A STORY OF THANKSGIVING CON-TRASTS.

My heart o'erflows with emotion, As I retrospect—on a time—
A thanksgiving of deep devotion:
Ah, 'twas a far away clime,
I was neither alone—or lonely—tho' the
the red leaf marked the time,
Those were days' of mellow rineness. Those were days' of mellow ripeness, Like the "jabled oil and wine."

Twas a time when sere November, Left his white locks flowing wide As he called with "horn of plenty," A nation's homage to his side. The golden harvest of a nation, Were rendered in accord: And the staunch heart of "Creation" Gave thanks unto the Lord,

For the ripened corn was gathered, Great bins were brimming o'er; The granaries' filled from soil well tilled, O'erflowed the threshing flower, Sweet peace! B orn of plenty; Gave rest, to sweeten toil. There was valor in honest labor.

PART II. They talk of a " fine Thanksgiving." It comes to my soul, but a name! My neighbor proclaims it November, My calendar does just the same; The our mornings are soft, warm and rosy, Our noon-days are calm in delight, While the turquoise of day grows hazy— Deepening into splendors of night.

To crown the tiller of the soil

II. Our fields are not brown, tho' verdant— Our trees freshly dipped by the rain. Likewise roses—smile at neighboring

poses;
Tho' yours "Jack Frost" has slain.

I write from windows of plenty,
In the heart of flora's perfume—
While the breath of trees, thro' the rustle of Comes laden with tropical bloom.

III. And this is a "Glad Thanksgiving" (?)
To me—'tis the "Gentle Spring" time. To me—fis the "Gentle Spring" time,
Birds in the tree are singing to me;
Tho' a "Stranger" I now shall opine.
While the lore of Hawaii is seductive
With its legends and mythical score.
For my "Thanksgiving Day" I would
fain fly away
To the snowy "Thanksgiving." of yore.

PART III. A "stranger" I look in your faces, As "strangers" you gaze into mine, Like strangers we jostle in places At this harmonious "Thanksgiving

time.

"Grange."

(Tho' my youth knew a different school) In maternal duty we note her great beauty In never undressing by rule In her soft velvet texture there is nothing to vex you; She approves of no radical change She keeps growing and blowing and reap-ing and sowing From the "Palace" e'en down to the

To transplant a plant, never say can't For 'tis quite independent of soil; It will not come to grief, or lose one little If you plant it on a bit of tin foil. 'Thanksgiving" in Paradise—Yes, it is so. God gave to each man without toil.

Without fore thought for harvest or spoil. Unknown to the many who wander Alone the rough way steeped in tears; Unknown as they are unknowing

He gathers his bread from the tree o'er his

We plod our own way thro' the years.
As "strangers" we look in their faces;
As "strangers" strange looks greet ours.
Tho' our prayer is no respector of places
We beseech to the "Almighty Powers." And our soul swells in prayerful devotion, We supplicate in deep gratitude To the "Lord" of all fruitful "Creation," The "Giver of all common good," For the homes that are on the rough ocean, To the Yule-log that glows in the East. For our southern hearthstones devotion, And England's well-garnered sheaf. For our tropical homes in mild splendor, For their fruitage of Flora so rare. For the millions of souls, brave yet tender, We bring all to "Thee" in our prayer.

Mai, Fai.

Honolulu, Nov. 24, 1890.

HER NAME.

"I'm losted? Could you find me, Poor little frightened baby! The wind had tossed her golden fleece, The stone had scratched her dimpled

knees, I stooped and lifted her with ease, And softly whispered "Maybe." 'Tell me your name, my little maid,

I can't find you without it." "My name is Shiney-eyes," she said;
"Yes, but your last?" She shook her
head: "Up to my house 'ey never said A single fing about it."

"But, dear," I said, "what is your name?" "Why, didn't your hear me told you! Dust Shiney-eyes." A bright thought

"Yes, when you're good; but when they blame You, little one-is't just the same When mamma has to scold you?"

came:

" My mamma never scolds," she moans, A little blush ensuing, " 'Cept when I've been a-frowing stones, And then she says (the culprit owns), "Mehetable Sapphira Jones, What has you been a-doing?"

"Please send me some more money," writes a young man from the seaside, "life is very costly here. Even the waves go broke as soon I as they touch the shore."

AN ACT

TO ESTABLISH AND REGULATE THE WAILUKU WATER WORKS.

Be it Enacted by the King and the Legislature of the Hawaiian Kingdom:

SECTION 1. The Minister of Interior is hereby authorized to establish Water Works at Wailuku, Island of Maui, and supply water to the inhabitants, and he shall have the general charge of the pipes and conduits of water supply and of the water, land and property that may be required for such purposes and may regulate the rates of supply to parties and uses of water and establish all such rules as may be needful for the public interests.

Section 2. The said Minister shall appoint some discreet and capable person to be Superintendent of Water Works of Wailuku, whose duty it shall be to keep the conduits or pipes in good order and repair, and collect all water rates, to have general charge and supervision of such Water Works under said Minister and perform such other duties in connection therewith as the said Minister may prescribe and such Superintendent shall make under oath at such times as may be required by said Minister a return of all his receipts and expendi-

Section 3. The Minister of Interior is hereby authorized and empowered to acquire, hold, use and possess by way of lease in fee simple, or absolutely such land and water, real estate and property and right of way as may be required for the use, maintenance, increase and development of the Wailuku Water Works; provided that in case any water, springs, ponds, land or property shall be acquired by lease then the said Minister shall enter into such lease only by and with the consent of the Cabinet.

Section 4. The Superintendent shall receive such compensation as may be fixed by the Minister to be paid out of such moneys as may be appropriated by the Legislature for Wailuku Water Works unless otherwise provided for by law.

AN ACT

SUPPLEMENTARY TO CHAPTER XXXVII. OF THE PENAL CODE OF THE HAWAHAN ISLANDS.

Be it Enacted by the King and the Legislature of the Hawaiian Kingdom:

Section 1. Any idle or disorderly person or vagrant who shall create disturbance of the peace or shall incite others to create disturbance of the peace, or riot, or shall instigate others to gamble or drunkenness, is guilty of a misdemeanor, and may upon the complaint of the Attorney-General or his Deputy, be arrested and brought before one of the Justices of the Supreme Court, and there summarily examined. If upon such examination, the Justice shall find that the person so brought before him is guilty of such misdemeanor such person shall be punished by expulsion from the Kingdom.

Section 2. Any person against whom sentence of explusion has been rendered who shall remain in or return to the Kingdom, unless such person shall have been by the King pardoned, shall be imprisoned with hard labor not exceeding five years.

Section 3. This Law shall apply only to subjects of such Foreign Powers who by treaty or convention with the Hawaiian Government, have agreed that their subjects may be returned to their own country for the offenses in this Act mentioned and to any Chinese who may hereafter enter the Kingdom under an agreement or special residence permit to depart from the Kingdom at the expiration of same.

Approved this 12th day of November, A. D. 1890.

AN ACT

To Encourage and Promote the Cultivation and MANUFACTURE OF TOBACCO; AND FOR THAT PURPOSE GRANTING CERTAIN SPECIAL RIGHTS AND PRIVILEGES UPON CERTAIN CONDITIONS AND STIPULATIONS.

WHEREAS, the Cultivation and Manufacture of Tobacco in the Hawaiian Islands, has been heretofore limited in quantity and inferior in quality; and

WHEREAS, W. H. Cornwell has petitioned for the grant of certain lands and special rights and privileges for the purpose of experimenting upon and with said product with a view of producing the same of a grade superior to any heretofore produced in the Hawaiian Islands and of developing such cultivation and manufacture thereof into a successful and permanent industry of this Kingdom; and

Whereas, said W. H. Cornwell has proposed to make all necessary experiments and outlays for that purpose aforesaid, at his own risk and expense, and without aid from the Government; therefore,

Be it Enacted by the King and the Legislature of the Hawaiian Kingdom:

Section 1. That no impost, tax or duty of any kind or nature shall be levied or imposed upon the buildings, machinery, land, or products therefrom, that is to saycrops of tobacco raised by said W. H. Cornwell and his associates and assigns produced or manufactured in or upon said Hawaiian Islands or any thereof, either for the cultivation, manufacture, purchase, sale or export of the same, for the period of fifteen years. The right to levey or impose such impost tax or duty, for such period of time being hereby waived.

Section 2. That any lands of the Government of the Hawaiian Islands, adapted for the purpose, and not otherwise appropriated and used to the extent of not exceeding two thousand five hundred (2,500) acres, be and is hereby granted to the said W. H. Cornwell and his associates, his and their successors and assigns for the period of fifteen years from and after the passage of this Act, to be used only for the purpose of cultivation, producing and manufacturing tobacco at a yearly rental not exceeding one dollar per acre.

Provided, however, that if such granted lands or any part of them are not cultivated in tobacco for three subsequent years, at any time during the term of the grant of the same shall terminate thereby and the lands then unused shall revert to the Government.

Section 3. This Act shall take effect from and after the date of its approval.

Approved this 11th day of November, A. D. 1890.

If you want "THE TOWER YOU DO NOT HAVE TO CLIMB AND THE WIND-MILL THAT RUNS WHEN ALL OTHERS STAND STILL—THE EVER LASTING STEEL AERMOTOR—give us a call or drop a postal card and we will send copiously illustrated printed matter showing every phase of wind-mill work and construction, including the geared outfit on barn, which does the work of four horses for the price of one.

Tower and its Aermotor with an ordinary Windmill and you will find that it presents but a tithe of the wind surface to the grasp of the storm that the other does

It is an Age of Steel. The AERMOTOR is a Steel Wheel. It has cold rolled Steel Sails Steel Bands, Steel Arms and a Malleable Iron Hub. Even the Boits are cold pressed and of superior quality. We are sending out the 8-ft. Aermotor, guaranteeing it to do more work than any 10-ft, wooden wheel made, and the 12-ft, pumping and geared Aermotors guaranteeing them to do more work than any 16-ft, wooden wheel made, leaving the purchaser to be judge, and have krytzs had occasion to regret having made this seemingly extravagant guarantee. We are the only makers of a Tilting Tower that never has to be climbed. Our Tilting Tower brings the wheel down for oiling. A child can lower it. It saves human lives and doubles the life of the wheel.

THE AERMOTOR CO.,

For Irrigation, 8 Compared with 12.

The 8-ft. Aermotor you sent me last year has given good satisfaction and has done more than you claimed it would do. I attached a 5-in. lift pump to it and can relipou it surprised every one to see so small a rod run so large a pump with so long a stroke (8-in.), and do it so easy. Several gentlemen from Stockton came to look at my mill. They had seen one there pumping from a tob and they did not think it was strong enough to pump from a dear well, but when they from a tab and they did not think it was strong enough to pump from a deep well, but when they saw mine in a 69-ft. well they were convinced of its power and very much pleased with it. My Aermotor would supply 1,000 head of cutile with water, but I do not use it for stock, but for irrigation. One day I noticed a 12-ft. * * wheel, 4-inch stroke, standing still for 3 hours when my 8-ft. wheel with 5-in. Hit pump, 8-inch stroke, was pumping nicely.

HICKSVILLE, Cal., Feb. 24, "90. LOWIS HERBERT.

