Christmas

Again the Spirit of Christmas is in the air. There is a softening of hearts one towards another; there is a new flash of happiness in the eyes; a new firmness is felt in the grip of our daily hand-shakes; something again seems to whisper to us that we are in the midst of a season so sacred that it is not to be compared with any other time of year.

From that time almost two thousand years ago when one whose birth we are now celebrating stood upon the Mount and gave to humanity a new rule—a Golden Rule—the approach of Christmas finds the whole world with a song upon its lips. Men may war against men; disease may sweep vast sections and the grim reaper may swing his scythe with an un-failing hand, yet the approach of Christmas brings back joy to the hearts of the stricken, bolsters them up for whatever fate may have in store, and makes them, for the season, as light and happy-hearted as the children who romp about our feet.

There is a something about the Christmas season it has not been given man to understand. Changed conditions, a great er desire to live and to be of service to those about us; a hope and a prayer for greater blessings of health and prosperity for all humanity—those fall upon us in a shower along about this time of year, and yet we pass thru it still unable to fathom its mystery. We know, somehow, some way, that it is the spirit of the Master of all mankind coming into our hearts—we seem to feel that His smile is being shed upon us, and that we are receiving a benediction of happiness which fills our hearts to the fullest.

With the arrival of the Yuletide season once again we want to take this method of thanking in our own feeble way all those to whom this greeting may come for the cheer and helpfulness they have passed on to us during the year soon closing. We want to hope that this has been a prosperous and a happy year for them—we want to extend to them our prayer that the year to come may be equally so. We are passing this way but once. If we have said or done that which would in a measure return the kindness shown us, we are glad. If we can say or do in the future the things that will lighten the heart of those about us, we shall be happy.

May Providence continue to shield and bless you and yours. May your Christmas be a happy, a merry, a contented one. And may you be spared to celebrate many more of them.

CAREFUL, NOW!

During December and January the United States government is to pay back to the people of this country millions of dollars in redemption of War Savings stamps bought five years ago. Several thousand dollars of the general sum will come to Kauai.

These savings represent a considerable part of the savings of our people and as savings should be carefully guarded. The money paid by the government should be immediately reinvested where it will start working again to bring in dividends to the investor. And, for the very reason that most of the holders of War Savings stamps will reinvest their money in some other dividend paying proposition, their money is in danger.

For, already, dishonest promoters are at work getting ready to harvest their crop of suckers from among those to whom the government is making payments. All sorts of fake stocks and bonds, promising big returns, will soon flood the market, and worthless, although pretty paper will be foisted upon an unsuspecting public.

So be careful how you reinvest your money. Don't expect to find a safe investment that will pay you extra large interest returns, for you can't get something for nothing in this old world, you know. Better take less interest and keep your capital than take promises of getting rich quick and lose your all. If you are in doubt about the value of making an investment ask any banker and take his advice. For we are sure he will advise you right.

A SENSIBLE SENTENCE

In the city of Cleveland a few weeks ago a speeder appeared before a judge on a charge of having run down and so badly injured a little girl that she died a few hours after the accident. The judge heard the evidence in the case, and there could be no doubt but the auto driver was going faster than the law allows or safety warrants, and then the judge imposed a novel sentence.

Instead of levying a fine, which reckless auto drivers usually care little about; or sentencing him to the workhouse, that his friends could get him out of a day or two later, he sentenced the speeder to attend the funeral of the little girl he had killed by his carelessness. And he deputized two policemen to go along to that funeral and see that the speeder was there and witnessed it all. And we wonder what could have touched him more than the tears of the heart broken father and mother, and the little brother of the dead child? We wonder if anything could have shown him as plainly the misery and heartaches that follow reckless driving, no matter how well you understand the machine. We wonder if, when he started out the next time, he could wipe from his mind that picture of woe and misery, or if it didn't seem to loom up on the road ahead of him as his auto rolled along.

At any rate, we commend the sentence to our own judges and juries. A fine can easily be paid. A sentence to jail can be laid out. But nothing can wipe the picture of a funeral from the mind. It might not be a bad idea for Kauai auto drivers who are inclined to be reckless to keep that Cleveland sentence in mind.

About the only thing worth less than a German mark is a man's chance of being boss in his own house.

If both the wets and drys think they have gained a victory, why everybody ought to be happy.

One pretty good way to relieve traffic congestion would be to sell automobiles for cash only.

Lots of fellows save up something for a rainy day and then give it all to a bootlegger for a wet night.

