SUBSCRIPTION RATES, \$2.50 PER YEAR 5 CENTS PER COPY

## CONGRESS ASSURES LOCAL BREAKWATER

**NAWILIWILI PROJECT INCLUDED IN RIVERS AND HARBORS BILL**

**300 Thousand is Pledged**

**GOVERNMENT MAY LET CONTRACT TO PRIVATE FIRMS FOR DREDGING**

Word was received from Washington yesterday by the Engineer Corps of the Hawaiian Department that the annual rivers and harbors bill in congress will carry an appropriation for \$300,000 for Nawiliwili breakwater.

This appropriation should guarantee the completion of the breakwater, but this amount will not guarantee the completion of the project due to the fact that the dredging of the harbor will be an expensive item in the completion of the work.

Six hundred feet of breakwater has been completed, leaving but 2000 feet more to be built.

Tentative plans for the dredging call for the work to be let on contract, and it is possible that mainland dredging companies that are planning to bid on the dredging of Honolulu harbor may also bid on the dredging at Nawiliwili. These plans are only tentative and will depend on the results of the Honolulu bidding.

The pump that is to be used in the sluicing operations in the quarry arrived last Saturday and is now being set up. A few necessary fittings have not yet arrived but it is expected that the pump will be operating in about two weeks.

The news that the Nawiliwili breakwater was included in the annual appropriation for such a substantial sum caused a great deal of favorable comment around the island, although there was very little doubt locally about the inclusion of the breakwater in the appropriations.

Local legislators should be urged by all the local civic bodies to have the board of public works make some decision in regard to the bulkhead line before dredging starts so that the dredged material can be used in filling in behind the bulkhead lines. This will save the territory a great deal of expense when the construction of a wharf is started at Nawiliwili.

### MOKIHANA CLUB WILL MEET DECEMBER 6TH

Mokihana Club will hold a regular meeting at the Memorial Parish house, Lihue, at 2:30 o'clock, Wednesday afternoon, December 6th. The principal feature of the afternoon will be a piano concert by Mrs. Ray Allen. As this promises to be one of the most interesting meetings held by the club this year it is hoped the attendance will be large.

The hostesses for the occasion will be mesdames Smith, Hogg, Will Crawford, Broadbent, Locke and Swan.

Club dues will be payable at this meeting to Mrs. T. L. Morgan.

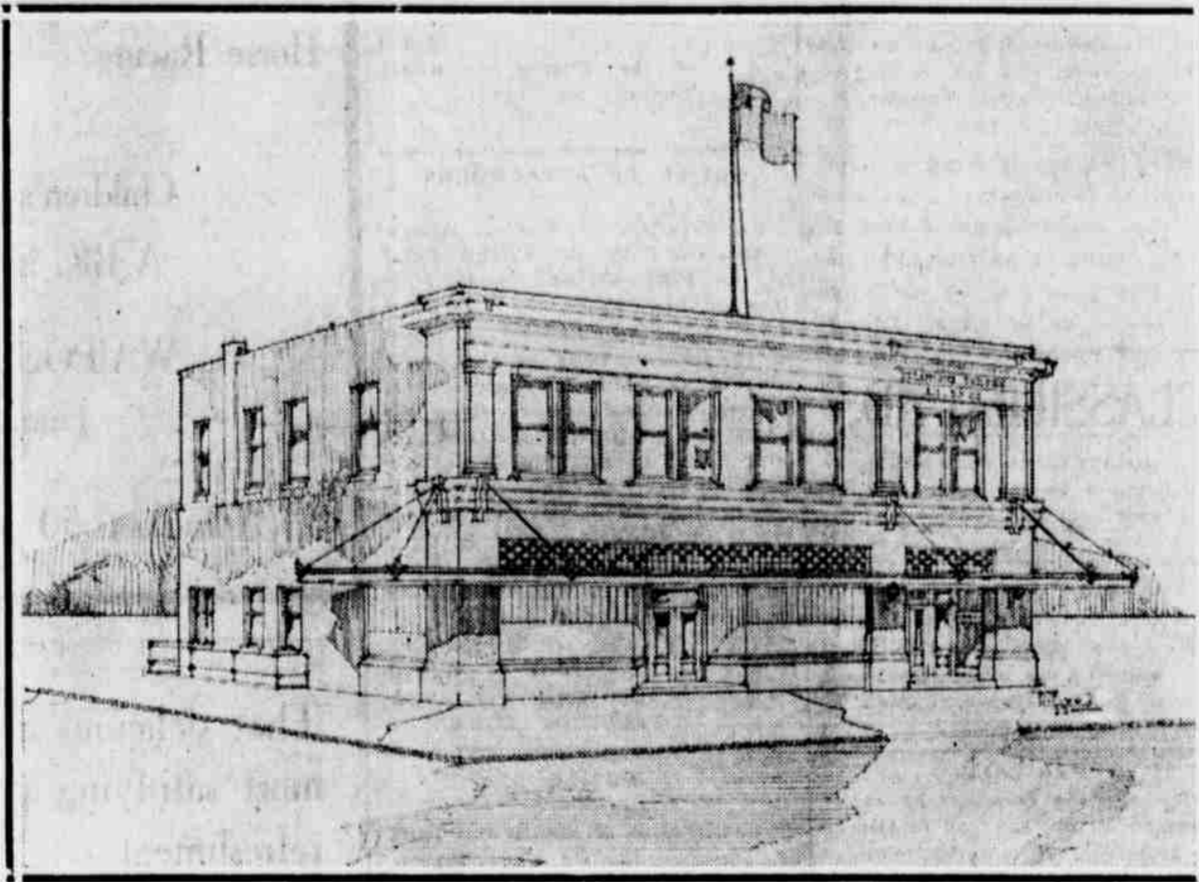

### BILL JARRETT ARRIVES ON KAUAI

W. P. Jarrett, delegate elect, was an arrival this morning on the Claudine. Bill is touring the islands after his election thanking his constituents for their support during the last election. Up to the time of going to press we were unable to learn if there will be any formal celebration locally for the new delegate to congress.

### \*\*\*\*\* PRACTICE CHRISTMAS CAROLS, PARISH HOUSE \*\*\*\*\*

The people of Lihue are invited to practice Christmas carols at the Memorial Parish house, Sunday evening, December 10 and 17, at 7 o'clock.

Magnificent New Home of the Kauai Telephonic Co., which Will be Officially Opened to the Public on Next Friday Evening.

The Kauai Telephonic Co. will formally open to the public its new building in Lihue next Friday evening, according to the announcement given out to the public by E. K. Wood, manager of the company. At that time the telephone company will present to the public its new enterprise which is to be known as The Electric Shop. The

new shop will endeavor to supply local people with all appliances in the electrical line and many new and novel appliances will be on display that evening.

The new building, besides housing the telephone exchange and electric shop, also has several modern equipped offices on the second floor.

The new building is the first step in the automatic telephone system

that the telephone company plans to install. The automatic system will be installed by degrees, the first unit to be installed will include the district of Lihue and the system will gradually broaden to include the whole island.

This change will be very slow as it will necessitate the scrapping of the present system and much valuable equipment and material will have to be replaced.

### To Open Lihue Armory Next Saturday Night

The new Lihue Armory will be thrown open to the public next Saturday evening when the Kauai Smoker Club will present its first boxing show.

It was the plan of the local post of the American Legion to open the building with a big dance, but owing to the fact that the Kauai Athletic Club was giving a dance on next Saturday evening at Kapaa and that on the following evening the Legion will hold its annual banquet, it was thought best to postpone the dance until after the holidays.

The Smoker club plans to present a show at least every three months and for the opening show a very good card has been arranged. There never has been a concerted effort to present boxing on Kauai and it is hoped that the efforts of the smoker club will prove successful.

### WOMEN'S AUXILIARY TO MEET SATURDAY A.M.

Kauai Post No. 2 of the Women's Auxiliary will hold its regular meeting next Saturday morning at Mokihana Hall. The report of the delegates to the department convention will be given and a final report of the year's activities will also be in order.

### BAYLESS IS DELEGATE TO CIVIC CONVENTION

Rev. R. W. Bayless will leave tomorrow afternoon for Honolulu, where he will represent the Kauai Chamber of Commerce at the civic convention to be held next Friday and Saturday. Mr. Bayless will address the convention on "The Preservation of Historic Landmarks."

### KAUAI ATHLETIC CLUB TO GIVE CONCERT AND DANCE

The Kauai Athletic Club will make its first bow to the public next Saturday night with a concert and dance at Kapaa.

The proceeds from the evening's entertainment will go towards equipping the two soccer teams that club has entered in the Kauai Soccer league.

### Two Celebrations at Waipouli Track

The Waipouli race track is going to be a busy spot during the holidays, no less than two celebrations taking place there within three days.

The local Filipino association will celebrate Rizal Day with a day of sports at the track and the Ancient Order of Foresters will celebrate New Years day in a somewhat similar manner.

The Filipino celebration will confine itself mostly to such sports as footracing, boxing and baseball with a parade and patriotic speeches as added features.

Local runners will be asked to compete at the day of sports and at least two boxing matches will be put on with two Filipino mitt artists at the headliners. The matches will not be made until after the Kauai Smoker Club's show next Saturday evening.

The baseball game which will be the afternoon feature will be between the all-Filipino team and the all-Japanese team.

The Foresters' celebration will be on a considerably larger scale and will start with a big racing program in the morning, a number of wild west stunts including bull-dogging from an automobile and ending with a football game in the afternoon.

Thirteen big races are on the cards for racing fans and a number of special races will feature the morning sport. A girls race and a ladies race will be among the special races of the day.

### WORK STARTS ON THE KAUAI LIBRARY

Work was started on the new Memorial Library building today. Jack Hanson, the contractor, spent this morning laying off the building and the excavating of the basement will begin at once.

Mrs. Frank Burns of Keala, accompanied by her two children, arrived from Honolulu this morning, where she has been visiting since her return from the mainland the first of November.

Mrs. Adrian Englehard of Lihue who has been visiting her home at Kohala, Hawaii, for the past month, was a returning passenger on the Claudine this morning.

