Classy Races Sure For Fourth Of July

Big String Of Fast Ones Now In Honolulu Expected To Come-- Plans Being Made For Record Breaking Day.

The Fourth of July races at Kahului this year promise to be of more interest than for some years, according to those who have been sizing up the situation. Moreover there will be considerable uncertainty owing to the running of a lot of dark horses which track men know little about.

The situation is likely to be a little clearer, however, after the races in Honolulu on June 5 and 11, inasmuch as many of the horses which will race there will also run at Kahului.

At the present time there are 12 Maui horses in training in Honolulu—4 entered by Angus McPhee, 4 entered by F. B. Cameron, 2 by Foster Robinson, and 2 by Dr. Raymond. Besides this John O'Rourke has just brought 4 new ones down from the Coast which no one knows anything about and Alfred Carter, of the Parker Ranch is in the field with no less than 8 animals said to have speed, but concerning which not a great deal is known. All of these are expected at the Maui races, besides various other local horses.

There are also to be the usual cowboy races, ladies' races, and polo pony races.

In order to accommodate the big crowd which is confidently expected in the fair grounds on the 4th, a lot of portable bleachers are being constructed by the fair committee. These will be built similar to those used in Honolulu, and will be available for all kinds of out-of-doors affairs where seats are desirable.

Long, Hot Dry Spell Reaching Serious Stage

With the exception of Kula, which has been visited by almost daily showers for some time past, and which in consequence has no kick coming, practically all Maui is rapidly getting to the critical stage of drought. Central and east Maui have been hot and dry for weeks, and residents of the Haiku and east Makawao sections say that they can scarcely remember when the roads were dusty and the fields as dry as they are at present.

The rainfall recorded at the Haiku experiment station was less than .2 of an inch for a period more than an hour last night, and Haiku is normally a wet district. At Kahului it was less than 3 inches in the past 24 hours.

Plantation men are concerned over the crop for the new plant, and the 1922 crop, though up to the present the pumping systems have been able to prevent any serious damage from the drought. In the pineapple district rain is also greatly needed, and the tonnage for the season just coming on will probably be reduced for the reason that the fruit will be small if rains do not come.

To learn more about the interior of the earth an English scientist has planned to bore a shaft 12 miles deep, equipped with devices to equalize the air pressure and remove the heated air.

Warning Given To Oil All Drinking Water

Because of what is apparently a mild epidemic of diarrhea and intestinal trouble in Wailuku, Dr. Osmer suggests the advisability of boiling all drinking water. While there is as yet no reason to ascribe the trouble to the water supply, the recommendation is made merely as a matter of precaution.

Because frosts do the most damage when the air is calm, a Paris scientist has advanced the theory that orchards and vineyards can be protected by electric fans to keep the atmosphere moving.

Don't waste sympathy on the Germans. They have enough of it for themselves.—Brooklyn Eagle.

Fuel Oil Cargo Brings Relief--Sugar Leaving

The freighter Eastern Guide arrived in Kahului harbor on Monday and is taking on 5500 tons of sugar from freight cars at the Claudine wharf. This is one of the few times that a large ocean-going vessel has berthed at the inter-island boat wharf. The ship brought 500 tons of miscellaneous cargo. She expects to get away today for the coast.

Oil Supply Arrived

The shipping board tank steamer Quabbin, with a full cargo of fuel oil (61,000 barrels) arrived at Kahului Monday and is discharging into the big tanks on the water front. The vessel is under charter to the Standard Oil Co., and the oil is consigned to Alexander & Baldwin. The shipment will keep Maui supplied for about 2 months.

"535" Ships Coming But Not As Expected

Delegate Kuhio Opposed New York-San Francisco-Hawaii Plan—Now Looks Like Direct Coast-Islands Schedule.

Recent advices to the Matson Navigation Company, indicate that the U. S. Shipping board has definitely allocated two of the new "535" passenger and freight steamers now building to that company for service between San Francisco and Hawaii. The news came somewhat as a surprise inasmuch as it had been understood that the only way the Islands could hope to benefit from these new vessels was through allocation for a run between New York and Hawaii via San Francisco. If the news is correct it will mean that the passenger service between the mainland and the Islands will be very greatly improved the latter part of the year when the vessels are completed.

The Maui chamber of commerce recently conformed with the suggestion of the Honolulu chamber and sent a resolution favoring the New York-Hawaii service to the shipping board, and to Delegate Kalaniana'ole. In replying under date of April 30, John A. Donald, chairman of the board stated—"The matter is now up before the board and we feel that the allocations made in the trade in a few days will be satisfactory to the citizens of Honolulu and the Hawaiian Islands."

Kalaniana'ole Opposed Resolution

Delegate Kalaniana'ole's reply received this week, did not agree with the chamber's suggestion. He said in part:

"I received a similar resolution from the chamber of Honolulu but I feel it would be inconsistent for me to support the shipping board and at the same time the ships be allocated according to the resolution. The chamber of commerce of Honolulu has joined in the request with the shipping interests of the Pacific coast to have ships allocated to the Pacific trade, and upon that request I have been working with the board to the end that some ships be assigned to the Pacific coast companies for trade in the Pacific.

"I fully appreciate the fact that Hawaii needs ships and I am of the opinion that if I were to again go before the board seeking to have ships allocated for trade between New York and San Francisco, and occasionally touching at Honolulu it would possibly hinder the probability of Hawaii receiving the benefits of any shipping, on view of the fact that I have been assured by the shipping board that as soon as the new ships of the 535 foot class are commissioned, they will be placed in the Pacific trade.

"Assuring you that I will do all in my power to have ships allocated to the Pacific for trade in the Pacific, I am,

"Very truly yours,
"(Sgd.) J. K. KALANIANA'OLE,
Delegate in Congress from Hawaii."

A Californian is the inventor of a sound deadening helmet for aviators that is made of two thicknesses of felt with an air space between, provision being made for admitting telephone wires.

COURT MAY BE ABLE TO GET TOWN LIGHTED

Only Hope Of Escape From Long Period Of Darkness--Manager Says Engine Is Pinned In Station, Repairs, New Company All Matters Of Months

There is just one possibility that Wailuku and Kahului will be supplied with lights in the near future, and that is that the circuit court may be able to have current purchased from the Hawaiian Commercial & Sugar Co., during the time that the property of the Island Electric Co., is within the court's jurisdiction.

The status will result as soon as the foreclosure suit is actually instituted. It is understood that the trustee for the bondholders, Wade Warren Thayer, will, at the time of filing the action, ask that a receiver be appointed by the court to administer the property. Such receiver will act under instructions of the court, and it is reasonable to presume that he will be instructed to protect the interests of the community and to see that current is supplied over the wires of the company if such current can be purchased.

The Hawaiian Commercial & Sugar Co., has declined to deal with the Island Electric Co., in this connection, but there is reason to believe that it will be willing to help the community out by furnishing current during the period that the court receivership continues. F. F. Baldwin, president of the sugar company, has repeatedly stated his personal wish to do whatever is in his power for the Maui public, if he may do so without involving himself or his company with the electric corporation. This will be possible with the court in control of the property.

Delay In Foreclosure

Letters from Mr. Thayer last week indicated that he would be on Maui last Saturday to file the papers in the foreclosure suit, but for some reason he failed to come, and so far as can be learned no one has heard from him on the matter since. It is known that the papers had been drawn and were ready for filing more than a week ago. It is possible that he will arrive tomorrow morning.

Wailuku and Kahului have been without lights since last Sunday morning. Manager Blair says he may get the plant started again but that it cannot be expected to operate for more than a short time. Ed. Deinert, expert diesel engine engineer of the Hawaiian Commercial & Sugar Co., expresses the belief that it will not be possible to start the engine.

The Wailuku Sugar Co., is once more carrying the day load of the community, but is unequal to carrying the lighting load from 6 p. m. till midnight.

The outlook for anything better in the near future is mighty poor. The Hawaiian Electric Co., which is supposed to want to come into the field, has not yet made any definite proposition. It expects its manager, F. E. Blake, who is now on the coast, to negotiate with Robert Bond, president of the Island Electric, for the purchase of the business. Up to the present he has not done so.

The partially organized Maui Electric Co., Ltd., plans are held in abeyance pending a real proposition from the Honolulu company. But neither company, if called upon to install new machinery to handle the business would be able to offer any relief from present conditions for months.

And while there is a possibility that a temporary connection might be secured with the Hawaiian Commercial & Sugar Co.'s electric station to bridge the gap until a new plant could be secured and installed, it is a dead sure thing that no such relief may be even hoped for if it involves dealing with the Island Electric Co.

If the proposed new company is perfected, and it is decided to go ahead under a permit from the board of supervisors, as has been proposed, it will be unable to deliver current, even provided it were possible to buy it from the Hawaiian Commercial or some other source, until it could es-

tablish a system of poles and wires. This would require considerable time even were the materials for such construction on the ground. It is quite certain that it would require several months at least to secure delivery of any orders for this class of materials under present conditions.

So there you are. Look at it from what angle you will, there doesn't seem to be much light—and that isn't intended as a joke either.

Bare Possibilities

Of course there is the bare possibility that Mr. Bond will recognize the blind alley in which he has all but reached the end, and will make an acceptable proposition to the Hawaiian Electric Co., or to the new Maui Electric Co. Or it is just possible that the foreclosure of the bond holders on their mortgage might be pushed through in a couple of months and the Island Electric distributing system become thus available for current to be secured elsewhere. But neither of these contingencies are very likely.

