MABIT, IS DEAD

HE WAS BRIGHTEST MAN OF FILIPINO FORCES—WAS TAKEN TO MANILA FROM GUAM LAST FEBRUARY—DIED TAKING OATH OF ALLEGIANCE—WAS PROMOTED TO RANK OF COLONEL FOR LEADERSHIP.

Associated Press Cable to the Star.

MANILA, P. I, May 14—Mabit, who was the foreign minister of the Philippines, was killed tonight by Japanese machine gun fire at the hands of guerrillas in the province of Tarlac.

He was one of the last of the insurgents to take the oath of allegiance to the United States Government. During the latter part of February, he in company with his brother and another Filipino officer, was brought to Manila from Guantánamo, where they had been confined as prisoners of war, since their capture over a year previous.

Mabit realized that the struggle against the日本人 was only over and that he took his life and that he would be killed in an attempt to help overthrow the Japanese domination of the Philippines.

He was at Hongkong at the time that Admiral Dewey started with the American fleet to Manila to attack the Spanish vessels in April, 1898. The Filipino forces were under a treaty with the United States, and it is believed that both sides adhered to the terms of the treaty.

Mabit was a half-breed Filipino and Chinese, and was one of the ablest of the men who caused the Revolution against the American Government.

VALPARAISO QUIET.

Associated Press Cable to the Star.

VALPARAISO, May 14—The quiet has been restored after the ratling. The losses by reason of damage to property are estimated at a million dollars.

GERMAN NAVY OFF FRANCE.

Associated Press Cable to the Star.

BREST, France, May 14—The German squadron is engaged in maneuvering off Brest and is expected to proceed in a few days to the Brest area.

REINFORCED ADVANCE FIVE CENTS.

Associated Press Cable to the Star.

NEW YORK, May 14—The American Sugar Refining Company has advanced the price of sugar in this country five cents on all lots of sugar.

GOVERNORS ARE RESPONSIBLE.

Associated Press Cable to the Star.

CONSTANTINOPLE, May 14—By an imperial decree issued to the governors of the respective districts where massacres have occurred are held responsible.

ANOTHER FATAL WRECK.

Associated Press Cable to the Star.

ROSY SPRINGS, N. Y., May 14—Four persons were killed and twenty injured in a train wreck here today.

MONUMENT TO DEWEY.

Associated Press Cable to the Star.

SOUTH CAROLINA, May 14—President Roosevelt today unveiled the monument erected by Unions Square, in honor of the victory of the Pole at Manila Bay. The occasion was witnessed by a crowd of 2,000 people filling the entire square. It was erected under the supervision of a committee of San Franciscans and the monument is San Francisco's most centrally located park. Admiral Dewey was the only survivor of the expedition and his official duties made it impossible for him to make the trip to the cemetery today. President will preside next Wednesday at the Mare Island naval station.

LASYAN'S ONLY NATIVE CHILD.

THE ONLY BABY EVER BORN ON LASYAN ISLAND ARRIVED FROM THERE YESTERDAY ON THE SCHOONER E. H. LUSMANN—BAY'S SCIENTIFIC WORK ON THAT GASTRONOMIC PLANT.

The first child ever born on Lasyan Island, the only native of the little island, arrived in Honolulu yesterday on the schooner E. H. Lusmann.

This child is the unique novelty in the pretty little girl of Captain and Mrs. Miss Schlenker who have been the owners of the island for nearly twenty years.

The little Lasyan lads was born March 24, 1905. She will probably never see her native plant again, for although Schlenker is going back to Lasyan on the next trip of the Lusmann, leaving here accordance to the present schedule, he will not be able to take the child on the next trip of the Lusmann, it is expected, will be diminished to a garish field within a year or two, so there will be no opportunity for the child to go back ever, she wanted.

Because of the approaching exhaustion of the pines deposits of that island, and the consequent result that very soon there will be no opportunity to go there, scientist sent a botanist to the island. This botanist was Dr. W. A. Bryan, director of the library of the American society of the island, its birds, and fish, and botany and geology. Captain Schlenker reports that Bryan is a very good botanist and geologist.

