

## ITALIANS DRIVEN STEADILY BACK BY AUSTRIANS TO INNER FORTS

### ONE MAUNA LOA LAVA FLOW IS NEARING ROAD

North Fork of Three Molten Streams is Only Mile From Highway

### HUNDREDS HURRY TO SCENE OF ACTIVITY

Report Parker Breeding Paddock Destroyed; Cattle are Saved By Cutting Fence

(Star-Bulletin Special by Mutual Wireless)  
HILO, T. H., May 23.—Much fire has been seen during the last few hours above the lava flows on Mauna Loa's slope. The flows are very sluggish and have almost stopped their forward progress, and the government road may not be crossed.

The north fork of the three flows is the most active but is only moving a few feet an hour. It is half a mile wide and now one mile above Honomalina lower house.

It was reported today that the Parker ranch breeding paddock had been destroyed. The cattle at McWayne's were in danger for a time until the fence wires were cut and they were driven away from the flow.

The two south forks appear to be dying out. In their path the koa forest has been destroyed.

The flow has now turned in general direction and is headed toward Kapua.

One hundred autos so far have made the trip from Hilo to the neighborhood of the flows. The lava is now within one mile of the government road and specimens are being gathered by visitors this morning.

Unless there is much activity of the fissure above the point where the lava breaks forth, the flow seems to be stopped.

### BRILLIANT DISPLAY OF LAVA STREAMS VIEWED

That the two south forks of the Mauna Loa lava flow are dying out but that the north fork is very active, is the gist of a radio night message received this morning by the Inter-Island Steam Navigation Company

(Continued on page two)

### First Photos of Mauna Loa's Eruption; Vast Column of Smoke and Steam Shown as Seen From Volcano House

Three photos taken from near the Volcano House at Kilauea are shown above, giving a graphic idea of the mushroom-like column of smoke and steam which last Friday heralded the flow of lava from lower down Mauna Loa's side. The outbreak is on the Kau side of Mauna Loa and partially hidden by the intervening mountains. In the foreground of the photos is the crater of Kilauea. Upper right-hand photo shows Prof. T. A. Jaggar, director of the observatory at Kilauea, and now, with Prof. H. O. Wood, his assistant, closely observing the phenomena of the lava flows. The map shows the peak of Mauna Loa (Island of Hawaii) the location of the outbreak below its summit, and the lava flow, with its three forks. The right-hand fork, according to latest reports, is within a mile of the government road, which is shown by the two close parallel lines. The point of probable contact with the government road near Kahuku ranch is shown, also crater of Kilauea in its relative position with Mauna Loa.

### ARSIERO FORTRESS MAY SOON BE REDUCED; WEST FRONT IS SCENE OF TERRIFIC FIGHTING

CHARGES AND COUNTER-CHARGES ARE FEROCIOUS OVER GROUND SOAKED WITH BLOOD OF FOUR-MONTHS' BATTALING—BRITAIN TO RAISE ANOTHER HUGE SUM FOR WAR—CROP DISASTERS IN RUSSIA AND HUNGARY

(Associated Press Service by Federal Wireless)  
BERLIN, Germany, May 23.—Austrian forces on the Isonzo front are driving the Italians back so steadily and rapidly that some of the outer forts protecting the stronghold of Arsiero are in danger.

The Austrian offensive is continued without cessation. On both sides of the Sugana Valley the Austrians have made advances, driving the Italians before them. They are now continuing to reduce the outer girdle of forts protecting Arsiero.

LONDON, Eng., May 23.—Premier Asquith gave notice today of another huge vote of credit for the purpose of raising war funds. In moving a vote of 300,000,000 pounds in the House of Commons, the premier commented that this is the eleventh similar vote since the war started, and that the grand total now reaches 3,382,000,000 pounds.

Premier Asquith said that the expenditure of the British government from April 1 to May 23 maintained a daily average of 4,820,000 pounds, the highest rate reached by Great Britain during the war.

Winston Churchill, debating Asquith's motion, said that it is unreasonable to expect the war to turn suddenly and decisively in favor of the Allies, inasmuch as the contending armies are far too evenly matched.

"Asquith said that the total military effort of Great Britain produced 5,000,000 men. Where are they?" he asked. He urged that every serviceable man should be put in to strengthen the fighting line.

PARIS, France, May 23.—Over the ground that has been soaked with blood through four months of the war's greatest battle, French and German soldiers are attacking and counter-attacking today in a desperate struggle for the fortress-position of Douaumont.

After very severe fighting this morning, the Germans were driven from all but a small angle of the corner of the Douaumont position. The Germans launched furious counter-attacks but their only success was in the recapture of a position north of Thiaumont.

On the other side of the Meuse the Germans attacked with gas but the attack broke down near Hill 304.

BERLIN, Germany, May 23.—North of the Verdun today the French after heavy and costly attacks took some of the foremost German positions. The position of Douaumont, however, remains firmly in German hands.

Attacks by the French east of Hill 304, and on the southern slope of Dead Man's Hill, were repulsed.

### GERMAN AIRMAN HAS SHOT DOWN 18TH AEROPLANE

GERMAN HEADQUARTERS, May 23.—East of Nieuport a German naval infantry patrol entered French trenches, destroyed the enemy's defenses and returned with one officer and 32 soldiers as prisoners. Southwest of Givency and Engohelle several lines of British positions of about 2 kilometers extent were conquered. Several night-time counter attacks were repulsed.

We captured eight officers, 220 soldiers, 4 machine guns, 3 mine throwers, and besides the enemy suffered exceedingly heavy bloody losses. In the district of Berry-au-bac, early in the morning, the French attempted a gas attack, but without success.

Left of the Meuse our troops stormed French positions on the eastern spurs of Height 304 and main-

(Continued on page two)

### RUSSIA'S CROPS, HUNGARY'S, TOO, REPORTED SHORT

(Associated Press by Federal Wireless)  
BERLIN, Germany, May 23.—Part of Russia's huge grain crops have failed and there will be want in the land, according to news announced today by the Overseas News Agency. The agency says that the winter wheat in the northern and middle sections of the country have been destroyed by severe frosts and that the loss amounts to a disaster, in view of Russia's need for her crops.

ROME, Italy, May 23.—The winter crops in Hungary are short, owing to the fact that the acreage planted was smaller than usual and that bad weather has damaged the grain.

### More Losses At Sea By Mine And Torpedo

(Associated Press by Federal Wireless)  
PARIS, France, May 23.—The Norwegian steamer Tjomo has been sunk by an Austrian submarine near the island of Majorca without casualties.

LONDON, Eng., May 23.—A despatch to Lloyds agency says that the Italian sailing-ship Fabricotti has been sunk in the Mediterranean and that a British steamer, the Rhenas, has been sunk by a mine, with seven persons killed.

### NEW NOTE ON MAI IS READY FOR TRANSMISSION

(Associated Press by Federal Wireless)  
WASHINGTON, D. C., May 23.—President Wilson today sent to Secretary of State Lansing the completed draft of the new note to Great Britain, in protest of the interference with mails to and from the United States. It is understood that the note in duplicate form will be sent to France.

MR. AND MRS. BUSINESSMAN

Read the story of "War Patriotism and Free Space," appearing on Page 12 of this issue. It contains many wholesome truths.

### TWO NEW YORK TEAMS IN BIG RACE FOR FLAG

Giants Continue to Win in Western Trip; Superbas Increase Lead By Victory

(Associated Press by Federal Wireless)  
CINCINNATI, O., May 23.—Cincinnati made an effort to stop the winning streak of the Giants today but fell short by one run. The Giants are showing a great change in their play and the play is a big improvement on the work done at the first of the year. The McGrawites are now two games behind the Quakers, who occupy second place. Brooklyn increased the lead by winning handily from the Pirates.

NATIONAL LEAGUE.  
At Pittsburgh—Brooklyn 6, Pittsburgh 0.  
At Cincinnati—New York 4, Cincinnati 2.  
At Chicago—Chicago 8, Philadelphia 3.  
At St. Louis—St. Louis 2, Boston 0.

All American League games postponed on account of rain.

### TO PAY TROOPS ON MUSTER OF MAY 31

Troops of the Hawaiian Department will be paid on the muster of May 31, according to an order issued from headquarters today, Capt. Charles W. Van Way acting as paymaster.

### DRAY DRIVER IS EXONERATED BY CORONER'S JURY

Verdict Returned That Henry Corriea Fell From Brake-beam and Was Crushed

A coroner's jury sitting this afternoon removed all blame from Y. Namura for the accident yesterday on Liliha street, which resulted in the death of 3-year-old Henry Corriea. Deputy Sheriff Asch presided and the jurors were A. V. Gear, H. C. Brown, James T. Copeland, Charles A. Stewart, George Moore and Levi Perkins. Their verdict in part was as follows: "That Henry Corriea met his death from asphyxiation from aspiration of left bronchi, said injury received by the child accidentally falling from the brake beam of a moving dray and being run over by the left rear wheel of the said dray."

### NO CONNECTION BETWEEN "MIKI" AND ARITA CASE

Suyematsu Arita, charged with a statutory offense toward two Japanese girls, his wards, was referred to in an article last Thursday as "Miki," inaccurate information having reached the Star-Bulletin which confused him with a former police officer, H. Miki. H. Miki has no connection with the case whatever and in the interests of truth the Star-Bulletin makes this correction of the information given it last week.

### CARRANZA HAS 30,000 MEN TO EXTERMINATE BANDITS

Carranza General Gets Complaints Against the Conduct of American Troops at Ascension

(Associated Press Service by Federal Wireless)  
WASHINGTON, D. C., May 23.—Advices have been received at the state department that Gen. Carranza has ordered 30,000 Carranza soldiers to dispose themselves south of the border to exterminate the bandits now lurking in many places along the American line. The Mexicans are now moving through Chihuahua to take up their new posts.

The new note from Provisional President Carranza, which was mentioned yesterday as about to be sent, has been delayed, perhaps on account of the withdrawal of Col. F. W. Sibley and his troops.

BROWNSVILLE, Texas, May 23.—Col. Louis Morin, charged with planning an uprising of Mexicans in Texas, and Victoriano Ponce, another Mexican, charged with participation in a train wreck, have been shot to death while attempting to escape from Texas Rangers, in whose custody they were held, according to the report which has reached Brownsville.

### CRUEL HOUSE DECIDES NOT TO GIVE SUFFRAGE TO WOMEN OF PORTO RICO

(Associated Press by Federal Wireless)  
WASHINGTON, D. C., May 23.—By a vote of 80 to 59 the house today eliminated the amendment designed to grant suffrage to the women of Porto Rico. The amendment, proposed by Congressman Mann, was approved yesterday but the house today decided to pass the Porto Rico bill virtually as introduced, which was done without roll-call.

This evening at 8 o'clock the committee appointed to investigate the condition of Nuuanu dam will meet in the Capitol building for preliminary discussion of the work.

According to officers of the forest service, approximately 7000 head of elk are now roaming the Olympic peninsula in Washington.

### PLAN SUCCESSOR FOR YUAN, NAMED BY PARLIAMENT

(Associated Press by Federal Wireless)  
PEKING, China, May 23.—A conference of loyal republicans held in Nanking, consisting of one delegate from each of the loyal provinces, has decided that President Yuan Shih-Kai shall remain in office until an elected Parliament shall choose his successor.

The province of Shen-ai has declared independence.

A Japanese firm has loaned China 3,000,000 yen on security of iron mines in Hunan province.

(Special Cable to Nippon Jiji).

TOKIO, Japan, May 23.—A report from Canton states that Chen Ching Ming, one of the noted leaders of the revolution has been assassinated in that city by Yuan Shih-Kai hirelings. This is the second assassination that is laid at the door of Yuan.

(Special Cable to Liberty News)  
TOKIO, Japan, May 23.—Yuan Shih-Kai's cabinet has resigned. Yesterday afternoon every member announced officially that they would not remain in office longer, and Yuan is now seeking for a leader to form a new cabinet.

Application for passports has been made in federal court by E. A. Mott-Smith and his son, George, who intend to leave Honolulu for Canada in the steamer Makura next Friday.

### NAVY BILL WILL BE HURRIED ON

WASHINGTON, D. C., May 23.—The second one of the administration's "preparedness" measures, the naval appropriation bill, will pass the house by June 3, Chairman Kitchin of the ways and means committee asserted today. Night sessions of the house will be held next week.

JUDGE EDINGS REVERSED.

The decree of Circuit Judge W. S. Edings in the case of Yip Lan against Imoale Ahuli, an action for specific performance, is reversed in a decision handed down by the supreme court today.

# HAS FINE CLAIM TO STATEHOOD, JURIST THINKS

### Hawaii Has Attained Remarkably High Standing on Mainland, says W. W. Morrow

"In my opinion, Hawaii has a good claim to statehood, but matters of a political nature now under consideration make it impossible to determine just when the islands might best secure this privilege," says Hon. William W. Morrow, judge of the circuit court of appeals of the ninth circuit, with headquarters in San Francisco, who, with Mrs. Morrow and his secretary, Lynne Kelley, arrived in Honolulu in the Matsonia today.

Judge Morrow comes here to try the case of Foster L. Davis, former U. S. court clerk, who is charged with the misappropriation of the funds of his office.

"Hawaii is certainly well known on the Pacific coast, and also in the East," he continued. "The islands have attained a remarkably high standing because of the intellect and general character of their people."

"I would not care to return to the coast on a transport," the judge says. "I think I would rather walk—or swim."

### Quarter Century on Bench.

Next Thursday Judge Morrow will celebrate his 25th year of service as a federal judge. In 1897 he was appointed judge of the circuit court of appeals of the ninth circuit, which position he now holds. Prior to that he was U. S. district judge. As he explained today, he was the man who "brought Arizona into the Union" as a state, having judicially distributed all necessary judicial records, as is customary when a territory becomes a state.

### Although well past 70, Judge Morrow has by no means the appearance of an old man, although time has whitened his hair. He is a keen conversationalist and is possessed of an immediately pleasing personality. He will make his headquarters at the Pleasanton hotel.

# CONSUL RODIEK DECORATED, SAY PEKING REPORTS

### George F. Rodiek, German consul for Hawaii, has been decorated by President Yuan Shih-Kai of China, according to a report issued from the government office in Peking and published in the Sun Ten Shipao, a Chinese daily newspaper of Peking on April 12.

The decoration is of the fourth degree order, according to the Shipao, and is only conferred upon those who have done something for the Chinese government. The reason for the decoration is not given in the report sent to the Chinese publication.

When asked about the decoration today Mr. Rodiek said: "It's news to me. I really don't know anything about it." When asked as to whether he knew of any reason why Yuan should confer an honor upon him he stated, "None whatever. The news is entirely strange to me. I have nothing more to say."

# BRILLIANT DISPLAY OF LAVA STREAMS VIEWED

(Continued from page one)

from William McKay, its Hilo agent. "Report of flow indicates two south forks dying out," says the message. "Aungst (a telephone man in the Kona district) says the north fork is very active and increasing. Several of the best paddocks of the Honomalia Ranch are covered. The koa forest is destroyed. The flow now turns and is headed for Kapua. It will probably be over the road during the night. The best landing to see the flow is Hookena. The flow is traveling about one mile an hour."

According to today's trip report of the Mauna Kea, written by Purser P. T. Phillips, the volcano's glare lights up the country for miles. "In crossing the Hawaii channel, the reflection from the volcano at times was very brilliant," says the report in part, "especially about 11 o'clock last night as we were leaving Maui. The whole mountain was then being lit up."

Mail advices also coming in by the Mauna Kea this morning from the Inter-Island's Hilo agency give a good description of the flow. The writer is William McKay, the Hilo agent, whose letter says Prof. T. A. Jaggar, director of the Kilauea observatory, told him the volume of flow was increasing and that it has every prospect of lasting for some time. His information is from Prof. Jaggar.

"The eruption was first noticed at 11:30 p. m. Sunday," says the letter in part, "increasing to extreme brightness at 3 a. m. The first outburst was apparently smoke and subsided so far as appearances went, but it is now surmised the flow went underground and broke out lower down at a point supposed to be somewhat above the start of the 1907 flow."

"Fredenburg of the Kabuku Ranch menaced by the flow... located it on the second attempt a little above the start of the 1907 flow and above the 7000 foot level. By the time he had located it the fire was traveling rapidly about 10 miles above the road, and so hot he could not get very close. The main flow had forked and was coming in three directions. It looks like a sure-enough big flow. Prof. Jaggar said the flow was in line with the smoke and steam hole called Pelepuhi, and may have started thereabouts."

Purser Henry K. Sheldon of the Inter-Island steamer Kilauea which arrived today, says in his trip report that "at 3:15 yesterday afternoon the lava flow at South Kona had passed the Honomalia Ranch house three-quarters of a mile on the Kau side of the house. There are three flows running, two on the Kau and one on the South Kona. They expected it would be on the government road at 4 p. m. Hundreds flock to see rare spectacle."

That hundreds of people from many parts of the Big Island are flocking to see the lava flow is the word brought from Hawaii today by William Thompson, who came down from Kona. He was at Kilauea on Friday night and said the big crater

# MOVIE TROUPE HERE TO FILM FIVE-REEL PLAY

### Will Use Island Scenes As Background for a Big Smuggling Story

Honolulu and the Hawaiian Islands are becoming a Mecca for moving picture artists. On the Matsonia this morning there arrived a moving picture company directed by J. P. McGowan. He has brought with him 11 actors who will take pictures about the islands. They are working on a smuggling story called "The Diamond Runner." Pictures were taken on the trip over and more will be taken when they return on the Matsonia, May 31. This afternoon they will look for good locations for the picture and will start work immediately. Among the company who are well known on the screen are Helen Holmes, Paul Hurst, Leo Maloney, Mr. and Mrs. Tom Langham and Mr. and Mrs. Duncan P. Foes is the cameraman.