In another part of this issue of the Maui News is a long letter from Mr. Bond in which he proposes a plan for the control of the company to be run over by local people; but there is no chance that his idea can go through for the reason that Mr. Bond's ideas of the value of his property are at extremely wide variance with those of Maui people. J. C. Blair, manager of the company, took the matter to F. F. Baldwin on instruction from Mr. Bond. These instructions were to get Mr. Baldwin to handle the proposal as set forth in the letter above mentioned, but the latter absolutely declined to consider it or to become in any way involved with the Island Electric Co. It is understood that Bond has made similar overtures to Baldwin in the past with like results.

Utilities Hearing Pau

The hearing on the Island Electric Co.'s case which has been on before the public utilities commission concluded last Friday afternoon. Several sessions had been held on the matter previously in the week. E. R. Bevins, chairman of the committee of the chamber of commerce on the matter, and also representing the county as county attorney, attended the hearings. In his report to the chamber Mr. Bevins says—

"At the hearing in Honolulu the commission went very fully into the questions of costs of production, overhead expenses, distribution, etc., and I am satisfied that they are completely informed as to actual conditions.

"While the record in the case is necessarily a voluminous one, I am satisfied that the commission has kept pretty well up on the questions involved and look for a decision from them within a comparatively short time.

Up To The People

If the Hawaiian Electric Co., is heard from within the next few days with some definite proposition a meeting is to be at once called of the subscribers to the proposed Maui Electric Co., and the plan put up to them. But it is likely that such a meeting will be called in any event, owing to the crisis of being without lights and the need of deciding upon some course of action.

It is pretty well understood that the Honolulu company is not desirous of coming to Maui unless it has an opportunity to supply light and power to the central Maui plantations. For this reason it seems quite likely that

Say Sailors Steal Boats And Go Swimming Nude

Complaint has been made to the police about the practice of sailors from vessels visiting Kahului harbor, bathing in the harbor and parading on the beach in a garden of Eden attire. A good deal of indignation has been aroused over the matter by persons having occasion to visit the waterfront.

Another complaint against these same transient visitors is that they are in the habit of stealing small boats from along the shore in order to get back to their ships after shore leave, and then casting the boats adrift. It is probable that Sheriff Crowell will have a police officer stationed on the beach in the future while vessels are in port to prevent the practices complained of.

Wilson Beats Kum'ae In Democratic Primary

As a result of the democratic primary held on Maui last Saturday, J. H. Wilson defeated Jonah Kumalae for national committeeman by vote of something like 4 to 1. Returns have not yet been received from Molokai.

This was the only contest, there being no opposition in any of the other offices. Dr. J. H. Raymond was elected delegate to the national convention in San Francisco with Ben Lyons alternate. The following territorial committeemen were elected: John Halemanu, Hans; Kalani Kamaka, Kalau-papa; H. C. Mossman, Wailuku; E. Murphy, Wailuku; Manuel Picanco, Lahaina; Thomas K. Wahiako, Hans.

Manuel C. Ross was elected county committeeman for Wailuku, and M. K. Ekau, president, Wailuku precinct club.

Circuit Court Notes

Dr. George Webb, of Lahaina, has declared his intention of becoming an American citizen. In his declaration he states that he was born in Petrograd, Russia in 1887 and that he landed in Lahaina, May 19, 1919. His wife is also a Russian subject.

Judge Burr has summoned the territorial grand jury for the 2nd circuit court to convene on Monday, June 7, at 9 o'clock to take up the general run of matters to come before the body.

Joe Gomes, of Waihee was yesterday committed by Judge Burr's order to the custody of the sheriff until he should obey the court's instructions as to filing a bond and of paying the \$50 which was the amount he had neglected to pay towards the support of his bastard child. Later the defendant complied with the mandate and was released.

Aheong and wife Amy were yesterday granted their petition for leave to adopt Tin Yuku, a Japanese infant child whose mother is dead.

Judge Burr yesterday granted the petition of Louise N. Wong Chim to have the divorce suit against her by her husband Wong Chim, reopened. The plaintiff alleged that she had been prevented from being present at the time of the hearing through the deception of the spouse. Louise wants the case reopened in order that she may prove the legitimacy of her child and Wong's responsibility for its maintenance.

Sada Fukujiro has been granted a divorce from Suzuki Fukujiro on grounds of non-support.

Harni Mitsuji has secured a divorce from Watanabe Mitsuji on grounds of non-support. She is also given the custody of the child.

It will not make an offer to the community. The representatives of the Hawaiian Electric Co., when here two weeks ago, quite definitely stated that the Wailuku-Kahului business alone would have no attraction for it.

Kahului May Get Some Relief

William Walsh, superintendent of the Kahului Railroad Co., has been using his best efforts during the week to secure current from the Hawaiian Commercial & Sugar Co., for employees of the railroad company in Kahului. Since Kahului is largely made up of such, this will mean, if it goes through, that Kahului will be fairly well served. In order to do this the railroad company will extend the necessary service lines.

Boy Scouts Camp To Begin On July 5

Fine Site At Honolua Beach Selected—Boys To Have 2 Weeks Outing—Plantations To Give Bonus On Short Time.

Plans are about perfected for the Boy Scout camp which will be held this year in the park at Honolua, on the north coast of west Maui. The camp will open on July 5 and will continue all the rest of the summer, or until all the boys have had a chance at it. It is planned that every one of the boys shall have 2 weeks in the camp, one troop of 32 boys being in camp at a time. There are 8 troops on Maui at present.

The camp is to be equipped in regular army style and the boys will live a good deal as soldiers do under similar circumstances. The location of the camp is a most delightful one, near to a good bathing beach, and all the usual sports enjoyed by boys will be available. However there will be serious work too, together with instruction in various subjects given by experts.

A great deal of interest is being manifested by the boys themselves, while the plantations are encouraging the plan in various ways. For instance in the case of boys who are working on the plantations the plantation will waive the 20-day working condition to receive the bonus, so that the boys will not forfeit any bonus on account of their absence from work.

This is the first year that the camp has been attempted, and it is believed that it will come to be one of the important things of the year among the troops on Maui.

American Legion To Hold Public Memorial Service

An invitation is extended to all Maui people to attend the memorial services to be held next Sunday afternoon at the Territorial building, Kahului fair grounds under auspices of Maui Post No. 8, American Legion. The program which is being arranged will begin at 2:30 o'clock.

The exercises will be of a patriotic nature consisting of the singing of national anthems, a roll call of the service men of Maui who gave their lives in the service of their country, and an address by Maj. E. K. Masee, judge advocate of the Hawaiian Department, U. S. Army.

Maj. Masee will arrive from Honolulu tomorrow morning for the purpose of taking part in the exercises. He is known to be a pleasant and forceful speaker.

Besides the address by Maj. Masee an eulogy will be delivered by Rev. Hugh V. White. The Maui roll consists of the following: William Scholtz, Archie Bal, Mattos, Manuel Ramos, and R. Rodrigues.

The program as arranged is as follows:

- Hymn—America Assembly
- Invocation Rev. W. C. Crider.
- Roll of Honor Rev. H. V. White.
- Prayer Rev. J. C. Villier.
- Solo Mrs. L. C. Jon.
- Address Major E. K. Masee
- Athem—Star Spangled Banner Assembly.
- Benediction Rev. L. B. Kaumeheiwa.
- Accompanist Mrs. Mary Kunewa

Rest House Put In Good Order For Honolulu Party

W. O. Aiken, chairman of the promotion committee of the chamber of commerce, yesterday made the trip to the rest house on the summit of Haleakala with two men and a pack train, taking up 20 extra mattresses, oil, lamps, and other materials, in preparation for the Trail and Mountain club party. He reports that the house was thoroughly cleaned under his direction, the blankets and bedding perfectly aired and sunned, and that the place is now in as good condition as is possible under present conditions. He believes there should be no complaint except that the crowd of 60 or more is going to tax the house to limit.

SPORTS

Pitchers' Day Off Shoots Big Score

Wacs Try 3 Twirlers Without Checking The Stampede—Lacs Little Better—Everybody Had His Batting Eye With Him.

Both the "Lacs" and the "Wacs" are scheduled to play in next Sunday's ball games at the Wailuku park, but their legs are likely to be sore from running that they will have a good excuse if they make a poor showing.

The scorer forgot to figure out how many miles the players of these two teams made in hot-footing it around the diamond, but it must have been pretty near a record for distance. Some idea of it may be gained from the score which was 15 runs for the Lahainas to 12 for the Wailukus. The Wacs played 3 pitchers. The Lacs kept Aleong throughout the 9 innings, but it wasn't because he was fanning many men. Perhaps they didn't have a man for his place.

The second game between the "Pacs" and "Acs," was something of a relief to the overwrought nerves of the fans, even if the score was 9 to 8 in favor of the Japanese. It was really an exciting game with uncertainty as to the outcome right up to when the last man died in the last half of the last inning.

In his game Masaichi fanned 8 men while Robinson for the Paia's benched 5.

