over twelve hundred tons has made a considerable showing.

Kauai Sugar Awaiting Shipment.

Purser Kent of the steamer Kinau has filed a report showing the following sugar awaiting shipment on the Garden Islands: V. K. 850, K. P. 1960, L. P. 5767. This vessel arrived from Kauai yesterday morning bringing over nine thousand sacks of sugar and other lines of cargo. Fine weather was met on both outward and homeward trips.

ALEXANDER YOUNG BUILDING

The "Elastic" Corset

Photo by American Press Association.

No longer need you be incased in your corset as in armor. The new shape corrector, while exceedingly low in the back and hips, is made so pliable and of such light material that the wearer can do all sorts of calisthenics in it. Some of the new models are even made of elastic webbing.

About Women

A CHARITABLE BUSINESS WOMAN—SWIMMING AT HOME. AN AGED SCULPTRESS.

MISS FRANCES A. HARRIS of New York wrote to Municipal Court Justice Leonard A. Suttin recently asking him to give her the names of ten landlords who were about to evict their poverty stricken tenants. She said she would pay a half month's rent for each if the landlords would remit the other half.

The justice gladly accepted her offer. Miss Harris is a successful business woman, who, in addition, owns valuable real estate. She works because she cannot bear to load any other life, and she devotes a large share of her earnings toward helping the poor. Miss Harris shares the opinion of many sociologists that the worst oppressors of the poor are those who have at a very recent date been poor themselves. In other words, their own people. "The landlords of today," she says, "are men who came to this country five years ago penniless and ignorant foreigners. The people who are being dispossessed today, if given a

chance, will be the landlords of other unfortunates five years hence. I want to teach them a little humanity.

"And I hope that this offer will encourage others to follow my example. It is not necessary to have great wealth in order to help the poor. This is the first time I have tried to aid persons through a court, but I think it is a sensible, businesslike plan."

And now you can learn how to swim on your own carpet.

A California man has invented a machine to teach women how to swim. You can't help but learn the right stroke, because no other will work. The would-be swimmer lies on a padded support which extends to her knees. She grasps a pair of pulleys above her head. Attached to these pulleys are cables. The cable in her right hand is fastened to her left ankle and that in her left hand to her right ankle. When the learner's hands are brought down to her sides in the arm stroke her legs are made to kick out with the same motion. When the force of this movement is spent her legs are drawn up again by a strong elastic cable also fastened to the ankles and attached to the apparatus above her head. The support on which the "swimmer" lies is extended far enough out to prevent her arms going below the level of her body, and an auxiliary

support limits the downward movement of her legs.

Mrs. Vinnie Ream Hoxie, although sixty-three years old, is one of the most enthusiastic sculptors of the west. She has just finished a statue of General Kirkwood for the state capitol in Iowa. Mrs. Hoxie first began to make statues when she was fifteen years old. Her first statue of President Lincoln pleased him so much that he ordered a life size statue for the rotunda of the capitol at Washington.

This Skirt Measures Only One Yard Around

FROM Paris comes this charming, debonair frock, which is called by the maker a "lingerie" costume, though the material is a fine cotton voile. These cotton voiles promise to be very fashionable for house frocks this winter, and the French models are all made up along this line, with simple bodices and straight little skirts also in the peasant type—or what Paris now terms the peasant type. Yoke and upper sleeves are of eyelet embroidery, the eyelet pattern being emphasized by a braiding of white soutache which is set around the edges of the eyelet holes. The skirt is of the "hobble" order, the hem measuring but thirty-six inches around. There is a cording of black velvet around the Dutch neck, and the huge rosette of black velvet on the girle adds a striking touch of smartness.

range finders on deck. Powerful electric searchlights turn night into day on the ocean and wireless keeps the different vessels of the fleet in constant touch with each other and with the shore. The submarines obtain their motive power from storage batteries and electric motors once they are below the surface of the water. It is electricity which fires the torpedoes and which controls the sunken mines of gunboats.

Recent developments in infantry equipment have produced plenty of portable electrical devices for the rank and file. Searchlights mounted on trucks like a gun and obtaining their current from a portable gasoline driven dynamo are always carried when the regiment marches. Small wireless stations are in active use, and portable field telephones which use insulated wire that can be rolled out and laid on the ground are common enough.

But it is the coast artillery where electricity finds its greatest usefulness. Here are located the largest and heaviest guns in the world—guns which raise above the fortifications to fire and disappear into holes in the ground to be reloaded. Many of these guns weigh as much as sixty tons, and of course it would be quite impossible to operate them by hand, as they did in the old days when the British frigates bombarded the American fortifications at Mud Island before Philadelphia.

The great fortifications that line the Atlantic and Pacific Coasts use electricity for lighting, for all kinds of power purposes, as well as for the telegraphs, telephones, wireless and signaling, searchlights, etc. But it is the use of electricity in connection with the operation of the great guns that is most notable. It is in this work that absolute accuracy, economy of time and labor and efficiency in the minutest detail are demanded, and no power can accomplish these things like electricity—Electrical News.

Scott's Emulsion

provides her with powerful nourishment in easily digested form. It's the food that builds and keeps up a girl's strength.

TO CONSTRUCT THE NEW WHARF

De Fries Awarded Contract For Richards' Street Structure.

Henry De Fries was awarded the contract for the Richards street wharf, his bid of \$37,500 being the lowest of any submitted to Superintendent of Public Works Campbell and opened Saturday afternoon.

There were three bidders on the work, Lucas & Whitehouse bidding \$39,870, and Lord and Young \$38,000. These bids all for paving with ohia wood blocks.

The tenders gave three alternate conditions, to pave with crossote, with an extra 11-2 inches of plank, and leaving the wharf with just the four-inch plank covering.

In these alternate bids De Fries offered to pave with crossote for \$2,400 more, extra planking for \$600 less, and with just the ordinary covering for \$836 less than the bid of \$37,500.

Lucas & Whitehouse offered \$2200 more for the first, \$5600 less for the second, and \$8225 less for the third than their bid of \$39,870.

Lord & Young tendered \$600 more for the first, \$1000 less for the second and \$6500 less for the third than their bid of \$38,000.

Bids for the approach to the Hackfeld wharf were also opened, but it is unlikely that any contract will be awarded, as there is no money available for the work.

