ZEPPELIN RAIDERS ARE ANNIHILATED BY FRENCH AIR GUNS

BRITISH RETAIN GROUND

All Positions But One Won Yesterday in Fresh Advance are Held Despite the Desperate Counter-Attacks

(Associated Press by U. S. Naval Wireless.) LONDON, Eng., Oct. 23.—After another advance northeast of Ypres in which important ridge positions between Passchendaele and d'Houthuist forest were captured, the British today faced a series of impetuous counter-attacks by the Crown Prince's forces but fended them all off but one. This lunge made in force dislodged the British from a position of relatively minor importance while the really strategic and key positions were still retained.

Gasoline Given Away As Ship Sails For Orient

Free gasoline caused a stampede among the rent auto drivers at Pier 7 this morning before the sailing of a Dutch steamer for the Orient. All those who were fortunate enough to have containers of any kind managed to secure several gallons of the precious fluid.

LIBERTY LOAN TOTAL TO DATE IS \$4,636,300

Expect to Raise \$363,700 in Remaining Four Days of the Campaign; Police Take \$5000 of Bonds

(Continued on page two)

Advancing almost at will, the British and French acting conjointly reformed another strip of Belgium yesterday, overcoming the discouraged German defenders of their prepared zone northeast of Ypres with ease, taking many prisoners, driving others before them and inflicting heavy casualties. "Ample objectives have been taken," says Gen. Haig in his official report at midnight, while other reports from the front tell of the apparent complete demoralization of the Hun on this front.

The infantry attack was made along a front from Passchendaele to the edge of d'Houthuist forest, a distance of between four and five miles. Following an intense bombardment of the German positions, which swept the prepared lines in a hurricane of shells, wiping out numerous defenses and driving everything left alive into the depths of the concrete dugouts and shelters, the British and French went over the top at daybreak, ploughing steadily forward across the marshy ground, into which the soldiers sank at every step.

(Associated Press by U. S. Naval Wireless.) LONDON, Eng., Oct. 23.—The week's casualties, as announced tonight by the British war office, total 17,041, which includes killed, wounded and missing.

ARMY'S TOTAL OF BONDS NOW IS \$1,069,650

Although the 25th Infantry maintains the place reached yesterday at the head of the regiments for total subscriptions to the Liberty Loan, this is kept by mere excess of numbers as shown by the per capita list which holds the 25th in seventh place. Honors for contributions according to their enlisted strength should go to the 1st Infantry and the 32nd, which show a per capita of \$96.87 and \$96.55 respectively, while the 9th Field Artillery has a per capita average of \$94.68. That of the 25th Infantry is \$75.14.

(Continued on page two)

Within less than \$400,000 of the maximum quota for the island the Liberty Loan drive is rapidly nearing the \$5,000,000 mark. At noon today the figures for the civilian drive amounted to \$3,416,650, received from 2445 subscribers. The campaign workers are striving for 3000 subscribers before Saturday noon. The army reports indicate a grand total of \$1,069,650, while reports from Maui and Hawaii, not including any of the plantations, show that \$150,000 has already been collected from those islands. Hilo alone reports \$100,950, while Waikuku reports \$15,000.

The drive ends at noon on Saturday, and indications point to every possibility of Hawaii's subscriptions amounting to \$5,000,000, or \$2,000,000 above the authorized quota.

TURN TO THE LIGHT

HOME GARDEN CONTEST PLAN OF FOOD BOARD

Pupils Throughout Territory Will Be Urged to Enter; First Prizes Will Be Trips to Honolulu and Probably Volcano

Plans for a home garden contest in which all the school children of Hawaii will be urged to take part have been announced by J. F. Child, food commission executive officer. The contest is scheduled to begin January 1, and will end the last week in June.

FAMINE IN POLAND

(Associated Press by U. S. Naval Wireless.) NEW YORK, N. Y., Oct. 23.—Tales of hunger and suffering in the cities of Poland and in Litosian cities are told in despatches which were received from Copenhagen. In Poland the famine is acute and hundreds are wandering the streets in a state of terrible emaciation, starving. Others unable to walk further drop whining or fainting from the weakness of hunger.