### Prof. Hauck to Speak at C. of C. Dinner

Prof. A. A. Hauck, president of Punahou school, will be the guest of honor at the banquet session of the Kauai Chamber of Commerce, which will be held in the tea garden at the Tip Tip Cafe on Thursday evening, December 21. Prof. Hauck comes in response to an invitation sent by H. D. Sloggett, president of the chamber, and will make an address on the subject of education. Prof. Hauck is said to be a gifted speaker, so the members of the chamber have a rare treat in store for them.

The entertainment committee of which Jack Horner is chairman, will endeavor to have some stunts prepared for the occasion, so the last meeting of the year promises to be the best.

Notice of the meeting is being sent to each member of the chamber and it is requested that they sign and return the cards immediately signifying their intention to be, or not to be present on this occasion.

### TO DISTRIBUTE CHRISTMAS GIFTS IN THE SCHOOLS

The committee in charge of the annual Christmas tree in Lihue announce that a new method will be used this year in distributing the gifts to the children. Formerly the gifts have been distributed at the annual Christmas tree in the armory but this method will be discontinued owing to the confusion that it causes.

The new method will be to distribute the gifts thru the schools before Christmas thus insuring that every child will be remembered.

### TO ATTEND EMERSON INSTITUTE, HONOLULU

Among the nurses and welfare workers leaving this week to attend the institute on the nutritional problems of children, held by Dr. Emerson of Boston, in Honolulu, December 6th to 20th, are Miss Mina of Makaweli, Mrs. Farley of Elele, Miss Weightman of Koloa, Mrs. McGregor and the Misases Cheek, Roe and Wilcox of Lihue, and Miss Geyer of Keala.

Mrs. William Danford of Kekaha was a returning passenger from Honolulu this morning.

## KAPAA NOTES

Thanksgiving was fittingly observed by the members of the Kapaa Hi-Y Club last Thursday evening. The traditional custom that on Thanksgiving at least, "man lives to eat," was observed to the letter.

The appointments of the feast were furnished by the individual members and ranged from roast duck and chicken up and down thru such delicacies as salads, relishes, roasts, preserves, climaxed by home made ice cream and cake of three varieties.

Stories and jokes and sleight of hand tricks were enjoyed during the latter part of the evening.

The fair given by the ladies of the Keala Catholic church at the Hawaiian hall last Saturday drew good crowds all day. The fair began at 10 in the morning and the various booths were still selling their articles as late as 11 that evening.

Dr. Sau Yee Chang, dentist, met with a rather unfortunate accident last week at Kapaa with the result that the body of his new Studebaker car was dented in the rear and the gasoline tank was also put out of commission. The gasoline pump of the Kapaa garage was also knocked down. The accident was caused by the car being in reverse gear when the starter was depressed.

Joseph Scharsch Jr., Democratic candidate for representative at the last election, returned Saturday after three weeks spent in Honolulu. Joe told his friends before the election that he intended to take a vacation if he was elected, but he took one anyway, although defeated.

H. Ishiyama, who is connected with the Hawaii Japanese labor union, returned last week after an absence of about eight months, during which time he visited friends and relatives in Japan.

The appointment of a successor to H. T. Barclay, deputy tax assessor of Kawaihau, has not been announced, although both applicants, Hoopii and Masunaga, are hard at work trying to convince those in power that they deserve the appointment. It is expected however that the appointment will be made within the next two weeks.

Arthur H. Wong, well known local young man, departed last week for Kilauea where he has accepted the position of assistant bookkeeper with the Kilauea Plantation Co. Wong was until recently bookkeeper with the Lihue Ice & Soda Co.

Sandow, the strong man, and two Gypsy fortune tellers arrived last week for a stand of several days. Business was poor however, and they departed on Sunday.

M. S. Henriques, local attorney is the proud possessor of a new Studebaker Big Six touring car, delivered last week by the Pond Co. This is the second Big Six in Kawaihau, John Fernandez being the owner of the other car. Henriques seems to be enthusiastic over his new car.

Mrs. Sarah C. Liu, Waialua homesteader, departed last Saturday for Honolulu where she intends to spend Christmas and New Year with her family.

J. F. Bettencourt, prohibition officer, reported two cases last week. Ah Yuen of Koloa, for manufacturing 110 gallons of mash and having a still in his possession, was fined \$100 and cast. Tomi Ushi, also of Koloa, was found with 100 gallons of mash and a complete still. He was also made poorer to the tune of \$100 and cost.

### BETTY GLAISYER NOW RECOVERING

The many friends of Dr. and Mrs. Glaisyer will be glad to know that their little daughter Betty is well on the road to recovery. Betty was the victim of an acute attack of ptomaine poisoning last week and for a time it was thought that it might result fatally.

## FACTORS PLAN BIG IRRIGATION PROJECT

**TO BRING HANAIEI WATERS THROUGH THE MOUNTAIN TO LIHUE**

### One Mile Tunnel Planned

**THE WATER CAN BE DIVERTED TO KOLOA WHEN PROJECT IS COMPLETED**

The American Factors, thru their engineering department are planning a great many improvements in their local irrigation water supply systems.

One of the big projects planned and on which the location survey has been run is a tunnel thru the mountains behind Lihue to tap the Hanalei stream and divert it to this side of the mountains so as to supply the East Kauai Water Co. with additional water.

This will release the Lihue Plantation water that is now being used by the water company from the Waialua river and at the same time will allow the Lihue plantation to give Koloa plantation surplus water.

The Hanalei river will be tapped at 1200 feet elevation and will be brought thru a tunnel a mile long. From the outlet on this side of the mountain it will be possible to divert the water to the Kapaa homesteads, Hanamaulu section, Lihue section or even to Koloa.

In order to send the water to Koloa it will be necessary to construct some tunnels and ditches and at present a force is at work constructing a tunnel on the Koloa ditch line. This tunnel will replace one that is now in operation, which is causing considerable trouble owing to the nature of the ground in which the tunnel was dug. The new tunnel will be constructed so as to prevent this trouble.

The plans call for supplying Koloa with ample water, but it will be quite a while before all the construction necessary will be completed.

### BILL BALTHIS TURNS BUCKEROO

Jack Burroughs Wild West Show has been causing considerable more amusement among local people than it was expected to, owing to the fact that several young men have been making bets in regard to riding steers and the bucking horses.

Bill Balthis has lost his two former nick names of Tuxedo and Pepper since his performance of last Thursday evening when he rode one of the steers, after being dared to do so by his cohorts in the Lank. Bill stayed with his steer for several jumps, in fact he stayed too long and after he was thrown off the steer's back he still had hold of the circling and he tried to climb on and had his foot stepped on for his pains. Fortunately his foot was not hurt but his shoe was badly torn so his ride was not as profitable as it might have been. Bill is now being called Hoot Gibson for his riding ability.

### DR. DUNN OF MAKAWELI LEAVES KAUAI FOR HILO

Dr. Dunn, who for seven years has been physician at Makaweli, left last Saturday afternoon on the Kinan, bound for his new home in Hilo, where the Doctor intends to practice.

It was with keen regret that the many friends of Dr. and Mrs. Dunn saw them leave Kauai, and the best wishes of the island go with them in their new venture.

Many friends of the popular couple were at the wharf last Saturday to wish them aloha.

### \*\*\*\*\* CHRISTMAS TREE AT THE LIHUE ARMORY \*\*\*\*\*

There will be a public Christmas Tree at the Lihue Armory on Christmas night, Monday, December 25th.

**INTERNATIONAL CHRISTMAS PROGRAM IS PLANNED**

The Waimea Hi-Y Club is preparing for an International Christmas program to be staged sometime near Christmas. The program will be conducted in the following languages: English, Chinese, Hawaiian, Japanese, Norwegian, etc.

**CHRISTMAS IS PLANNED FOR OUT OF THE WAY VILLAGES**

The Sunday schools in the following communities: Koloa, New Mill, Kukuila and Lawal Stable camp, will for the first time have a Christmas program this year. These Sunday schools are being conducted thru the church and the Y. M. C. A. organizations.

**MINSTREL SHOW AT KOLOA NEW MILL**

The members of the Grove Fair Three-C Club entertained the children and parents of the Koloa Puhi community at the Koloa New Mill, with a unique program. The first number on the program was a sing-song by all those who read English. Story telling and jokes followed next. The third and the last number on the program was a minstrel show given by Kenchi, Setuzo, Isamu and Takeo. The audience had never seen a minstrel show prior to that occasion, so everybody was anticipating what really was going to happen.

**BIG APPROPRIATION FOR KILAUEA PARK RECEIVES SUPPORT**

Thomas Boles, superintendent of Hawaii National Park, returned today on the Wilhelmina and said that the meeting of national park superintendents approved his proposal to obtain a large appropriation to be spent on Hawaii National Park in the next ten years, says the Hilo Tribune.

Boles said the program contemplated the expenditure of \$450,000 in six years. Surveys will be started immediately, he said. "Hawaii National Park is very highly regarded," said he, "by superintendents, and it has received much publicity. Endorsements which the local civic and commercial bodies gave to the work of the superintendent materially helped to get approval for the project."

**HOLD LAST RITES FOR PRINCE TOPLE**

Santa Ana, Calif.—Simple but impressive funeral services for Prince L. Tople, former resident of Kauai, prominent Mason and teacher, who died at his home here last Sunday, were held at the Smith and Tutuill chapel here today, the Rev. Perry F. Schrock, pastor of the First Congregational church, officiating.

Elmer Bowers, acting commander of Santa Ana Commandery No. 36, Knights Templar, was in charge of the ritualistic services conducted by the commandery.

Pursuant to the wishes of Mrs. Tople, there were no vocal numbers. Allen A. Revill, organist of the First Congregational church, opened the services by playing "Cast Thy Burden on the Lord." This was followed by "Oh, Rest in the Lord." After the ritualistic service, Revill

softly played one verse from the touching hymn, "Lead, Kindly Light."

"Life," said Rev. Mr. Schrock, after referring to the fine character of Mr. Tople, "is made up of a series of experiences. Death is not the end of life. It is merely one of the experiences of life. Our friend and counsellor, beloved by many, is not dead. Finishing a useful experience here, he has passed from our sight to take up his work in other fields."

Pallbearers were Roy Roepke, J. W. Mitchell, F. E. Cloyes, O. W. Humphrey, J. Harkelroad and Chas. Hanson. Interment will be made in Los Angeles.

