Maui to Have Entry in the Steer Tying

Harold Rice Will Bring Cowboy to Compete Against Local Ropers

RACING PROGRAM ANNOUNCED

Seven Big Races are Scheduled; Quarter Mile Ladies' Race an Added Feature

The Legion's steer tying contest is beginning to assume a territorial-wide aspect since Senator Harold Rice of Maui asked the permission of the committee to enter one of his cowboys in the Legion's contest on Armistice Day. The committee readily gave their permission and Senator Rice states that he is out to take Kauai's measure in the steer tying to make up for the defeat in baseball that they suffered at the hands of Kauai in the recent tournament in Honolulu.

The Legion also announced that any cowboy in the territory is eligible to enter their tournament and they are particularly anxious to get as many outside entries as possible. The Legion will give no guarantees as to expenses but will guarantee every entry an equal chance at the prize money.

The announcement that Maui will be represented has caused additional interest among local cowboys and the assurance from them is that if the Maui man does take first prize he will just break the world's record in doing so.

Jimmy Spalding, as head of the racing committee, has announced the schedule of races for the Legion's card on Armistice Day. Seven races are on the card, including a ladies' race. John Fernandez has put up a silver cup as the prize for this race and at present there are three entries. Miss Eleanor Dale will ride King Eggott's mare Daisy. Miss Scharsch will ride Kuhlman's Juanita and Mrs. Foster Horner will ride Prohibition, from the Waipouli stables.

The racing card and entries are as follows:
First Race (1-4 mile Babies)—Kuhlman's Manu Kauai, Fernandez Suante II, Waipouli Stables, Fortywinks, Ant. Reis, Freckles.
Second Race (1/2 Mile)—Fernandez, Silverdust, Waipouli Stables, Foggy, J. Rapoza, Fireman, Sakimoto, Dinner Bell.
Third Race (1-2 mile) Japanese class—No entrance fee.
Fourth Race (3-8 mile) Ladies' Race—Dale—Daisy, Horner—Prohibition, Scharsch—Onita.
Fifth Race (1-2 mile) Portuguese Race—no entrance fee.
Sixth Race (3-8 mile)—Same horses as first race except that the winner of that race is barred.
Seventh Race (5-8 mile)—J. Rapoza, Foreman, Fernandez, Silverdust, Waipouli Stables, Foggy, Sakimoto, Dinner Bell.

The barring of polo ponies has added interest to the cowboy sports and at least eight teams are expected to compete in the sports. There will be two changes from the way the events were run last year. In the tug-of-war each team will pick their best horse and this horse will represent the team instead of all four horses pulling as last year. In the stake race the same method will be used, that is, each team will be represented by their best horse only.

The other two events will be the potato race and the relay, the same rules governing these events.

MOKIHANA CLUB WILL MEET WEDNESDAY NOV. 1

The regular monthly meeting of the Mokihana club will be held at the Lihue Memorial Parsh House on Wednesday afternoon, November 1st at 2:30. Dr. Stanley Porteus of the University of Hawaii will address the club on "Social and Scientific Problems of Hawaii."

The hostesses will be Mrs. J. H. Moragne, Mrs. A. D. Hills, Mrs. H. D. Wishard, Mrs. Miller, Mrs. E. F. Wood and Mrs. J. C. Jamieson.

DRAMATIC CLUB MEETING

The first meeting of the Mokihana Dramatic Club since the beginning of the summer will be held at 7:30, Monday evening, October 30, at the Mokihana hall. All who are interested are cordially invited to attend.

Haoles Vote on Racial Lines Says Jimmy Hamada

JAPANESE CANDIDATE FOR THE HOUSE BLAMES HAOLLES FOR DEFEAT

"When you enter politics don't you ever say any high sounding things in an attempt to get the haole votes. I tried it but got no encouragement. The haoles will vote for haoles no matter what you say and what your issue is."

This is the advice of James T. Hamada, unsuccessful candidate for the House of Representatives, gives to his friends who are contemplating to enter politics, says the Nippo Jiji. "One of the greatest mistakes I made," Hamada writes to one of his friends, "was that I talked about giving adequate appropriation for public school purposes and Americanization and about the dependability of citizens of Japanese race with a view to getting haole votes."

Mr. Hamada adds that the official returns, received afterwards said that he received 267 votes.

Mr. Hamada's letter in part follows:

Senator Kealoha Supports
"I ran for the house of representatives. At first I thought I would enter the race just for the fun and experience and I did so at the prompting of an eleventh hour urge. But once I got the support of a powerful Garden Island politician, Senator Kealoha, I worked in dead earnest, but in spite of all we could do, I got only 273 votes.

"At that I think it was a good showing when considered in the light of the following handicaps:

"1. I was practically a stranger to Kauai, having been away in Honolulu almost ten years.

"2. I was new in the political game and didn't know the tricks.

"3. I was knifed in the dark by the Hawaiian Civic Club clique.

"4. Down in Waimea side the campaign of 'No Japs in the legislature this time,' had gained considerable headway.

"Knifed by Civic Club Clique
"In Waimea, Deputy Sheriff Crowell, the whole cheese of the civic club clique, had his forces well organized against me. He had even urged the Japanese boys not to support me. On election day he had his bunch of policemen lined up, but in spite of all that this czar of Waimea could do, I made a good showing there, getting 38 votes, about 25 of which were Japanese.

Received 71 Lihue Votes
"In Lihue I got 71 votes, about half of which were from votes other than Japanese.

The lanai, where the handsome and gracious couple received, was decorated with yellow gladioli, golden chrysanthemums and day-lilies. The old fashioned, high ceilinged dining room, parlor and music room were bowers of yellow and golden flowers sent as gifts by their hosts of friends, while the library was massed with hundreds of roses which filled the whole house with their fragrance. In another sitting room the gifts were arranged, while in the dining room stood the wedding

cake and golden bride's cake.

After having been received the guests made their way to the spacious outdoor lanai, which had been made by covering the tennis court, and partially enclosing it with feathery, coconut leaves. The rafters were hung with great festoons of yellow bunting and gilded lanterns, while the sides were decorated with gilded palm leaves and bunches of pomegranates, yellow crotons and duranta berries, and showering sprays of gilded palm seeds, which made an effective contrast to the long fern and ti-leaf covered tables, on which bunches of yellow flowers and sprays of golden ripe rice made an attractive note of color. Here a delicious old fashioned luau was served, perfect in every detail, to over 500 people at a time.

The golden "bride's" table, at which the bridal party of 50 years ago, and a few old friends, were seated, was covered with fragrant palapala on which were arranged a long, low center piece of yellow roses and long sprays of rice.

During the afternoon and evening the music of the band, a Hawaiian orchestra and a number of vocal and piano solos, as well as a large chorus of Hawaiian singers helped to entertain the 1800 or more guests who gathered from all parts of the island to shower their congratulations and wishes for many more years of happiness on Mother and Father Rice.

Besides the members of the family on Kauai, a number of relatives and old friends came from Honolulu, Maui and Hawaii to attend the celebration of this memorable occasion. Mr. and Mrs. Rice also received many wireless messages from those who could not be present. Among those who were able to come were Mrs. C. M. Cooke, Sr., Mr. and Mrs. Arthur Rice, Mrs. Walter Scott, the Misses Lellari and Alice Scott, Mrs. Holbrook Goodale, Albert Waterhouse, Mr. and Mrs. Montague Cooke, Mr. and Mrs. Richard Cooke, Mr. and Mrs. George Cooke, Mrs. Philip Spalding, Clarence Cooke, Theodore Cooke, Miss Dorothea Cooke, Mrs. J. T. King, Mrs. Crehore, Rev. Akaike Akana, John Wise, John Lane, Rev. Stephen Desha, Mrs. L. L. Sexton, and Mr. and Mrs. Harold Rice.

On Tuesday, October 17th, Mr. and Mrs. William Hyde Rice celebrated their fiftieth wedding anniversary at Hale Nani, Lihue, Kauai, which has been their home all their married life. Surrounded by their eight children William Jr., Charles, Arthur, Mary (Mrs. Walter Scott), Anna (Mrs. R. L. Wilcox), Harold, Philip, and Emily (Mrs. L. L. Sexton), and ten of their twenty grandchildren, the day was a very happy one for them and all their friends.

At 4 o'clock the continuous stream of guests began to arrive, the first being the employees of Kipu plantation, who had presented a beautiful gold centerpiece to Father and Mother Rice, earlier in the day. All ages and all nationalities came to express their aloha and congratulations to the beloved couple, on whose place some of them had worked for nearly a lifetime.

Mr. and Mrs. Rice received on the broad lanai assisted by Mrs. C. M. Cooke, Sr., and Mrs. William Waterhouse, the bridesmaids of fifty years ago, and William Waterhouse, the remaining groomsmen. Mrs. Rice looked very charming and bridal in a gown of white brocaded silk, trimmed with duchesse lace. She carried a bouquet of yellow orchids and forget-me-nots, surrounded with a ruffle of gold lace, and tied with golden streamers. Her beautiful white hair completed the picture. She also wore a lovely brooch of gold filigree set with pearls, which had formerly belonged to Queen Kapiolani while Mr. Rice wore a pair of horseshoe cuff-links, studded with pearls, which had belonged to King Kalanikula, both the gifts of Princess Kaulanaloa, in appreciation of what Mr. and Mrs. Rice have always meant to the Hawaiian people.

The candidates for the Senate and the House of Representatives of the Republican party of Kauai will speak at the following places:

Monday, October 30—
1:00 p. m. at Wainiha.
4:00 p. m. at Hanalei.
7:00 p. m. at Kilauea.

Tuesday, October 31—
4:00 p. m. at Anahola.
7:00 p. m. at Kapaa.

Wednesday, November 1—
5:00 p. m. at Kekaha.
7:00 p. m. at Waimea.

Thursday, November 2—
4:30 p. m. at Hanapepe.
7:00 p. m. at Makaweli.

Friday, November 3—
5:00 p. m. at Kalaheo.
7:00 p. m. at Elelele.

Saturday, November 4—
7:30 p. m. at Koloa.

Monday, November 6—
7:30 p. m. at Lihue.