A Kentucky farmer liked two aviators who landed in his field. That's what you call swatting the fliers.

It isn't hard to remember the time when the average family considered mother's hairbrush very useful in bringing up the children in the way they should go.

Sometimes it's hard for a father to give up his daughter in marriage that he almost gives up trying.

Nothing makes a defeated candidate madder than to have to return to work when the election is over.

We may not be able to stop the arguments over the boundary lines in Europe but we can help this section by fixing up some of the dilapidated fences along our public highways.

Save Time and Expense

EVEN though you cannot find time or allow yourself the expense of frequent trips to Honolulu, you can keep in constant touch with the stock market thru the investment department of the Trent Trust Company. Inquiries and orders may be made by mail or radio, and will receive as prompt and conscientious attention as they would if you were to deal in person.

FALSE ECONOMY

Not one of the thousands of employers who came to grief as a result of the dishonesty of employees during the past year suspected a dishonest streak when the men were hired. If it had been suspected they would not have been hired and there would have been no necessity for this ad. Unless your employees are bonded, and bonded all the time, you are in constant danger of a loss which may be large enough to cripple you financially. Would it not be the better part of economy to spend a few dollars a year for bonding your employees than to run the everlasting, nerve-racking risk of losing hundreds, perhaps thousands.

TRUST CO., LTD.**
HONOLULU

THE WISEST, MOST DELIGHTFUL, CHRISTMAS GIFT OF ALL

In the stockings of the children, let each find a little bank book, in which a savings account is begun with a dollar at least.

You will find it will delight them as nothing else could. From that time forth "savings" will be play. You inculcate in them, in the happiest fashion, the qualities of thrift and prudence that make the SUCCESSFUL man.

In this conservatively managed bank their money will increase steadily, for we give 4 per cent interest, compounded semi-annually.

NOTICE TO MOTOR VEHICLE OWNERS

In pursuance to Act 198, Session Laws of 1921 of the Territory of Hawaii and Ordinance 17 of the County of Kauai, all owners of motor vehicles are hereby notified that taxes on such vehicles shall become due and payable at the County Treasurer's Office in Lihue, on the first day of January, 1923, and must be paid before the first day of March following.

Application blanks for registration can be obtained from the Treasurer's Office. These blanks should be properly filled out in duplicate and filed with the Treasurer, together with money to cover taxes and one dollar for number plates. In determining the weight of used cars that have already been weighed and are not altered, refer to 1922 Motor Vehicle Tax Receipt. New cars must be weighed and certificates of weight must accompany application before such weights can be accepted.

No numbers will be reserved under any circumstances and the first person to pay his tax will be the holder of Number 40-000, as our numbers will begin with 40,000. Numbers will be issued consecutively.

NOTICE OF SALE: Whenever any automobile, motorcycle or power-driven vehicle is sold, it shall be the duty of the seller to within forty-eight hours notify the Treasurer of the county of said sale, giving the name and address of the old owner and the registration number of the vehicle, if any, and the name and address of the new owner, provided, however, that regularly licensed dealers may give notice to the Treasurer upon Monday of all such sales made by them during the previous calendar week. "Notice of Transfer" blanks can be obtained from the Treasurer's office.

DEALER'S NUMBER PLATES can be obtained from the County Treasurer at five dollars for each pair.

Number plates for publicly owned vehicles, except those owned by the Federal and Territorial government, can be had at the Treasurer's Office upon making application for the same.

For further particulars in reference to penalty, etc., refer to Act 198 of the 1921 Session Laws of the Territory of Hawaii and Ordinance 17 of the County of Kauai.

K. C. AHANA,
Treasurer, County of Kauai.
(Dec. 12-19-26-Jan. 2)

NOTICE TO CREDITORS

ESTATE OF TOICHI MORITA

Notice is given to all creditors of Toichi Morita, deceased, to present their claims with proper vouchers or duly authenticated copies thereof even if the claim is secured by mortgage, to me either at my residence in Kapaa, T. H., or by mail addressed to me at P. O. Box 9, Kapaa, T. H., within six months from date. If not presented within six months they will be barred and I will not be authorized to pay them.

Kapaa, Kauai, T. H., December 26th, 1922.

MIDORI MORITA,
Administrator
of the Estate of Toichi Morita, Deceased.

Lylye A. Dickey,
Attorney for Administrator.
(Dec. 26-Jan. 2-9-16.)

