Captains of Sampans Refuse to Go Out to Sea but Give No A finite Reason for Action

DECKUSE of the refusal of D the Japanese captains of six aku, or tuna, fishing sampans to go to sea, the real cause for their action having not yet been ascertained, the Hawaii Tuna Packing Co. has been forced to close down temporarily and the business of other local fishing companies, it was reported today, is being materially affected.

The captains of the aku sampans week or more, but it is announced by a representative of one of the large fishing companies that the difficulty may be settled this afternoon and that fishing may be resumed tomor-

The larger fishing companies, while having no specific knowledge of it, believe that the captains of the aku boats have gotten together and formed an association, or union, this action being caused primarily by the demand for aku both at the canneries and at the public markets, the fish peing one largely eaten by Japanese and Hawaiians.

According to Mr. Chillingworth, five

of the sampan captains have given no reason for their "strike." The sixth 's reason is that he is not alto get bait by the owners of the bait grounds.

Walter Macfarlane, head of the Hawaii Tuna Packing Co., has been endeavoring during the last two days ascertain the reason for the "strike," but thus far has been unsuccessful, it was reported today. "It does not appear to be a matter of money or wages," says a repre-

sentative of the company. "They simply will not go out and that is all we have been able to learn." One report is that there has been a mix-up in the affairs of the fisher-

ONE SAILOR IS KILLED AND

(Associated Press by U. S. Naval Wireless)

AJASHINGTON, Oct. 17 (delayed).—The United States has W suffered her first naval casualties since she entered the war, as a direct result of a sea encounter with the enemy. While steaming along slowly in the submarine zone yesterday, an American destroyer engaged in patrol duty was suddenly attacked by a submerged U-boat.

The explosion following the contact of the enemy's torpedo killed one sailor and wounded five.

The destroyer made search for the enemy submarine without locating her and it is assumed by the naval authorities that the U-boat escaped. The destroyer then turned her nose toward port and made refuge although badly damaged. These are all the details Admiral Sims has forwarded to Washington at present. The name of the damaged destroyer and the

location of the encounter are not known. The U-boat launched a torpedo at the destroyer without exposing herself to gunfire from the American warship.

Naval authorities are unable to account for the destroyer steaming at slow speed. They say that had she been going full speed she would have been almost unhittable.

This is the first American warship damaged by enemy fire although armed merchantmen with naval gun crews aboard have previously suffered loss.

One American naval officer and 13 men are now prisoners at German prison camps, while the total naval losses since the war are one officer and 16 men including two naval fliers

> Kalakaua avenue, its broad curves and windings now satisfactorily paved for automobiles, will soon be a joy to those who walk as well as to those who ride, for at last the sidewalks are being paved. So far only the Waikiki end of John Ena road is receiving attention, but the work is going ahead with an energy that speaks well for a speedy finish. There are still several property owners along this avenue who have not paid their assessments for sidewalk improvement.

PROCLAMATION

In pursuance of the authority vested in me by Chapter Sixteen, Revised Laws, Territory of Hawaii, 1915, and the request of the President of the United States and the Secretary of the Treasury, who are responsible for the financing of the Great War, I set aside the latter half of the Twenty-fourth Day of October. Nineteen Humdred and Seventeen as a half holiday, to be devoted to the purposes of securing subscriptions to the Second Liberty Loan as indicated by the words made a part hereof.

PROCLAMATION BY THE PRESIDENT

This Liberty Loan gives the people of our Country their opportunity to sustain the Government and its might and power which has been mobilized for the conduct of the great war upon which we are now embarked. Through it the whole Country joins in the mobilization and is able to strike a mortal blow against Prussian autocracy and in defense of our outraged American rights, our own liberty and the liberty of the world.

Every subscriber to these Liberty Bonds, whether he or states only one Bond or takes more, lends the weight of that contri- alon. the weight of that support to the force behind that vital blow. He or she puts that amount to the patriotic *ervice of the Country. October 24 is hereby designated and appointed Liberty Day. On that day let all the people of every community of the Country assemble and pledge the fullest financial support within their ability to the cause. Let there be patriotic meetings held everywhere.

Let us make the result of this campaign for the Second Liberty Loan Bond Issue so impressive and so emphatic that it will eche to and in the enemy empire and be clear to all the world as an index of the intentions of America. On that day all Federal offices will be closed at noon and all

Federal employes shall be free from all duties other than the patriotic observance of the day. WOODROW WILSON.