Choice Of Teams Now Asahis Or Waikikis

It is now reported that the decision on the base ball team to come here for the 4th of July series of games, rests between the Asahis or the Waikikis, both Honolulu teams. There is considerable favor heard for the Asahis as it is believed they would insure an unusually large attendance as well as some high class base ball. The Waikikis, who played a series here at last New Years time, lost 3 straight games All-Maui team, but put a fine exhibition nevertheless, and many would like to see them given a chance to get revenge.

The Honolulu Braves and possibly the Chinese also, will go to Hilo this year for the 4th of July games.

Burns Beats Engle But Falls Before Eddie Tam

The Alexander House Settlement handicap tennis tournament has now completed its third round and things are narrowing down to the really interesting stage. During the coming week Y. Ting will meet Jack Linton; Eddie Tam will play Jack Walker, and Rietow will meet Phillips. All of these are expected to be very fast matches.

Caleb Burns' match against Bill Engle was one of the features of the tournament thus far and drew a big crowd. Burns winning in three hard fought games. But although it has no bearing on the Settlement tournament, Engle last Sunday afternoon defeated Burns on the Puunene courts in the tournament being played under auspices of the Puunene Athletic Club, in two straight games.

But although Burns defeated Engle he came a cropper at the hands of Tam by score of 6-2; 6-3 and is thus eliminated from the tournament. Burns had been the favorite with the fans.

The following are results of recent games—

W. A. Baldwin defeated E. C. Melor, 6-0, 6-2; R. D. Reitow defeated Jack Walker, 6-4, 6-1; A. M. Phillips defeated A. K. Jim, 6-3, 4-6, 6-3; E. F. Tam defeated A. McNicoll, 6-2, 6-4; C. Burns defeated Wm. Engle, 6-4, 4-6; E. F. Tam defeated C. Burns, 6-1, 6-3.

Well, 2; umpires, Bento and Enos; time of game, 2 hours 10 min. es.

Former Maui Servicemen To Attend Officers' School

Frank A. Lufkin, L. T. Lyman, Ralph Shaw and P. W. Townsley, all of Lahaina, will leave the latter part of next week for Honolulu where they will enter the army training school which opens at Schofield Barracks on June 5. The school will be in session for but 2 weeks.

Makawao C. E. Society Has Outing At Puunene

Through the courtesy of the Puunene Club directors, sixty young people had a most enjoyable afternoon and evening of fun and frolic at the Puunene swimming tank last Friday. Those included in the recent "carnival company" were the guests of the Christian Endeavorers of the Makawao Union church.

Even before the appointed time, the tennis courts and the swimming pool were occupied with the lively boys and girls bubbling over with pep and energy.

At seven o'clock, a most delicious and bountiful luncheon was served on the lawn. The feast was concluded with ice cream cones.

At nine thirty, the merry crowd very reluctantly gathered from the diving boards, swings, tennis courts and lawn each to take his homeward way. All present voted the evening one of unusual and most enjoyable pleasure.

Electrical apparatus has been invented to close all the windows in a house when rain begins to fall, the first few drops moistening blotting paper putting the mechanism in operation.

In The Churches

Church of the Good Shepherd
 May 30th, Memorial Day
 Holy Communion, at 8 a. m.
 Sunday school at 10 a. m.
 Morning Prayer and Memorial Day sermon, at 11 a. m.
 A cordial invitation to the services of this church extended to all.

Kahului Union Church
 Hugh V. White, Minister.
 Sunday evening Dr. W. A. Tate, of Lahaina, will preach. His subject will be "The Manhood of Jesus." A cordial invitation is extended to all to attend this service and hear Dr. Tate. In case the electric lights fail the church will be lighted by other means.

On the first Sunday in June there will be an evening of music in this church. Instrumental and vocal music will make up the program which will be published next week. It is hoped to gain the cooperation of the community in improving the facilities for church music through this special service.

Wailuku Union Church
 Sunday evening at the Wailuku Union church the sermon subject will be "Is the Bible Infallible?"

CHRISTIAN SCIENCE SERVICE
 will be held in the Town Hall on High street, at 11 o'clock Sunday mornings. Sunday School for children up to the age of twenty at 10:15 Sunday mornings. Testimony meetings at 8 o'clock on Wednesday evenings.
 The public is cordially invited.

DR. S. YAMASHIRO
 Vineyard Street, Wailuku, (back of Maui Hotel)
 Office Hours—9 a. m. to 12 m; 7 p. m. to 9 p. m. Sundays—9 a. m. to 12 m.
 Phone—243-A.

Pertinent Paragraphs

A meeting of the Maui principals' club is to be held at the Wailuku school tomorrow morning at 10 o'clock.

Mary Kekal and Violet Wana Kim, two drunken ladies picked up by the police and later released on putting up \$12 cash bail each, forfeited their bail on Monday when their cases were called in the police court.

The Woman's Guild of the Church of the Good Shepherd will meet with Mrs. Ed. Walsh, Puunene, on Tuesday June 1, at 2:30 p. m.

The annual bazaar of the Woman's Guild of the Church of the Good Shepherd will be held this year on Saturday, November 6, at the Territorial Building, Kahului.

A dance is being arranged for next Monday night at the Grand Hotel in honor of the members of the Honolulu Trail and Mountain Club, who will return on Monday afternoon from making the ascent of Paia. The Maui public is invited.

An elaborate dance is being arranged to be held on Saturday evening.

July 3, at the territorial building, Kahului. It will be under the auspices of the Maui Woman's club.

The next meeting of the Maui Woman's club will be held a week from next Monday, June 7.

A year old child of Mr. and Mrs. Tashiro Hongo, of Kahului, died last Sunday some hours after it had swallowed a quantity of kerosene oil. The baby found a bottle containing a quantity of the oil and drank some of it while its mother was out of the house. Medical aid was summoned but was of no avail.

The medical association of Maui will meet on June 3 at 7:30 with Dr. Osmer. A paper will be read by Dr. Webb and a case demonstrated by Dr. Osmer.

Aloha Lodge, No. 3, Knights of Pythias, will hold its regular session this evening for work in the 3rd degree.

The Ho-Aloha club will meet at the Paia Community House, Friday afternoon of next week, June 4, at 3 o'clock. All Maui women are given a cordial invitation to attend and have a cup of tea. A special program has been arranged and a good time for all is promised.

Since 4th of July falls on Sunday this year, Monday, the 5th will be the official holiday.

Honokohau School May Win W. Maui Garden Prize

The Honokohau school, at Honolulu, is likely to get the first prize in the Star-Bulletin garden contest for the west Maui section, according to members of the judges' committee which

paid their second visit to the garden last week. The only school that may beat Honokohau is Kahakuloa, which, owing to its inaccessibility has not been visited.

The judges who visited the schools in the district last week were—W. O. Aiken, F. B. Cameron and F. G. Krauss. L. L. Summers, vocational instructor, accompanied the party.

THEATERS

Wallace Reid

The picture is packed full of breezy comedy and surprises. Wallace Reid is the star, and the film is called "Double Speed." It has a lot to do with speeding autos and pretty girls.

Handsome Wallie is "Speed" Carr, who on the way to the west coast from New York is robbed of his car and his funds and arrives at his destination resembling a hobo. Wallace soon becomes chauffeur for a beautiful lady and marries her.

William Farnum

How many men behind prison bars were placed there by the blindness of Justice? Thousands, perhaps—hundreds, without doubt. This is a point of acute interest in "For Freedom," the new William Farnum de luxe production—supplemented by the question of a convict's right to fight in defense of his country in time of war.

Here are two big issues, upon which is hung, in "For Freedom," a story of self-sacrifice and suffering, of wrongs routed and right triumphant, which grips the heart from start to finish.

Rex Beach

That acts of kindness to a criminal, no matter how black his past has been will make him see the light leading to a full redemption is revealed in Rex Beach's true-to-life "Laughing Bill Hyde."

Penologists are agreed that kind treatment will bring to the surface the good in every man, just as it did with Bill Hyde. After eluding a posse Bill and Dan who had made their escape together work their way along high ground outside the town, when suddenly the loose gravel gives way and Dan pitches into the gulch. Bill reaches his pal and finds him badly hurt. But Bill lifts Dan on his

shoulder and goes to the town in search of a doctor.

Bill finds one and asks him to help Dan. The physician notices their prison clothes and tells Bill he knows they are escaped convicts but he will do what he can for Dan. Then follows a delightful romance.

"The Great Romance"

The story is laid in a mythical principality to which a young American falls heir. With his free and democratic bringing up the ideal of ruling by inheritance does not appeal to him—the pomp and glory of being a monarch does not seem as attractive as being just a free, red-blooded young American in the land he loves. He about decides to decline the throne with thanks when he finds that the girl he loves is involved in a deep intrigue in this very country—she has been taken there by a scheming mother who hopes to marry her to an impoverished member of the royal family. Determining to rescue her he sets off for this remote corner of Europe and encounters many strange and dramatic adventures.

Douglas MacLean

Doris May and Douglas MacLean are the attraction in a screen version of the stage play "What's Your Husband Doing?" The picture is a rollicking comedy about young husbands and wives and a grand mixup at a lively roadhouse.

Miss May has the role of Beatrice Ridley, newly married and suspicious of the notes which her husband gets every morning from "Honeysuckle Inn." She consults Douglas MacLean, in the role of John Widgast, a lawyer, and they resolve to investigate. In the meantime the wives of Widgast and Pidgeon, his partner, have become jealous of the divorce business which their spouses find necessary to talk over with pretty co-respondents and other designing creatures.