# GERMAN AIRMAN MADE CAPTAIN FOR EXPLOITS

(Continued from page one)

tained them against repeated attacks of the enemy. Besides the enemy's bloody losses we captured 9 officers, 518 soldiers, 5 machine guns. The booty made on southern spurs of Morthomme has increased to 13 cannons and 21 machine guns. South of Morthomme and from direction of Chatan, the enemy's attempts to reconquer lost terrain failed.

Right of Meuse, the French on several occasions, but without success, attacked our lines in the quarry district south of Raedmont and on the Vaux summit. In the third attack the French succeeded in obtaining a footing in the quarry. During the night both sides were extraordinarily lively with artillery, in the whole sector.

Our air squadrons in the afternoon repeated attacks with visibly great success against Barbour and Duerkirchen (Dunkirk). An enemy's biplane after a combat fell down into the sea. Four more aeroplanes were disabled in air combats within our lines in the district of Werique near Noyon, and near Maucourt in east Meuse, and northeast of Chateau and Salma. The last mentioned was shot down by Lieut. Whitten, who thus disabled his fourth aeroplane.

Besides these mentioned, 1st Lieut. Boeke, south of Ayocourt and south of Morthomme, shot down his seventeenth and eighteenth hostile aeroplanes. This brilliant flyer, in acknowledgment of his achievements, was promoted to captain by the emperor.

East front and Balkan sector are generally unchanged.

ARTHUR E. BIXBY, waterfront reporter on the Star-Bulletin, will leave on the Sierra this afternoon for the mainland, where he plans a visit with his parents. Bixby will return about June 20.

There was making a wonderful display.

"The fires at Kilauea have not been so fine or brilliant in many years," he said, "the reason being the activity of Mauna Loa. All over Kona and Kau districts the people are organizing parties to go to visit the flow."

"Elsewhere in the world people run away from volcanoes in eruption—here they run to them. There's not the slightest danger."

"On Monday night as our steamer lay off Kealakekua Bay Capt. Simeron waked us up about 3 a. m. and we could see the glow from the lava flow. Last night as we lay off Lahaina we could still see the same golden color over the mountain's slopes."

"At Kilauea the lava is now about 300 feet below the lower ledge and rising steadily. Demosthenes predicts that by July or August the crater will be full."

"Prof. Jaggar was eating breakfast Friday morning when news came of the first activity on Mauna Loa. He jumped from the table and that was the last we saw of him."

# Count-Jurist of New Hebrides On Way To Europe

### Copra is bringing \$22 (\$110) a ton in the New Hebrides, at the present time, according to the Count of Huena-Esperanza, president of the joint court of the New Hebrides, who is a through passenger today on the Oceanic liner Sierra, bound for San Francisco, New York and Spain.

"I am going on personal business and not a diplomatic mission," said the count. He added that while he is in Europe he will pay a visit to King George of England, and Queen Mary, in addition to visiting King Alfonso of Spain.

The international court of which Count Buena-Esperanza is president, handles all cases coming under the jurisdiction of the French and English governments, which own the New Hebrides group jointly. It sits in cases involving land transfers, civil processes and general judicial business, the president acting as a mediator between and for the two governments, and coming from a disinterested government, Spain, owning none of the group. The count has been president of the group since 1914. He will return in November.

# STAGE ARTISTS MAKE SIERRA'S RUN PLEASANT

Thanks to the energy of C. J. Stephens, better known as "Balancing Stephens," who has just completed a remarkably successful year's run with the Fuller circuit in Australia and New Zealand, an excellent program of music and varieties was presented on Friday evening last on the Sierra, which arrived today. Both first and second-saloon travelers combined their efforts with admirable results and for over two hours every available member of the ship's company assembled upon the second saloon deck and thoroughly enjoyed themselves. Mr. Stephens himself opened the program with a clever topical song, into which he introduced name and personalities that had the audience rocking with laughter.

Another star performance was little "Ula," one of the cleverest child dancers that has ever visited Australia. This little lady, although seriously hampered by the heavy pitching of the ship, presented a charming toe dance. Her grace and lightness, which have already gained her notice, was remarkable. Cook and Oatman were also highly successful in their harmony music, and Miss Cook also acted as an accompanist to several performers. Miss Tempe Pigott, one of Australia's well-known character women, was very successful in Brete Hart's quaint poem, "Her Letter," while Mrs. Harry Dyer and Miss Stella Marshall struck notes in "Ole Joe" and "How the Chestnut Horse Came Home."

Much laughter greeted the song of B. Irvine and he had to submit to two extra numbers, then allowed to depart. Mr. Joe Pitts, however, was decidedly the most successful vocalist, using his nice tenor voice to the best advantage and as an encore sang "Mother Macree." Miss R. B. Henne sang the Slave song very effectively, and Mr. R. M. Evans set everyone singing with his jolly Shakespearian song, "Richard the Third." Miss Dorothea Hayes highly amused the audience with "The Troubles of an Inventor's Wife." Mr. Charles Zimmerman was applauded for two pleasing violin numbers, and Bob Beck and his celebrated "Big Chief," Emile Farina (elaborately costumed in a sarong of straw bottle covers and much tattooing), were responsible for much merriment.

Miss Tempe Pigott, who is traveling to America in the Sierra, is one of Australia's best known character actresses. She has had the distinction of creating many interesting parts in the "Commonwealth," including Mrs. Knox in Bernard Shaw's interesting piece, "Fanny's First Play," in which she made an instantaneous success, with Hugh Buckler, Violet Paget and Christine Grant in "Nobody's Daughter," Lady Ridgeley in "His House in Order," Mrs. Shaw in "The Great Adventure," and, just before she set sail, Mrs. Hawthorne in "Hindle Wakes."

# PROPOSED BOND ISSUE MAY BE UP FOR ACTION

Mayor Lane's message on a municipal bond issue will come before the supervisors again tonight, the memorial to the governor requesting a special session of the legislature will be finally disposed of, the charges against R. W. Aylett, garbage inspector, will be reported on by the health committee, a resolution setting the grades for the Beachwalk district will be introduced and a few minor petitions and bills read.

The memorial may be definitely killed tonight, as the supervisors say that action on it has been postponed too long to be of any use.

The health committee, which held an investigation of the charges against Aylett last night, will report that they are not sustained. Only two of the 107 signers of the petition appeared at the hearing last night. One witness for Aylett testified that the petition had been changed in its wording after the signatures were secured. The principal complainant of the two who appeared against him seemed to be that he was not at the stables when the wagons started on their rounds at 4:30 in the morning.

# GUARDSMEN KILL 300 GOATS UPON KAHOO LAWE ISLE

Back from three busy days of goat shooting and goat capturing, nearly a score of men—territorial foresters and national guardsmen, arrived this morning on the Kilauea from the island of Kahoolawe. Capt. A. L. C. Atkinson, who was as a forest commissioner and commander of the guardsmen, told the Star-Bulletin this morning that a total of 285 goats were either killed or captured.

While the trip was taken primarily in the interests of the forestry board, the idea in taking along men from the National Guard was to give them practice in open shooting when negotiating the hills and valleys of the island.

Adj.-gen. Johnson is enthusiastic over this plan of training the men. He says he considers it the best form of practice they can get in preparation for actual warfare and will endeavor to have more of it done from now on, in which delightful play she was assisted by Mr. Van Maclearan. Miss Pigott, who is a Queenslander by birth, goes to New York on the advice of several American producers who have been in Sydney for the J. C. Williamson firm.

# FATIMA A Sensible Cigarette

20 for 15¢

Much laughter greeted the song of B. Irvine and he had to submit to two extra numbers, then allowed to depart. Mr. Joe Pitts, however, was decidedly the most successful vocalist, using his nice tenor voice to the best advantage and as an encore sang "Mother Macree." Miss R. B. # PERSONALITIES

JOHN LENNOX, manager of the N. S. Sachs Dry Goods Co., leaves this afternoon in the Sierra for a buying trip as far East as New York.

# GAMBLING KNOWN POLICE ADMIT, HARD TO STOP

### Peace Officers and Railroad Co. Acknowledge Crap Games on Trains

"Gambling in the Oahu Railway coaches is nothing new to the police department," said A. McDuffie, captain of detectives, today in reference to the story in the Star-Bulletin yesterday of wholesale "crap" shooting.

The gamblers usually refrain from playing until the train has left the King street station, according to the captain, and could not be caught unless a plain clothes man were detailed to ride the train daily.

"The only way we could get action on the gambling in those coaches would be to detail two or three extra detectives to ride continually," declared the captain. "This we are unable to do. As to catching them in games before the train leaves the station we have been unsuccessful, for all of our men are known and tipped off before they get inside the coaches."

Capt. McDuffie said he believed it was the duty of the trainmen to eliminate gambling on the trains and has taken the matter up with Fred C. Smith, general passenger agent of the O. R. and L. Company.

"The gambling mentioned by the Star-Bulletin yesterday occurs only on our early morning labor train," said Mr. Smith today. "We do not allow anything of the kind on our regular trains and have tried many times to stop it on the labor train, but have found it practically impossible."

Mr. Smith says the railway company is willing to cooperate with the police at any time in an effort to stop the gambling, also that the police have been informed many times about the games by the railway officials.

"Our conductors have instructions to forbid gambling on our cars," said Mr. Smith, "but in the case of the early labor train I believe they have found the proposition so difficult and so different that they have not followed the absolute letter of their instructions. However, they have no authority to make arrests without the assistance of the police and have done their part by reporting the games to us from time to time. We, in turn, have told the police."

Mr. Smith says most of the passengers on the early train are employees either of the navy department or of contractors doing work for the navy.

## LOCAL AND GENERAL

Ladies welcome at the Ad Club luncheon tomorrow noon. The topic is the business value of the Y. W. C. A.

The Kilauea today reports \$615 bags of Punaluu sugar and 2060 sacks of Honuapo sugar left after shipment.

The board of harbor commissioners will meet at 1:30 o'clock tomorrow afternoon in the basement of the capitol building.

The British steamer Natica, which called here for bunker coal, left last night at 11:59 for Shanghai and Tientsin with 2,353,440 gallons of kerosene. She is from New Orleans via the Canal.

Hearing of the case of H. D. Corbett, postmaster at Hilo, against Briggen, Samuel I. Johnson, N. G. H., a bill for specific performance to sell the Johnson place at Olaa, Hawaii, was had in Circuit Judge Ashford's court today.

If the weather man will only change his tactics the concert Saturday night at the Kamehameha Schools is going to be one of the finest affairs ever conducted at this home of good music. Everything is ready. The Boys' Glee Club is on edge for a fine showing, and the boys are keen to uphold the standard that has been set by other Kamehameha glee clubs in past years.

## HOPE FOR LARGE RED CROSS TAG SALES TOMORROW

Portuguese and Japanese women are going to lend every assistance in their power to make a Tag Day for the British Red Cross Society the biggest thing of its kind ever held in Honolulu. The British women and their American sisters, who have been working, received the announcement of the decision by the Portuguese and Japanese at a meeting of the Tag Day committee held yesterday afternoon with delight.

At the meeting yesterday the organization was perfected, the final arrangements completed and the knots tied so that nothing would slip loose in the rush of the twelve hour campaign which is to begin as soon as possible after 7 o'clock tomorrow morning. The chaperones were notified to be at the organization headquarters in the Harrison block this morning between 11 and noon.

The tags are to be "sold for whatever they will bring." The feeling that the cause was in good hands when it was relying upon the generosity of the people of Honolulu, determined the committee in its stand against setting a definite price for the tags.

Mrs. A. G. Smith, it was announced yesterday, has been added to the staff at headquarters and will assist Mrs. Gordon and Mrs. Morgan.

## DAVIS DEMURS TO INDICTMENT OF GRAND JURY

### Judge Morrow Tomorrow Will Probably Set Date for Hearing Argument

Alleging that the various counts do not charge any offense against the laws of the United States, Foster L. Davis, former deputy clerk and clerk of the local federal court, today filed a demurrer to the indictment charging him with misappropriating the funds of his office.

The Davis case was scheduled to come up for hearing at 10 o'clock this morning. Judge W. W. Morrow of the circuit court of appeals of the ninth circuit, who was detailed here to try the case owing to the disqualification of Judge Horace W. Vaughan and C. F. Clemons, took the bench at that hour and postponed the matter until 10 o'clock tomorrow morning.

Davis stated to the court that E. C. Peters, one of his counsel, was engaged in a case in police court and therefore unable to appear today. Judge Morrow cautioned Davis to have his counsel in court tomorrow. It is expected that tomorrow Judge Morrow will set a date for argument on the demurrer or else order argument forthwith.

Counsel for Davis consists of Attorneys R. W. Ereckson, now on his way to the mainland; Charles F. Parsons, E. C. Peters, A. D. Larnach and Charles F. Davis.

## 'BOY DIRECTOR' TRIANGLE CO. ON VISIT HERE

Raymond Bickford West, director of the Triangle Company, the largest moving picture organization in America, arrived in Honolulu on the Matsonia. Mr. West directed "Civilization," considered to be one of the greatest pictures ever filmed. He stated today that he was here for a vacation, but would keep a watchful eye for developments.

"The moving picture industry is reaching the point where people talk in millions, and the vast strides during the past few years has made this business one of the foremost in the country. As an example we expended \$40,000 to make one set in "Civilization."

Mr. West is known in Inceville and throughout southern California as the boy director. He has been in the moving picture business for a number of years but is still a young man. With Griffith, Sennett and the other well-known directors he has kept pace, and his latest work, "Civilization," is one of the sensations of the year.

When asked about his latest production he said, "Civilization is a peace picture which has taken months to film. It shows the horrors of war in 12 reels, and should be one of the best arguments against war ever presented. It is a big production and is making a decided hit in Los Angeles at present."

Mr. West will remain here for at least three weeks, and in that time will look over the situation here with the purpose of securing a number of interesting films. "Hawaii may make a great moving picture center. It is possible that one of the big companies may locate here in the future," he concluded.

## WOMEN WHO DISREGARD HEALTH

If a woman disregards her health she is sure to pay the penalty in later years. Incessant work and worry unfit a woman as a helpmate and mother and bring on ailments which drag her to despair. ## Cross-Currents In Presidential Politics.

The New York World, staunch supporter of President Wilson and chronically violent opponent of Col. Roosevelt, appears to think that the Colonel may back Gen. Leonard Wood for the Republican candidacy if his own cause shows signs of probable failure at Chicago.

"Col. Roosevelt and some of his followers are by no means as sanguine as they were three weeks ago," says the World, "but believe that they can beat Mr. Root, and, at a pinch, nominate a man of the Colonel's choosing, possibly Major-General Leonard Wood."

This bit of political comment is based, obviously, upon the belief that Root might be an opponent of the Colonel's for the nomination. Such a belief is not the general impression. Most of the supposedly "inside" observers say that Root knows it would be folly to oppose the Colonel with a candidacy of his own, has no intention of doing so, and is far more likely to work with Roosevelt than against him.

The New York political factions are said to be lined up as follows:

The Whitman faction, generally conceded to be dominating state politics, is for Hughes, but with many of the delegates only lukewarm in their enthusiasm for the jurist.

The Barnes-Wadsworth faction insists that Col. Roosevelt is already beaten, and is now trying to sidetrack Hughes, with the hope of nominating Senator Root, Governor McCall of Massachusetts or Senator Burton. An interesting feature is that a report was given some credence in state political circles that some of the Whitman leaders believe Gen. Wood is the strongest candidate in the Empire State and may switch their support to him.

All of these rumors and forecasts, like those current in Ohio, Illinois, Massachusetts and others of the great states show how chaotic the situation has become, how the Republican party needs a leader of force and inspiration, and how the situation is developing for the stampede of the convention.

### MUSICAL PROMOTION WORK.

Music not only hath charms to soothe the savage breast, but also to attract the base inhabitants of that busy, noisy and brusque district of Chicago known as The Loop. And Hawaiian music particularly seems to appeal to the dwellers of the Windy City.

The Chicago Sunday Tribune publishes a list of the "three best sellers in music" at local shops. Among the Columbia Record sales "On the Beach at Waikiki" (they call it "On the Shore at Le Lei Wi") and "Hawaiian Medley" are high among the best sellers. "Hello, Hawaii, How Are You?" ranks among the best three of the Victor Records, while "My Rose of Honolulu" is found tremendously popular in player-piano rolls.

It occurs to us that the Promotion Committee might stop sending out literature on climate and scenery and start its staff writing Hawaiian songs of the try-this-on-your-piano sort.

### WHAT OF EGYPT.

The rumored German "drive" on Egypt has not yet materialized and military experts say that there is little chance of it materializing this summer. Serious Turkish attacks on the Suez Canal and Egypt, with the coming of the hot weather and the drying up of many of the desert waer-holes, are now said to be only a remote possibility, though sharp raids may, it is thought by the allied military authorities, be attempted by the Ottoman commanders.

Turkish troops are still on the Sinai peninsula, an arid tract of Egyptian territory lying between the Suez Canal and the nominal boundary of Turkey in Asia, stretching across from Raifa on the Mediterranean to Akaba on the gulf of the same name forming an arm of the Red Sea. They are, however, the object of repeated observation on the part of allied armies, and reconnoitering parties have kept in touch with them and made themselves fully acquainted with their dispositions. Only recently the occupation by allied troops of Jifjaffa, about sixty miles to the east of the Suez Canal, placed an obstacle in what would have to be the main line of a Turkish advance towards the canal. This runs from El Audja to Ismailia.

### LITTLE INTERVIEWS

**BROTHER FLMER:** The Junior League has proved to be a big success in every way, and I am pleased to see the St. Louis team doing so well against two of the strongest teams.

**STANLEY KENNEDY:** Many tourists are looking about the lava flows on the Big Island. With the new outbreak it is expected that there will be a great exodus to Hilo this week.

**KILLEY HENSHAW:** Many of the golf players have taken advantage of the course at Moanalua, and much credit is due the Damons for keeping the course in such excellent condition. At the present time there are more than 75 golfers taking advantage of the course.