Yale university is on a war basis, and the students are enrolled in the government military service, according to letters received by J. R. Galt from his son, Carter Galt, a student at the big Connecticut institution. Young Galt writes that the entire university has been placed on a mili-tary footing, and the students are subject to the call of the war department for duty in France. Yale is the only university in the United States that has an organized field artillery regiment. This regiment was in training at the field artillery camp at Tobyhanna, Pa., last year.

Galt writes that two Canadian officers and one French army officer, all of whom have seen active service in the trenches, are at Yale drilling the student soldiers. The French government, it is understood, has also sent the Yale artillerymen of the famous .75's that stopped the Germans on their way to Paris. These are the only French guns in America, and the Yale men are being put through a course enterioriententententententententente of training with them that will aid materially when they have to work them in France. Young Galt writes that while the normal attendance at Yale is generally 3300 students, only 2000 are now enrolled.

"Vicious" is the word used to describe the feelings of the women of England toward the Germans as a result of the air raids on London and lins, a rubber man, who is aboard an Oriental vessel in port today.

'There is now a unanimous determination in England to press the war ers of women and children. The air raids have, instead of terrorizing the people of England, aroused their anger and hatred. The women, especially, are vindictive-really viciousin their hatred of the Germans. You hear no talk of peace in England now," he declared,

This bitter feeling has come within the past three months, he explains, and he ascribes , it to the German air raids. Six months ago, he admits, there was some depression in England, but says that this has given way to the present determination to punish the Germans.

Speaking of America's entry into the war, he avers that while victory would eventually have been wrested from the Huns by the British and French, it was a great encouragement to have the support of the big republic. He thinks America will hasten the end for the Germans.

Mr. Collins is the general manager of the Mafaca Rubber Co. in the Straits Settlement and has been in England for 10 months. He left London only three weeks ago, stopping only one night in New York and three nights in San Francisco on his trip across the American continent.

The submarine menace is growing less and less, he maintains, citing his own experience on the White Star liner Baltic as proof. "After leaving Liverpool we took a zigzag course to the Irish coast, then a direct one to New York. We had no convoy, although there was a gun crew on the Baltic," he adds.

Have Been Eating Too Much Meat

When you wake up with backache and dull misery in the kidney region it generally means you have been eating too much meat, says a well-known authority. Meat forms uric and which overworks the kidneys in their effort to filter it from the blood and they become sort of paralyzed and loggy. When your kidneys get sluggish and clog you must relieve them, like you relieve your bowels; removing all the body's urinous waste, else you have backache, sick headache, dizzy spells; your stomach sours, tongue is coated, campaign. After the visitors left we cloudy, full of sediment, channels oftobliged to seek relief two or three times during the night.

Either consult a good reliable physi cian at once or get from your pharmacist about four ounces of Jad Salts: take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemen juice, com-

Seaside comedy with its bright preezy atmosphere will provide an interesting change for Bijou patrons when the Carter company inaugurates its new bill this evening, presenting "Izzy at the Seaside." It's not the Waikiki brand, however, but will reyear glimpses of maidens fair as they romp and prance on the board walk. It's comedy of the brand calculated to please one and all and will uphold the reputation of the Carter players as versatile artists who fit into any role with the eclat of tried and experienced thespians.

No need to say that Monte Carter as

'lzzy" will be there with his laughing gas attacks while all the funny things they do at Coney Island will be made funnier yet by "Izzy's" interpretation. There are several new features incorporated into tonight's show, among them being a duet by Ethel Davis and Lou Davis. Bob Sandberg will essay a new character role, a rube sheriff, out of which he is bound to get heaps of fun for himself and the audience, too, and a typical character song will be his contribution in a musical line. Miss Betty Buttrick is billed for popular favorite "My Hero" and the prancing chicks will prance just as gaily and as lively as at any time during the engagement with new ballet effects and attractive bathing cosumes, new even to Waikiki, may cause a few gasps. New laughtermaking features will likewise be un-

"The Highway of Hope," Willard Mack's lates contribution to the silcut drama, comes to the Liberty theate: this evening for the balance of the week. Lathlyn Williams and House l'eters are the featured stars and the production is from the filmmili of Gliver Morosco. Here is presented a combination that should prove a sure winner.

Willard Mack has laid his scenes in the Far West in the early days of the rush for gold. Oliver Morosco Says Backache Is Sign You had his scouts on the hunt for scenes and settings to fit the scenario and there were discovered sufficient abandoned mining camps in Death valley to satisfy the most exacting producer-and that is Morosco.