Matters are cleared up one morning in a police court in a most amusing fashion.—Adv.

Big Mountain Party To Arrive Tomorrow

Sixty Trail & Mountain Club Members Coming On Claudine—Will Ride And Hike To Summit—Will Overflow Rest House.

With the possible exception of Alexander Hume Ford's astounding through-the-crater party of several years ago, the Honolulu Trail and Mountain Club excursion will probably be the largest party ever to make the ascent of Haleakala at one time. The crowd will total about 60, according to latest estimates, and will arrive by the Claudine tomorrow morning.

W. O. Aiken, of the chamber of commerce promotion committee went to Honolulu last week to learn the plans of the club and to advise them. He came back the first of this week and has been busy since in trying to round up enough horses and in arranging accommodations at the rest house to take care of as best may be, of about three times the number that the place was intended to normally accommodate.

W. H. Field, manager of the Maui Hotel Co., was also in Honolulu last week and made arrangements for caring for the crowd to and from the mountain and for providing "cats."

How Trip Is Scheduled

Following are late instructions sent out on Tuesday to the members who will make the trip by E. Fullard-Leo, head of the organization:

Dear Member:
I hope you do not think our trip to Haleakala will be made on the Cook's Tour system. This is a mountaineering club; so make up your mind to be a real mountaineer and we'll all be happy.

If all goes well, fifty-five will leave here on the Claudine on Friday, and five will join us on Maui for the trip up the hill. For your information I submit a program, and for my happiness and the success of the party I trust you will follow it as closely as possible:

Friday, May 28th—4 P. M.
Report at Club lanai to receive ticket, camp equipment (spoon, fork, knife, plate and cup) and canteen (if you have none).
4:30 march to Inter-Island Pier.
5:00 sail.

Saturday, daybreak, arrive Kahului.
6:00 A. M. land ready for hiking.
6:30 leave in autos for Grand Hotel, Wailuku.

7:00 breakfast and check baggage.
8:00 receive individual lunch and board autos for Olinda.
11:30 Cavalry and Infantry start for top (please keep together).
5:30 P. M. reach rest house. Dinner will follow as soon as possible.
Sunday—Out early to see sun rise.
6:30 breakfast.
8:00 descent into crater (take lunch and water).
4:00 P. M. return.
5:00 dinner.

Monday—See sun rise.
6:00 breakfast.
7:30 start for Olinda.
1:00 P. M. lunch, Grand Hotel, Wailuku.
2:00 to 5:30—Showers, change to

light duds, sleep, picture show, athletics, walk up Iao Valley.
6:00 P. M. dinner.
7:30 to 11:00 to kill time, entertainment or dancing.

11:30 board autos for Lahaina. "Mauna Kea" sails 1 A. M.

Tuesday—
7:00 A. M. arrive Honolulu. Hope you'll feel like work, but please don't telephone to me anywhere until Wednesday noon.

Tickets will be handed you at roll call, Club lanai, Friday 4:15 P. M.

Clothing—Dress as you like leaving here, but on landing at Kahului at 6:30 A. M. be prepared for the hike. If possible wear a warm union suit, trousers or riding skirt, warm shirt, sweater or short coat, hat with wide brim, gloves or gauntlets, pair of dark glasses if handy, stout shoes and heavy socks or stockings. Have ready in your bandana to take up the hill with you—a towel, comb, toothbrush, face grease (apply this freely on lips when half way up) soap, and a light weight kimono, preferably of dark color. Where two or more friends are together, minimize weight by splitting use of articles.

Blankets are provided, but to insure a sufficient supply, every member on horseback is requested to take a rug of some sort.

Meals are provided by the Club, on boat, at hotel, and cooked and served at Rest House. Nothing fancy, but you won't starve.

Baggage—Any clothing other than what you wear pack in parcel sharing with one or more friends in small suit case, tag with your name, address and name of club and deliver to club headquarters by noon of Friday, to make up one large club consignment to boat. Recommended—a change of light shoes, light undershirt, light waist and skirt, gingham dress, crepes and fancy things would be considered bad taste.

Philosophically yours,
E. FULLARD-LEO.

Paia Man Falls From Train Has Arm Broken

John Andrade, a tractor helper working for the Maui Agricultural Co., was seriously injured on Monday when he jumped from a moving train at Paia and fell. A car hit him and he narrowly escaped being dragged under the wheels. As it was he sustained a broken arm and a badly bruised leg.

He is in the Paia hospital and will be laid up for probably 2 months or more.

Chester Rowell, of Fresno, Cal., a prominent newspaper owner and politician of California, arrived in Honolulu on Tuesday by the Matsonia. During his stay in the Islands Mr. Rowell will visit Arthur Arlett, the well-known Californian who is undergoing treatment at the Kula Sanitarium.

HIGH FINANCE AND ELECTRIC COMPANIES

We are using a good deal of space in this issue in publishing a letter from Robert E. Bond, president of the Island Electric Co., because the subject matter of that letter is a very live issue in Maui just at present. Also for the reason that the letter is of no more importance or interest to the editor of this paper, to whom it is addressed, than to any one of the several hundred residents of Wailuku and Kahului who are victims of the Island Electric Company's frailties.

We do not intend to comment upon the different points touched upon by Mr. Bond. Most of his arguments and conclusions are not new to Maui people. Nor are his fallacies and misconceptions new or any less apparent.

He, as usual, does not appear to suspect that the lack of support he complains of may just possibly be due to some of his own natural peculiarities.

And while some parts of his letter seem calculated to arouse sympathy for a man who has carried on for 8 or 9 years a fight against heavy odds, and for that man's family, in whom he has vested most of the title to the property for which he struggled, still it must also be remembered that for all this length of time the public has been helpless; forced to pay an outrageous price for a service that has almost from the first been inefficient in the extreme.

The community, which presumably should have something to say about what it pays for, in this case apparently has had no rights at all; and Mr. Bond strongly hints that it even now has no right to get up on its hind legs and assert itself under the goading it has been getting. He suggests that it has been guilty of conspiracy!

And this is the real fallacy in Mr. Bond's reasoning. The thing which probably has in the past and which will defeat him now in his plans, is the idea that a public utility is some kind of a gold mine for its owners. Mr. Bond is about fifty years behind the times. Time was when a public utility franchise was a license to bleed a helpless community. That day is no more. Hawaii may be a little behind but it is nearly enough up with the procession to make it absolutely ridiculous for Mr. Bond to compare the dividends of an industrial corporation like the Hawaiian Commercial & Sugar Co., with those of the Island Electric. He perhaps may properly use the Hawaiian Electric as a criterion, but it must be remembered that the value of any such public utility lies not in the big dividends it pays but like a bank, in the money represented in its property and in its permanence and stability as an asset.

There is little doubt that some day there will be a big electric company on Maui, and it is also true that those who own it will have a very high grade of investment because it will be practically guaranteed by the public it serves. But it is also true that that same public which makes for such soundness will never long submit to being bled at a rate that will pay 33 percent dividends which some of Mr. Bond's literature suggests is possible. And the public will hold the whip hand.

Any man who contemplates putting his money into an electric company on Maui has a right to expect only two things—first, making a sound investment that will return a moderate interest rate; and second helping boost his community as any good citizen should be glad to do.

THE MEASURE OF A SCHOOL TEACHER

A lot of school teachers in Honolulu and perhaps elsewhere are making much noise over the decision of the school department to add 30 minutes to the school day. We'll say we are disappointed.

If the average woman isn't able to spend 25 hours a week in the school room there is certainly something radically wrong with present day methods of instruction. Teachers used to take it as a matter of course that they should teach for 6 hours a day.

We know all about the argument of having to come half an hour before school opens, and of the mass of work that has to be done in the evening, and our opinion still holds—that something is wrong with the term that balks.

Granted the nerve-strain and all the rest of it, it is hard to believe that the thousands and thousands of women who work at other occupations from 8 to 10 hours a day instead of half that number, and for 6 days a week instead of 5; and for 12 months in a year instead of 9, have all the best of it.

The truth is that school hours have always been short—not out of consideration for the teachers, but for the children; and for the further reason originally that the children were needed at home to do the chores. But the modern idea is inclining to the belief that neither of these reasons are well founded and that instead, the child should thrive on proper education every hour he is awake.

The Maui News believes, and has steadily contended, that the salary should be paid on so high a scale that a big lot of the present teachers would have to buck up a lot to hold their jobs in competition with the new ones. The letter brains that these high salaries would certainly attract from other fields. It believes that our national schools are woefully supported, and that the very safety of our nation is menaced by this lack of support. We believe that more money spent on education—which is real American—would require less money to be spent in big armies and navies; because intelligence in a nation is a safeguard in itself.

There isn't a doubt in the world that teachers are imposed upon by some burdensome regulations. It is a dead sure thing that they get the worst of it when they are expected to teach classes that are double or more the size they should be. It is true that equipment is too often insufficient and inadequate so that a teacher's work is made harder hereby.

But none of these things are good grounds for shorter hours. They should be inspiration for real, concerted, intelligent effort on the part of the teachers for the bettering of these conditions and not for mere complaints and fault finding. The real teacher will not be carping about the length of the school day, or be found trying to measure their teaching by the size of their salary warrant.