**S. W. ROBLEY:** The boys from the Nippu Jiji: Japanese people here the industrial school will show the Honolulu people something when they perform their pyramid stunts at the Y. M. C. A. on Friday evening. It will be the best performance of its kind ever held in Honolulu.

**JOHN L. FLEMING:** I'm not superstitious, but I'm not in favor of two sessions of the exchange. Every time it has been tried it has been followed by immediate falling off in dealings. They are only needed in exceptional times, anyway, so what's the use.

**JOSEPH DU FRENES:** Hawaii has unlimited possibilities for the camera man. With swimming, shark hunting and the thousand and one scenic beauties, one could be busy a life time and not get a complete edition of all the "talking points" for Hawaii.

**K. KAWAMURA,** city editor of

Two other practicable routes lead from the Turkish positions across the desert sands towards Egypt proper. The first runs almost parallel with the Mediterranean coast line from Raifa through El Arish and Katia to El Kantara, but some time ago the Katia district with its water supply came into the Allies' possession and rendered difficult any attempt by the Turks to force their way along the Canal banks and Port Said.

The second remaining line of possible approach is further to the south from Akaba by way of the oasis of El Hassana towards Suez. It was this oasis occupied by Turks and Arab horsemen which was bombed by allied armien in March.

### THE COST OF WAR.

There was a time when the argument was made that insurance on lives would be an invitation to murder, giving encouragement to evil persons who might desire to reap a profit from the death of the person whose life had been insured, says an exchange editorially. The absurdity of this argument soon became apparent, and now it is generally recognized that inasmuch as life insurance brings peace of mind, it may be said to add to the length of life. The same argument made against life insurance has been made also with reference to national insurance, which is merely another term for adequate national defense. A foreign nation would be less likely to encroach upon the honor of the United States if this country were known to be fully prepared for war. There would be fewer aggressions and less desire to test strength. History does not show a single case where the unpreparedness of a nation saved it from war. History does show, however, many cases where the strength of a nation discouraged enemies from provoking a final break.

In the expenditures for national defense were to have no other effect than to prevent war, one year, it would mean a saving of at least \$5,000,000,000 to the United States. Estimates based on recent official reports show that the expenditures of the four great powers at war are now running almost \$25,000,000,000 a year. The annual cost to Great Britain is \$5,000,000,000, to Germany and Russia each \$6,000,000,000 and to France \$4,400,000,000.

No matter how much the United States would spend now to provide adequate defense, the saving would be tremendous, even if the moral lesson of preparedness should last but one year, and in case war should come the saving in human lives, the prevention of the slaughter that must always come to a country unprepared, would be beyond calculation in dollars.

Rumors are afloat that the frontage-tax will be taken into the next city campaign as a political issue. It was a political issue in the last campaign, and a boomerang for the short-sighted Democrats who opposed this assessment plan for local improvements. At the last campaign the law had been on the statute-books many months but the Democrats, then in control of the city administration, made little headway in enforcing it, and when election time drew near, they went out on the stump to excuse their failure by attacks on the law itself. They made it one of their prime issues and were soundly beaten. This local-improvement plan is working successfully in Honolulu now, the city is getting accustomed to it, various sections are waking to its many benefits—and the party or faction which espouses a fight against it ought to be repudiated at the primaries and drubbed at the polls.

Now that the police have closed down che-fa gambling, as they willingly admit has been done by their vigorous campaigning, they might start at the crap games on the early morning O. R. & L. train to Puna-ua.

Economic situation in Mexico is reported "rapidly nearing a crisis." No details are given but it is supposed Carranzista money is declining from three cents to nothing on the dollar.

Peary's "Croker Land" has turned out to be nothing but Arctic mirage. This ought to be good for Dr. Cook's disposition.

After four months of battle at Verdun, the French and German official statements are as wide apart as ever.

Mauna Loa is kindly obliging with the real thing in lava flows.

## Letters or TIMELY TOPICS

### OBJECTIONS VOICED TO BRITISH RED CROSS DAY.

Editor Honolulu Star-Bulletin: Sir: With no little wonderment have I watched the growth of "British Red Cross Tag Day." It is but another tribute to the power of the press to mold public opinion.

On May 16, the British Red Cross Society asked the local Chamber of Commerce to endorse a tag day movement for the British Red Cross Society. The chamber decided that a letter be addressed to the committee expressing our sympathy with Red Cross work, but on account of our absolute neutrality it was felt that any action in endorsing that request would place the chamber in rather a questionable position.

Nothing can be added to that short businessmen's statement of the situation. They declined, as all Americans should decline, to join in the aid, comfort or succor of any belligerent power, although they commended the general Red Cross work.

The rebuff of the representative body to which it had appealed did not cool the partisan ardor of the British Red Cross Society, and so it enlisted the aid of the Advertiser, whose pro-British editor's sentiment is in keeping with the home of his nativity—Canada—but should be kept out of general circulation through the medium of an American newspaper.

On May 17, the day following the turn-down from the Chamber of Commerce, we find in the Advertiser that a "World Wide Plan to Aid Red Cross Reaches Honolulu," and by a strange but happy coincidence, the "Birthday of Late Queen Victoria" was the date decided on to permit "the people of Honolulu of all nationalities to have an opportunity to assist the work being done on all the battlefields of Europe by the British Red Cross."

We find that the call was "immediately taken up here, at the instance of the British consul, E. S. Gordon," and the committee headed by James A. Rath, Robert Anderson, James Macgill and Andrew I. Henderson, got right down to hard work. A follow-up article on the 18th instant accentuated the need of assistance; and by the 19th all semblance of anything but a partisan British appeal is laid aside and editorially the Advertiser, in speaking of assistance being rendered to the sufferers from war, says:

"These are the legitimate words of the British Red Cross and it is for them that the Red Cross is asking the people of Honolulu to contribute."

I realize that it's hard on the fin-

gers to monkey with the buzzsaw of public work—that cold facts and sound arguments are drowned by the cries of misery and the groans of pain; but doesn't it occur to you, Mr. Editor, that it's going a trifle far to ask loyal citizens of a neutral country to contribute cash to the support of one side of warring nations? England's greatest living statesman said when this war first began that "it is not the first, but the last hundred million dollars that will win this conflict. The general consensus of opinion today is that not men but money will win."

It would be just as consistent for the American people to contribute millions of war to the British army or coal to the British navy as cash to the British Red Cross Society. The Red Cross Society is a branch of each nation's fighting equipment, just as much as is its artillery, its aero equipment, its trenches, its sappers or its cooking department, and it's just as much a branch of our neutrality to finance the Red Cross end as it would be to equip the artillery end.

The tag day movement is selfish. It is purely national. If you have any doubt about that read over the names of the fine bunch of neutrals who are heading it. Mr. Gordon (British consul), Mr. Rath (ex-British army officer), Robert Anderson, James Macgill and Andrew I. Henderson (all British born and I believe, British subjects), not to forget the pro-British, British subject editor of the British Red Cross Society's advertising medium—the Advertiser.

It's hard to ask the American people, intelligent, sympathetic and generous, who give first and think afterwards, to refrain from supporting any well planned campaign, but if we are to be neutrally just to all we can be sympathetically generous to none. Thus far our polyglot island home has been happily free from a patent evidence of national antagonism. British and German, Frenchman and Austrian have fraternized in our clubs and intermingled in our homes, and it doesn't look like a square deal to me to turn over a day when Honolulu will be decorated with "British Red Cross tags," purchased with neutral money for the support of a branch of the war equipment of the Allies.

Think it over. Already our national neutrality is being questioned by all nations, but to flaunt the British Red Cross tag in the face of those whose sympathies lie the other way goes deeper than our national neutrality—it touches the individual neutrality without which no national neutrality can exist.

AN AMERICAN.

## Want Owner to Pay \$5 Fee For Shooting Horse

Humane Society and City Prosecutor Are Interested in Equine Case

Deputy City Attorney Chillingworth will attempt to get from J. Nagats \$5 as the charge for shooting the Japanese man's crippled horse some time ago, the case being that reported by the Star-Bulletin yesterday.

Investigation today showed that Dr. Monsarrat, the veterinarian, did not seek pay for shooting the horse; that his bill was rendered to the city attorney's office by the humane society, and that the veterinarian volunteered to do the shooting for nothing unless the owner should pay. The article yesterday, indicating that Dr. Monsarrat had received his fee, was incorrect, though it was understood in police circles that he had done so and that the humane society was seeking to be reimbursed for the \$5 paid the veterinarian.

Officers of the humane society said today that Dr. Monsarrat has always been ready to give his services to the society and that there is no disposition whatever to press for the fee. "Dr. Monsarrat offered to do the

shooting, whether or not he was paid," said Mrs. L. L. McCandless. "He has always been most kind and obliging, as well as anxious to cooperate with the society in its work for animals."

Mrs. Elgin, humane officer, said that Dr. Monsarrat rendered no bill, and that she herself asked him to make out a bill so that it could be presented to the county attorney's office, to be given to the Japanese who owned the horse and who should stand the expense of the shooting. Mrs. Elgin gave the bill to Deputy City Attorney Chillingworth. From this, it appears, rose the report that the humane society was trying to get paid the \$5 fee.

The humane officers say that they not only have not paid the \$5, but that Dr. Monsarrat refuses to take his fee if it has to come from the humane funds. Dr. Monsarrat says his customary charge of \$5 for the shooting is reasonable and this is maintained by the humane society. Prosecutor Chillingworth said today that he thought it was entirely too high and that one of the policemen could have done it for nothing.

### STOCKHOLDERS OF MOUNTAIN KING GET CHECKS IN MAIL

Mountain King has paid its first dividend. Checks arrived in the mail which came on the Matsonia this morning. It is a welcome mail for those who received such checks and the first actual manifestation of tan-

gible reward for long and patient waiting.

Dividends of 3 per cent on the capital of Mountain King have now been paid and the checks which were received through the Honolulu postoffice this morning are said to aggregate upwards of \$18,000. Those who received them are more than ever convinced that the property is no longer a mere hole in the ground, a prospect, but that it has become a real mine. They look forward to further and long continued payments of dividends with satisfaction and on the past long wait while the property was developing as merely an unpleasant episode.

### JAPANESE PAPER MAKES OBJECTION TO PLAY ON SCREEN OF LOCAL HOUSE

Objection to the presentation of "The Cheat," which is being shown on the screen at the Liberty theater, is voiced by the Hawaii Shippo in this morning's edition. "The Cheat" shows a violent love-affair between a Japanese and a white woman.

"The play is anti-Japanese in nature," says the Shippo, "and we must make a strong protest against its exhibition in this city. While this picture was being shown at San Francisco, the Japanese Association of California made several protests. The play is performed so that people who attend the theater will experience hostile sentiments toward the Japanese. We believe that it is necessary to make a protest against this exhibition."

### MORE EXTRA DIVIDENDS EXPECTED BY REMINGTON

Charles Remington, writing for the San Francisco Chronicle, said relative to the Hawaiian Commercial and Sugar Company:

"Directors of the Hawaiian Commercial and Sugar Company, at their regular meeting yesterday, declared, in addition to the monthly dividend of 25 cents a share, an extra dividend of \$1 a share, both payable June 8th, to stock of record May 25. Although no announcement was made to that effect, the impression prevails that the company will continue to declare extras of \$1 a share each month as long as conditions warrant such action. If this rate were maintained the rest of the year, it would mean \$7.50 in extras in addition to \$3 regular, or a total of \$10.50. At the closing bid price of 54 1/2 this return would net 19 1/4 per cent on the stock.

Dr. Leland E. Coier, newly appointed health officer at the port of New York, assumed his duties at quarantine.

Mrs. E. Hann, wife of a wealthy grocer of Oak Park, Ill., died under circumstances that the police were called in.

## RELIABLE LAXATIVE RELIEVED THIS BABY

Child Was Badly Constipated Until Mother Tried Simple Remedy.

In spite of every care and attention to diet, children are very apt to become constipated, a condition responsible for many ills in after life unless promptly relieved.

Mrs. C. W. Wilson of Shelbyville, Tenn., had trouble with her baby boy, Woodrow, until she heard of Dr. Caldwell's Syrup Pepsin. She writes, "I can safely say Dr. Caldwell's Syrup Pepsin is the best remedy of its kind on earth. It acts so gently and yet so surely. Little Woodrow was very badly constipated and we could find nothing that gave relief until we tried your Syrup Pepsin, which gave immediate relief."

Dr. Caldwell's Syrup Pepsin is a compound of simple laxative herbs, free from opiates or narcotic drugs, mild in action, positive in effect and pleasant to the taste. It has been prescribed by Dr. Caldwell for more than a quarter of a century and can now be had for fifty cents a bottle in any well-stocked drug store. A trial

WOODROW WILSON.

bottle of Dr. Caldwell's Syrup Pepsin can be obtained, free of charge, by writing to Dr. W. B. Caldwell, 454 Washington St., Monticello, Illinois, or by calling at Benson, Smith & Co., wholesale distributors, Honolulu—Adv.

John M. Frias, owner. Location, mauka side of Magellan street, 200 feet Ewa from Alapai street. Dwelling. City Construction Co., architect. Z. Sugihara, builder. Estimated cost, \$1510.

## KLAW PREDICTS VOLCANO WILL CREATE OPERA

Mark Klaw left Hawaii a short time ago a sincere "booster" for the islands and he started boosting on the coast, according to the San Francisco Call of March 9, which says:

"The romantic legend of the famous volcano Kilauea, which Hawaiians in years gone by regarded as the sacred abode of Pele, goddess of fire, is likely to be the plot for the next great American opera, according to Mark Klaw of Klaw & Erlanger, who arrived in San Francisco today from Honolulu aboard the liner Matsonia.

"Impressed with the beauty of the myth and its possibilities as an operatic plot, Klaw expressed his confidence that some composer will use it as a setting and with it will furnish the American people with their greatest of English operas.

# SHIPPING & WATERFRONT NEWS

## WOOL SHIPMENTS FROM SYDNEY DECREASING

### Sierra Makes Up Light Cargo Here By Loading All Sugar She Can Take Aboard

With seven vaudeville acts, comprising 16 persons; a Spanish count; an Australian rancher whose wealth is in the millions, and several others of more or less prominence on board, the Oceanic liner Sierra, Capt. J. J. Koughan, docked at Pier 19 at 7:30 this morning, and will steam for San Francisco at 6 o'clock this evening, taking the next mail to the mainland.

Capt. Koughan reported fine weather all the way over from Sydney, with no storms, bad winds or other freaks of climate to mar the comfort of passengers.

Purser A. G. Conquest said the steamer brought five first-cabin and two second to Honolulu, and that the through passengers are 44 first-cabin, 55 second and 15 steerage. The first-cabin list is light, but the second-cabin and steerage were close to capacity when the steamer arrived.

Freight brought to this port by the Sierra was 89 tons, and there were 14 bags of mail from Sydney and Pago-Pago. Through cargo is lighter than in some times, only 1670 tons, mostly wool and hides. Oceanic liners have until recently been filled to capacity on the homeward trip, but as this is the off-season for wool shipments, exports of this commodity have dwindled greatly.

"They are going to start sheep shearing in Australia two months earlier this year, and on our next trip from Sydney we will bring back a big cargo of wool," said Purser Conquest. "The drought this last season has resulted in a much heavier crop of wool, so that shearing will start earlier than usual."

The vaudeville acts and actresses aboard have been doing the Australian "big time" on the Fuller and Rickard circuits. They are now returning to San Francisco to play in the States.

From this port tonight the Sierra is taking about 1400 tons of freight, mostly sugar, and a shipment of fresh pineapples. No canned pineapples are being taken.

Going out, the Sierra will be comfortably filled in the first cabin, and crowded to capacity in second cabin and steerage.

## Sierra Flashes Close To 5000 Miles By Radio

### Oceanic Liner Broke All Known Wireless Records on Way Down, Operators Say

All known records for ship-to-shore communication on the Pacific were broken by the Oceanic liner Sierra on her last voyage to Sydney, it was learned today when the steamer arrived on her return voyage.

Radio Operator C. R. Parker and his assistant, C. S. King, were able to communicate with San Francisco until the liner was 4870 miles from the Bay City, and only four nights from Australia. When they lost San Francisco, after holding communication regularly every night for almost 5000 miles, they were able to keep in touch with the Federal's Hecla plant here, until the steamer was 3400 miles from this port.

While steaming toward Sydney, the Sierra was also able to keep in touch during the day with the Federal's low-powered plant at San Francisco, distances ranging from 1500 to 2200 miles.

By relaying through the local office the Sierra managed to give her position to San Francisco indirectly when she was 5175 miles from San Francisco, on the return trip, heading for Honolulu from Sydney.

All Oceanic steamers are equipped with the Poulsen radio system, used by all Federal wireless stations, ship and shore.

## HARBOR NOTES

Only one mule left here at noon yesterday on the U. S. army transport Dix.

Sunday the schooner Kitsap sailed from Port Blakeley for Honolulu with a lumber cargo.

The Matson steamer Matsonia brought 797 bags of mail from San Francisco this morning.

The Union Oil Company's steamer left for Hilo this morning at 6:50 with 20,000 barrels of crude oil.

Passengers arriving in the Mauna Kea today from Hilo and way ports were 77 cabin, eight way deck and 63 deck.

The U. S. lighthouse inspector's boat, Columbine, is being made ready for the semi-annual tour of inspection which will start about June 1.

Collector of Customs Malcolm A. Franklin today swore in James T. McPherson as night customs inspector, succeeding D. J. Wright.

Next mail for San Francisco closes at the postoffice at 4:30 this afternoon and will leave at 6 o'clock on the Oceanic liner Sierra from Pier 19.

Due Monday afternoon from San Francisco is the American-Hawaiian steamer Texan from San Francisco at 4 p. m. yesterday. She is empty, coming for more sugar.

Freight brought from Hilo and way ports by the Mauna Kea this morning included 11 cords of wood, 118 bundles of flooring, 30 bags of bottles, 39 hides, 273 sundries and 2144 feet of ohia lumber.