Wireless Flashes

SCANDINAVIAN NATIONS MAY PROTEST SINKING (Associated Press by U. S. Naval Wireless.) LONDON, Eng., Oct. 23.—A joint protest from Norway, Sweden and Denmark over the sinking of the merchant ships and the British convoys by German cruisers in the North sea is expected.

GERMANS REPULSED PETROGRAD, Russia, Oct. 23.—An attempt by the German naval forces to effect a landing on the Rethonca coast was repulsed, the war office announces.

BARTHOLOMEW IN CABINET LONDON, Eng., Oct. 23.—Louis Bartholomew has replaced Minister Ribot in the French cabinet. All the other members retain their present portfolios.

\$20,000,000 TO FRANCE WASHINGTON, D. C., Oct. 23.—The United States loaned France an additional \$20,000,000 today.

CHAMBER OF COMMERCE TO MEET NEXT FRIDAY A meeting of the chamber of commerce will be held Friday afternoon at 2 o'clock to discuss two referendums from the national chamber of commerce on the railway situation in the states and on federal control of the prices of commodities. Secretary Raymond Brown said this morning that the record of proceedings of the Sixth Annual Civic convention was about completed and that probably within 10 days it would be bound, and a copy mailed to each of the delegates.

GERMAN RAIDER MAY BE LOOSE IN INDIAN SEA

Japanese Squadron Under the Command of Admiral Oguri, Brother of Honolulan, Patrols Ocean

(Special Cable to Nippo Jiji) TOKIO, Japan, Oct. 23.—That there may be a German raider loose in the Indian ocean and preying upon the Allies' shipping is one of the theories advanced here today for the failure of the Nippon Yusen Kaisha liner Hitachi Maru, to be heard from in a month today. The liner was yesterday given up by the owners as probably lost.

The Hitachi Maru, on the regular run to London, via South Africa, sailed September 24 from Colombo, Ceylon, for Delagoa Bay, Portuguese East Africa, where she was due to arrive on October 1. Since the famous adventure of the Emden, the Indian ocean was more than once reported as dangerous to the navigation of the Allies' vessels. Many British steamers as well as a few Japanese vessels have been destroyed by striking floating mines.

A powerful Japanese squadron under the command of Vice Admiral K. Oguri, a brother of Dr. I. Mori of Honolulu, is patrolling the Indian ocean, having been sent there early in April. If there is now any Hun raider operating in the Indian ocean it is believed here that it will be run down.

LIBERTY LOAN COMMITTEE BULLETIN

The Workingman's Chance to Save Money

The easy-payment system of purchasing a Liberty Bond, made possible by the City and County of Honolulu to its employees, offers the biggest thrift inducement to the wage-earners as well as office men, that most of them have ever had. It gives the laboring man a chance to help Uncle Sam in the world war.

It gives him an opportunity to save his money, a little at a time, for a period of a year. The Government Bond given him is a guaranty that he will get his money back, and that as long as the Government is using it, Uncle Sam will pay the workingman 4% interest.

The workingman today fights for his country mainly by staying at home and working harder, economizing and loaning his money.

Federal Sleuths Unearth Secret Stock of Sugar

(Associated Press by U. S. Naval Wireless.) BUFFALO, N. Y., Oct. 23.—While federal secret service men today were investigating the contents of a warehouse in this city they made a discovery of ten million pounds of sugar put up in barrels labeled "Topcrust Flour." Flour was sprinkled outside the barrels and all around the vicinity of the containers and it was only when the agents smashed in one of the kegs and dug down below its superficial sprinkling of flour that the fraud was discovered.

ARGUE MOTION FOR REMAND OF I.-I. LITIGATION

Jurisdiction Tangle Still Exists in Injunction Brought by P.U. Against Steamship Company

Argument which closed in federal court at 5:45 o'clock yesterday afternoon failed to straighten out the tangle of jurisdiction surrounding the inter-island public utilities commission litigation. The argument was on a motion by the commission to remand the proceedings back to the circuit court, where they originated. Further argument is scheduled to begin at 9 o'clock tomorrow morning before Federal Judge Vaughan.