FOR THE GOOD OF MAUI

The Boy Scouts of Maui are to hold a whirl-wind drive for funds to make up their budget of \$2000. This was decided upon by the executive committee of the Maui council at a meeting held last Tuesday afternoon. The drive is to start next Tuesday and will be in the hands of the Scouts themselves.

The Boy Scout work on Maui is something that deserves the whole-hearted support of every person, because everybody is, directly or indirectly getting something from the movement. It is making better boys and is making Maui a better place in which to live. Think of this when a Boy Scout asks you for a contribution—and then dig up liberally.

Of course the tourist who happens along just now will be hard to convince that the present spell of hot weather is very unusual. But the truth is the kamaainas are probably suffering from the heat more than the newcomers are.

FRIENDS OF THE HAWAIIANS

Hawaiians, who of course are as much American citizens as though they had been born in Boston, ought to be highly gratified with Senator John Wise and others who have apparently firmly fixed their status in an entirely different light in the minds of the people of the mainland. "A benevolent policy has been particularly true of our attitude towards the American Indians and the Hawaiians," is the way Congressman Jared Y. Sanders, of Louisiana, put his conceptions in a speech before Congress a few weeks ago.

"I would like to ask a question as to one thing," said Congressman Monahan, of Wisconsin, of Secretary Lane during a hearing of the House committee on territories on the Wise proposition. "You speak about the Hawaiians not being considered able to grasp our system of government for the reason that they have been a communistic community and had feudalism for centuries, and not being able to grasp the situation as we have another system of government. Have they the same characteristics along that line as the American Indians?"

"Yes, I think it is the same," was Secretary Lane's reply. And the bill passed the House last Saturday without amendment and probably will also pass the Senate and become a law. The next thing we shall expect to hear is of a proposal to shove the Hawaiians off in a corner somewhere known as a reservation, and to have a commissioner appointed to look after them just like is done with the Indians.

Moonshine whiskey is selling at from \$60 to \$120 per gallon on the mainland, Secretary of the Treasury Houston reports. The Secretary's long arm evidently doesn't reach to Hawaii because booze here has advanced only about normally with the rest of the high cost of living. The Islands still maintain their reputation as the cheapest place to live in the United States.

It is no more than good common sense to buy from Mr. Merchants whenever possible. You wouldn't be able to get along without them and it is scarcely fair to use them simply as a convenience.

Its coming! The mud batteries have found Superintendent MacCaughy's range. Wonder if he'll be buried by the storm as have been all his predecessors?

Better take your coal oil lamps—hously—it looks like a long dark spell.

Don't forget to display your Flag on Sunday—Memorial Day.

OPEN FORUM

DR. GOODHUE FOR WOMAN SUFFRAGE
 Editor Maui News

Dear Sir: In regard to your editorial note in the NEWS of May 14th, referring to myself and woman suffrage on Molokai, it appears to be the "irony of fate" that mere statement of unfavorable fact as to an actual condition, is so often taken to mean adverse criticism.

Mr. Roosevelt was accused of pro-Germianism once by some one because he said the American people were asleep, lethargic, indifferent to the real issues of the War!

My interest in woman suffrage began years ago, and I assisted my old friend Bob Burdette in his personal campaign, as I happened to be on his doorstep at Los Angeles the day the California vote was taken.

My defense of the rights of woman and their suffrage may be found in a 55-page booklet—two editions of which were published in the United States and England: "Letters of Junius Commodius Brutus, 2nd. ed. Sept. 1913."

My reference to suffrage on Molokai at all was only to nail a fact to the

board; a well granted one all over, that Women (as well as men) are too indifferent to their political privileges—or possible rights.

I don't remember "intimating" that "all the suffrage talk comes from but a few women with unusually active tongues and strong lung power," but if I did do so, I referred only to the restatement that Molokai was all enthusiasm over suffrage, and not to the matter of suffrage itself.

In Honolulu I am told that those most prominent in outside politics are not the most representative women there, and it may well be. Perhaps the others do not have time to canvass. What with home duties and children, their time is taken. But even so, they have a great work at home in inculcating principles which they can so splendidly do.

Perhaps some of you may remember that at the territorial republican convention, a few years ago, Rev. Mr. Desha and myself were the members of the committee to draft a platform, who approved of and got up to defend, the woman suffrage provision of the final draft.

I trust you will do the justice to publish this letter.

Pukoo, Molokai, May 19, 1920.
 E. S. GOODHUE.

House Has Passed Wise's Hawaiian Rehabilitation Act

WASHINGTON, May 23—The Hawaiian homestead bill introduced by Delegate Kalaniana'ole, providing for the reserving of approximately 200,000 acres of land in the Hawaiian Islands for homestead sites was passed by the house of representatives yesterday

without amendment. The vote was 244 in the affirmative to 14 in the negative.

Under terms of the measure the homestead lands would be available only to members of the Hawaiian race. The Hawaiian legislature urged action by congress and sent a delegation headed by Governor McCarthy to Washington toward this end. Supporters of the homestead measure expect to prove of importance in rehabilitating the Hawaiian race, which, they say, is fast dying out.

DELCO-LIGHT

Electricity For Every Farm

Hugh Clarke, Maquoketa, Iowa, says: "The help to the women folks alone is worth the price of Delco-Light." Also, "Electric lights in the barn are the finest thing in the world for tending the sick stock at night."

DELCO-LIGHT is more than a mere lighting plant. It gives you electric power too,—for operating all of the light machinery around the house and barn, usually turned by hand. It will pump and deliver water to all parts of the house or barn.

Bond Still Talks Of Big Dividends

Compares Island Electric With H. C. & S. Co.—Would Sell Control To Community And Talks Profits Instead Of Service First.

The following letter from Robert E. Bond, president of the Island Electric Co., Ltd., was received by the editor of the Maui News the first of this week. As it deals exclusively with a very live community subject, and presents very clearly Mr. Bond's ideas it is published in full together with a circular letter which, Mr. Bond indicates, was used in an effort to sell stock of the local corporation on the Coast:

2407 Bowditch Street,
Berkeley, California,
May 14th, 1920.

Mr. Will J. Cooper,
Wailuku, Maui, T. H.

My dear Mr. Cooper:

Literally scores of people, both here and in Hawaii, thoroughly conversant with all the inside facts in the history of the Island Electric Company, know from their own experience and investigations that editorials and other articles appearing recently in your newspaper have gone far astray from the paths of justice, equity and truth.

It is generally known in financial circles here, as well as in Hawaii, that the Island Electric Company has for years endeavored to interest additional capital, in order to meet the needs of the people of Maui for electricity; that it has repeatedly been on the point of success, almost to the very hour of signing the necessary papers, only to have the capital frightened, or intimidated, by seemingly hidden forces; that other financial men and attorneys have volunteered to discover and have through their banking and other channels secured written evidence to prove, just who was so assiduously endeavoring to prevent the company from raising the capital; and that, in spite of such mistaken steps of opposition, it has recently obtained strong financial backing, at last. There is also much written and other evidence to prove that I have repeatedly in the past six years earnestly endeavored to place the trusteeship and control of the company in the hands of such men as Frank Baldwin, or trust company or banking officials, under whose guardianship and guidance the company could easily have been financed and brought to its utmost usefulness and to a prosperity satisfactory to all. Your own March advertising columns contain additional evidence of this desire that the shares and preponderance of profits of the company be owned by the consumers and other residents of Maui; but you editorially brush aside this effort at cooperation, as also in fact do those who proclaim themselves ready with capital for this business.

It has been pointed out to me that in addition to all this accumulated evidence of right motives understood, the press and certain of the people of Maui have now become so bold as to declare themselves openly to be conspiring with intent to destroy, and to incite others to destroy, the property of people who include many Maui residents by methods amounting virtually to mob action and lynch law in business.

It is not my desire, to take any advantage of a misstep, other than to correct the false concepts uncovered in your columns, and to disprove them to your own satisfaction by works, rather than by words. The files of Maui men contain much evidence that my keenest desire is that the electric public service on Maui be perfected. I am equally desirous that nothing shall occur now on the part of anyone there or here, which must later be regretted by the perpetrators, or their children or grandchildren. There must be peace of conscience for everyone, when this problem is presently solved.

We here, are all fully aware and deeply regret that the sufferings, by whomsoever imposed, or self-imposed, among the people of Maui, have been grievous through the delay in the arrival of adequate additions to the plant. How could anyone, whether shareholder or consumer, feel otherwise? But there are those who understand what obstacles have had to be overcome.

To make the long experiment and to demonstrate, against undeniable skepticism, heavy odds and increasingly aggressive activities from the start, that central Maui has great possibilities for an electric light and power company,—has cost the electric company's originators the sacrifice of shares of Hawaiian Commercial & Sugar Company, Pioneer Mill Company, Onomea Sugar Company, and other companies, which, if retained and never converted to risk in the

electric enterprise, would, today, be worth well over \$100,000.00,—and the further sacrifice of increasingly valuable Honolulu realty, besides some \$25,000 of borrowed money and the investment of some \$50,000.00 of the little individual savings of about 180 comparatively poor people, a great many of them on Maui, every cent of which must presently be made good to them through the now perfectly possible immediate success of the electric enterprise.