Sugar awaiting shipment at Maui and Hawaii ports is given by Purser Henry K. Sheldon of the Kilauea today as follows: Punaluu 8015, Honouuaunuu 2255, Honokaa 20,000, Paauhau 18,000, Paauhoo 700, Kukaiaua 900.

The T. K. K. steamer Tenyo Maru will arrive here Thursday morning at 11 a. m. with 1419 tons of cargo for this port. She has on board more than 900 through passengers. She will leave Friday with mail for San Francisco.

The Inter-Island steamer Kilauea brought 6400 bags of X sugar, 4800 of H, 407 sacks of coffee and a large amount of miscellaneous freight from Maui and Hawaii ports this morning. Passengers arriving were 61 cabin, five way cabin, 56 deck and 26 way deck.

The Anglo-Saxon (Shell) oil steamer Natica, which arrived yesterday afternoon for fuel oil as previously reported, is carrying 2,353,440 gallons of kerosene to Nagasaki for orders from New Orleans via the Canal. She was here last on May 30, 1915. The tanker has a new master, Capt. G. E. S. Bramston.

bridge, Mrs. F. E. Walbridge, Miss E. Walbridge, Chance Ward, Mrs. A. Wartman, Albert Waterhouse, Mrs. Albert Waterhouse, R. D. West, Mrs. R. D. West, Chas. W. West, A. M. Weston, Mrs. A. M. Worthington, Ung Koo Ah Kam and P. L. Bush.

Per Oceanic str. Sierra, today, from Australia: For Honolulu—Mr. and Mrs. N. N. Dangar, child and maid; Miss K. D. Smith, Bob Cooke, Miss D. Oatman.

Try the "Matsonia" Special—a dainty and delicious combination of ice cream, fresh crushed pineapple and whipped cream. Served only at the Fountain of Benson, Smith & Co.

## MATSONIA CARGO NEAR RECORD THIS TRIP

### Much Freight and Heavy Mails With Over 200 Passengers Have Smooth Voyage

Bringing with her an exceptionally large amount of freight for this city the Matson steamer Matsonia arrived this morning from San Francisco at 7:30 and docked at Pier 15.

There were 120 cabin passengers on board and 17 steerage passengers. She brought 7255 tons of freight in all, of which 6741 is for Honolulu, which comes very near being a record cargo. The rest, 512 tons, she will take to Hilo when she sails Thursday at 5 o'clock. Seven hundred ninety-seven bags of mail were brought by her, 23 automobiles for here and 24 for Hilo and 120 packages of Wells-Fargo express.

According to Capt. Charles Peterson, master, the trip was uneventful. Every day was fair and the passengers had an exceptional opportunity to amuse themselves.

Among the Honolulu people who returned on the Matsonia were Mr. G. Fred Bush of the Honolulu Iron Works and Mrs. Bush, H. B. Giffard, Mrs. Halsey, wife of R. L. Halsey of the U. S. immigration station; Mr. and Mrs. Albert Waterhouse, Mrs. H. G. Dillingham and Mr. and Mrs. E. W. Quinn.

## MAUI AND KINAU GOING BACK ON OLD RUNS

Announcement that the company expects to be able to put its steamers Maui and Kinau back on their old runs to Kanae ports on June 6 was made today by Vice-President J. L. McLean of the Inter-Island Steam Navigation Company.

"We figure on putting the Maui and Kinau back on their old runs a week from Tuesday," he stated. "We will probably be able to put them on their regular runs again. The Maui will return to her run from Honolulu to Nawiliwili, Koloa and Ahukini, and the Kinau from this port to Nawiliwili, Port Allen and Waimea, the lee side of Kauai."

This announcement, according to Mr. McLean, does not mean both boats will go back permanently on their old runs. "The company is now working on a plan to give better steamer service to Kauai. With the old boats back on their former runs, the service will be improved greatly until a more satisfactory schedule can be arranged to meet the needs of Kauai ports and satisfy the requests of the Kauai Chamber of Commerce, a special committee from which recently conferred with the board of directors of the Inter-Island with a view toward securing better service."

## CAPT. HOWE ILL, IS SAILING FOR COAST

Capt. Wm. Howe, local United States steamboat inspector, who has been ill for the past few weeks, leaves today on the Sierra for the coast to regain his health. He is as yet undecided whether he will return to Honolulu, but in all probability he will be assigned to a post on the mainland.

Capt. John K. Bulger, chief inspector for this district, who has been here helping out during Capt. Howe's illness, leaves for San Francisco on the Matsonia May 31.

"Capt. Howe may return here if he wishes when he regains his health," said Capt. Bulger today, "but I do not believe he will and I have already made arrangements to have another man transferred here and in such an event Capt. Howe will be given his post. The new inspector has not been decided upon yet. I have sent to Washington the name of the man whom I wish to have transferred here, but as there is another man in ahead of him I cannot say which one the bureau will appoint."

STAR-BULLETIN GIVES YOU TODAY'S NEWS TODAY.

## STOCKS RISE IN STRONG ACTIVE MARKET SESSION

### Important Gains are Made By Oahu, Waialua, Pioneer and Ewa; Others Strong

Strong and more active, the local stock market today witnessed some further signal advances in prices. Notable among these, Waialua, Pioneer, Oahu, Ewa and McBryde, but generally the undercurrent of strength was felt in practically all the securities.

In the trading today Pioneer opened at 52 1/2 and sold up to 53 1/2 at the morning session. Waialua opened at 37 and rose a full point to 38. Oahu touched 40 1/2 at the session and closed at the same figure. Ewa opened at 34 and closed at 35.

Trading in McBryde was heavy between boards and the day witnessed its recovery to 13 3/4, new high figures since its directors' meeting. Olua remained unchanged at 21 7/8.

In volume of shares traded in Oahu and McBryde were easily the leaders. Total sales reported for the day were 5988.

## LEGAL NOTICES

IN THE DISTRICT COURT OF THE UNITED STATES in and for the District and Territory of Hawaii—In Bankruptcy.

In the Matter of George E. Arnold, a bankrupt. To the creditors of George E. Arnold of Honolulu, City and County of Honolulu, Territory of Hawaii, and district aforesaid, a bankrupt.

Notice is hereby given that on the 22nd day of May, 1916, the said George E. Arnold was duly adjudicated bankrupt, and that the first meeting of the creditors will be held at my office, room 11, Magoon building, Honolulu, T. H., on the 10th day of June, A. D. 1916, at 9 o'clock in the forenoon, at which time the said creditors may attend, prove their claims, appoint a trustee, examine the bankrupt and transact such other business as may properly come before said meeting.

JOSEPH G. PRATT, Referee in Bankruptcy. Honolulu, May 23rd, 1916. 6482-11

IN THE CIRCUIT COURT OF THE First Judicial Circuit, Territory of Hawaii—At Chambers, in Probate.

In the Matter of the Estate of James Grube, Deceased.

Notice to Creditors. Notice is hereby given that A. J. Wilson has been appointed Administrator of the Estate of James Grube, Deceased, and all creditors of the deceased or his estate are hereby notified to present their claims, duly authenticated and with proper vouchers therefor, if any exist, even though the said claims may be secured by mortgage upon real estate, to the said A. J. Wilson at the office of Andrews & Pittman, 37 Merchant Street, in Honolulu, within six months from the date hereof (which is the date of the first publication hereof), otherwise such claims, if any, shall be forever barred.

All persons indebted to the said estate are hereby notified to forthwith make payment to the said A. J. Wilson at the above address. Dated, Honolulu, T. H., May 23, 1916.

A. J. WILSON, Administrator of the Estate of James Grube, Deceased. Andrews & Pittman, Attorneys for Administrator. 6482—May 23, June 6, 13, 20

BY AUTHORITY. SEALED TENDERS.

Sealed Tenders will be received until 11 a. m. of Saturday, June 3, 1916, for Furnishing Machinery for the Boys' Industrial School, Waialeale, Oahu.

The Superintendent of Public Works reserves the right to reject any or all tenders. Plans, specifications and blank forms of proposal are on file in the office of the Superintendent of Public Works, Capital Building, Honolulu.

CHARLES R. FORBES, Superintendent of Public Works. Honolulu, May 23, 1916. 6482-10t

NOTICE. My wife, having left my bed and board, I hereby give notice that I will not be responsible for any business or debts contracted by her in her own or in my name. ROBERT S. BLAKE. Honolulu, May 23, 1916. 6482-3t

**PAVED ROADWAY TO VOLCANO IS PLAN OF HILO**

Superintendent Public Works Tells of Ambitious Project on His Return

Supervisors of the county of Hawaii are planning now upon a distribution of funds to put a concrete road from Hilo to the volcano, according to authentic word which reached Superintendent of Public Works Charles H. Forbes on his trip to Hawaii. Forbes and members of the public utilities commission returned this morning on the Kilauea.

Forbes says work of this kind on the part of the Hilo board would not be surprising as they are making great strides and accomplishing much in road work.

"They are certainly putting their souls into their work," comments the superintendent, "from one part of the island to the other. One of the things I noticed especially in Hilo was the system of electric lights which they have installed in the country villages to light the streets. The people of the island appreciate this very much."

Forbes comments on the fact that the non-use of Kubaio wharf by many steamers is very noticeable. The steamship companies do not want to go there, he says, for reasons which they will not disclose.

Waialana swam is filling rapidly under the contractors, and pumping is going on all the time. Homestead road work is moving along fine with the one exception of Chin Chuck road, where there seems to be some dispute over ownership of land, he says.

The superintendent smiled at the question of what happened over the Waialea road question. "Nothing happened," he says, "the people over there simply want to build a \$30,000 road and they haven't the money available. The land commissioner will have only \$15,000 for the job."

For the public utilities work the commission investigated the Maui Telephone Company, the Lahaina Ice Company on Maui. In addition to this Forbes inspected homestead roads and wharves on the Valley Islands.

On Hawaii the Hawaii Telephone Company, the Kohala Telephone Company and the McDougal Electric Light plant at Kohala were investigated. These hearings all moved along in a satisfactory manner and decisions will be given out as soon as the transcript has been gone over, and the auditor of the commission renders his opinion.

Speaking of the volcano, Forbes says that the light of it could be seen plainly last night from Lahaina, the sky in the direction of Hawaii being lighted over a great area.

"The flow is going to cut down through the \$300,000 belt road," he says. "They judge that it will reach there some time today."

**WILDER LOOSES ACCUSATIONS IN GOVERNOR FIGHT**

Former Judge A. A. Wilder is carrying his fight against Governor Pinkham to Washington again, according to interviews he appears to have given San Francisco papers on arrival there on May 9.

The following from the San Francisco Call is typical of the articles:

"Judge A. A. Wilder, former supreme justice of Hawaii, arrived today on the liner Matsonia from Honolulu on his way to Washington, he said, to prefer charges against Governor Lucius E. Pinkham of Hawaii. Judge Wilder, who went to Washington in connection with this matter six months ago, said he would see Secretary of the Interior Lane and President Wilson.

"He accuses Pinkham of misappropriating funds and says grand jury action on similar charges has been halted for lack of funds.

"Last year a law was passed appropriating \$10,000 annually for the care of indigent foreigners. Wilder says Pinkham gave this, in part, to Filipino members of the National Guard, who were not indigent.

"He also declares Pinkham is dilatory, his lack of decision hampering business interests."

**BOCKUS AND GIFFARD BACK FROM INSPECTION OF COAST PROPERTIES**

Charles G. Bockus and Harold Giffard were returning passengers on the Matsonia today from business visits to California. Bockus spent some time in looking over Mineral Products properties and he and Giffard also went into Amador county to investigate some mining properties there in which they may become interested.

Bockus is very optimistic over the outlook for Mineral Products and says that the recent statement of President A. F. Judd's on the conservative side. He will make a more detailed statement to stockholders later.

**SCHOOL METHODS TO BE CHANGED BY JAPANESE**

First Meeting of Central Board Reaches Determination on New Text Books

Members of the central board of the Japanese schools of the territory held the first meeting of the organization yesterday afternoon, at which time a plan was voted to change the system of teaching now in effect in the Japanese schools.

Many of the prominent Japanese educators are now compiling special text books for use in the Japanese schools, and in the future Japanese will only be taught as a language, as the committee believes that the children in the schools have been overworked by making an effort to secure an education in both English and Japanese.

Among the Japanese interested in planning for a new system are: R. Mashimo, principal of Makiki Japanese school; S. Mori, principal of the Japanese Central Institute; R. Tsunoda, former principal of the Japanese high school, and T. Onchi, principal of the Hengwanji Japanese school, directors of the board. Consul-general Moroi, Rev. Y. Imamura, bishop of the Hengwanji Mission; Rev. T. Okumura, pastor of Makiki Christian church, and Rev. E. Ito, head of the Kakaako Japanese Girls' school.

**WILDER LOOSES ACCUSATIONS IN GOVERNOR FIGHT**

Former Judge A. A. Wilder is carrying his fight against Governor Pinkham to Washington again, according to interviews he appears to have given San Francisco papers on arrival there on May 9.

The following from the San Francisco Call is typical of the articles:

"Judge A. A. Wilder, former supreme justice of Hawaii, arrived today on the liner Matsonia from Honolulu on his way to Washington, he said, to prefer charges against Governor Lucius E. Pinkham of Hawaii. Judge Wilder, who went to Washington in connection with this matter six months ago, said he would see Secretary of the Interior Lane and President Wilson.

"He accuses Pinkham of misappropriating funds and says grand jury action on similar charges has been halted for lack of funds.

"He also declares Pinkham is dilatory, his lack of decision hampering business interests."

**AD CLUB WILL HEAR PLAN FOR VOLCANO FLOAT**

Miss Lillian Jones, executive secretary of the Pacific Coast Field of the Y. W. C. A., will be the principal speaker at the Ad Club luncheon which will be held tomorrow noon at the Alexander Young Hotel. Miss Jones will talk on "The Y. W. C. A. as a Community Asset."

In addition to the address there will be a trombone solo by Fred W. Behling, with A. E. Larimer as accompanist, also solos by Mrs. Rose Janowitz, accompanied by "Sonny" Cutha. During the luncheon President Wallace R. Farrington will announce the "stunts" for Kamehameha Day.

Charles R. Frazier will present the subject of a Kilauea float for Hawaii in the night pageant parade in Philadelphia, June 26, when the Associated Advertising Clubs of the world will convene. At the last meeting of the Ad Club it was moved that all members who could be present act as delegates to the convention.

A float at night showing Kilauea would be a big attraction, according to Mr. Frazier, and this plan may be worked out. The delegates representing Hawaii at Philadelphia will be as follows: Charles R. Frazier, John Lennox of Sachs & Co., M. Brasch of Whitney & Marsh, James A. Wilder, Prof. A. L. Andrews, George R. Carter, H. F. Wichman, A. M. Webster and James D. Levenson.

**The Fallacy of Paraffine Base: Eastern oil manufacturers have long extolled the superior virtues of paraffine-base motor oils. But Pacific Coast motorists have proved that Zerolene, made from selected California crude, asphalt-base, gave best results. Their experience is now supported by the testimony of international experts. Lieut. Bryan stated before the Am. Soc. of Naval Engineers: "Oils made from the asphalt-base crudes have shown themselves better adapted to motor cylinders, as far as their carbon-forming proclivities are concerned, than are paraffine-base Pennsylvania oils." Zerolene received highest competitive awards, San Francisco and San Diego Expositions. Dealers everywhere and at service stations and agencies of the Standard Oil Company.**

## ARMY & NAVY ARMY OFFICERS NOW FREE FROM PHYSICAL TESTS

### Order Announced From Headquarters Today Suspends Annual Examinations

Physical tests and physical examinations of officers in the United States Army are to be suspended during the present fiscal year, according to word from the War Department at Washington, notice of which was given today in a memorandum issued from local headquarters.

As in the case of the suspension of the "manchu" law and the tour of duty law, the reason for this suspension is ascribed to "present exigencies." The memorandum issued today is as follows:

"On May 12, 1916, the Secretary of War directed that, in view of the present exigencies, the provisions of orders relating to the annual physical examinations of officers be suspended during the present fiscal year."

It has been customary in the Hawaiian Department to hold these tests from December 1 to February, though the period varies in other departments.

According to the regulations every officer has had to take the examination every year, and it is pointed out that the rule has been a goal one in that it keeps officers on the watch, exercising regularly and caring for themselves.

"Instead of leaning back in his chair and smoking his cigar throughout the day, the average officer gets out and takes up some sort of physical exercise," said a man at headquarters today. "The result has been to keep him in tip-top shape."

## POWER TO MAKE BIG GUNS BOOM IN MEEK BANANA

"Hawaiian bananas for gunpowder" will be a new slogan in the territorial preparedness campaign, if a theory which recent editions of the San Francisco papers relate proves genuine.

According to the San Francisco Examiner of May 12, the "English Coveit Isles as Potash Source," while the San Francisco Call of the previous day declares in its headlines, "Hawaii's Bananas to Make War's Big Guns Boom Longer." The Call states:

"The munitions factories have turned their attention to the Hawaiian Islands as a possible source of supply of one of the most necessary constituents of explosives."

"Recent investigation by British chemists has shown that the stalk of the banana plant is rich in potash. The supply of potash has been found inadequate since the present war."

"As a consequence the Du Pont Powder Company, after experiments, has appropriated \$4,000,000 for the building of crabs to cut kelp and for machinery to treat it. Kelp cutters despatched from San Francisco already are working along the California coast."

"A chemist said to have been sent by the British government arrived at Honolulu a month ago and made extensive analyses of the banana plant. He found that a ton of dried stalks will yield 188 pounds containing more than 13 per cent of potash. This is as rich as kainit, the natural salt from which potash usually is obtained in Germany."

"The English government," says the Examiner, "has its eyes on the Hawaiian Islands as a possible source of supply of potash for use in the manufacture of explosives, according to a chemist sent to the islands by the British government."

