GERMANY'S NEW CONSUL

Washington, March 7. — Although Herr Salf, the newly appointed Consul of Germany to Samoa, has not yet started for his post, the action of the German Government in appointing him and recalling Dr. Raffel is construed as a virtual admission that the latter exceeded his authority, and that Germany disavows his act. It is also interpreted to mean that Germany is inclined to do anything possible to restore harmonious relations with the United States. In view of the recent withdrawal of German war ships from Manila this fact is regarded as significant.

Herr Salf will go to Samoa by way of the United States, and it is expected that he will have a conference with Secretary Hay, stopping over in Washington for that purpose. He was to have left Germany for his new post on the 22d of February. The German Government could not withdraw Dr. Raffel, because he was in contempt and not permitted to leave the islands. This situation, was explained to the United States through diplomatic channels and it was represented that if the United States and Great Britain would ignore the contempt proceedings Germany would withdraw Dr. Raffel at once. An agreement was made, and the appointment of the successor to Dr. Raffel followed. As Germany has practically disavowed the acts of her Consul, it is not believed that any further action will be taken by any of the governments involved in the protectorate of the islands.

Kona Sugar Co.

The Kona Sugar Co. is doing very well just at present with the work of planting cane. Several hundred acres are now coming up in good shape. The cane looks well and the outlook is promising. Undoubtedly Kona cane grows cane that will be unequalled anywhere else on the Islands.

CIRCUIT COURT MATTERS

Judge Stanley has rendered a decision in favor of the defendant in the action to quiet title of Kulakaka vs. Samuel Andrews. The defendant wins on the ground of adverse possession. Humphreys & Gear for plaintiff; Castle & Weaver for defendant.

Three cases for the May term are: Bishop Trustees vs. Jonathan Spooner, ejectment; Cicilia A. Ah Lock vs. Ah Lock, divorce; Tane Watanabe vs. Seiji Watanabe, divorce. The libellant in the last case alleges ill treatment, also the possession of \$2000 by her libelled husband.

Chambers summonses have been served in the following cases: Thomas Christley vs. J. Alfred Magoon and wife, bill to set aside deed; W. C. Achi vs. Dibble K. Ilae, Mele Ilae and Wm. H. Mahuka, bill for partition of land; Kaneohe Ranch Co. vs. Charlotte King, et al., petition for right of way for drainage; Antone Morris and W. C. Achi vs. Joe Morris and others, bill for partition of land.

As guardian of David Manuel, Mr. Magoon accounts for receipts of \$353.29 and payments less that amount by \$110.29.

J. Alfred Magoon, as trustee of estate of J. F. O. Banning, deceased, exhibits in his annual account receipts of \$48,108 and a balance due the estate of \$9406.84. This balance represents the cash uninvested in the entire estate amounting to \$74,055.

Mr. Magoon, as guardian of Jas. Love, received for the past year \$1530 and expended \$1923.99, leaving his ward indebted to him in the sum of \$389.99.

Judge Stanley this morning partly heard the claim of Keliiana, Molokai, for a share in the Kepola estate, continuing it until a deposition can be obtained from Kehele, a resident of that island.

Judge Perry is hearing Kahanookahi Paawela vs. Naihe, ejectment.

REBELS ARE STILL FIGHTING

Seeking to Gain the Water Works of Manila.

General Hale's Forces Do Good Work—Men Prostrated by the Heat—Wounded.

New York, March 8.—A dispatch to the Herald from Manila says:

General Hale determined this morning to clear away the enemy from the front of the right of his wing.

The gunboat Laguna de Bai, under Major Grant, began shelling the enemy's position. Two companies of the Twentieth Infantry and three companies of the First Nebraska, under Colonel Statesburg, swung in from the road to the water works, driving the rebels towards the Pasig river.

The First Wyoming advanced directly on the insurgent position in front. Meanwhile the Laguna de Bai pounded the foe from the river.

Thus attacked on three sides, the insurgents were driven back.

Captain J. D. O'Brien of the First Wyoming was shot in the right wrist, and Major Shell of the Bureau of Information was slightly wounded.

Complete reports of the wounded are not yet in.

General Hale estimates the enemy's loss at 250.

At the time of the sending of this dispatch the Wyoming troops occupy an advanced position.