8 Greater than 14.

The 8-ft. Aermotor is taking water out of a 116-ft. well, using S-in. cylinder and 112-in. pipe. It works like a charm. The 12-ft. Aermotors are taking water, one from a 210-ft the other from a 165-ft. well and work finely; will run in a light breeze and pump water when a 14-ft. * * * stands idle. A. C. MASSEY. San Miguel, Cal.

Same Work, Same Wells, 8 Equals 12. I am entirely satisfied with the 8-ft. Aermotor, as it is doing the same work the 12-ft. * * * is doing and both with same advantages and same depth of wells. CNBONTA, Cal., Nov. 5, 1889. H. H. HAMMUND.

Regulates Well. I pump water for about 100 head of cattle with my 8-ft, wheel. It runs lighter than any mill I ever saw, regulates well and gives no jerk to the pump. DIXON, Cal., Feb. 15, 1890. S. G. LITTLE.

Less Wind, More Water. With the Aermotor there is absolutely no jerking of the pump. It runs with much less wind than 10-ft, wheels of other makes, and hence will pump more water. JAS T, HADLEY. water. YoLo, Cal., Feb. 18, 1890.

Supplies House and Garden.

My Aermotor supplies water for the house and arden. It regulates all right, runs better in light garden. It regulates all right, runs better in lig-wind than any mill I have seen, and handles the pun-smoothly and satisfactorily. GEO. A. RAYMOND. SAN FRANCISCO, Ca., Feb. 28, 1890.

VICTORIOUS VISITORS!

Successful Opening of the New Baseball Grounds.

THE CALIFORNIAS BEAT THE HONOLULUS.

A Large Attendance in the Grand Stand and Around the Grounds,-The

Cals. Put up a Fine Game.

The first game of baseball between the Californias and Honolulus took place on the new grounds Thursday afternoon, and, as was expected, drew a very large attendance. The grand stand, which gives a good view of the diamond, was crowded, and a large number of people and carriages lined the grounds. A good many got a view of the game from the trees surrounding the grounds.

The new grounds were the subject of much admiration, for it must be said that no finer can be found in the larger cities in the States. They are convenient in every respect, and the diamond on this occasion was in excellent playing condition.

The spectators were much interested in the practice work of the Californias previous to the game. They are a fine, athletic-looking set of fellows, and know how to play ball. Their fielding and coaching were par excellence, and they worked to-gether like clockwork. Their uniforms are very neat. Manager Hoogs has certainly fulfilled his promise, and brought down a firstclass team. It is now for the public to shew their appreciation by extensive patronage.

The first six innings in this game were well played by both teams, but in the seventh and eighth, the Honolulus got a little rattled and allowed the visitors to score fifteen times. Mr. W. E. Wall umpired behind the bat the first innings, but getting his wrist hurt by a foul ball, he had to retire in favor of Chas. Wilder. Morris Keohokalole was the field umpire.

" THE PLAY.

Chandler rapped for one bag sending Wodehouse to second. Covne struck out, Chan Wilder flied to Power and Caball was out at Whitney to Howard.-Cahill was out at first from W. Lucas. Farrell hit to Chandler and reached first safely on hodehouse's failure to hold the ball. quickly to first cut off Farrell.

air three times and laughed. A. Lucas flied to Sharp, and Fredenberg retired on a foul fly caught by Ward.—Power hit a Leauty for three bags. Sharp followed suit, Power tallying. Rielly struck out Sharp scored on a passed ball, Creamer foul flied to Fredenberg, while Leveque ended the innings by placing a fly in Conrad's hands.

Third innings—W. Lucas and Wode-house both foul filed to Ward. Chandler hit one in the air to left field which "White Wings" gathered in.—Ward hit to Chandler who threw wild. The ball however got to third before the runner and he retired. Califfornia and he retired. and he retired. Cahill rapped the sphere for two bags, but got caught napping be-tween third and home. Farrell retired

Fourth innings—Coyne put wrinkles in the atmosphere. Wilder foul flied to Ward, and Whitney was fielded out at first by Farrell. Howard made a ten-foot hit, which W. Lucas muffed, and a wild throw by Wilder placed the home plate within easy reach. Powers foul flied to Wodehouse. Sharp started out to make a hit to Waikiki, but the ball dropped in center field, and he took his first. He tried to steal second, but was not quite Sharp enough. Reilly fanned the air very prettily three times.

Fifth innings-Conrad foul flied to Power. A. Lucas died at first, and Fredenberg hit one to Cahill, which of course he accepted. Creamer and eveque were both out on foul flys, and Ward retired at first.

Sixth innings—W. Lucas was out at first from Reilly, Wodehouse flied to Cahill. Chandler was given his base on balls. Coyne hit to Reilly, who made the only error for his side. Wilder also got his base on balls. A passed ball allowed Chandler to cross the plate. Whitney failed to reach first.-Cahill made a base hit to left field, which Conrad muffed, and the runner took his second. Farrell and Howard were both out at first. Power hit safely to right, and A. Lucas, being a little slow in fielding, the runner reached second. Sharp hit a fly to center, Coyne distinguishing himself by muffing it. This let Power score. The innings ended by Sharp again failing to steal second.

Seventh innings—Conrad and A.Lucas both failed to reach first, Fredenberg hit the ball into Farrell's hands.-The Californias made six runs this trip, ten men going to the bat before the innings ended. A description of the play is not necessary, it would look bad on paper. The outs were Howard and Reilly on strikes, and Power at first.

Eighth innings—W. Lucas' fly was accepted by Cahili. Wodehouse got his base on balls. Chandler flied to Howard, who also caught Wodehouse napping off third, a pretty play .- Nine Californias crossed the plate this innings, aided by wild throws by Fredenberg, W. Lucas and Wilder and base hits by Bevegue, Howard, Sharp, Reilly, Creamer and Ward. The outs were Ward and Power at first and Cahill between first and second. There was a sigh of relief ames the crowd when the innings

Ninth innings-Coyne struck out Wilder got in a safe hit to left. Whitney was fielded out at first, and the ball being thrown quickly to third Wilder

was retired. - The Californias being nineteen runs ahead, did not care to bat, and went home.

CURE FOR CONSUMPTION.

Dr. Koch's New Treatment Exciting Great Attention in the Medical

The medical world is excited over the success attained by Dr. Koch of Berlin in his treatment of consumption. His mode of operation, as might be supposed, is inocculation, but up to the present he has kept secret the mode of preparing the fluid, preferring to have the value of his theory fully demonstrated before any doubt can be cast upon it on account of the inexperience or ignorance of operators. Dr. Koch has treated many patients with remarkable success, and the German Emperor at the next session of the Reichstag will call for a special appropriation for the estab-lishment of hospitals for consumption. Dr. Koch states that the curative lymph itself can be obtained from Dr. Libbertz, whose address is First innings—Honolulus to the bat. No. 28 Lueneburger strasse, Berlin. Wodehouse took his base on balls. The lymph is described as consisting water for use the matter is liable to pard put up a fly which Whitney lized by heat and preserved in a wadgladly accepted, and throwing the ball ding covering or prepared with a solution of phenol 50 percentage Second innings-Conrad fanned the strong. When taken into the stomach the curative matter proves to have no effect, and it must be applied subcutaneously by means of a valveless syringe, which must be rinsed with absolute alcohol and kept in a

On each side of the main cover are two bats crossed, with a ball in the angle, while at the top of the cover stands a player in position to throw a ball.

This beautiful trophy is inclosed in a large case lined with blue silk. It will shortly be presented with appropriate exercises to the Kamehamehas as the Champions of 1890, and they will retain it until next season. Mr. Smith, who is a cousin of Mr. Spalding, says that in a few days he will place the trophy on exhibition in the store window of Benson, Smith & Co.

DANCE AT THE PALACE.

A Large Gathering of Society People and Officers of the War Ships. e

The dance at Iolani Palace Monday evening, given by the ladies as a farewell to His Majesty, Admiral Brown, Capt. Their Majesties the King and Queen and H. R. H. Princess Poomaikelani stood at the entrance to the throne room, while those who were present paid their respects. This informal reception being over, dancing at once commenced to the strains of the Hawaiian string orchestra, stationed on the front veranda.

Among those present were Admiral Brown, the captains and officers of the men-of-war in port, members of the diplomatic and consular corp, and a large number of prominent society people. The programme contained twelve dances. Shortly before midnight supper was served in the dining hall. At intervals during the evening the Quintette club sang selections on the back veranda of the Palace. The whole affair was exceedingly pleasant.

TUESDAY,

IN THE San Francisco Call of November 15th, we find the follow ing paragraph:

"The rapid increase in the number of cases of diphtheria in this city within ten days has greatly alarmed the Board of Health. There have been thirteen deaths from the disease since Monday and there are numerous cases in those parts of the city adjacent to defective and foul sewers and dumping grounds. The greater number of the cases are in the Mission.

While diphtheria is not considered a contagious disease, yet from the above it would seem to be assuming the form of an epidemic in that city, fostered no doubt by atmospheric impurities referred to. It is well that our own Board of Health be on its guard.

THE "NATIONAL TRUM PETER.

The "National" trumpeter is again to the fore, and as usual his trumpetings are in sad discord with the plain historic harmony of facts. "The defeat and forced appointed Pound Master for the District of resignation of the Thurston Cabinet!" - On what question were they defeated, but on the question whether the Cabinet could speak authoratively when not a unit in opinion? Could three Ministers in accord and one dissenting offer advice to the Crown, and ought the Crown to accept the advice of the three as that of the Cabinet? That was the question decided against the three by the Legislature, which forced the resignation of the Reform Ministry. . The same Legislature has since then placed itself on record in deciding the same question, with what degree of consisttency the minutes of the House

> Of the present so-called antirevolutionary Cabinet, two of the four Ministers took office, one as a Minister and another as a Minis ter's deputy with the "Reform or revolutionary " party.

> So much for consistency! As to the labor question, it is far from the fact that the late Administration, either for the sake of a few votes or for any other reason refused to carry out the "law al lowing the importation of the legal number " of Chinese laborers per quarter. The fact is, that the legal number allowed by law, to borrow the elegant verbiage of the writer we are considering, could only be imported by the action of machinery which was never set in motion during the incumbency of the late Ministry, who were unable to take the initiative. Had suitable representation of the need of the importation of a certain number of Chinese laborers been made to the Board of Immigration, and by the Board to the Cabinet, as provided by law, and the Cabinet had then refused to act, this accusation might have had some truth in it; as it is it has none.

As to the silly story that the rise in value of the Punchbowl sites being due to the assurances held out by the present Government, we sufficiently refuted that a few days ago. As to the still sillier story of the Ewa and Makaweli plantations being in any way due to the action of the present Government, we might ask when and by whom were the Union Iron Works and the two great plantations set on foot. What are the dates of the several leases for the required lands? When did Mr. Watson or Mirlees, Tait and Mr. Watson or Mirlees, Tait and Matson first take a money interest in Makaweli, no doubt the writer caused the planters to turn to the oppoof the article we refer to would tell us. Why should he not assert that the McKinley tariff bill with all its prospective benefits came from the same source, or why not strike out boldly and claim the original Reciprocity Treaty, and so demand our gratitude for the solid past, instead of only fishing for the credit of the somewhat dubious future.

There is refreshing frankness in the reason given by ex-Governor Jarvis of North Carolina for declining the presidency of the Agricultural and Mechanical College of that state, to which he was recently and the first editon of " David Cop- elected. He says he does not feel qualified to fill the position.

THE LOSS OF H. M. S. SERPENT.

