## CONTRACT LABOR VIOLATION

TWO SUITS BROUGHT IN THE UNITED STATES COURT AGAINST H. HAMANO ALLEGING VIOLATION OF THE UNITED STATES LAW AGAINST THE IMPORTATION OF CONTRACT LABORERS.

United States District Attorney Breckons has begun two suits against H. Hamano for \$1,000 each, for alleged violations of the United States contract labor laws. Hamano is alleged to have hired two Japanese in Japan and brought them here to work for him. The petition filed in one of the cases says:

"That during the month of March in the year 1903 in a foreign country, to wit, the Empire of Japan, the said defendant, H. Hamano, did make and enter into a contract with one Toyokichi Sakai, the said Toyokichi Sakai being then and there an alien and foreigner said contract being substantially in the terms following:

"That if the said Toyokichi Sakai would agree to migrate and come to the United States of America, to wit, to Honolulu, in the Territory of Hawaii, to perform services and work and labor, to wit, to work as a salesman or laborer in the store of him, the said H. Hamano, he, the said H. Hamano, would pay to said Sakai for said services and work and labor an amount per week equal to the current rate of wages for similar services in the said Honolulu, and equal to what said services and work and labor might reasonably be worth; and the said alien Toyokichi Sakai did, in the said Empire of Japan, at the time aforesaid, accept said offer of the said defendant, and did then and there promise the said defendant to come to said Honolulu and to there perform said services and work and labor for said defendant in accordance with the said offer of the said defendant to him.

"And the plaintiff further says that thereafter, to wit in the month of March, 1903, the said Sakai did, in performance of the said contract, actually migrate and come from the Empire of Japan to the said Honolulu, in the Territory of Hawaii.

"The plaintiff further says that before, by and after the making of said contract as aforesaid, the said defendant did knowingly encourage and solicit the importation and migration of the said Sakai into the United States, both in the manner aforesaid and also by prepaying, after the making of said contract and knowing the said contract to have been made, the transportation of the said Sakai from the said Empire of Japan to the said United States; and also by furnishing the said Sakai with clothing and necessities with which to come to the said United States."

The other petition is similar, alleging the employment of Tomokichi Oda, in Japan, and his being brought here. The sum of \$1,000 is demanded in each case.

In a motion filed Breckons states that both the immigrants are about to leave the islands and asks that their depositions be taken at once.

## PASSED BUCK BACK TO HOUSE

Senate Got Indignant This Morning Because House Returned Three Measures Without Acting on Them.

When the House meets next Monday it will probably have something to stir it up. The Senate today took some steps to bring the House to its senses in the matter of sidetracking Senate measures. In fact the action of the House in this matter was declared to be the worst piece of unmitigated gall on record.

The thing that caused the Senate to metaphorically get on its hind legs and roar, was a communication from the House. This communication stated that Senate bills relating to larceny, assault and battery and receiving stolen goods were returned without final action, as the consideration of them had been interrupted by the passage of House measures which were identical in character. Another communication announced the third reading of Senate bills regarding the manufacture and sale of malt liquors; regulating contempt and abolishing estates in joint tenancy.

All of the bills returned without action were measures introduced by Senator Cecil Brown. He was on his feet in an instant to denounce the course of the House. He declared that the action on the part of the House was the most unmitigated piece of gall on record. It was high discourteous and the House had no right to shelve the Senate measures as it had done. There was some discussion on the point, Senator McCandless supporting Senator Brown. A resolution was passed directing the clerk to return the three rejected resolutions to the House with the statement that they had been passed by the Senate and that it was the duty of the House to act on them. The communication will be sent to the House on Monday.

## EXTRA SESSION OF CONGRESS

Associated Press Cable to the Star.

HAVANA, March 28.—There is an understanding here that President Roosevelt will call an extra session of the American Congress before next December and that action may therefore be expected on the reciprocity treaty, by the House of Representatives, before that time. This encourages the hopes of those who are striving to secure the ratification of the treaty. The treaty as passed is to be approved by Congress, and the chances of its ratification in Cuba are increased by the prospect of action before the end of the year.