After a circuit court clerk had certified to the record, apparently without the knowledge of the court, the case was taken to federal court last Saturday afternoon on a motion to dismiss the temporary injunction suit, formerly issued out of circuit court, to enjoin the steamship company from refusing to obey an order of the commission commanding it to return to the schedule of rates effective in 1916.

As Attorney Robert W. Breckons put it yesterday afternoon, the steamship company is "between the devil and the deep sea." On one hand it is compelled to obey the temporary injunction and return to the 1916 rates, which it has done. On the other hand its new schedule of higher rates, to have gone into effect October 15, have been approved by the federal shipping board and under the law, the company cannot reduce or otherwise change these rates without the approval of the board.

When the case was called up before Federal Judge Vaughan yesterday afternoon, counsel for the commission announced that it was not quite ready to present the motion to remand the proceedings back to the territorial court. Judge E. M. Watson branded the litigation as an old controversy between a public utility corporation and the public, or words to that effect, whereupon the three attorneys for the steamship company smiled. Judge Watson argued briefly to the effect that the bond of the inter-island in bringing the case to the U. S. court was not sufficient, declaring it had not been signed by both surety and principal; that is, that the inter-island had not signed. The steamship company apparently maintains the stand that certain phases of the litigation have been removed from circuit court, while the commission maintains they are not.

Attorney D. L. Withington argued for the steamship company yesterday afternoon, and may argue further tomorrow morning. Attorneys Watson and C. F. Clemons will probably have something further to say. Judge Vaughan has not yet ruled on the question of whether the litigation is properly before the federal court. The steamship company's appeal to the supreme court from the commission's decision is still pending, and, to date, the record on appeal has not yet reached the justices.

F. W. SHINGLE ON WAY TO UTAH, PRESUMABLY FOR INSPECTION OF FORTUNA

Robert W. Shingle has called the Waterhouse Trust Co. that he left San Francisco for Salt Lake City last week and that he expected to arrive there last Saturday. The Honolulu capitalist is believed to be going to Utah for an extended investigation of the Fortuna and Mineral Products mining properties in which so much Hawaiian capital is invested, with the view of determining if more money should be invested for development work, securing of fee simple titles to all the property and the centralizing of the control in these islands.

He is expected to join C. G. Ballentyne, who has already sent a very optimistic report of the mining property to Honolulu. Some of those interested in Montana-Bingham believe that C. G. Bockus will also join Mr. Shingle and Mr. Ballentyne in the investigation of the property. It is not expected Mr. Bockus will return on the Maui, as he had previously booked to do.

FIVE BIG AIRCRAFT GO DOWN

Germany Sends Powerful Air Fleet Over French Towns, Only to Meet Disaster; All of Crews Killed

(Associated Press by U. S. Naval Wireless.) WASHINGTON, D. C., Oct. 23.—Despatches received by French embassy today tell of a feeling of great jubilation in that country over the smashing blow administered to Germany's great Zeppelin fleet while returning from a raiding expedition last Saturday. It is declared in the despatches that half of the effective fleet of super-Zeppelins were destroyed by the effective fire of the anti-aircraft guns and their crews killed.

ILLINOIS TAKES LEAD IN CUTTING FOODSTUFF PRICE

(Associated Press by U. S. Naval Wireless.) CHICAGO, Ill., Oct. 23.—Food Control Agent Wheeler of Illinois in a statement given out here today, said that Illinois was the first state of the union to fix fair prices for its food-stuffs—sugar, potatoes and flour—and believes that the majority of the grocers will agree to bring their prices down to a lower scale than has obtained within recent months.

BRITISH CRUISER SUNK BY U-BOAT

(Associated Press by U. S. Naval Wireless.) LONDON, Eng., Oct. 23.—The admiralty tonight issued the statement that the merchant-cruiser Orama has fallen a victim to a Hun submarine, having been torpedoed and sunk in the war zone.