The insurgents opened fire across the river from Guadalupe, killing Private Lovejoy of Company C, First Washington, and wounding two others.

The Filipinos have been concentrating to the east of the city and will probably try to attack from that side. Their principal object is to cut off the water supply of Manila. The American positions are strong and their attempts will be futile. Their losses have been severe the last few days.

The Madrid authorities have offered Aguinaldo a ransom of \$1000 for each officer, \$100 each for the privates and \$50 for each civil servant. They have not offered to ransom the priests.

Aguinaldo declares that he has paid filibusters \$70,000 and has received 500 rifles and 2,000,000 rounds of ammunition. The filibusters say the rest have been captured, but probably they were never bought.

Regulars in Action.

New York, March 7. A cable to the Sun dated Manila, March 7, 8:50 p. m., says: Detachments from the Twentieth Regular Infantry and the First Nebraska and First Wyoming regiments, with four guns of the Light Artillery, advanced this morning on the Filipinos south of the water works. The Twentieth Infantry and Nebraska flanked the right, while a battalion of the Wyoming troops attacked them in front. The enemy were in strong force, but after two hours fighting they deserted their trenches and retreated to the Pasig river. The weather was extremely hot and several of the regulars were prostrated.

California Boys at Negros.

Washington, March 6.—A cablegram from General Otis at Manila, received in Washington, indicates the satisfactory and agreeable reception accorded to the American troops which recently landed at the island of Negros. One battalion of the First California Regiment was sent there by General Miller at Iloilo, in command of Colonel James F. Smith, with orders to take formal possession for the United States, which he did without trouble.

Mr. and Mrs. Clarence M. White returned from the mainland this morning after an absence of several months. Mr. White is in improved health, which was the object of travel.

HITT TALKS OF HAWAII

President Has Sufficient Power to Handle Affairs.

Failure to Legislate Will Cause Disagreeable Legal Conditions—Cases in Admiralty May Cause Trouble.

Washington, March 6.—There has been considerable speculation as to the effect upon the conditions in the Hawaiian Islands owing to the failure of Congress to enact the legislation demanded.

Representative Hitt of Illinois, chairman of the Committee on Foreign Affairs in the last Congress, who was one of the Hawaiian commissioners, is probably as conversant with Hawaiian affairs as any public man in Washington. Mr. Hitt was asked today for an expression of opinion upon what may be expected in Hawaii between this time and the reassembling of Congress and the enactment of proper laws.

"I am by no means inclined to take a hopeless view of the situation," said Mr. Hitt. "It is true that embarrassments will arise. For instance, a strict construction of the existing law, or rather absence of law, would permit criminals to go free because of the conflict between the United States laws and local regulations. But it is not to be considered that any such construction will be placed upon the case. The courts will see to it that public order is conserved."

"Another great source of difficulty will be in the determination of admiralty questions. As a matter of fact, they will not be determined, but the people will have to worry along as best they can. As for customs questions, I think the President will have sufficient power, in the absence of specific legislation, to settle them."

"I believe that when the next Congress convenes it will be possible to secure consideration for the Hawaiian bill and to enact a comprehensive law for the islands. In the meantime, the ability and integrity of the men in charge of the government will be a sufficient safeguard for the interests of the people."

The Orphan.

The usual Wednesday night change of program will take place this evening. A laughable one-act comedy—the creation of Mr. Post—entitled "Blue Glass Remedy" will be produced for the first time. The entire force of the company will appear in new specialties—also Martin's dog circus in novel tricks. Friday will be amateur evening. Saturday afternoon a children's grand matinee will take place to which admission to all parts of the house will be 25 cents.

Mr. Kunst to Leave Soon.

Mr. Kunst, the new owner of Robert Louis Stevenson's place in Samoa, will return to Europe shortly. He will remain there until the fall, returning to Honolulu in October or November. From here he will go to his Samoan home.

H. von Holt, wife and family, have returned from Kauai.

THE JUDD BLOCK COMPLETED

Is a Splendid Addition to Business Architecture of Honolulu.

Was to Be Handed Over by Contractor Today—Some Leading Features—Partial List of Tenants.

By far the most imposing business block ever erected in Honolulu is handed over to its owners by the contractor, Fred. Harrison, today. This is the Judd Building. It stands at Fort and Merchant streets, upon a site formerly owned by Chief Justice Judd. When Mr. Judd decided to have the former buildings there, including one that was comparatively new, replaced with an edifice becoming the locality, he entrusted the enterprise to a limited liability corporation bearing his name.