On this job Lucas & Whitehouse bid \$4750, Bentieman \$4795, and Lord & Young \$5000.

The public school at Kaeleku, K. aa, has been closed by Dr. E. S. Goodhue, the Government physician at Honolulu, as the result of the poor sanitary condition existing there, which taken with the epidemic of typhoid, have rendered this precaution necessary. Dr. Goodhue has stated that two cases of typhoid have been located in that section and that the bad school conditions which have been reported to the Board of Supervisors continue to exist.

A Man's Store for Ladies Yee Chan & Co.

As Christmas is approaching we believe we have a greater right than others to advertise our Holiday Merchandise. We claim we are the leaders in medium priced ready-to-wear goods for men and women.

Individual Holiday Packages of Hosiery, Handkerchiefs, Neckwear

Shirts

Shoes

Toilet and Smoking Sets

have just been opened. Notice the display in our windows. All of them attractively boxed.

Suspenders

in all the newest designs.

ORIENTAL GOODS

Arrived by the last Asia. SILKS, GRASS LINEN, EMBROIDERED SUIT PATTERNS, SILK SHAWLS, TABLE COVERS, DOYLIES AND EMBROIDERED HAND BAGS.

All suitable gifts for Christmas remembrances.

Umbrellas

Made of silk with steel rods and Paragon Frames.

Our Clothing

Represents labor at its best. Made by workmen in large roomy quarters, where there is plenty of sunshine.

Suit Cases

A handsome suit case is a gift of convenience as well as practicality. Everyone needs a suit case occasionally and no doubt you know of some one to whom you intend to give a holiday gift that does not possess one. Come here and we will supply you with the best of leather at the lowest price obtainable in Honolulu.

Hats

One of our hats will help to put you on a front seat in your town.

Ties

Knit four-in-hands of bright natural silk in tone or self effects.

Cor. King and Bethel Sts

WAR OF FUTURE TO BE ELECTRIC

The invisible regiments of electricity play no small part in modern warfare, whether it be with the marching columns on the plains, the mighty Dreadnoughts of the ocean or the hidden batteries of great guns which guard our ports along the sea board.

It is electricity which aims, loads

and fires the big guns of the fleet electricity which signals from point to point, from ship to ship; electricity which hoists the ammunition, carries the powder, fires the sunken mines, explodes the torpedoes, carries the submarines, carries the orders and it is electricity which brings the news of defeat and victory that the world may know in a minute the results of the struggle.

Aside from all the countless chores aboard a warship electricity alone is trusted with the delicate work of loading and aiming the big guns. Small motors move the gun about at the will of the shooter, who gets his ranges over a telephone from the

range finders on deck. Powerful electric searchlights turn night into day on the ocean and wireless keeps the different vessels of the fleet in constant touch with each other and with the shore. The submarines obtain their motive power from storage batteries and electric motors once they are below the surface of the water. It is electricity which fires the torpedoes and which controls the sunken mines of gunboats.

Recent developments in infantry equipment have produced plenty of portable electrical devices for the rank and file. Searchlights mounted on trucks like a gun and obtaining their current from a portable gasoline driven dynamo are always carried when the regiment marches. Small wireless stations are in active use, and portable field telephones which use insulated wire that can be rolled out and laid on the ground are common enough.

But it is the coast artillery where electricity finds its greatest usefulness. Here are located the largest and heaviest guns in the world—guns which raise above the fortifications to fire and disappear into holes in the ground to be reloaded. Many of these guns weigh as much as sixty tons, and of course it would be quite impossible to operate them by hand, as they did in the old days when the British frigates bombarded the American fortifications at Mud Island before Philadelphia.

The great fortifications that line the Atlantic and Pacific Coasts use electricity for lighting, for all kinds of power purposes, as well as for the telegraphs, telephones, wireless and signaling, searchlights, etc. But it is the use of electricity in connection with the operation of the great guns that is most notable. It is in this work that absolute accuracy, economy of time and labor and efficiency in the minutest detail are demanded, and no power can accomplish these things like electricity—Electrical News.

DEAD MAN SITS UP AND TAKES NOTICE

Two Coroners Get Into Dispute and Corpse Butts Into Argument.

NEWARK, N. J., Dec. 1.—A long time after physicians had pronounced him dead, and while two coroners were disputing as to which should sit on his supposed demise, a Burlington, N. J., farmer named Busby suddenly broke up the argument by throwing off the covering of his face and, sitting up, said:

"Why, Bill, where am I? What's the matter?" he exclaimed, then he retired after physicians had pronounced him dead.

were able to revive him and he is expected to recover.

Doctors say Busby was in absolute coma, caused by a rare kind of kidney trouble, and that for a considerable time there appeared to be total cessation of respiration and pulsation.

Sometimes there is a difference between a model girl and a girl model.

**NO REDUCTION
FOR PULLMANS**Company Offers to Sell Berths
For Less, But Roads
Object.

CHICAGO, Dec. 1.—An offer of the Pullman Company to reduce the rates for upper berths 20 per cent, where lower berths were more than \$1.50, to make the price of uppers \$1.25 as a minimum and reduce some lower berth rates, was opposed before the interstate commerce commission here by attorneys general of four states and by two railroads.

The offer left unchanged the Pullman seat rates and was to become effective on approval by the commission.

From Both Sides.

Opposition to the plan was offered by the railroads' allegation that they would have to stand part of the lessened price and by the attorneys general because the reduction was not sufficient.

Commissioners Lane and Clark were confronted with an offer of voluntary reduction, which the railroads said was too much and the state officials called too small. The whole matter came in a combining of all complaints against the sleeper rates in one hearing. New rates proposed by the company include these: St. Paul or Minneapolis to Seattle and Pacific Coast points, \$11; New York to New Orleans, \$8; Chicago to San Francisco, \$12.

The former Minnesota-Pacific Coast rate was \$12; that from Chicago to San Francisco \$14.

Another Hearing.

The commission will hear further arguments.

The Great Northern Railroad, which owns its own sleeping cars, protested against the proposed reduction on the ground that it would have to meet the reduction and would have to stand the entire loss. The Chicago, Milwaukee & St. Paul, which also owns its own sleepers was represented, but made no comment on the proposal.

4791-1m**DOCTOR BATTLES
WITH CRAZY MAN**Insane Patient Dies When He
Is Finally Tied Hand
and Foot.