UNIVERSITY EXTENSION LETTER

YOUR GARDEN THIS MONTH.
Where green manuring of garden plots has not already been done, no time should be lost in preparing the soil by turning under plenty of coarse barnyard manure. A cubic yard of manure (16 1-2

yard manure. A cubic yard of manure for each square rod, or forty tons per acre, is the least that should be applied. It probably would be well to add about 10 pounds of phosphate to each cubic yard of manure at the time of application. This may be in the form of either of reverted or acid phosphate.
Be very careful in December and during the rainy months not to work your land when it is too wet. Better let the weeds grow rather than rain your soil by working it too wet. The soil should be turned over a second and third time in December and January before planting the garden. It is good practice to plant on raised beds at this time of year to insure the best drainage possible.

Cold frames and flats. A number of garden crops which thrive better in the spring instead of now may be started now in cold frames or in flats placed in a protected position and thus gain a month or so in the maturing of crops. A cold frame is a box with a glass cover, the glass serving to hold some of the sun's heat inside and the resulting warmth hastening the germination of seeds and early growth of seedlings and cuttings.

Some of the crops which may be started in this way are artichokes, asparagus, celery, chard, clayote, cucumbers, egg-plant, tomatoes and others.
WHITE WASH IS GOOD PAINT
White wash is the cheapest of all paints, and for certain purposes it is the best. Lime, which is the basis of white wash, makes a very sanitary coating, and is probably to be preferred for cellars and the interior of the stables and other buildings. The following directions for making white wash are taken from Farmers' Bulletin 474, "The Use of Paint on the Farm," which gives several other white wash formulas for interior and exterior use. Write us if you want a copy of this bulletin.
Ordinary white wash—This is made by slacking about 10 pounds of quick lime with 2 gallons of water.

The lime is placed in a pail and the water poured over it, after which the pail is covered with an old piece of carpet or cloth and allowed to stand for about an hour. With an insufficient amount of water the lime is "scorched" and not converted into hydrate; on the other hand too much water retards the slacking by lowering the heat.
Scorched lime is generally lumpy and transparent, hence the use of the proper amount of water for slacking and an after addition of water to bring it to a brush consistency.

It has been found by experience in Hawaii that a very attractive tint may be obtained in white wash by mixing a suitable amount of common cane molasses, putting in enough until the desired tint is obtained.
The official government formula for a really superior white wash is as follows:

62 pounds (1 bushel) lump lime or 100 lbs limoid; 40 pounds table salt; 3 pounds rice flour; 2 pounds glue; 1 pound whitening.

Slack the lime and allow it to cool thoroughly. Mix the other ingredients with hot water and then add the slacked lime or limoid. Thin the mixture to the desired consistency with hot water and apply the white wash hot. Molasses could be added to give a color tint.

For exterior use on buildings, fences, etc., here is a good formula:

62 pounds quick lime (slack in 12 gallons hot water); 40 pounds common table salt, and 1 pound of zinc sulphate dissolved in 2 gallons of boiling water; 2 gallons skim milk.

Pour the salt and zinc sulphate into the slacked lime and then add the milk and mix thoroughly. Alum added to a white wash prevents it from rubbing off. Use one ounce of alum to each gallon of white wash. We are indebted to the Nebraska experiment station for much of this information.

ANOTHER WORLD RECORD

Lady Jewell, a white leghorn hen in the state of Washington, has recently set a new world record in egg laying, 335 eggs in 365 days. The best previous record was 324 eggs by a California white leghorn hen. This is running pretty close to perfect efficiency.

HAVE YOU GOT AN OLD DE LAVAL?

The De Laval Separator Co. is offering a prize of \$25 to the owner of the oldest "De Laval" in each state or territory. If you have an old one send word to E. O. Hall & Sons, Honolulu, stating date of purchase, serial number and size of the machine, and anything you can about its history and its service.

POULTRY GRADES IN GEORGIA

A very important advance has recently been made in Georgia in the establishing of standard poultry grades by the state bureau of markets and agreed to by wholesalers and dealers in the state. It is a matter to which dealers and producers in Hawaii should give attention, as the industry is increasing considerably.

Here are the four grades established in Georgia on the part of the buyers and producers:

- 1. Friers— young chickens, 1 to 1 1-2 pounds live weight.
- 2. Stags—young chickens, both male and female, 2 1-2 pounds and over, live weight.
- 3. Hens—it was agreed that good fat hens weighing over 4 pounds should bring 2 cents per pound more than lens weighing under 4 pounds.
- 4. Roosters—all which are not included in grade 1 and 2 above.

No special classification is made for broilers because of limited demand. Likewise turkeys, geese and ducks are not classified. The higher price offered for four pound hens should encourage the growing of a better type of table fowl to take advantage of this premium.