### ARMY ORDERS

Pvt. William F. Guyle, infantry, unassigned, is assigned to Company B, 1st Infantry.

Pvt. John Johnson, Company E, 25th Infantry, is appointed corporal, vice Cloud, transferred to the reserve.

Capt. LaVergne L. Gregg, 25th Infantry, unassigned, is assigned to Company K of that regiment.

Second Lieut. Ora M. Haldinger, 25th Infantry, unassigned, is assigned to Company F of that regiment.

Maj. Edmund S. Wright, 4th Cavalry, who arrived on the last transport, has been assigned to the 2nd Squadron of the regiment.

Second Lieut. Leopold J. H. Herwig, 4th Cavalry, who arrived on the last transport, is assigned to Troop A of that regiment.

Second Lieut. Raymond E. McQuillin, 4th Cavalry, who arrived on the last transport, is assigned to Troop H of that regiment.

A board of officers, to consist of Capt. Gordon N. Kimball, 1st Lieut. John K. Herr and Daniel E. Murphy, 4th Cavalry, is appointed to meet at Schofield Barracks as soon as practicable in the case of Pvt. Fred J. Hilland, Troop E, 4th Cavalry.

The unexpired portion of the sentence imposed by summary court in the case of Pvt. William H. Daner,

65 to 71 Queen St.

Company H, 25th Infantry, is re-mitted. Pvt. Daner will be released from confinement and reported to his company commander for duty.

Capt. Samuel P. Lyon, 25th Infantry, is relieved as regimental athletic officer and 1st Lieut. Charles L. Wynnam, 25th Infantry, detailed in his stead.

Pursuant to instructions from the war department, the following named enlisted men will be sent to Fort McDowell for discharge on account of the reasons set opposite their respective names: Pvt. James H. Steger, 143d Co., C. A. C., on account of excessive use of alcoholic liquor; Pvt. Charles A. Bushnell, Co. H, 1st Inf., on account of habits and traits of character which render his retention in the service undesirable.

Cpl. Peter Zulawech, Battery B, 1st F. A., is reduced to the grade of private.

Cpl. Joseph Wiranik, Battery A, 1st F. A., is reduced to grade of private at his own request.

Pvt. Russel J. Reeves, 159th Co., C. A. C., is relieved from special duty as a member of outguard No. 2, Fort Ruger, and Pvt. William Dobken, same company, is detailed in his stead.

A board of officers to consist of Lieut. Col. W. W. Forsyth, 4th Cav.; Capt. Harry D. Blasland and 1st Lieut. C. C. Bankhead, 1st Inf., has been appointed to meet at Schofield Barracks as soon as practicable for the purpose of working out a scheme of beautification of that part of the permanent post at Castner, which is now built or in process of building. The board will confer with the constructing quartermaster at Castner.

Col. Samuel D. Sturgis, F. A., is attached to the 1st F. A. for duty pending his departure from that station.

2d Lieut. Hugh B. Keen, 1st Inf., unassigned, is assigned to Co. F.

A board of officers is appointed to meet at the call of the senior member thereof at Fort Kamehameha to investigate and report upon the case of amoebic dysentery (Pvt. Ernest L. Robinson, 68th Co., C. A. C.), admitted to the Department hospital. The board will, if practicable, ascertain the cause of this case and submit recommendations for prevention of such cases in the future. Detail for the board: Maj. Powell C. Pauntleroy, Capt. Sanford W. French and Joseph L. Siner, Medical Corps.

Sgt. George H. Thrush, 55th Co., C. A. C., is transferred without loss of grade to the 75th Co., C. A. C., and ordered to Fort Kamehameha for duty.

Cpl. Joseph A. Rogers, 104th Co., C. A. C., is disgraced as casemate electrician.

Cpl. Rogers is relieved from special duty in charge of the mining casemate at Fort Kamehameha and will return to Fort Armstrong for duty.

Pvt. Elmer Sheppard, Co. D, 1st Inf., is announced to be corporal, vice Putnam, furloughed to the army reserve.

Pvt. Edward K. Lachovsky, Co. A, 1st Inf., is relieved from special duty in the regimental branch of the post

exchange, 1st Inf., and ordered to report to his company commander for duty.

Pvt. Joseph H. Suerken, Co. H, 1st Inf., is announced to be corporal, vice Clerk, furloughed to the army reserve.

Pvt. Samuel J. Watkins, Troop H, 4th Cav., is detailed on special duty as school teacher and ordered to report to Chaplain J. A. Lenehan, 4th Cav., for instructions.

Pvt. Theodore Miller, Troop E, 4th Cav., is detailed on special duty as range rider, vice Pvt. Peter G. Battisart, Troop E, 4th Cav., relieved.

Pvt. John Van Aken, Troop D, 4th Cav., is detailed on special duty as painter, with a view to his transfer to the Q. M. Corps.

## MAJ. HOWZE WON'T BE BULLIED BY MEXICANS; REFUSES DEMAND

### Brusque Notification to Give Up Captured Villa Supplies is Turned Down

WASHINGTON, D. C., May 23.—Despatches from headquarters received in this city last night reporting on the situation in Mexico, say that the American cavalry commands, which have been scouting south of Paral, have been withdrawn to the base camp, and have made their report. Maj. Howze, in command of these forces, says in his official account of his march that his men encountered Gen. Cayazos, a Carranzista commander. The feeling between the men of the two commands was tense from the start, and was not eased any by the brusque manner in which the Mexican demanded the immediate surrender of the booty captured by the Americans from the marauding Villa bands. This booty consisted of a number of horses, large quantities of corn and other supplies. Commander Bits Tight.

horsemen begin an immediate retreat northward. This, Maj. Howze answered by saying that he was not ready to start north, having received no instructions from his own commanding officer, and that until he did so, he proposed to remain where he was. This apparently took some of the wind out of the sails of the Mexican general, who then made a request that he be allowed to march past the American position, in order to consolidate his own command. This request was immediately granted by Maj. Howze. Mexicans a Ragged Horde. In describing the character of the Mexican troops seen as they filed past their own camp, Maj. Howze says that they are half boys, some apparently not more than 14 years old, ragged and dirty in the extreme, but well armed.

Despatches from the City of Mexico, dealing with the economic and financial status of the revolution-torn country are gloomy in the extreme. The food shortage in the capital is also reported serious. To add to the difficulty of the situation almost all the railroads of the country are now tied up by strikes, so that no trains are moving anywhere.

## Scene of West Front's Desperate Mine Fighting; Crater Made By Big Shells

Mine crater near Verdun—showing the sort of desperate fighting now going on. In these craters the soldiers hide and start new entrenchments before the smoke and dust from the exploded mine has cleared.

## 'MADE IN HAWAII' MOVIE COMPANY DEFINITELY LAUNCHED, SAYS MOYLE

### Organizer of Aloha Film Project Announces Theater Will Be Built Here

Honolulu will soon have moving pictures all of her own. Seth Moyle, organizer of the Aloha Film Company here, left for San Francisco today on the Manoa, carrying with him, he announced, the individual support in his venture of such people as R. W. Shingle, E. A. Berndt, L. A. Thurston, W. G. Adams, Ed Towse, A. P. Taylor, Raymond Brown and many others.

Moyle is going directly to his Los Angeles, Chicago and New York offices. In the latter place he will sign a release with the Pathe people which will insure putting Hawaiian pictures on the screen all over the world. Moyle will return here early in July with a movie company of 30 people to start immediate production.

Miss Rose Janowitz, who has been assisting Mr. Moyle in his efforts here, remains in Honolulu to watch the local end. Mr. Moyle credits Miss Janowitz with most of his success. It was she who first conceived the idea of "Made in Hawaii" pictures while here visiting last year.

"I am glad to have such representative business and professional men of Honolulu back of me," said Moyle just before leaving. "I am sure the whole project will be a great success. Of course the men who have given me their support are acting only as individuals and not for organization or concerns with which they may be identified but the fact that they have put their own money into the work shows more than anything their belief in its success."

Mr. Moyle says he has plenty of moneyed men on the other end behind his venture, one of whom is his millionaire uncle, Seth Marshall, proprietor of Arrowhead Springs at San Bernardino, Cal. The caliber of the men of the Ad Club, the Commercial Club and other organizations which he has visited here assures him, he says, that Hawaii will give every assistance possible.

"One feature of the Aloha Film Company will be to own or control a theater in Honolulu," says Mr. Moyle. "This will be in charge of W. G. Adams. Through my connections with the biggest companies in the United States we will obtain for this theater only the best and most expensive films in existence. In exchange we will send those pictures which are made in Hawaii and which will advertise Honolulu in every state in the Union."

"In 1918 I expect to bring Rex Beach, who is a personal friend of mine, to Honolulu to write one of his long and delightful serials on this beautiful land. Rex is now signed for 10 years with Hearst, the contract expiring in 1918, and is at the present time in Cuba. Wherever he goes he writes the country. In Alaska he wrote the famous 'The Spoilers,' and while living in Panama he put out the popular 'The Ne'er Do Well.'"

## FROM THE ORIENTAL PRESS HERE AND ELSEWHERE

### AGITATION FOR CAMP IMPROVEMENT.

(From the Hawaii Hechli.) The question of higher wages for the plantation laborers is now completely settled between the plantations and the laborers, and the laborers on the sugar plantations are now almost rid of their hardships of living, on account of additional wages they are going to receive; they are now entitled to receive 8 per cent augmentation on their wages as long as the market price of sugar stays at the present base.

It seems a great advancement of wages for the plantation laborers, but it is rather small compared to the planters' profits. The advancement of wages which laborers are entitled to receive hereafter is only the planters' offer, not the laborers' suggestion. It will need some consideration to make a demand for still higher wages after they have been raised, but on the American mainland it is not strange for white laborers to make another demand for still higher wages; they are not afraid to ask for what they want.

With the great profits of the planters at present, they can readily meet the demand for still higher wages, if the laborers request it. The planters have enormous profits to pay laborers from, and still more surplus profits to pay as special dividends to their stockholders. The question is, shall we let them receive it, or shall we not let the planters any more?

We will suggest to the plantation laborers to make one more demand on the planters — not a matter of wages, as that is already settled, but a demand for improvement of houses and camps which the laborers are given to live in by the plantations. Some plantations have already improved their laborers' quarters to a perfect condition, but there are some plantations in the other islands which pay no attention to this matter, and

## BRANDEIS HAS HARD TIME LANDING JOB

WASHINGTON, D. C., May 23.—The senate judiciary committee, which has been conducting hearings on the nomination of L. D. Brandeis, the Boston attorney, by President Wilson to fill the vacant seat on the bench of the supreme court, is almost evenly divided.

According to reports yesterday it stands nine to eight in favor of recommending the confirmation of the nomination of Attorney Brandeis.

Senator Shields, who is known to be opposed to the confirmation of the attorney, is absent and it is not likely that he will return in time to vote on the report, which is to be submitted to the senate tomorrow.

## JAPAN WELCOMES NEW SLAV AMBASSADOR

(Special Cable to Nippon Jiji.) TOKIO, Japan, May 23.—The new Russian ambassador to Japan, P. N. D. Kulpenki, reached this city yesterday. He was heartily greeted by many Japanese officials and diplomats, who crowded the Central station to welcome him. The new ambassador was formerly Russian minister to Peking, and has been promoted recently.

Mrs. Emmeline Pankhurst, the English suffragette, "hit the trail" at the Biederwolf revival in Plainfield, N. J.

## ORAL COMPLAINT IS EXPLANATION OF LONG DELAY

### No Letter on Illegal Practitioners Was Sent Attorneys and Matter Forgotten

A. M. Brown, city and county attorney, will personally conduct the prosecution of the alleged illegal practitioners of medicine who were nabbed by Harry Lake last week at Waihu and Waihala.

Mr. Brown says that further arrests may be postponed until after the trial of the two men Wednesday, after which "doctors" at Waihala will be arrested on evidence found by Detective Lake. The attorney's office declares both cases for Wednesday to be strong for the prosecution.

Dr. J. S. B. Pratt, president of the board of health, said yesterday that his information concerning Tamashiro of Waihu was given to Attorney Brown orally last August or September, which fact may account for the seeming delay in the case.

Brown, who has been rummaging through his files to see if he could find any letter from Dr. Pratt regarding Tamashiro, smiled when told by the Star-Bulletin that the doctor had said: "This office is too busy to remember oral complaints," said the attorney, "and that straightens up the question. I do not recall having heard Dr. Pratt mention this case, but I may have forgotten the incident. Dr. Pratt waited until a few days ago, hoping to hear some results of an investigation, and as none were forthcoming, wrote to the attorney general, who brought the matter to the attention of the city legal office."

## BILLIARD CHAMP GOES TO COAST ON MANOA TODAY

Mr. and Mrs. William F. Hoppe were passengers on the Manoa this morning. They will go to San Francisco for a week and will then leave for the East, where Hoppe will meet a number of the leading billiard stars. It is hoped that a match will be arranged with George Sutton, as he appears to be the only man on the mainland at present who could give the champion a contest.

Hoppe will meet L. B. Benjamin on the mainland, and both will go East. There is a rumor that Hoppe and Yamada will not be under Benjamin's management next year. Both Hoppe and Yamada were popular here, but Benjamin's attitude in knocking American sport, and his efforts to create a sensation by offering a fabulous sum to Duke Kahanamoku for turning professional did not make much of a hit with the followers of sport.

## POLICE NOTES

Gamblers predominated in police court Monday morning and 18 paid \$5 fine. Five Chinese arrested Sunday admitted playing pai kau. Eight Japanese pleaded guilty to playing 7-11. Another in this gang, Yu Kee, was committed to the juvenile court as being only 16 years old. A third declared he was not in the game but detectives testified differently. Yon-sawa was given three months for being unlawfully on the premises of another. Ah Hing paid \$20 and costs for having about \$3 worth of opium and some yen shee.

The notion that a person must go without needed things in May, in order to have three times the amount he needs at Christmas, will soon disappear, Mr. Merchant, if you turn a little rapid-fire advertising in that direction. —THE AD MAN.

## IN WAR ARENA

### BRITISH FARMERS MUST RAISE MORE CROPS OR STARVE

LONDON, Eng., May 23.—A food shortage of alarming proportions will confront the United Kingdom unless the farmers abandon their prejudices against the employment of woman labor and bend all their energies to the increase of crop production.

This statement, made by Francis Dyke Acland, financial secretary of the treasury, in the house of commons yesterday, succeeded in thoroughly alarming the members. Unless some such steps as he proposes are adopted, said Mr. Acland, it will be necessary to feed the country by diverting ships which are urgently needed for the transporting of munitions of war and, he added, he is "not at all sure that the country will have the ships to divert."

In speaking of the submarine campaign and the loss to British shipping caused by mines, Mr. Acland told the house that since the outbreak of the war 570 fishing vessels of all sizes and types have been destroyed and 600 fishermen have been lost, cutting down the fish supplies of the country.

### FRENCH DRIVE GERMANS FROM FORT DOUAMONT

LONDON, Eng., May 23.—On the Verdun front the French apparently have been successful in their efforts to oust the Germans from Fort Douamont. After repeated assaults the Gallic troops, heralded by a long artillery preparation, burst through the Teutonic defense of the shattered fort, and drove the Germans out of it, according to the Paris despatches, while Berlin claims the Teutons still hold portions of the northern section of the former fortress.

### TURKS IN SERIOUS PLIGHT; BRITISH TURN FLANK

LONDON, Eng., May 23.—Almost on the heels of the despatches telling of the arrival of a large force of Cossacks in the British camps in Mesopotamia, came the announcement from Gen. Sir Percy Lake, that Gen. Sir George Gorringe had completed a flanking movement around the swamps that covered the right flank of the Turks under Nur-edin Bey, and had succeeded in effecting a lodgment on the north bank of the Tigris, across the river from Kut-el-Amara.

### RUBBER FOR TEUTONS GOES IN FIRST CLASS MAIL

LONDON, Eng., May 23.—That the German sympathizers in neutral countries are still taking advantage of the supposed immunity of first class mail matter to ship large quantities of rubber and other contraband into Germany was proved yesterday when British inspectors found 1400 parcels of crude rubber in the first class mail carried by the Dutch steamer Gerlie, bound from South American ports to Holland.

### MORE STEAMERS SUNK

LONDON, Eng., May 23.—Lloyds agency announced last night that the Greek steamer Anastasios-Corneos, the French steamer Languedoc and the Italian bark Erminia, have been sunk at sea.

The American sanitary transport section was praised in the French army orders for its devotion and endurance at the front.

## CHILDREN AND GROWN-UPS ARE ON PLAYGROUND

### Kamamalu Park and Its New Equipment Bring Joy to Young and Old

"Rain, rain, go away, Little Johnnie wants to play, Come again some other day."

The old nursery rhyme, not so familiar to the motley crowd assembled as to the children of the mainland perhaps, might well have been recited as an expression of their feelings by the hundreds of kiddies collected around the newly-installed playground apparatus in Kamamalu park Saturday. Not knowing this rhyme, though, they were content to let the rain play upon them and through all the showers that fell in the late afternoon and early evening they stayed in the little park at the corner of Fort and School streets, noisily voicing their delight in the new kind of play made possible by the beneficence of the city.

And it was not only the little ones who used the swings, and the shot the chutes, and the parallel bars and the merry-go-round and all the other steel apparatus dedicated by the mayor and the supervisors to the use of the children of the neighborhood. There were strapping youngsters of 17 and 18 romping in the swings, testing their growing muscles on the bars, proudly showing their skill on the trapeze.

And way off in the corner an old couple, of 60 or so, were renewing their youth in the tiny merry-go-round, built for children of 6 or 7. Timidly they stood afar watching the group of little girls who were running the contrivance around at top speed. With growing courage they stepped nearer until finally the children accompanied off to some other sport. Then, hurriedly looking around to see that no one was watching them, they approached the apparatus.