Therefore, the responsibility for making good the money of these Island Investment Company shareholders on Maui and elsewhere is now placed squarely on those who have proclaimed themselves able and eager to add their ample capital to that already invested in the enterprise, and who have recently assumed unto themselves the responsibility of perfecting the electric service, but who mistakenly think they must first wreck the fortunes and sacred property rights of these many original Maui shareholders and those others who have, if the truth were known, dedicated their all and over eight years of mental and physical anguish to vindicating their faith in the electrical possibilities as well as in the inherent fairness and good sportsmanship of the people of Maui.

Copy, herewith, of a letter mailed out in April by a San Francisco broker to his friends, gives a very fair and accurate statement of facts. It was written before a word was received here of the activities described in your newspaper. With this letter and your newspapers before me, I have sought to study the facts from a moral viewpoint as high as you would choose for yourself, were our positions reversed, and with only the kindest of feelings and motives. In the light of such wisdom as I have thus far been able to apprehend, there has come to me the idea that no loss can occur, eventually, to any holder of stock either in the Island Investment Company, or in the Island Electric Company, if say \$40,000.00, or complete control, of the \$67,000.00 common voting stock of the Island Electric Company be sold at par to the Maui consumers, and the entire remaining \$27,000.00 of common stock be donated to the treasury of the Island Electric Company to be re-sold (also to the Maui consumers) for the benefit of the Company's treasury, at par. This would enable the Island Investment Company to liquidate all its indebtedness (\$7,000 to \$8,000 of which is owing to the electric company) and thus would further swell the cash of the electric company, itself, to nearly \$40,000,—available for investment in the third and much larger Diesel power plant now being negotiated for; the second being payable in easy installments out of depreciation reserves as earned.

The resulting financial condition of the electric company would thereupon be approximately as follows:

ASSETS	
Present physical properties at greatly depreciated (not replacement) values	\$ 36,000.00
Equity in No. 2 Diesel plant arriving in Maui about June 5th, 1920	9,250.00
Deferred assets (balance due on No. 2 Diesel contract, to offset Contracts Payable given below among liabilities)	18,000.00
Cash	37,000.00
Accounts Receivable	4,500.00
Merchandise and other inventories	2,700.00
Franchise, Commissions and Discounts, and Going Concern Costs	57,000.00
Total	\$164,450.00
LIABILITIES	
Bond Issue	\$ 24,300.00
Capital Stock	98,500.00
Accounts and Contracts Payable	20,000.00
Meter Deposits	1,900.00
Paid-in Surplus and Undivided Profits	19,750.00
Total	\$164,450.00

As the result of a long and costly experiment of proving Maui, to be a proper field for the investment originally of what were, and still are, trust funds in an electric public utility, it has been demonstrated at least, that at the extremely reasonable rate given in the broker's letter above mentioned, a very handsome return would be earned on this amount of capital stock, rapidly recovering the money spent in the experiment and yielding typical Hawaiian profits and dividends to the shareholders. Thus, through an advance in the value of its remaining shares of electric stock, the Island Investment Company shareholders might eventually recover the lost incurred in donating the stock as a paid-in surplus to the treasury as above described.

On the present stock market, H. C. & S. Co., property, partly by virtue of its earning power, is valued at over \$30,000,000.00; but everyone knows that the original shareholders actually invested only \$2,318,750.00.

The original shareholders of the Hawaiian Electric Company of Honolulu invested only \$500,000.00 at most, probably considerably less but the stock market value of its property is about \$3,000,000, is I am misinformed.

It took time, money, risk and much hard work and personal sacrifice to demonstrate the earning power now enjoyed by all these companies. Does anyone suggest that any but the Island Electric Company be forced to sell at the physical values only, and of eight years ago, less depreciation?

I note that you repeatedly refer to the ownership of the Island Electric Company as being mine, personally. It is only fair to tell you that my interests are very slight, having been purchased some three years ago for cash, and a few more preferred shares having been left me in my father's will; but the bulk of the ownership rests in the Island Investment Company, of course, and the greater part of the shares of the Island Investment Company is held by trustees under a trust created for my father's estate originally in 1909 or 1910, the sole beneficiaries of which at present are my mother and upon her demise, my sister and her two children and my wife and three children, all of whom may easily be placed at any moment in a position of utter dependence upon the success of the Island Investment Company for their support.

If I do not arrive in Maui the week following your receipt of this, I will probably come a week after that, on the same boat with the second Diesel power plant, due in Maui on or about June 5th; and if prevented from coming that soon, I ought surely to get there with, if not before, the big third Diesel plant.

Mr. Cooper, I am convinced that in reality you desire only good, only justice and fair play, and that as the truth dawns on the sight of all of us, we shall find that there have always been present in this undertaking only the elements of good, howsoever obscured by the clouds of a material sense of things.

Very sincerely yours,
ROBERT E. BOND.

April 15, 1920

Dear

As you are well aware, conditions in the Territory of Hawaii are very prosperous, sugar growing and manufacturing, which is the principal industry of the Islands, never before

having reached its present high mark; with more land being cultivated for cane production and factories improving their facilities. Canning plants for pineapples and other fruits are also operating to capacity. In fact the industry of this Territory is far in advance of the power and lighting facilities now available, and there is a great need for expansion in this line. This is especially true of the Island of Maui.

I am offering, subject to prior sale, 4750 shares of the Preferred Stock of the Island Electric Company, Ltd., of Wailuku, Maui, T. H., of the par value of \$20.00 per share; the owners of which, having obligations to meet, have instructed me to dispose of a portion of their holdings. This provides an opportunity for my clientele to repeat the successes of other pioneer investors in Hawaiian corporations and to participate increasingly in the long standing prosperity of this Territory.

The Island Electric Company, Ltd., is operating under a franchise granted by the United States Government to supply electric light and power on this Island. It started business on November 21st, 1911, and has an authorized capital of \$200,000, of which \$100,000 is Preferred and \$100,000 is Common Stock. Of the latter, however, only \$67,000 is outstanding. All of the outstanding stock is fully paid-up and non-assessable. There is also a small bonded indebtedness of \$24,300.

The Company started to generate electric power with a steam plant, but business increased so quickly that within a short time it was compelled to install a Diesel-electric power plant and the demand still continuing, another and larger engine of this type had to be added and is now on its way to Maui. However, to take care of the business, a third Diesel power plant should be added. In a letter dated Wailuku, Maui, T. H., March 30th, 1920, written by Mr. C. D. Lufkin, Vice-President and Manager of the Bank of Maui, Ltd., (of which Mr. C. H. Cooke is President), addressed to Mr. A. C. Wyckoff, Vice-President of the American Vineyards Co., of San Francisco, who is one of the bond holders of the Island Electric Company, Ltd., and who was corresponding with this bank, about

Former Molokai Girl Is Wed In Honolulu

Miss Alberta Meyer, daughter of Mr. and Mrs. Otto Meyer of Molokai, and E. O. Janistchke were married at the bride's home, 1646 South King street, at 8 o'clock last Saturday evening. Miss Meyer was a former yeomanette and is at present employed in a clerical position at Pearl Harbor, where Mr. Janistchke is also employed as a radio draftsman. The newlyweds are on Molokai on their honeymoon trip.

Japanese Forming New Maui Fishing Company

Articles of association of the Maui Fishing Co., Ltd., have been filed with the territorial treasurer. The new concern, organized by Japanese, is capitalized at \$15,000, the right being reserved to increase this amount to \$50,000. Later they expect to take the next transport for San Francisco on a visit to Chicago.

Fresh milk in Honolulu may soon be 18 or 19 cents a quart instead of 16 cents, the present price, according to R. P. Faithfull, manager of the Honolulu Dairymen's association.

A special session of the territorial legislature will be held the latter part of the year, probably in November, it has been announced by Governor Charles J. McCarthy. "It was my intention to call an extra session of the legislature between April and July of this year," says the Governor, "but several obstacles to this have arisen which make it absolutely impossible for me to call an extra session during the period. However, I deem it absolutely necessary to call a special session of the legislature before the end of this calendar year."

Rev. Doremus Scudder, D. D., former pastor of the Central Union church and recently executive secretary of the Hawaiian Mission Centennial, has been invited to be professor of missions of the Pacific School of Religion for the coming year according to news received in Honolulu yesterday. Whether Dr. Scudder has accepted or not is not known. He stated before leaving for the coast recently, that he would prefer to go into educational work than return to the pulpit.

Citizenship rules for the normal school were yesterday afternoon approved by Attorney General Harry Irwin and Governor Charles J. McCarthy. One rule provides that aliens applying for admission to the normal school shall file a pledge that they will after attaining their majority, declare intention to become American citizens, denying allegiance to any foreign government. Such as have reached majority, must file a declaration of election of American citizenship.

Governor To Hilo — Governor Charles J. McCarthy, as the guest of the Matson Navigation Company, was to go to Hilo on Thursday, aboard the Matsonia, returning next Sunday morning. Matters of Hilo harbor improvement are to be considered.

Mrs. Helen Kinney Dead — Mrs. Helen Kalolowahilani Kinney, wife of Henry Walsworth Kinney, formerly superintendent of public instruction, died at the Queen's hospital, Honolulu early last Monday morning from pneumonia following typhoid fever. She was 43 years of age and of prominent Hawaiian lineage. The funeral took place on Tuesday afternoon from St. Andrew's cathedral. Besides her husband Mrs. Kinney is survived by 3 children. Mr. Kinney is at present in Japan where he went some time ago to take an editorial position.