The Honolulu market would be considerably improved if some standard of grading such as given above could be agreed upon by buyers and sellers. We will be very glad to receive and publish comments from producers and dealers in Hawaii. What do you think about it?

USE MORE MILK

Milk is essential to health and growth.

Milk is a muscle building food. Milk is a bone and teeth building food; it contains an abundance of calcium and phosphorus necessary to both bone and teeth.

It is a protective food promoting health because it contains three kinds of vitamins: One of which prevents a peculiar eye disease and may play a part in preventing rickets; another of which promotes the growth and prevents beriberi, a

form of paralysis; and the other of which prevents scurvy.

Milk contains proteins necessary in the blood and is, therefore, particularly valuable, especially in cases anemia.

Milk and its products are the foods which a family can least afford to do without. Increase in the cost of milk and its products therefore should not be viewed unfavorably unless it is proved that the increase is out of proportion to the increase of other commodities of the same and less nutritional worth.

TIP TOP-ICS

DOUG HAS NEW PICTURE THAT BEATS 'EM ALL

If You Don't Like a Laugh, Stay Away From the "Nut;" It Is a Scream

Of Course There May Be a Plot; But Do Not Worry, For It Is Painless

For downright hilariousness nonsense, "The Nut" takes the barbed-wire bath sponge. It is a Douglas Fairbanks conglomeration of eight reels of wild-eyed foolishness of a kind which threaten to strain ribs and fracture whale-bone stays and it comes to the Tip Top theater next Sunday night.

As to the plot that doesn't matter so much, "The Nut" is a love story, but of the Fairbanks brand, and even the love scenes are pure comedy.

From the moment the hero, Chas. Jackson, grandson of President Andrew Jackson, if you please, wakes one bright morning in his Greenwich Village apartment until he marries the girl of his choice a few days later in a New York police court, there is super action of the triple-compound type.

The Nut is well named, for a nut has a penchant for inventing things which do not work the way they are planned is the hero, and the trouble he gets himself into trying to help the girl of his heart out of some of her pet schemes cannot be described in words. It takes pictures—and Fairbanks—to do it.

Certainly Fairbanks has employed some startling innovation in creating comedy. Wax figures, fireworks, incense which put everyone to sleep as well as some of his own comical "inventions" are used with knock-out effects.

There is just a silver thread of seriousness in the picture, represented by the "mission" in life of the heroine, charmingly played by Marguerite La Motte, who believes that children of the slums given refined influences a few hours a day will grow better men and women.

"The Nut" does not aspire to the pretentiousness of "The Three Musketeers," "The Mark of Zorro," and similar historical or semi-historical Fairbanks creations. It is strictly modern and strictly laugh provoking.

"NICE PEOPLE" STORY OF JAZZ-MAD WORLD, COMING TO TIP TOP

William De Mille has gone the limit in the production of "Nice People," a Paramount screen story of the present jazz-mad world, featuring Wallace Reid, Bebe Daniels, Julia Faye and Conrad Nagel, which will be at the Tip Top theater Wednesday, January 3.

Not that De Mille has done anything improper. He has, however, drawn some exceedingly strong pictures to put over his idea that "nice people" have higher ideals and conduct themselves differently than the average so-called smart-set.

Let it be said here that "Nice People" is timely inasmuch as there has been much smoke and a little fire in the press recently concerning smoking in theaters. Smokers and non-smokers will agree after they have seen "Nice People" that never in screen history have so many cigarettes been consumed in the making of a feature.

Cocktail drinking, promiscuous kissing, crap shooting, the wearing of daring feminine clothes and the daring situations into which young girls plunge themselves quite as a matter of course in these days may hold the majority vote, but none the less are not the ways of "nice people" is the lesson which De Mille has taught in this production, although without resort to heavy drama, for "Nice People" is essentially a comedy.

Bebe Daniels has the strongest role of her career, and likewise the lead role of the picture, although Wallace Reid also figures prominently.

GRIFFITH'S LATEST PICTURE GREATEST OF THEM ALL

Unusual interest attaches to the opening of the coming engagement in this community of D. W. Griffith's great spectacle, "Way Down East," which will be seen for the first time here on Saturday, December 30 and Monday, January 1st, at the Tip Top theater. "Way Down East" will be presented here for a period of two days.

If such be possible, this latest masterful production by the genius of the screen bids fair to eclipse even the enormous vogue enjoyed by "The Birth of a Nation." Now being offered in the leading cities of the land, "Way Down East" is attracting capacity throngs and seats are sought weeks in advance.