Until the arrival of the Lasyan of the H. Lusmann on her last trip, there had been no vessel touch them for seven months. Among the ins-

The Hawaiian Star, Daily and Sunday-Weekly.

Frank L. Huns, Editor.

THURSDAY, MAY 14, 1903.

S. C. ALLIN.

Samuel C. Allen, who passed away last evening at a ripe age, was one of our pioneer citizens. He came to the islands in his youth and for sixty or more years devoted himself to a commercial life, remaining in business until 1903. In all his wide and varied experiences, he will always be remembered for his wise counsel and unselfish devotion to the public weal.

Strange changes came over the business community during Mr. Allen's time. In the early days when the sugar industry was in its infancy, and the people were engaged directly in its prosecution, there was a spirit of independence and self-sufficiency, and every manufacturer took care of his own affairs. In those days, the only importation made was that necessary to feed the sugar mills. In recent years, the sugar industry has become a great factor in the business of the Territory, and the changes have been rapid and far-reaching. The sugar industry has been the chief source of wealth and prosperity to the Territory, and has been a powerful stimulus to its industrial development.

In fact during his long career the late Mr. Allen saw and helped to create all that the enterprising spirit of the Hawaiian people has done. He was probably no industry of the Territory that he was not connected with in some way or another. His memory will be preserved in the hearts and minds of all the people, and his name will always be associated with the growth of the sugar industry, from its earliest beginnings till it acquired the wonderful proportions to which it has now grown. He saw the coming days of the railroad interests on the Islands, and took great personal interest in the Canal project.

HIDDEN VOUCHERS.

A more shared decision than that of the House with regard to its vouchers it would be hard to find. The calm way in which the condition of these matters is charge simply states in public money has been, is opening. The total amount of the vouchers has been $8,000,000. It has grown every year since it has come into public hands, and it has been the subject of discussion and debate in the House of Representatives. But the fact of the matter is, that it naturally makes every one suspicious.

There has been a great deal said about the validity or the honesty of some of the House transactions. These may or may not be true, and there is no reason to believe that either of them through any improper means has been used. But the fact is that the vouchers are more and more becoming a matter of controversy, and they are being examined in almost every case.

The House has not been able to give publicity to these documents, the reputation of every individual member being involved. Each member will be regarded as either having joined in a raid upon the Treasury or knowing that there had been some irregularity. It is not likely that each member is in the position of either a robber in a robbery or公共 liability.

It is no light matter, this destruction or indirect destruction to vouchers. It is not enough to charge that members of the House have been employed to do work for the House, and have received pay for translating, typewriting, and such like work. It has been charged that bills have been made out for the members and committees, with the intention of giving them to any suspicion which must inevitably cling to those who may have been involved in such an action.

Why there should be secrecy in dealing with money expensed by the House, is more than I can understand. Money is public property, and if we can afford to spend it in making money, we can afford to make it. Whether this money is public or private, it is our duty to make it honestly.

The establishment of the House as a public and individual charity is a matter of public interest, and the House members are responsible for the success of the House as a public and individual charity. It is impossible to charge the House with anything that the House should not have known how to deal with.

The Board of Public Institutions will probably be eager to save every dollar against the Department of Public Works will not tire the House.

The government must know, therefore, that the House and the public must know, that the House is doing a good work, and that the House is doing a good work.

In the meantime, that House cannot do wrong, and it is only reasonable to believe that the House will do right.

The quarrel of the publicists is, that is a very serious matter, and will always have more or less. There is danger in the House. They should give thought to the subject and act wisely. The proper course for all self-respecting members, has been often stated.

FANAFANET.

The religious activity in the South Pacific is of much interest. The work in the South Pacific is in various parts of the world, and the work is in the South Pacific.

The condition of the Jews in Eastern Europe is very little if any better than it was in the middle ages. In our own country, which takes no part in the religious activity of the Jews, a great deal of good has been done for them. The Jew is happy and free. In Britain, the Jews receive the same treatment as any other citizens, and can act upon any part of the same.