By the last mail the sad intelligence of the total loss of H. B. M. S. Serpent with 172 lives (only three of the whole crew are reported to have been saved) was received here. As the wreck is stated to have taken place on the night of the 10th inst., the news of course is telegraphic. As a great deal of interest is expressed on the subject, we give here all the particulars of the ship and her loss that we have been able to collect.

Some five years ago the Admiralty ordered the construction of a number of vessels rated as "twinserew cruiser, 3rd class." Seven of these were built, each of 1770 tons, and armed with six five-ton guns. engines of 3,500 horse power, the other two, of which the Serpent was one, of 4,500 horse power, and 15.3 to 15.6 knots.

Three, the Archer, Brisk and Cossack were commissioned for foreign service in 1888 and '89, the remaining four took part in the naval manceuvres of the latter year. It is not reported to what station the Serpent was to be attached, but she was outward bound when, it is stated, in consequence of some derangement to her machinery, it was determined to put into Vigo or Coruinna on the coast of Spain, when she struck or was driven on to the rocks of Cape Finisterre, which is about half way between those two ports. The ship was built of steel, but with only a single bottom. Of course a huge gap was opened by the first jar on the rocks, and when she slipped off into deep water, she sank immediately.

In building her every other consideration seems to have been sacrificed to the idea of saving weight. The ship was not strong enough for her power. The engines were not strong enough for their intended development; and the armament was too heavy for her carrying capacity. No doubt, unfavorable reports have been made to the Admiralty against the whole class. They carried only three light single pole masts, and so were entirely dependent on their engines.

Unfortunately the serpent was taken for a model by the U.S. Navy Department and the Yorktown, Concord, Bennington and two other cruisers have been built, or are building mainly on the lines of the Serpent, though in consequence of the unfavorable criticism called forth in the English press by the reports of the performance of the whole class, that the American builders have been able to avoid or rectify the more glaring defects, so that the Yorktown and her sisters have more stability and more structural strength than their British models. Still, the Yorktown was the only one of the "White Squadron" that suffered damage from bad weather in the recent cruise to Europe, and the greatest blemish-the single steel bottom, remains unchanged.

CORRESPONDENCE.

We do not hold ourselves responsible for the statements made, or opinions expressed by ou correspondents.

Is It So?

MR. EDITOR: The Bulletin in its "Charleston" edition of yesterday has placed itself on record as a fault-finder of the late Government, for not having

brought in more Chinese, as follows: "The labor question was unnecessarily brought to a sudden crisis by the politicians of the late Administration refusing, for the purpose of catching a few votes, to carry out the law allowing the importation of the legal number of Chinents of the Thurston Administration for aid. This was not withheld."

If the writer of the above will refer to the Laws of 1887 Chap. 28, Section 5, he will find that there was no "refusing" in the matter of "carrying out the law, inasmuch as the law says that the "Administration" had an option in the The Bulletin writer must surely see

that, even if the whole 1,200 a year had

been admitted under the law there was nothing to prevent them from helping out the "labor shortage" at Chinatown sewing machines, or other handicraft, in preference to going on to plantations. In view of these simple facts it is a silly charge to accuse the late Ministry of "precipitating a labor shortage" by not admitting a few more regiments of Chinese who would in all probability

have entered the kingdom only to swell the ranks of city mechanics and the charge that the refusal to so admit temptously)—"If it did it catching a few votes," will be held, by

those who wish this to be a civilized

country, quite excusable.

I am not an expert in judging of what
the "greatest blessing" on earth may be, and am willing to pin my faith to any editor newly converted to a study of the subject, but in a small way I think it was a blessing to have had a Ministry who were honest in their anti-Asiatic legislation in 1887-8, and NOT a blessing to have had a Legislature in 1890 which did their best to undo the work of their ANTI-GUSH.

Where Were They?

Mr. Editor: The San Francisco Morning Call publishes the names of "Twenty Immortelles." The critics called for a vote, determining in favor of the following, Harriet Beecher Stowe heading the list, as she deserves to do:

Harriet Beecher Stowe, Frances Hodgson Burnett, Mary N. Murfree Charles Egbert Craddock), Julia Ward Howe. Elizabeth Stuart Phelps Ward, Sarah Orne Jewett, Five of these were provided with Mare Mapes Dodge, Constance Fenimore Woolson, Edith M. Thomas, Margaret Deland, Adeline D. T. Whitney, Celia Thaxter, Amelia E. Barr, Lucy Larcom, Rose all are classed as having a speed of Terry Cooke, Mary Abigal Dodge (Gail Hamilton), Harriet Prescott Spofford, Louise Chandler Moulton, Mary E. Wilkins, Blanche Willis Howard Teufel. Celia Thaxter and Amelia E. Barr received an equal number of votes, as also did Harriet Prescott Spofford and Louise Chandler Moulton.

I would ask, where were Mai Fai and Ruth Ward when the vote was cast? A PATRON.

-SHAKESPEARE. We are a guest in your beautiful city, bearing our daily burdens very well, thanks. When one learns how little importance one person in the world, it is half the battle won. Sore spots are erased beyond the touch of ridicule. Literary life is probably as pro-

lific of failures and as full of " sore

spots and sore heads" as "political." The number of men and women who are ambitions of literary distinction, and who make great efforts to win - and fall with astounding success into failure-is very large, larger than the world-outside of the publisher's office-ever dreams of. The number of manuscripts rejected and consumed in the blue flame from the editor's waste basket are far greater than those accepted and published, and of those that are given to the world not one in ten satisfies in a small degree the ambition of its author. I believe it is within the bounds of truth to say that nine authors in every ten are disappointed men. Then what is to be done? Refuse to work in the cause God has appointed? Yield to laziness-to cant? No! We have learned there must be sailors; all cannot be officers. We are proud of our superiors. We always receive encouraging words from lofty minds. We have the honor of a personal acquaintance with Harriette Beecher Stowe. I shall never forget the great wisdom of her words-though I fear I have not profited therefrom--when she told me that she had read my works, in prose and poetry-"longing to wade into that great, dense forest of thought, with its tropical undergrowth of flowers and ferns, clearing away, opening up the field for the benefit of man.'

A Handy Light. To obtain a light instantly with-

out the use of matches and without the danger of setting things on fire is an easy matter. Take an oblong vial of the clearest of glass, put into it a piece of phosphorus about the size of a pea; upon this pour olive oil hoated to the boiling point, the bottle to be filled about onethird full, then cork tightly. To use the light remove the cork, allow the air to enter, and then re-cork. The whole empty space in the bottle will become luminous, and the light obtained will be a good one. As soon as the light becomes dim, its power can be increased by opening the bottle and allowing a fresh supply of air to enter. In For Ten Years the Largest Shippers very cold weather it is sometimes necessary to heat the vial between the hands to increase the fluidity of the oil, and one bottle will last all winter. SUGAR BEET SEED.

The latest attempt at a free-trade scare is the rumor that Germany out of revenge for the passage of the McKinley bill, will refuse to allow sugar beet seed to be exported to the United States, hoping in this way to crush out an industry which the bill protects and in which California is particularly interested.

This is certainly a weak invention of the enemy. It so happens that California already produces sugar beets in considerable quantity, certainly enough to supply seed to the whole United States as soon as the demand for it arises. More than this, the quality of the California sugar beet is superior to that of the German beet, the former carrying from 16 to 22 per cent. of saccharine matter as against from 12 to 15 in the German beet. In fact, it is more than likely that if Nebraska and other Western States go into sugar beet culture on an extensive scale the demand for California sugar beet seed will become very large and the demand for German seed correspondingly small. - [S. JULY TERM, 1890.

G. W. MACFARLANE & Co. vs. J. S. McCandles.

Appeal from June, C.J., overruling motion to open default.

JUDD, C. J., M'CULLY, BICKERTON AND DOLE, J. J.

A motion was made to open default. Mo-tion overruled and judgment affirmed. after hearing on motion and argument Held, that it is a matter of discretion with the Court, and that the hearing on the motion was not an opening of the

OPINION OF THE COURT BY BICKER-TON, J.

Judgment was obtained by the plaintiffs in this case on the 21st of November last defendant not answering and default having been granted by the Court. At the close of the January term a motion was made to set aside default, defendant claiming that service was defective in that no copy of the petition and summons was left with him by the officer. After hearing, the Chief Justice affirmed the judgment, and the matter now comes here on appeal from that decision.

BY THE COURT.

The question of discretion of the Court has been passed upon by this

"An order opening a default is a matter of discretion, and not reviewable except in a clear case of abuse.' Bishop & Co. vs. The Pacific Navigation Co., VII. Haw., 276.

Whether a Justice will re-open a case for a new hearing after his final decree made and not appealed from, is a matter of judicial discretion from which appeal does not lie." Makalei et al. vs. D. Himeni, VII.

The statute makes these matters,

matters in the discretion of the

"The Judge or Court shall have power, however, to open the default in their discretion for good and sufficient reasons," Section 1126, Com. Laws. But the defendant claims that the Chief Justice opened the default by investigating and examining the case as to the service and the nature of the defense that defendant could have availed himself of if he had answered. We do not think this was opening the default, it was only doing what was necessary to be done to enable the Court to see if any injustice was being done the defendant, or if there was any good and sufficient reason why it should exercise its discretion and open the default. The Chief Justice, in his opinion, says: "Having examined this matter fully, I am of opinion that the service was made in all respects as required by law." And further on he finds that the defense proposed to be set up, which was in the nature of a set-off, " is an independent matter and ought to be the subject of an independent suit." Consequently, the defendant is not deprived of his right to recover on any claim he might have against the plaintiff. The Chief Justice, therefore, found that there was no good and sufficient reason for opening the default, and exercised his discretion in the matter and affirmed the judg-

ment obtained on the default. The appeal is dismissed and the judgment of the lower Court

affirmed. C. L. Carter and P. Neumanir for plaintiff; V. V. Ashford for defend-

CONCURRING OPINION OF DOLE, J.

I have found some difficulty in coming to a conclusion in this cause from the circumstance that the grounds upon which the Chief Justice bases his refusal to open the default appears to me to be erroneous. He says: "I was willing to open the default so far as to see if the defendant had a defense which he could have availed himself of if he had answered and to allow it if of that character. I find that the plaintiff's claim is for goods sold and delivered-certain iron piping. The defendant's counter claim or set off is for the use of a certain artesian well-boring rig. I think under our decisions this is not a matter of set off, and would not be received as such if the defendant had answered. The off-set must be of the same kind and denomination and 'existing in the same right,' to which I can give no other meaning than that the offset must arise in some way from the original transaction between the parties. The use of the well boring apparatus is an independent matter, and ought to

suit." This conclusion of law is, I think, a mistake. "A set-off is a counterdemand which the defendant holds against the plaintiff, arising out of a transaction extrinsic to the plaintiff's cause of action. The right of set-off is very different from a mere right to reduce or defeat the plaintiff's demand on account of some matter connected therewith." (Waterman on Set-off, Sections 2 and 3, and Avery vs. Brown, 31 Conn. 398.)

be the subject of an independent

Now if the refusal to re-open the Refault was based upon a wrong conclusion of law, would that fact affect such refusal?

By our statute the opening of a default is a matter of discretion with the Court. Generally rulings in matters of discretion are not appealable. (Bolles vs. Padeken, 3 Haw.