PUNTSUTAWNEY, Pa., Dec. 1.—In the Puntutawney hospital today Dr. W. C. Montgomery battled for his life with an insane patient, Michael Marktuzo, who died two hours afterward.

Dr. Montgomery was summoned to the ward by cries of a nurse, who had been attacked by the man. The doctor tried to quiet him, but was himself attacked. An orderly hurried to his assistance, but was knocked down.

Marktuzo was choking Dr. Montgomery to death when Superintendent J. E. Grub arrived. For fifteen minutes the struggle continued before Marktuzo was strapped to his bed. His death quickly followed.

**MANY ARE BOOKED
FOR VOLCANO TRIP**

There is a chance that the Mauna Kea will be a very full boat when she leaves for the volcano, via Hilo, on the night of December 30. So much is to be seen at the crater these days that a desire to go is working in the breasts of more people than may be accommodated. There is no better time in the year to visit the crater and the fire has never covered a larger area than at present. The island formed in the center is growing broader, and those who go to the volcano for the first time will have an opportunity to see what is not visible in any other part of the world—an island surrounded by molten lava that swashes against its sides as water on the shores of Oahu. The ride from Glenwood to the Volcano House is not the least enjoyable part of the trip. There are autos to carry passengers, and the view of the ohia forest and the enormous koni trees furnish the tourist added pleasures on the journey. Those who desire accommodations had better book at the Inter-Island S. N. office before it is too late to get good berths. Fare for the trip from Honolulu to the crater and return, covering all expenses, will be thirty dollars.

"I'm glad we don't live in China," said little Oswald. "It must be awfully tiresome to have it dark all day and the sun shining at night."

**LOW PRICES TO
MISLEAD PUBLIC**Butchers Say Beef Trust Mag-
nates Are Dodging
Prosecutions.

CHICAGO, Dec. 8.—"All this talk of reduced prices for meats has no foundation in fact. The big packers, alarmed by impending Federal prosecutions, are trying to curry favor with the public and to make the retailer the 'goat' in the whole affair."

This is the explanation here of the United Master Butchers of Chicago of the interviews recently given out by J. Ogden Armour and other "beef barons," in which the assertion was made that meat prices were on the toboggan and that the consumer would soon find it cheaper to eat porterhouse steak than to go hungry. "packers," said the master butchers assembled in regular meeting, "not in newspaper interviews, but by signed contracts, that they will reduce the price of meats to a certain amount and keep them reduced for, say, three months, we will be glad to make corresponding reductions to our customers."

There is no doubt the retail butchers of Chicago are angry. Tales of alleged impositions by the packers were told at the meeting, and the charge was made that the statements of reductions already put through were not borne out by facts.

"We are helpless," said Vice-President Edward Levy of the Butchers. "We don't make big profits. They say, 'Why, you pay 12 1-2 cents for lamb and charge 25 cents.' But what do we charge 25 cents for? For six pounds of chops that come out of a 40-pound lamb. All the other cuts are lower, and if we make 50 cents on a lamb that costs \$5 we are lucky."

You must remember that the packers make their own terms when they sell to us. We pay 12 1-2 cents a pound, not only for the almost unsalable flanks and the breasts, but also for big wooden sticks that they put in them and for worthless plucks, the liver, lungs and heart. And lots of times we get stuck worse than that."

The butchers are unanimous in saying that meat prices are appreciably lower than they were at this time last year, but object to the packers giving out the idea that heavy price cuts are to be expected either at once or in the near future.

ANTI-LICENSE FIGHT IS WON

Hawaii Board of Liquor Commissioners Turns Down Every Application.

(Special Bulletin Correspondence.)
HILA, Dec. 17.—The Board of Liquor Commissioners held its semi-annual meeting yesterday afternoon, and turned down every one of the four applications which had been made to it for permanent licenses.

Those present were Chairman Moir, Secretary Rufus Lyman and Commissioners Horner and Ogg.

Before any license was taken up, the protest was read from fifty-three Hilo residents who objected to the granting to any more licenses of any kind for Hilo.

A protest was also received from Manager Lawson of the Gayety Theatre, as follows:

"I, the undersigned, do hereby protest against the issuance of a liquor license to one Tom Y. Kim, applicant for a saloon license across the street from the Gayety Theatre, feeling that there are enough saloons in that locality."

Another protest was received from Chief Sanitary Officer Bowman, as follows:

"Allow me to enter a protest against the issuing of any more saloon licenses in the town of Hilo. From personal observation, I consider that we have far too many saloons already."

The first application taken up was that of Tom Y. Kim, who wanted to establish a saloon in the place now occupied by the Mrs. Akana curio shop.

"Did we not at a previous meeting pass a resolution to the effect that no more licenses should be granted in Hilo?" asked Horner.

Lyman informed him that such a resolution had been passed at the meeting last February.

"Then I move that the application be rejected," said Horner, and the motion carried unanimously.

The application of U. Kanai for a wholesale license for a place on Richardson street, between Bridge and Front streets, was next taken up. License Inspector Fetter reported that there had been no specific objection made to the granting of this license but the general objection referred to above must be considered. Horner stated that he thought that the rule made last February covered this case also. He moved that the application be not granted, and this carried unanimously.

The application of Yoshitaro Nishi moto for a second class hotel license for the Matane hotel, caused more discussion.

Horner called attention to the fact that the law prohibited the granting of a license owing to the proximity of the hotel to the Salvation Army hall. The buildings were only thirty feet apart.

Moir added that it was not on account of any class discrimination on his part that the application was turned down, but on account of the provision of the law mentioned by Horner. He spoke highly of the applicant whom he had known for many years and laid stress on the fact that the refusal was not made because he was a Japanese.

J. G. Serra was granted a one day license to sell liquor at the race track when the New Year races take place.

The application of Aki for a saloon license at Naalehu was the subject of much discussion. Aki some time ago had a license, but an application for a renewal was refused at the last

meeting of the Board, and Aki was making another effort for a license. Louis Rogers representing him as his attorney.

Moir said that he had heard many statements from Kau people about this proposition, and he was of the opinion that the license should not be granted.

Rogers said that the charges made against Aki were serious. Moir had he said, at a former meeting stated that a certain Hawaiian's wife had been drunk for six days in Aki's saloon, and that she had died soon after that spree. Moir said that he had mentioned no names, as he knew of no such parties in Kau. Rogers wanted to know who had been Moir's informant, when Wolters stepped in with the statement that he had seen women drunk at the place. It was finally decided to turn down the application.