Seating themselves in it they propped it with their feet, slowly at first and then their faces glowing with the sport, faster and faster. Soon they were all a-smile and giving little screams of pure enjoyment, just like the children who a few yards away were flying helter-skelter down the chutes.

The old couple, Hawaiians, stayed at the park until the last of the older children left, about 10:30 o'clock in the evening.

### FORT SHAFER AERODROME.

The program for the balance of this week seems to be as remarkable as that of last week, being well varied and full of interest.

Tuesday—Pathe News, travel series, and the three-reel comedy-drama, "The Red Virgin."

Wednesday—Dorothy Bernard in the modern society drama, "Dr. Ra-meau."

Thursday—Pathe News, Episode No. 5 of the "Red Circle," and two comedy reels, "The Auction Sale of Roundabout Ranch," and "Wife's Ma Comes Back."

Friday—Lou Tellegen, for years leading man with Sarah Bernhardt, in the fine pictureization of Wylie's novel, "The Red Mirage," "The Unknown."

Saturday—The blue ribbon feature, "The Sins of the Mothers," featuring Anita Stewart.

## O. A. STEVEN IN DEAL WITH OTIS, PAPERS REPORT

### San Francisco Press Says Honolulu Trying to Get Filipinos to Coast

O. A. Steven's activities on the coast in an ostensible effort to import the Filipino laborers from Hawaii to California are given considerable publicity in the San Francisco papers of May 10, Steven being quoted freely.

The San Francisco Bulletin, referring to Steven as "a popular business-man in Honolulu and a friend of Governor Pinkham," goes on to say that Steven "is at the Palace, en route to close a deal in Los Angeles with Gen. Harrison Gray Otis and Harry Chandler by which he hopes to bring 300 Filipinos from the Hawaiian sugar cane fields to work in the cotton, cantaloupe and other fields in the Imperial valley of this state."

The Bulletin quotes Steven as saying: "The Filipinos can be legally landed in California," he said, "and I do not think there will be any opposition to their going to work in the hot fields of the Imperial country. They can wonderfully develop that part of California."

"I have made a proposition to Gen. Otis and Harry Chandler about bringing a lot of Filipinos over from Hawaii and am now on my way there to try and close a deal."

He recently made a proposition, the Bulletin article continues, to Secretary of War Baker to place 3000 Filipinos along the Mexican border to catch Mexican bandits. He has not received any answer to his proposal. The Bulletin adds the following:

Years ago Governor Pinkham and Steven brought the first Filipinos to Hawaii, and today there are 12,000 of them in the cane fields.

Many of them are dissatisfied, and he thinks 5000 of them would be glad to go to the Imperial valley, where he says they can get \$30 a month.

Steven was recently arrested on a criminal charge for trying to induce some Filipinos to leave the islands. It was contended he had no territorial license to urge them to go from one place to another.

"I plead guilty in order to save time," said Steven. "Judge Stuart fined me \$1 in each of five cases. He does not believe the Hawaiian law, which prevents cane field workers from leaving the islands, constitutional. The sugar men, a powerful oligarchy, hold all laborers in the islands."

"If I make my deal with Otis and Chandler, I'll go back to Hawaii and break that law," he insisted.

## ANNUAL REUNION OF KAMEHAMEHA ALUMNI IS HELD

A large gathering of former students, faculty members and friends of the institution attended the annual reunion of the Kamehameha Alumnae Association at the Kamehameha schools last Saturday evening. Instead of the usual luncheon buffet supper was served in the dining hall of the manual school. The dinner was followed by a brief program at which Miss Lydia Aholo, president of the association, presided.

The treasurer's report, read by Miss Momi Keola, showed the organization to be in excellent financial condition with a balance of \$2220 on hand. A brief address was delivered by President C. Webster in which he congratulated the members of the association on the work which they have done during the last year.

Selections by the girls' glee club completed the program, after which dancing was enjoyed in the main hall until a late hour.

## U. S. WON'T RECOGNIZE JIMINEZ' SUCCESSOR

(Associated Press by Federal Wireless) WASHINGTON, D. C., May 23.—Real Admiral William B. Caperton, commanding the naval forces at Santo Domingo, reported to the navy department last night that he is preparing for the distribution of the American sailors and marines now policing that city in an effort to secure complete quiet.

Officials of the state department said last night that the department has no intention of recognizing the election of Carvajals as the successor to President Jimenez, believing as it does that the impeachment of Jimenez was an illegal political coup engineered by the minority and revolutionary leaders in the chamber of deputies.

An absence of ice in the Atlantic steamship lane, unusual at this time of year, was reported by the United States cutter Seneca on her arrival at Halifax, N. S.

Counterfeit \$10 notes of the Federal Reserve banks of New York are in circulation in New York City, the treasury department announced.

## PREDICT LARGE INCREASE NEXT YEAR IN PUPILS

### At Least 1400 New Students Will Enter Public Schools, Kinney Estimates

Between 1300 and 1400 new students will enter the public schools of the territory when those institutions open next September for the 1916-17 term, according to estimates worked out by Henry W. Kinney, superintendent of public instruction. The present enrollment is 30,577 and it is estimated that, with the close of school next month, only about 900 students will leave the institutions.

The appointment of teachers for the coming school year, as well as the consideration of applications for transfers and of other routine business, will be taken up at the annual meeting of the school commissioners, which begins on Monday, May 29, and ends on May 30. Commissioners present will be: W. H. Smith, Hawaii; Mrs. B. D. Bond, Hawaii; Mrs. Theodore Richards, Oahu; L. G. Blackman, Oahu; D. C. Lindsay, Maui; Eric Knudsen, Kauai. Others present will be Superintendent Kinney, George S. Raymond, school inspector, and Miss Daisy Smith, secretary of the board.

Commissioner Smith, who has been on the mainland during the last several months, will not return to Honolulu until May 30, and it is largely on this account that the second session will be held. According to Superintendent Kinney, the meeting will be a "quiet" one. As far as he knows, there will be no new policies adopted or new projects launched. However, the members of the board may have some suggestions to make along these lines, he says.

Superintendent Kinney will submit to the board his recommendations for the summer school staff. The summer school will open on July 5 and continue for 20 school days. Eleven teachers, including a director, will be necessary. It is expected that at least 150 pupils will enroll.

George Pison, aged 74, last of the 19 who followed John Brown in his field on Harper's Ferry in 1865, died at his home in Yonkers, N. Y.

Many American business men in Germany have made preparations to leave that country if diplomatic relations between the United States and Germany are severed.

'A FULL HOUSE' IS FARCE WHICH AT TIMES GOES INTO SILLINESS

Lytell-Vaughan Company Does Best Possible Work With Some Absurd Material

'A Full House' opened at the Bijou last night for the first half of the week, with the Lytell-Vaughan company scoring a hit in a play which is perhaps the weakest it has offered here.

The Cast.

- (In the order of their first appearance.) Parks, a servant... Ethelbert D. Hales Susie, from Sioux City, a maid... Evelyn Vaughan Ottilie Howell, a bride... Jane Darwell Miss Winnecker, the aunt... George Knowlton Daphne Charters, Ottilie's sister... May Thorne Nicolas King, a stranger... Bert Lytell Ned Pembroke, an only son... Phillip Tead George Howell, a bridegroom... Alexis Luce Daugherty, a police sergeant... William Amsdell Jim Mooney, a policeman... Henry Shumer Mr. Fleming, owner of the apartment... Ernest Van Pelt Vera Vernon, a show girl... Jessie Schouler Mr. Pembroke, from Boston... Charles Edler

'A Full House' is a farce-comedy which has a number of clever and always amusing situations, some sparkling dialogue, several funny

characters and a plot based on the familiar theme of a husband who goes away from home and tries to deceive—though for an innocent purpose—as to his trip.

Its weakness is in the silliness of some of the situations and dialogue. The fun is pushed too far, as the audience showed last night by relapsing into watchful waiting instead of keeping up the bombardment of laughs which greeted the really good scenes.

As to the actors, they scored successes by grotesque make-ups and their natural adaptability. Miss Vaughan appears in a character which is a cross between Sts Hopkins and Hilda, the Horrible Servant Girl. Her courage in taking the part and carrying it to its absurd lengths deserves recognition. Furthermore, even its manifest absurdities usually were laughable. Bert Lytell as a flashy crook had a rather empty part which is immensely below his capabilities. Ethelbert D. Hales gives a splendidly good performance of a typical stage version of the English butler and every other part was well taken. In fact, the play is saved from even more silliness than it possesses by the excellent character work of the cast.

It is worth seeing for those who enjoy sheer nonsense and farce that occasionally barely misses burlesque. There are plenty of people who do enjoy uproarious fun, the writer being one of them, and two-thirds of 'A Full House' is worth seeing. The rest can easily be endured for the sake of what is good.

VIOLA ALLEN IS NATIONAL STAR

Viola Allen, for years a famous actress of the legitimate stage, and Richard C. Travers, silent drama's foremost actor, come to the National theater tomorrow as co-stars in 'The White Sister,' the dramatization of F. Marion Crawford's novel of that name. Miss Allen starred for a long time in the legitimate production. In the film presentation she was given the strongest supporting cast money could obtain and this has been combined with some remarkable feats of motion photography.

An idea of the strength of the cast may be gained from the fact that Ernest Maupain, who takes the role of Dr. Pieri, was for years Sarah Bernhardt's leading man. Sydney Ainsworth, whom Honolulu picture fans know and appreciate, John Thorn, Camille D'Arcy, John Costar, Thomas Cummertford and Frank Dayton take the remaining principal parts.

A novel introduction to the story is employed. The novel, 'The White Sister,' glides out on the stage, apparently without human agency, presents its back with the title of the book, turns around and opens the frontpiece, showing a full length picture of Viola Allen. Miss Allen is then seen to step right out of the page in diminutive form and increase to natural size, when she makes a bow to the audience and the play is on.

'Sweet Alyssum,' the powerful photo-drama with Kathryn Williams and Tyrone Power in the leading roles, will be shown this evening for the last time in this city.

BIG SITUATIONS MAKE 'THE CHEAT'

Another packed house greeted Fannie Ward and Sussue Hayakawa at the Liberty theater last night, where the sensational Jesse L. Lasky photo-drama 'The Cheat' is the drawing card. Many patrons of the Liberty theater and followers of Paramount Pictures have been heard to remark that 'The Cheat' is the best Paramount picture to be sent to Honolulu in months. It is a daring plot in which are entangled a 'butterfly' society woman and a wealthy Japanese

'WORMWOOD' WILL FASCINATE ALL

Marie Corelli has given to the world a large number of fascinating novels, but probably none with more punch than 'Wormwood,' the novel that is given credit with having influenced the United States government in placing a ban on the importation of absinth in any of its insidious forms. The story is weird and as a photoplay is one of the sensations of the year. 'Wormwood' comes to the Hawaii theater for a limited engagement, a Fox Film Corporation production with a cast of favorites direct from Broadway.

Its producers herald the cast of 'Wormwood' with that much abused expression, 'all-star cast,' but in the present case this praise is not extravagant. The principal parts of 'Wormwood' are so capably handled that a splendidly adjusted dramatic balance is the result. Ethel Kaufman, a 16-year-old leading woman, as Pauline, is wonderfully appealing and charming in the character of the unhappy little heroine. Few actresses come to mind who could have so perfectly both looked and played this role, which is by turns winsome, pathetic and then suddenly great with raw tragedy. John Sainpolis, as Gaston Beauvais, the absinth fiend, gives a rendition of the character which can only be called startling in its realism. Charles Arthur makes an effective and sympathetic characterization of Silvion Guidel, the young priest, and the same may be said of Edgar Davenport, always a favorite; Lillian Dilworth and others of the long cast.

resident of an eastern summer resort. Fannie Ward is surprising her many admirers by her dramatic and emotional work in this offering, her previous film appearance, 'The Marriage of Kitty,' having shown her as a comedienne. There are several scenes in 'The Cheat' in which Miss Ward rises to emotional heights that place her in a class near the head of the list.

Sussue Hayakawa, the eminent Japanese actor, has been seen in a number of Lasky offerings, but in none has been called upon to do any better work than in 'The Cheat.' The situation that develops is one that might be compared to 'The Typhoon,' the feature in which Hayakawa visited Honolulu a number of months ago. 'The Red Circle,' while introducing some highly probable situations, is a melodramatic detective story and is a most fascinating and entertaining serial. The artists are above the average and the photography is excellent.

Twenty-four thousand miners employed in the Pittsburg district went on strike when the 5 per cent wage increase granted them was not contained in their pay.

A report from Berne says that Germany has constructed 27 large submarines since the war began.

SPORTS

PUNAHOU SQUAD LOOKS GOOD IN JUNIOR LEAGUE

Punahou will be ready for the opening clash on Saturday afternoon in the Junior League, when they will meet one of the strong aggregations. The players will go out for practice on Thursday and John O'Dowda has lined up a number of fast men for the organization.

Among the players who will go out for practice this week are Girdler, Littlejohn, Nottage, Winne, Zabrash, Fred Carter, Noble, O'Dowda, Zabrash, Keppeler, Cummings, Quintal and Corea. 'Kelley' Henshaw and Walter Argabrite have consented to coach the boys, and with two players who know the game from every angle the Punahous should make a good showing.

To date the Junior League teams have made a good impression, and with the entrance of Punahou into the field the race promises to be an exciting one. The Chinese and Filipinos could not play on Sunday owing to wet grounds, and both teams are anxious to get into the game. Manager Ocampo will have his full strength in the field, and with a good collection of hitters the Filipinos should rattle the boards some in the coming game.

159TH COMPANY WINS ONE MORE SHUTOUT GAME

The 159th Company scored another shut out on Sunday afternoon when they defeated the Co. E team of the 2nd Infantry by a score of 1 to 0 at Fort Ruger. South pitched good ball, and Simons held the Coasters to five hits. Stewart, the star right fielder of the Coasters, received an injury which will keep him out of the game for some time.

Score: 159TH CO., C. A. C. AB R H PO AS E Perry, c 4 0 0 10 2 0 White, cf 4 0 0 0 0 0 McClain, ss 4 1 1 2 2 0 Smith, lf 4 0 0 3 0 0 Benham, 2b 3 0 0 2 3 0 Bailey, 1b 3 0 1 9 0 0 Stewart, rf 2 0 1 1 1 0 Womack, 3b 2 0 0 0 3 0 South, p 2 0 0 1 0 0 Hinz, cf 2 0 1 0 0 0 Totals 29 1 5 27 11 0

KALUWELA KROWD KLEAN KALIHU; KOREANS COLLECT

INDOOR BASEBALL. W. L. Star-Bulletin 2 0 Kauluwela 1 1 Kalihii 0 2

Last night at Kalihii the Kauluwelas broke into the winning column by defeating Kalihii in a heavy hitting game, 30 to 20.

For the first five innings the Kalihii team lead, but in the sixth the Kauluwelas got to Beck and pounded his delivery to all parts of the field, and in the remaining innings the Kauluwelas seemed to experience no difficulty in solving the delivery of the two pitchers who followed Beck.

Santos for Kalihii led in hitting for his team, while Rosario and Shinichi divided batting honors for Kauluwela. Kauluwela had all the best of the fielding and played better than the Kalihis.

The next game will be between the Kauluwelas and the Kalihis next Tuesday night, the game to be played at Kauluwela. The game starts at 7:30.

VOLLEY BALL, JUNIOR LEAGUE. W. L. Koreans 6 1 Kalihis 6 1 Kakaako 5 5 Emp. Boys 3 5

MIDGET LEAGUE. W. L. Kakaako 5 1 N. A. C. 5 1 Crescent 2 4 Kalihii 0 6

Yesterday morning the N. A. C. volleyball team by taking the fast Kakaako team into camp tied that aggregation for first place and an extra game will have to be played next Saturday morning to decide the cham-

WAR, PATRIOTISM AND FREE SPACE

(An Editorial from Printers' Ink)

At the beginning of the war great pressure was brought to bear upon the newspapers of the various belligerent nations to donate their advertising space for patriotic purposes. From so many quarters did the appeals come that it soon became evident the publishers would go bankrupt if they yielded to all the calls. Consequently, they soon saw the necessity of a definite policy and of concerted action. They were patriotic and were anxious to do all they could to promote the cause of their respective governments.

But—is not advertising space a commodity with just as definite a value and just as fixed a manufacturing cost as a case of cart-ridges or a carload of canned goods?

If the manufacturers of munitions and other supplies were to be paid for the products of their factories, then why should not the manufacturers of advertising space be paid for the products of their factories? To give their space away would be to depreciate the value of advertising in the mind of the public at large.

We are all familiar with the advertising campaign in England to secure recruits, and we all know what great results were achieved. Now, this space was paid for in cash—not donated. The individual publishers contributed to the fund in the shape of checks and taxes, just like other business men.

Similarly, in Canada, the publishers had to decide what their policy would be. Did patriotism demand that they donate their space to all the objects growing out of war conditions? Or, were they justified in viewing their advertising as having as fixed a value as any other commodity needed for the equipment of the army and the prosecution of the war?

The answer is supplied in a letter to Printer's Ink from Charles F. Roland, president and general manager of the Winnipeg Telegram. We commend Mr. Roland's logic to the body of men who, in the years to come, expect to continue making their living out of the sale or purchase of advertising space:

"The policy adopted by the three Winnipeg papers is to charge the 10,000-line rate to all patriotic, Red Cross societies and organizations doing war-relief work. This plan was considered from a business standpoint, as advertising space is the only commodity the newspaper has to sell.

I might add that the three Winnipeg papers are contributing

in cash to patriotic funds \$7,000 this year; the Winnipeg Free Press giving \$3,400, the Winnipeg Telegram \$2,500 and the Winnipeg Tribune \$1,200. I understand this same policy was adopted in Toronto by the Toronto Mail and Empire, the Globe, the World and the News.