Train Robber Sentenced — Kaimioli Hall, charged with robbery in the first degree, it being alleged that he took \$100 from a plantation pay train has been convicted of robbery in second degree by a jury on Kauai and sentenced to serve not less than 3 nor more than 20 years at hard labor.

Capt. James Rasmussen, well known on Maui as skipper of various Matson vessels, most recently the Lurline, has taken the job of port superintendent of the company in Honolulu, succeeding Capt. J. N. Peterson, who draws his shore berth on the coast. Capt. Rasmussen's family arrived on the coast last week.

Hilo Post Opposes Bill — Honolulu Post No. 1, American Legion, has taken the same course as the Maui Post did two weeks ago, when it opposed the so-called Hawaiian rehabilitation land bill was not a matter in which the Legion should take sides.

College of Hawaii Commencement — Handsomely engraved invitations have been issued for the ninth commencement of the College of Hawaii which will be held at the college in Manoa Valley, Monday, May 31, at 4 p. m. It is expected that Governor Charles J. McCarthy will deliver the principal address.

One Year For "Moke" — Plunging in the stock market with money that belonged to the Honolulu circuit court, means a year in prison for John Moses Pua, known to his friends as "Moke", formerly court messenger. He was sentenced yesterday by Judge John T. De Bolt. Moke has a wife and four children.

Novel Sale In Hilo — Two automobiles, confiscated by the government under provisions of the national prohibition act, were sold at auction in Hilo on Thursday, one bringing \$460 and the other \$575. Deputy U. S.

Marshal Otto F. Heine, who returned to Honolulu on the Mauna Kea yesterday, conducted the first sale of its kind ever held in the territory.

Foodstuffs Destroyed — Federal Food Analyst M. B. Bairo destroyed a ton of spoiled foodstuffs in Hilo during last week, including a great deal of salt salmon, pork and beans and tomato paste. Several large cases of aku have been condemned.

SCHOOL NOTES

SOME PLAYERS FOOT SPORTS Paukohi, Lahaina, Maui, T. H. May 20, 1920.

Editor Maui News, Dear Sir: We have a volley ball in our school. We have organized teams. We have four teams in our room. Each team has a captain. When the poor team plays against a good team the players of the poor team begin to sulk and they do not play as well. We do not want to sulk or get angry because we will lose. We want to win. We won one game. We were very happy.

Yours truly, TSURUKU ISHIGUCHI.

Tobacco will be raised on an estate purchased by the British Ministry of Agriculture to demonstrate the possibilities of developing poor health lands.

Molokai News Notes

Scores for the Star-Bulletin school and Home garden contest have been sent in and the decisions will be made about May 25.

Wailua, Kalunaha, Kamalo and Kalae schools competed and about 15 children. There was considerable enthusiasm shown and some of the gardens are excellent.

Judge McCarrison held court at Pukoo last week.

Eddie Duvachelle will be captain of Geo. Cooke's new boat soon to be placed on the run between Honolulu and Molokai.

Dr. W. J. Goodhue of Kalaupapa who has been at the Queen's Hospital for some time, is convalescing and will return to Molokai next week. There were ten or twelve medical consultants in his case. He has been advised to take a year's vacation.

Molokai is to have a new hotel located at Pukoo.

Jim Crane went to Honolulu, May 13.

Miss Bishaw, the district nurse for Molokai, returned to her duties on the 11.

Dr. Goodhue, resident physician at Pukoo, left for Honolulu on Friday to be operated on for cancer, not being able to leave before on account of flu epidemic.

Mr. Rice of Honolulu has been a guest at Maunakulawai for a few days.

Recent patents cover a wheelbarrow with a tray that is tilted upward and forwarded by a triple jointed rod to dump its contents and returned to its place by a spring operated winding drum.

Engagement of Miss Eileen Walsh Announced

Announcements of the engagement of Miss Eileen Walsh, daughter of Mr. and Mrs. John J. Walsh, of Kahului, to Mr. Ralph F. Shaw, were received by Maui friends the first of this week. The cards had been mailed in New York where Miss Walsh and her mother have been visiting for some months. The wedding, it is understood, will occur some time next fall.

To many of Miss Walsh's friends the announcement of her engagement comes as a surprise, and to all it is a matter of very pleasant interest. The pleasure will be the greater when it is known that the popular bride-to-be is not to leave Maui, her fiancé being an employee of the Pioneer Mill Co. of Lahaina.

A pretty little romance attaches to the betrothal. Mr. Shaw came to the Islands for the first time last fall as a traveling salesman for a California concern. He is a recent graduate of the Oregon College of Agriculture, and as he happened to be on Maui at the time of the Maui county fair he was pressed into service as a judge of some of the agricultural exhibits. During the course of the fair he met Miss Walsh, and in a very brief time he had decided that he liked Maui so well that he resigned his mainland position and accepted one with the Lahaina sugar concern. During the war Mr. Shaw served as a lieutenant of field artillery and was stationed in the eastern part of the United States awaiting to be sent overseas when the hostilities ended.

Miss Walsh and her mother are at present visiting friends in Portland, Ore. They are booked for their return by the next Wilhelmina, due to arrive in Honolulu on June 16.

A CHILDREN'S PARTY

The children who took part so faithfully in the amateur minstrel show given a few weeks ago under the auspices of the Wailuku Ladies' Aid society, were the guests of the organization from 2:30 to 5 o'clock last Saturday afternoon. The affair was a lawn party at Waikapu and the 15 girl guests had a most delightful time. A number of games were played under the direction of Mrs. Weight and Miss Wilcox. During the afternoon sherbert and punch were served.

A BIRTHDAY BRIDGE SURPRISE

As a surprise to her husband, whose birthday it was, Mrs. Charles Savage entertained with 9 tables of bridge last Monday evening at the home of Mr. and Mrs. W. H. Engle, on Central avenue. She was assisted by Mrs. Engle and other ladies.

The affair was a most pleasant one. Following several hours of interesting playing, delicious cake and ices were served.

Those present were—Mr. and Mrs. Savage, Mr. and Mrs. Dan. T. Carey, Mr. and Mrs. Will. J. Cooper, Mr. and Mrs. David Wadsworth, Mr. and Mrs. J. H. Trask, Jr., Mr. and Mrs. Alfred Hansen, Mr. and Mrs. Alfred Taylor, Mr. and Mrs. Frank Hoogs, Mr. and Mrs. E. R. Bevins, Mr. and Mrs. William Engle, Mr. and Mrs. Walter Engle, Mr. and Mrs. W. A. Sparks, Mr. and Mrs. G. N. Weight, Mr. and Mrs. James Thomson, Mr. and Mrs. James James Cumming, Mrs. D. W. Chilson, Mrs. O. J. Whitehead, Mr. and Mrs. J. H. Kunewa, Mr. and Mrs. J. H. Pratt.

A BEACH PARTY

Mrs. William Osmer entertained in a most pleasant manner on Wednesday at her Wahee beach house, the members of the Ladies' Aid society of the Wailuku Union church. The party gathered at 10 o'clock and returned to Wailuku late in the afternoon. A most bounteous luncheon was served the guests at the noon hour. The day was devoted to bathing in the surf, cards, and other amusements.

COMMENCEMENT BALL JULY 1

The date for the annual commencement ball to be given by the Maui high school alumnae association, to the graduating class, will be held this year at the Paia Community House, on Thursday, July 1. On this occasion the junior class of the high school will join with the alumnae in acting as hosts. The affair promises to be an unusually delightful one.

MUSIC CLUB MEETS

The Maui Music Club held its monthly meeting yesterday afternoon at the home of Mrs. J. C. Fitzgerald, upper Paia. The hour was devoted to a study of the music of Mrs. Carrie Jacobs Bond.

Dr. and Mrs. Osmer, who have been spending the past several weeks at their beach house at Waikapu, expect to return to town tomorrow.

MAUI DUKE WEEPS AT TOURIST MEETING OVER DEAD MULE

Worth O. Aiken, Duke of Maui, Earl of Haleakala, Baron Olinda, Lord of the Boosters, etc., etc., is sad, also worried.

Yesterday was a tough day for even the buoyant and boasting worth. He admitted it at the Hawaii Tourist Bureau meeting which he attended as member from the Valley Isle.

The sadness was due to the death of a mule. One would have thought Worth loved that mule like a brother from the lugubrious face he showed.

The worry was due to the fact that some 60 Trail and Mountain Clubbers are to visit Haleakala and Worth is expected to take care of them.

There is a limit to the Haleakala rest house and when Aiken heard that there were only 16 men and some 44 fair ladies he got worried right off.

It seems that the blanket supply of Maui was hard hit by the war and hasn't come back to normal yet.

Likewise with some 44 lady hikers in the rest house it looks as if the 16 men would get a good taste of the braising atmosphere of the windswept summit.

Then Worth learned yesterday that the "hikers" wanted about 30 horses. He says that there aren't 30 horses in one place in the Islands except at the 17th Cavalry. And what do "hikers" want of horses.

That's where the mule comes in. Worth shook his head. "Horses," he said. "Why the last crowd that came up borrowed a mule from me for a trip through the crater. Maud has never been the same since that trip. Yesterday she died."