## NO DISCRIMINATION AGAINST KAWAHAE.

Superintendent Cooper replied this morning to the House resolution regarding the citizenship of members and the actions of the Hamakua board in failing to fix a road claimed to be badly in need of repairs. Cooper stated that in reply he transmitted the following:

"1st.—A list of the members of Road Boards as of the present date. I believe all these appointees are qualified citizens, with the exception of M. R. Hall, member of the North Kohala Road Board, who was appointed by my predecessor. By an opinion of the Deputy Attorney General rendered some months since, the appointments of Road Boards are not controlled by Section 80 of the Organic Act, but still remain as provided by the laws of the Territory. It has been my policy to appoint only qualified citizens, but I do not consider the fact that a man is not a citizen sufficient cause for his removal.

"Second.—During my trip around the Island of Hawaii in the month of January, 1903, I met the majority of the members of the Hamakua Road Board, and discussed with them the requirements of the roads of the district. Among road work considered most urgent, was the construction of the road from the main road through the Ahualoa homesteads, connecting with the main road from Waimea. This work has been surveyed, and tenders asked for its construction.

"I have no reason to believe that the Hamakua Road Board divert money at their disposal from its proper uses, or that they have neglected the road in question, so as to interfere with the transportation of freight and passengers from the Waimea district. I believe that they are conscientious men and that they desire to do everything in their power for the general benefit of the people of the district.

"The Superintendent of Public Works has no control over the expenditure of the Special Road Taxes collected in the respective districts; these funds being expended entirely under the supervision of the Road Boards.

Very respectfully,  
HENRY E. COOPER,  
Superintendent of Public Works."

## KALAKAUA DID NOT OWN PLATE

SEVERAL ADJUSTERS OF MONARCHIAL PROPERTY DECIDED ON TWO DIFFERENT OCCASIONS.

The question of the ownership of the plate which was given by the French Government, and which by a House resolution is now to be given to the late King, John A. King, was discussed on several occasions and at all times, the decision was that none of the Hawaiians monarchs or their heirs had any claim upon it. "The plate" said Mr. Robertson this morning, "was presented originally by the French government to the Hawaiian government during the reign of Kamehameha III, as a sort of a conciliatory act, following some dispute that had arisen between the governments."

"In 1891 after the death of Kalakaua, a conference was held by the representatives of various interests to decide upon the distribution of certain property that had been in the possession of the late king. John A. King, represented the Minister of the Interior, Dr. Trousdale represented the estate of Kalakaua and I represented Liliuokalani. The disposition of this plate was then discussed. We decided that the plate belonged to the government and that Kalakaua's heirs were not entitled to it."

"In 1893 after the overthrow, a similar conference was held in which Cecil Brown represented the Kalakaua estate, W. F. Allen, the government and myself, Liliuokalani. We decided again that this plate from the French government did not belong to either Liliuokalani or the heirs of Kalakaua but it was the property of the Government."

"I have understood that it is said that King Kalakaua did purchase some things and add to the set. The original plate was the gift from the French government. In my opinion it would be well to give the plate to the Bishop Museum. Or if this disposition were not desired, it would be a graceful act to give it to Liliuokalani as she was the last Hawaiian monarch to reign."

## WANTED TO RUSH THE FUNERAL

Joe Kekipi was before Judge Wilcox this morning to answer to a charge of assault and battery on F. W. Davenport, a hack driver. Some days ago, Davenport was driving Kekipi to the funeral of Kekipi's mother. Kekipi was intoxicated and ordered the driver to hurry along the funeral cortege. When the hackman refused to continue to beat the horse, Kekipi attacked the driver. The court gave Kekipi a month in jail.

## SAVING MONEY.

The plan of the Pioneer Building and Loan Association encourages its members to make monthly savings of stated amounts—\$1.00 or any multiple of \$1.00. The odd dollars of one's income are thus put to substantial use as each dollar paid in immediately begins to earn interest. Loans made to its shareholders are paid back in monthly installments. The interest earned for 1902 was 11½ per cent. Pioneer Building & Loan Association, Judd Building, Merchant street. J. L. McLean, president; A. V. Gear, secretary.

## WERE THEY DROWNED?

OVERTURNED JAPANESE SAM-PAN DISCOVERED INSIDE REEF OFF KEWALO THIS WEEK.

Considerable mystery is attached to the discovery of an empty Japanese sampan last Thursday by some natives living in Kewalo. Circumstances indicate that perhaps the owner of the craft might have been drowned.

The natives were fishing inside the reef off Sheridan street in the morning. They noticed an overturned sampan. They investigated but saw no one near the boat. Subsequently an overcoat and a coil of rope were found near the spot where the sampan had been picked up.