RADIO CHURCH SERVICE

Members of Lihue Union church and citizens of the community, will have an opportunity for an unusual treat next Sunday. In the absence of the pastor, Central Union's regular morning service will be received and amplified, in the Parish House. Dr. Palmer will give special recognition to the worshippers on Kauai, during the morning service.

E. F. Wood of the Kauai Telephone Co., has volunteered to furnish, install and operate a receiving set for the occasion. We extend a wide invitation to this service.

R. W. BAYLESS, Minister.

J. P. Kahibaum, of Koloa, returned from Honolulu on the Claudine this morning after a short visit.

Bob Mahikoa, of Kilauea, returned from Honolulu this morning, having attended the short course for sugar men at the University of Hawaii.

Supervisor A. Menefoglio returned this morning from Honolulu where he has been for the past week.

All Kauai Honors Father and Mother Rice

Host of Friends Gather at Hale Nani Tuesday to Celebrate Golden Wedding of Beloved Couple

On Tuesday, October 17th, Mr. and Mrs. William Hyde Rice celebrated their fiftieth wedding anniversary at Hale Nani, Lihue, Kauai, which has been their home all their married life. Surrounded by their eight children William Jr., Charles, Arthur, Mary (Mrs. Walter Scott), Anna (Mrs. R. L. Wilcox), Harold, Philip, and Emily (Mrs. L. L. Sexton), and ten of their twenty grandchildren, the day was a very happy one for them and all their friends.

At 4 o'clock the continuous stream of guests began to arrive, the first being the employees of Kipu plantation, who had presented a beautiful gold centerpiece to Father and Mother Rice, earlier in the day. All ages and all nationalities came to express their aloha and congratulations to the beloved couple, on whose place some of them had worked for nearly a lifetime.

Mr. and Mrs. Rice received on the broad lanai assisted by Mrs. C. M. Cooke, Sr., and Mrs. William Waterhouse, the bridesmaids of fifty years ago, and William Waterhouse, the remaining groomsmen. Mrs. Rice looked very charming and bridal in a gown of white brocaded silk, trimmed with duchesse lace. She carried a bouquet of yellow orchids and forget-me-nots, surrounded with a ruffle of gold lace, and tied with golden streamers. Her beautiful white hair completed the picture. She also wore a lovely brooch of gold filigree set with pearls, which had formerly belonged to Queen Kapiolani while Mr. Rice wore a pair of horseshoe cuff-links, studded with pearls, which had belonged to King Kalanikula, both the gifts of Princess Kaulanaloa, in appreciation of what Mr. and Mrs. Rice have always meant to the Hawaiian people.

The lanai, where the handsome and gracious couple received, was decorated with yellow gladioli, golden chrysanthemums and day-lilies. The old fashioned, high ceilinged dining room, parlor and music room were bowers of yellow and golden flowers sent as gifts by their hosts of friends, while the library was massed with hundreds of roses which filled the whole house with their fragrance. In another sitting room the gifts were arranged, while in the dining room stood the wedding

cake and golden bride's cake.

After having been received the guests made their way to the spacious outdoor lanai, which had been made by covering the tennis court, and partially enclosing it with feathery, coconut leaves. The rafters were hung with great festoons of yellow bunting and gilded lanterns, while the sides were decorated with gilded palm leaves and bunches of pomegranates, yellow crotons and duranta berries, and showering sprays of gilded palm seeds, which made an effective contrast to the long fern and ti-leaf covered tables, on which bunches of yellow flowers and sprays of golden ripe rice made an attractive note of color. Here a delicious old fashioned luau was served, perfect in every detail, to over 500 people at a time.

The golden "bride's" table, at which the bridal party of 50 years ago, and a few old friends, were seated, was covered with fragrant palapala on which were arranged a long, low center piece of yellow roses and long sprays of rice.

During the afternoon and evening the music of the band, a Hawaiian orchestra and a number of vocal and piano solos, as well as a large chorus of Hawaiian singers helped to entertain the 1800 or more guests who gathered from all parts of the island to shower their congratulations and wishes for many more years of happiness on Mother and Father Rice.

Besides the members of the family on Kauai, a number of relatives and old friends came from Honolulu, Maui and Hawaii to attend the celebration of this memorable occasion. Mr. and Mrs. Rice also received many wireless messages from those who could not be present. Among those who were able to come were Mrs. C. M. Cooke, Sr., Mr. and Mrs. Arthur Rice, Mrs. Walter Scott, the Misses Lellari and Alice Scott, Mrs. Holbrook Goodale, Albert Waterhouse, Mr. and Mrs. Montague Cooke, Mr. and Mrs. Richard Cooke, Mr. and Mrs. George Cooke, Mrs. Philip Spalding, Clarence Cooke, Theodore Cooke, Miss Dorothea Cooke, Mrs. J. T. King, Mrs. Crehore, Rev. Akaike Akana, John Wise, John Lane, Rev. Stephen Desha, Mrs. L. L. Sexton, and Mr. and Mrs. Harold Rice.

On the east side of the island, particularly at Waimea, it took the form of an electrical storm and for a time caused a great deal of fireworks in the heavens.

Mrs. Maria Jesus Rapozo, aged 90, died at her home in Hanalei last week after a lengthy illness. She is survived by perhaps the largest family on Kauai, her survivors being two sons and three daughters, being 79 grandchildren, 151 great grandchildren and three great-great grandchildren.

Automobile Driven by County Attorney Strikes Mrs. Clapper

STORY OF THE EYEWITNESS LAYS THE FAULT TO KAEO

Mrs. James Clapper of Lihue was struck by an automobile driven by County Attorney Sam Kaco yesterday afternoon. The accident occurred near the Kauai Garage. Mrs. Clapper was on her way from the Lihue grammar school, where she is a teacher.

Statement of Witness
The accident was witnessed by Fred Carter of Grove Farm, who gave the following statement to the Garden Island representative:

"I was driving toward Lihue and was just passing Kauai Garage when I noticed Mrs. Clapper coming. She was on the extreme outer edge of the road. At the same time I saw Kaeo coming. I can't imagine why he hit her as he had the whole road in which to pass, but he seemed to drive straight toward her and his right hand front fender struck her and knocked her into the gutter. I stopped my car as soon as I passed. Kaeo had stopped, too, and I said: 'Sam, didn't you see that lady right in front of you? what did you run into her for?'

Kaeo said: 'Don't say anything about it, it was all my fault.'

Mrs. Clapper was knocked into the ditch and when her husband, who is manager of Kauai Garage, reached her, she was unconscious. She regained consciousness shortly after and was removed to her home. Although badly shaken up, Mrs. Clapper was not seriously injured and was able to resume her duties as a teacher this morning.

Kaeo Indefinite
Kaeo was not at his office in the county building this morning and when questioned over the telephone seemed unable to give a coherent statement. "If I had not put on my brake Mrs. Clapper would have been killed," he said. He also said something about having to pass Carter's car and the road being full of school children.

Mr. Carter states that at the time Kaeo's car hit Mrs. Clapper he (Carter) was from 15 to 20 yards distant.

Claims Kaeo Had Been Drinking
Mr. Clapper, who was on the scene of the accident within two minutes after it happened, made the statement that Kaeo showed very plainly that he had been drinking. It is also claimed that Kaeo was under the influence of liquor that morning at the county building.

It is understood that no action has yet been taken by the police department due to the fact that Mr. Kaeo, as county attorney is the senior prosecuting attorney for the county.

Rev. A. Hoerman arrived from Honolulu last Friday.

Sam Kellinoi and Miss B. Kellinoi returned from Honolulu on the Claudine last Friday.

Rev. H. P. Judd was among the passengers arriving from Honolulu last Friday morning.

Edward C. Merrill, foreman of the U. S. lighthouse service, was an arrival on the Claudine last Friday morning.

Mr. and Mrs. Charles J. Brenham, of Port Allen, were among the Kauaians returning from Honolulu last Friday morning.

C. E. Mayne, local representative of the von Hamm-Young Co., returned last Friday morning from a brief visit to the meropolis.

Miss Alice G. Moore, executive chief, secretary of Honolulu Y. W. C. A., arrived on the Claudine this morning and will spend the week visiting and addressing the different Y. W. C. A. clubs of Kauai.

H. D. Davis, statistician of the Honolulu Rapid Transit Co., A. H. Arens, electrician for the same company, and E. Ruething, of the Honolulu Iron Works, known on Kauai as The Three Musketeers, returned to Honolulu this evening after spending several days visiting different places of interest on the island.

Big Crowd Marks Chamber Meeting

Waimea Gathering is the Biggest Since the Breakwater Celebration

MAJ. JOHNSON PRESENTS DATA

Senator John Wise and Lewis Jackson Also Address the Meeting

The regular meeting of the Kauai Chamber of Commerce held at Waimea last Thursday evening was one of the biggest and best sessions that the chamber has held in many a moon.

The dining room of the Waimea hotel was crowded to capacity and it was necessary to put in two extra tables to handle the overflow crowd.

The guests of the evening were Major W. A. Johnson of the U. S. Engineers; John Wise, Republican nominee for delegate to congress, and John C. Lane, high sheriff for the territory.

The chamber held a short business session at which the chamber voted unanimously to extend the best wishes of the body to J. M. Lydgate for a speedy recovery and the secretary was instructed to say it with flowers.

Major Johnson and John Wise were elected honorary members of the chamber unanimously.

After the business session, President Sloggett introduced Major W. A. Johnson, who spoke to the chamber on the Nawiliwili breakwater.

Major Johnson first sketched a brief history, telling of the various surveys that were made on Kauai to determine the best location for a harbor and the final selection of Nawiliwili. He then outlined a few of the problems that confronted the engineers in their work, especially in regard to the quarrying of the big rock for the breakwater. He told the chamber that Kauai was fortunate in finding their rock close at hand, as on the breakwaters in the islands it had been necessary to haul the rock many miles, greatly adding to the expense of the project.

Major Johnson then spoke briefly on the financial end, stating that the original appropriation of \$450,000, part of which was appropriated by the territory and the rest by the federal government, would last until the middle of next April. He then said that the new appropriation, which would come in the new rivers and harbors bill, would rest with the chief of engineers, as under the new system in rivers and harbor work, a lump sum is appropriated and the expending of this sum is left to the chief of engineers. Major Johnson stated that he had no doubt that there would be money available for the work as the chief of engineers had stated that it was the desire of that office to carry on the work continuously owing to great expenses that is added to any construction work that is shut down for a period and then reopened.