Fetter was asked how the license holders were conducting. He answered that he had no complaints to make. "I want to ask the wholesale dealers here to avoid selling liquor to blind pigs," said Moir, "to places which they knew to be blind pigs. I want the wholesalers to help us to carry out the law."

Smith wanted to know when the Board would hold its next meeting, as an application would be made in the very near future for another license for Kau. Moir advised Smith to have his client take all the necessary steps when the Board would take up the application at its first opportunity.

FEW DRAWINGS BY APPLICANTS

Only Fifty Per Cent of Maui-ites Appear to Take Lands.

Only 50 per cent of the applicants for public lands on Maui appeared at the drawings that were held recently on the island by Commissioner of Public Lands Marston Campbell. This percentage of delinquent applications applies to the homesteading lands of Kahakuloa, Waialua and Kaupo.

Of the eighty-one applications received, but forty appeared at the drawings. What was considered to be a good excuse for non-appearance was received from only three of the original applicants.

Hawaiians are in the majority among those taking up lands under the new homesteading provisions.

THINKS SUBSIDY BILL WILL PASS

WASHINGTON, D. C., Dec. 3.—"I have every reason to believe the Senate will pass the ocean mail bill by a decisive majority," said Senator Gallinger of New Hampshire today. The Gallinger bill, providing a mail subsidy, is before the Senate as unfinished business, and will come up immediately upon the convening of Congress.

"There will be no effort to push the measure before the holiday recess," said the Senator. "After the reassembling of Congress, in January, it will be taken up."

"The present bill is identical with the one passed by the Senate March 20, 1908, and which failed in the House by three votes. Every argument that was used in favor of this bill in 1908 is valid now."

The man who shoots off his mouth never runs out of ammunition.

meeting of the Board, and Aki was making another effort for a license. Louis Rogers representing him as his attorney.

Fetter was asked how the license holders were conducting. He answered that he had no complaints to make. "I want to ask the wholesale dealers here to avoid selling liquor to blind pigs," said Moir, "to places which they knew to be blind pigs. I want the wholesalers to help us to carry out the law."

Smith wanted to know when the Board would hold its next meeting, as an application would be made in the very near future for another license for Kau. Moir advised Smith to have his client take all the necessary steps when the Board would take up the application at its first opportunity.

PAPA STANDS IN STREET AND SHOUTS IT'S TWINS

Bay Stater, 63 Years Old,
Adds Two to Family, Making It Sixteen Children.

BOSTON, Dec. 1.—Patrolman Joseph Feaver was startled in West

Newton Square by the sudden outcry

of a man who had both hands in the air and was shouting lustily. The policeman believed the excited citizen

was being pursued by thugs, and reached for his club and ran toward the shouter. As he approached closer he recognized the man as William

Armitage, a resident of the village.

"What's the matter?" asked the

policeman.

"Nothing's the matter," shouted Armitage, all out of breath. "It's good news. I am 63 years old and as fine twins as you ever saw arrived at my house this morning."

The new arrivals are a boy and a girl. Armitage is the father of six teen.

RECREATIONS

PARK PLANS BIG PROGRAM

Quick to appreciate an extraordinary act, Honolulu theatergoers looked back to the Park Theater last week as they did in the days when the Park was the only amusement place providing high class variety entertainments. Following the opening of Morris and Wilson it was soon herded about that the Park had an act that equaled some of the better ones put on during the earlier part of the year. These two funny men are laugh makers of the highest order and acrobats of great skill. This week for their change of program they will present "Fun in a Chinese Laundry." They garb themselves as Chinese and pipap and slapstick each other from stage to auditorium. The Melnotes will do a new act, novel and entertaining, and Sanford will go back to her act making pictures with sand. The Melnotes sisters will sing. Sonny Cunha, director of the orchestra, has arranged the following program of music which will be rendered: Fanfare Brilliant—Martha...Smith Waltz Potpourri—The Jack...Sloane March—Dreadnought...Losey Selection—Girl of My Dreams...Hoschna Mazurka—Die Guckelstene Frau, Fall March—The Strollers...Chasseur Selection—Bright Eyes...Moschna

TONIGHT'S THE BIG NIGHT AT THE SAVOY

One of the best cards presented to theater patrons is that prepared by the management of the Savoy Theater for tonight, tomorrow and Wednesday nights, the return of the Wilson Sisters, dancers and singers, having made this possible.

The Wilson Sisters will be the chief attraction at the Savoy all week. They are the best artists of their class who have appeared in local theaters. They have an apparently endless list of new songs and dances, and many of the latter are particularly attractive and applause-winners. They dance with a vim and vivacity, in perfect accord with the music.

The Malan-Magrath Comedy Company will put on a new farce to-night, entitled "The New Judge," in which Magrath, as usual, will play one of his inimitable dandy roles. There is no better in the business than Magrath, his makeup being such as to suggest that he might get his black-face patented. He is ably assisted in this roaring comedy sketch by Will Malan, Miss Howard and Dot Raymond. The latter diminutive singer has a new lot of songs. Her singing is in marked contrast to what the Wilson Sisters present, and that makes it all the more attractive, just because there is a contrast.

George Stanley is probably the best ballad singer heard here in many months. His voice is full, clear, resonant and well adapted to the pictures which accompany his songs.

In addition, the Savoy is putting on some excellent films this week, and Professor Anderson's orchestra has an excellent program.

The Savoy's patrons are always commanding a view of the stage, and there is no line of moving people to obstruct their view, while the acoustics are so perfect that every stage whisper is heard all over the house.

THE NOVELTY.

There will be a complete change in the bill at the Novelty tonight when the Van Barkley company will put on the "Book Agent." Jimmie Van will sing more of his comic songs and repeat the dancing of last week. There will be an added attraction in the motion pictures and plenty of films. "Max leads them a merry chase," is the picture story of a chase for a man who stole jewels from a guest. There is a motor boat and a chute in the picture that does much to make the scene a lively one. Another picture is called "At the Dawning." This is the story of the ancients who believed that the end of the world would come in the year 1000, on Good Friday. "Capturing Cub Bears" is an educational film without the horrors of some of the natural history films shown. A colored film tells of the treacherous crew of Jarnes. It is set in the time of Henry II. and a dramatic film is called the face at the window. Throughout the performance and pictures should be good.