The natives surmised that perhaps the owner or owners of the craft might have fallen asleep and the craft drifted inside of the reef, been capsized and the occupants drowned. On the other hand there is a possibility that some enemy of the owners of the craft might have done violence to them outside of the reef, and allowed the sampan to drift. The tide perhaps sent the craft ashore. There is also the possibility that the occupants might have fallen off the craft outside and not been the victims of foul play at all.

Inquiry at the fish market this morning received the information that no Japanese fishermen had been reported missing. The finding of the sampan and the possible loss of the owners will be reported to the police.

## NEED FOR SCHOOL HOUSES

WHAT THE SUPERINTENDENT OF PUBLIC INSTRU-  
TION HAS TO SAY ON THE SUBJECT—POINTS  
OUT SOME OF THE PLACES WHERE NEW BUILD-  
INGS ARE REQUIRED.

The Superintendent of Public Instruction in his report to the  
Governor for the period from June 30 to December 31, 1902,  
gives some interesting information on the subject of the needed  
reconstruction and new construction of school houses. He says:

The Territory is crying for reconstruction of school houses and  
for new school houses in places where no school houses now ex-  
ist. If the reconstruction and addition takes place, and the new  
buildings are erected, there must be provision made to supply  
teachers to take charge of the extrarooms and the new buildings.  
It is no use to erect a school house and not provide the means for  
having the pupils instructed. This has too often been the case in  
the past. Members of the Legislature have passed appropriation  
for school houses, and have given no thought as to the fitting up  
of those school houses, or the salaries of the teachers who will  
have charge of the schools. In the present estimates there has  
been the greatest care taken to correlate the various items of  
expenditure. Taking the statistics for a basis, and no other meth-  
od can be taken, every item has been weighed, as it affects every  
other item. To increase the number of rooms asked for would  
mean also to increase the salary schedule both for teachers and  
truants officers, etc., while it would also mean the increase of vari-  
ous school supplies. And this latter is no small amount. Few  
people consider that if each pupil in the territory is supplied with  
one piece of crayon, it means close on to 14,000 crayons, or if  
each one is supplied with a single sheet of Manila paper it means  
14,000 sheets, and many, many sheets are required.

As to the number of buildings and their probable cost the Su-  
perintendent of Public Works has made an estimate, but it is  
competent for this department to speak especially of some of  
the buildings most urgently required.

The Royal school is one of the most urgent certainly. Plans  
for the erection of a fine school house upon the present premises  
have been made for over two years. It was hoped that the Legis-  
lature of 1901 would have voted the funds for the purpose. It did  
not, and the consequence has been that one of the most important  
schools in the Islands has been thoroughly disorganized, while  
the efforts of the principal and teachers have been much hamper-  
ed. However, this will not last long, for the present Legislature  
will undoubtedly recognize the situation and meet it. In view of  
the necessity for economy \$40,000 has been asked for this school,  
it being estimated that for that sum a building containing 20  
rooms, somewhat on the plan of the Kailani School could be  
erected. The original plans were for a building to cost \$75,000,  
but however desirable this might be, in view of the necessities of  
other parts of the Territory it does not seem that so large an ex-  
penditure would be just.

Next to the Royal School, the Normal School should have  
attention. The present Normal School building is hardly safe,

## "RESURRECTION"

Everybody has read Tolstoy's "Resurrection," which started, in the English version, in the Cosmopolitan, and then having run for a few chapters was withdrawn because the editor of that monthly toned down some of Tolstoy's scenes and language. The Cosmopolitan tried to bowdlerize but was pulled up. The book has run through many editions and has been widely read in many languages, so that the squeamishness of the Cosmopolitan is only a subject of laughter to the unregenerate and chagrin to those who wanted to swaddle Tolstoy's genius in unseemly undergarments.

The popularity and strength of the novel are shown by the fact that at the present moment no less than three versions of it are on the stage, one in Paris, one in London and one in New York. The Paris version ran for one hundred nights before the English and American versions saw the footlights. It was immensely popular and is still running. The play is now having a wonderful success in New York and London, and will undoubtedly be carried to all the principal cities of the Union.

People have been apt to say that the stage as an educator has ceased to have a mission, and is only occupied by vaudeville and farce comedy, supplemented by exceedingly vulgar so-called comic operas. The success of such a play as "Resurrection," gives a firm denial to this. Tolstoy's book and the plays founded upon it deal with the great question of the fall of character, and its awakening from its moral degradation and its "resurrection" into a purer and a worthier sphere. It is only another working out of Goethe's problem in Faust, or the repetition of the hope inspired by the life of Mary Magdalene. The essence of such a work touches the foundation of morality and of ethics. Such a theme must be treated by a master hand. No puny genius can approach it.

