## SCHOONER HEEIA IS LOST

WRECKED ON PUNALUU REEF LAST NIGHT.

Captain Martin and Crew Escape—Owned by J. I. Dowsett and Insured for \$1500—Particulars Meager.

The little schooner Heeia went on shore on the reef at Punaluu late yesterday afternoon, and it is reported to be a complete wreck. Captain Martin and the native crew escaped by swimming ashore after the vessel had struck. Charles Phillips, the local agent, was notified last night by telephone, but has only been able to secure meagre particulars. It was ascertained this morning that the little schooner thumped on the reef all night and is badly broken up.

The Heeia is owned by James I. Dowsett, and was built at Poloa about ten years ago at a cost of \$4500. She was a staunch craft of about 30 tons, and a fast sailer. She has been running between Honolulu and windward ports for some time, and was doubtless caught in the recent heavy gales. From the information at hand, she was blown upon the reef, and struck with such force that she commenced breaking at once. Finding that he could do nothing to save her, Captain Martin directed his men to look out for themselves. All reached the land in safety.

Mr. Dowsett said this morning that he had only heard of the loss of the Heeia, but had as yet received no reports from his agents. The schooner was insured for \$1500. Mr. Dowsett lost the sloop Live Yankee on the same reef many years ago. He has lost about a score of schooners and steamers in the Island trade, he says, and by a strange coincidence all in the month of January. He says that the Heeia has been a good money maker, so that he has no complaint to make.

Two of the Dowsett line schooners are now in port, waiting until the weather becomes more settled before putting to sea.

#### A PLAY FOR SOCIETY.

Mrs. Russell D. Walbridge is busy arranging a society play to be presented under the auspices of the Kilo-hana Art League about the middle of next month. Those who will take part in the play are Mrs. E. D. Tenney, Miss Adele Widdifield, Miss Edna Kelley, Maj. George W. Potter, Andrew Adams, Robert W. Atkinson, Robert W. Shingle and Alex. St. Martin Mackintosh. There are one of two others in the cast.

#### KICKED BY HIS COLT.

J. O. Carter, Jr., receiving teller of Bishop & Co., had a close call Sunday. He was attending to his colt in the paddock, when the animal reared up and struck at Carter with its fore feet. One hoof struck him in the face and the other in the shoulder. Fortunately, for Carter, he was not badly hurt.

#### BRIGHAM WILL LEAVE.

William T. Brigham, formerly curator of the Bishop Museum, is preparing to leave for the States where he will remain permanently. Mr. Brigham expects to get away in about five weeks.

#### WILL PILE ON MUSCLE.

Secretary Coleman of the Young Men's Christian Association has issued a new regulation for the gymnasium classes. The business men will have the gymnasium from 5 to 6 o'clock on Mondays and Thursdays; Juniors, Mondays and Thursdays at 7:30; Seniors, Tuesday evenings, at 7:30; basket ball, Friday evenings at 7:30; and special work on Thursday evenings, at 7:30 o'clock.

#### SCHUMAN'S WAREHOUSES.

Call at Schuman's warehouses, No. 529 and 532, Fort street, next door above the Club stables, and inspect his large stock of wagons and harness. By reason of favorable connections with eastern factories he is able to sell and import to order at low prices. Go and select what you want or have it imported to order.

#### ICE HOUSE GOODS.

At the California Fruit Market—Campanino's—can be found at all times the choicest fruits and all kinds of poultry and game. Fresh goods received on every steamer. **P. G. CAMARINOS,** Corner of King and Alakea Sts.

#### Fine Repair Work.

When your Bicycle, Gun, Typewriter or any article of fine mechanism needs repairing and you wish a job which is certain to prove satisfactory, bring it to us and we will fix it for you and guarantee it fully.

We take pride in turning out only the very best of work and will call for and deliver it to any part of the city.

## ALL ABOUT OUR MARSKMEN

HOW THE NEW TARGET HELPS IN PRACTICAL SHOOTING.

The Silhouette Target Explained—Silhouettes at 200 Yards, at 500 Yards, at 800 Yards and at 1000 Yards.

The magnificent shooting of Honolulu's marksmen must be in part attributed to the new style of target, used for the first time here during the past few months. For many years the military target in this country consisted of a bull's eye with circular rings. This is known as the oval target.

Not long ago a radical change was made by the adoption of the silhouette target. The theory of this target is that the soldier should be trained to shoot at a mark such as the enemy would present. The skirmish or figure target in the 200 yard target, is therefore the silhouette in black, on a white ground, of a soldier lying down, "head on." In the 500 yard target the figure is kneeling; in the 800 yard tar-

A Score of 50, Made by Dr. A. C. Wall, of the Sharpshooters.

get the figure is standing; and the 1000 yard figure is that of a soldier on horseback. The tendency of all the troops being to shoot high, an endeavor is made in the new target to overcome this tendency by placing the figure at the bottom instead of in the center.

Accurate holding at 200 yards is surest of counting, and while the new and larger score, the records at the Kakaako range are none the less remarkable. There is much criticism of the new target among military men, especially of the too large figure in the short range target, and of the chance of close shots at the longer ranges counting less than wider shots which happen to hit an arm or leg. The advocates of the target, on the other hand, contend that it is thoroughly practical, since a shot missing a man's trunk by half an inch is harmless, and should therefore count less than one which strikes his elbow or foot, disabling him from combat.