It is the first building four stories high to have been erected in Honolulu. Its material of Roman brick, with stone portals and terra cotta trimmings, is a novelty and pleasing withal in effect. Solidity and symmetry, besides the added strength of reinforcing steel girders, are characteristics of the building. Massive pillars of polished gray granite supporting a stone archway for the main entrance impart dignity to the facade. The interior is elegantly finished in calcined plaster with paneled wainscoting of Oregon pine. There is sanitary plumbing on every floor. Door and window fittings of yellow metal lend richness to the general effect.

Three concerns will occupy the entire lower floor, and there are ten large office apartments each on the second and third floors, and nine on the fourth. The Bank of Hawaii has the corner apartments on the ground. Gear, Lansing & Co. enter into the adjoining suite on Fort street. The Hawaiian Investment Company takes the remaining rooms on Merchant street. A spacious vestibule tiled with marble and a wide hallway communicate between the main entrance on Fort street and the elevator and stairways. The elevator is of Chicago make and the latest pattern, fitted with automatic stops that preclude all danger in case of a break. It has a capacity of 2500 pounds, but, owing to deficiency in size of electric conductors from the Hawaiian Electric Co.'s works, cannot as yet take quite its full load.

There are wide hallways on the floors above the first, and some of the rooms are capable of being divided into two. Every floor has a roomy lavatory with the most approved sanitary appliances. Another great convenience is a metallic mail chute opening from all the floors, with a large lock box in the main hallway on the ground floor.

The building will soon be a teeming hive of business.

The building has taken eight months to the day in construction, excepting the foundation. O. G. Traphagen is the architect.

Geo. R. Carter, agent of the building, did not have the list of tenants ready to give out this afternoon. He named the following allotment, however, from memory:

Second floor—E. A. Mott-Smith, W. O. Smith and Geo. D. Gear, law offices all.

Third floor—Kinney, Ballou & McClanahan and Parke & Cathcart, law offices both.

Fourth floor—Union Feed Co. and Alexander & Baldwin.

On Monday from 2 to 4 p. m. the building will be thrown open for public inspection. Ladies especially are invited.

Lieut. Opunui of the police court was a close watcher of the Kinau before her departure yesterday. He had papers to serve on a man who had booked to leave but who had changed his mind.

THE MAUNALEI PLANTATION

Stock in New Project is Already at a Premium.

Manager Soon to Be Named and Work Begun—Allotment of Stock—Ten Percent Assessment Paid Promptly.

Now that the Government has accepted the articles of incorporation, the Maunalei Plantation Company may be said to be in full swing.

Notices of allotment of stock were sent out last evening and today the first ten percent assessment is being paid at the office of Gear, Lansing & Co. agents for the plantation. The capital stock is \$1,000,000 with the privilege of increasing to \$3,000,000. Par value of shares \$100. All subscribers are required to pay the first ten percent assessment today in order to hold their allotment of shares.

The Maunalei proposition is considered by conservative business men as one of the best on the market. Applications for stock ran far above the capitalization of the company and in order to give the investors equal recognition the promoters allotted the shares according to the amount applied for, hence the fortunate ones received only about forty percent of the number applied for.

Work on the plantation will begin immediately. In a day or two the new manager will be named who will proceed to place one thousand acres of cane under cultivation.

The incorporators of the company are T. F. Lansing, W. M. Minton, C. B. Gray, George D. Gear, A. V. Gear and W. R. Sims.

The officers elected are: T. F. Lansing, President; W. M. Minton, Vice President; C. B. Gray, Secretary; A. V. Gear, Treasurer; W. R. Sims, Auditor. These constitute the board of directors.

Another Steamer.

Henry Waterhouse & Co., agents of the British-American Line, have received a telegram from Frank Waterhouse, President of the company, stating that "another steamer" will be due at Honolulu about the first of April. The name of the steamer is not given.

Kipling's Daughter Dead.

New York, March 6.—Josephine Kipling, the six-year-old daughter of Rudyard Kipling, and the oldest of his three children, died shortly after 6 o'clock this morning from pneumonia. The child's death took place at the home of Mrs. Julie de Forest in this city. Mrs. de Forest is a friend of the Kiplings, and Josephine had been taken to her home so that she could be nursed apart from her father. The girl became ill the day after Mr. Kipling took to his bed.