Mr. Tople was past master of Santa Ana lodge No. 241, F. & A. M.; high priest of Santa Ana chapter No. 73, Royal Arch Masons and present commander of Santa Ana Commandery, Knights Templar.

Mr. Tople was principal of Kapaa school for a number of years, leaving that institution about 1910. He was a Mason of high standing and was very prominent in the public and social life of Kauai.—Ed.

**FIRST JAPANESE COMMUNITY SOCIAL A BIG SUCCESS**

(From Makaweli Plantation News) The first monthly Japanese Community Social was held at the Community House on the fourth of last month and was a decided success. Almost every Japanese family living in the vicinity of the Community House was there in full numbers and if you don't think they had a good time just ask anyone of them. The committee, under the direction of M. Hayshi, put on one of the best entertainments ever held at the Community House, every number of which was strictly local talent.

The program was opened with remarks by E. L. Damkroger, Rev. Tamayose and M. Hayshi. Then came a varied program including orchestra numbers, singing, folk dancing, vaudeville acts, movies and instrumental solos. Following the program a number of games were played under the supervision of U. Watada, county Y secretary, and everyone playing or watching had a "ripping" time.

Plans for this month's social has already been made and there is no doubt that it will be even better than last month's. It will be held on the second.

The committee in charge of the community socials is composed of M. Hayshi, chairman; Rev. H. Tamayose, M. Katsuya, T. Okagi, M. Nakasome, U. Watada, Y. M. C. A. secretary, and E. L. Damkroger.

**NOTICE OF ATTACHMENT**

By virtue of a Writ of Attachment issued by the Circuit Court of the Fifth Circuit, Territory of Hawaii, in a suit of Waterhouse Trust Company, Limited, Receiver of the Hawaii Bank of Commerce, Limited vs. Phillip K. ## From Makaweli Plantation News

### CAMP 2, NEW CAMP AND MAKAWELI EACH LOST TWO GAMES

Camp 8 Champs of Second Division; Champs of Two Divisions to Meet New Year Day

#### STANDING OF TEAMS

Division 1.				
	Games Won	Lost	Pct.	
Camp 2	8	6	2	750
New Camp	7	5	2	725
Camp 1	6	3	3	500
Camp 4	8	3	5	375
Camp 5	8	1	7	125

#### Division 2.

	Games Won	Lost	Pct.	
Camp 8	5	5	0	1000
Camp 6	5	3	2	600
Camp 7	6	0	6	000

Camp 2 is leading the Plantation Playground ball league in Division 1 with New Camp and Makaweli right at their heels, as all three teams have each lost two games to date. There has been some fine games and this sport is proving very popular.

Camp 8, with one game yet to play, are champs of the second division.

The championship game will be played on January 1st between the winners of Division 1 and Camp 8.

#### SCHEDULE—DIVISION 1.

- December 3rd—Camp 4 vs. Camp 1 at Makaweli; Makaweli vs. Camp 2 at Makaweli.
- December 10th—New Camp vs. Camp 2 at Camp 2; Makaweli vs. Camp 4 at Makaweli.
- December 17th—Camp 1 vs. Makaweli at Makaweli.
- December 24th—New Camp vs. Makaweli, at Makaweli.
- December 31st—Camp 1 vs. Makaweli at Makaweli.

#### DIVISION 2.

- December 3rd—Camp 6 vs. Camp 8, at Camp 8.

#### CHAMPIONSHIP GAME

- JANUARY 1st—CAMP 8 vs. CHAMPS of DIVISION 1, at MAKAWELI.

### RIZAL DAY CELEBRATION

Camps 3, 4 and 6 will unite together at Makaweli for the celebration of Rizal's Day this year, for the committee for the celebration were appointed from all those camps.

The celebration for Rizal's Day this year will be the best celebration to be held on this plantation in comparison to those we had in the past years. There will be a parade in the morning and a short program immediately following it, and then the games.

In the evening of December 30, a short program and movies will finish the day of celebration. We are inviting you all to come.

### FILIPINO COMMUNITY SOCIAL GATHERING HELD SATURDAY

The regular monthly Filipino Community Social was held last Saturday evening at the Community House and it was again a decided success. Over four hundred people witnessed the best program so far given at these gatherings.

The program, under the direction of Miss Mina, R. P. Kilot and S. Campos consisted of Charlie Chaplin take-offs, A "boxing bout" between "Johnny Buff" and "Pancho Villa" for the championship of the world. "Pancho" scored a knockout in the tenth round and thereby won the championship and a pair of concrete boxing gloves. There were other comedy stunts all of which were gotten up by R. P. Kilot and were greatly appreciated. Movies were also shown.

Miss Mina, in appreciation of her work in connection with the social gatherings, was presented a watch by the committee. Following the program, games were played.

#### Life-Preservers

"You know, Sybil, that before he goes under a drowning man thinks of all the things he's done that he never ought to have done?"

You needn't worry, Frank—they'd have heaps of time to rescue you!" —London Tit Bits.

### MAKAWELI SCHOOL WINS INSLAND CHAMPIONSHIP

Makaweli school playground ball team are champions of the island.

Yes, you bet. From the start to the finish they didn't lose a game and they sure went up against some teams that looked as they represented the University of Hawaii and not a grammar school. Our school team won every one of their games and three of the number were won by but one run and in the last inning which shows that the boys have their real fighting spirit. Never lost until the last man is out or the whistle sounds the end of the game; that the spirit that wins.

The final championship game was played with Lihue which ended 17 to 16. The scores of all the games were as follows:

- Makaweli 30—Waimea 19.
- Makaweli 39—Mana 9.
- Makaweli 8—Kekaha 7.
- Makaweli 8—Kalaheo 7.
- Makaweli 17—Lihue 16.

The boys that made up the team are Shinichi Watanabe, Santiago Friaio, Kaoru Yamaguchi, Katzu Tamahaba, Isamu Hatikawa (captain), Woichi Kuyama, William Rittmeister, Kinyo Kabayashi, Shinichi Ma-

saki and Kanuo Nishioka. The substitutes were Manuel Santos, Ernest Souza, Mitsuo Yamada, Masachi Uenyo, and Shinobo Humbo. The team was coached by Joseph Fernandez.

The teachers of the school gave the team a fine feed to honor the victors. Douglas Baldwin gave the boys a talk at that time and encouraged them to keep up the good work.

### RIZAL DAY PROGRAMS PLANNED

Preparations are being made to have celebrations at three different places on this plantation on Rizal Day, December 30. One is to be held at Camp 4 and Community House, another at Camp 2 and the third at Camp 8. These are being arranged by committees selected by the different camps and will consist of athletics, meetings and motion pictures. The plantation welfare department is assisting the committees in these programs.

The committee arranging the Camp 4 program is Miss Mina, S. Campos, R. P. Kilot, V. Turavilla, A. Ines, A. Sadusi, A. Anthita, David Martin and N. Balaloa.

\$1.00

### PABCOLIN

This is an inexpensive enamelled floor covering which has qualities peculiarly its own. The enamel is baked onto the surface till it is a part of the material, just like the enamel on a high class automobile.

If it is kept waxed to preserve the surface it will wear for years. It will wear wonderfully well anyhow.

We will send samples and estimates.

If you will send a plan of your floor with the correct dimensions of angles and jogs we will send the PABCOLIN all cut ready to put in place.

This splendid inexpensive floor covering is only one dollar a square yard.

## Fine Program Arranged For Saturday's Smoker Veterans Win Annual Turkey Day Classic

WOODS AND ALIPIO MID-WEIGHTS WILL MEET IN SIX ROUND MAIN EVENT

Special Event on the Card

TWO PRELIMINARIES SCHEDULED WITH FAST 4 ROUND CURTAIN RAISER

The Kauai Smoker Club which is being backed by the Forty and Eight of the American Legion are all set to put on their first show at the Lihue Armory next Saturday evening.

The main event between Battling Alipio of Ahukini and Clawhammer Woods of Niumalu is exciting great interest among the local fight fans. The Filipinos are expecting the Ahukini lad to stop Woods as they are confident that Alipio will knock out the Niumalu slugger. The breakwater boys of the U. S. Engineers, are backing Woods to win and they are just as confident that Woods will hang the K. O. on the Battler and they are willing to back up that confidence with hard coin. Whoever wins will know he had a battle as both boys carry a wallop and either fighter has a chance to win with a knockout.

In the special event which will bring together Young Cornelio of Ahukini and Kid Rojas of Koloa is another bout that causing plenty of talk. Rojas is out to win as he has been promised a fight with Carpenterio, the Filipino light-weight champion if he disposes of Cornelio. Cornelio is not planning any matches with Carpenterio but is interested in beating Rojas. The local Filipino fight fans are not expecting Rojas to beat Cornelio but are backing the Ahukini flash to win. Cornelio stopped Kid Lopez in Kapaa about three weeks ago, the latter's seconds throwing in the sponge in the third round. Cornelio gained a great deal of experience in this fight which will be of great value to him in his battle Saturday night.

The main preliminary will be between Young Tomas of Kealia and George Telles of Niumalu, another breakwater lad may be one of the best of the evening. Tomas is fast, clever boy and is anxious to get into faster company. He is especially anxious to meet young Cornelio at one of the latter shows of the club and is out to win Saturday. Telles is an old timer in the game, having done considerable boxing while in the service and his experience will be a valuable factor to him.

The second preliminary with Kid Eduardo of Captain Williamson's stable and Young Mitaru one of the few Japanese fighters on the island should also be a torrid affair. Eduardo is tough and husky and tears at the sound of the bell. Mitaru fought a fast draw with Young Maximo at Koloa about a month ago and gave a good account of himself.

The Filipinos are claiming that the curtain-raiser between Kid Jesus of Kealia and Kid Maximo of Koloa, two bantam weights, will be the best fight of the evening. Both lads are fighters and both are willing to mix, which makes a good combination.

The main and special events will be six round affairs, while the three preliminaries will be four rounds. The first bout will start at 7:45 and the officials promise that the other bouts will be run off in rapid order.

Only members of the club will be admitted to the bouts. Memberships can be secured thru Henry Santos, secretary of the club, at the Lihue store office, or at his office at the armory on Saturday evening. Non-citizen memberships are \$1 a quarter of a year, and citizen memberships are \$1.25 a quarter of a year.