Kathlyn Williams is cast as Lonely Lou, drudge of the mining town on "The Highway of Hope." The opening scene finds her with a pail of water and scrubbing brush carrying out the offices of drudge. Then there is a change and Lou becomes a wealthy mine owner. From thence forward Miss Williams displays some of those beautiful gowns for which she is rightly famous. That there is a strong thread of romance running through this Mack offering can be depended on. Also, there are heavy dramatić moments such as the finish ed artist alone can produce.

William Fox is becoming a strict bined with lithia, and has been used disciple of accuracy in the film drama, for generations to clean and stimu- according to all reports. This is a fight, fellow citizens. It may take losses to make you believe it. But it is a fight, and the pass into disrepute, lack of discipline, lack of person who is not for the United States of America as against the Prussian at home and abroad gives strength and character. is an enemy, a piratical, murderous enemy.

Can you do less than the boys at the front in put ting that enemy out of action?

RAISING MONEY FOR ROADS

A system of state roads in Illinois, embracing 1,000 miles, and all hard-surfaced, is to be built exclusively by the proceeds of taxation on automobiles, according to a project to be submitted to the voters of that state next November. In a word, let the automobile provide its highways.

The proposal, which will be of interest to auto mobile owners everywhere, is advocated by the American Highway Association in the following:

"The planning of these roads, so as to be of unquestionable benefit to the entire state and therefore a justifiable object upon which to spend state money, received long, careful study. It was necessary to afford the greatest good to the greatest number of people, to give careful attention to the cost of competitive routes, and to distribute the expenditure over the state in such a way that no section could claim with fairness that it was treated inequitably. The network of state roads passes through every county in the state and connects all of the leading towns. It is not merely a matter of a few north and south roads intersected by a few east and west roads; it was laid out to meet the traffic needs of the state rather than to conform with the points of the compass.

"The most interesting feature of the project is the method of raising the money for the work. It liberty. is proposed to issue bonds which will be paid off from the proceeds of automobile taxation exclusively. Prolonged study of the use of improved roads has convinced the state officials that such a statewide system of highways will be used so extensively by automobiles and trucks that the cost of the improvements should be borne by the owners of such vehicles. At present the license fee for cars ranges from \$3 for ten horsepower or less to \$10 for fifty horse power. Next year the taxes will be increased so that the limits will be \$4.50 to \$20, and in 1920 they will be increased to \$6 and \$25. The present motorcycle fee of \$2 will be increased to \$3 in 1918 and \$4 in 1920. The fee for electric vehicles up to twenty tons capacity is now \$5; this will be increased to \$10 next year and \$12 in 1920. Electric vehicles of over two tons pay double these fees except they begin to be delivered. in 1920, when the license will be \$25.

"It is proposed to begin issuing bonds in 1920, putting out \$10,000,000 in that year, and to make a allowed to hold up the country's plans for carrying similar issue annually until the total bonded indebtedness is \$60,000,000. It is proposed to let the big as the nation. first contract in 1920. In that year it is estimated that the license fees will amount to \$4,800,000. The state officials estimate that in 1944 the fees will amount to \$6,000,000, and both principal and interest will have been paid. The interest rate which chinations become known. is proposed for the bonds is 3 1-2 per cent."

So far as the general public is able to make out THE APPELLANT in the Hawaiian band is headed toward a general wreck. Music is forgotten and politics is the chief object of the organization.

It is time for the Hawaiians to wake up, show WHOEVER HE may be their capacity for management as well as music, save the band and at the same time the reputation IS A of the Hawaiians as a people.

If the don't, there is only one result-failure and

That the United States government is straining every resource to meet the demands of the war is evident from the fact that even the importunity JOE FERN about of Viscount Ishii does not avail to relax the embargoes on gold and steel to relieve Japan's extremity. It is to be wondered why Japan does not try BUMPS AND to help herself in this emergency by securing concessions in China for developing gold and iron resources in that country. Such enterprises would IN THE streets be a boon to China at the present time, and her acquiescence therein be an earnest of her good faith in aligning herself with the league of democracy. The views and wishes of the new military instructor. Captain Winfield Overton, will be regarded as strict law by the athletic board of control of the iniversity, and he stated upon his arrival that much rowing was not desirable because it occupied too much ime. Football he regarded more favorably because the gridiron season asted only a few weeks. He has proposed tentatively, that the military drill of the undergraduates be given on Mondays, Wednesdays and Fridays, and that the afternoons of Tuesday, Thursday and Saturday be allotted for athletics for the present. He also asserted that all athletic activity should be regarded as under the strict control of the military work and conditions, and that, if any athletic contests are arranged, they should be ready for instant cancellation in case the military sttuation called for such radical ac-

TALK TO JEWELERS

"Daily newspaper advertising expresses the foundation, policy, principle, basis and the achievements of the store, and it is through daily newspaper advertising that people see, learn and come to know the value of the establishment."-M. P. Linn, speaking at the American National Retail Jewelers' Association.