Mr. Kinney's law partners have no word from him this mail.

Cricket Club Theatricals.

At Judge Stanley's house last night the sub-committee reported to the general entertainment committee of the Honolulu Cricket Club. They submitted a proposal for an evening of music and drama at the Hawaiian Opera House the week after Easter. A curtain raiser, a couple of songs and a comedy, with music by the Amateur orchestra, was the program. A. St. Mackintosh, Wray Taylor and W. Horace Wright are the sub-committee. Final action on their report will be taken Saturday evening.

Well Earned Promotion.

E. E. Olding, who came to the Islands a few years ago to be luna for his uncle, James Renton, is now manager of the Kohala Sugar Co. MR. CAMPBELL'S HOTEL

Work on the St. James at San Jose
to Begin.

Will Make Many Improvements — New Fire
Proof Structure — Remarks on Condi-
tions in Hawaii.

The San Jose Herald of March 4 says: Mr. James Campbell, who recently purchased the St. James hotel property, returned from Honolulu yesterday. To a Herald representative he said: "I am here for the purpose of carrying out my plans of replacing this old wooden building with a modern fire-proof structure. Some people thought it was only talk so far as putting up this building was concerned, but I meant business from the first and shall crowd it right through until completed. Just as soon as one can consider the estimates submitted and arrange for the main entrance around on St. John street in the annex, we will commence tearing down this wooden structure and will crowd the work right through so as to have the new building completed within the next five months. I shall remain here and look after it, but business compels me to return to Honolulu at the end of that time. It was not my intention to come back to San Jose until April; the Managers here wrote me that the weather was so favorable that I decided to come a month earlier. Yes, I am highly pleased with San Jose and the country that backs it up and I shall not spare any expense in making the St. James a first class hotel in every particular and seeing that it is mentioned as such."

He says that so far as possible he will employ San Jose laborers on the building, preferring to keep the money at home.

When asked if annexation had made any difference in Hawaiian affairs, Mr. Campbell replied that it had not. He says there has been quite a land boom in Honolulu, and owing to big dividends being declared, there has been a flurry in sugar stock, but while times are quite lively there is no opportunity for outside people. To those thinking of going to Hawaii seeking employment or business opportunities, his advice is "stay away."

Allowed Sugar Bounty.

Washington, March 6.—Justice Brown of the United States Supreme Court today handed down the opinion of the court in a case involving the question as to whether the producer of sugar cane or the manufacturer of sugar is entitled to the bounty paid by the Government. The case was that of Mrs. Bettie Allen vs. Ogden Smith, Mrs. Allen being the widow of the late Richard F. Allen, a large sugar planter of Louisiana. The Louisiana Supreme Court allowed Mrs. Allen only half of the bounty allowed, the total sum being \$11,567, but today's decision reversed this decision, gives her the full sum, on the ground that she was the actual manufacturer of the sugar and that the manufacturer and not the cane grower is entitled to the Government bounty. Justice Brown remarked that the cane grower would necessarily receive his share of the bounty through the enhanced price of cane caused by the allowance of a bounty.

To Carry Herschel's Remains.

Washington, March 4.—Sir Julian Pauncefote, the British Ambassador, called on Secretary of the Navy Long today and on behalf of his Government expressed thanks for the tender of the Brooklyn to bear Lord Herschel's remains back to England, but explained that the British Government had ordered a vessel, probably the cruiser Talbot from its North Atlantic squadron at Bermuda for this mission. Final plans for taking the remains homeward will depend on a definite official notification to the Embassy of the dispatch of the cruiser.

Havana Police in Charge.

Havana, March 7.—The police took complete charge of the First precinct last night and the military guard was withdrawn.

GERMAN IDEAS OF SAMOA

Berlin, March 4.—The United States Ambassador, Mr. Andrew D. White, tells the correspondent here of the Associated Press that "for some time past there has been tendency on the part of the German government to be very conciliatory towards American commerce. As shown in the attitude allowed American insurance companies and in the meats inspection bill."

The press devotes much space this week to the Samoan question. The mails have brought numbers of letters from Germans at Apia and the leading papers in many cases describe the occurrences differently from the English and American newspapers, putting the blame upon the English speaking officials. The comments of the papers also differ, but all agree that the tripartite government is a failure and the idea of the partition of the islands is much ventilated.