A destroyer is also reported as having been sunk in a collision. The bulletin gave no news as to the fate of the crews of either the converted merchantman or the destroyer.

JAPAN ADOPTS MILITARY CORPS

(Special Cable to Nippo Jiji) TOKIO, Japan, Oct. 23.—Adoption by the Japanese army of the military corps system to strengthen the efficiency of the army was today announced by Lieut. Gen. K. Oshima, minister of war.

According to the announcement every two military divisions will form a corps to be commanded by a general. The division which is commanded by a lieutenant general now consists of four regiments, but under the new system it will be reduced to three regiments. The personnel of a regiment will be increased in number in order that there might be no deficiency in the military status of a division.

2 NEW TYPHOID CASES APPEAR

Two more cases of supposed typhoid were reported to the board of health today, according to Dr. J. S. B. Pratt, president. These were from Waimanalo and Wahiawa and were both of Filipinos. The latter case originated at Casner where the victim had been at work.

Sanitary Engineer Fred Ohrt has not yet completed his tests of Nuuanu water, though inspections made thus far show negative results for typhoid investigation. Each reservoir will be given a thorough investigation, Dr. Pratt says, and after that the various water districts will be tested out.

Thirteen cases from Schofield Barracks were in the department hospital yesterday afternoon. It is said that these patients are not affected with the general lassitude that generally is noticeable among persons sick from typhoid, which makes physicians generally believe that the disease here is not generally so serious as is often found elsewhere.

KAUAI INCLUDED IN ITINERARY OF VISITING SOLONS

Kauai is also to be visited by the party of congressmen due here next month, according to a decision reached by the executive committee from the territorial senate and house of representatives at a meeting held yesterday. Earlier plans were to have the congressmen visit only Oahu, Maui and Hawaii.

The first public reception of the party is to be a reception and dinner given in their honor by Governor L. E. Pinkham, which will be attended by the senators and representatives, and distinguished guests. The following morning the party will leave for Hawaii by the steamer Kilaua, where the first landing will be made at Napoopoo, near the Captain Cook monument.

Leaving Napoopoo the party and the island people accompanying them will travel overland through the two Kona and Kau to the Kilaua volcano, where the crater will be visited and a portion of the Hawaii national park area inspected.

Hilo is to be the next point of interest on their Hawaii junket, where they will remain until November 15, leaving that day for Maui. The party will remain on the Valley Isle until Sunday, when it will return to Honolulu by the Wilhelmina, arriving here Monday, November 19.

That night a steamer will take the delegation over to Kauai and will be back in Honolulu on the morning of November 23, and that evening the visitors will be the guests of the Honolulu Chamber of Commerce.

It was the unanimous request of the executive committee that Prince Kalaniana'ole, delegate to Washington, select any open evening that he desires to present "A Night in Hawaii" and give a Hawaiian atmosphere to the varied round of social and business activities. It is anticipated that he will select the evening of November 27 for this entertainment, which will be the last night of the delegation in the islands.

An invitation will be extended to Brig. Gen. Wissler, U. S. A., commanding the Hawaiian Department, and Captain George Clark, U. S. N., commanding the Pearl Harbor Naval Station, to participate with the executive committee in the entertainment of the visitors.

BAILEY IS MADE CHIEF ENGINEER

Charles T. Bailey, assistant engineer for the last two years in the hydrographic department of the federal geologic office, has been appointed to the position of chief engineer, succeeding Captain George T. Larrison, resigned. The appointment, which was announced today by Land Commissioner Bertram G. Rivenburgh, under whose department the territorial hydrographic office was placed by the legislature, dates from yesterday.

The new hydrographic chief has been in Hawaii since November, 1912, the first three years after his arrival being spent in engineering work on Maui. Between March, 1915, and November, 1915, he was on the mainland, but returned here to accept the position of assistant engineer under Mr. Larrison.

Mr. Bailey is a graduate of the University of Vermont, class of 1908, where he took the civil engineering course. For a year he was with the Michigan Central Railway on a grade separation work in Detroit. He then joined the U. S. Geological Survey in water investigation work, his headquarters being Newport, Kentucky. He was formerly first sergeant of the 1st Company, Hawaiian Coast Artillery.