In the cause of Polhemus vs. Ann Arbor Savings Bank, which was an appeal upon a writ of error (27 Mich. 44), a similar question was in issue. The lower court refused to allow an amendment to the pleadings upon the ground that it had no power to allow it, which was a mistake in law, for the granting of an amendment was a matter of discretion with the Court. The appellate court went somewhat exhaustively into the question whether "the ground on which the (lower) court placed the denial of the motion, (could) be so separated from the denial itself as to present a case entitled to review on writ of error when otherwise none would exist," and decided that it could not. They say, "the true subject of complaint by the plaintiff in error on this record is the final result of his motion and not the peculiar view of the court which led to it." And again: "The objection then must be considered as founded on the refusal of the motion, and not on the motive

which led to that refusal." The reasoning of the decision applies as well to ordinary appeals in our courts as to writs of error in Michigan. This conclusion is supported by the cause of United States vs. Buford (3 Peters, 30), in which the court say: "This court has repeatedly decided that the exercise of the discretion of the court below, in refusing or granting amendments of pleadings or motions for new trials, affords no ground for a writ of error. In overruling the motion for leave to withdraw the replication and file a new one, the court exercised its discretion, and the reason assigned (which the plaintiff claimed to be erroneous), as influencing that discretion, cannot

affect the decision." Following these authorities I am led to the conclusion that the refusal of the court below to open the default, being within the discretion of full justice to his selection; the court, is not affected by the reaviolin solo, Dr. Williams; dialogue, sons which led to the decisions, and is not a matter of review by this

I therefore concur with the decision of the Court that the appeal be dismissed. Sept. 4, 1890.

MOTION TO VACATE JUDGMENT OF

SU WAI V. J. H. SOPER.

NON SUIT.

A judgment of non-suit was entered in this cause in the July Term by order of the court under Section 1163 of the Civil Code.

After the term had expired by adjournment sine die, the plaintiff filed his motion that the judgment be rescinded, with his affidavit explain- at Papaikou the ing and justifying his non appear-

The explanation furnished by the affidavit may absolve the plaintiff from fault, but the motion should have been made before the end of the term. We have no statute conferring power upon Courts to vacate judgments except in the case of judgments by default. By the principles of the common law, the power of a Court over its judgments ceases upon the final adjournment of the term in which they are rendered.

The motion is therefore overruled. August 13th, 1890. SANFORD B. DOLE.

OLIVE BERKLEY.

The Original "Little Lord Fauntleroy." At the Opera House Saturday eve-

ning, December 6th, one week from next Saturday, our theatre-goers will have a treat in the way of a first class theatrical performance. We have in you, Mr. Damon, the Grand Officer our midst one of the most remarkable children on the American stage, Olive Berkley, a child that has made a great success in America, England

and the Antipodes. She is the original Lord Fauntleroy, and judging from the press notices we have received she is above criticism. Although we have had the play here, everybody will want to see and compare her with the child we have seen in the past.

Olive Berkley is a beautiful child with a contralto-speaking voice, low and measured, the light weight of ten summers on her fair head, a little child but one of the big stars of the present age. She will be supported by a local company, and as we have some good dramatic talent, a good performance will be given. The cast and other particulars will be given in another issue. The opening bill will be the pretty little piece lar," as produced at the Lyceum Theater, New York, and the last two acts of "Little Lord Fauntleroy,"

SAILORS' HOME SOCIETY.

Special Meeting of the Board of Trustees.

A special meeting of the Sailors' Home Society was held Wednesday morning at the room of the Chamber of Commerce. There were present Messrs. P. C. Jones, J. H.Paty,treasurer, T. R. Walker, J. B. Atherton, W. Babcock, S. M. Damon, F. A. Schaefer, Secretary, J. T. Water-house, Jr., C. M. Cooke and W. W.

In the absence of the President, Mr. Atherton was called to the chair. The minutes of the last meeting were read and approved.

Mr. Paty, the treasurer, stated that the total subscriptions towards the new home, including the Government grant of \$500, amounted to \$15,000, of which \$11,978.69 was in the bank, \$2,000 in bonds, the remainder in the savings bank.

The amount realized from the late fair, it was understood, was to go towards furnishing the new home. Secretary Schaefer said there were very few names on the subscription list, yet the amount was large. The list was not yet completed, as quite a number of persons had not been called upon and asked to subscribe. He felt sure they would like to do so.

The committee were requested to

ontinue their canvassing.

On motion of Mr. Cooke a plan committee of three was appointed-F. A. Schaefer, S. M. Damon, C. M. Cooke-to obtain plans and submit them to the trustees at the annual

meeting of the society in December. The amount of \$150 was placed at the disposal of the committee for the payment of any expenses connected

with the getting up of the plans. Considerable discussion then took place with regard to plans. Some thought that the lower story should be stores, the rent to go towards the expenses of the home. Others did not favor this, as there was an objec- Burnham, Parry, Williams & Co., tion to going up stairs.

It was decided to offer a prize of \$100 for the best set of plans for the new Home and \$25 for the second

TUESDAY,

THANKSGIVING DAY.

The custom of observing a day for national Thanksgiving originated among the pioneer pilgrims who forsook old England early in the sixteenth century to form in America a new nation which they called New England. From that small beginning sprung a festivity which has grown with the growth of the nation till to-day it is observed by more than sixty millions of people in America, and by Americans scattered throughout the world.

No more appropriate custom has ever been established than this of the observance of a day of thanks to the Almighty Ruler of the Universe for the many blessings enjoyed by the nation by making it a day of religious thanksgiving and social festivity, when families and friends may assemble and partake of the richest bounties which can be provided for their enjoyment. Long may Hawaii as well as America enjoy the prosperity which they have long had, and sing with New England's Quaker poet, Whit-

DEPARTURE OF THE KING.

At 2 P. M. Monday, Nov. 25, the King leave for San Francisco in the American war steamer Charleston, and as the guest of Admiral Brown. His Majesty is in poor health, and the only object of his visit to California is to seek its improvement in the mild and invigorating air of what has been aptly termed "the France of America." Should the climate of the metropolis prove too cold at this season, that of San Diego and the Coronado Hotel will probably be the nearest to our own climate of any that can be found in the state.

The warmest wishes of all his subjects and friends here will follow him for a pleasant voyage across the Pacific and perfect recovery of his health.

Admiral Brown, Capt.Remey and the officers of the Charleston will carry with them the alohas of all of the residents of Honolulu whose acquaintance has been formed during their prolonged stay in this port. Such a ship as the Charleston would be a credit to any nation, and it will be a matter of pride to every Hawaiian, as it no doubt is to every officer and man on board, that the royal guest whom she conveys to America leaves here with so pleasant a prospect before him. Bon voyage to all leaving on the Charleston, and a happy return in the sweet bye-and-bye.

MARINE REPAIRING STA-TION.

To make Honolulu widely known for facilities in repairing defects in any class of ship that may visit us is an object worthy of the best attention that can be given to it. For some years now the Marine Railway has been at work without a hitch. Every inter-island vessel, steam or sail, uses it familiarly from the Claudine and Kinau of near 800 tons each to the Waimanalo and Mokolii of 50 tons. Many of these vessels have undergone structural alterations or repairs calling for a high class of the proof is all but complete. technical ability and plentiful material to effect. Whether in the hands of shipwrights or engineers the result has been universally satisfactory.

Not a few ocean ships have been | consumption. hauled up and repaired including the S. S. Suez some years since and more recently the U.S. warship Nipsic of 1,375 tons with her sugines, boilers and crew on board my patients whose lungs have not lay for thirty-five days on the been seriously injured and caten mechanics are doing pretty well. Work

to a successful trial trip. Those who saw the Nipsic as she first came out of the water minus false keel, a good deal of main keel out them. Medical science as yet stern post, rudder, rudder post, and forefoot, can remember what an undertaking it was, what an amount of timber and metal, what heavy castings, and careful lathe work were required and above all what a crucial test of the stability of the way and the power of the steam engine had all to called into action before the Nipsic touched water again. What has already been done may be done again, and even heavier ships than the Nipsic may come here for repairs.

The completion of the deep water passage through the bar may lead to an extension of the power and capabilities of the marine railway. Steamers to and fro, between Japan and California, between Macao and Mexico, may come here for repairs. When once the harbor is dredged, new wharf accommodations will appear, and many ocean ships may be berthed without having to turn two right angles before they are at their wharf, as they have to do now. Doubtless the experience of the Nipsic is carefully recorded in the archives of the Secretary of the United States navy, as we happen to know is the case in the British Admiralty.

In these days when every war ship or passenger steamer is a mass | evil reports repeatedly sent abroad durof machinery, panderous and massive as it is, yet so frequently driven so near to the margin of safety that a great repairing shop as Honolulu might be placed, as it is, in the middle of so many great transcontinental routes, all centering, as it were, on this spot, would be an immense advantage to all the shipping of the Pacific, and circulate sums of money in wages and material that would help to keep mechanics in the country in full work and ticians of the old regime, who really ample wages.

PROF. KOCH ON THE CURE OF CONSUMPTION.

Laborers and how they serve us," the English Illustrated Magazine, Prof. Percy F. Frankland explains that as far back as 1852 it was discovered that the disease known as anthrax, or splenic fever, is produced by the presence in the blood of the being affected, of a particular micro-organism called the "Bacillus Anthracis," and year by year one disease after another has been conclusively demonstrated to be the result of similar causes. Amongst the greatest of microscopic observers the professor places Louis Pasteur, whose name he justly savs " is familiar in every corner of the globe where civilization has made itself felt." Following in the footsteps of Pasteur are a long list of zealous investigators by whom a large amount of most interesting and important information has been collected concerning the unseen world of micro-organisms. By the investigations of Cagniard Latour and Schwann fifty years ago it was found that the mysterious substance known to brewers as "yeast" or "tann" was really composed of vast numbers of minute oval particles endowed with the powers of therefore undoubtedly living. Pasteur himself spent many years in the study of these minute oval particles of yeast, and made many discoveries as to the nature of their organism and their action in different circumstances as to environment, temperature, Amongst the diseases to which the human being is liable there is now indisputable evidence that erysipelas, tuberculosis (of which one of the commonest forms is pulmonary consumption) and others are brought about by the presence of micro-organisms, whilst

The National Zeitung now asserts that Professor Koch, the dis-

in the case of many other diseases

ways, and then went straight out away by the devouring microbes will regain perfect health. Certainly those whose lungs are gone will not be able to live long withcannot make new lungs."

"I believe," he says, "the time will come when consumption, if not eradicated from the list of ills, will become a rare malady, and a fatal termination will be the result of negligence in the early stages." Professor Koch is not yet prepared to indicate the source from which the curative matter is derived or the methods of preparation, as it is still in the experimental stage. All that is known is that it is brownish transparent liquid and must be applied subcutaneously by means of a syringe.

SOME PRIVATE CORRESPOND ENCE.

The following letter was picked up yesterday afternoon, and as it was found to relate to public affairs it is published, in the belief that the writer will not object.]

HONOLULU, Nov. 18, 1890. DEAR BOB: You asked in one of your recent letters for information about the state of affairs here. I ought to have replied before, but have let it go by from steamer to steamer, till the Legislature has adjourned, and we are at peace and quiet reigns. In short I suppose I may

CONFIDENCE RESTORED.