Sergeant Elvin of the Kakaako rifle range, says that the new target is patronized more by the poorer marksmen, the crack shots much preferring the old military target. Dr. A. C. Wall and G. H. Berry of the Sharpshooters and Lieutenant Gus Rose of Company G, have made official scores of possible fifties. Charles Everett of the Citizens' Guard, in the presence of a number of shooters put seventeen bullets consecutively into the head at 200 yards' distance. Clarence Crabbe also of the Citizens' Guard, was at the range on Sunday, and according to Sergeant Elvin made fifty bull's eyes on the new target. It was an on day for Clarence. The light was good and there was not wind enough to cause any annoyance.

The scores made by the Citizens' Guard companies on the other Islands are coming in. Mr. Batchelder will have the complete list next week. Marshal Brown is awarding prize bars, and in addition will give a special gold bar to the best shot.

The Main scores are in. H. C. Orenden made 425 out of a possible 500, and N. Omssted 408, entitling both to gold bars. G. Hansen made 395 and gets a silver bar and William Hannis' score brings a bronze bar. They are all of Hana.

Thomas Cummings comes from Lahaina with a score of 404; George Cummings, 394; A. N. Hayselden, 394; G. W. Hayselden, 369, and H. Dickson, 368.

J. L. Torbett with a score of 406 and Robert W. Atkinson with one point less are the experts of the Mounted Reserve, and have been presented with gold bars. H. F. Gibbs with 391 and W. F. Dillingham with 290 score silver bars and C. B. Wells scored 364 points and gets a bronze trophy.

The sharpshooters will have a friendly match for a dinner on Saturday.

The Marlin trophy shoot among the military companies will open on February 3.

Mr. Elisha Berry of this place says he never had anything do him so much good and give such quick relief from rheumatism as Chamberlain's Pain Balm. He was bothered greatly with shooting pains from hip to knee until he used this liniment, which afforded prompt relief. R. F. Baker, druggist, St. Paris, Ohio. For sale by all druggists and dealers. Benson, Smith & Co., wholesale agents for the Hawaiian Islands.

## STRONG FOR ANNEXATION

THE ANOMALOUS POSITION OF A "PROTECTING" POWER.

Islands Might be Flooded With Anti-American Influences and the United States Could Not Interfere.

The following letter in response to a Washington correspondent shows views upon the annexation question which will be appreciated by every patriotic American. The writer, well versed in affairs here and in Washington, says:

"The Mugwump 'hermit nation' doctrine preached by Carl Schurz and Godkin, is the policy of cowardice, the 'craven fear of being great,' as John R. Proctor calls it. Underlying their Mugwumpery is a disbelief in Republicanism, a contempt and distrust of the American people.

"Carl Schurz says that they cannot govern colonies. Why, Uncle Sam has 'ruled' thirty-two colonies and graduated them as States.

"For five years the small minority of Americans here has given the world an example of clean, honest, economical and efficient government, better than that of any British crown colony. What we have done as an independent republic, we can continue to do under the aegis of the Stars and Stripes. Americans are noted for their administrative ability, and we can afford to smile at Mr. Bryce's patronizing, condescending admonitions to us in the Forum of this month.

"It is true that we of Hawaii have had difficult problems to solve, but our leaders have faced them like men, and are solving them successfully. We ask no help from Carl Schurz. He is terribly exercised over our population question, and seems to take for granted that the proportions of the last census are fixed and unchangeable, as if the Starry Flag would draw no increase of American settlers to this 'Paradise of the Pacific, and as if it would have no effect in checking Asiatic immigration. Both he and Bryce proceed on the utterly false assumption that white men cannot labor in this climate! The contract labor system will cease with annexation to the United States. Even if it were true (which it is not), that it is not forbidden by the constitution of the United States, it will never be sanctioned by an Act of Congress. If our sugar planters and coffee growers are willing to pay higher wages to free laborers or to try co-operation (as is being done in some places), for the sake of a stable government and security from invasion, it is their risk and not that of the United States.

"The opponents of annexation do not condescend to explain what fate they would consign us to, but it is certain that their policy would leave this country open to Asiatic colonization, and liable to become the football of the powers of the Old World.

"I see that Senator Hoar has been talking protectorate, which I am surprised at, for such an arrangement would be quite unsatisfactory to both parties. It would impose upon the United States the responsibilities and risks of ownership without the corresponding power of control. Our controversy with Japan shows how under a protectorate 'Hawaii would still remain an incubator of international friction.' If the United States retain only Pearl Harbor that will pre-suppose and require the existence of a navy in the Pacific.

"A protectorate cannot be brought about except by a treaty, which shall define the obligations to be assumed by the United States, and the extent of their right to intervene in Hawaiian affairs. It takes two to make a bargain. It may be proposed that the control of our foreign relations be ceded to the United States, placing this country in the situation of Tunis or of the Transvaal Republic, as it was under a former treaty. That would be an anomalous semi-annexation. We would not be American citizens, nor yet citizens of a free independent republic. The United States constitution does not contemplate such vassal foreign states.

"Meanwhile the United States would be powerless to prevent internal changes, which might be in the highest degree detrimental to American interests. A combination of factions might put a British dynasty in power, or if the pending arbitration between Japan and Hawaii goes against us, Japan might flood the Islands with her subjects and accomplish a peaceful conquest; but these would be internal, domestic changes, with which the United States would have no right as a foreign power to interfere. The only logical, consistent course open to our country are therefore these two: either to annex the Islands as a part of the Union, or to abandon them to any fate that may befall them.