"Previous to February 1, when I became associated with the Winnipeg Telegram, I held the position of secretary-treasurer of both the Manitoba Patriotic Fund and the Manitoba Red Cross Society. During the first year of the war we raised by public subscription, through the use of four-column to full-page appeals in the newspapers, over \$1,000,000 in cash; for the Red Cross Society we used only small space, which had the result of bringing in over \$250,000 in cash and supplies during the first year.

"Ten days ago Winnipeg required \$50,000 additional funds for patriotic purposes. The committee in charge of the campaign used five-column display announcements in each of the three Winnipeg papers for five days, and when the campaign closed the amount was over-subscribed.

"The Canadian Red Cross Society has sent millions of dollars' worth of goods to the battlefields of Europe, and the Manitoba Patriotic Fund, which helps to provide for the wives and children of the soldiers on active service, is paying out nearly \$100,000 per month.

"It would be just as reasonable for the Red Cross Society to go to one of our wholesale dry-goods houses and ask them to supply one hundred rolls of hospital linen as it would be to come to our newspapers and ask us to contribute our space free. Our space is just as much of a staple commodity with us as the linen is with the wholesale dry-goods house.

"The policy adopted has received no criticism; on the other hand, the patriotic societies only use a limited amount of space at such times as they are absolutely in need of funds."

There can be no question but that the stand of the Canadian and English papers is both patriotic and business-like. Under such a policy as Mr. Roland describes, advertising will emerge from the war with respect for it increased, rather than diminished.

Supposing the Canadian publishers had chosen to give away a million dollars' worth of space. People would have been quick to say, "Oh, it didn't cost anything—probably it isn't worth anything!"

But, instead of giving away a million dollars' worth of space, the Canadian papers charged their government a fair price and then, from a modest campaign, produced a million dollars' worth of results.

Which is the better advertisement of advertising—to give away a million dollars' worth of space, or to demonstrate that intelligent advertising can be made to yield a million dollars in direct returns?

And as for patriotism—we think the stand of the Canadian publishers was absolutely unimpeachable. What is freely given away is always lightly esteemed. If the Canadian dailies had donated out of hand a million dollars' worth of space, the chances are the space would have been filled with perfunctory, flabby copy. There would have been no returns worth talking about, and advertising would have received another black eye.

The American Newspaper Publishers' Association, meeting this week in New York, has just put out a bulletin to its members, the sentiments in which seem, not only to Printers' Ink, but to a great number of advertisers and advertising agents, to be thoroughly sound and deserving of applause. This is the official expression of the greatest and most influential organization of newspapers anywhere in the world:

Is the American Newspaper Published for Love?

"Great Britain advertises in the newspapers for recruits and pays the newspapers for transmitting its messages to the public.

"Canada pays the newspapers for advertising her apple crop, for patriotism and production, a campaign to secure increase in agricultural production and a town-plot-cultivation campaign to increase the number of backyard gardens under cultivation, and also a campaign to increase the consumption of peaches and plums.

"The United States Government, and some others, seem to view the newspaper as an omnibus, designed for free transportation. The Government, however, pays its way in all other lines, including billboards for securing recruits.

"Are the newspapers of Great Britain and of Canada lacking in patriotism? Henry Ford pays for his peace advertising. The American Defense Society seeks the news columns to push its propaganda."

Printers' Ink believes in patriotism, preparedness and publicity—but refuses to believe they are objects of charity.

## Honolulu Y. M. C. A. Wins American Title In Swims

### Local Association Captures Pentathlon Meet With Hundreds of Teams Entered—Chicago Y. M. C. A. Takes Second Place—Associations Compliment Honolulu on Great Showing—"Stubby" Kruger May Have Chance for Individual Honors

"Honolulu Y. M. C. A. wins first place in pentathlon" was the news of the local association has just received and proved that this association has the best crowd of tank swimmers of any association in North America. Even Chicago Central, with its wealth of material, had to trail behind the locals, for while Honolulu won 12,751 points for its total score, Chicago gathered but 11,524. And the difference is more than is apparent. For the associations are divided into three classes, according to their membership, and Honolulu, having a membership under 1,500, goes in class B. While Chicago Central was able to win in class A with her 11,524 points, Honolulu not only won class B handsily but excelled her superior-numbered associations and excelled the whole field.

This morning's mail brought the letters which amplified the news so barely told by cable, and the following letters were received by the association. The first one is dated May 10 and is from Dr. Wm. H. Ball, the international secretary in charge of the swimming. He says: "This will serve as a notice that you won in your respective class in the life-saving pentathlon, your final score being 12,751. "Send a Photograph." "Send on a first-class photograph of your group at once. It is important that it should reach us at the earliest possible moment."

The second letter is dated May 12 and is as follows: "Dear Friend Jackson: "Yours of April 25 addressed to Dr. Fisher in reference to life-saving pentathlon matters duly received. Your telegram certifying the amateur standing of the men also received. Thank you very much for all this material. By this time you know that you won first place among the class B associations. In fact, your score exceeds that of the winning association in class A, for Chicago Central won that class with a score of 11,524. And Beverly, Mass., won class J with a score of 3141. Jackson Helps Committee.

"I appreciate particularly your thoughtfulness in working over the matter so carefully and sending the suggestions you did in regard to improvements for the next contest. I am presenting these matters to the swimming committee at our meeting at Cleveland and know that they will receive very careful consideration. Yours, etc." The pentathlon, as the swimmers

## KNIGHT HOLDS KAYS RUNLESS AT FT. SHAFTER

### Eyes Win From Kays By Score of 4 to Nil; Dees Win Slugging Battle From Seas

[Special-Star-Bulletin Correspondence] FORT SHAFTER, May 23.—Scores—1 Company 4, K Company 0; D Company 9, C Company 2. The excitement yesterday in baseball at the fort in the double-header was a victory for I Company over K Company by a score of 4 to 0, this being the first whitewash of the season, and showed K down from first place in the battalion, and was due as much to K's hard luck as to I Company's good playing.

Simmons, K Company's famous pitcher, would have given I Company more trouble than they had and the story would have been a different one had it not been that he had to quit the box in the fifth inning in favor of Amama on account of a sore arm, as he was worked too hard in Friday's game, from which he had not recovered. Amama could not keep up Simmons' good work, for soon after getting in the box he was unable to hold down I Company, and gave them a walk and two hits, from which they accumulated three runs as well as the game. During the game Knight, for I Company, allowed but one hit for K Company and Zackris, right fielder, gets the credit. The other game between C and D Companies was an easy victory for D, to the tune of 9 to 2, and at all times of the game the boys from Company D played circles around their opponents. At no time of the game did C Company have a chance of victory, as D Company each inning continued to pile up runs, while C got only one run in the third and fourth innings. The latter part of the game was marred by rain and after the sixth inning the game was called.

K Company and I Company Game. Zackris, the first man to the bat for K Company, knocked a low one between Carl, who was playing well off, and first base, and made K Company's only hit of the game. However, Zackris' joy was of short duration, for it all looked too easy and when he tried to steal second the wily Knight caught him napping and threw Carl, who sent him back to the bench. Gaving fanned and Johnson drove to Wenzel, who threw him out to first. It looked like I Company would score in the first inning when Amama got to third and made a dash for home when Whitaker threw to second, but was nabbed by a close shave. In the second inning I Company scored when White singled to right field and later scored on Whitaker's throw to second and Galvin fumbled the pill.

Three Runs In. From then on until the fifth inning no harm was done by either team and it looked like this would be the final score, but Simmons, on account of an injured arm, retired, and Amama took his place. Johnson's ribs were tickled and he took first base; Schoonover followed by walking, and Knight knocked a Texas and filled the bases. Things looked pretty rosy just then, but Yocum knocked a pop fly to third and was out. Davis was next up and drove a long single which scored the three on bases. After this K Company never had a look-in, and during the remainder of the game neither did further damage. It was a good game and both teams played well. Knight deserved full credit as he struck out eight and used his head at all times. D and C Companies Game. In the first inning C Company looked as though they would score when O'Neil knocked a safe fly to Jackson, but fumbled the pill. Later he stole second and third, but here he died as the next three up went the 1, 2, 3 route. D Company came back strong and Jackson, Peed and Madena each knocked long ones to center field, scoring Jackson, and Peed. After this it was a cinch for D Company, and they piled up runs at will, making one in the second, another in the third, two in the fourth, one in the fifth and two in the sixth.

C Company had a ray of hope in the third and fourth innings, but it was due more to D Company's hard luck than to C Company's good playing. In both cases the pill was fumbled and C Company benefited by wild throws. In the fourth inning the grand stand was all excitement when C Company had the bases full and none out. Jackson was in the box and held his nerve and pitched as pretty a ball as has any one in the league as he struck out O'Neil, Essex and Sanderson and pulled out of a most difficult situation. He deserves much credit for his victory and throughout the game played steady ball besides knocking out the only three-bagger of the day. Hollerback was pounded by D Company at will, but would have come out better had he been better supported.

Fireman Frank Cook was killed and Engineer H. W. Anderson seriously injured when they jumped from a Burlington passenger train near Stewartville, Mo., after the boiler exploded.

## TIN CAN PUT OUT MADE IN PICNIC PASTURE LEAGUE

### George K. Larrison Tells of the Time He Made Decision on Putout By Shirt Tail

Here is a story that George K. Larrison, territorial hydrographer, tells regarding the old bush-league days in the Middle West: "I was umpiring a game between two hot rivals," says Larrison, "and we were playing in one of those baseball parks that are used for the national game, for picnics and pastures. "One of the batters pounded out a low hot fly just beyond reach of the second baseman's glove. The ball hit the ground a few rods behind the second baseman, and at the first bounce crashed into an old tomato can.

"The baseman saw what had happened and ran for the can so as to get the horsehide out and cut the man from making second. The shortstop covered second and waited. Lid Was On. "Now as luck would have it," says Larrison, "the can into which the ball had fallen happened to be one of those with the lid still on, bent down inside. As soon as the ball entered it the lid snapped back and covered it. "As soon as he saw how the ball was fastened in the second baseman began running with the can toward the baserunner, who, seeing that the baseman could not get the ball out, kept on around the bases. "It is the rule in baseball that the ball has to touch some part of the runner's body or clothing, and feeling confident of his safety the runner in question kept on.

"He rounded second and plowed on toward third, the second baseman still in hot pursuit and still trying to get out the ball. By this time the whole crowd was wild with the excitement of the chase, and though the baseman, being the faster runner, had caught up and was having the easiest part of the race, he was putting most of his efforts into extracting the ball. Shirt Tail Saved Day. "Round third they dashed and began the last lap toward home, the crowd yelling at the top of its lungs for its separate favorites. Finally the second baseman, giving up hope of extracting the ball, reached for the shirt tail of the runner which had become loosened in the chase, and jammed a portion of it down into the can and touched the ball. I called the runner out," says Larrison, "three inches from the plate."

## CHAMPIONSHIP GAME SCHEDULED TOMORROW

Tomorrow afternoon at 2:15 the 15th Company will meet the 1st Infantry at Athletic park. This game will be played for the company championship of the islands. The admission charge will be 25 cents for all parts of the field. South will go on the mound for the 15th Company, while Shelly has a dark horse to send into the box for the Schofield team. The lineup of the 15th Company for tomorrow is as follows: Benham, c; South, p; Bailey, 1b; Perry, 2b; Womack, 3b; McClain, ss, with Smith, White and Hinz in the outfield. The Company K lineup will be as follows: Woodfin, p; Bezergelis, c; Langling (captain), 1b; McCandless, 2b; Shulton, 3b; Ross, ss; Hopper, lf; Drzdinkin, cf; Muller, rf. Fifty per cent of the proceeds will be devoted to the Fresh Air Fund, and the other 50 per cent to the Leahi Home.

## A. L. CASTLE TO PLAY TENNIS ON MAINLAND TOUR

A. L. Castle left at noon today for the mainland, where he will compete in a number of tennis tournaments in various parts of the United States. While in the East he will meet Irving Wright, and it is thought that these two players will take part in the doubles at Philadelphia and New York. Irving is a brother of Beals Wright, well-known here. While in the East Castle will see a number of the Eastern baseball teams in action and may make arrangements to bring a strong Middle West university team to Hawaii next summer. Before leaving Castle stated that he may make arrangements to secure either Michigan or Illinois for a series here. Either team would have a strong following, as both Ann Arbor and Urbana have turned out strong aggregations. Tennis Play. During his stay in California it is expected that Castle will take part in one or two tournaments and may also play in the doubles with one of the coast stars. The proposition of securing a coast league team to come here next winter will also be taken up while he is on the coast. It is expected that he will make the side trip to Santa Clara to watch the varsity team in that city.

The Spanish ambassador in Vienna has informed Princess Natalie of Montenegro, that her husband, Prince Mirko, second son of Prince Nicholas, is at a sanitarium in Vienna.

## KUMIGAE WILL PLAY HERE IN TENNIS MATCH

### Champion Racquet Wielder of Japan Invited to Come to Honolulu for Tournament

At a meeting of the Hawaiian Tennis Association, held on Saturday afternoon, members of the committee voted to ask Kumigae, the great Japanese tennis player, to come here for the next tennis championships during the Carnival. Kumigae defeated Clarence Griffin at the Manila tournament and has made a great record in the racquet world. He first started his play with a rubber ball, but increased his work to such an extent that he finally won the championship of the Orient. Great Player. Griffin states that Kumigae is a great player and believes that Japan will produce a number of racquet stars in the future. Other Japanese are taking up the sport and the recent showing made by the doubles team at Manoa has given the court game a big boost among the Nipponese. It was decided not to hold the Castle tournament until later in the year, as little interest is being taken in tournament play at the present time. The committee voted in favor of having ladies' singles and doubles and mixed doubles at the next island championships.

## ST. LOUIS WINS ANOTHER GAME IN SCHOOL LEAGUE

Kamehameha surprised many of the critics yesterday afternoon at Athletic park when they held the St. Louis team to a single run. Kam did not score, but their work was better than was expected, as the St. Louis team have been playing great ball this year. Kalkaka was on the mound for the Kam team, and the big pitcher was in great form, outpitching the St. Louis heater. Great work by Dover in the outfield kept the score down. Hussey behind the plate showed up well, as did Spencer for St. Louis. St. Louis scored their only run in the first inning, when Kurisaki of the Nippons in the Junior League crossed the plate when Fernandez hit safely to the outer garden. A large crowd attended the game, which was exciting throughout. The victory assures St. Louis another championship to add to the track and basket-ball championships already won.

Batteries—St. Louis College, Baptist and Spencer. Kamehameha—Kalkaka and Hussey. Umpires—Cpl. Kane of Fort Shafter and Manuel Frazier. The score and hits by innings: St. Louis ..... 1 0 0 0 0 0 0 0—1 Base hits ..... 1 0 0 1 2 0 1 0—5 Kamehameha ..... 0 0 0 0 0 0 0 0—0 Base hits ..... 0 0 1 0 2 0 1 0—4

## FIRST ROUND OF PLAY COMPLETED IN GOLF MATCH

### Moanalua Slicers Disturb the Brush in Effort to Go Round in Close to 100

Members of the golfers' union now competing in the Moanalua tournament have completed their first round of play and the losers will now gather up their implements and proceed to practise for the consolation play. Much interest has been taken in the tourney and Saturday and Sunday saw nearly 100 players on the course. Much credit is due the Damons for the pleasure that has been given for the royal and ancient slicers, and with the course in good condition the interest is at fever heat. Despite the fact that much of the brush was disturbed in the battles last week the players are still confident that they will improve. No scores were given by the losers. The following was the result of the first round of play: W. R. Roxburgh defeated Lieut. H. D. Burdick. R. Anderson defeated W. R. Ouderkirik. R. R. Craik defeated J. C. McGill. John O'Dowda defeated Owen Merrick. G. Le Clair defeated "Koley" Henshaw. J. Linn defeated Ed Nell. A. Auerbach defeated Walter Argabrite. J. Kerr defeated G. Scott. Allen Davis defeated A. M. Hamrick. Gray Zabriskie defeated W. J. Peterson. R. Cullen defeated J. Cullen, Sr. Douglas Damon defeated J. M. Douglas. The second round of play will be completed Sunday afternoon, May 28.

## NUSHIDA OF ASAHI TEAM PITCHES NO-HIT GAME

Pitcher Nushida of the Asahi equalled the world's record on Sunday at Makiki field when he held the Young Braves to no hits and no runs for nine innings. The Nippons secured seven runs during the game. Mamiya was a bright and shingling star for the Asahi, playing a great game at short field, and in addition secured a homer. Yasunaga in center field made a number of difficult catches. The players who performed in the record contest were as follows: Asahi—Yoshikawa, c; Nushida, p; Yamashiro, 1b; Murashige, 2b; Miyahara, 3b; Mamiya, ss; Murakami, lf; Yasunaga, cf; Yokomoto, rf. Young Braves—Camara, c; Dora, p; Martin, 1b; Ekerf, 2b; Alvirous, 3b; Cabral, ss; Tifer, lf; Cambra, cf; Rosa, rf. All Washington state armories have been placed under guard.

AUCTION BULLETIN.

There is something fascinating in looking over the auctioneer's stock, and when you can save a lot of money by keeping a lookout for what you require, as it inevitably comes into the Honolulu Auction Rooms sooner or later and you can get it at your own price usually and very often quite superior to the ordinary run of goods, then it is quite worth while.

We are ready to call for your surplus furniture and other goods at short notice and turn them into cash promptly.

On Friday we shall sell a lot of Suspenders, Furniture, Japanese Goods. As usual we do not know what will turn up; things are always moving. ONE FINE DRAFT MULE will be sold.

F. Morgan Co., Ltd., Auctioneers.

**In the Woman's World**  
 Talks with Screen-Struck Girls  
 by Beatriz Michelena  
 Copyrighted January, 1916, by Beatriz Michelena.