There have been great lesson giving plays of late, as the Christian, Ben Hur, Rome, The Sign of the Cross and so on. To all these vast audiences have flocked, but none of these have possessed the literary and moral value of Tolstoy's "Resurrection." If people will crowd to see such plays, the stage is by no means in a decadent position, but is fulfilling those highest and grandest duties which it has filled in times past, from the days of Greek drama through the great Elizabethan and the great German dramatists to the present time.

A large number of great actors and managers take their art seriously and realize its duties. To them it is a pride and an honor to have successfully laid before large audiences the great lessons of life's tragedy. For all life is a tragedy. But the beauty and idealism of the tragedy needs to be shown, and the grandeur of the moral has to be shown as overcoming the most sordid surroundings. This Tolstoy showed in his novel, and this no doubt has been emphasized in the plays.

What a power has literary genius when well applied. It appeals not to one country, but to many, it speaks not in one language, but in every known and cultivated tongue. The history of Tolstoy's "Resurrection" is only the history of every great masterpiece, which goes to the heart of human nature and of life, and is true not for today, but for all times.

Federal buildings take from twelve to fifteen years to erect. In view of this fact the wild rush which was made a while ago is somewhat amusing. The Territory, however, ought to secure the site and be ready for all eventualities.

The Cuban Senate has received warning that it had better take the Treaty as it is and not try to amend it. Our own wise acre Kupieha might take warning as to the Organic Act. He will find he is monkeying with a buzz-saw.

The honors of war sometimes come the way of the newspaper men. Melton Prior, Frederick Villiers and several others of the staff of the Illustrated London News, who represented that paper during the Boer war have had the South African medal conferred upon them. War correspondents and war artists have to take quite as much risk as the combatants now-a-days. It is no uncommon thing for a correspondent to be shot in action, and many die of disease or lay the seeds of death. This is true of American and British correspondents. The Spanish correspondents are not so energetic, however. To them are due the telegrams of the Sultan of Morocco's success one day and the Pretender's the next. This class of gentry were never within two hundred miles of where the events they reported took place and simply telegraphed the rumors of the bazaars or invented them themselves.

## MR. DOOLEY ON PRESIDENTIAL TOURS.

"Rosenfelt won't come," said Hennessey.

"I knew it," said Mr. Dooley. "He can't afford it. Like the rest of the tourists, excepting the members of the Weedon Sundah schools, he has to stop at the gate where, as Hogan says, the broad green waters of the blue ocean lave the shores of the most western precinct. Only the members of trusts can pay the rates for the rest of the way, saving the man that makes his fare in the smoking room."

"How was too late in asking, anyhow, Hennessey. Somewhere in the mail the invitations are going forward now. They are printed on golden paper, containing at the head the latest design for a Howine coat in ar-rms, a sugar cane in repose and a hammer, rampant. Frind Rosenfelt," they says, 'th' price of sugar is low,' they says, 'an' times is har-rl. Some, bringin' ye're family and scieries an' as many journalists as th' steamer can ta-ake, an' spind some iv ye're money here, where th' latchstring is always out fr ye, an' th' cash register yearns fr Mainland coin. Ye've taxed us fr th' paymint iv ye're salary an' iv th' White House picture hangin' an' other luxurious features iv ye're administration, until we're bro-oke an' have to live off each other. If ye'll start th' tourists ball rillin' twill be th' makin' iv th' country. Remindin' ye iv th' need iv an extra check book, we remain, yours trooly, Bleedin' Howai."

"But Rosenfelt heard iv th' invitation, Hennessey, an' he headed it off be wire. 'Wire thim,' he says, 'that me strenuous young life is darkened be th' disappointment,' he says, 'but dates is made fr th' whole trip, an' ivry check is signed. Me scierity,' he says, 'has checked up ivry cint iv me nex' year's pay, an' made a programme be which,' he says, 'I'll jus' be able to get home in time to restrain th' indignation iv th' nex' Congress at me use iv a first class ticket."

"What's the real reason he can't come?" asked Hennessey.

"They're no wan here, Hennessey," said Mr. Dooley, "to listen to th' speeches fr'm rear platforms. Crossin' to th' Golden Gate, a presidint stan's all th' way on the rear platform iv th' train, addressin' his well distributed fellow citizens. On his las' trip McKinley made enough votes to send Bryne to th' newspaper business fr life an' twill be th' same with Rosenfelt. But steamer travelin' would be waste time and they se no vote fr presidint in Howai anyhow."