"The idea that the United States is under any obligation to the American colony which has settled here under the encouragement of the mother country, and has made this country what it is, I suppose will be regarded as mere sentiment, and it may be said that they deserve to be abandoned to its fate. 'Blood' in the view of some people, is not 'thicker than water.' Nor do they (Godkin & Co.) care whether Eastern or Western civilization gains control of this key of the Pacific."

## SEEKING THEIR FORTUNES

THE OSTROM BOYS ARRIVE FROM KOHALA.

Are Headed for the Klondike—Are Being Sent Out by a Company of Kohala Citizens.

G. T. and A. C. Ostrom, sturdy young lads, arrived in the city today by the Kinuu, from Kohala, Hawaii. They will leave for the coast by the first steamer, and will then outfit for the Klondike.

These lads go to the front with the backing of a strong company of Kohala people, who will foot their expenses and share their diggings should they be fortunate. The boys start out on their mission provided with ample funds, and an unlimited amount of enthusiasm. They hope to be well on their way to the gold fields within another month.

The Queen hotel will shelter the boys during their brief stay in the city. The elder of the two states that both he and his brother are strong and feel confident that they can stand the rigors of the cold climate of Alaska. They anticipate a rough time of it, and are prepared to encounter many hardships.

Papers incorporating the company which the Ostrom boys represent, were filed with the Minister of the Interior today. The name of the company is the Kohala Klondike Mining company and the amount of capital stock is \$50,000. John Hind is the president, Thomas H. Hughes vice president, W. P. McDougall treasurer, A. Lindsay secretary and H. P. King auditor.

#### WANT THEIR LIBERTY.

Six applications for pardons were considered at this morning's session of the Cabinet. The Cabinet decided to call a meeting of the Council of State to consider them. The meeting will probably be held this week.

#### WILL PRACTICE HERE.

Louis Goldstone, a promising young lawyer of San Francisco, will come to Honolulu about February 1st, to locate permanently. He will form a partnership with a prominent young lawyer of Honolulu. Mr. Goldstone has an excellent reputation. He is a personal friend of Paul Neumann and Clinton J. Hutchins of the Equitable Life, now in this city.

#### WRITING THEIR STORIES.

Several of Honolulu's amateur novelists are putting in their evenings now on short Hawaiian legends, which they will enter in the literary prize contest of the Kilo-hana Art League, which closes on February 1. Each story must not exceed 3500 words and must have a distinctly Island flavor. The best story will receive \$25 and the second \$20.

#### STILL HEADS THE RESERVE.

Walter F. Dillingham was chosen as captain of the Mounted Reserve at a meeting late yesterday afternoon. This is his second term. William Wright was re-elected first lieutenant and William Chamberlain second lieutenant. Captain Dillingham will select his sergeants shortly.

#### A SHREWD BUYER.

Will always take advantage of low prices; worsted dress goods are now marked way down; you can buy double width all wool goods for 30 cents a yard, worth 50 to 60 cents, at Sachs'.

#### ADVERTISED FOR A HUSBAND.

A marriage which was brought about by an advertisement in a Chicago matrimonial paper, and which has aroused a great deal of comment among the relatives of the bride and groom, was that of Mrs. Joseph Laurier of Binghamton, N. Y., and Leroy H. Wright of San Francisco. Mrs. Laurier is an ardent admirer of the Remington bicycle and it was through the advertisement of a husband who rode a Remington that she procured her wish. Pacific Cycle and Manufacturing Company have Remingtons for rent.

WHAT SAILOR MEN TALK OF

BIG STORM STILL RAGES OVER THE ISLANDS.

Impossible to Land on Hawaiian Coast—Largest Lumber Cargo for Hilo—The Kinau's Quick Passage.

The Bennington's sailors were on shore this morning drilling under the shed on Brewer's wharf.

Policeman Morton, of the Maui force, has been appointed night man on the boat landing, vice Walley, who is ill.

The brig John D. Spreckels has finished discharging lumber and is now waiting for sugar. She will probably commence taking on her outward cargo next week, and get away late in the week.

The schooner Emma and Louisa, when she sails this afternoon will have the most curious cargo that ever left this port. In addition to rice and all manner of native fruits, she will have curios, sugar cane and 10,000 empty bottles.

The bark Nuanuu took in a few thousand bags of sugar from the Kauai this morning. This afternoon she will be towed out to sea by the steamer Claudine, on her way to Kahului, where she will complete loading for New York.

The Australia will have a fair cargo when she sails tomorrow afternoon and the principal shipments will be 14,000 bags of sugar, 3000 bags of rice, 5000 bunches of bananas, and a lot of hides and pine apples. The passenger list is rather light.

The four masted schooner Lyman D. Foster, Captain Killman, 24 days from the Sound, was towed into Hilo last Saturday night by the steamer Hawaii, with a cargo of 1,100,000 feet of lumber consigned to Mackfeld & Co. This is the largest lumber cargo ever shipped into Hilo.

The little steamer Iva will sail this afternoon for Kaena point and Wailue ports, with all the freight she can carry, and thirty passengers. Captain Townsend boasts of having carried 20 passengers on trip. The passengers must hang on, for there are no cabin accommodations.

Mort Tuft sailed on the Mauna Loa this morning as purser in the place of Mr. Matthews, who has resigned on account of ill health. Will Simerson, the captain's son, goes as freight clerk, and Tom White, the erstwhile freight clerk, will go in the Iwalani, as purser. The promotion of Purser Tuft was deserved.