### High Comedy

Nervous Passenger (in aerial taxi about 5,000 feet up)—W-w-what are you H-l-laughing at driver?

Driver—I'm just laughing at the superintendent. About this time he'll be searching for me all over the lunatic asylum.—Life.

GAME BATTLE PUT UP BY THE SCHOOL IN EFFORT STOP VETS' ATTACK

Final Score is 12 to 6

SCHOOL BOYS NEARLY GRAB A VICTORY IN LAST QUARTER THRU AERIAL ATTACK

By W. H. BALTHIS

Displaying a fighting spirit seldom if ever equalled in the history of sport on this island the gridiron machine of Kauai high school went gamely down to defeat by a score of 12 to 6 before the terrific onslaught of the Veterans in their annual game staged at Lihue on Thanksgiving Day.

The Vets presented the most powerful eleven ever gathered together on this island comprising none talent and it certainly needed to be as the high school youngsters showed a thorough and apt knowledge of the game that all but snatched victory away from their heavier and more experienced opponents.

Paul Rice proved to be the outstanding figure of the high school team, getting away for many spectacular end runs which brought both thrills and chills to the spectators. Mort Lydgate and Bill Crawford were the shining lights for the Vets and had the latter team been without the services of these two stalwarts, it is probable that the result would have been reversed.

To get to the game itself, the initial score was made early in the first quarter. Mort Lydgate kicked off to the high school's 20 yard line and Paul Rice ran it back 10 yards. Paul got away for a 35 yard end run and then after three attempts to pierce the Vets' line the high school fumbled and it was the Vets' ball on their own 25 yard line. The Vets then proceeded to make the first down after which Mort Lydgate punted to the high school's 10 yard line. High school attempted two forward passes, both unsuccessful and then dropped back to punt, but the kick was blocked and after some wild scrambling after the elusive pigskin, Sam Carter finally fell on it behind the goal posts for a touchdown and six points. The Vets had considerable the best of it for the remainder of the quarter and were within scoring distance a couple of times, but their backfield was apparently weak in carrying the ball. The quarter ended with the Vets having possession of the ball in the center of the field.

Towards the end of the second quarter the Vets started a parade down the field with Hjorth, Fern, and Lizama carrying the ball and finally Fern crashed over from the 20 yard line for a touchdown, making the score 12-0. Hjorth attempted a place kick for the extra point but failed to make it.

The high school came back strong in the third quarter and had the Vets worried. Rice was getting away for long end runs and the high school's passes were working better. The high school easily had the best of the quarter but could not muster sufficient strength to get the ball over the line.

The fourth quarter was a heart-breaker. The high school continued their attack and after the ball had changed hands four times on four consecutive plays and with the aid of an offside penalty on the Vets, Paul Rice took the pigskin over from the 5 yard line on a wide end run. Montgomery failed by inches to drop kick the ball between the goal posts and the score stood 12 to 6 in favor of the Vets.

The remainder of the quarter saw the high school desperately to score another touchdown and they all but succeeded. They swept down the field with an irresistible offensive and were well nigh within the shadow of the enemy's goal posts when they were rudely halted. With one minute to play P. Rice was thrown for 12 yard loss and with that play the tide of battle turned.

## SPARKS FROM THE GRIDIRON

By BILL

Paul Rice proved to be the best individual ground-gainer of the day with his long end runs.

Sam Carter proved to be a handy man for the Vets when he fell on the ball for a touchdown after a blocked punt in the first quarter.

Mort Lydgate for the Vets was a wonder on defense and it was his highly educated toe rather than the backfield men that the Vets relied on mostly for their offense.

Fern surprised the crowd and electrified his family by wobbling thru practically the entire high school team for a touchdown.

Neither team could garner the extra point after touchdown. Montgomery's drop kick just missed going between the bars by inches, while the Vets' attempts weren't even close.

The high school made 13 first downs to the Vets' 5, the latter team being content to let Mort Lydgate do most of the ground gaining for them with his punting.

Bill Crawford played a stellar game at end and made many an ambitious high school boy bite the dust thru his sure-fire tackling.

The high school's aerial attack netted them considerable yardage but only 7 out of 21 passes were completed.

Forward passing was the most thing the Vets did least of, only one pass being attempted and it failed.

The high school had a varied assortment of trick plays but as a rule they were not successful. Montgomery's 35 yard run back

of one of Mort Lydgate's powerful boots was very pretty but it looked to the writer as there should have been a penalty exacted as the runner deliberately hurdled over Bill Crawford who was set low for a tackle.

Dick Rice played a nifty game at center for the high school and was in the thick of the fight all of the time.

Lane requests that any mention of his costly fumble be omitted in the report of the game. As a personal favor we won't say anything about it.

Jackie Hjorth was the best line plunger in the game.

The high school eleven in their cardinal jerseys made a pretty picture when they came out on the field.

The same can not be said of the Vets who appeared for the most part in B. V. D. undershirts.

The high school received a tremendous ovation from the crowd when they trotted on the field and the Vets did likewise (from their wives and children).

The officiating was of a very high order and was a big factor in making the game a success. John Midkiff was the referee. A. H. Case the umpire, and Neil Locke head linesman. A. Englehard proved a most efficient timekeeper.

The crowd was very orderly and it was one occasion where an auto reservation was worth something. Mr. Dollinger and his crew watched the gates with an eagle eye and not many free customers got thru the lines.

### McBRYDE TO ENTER TEAM IN KAUI SOCCER LEAGUE

The soccer season of the Kauai Soccer league promises to be one of the best since the inauguration of the league.

Six teams will start the league this year. McBryde having a change of heart and entering a team. The new teams in the league will be Kekaha and Makee.

All the teams in the league will be more evenly balanced this year and no predictions as to the winner can be made as nearly every team in the league will have an even chance.

The entry of McBryde in the league will knock a wonderful opportunity for Makaweli as the latter team had signed up a number of the Scots in their line-up and with their own strength they would have had an edge on every team in the league. Now their chances of a walkaway are blown and they will have to battle with their former allies for the title.

### KAPAA EIGHTH GRADE DEFEATS SEVENTH GRADE AT AMERICAN FOEBALL

Kapaa has been the first grammar school to take up American football, the first game being played on the school field last Wednesday afternoon when the seventh and eighth grade clashed. The eighth grade was the final winner by the score of 12 to 0.

The score does not indicate the closeness of the game, as both the upper grades scores were due to breaks of the game. A recovered fumble which a seventh grade player dropped after completing a forward pass and a blocked punt were the causes of the scores.

Both sides showed unusual ability at the game for their first trial and Kauai high will find some excellent material among the Kapaa boys when they enter the high school.

### RAINS BENEFIT WAILUA GREENS

The rains of the past week have had a wonderful result on the greens at the Wailua golf course, the greens improving so that now several of them are in real first class shape.

Ben Nauole turned in a 39 for nine holes which ties Dan Arcia's record. Nauole holds the course record with a 38.

### Who Got the Money?

By MARQUIS JAMES

(From American Legion Weekly)  
(Continued from last week)

For the benefit of those who are retaining their sweet dispositions by letting go along a few words of explanation regarding "bogey" may serve to throw new light upon the matter. Bogey is one of the most significant and annoying terms in golf. Every course has its bogey, which is an imaginary score which none but the most expert can hope to equal or beat. The object of golf is not to cultivate profanity or to establish that woman's place is in the home, as has been charged, but golf. Every course has its bogey, of miles of course in as few strokes as possible. The supreme object in every game is to approach as nearly as possible the fixed bogey score. To achieve bogey is a thrill that comes once in a life time—or a season at least. It is about like holding four aces. Every stroke under bogey brings rare honor indeed, and if it is that kind of game, rare financial emolument to the player.

So a golfer looking over this contract which fixed the Packard company's profits at 15 per cent of "bogey" or \$6,957, if he considered the analogy a correct one, would probably conclude that the government had driven a shrewd bargain. He would conclude, based on golf experience, that the contractor would have his work cut out for him if he were to keep the production cost per engine within \$1,000 as low as bogey. But the framers of the contract must have had something in mind that was different from golf. Shortly after the agreement was signed it became apparent that the government had driven anything but a shrewd bargain. Bogey price accordingly was cut to \$5000 and the percentage of profit based on 12 1/2. This would yield the Packard company \$625 on each engine, provided each engine cost \$5,000 to manufacture. In case the company could beat bogey it was to receive a bonus of 25 per cent of the saving.

It may do some golfers good to learn that once in his life-time old Colonel Bogey got a beating that made him look like a nickel's worth of radium. The Packard people sent him to the club house talking to him self. On the first six hundred engines turned out, Packard smashed thru that bogey \$5000 and turned in an average of \$3,713 on the cost of those engines. For this feat of prowess the company collected \$225 on each engine, or 12 1/2 per cent of \$5000 and not \$3,872, which each engine actually cost, plus a bonus of 25 percent of the saving of \$1,127 on each motor, or \$281.75. Thus their profits per engine were \$566, or nearer 25 percent than 12 1/2 percent of the cost price.

This was pretty good, but better things were yet in store for the Packard Motor Car Co. The motors became cheaper and cheaper to make, bogey easier and easier to beat. When 1,500 had been turned out the average cost had been scaled down to \$3,442 per engine, and subsequent production lowered the cost of the whole to about \$3,200 each, so it appears that towards the end of the contract the engines were being made for less than \$2,500 each, including overhead. When the production average dropped to \$2,200 per engine the Packard company was still making its guarantee of \$625 plus a bonus which now amounted to \$150, or a total of \$1,975 per engine. On the 2,500 motors delivered before the armistice the company therefore received, in addition to its fixed profits of \$2,287,500, bonuses running up into the neighborhood of \$1,647,000—a total of \$3,934,500, which for 15 months' work was not so bad.

It is not known what steps, if any, have been taken to ascertain whether the government can recover any of the money it paid the Packard company, but surely for the return of \$3,938,000 has already been brought against another of Liberty Motors, the Lincoln Motor Co., which was recently acquired by Henry Ford.

No such vigorous action seems to have been taken in the case of the Wright-Martin Aircraft corporation which owes the government \$5,267,476, according to investigator Scaife, who says in an official report.

It was found that the minutes of this company at the time it was negotiating for a government contract stated that an "8 per cent profit was the proper profit to the company on gov-

ernment contracts." The report of the government audit states that the profits actually charged and collected amounted to 270 per cent.