The harbor when completed, according to Major Johnson will be slightly bigger than Honolulu harbor and will be dredged to a depth of 35 feet. Mr. Johnson warned the chamber that in planning the harbor to be sure to work out the problem in full in regard to the ultimate result. He urged them to include railroad terminal facilities in the harbor work and showed where in the construction of Honolulu harbor this idea had not been carried out and there was several piers in the harbor where there were no railroad and this occasioned considerable expense in the handling of freight.

He also urged that the chamber use its influence with the board of harbor commissioners in the placing of the bulkhead lines so that they will be placed by the time the federal government is ready to dredge the harbor so that the debris from the harbor can be used in building up land behind the bulkheads. He stated that the government would not be ready to consider dredging for at least a year.

Actual progress on the breakwater was his next topic and he stated there is 627 feet completed which included the railroad approach to the breakwater. The rate of construction averages about 40 feet a

TIP TOP-ICS

"BEYOND THE ROCKS"

Get this straight! This story is going to knock every box office in the country for a goal. They will fight their way in to see it even if it is 100 in the shade outside.

The story takes the audience to London, Paris, the Alps, Algeria, and other parts of the globe, and introduces the star as the daughter of a poor but aristocratic English family, who is married off by the folks to an elderly millionaire from the colonies. Of course the marriage is a loveless one. On a honeymoon the girl is rescued from the ledge to which she has fallen while mountain climbing, by an attractive nobleman. It's love at first sight. The rest of the story is taken up with the lord's efforts to possess the fair heroine for his own. These efforts take one thru a maze of passionate scenes, with the opera in London, the mountains in Switzerland, the gardens at Versailles, the homes of English aristocracy and the Arabian desert as the background.

The Alps have been built in California, but they are exceptional, fine Alps and the scenes which open the picture will help put a summer audience in a cool mood for what follows. The love scenes in the Versailles gardens and the pageant on the lawn of an English estate are beautifully worked out with every flash of the camera. That part of the action which is laid in the desert will recall "The Sheik." Some stirring battle scenes are here introduced and some fine horseman ship.

Space prohibits enumerating all the appealing details of this exceptionally fine production—the one fact however, which stands out above all else is that it cannot help but draw at the box office. This production will be seen at the Tip Top theater on Saturday, October 28.

"HEADIN' WEST"

Hoot Gibson, the popular cowboy star, will be seen in his latest attraction at the Tip Top theater next Sunday in "Headin' West," an original story by Harvey Gates. It is the type of picture in which Mr. Gibson has full opportunity to display his rugged personality. His quaint sense of humor is well expressed in the role of Bill Perkins, a war veteran who is humming his way across the country in an aeroplane without the consent of the pilot. He is forced to disembark via parachute when he wants to get off at a familiar place. He lands in

the midst of a cow-punchers' argument.

Bill is given a job as dishwasher and learns that there is a scheme to steal the ranch from the absent heir. He allows the men to elevate him to the job of impersonating the missing youth, and then suddenly is disgraced by having them denounce him as an imposter. Whereupon he sets to work and cultivates his family tree intensively, with the ultimate result that everyone gets a grand shock. The picture contains good incident which reveals considerable action. The acting of the star is up to requirements, and the assisting players give creditable performances.

"BORDERLAND"

You may have looked upon the eternal triangle in various guises but it is a certainty you never saw it treated in such a novel manner as is found in "Borderland," that comes to the Tip Top theater on Wednesday, November 1. It is a curious story—made so by its dash of spiritualism, its slice of sentiment and some moments of melodrama—all of which have been blended into an impressive picture as far as its photography is concerned. Getting right down to rock bottom the theme by itself is absurd, but it has been treated so seriously by the director and author, that even the smiling scoffers of spiritualism will be impressed by it.

The picture is artistic and some exceptionally fine scenes are shown of that borderland or purgatory in which the departed linger, must purge themselves and get in touch with their erring relatives before they can climb to a higher plane. Miss Dix's conception of the after-life is her own. And Paul Powell has the visualized heavenly state in such a manner that disciples of occultism will be highly pleased. The wraiths pass forth in this eerie existence lending an uncanny touch to the picture.

"Borderland" will arouse a lot of criticism. When it gets down to earth, it doesn't amount to much—simply because it takes the oldest form of the triangle—that of the interloper and the wife running away from a husband. The heroine's erring ancestor uses an aged servant as a medium, and the faithless wife is brought up sharp with her sin. Then the "little child shall lead them" formula is employed to make it convincing.

AMERICAN LEGION PAGE

WOMAN'S RACE IN THE LEGION'S ARMISTICE DAY CELEBRATION

It is without doubt that the coming celebration on the 11th of November will be one of the best outdoor events ever given on Kauai. No island in the group displays such a keen interest in racing and cowboy stunts.

The committee in charge of this celebration is now arranging a woman's race. It is a three-eighths mile event and it is understood that there will be at least two entries.

Daisy, owned by King Baggott, will be ridden by Miss Elinor Dale. Juanita, belonging to Kitty Kuhlman, with Miss Scharsch as the jockey. It is possible that Mrs. Foster Horner may enter this event on Champaigne, one of Baggott's string.

Favorites in this race are still speculative and we are unable at this time to give the "one best bet" of this event.

LEGION HAS BIG JOB IN AMERICANIZATION WORK

That the Americanization department of the American Legion and the 11,000 posts of the Legion have their work cut out for them in an announcement program of opposition to radicalism, and the Americanization of foreign born in the country, is indicated by surveys made in various states by officials of the organization. Somewhat typical of reports received at national headquarters is the declaration of William R. McCauley, commander of the Illinois department.

"Our American people feel entirely safe and secure—too much so for their own good," Commander McCauley said. "Some cold facts, bluntly administered, might wake them up to the conditions all about them. It is not generally realized that in Illinois there are more than 175,000 persons above the age of ten years who cannot read or write the English language. Those who cannot understand our tongue number thousands.

"Is it realized that bolshevik literature, supplied thru generous funds from the Russian government is being circulated among those who are ignorant of our own printed language, our institutions?"

Activities of radicals in many of the states is reported and in most cases they are said to be of bolder nature than at any time since the close of the world war. In South Dakota, Kansas and other wheat sections the American Legion during the wheat harvest has engaged itself in fighting the I. W. W. and its work of sabotage and intimidation. In Kansas, Phil Zimmerman, noted nemesis of the Wobblies, organized Legionnaires in combat groups throughout the wheat belt and succeeded in frustrating the I. W. W. campaign designed to increase membership and coerce the farmers, aided with the "cow itch" fire-creating chemicals and other of their terrorism" weapons.

In Illinois Commander McCauley cited American Legion efforts in Chicago and in Centralia as illustrative of American methods being employed by the Legion. In Chicago the radicals have invaded the fashionable residential or "white collar" districts, and from soap boxes har-

KAUAI AT OFFICERS' TRAINING CAMP

Comrade Longstreth helped Jack Pershing take St. Mihiel and he was bored to death because there was so little action. Then he went to Paris and helped Harboiled Smith make bucks salute shavetails as they paraded in front of the Follies Berger. It was a hard war.

To keep himself in trim, he departed for Oahu on the last boat to take his yearly three weeks training in "How to be An Officer and a Gentleman."

Longy was interviewed by your editor just before his departure but he modestly refused to give any of his exploits over seas. He deftly turned the subject to his postmaster-ship of the post office of Kauai's metropolis. The old time excitement he got out of how the job is gone, he states. The mails are now so big that he doesn't have time to read the postcards while distributing on steamer days.

range crowds with the un-American pleas and disloyal utterances. Instead of calling upon the police to quell the exhorters, furnishing them with a "persecution" appeal for sympathy, the North Shore post of the American Legion, headed by Ferra Watkins, commander, organized a flying detachment of orators. Wherever a radical soap box rostrum is set down, an American Legion soap box is placed near by. And sometimes it comes down to a question of who can talk the loudest, sometimes it is a matter of eloquence, sometimes it is logic—but the long-hairs are getting the worst of it on every occasion.

In Centralia, Illinois, nearly all the members of Centralia post are union coal miners, and the post commander, Paul M. Kramer, is one of the strikers. The post is conducting an aggressive, extensive campaign of Americanism, of patriotism, among the foreign born elements in the community. Under the auspices of the post, and the Rotary Club, a Boy Scout camp is conducted in a park near Centralia and boys of all classes, banker's sons, miners' sons, sons of men of wealth and men in humble station, attend.

In Oregon the immigration question has been occupying the Legion and at its recent state convention the alien question was one of the most important questions considered. The convention adopted resolutions for the deportation of all aliens who have been in this country six years without becoming citizens; the examination of immigrants for entry into the country placed in the hands of a bureau with the power to regulate the number; that steps be taken to educate the immigrants in the duties of citizenship, and to prevent congregation of aliens in colonies in the large cities—and for the filing by Oregon employers of a semi-annual report of more than five alien employees, segregating the aliens from citizens.

Who is to be our next commander is one of the problems, but two bigger ones are who are to be our adjutant and finance officer? There are no hats shied into the ring for these offices by any candidates as yet.

AMERICAN WOMEN LACK ORIGINALITY

The lack of originality in the women of our Republic is most deplorable. America was never the land of the free and the home of the brave for women until the beginning of the late European mix-up which sent so many of our discontented on a little sight seeing trip thru France.

Prior to that time if Paris said wear fur lined car muffs Mary Jane of Yuma, Arizona, would endeavor to affect them just as her sister did in Maine, and all this in the month of July. Remember when Paris said leg 'o mutton sleeves? If you don't then ask mother to show you that snap shot of her when your dad was trying to beat the other fellow's time. What Paris said was not only listened to but obeyed to the letter.

Then the subs put an embargo on Le Dernier Cri de Paris and it was up to the girls to wear last years cloths or create a few modes for themselves. Can you imagine an American girl wearing last year's styles? If you can your imagination is stronger than mine and facts prove that you're wrong.