Captain Cameron says that the bad weather is pretty general all over the globe, according to the latest dispatches. He does not attempt to explain just why it is so. He says he has never seen such heavy seas as were experienced in Hana harbor last trip. Captain Campbell of the Inter Island company says that never in his experience on the Islands has he seen such continued bad weather, with the wind constantly in one quarter. During the recent storms the wind has been from the north and northeast.

The Kinau arrived alongside from Hilo before 11 o'clock this morning, having made the run over from Lahaina in 5 hours 25 minutes. Commodore Beckley reports the heaviest storm in years raging along the Hawaiian coast. The Helene is lying off Paauhau, waiting for smooth water to effect a landing. The Lehua had to put into Hilo on Saturday night for shelter, after trying in vain to effect a landing. The Hawaii could not effect a landing anywhere on the coast and is lying at Hilo awaiting the abatement of the storm. The Kinau experienced one of the roughest trips in her history both ways. She was unable to land anywhere on the coast, except at Hilo. The Kinau brought the following freight: 440 sacks of potatoes, 370 sacks of corn, 186 packages hides, 25 head of cattle, 62 head of hogs, 125 packages of sundries.

ANNEXATION OF HAWAII

NEW YORK INDEPENDENT MEETS TWO OBJECTIONS.

Looked Upon as a Great Question Affecting National Policy and History—Position of Hawaii in Case of War

At the request of one of the prominent annexationists the following article is reproduced from the New York Independent:

The one great question before the United States Senate is that of the approval of the treaty for the annexation of Hawaii. This is a question which has a large outlook: it affects national policy and history.

There are two objections made to annexation; one that the native Hawaiians do not want it; the other that it would be a difficult position to protect in case of war.

Taking the latter first it would not be so difficult to protect as Alaska, and no one now doubts the wisdom of annexing Alaska. At the time it was laughed at as a ridiculous and useless purchase; now every one sees its value.

That has been the case with every annexation by which our country has enlarged its boundaries. Further, if in case of war it would be difficult to protect it, would it not be even still more dangerous and difficult for us to attack it in case of war?

In a war in which our Pacific Coast should be actively engaged, Hawaii would be the point which the enemy would first secure, if it did not already hold it, from which to attack us.

If it would cost us half a dozen cruisers to protect it against an enemy, it would cost us five times as many to capture it from an enemy entrenched behind its forts.

But this assumes the likelihood of war. War is not the chief factor to be considered, but peace. We expect no war; we shall seek no war. The stronger the United States is, the less likely any other power is to declare war upon us.

We are approaching so far as our relations with other governments are concerned, the era of arbitration. It is not true that we shall have to make large expenditures to defend Hawaii, any more than the seeds or gold of Alaska. We are strong enough to do what is best without regard to the likelihood of war, because war is not likely, and less likely the stronger we are.

The other objection made is that the natives of Hawaii do not want annexation, but prefer to be independent. This is the strangest argument of all. Here we have the Hawaiian government, chosen by the people, confessedly the best government they have ever had, chosen by universal suffrage in one house, and by the most generous property, or income, suffrage in the other house, vastly more popular in the manner of its election than the British Parliament, quite as popular as that of Rhode Island or South Carolina, the official voice of the Hawaiian people, the only one which can speak authoritatively for the people, which says that the Hawaiians do want annexation; and we are bound to believe them. "Yes, but the natives," we are told, "are not Dole and Judd and all the rest of them; natives? Are not these 'missionary children' we hear so much abused, natives? Are there no natives but Kanakas? Are there no natives in this country but Indians? Have white people no rights in Dakota, which has been occupied by them but a third as long as white people have been in Hawaii? Are the Sioux the only people who should have been consulted when the two Dakotas asked admission to the Union? We know very well that some, perhaps a majority, of the Kanakas, do not want annexation, and that their pride in a Kanaka dynasty has been successfully appealed to to induce many of them to sign petitions against annexation. But we also know that the bulk of the Hawaiians, native and naturalized, white and brown, desire annexation, and have asked it in the only legitimate way.

But, say the objectors again, what shall we do with it if we take it? Shall we make it a state or govern it as a territory. Of course, this is not a serious question. It is simply to confuse the matter. Hawaii is being governed very decently now, and there is no reason to fear that there is not wit enough among us to continue good self government there under the constitution of the United States. The difficulty is less than in Alaska, for a good government already exists, and it can be continued.

Here is no case of Jingoism. We do not seek Hawaii; Hawaii seeks us. We have for many years expected it to come, and have been ready to take it; but we have not hastened the event, but have rather delayed it. It is our part now to consider seriously the opportunities offered us, and to govern our action by our own interests and those of Hawaii. Every previous annexation has been opposed, but has been to our advantage. All have contributed to the greatness and prosperity of the country. We believe Hawaii would add further strength to us. She is not so far off, not so inaccessible as was California or Alaska when they were annexed. Geographically she belongs to us, and not to Japan or Great Britain. We know that one-third of the Senate can defeat the treaty, but we look to Congress to accomplish what is wise.

HIS HANDS WERE TIED. "Our little boy broke out with eczema. We were obliged to tie his hands to keep him from scratching, and he suffered everything. We began giving him Hood's Sarsaparilla, and in a short time his face healed. He took five or six bottles and has not had a sick day since." Olney Soucie, Pioneerville, Idaho.