Have candy fresh and fine. Benson, Smith and Company, Hotel and Fort streets.

Two may be able to live as cheaply as one—if the one doesn't have to pay alimony.

There may be such a thing as a man of very few words—but who ever heard of a woman like that?

Do You Want

Long, Heavy Hair?

Then treat your hair well. See that it is properly fed. Growth of every kind demands proper food. Starved hair splits at the ends, turns prematurely gray, keeps short and dry. Then feed your hair. Feed it with proper food, a regular hair-food. Feed it with Ayer's Hair Vigor. Thus help nature all you possibly can toward giving you rich, heavy, luxuriant hair. Ask your doctor about your hair and about Ayer's Hair Vigor. Follow his advice.

Universal Opinion After Seeing Them All: "THE PARK FOR MINE"

PRESIDENT AND POSTAL SAVINGS

Taft's Message Talks of New System and of Wiping Out Deficit.

(Associated Press Cable.)
WASHINGTON, D. C., Dec. 17. — President Taft's message to Congress contains some interesting recommendations on postal savings banks. He has the following to say:
At its last session Congress made provision for the establishment of savings banks by the postoffice department of this government, by which, under the general control of trustees, consisting of the postmaster-general, the secretary of the treasury and the attorney-general, the system could be begun in a few cities and towns, enlarged to cover within its operations, as many cities and towns and as large a part of the country as seemed wise. Arrangements have been perfected so that savings banks will be opened in some cities and towns on the first of January, and there will be a gradual extension of the benefits of the plan to the people of the country.

Wiping Out of Postal Deficit.
As I have said, the postoffice department is a great business department, and I am glad to note the fact that under its present management principles of business economy and efficiency are being applied. For many years there has been a deficit in the operations of the postoffice department, which has been met by appropriation from the treasury. The appropriation estimated for last year from the treasury over and above the receipts of the department was \$17,500,000. I am glad to record the fact that of that \$17,500,000 estimated for, \$11,500,000 were saved and returned to the treasury. The personal efforts of the postmaster-general secured the effective co-operation of the thousands of postmasters and other postal officers throughout the country in carrying out his plans of reorganization and retrenchment. The result is that the postmaster-general has been able to make his estimate of expenses for the present year so low as to keep within the amount the postal service is expected to earn. It is gratifying to report that the reduction in the deficit has been accomplished without any curtailment of postal facilities. On the contrary, the services have been greatly extended during the year in all its branches.

HOPES ARE FOR HUNDRED CARS

Auto Committee Already Has Forty-One Promised for the Parade.

There was an enthusiastic meeting of the automobile committee of the Floral Parade Saturday afternoon at the Promotion Committee rooms, and there were promises reported there of forty-one cars already, so that the committee believes one hundred can be secured for the parade in February.

Up to the present time the list of those who have promised to enter

their cars in the parade is James S. McCandless (two cars), George Denton, James A. Kennedy, C. A. Stanton (two cars), Mrs. Clarence Cooke, O. E. Wall, Miss Center, Mrs. S. M. Ballou, Paul Isenberg, E. F. Bishop, T. Clive Davies, G. E. Schaefer, E. D. Tenney, Allan Herbert, C. S. Holmway (two cars), Miss Irene Dickson, Miss Macfarlane, F. J. Lowrey, Henry Waterhouse Trust Company, D. L. Conkling, W. H. McInerney, H. F. Wickman & Co., John Walker, A. W. Van Valkenberg, L. E. Arnold, A. T. Gomez, J. R. Galt, Mrs. Anne C. Hustace, Hawaiian Fertilizer Company (for Hawaii Promotion Committee), G. S. Denky, E. W. Congdon, Judge H. E. Cooper, P. C. Jones, Judge W. L. Whitney, A. H. Holbart, L. Petrie, Marston Campbell, H. L. Kerr.

The automobile committee consists of Fred C. Smith (chairman),

Mrs. C. B. Cooper, Mrs. H. G. Noonan, Mrs. M. Phillips, A. C. Wall, Sherwood Lowrey and Frank Armstrong.

SHALL THE LORDS RULE OR BE RULED

Broadly speaking, the predominant issue was, Shall the Lords be deprived of their traditional prerogative of veto permitting the House of Commons a free hand in the matter of general election? or shall the House of Lords be allowed to reform itself and, making certain concessions as to its composition, remain in a position to check such activities of the lower chamber as the peers may consider inconsistent with the welfare of the empire?

The Unionists or Conservatives stand for the latter proposition, while the Liberal or Government

party seeks to reform the upper chamber on its own lines.

In the last Parliament the Liberals effected a coalition with the Nationalists and Laborites, and while the attitude of the two latter parties can not be safely assumed, the Government looks to their support if successful on the issue involving the House of Lords. Chancellor Lloyd-George has broken down under the strain of the campaign and canceled all his engagements.

AUTOISTS ELECT OFFICERS.

NEW YORK, Dec. 17.—The ninth annual meeting of the American Automobile Association elected the following officers tonight: President, Robert P. Hooper, Pennsylvania; secretary, John N. Brock, Connecticut; treasurer, H. A. Bonnell, New Jersey.

Weekly Bulletin \$1 per year.

CENTRAL UNION HAWAIIAN DAY

Workers in All Classes Tell of Problems That Confront Them.

Hawaiian Day was celebrated yesterday at Central Union church with a program of notable addresses. Various phases of evangelical and mission work in the islands were taken up. A point strongly brought out is the need of more pastors for the churches and for more and better church edifices.

Rev. O. H. Gulick took up briefly some of the various problems the

church in Hawaii has to face. He said that although there are sixty-seven churches there are only thirty-four pastors to do the work, and many of these were much underpaid in proportion to their expenses of living. Dr. F. S. Scudder spoke interestingly on the Japanese of Hawaii and the church, dwelling on the enormous increase of the Japanese population, the multitude of children born each year and declaring that Hawaiian churches must face the problem of educating these in a religious way. William K. Kwai Fong talked on the Chinese and the church, and Rev. J. P. Erdman had some things to say on the Hawaiians of the present day and their religious relations.

Need for more work and more funds were emphasized throughout, as well as the effective work of the past and the effective work that is hoped for in the future.