## The Professor Scores.

The people had gathered in the Town Hall to witness a panoramic exhibition of the world's great men and the noteworthy events of their lives, on canvas. The Professor having held their attention for an hour, came to the closing spasm.

Ladies and Gents: You now behold a representation of one of the most stirring scenes in the world's history. Daniel in the Lion's Den. Daniel, as you know had pinched molasses from his ma's sewing basket and that he might see the error of his ways had been cruelly cast among these beasts. Note the peaceful expression on his face—see the realistic smiles of the lions. But "Dan" ain't phased a little bit. You can distinguish Daniel from the lions by the green cotton umbrella he carries under his left arm.

As the audience rose to go the Professor threw on the screen the words, "Douglas Patent Closet." He was paid to do it. Bath, the plumber, also pays to tell you about the Douglas, 155 King street. It will pay you to investigate the Douglas.

## SOCIETY MEN IN ALDERMANIC FIGHT

Opponent of Honore Palmer in Chicago Enlists Aid of Swell Friends in Battle.

CHICAGO, March 18.—Fletcher Dobyns, the Republican candidate for Alderman in the Twenty-first ward, has sprung an innovation upon Honore Palmer, his Democratic competitor, and from now until election day matters social and political promise to be inextricably intermingled on the Lake Shore drive.

With the view of combatting the formidable social influence of Mrs. Potter Palmer, which had not a little to do with her son's victory two years ago, Mr. Dobyns sent out a Macedonian cry to his silk-stocking friends, and they promptly responded today by forming a campaign committee, whose personnel represents an aggregation of social prestige and wealth such as was never before enlisted in behalf of an Aldermanic candidate. Each of the members is pledged to do personal work in Mr. Dobyns' behalf among the voters of the ward and they have sworn that for the

next three weeks they will eschew the cotillon and devote all their waking moments to the Aldermanic campaign.

The officers of the committee are: President, J. The members of the committee, which will be increased to 100 soon, are well known in ultra-fashionable social circles on the north side, and a number of them were actual supporters of Alderman Palmer in his campaign two years ago.

## NEED FOR SCHOOL HOUSES

(Continued from page 3).

and the whole establishment is utterly unsuited to the purpose to which it is put. The Normal School is really the pivot upon which the future education of the country will turn. It is here that those who are fitting themselves for teaching the coming generations receive their training. It will be noted in the yearly report how many Hawaiians and part-Hawaiians are being educated in this establishment. At present the Normal School buildings are but a make shift, and the surprise to many strangers who visit the place is, that in spite of so many drawbacks such excellent results are accomplished. For the Normal School \$40,000 is asked, and a tentative plan has been drawn. The idea is to allow the school to continue work while the building is in course of construction, and the same plan can be carried out at the Royal School. It is needless to dwell upon the necessity of a thoroughly well equipped Normal School. We have the pupils, we have an excellent staff, all we need is a building of up-to-date pattern.

Lahainaluna is another establishment which needs the especial attention of the Legislature. New school rooms and dormitories should be erected and plans laid for making this an agriculture college for the Territory. When properly under way Lahainaluna would be in a position to receive a grant from the Federal funds for such purposes. The question of land tenure, however, would have to be definitely settled and the Department is giving careful attention to this subject, as well as to the question of water rights. Until these questions are definitely settled nothing can be done towards the agricultural college on this spot. It is to be hoped, however, that Lahainaluna will be available for this purpose, because it possesses peculiar advantages. The Department has asked for \$25,000 for new buildings. A very much larger sum might be spent advantageously and economically, but it does not seem as if the funds of the Territory would warrant any greater expenditure during the ensuing two years.

The necessity of a large school at Wailuku has been recognized for a long time. The present school house was built for a different purpose from a school house, and is not well adapted for what is required. The situation is utterly unsatisfactory and the size of the land inadequate. Effort has been made to obtain a suitable site, and the Legislature will be asked to appropriate \$2,700 to buy such a requisite piece of land. The building upon the new site will require at least \$8,000 to erect and fit out a proper building, and there should be provision made for future enlargement.