But it must be remembered that even as late as the fifteenth century, the Jews were not allowed to take part in many of the social and political activities of the world, and were afraid of being expelled. Now, however, it is seen that the Jews are not afraid of being expelled.

The House of Representatives, the House of Commons, and the House of Lords have all been investigated and are found to be free from any suspicion which must inevitably cling to them. The members of the House are satisfied that the House is doing a good work, and that the House is doing a good work.

The training of the House of Representatives, the House of Commons, and the House of Lords has been a great improvement in the course of political education, and will benefit the House of Commons and the House of Lords.

Summer Days Are Here

You should discard your heavy winter underwear, and try something that will keep you cool and comfortable, during the trying days to come.

Dr. Diemel's Linen Mesh Wear

heads the list. Nothing to equal it on earth. Cool, comfortable and durable. Plainly bad unknown among those who wear it. Don't buy something offered as "Just as Good." Nothing else will do.

LADIES' BATHING SUITS.

with hot weather at hand is nothing to equal sea-bathing suits. If you want something attractive in the line of bathing suits you have just the thing.

M. MCINERNEY, LTD., MERCHANT AND PRINTING STATIONERS.

S. C. ALLEN DIES VERY SUGDENLY

a successful career which he had lived in Hawaii. Born over half a century ago, he was a son of W. T. F. Allen, a prominent lawyer and judge of the United States.

Samuel C. Allen, merchant, shipper, railroad agent, and member of the Hawaiian legislature, just died at his home on the Island of Oahu, after a long illness. He was 72 years of age. He leaves a wife and two children.

The death of Mr. Allen is a matter of regret to his many friends and acquaintances in Honolulu.

CAPT. WHITING JUGWONED

PULDED ORDINANCE OF HAWAIIAN MEEROLY GOVERNMENT AT TAHLE.

SAN FRANCISCO, May 7.—The first trial in a matter of ignition property value, $2,800.00, was heard today in the Court of Probate.

Mr. Allen had been the manager of the Hawaiian Merchants' Association for the past 22 years, and had been a prominent figure in the business and social life of the Island.

When a man who has served the public with such ability and efficiency as Mr. Allen, is no longer with us, we lose an asset to the community.

The death of Mr. Allen is a matter of regret to his many friends and acquaintances in Honolulu.

WHITING, JUGWONED

The death of Mr. Allen is a matter of regret to his many friends and acquaintances in Honolulu.

THE HOUSE ADOPTS A PLAN WHICH IT HOPES WILL MAKE QUICKER ACTIONS ON APPROPRIATIONS POSITIVE, WHICH WILL AID THE HOUSE TO COMMITTEE REPRESENTING EACH OF THE ISLANDS.

The House began its work on the Loan Bill, on a new plan which it hopes will result in quicker action than was done with the Appropriations Bill, which was the subject of a debate of nearly three days of the session.

The House is to adopt the committee, in order to a report which might be secured on the House where the committee is made up of one member of each of the six Appropriation Committees.

The report was adopted to provide for two each for Hawaii, and each of the Appropriation Committees.

The Lott is to hear the local state floor committee, and to report to the House on the bill and the report of the Appropriation Committees.

The House was ordered to begin work at once and a recess was taken to a joint meeting of the Commissions. A resolution was made chairman of the special committee and work was begun at once, and the recess was taken.

The effort is to be made to adopt the committee plans with the other bills.

The experience with the six months' bill has shown that the work of the session was expedited, and that quicker action should be had. The House was ordered to begin work at once and a recess was taken to a joint meeting of the Commissions.

The Hyundai is a great new car, but it's not the only choice. With a wide range of options and features, there's a car out there for everyone. If you're looking for something with great fuel economy, check out the Toyota Prius. It's a hybrid car that gets over 50 miles per gallon in the city.

In contrast, if you're after something with more power and performance, the Tesla Model S is a good option. It's an electric car that can go up to 300 miles on a single charge.

But don't just settle for one brand or type of car. Take a test drive and see which one feels right for you. And remember, the car you choose should reflect your personal style and needs. So go out there and find your perfect ride!