It was then that American women came into their own and the land of the free and the home of the brave became a reality. Believe me, they had to be brave and they did exhibit a lot of freedom in wearing those creations that originated west of the Atlantic.

Note the less this independence of the American women was admired by the men, particularly by the single ones. They went telling each other that at last we had thrown off the yoke and were independent of Europe.

But one can never tell. The women of our country have slipped back and as previously stated their lack of originality is most deplorable. They were perfectly satisfied with the home-grown styles and so were we, but look what happened. It came about by some unsuspecting person smuggling a bottle of champagne by wrapping it in the latest copy of a Paris fashion journal. The copy fell into the hands of some unscrupulous person who noticed that in Paris they were wearing them one inch above the ankle instead of one inch below the knee and the deed was done.

American women once again were copying Paris and it has even reached Kalal. Look around you and you will see.

Oh, believe me if all those undearing young charms which so fondly I gaze on today. Take a long gaze while the gazing's good, because its not going to be much longer.

The Forty and Eight will soon be ready to function, so if any loud noises, such as thunder or a boiler explosion is heard be not alarmed, it is just one of their initiations. Commander Englehard is having one of the railroad box cars all groomed for the first meeting.

Adjutant Lane will have no excuses for missing meetings on rainy evenings since he has purchased himself one Henry's coupes.

ARMORY REMODELING PROGRESSING RAPIDLY

It is particularly gratifying to the Kauai Legionnaires to see their plans for the armory remodeling becoming a fact. At this time more than half of the roof has been reared and the work is rapidly progressing.

Three dormer ventilators along each side of the roof is going to add materially to the appearance of the building. These and the larger one that will extend along the peak of the roof for two thirds its length will assure proper ventilation which the old building so lamentably lacked.

The contract for the remodeling covers only the work above the point where the siding is cut. Below this point is a strip of wire screen that extends around the building. This screen has given away along its entire length and it is the opinion of the contractor, Jack Hanson, that it can be replaced now at about half the expense that it would cost after his job is finished and the scaffolding taken away.

The armory remodeling committee is considering the advisability of having this done now. Bleacher seats, showers and dressing rooms are also being considered at this time. These improvements are not a part of the contract for remodeling.

It is understood that the Mokihana Club is going to furnish the kitchen.

TRACK AND FIELD SPORTS ON CONVENTION PROGRAM

With the American Legion Olympic games only three weeks away, the Louisiana track and field team is showing championship form, according to A. N. Goldberg, Legion state athletic director.

The state's best athletes make up the membership of the team, some of them being former Southern A. U. champions or intercollegiate record holders. That Legionnaires are determined to make a good showing is evidenced by the fact that former record holders who had retired from athletic life have taken up training and will represent their department in the events in which were champions.

Among the more prominent men who have resumed training are Tom Dutton and C. B. Hughes, weight men; and J. T. Butler, L. S. U. Southern record holder for throwing the javelin.

Benny Brown of Tulane, now coaching at Loyola, and E. L. Gladney, Tulane man, are quarter milers who are expected to rank well up among the best at the meet. Earl Frazier Jr., a national A. A. U. high and low hurdle record holder, and F. W. Morland and Ed. Shirley, L. S. U. men, will make up the track team. Eddie Curtis, a naval officer now on duty in Philadelphia, who was an international Olympic miler, will run for Louisiana, if he can get relieved from duty.

Fritz Oakes, Ed. Shirley and Major Fred Fry of Baton Rouge, will enter the "jump" events and Clarence Ives, L. S. U. man, who stands high in intercollegiate circles, will pole vault for the department.

ATTENTION LEGIONNAIRES, THESE MEN ARE WANTED

The Kauai Post of the American Legion has just received a communication from the United States Veterans' Bureau at Honolulu, asking us to locate two men as the bureau can assist them in getting back pay and some other compensation.

Legionnaires of this island will please find these men and have them get in touch with Commander Englehard, who will assist them in filing the proper applications to be sent to Honolulu:

Perfecto Balabas, C-653-795, Pvt. Co. H. 2nd Hawaiian Inf. Said to be living at Lihue, Kauai. Pausto Delphian, C-653-799, Pvt. Sup. Co., 2nd Hawaiian Inf. Said to be living at Makaweli, Kauai.

MARTIN VS. ROPER IN HEAVYWEIGHT BOUT

The veterans of the World War saw one of the heaviest battles of the year when Bob Martin and Captain Bob Roper fought for the heavy weight championship of the American Legion in New Orleans October 18.

Martin won the championship of the A. E. F. and Roper bested all comers among the forces which remained in this country during the World War. The thousands of the Legion members assembled here for their national convention will be evenly divided in their support of the two fighters because the Legion includes both A. E. F. and cantonment soldiers.

Martin and Roper have met three times, twice in "no decision bouts and once when Roper won on points." Both are contenders for the world's title and it is probable that the winner at New Orleans will get a bout with Dempsey.

Roper bears the unusual record of never having been knocked out, although in his 58 fights he has tackled some of the best men in his division. During 1921 he fought 17 battles, losing to Al. Roberts, Martin Burke, Dan O'Dowd and Pat McCarthy, winning on points from Homer Smith, knocking out Jim Griffin, Car Morris, Frank Moran, Bill Reed and Al. Roberts and fighting a draw with Battling Levinsky. He also fought no-decision bouts with Martin, Wiggins and Semander.

General Pershing proclaimed Martin the "mightiest fighting man of forty million men." Martin's record bears out this statement as he has delivered 83 knockouts in 97 battles.

Martin has whipped all the prominent contenders for the world's title except Brennan and Roper. He lost to Brennan at New York in 1921, but his work has been steadily improving since that time and it is probable that he is now Brennan's master. In 1921 Martin fought nine bouts, losing one to Brennan and one to Keiser. He drew with Captain Roper, knocked out Martin Burke, Joe Cox, Gunboat Smith and Frank Morgan.

The fight was a 15 round decision bout, the main go will be preceded by three fast preliminaries and a ten round semi-final between fast local boys. Promoter Al. Pillsbury will supervise the match which will be held in the Louisiana auditorium.

LEGION PARADE LARGEST YET HELD IN N'YAWLINS

The largest parade ever held in New Orleans was seen on October 18, when 40,000 members of the American Legion in columns of platoons marched down Canal street in review during the Legion national convention here.

Nearly 100,000 visitors and delegates were there to attend the convention and fully one-half of them donned uniforms and joined in the parade. More than 100 bands were scattered throughout the parade in which they were judged for the national band contest.

A cenotaph commemorating the soldier dead was erected on the parapet of Canal street directly opposite Gold Star mothers' tribute at which all the veterans paid tribute to their fallen comrades with a salute as the column passed it. The route of the parade covered a distance of approximately four miles and the head of the column had easily reached its destination before the rear guard has passed the reviewing stand.

All Legion state departments marched in order of their gain in membership during the last year, led by a guard of honor consisting of men drawn from the army, navy and national guard. Percentages of increase were announced by national headquarters in time to place departments in their proper position in the column. Foreign war veterans who are not affiliated with the Legion were in line in the order of their country's entrance into the war.

BUCK VS. GOB IN MIDDLEWEIGHT GO

It will be the Army vs. the Navy when Fay Keiser and Happy Littleton stage a 15 round decision fight for the middle weight championship of the American Legion during its national convention October 16th. Legionnaires who were in the army are backing Keiser, while Littleton's supporters include thousands of former gobs.

Keiser has an enviable war record. As first sergeant, he led his company over the top at Montfaucon and was wounded in the shoulder shortly after going into action. He refused to return for first aid and stayed with his company, apply for treatment only after his unit had attained its objective late in the evening.

Keiser fought Bob Martin, A.E.F. heavyweight champion for the title of the Olympic games in Paris and gave the champion a close run for the belt. He has since defeated Martin at Boston, as well as Herman Miller and Ray McMillan.

Littleton's war record is also good. He served four years in the navy as a first class seaman. He was on the battleship Louisiana and served on two mine sweepers in the North Sea. While in the navy Littleton defeated Howard Trembly Atlantic fleet heavyweight champion. Littleton has fought Joe Chip, Battling Ortega, Bill Shade, Bob Roper and Chuck Wiggins.

The Kauai Vets football team has quite a Legion flavor with nine Legionnaires on the team.

Model Sugar Homesteads At Kealia, Kauai

"On no plantation in the territory is there better cane, or better cultivated fields, than the cane and fields in the homestead section near Kealia, Kauai," Albert Horner, territorial sugar expert, said in an interview appearing in the Advertiser last Tuesday. "There are over 200 homestead lots in this section and one would naturally expect a few would be neglected. However, every lot planted to cane is now in the highest state of cultivation with a good healthy cane stool throughout, and up to the present time, grown at minimum cost.

"There are but few homesteaders that do not work on their lots themselves, while some, with the assistance of their families, do all of the work except harvesting. These earnest people, in a way, have been most fortunate.

"The land commissioner, appreciating the difficulties the homesteaders have had to contend with in the past on account of lack of roads, constructed the roads so that every lot had access to some one of them before opening the lands.

"The main road is now being macadamized. As a result the day following the awarding the lots in the last series, lumber for houses began to go to them. It was but a few days before the landscape was dotted with small cottages. Preliminary work for planting began at once and practically the entire tract was planted to cane the year the lots were opened.

No Uncertainty as to Market

"Again the plantation was ready with a grinding contract which had been approved by the government and was acceptable to the homesteaders, so there was no uncertainty as to the marketing of their crop or the price they would receive. This contract was for a period of ten years.

"The total area homesteaded in this section is approximately 4000 acres. To handle the cane from this large area about 15 miles of permanent railroad was constructed by the Makee Sugar Co. over which not a single stalk of cane grown by it on its own land is hauled. In addition two locomotives, 150 cane cars and five miles of portable track were purchased.

"All these utilities are furnished to the homesteaders free of charge while the plantation, at its own expense, delivers the empty cars to the homesteader near his lot and hauls the cane to the mill. Thereafter all costs to manufacture and market the sugar is borne by the mill.

Basis is \$1.28

"The base upon which the settlement is made is \$1.28 per ton of cane for each one cent of the average New York price for raw sugar from January 1 to December 1 of each crop year. Final settlement is made each year on December 15.