The steady growth of confidence in the Government since the 30th of January 1867, and the forced resignation of the Gib son administration, is doing much good at home, and will do much to correct the ing the past two years by the re-actionists, boodlers and anti-revolution party. The advent of the Thurston Cabinet,

together with the determination of our business men and the people generally not to allow the interests of Hawaii to be sacrificed to the greedy and unscrupulous policies of either "former" or "would-be spoilsmen," as re-presented by the ridiculous combination they succeeded in bringing about between the really honest and well-intentioned workingmen and the rabid crowd led by Wilcox, Bush and the Elele, has gone far in bringing about this desirable consummation.

The labor question was unnecessarily brought to a sudden crisis by these poli compelled the late Administration to refuse to carry out the law allowing the importation of the legal number of Chinese laborers per quarter. This was accomplished by putting the Cabinet in a false position, and it was hoped by these same cunning politicians to catch few votes against Thurston thereby. I In an article on "Microscopic think they succeeded. This precipitated a labor shortage, which virtually caused the planters to turn to the opponents of the whole Reform movement for aid. This was not withheld, and a bill was passed, the better clauses in spite of these politicians, but it is so cumbersome

and absurd in parts that it is doubtful if it affords any aid at all.

Since the incoming of the Reform Government, the evil influences and examples of the late (so-called) Gibson regime, have gradually been giving away to the bracing tonic of a constitutional and hence invigorating regime. The first points of the assurance of a legally administered and peacefully disposed Government have already been posed Government have already been seen and felt and tested in an increase of land values by a forefold ratio, as shown by the sales of Government lots on the side of Punchbowl since Thurston succeeded in his plans about opening up that beautiful location-hitherto a sort of terra incognita-by cutting several new streets through it. But with the dawn of returning public confidence, home enterprise and industries have also taken a step forward. The Oahu Railway not only became possible, but the public took the bonds and it was built, so with several new plantations, and although these and similar enterprises received something of a check by the incongruous combination brought about by the cunning politicians above referred to, still they had gone so far that they had to go ahead to save the money already put in.

A few weeks ago the contract for the new Ewa plantation plant was let to the Union Iron Works Co. of Honolulu, for over \$200,000 and within a few days the contract for the plant for the new Makaweli plantation on Kauai has been let for about \$250,000. The advance of land values and the letting of these and other large contracts were only made possible growth and multiplication, and by the return of political peace and the assurances held out by a conservative Government.

Government.

This could not be hoped for under the old regime, before July, 1887. It was not built that way.

The good effect of the present state of confidence was plainly seen when the news of the passage of the United States tariff bill reached Honolulu. Both the planters and the mechanics of the Kingdom immediately "pooled their issues." dom immediately "pooled their issues" to meet the emergency. Economy is to the watchword of both the Cabinet and the country; and with a continuance of the kindly favor of the United States, supplemented with a judicious policy at home, there is little doubt we shall be able to hold our own.

It is with the assurance of peace and quiet being again firmly established in Hawaii that His Majesty, who has for the past three years been greatly overtaxed with the cares and troubles of state, has at last consented to take a much needed vacation, for rest and recuperation, in the United States. This he will now enjoy with the assurance that the King-dom is in safe and patriotic hands during his absence, and I believe I echo the coverer of the cholera bacillus, has at last found out a means of curing, or at least arresting the progress of consumption.

According to the San Francisco Chronicle, by telegram from Berlin, Professor Koch says: "I am labor market, we are in a fair way to wish of every resident and subject who

labor market, we are in a fair way

is plenty, and I understand that both the Union and Honolulu Iron Works are full of work, though it was said that there never would be sufficient for two com-

plete and independent concerns.
Give my "Aloha," that is what we say hear, to Mary, Jane, Sally, Billy and Jake. Tell Maria I am coming to get her one of these days, when my house on Punchbowl, made possible by the Thur-ston roads and vigorous policy of internal improvement, is finished. She will make a lovely mistress for a tropical home. I guess that Spencer is going to carry out Thurston's plans and projects about internal improvements. Whew! I never wrote such a long letter. Yours very sincerely,

P. S.—I was going to mail this by the Australia, but forgot it, then took it down for the Charleston and found I had lost the copy, so had to hold it to get another, and you can judge of my disgust and actions ment and actions ment and actions ment and actions beautiful. gust and astonishment when I picked up the Bulletin this evening and saw that they had had the meanness to get hold of my copy and with omissions and changes making it apply only to the pre-sent Cabinet, they had the cheek to publish it as editorial! Anybody can see though that the reference to this Cabinet only is forced and silly.

I think I'll go to Thurston or Neu-mann and get either of them to sue the Bulletin for \$30,000 damages, like that chap Oliver did-for false personation or something! I am disgusted! Tom.

The object of the meeting was stated by Secretary Spencer, to receive the handsome baseball trophy presented to the league by Mr. A. G. Spalding, the great baseball magnate of Chicago.

Mr. George, W. Smith was introduce to the members of the league, and spoke as follows:

ME. SECRETARY AND GENTLEMEN: On there will probably be a run on Nov. 25, 1888, when the good ship Alas meda arrived here, having on board Mr. A.G Spalding and the combined Chicago and All America base ball teams, although it was Sunday, such a royal, enthusiastic welcome was given them that it made a lasting impression upon Mr. Spalding's mind. He expressed to me a desire to in some way reciprocate for the great kindness, and asked my opinion. peted for by the clubs of these islands. He caught the idea at once, and said that he would give a cup. Although some time has elapsed since then, there is sufficient reason for the delay. His trip took up much time, and when I saw Work on the new chapel and only just returned home. He spoke of the matter, saying it would have his early attention. The dissentions in the baseball league, business matters and other things have interfered, but now I am happy to say it is here. In a letter received, Mr. Spalding asked me to deliver it to you with his best wishes and the hope that the game of base-ball will continue to hold its own here and even attain that point in the public interest which it has reached in the United States, and which he personally by his gentlemanly bearing and honesty of purpose has done so much to further. Gentlemen of the Hawaiian Baseball League, in the name of A. G. Spalding & Bros. I have the honor to present this cup, and by their direction it is to become the property of the club winning it three successive seasons. May the best club win.

At the conclusion of Mr. Smith's remarks, which were closely listened regent during His Majesty's absence to and applauded, that gentleman opened the case, and exposed the trophy to the view of the members of the league.

> Hearty cheers were given for Mr. Spalding for his most handsome donation. A majority of those present gazed on it for the first time, and all were loud in their praise of the

> Secretary Spencer then called upon Mr. W. B. Oleson to speak on behalf of the league, which that gentleman did in appropriate terms, and moved that a set of resolutions be drawn up and presented to Mr. Spalding. Secretary Spencer appointed the

> following committee to draw up the resolutions: Messrs. W. B. Oleson, H. M. Whitney, Jr., and F. J. Testa. On motion it was decided that the trophy be retained in the possession

A Fine Display of Holiday Goods.

The jewelry establishment of Messrs. Wenner & Co., Fort street, is one of the most attractive features thoroughfare. Since the business was inaugurated, the proprietors have enjoyed uninterrupted success. They have always carried a full assortment of the finest jewelry of the most tasteful and fashionable designs, and watches of the leading pointed and at the present time the windows and showcases are completely filled with a magnificent stock specially selected for the holiday

In gold watches there is a large variety, beautifully chased and of different designs. Other specialties, all very suitable for presents, are ladies' diamond brooches, lace pins, bangles, necklaces, bracelets, gents' studs, rings, scarf pins, sleeve buttons and other things too numerous to mention. The opal and diamond jewelry imported direct from England is handsome. There is a complete line of solid silver and plated ware, clocks of all kinds, operculum jewelry, gold headed canes, etc. The native jewelry is really beautiful and includes so many designs, making such articles especially suitable for sending as presents to friends. A visit to this store will repay one, for there is much to be seen that is fascinating, and the firm do not consider it any trouble to show goods.

An Old War Veteran.

Capt. McDonnell, the well known war veteran, arrived on the Zealandia. He has brought with him the great new war book-" Battles and Leaders of the Civil War." It has been twenty years in preparation, and is contained in four volumes. The New York Observer says there can be no doubt of the fact that when this series is finished, it will be the most elaborate, most complete and satisfactory war history ever issued in the difference between his bid and that world. Capt. McDonnell is stopping of Harrison Bros., which is pretty at the White House.

THE KING'S DEPARTURE.

The Flagship Charleston Sails for San Francisco With His Majesty on

His Majesty the King boarded the U. S. Flagship Charleston punctually at 2 o'clock Tuesday afternoon amid the booming of cannon, and a few minutes later the magnificent war vessel glided out of the harbor en route to San Francisco. His Majesty bid farewell to the

Queen and other members of the Royal family at the Palace, and entering the state carriage attended by Hons. J. O. Dominis, A. S. Cleghorn and H. M.'s Chamberlain, Col. G. W. Macfarlane, with the staff officers on horseback, was driven to the wharf at the foot of Fort street.

Among those on the wharf to say good-bye to the King were: Their Excellencies J. A. Cummins, Minister of Foreign Affairs, Godfrey Brown, Minister of Finance and Chas. N. Spencer, Minister of In-terior; Mr. Justice McCully, Mr. Justice Bickerton, Senhor Canavarro, Portuguese Commissioner, Mons. d'Anglade, French Commissioner, Mr. T. Masaki, Japanese Consul, Mons. Vizzavona, French Chancellor, Hons. S. M. Damon, J. S. Walker, W. H. Cornwell, Sam'l Parker, Paul Neumann, E. C. Macfarlane, J. E. Bush, Messrs. J. H. Paty, F. A. Schaefer, F. W. Macfarlane, J. M. Monsarrat, Marshal Hopkins and J. W. Robertson, H. M.'s Vice Cham-

A barge was in waiting in charge of Lieut. Dyer of the Admiral's staff, into which the King stepped, amid cheers from the crowd. As the barge left the wharf, the band on the steamer J. A. Cummins struck up with Hawaii Ponoi, the yards were manned on the U.S.S. Mohican and Mohican and the shore battery.

His Majesty was received on board | satisfactory umpires. by Admiral Brown and His Ex.John L. Stevens, U. S. Minister Plenipotentiary. The royal standard was hoisted and the Charleston band played the Hawaiian national anthem. It was a gay sight in the harbor, all the merchant vessels being dressed in bunting, and immense numbers of people lined the wharfs. While the Charleston band played "The Girl I Left Behind Me," the Nymphe drum and fife band "Auld Lang Syne," and our own band "Glory Hallelnjah," while the Mohican crew climbed the rigging and gave cheers, and several vessels dipped their flags, and amid the wavwith its royal guest on board gave a last farewell by blowing her syren, and glided gracefully out of the harbor, accompanied as far as the bell buoy by the steamer J. A. Cummins.

. ... THE MINSTREL ENTER-TAINMENT.

A Large Audience in Attendance at the Opera House-An Uninteresting

The Honolulu Amateur Minstrels gave a performance at the Hawaiian Opera House Saturday evening The runs were made by Creamer, Leveque, Ward, Cahill, Farrell and which was attended by a very large audience. A good show had been promised and that was what probably led to the good attendance. But it was far from being satisfactory, failing to reach first.-Leveque flied indeed a good many people left the building before the programme was. half through.