A GIRL WRITES from Cleveland asking, "Does a motion picture actress have to work hard?" She asked other questions as well, but they counted for nothing since this was her first and after that I knew she had no business in pictures. The girl who starts out worrying about how hard she will have to work is not the kind that will ever get anywhere, for there is work and lots of it between the foot of the ladder and the top in the motion picture profession. And yet I believe there are girls, and men, too, who wish to get into pictures because they believe it all easy. How little they see of the real studio life in the film after it is finished for projection they cannot know. They see their heroine on the screen sail triumphantly through a scene with never a hitch. There is not the least semblance of an effort. Nothing could very well appear easier. And yet very probably that same scene has been the source of interminable worry and nerve racking endeavor. It has very likely been rehearsed and then taken and retaken until every eye felt his patience worn to a ragged edge. Moreover it may have been taken under a blistering sun with glaring white diffusers to make matters worse. Or it may have been under artificial lights that generate a suffocating heat and almost blind one through the intensity of their rays. At many a day's end does the actress find herself completely fagged in body and mind. Her eyes and head will ache at almost bursting point. It is caused by the sun and the glare and the maddening irritation of a make up that she must wear from morning until the sun falls at night. Nowhere does one need a better stock of patience than in pictures. It is very largely a matter of details that require the most tedious and undivided application. Nothing counts but the day's work and all thought of personal convenience must give way to that. If a girl is genuinely in love with the profession and it is a love that concerns itself with results to be obtained for the profession instead of with certain points of personal vanity, she can very easily discount these hardships. But if she is the kind to worry about how hard the work is, she should never hope for success in motion pictures.

**BEAUTY CHATS**  
 EDNA KENT FORBES  
 No Real Ugliness

**HOMELINESS** is a mental state—actually there is no such thing. This may sound like a preaching on Christian Science, and in a way it is—since this Science recognizes that all things begin in the thought that creates them. An ugly mind produces an ugly face, though the features may be perfect enough. I do not say that there are not plenty of ugly, repulsive creatures walking about—I do say that these are the result of ugly thoughts and actions, and that, as there is no one creature entirely bad, so there is no one entirely ugly. But we are speaking here of the ordinary everyday type, which is not the type that indulges much in deeds or thoughts that are bad and ugly. First I would tell you to think of beauty—beauty in everything. You will find it in a baby's laugh, in a patch of sky, in the love of your nearest friend. The thoughts of beauty will slowly but certainly light up your face, and make it lovelier. Then, observe the fundamental rules of health—since health is beauty. Sleep at least eight hours a night, crowd in as much exercise in the open air as you can, eat plenty of nourishing food, well cooked and simple in character. Other remedies are external, and while effective, only temporary. Cleanliness of course, is a thing we take for granted. I am sure, from having studied hundreds of women, that the observance of these rules means beauty. Old cream will not clear a skin constantly being filled with poisons from an overloaded digestion. So, begin at the very beginning, get your mind pure and clean and beautiful, and the rest will follow with little help. Questions and Answers  
 I am a young man, about nineteen, and my skin is always broken out and very itchy. Do you also give advice for this?  
 [Protected by The Adams Newspaper Service]

**Breakfast For a Child**  
 MANY children do not know the taste of meat up to the seventh year, but if a child is anemic a tender, juicy chop, cooked slowly, but not too well done, or a piece of roast mutton or beef may be given once a day, at breakfast or noon, but never at night. Never give pork, veal or fried food. Among vegetables, spinach, carrots, onions and baked potatoes are best. Salads with mayonnaise dressing are excellent for children, but they seldom care for them except lettuce sandwiches, made of buttered whole wheat bread with young leaves of lettuce between, sprinkled with salt. Cooked fruit is good for young children. The best way to cook it is to put it in the double boiler with half a cupful of water to a quart of fruit and let cook until soft, then add the sugar at the table as required. Many fruits are sweet enough in their cooked form. A little cornstarch will make the juice appetizing, thick and rich. Apples,

pears, peaches and bananas may be baked in the oven, in a casserole, only a little water being added and the casserole covered. Cereals, properly cooked, mixed with dates or figs, are excellent, accompanied by rich milk or half milk and half cream. An ideal breakfast for a child of six consists of either stewed fruit or a small glassful of orange juice, a well cooked cereal, slices of whole wheat or Boston brown bread, or toast, and a glass of milk. Among cakes, gingerbread, ginger cookies, raisin cookies and patty cakes can be eaten. Chicken, roasted or broiled, is also suitable for children, together with rice. The rice should be well boiled in salted water or in half milk and half water in a double boiler, or it may be made into a creamy rice pudding, the proportions being a tablespoonful of well washed rice to a quart of milk and two tablespoonfuls of sugar. Bake slowly for two hours.

**BEAUTY SEEKER AND COIFFURES**

Coiffures have emerged from a period of plainness and are sharing with other styles in the revival of intensely feminine ideas. Full skirts, quaint panniers and intricate draperies that reflect the modes of almost a century ago, are established fashions for the coming summer. Naturally coiffures have been elaborated to keep them from being incongruous and the same influences have produced hats more trimmed than for many years. In nearly all of the new styles in hair dressing the hair is waved and a few short curls or small puffs are used. In many of them the front hair is combed back from the forehead and over the ears at the side, and the back hair placed in several coils across the head above the nape of the neck. This arrangement is appropriate for youthful faces and, for the little maid from seven years to twelve or so the "Bobby" styles are liked. If the child has long hair nothing is prettier than two loose braids bound about the head.—Woman's World for May.

**PHYSICIAN'S SKIN REMEDY**

Dr. Holmes, the well-known skin specialist, writes: "I am convinced that the D. D. D. Prescription is as much a specific for Eczema as quinine for malaria. I have been prescribing the D. D. D. remedy for years. This soothing compound of oil of wintergreen and other healing ingredients gives instant relief the moment it is applied. It sinks through the pores, kills and throws off the gnawing disease germs and quickly heals the inflamed tissues. All cases of skin disease, mild or violent, yield to this soothing liquid wash, the D. D. D. Prescription. Come in and let us tell you about our money back guarantee that D. D. D. will do what is claimed. You will be the judge. Ask about D. D. D. Soap. Its steady use keeps the skin always healthy. Benson, Smith & Co., druggists.—Adv.

**ODDS AND ENDS**

Kid gloves may be cleaned when slightly soiled with a small piece of oiled silk wound tightly about the finger and rubbed vigorously over the surface of the glove. If vessels in which milk is to be boiled are first well greased with butter, the milk will not burn. This hint is especially useful when one is making hasty or minute pudding, corn starch, etc. If a shoe pinches in any particular part, a cloth wrung out in hot water and laid over the place while the shoe is on the foot will expand the leather and give relief. A black leather travelling bag can always be kept in capital condition by rubbing one teaspoonful of milk well into the bag. After it has thoroughly dried it should be polished with a chamois leather. If stains of grease are not old and hard go over thoroughly with common white chalk and let it remain a few hours. Then brush chalk until it is completely brushed out of the fabric; chalk and grease will entirely disappear. Boiled olive oil to which a few drops of vinegar has been added is fine for highly polished surfaces. Apply in moderate quantities and rub with a soft flannel cloth.

**POSTOFFICE TIME-TABLE FOR MONTHS**

Following is the postoffice timetable for May and the first half of June. It is subject to change if sudden arrangements are made for unexpected mail service.

**UNITED STATES MAIL STEAMERS**  
 Steamers to arrive from—

# BEFORE ADAM

By JACK LONDON

Copyright, 1907, by the MacMillan company.

At last my father joined us. He was extremely angry. I remember the out-thrust of his protruding underlip as he glared down at the wild pigs. He snarled something like a dog, and I remember that his eye-teeth were large, like fangs, and that they impressed me tremendously.

His conduct served only the more to infuriate the pigs. He broke off twigs and small branches and flung them down upon our enemies. He even hung by one hand, tantalizing just beyond reach, and mocked them as they gnashed their tusks with impotent rage. Not content with this, he broke off a stout branch and holding on with one hand and foot, jabbed the infuriated beasts in the sides and whacked them across their noses. Needless to state, my mother and I enjoyed the sport.

But one tires of all good things, and in the end tires of all good things, and in the end my father, chuckling maliciously the while, led the way across the trees. Now it was that my ambitions ebbed away, and I became timid, holding tightly to my mother as she climbed and swung through space. I remember when the branch broke with her weight. She had made a wide leap, and with the snap of the wood I was overwhelmed with the sickening consciousness of falling through space, the pair of us. The forest and the sunshine on the rustling leaves vanished from my eyes. I had a fading glimpse of my father abruptly arresting his progress to look, and then all was blackness.

The next moment I was awake in my sheeted bed, sweating, trembling, nauseated. The window was up, and a cool air was blowing through the room. The night lamp was burning calmly. And because of this I take it that the wild pigs did not get us, that we never fetched bottom, else I should not be here now, a thousand centuries after, to remember the event.

And now put yourself in my place for a moment. Walk with me a bit in my tender childhood, bed with me a night and imagine yourself dreaming such incomprehensible horrors. Remember I was an inexperienced child. I had never seen a wild boar in my life. For that matter I had never seen a domesticated pig. The nearest approach to one that I had seen was breakfast bacon sizzling in its fat. And yet here, real as life, wild boars dashed through my dreams, and I, with fantastic parents, swung through the lofty tree spaces.

Do you wonder that I was frightened and oppressed by my nightmare ridden nights? I was accused. And, worst of all, I was afraid to tell. I do not know why, except that I had a feeling of guilt, though I knew no better of what I was guilty. So it was through long years that I suffered in silence until I came to man's estate and learned the why and wherefore of my dreams.

**CHAPTER III.**  
There is one puzzling thing about these prehistoric memories of mine. It is the vagueness of the time element. I do not always know the order of events; nor can I tell, between some events, whether one, two, or four or five years have elapsed. I can only roughly tell the passage of time by judging the changes in the appearance and pursuits of my fellows.

Also I can apply the logic of events to the various happenings. For instance, there is no doubt whatever that my mother and I were treed by the wild pigs and fled and fell in the days before I made the acquaintance of Lop Ear, who became what I may call my boyhood chum. And it is just as conclusive that between these two periods I must have left my mother.

I have no memory of my father than the one I have given. Never in the years that followed did he reappear. And from my knowledge of the times the only explanation possible lies in that he perished shortly after the adventure with the wild pigs. That it must have been an untimely end there is no discussion. He was in full vigor, and only sudden and violent death could have taken him off. But I know not the manner of his going—whether he was drowned in the river or was swallowed by a snake or went into the stomach of old Snaker Tooth, the tiger, is beyond my knowledge.

For know that I remember only the things I saw myself, with my own eyes, in those prehistoric days. If my mother knew my father's end she never told me. For that matter I doubt if she had a vocabulary adequate to convey such information. Perhaps, all told, the folk in that day had a vocabulary of thirty or forty sounds.

I call them sounds rather than words because sounds they were primarily. They had no fixed values to be altered by adjectives and adverbs. These latter were tools of speech not yet invented. Instead of qualifying nouns or verbs by the use of adjectives and adverbs, we qualified sounds by intonation, by changes in quantity and pitch, by retarding and by accelerating. The length of time employed in the utterance of a particular sound shaded its meaning.

We had no conjugation. One judged the tense by the context. We talked only concrete things because we thought only concrete things; also we depended largely on pantomime. The simplest abstraction was practically beyond our thinking, and when one did happen to think one he was hard put to communicate it to his fellows. There were no sounds for it. He was pressing beyond the limits of his vocabulary. If he invented sounds for it his fellows did not understand the

sounds. Then it was that he fell back on pantomime, illustrating the thought wherever possible and at the same time repeating the new sound over and over again.

Thus language grew. By the few sounds we possessed we were enabled to think a short distance beyond those sounds; then came the need for new sounds wherewith to express the new thought. Sometimes, however, we thought too long a distance in advance of our sounds, managed to achieve abstractions (dim ones, I grant), which we failed utterly to make known to other folk. After all, language did not grow fast in that day.

Oh, believe me, we were amazingly simple. But we did know a lot that is not known today. We could twitch our ears, prick them up and flatten them down at will. And we could scratch between our shoulders with ease. We could throw stones with our feet. I have done it many a time. And for that matter, I could keep my knees straight, bend forward from the hips and touch, not the tips of my fingers, but the points of my elbows, to the ground. And as for bird nesting—well, I only wish the twentieth century boy could see us. But we made no collection of eggs. We ate them.

I remember—but I outrun my story. First let me tell of Lop Ear and our friendship. Very early in my life I separated from my mother. Possibly this was because after the death of my father she took to herself a second husband. I have few recollections of him, and they are not of the best. He was a light fellow. There was no solidity to him. He was too voluble. His infernal chattering worries me even now as I think of it. His mind was too inconsequential to permit him to possess purpose. Monkeys in their cages always remind me of him. He was monkeyish. That is the best description I can give of him.

He hated me from the first. And I quickly learned to be afraid of him and his malicious pranks. Whenever he came in sight I crept close to my mother and clung to her. But I was growing older all the time, and it was inevitable that I should from time to time stray from her and stray farther and farther. And these were the opportunities that the Chatterer waited for. (I may as well explain that we bore no names in those days; were not known by any name. For the sake of convenience I have myself given names to the various folk I was more closely in contact with, and the "Chatterer" is the most fitting description I can find for that precious stepfather of mine. As for me, I have named myself "Big Tooth.") My eye teeth were pronouncedly large.)

But to return to the Chatterer. He persistently terrorized me. He was always pinching me and cuffing me, and on occasion he was not above biting me. Often my mother interfered, and the way she made his fur fly was a joy to see. But the result of all this was a beautiful and unending family quarrel, in which I was the bone of contention.

No, my home life was not happy. I smile to myself as I write the phrase. Home life! Home! I had no home in the modern sense of the term. My home was an association, not a habitation. I lived in my mother's care, not in a house. And my mother lived anywhere, so long as when night came she was above the ground.

My mother was old fashioned. She still clung to her trees. It is true, the more progressive members of our horde lived in the caves above the river. But my mother was suspicious and unprogressive. The trees were good enough for her. Of course, we had one particular tree in which we usually roosted, though we often roosted in other trees when nightfall caught us. In a convenient fork was a sort of rude platform of twigs and branches and creeping things. It was more like a huge bird nest than anything else, though it was a thousand times cruder in the weaving than any bird nest. But it had one feature that I have never seen attached to any bird nest—namely, a roof.

Oh, not a roof such as modern man makes. Nor a roof such as is made by the lowest aborigines of today. It was infinitely more clumsy than the clumsiest handiwork of man—of man as

we know him. It was put together in a casual, helter skelter sort of way. Above the fork of the tree whereon we rested was a pile of dead branches and brush. Four or five adjacent forks held what I may term the various ridgepoles. These were merely stout sticks an inch or so in diameter. On them rested the brush and branches. These seemed to have been tossed on almost aimlessly. There was no attempt at thatching. And I must confess that the roof leaked miserably in a heavy rain.

But the Chatterer. He made home life a burden for both my mother and me, and by home life I mean not the leaky nest in the tree, but the group life of the three of us. He was most malicious in his persecution of me. That was the one purpose to which he held steadfastly for longer than five minutes; also as time went by my mother was less eager in her defense of me. I think what of the continuous rows raised by the Chatterer that I must have become a nuisance to her. At any rate the situation went from bad to worse so rapidly that I should soon of my own volition have left home. But the satisfaction of performing so independent an act was denied me. Before I was ready to go I was thrown out. And I mean this literally.

(To be Continued Tomorrow).

## JESUS' AMUSEMENTS THEME FOR LECTURE

A. A. Ebersole will give a review of the life of Jesus Christ from the standpoint of His amusements at the Y. M. C. A. tomorrow evening at 6:45 o'clock. The topic of the hour will be "Amusements."

The best modern attitude toward pleasures and amusements can be largely determined from this study. Honolulu is particularly concerned with the subject of proper recreation and amusements. With such large numbers of young men in and about the city the community must face this problem continually.

This is the last in a series of 10 talks with discussion given at the Young Men's Christian Association by Mr. Ebersole on the general theme, "The Teachings of Jesus Applied to Present Day Social Questions."

## AN-URIC!

The Newest Discovery in Chemistry.

This is a recent discovery of Doctor Pierce, who is head of the Invalids' Hotel and Surgical Institute at Buffalo, N. Y. Experiment at Dr. Pierce's Hospital for several years proved that there is no other eliminator of uric acid that can be compared to it. For those easily recognized symptoms of inflammation—as backache, scalding urine and frequent urination, as well as sediment in the urine, or if uric acid in the blood has caused rheumatism, it is simply wonderful how surely "An-uric" acts. The best of results are always obtained in cases of acute rheumatism in the joints, in gravel and gout, and invariably the pains and stiffness which so frequently and persistently accompany the disease rapidly disappear.

Go to your nearest drug store and simply ask for a 50-cent package of "An-uric" manufactured by Dr. Pierce or even write Dr. Pierce for a free sample. If you suspect kidney or bladder trouble, send him a sample of your water and describe symptoms. Dr. Pierce's chemist will examine it then Dr. Pierce will report to you without fee or charge.

Note—"An-uric" is 37 times more active than lithia in eliminating uric acid, and is a harmless but reliable chemical compound that may be safely given to children, but should be used only by grown-ups who actually wish to restore their kidneys to perfect health, by conscientiously using one box—or more in extreme cases—as "An-uric" (thanks to Doctor Pierce's achievement) is by far the most perfect kidney and bladder corrector obtainable.—adv.

## NEW KITCHEN GOING IN FOR OUTRIGGERS

A new kitchen is nearly finished at the Outrigger Canoe Club, and in a few days half a dozen gas-stoves, to allow the wives of members to prepare, shower suppers and lunches, will be installed. A sink is also to be put in, adding to the convenient arrangements. Formerly the "kitchen" was an open-air affair, which could not be used when it rained, and was too hot to work in comfortably on a warm day, as it had no roof to keep the sun off.

Two convicts, Peter Cullen, a "trusty," and John Boris, escaped from Sing Sing prison. The men escaped separately.