**DEPARTMENTAL REPORTS.**

The necessity for the Government Departments having their reports ready for the Legislature has been repeatedly urged in these columns during the last few months, and The Star readily endorses the Bulletin in its remarks upon the necessity of the members of the both houses having the reports when the session commences. Many of the reports are long and require considerable study to understand their details. It is a common thing for the departments to charge members with not reading their reports, but the fact is the blame lies with the departments for not sending in their reports. In many of the reports are intricate tables which require care and time to set and arrange properly, and much of this work could now be in the hands of the printers, but it is doubtful if a page has yet been set up. The Star fully understands the difficulties in getting reports from the other islands, as in the Attorney General's Department, but a great deal, even in this department, might be forehanded.

The radical fault however lies with the law, which orders reports to be made by each member of the cabinet of the principal transactions within his department, during the year ending December 31st last preceding, but says nothing about having the reports printed. The reports are thus made in writing, and are not printed until the Legislature gives the order, the cost of printing being then taken off the shoulders of the department and put into the expense of the Legislature, and the reports between Legislatures never see the light save in the garbled form of extracts which enterprising reporters may make from the written documents, which extracts are liable to error and are not official. Whatever warning may have been given them, it is not likely that much outside the report of the Minister of Finance will be in printed form before the Houses meet. The Finance Department in this, as in everything else, is exact, accurate and up to date, owing to the excellent management of its chief and the able support of his subordinates.

The only way out of the difficulty is to pass a law compelling the departments to have their reports in by a certain day, in printed form, and appropriating money for the specific purpose of printing the reports. This would not facilitate the work of this Legislature, but it would that of the next. It would also be well to provide that the reports of the off year should be printed. Printing now-a-days is cheap, and it is to the advantage of everybody that information about the government should be in accessible form. Another way of reaching the same results is for the government to publish an official year book, as is done in New Zealand and some of the Australian colonies. But in some way or other departmental information should be readily accessible to the members of the Legislature as soon as they take their seats.

**TWO-THIRDS.**

There has been much controversy pro and con as to what is meant by a two-thirds vote of the Senate. Is it a two-thirds majority of the whole house, or a two-thirds majority of those present. In the Chronicle Almanac, page 87, is given an account of the arbitration treaty with Great Britain. At page 89 is given an analysis of the vote.

The treaty was refused ratification by a vote of 43 to 26. The commentary says: "The rules of the Senate require a majority of two-thirds for the ratification of treaties. Hence four more affirmative votes would have been required to secure a favorable result." That is to say that in a vote upon the ratification of a treaty the vote must be two-thirds of the members present, for in a house of 69, as this was, 46 was a two-thirds majority. This finally disposes of much talk which has been banded up and down about the streets.

Another curious fact about the voting was the manner in which pairs were arranged. They were in the ratio of two affirmative Senators to one negative Senator. Thus, Chandler and Clark, for, paired with Teller,

against; Sewall and Earle, for, with Mantle, against; and so on. But eight Senators who did not vote, did not announce their pairs, and Senator George, for, paired with Senator Berry, against.

As the Senate now stands on the Hawaiian question it has 45 for, and 19 against, annexation, a total of 73. Two-thirds majority would require 49 votes. Should those Senators who are not sure of where they stand, pair off or refrain from voting, as they did in the case of ratification of the arbitration treaty with Great Britain, the Hawaiian annexation treaty would pass with five votes to spare. But this is only a supposition case, for upon the Hawaiian question the full strength of the Senate will be present, and it is not likely that there would be any pairing. Still the fact is there that under certain circumstances the full 60 votes are not necessary to constitute a two-thirds majority.

**ATHLETICS.**

The growing athleticism of the youth of Hawaii is one of the healthiest signs that those who have settled here have not lost their vigor, and the readiness with which Hawaiians take to such sports is very much in favor of proving the vitality of their race. A quarter of a century ago, there was not a racing boat in the harbor, nor a yacht owned for purposes of pleasure. There was no regular baseball league, and football or cricket, outside of one or two schools, where they were played in an unscientific manner, were unknown. There were no athletic sports meetings, as there are now, where there are contests of skill and endurance in running, jumping, throwing and so forth.

Now this is all changed. The oldsters and the ladies of the community would be quite lost without two or three regattas, a regular baseball season, a football season, half a dozen athletic meets, some good cycle racing and a tennis season closing in a tournament. Not only do athletics afford amusement of the healthiest kind but they have a direct influence upon the character of the participants. Good, clean sport produces good, clean thinking, healthy men. Muscles are developed, but judgment is also developed, and a spirit of fairness is implanted which lasts for a lifetime, and is passed on to another generation. Good athletics are a boon to any community.

Search the world over and you will find nothing so potent and effective. Children who pester with cries and struggles for that nasty cod liver oil, and other nauseous-medicines, like the reputation as they would take cod liver oil, so much for its superficial quality. As a remedy there is life and vitality in every dose. For Nourishing Mothers, Invalids and Convalescents, it meets every want. It expels all the germs from the blood on the scientific principles. Twelve pounds in weight have been gained from a single bottle. Taken before meals it gives you an appetite and makes your food do you good. For Anemia, Scrofula, Rheumatism, Bowel Complaints, Blood Impurities, etc., it has no rival; its merit is wholly its own. It is not a petrified relic of the Medical Dark Ages. It was made to cure and it sells because it cures. You cannot be disappointed in it. Sold by all chemists.

**Timely Topics.**

December 30, 1897.

Our attention is naturally drawn to the next holiday event, which will be the races on March 17th, and horsemen and others are brushing up their harness and getting everything in order to make a good appearance on that day. Hadn't you better lay aside that old Harness and let us fit you out with a bran new set. We can give you something good and reasonable in price both in black and in russet. We also carry a large stock of Express Harness—strong and durable.