LOCAL JAPANESE TO CELEBRATE EMPEROR'S BIRTHDAY ANNIVERSARY

The 37th birthday anniversary of the Japanese emperor, Yoshihito, will be celebrated by the Japanese of Honolulu on October 21 at the Tokiwaen club house on Nuuanu street, above Vineyard street.

K. Ishida, secretary of the Japanese Association of Hawaii, which had arranged for the meeting of the prominent Japanese of the city to discuss the plans of celebration, will preside at the ceremony at the Tokiwaen. Every Japanese who pays \$1 to become a member of the celebration committee is eligible to attend.

A special committee to arrange for forwarding a congratulatory message to the minister of the imperial household in Tokyo was named. The wording of the message will be read to those who attend the celebration by Counsel-Gen. R. Morol.

The celebration will start at 1 p. m., October 21.

NATIONAL GUARD NOTES

The resignation of First Lieut. S. K. Mocklin, 2nd Hawa. Inf., as an officer of the national guard of the United States has been accepted to take effect on completion of the transfer to his battalion commander of property for which he is responsible.

Regt. Supply Sgt. Stanley Wright, Supply Co., 1st Hawa. Inf., has been ordered honorably discharged to accept a commission in the national guard.

Subject to future examination Stanley Wright, has been appointed to the grade of second lieutenant of Infantry, with rank from October 18.

Pvt. Rikkip Motegi, Co. D, 1st Hawa. Inf., has been honorably discharged by reason of physical disability.

The following is sugar waiting shipment on Hawaii: Olan, 4326; Hilo Sugar Co., 6600; Pepeekeo, 326; Hakaiua, 32,789; Laupahoehoe, 983; Kawaihi, 2020; Hamakua Mill, 1700; Paaubau, 4200; Punaluu, 7988; Honouou, 2051 bags.

AN EYE OPENER

MORE ROOM AND TEACHERS NEEDED AT PUNAHOU, SAYS PRES. GRIFFITHS

That the Punahou school day must be lengthened, that more room, more money and more teachers are needed, and that closer playground supervision is desired were some of the things brought out by A. F. Griffiths, president Oahu College, in his address at a meeting of the Punahou Mothers' Association yesterday afternoon, and in the discussions which followed the address.

With Mrs. Percy M. Pond, president of the association, presiding, the meeting opened promptly at 3 o'clock, the secretary, Mrs. E. C. Webster, and about 50 members being present. Mrs. Pond outlined a plan of the executive committee to divide the club into groups made up of mothers of children in the different grades, each group to have its own chairman. This, Mrs. Pond explained, would have a tendency to make all the work of the club more definite, for it would give the mothers of children in all the grades an opportunity to put their individual needs before the club for discussion. With the divisional groups, mothers of the first grade pupils could meet and discuss at length the needs of the first grade, without taking up time that belonged to some other grade, and so with the second and all the other grades. After much discussion, a motion was passed almost unanimously to have the divisional groups, each with its own chairman and its own time of meeting. Notification of meetings to be held will be given through the press, and sent home by the children, and all members of the club may attend a meeting of any group they desire, but the matters taken up at each group meeting will pertain only to that particular group. There will also be a general meeting at least once a year, and oftener if the club sees fit.

Discussion following President Griffiths' address resulted in a motion being passed that the club approve any move the board might find necessary to make with regard to lengthening the school day, the mothers apparently agreeing that 15 minutes added in the morning and 30 in the afternoon would be the most satisfactory.

Another move adopted was to approve the board's plans for closer supervision of the playgrounds, particularly for children under the fifth grade. Children under the "age of football" do not know how to play happily together, it was decided, and some one who could wisely direct their play, and still keep herself well enough in the background not to interfere with the children's freedom in their play, would be a very valuable acquisition to the school, the one drawback being that there was at present no money provided for additional playground supervision.