When the curtain rose, eighteen niggers" were seated in the circle. W. H. Hoogs and W. H. Charlock rattled the bones, W. V. Lockwood and G. L. Ritman handled the tambourines and W. L. Roberts was interlocutor. The latter was also stage manager; Oscar Herold, musical director, and M. H. Jones, chorus director. The "niggers" were all in evening dress and made a creditable appearance. The Hawaijan string orchestra did some good work under the skillful direction of Mr. Herold, but why music was not furnished during the intermission is somewhat strange. It was very tedious for the audience to sit there between such long waits. H. A. Huff, who has a nice bass voice, deserves especial mention for his singing of the song "If the waters could speak as they flow." He was deservedly encored. Messrs. Ritman, Lockwood and Hoogs sang comic songs and were also encored. The jokes in between were pretty good, a few having a local tinge. The "great and only Lockwood," as announced on the programme, was a failure. Ritman is quite a banjoist and pleased the audience. The last piece was called an original, laughable skit - "A Haunted House." It was the flatest affair ever put on the boards of the Opera House. There was nothing to it, and those who took part did not seem to know what they were doing. At the close the orchestra played " Hawaii Ponoi."

The Honolulus Out on a Leather Hunting Expedition.

The Californias Play a Faultless Field ing Game and Bat Meek out of the Box-A Fair Sized Audience in Attendance.

The third game of baseball was played on Saturday afternoon between the Californias and the Honolulus. There was a fair sized audience in attendance, not so large by any means as at the first and second

The Californias put up a splendid fielding game, their playing at times being a treat to witness. Power is a daisy first baseman, doing some extraordinary fielding. Howard at third was also in fine form and is credited with two put outs and seven assists. His throwing to first was pretty. Ward did excellent work behind the bat, in fact the whole of the team played well.

Meek pitched for the Honolulus

and was batted out of the box, W. Lucas taking his place in the eighth innings. The Californias made seventeen hits off Meek with a total of twenty-two bases. Coyne played a lazy game both in the field and at the bat. Why not put someone else in his place who will try and play a little? Fredenberg was not seen at his best. Chandler and Conrad H. M. S. Nymphe and royal salutes were fired from the Charleston, the Mohican and the shore battery.

In this best. Chandler and Cohrad fielded well, the latter also getting in two safe hits. Chas. T. Wilder and Merris K. Keohokalole were

THE PLAY.

First innings-Honolulus to the bat. Wodehouse opened the game by getting in a nice two bagger to left field. Chandler foul flied to Power, Coyne was out at first from Cahill. Wilder took his base on balls and stole second. Whitney was fielded out at first by Cahill, Wodehouse being left at third.— Cahill hit to Fredenberg who threw low to Wodehouse, the striker being safe at first. Farrell was retired at first by Whitney. Howard got in a single and stole second. Power was well fielded out at first by Chandler, dipped their flags, and amid the wav-ing of handkerchiefs—the flagship with its royal guest on heard gave a ended the innings by going out at first from Meek.

Second innings-Coprad hit the ball clear down the third base line for one bag, but was put out trying first from Reilly, Fredenberg fan-ning out.-The Californias got in six runs the play being very tedious. Creamer, Leveque and Cahill made singles, Ward sacrificed and Farrell rapped the sphere for two bases. Conrad made a bad misjudge of a fly hit by Power and Chandler and Wodehouse were also at fault. Power. The outs were Howard at first, Sharp on strikes and Creamer on a fly to Chandler.

Third innings-Meek flied to Farrell, Wodehouse and Chandler both to Conrad. Ward got in a single. Cahill hit for two bases sending in Ward. Farrell foul flied to Meek and Howard retired at first.

Fourth innings-Coyne's bat had a hole in it, and he sulked. Wilder rapped a beauty into left field for two bags. Whitney got in a base hit and stole second. No runs were made as Conrad struck out and A. Lucas was not allowed to reach first base.-Power hit for two bases, Sharp struck out. Reilly hit one up in the air which Meek failed to hold, being too sure of it. Creamer flied to Whitney. Leveque's base hit sent in Power, but the innings ended by Leveque being caught napping

Fifth innings-Fredenberg was out at first from Creamer. Meek flied to Leveque and Wodehouse to Cahill .- Ward got four bad balls and took his first. Cahill flied to Courad. be rendered: Farrell retired at first, Ward scoring (a) Elijah' Prayer on the out. Howard also died at

Sixth innings - Chandler and Coyne both failed to reach first, Wilder fanning ont.- Power was fielded out at first by Meek, Sharp flied to Coyne and Reilly wasn't allowed to reach first bag. Seventh innings—Whitney retired

at first from Howard. Conrad and A. Lucas both made base hits. Fredenberg hit to Cahill, who threw to third, cutting off Conrad. Meek struck out.-Creamer hit to Fredenberg, who threw poorly, and he took his first, stealing second. Leveque hit a grounder to Chandler, who let it go right past him, Creamer tallying. Ward bunted the ball to Meek and took his first. Leveque was put out trying to steal second. Cahill hit to Fredenberg, who fumbled, Ward scoring. Farrell got in a single and Cahill was retired between third and home. Howard hit to Fredenberg, who threw to the home plate, but Farrell scored safely. Power was credited with a base hit, Howard taking the opportunity to make a run. Sharp flied to Meek.

Eighth innnings-Wodehouse was out at first from Howard, Chandler foul flied to Ward and Coyne again into the pitcher's box, but he muffed ence.

it. A wild throw by Wilder and Conrad's error helped Reilly to score. Creamer made a base hit and stole second. Leveque flied to Conrad. Ward and Cahill both retired

at first, Creamer being left at third. Ninth innings-Wilder struck out, and the game ended by Whitney and W. Lucas both failing to reach first

Death of Mrs. Covington.

We regret to announce the death of Mrs. Richard Covington, which took place rather suddenly at the residence of her niece Mrs. Dr. Campbell, Waimea, Kauai, last week. The remains were brought down to Honolulu on Sunday on the Mikahala, and the funeral will take place this afternoon at half-past 3 o'clock, from St. Andrew's Cathedral.

The deceased lady was the widow of Mr. Richard Covington, who at one time was connected with the By order of the Board of Education, I shall Government Survey. She was a sister of Mrs. Thos. Brown, Mrs. Von Pfister, Mrs. Robinson, Hons. God-frey Rhodes and C. F. Hart, and aunt to His Excellency the Minister of Finance, Mrs. Mackintosh, Hon. Cecil Brown, Messrs. Frank and Malcolm Brown.

The reserved seat sale will commence at William's photographic gallery on Thursday morning at 9

A Good Idea.

Manager Hoogs with the intention of giving a good game next Wednesday at 3:30 P. M. has made arrangement with Harry Whitney to divide the Honolulus. Whitney will take four players from the California Club, and manager Hoogs will take four of the Honolulus. This will even the clubs, and insure a good game. It will be of great interest to game. It will be of great interest to being removable by the present lessee at our public to see the local boys play the expiration of the existing lesse, which with the visitors, and a big crowd will be present.

TWO THANKSGIVINGS.

It was Thanksgiving Day in Honolulu That city of brenze skins and splendid velvety black eyes. Honolula at Thanksgiving: hot, lavish, gorgeous. Everywhere flowering " lantanas," and single vegetation like an enchanted garden in drive the thoughts from her mind. the green gloom under the endless vault of algaroba and palm trees

Oh! that stillness, that glory, that faint odor of the soil and of the flowers. The day was dying; the light perceptably fading. A few golden torches still lingered here and there on the tops of the palms, and then even the last gleams | and began pacing the room.

The friends were gathering; the carrigreat airy lanai, and here and there the silent groups were becoming quite conversational, and seemed to forget, in the beauty of the world outside what occasion had brought them together.

There is always something sad in the death or an old man, and especially when he leaves a wife who has been for years part and parcel of himself. But when he has outlived the alloted three score years and ten, is rich and possessed of a young and charming wife, he is not usually deeply mourned. Under | beautiful tropical home with its balm the circumstances, unusual grief is not airs and odor of flowers for Michigan to be expected, as an aspiring young man whispered to his neighbor.

In her own room, the newly-made widow sat with clasped hands gazing out into the night. The full moon was sailing high in the heavens; its beauty seemed to rouse her, and she walked to the edge of the veranda and looked out Puncippowl, the fashionable resident portion of the city, and the scene that stretched out before her seemed, like a clearly outlined as in mid-day-it one ary enough looking in the day time, was head far above all else, and it seemed lined against the dark wall of foliage, like a solitary star in the blue heavens. Overhead rose Punchbowl, majestic still even in its ruin; beneath, the sleeping city; beyond, the silver sea.

It needs nothing," she said to herself, "the picture is perfect. Cun this be Thanksgiving day, with the air heavy with odors, and the smell of the soil' Ab! I am indeed an exile.

A low knock roused her from her reverie, and a servant entered, saying that the lawyer was about to read the will, and when she was ready he would come for her. Surely her visit more beautiful than ever as it was out- to-day would end in complete victory. As she thought of her success already almost achieved, her whole being swaved in a fashion that one sees in some phrases of that "barbarically interesting" native dance of the Hawaiians-the "hula." She had not known such real joy for years, a delight enhanced, perhaps, by its very want of a surety that it would be realized.

As the driver drew up before his door, she alighted and gave her orders in a clear, steady voice. She gave the bell two impatient jerks, and waited. Soon a pretty-faced woman of about thirty-five

"Mr. Sladden lives here, I believe," said Alice in her most conciliatory tone. "Yes, he lives here, and he is in. Would you like to see him?" she asked in a low, sweet voice. The servant led ber through a long hall to a little reception room in the rear, took her card, and bowed herself out.

Alice was not sorry for a few moments to herself; at last the time had come for which consciously or unconsciously she had shaped the last two years of her life; Although possessed of the usual legal she felt no fear, no anxiety, and deep relatives-a few to needy friends, and soman's scutiny, and her eyes filled as room was small, and daintily furnished swern to, which provided that in case | On one side of the room was a series of book-shelves with their well-worn books, to him in happier days; on the table If the widow had been pale before she stood a silver vase full of white tea roses, one of which had fallen on an open page and served for a bookmark.

Footsteps sounded along the corridor, then the curtains were drawn aside; her heart beat faster and faster; only by a mighty effort did she keep from crying He came forward and took her hand-" Really, Mrs. Alling, this is an unexpected pleasure, when did you ar-

"To-day-yesterday," she stammered, scarcely knowing what she said. "Pray be seated," he said, as he poshed a chair towards her.

She obeyed, feeling somehow like one waking from a dream, a little chilled, a little frightened. For a moment she sat there gazing intently at him, then the tempestnous undercurrent burst through

"Do not ask me why I came to you, do not pretend to misunderstand me-I were forever over now, and her reward have come to give you back four years was greater than she had even dared to ago you asked me for-Harry, don't be cruel- remember how you loved me that her marriage had been a mistake. paused, tears filled her eyes, her delicate She had done her duty as a wife, she nostrils quivered, and her pale cheek

She waited for him to answer. He tapped the carpet lightly with his foot, then he said in a firm voice: "Four years ago I gave you the love of a true, honest heart; you have it still. I asked you to be my wife, bear my name and be the her lap, her hands tolded above it. Its mother of my children—this you can never do now. I will never give you the pain of seeing yourself supplanted. If you ever need a friend I have a right to

DR. J. COLLIS BROWNE'S CHLORODYNE.

THE ORIGINAL and ONLY GENUINE. THE ORIGINAL and ONLY GENUINE.