If these buildings are especially mentioned, there are numerous others which seem almost as important. There is not an Island in the group, not a district on the Islands which does not demand attention in the matter of buildings. New school houses are needed in places where there are no school house and where the children are neglected. Old school houses, with rotten roofs and tottering walls have to be replaced. Additional rooms are called for from Haena to Kalahe. As complete a list as possible has been furnished, and it rests with the members of the Legislature to supply the needs of their Islands and districts.

### REVENUE CUTTER DINNER.

Palace Grill to Repeat One Served to General Clarkson.

When General Clarkson, now Surveyor of the Port of New York, was postmaster General under the Harrison administration he visited the Puget Sound country and while there a famous dinner was served to the General and Senator Squires of Washington on board the Revenue cutter "Walcott." The same dinner will be given at the Palace Grill tomorrow and good things on the bill of fare will include Roman punch, huckleberry pie, roast turkey, roast pork, roast beef, boiled mutton with caper sauce, all the best vegetables in the market, two kinds of fish, and half a dozen desserts. The waiters will be dressed in the costumes worn by the mess boys on the revenue cutter, while the Palace Grill will be decorated with flags and bunting in such a way as to give it the appearance of a mess room on one of Uncle Sam's boats of the Custom service. This unique and good dinner will be served for only fifty cents. Dinner from 5 to 8.

### BEFORE WE CAN

use them, iron and gold must first be got out of the ore. The same principle applies to cod liver oil. Its virtues are not in its fatty matters; much less in its sickening taste and smell. No consumptive, or sufferer from any other wasting disease, was ever greatly benefited by the so called "plain" cod liver oil. The shock it gives to the nerves, the repulsion and disgust it excites in the stomach, the outrages it commits upon the senses of smell and taste, are enough to spoil any medicinal potency that may be in it for the majority of people. This—to say nothing about its being indigestible. Yet there has always been reason to believe that, among the elements which form cod liver oil, there existed curative properties of the highest value. But it was necessary to separate them from the nauseating waste material with which they were combined. This was successfully accomplished in

### WAMPOLE'S PREPARATION

and in this effective remedy, made palatable as honey, we have the very heart and soul of Pure Cod Liver Oil, combined with the Compound Syrup of Hypophosphites, Extracts of Malt and Wild Cherry. These constitute a tissue builder, a blood purifier, a health renewer beyond comparison. Disease yields to it with a completeness and rapidity which astonishes medical men quite as much as it delights their patients. In all wasting conditions, Scrofula and Blood Disorders, La Grippe, Chronic Bronchitis, Pulmonary Affections, etc., it never fails to relieve and cure. Dr. Louis W. Bishop says: "I take pleasure in saying I have found it a most efficient preparation, embodying all of the medicinal properties of a pure cod liver oil, in a most palatable form." It stands in the front rank in the march of medicine. Effective from the first dose. Sold by all chemists here.

### DEATH FROM LORENZ'S METHOD.

Little Philadelphia Girl Succumbs to Convulsions After the Treatment.

PHILADELPHIA, March 20.—For the first time, as far as surgical history goes, a patient has died from an operation for congenital dislocation of the hips after the bloodless method introduced by Professor Lorenz. The patient, an eight-year-old girl, was operated upon last Wednesday. Although the surgeons did not succeed in reducing the dislocation, no fatal result was anticipated from the operation, but the child was later seized with convulsions and died in a short time.

## Can't Eat

You certainly don't want to eat if you are not hungry. But you must eat, and you must digest your food, too. If not, you will become weak, pale, thin. Good food, good appetite, good digestion,—these are essential.

Mr. Robert Venns, of Lancaster, Tasmania, sends us his photograph and says: "I suffered greatly from loss of appetite, indigestion, pains in the stomach, weakness, and nervousness. Several doctors tried in vain to give me relief. A friend then induced me to try Ayer's Sarsaparilla, for it had done him much good. The first bottle worked wonders for me. Soon my appetite came back, my indigestion was cured, and I was strong and hearty."

## AYER'S Sarsaparilla

There are many imitations "Sarsaparilla." Be sure you get Ayer's.

Keep your bowels in good condition by using Ayer's Pills. They cure constipation, coated tongue, biliousness, sick headache.

## CONSIDERED LICENSE BILLS

At the afternoon session of the Senate yesterday, there was some discussion over the second reading of the bill to exempt the Kona-Kau Railway from the payment of taxes. On motion of Senator Cecil Brown the measure was amended so as to make the exemption apply only to property actually used in construction or operation. The measure comes up for final passage today.