The organs of the colonial party oppose the suggestion energetically, as it would put an end to German annexation of the group. A writer in the Colonial Zeitung, the leading organ of the party, attempts to show that the partition of the islands, even if peaceful, would inevitably lead to a much worse situation.

The correspondent of the Associated Press hears on good authority that the negotiations thus far tacitly assume that an entire change in the personnel at Apia of the representatives of the three powers will be the basis of understanding to be arrived at and that this will include the recall of the American chief justice, Chambers; United States Consul Osborne; British Consul Maxse, Dr. Raffel, the German president of the Municipal Council, and Herr Rose, the German Consul. It is understood that their removal is necessary in order to re-establish peace and order in the administration of the islands. The German officials do not attempt to deny this, though they add, it has long been intended to relieve them at their own request.

Some of the German newspapers contend that a surrender in this matter without similar concessions on the other side will mean a grave loss of German prestige.

SQUALLS PREDICTED.

The Pilot Chart of the North Pacific for March says:

"During this month frequent gales may be expected in that part of the ocean in the vicinity of the Juan de Fuca straits and east coast of Japan, and frequent squalls may be expected in the vicinity of the Hawaiian Islands."

The Chart contains a table of time signals established in various parts of the Pacific Ocean. The whistles blown at Honolulu at noon and 1:30 p. m., to indicate Greenwich mean time of 10:30 and 12 hours respectively, are given with the remark that the second signal is reported to be the more accurate for rating chronometers approximately. A caution is also uttered to make allowance for the interval necessary for the sound to traverse the space between the signal and the observer. The velocity of sound in air at 32 deg. Fahrenheit is 1090 feet per second, increasing at the rate of 1.15 per second for each degree above the freezing point.

Police Court Notes.

The only case in the Police Court Tuesday morning was that of Ah Ke, charged with unlawful possession of opium. The defendant failed to appear yesterday but, upon proper representations being made to Judge Wilcox this morning, bail was forfeited. Defendant pleaded guilty and was fined \$60 and costs. As this case was not properly on today's calendar the sheet was really clean and Deputy Marshal Hitchcock presented Judge Wilcox with a pair of white gloves.

"I can say one thing for Chamberlain's Colic, Cholera and Diarrhoea Remedy; and that is that it excels any proprietary medicine I have seen on the market, and I have been in the practice of medicine and the drug business for the past forty years," writes J. M. Jackson, M. D., Bronson, Fla. Physicians like Chamberlain's Colic, Cholera and Diarrhoea Remedy because it is a scientific preparation, and because it always gives quick relief. WEDNESDAY, MAR. 15, 1899.

Secretary Alger is soon to visit the Pacific Coast. There's no reason why he should not extend his trip to Hawaii even if the President can't.

Admiral Dewey says that he may never reach home alive. This will never do. Half the people of the United States are hanging onto life just to see Dewey when he comes home.

First it was mud and now it is the heat that worried the boys in blue in the Philippines. They can say with the late Hamilton Fish of the Rough Riders that "war is no picnic."

And the business community rests easy at — percent. Whatever the percent may be today it will be higher tomorrow. Premiums are traveling by leaps and bounds. And why shouldn't they?

Now it's an election we have on hand. As members of the present legislature hold their commissions from President McKinley, can the people elect their successors without the sanction of the President?

"Another steamer" says the British American line, "More steamers" say the Pacific Mail and Oceanic lines. And still they come. Hawaii gets better service, more money and business forges ahead on sound progressive lines.

California legislators are said to be eager to break the Senatorial deadlock. The same was true two months ago, but no one seems sufficiently eager to change his vote and settle the thing. Members of the legislature are something after the order of the old Tweed ring—standing in a circle and accusing the other fellow.

PRESUMPTION—AN ADMISSION.