This picturization of the famous stage success furnished by Lottie Blair Baker and Joseph Grismer goes much farther than the original tale. Mr. Griffith has begun where they halted. He has not made it a provincial thing; attempting to explain nothing he has welded a theory of eternal love, and in so doing has removed his people from time and period. Possessed of a vision and mentality too great to be handicapped by anything, he has brought forth an epic far more than clever—it has the ring of genius. The simple fun of plain people is brought forth in greater measure than the stage play version could ever hope to attain and offers keen contrast to the suffering and woe of Anna Moore, her hopes and struggles. Probably the greatest cast of capable players ever assembled for a motion picture production was engaged in the making of this work and it ends in a thrilling climax of spectacular scenes amid the veering flaws of a New England blizzard and the explosive breaking of a river ice gorge, all of which enthrall as only a Griffith effort can move audiences. The tender moments, the tragic episodes, the laughable situations and the stirring scenes are accentuated by unusual orchestral accompaniment, pronounced the most ambitious yet attempted in the theater.

County Y. M. C. A. Committee Meet

The members of the Kauai county Y. M. C. A. committee were the dinner guests of Doctor and Mrs. Waterhouse last Thursday evening. After all had enjoyed the excellent dinner the members assembled for a short business session.

The holding of the annual county convention was set for early in May. A nominating committee was appointed to report at the next regular meeting on committee members for the ensuing year. Philip Rice was appointed secretary pro tem. Mr. Watada, assistant county secretary, gave a verbal report outlining his work of the past two weeks. He spoke of the helpful results from charting the boys, the organization in outlying communities of Y Clubs and Sunday schools, and of the interest which is being displayed throughout the county by the older Japanese, among whom local committees are being formed to back up the work.

Mr. Locke, executive secretary, gave a brief report of the work which has been done during the past year. He exhibited a map showing 23 communities on the island where Y. M. C. A. work is being carried on. Thirty-one clubs have been organized during the year, totaling a membership of more than 400. Seventy-five boys attended the county older boys' conference; five night schools have been established with an enrollment of over 100. The observance of Father and Son week with James Taylor as speaker resulted in four banquets, two illustrated lectures and three church gatherings. The influence for a better understanding between the men and the boys of the island will be far-reaching. In outlining plans for the future, Mr. Locke spoke of the contemplated observance of Thrift Week, January 17 to 23, with a thru the year follow up in co-operation with the school and authorities, the territorial older boys conference, grammar school track meet and summer camps. An interesting display of pictures showing the varied activities promoted in the last 12 months were shown.

Chairman Waterhouse read several letters which had been written by local people commenting on the work done by the Y. M. C. A.

T. Brandt, treasurer, in his report for the fiscal year, stated that the year has begun with an overdraft of \$2,800; during the year \$5,915.30 had been secured from interested supporters and \$2,060.50 realized from the sale of the Y. M. C. A. house at Eleele. That after making all authorized disbursements and paying all bills the overdraft for the year would only be about \$500.

Chairman H. D. Sloggett of the finance committee presented the following budget for the coming year: Salaries, 2 secretaries \$4,500
Auto expenses, 2 cars 1300
House rent 300
Summer camp equipment 300
Printing 150
Office supplies and postage 125
Telephone and cables 100
Conference and conventions 100
Summer school 100
Association men 100
Books 75
Office help 75
Incidentals 75

Estimated deficit 500

After a unanimous adoption of the budget the dates, January 8-13 were named as the time in which a county wide opportunity would be given the many friends of the work to share in this phase of it.

The chairman then introduced Prof. A. A. Hauck, president of Punahou school, who gave a very interesting talk on the "gang spirit" and of the great work the Y. M. C. A. is doing in providing opportunities for the proper exercise of the energies of boys and young men toward better things. The meeting adjourned at 8:46 p.m.

PHILIP L. RICE,
Secretary Pro Tempore.

Second Round

"Walter, I came in yesterday for a steak."

"Yes sir. Will you have the same today?"

"Why, I might as well, if no one else is using it."—Jack Canuck.

A Complete Guardianship of Power

In any plant there are almost innumerable points at which power can be wasted. It is the most difficult element in the world to carry any distance without appreciable loss.

Johns-Manville power specialties are the result of a deliberate attempt to save power. Johns-Manville boiler cements conserve power at its source. Service Sheet No. 60 prevents joint leakage and Johns-Manville insulation prevents waste thru radiation.