This is a picture of Chas. F. Off, the Oil Expert.

I am taking subscriptions for stock in the above Company. This is a gamble in oil with fifty chances in your favor as against one to lose. This oil property is located in Kern County, Southern California, in the center of the world-famous Midway-Maricopa Oil Fields. It is about one and one-quarter miles from the world-famous oil gusher Lake View No. 1, and although two separate companies, practically the same officers and directors are connected with Lake View No. 2—it is a son of its father. The same manager, Mr. Chas. F. Off, who put down Lake View No. 1, is also manager of and is now putting down Lake View No. 2. We are six miles nearer the gusher than the Humana, recently exploited in Honolulu, six miles nearer than the Honolulu Consolidated, and three miles nearer than the Wm. Matson well. A 60,000 bbl. well came in one mile south of us for the Consolidated Midway Oil Company, three other big gushers within one mile east of us, and four within two miles north of us. We therefore feel our proposition is almost a certainty. Don't you think this is worth the gamble when you consider the immense profits from a good oil well? It is almost a fairy tale. If we strike a 10,000 bbl. well, at 65¢ per bbl., it is equal to \$3.00 daily per 100 shares, and this is only the profit from one well. We can put down forty more wells on our property. Lake View No. 1 has been doing 65,000 bbls. daily for over eight months, at 65¢ comes to over a million dollars profit every month; their stock cost 50¢, now it takes all kinds of money to buy one share. Our stock is 50¢ per share today, and there is only a limited amount left, and when sold the price will be \$1.00 par. When the well comes in about February the stock value will be according to the size of the well. This is why you can buy stock now at 50¢, later it may be worth \$50.00. Lake View No. 2 well is down about 1200 feet with a 16-inch hole. The driller's log shows we are going through the same formations as Lake View No. 1, with every indication of striking a well equally as large.

Every man who engages in business takes a chance; the farmer's crop may fail, the ship may sink, even your life is a gamble. Some gambles are even chances; some have odds in your favor. A gamble in Lake View No. 2 Oil Company would be \$50 to \$1 in your favor. Any man with intelligence takes a chance and develops into a globe trotter or tourist and lives on Easy Street; the other man who didn't is still a clerk at his old job. John D. Rockefeller might still be a clerk, but he took a gamble in oil—his salary is now about a million dollars daily. Every man and woman owe it to themselves to better their condition in life by buying some stock in this Company. Even 100 shares might put you on Easy Street; it is a safe gamble. Do it now.

Mail me your check or P. O. order to cover one-third of the amount of stock you wish to order, the balance is payable in sixty days. Cut out your cigars or any other expense and buy some stock, and later on you can wear diamonds, and this is no idle boast.

Phone No. 3620, or drop postal for appointment.

J. OSWALD LUTTED, General Sales Agent, Honolulu.

1139 Fort Street, next Convent.

This is your opportunity to invest in an oil company that will deliver the goods

LAKE VIEW NO. 1

HOME OFFICE: 513 MERCHANTS' TRUST BUILDING, LOS ANGELES, CAL.

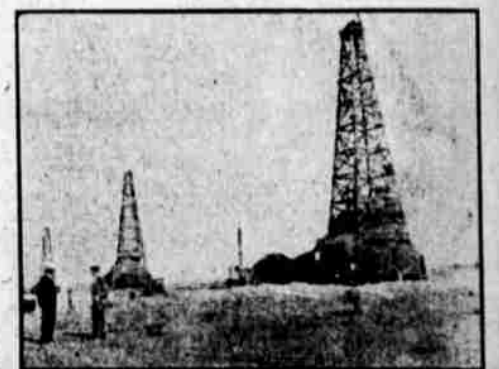

Lake View No. 2 Oil Company

THESE TWO WELLS ARE ONLY 5,500 FEET APART

Lake View No. 1 came in March 15 and does 65,000 Bbls. oil daily. The "Scientific American" says it is the most valuable oil well ever discovered, producing over one million dollars worth of oil monthly.

Sixty-five thousand barrels oil is equivalent to 16,000 tons coal, and would require ten of the largest size locomotives and 400 box cars to move the output every day.

LAKE VIEW NO. 2

Lake View No. 2 was down about 1200 ft. Nov. 1.

Cable News ISLAND AND PEOPLE GONE

(Associated Press Cable)

NEW ORLEANS, Dec. 18. — A
strange story has been received in
this city from Port Limon, Costa
Rica, which rivets in its general fea-
tures Jules Verne's story of the
"Mysterious Island," dealing as it
does, with the disappearance of an
island in a most mysterious manner.
According to the dispatch received
here, a small island off the coast of
San Salvador disappeared last
Thursday, swallowed up in the sea
and leaving only some floating
wreckage to tell of the place where
it had raised its head above the
waves.

At the time of the disappearance
there were several families of fisher-
men on the island, comprising ninety
persons, and so far as known there
are no survivors.

It is asserted that the island sank
under the water following a series
of earthquake shocks. It was un-
doubtedly these shocks which have
been recorded on seismographs, nota-
bly at Portland, Ore., where it was
supposed that the disturbances oc-
curred somewhere in the Pacific
Ocean. This was correct, but in the
mouth instead of the western section.

PRESIDENT SAYS WAR

SCARE UNCALLED FOR

WASHINGTON, D. C., Dec. 18. —
In an address before the American
Society for the Judicial Settlement
of International Disputes, in this
city yesterday, President Taft took
occasion to speak emphatically for
universal peace.

After asserting that there was no
indication of serious trouble with
any foreign country, the President
urged that at the same time it was
policy for the country to see that
wise military preparations were car-
ried out.

A special cabinet meeting at the
White House was held in the after-
noon, lasting three hours and a half,
and the rumor was that it was de-
voted to a consideration of the war
scare. Later this rumor was denied.
It is believed here now, among
those well informed, that within a
few days the excitement, following
the unusual scenes in the House and
the suppression of the report of the
Secretary of War, will die out.

MEXICAN TROOPS

REPORTED VICTORIOUS

WASHINGTON, D. C., Dec. 18. —
It was announced last evening by
Francisco Leon De La Barra, ambas-
sador from Mexico to the United
States, that the revolutionary army
in Mexico has been practically wiped
out by a victory won over the rebel
army near Pedernales.