Come to think of it, we can fit you up with a "Racing," or the celebrated Whitman Riding 'Bit, while being easy to the horse's mouth are so arranged that a horse with a strong mouth is under full control.

To complete your outfit get one of our Linen or Momic Lap Robes. Your choice from from \$1 to \$2.50.

We have imported some Metal Feed Boxes because we knew they would sell on sight. They can easily be attached to the manger or to a post, and will pay for themselves in a very short time, as the horse cannot waste his feed and it prevents slobbering.

Your outfit is not complete without a Whip, and we have some good ones. Also Sponges, Curry Combs, Ivory Rings, and every article necessary to complete a well equipped stable.

We haven't said much about prices, but if you have ever dealt with us past experience will tell you that they are low. The fact is we put prices down to the point that keeps our goods moving all the time.

COMMISSIONER'S SALE OF VALUABLE BEACH LAND PROPERTY, SITUATE IN WAIKIKI, HONOLULU, ISLAND OF OAHU.

In compliance with an order of the Hon. W. L. Stanley, Second Judge of the Circuit Court of the First Judicial Circuit, dated December 30, 1897, and filed in the Clerk's Office of the Judiciary Department in a cause entitled M. P. Robinson and others versus Caroline J. Robinson, the undersigned as Commissioner thereunto duly appointed, will expose for sale at public auction on MONDAY, January 31, 1898, at 12 o'clock noon, at the main entrance to the Judiciary Building, the property known as the Robinson Beach Premises, situate on the Waikiki Beach, Waikiki side of the premises now occupied by Marshal A. M. Brown.

The property at present occupied as a dwelling by Mr. S. C. Allen, commands a fine ocean view, and has three or four cottages so grouped together as to form one large dwelling.

The apartments consist of one large sitting room, four spacious bedrooms and one large lanai, with kitchen and bath room attached, also a stable and barn. The property has all the conveniences of a homestead. Beautiful shade and hau trees abound on the lawn.

The lot measures 150 feet parallel with the main road, and has a depth of 300 feet from the main gate towards the beach, also about 150 feet sea beach frontage. Area, one acre, more or less.

Title fee simple. Terms of sale are cash, in U. S. gold. Deeds at expense of the purchaser. Sale to be subject to confirmation by the Court. For further particulars apply to the undersigned at his office in the Judiciary Building.

HENRY SMITH, Commissioner.

**CLAIMS HE HAS A SPECIFIC**

REMARKABLE STATEMENT MADE BY AN HAWAIIAN.

The Old Game of Being Able to Cure the Incurable Being Once More Played—Too Old a Trick.

A middle aged Hawaiian walked into the establishment of W. W. Dimond & Co., on King street, yesterday afternoon and bought one dozen large glass preserve jars. After making his purchase the man asked permission to go down into the cellar and fill the jars with some stuff he wished to send away. The favor was cheerfully granted him.

An hour or so later, Mr. Dimond, who was oblivious of the man's presence in the building, detected a very strong odor in the cellar, and went down to investigate.

He found the Hawaiian at work in a rather crude laboratory, with his sleeves rolled up and a large agate pail in front of him.

In answer to Mr. Dimond's queries, the man stated that he was preparing some medicine for his brother, who was a leper on Molokai. Mr. Dimond was compelled to laugh over the absurdity of the thing, when the man said: "You need not laugh. It cured me of leprosy and I was liberated from the settlement nearly thirteen years ago. I am confident of curing my brother before this year is gone, and when I do I shall make my secret known to the world."

This idea of being able to cure leprosy is an old one. The Board of Health has had probably a dozen so-called cures brought to its notice. The native's claim to having been cured is certainly apocryphal, for no one has ever been discharged cured from the settlement. There have been many people discharged from the settlement, but such mistakes are not made now-a-days. The man claims that he obtained his "cure" from a Chinese doctor. If there was any specific against the disease in China, it would long ago have made the fortune of any person who possessed it. The story is only one of ignorance working on an ignorant mind. It may be used elsewhere, and The Star takes this opportunity of showing what it really is worth, in order to prevent its further spread. Many people have talked about it today.

ORDERS THEM TO SHOOT.

Lieutenant Colonel McLeod, commanding the First Regiment, has just ordered the fifth shoot for the Marlin trophy to take place on February 3. The match will be open to teams of ten men, from each of the companies in the National Guard.

HAWAII'S RAINFALL.

Commodore Beckley reports a very heavy rainfall over Hawaii. During the storm rain has fallen in Hilo night and day, and up to the departure of the Kilauea 25 inches had been registered on the gauge. The rainfall in Oahu has been 19 inches and at Hamakua 12 inches and at Kohala 5 inches fell. Mauna Kea is covered with snow for some miles and presents a very beautiful spectacle from the Hamakua coast.

LEASES MAKIKI PARK.

Chairman F. J. Lowrey of the finance committee of the Y. M. C. A. has informed Secretary Coleman that the committee has approved of the leasing of the Makiki baseball park, for athletic sports. The park now passes under the control of the association except during the scheduled baseball games and the Fourth of July celebration.

A cinder path will now be built by the association and a dressing room, with lockers, shower bath and rub down tables built.

**NO THREATS WERE MADE**

NG FAWN OF KAUAI WILL NOT SUFFER VIOLENCE.

See Yip Society Members are Not Highbinders, Says Man War—Are Doing a Noble Work.

The See Yip Voi Quong club, a Chinese society which has a membership of over 100, is indignant over the affidavit filed by one of their number in the damage suit of Tuck Chew against the Makee Sugar company, which was published in The Star last week.