¶ He added that newspaper advertising is more valuable today than ever, because the newspapers themselves had become indispensable to the community.

Children must have rich, pure milk!

Every mother knows how essential this is. She knows, too, the difficulties of doing so-especially in warm climates.

There is no food so suitable for baby as that provided by Nature, but in some cases Condensed Milk has at times to be used, and no Condensed Milk will be better for baby or give better results than Highlander.

It is here that Highlander Condensed Milk will prove of such value to her. Tens of thousands of mothers throughout Australasia and the Pacific use it.

Absolutely germ-free, Highlander Milk is prepared by a process that ensures sterilization. It is the richest, purest milk from specially selected herds in the famous dairying pastures of Southland, New Zealand-with part of the water evaporated and the purest No. IA Cane Sugar added.

COLLISION VISITED 35 POSTAL MEN TAKE \$2200 LIBERTY BONDS

"Back the boys in the trenches-buy Joe Pashion, whose trial for heedless a Liberty Bond," is the slogan which has been adopted by the United States postal department. The employes of the Honolulu postoffice are following the injunction, for 35 of them, whose average monthly wage probably does not exceed \$100 a month, have subscribed for \$2200

worth of the bonds. In keeping with the president's proclamation, next Wednesday, October 24, is to be observed as Liberty Bond Day, during which the postoffice will be closed at 12 m.

SEPARATE SKIRTS.

Separate skirts will be more popular than ever this coming season, and merchants are showing splendid styles in bewildering assortments of materials and colors. Silk skirts seem to lead by a big majority, skirts of serge and gabardine holding second place. That only the silks will "shine" seems to be generally ac-

Silk manufacturers seem to be developing into wizards so marvelous are some of their productions; we look at their offerings in simple wonderment. Chief among these beautiful patterns is a crepe with a heavy rippling weave, called Roshanara. It has literally taken the fashion world by storm, as has the famous dancer for whom the silk was named. This silk is offered in every conceivable shade and is adaptable for use both in making street gowns and evening dresses. A stunning separate skirt of this fabric was shown at a recent opening. It was made of taupe colored Roshanara. The new apron effect tunic hung loose over the skirt and came only to the hips. It was cut away about three inches below the top of the belt in a narrow elipse about nine inches long, allowing the skirt to show through. The wide belt was cut in one with the tunic and buttoned in the back. The skirt proper was plain in front under the tunic, and pleated in the back. A bias cuff of the material was turned over the pleats above the belt, from the line of the tunic across the belt

Pussy willow silk is being offered in beautiful printed effects, as well as in the new Pussy Willow satin, which s extremely lightweight. This satin, together with other lightweight satins. and Moon-Glo Satin-all fabrics of exquisite weave and texture, and soft, lustrous finish—is used in modeling fressy skirts. They follow straight lines mostly, although some of the tunics and skirts are finely machine plaited; others are broken by low draperies on the side, and a few showing the latest innovation, "the bustle silhouette," of almost three

ITS PLANS TO **GREET SOLONS**

A meeting of the local committee for the entertainment of the congressional party which is due to arrive here on November 11, was held recently in the chambers of Judge Quinn, where definite plans were made, says the Hawaii Post. The committee decided to ask for an appropriation of \$8,000 to defray the expense which would be necessary in connection with the entertainment. Judge Clem K. Quinn was elected chairman of the reception committee, and G. H. Vicars, president of the Hilo Board of Trade, will act as secretary. Frank Woods, Samuel Kauhane and Evangeline da Silva are the other members of the committee.

ments for the party to disembark Sunday morning at Napoopoo and they will travel from there through the Kona district investigating the commercial interests and viewing the scenic points of interest, being entertained at luncheon by the Kona residents. At 5 o'clock in the evening the party will arrive at the Volcano Indiscriminate Charity for the that may be given where there is a House for dinner, after which they will be escorted to the crater.

Monday the party will make a tour of the Puna district taking lunch at Kapoho, and will arrive in Hilo that