According to the details given out
concerning the victory of the Mex-
ican Federal troops, under the com-
mand of General Navarro, the fight-
ing was for a time severe, but ended
in the complete dispersion of the
rebels, who left many dead on the
field of battle.

CHILEAN MINISTER

DIES SUDDENLY

WASHINGTON, D. C., Dec. 18. —
Don Anibal Cruz, envoy extraordinary
and minister plenipotentiary from
Chile to the United States, died sud-
denly from heart failure tonight at
the Chilean legation, on Vermont
avenue, in this city.

He was elected to the Chilean Con-
gress and served from 1903 to 1907,
when he was appointed minister to
Mexico, but served less than a year,
being promoted to the head of the
Chilean legation to the United
States. In 1896 he married Miss
Isidora Huneeus, in Santiago, Chile.

WOULD HAVE TAWNEY

BOSS CANAL ZONE

WASHINGTON, D. C., Dec. 18. —
Friends of Congressman James A.
Tawney of Minnesota started a boom
in his behalf here yesterday which
is creating considerable interest. The
proposition is to secure his appoint-
ment as governor of the Panama
Canal Zone. Tawney is the Con-
gressman who opposed the fortifying
of the Zone. He has since fought in
the House on the side of the admin-
istration against making public the
report of Secretary of War Dickin-
son.

FAREWELL TO ADMIRAL

CHERBOURG (France), December
6. — Rear-Admiral Vreeland, command-
er of the second division of the United
States Atlantic fleet, today ex-
changed farewells with Admiral Kie-
sel, maritime prefect of Cherbourg.

KAOO WON KALAKAUA AVENUE RACE WITH JACKSON SECOND

WAIALUA HORSE COVERS COURSE IN 15:41 2-5 AND NEXT MAN WAS FOUR SECONDS BEHIND—A BIG CROWD TO SEE FINISH—CHEERS ALONG LINE FOR NINE CONTESTANTS.

There were nine starters in the third annual Kalakaua avenue walking race yesterday afternoon, and along the route were lined scores of spectators, while others in automobiles, on bicycles and even on foot kept pace with the contestants to Waikiki Inn, where Antone Kaoo broke the string first, his time being 15 minutes, 41 2-5 seconds.

Nigel Jackson finished second in 15:45, Feagler was third in 16 flat, and Botelho was fourth man crossing the finish line 16 minutes and 41 seconds from the time of starting.

In order the others came in, Hau, Henderson, Kahlawai, Gomes and Sam Hop.

Dick Sullivan still holds the record for the walk, his time of 15:10, made last year, being the lowest so far, and his time of the year previous of 15:35 being even lower than the time made yesterday.

But after all, it was a great race yesterday, and there were hundreds of persons grouped in the grounds of Waikiki Inn and in the street in front making the finish one of difficulty for the crowd just opened up a little to let a man in and then closed again before the next one arrived.

Berger's hand was on hand with music and the finish of the race among cheering hundreds and to the hars of the hand was spectacular in the extreme.

Some of the officials did not show up for the start yesterday and in the absence of Mayor Fern, who was to start the race, Bill Chilton acted in that capacity, sending the men off just after 2:30, the scheduled time.

Nine of the twelve men entered for the event were on hand to start and for the first few hundred yards they were well bunched.

A large crowd of small boys on foot and on wheels, and a dozen automobiles, one with the officials, and others carrying enthusiastic spectators who kept continually cheering on their favorites, went along with the walkers in the race and gave the event lots of life.

It did not take Kaoo long to get in the lead, overtaking Henderson, and Jackson was close behind. In fact

after the first quarter of a mile it was a contest between Kaoo and Jackson for first place, the others trailing off in the rear.

The old Waiialua Horse was there with the goods yesterday and although he was hard pressed at times by Jackson he held his pace and went across the finish line four seconds ahead of the Marathon Kid.

The judges and timekeepers in a machine kept pace with the two leaders, cautioning them at times as they were both apt to forget the "heel and toe" rule in their hurry to get to the finish line.

When the last curve in the road was passed and the finish could be seen, the road for five hundred yards above the Inn was one mass of humanity, packed so closely that it seemed there was no chance for a finish. As the first contestants drew up to the cheering crowd, a lane was opened and they went through to the finish unobstructed.

There is just a word to say about the finish, and that is that it was several yards above where it should have been at the lower entrance to the Inn. The line was at the proper place but as the leaders of the race approached the upper entrance another line was stretched by someone across the road and they finished there.

Sam Hopp, who took the entire duty of promoting the race this year, deserves a lot of credit, for his efforts were crowned with great success. It was to him that the entire credit is due of getting men to enter the race, and of collecting prizes to be awarded the contestants.

Sam appreciates the help he received and he wishes to thank the merchants for the prizes they donated, the officials for acting, and the contestants for taking part in the race.

Kaoo was awarded the silver cup put up by Dick Sullivan, Jackson took the padding tin put up by Wichman, Feagler drew the walking shoes and Botelho took the four dozen bottles of pinet and grape juice. The others went away before any award could be made to them, but they will be hunted up and given their prizes today.

SOCCER SERIES IS STARTED

The Males defeated the High School two to one and the Puns and Iron Works played a tie game of one score each at the opening soccer games of the Hawaiian Association Football League on Saturday afternoon.

It was thought that the High School had it on the Males, but the game Saturday showed differently, and the tie game played between the second two teams was full of interest from the start.

The next games in the league series will be played next Monday, High School lining up against the Puns, and the Males against the Iron Works.

DOTS AND DASHES.

A series of Pearl Races is planned by the Honolulu Yacht Club, the events to come off on the next three Sundays.

Fort Shafter soccer team won from Alifanad alumni in their game yesterday morning at the post, the score being two goals to one.

Jack Grace, who has been in the city for several weeks with the Itland-Nelson fight pictures, leaves for the Orient today on the Manchuria. He intends showing the pictures in the Far East and then returning to the States by way of the canal, landing in little old New York.

Instead of coming on the Sierra, the three aviators who will fly in Honolulu the first of the year will be in town by the Wilhelmina, which is due a week from tomorrow. This will give them time to test their machines more than would be possible in arriving the day before the first flight.

Weekly Bulletin \$1 per year.

SIXTEEN TO NOTHING SCORE AT FOOTBALL

The Kam Juniors beat the picked team from the schools at football on Saturday afternoon by a score of 16 to 0, the picked team being outclassed by Godfrey's men from start to finish.