"The base for calculations is 9 tons of cane to make one ton of sugar. Adjustment as to price to be paid is calculated in the usual way for any variation upwards or downwards of this base.

"I hope that those who may doubt the possibility of success of the small planter may visit this homestead tract and be convinced that the small planter can succeed when given an even break.

Lands Prepared First

Horner emphasized the point that this Kealia homestead section is the only project in the territory of homesteading in Hawaii where the government did everything that ought to be done before putting a man on the land.

The lands were surveyed. Roads were built, and irrigation ditches laid out. The whole project was studied with the greatest care. When everything was good and ready the land was opened to settlement.

There are 283 homesteads now planted in cane, the lots varying in area from 20 to 80 acres. Water for irrigation purposes is supplied by the East Kauai Water Irrigation Co. which has signed contracts ranging from 5 to 10 years to give the homesteaders as much water as they need it, when they need it.

The homesteaders pay a ditch maintenance charge of \$2 per acre per annum plus \$5 per million gallons actually used. This is a very low toll as compared with the unit price charged for irrigation water in other districts. The irrigation company gets its water from the Waialua river at the source.

Its charter or license provides that at its termination the ditches, dams and water development revert to the government. As the entire flow ran to the sea and was wasted the negotiations which ended the disputes as to the ownership of these waters were greatly to the advantage and benefit of the com-

munity at large, Horner said.

Homesteaders Industrious

By nationality the homesteaders are about 60 per cent Portuguese and Hawaiian. There are a considerable number of American farmers and half a dozen Chinese and a few Japanese. "I inspected every homestead while I was over there last week," Horner said, "and I want to say right here and now, that it would do the heart of any cane man in Hawaii good to see the way these homesteaders have taken care of their fields."

"There isn't a weed in the whole Kealia homestead district. The cane has been fertilized and irrigated at just the right time, in the right way. There is no finer cane in Hawaii.

"This is the only homesteading district in Hawaii that was ever started right. If Waiakea had had half the show these people have results would have been different. Homesteaders and milling company have co-operated right from the beginning. The man on the land has been given a good working contract for a ten year period and has a certainty to look forward to."

NOTICE OF SALE OF PUBLIC LAND AT HANAPEPE, KAUAI

Public notice is hereby given that at 1 o'clock P. M., Friday, November 24, 1922, at the front door of the County Building, Lihue, Kauai, there will be sold at public auction to the highest bidder, under the provisions of Section 73 of the Revised Laws of Hawaii of 1915, for dairy purposes, that portion of Kapahulu Valley in the land of Hanapepe, extending north from the Valley Road to the Makaweli-Hanapepe boundary, containing an area of 34.70 acres more or less.

The sale of this land will be subject to the following conditions:

- (1) Upset price \$2,602.50.
- (2) Terms, cash at the drop of the hammer.
- (3) The purchaser shall pay the costs of advertising immediately after the sale.

(4) The purchaser must be a citizen of the United States of America or must have declared his intention to become a citizen.

The patent to be issued covering this land will contain the following conditions:

(a) The land to be sold must be used for dairy purposes only during the first ten years from the date of sale and if the purchaser fails to use the said land for dairy purposes at any time during the said term, the land shall revert to and re-vest in the Territory of Hawaii.

(b) The Territory excepts and reserves from the land sold the Kapahulu stream and all riparian rights in and to said stream and any other stream passing over and across said land.

(c) The Territory reserves the right in itself and to grant to other parties the right and privilege of crossing and using the land to be sold, with and for such flumes, pipe lines, power lines, roads, ditches and such other rights of ways and uses as it may deem advisable. The right on the part of the Territory and parties, to whom the privilege may be granted to so cross the said land, to be exercised in such a manner as not to interfere with the purchaser in the free use of said land.

Map of this land is on file and may be seen at the office of the Sub-Land Agent at Lihue, Kauai, or at the office of the Commissioner of Public Lands, Capitol Building, Honolulu, T. H.

For general information apply at the office of the Acting Sub-Land Agent, Mr. J. M. Lydgate Jr., County Building, Lihue, Kauai, or at the office of the Commissioner of Public Lands, Capitol Building, Honolulu, T. H.

C. T. BAILEY,
Commissioner of Public Lands.
Dated at Honolulu, T. H.,
October 19, 1922.
(Oct.24-31-Nov.7-14-21)

TO THE VOTERS OF KAUAI

I wish to thank the voters of Kauai for their generous support at the polls and also my sincere appreciation in advance for whatever they will do for me on November 7th.

J. de C. Jerves.

NOTICE TO MOTOR VEHICLE OWNERS

Notice is hereby given to motor vehicle owners that whenever a car, upon which taxes have already been paid, is sold, the owner of same must immediately inform the Treasurer of the County of Kauai, of such sale by submitting to him, in duplicate, a notice of transfer. Blank forms of such notices of transfer can be obtained from the Treasurer's Office at Lihue.

That when an automobile or any motor vehicle is sold or transferred to another person, the number plates on said motor vehicle must necessarily go with the car and cannot be kept as was done in some cases heretofore.

K. C. AHANA,
Treasurer, County of Kauai.
(Oct.24-31.)

IN THE CIRCUIT COURT OF THE FIFTH CIRCUIT-TERRITORY OF HAWAII

At Chambers-In Probate

IN THE MATTER OF THE ESTATE OF TOICHI MORITA, DECEASED

ORDER OF NOTICE OF HEARING PETITION FOR ADMINISTRATION

ON READING and Filing the Petition of Taka Morita, widow of Toichi Morita, deceased, alleging that said Toichi Morita of Kapaa, Kauai, T. H., died intestate at said Kapaa on the 20th day of May, A.D., 1922, leaving property in the Hawaiian Islands necessary to be administered upon, and praying that Letters of Administration issue to Midori Morita.

IT IS ORDERED that Monday, the 27th day of November, A.D. 1922, at 9 o'clock A. M., be and hereby is appointed the time for hearing said Petition in the Court Room of this Court at Lihue, County of Kauai, at which time and place all persons concerned may appear and show cause, if any they have, why said Petition should not be granted.

Dated at Lihue, County of Kauai, T. H., October 23, 1922.

IN THE CIRCUIT COURT OF THE FIFTH CIRCUIT, TERRITORY OF HAWAII
At Chambers—In Probate

IN THE MATTER OF THE ESTATE OF MARY ROSE NAKAI, DECEASED

ORDER OF NOTICE OF PETITION FOR ALLOWANCE OF ACCOUNTS, DETERMINATION OF TRUST AND DISTRIBUTION OF THE ESTATE.

ON READING AND FILING the Petition and accounts of John S. Chandler, Administrator of the Estate of Mary Rose Nakai, deceased, wherein petitioner asks to be allowed \$411.30 and charged with \$398.50, and prays that his accounts be examined and approved, that he and his sureties be discharged from all further responsibilities concerning said estate and that a final order of distribution be made of the property remaining in his possession to the persons thereto entitled.

IT IS ORDERED, that Wednesday, the 15th day of November, A. D. 1922 at 9:30 o'clock A. M., at the Court Room in Lihue, Kauai, of this Court, be and the same hereby is appointed the time and place for hearing said Petition and Accounts, and that all persons interested then and there appear and show cause, if any they have, why said petition should not be granted, and present evidence as to who are entitled to the said property.

Dated the 6th day of October, 1922.

(Sgd.) WILLIAM C. ACHI, Jr.
(Seal) Judge of the Circuit Court of the Fifth Circuit
Attest:—
(Sgd.) J. C. CULLEN,
Clerk of the Circuit Court of the Fifth Circuit
Lyle A. Dickey,
Attorney for Administrator.

ANNOUNCEMENT

Ladies, gentlemen and fellow voters, if you have weak eyes and you need spectacles properly fitted for voting on the 7th of November, call on S. E. LUCAS, Optician, Kapaa, running for the House of Representatives on the Democratic ticket.

Many thousands of ballots are thrown away on account of poor eyesight.

My experience consists of 25 years practice in this Territory.

The University Extension Letter

ONE ACRE AND INDEPENDENCE—A DREAM

I believe that the greatest single factor in the welfare of the Nation's history today is that a man and his family can earn a comfortable living from one acre of land.

I believe that the best environment for the highest development of man is in a garden home, close to nature.

I believe that the best environment of which man is capable can be had in a little garden, intensively cultivated, where neither wage earning nor the hiring of help enslaves. I believe that every child should have the divine privilege of "rowing up in the pure air, under the blue sky, in the sunshine of a beautiful garden home.—Charles W. Johnson, a "One Acre and Independence in California."

CORRESPONDENCE INSTRUCTION

Many of our readers will be glad to learn that the University Extension service will again offer instruction in agriculture by correspondence. Three courses are announced for this year, to begin in December and January. The course in Elementary Principles of Agriculture in Hawaii, has been completely revised and will be begun early in January. There are fifteen lessons in this course, one going by mail each week to all who sign up for it. The lessons in this course are prepared by several professors of the University and fit local conditions very well. This should be of special value to homesteaders and to teachers who are guiding groups of boys and girls in school gardening.

Two other courses more advanced, will be offered this year for the first time. One of these is a course of six lessons in Soil Science prepared by Prof. Henke, to begin about December 1st. The other is an advanced course in Poultry Raising prepared by Prof. Krauss, to begin either in December or January.

To pay for the preparation and mailing of these lessons we are obliged to make a small charge which we will call an enrollment fee. These fees are as follows:

For Course 1—Elementary Principles—the fee is \$2.50.

For Course 2—Soil Science—\$1.00.

For Course 3—Poultry Raising—\$2.00.

This is a preliminary announcement and will be followed later by more details.

SWAPPING IDEAS—WHO'S NEXT?

A Tin Roof Accessory

A wood strip 1 1/2 in. wide sawed by a bandsaw to fit the waves of corrugated roofing iron placed between the roofing and the plates solves the difficulty of wind blowing into a chicken house under the corrugated "waves," according to E. C. Moore of Haiku, Maui. Mr. Moore has kindly sent us a sample of the wood strip, the waves measuring 3 inches long and 1-2 inch deep. Any saw mill could cut these strips for you. They cost Mr. Moore 5 cents per running foot. To prevent the strip from splitting when large roofing nails are used, a hole must be bored in the strip before nailing.