Advice to Invalids.—If you wish to obtain quiet refreshing sleep, free from headache, relief from pain and anguish, to caim and assuage the weary achings of protracted disease, invigorate the nervous media, and regulate the circulating systems of the body, you will provide yourself with that marvellous remedy discovered by Dr. J. Collis Browne (late Army Medical Staff), to which he gave the name of CHLORODYNE, and which is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for Coughs, Consumption, Bronchitis, Asthma.

CHLORODYNE acts like a charm in Diarre-

CHLORODYNE acts like a charm in Diarrhosa, and is the only specific in Cholera and Dysentery. CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation, and Spasms.

CHLORODYNE is the only palifative in Nen raigia, Rheumatism, Gout, Cancer, Toothache Meningitis, &c. Meningitis, &c.

From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simia, January 5, 1889. To J. T. Davenport, Esq., 33, Great Russell Street, Bloomsbury, London. Dear Sir,—We embrace this opportunity of congratulating you upon the wide-spread reputation this justly esteemed medicine, Dr. J. Collis Browne's Chlorodyne, has carned for itself not only in Hindostan, but all over the East. As a remedy for general utility, we must question whether a better is imported into the country, and we shall be glad to hear of its fluding a place in every Anglo-Indian home. The other brands, we are sorry to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances ad infailum of the extraordinary efficacy of Dr. Collis Browne's Chlorodyne in Diarrhea and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnance, and as a general sedative, that have occured under our personal observation during many years. In Cholerate Diarrhea, and even is the more terrible forms of Cholera itself, we have witnessed its surprisinely controlling power. We have never used any other form of this medicine than Collis Browne's from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a Deliberate Breach of Fairh on the part of The Chemist Breach of Fairh on the part of The Chemist Breach of Fairh on the part of The Chemist Breach of Fairh on the part of The Chemist Breach of Fairh on the part of The Chemist Breach of Fairh on the part of The Chemist Breach of Fairh on the part of The Chemist Breach of Fairh on the part of The Chemist Breach of Fairh on the part of The Chemist Breach of Fairh on the part of The Chemist Breach of Fairh on the part of The Chemist Breach of Fairh on the part of The Chemist Breach of Fairh on the part of The Chemist Breach of Fairh on the part of The Chemist Breach of Fairh on the part of The Chemist Breach of Fairh on the par

H. R. H. the Regent Holds a Reception at the Palace-Healani Boat Club's Moonlight Excur-

sion to the Grove-Salutes, etc.

The forty-seventh anniversary of the recognition of Hawaiian Independence by the Governments of Great Britain and France was observed on Friday as a national holiday, and all Government offices throughout the kingdom were closed.

The Government, diplomatic and consular flags were flying, and there was a display of bunting in the harybor. At noon salutes were fired from the shore battery at Kakaako and the U.S. S. Mohican. Very little business was done during the day, stores as a general rule being closed. The only event in commercial circles was the departure of the Kineu for Maui and Hawaii.

Reception at the Palace-

At Iolani Palace at 11:30 o'clock, His Excellency Hon. John L. Stevens, Minister Plenepotentiary and Envoy Extraordinary of the United States, called and paid his respects to H. R. H. Princess Liliuokalani, as Regent. At 11:45 Senhor A. de Souza Canavarro, Charge de Affairs for Portugal and Mons. G. B. d'Anglade, Commissioner for France, also called to offer their respects. They were presented to the Regent by Mr. Jas. W. Robertson, H. M.'s Acting Chamberlain. Her Royal Highness was attended by His Excellency Hon. John A. Cummins, Minister of Foreign Affairs, and Miss Louisa B. Brickwood, maid of honor.

The Baseball Game. The game of baseball on the new

grounds between the Californias and Hawaiis was the event of the day without doubt. It was thought by many that the Hawaiis would make a much better showing with the visitors than the Honolulus did on Thursday. It proved to be so; they layed a splendid game, and kept Leir opponents down to eleven runs, besides making two themselves. There was an immense crowd of people at the grounds. The grand stand was completely full, and enthusiasm reigned supreme there as the game progressed. The grounds were well lined with spectators, and there was an unusually large number of carriages. The weather was perfect and the diamond in splendid condition. The umpires were Chas. T. Wilder behind the bat and W. Lucas in the

Some very pretty fielding was done by the team as a whole. In the first innings while playing off second Howard hurt his leg slightly. It recovered without the use of St. Jacob's oil. Cahill and Creamer both got hit in the ribs by pitched balls, but it did not interfere much with their after

The Hawaiis got five hits off Leveque, and their fielding throughout the game was entirely satisfactory to the spectators, only two errors being made. They deserve much credit for their fine play. Good boys I

THE PLAY. "

First innings- Hawalis to the bat. Pryce retired at first from Creamer, Self struck out. Luahiwa got four bad balls and took his base. He stole second and was left there, as Mahuka foul flied to Power.-Cabiil died at first and Farrell ffied to Davis. As is customary in Honolulu, after two men are out, run-getting commenced. The Cals. got in jour. Howard rapped a single to left and stole Power placed the ball in left field and reached second bag, Howard tallying. Reilly hit for one bug, Power Creamer sent the ball into center, both Sharp and Reilly availing themselves of the pleasure of stepping on to the home plate. Leveque's hit did not count anything as the ball was

thrown to third, retiring Creamer. Second innings-Pahau was given his Keobobase on balls and stole second. kalole and Davis fanned out. Luahiwa sent the crowd wild when he made a dandy hit for three bags into center field, and allowing Pahau to score. He was belt at third, as Thompson was fielded out by Howard.-Ward waited patiently for four balls and got them, stealing the second bag. Cabill bit to Davis, who threw wild to first, Ward scoring. Farrell and Howard were both out at first. Cultil scored on a wild pitch. Power

died at first Third innings-Pryce and Self were put out at first. Lawelawe took his base on balls, but was put out attempting to steal second.-Sharp reached first on balls. Reilly hit a fly over second baseman's head, which Lawelawe caught in shape, and made a double play by thing off Sharp at second. Creamer who but by pitcher. Leveque died at first. Fourth innings - Mahuka flied to Leveque. Pahau after making a base hit thought he could steal second, but failed. Keobokalole was retired at first -Ward rapped for two bags. Cabill was fielded out at first, Ward crossing the piate. Farrell used a but with a bole

in it, and resumed his seat on the bench. Howard flied to Thompson.

Fifth innings-Davis, Luahiwa and Thompson all fell victims to Leveque's curves. - Power, Sharp and Reilly re-

Sixth innings-Pryce after reaching first and stealing second was put out trying to get home. Self was credited with a base hit, and scored on a wild throw to second by Leveque. Lawelawe hit for one base, but was caught napping off first. Mahuku was put out at first.—
Creamer foul filed to Luahiwa. Leveque rapped out a single and stole second. Ward flied to Keohokalole, and Cahill failed to reach first.

Seventh innings—Pahau slipped up at first, Keohokalole flied to Cahill, and Creamer fielded Davis out at first .- Farrell hit to Thompson, who threw very wild. Howard also hit to the little shortstop, who instead of throwing the ball to first, got it at second too late to do any good. Power made a beautiful hit to near the seven board for those here. hit to near the score board for three bags, sending in Farrell and Howard. Sharp foul flied to Pahau. Reilly's fly was ac-cepted by Self and throwing the ball quickly to third Power was retired.

Eighth innings - Lushiwa flied to Sharp, Thompson striking out. Pryce made a base hit, but was put out trying to steal second .- Creamer hit for one base and stole second. Leveque got in a single, but was put out at third. Ward fanned out. Cahill hit to Thompson and was safe, Creamer tallying. A three-base hit by Farrell helped Cahill to score. Howard filed to Self.

Ninth innings—Self retired at first, Lawelawe flied to Reilly and Mahuka

The Healani Moonlight Excursion.

The event that brought Independence Day to a close was the Healani Boat Club's moonlight excursion to that favorite resort, Remond Grove. The members had been very active for several days previous in selling tickets, and the result was that the attendance at the excursion exceeded their most sanguine expectations. All the arrangements were complete in every respect, and those who went down had a most enjoyable time. The moon was quite bright after 9 o'clock, and the weather very fine though a trifle cool. Dancing was carried on to the strains of the Hawaiian band, and make us depreciate what we have in rethere was a bountiful supply of re-freshments. The Healani Boat Club is to be congratulated on the success of its first public entertainment.

THANKSGIVING SERVICE.

The Day Observed at Central Union Church and St. Andrew's Cathedral.

Thursday being Thanksgiving Day, special services were held in the morning at 11 o'clock at Central Union Church and St. Andrew's

CENTRAL UNION CHURCH.

At this church there was a large congregation present, the U.S. Minister Plenipotentiary and the Consul-General being among the number. The pulpit platform was decorated with plants and flowers, and on the front of the organ were American and Hawaiian flags. The Rev. Dr. Beckwith opened with prayer, and then read President Harrison's proclamation. Rev. A. N. Fisher read the scripture lesson, and also offered up a prayer. The sermon was preached by the Rev. O. P. Emerson from Col. 3:11: "Where there is neither Greek nor Jew, circumcision nor uneireumeision, barbarian,

by Miss Barnard and Mr. Starkey. The Rev. Alexander Mackintosh preached the following sermon:

"Recognizing that the principles of Christianity are essential to the life of civilized men"—These—the opening words of the announcement of this Thanksgiving Day—are enough incentive to rouse the most careless and indifferent to a sense of their obligation to the Author of all their good. With what joy then does the loving Christian see the acknowledgment of his Lord by the representative of a great nation of the earth—the calling together of millions of those for whom Christ died to confess that they owe to Him all the blessings that they owe to Him all the blessings ready to minister to the wants of his peoand benefits and privileges-all their happiness, peace and comfort to His deems that his year's account is settled divine will and favor. It is the first in full by one day's devotion is making principle of true thanksgiving to recognize the author from whom the blessings and the mercies flow. When we can see that it is "not we ourselves"-not by our own power or might that our proshearts to some other power. How supremely fortunate are those who can fix their gaze aright and "praise God from whom all blessings flow!" "Open thy mouth wide and I will fill it." Enlarge your desires, wish for everything and true heart, and intend to show forth you please, and you shall be satisfied—this devotion in their lives by the if only you believe that I alone am the holy spirit of God, which they so God that can deliver you—" for all the fervently pray for, and which God will earth is Mine," saith the Lord of hosts. earth is Mine," saith the Lord of hosts
What are the blessings we have received is ever open to the prayers of his people. from the beneficent hand of the Creator, and how are we going to offer thanksgiving and pay our vows to the Most High? First of all: Is there on this earth a people on whom God nath showered more of His love than on the diversity of nations who live on these favored isles? No doubt there are many of us who do not fully appreciate what we enjoy, and who will not really see the value of many things until by some chance we are deprived of them; while others again are filled with gratitude that their lives are placed in such a pleasant The love of native land-the affection for old association is still strong -and will at times fill our thoughts-but for so much goodness as we reap here we must be content to forego such things as we have left behind, and not allow the loss of them to absorb our attention, and turn. If we do not reason in this way, we may be sure that we are not offering

throne of the Most High. God has indeed crowned the year that has just passed with His goodness. Earthly benefits and spiritual blessings have fallen to the lot of each of us. The Father of all mercies has visited us, and given us warnings at times that all is not here-that we must not fix too firmly our affections on things which pass ings, sent to purify us, and urge us to greater efforts, and bring down upon us more fulness of God's grace. Some of us have suffered pain and deprivation-have been touched in our mercies, which cannot be taken away, and with this look forward with brigh hope for a turn in the tide of affairs which now seems to flow against them. Present pain and loss should not destroy gratitude for favors received, though all the strength of our better nature must be exerted to keep it alive. Trust and confidence in the Creator, Ruler of all things-deep, earnest love-and unwayering faith in His power will keep the heart warm and the mind serene, the clouds will scatter and the bright sun of joy will shine forth again to cheer our saddened souls. But have we not some sacrifice of praise and thanksgiving for the every day benefits we have received. We have not seen the fields white with harvest-we have not seen the corn, the wine and the oil garnered, but the products of this tropical country have yielded their increase—wealth has flowed into the land of which hardly any can say he has not received his share. We see around us indications of further development of the resources of the islands and of greater prosperity. With judicious management—by which, I mean—a right and wise use of God's blessings, and gifts of intellect, power and wealth each year will make this kingdom firmer on its own base-and raise it in the esteem of the other and greater nations of the earth. But nothing will do this like rectitade in all

unto God the thanksgiving which we owe

unto Him, or paying our vows as we ought. We are looking down upon the

earth, and not up unto heaven-the

over-sharpness in business transactions is a name worth striving for-and to possess it should be our constant effortpossess it should be our constant effort—
at all risks. It will be ours if we are
trusting in God and doing all in his
name and for his glory. And this not
on one appointed day in the year, but
daily throughout our lives. This is the
way we pay our vows to the Most High.
Whatsoever we do doing all to the glory
of God. Then will the praise of thanksgiving with its sacrifice he a sweet smellgiving with its sacrifice be a sweet smell-

ing savor unto our God.