The official organ this morning announces that Minister Damon is "presumed" to have "given out the secrets of the Cabinet meeting." Whether this presumption is correct or not we do not know, but the Advertiser by this presumption admits the truth of statements which it has previously sought to deny. Conspiracy or no conspiracy an attack was made upon Minister King's position in the Interior Department and Mr. Dole lent practical assistance to this attack until brought to time by one of his Cabinet Ministers. Mr. Dole evidently did not recognize the superiority of President McKinley's appointive power until all possibility of securing the change under the Hawaiian constitution was blocked by the firm stand of Minister Damon. Whether Mr. Dole had any direct grievance against Mr. King or not we do not know, but by listening to Mr. King's opponents, by allowing the suggestion of a change that was not entirely voluntary on Mr. King's part, Mr. Dole showed himself weak when even the dignity of his office should have made him strong, hesitating when he should have been positive, practically intriguing when his personal respect for an officer of his own appointment should have made him open and above board toward Mr. King in dealing with all criticism of him and his department.

Mr. Dole thrust Minister Damon, one of his appointees, into the position of taking the positive straightforward stand that the people have reason to expect from the chief executive. Mr. Damon has not suffered in the esteem of

the people for the direct opposition he offered, far from it, but it was not Mr. Dole's fault that he did not. It remained for Mr. Damon to exhibit that assertive stability of character and decisive action which mark the capable chief executive. That a Minister of the Cabinet should be forced into such a position is a complete demonstration of Mr. Dole's lack of executive capacity. It was palpable weakness on Mr. Dole's part from the results of which he cannot escape when seeking further emoluments of office before the superior appointive power which for the first time since the Newlands resolution was passed the official organ has by force of circumstances come to recognize. And this recognition has come only when it became necessary to hatch up an excuse to cover the executive's incapacity and defeat.

ITALY'S HAND IN CHINA

Rome, March 8.—The Italian Government is fully determined to obtain an apology from China for the Tsung-li Yamen's refusal of the demand of Signor Martino, Italian Minister at Peking, of a concession at San Mun bay, province of Che Kiaog, to be used as a naval base and a coaling station. A squadron of five cruisers, with 100 guns and 1500 men, will soon arrive at San Mun bay.

Explosion at Toulon.

Toulon, March 5.—The naval magazine of La Gouburra, between Lavezze and Toulon, in the department of Var, Southern France, exploded at 2:30 this morning. All of the soldiers on duty at the magazine were killed and a number of inhabitants of the district buildings, which were razed, also fell victims. Forty corpses have already been recovered. The cause of the explosion is not known.

The Hawaii Railway.

This morning's sitting of the Executive Council was entirely taken up with consideration of the Hawaii railway matter. Mr. Thurston representing the promoters was closeted with the President and Cabinet for two or three hours. No decisions have transpired, but the business is to be further considered.

Panama a New Jersey Corporation.

Trenton, N. J., March 7.—Among a large number of companies incorporated here yesterday, California contributes the new Panama, Hawaii Sugar Company, with \$5,000,000 capital, and the \$1,000,000 Santa Fe Terminal Company. A. H. Payson of San Mateo is trustee for 9995 of its 10,000 shares.

About Major Coffin.

Major Coffin, paymaster aboard the Valencia who has \$1,250,000 in coin in his charge, joined the Army many years ago as a private in the Twenty-third Ohio regiment. President McKinley was then captain of his company. The Major was through the Cuban campaign and expects to remain in Manila for some time.

The Dreyfus Revision.

Paris, March 6.—The United Courts of Cassation met today under the presidency of M. Mazeau and appointed M. Baillet de Lapeyre, who succeeded M. Quesnay de Beaupre as president of the civil division of the court, to report upon the application for a revision of the Dreyfus trial.

Davis vs. McTighe.

Attorney Geo. Davis and Tom McTighe got into a little altercation over a money matter this morning which ended in the summoning to the police station the latter for promising to break Mr. Davis' neck. The case will come up in the Police Court tomorrow morning.

The Pali Road.

For a whole week, the stage has been unable to go over the Pali road on account of the very bad condition of the lower part, caused by the recent heavy rains. The mails have to be taken over on horseback and people traveling back and forth have had to do the same, as they did before the new road was built.

The walls of the C. Brewer & Co. block are rising.

Another Attempt to Destroy.

Paris, March 8.—Dispatches which reached here from Toulon today confirm the report received from there last night and cabled to the Associated Press that twelve dynamite cartridges were found behind the Toulon Arsenal yesterday and that an unidentified person fired a revolver at a sentry on duty at the arsenal. It appears that two shots were fired at the sentry before the Montelay Magazine at 7 o'clock last night. The guards were turned out and patrols were sent to scour the neighborhood, but the culprits were not discovered. The sentry says he saw six men running away. The magazine contains quantities of powder, melinite and dynamite.