Among the items this firm collected from the government Mr. Scaife cites accountants' fees totaling \$101,047 work of "no concern to the government." Stranger yet appears a payment of \$14,564 "capital stock tax." The company paid its income tax, however, and a tidy sum it must have been in those fat war years. It was some job figuring up these profits; in fact, clerical hire alone amounts to \$522—and the government paid this bill; Liberty bonds or other public funds went to pay for \$995 worth of cigars and \$348 worth of dinners given by the hospitable representatives of the company. It only took the amount of a few war savings stamps however, to take care of the item which is entitled, "a box of La Corona cigars for Mr. G. H. Houston, \$3.25."

Notwithstanding the government maintained a corps of guards at the company's plant, the corporation created a secret service of its own, sparing no expense because Uncle Sam met the payroll to the tune of \$91,295. At one time there were 195 men in this mysterious organization of which Mr. Scaife reports was "counter espionage against the government." An example of the wages paid appears in the case of J. V. Wheatley, former government secret service agent, drawing \$4,420 a year. The Wright-Martin people handed him a retainer of \$10,000 and a yearly salary of \$12,000, with a \$25,000 bonus for cancellation of this contract with the treasury department. Scaife's checklist itemized this last item for \$17,500, so his first year's work netted him only \$39,500, notes Mr. Scaife. The company's original contracts were on a fixed price basis but later were changed to cost-plus by which operation the profits were increased. The fees to the lawyers who arranged this detail for the company were paid by the government, Mr. Scaife asserts.

After the armistice the company bought up for \$2,847 a quantity of semifinished tools and work in process involving material which cost the government \$792,565. A better bargain, however, appears in the sale of \$1,000,000 worth of special tools and patterns to the company for \$10,642. The company's arrangements in this deal were in the competent hands of G. H. Houston, who smokes La Corona cigars.

Mr. Scaife reports that the Wright-Martin case was brought to the attention of the attorney general in October, 1921. The papers necessary for suit for recovery of money alleged to be due the United States were placed in the hands of the United States attorney in New York. Mr. Scaife continues:

Through the activities of Charles Hayden, a director of the Wright-Martin aircraft corporation, the secretary of war attempted to delay action in the case. At the request of the secretary of war, the case was withdrawn from the United States attorney (at New York) . . . and no suit has been brought.

### K. E. A. Will Hold Meeting December 9

REGULAR BUSINESS SESSION TO BE HELD AT THE HIGH SCHOOL

Saturday morning, December 9, at 9:30 a.m. (Month's time) there will be a business meeting of the K. E. A. and the H. E. A. at the Kauai high school. It is earnestly hoped that many local members will be present. A large amount of business will come up at this meeting, all of which is of great importance to teachers. Consideration must be given reports of several committees on questions of educational policy, salaries, pensions, citizenship, school fair and publicity. We must consider sending delegates to the H. E. A. and the N. E. A. conventions.

It is earnestly desired that each school on Kauai send at least one representative to the convention. The school is called to the fact that the district executive officer can be the representative. Speak or write to your executive officer about any matters in which you are interested and which the association will discuss, if you cannot come.

#### Committees Appointed

1. Committee on pension bill: H. H. Brodie, Mrs. H. Weidemeyer, H. S. Simpson. Proposed bill drafted by committee of H. E. A.
2. Committee on educational policy: Miss C. A. Thompson, Mrs. Lucy Wright, Miss K. A. Cook, Mrs. M. C. Sessions, M. G. Santos. Chairman to report to and serve with Miss S. E. Mathews, chairman territorial committee. McKinley H. S., Honolulu.
3. Committee on further appropriations for books and equipment: Miss B. L. Handley, Miss E. H. Wilcox, Mrs. E. Hobby. Supplementary readers, reference books, charts and general elementary and high school equipment.
4. Committee on kindergarten and primary education: Mrs. Carlotta Lai, Miss A. M. Madinich, Mrs. Charles Fern. To consider the proposal to establish in 1923 of a limited number of kindergartens on each island. One per 1000 pupils enrolled December 1922.
5. Committee on Americanization: Miss E. H. Wilcox, Mrs. M. C. Sessions, Mrs. H. MacIntyre, G. S. Sessions, Mr. Doolinger. Chairman to report to and serve with Dr. K. C. Leebrecht, chairman territorial committee, University of Hawaii.
6. Committee on classification and certification of teachers: Mrs. F. A. Wildfield, Mrs. V. M. Huddy, Miss E. H. Wilcox. Chairman to report to and serve with Miss Josephine Deyo, chairman territorial committee, Hilo, Hawaii.
7. Committee on appointment of a superintendent: Mrs. W. R. Bridgewater, Mrs. K. C. Ahana, W. J. Ferris. Proposals to have appointment made by board of commissioners.
8. Committee on industrial education: Frank Pugh and teachers of industrial classes in Kauai schools.
9. Committee on proposed legislation by board of health: H. H. Brodie, Miss Janet Haste, Mrs. D. L. Pyron. Dental and medical supervision, child welfare.
10. Committee on school fair: H. S. Simpson, Miss Hurdley, Frank Pugh, Mr. Jackson, Mr. Raymond.
11. Committee on publicity: H. H. Brodie, Mrs. Henry Blake, Mrs. Lucy Wright, Miss C. K. Jordan, Mr. Raymond.
12. Committee on program for 1923 convention: Mrs. M. C. Sessions, chairman; members to be chosen by chairman.

Committee will report at meeting of K. E. A. and H. E. A. at Lihue, December 9th. At that time delegates will be elected for Maui and national conventions.

#### MOVIES TRANSLATED FOR THE JAPANESE

(From Makawell Plantation News)

The plantation Welfare Department tried out something new last month in the way of movie shows, and it proved quite successful. In order to give the Japanese on the plantation, who do not read English, the benefit of a real first class English movie show, a Japanese translator was engaged and shows given at the Community House, Camp 5 and Camp 2, with the main feature translated. Judging from the turn-out it was a decided success and will be repeated again this month. If these shows prove popular they will be given regularly which will enable the Japanese of the community to see the best movies at the prices of the regular plantation shows.

#### Police to Co-operate With Federal Officials

Honolulu, Nov. 29.—A program of more concerted cooperation between federal officials and local enforcement agencies is planned for the coming year. Federal prohibition commissioner, R. A. Haynes, advises Director John F. Colburn III, of this territory.

Section 2 of the enforcement act divides the responsibility between the government and the states. Practically all of the states have enacted legislation to this end, the various state agencies report increasing evidence of co-operation.

Commissioner Haynes says that every state, county and city has the initial responsibility of clearing up its own conditions thru locally selected officials, before the federal machinery should be expected to take charge. Hence, the necessity of close co-operation between the states and federal agencies.

Director John F. Colburn III is greatly pleased with the progress that has been made in enforcement in this territory and is most optimistic in regards to the future, in view of the spirit of co-operation in evidence practically everywhere.

More and more the public opinion is convinced that the success of enforcement lies as much with the people themselves as with the officers who are designated to enforce the law. In spite of the obstacles and many complications prohibition is showing itself as a means of pronounced public betterment, of improved living conditions, and healthier, happier human beings. There is evidence everywhere of marked progress in the way of enforcement.

This is not the time to be impatient nor discouraged, for the friends of the law are truly in action, as shown by reports which Commissioner Haynes has received from the various states, justifying the optimism which he entertains.

Reducing the source of supply, thru concerted action, in Commissioner Haynes' opinion, will aid materially in enforcement and also make for economy, for, as he says, success ever begins with the enforcement of the administration. Concentration of bonded whiskey in a smaller number of bonded warehouses will result in the saving of at least \$200,000 per annum. A saving of \$250,000 per annum has been effected thru reductions secured in rental of office and storage space and the disposition of seized property. A further saving of \$156,900 annually has been effected by the readjusting of salaries.

The greater efficiency of administration is clearly reflected in the reduction of taxpaid withdrawals of alcohol as measured in tax gallons. In the year ended June 30, 1921, these withdrawals aggregated 28,275,805 and in 1922 only 16,390,663.

Referring to the cry that prohibition is a failure, Commissioner Haynes says that in his judgment, one of the most remarkable successes ever attained in the enforcement of a new and drastic law has been recorded in the present status of enforcement of the national prohibition act.

A complete reorganization has been effected in the last fifteen months. Fifty-one director's offices have been established in each state, and Hawaii, Porto Rico and Alaska. These complete changes in the reorganization of the work have resulted in the elimination of duplication of work and a greater efficiency. Experienced men of undoubted integrity have been called into service. The Washington office of over 600 employees and all the field forces have become enthused with the greatness of the task. Thirty-two hundred and one temporary permanent appointments have been made during this 15-month period.

A new feature of the organization is the general agents' force operating independently of the director's forces. To date this force has reported 3,231 cases, and recommended taxes in the amount of \$24,168,824.62.

The narcotic forces, which also operate under the prohibition unit, have also been reorganized. There has resulted such an increase of efficiency that with no larger appropriation or appreciable increase in field force, there has been an increase of 45 per cent in the number of violations reported in the period of one year, and an increase of 100 per cent in the convictions secured.

### Through for the day

Your day's work is shortened and made easier when you have a good oil cookstove. Burn Star Oil for fuel and you no longer have coal and wood to carry or ashes to shovel out.

You work with a clean controlled heat that is concentrated directly under the utensil where it is needed—and your kitchen is kept cool and free from dirt.

Star Oil is the clean-burning, uniform, economical kerosene—refined and re-refined by a special process.

Sold by dealers everywhere in bulk and cases. Order by name—Star Oil.

### Importance of the Bathroom

There are few house owners who would not change details in their homes in building again. In many cases it is the bathroom that is unsatisfactory. Any bathroom without a Pembroke built-in tub is bound to be unsatisfactory, for without the Pembroke the ultimate in bathrooms has not been reached. And it is the ultimate we all are striving for. See the Pembroke before you decide.

## SCHOOL NOTES

**KAUAI HIGH HONOR ROLL**  
Following are the honor roll students of Kauai high school for the six weeks ending November 29:

**SENIORS**  
Honor Roll: Doris Au, William Moragne, Tsumotu Nitta, Junchi Sakimae.

Special Mention: Dorothy Jackson, Sam G. Yokomoto.