But this day is the day of reckoning. This is the day the bills become due. We must draw our balance to see how we stand. Very few of us but will find that in our duty to God we have warre little if our out the seed of th very little, if any, on the credit side. Now is the time to pay our debts. They cannot be paid in gold always. We have vows to pay. Votive offerings that are richer than gold. There is the sacrifice of personal ease and comfort; the gift of time; the inconvenience suffered without murmuring. Not a few of these vows have been paid, but they must be re-newed and paid again, if we wish to gain the promised eternal reward of His love. The charitable institutions of the islands are not allowed to languish, and much private benefaction of which the world knows very little is constantly being carried on. As our intercourse with the outer world increases, and our communication with other countries becomes more frequent, we must expect to be Scythian, bond nor free, but Christ, who is all and in all." The choir rendered some very excellent music.

Scythian, bond nor free, but Christ, joys, the poor as well as the rich, of the world, and we must make preparation for every contingency. There is one danger which, though not peculiar to our At this church there was a goodsized congregation. The choir of
ladies and gentlemen rendered the
music with much skill and taste.

danger which, though not peculiar to our
isiands, is perhaps one into which our
people more readily fall, and that is wearying in well-doing. The most necessary acts
of charity become wearisome if not per
in the true spirit of thanksgiving
and of paying vows to God for his mercies vouchsafed already. This is the only
spirit which will sustain us in our good
works. All other motives lose in energy
and strength, and the good work begun and strength, and the good work begur with much enthusiasm and carried on for a time with energy will finally flicker Psalm 50-14: "Offer under God thanks-giving and pay my yows unto the Most High." and die out. This is the day on which to revive the right spirit, to offer earnest, heart-felt prayer to God to give us His heart-felt prayer to God to give us His ple in everything in our power. He who in full by one day's devotion is making a grievous mistake, and he must be pre-pared to render an account to the Judge of all the earth at his coming. How joyful will be the thanksgiving of all those who make this day the time for deepenperity arises-we naturally lift up our | ing their love and gratitude-the starting point for new efforts, the registering of Let each one of us be as just towards God as we expect Him to be just towards us, and then we shall not find ourselves withholding from any his just due. Being just towards God we cannot be unjust towards our neighbor.

True sacrifice of thanksgiving will not allow us to become so entirely absorbed in the cares and pleasures or the sorrows of this life. Neither shall we be content with what we do, or rest in the thought that we are ministering unto God from our own goodness of heart. God requires nothing from us. He is the Creator and Giver of all good things. "If I am hungry I will not tell thee,"He says for every beast of the forest is mine, and so are the cattle on a thousand hills. Therefore let us offer unto God thanksgiving and pay our vows unto the Most High, out of pure and unfeigned lips from a grateful heart and so shall we join the whole creation in the song of praise which will reach to the Heaven of

The Great Sale of Building Lots Goes Beyond Expectations - Full Parti-

Notwithstanding the showers and very unsettled appearance of the weather on Saturday morning, quite a large number of gentlemen and ladies went down by rail to Pearl city, most of them taking the 11:45 train, which arrived at the Manana depot at 12:15, where the train was greeted by the Hawaiian Band. Two busses, specially provided for the use of visitors, were in waiting, to convey such as desired to ride up the hill, through the broad avenues which have been recently laid out. The first and principal object of interest was the distributing reservoir, which is perhaps 700 yards from the depot, and in size about 150 feet square, occupying fully an acre of ground which has been fenced in. This reservoir is lined with asphaltum, and was full of clear, sparkling water, some ten or twelve feet in depth, and is provided with a water pipe to prevent overflow in freshets. The banks are sodded with maniania or Bermuda grass, which is said to render the embankments stronger than those constructed in any other way. The water supply is ample for the present needs of the place, ever if every lot below it is built upon by settlers. It is the intention of the company to have a second distributing reservoir constructed a little higher up to meet the wants of those

About 1 o'clock P. M., the pavilion became the center of attraction, Mr. H. Johnson of the Hamilton House, having there provided a lunch, sufficient to serve 250 guests. Everything was done with taste in connection with this repast, and all the guests appeared to have appetites specially arranged for the occasion. A more generous or toothsome repast could not have been provided in Honolulu itself.

About 2 o'clock Auctioneer Morgan mounted a bench, and read the terms and conditions of sale, which were the same as had been published. With the aid of a large map the lots near the depot being the first offered. The bidding and lots 75x150 feet which had been valued at \$250, rapidly went off at \$300 and over, some reaching \$400 and over, for those located below the government road. But when those higher up, 100x200 feet, were offered, the prices advanced to over \$500, and thence to \$575 for one or two favor-

It was after 4 o'clock when the whistle notified the audience that the sale must be closed, though the bidding had not flagged in the least to the close, and had there been another hour to continue it, nearly all would have been disposed of at good prices. Altogether the sale has been a very successful one, and it is probable that every lot will soon be taken up at an advance on the prices realized at the sale. We are informed that nearly forty persons have signifined their intention to build during the ensuing year on the land purchased by them, and no doubt others

will follow their example. At 4:30 sharp the train left Manana depot, and after a pleasant run arrived at the city depot at 5 o'clock, having covered twelve miles in thirty minutes. This time will doubtless be reduced to twenty or twenty-five minutes, so that residents of Pearl City will be no longer in reaching town than residents of Kapiolani Park now are on the tramway.

HAWAIIAN HARDWARE COM-PANY.

Beautitul Display of Holiday Goods and Presents-The Store Well Worth

Though the Hawaiian Hardware Company has not been long established, they have gained for themselves an enviable reputation for the fine quality of goods they keep on hand at all times, and they have won an extensive patronage, which has become permanent and increasing. At the present time the display miles distant, which can afford of holiday goods is one rarely seen in this city, especially in silver ware. Take for instance the water pitchers. water tilting sets, tea and coffee sets. These are in the very latest designs, richly chased and the figures are marked very low down. Ladies will find a handsome assortment of jewel cases to select from. One exceedingly pretty article is a silver epergne or center piece. It is really gotten." a work of art and would make an ornament fit for any table. There is him there?" an endless variety of cake baskets.

Those who use champagne will holders of oxodised silver. Other then. A stranger came in from specialties, never before seen here, the West with three horses to sell, are salad bowls with lobster handles, crumb trays with "just a few crumbs " engraved, on and cheese holders, the latter a very cute idea, nied that he stole 'em, and one on the silver ware, and also to a Rockwood vase, which is a gem.

The Haviland ware, imported direct from France, is really beautiful one of the listeners. to behold. It can be found in beefpatterns and sizes. If you break or lose one or more pieces you can al-ways renew them, there is no trouble in this respect whatever. It would be impossible to enumerate the large assortment of goods to be found at this store. Housekeepers and others should pay it a visit, they will find Mr. Hendry, the genial manager, alholidays, the store will be open Saturday evenings.

Major McKinley was in Chicago recently, and in the course of an interview with a reporter of the Inter-Ocean made this striking tariff law of which he is the the next car behind."

"In spite of what has been said to the contrary, the bill gives to the people freer trade than any tariff legislation that has been put upon our statute books in more than a century of our existence. During the first thirty years of our history nearly every article was made dutiable. In 1824 less than 6 per cent of our imports was free; in 1833 goods was free; in 1842 only 27 per cent was free; in 1846, the great revenue tariff year, only 12 per cent; in 1857 only 18 per cent. From 1873 down to 1883 30 per cent only was free, and in 1889 39 per cent was free. This bill makes about one-half of them absolutely free to the people. The Mills bill, that famous Democratic tariff bell, only made free in all about 47 per cent of our importations. Under the new law one-half of our importations, or nearly so, are made

PLUCKY MAMIE CONNELLY.

She Captures Two Burglars in Her Father's House.

LOWELL (Mass.), October 26 .-Two burglars attempted to rob the residence of John K.Connelly about 2 o'clock yesterday morning. The first person who discovered the robbers was Mamie, the eighteenyear-old daughter, who heard a peculiar noise in the lower part of the house.

She had retired for the night, but she immediately arose and making her way into her father's smokingroom took a revolver from a drawer and proceeded to the room from which the noise had come. Here she saw that the burglars had entered the main body of the house.

Upon following them she found a hard-looking specimen of manhood, who later on proved to be Tobin, a notorious Boston crook. He was just rifling the drawer of Mr. Connolly's desk when Mamie entered the room and shouted, Either surrender or I will shoot."

The ruffian sprang upon the girl, who proved equal to the emergency and emptied two chambers of the revolver into him, one of the bullets striking him just above the left lung, bringing him to the ground. At this point his accomplice, who was on watch outside, entered the house to assist his fallen pal, but the plucky girl covered him with her weapon, and he began begging for mercy. She forced him to sit down until the male occupants of the house had been aroused, when he was handed over to the police for safe keeping.

AN AWFUL MISTAKE

A Man Who Made All the Reparation

The train was just pulling out of Weston, Mo., from St. Joe, when one of the passengers in the smoker put his head so far out of the window that a man near him felt it his duty to utter a note of warning.

"Yes, it is a little risky," replied the man, as he pulled in his head and sat down, "but I was looking for a grave in that field. Reckon it had been plowed under and for-

Giving Credit.

A strictly cash business, beautiful enough in theory, is impossible in many cases. Know your customers thoroughly before extending an account, and, far better, find out all about them before granting credit. Render bills promptly and make it the rule that all accounts shall be settled at least every only 15 per cent of our imported month, and in case of delay close the account. Better lose a few customers through being over careful than to pass to profit and loss a considerable sum. A credit business should be kept as close as possible to the line of sharp cash. Cater to the good payers and weed out the slow and risky patrons. Do not hesitate through fear of giving offense. Money is a tool, and if tied up in accounts lessens the efficiency of the merchant, robs him of opportunities for bargains and desirable purchases, lessens his power of expansion, robs him of confidence in himself, sets him to shunning and making excuses with his creditors."