Mr. Shaban May Stay.

D. H. Shaban, formerly of the printing department of the Hawaiian Gazette Co., who came with five other printers in the Valencia Monday, may remain in Honolulu. Mr. Shaban says that this little place is good enough for him. Certainly, his many friends in the city will be glad to have him with them again. Mr. Shaban states that he and the other printers in the Valencia are not in the employ of the Government, but that their intention was to go to Manila for the purpose of assisting the man who has the Government contract there.

Advance in Refined Sugar.

New York, March 6.—An all-round advance in the price of refined sugars was made today by the American Sugar Refining Company, Arbuckle Bros. and Howell, Son & Co., the last named firm representing the independent refiners. The advance is 18 cent a pound, bringing barrel sugar up to 5 1/8 cents and pack sugar to 5 1/4 cents. The Moltenhauer refinery, one of the independent concerns, resumed operations today.

Kipling Still Improving.

New York, March 8.—Last night in Rudyard Kipling's apartments in the Grenville was the quietest since the author was taken ill. Only the nurse was astir. The patient rested comfortably all night, his sleep being natural, as he has been for several days. Elsie Kipling, the 3-year-old invalid, also had a comfortable night, and is improving steadily.

Notice to Wheelmen.

The manufacturers of the Sterling wheel are the originators of the so-called target spokes. In this method of construction, the stress comes in a direct line from end to end of the spokes, and the entire spoke is in tension. Bending the spoke at right angles at the end stretches its fibres on one side of the bend and compresses those on the other. Initial strains are thereby induced and the spokes greatly weakened. Each spoke used in the Sterling wheel is guaranteed tensile strength, in front wheel 750 pounds, and in the rear, 850 pounds, all the stress coming on the head, they are practically indestructible. You buy a Sterling; it pleases you. Will you not buy another when you need it? Why of course, you will. And when your friend thinks of buying a wheel he asks you which is the best to buy, your Sterling has given you complete satisfaction, and you naturally will tell him so. See the new 99 model at the store of the Pacific Cycle & Mfg. Co. Price \$60.00 for Ladies and Gent's high grade Roadster.

NICARAGUA CANAL AFFAIRS

President and Cabinet Discuss Ways
and Means.

To Carry Out the Will of Congress — Task
Set is a Big One — Walker
Commission.

Washington, March 7.—The
President brought to the attention
of the Cabinet today the provision
of the river and harbor act relative
to the construction of an
isthmian canal. The purpose was
to decide upon the measures to be
adopted to carry out the decision
of Congress to make a thorough
examination of the various routes,
Nicaraguan and Panama, and re-
port the result to the next session
of Congress.

It was realized that the task set
was well nigh impossible of com-
pliance on account of the enor-
mous amount of work involved in
a thorough examination of even
one route, as was shown by the
fact that the Walker Commission,
under the Admiral's energetic
direction, was not able to present
more than a mere outline of the
survey made last summer of the
Nicaragua route. No decision
was reached today as to the de-
tails, but it is believed that the
President will have recourse to
the plan of appointing one or two
additional members to the Walker
Commission and extending the
functions of that body to cover
the whole field, in Colombia as
well as in Nicaragua and Costa
Rica.

AUSTRALIA MAIL SERVICE.

The S. F. Post of March 7 says:
The new regulations providing
for the transfer of mails at Hon-
olulu from vessels from this
port to the ships calling at the
islands from Vancouver en route
to Australia will be of special
benefit to merchants and others
in this city.

An instance of considerable
time saved will be demonstrated
this week. The Alameda, from
Australia, is due to arrive to-
morrow, and the Gaelic sails for
the Orient via Honolulu on
Thursday. The Australia's mail
for this city will be delivered
during tomorrow, and recipients
can answer their letters and send
replies on the Gaelic, which sails
on Thursday afternoon at 1
o'clock.

The Gaelic is due at Honolulu
on the 16th, and the Miowera
from Vancouver for Australia,
will arrive at Honolulu on the
17th. The mail for Australia
going from here on the Gaelic
will be transferred to the Miowera
at Honolulu and reach Australia
early in April.

Under the old system, the next
outgoing mail to Australia would
not leave until the Alameda sails
on March 22.