The lineups:

Juniors—G. Hewitt, c; H. Burgess, r; S. Smith, r; W. Apau, r; S. Bush, l; A. Napoleon, l; H. Brandt, l; E. Noah, q; W. Kamapoli, r; B. H. Godfrey, l; B. A. Spencer, f.

ART DEALERS AFTER PORTUGAL TREASURES

New York and London Syndicates Negotiating for Royal Palace Works.

LISBON, Dec. 1.—It is understood here that a syndicate has been hastily formed of some of the largest and most wealthy art dealers in New York and London to secure the magnificent treasures which the royal palaces of Portugal are known to contain.

A well-known expert, armed with a credit for a huge sum, was ready to commence business with the new government, but found to his chagrin that the doors of the palaces were sealed. Things are not yet sufficiently settled to enter into negotiations, and moreover, it is not yet quite clear which are personal and which national belongings.

Anyway, the man and the money are in readiness to secure any or all the priceless pictures, tapestry and china with which the palaces abound.

TOURNAMENT WON BY GILL

Medal Play at Country Club Yesterday Witnessed By Many.

There was a goodly crowd on the Oahu Country Club links yesterday to see the golfers work through the medal play tournament, and it was Tom Gill who won, with a score of 79 over the eighteen-hole course, from his sixteen competitors.

M. Phillips was the rival for low-score honors, but Gill was the only scratch man to play in the final tournament of the year.

The summary:

1st Round.	2nd Round.	Gross Score.	Handicap.	Net Score.
Tom Gill.....40	39	79	—	79
M. Phillips.....57	54	111	27	84
A. F. Judd.....55	48	103	18	85
Captain Low.....52	54	106	21	85
F. H. Armstrong.....46	43	89	3	86
H. H. Walker.....47	50	97	11	86
O. Sorenson.....55	50	105	18	87
J. C. Evans.....52	48	100	12	88
C. P. Morse.....53	54	107	18	88
E. C. Edmund.....52	50	102	13	89
C. S. Wright.....57	49	106	15	91
R. R. Reidford.....58	59	117	27	91
J. J. Belser.....57	54	111	18	93
H. B. Sinclair.....42	65	107	13	94
F. W. Klobahn.....59	51	110	15	95
J. O. Young.....59	59	118	13	105
G. C. Potter.....				did not finish and his score was not turned in.

As a whole, the team is not as well balanced as it should be. No one realizes this better than Coach Donovan and Quinn. In previous seasons they have been able to overcome this difficulty by shifting the men.

MATERIAL FOR TRACK IS GOOD

Harvard's Prospects This Year Brighter Than For Last.

Harvard's track prospects for the dual meet with Yale and the Inter-collegiate in 1911 are decidedly better than at this time last year, says the Christian Science Monitor of December 1.

As a whole the team promises to be weak in the field events, particularly in weights. The 1910 team was weak in these, and it was only through the very unusual work of the runners that Harvard managed to beat out her ancient rival by 22 1-2 points to 51 1-2.

At the present time it looks as if the runners would be called upon to do more than their share of point winning if the victory is to be repeated.

There are four candidates for the pole vault. R. Murray, '12, with a record of 19 feet 6 inches, is about the best, and he will have to add another foot to get a place against Yale. Chadwick, '11, and Torrey and Jones, '12, are the other candidates.

Captain R. C. Foster promises to be a worthy successor to Little in the broad jump, as he has done 23 feet in practice. Dick Long, Dillingham, Torrey and Phillips are promising second-string men who should pick up some points.

The outlook in the hammer and shot is very discouraging. Douglas and Parker, '12; Bachelor and Cable, '13; Chadwick, '11, and Hodges are the best of the candidates, and 130

feet is about as far as anyone of them has ever thrown the hammer. Moody and Bachelor, '13, and Perkins and Cutting, '11, are the best in the shot put, none of whom can better 40 feet.

A. D. Barker, '11, second in the last dual meet, is doing slightly better than 6 feet in practice, and he is well backed up by Reed and Davis, '11, both good for 5 feet 10 inches.

The mile and two-mile runs will find Harvard very strong, with H. Jacques Jr., P. Newton, E. L. Viets, W. F. Ryan, E. D. Everett, P. C. Held, '11; W. H. Fernald, P. R. Withington, W. H. Lacey, '12, and E. C. Gray and H. P. Lawless, '13. All of these men are exceptionally fast and should succeed in picking up nearly all of the 18 points in these two events.

The half and quarter will find Harvard well represented. Prebble, '12, the former Dartmouth runner, being the best in the former, and H. W. Kelley, S. C. Simons and O. R. Ranney likely to make another clean sweep in the latter event. Herbert Warren, '13, is another likely man in either event.

The dashes should find the crimson stronger this year than last if R. C. Foster is able to get back into his 1909 form, as is expected. He should easily win both these events, and will be ably backed up by Steinhardt, '11; Cummins and Ranney, '12, and Austin and de Gazzald, '13. Although Gardner will be missed in the hurdles, Harvard should be pretty strong with Lewis, Long, Sweetser, Heath and Chadwick the leading candidates. There is also a possibility that Foster may run the hurdles in place of the 100.

As a whole, the team is not as well balanced as it should be. No one realizes this better than Coach Donovan and Quinn. In previous seasons they have been able to overcome this difficulty by shifting the men.

INCURABLE CASE

(ANOTHER HOSPITAL CASE)

Authorities declare kidney disease incurable after the sixth month. This was the situation up to the working out of the new emollient treatment—the only thing known that dares claim in print to cure chronic kidney disease.

Every case presented has been declared incurable by physicians and in some cases four to six have joined in the fatal diagnosis.

Case of Mrs. H. S. Lathay, wife of H. S. Lathay, a business man of No. 596 Montgomery street, San Francisco.—Was so low with chronic and supposed incurable kidney disease that she was taken to the German Hospital. The physicians made no progress and gave no encouragement. Patient was taken home and put on the new emollient treatment. Another slow case. Mrs. Lathay is now practically well and enjoying life in her usual habit although the case was supposed to be absolutely hopeless.

Fulton's Renal Compound, the first successful treatment for chronic kidney disease, can only be had in your city of our authorized agent, Honolulu Drug Co., Fort street.

We desire to hear from and advise with every case not yielding.