**JUNIORS**  
Honor Roll: Imogene Benton, Orme Cheatham, Maggie Scharach, Anna Scott.

Special Mention: Francis Jardin, Helen Muller, Teruyo Wataya, Masako Matsumoto, Helen Wedemeyer.

**SOPHOMORES**  
Honor Roll: Ah Sau Ahana, Kenneth Aloiau, Nee Chank Chock, Kam Chung Chong, Nellie Chong, Hisayo Dobashi, Grete Glud, Koichi Kojima, Risa buro Miyoshi, Hanako Nagai, Tamotsu Naito, Tamayo Nishimoto, Adeline Rodrigues, Hideo Shiraki, Miki Tokita, Yutaka Tsunehiro, Ethel Widdifield, Yau Kyam Yung.

Special Mention: Alice Broadbent, Kikuyo Minatoyo, Edene Naleimale, Hirofumi Ota, Eleanor Peller, Fusao Tanabe, Melva Williamson.

**FRESHMEN**  
Honorable Mention: Masao Akimoto, Michio Fujii, Hamako Nagata, Kenneth Nagata, Yoritachi Nishio, Hideo Omoto, Miwako Satake, Henrietta Wedemeyer, Junchi Yamada, Yoshiko Yamasaki.

Special Mention: Clarissa Coney, Tokio Fujii, Kazu Fujimoto, Kasuo Gohara, William Lydgate, Morizo Tanoue, Harumi Tao, Keisuki Yasumari, Jennie Dias.

**ALL A'S**  
Michio Fujii, Kenneth Aloiau, Nee Chang Chock, Ethel Widdifield.

.....

**KAPAA SCHOOL**

Our annual Christmas exercises will be held on the 14th of December.

Term tests will be held from December 6th to 13th.

This is educational week and the school will endeavor to fittingly observe it.

The seventh and eighth grade boys played their first game of football last Wednesday afternoon.

The eighth grade won by the score of 12 to 0. Messrs. Fern and Bush officiated. Another game may be played on the 14th to which the general public is cordially invited.

The seventh grade pupils received two interesting letters from the school pupils in Auburn, Maine. Apparently the children obtained our address on the handwork we sent to the teachers' convention held in Boston last July.

.....

**An Excursion**  
(By Pupil of Grade 5-A, Kapaa School)

Early this morning about 9 o'clock we went to the sea beach to learn about the different kinds of rocks and corals. Some of the children got on the automobile and the rest formed a double line and marched on merrily.

The air was sweet but the sun was not shining brightly. The mountains could be seen clearly. We walked on the left hand side of the road until we reached the seashore. On the way I saw two ducks, chickens and some men working on the road. There were two boys mowing grass. There were four boys: one was white, two were brown and the other was black.

Our teacher chose one of the boys to be policeman and he watched us carefully.

We picked some and then came back to where she was. We learned about Oahu. This is what we learned:

Oahu was formerly a submerged island down under the sea. By and by the coral workers or insects that build corals, built coral reefs. To build these it took many, many long years before the island of Oahu reached the surface of the waters. There was another thing that helped Oahu to have high mountains. It was the volcano which burst and threw all the dirt and rocks out. We saw some black rocks mixed with coral reefs and was told about it as follows:

There was a volcano somewhere. This poured out hot lava. This flowed into the ocean and cooled off and became black. The lava rocks fell down among the corals. Some insects died but the others kept on with their work and by and by the corals grew around the lava forming coral reefs of two kinds of rocks.

We also were told that the rocks were separated from each other by the action of the waves. At first they were pointed and rugged but the waves washed over them and shaped them roundly.

If a steamer is wrecked on a coral reef the steamer is held fast by the sharp points.

We all followed Mrs. Sheldon to a place where the sand was smooth. She drew the outline of Oahu on the sand and told us to point out the different places that we had learned about on it. She showed us on the sand how pearl locks once looked. It was once wide enough for a small boat to enter. She also told us about different mountains and ranges. We were now ready to go back. The boys walked and the girls rode. When we reached the school we all took our own corals out of the car and went to our room.

We rested a while and the bell rang for the noon recess. We went out to have our lunch and my lunch was tasty for I was tired and hungry.

#### Long Meals

Thomas A. Edison is not much given to humor—he is far too busy for that—but he has one yarn that he is never tired of repeating:

A man from the country one day came to town and put up at a first class hotel. He went to the office and asked the clerk what were the times for meals.

"Breakfast, seven to eleven," answered the clerk; "lunch, eleven to three; tea three to six; dinner six to eight, and supper eight to twelve."

"What!" shouted the astonished visitor, "When am I going to get time to see the town?"—Pittsburgh Christian Advocate.

## THE OPEN DOOR TO KAUAI

By RUTH HOFFMAN

Primary Instructor and Extension Worker, of Territorial Normal School

Editor Garden Island: Since my recent visit to your beautiful island. I have been possessed with a desire to give you some of my impressions of Kauai, to express my awe and wonder at the peculiar beauty of its several sections. But of course, mere mortal cannot do that. I have had the assistance of every person who has ever been on Kauai or even heard about it. For there seems to be but one theme: "The Garden Isle," "The Materialized Paradise."

What impresses me most is, regardless of nativity or adoption of home elsewhere, every person seems anxious to accord to Olokele and Waimea canyons, the most sublime beauty of color and formation and to Hanalei coast the most varied, restful attractiveness to be found anywhere in the world. These sections seem to combine the unique and wonder and beauty features of all the country. Indeed, it is said by many world travelers that nowhere can greater beauty and attractive restfulness be found. The beaches inviting and easy of access; the many little waterfalls which surprise you at every turn; the unique formations of mountain and valley; the verdure and flora of satisfying hue; and over all that coloring of such sublime hue and tone as only the Master Hand can paint, combine to make a scene of the most wonderful attractiveness.

The question I asked several times during my visit has been asked by many others since my return to Honolulu. Why has not Kauai been made attractive as a tourist objective? Why have those canyons not been made a national park? Why has not some enterprising business person made Waimea Hotel a resort of such comfort and invitation that it would have to extend its accommodations to the town limits? Why not make this point a landscape garden befitting the "Gateway to the Canyons of Varied Beauty?" Why are the roads of these canyons so inferior to the notably good roads of the island? Why has not some good Samaritan built a road house up amidst the beauties of Puukapele or some other point?

In other words, why is the dear world public shut out from paradise as embodied on Kauai? The hospitality of Kauai's citizens is conceded. The latch string is ever out. No trouble too great, no withholding the most generous provision or extended suggestion. But does Kauai shrink from what might seem exploitation? Would it be willing to open its doors or even permit them to be opened a little way—say by the Inter-Island, or some other enterprising corporation?

I hope you do not think me over-enthusiastic; or that beauty of scenery is my only happy remembrance of Kauai. For I assure you the latter is not the case. My enthusiasm is just as keen about your schools and other community activities. And while mentioning schools, may I tell you what I found specially interesting about them? Of course your fine groups of good type of buildings with their spacious grounds, providing not only for beauty of surroundings, but opportunity for agricultural and recreational pursuits claimed first attention. Not one school but is supplied with ample garden space. It rests only with the teacher to direct his or her school to the making of that space a beauty and profitable study. The indication is that your supervisors are co-operating with the schools to give the best opportunity for the education of Kauai's children.

Another instance of hearty co-operation was found in the schools themselves. Supervisors, principals, teachers, officers, unite in one objective—to administer a constructive, progressive, up to date educational policy.

In my entire ten days visit I heard nothing but a willingness to comply with any request made, or an eager desire for suggestion that would make for advancement. The teachers and principals were unsparring of time and effort, the supervisors cordial and sympathetic in their relations with the schools. It was a most enjoyable and profitable ten days visit. I certainly broadened my views and added many items of valuable information.

If the harmony which apparently exists in the school organization is indicative of the harmonious relations of all island activities—educational, religious, civic, business, it is but an added argument for "The open door to Kauai."

Sincerely yours,  
RUTH C. HOFFMAN.

Editor's Note.—Miss Ruth Hoffmann, primary instructor and extension worker at the Territorial Normal School, visited Kauai during November at the invitation of the Kauai Education Association. She spoke on "Primary Methods and Handwork," at the annual meeting of the K. E. A. and during the following week combined her work in the schools of the island.

**Earning His Meal**  
Lady—You seem able-bodied and healthy. You ought to be strong enough to work.

Tramp—True enough, lady. And you seem beautiful enough to be in the movies, but evidently you prefer the simple life.—New Haven Register.

**Roofing Economy**

You want a roofing that will give long service. You are sure of at least five, ten or fifteen years service, according to thickness, when you buy Certain-teed. Certain-teed roofs have made good and given much longer service in every part of the world. Vast resources and great economies in Certain-teed manufacturing and distribution enable us to sell you this highest quality roofing for practically the same price you would pay for lower quality in other brands. For temporary uses, Guard Roofing made by Certain-teed will give satisfactory service at a very low price.

## The University Extension Letter

### A NEW FRUIT RECOMMENDED FOR HAWAII

The lanzon (*Lansium domesticum*) a fruit well known and much liked in the Philippine Islands and Malay, is recommended for Hawaii by Prof. J. E. Higgins, who for many years was horticulturist in the federal experiment station in Honolulu, and for the past several years has occupied a similar position in the University of the Philippines. Prof. Higgins describes the fruit as resembling a loquat, about an inch and a half long and an inch in thickness, pale yellowish when ripe and covered by a leathery skin which separates easily from the five juicy sections within. The taste of the fruit is said to be suggestive of grapefruit and makes the lanzon a very popular fruit in the markets.

The tree is of upright growth and seems to thrive better in shade than when exposed to the sun. For that reason it is commonly grown in coconut plantations and it is somewhat in this connection that Prof. Higgins recommends it for Hawaii. Propagation by seed is the only way that it is commercially feasible so far as known here now. Any who wish to try this new fruit tree may obtain seeds from Prof. J. E. Higgins, Los Banos, P. I., first getting the consent of the territorial board of agriculture and forestry.

### A COURSE IN TARO GROWING

We are glad to announce that Gerrit Wilder is preparing a series of lessons on taro growing, which the university extension service will send out as a correspondence course. We do not know yet just how many lessons there will be, but we plan to start this course about February or perhaps earlier. We will be glad to receive applications any time from now on. A small enrollment fee will be charged, probably \$1.00.