Ng Fawn, who resides on Kauai, stated in an affidavit filed with the Supreme Court, that his life was being threatened by Man War and other leading members of the society, because he had not testified in favor of Tuck Chew, who is also a member of the club. The Kauai Celestial insisted that the threats so frightened him that he secured a revolver, to be prepared for any emergency and sought protection of the Marshal.

The See Yip society deny these accusations through their leader, Man War. That a meeting was held on the 3rd of September, in which over one hundred prominent Chinese were present, they admit. Man War says that Ng Fawn was present and the society laid before him the testimony he had given to the lower court concerning the damage done to rice belonging to Tuck Chew. The club insisted that he had done an injustice to Tuck Chew, who was his countryman and brother in the society. Man War says that Ng Fawn promised to make an affidavit that he had testified falsely, but that on the following day he changed his mind and refused to do so.

Nothing more was done about it. Man War denies absolutely that he told Ng Fawn he would certainly be "shot and a corpse" if he did not carry out his promises, or that he would be published throughout Chinatown.

Man War says that the See Yip society is a benevolent organization and does a great deal of charity work in the colony.

## AGITATING THE QUESTION

PERSECUTION OF HAWAIIAN CATHOLIC CONVERTS.

Took Place Sixty Years Ago and the Matter was Supposed to Have Been Dropped.

A number of Catholic papers have lately been reopening the subject of the persecution of native Catholic converts in the Hawaiian Islands sixty years ago, says an exchange.

The whole subject was thoroughly discussed during the ten years following, in voluminous published matter, which justifies the unanimous verdict of the Sandwich Islands historians in fixing the blame of the persecution upon the well meaning but arbitrary chiefs, who disregarded the earnest protests of their missionary friends.

During the year following the persecution, in 1839, before the arrival of the frigate "L'Artemise," which escorted redress, the Rev. William Richards, who had just left the mission to serve the King as political adviser, induced Kamehameha III to proclaim absolute religious liberty, and to incorporate the same in the bill of rights which became the foundation of the present liberal constitution.

In any estimate of the attitude of the Hawaiian chiefs, or of the American missionaries toward Catholicism, it should be borne in mind that sixty years ago every Spanish-American port, from Monterey to Valparaiso, was rigidly closed against Protestant teachers, and any such teacher there would have been expelled. With those ports Hawaii was in regular intercourse. The chiefs and missionaries were confronting an aggressive and determined enemy. They did wrong; but all have learned something since those days.

### PREDICTS WAR WITH JAPAN.

Gen. Lew Wallace Believes We Will Have to "Thrash" Japan Some Day.

INDIANAPOLIS, Ind., December 28.—Gen. Lew Wallace, in addressing the Indiana Guard officers today, in company with Governor Mount, spoke pertinently of the duties of the militia officers, and in conclusion said with great earnestness:

"I should like to have your eyes and give you mine. I believe the future holds for you opportunities upon the field where every man ambitious to show courage and win glory for his country's sake may have his ambition satisfied, and I am happy in the belief that it will not come upon our own soil in internecine strife. There are those abroad who declare that we are a nation so engrossed in making money that the nations of the world can impose upon us with impunity. They do not know the American people. I should like to have them look into your eyes as I do and repeat the assertions.

"I am not a prophet, nor the son of a prophet, but I venture the prediction and call you to witness it, that the next war we have will be with the Japanese. It is my candid opinion that in the course of not a great many years the Japanese will have to have somebody thrash them, and we are the people to do it."

Gen. Wallace also made an attack upon Congressman Hillborn, of California, for his recent utterances in Chicago, revealing the military weakness of the United States. Gen. Wallace said the Congressman ought to be disciplined.

WHEN YOU HAVE A BAD COLD. You want the best medicine that can be obtained, and that is Chamberlain's Cough Remedy.

You want a remedy that will not only give quick relief but effect a permanent cure.

You want a remedy that will relieve the lungs and keep expectoration easy.

You want a remedy that will counteract any tendency toward pneumonia.

You want a remedy that is pleasant and safe to take.

Chamberlain's Cough Remedy is the only medicine in use that meets all of these requirements. This remedy is famous for its cures of bad colds throughout the United States and in many foreign countries. It has many rivals, but, for the speedy and permanent cure of bad colds, stands without a peer and its splendid qualities are everywhere admired and praised. For sale by all druggists and dealers. is the ruination of all business enterprise. People cut prices to get trade because they can't get it any other way. A good mechanic can command and get a fair price for honest work. My standard of work and prices are the same as they have been for the five years I have been in business here.

I don't claim to know it all and don't want it all, but just take this opportunity to let the public know that the old stand is still open at 231 King street, opposite the Arlington Hotel.

### Hawaiian Electric Company.

The cleanest, brightest, safest and really in the long run, the cheapest and best light for use in the family residence, is the incandescent electric light. Safe; nothing could be safer. A few days ago a prominent gentleman of Honolulu came rushing down to the office of the Electric Company and said: "Give me figures for wiring my house, and I want it done at once; no more lamps for me. Last night a lamp tipped over and it came so near setting fire to the house and burning my children and I take no more risks."

This is the sentiment of quite a number in the past few weeks, who have ordered their houses fitted with the perfect light. Just think it over and make up your mind that you want the best and safest light; send for the Hawaiian Electric Company and tell them what you want.

We have a complete stock of everything in this line and have just received a lot of the very latest designs in chandeliers.