The Senate went into committee of the whole to consider the three liquor bills. The general license bill was first considered. Senator Dickey favored the committee report providing for the consent of the property owners within a radius of 300 feet, but not to apply to existing licenses. An amendment by McCandless to make necessary the consent only of adjoining property owners finally prevailed. An amendment permitting hotels having rooms for twenty guests, to sell liquor without a bar was passed. A clause requiring a residence of five years to license holder but not requiring citizenship, was passed.

Wholesale's license was fixed at \$500, the dealer's license was raised from \$500 to \$750, hotel liquor license at \$500. The retail license clause making two classes, the first class within three miles of a first or second class postoffice at \$1,000, the remainder at \$500 was left in the bill; the amendment making a general license of \$1,000 being lost.

A manufacturer's license was also authorized, and the license was raised from \$150 to \$300 per year.

Senator McCandless said he was preparing a bill permitting plantations to manufacture malt liquor.

The penalty for violations of the law was changed from \$500 fine and two years' imprisonment to \$1,000 fine and one year's imprisonment.

On motion of Senator Dickey, dealers were prohibited from selling liquor to women. The section exempting the license holder from prosecution in case of violation by an employee was stricken out. The hotel license and grocery store license measures were recommended to be laid on the table. The general license bill will come up for third reading Wednesday.

## HOUSE PASSES COUNTY BILL

The Committee Reports Changes and Bill Passes Second Reading.

The county government act passed second reading in the House yesterday, with the adoption of the committee's report recommending a number of changes. This action made possible the very speedy final adoption of the bill as changed, leaving the matter of amendments to be thrashed out in conference between the House and Senate.

The principal feature of the amending of the bill lies in the transfer of the schools from the Territorial board to the counties, along the lines of the Kauai plan.

The county of West Hawaii is changed by the substitution of Hamakua for Kau, which goes to East Hawaii, the county seat being placed at Waimea instead of Kailua, and the name of the county being made Kanaiaupuni. The provision for the county seat of Kauai is the same as for that of Maui.

The power to fill supervisory vacancies is taken from the Governor and given to the remaining members of the board. The provision for "newspapers of general circulation" for publication of notices is stricken out, and the provision is made that books must be audited once in six months.

The bonding privilege of the counties is stricken out as well. The deciding vote of the board is placed at four-sevenths. The oath for officers must contain the words "the laws of the Territory," as well as "United States." The sheriff is made coroner ex-officio, and the county clerk is made recorder. Instead of road boards, a road supervisor is provided.

The limit of exemption under the income tax clause is \$2,000.

The chapter bearing on fire arms is stricken out, and the tobacco license is made to read that the fee for a business of \$10,000, is \$50; up to \$100,000, \$100; to \$500,000, \$200; over a half million, \$500.

The provision for district road supervisors is carried through the bill in place of road boards.

The sections giving the Territory control of harbors and wharves, of schools and the Board of Health, are stricken out entirely.

It is provided that the superintendent of water works shall receive not more than \$3,000, and the water rates are made payable monthly.

It is provided that there shall be set aside for the counties a total amount of \$725,000, of which the division is as follows: Oahu, \$520,000; Kanaiaupuni, \$45,000; East Hawaii, \$55,000; Maui, \$60,000; Kauai, \$45,000.

Kumalee opposed the new division of Hawaii counties, but otherwise was in favor of the report.

Senate Bill No. 16, the brewing bill, then came up on third reading, Chillingworth supporting it. Wright wanted to lay the bill on the table until the bill repealing the special tax came up, and Paole wanted to refer it to a special committee, but Knudsen said the object was delay and he would not entertain it. The bill passed, ayes 22, noes 2.

Senate Bill 59, relating to contempt; 64, on joint tenancy; House Bill No. 6, relating to the administration of estates; House Bill No. 26, an act relating to lights on bicycles and other similar vehicles; House Bill No. 78, relating to the exemption of laborers from attachment, making the exemption one-half the wages; House Bill No. 81, relating to reforms in the courts of the Territory; House Bill No. 99, designating two pay days a month for government employees; and House Bill No. 2, relating to cremation, all passed third reading, the latter being the only one on which there was a fight, the ayes being 16, the noes 8.

On second reading House Bills 107, amending and repealing certain paragraphs of section 837, chapter 59, civil laws; 110, relating to the teaching of the Hawaiian language in the schools.