### HOW SUGAR CANE GROWS

"Only five per cent of the cane plant is living substance, but this five per cent manufactures the other 95 per cent of dead inactive material," said Dr. H. L. Lyon in an interesting lecture given before the sugar short course students in which he explained how the sugar cane plant grows and reproduces itself. This living material is called protoplasm, having about the consistency of the white of an egg and lives in extremely minute chambers which we call cells.

Dr. Lyon explained how in the cells of the green leaf the chlorophyll converts the sun's energy into chemical energy which builds up starch out of the carbon dioxide that enters the leaf from the air and the water which is brought up from the soil thru the roots and vascular bundles. Protoplasm can work only on soluble compounds and by the action of enzymes this insoluble starch is converted into sugar and carried to all parts of the plant, chiefly in the stalk, where it is stored.

In comparing plants and animals, he explained how the latter get their food by consuming other animals or plants and in order to do this they are given motive power. Plants, however, are stationary, they have to stay where the seed falls or is planted, and unlike animals they have to manufacture their own food out of the raw material they can get from the soil and air. In doing this some of the tissues of the plant are destroyed in the production of energy, but this is so efficiently done that in the plant constructive work far exceeds destructive work and the plant increases in mass and volume as a result.

Dr. Lyon explained the highly specialized division of work that exists in the cane plant and the wonderful harmony that prevails between all parts. The growing part is dome-shaped tissue concealed in the center of the rolled-up leaves near the top of the plant. Small ridges on the dome develop into cells which appear alike at first, but finally differentiate into midrib, veins, etc., until every tissue found in the old leaf is provided for in the newly formed part.—L. A. Henke.

### NO BENEFITS SHOWN IN FEEDING YEAST TO CALVES

Tests made at the Minnesota experiment station by the dairy and bio-chemistry divisions showed only negative results in the feeding of yeast to calves and cows. As no appreciable effect on the growth of the young animal or on milk production by the cows appeared,

the investigators conclude that the rations fed to calves and cow contain an ample amount of vitamin B, which is carried in the yeast.

The experiments were suggested by strong claims made for the use of yeast in the human diet and more than a year was spent in carrying them out. A yeast company paid all expenses all expenses and furnished all the yeast. Forty-two calves were used and tests were made with eight cows in milk.

Yeast was added to the rations of newly dropped calves and denied in the rations fed a similar group or "check" group. The effect of yeast was tried out in this way in the ordinary ration, in a typical ration under good conditions, in what may be called a poor ration, and in a ration, including whole milk, generally fed to promising purebred stock. Experiments paralleling those with cattle were carried out with rats as subjects and demonstrated that no advantage is to be derived from feeding animals a larger amount of vitamin B than is necessary for their normal development.

### A NEW VEGETABLE BULLETIN

The university extension service will soon issue a new bulletin on "Vegetable Growing in Hawaii," prepared by Prof. F. G. Krauss, primarily for the benefit of school garden boys and girls in our schools. It should be of considerable value, also, to others who are engaged in vegetable growing. From a season standpoint, Prof. Krauss tells the gardener in this bulletin what to plant, how to plant and care for it and gives other useful information.

### GROWING RHUBARB IN HAWAII

Rhubarb grows best at high elevations in Hawaii (1000 to 3000 feet above sea) according to Prof. F. G. Krauss, who has experimented with this crop plant for several years. Repeated attempts to produce good crops of this fruit at low elevations have been unsuccessful.

The crop is a greedy feeder and requires a well manured and well drained soil to grow in. The ground should be deeply spaded and a good deal of manure and high grade fertilizer worked in. The soil must then be kept uniformly moist and should not be permitted to become alternately very dry and then wet, as this is probably the cause of many failures to grow to crop here.

Good rootings for planting may be obtained from Aggler & Musser Seed Co., or the German Seed Co., both in Los Angeles, Cal. We will be glad to announce any firm or person in Hawaii who can furnish rhubarb root cuttings to local gardeners.

### PROTECTING OUR CROPS BY QUARRANTINE

The crops that we grow in Hawaii are attacked by various insect pests and bacterial diseases, but for every pest and disease that we have in our midst there are ten waiting outside to gain entrance to our fields and gardens. Protection against these foreigners is in the hands of our territorial board of agriculture and forestry, under the direct charge of E. M. Ehrhorn. This important work cannot receive too great emphasis and for that reason we quote a summary of the quarantine laws which are in force in this territory.

### Importations Absolutely Prohibited

All plants from foreign countries under rules of federal horticultural board; fresh fruits from all foreign countries (except apples from New Zealand under special rulings).

Cotton seed and cotton seed hulls. Sugar cane from any part of the world.

Indian corn or maize and seed of related plants.

Banana plants and fruits from Central America, Panama Canal zone, West Indies, Dutch Guiana, Oceanica, Malaysia, and the Orient.

Bamboo plants, roots, cuttings or seed.

Paddy rice, wheat, oats, barley, and rye from Australia, India, Japan, Europe and Brazil.

All animals, birds, reptiles and insects liable to become injurious to agriculture.

Soil of any kind.

### Importations Subject to Inspections

All nursery stock, plants, and parts thereof; fruits, vegetables, seeds, including cereals, queen bees and honey. Labels must be affixed to containers of all shipments, giving name of shipper, locality of production, contents of package and the name of consignee.

# The Kauai Telephonic Company

wishes to announce the formal opening of the new Telephone Building at Lihue, on the evening of Friday, December 8th, between the hours of 7 and 9. Also, that, at the same time, it will launch a new business enterprise to be known as

### COMMUNITY HOUSE CROWDED AT VICTORY DAY PROGRAM

(From Makaweli Plantation News) Long before the first number of the Victory Day program held at the Community House on the evening of November 11th, was announced, every seat and all available

standing space in the gymnasium was occupied.

The first notice given in regard to this entertainment was that it would be a pay show, but due to the fact that the Charley Chaplin "Shoulder Arm" film failed to make its appearance it was decided to give the program free and the plantation pay the entire expenses.

The main feature of the program was the Rizal Filipino Circus troupe performance. It was a good exhibition of tight wire and acrobatic acts. The Minehaha Music Club furnished the music during the program and for the dance which followed. The program also included movies. Over a thousand persons witnessed the entertainment.

In Royal Cord Tires there are no cross threads to chafe and heat the tire. All the Cords go one way in each layer. Thus are thousands of miles added to normal tire life

**CALL FOR K. E. A. MEETING**

To the Members of the H.E.A.  
Ladies and Gentlemen:—Herewith is a call from President H. M. Wells of the Hawaii Education Association to elect delegates to the territorial convention to be held on Maui this month. It is an earnest appeal for local members to send delegates to Maui.

Arrangements have been made by the Maui members for visitors to take trips to Haleakala, Iao valley, the Ditch Trail and other points of interest on their island. These excursions will be open to all visiting teachers and their friends.

Business of much importance and vital concern to the teaching force of the territory will come before this convention. Several speakers of prominence will make addresses at the meetings and the convention promises to be of great interest to all that attend. We should send our full delegation. Be at the meeting on the 9th.

To the Teachers of the Territory of Hawaii, Greetings:

In the name of the Hawaii Education Association, and acting under the powers imposed on me by its constitution, I hereby proclaim and issue a call to all teachers' associations within the Territory of Hawaii that are affiliated with the Hawaii Education Association, to elect delegates to the third annual convention of that association to be held in Kahului, Maui, December 28, 29 and 30, 1922.

It is the desire of your executive committee that this convention should be spirited, yet harmonious; that the various associations should be present thru their delegates, a constructive program as regards both legislative matters and educational policies, that may be fused, thru friendly discussion, into a harmonious expression of the will of the entire teaching force of the public schools of Hawaii. In this spirit and in this spirit only, shall our counsels prevail.

(Signed) H. M. WELLS, President.  
Hawaii Education Association.  
Geo. S. Raymond, President;  
Lucy Wright, Secretary;  
Kauai Education Assn.

Kauai Education Assn. Business Meeting, Kauai High School December 9, 1922

Reports from the committees appointed at the convention Nov. 3, will be made in our business meeting. We will elect delegates to the H. E. A. convention on Maui. Herewith is a list of the committees and their business. We will act upon the committees' reports and any other business which may legally be brought up at the time:

Committee on educational policies, Miss Thompson, chairman.

1. Proposed change in law as to taxation for schools.
2. A paid secretary for the H.E.A.
3. Funds to bring from mainland speakers to conventions.
4. General policies.

Committee on appropriations for books and equipment, Miss Handley, chairman.

1. Supplementary readers.
2. Equipment for elementary and high schools.

Committee on kindergartens and primary education, Mrs. Lai, chairman.

1. One kindergarten per 1000 pupils enrolled.
2. Primary supervisor for each island.

Committee on Americanization, Miss E. H. Wilcox, chairman.

1. Language schools.
2. Citizenship.

Committee on classification and certification of teachers, Mrs. Widdifield, chairman.

1. Standards for certification.

Committee on appointment of a superintendent, Mrs. Bridgewater, chairman.

1. Needs, policies and methods.

Committee on proposed legislation by Board of Health, Mr. Brodie, chairman.

1. Dental and medical supervision.
2. Child welfare.

Committee on school fair, Mr. Simpson, chairman.

1. Time and place.
2. Exhibits and awards.

Committee on publicity, Mr. Brodie, chairman.

1. Methods and progress.

We should consider:

1. Pension bill matters.
2. Election of delegate to N.E.A. convention, San Francisco.
3. Instructions to delegates to the Maui convention.

4. Membership.  
GEO. S. RAYMOND, President.  
LUCY WRIGHT, Secretary.  
Kealia, Kauai, T.H., Dec. 1, 1922.

**TIP TOP-ICS**

**SUPER ATTRACTIONS COMING TO THE TIP TIP**

Douglas Fairbanks in "Mark of Zarro."

"The Connecticut Yankee," Mark Twain's greatest comedy.

"Over the Hill."

"The Queen of Sheba."  
Mary Pickford in "Little Lord Fauntleroy."

**STORY OF SOUTH SEAS IS "THE BONDED WOMAN"**

Want to go to the South Sea Isles?