Catching Horn Flies

Here is another swap sent in by E. C. Moore of Haiku. "For years I have kept the flies on the family cows under control by catching them in a net and feeding them to the chickens. The net is a loop of wire about 18 inches in diameter fastened to a handle 8 inches long with a flour bag fastened to the wire. As a flour bag is not 18 inches in diameter when opened, it has to be ripped part way down and pieced out to make it big enough. I step into the stall on the right side of the cow and sweep down her back from head to tail a few times with the net, folding it sideways on the return sweep near the ground past her body so the flies cannot escape on this return sweep. Then I catch the bag in the middle and beat the end against the door post. A few light blows will leave all the flies in a little ball. When I throw this ball out the chickens are waiting for the feast, as they soon learn what follows the sound of the beat against the post. Holes soon appear in the bottom of the bag. We cut off a few inches and sew it across again, rounding the corners."

HOW MUCH DOES MILK COST?

According to accurate information obtained by us recently, eleven dairy men in Honolulu during the month of August of this year paid for imported feeds at the rate of 4 1/2 cents per quart of milk produced. In addition to these imported feeds, there are costs for green feeds produced locally. These costs are difficult to figure, but amount to not less than 3 cents and perhaps up to 4 cents per quart of milk produced. Add to this the overhead of labor, interest, taxes, etc., and the cost of

milk produced in Hawaii mounts up pretty high. There probably is no profiteering, but it is possible by gradual improvements to reduce production costs.

MINERALS FOR CALVES

Calves fed normally on milk and legume roughages with grains rich in minerals as a supplement, will receive plenty of the necessary bone building materials. But often the milk supply is limited or the roughage may be a non-legume which carries but little lime and the calf consequently may fail to build up the strong, well developed skeleton so necessary for the heavy producing cow.

Mineral deficiency can be easily and cheaply remedied by adding about three-fourths pound ground rock phosphate to each 100 pounds of grain mixture fed to the calves. If a calf is fed four pounds of grain daily, this will supply about one-half ounce of rock phosphate each day, which is about the right amount. Rock phosphate can be purchased from fertilizer factories for about 1 1/2 cent per pound.—L. A. Henke.

A PEST OF LOTUS

A very destructive insect pest on lotus in the southern United States is described in a recent government bulletin (Bulletin 1076, U. S. D. A., Washington, D. C.). It is a moth caterpillar which devours leaves, bores thru the stems and destroys seed pods—makes a thorough job of it, in other words. It is a very good pest to keep out of these islands.

MARKETING FARM PRODUCTS

The Mississippi legislature has created an Agricultural and Industrial Commission of five members for the purpose of locating markets for farm products and assisting in standardizing and grading them and investigating transportation problems and freight rates. The results of the investigations will be reported back to the next legislature.

For A War History

The Historical Commission, composed of former-Governor George R. Carter, Mrs. A. P. Taylor, and Dr. K. C. Leebrock of the University of Hawaii has been officially charged with the gathering together for publication of the history of Hawaii's part in the Great War. The members recognize that the compilation of such a record is a matter which concerns very intimately a large proportion of the people of these islands, whose views, to the extent to which they can be ascertained, must be taken into account and given serious consideration. The commission desires to receive from persons who may be interested in the subject suggestions as to the form which the record of Hawaii's work in the war should take. What Hawaii and her people did during that critical period of the world's history is something of which we may all justly be proud. Let the printed record be worthy of the deed. Write out your suggestions and send them to the Historical Commission, University of Hawaii, Honolulu, T. H.

HERMAN BECHERT'S REMAINS BURIED IN LIHUE CEMETERY

The funeral of Herman Bechert of Honolulu, who was formerly a steamship engineer for Lihue plantation was held in Lihue cemetery last Sunday when his ashes were interred beside his two children in the family plot.

Herman Bechert died last month in Honolulu at the age of 70, and expressed a wish that he be buried in Lihue cemetery. His remains were cremated in Honolulu and the ashes buried last Sunday.

He came to the Hawaiian Islands from Germany in 1887 and for eleven years was steam plow engineer when he removed to Honolulu to take a position with the Honolulu Iron Works. He is survived by a widow, three sons and four daughters, and three brothers, one of whom is Albert Bechert of Hanalei.

The remains were brought to Kauai for interment by E. Ruething, H. G. Davis and A. H. Ahrens last Friday morning.

KAPAA NOTES

The Kapa Drug Co. started in 1920 by J. C. Taber, who later had to turn over his assets to his creditors due to the business depression which struck death blows to many lines of endeavor, will be opened again this week by S. Harry Oka, formerly of the Hilo Drug Co. of Hilo, Hawaii, but until recently with the Hawaiian Drug Co. of Honolulu. The new proprietor purchased the assets of the old concern from the Henry Waterhouse Trust Co., Ltd., receivers for the Hawaii Bank of Commerce, and the new store will be known hereafter as the Kapa Drug Co. Mr. Oka is an experienced druggist and promises the public of Kapa the best obtainable in the line of drugs, Kodaks or toilet articles.

The Makke baseball players and officials were guests of honor on Friday evening at a chop suey dinner given by B. Y. Lee, proprietor of Yuen Ken Cafe. Several personal friends of the host, including K. C. Ahana, David Luke, M. R. Aguilar Jr., and Arthur Wong, were also present.

Mr. and Mrs. Yoshimoto Nagashima welcomed the arrival of their first child, a boy, at their home last Tuesday morning.

A rather severe windstorm swept thru the Kawaihau district on Sunday just prior to the downpour that put the kibosh on the proceedings at Waipouli. Slight damage was sustained by some of the young cane in its path, and vegetable gardens that were in the way also suffered.

John Wise, Republican candidate for delegate to congress at the next election, was a speaker at the Hawaiian hall on Wednesday evening. Others who spoke included John C. Lane, high sheriff of the Territory of Hawaii, and Stephen Desha of Hilo, Hawaii.

K. A. Ching, chemist with the Hawaiian Fertilizer Co. is here on a short business trip. He expects to return to town on Tuesday.

Joshua Hano, with the U. S. Engineers at Niumalu, and Miss Grace Halemano, also of Niumalu, were married at the home of the bridegroom at Kapahi on Saturday evening. A luau given to celebrate the occasion was well attended.

Y. M. C. A. NOTES

**FATHER AND SON WEEK
IS TO BE OBSERVED**

The county committee of the Y. M. C. A. is planning a county wide observance of Father and Son Week during the annual dates November 12-19.

Gatherings are being arranged in a number of the communities including Kapaa, Lihue, Koloa, Makawell and Waimea.

Jimmy Taylor, who has the distinction of having worked with the soldiers of every allied army, will spend the week on the island as the guest of the county committee and will speak at each gathering. Special musical features are being arranged to supplement the usual mass melody mangling. These features of the program coupled with local oratorical talent assure one of the big vents of the year for the men and boys of the county.

**FIRST SECRETARY
OF Y. M. C. A. ANSWERS
THE LAST CALL**

"Uncle Robert" Weidensall, the first employed secretary of the International Y. M. C. A., died at his home in Yutan, Nebraska, Sept. 13. He was 86 years old and had been actively engaged in Y. M. C. A. work since 1868 when he was appointed the first employed secretary of the International Y. M. C. A. committee.

Y work in North America increased during his service from a round hundred of struggling associations to 2190, with millions invested in buildings and equipment and serving over a million men and boys. The foreign work of the Y. M. C. A. was opened the next year after he entered the work and now reaches into every nation in the world with the same message of strong body, clean mind and right heart.

The funeral was conducted from the Omaha Association building, Richard C. Morse in charge. One of the men who was present, writes, "I never attended a funeral where it seemed less like one." His noble life challenges everyone to be faithful as he, even unto the end.

Mr. Weidensall conceived the possibilities of the county type of association work which is now operating in over 200 counties on the mainland and in a number of foreign countries, and at present is being given a thorough demonstration on our island. Uncle Robert started the first railroad work which today is functioning in every railroad center of importance throughout the states. He also fostered the first student work which has its branches in nearly every college and university of the civilized world.

**LIHUE THREE-C CLUB
GO CAMPING**

Weather students will recall what a beautiful moonlight night it was Friday, just ideal for camping, etc. Maybe it wouldn't have been for some folks who don't know the real

joy of sleeping on the ground in the rain, or listening to the patter of the drops upon the tent top. No rain could dampen the enthusiasm of the members of the Three-C Club who left early Friday afternoon to enjoy the Waipahu Slide and a night in the open.

True, no dry wood could be found for a fire, but cold beans and dogs are just as good eating—when camping—and you can get hot stuff at home.

Sure, the blankets and things got wet, but that's a part of life. "It's an ill wind that does not blow some good," the rain made the ground softer to sleep on anyway, and the breadcrusts didn't break your teeth when you broke off a hunk. It was a real camping experience and none of the following would have missed it for anything: Jimmy Clapper, Ken Bayless, Glen Hopper, Herb Simpson and Neil Locke.

A BIG NIGHT IN PAKALA

With the help of Puhii boys, the Pakala Boys Club came across last Saturday with a successful evening's program. At 4:30 in the afternoon words were passed from a person's mouth to another person's ear and so it was until 7 o'clock, the time set for the opening of the entertainment. In one of the families the mother said, "Now child dear, we must hurry up and eat our supper and attend the show tonight." "What are we going to have tonight?" remarked the child. "Well, haven't you heard, child, that five black men from Puhii have come over to stage a blackman's show?" the mother answered. The child by this time became very inquisitive and asked his mother, "What are the black men going to do, I am afraid to see them, will you take me along with you mother?" "Yes, now let us finish with our supper quickly, the show is going to start in ten minutes," said the mother. The lad rushed thru his meal and waited for his mother at the door. He would not step one inch out in the darkness for fear the black man who could not be seen in the dark night as it actually was.