### OFFICERS PAY IN JAPAN

WHAT A TOURIST HAS TO SAY ON THE SUBJECT.

Captains, \$25 a Month; Lieutenants, \$17, and Sub-Lieutenants, \$14—Hard Work for Line Officers to Live.

"Some tourists who visit your beautiful country shudder when they learn that the Japanese laborers at work in the sugar cane fields receive but \$15 and \$18 a month for their services," said a prominent American this forenoon, who is a guest at the Hawaiian hotel.

"You may rest assured that they have never been in Japan, or else they would congratulate them upon their good luck. Mind you, these laborers are the very lowest grade of coolies, and yet they draw as much money, and in a great many instances more, than a Japanese lieutenant in the army.

"I have taken pains to investigate the circumstances of junior army officers at present, when cries of hardship in living are heard from those depending upon small fixed incomes. The monthly salaries for junior army officers are 50 yen for captains, 34 yen for lieutenants, and 28 yen for sub-lieutenants. They receive over and above their salaries a certain small allowance for house rent, the amount being 4 1/2 yen for captains, 4 yen for lieutenants and 3 1/2 yen for sub-lieutenants.

"A Japanese yen is worth less than 50 cents of your money, so you see a first lieutenant receives but \$17 pay and his superior officer but \$8 more.

"Now look at the expenses these officers are put to. The income tax of 200 yen a year must first be taken into account, then the monthly subscription of 50 sen a month to the Army Officers' club, and 30 sen a month to the Military Relief Fund. The three items total 98 sen per month, and the monthly income of 51.50 yen (salary and house-rent allowance) becomes 50.52 yen. If from this the expenses for uniforms and accoutrements are deducted, it is doubtful whether the sum of 25 yen will remain in the hands of an officer of this grade. Specially hard is the lot of a sub-lieutenant of the cavalry corps for he, like higher officers, is under the obligation of keeping two horses. An allowance is of course given for the expenses of these horses, but its amount is far from covering the actual disbursements, swollen as these are by the recent rise of the market price of commodities. The official allowance for a charger is 12 yen and for an additional horse 6 yen. The lowest possible estimate of a charger involves an expense of 19.50 yen a month and an additional horse 9.75 yen, or 29.25 yen for the two. The balance, 11.25 yen, has to be made good out of the officer's pocket. This deficit being deducted from the monthly income of 50.52 yen, as previously calculated, a sub-lieutenant of cavalry's monthly income dwindles down to 19.27 yen, a sum hardly sufficient to keep him in decent condition.

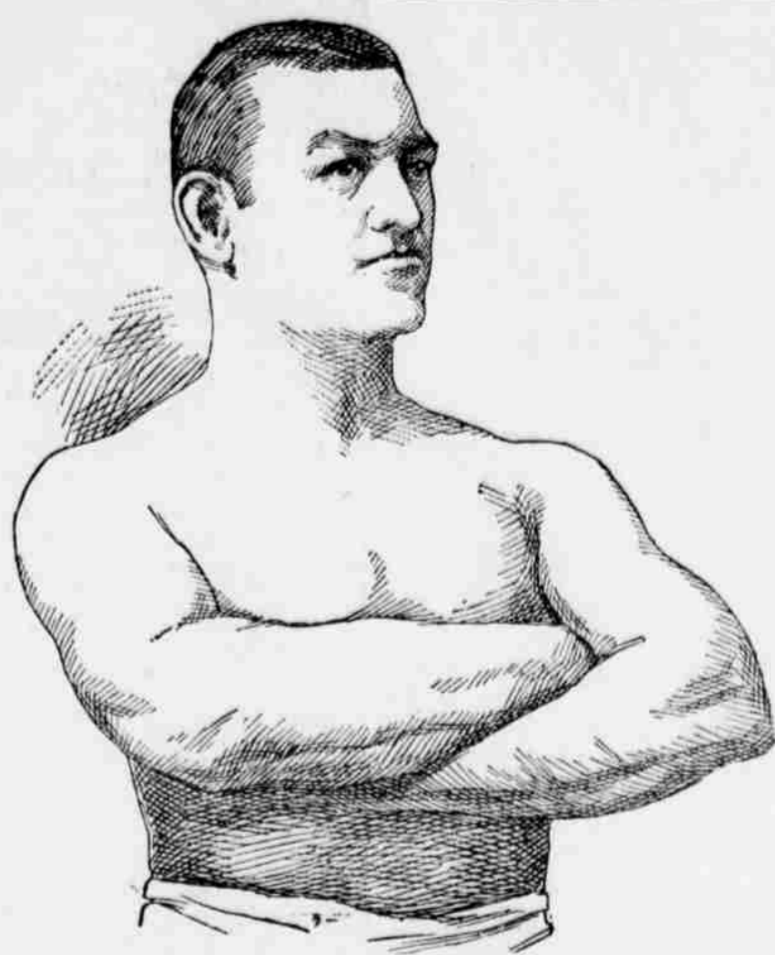

"At any rate the Japanese officers are under considerable disadvantages in their circumstances as compared with their brother officers of the west, where the profession is sought after by most of the aristocracy and those of the wealthier classes who are indifferent whether or not the pay given them by the government is sufficient for their living. In striking contrast to them, the officers of Japan are in most cases the sons of poor shizoku, who, far from being able to help their sons in the army, are generally dependant upon the latter. The statistics of junior army officers in service with the Colours in July last were, 1,176 captains, 718 lieutenants, and 1,468 sub-lieutenants; in all 3,362."