## Vigorous Old Age

Paine's Celery Compound makes the old feel young, and cures their ills. It has added years of health and enjoyment to many a life. Use this great medicine regularly, and its invigorating powers will fill your declining years with health, strength, and happiness. Read what George F. Morse, 67 years old, writes:—  
WELLS & RICHARDSON CO.,  
Gentlemen:—Just a word in favor of Paine's Celery Compound, hoping it may catch the eye of some afflicted person, and they may receive the same satisfactory benefit. Some 15 years ago I had a combination of malaria, chills and fever, and grip, which continued for a year or more; medicine I lost in weight about 60 pounds, trying different medicines and doctors with unsatisfactory results. Paine's Celery Compound was recommended, and, after using a little I began to improve, gaining about a pound a week. In a year I had regained 50 pounds of the lost weight and good health, and have been a well man ever since. Yours truly, GEORGE F. MORSE.

## HONOLULU NEEDS MORE POLICEMEN

HOUSE COMMITTEE COMPLIMENTS HIGH SHERIFF BROWN ON THE EFFICIENCY OF THE FORCE—AN INCREASE IN THE NUMBER OF OFFICERS, AND MORE ALARM BOXES ARE RECOMMENDED

The House received the Senate county bill this morning, Senate Bill No. 1, and it passed first reading unanimously and was made the order of the day for Monday.

The committee on police presented a report recommending an increase in the Honolulu police force and some raises or salaries and compensating high sacrifice on the condition of the force.

"We desire to compliment the High Sheriff and his officers upon the thoroughly efficient condition of the police department," says the report.

The committee recommends that the pay of Honolulu police patrolmen be increased \$15 per month and mounted police \$10, also that the pay of country police be increased \$5.

The committee expresses the opinion that the Honolulu police force should be increased, declaring that it is not large enough. There should be six more mounted police at \$100 per month and six more foot police at \$75, says the committee, making a total increase of \$1050 per month in the appropriation.

Sheriff Andrews is deducting \$5 per month in many cases for telephones in homes of officers and \$5 per month each for uniform fund, says the committee, and the practice is disapproved. An appropriation of \$10,000 is recommended for 50 more Gamewell alarm boxes. In Hamakua and North Kohala the pay of officers should be \$50 instead of \$45, says the committee, and the appointment of four special policemen for Honolulu, at \$85 per month, is advised.

The committee recommends reducing the pay of the Japanese and Chinese police employed in Honolulu from \$60 to \$50. The employment of such officers is declared to be necessary, but the committee thinks that \$50 a month is enough.

The committee reports having investigated the prison and found its management all right.

The House got into a tangle over the method of handling the report. Kaniho moved that it be translated and printed and that the interpretation be dispensed with. There were motions and counter motions and arguments lasting twice as long as was needed for interpretation and it was finally decided to interpret. Then the report was ordered spread on the minutes and was tabled to be considered with the appropriation bill.

## THE MOSQUITO IN HAWAII.

At the meeting of the Young Men's Research Club held last evening at the offices of Dr. Day and Dr. Wood, D. L. Van Dine presented a very interesting address on the life history of the mosquito. He said that the day mosquito, that was here was the species that spread yellow fever. There is no danger in this however, until some case of yellow fever breaks out here, when the mosquito would be on hand to spread the disease. This mosquito does not breed in ponds, however, but in open pans or buckets of water left standing, so that his destruction is comparatively easy, if people would set themselves to it. Dr. Day gave some of the medical aspects of the mosquito, and later he and Dr. Wood gave an exhibition of their fine X-ray appliances.

POSTPONED  
LEPER VISIT

LEGISLATURE DECIDED TODAY  
NOT TO VISIT SETTLEMENT FOR  
THE PRESENT.

The legislative trip to the Leper Settlement is off. Owing to the rough weather which is prevailing at Kalaupapa, both the Senate and House decided this morning to postpone the trip for one week, so the excursion will not be made until next Saturday.

The Senate received a communication on this subject this morning from President Wright of the Wilder Steamship company. President Wright's stated that the steamer Lehua which had arrived from Molokai reported that the weather was very rough at Kalaupapa and it was probable that no landing could be made at the leper settlement tomorrow. It was suggested that the trip be deferred until next Saturday.

The Senate extended its thanks to President Wright and decided to postpone the trip until next Saturday. The Kinai will go on the Marine railway and be able to make a faster trip next week that she could had the legislative party departed today.

In the House, Speaker Beckley announced that he had been notified that the landing at Kalaupapa was too rough and the trip had better be postponed. It was decided to make the trip next Saturday on the Kinai.