The mother came, "Come child, we are going to the show now." The boy grasped to his mother's side and very cautiously stepped out into the dark. The poor boy didn't know whether he was afraid or whether he was simply curious. Arriving at the scene, he felt somewhat relaxed. He noticed many of his playmates were there and gradually the instinct of fellowship had replaced the instinct of fear. He began to talk and to play with the other boys. He noticed a big crowd which had gathered to see the show. He said to himself, "I wonder whether these men, women, boys and girls are like me, afraid of a black man?" He saw Manuel, a Portuguese boy, by his side and inquired, "Say Manuel, aren't you afraid of black men?" "No," said Manuel, "I saw many of them in the U. S. army when I lived in Schofield barracks." "Well, tell me how they look. Do they have legs like we have? What do they eat anyway?" asked the boy. "They are just like us the only difference is that they are black, they even speak the English language. Their ancestors had come from Africa, they are negroes, some times we call them colored people," replied Manuel. The boy looked at Manuel with a smile and said to himself, "Well, I heard of those blackmen, Jack Johnson, once a heavyweight champion boxer is one of the black men."

"It is about 7 o'clock, I wonder when this show is going to start?" the boy said to himself. He then saw a man of his race standing before the group and began speaking in Japanese about the importance of registering the birth of a child to the territorial board of health, also the importance of securing the territorial citizenship certificate. Furthermore the boy heard from the speaker about the American home life and the importance of Christian Sunday schools and the Young Men's and Young Women's Christian Association Clubs in the building up of the lives of the boys and girls in the home. The boy who had become absorbed in the speaker's talk braced himself up and said to himself, "There is a fine boys' club here at Pakala, when I become of age I am going to join that club."

As soon as the speaker got thru talking the black men stepped out on the porch and began to stage the play. The boy became very inquisitive and began to examine very closely the physical and the facial makeup of the actors. He noticed that the black men were yet boys a years senior to him. He noticed the thick red lips and a distinct contrast between the color of their face and the color of the neck. In attempting to walk one of the actors jiggered across the stage. The audience all burst into laughing and the boy in surprise said, "Look! Look! Robert," who is a Filipino friend of his, "that man has a dangling broken leg." "No," replied Robert, "that is a negro jig."

When the show was over the actors washed the black off their faces and reappeared before the audience. The boy said "What is this I am so afraid of?" The boy didn't need his mother to go home with him. Some of the Japanese parents uttered statements of perfect reverence and surprise and congratulated the Puhii boys for acting so well. After the show the older boys went out to the beach to stay over night. While it was daylight the boys had gathered lots of wood. Kiyoharu, the clown of the evening, kindled the fire and in the meantime a real campfire was going. Some

**Y. W. C. A. TO HOLD
CONFERENCE OCTOBER 27-28**

Miss Edith Hanson, county secretary of the Y. W. C. A., announces that on Friday and Saturday, October 27 and 28, a conference of all county leaders of the above named organization will be held at Pahalaha. Miss Alice G. Moore, of Honolulu, will be present and will give an inspirational outline of the coming year's work. Miss Elsie Wilcox, will, on Friday night give a talk on conventions attended during the summer. Saturday morning Rev. R. G. Hall, will address the conference. The remainder of the time will be devoted to round-table discussions on topics pertinent to the year's program. A large attendance is expected.

of the boys stayed around the camp fire any enjoyed watching the different instantaneous images and figures appearing in the flames. Others carried torches and spears and nets and went out to the reef fishing. After preying for an hour or so the boys came back with lots of fish mullets, peke, squid, moai, eel, etc. The boys broiled the fish over the charcoal and began to help themselves. The fish was gone, the boys gathered around the fire and took a good night's rest.

Noticing around the camp fire in the morning a tide mark was seen within ten feet of the fire, the boys all congratulated themselves although it was nature's handiwork, that they did not get wet by the incoming tide while they were sound asleep. The fire was attended to, and the boys gathered around the fire as comfortably as they could and closed up the happy occasion with a short session of morning watch.

—Let your Christmas presents be a joy throughout the year by giving each of your friends a nice magazine. Send to the K. C. Hopper News Agency, Lihue, for a catalog. Phone 22-L—Adv.

PABCOLIN

This is an inexpensive enamelled floor covering which has qualities peculiarly its own. The enamel is baked onto the surface till it is a part of the material, just like the enamel on a high class automobile.

If it is kept waxed to preserve the surface it will wear for years. It will wear wonderfully well anyhow.

We will send samples and estimates. If you will send a plan of your floor with the correct dimensions of angles and jogs we will send the PABCOLIN all cut ready to put in place.

This splendid inexpensive floor covering is only one dollar a square yard.

**The final
test**

The real value of a motor lubricant can be determined in only one way—through its use in the engine for which it is intended.

Hence this company maintains an engine-testing laboratory, equipped with a Sprague dynamometer, in which Zerolene and other lubricants are constantly being tested under actual operating conditions.

This dynamometer laboratory is in charge of competent trained men, who spend all their time in conducting comparative tests of Zerolene and other lubricants in automobile, airplane, marine, truck and tractor engines.

Correct Lubrication Recommendations

On the results of these tests, supplemented by equally careful tests in the field and on the road, our Board of Lubrication Engineers bases its Chart of Recommendations.

Close attention is given to the design and construction of the engine. It is necessary to know, first, the speed of the bearing surfaces; second, clearance between bearing surfaces; third, temperatures at which bearings operate; fourth, pressures exerted in each bearing; fifth, the means provided for the distribution of the oil to each bearing.

The recommendations embodied in the Zerolene Chart are calculated with the greatest precision, and if Zerolene is used in accordance with them, correct lubrication and maximum fuel mileage are assured.

SPORTS

Double Header Called On Account of Rain

GAMES REPLAYED NEXT SUNDAY AND TICKETS WILL BE HONORED

The double header at Waipouli last Sunday was called in the second inning of the first game on account of the rain. The double header will be played next Sunday at the same place, but the first game will start at 1 o'clock instead of 1:30 so that both games can be played. All tickets bought and all reservations will be honored at the double header next Sunday.

Makee was leading three to nothing when the game was called.

SENIOR AND JUNIOR TEAMS TIE FOR SCHOOL FOOTBALL TITLE

The Senior and Junior high school class teams played a 12 to 12 tie last Friday afternoon at the high school grounds. The Junior team outweighed the Seniors, but the Seniors made up for their lack of weight by fight and the speed of their backfield.

The Seniors were the first to score making a touchdown in the first half. The Juniors evened matters up soon after the second half started but the Seniors jumped back into the lead when they scored their second touchdown.

The Juniors evened up matters by scoring their last touchdown just before the whistle blew. They had a chance to win the game by kicking a goal but the Seniors broke it up by blocking the kick.

The Juniors defeated the Freshmen-Sophomore combination 42 to 0, and the Seniors defeated the same team 19 to 0.

The Lihue-Makee post season game will be postponed until next Sunday, will be postponed until Sunday, November 11. Makee vs. All Stars and East vs. West next Sunday at Waipouli.

K.P.S.A.L. Ball League Starts Its Season

CLOSE AND ONE SIDED GAME MARK OPENING OF THE LEAGUE

The Kauai Public Schools Athletic league started its playground baseball season last week and two rounds of games have been played.

In the first round the Makaweli boys defeated Waimea at Waimea by the score of 30 to 21. The girls' game was forfeited to Waimea by Makaweli.

The Koloa boys' team defeated Kalaheo by the score of 16 to 13 while the Kalaheo girls defeated the Koloa girls by the close score of 25 to 24.

The Hanamaulu boys team defeated Huleia 14 to 6 and the Hanamaulu girls defeated the Huleia girls after a game fight by the smaller school by the tight score of 10 to 9.

INDOOR BASEBALL LEAGUE ABOUT READY TO START

Jack Hanson announces that although the armory will not be completed for sometime yet, that it will be ready for indoor games in about three weeks.

This should interest all former players in the indoor league of last year and plans should be made to start out the league as soon as the armory is finished.

It might also be a good idea to plan on an all-island league using Lihue and Makaweli as the two centers for the teams. Kapaa, Lihue and Koloa could use the armory for their home grounds and McBryde, Makaweli and Waimea could use the Makaweli community house.

Another good idea would be to form the volleyball league again so as to give some of the less active men a chance to take part.

GOLF

ELIMINATION TOURNEY AT WAILUA, SUNDAY

The Wailua Golf Club will hold its first elimination tournament next Sunday and all the members are urged to be on hand. The net score of 85 will be the mark for the players to aim at and all members qualifying will be entered in the second round which will take place on the following Sunday.

WAILUA COURSE RECORD BROKEN, HONOLULU MAN

Ben Nuole of Honolulu broke the Wailua course record last week when he turned an 80 for the 18 holes. He also broke the record for 9 holes by turning a 38.

His core for the first nine are as follows:

4 4 4 4 4 7 3 6 6—42
4 4 4 3 3 5 5 4 6—38

This will give the local golfers some mark to shoot at for awhile. Nuole is a well known golfer in Honolulu, being a member of the Honolulu Golf Club.

KAUAI HIGH AND VETS THANKSGIVING BATTLE CAUSES INTEREST

The Thanksgiving Day game between the Kauai high school and the Veterans is already causing interest among the football fans and it is expected that the crowd will be double the number that attended the first game last year.

Both teams will be strengthened by the addition of new men, the main additions in the high school being in the backfield, while the vets have been strengthened considerably in the line.

Another feature of the game will be the fact that both teams will be partially equipped at least with football suits, something that was entirely lacking last year.

Altogether there will be better football as this year's game owing to the experience that the high school has gained in the past year.

KAUAI SOCCER LEAGUE TO HOLD MEETING

The Kauai Soccer League will hold its annual meeting and election of officers at the Koloa hall on Wednesday evening. The purpose of the meeting is to outline plans for the coming soccer season. Representatives from each club in the league are requested to be present.

The Garden Island Radio Column

By MIKE O'FARAD

STRAY WAVES

Hello everybody!
We are still reaching out. Picked up Forth Worth Star-Telegram radiophone station 5YZ Wednesday. They were talking to another station making some tests. The voice was very clear; only a matter of 3,500 miles!

KGU, Honolulu Advertiser, Wednesday night sent out some real music. Ray West's musical Westerners performed.

Ray D. Phone had the insulation stripped from his tuner the other night.

Howzzat?
Receiving sharp waves.