Nearly everybody does, since reading the books of Frederick O'Brien, W. S. Maugham and others. Patrons of the Tip Top theater will find themselves carried away to this romantic region when they see Betty Compson in "The Bonded Woman," her latest Paramount picture which opens there on Wednesday, December 13.

In this offering the South Pacific archipelago is shown at its best with enough of its worst to make the drama. Miss Compson as Angeia, goes to a dive in Honolulu to rescue the man she loves. This is a colorful scene, with dancing girls, sailors and natives, and pictures of Hawaii as most people fancy it. But fate and the girl's wish, then remove the pair to a barren island, where the denouement takes place.

Miss Compson is supported by a very fine cast, including Richard Dix, John Bowers, J. Farrell MacDonald, Ethel Wales, William Moran and others. "The Bonded Woman" is based on a story by the late John Fleming Wilson, which was adapted to the screen by A.S. LeVino. Philip E. Rosen directed, and James van Trees photographed.

**MARY CARR SCORES TRIUMPH AS MOTHER IN "OVER THE HILL"**

"Over the Hill," the Fox special production that will be featured at the Tip Top theater next Friday and Saturday nights is one of the simplest stories ever put in film. That is one reason why it is great. But the chief reasons are that it is true and that Mary Carr is undoubtedly the greatest player of mother roles known to the stage or screen. She was the original "Mrs. Wiggs of the Cabbage Patch," but never on the speaking stage has she brought the fidelity to type or wealth of pathos to her admirers as in this rural gem based on the famous poem by Will Carleton, "Over the Hill to the Poorhouse."

The story is rural in locale. It depicts the life of a mother and a mother very like the mothers of us all at that, from the time her children are tots until forgotten by them, all except one, she goes to the poorhouse, realizing that she is not welcome in their homes, that they begrudge her the food she eats, even the stiff backed chair she occupies when she is not drudging for them.

If one has kept his emotions well in hand to this point, he has done well, but the succeeding scene where the black sheep, back from the West, where he has been bearing his father's disgrace, "so that mother never shall know," gives the most rascally of his brothers all that is coming to him and brings mother back to the rehabilitated homestead, is guaranteed to be too much for the most phlegmatic individual that ever breathed.

**BRET HARTE STORY IS ON FILM AT TIP TOP**

According to Thomas Meighan, who went with the Paramount company to northern California to shoot scenes in "If You Believe It, It's So," Bret Harte, the celebrated novelist, must have lived in nearly every house in every small town in the early mining regions of California.

"We had heard," said the star, "that Harte lived and wrote in Jimtown, so I made some inquiries but in those old mining villages of California, you discover that Bret Harte Mark Twain, or somebody of the like literary fame slept and wrote his greatest novels in every house dating from '49."

"They must have believed in the adage, it's cheaper to move than to pay rent, for they evidently kept on the jump all the time to cover the ground."

"If You Believe It, It's So," will be seen at the Tip Top theater next Sunday.

Theodore Roberts, playing the role of a crook de luxe, has one of the funniest roles of his career. Pauline Starke, talented little leading woman of "The Connecticut Yankee," is leading woman for Mr. Meighan in this picture.

**STEAMSHIP HALEAKALA WAS HANDED OVER THURSDAY MORNING**

Word has been received by the directors of the Inter-Island Steam Navigation Co. that their new vessel, the Haleakala was ready for delivery to the representatives of the company last Friday morning, November 30—that will be on the east coast of course, but the vessel to reach Honolulu about the middle of January. She will be placed on the Honolulu-Hilo line run about the end of that month.

The Haleakala is described by James Quinlan, who is to be her chief engineer to be a beauty. The popular Jimmie is now watching the final touches being put on the new steamship.

The steamship is equipped to carry 434 passengers in all classes. She is 345 feet long, 46 feet beam, draws 32 feet and her engines develop a speed of 16 1/2 knots with 5,000 indicated horsepower. The keel was laid May 16, 1922 and she was launched September 1 this year.

There is a possibility that either the Kilauea or Mauna Kea will replace the Claudine or Kinau on the local run.

**NOTARY PUBLICS LOSE LICENSES FOR SLIP-UPS**

Notary public licenses heretofore held by F. N. Lufkin, cashier, cashier of the Lahaina branch of the Bank of Maui; James Laird, stock broker with the Waterhouse Trust Co., and T. T. Sakakihara, Hilo attorney, have been cancelled by Attorney General John A. Matthewman.

Lufkin's license was cancelled because he certified under his official seal that C. K. Farden, who was a Republican candidate for the house of representatives from Maui had sworn to a statement of his campaign expenses, when, as a matter of fact, the statement was not signed by Farden and was sent to the office of the secretary of the territory unsigned by him. The statement was returned for Farden's signature and is now on file in the secretary's office.

The license held by Laird was because he certified that H. De Fries had executed a certain contract when, in fact, it had been executed by A. L. De Fries. This matter was called to the attention of the attorney general's office in connection with a harbor board contract.

Sakakihara's license was cancelled because he took a woman's acknowledgement to a power of attorney to himself, which, according to the attorney general's office, is not permissible. This matter was called to the attorney general's department by Carl Wikander, territorial registrar of conveyances.

The Lufkin matter was presented to the attorney general's department by the secretary's office.

**LUAU FOR JARRETT AND FOOTBALL GAME MARKS THANKSGIVING IN HILO**

Business was practically suspended in Hilo last Thursday and Thanksgiving day was enjoyed to the fullest extent. Not only was the local banks, the public schools, county offices and various other public institutions closed but the greater part of the retail business houses were not open.

A monster luau was held at the Hilo armory, during the afternoon in honor of delegate-elect, Wm. P. Jarrett and was the leading social function in the city. It was to be one of the largest affairs of this kind ever held in Hilo. Mrs. E. A. Nawahi, assisted by Mrs. O. T. Shipman, was in charge of the luau, which began at 1 o'clock sharp, continuing until 4. Wednesday, Delegate-elect and Mrs. Jarrett were honored guests at a luau held in Kalapana, a big crowd from throughout the Puna district attending.

In the afternoon at 2:30 o'clock the Maui high school football team and the Hilo high school football team clashed in a gridiron contest at Hoolulu park.

The Volcano House was the Mecca of many pleasure seekers from Hilo on Thursday. The mixed golf tournament started at 9:30 a.m., with a special ladies' prize donated by the hotel management.

**Dr. Emerson is to Visit Kauai**

Kauai is to have the pleasure of entertaining during the week Dr. William R. P. Emerson, noted specialist on nutrition, who comes at the invitation of the Kauai Social Service Association. Dr. Emerson will be here but two days, Friday and Saturday, 8 and 9 of December, and will make but one public address. This will be at the Lihue Memorial Parish house on Friday, evening at 7:30. A cordial invitation is extended to all to hear Dr. Emerson at that time.

**MESDAMES FERN AND MORGAN ARE JOINT HOSTESSES**

Mrs. C. J. Fern and Mrs. T. L. Morgan were the charming hostesses at two delightful bridge parties last Saturday, at the home of Mrs. C. J. Fern at Wailua. The first bridge was in the afternoon with seven tables in play. Attractive prizes were given to Mrs. W. H. Rice and Mrs. J. C. Jamieson.

The evening bridge was for the young married folk and awards were presented to Mrs. L. D. Larsen and A. Englehard.

The room in which the guests played were attractively decorated with pink water lilies and zenias.

**VANDALS DESECRATE**

**HISTORIC SPOT**  
Reports have reached the Garden Island that some person has been building a road thru the park on the Wailua river that was formerly the birth place of the Kauai chiefs. According to our information the maker of the road has been using powder and in his blasting operations has just missed the famous birthstone in the park.

We believe that this is within the province of the Historical Society and refer this information to that body.

**The Obliging Boss**

**KAUAI COLONY IN LOS ANGELES**

A letter received recently from Karl B. Morgan, former manager of the Kapaa bank, has the following interesting bit of news:

"You might be interested in knowing that there is quite a little Kauai colony here in Los Angeles made up of the following:

"Mr. and Mrs. H. H. (Oily) Jones of Standard oil fame, Jimmy and Mrs. Taber, of Kauai Drug Co.; Van Leuven and wife, who had the store next to the bank; Charles Baggott's brother, now operating a gasoline service station between Los Angeles and Long Beach; also, yours truly, Mrs. Morgan and the boy.

"Mrs. Madeline Soule Burke is also here with her new husband.

"We all get together occasionally and eventually the talk turns to Kauai."

**THANKSGIVING SERVICES**

Thanksgiving Day services were held in the Lihue Union church at 10:30 Thursday morning.

Rev. R. G. Hall of Koloa was the speaker and emphasized in his remarks the many blessings for which the people under the flag of the United States have reason to thank almighty God.

Famine and disease are not disturbing our national life as in many other countries of the globe. War nor the rumors of war do not hang in threatening clouds over our land.

We have cause to be thankful for individual and national health, for friends at home and abroad, for abundance of food and material gifts for the evidence of better understanding between the various classes of our society, for the moral and religious advances as shown in the increased interest and membership of the church. For all these blessings and a multitude more, we should voice our thanks to the Giver, and thru our daily living express our gratitude for the mercies that have been showered upon us.

**EXHIBITION OF PAINTINGS**

An exhibition of Mr. Gurrey's paintings will be given at Mokihana Hall, Lihue, on December 6, 7, 8 and 9, from 9 to 5 and on the 10th (Sunday) from 1 to 5.

Everyone is cordially invited.

**Do You Realize That Christmas Will Soon Be Here?**

**WHY** worry and tire yourself out making Christmas gifts when a year's subscription to some nice magazine would be appreciated more than any gift you could make. It is not only a Christmas gift, but a gift for every month of the year.

The Saturday Evening Post would make a nice gift for husband, father, or friend.

People subscribe for the Post, not because certain authors write for it exclusively, but because they know that each issue will supply their reading needs, whatever those needs may be.

Any woman would be delighted with a subscription to the Ladies' Home Journal.

The coming program for the Ladies' Home Journal includes a new novel by Zane Grey, "The Vanishing American," which begins in the September issue. Also novels by Booth Tarkington, Zona Gale, Elinor Hallowell Abbott and other noted writers; art features, articles on fashions, architecture, needlework, and household matters.

We can supply you with any magazine or periodical published. Ask for our late catalog.