The transfer at Honolulu will
thus save thirteen days in delivery
in Australia of reply to letters in
the mail reaching here tomorrow.

New Treaty With England.

Washington, March 3.—The
Senate Committee on Foreign Re-
lations today agreed to report
favorably a treaty between Great
Britain and the United States,
sent to the Senate yesterday by
the President. The treaty regulates
the descent of this country who die in
Great Britain and of British citi-
zens who die in the United States.
It provides that property in such
cases shall be disposed of as if the
person deceased should die in his
own country, and gives adminis-
trators, executors, etc., three years
in which to settle estates.

Kipling to be Made a Lord.

New York, March 7.—Rudyard
Kipling, it is reported, will be ele-
vated to the peerage on January
1, 1900. Dr. Neal McPhatter of
Edinburgh, Scotland, who is stay-
ing at the Windsor Hotel, says he
has received the news from Sir
Walter Besant. He adds that the
report is common gossip in the lit-
erary circles of London.

Big Earthquake In Japan.

Yokohama, March 7.—A severe
earthquake shock was experienced
at 10 o'clock this morning, the
disturbance visiting localities of
the great shock of 1891, with some
loss of life and property.

IN HIGHER COURTS.

Judge Perry has ordered the
approval of accounts and discharge
of E. A. Mott-Smith, administrat-
or of the estate of John H. Paty,
deceased.

Kiba, now of Kalawao, Molokai,
has by his attorney, J. M. Kanea-
kua, filed a claim to a part of the
estate of Kepola, late of Aala, Ho-
nolulu, he being grand nephew of
decedent.

A stipulation for hearing on de-
murrer, to take place on March
23, in S. Ahi vs. James Ashford
and A. V. Marcial, has been signed
by J. Mahiai Kaneakua for plain-
tiff and Cecil Brown for de-
fendant, Marcial. It is a bill to de-
liver deed and to cancel and de-
clare a certain deed void.

S. K. Kana for plaintiff and J.
Mahiai Kaneakua for defendant
have filed a stipulation for hear-
ing, to take place on March 28, of
bill for account and cancellation
of mortgage of Keahemakani Na-
holowaa vs. E. H. F. Wolter.

Lilia Pikiol Kamakaka and J.
Alfred Magoon have made answer
to the bill to reform deed brought
against them by Samuel K. Ka-
makaka. The trust deed is ad-
mitted, but Kamakaka denies that
she intended by it to convey any
of her property. Defendant Ma-
goon accepted the trust, and under
it has advanced more than \$1000
to the other defendant.

O. St. John Gilbert, assignee of
Tom Chung Kee, bankrupt, has
filed a bond in \$1800 with J. A.
Gilman surety.

ALGER COMING WEST.

Will Inspect Various Military Departments of the Coast.

Washington, March 6.—Secretary of War Alger is contemplating an early visit to the Pacific Coast for the purpose of inspecting all the Army posts and various works which are being carried on under his administration. This determination was made known today to Senator Perkins and Congressman Metcalf when they called upon him, the former to see about prospective appointments under the army reorganization bill and the latter to be presented to the head of the department. Secretary Alger will start next month and will make San Francisco his objective point, but he will visit all parts of the West and Northwest.

Secretary Alger will be accompanied, according to his present purpose, by several of his staff officers and he will thoroughly look into the various new structures and the transport system of the Pacific.

With the promise of the visit of the Secretary of War the Californians went to the Navy Department and almost succeeded in securing a similar promise from Secretary Long. He was impressed with the vast importance of the Coast naval establishment and the scope of new work was set forth in such terms as may in the future take the head of the department to the Coast.

ALGER IS STUBBORN.

Insists That He Shall Not Resign from the Cabinet.

New York, March 5.—A Washington special to the Herald says: Secretary Alger again denied to-night that he would soon tender his resignation and that General Anson G. McCook was to succeed him. Notwithstanding these denials strong influences are still at work in the Republican party to force him from the Cabinet and influential party leaders are agreed that he must soon go.

Senator Hayward of Nebraska.

Lincoln, Neb., March 8.—In joint session today M. L. Hayward was elected United States Senator, to succeed W. V. Allen. He received seventy-four votes, the solid Republican membership except that one legislator was absent on account of sickness. Allen received fifty-eight votes, the full full strength.