Hello, Mrs. Walters. Sometime when you are in the homestead section, drop into Livesey's house about 12:30 p.m. and hear the stock market come in.

Radio fans on Oahu are picking up coast music too. Everybody's doing it. Better get your radio set now before the Christmas rush.

A complete display of radio sets will be on display in the electric store just as soon as Mr. Wood gets the telephone finished.

When central is in the new building, don't get mad when she says, "line's busy," she is probably listening to radio music out of the air. Better hang up and come over and listen, too.

Our friend, Static is in today. He will probably be on the air tonight at intervals with a few selections on the snare drum with the latest Machine Shop Blues, and Boiler-Makers' March, and ending up with an imitation of a freight train wreck.

RADIO NEWS

Wireless College
Entering a field of almost limitless possibilities in the realm of education, Tuft's College recently announced the completion of plans for what is destined to be the world's first wireless college. A series of lectures will be given twice a week, broadcasted by radiophone to more than 35,000 persons scattered in a great circle stretching from Wisconsin to northern Florida. There will be no limit to the number of pupils to this college. All you need will be a radio receiving set.

Wyoming has come thru with several broadcasting stations, thus making at least one station in every state in the Union.

KFAF, of Denver, Colorado, now has the most powerful station west of Chicago. They use two 250 watt tubes.

The large horns used during the war in England as listeners for detecting air raiders are now being used as radiophone loud speakers.

A new class of radiophone broadcasting station known as Class B has been established. This class of station works on 400 meters wave length and the power used is between 500 and 1000 watts. The feature of this class is that no "canned music" is allowed except in emergency or between intermission periods of the regular program.

The 100 K W vacuum tube has arrived. It has just been produced by the Bell telephone laboratories and is powerful enough to maintain a constant wireless communication across the Atlantic ocean. The tube is about two feet long, has grid and filament inside and the metal plate outside but sealed to the glass tube and water cooled. Temperature from zero to 300 degrees can be withstood without breaking down the vacuum inside the tube.

COMMERCE CHAMBER HOLDS MEETING

(Continued from Page One)
month and the cost per foot averages about \$300.

One of the mechanical problems of quarrying the rock has been the removal of a layer of earth about 50 feet deep on top of the rock and this has formerly been handled by donkey engines and scrapers, but a new system will be installed and hydraulic sluicing will be used. The engine, which is of 80 horsepower standard, will be used to drive a pump with a capacity of 1200 gallons a minute. The pump has not arrived but it is expected in the next two weeks so that Kauai people will have the opportunity of witnessing hydraulic mining in action even though there is no gold on the island.

Major Johnson then closed by answering a number of questions asked by the various members and at the conclusion of his speech considerable satisfaction was expressed by the members in regard to the information so ably expressed by the Major.

Senator John Wise then was called upon by President Sloggett and he told the chamber that if elected he would do all in his power to see that the work on the breakwater was carried on to completion.

L. R. Jackson, head of the manual training department then spoke in the absence of F. J. Dollinger in regard to the technical training at the Kauai high school. Mr. Jackson gave the chamber some of his ideas on the subject and also gave out the ultimate plan of the school in turning out boys who would be ready to take up the various trades on the completion of their school work. After a short informal discussion the meeting adjourned.

EVANGELICAL ASSOCIATION

The Kauai Evangelical Association met in Koloa Sunday for a three days session. The first day was marked by a general "hoike" which consisted of productions from all the Sunday schools of the island. The chairman, Hon. Wm. Hyde Rice, said that it was one of the best he had attended in recent years.

A song contest under the auspices of the Christian Endeavor, was conducted in the afternoon, and it proved to be a real treat. A silver cup was offered which must be won three times. Hanalei, by unanimous vote of the judges and audience, was given the decision and from the excellent music which they gave will be strong contestants in the future.

An International Young People's service was conducted at the evening hour. Despite the inclement weather the house was packed with choice young people from all parts of the island. Rev. Judd and Rev. Davis gave brief inspirational addresses. After the very good music, rendered by special groups, "The Sin of Ahab," a biblical drama was presented, and was said by those who saw it, to have been very good, indeed. The scene was laid in Samaria, the capitol of Israel, the latter part of the tenth century B. C. Those who were unable to attend the drama can read the same by turning to First Kings. The drama was promoted, drilled and costumed by Rev. R. W. Bayless, Mrs. Alma Rogers and Mrs. Edith Troeler.

The cast of characters were:
Ahab, King of Israel—Jacob Maka, Jezebel, his wife—Miss Rosalie Lowell, Jonas, a boy favorite of Ahab—Charley Gokan, Obadiah, head of Ahab household—Timothy Montgomery, Naboth, a native of Jezreel—Richard Rice, Elijah, the prophet—Thomas Vance.

—Let your Christmas presents be a joy throughout the year by giving each of your friends a nice magazine. Send to the K. C. Hopper News Agency, Lihue, for a catalog. Phone 22-L.—Adv.

A BIG, STRONG, POWERFUL TIRE

Look at the Goodyear Cord Tire.

Its value is evident in the very size of it, in that rugged thickness, that finished workmanship, and that strong, tough, sharp-edged tread.

On your car it will deliver a quality and length of service such as no other tire can give.

It will hold the road with the clinging grip of its famous All-Weather Tread.

It will take the hills with all the power your engine delivers.

And it will wear with the strength of a special construction that is designed to stand up to thousands of miles of service.

Your Goodyear Dealer not only sells Goodyear Cord Tires. He services them, so that you get out of them all the value built into them—the utmost in tire value at low cost per tire mile.

SOCIAL NOTES

MRS. J. H. MORAGNE GIVES BRIDGE

Mrs. J. H. Moragne entertained the Lihue high and the Lihue grammar school teachers last Friday afternoon with a very enjoyable bridge party.

BEATRICE AKO CHING BECOMES BRIDE OF N. C. TOM

Miss Beatrice Ako Ching, of Waimea, became the bride of N. C. Tom of Honolulu last Saturday evening at a very pretty wedding at the Waimea Hawaiian church. Rev. M. E. Carver officiating.

The bridal party was made up of Miss Priscilla Charman as maid of honor, while Rose Ako Ching and Belle Tsark were the bridesmaids. Two younger sisters of the bride acted as flower girls.

A reception was held at the home of the bride's father immediately after the wedding and a large number of friends gathered to give their best wishes to the young couple.

After a honeymoon in Honolulu the newlyweds will return to Waimea where they will make their home.

Mrs. Malcolm of Wainiha was returning passenger on the Claudine this morning.

ADVERTISER MANAGER MARRIED IN HILO

Charles S. Crane, manager of the Advertiser Publishing Co., and Mrs. Emma S. Thompson, both of Honolulu, were married in Hilo on October 16th.

Mr. and Mrs. Crane are at the Volcano House near the crater of Kilauea, where they will spend two weeks. On their return to Honolulu they will make their home at the Crane residence, Ocean View Drive, Kaimuki.

The wedding of the Advertiser manager came as a complete surprise to his many friends in Honolulu. On his leaving for Hilo last Saturday only a few intimate friends were aware of the approaching marriage.

Mrs. Crane, and her daughter, Miss Margaret Thompson, who was a witness to her mother's wedding, were visitors on Kauai about three weeks ago.

The Garden Island extends congratulations to the happy couple.

MRS. C. L. LANE HONORS TEACHERS

Mrs. C. L. Lane entertained at a very delightful bridge tea last Wednesday afternoon in honor of the teachers of Lihue grammar school.

MISS LOEHR ANNOUNCES HER ENGAGEMENT

Mrs. Frank Bechert and Mrs. Gustav Bechert entertained at the former's home in Nuuanu valley Tuesday afternoon in honor of Miss Anna Loehr of Kauai. The affair was a surprise shower.

The Bechert home was prettily decorated with mixed flowers in soft shades. When all the guests had assembled, Miss Loehr announced her engagement to William Spillner of Maui. The wedding will take place shortly after Christmas in Honolulu. Miss Loehr attended St. Andrews Priory and is well known on Kauai.

Miss Emma Luke of the county treasurer's office was a returning passenger this morning on the Claudine.

Joe Simpson returned on the Claudine this morning after a flying trip to Honolulu.

E. Damkroger, welfare director of Makaweli returned this morning from a brief visit to Honolulu.

Mr. and Mrs. J. M. Lydgate, who have been in Honolulu for the past two weeks, where Mr. Lydgate has been undergoing treatment, returned on the Claudine this morning.

M. R. Jardine of Kalaheo returned from Honolulu this morning on the Claudine.

CHANGE IN SAILING SCHEDULE S. S. CLAUDINE

Due to annual inspection and general repairs, the S. S. CLAUDINE will be laid up from October 25th to November 2nd.

The above vessel will sail with passengers and general freights for Ahukini on Monday, October 23rd, but on her return will sail from Ahukini to Honolulu on Tuesday, October 24th, at 6 p.m. instead of on Wednesday, October 25th, at 5 p.m.

She will omit her regular trips to Nawiliwili and Ahukini on October 26th and October 30th.

Nawiliwili freight will be received on Tuesday and Wednesday, October 24th and 25th to go forward by the S. S. Kinau sailing at 8 p.m. on October 25th.

The S. S. CLAUDINE will be on the loading berth for Nawiliwili and Ahukini on Wednesday, November 1st and Thursday, November 2nd, and will sail on the latter date at 8 p.m., and returning will sail from Ahukini on Saturday, November 4th at 5 p.m.

Inter-Island Steam Nav. Co., Ltd. Honolulu, T. H. Oct. 6, 1922. (Oct. 24-31.)

CHANGE IN SAILING SCHEDULE S. S. KINAU

For Week October 30-November 4.

Due to the annual inspection on Saturday, November 4th, the above vessel will sail from Honolulu for Koloa, Port Allen and Waimea with general freights via Nawiliwili with mail and passengers on Monday, October 30th, and returning will sail from Waimea on Thursday, November 2, at 11 a.m. and Nawiliwili on Thursday at 5 p.m., arriving back at Honolulu on Friday, November 3rd.

Inter-Island Steam Nav. Co., Ltd. Honolulu, T. H. Oct. 6, 1922. (Oct. 24-31.)