But knowing Worth, the Tourist Bureau members said they predicted that the Trail and Mountaineers would have the mule of their lives on Haleakala at, if they want anything short of the old hill itself Worth will get it for them.

That's the way Worth does things. —Advertiser.

Chock Chong, manager of the Maui Drug Co., was in Honolulu for several days the first of the week on business.

CHILDREN'S BIRTHDAY PARTY

Frankie Burns, the little son of Mr. and Mrs. Caleb Burns, entertained a number of his little friends most pleasantly on Monday afternoon in celebration of his 6th birthday.

TEA FOR A VISITOR

Mrs. R. C. Pitcairn was the pleasant hostess at an informal tea last Friday afternoon, the occasion being in honor of her niece, Miss McMinn, who is her guest.

PERSONAL MENTION

Miss Alma Wilson, of Wailuku, was a passenger to Honolulu last Saturday night.

John Fassoth, manager of the Kipahulu plantation, returned home this week from a business trip to Honolulu.

Mrs. Nils Omsted, of Haiku, was a visitor in Honolulu this week, going down on last Saturday night's Claudine.

W. T. Robinson is back in Wailuku from Honolulu this week. He will return to the city tomorrow or early next week.

A. Lister, superintendent of the new Pauwela cannery, at Kuiaha, went to Honolulu last Monday night on business.

Mr. and Mrs. Milton T. Clark, who have been on Maui for the past week, returned to Honolulu on Wednesday's Claudine.

C. F. Sutton, from Honolulu, has arrived on Maui to take the position of head bookkeeper for the Haiku Fruit & Packing Co.

W. H. Field, of the Maui Hotel Co., returned last Saturday evening from Honolulu where he served on the federal court jury.

J. A. Templeton, of the Pauwela Pineapple Co., returned last Saturday from Honolulu where he spent several days on business.

Jack Bal, son of Mr. and Mrs. W. E. Bal, of Wailuku, has accepted the position of bookkeeper of the Onomea plantation, on Hawaii.

Mr. and Mrs. Will. J. Cooper have moved to their homestead at Kuiaha where they expect to reside for the summer months at least.

Mrs. Enos Vincent and children are spending a week or two in Kula. In the fall Mr. and Mrs. Vincent will go to the Coast for a several months tour.

C. A. Puck, of the Alexander House Settlement, accompanied by Mrs. Puck, will leave tomorrow evening for Hilo where they will spend a short vacation.

Miss Miyos Yoshizawa, a teacher in the Wailuku public school, was operated upon in Malulani hospital on Tuesday of this week for appendicitis, and is recovering nicely.

Mr. and Mrs. E. R. Bevins returned home last Saturday evening from Honolulu where they spend the week. Mr. Bevins on business and Mrs. Bevins consulting an oculist.

Edward L. Caum, pathologist of the sugar planters' experiment station, is on Maui this week on business connected with his department. He is accompanied by his wife and is staying while here at the Wailuku Hotel.

A. B. Braue, of Paia, assistant auditor for the Alexander & Baldwin Co., has accepted a position with the Kaula Railroad Company, and has already gone down to the Garden Island. Mrs. Braue will follow him shortly.

Frank Locey, local manager of the Royal Hawaiian Sales Co., departed again the first of the week for the Coast on a short business trip. Harry Holt is in charge of the business during his absence.

T. A. Brown, manager of the Maui Telephone Co., returned the first of the week from the Paia hospital where he was seriously ill for some time, threatened with pneumonia. He has not yet fully recovered.

Mrs. J. H. Raymond, who departed a few weeks ago with her husband, Dr. Raymond for Washington, returned to Honolulu by the Matsonia last Tuesday. She had not left San Francisco when she received word of the illness of her daughter, Mrs. Robert Smith, who was taken to Honolulu from the Raymond Ranch about two weeks ago. Mrs. Smith is reported to be much better at present.

Puunene Hospital Gets Fine X-Ray Equipment

One of the finest X-ray equipments in the territory is now being installed in the Puunene hospital under the direction of J. T. Warren, manager of the Honolulu Photo Supply Co., who has been here for the past week for that purpose. The outfit represents a cost of some \$5000, and will greatly add to the facilities for medical and surgical diagnoses on Central Maui. A similar equipment is located at the Kula Sanitarium but is difficult of access for much of the county, especially in cases of emergency.

BORN
TING—In the Malulani hospital, Wailuku, Monday, May 10, 1920, to Dr. and Mrs. Joseph Ting, a daughter.
TURNER—In the Malulani hospital, Wailuku, on Monday, May 24, 1920, to Mr. and Mrs. J. E. Turner, a son.

Germany now knows who won the war.—Baltimore American.

MAUI TWENTY YEARS AGO

(From Maui News, May 26, 1900.)

Progressive "42" At Makawao

The home of Mr. and Mrs. Hardy was the scene of a gay gathering of some 12 couples of Makawao's young people on Friday night of last week. A cold stormy night prevented some from getting out. The occasion was a progressive 42 party in honor of Miss Schweizer who is soon to leave Maui for her home on the mainland. The first ladies' prize was won by Miss Kate Watson whose card showed an unbroken series of "flags" and the first gentlemen's prize by Frank Alexander, his series of "Old Glory" being broken by but one diamond. After a dainty supper of ice-cream and cake the party cheerfully wended its way homewardly through the drenching rain.

The following were some of those present, Mr. and Mrs. D. C. Lindsay, Mr. and Mrs. W. S. Nicoll, Mr. and Mrs. W. O. Aiken, Mr. and Mrs. Carley, Misses Simpson, Kate Watson, Mary Fleming, Nellie Crook and Schweizer. Messrs. James Anderson, David Fleming, George U. Baldwin, W. C. Crook, and Charles Baldwin.

An old derelict has drifted on the beach at Kahului—a full length pine tree which was probably washed into the sea by some of the north west rivers. It is not denuded of its bark which is heavily crusted with barnacles showing that it has been a long time in the water.

The Kihel plantation is having a large hospital erected at Camp 3 which soon be ready for occupancy.

Mr. T. B. Lyons has finished grading his lot and is now ready for the lumber to commence building.

Wanted—A public park. Wailuku should at least have one spot which could be utilized as a public park. The government now owns an ideal place and it should be the duty of the city of Wailuku to see that it is devoted to that purpose. The proposed site is the land purchased from the Wailuku plantation for a reservoir site. After the reservoir is completed, there will be enough ground left to lay out a very nice little park. A proposal has been made that the government sell this surplus land to private owners, but it would be much better to convert it into a place of recreation. Then plant it out to grass and set out a number of shade trees and rustic seats. The view from the site is one grand panorama with Iao Valley as a background and a vast expanse of the ocean and Mount Haleakala and Kahului Bay with its shipping for the foreground. Let us have a park.

Doesn't This Sound Natural?

Does the Inter-Island Navigation Company really know that the United States Government has declared Kahului a port of entry? Maalea and Makena have regular steamer service, but Kahului and that part of Maui dependent on the port of Kahului have to depend on the leisurely movements of the Claudine which is supposed to be due at Kahului on Wednesday morning but which really drifts into Kahului whenever the exigencies of ship-towing permit. To ask the passengers who are at present obliged to avail themselves of the Claudine to spend two whole days between Honolulu and Kahului in order that a collier may be towed over, is an outrage on the public which will right itself to the detriment of the inter-island company, if a better service is not given us.

The Honolulu Republican, a daily morning paper is to be started at Honolulu about the 15th of June, with George Manson as business manager and Mr. Edwin S. Gill as editor. Mr. Manson is well-known and favorably to the business men of Honolulu. Mr. Gill also according to his statement in the Bulletin of May 18 is well qualified to conduct the editorial department of the paper. May the enterprise prove a success.

Paul Isenberg came over to Lahaina on Thursday to visit Capt. Ahlborn and incidentally to look after the interests of the Pioneer Sugar Plantation.

PARIS WOMEN REDUCE WEIGHT OF CLOTHING

NEW YORK, May 1—The women of Paris have hit upon a new way of combating the high cost of clothing according to an article written by a Paris correspondent. She says: "It is no exaggeration to state that the majority of society women who attended the Long Champs races probably wore fewer clothes than even the ancient Greeks. There were, indeed, strong visible hints of the Garden of Eden."

All of this was in obedience to the latest mandate of Paris and fashion arbiters, which may be summed up as the "Featherweight" edict.

It is estimated that the average weight of clothes worn by the fashionable beauties in the grandstand did not exceed three ounces, which is declared by the style kings or the Rue de la Paix to be the absolute limit. The weight is apportioned as follows: chemise, one quarter of an ounce; combination, one ounce, stockings, half an ounce; dress one ounce and a quarter.

A LIVING MEMORIAL

to the achievements of a century of Christian Progress is being erected in Hawaii through the

Centennial Fund

More fitting than any shaft of marble or monument of Stone and Mortar is this living, memorial erected though personal sacrifice and individual giving. A school like Maunaloa Seminary adequately supported is the finest kind of memorial to the past. Every citizen of Maui is privileged to have a part in this, to add a stone to the column that is to stand for all time as a token of a grateful people.

The churches are back of this campaign and are heading it up. If the committee in your locality should miss you send your contribution to E. E. Pleasant, Chairman for Maui.