Still another motion that passed, but not unanimously, was that the Mothers' Club send a request to the superintendent of the cafeteria that no more food or coffee be served to any child in the grammar grades. Several of the members objected to this, among whom were Mrs. Wakefield and Mrs. W. C. King, who claim-

ed that it would be better to put the children on their honor, and have the individual child make his or her individual refusal to drink these "nerve-racking and nerve-wrecking beverages."

Mr. Griffiths' address, which was brief, but very much to the point, outlined Punahou's educational problems, which he said were the course of study, which would have to be enlarged by the addition of other subjects; the cost of education, which was increasing all the time, the cost to Punahou per student being nearly twice the tuition charged; administration, and the duty of Punahou to the community. He said that the junior academy was greatly overcrowded, and more room was an absolute necessity.

ALLEN AND CHILD TO TALK TO AD CLUBBERS

For its luncheon tomorrow the Ad Club has arranged an interesting program. Among the speakers will be Riley H. Allen, editor of the Star-Bulletin, who will return home from a three months' trip on the mainland and recount his impression of war preparations and the war spirit as prevailing the states. Another speaker will be J. F. Child of the territorial food commission, who will enlighten the Ad Clubbers on food conservation, price regulation and the fish question.

"He's in a bad way."
"Broke, eh?"
"Worse than that. He's down to the point where nobody will lend him money any more."—Detroit Free Press.

FRED B. SMITH TO TALK RELIGION TO BUSINESS MEN

Fred B. Smith, assistant to the president of the H. W. Johns-Manville Co. of New York and 55 other large mainland cities, is expected to arrive in Honolulu on November 13.

Most of the active field supervision of the 55 branches of this vast corporation is Mr. Smith's personal responsibility. As a consequence he spends much of his time traveling.

In addition to his business activities Mr. Smith spends much of the balance of his waking hours in addressing gatherings of business men on religious topics. He is recognized as a speaker of more than usual ability and has addressed as many as 5000 men at a time.

During the Spanish-American war the International Y. M. C. A. found itself confronted with a situation somewhat resembling that which now confronts it, namely that of carrying Y. M. C. A. activities into hundreds of army camps and of reaching thousands of soldiers. Fred B. Smith was the man they called on to do the great camp of 65,000 men at Chickamauga and talk to the men and inspire them by his great personality during the tedious period of waiting and delay.

Later he conducted an 18 months' campaign visiting most of the Young Men's Christian Associations throughout the mainland in the interests of the religious work department of the central Y. M. C. A. body and met with great success.

Mr. Smith visited Honolulu several years ago, it will be recalled, in company with Raymond Robbins.

Mr. Smith comes to Honolulu to talk to the business men in general about the modern business man and his religion. He comes at the invitation of the local Y. M. C. A.

An unusually strong committee of local business men numbering 21 was appointed by Frank Atherton as head of the local Y. M. C. A. just before his recent departure for the Orient on a business trip, to receive Mr. Smith and to promote his campaign. The committee is headed by R. H. Trent. Sub-committees are already hard at work planning for the success of Fred B. Smith's campaign.

DANIELS ASKS MEDICOS HELP WIPE OUT VICE (Associated Press by U. S. Naval Wireless.) CHICAGO, Ill., Oct. 23. Direct appeal was made by Secretary of the Navy today to the medical profession of the country to aid in bringing about purer and cleaner lives for the men of the nation.

What the country is doing to remove immoral conditions and temptations from the vicinity of the new camps, Secretary Daniels had told earlier in his address. The difficulties that had been encountered in securing clearing out of vice in some cities and towns he had told and he had shown how it had been proved to be possible in such communities to have decency when public officials recognized that the advantage of having such a camp would be lost to the community otherwise.

When Your Eyes Need Care Try Murine Eye Remedy

BOOZE PERMITS BEGIN TO DRIFT INTO NEW OFFICE

With the opening of the new office of the liquor license inspectors yesterday morning, 225 applications for the purchase of liquor were handed in for approval. Inspector Hutton's staff of deputies was kept busy approving the requests for liquor, although Monday is an off day for the booze trade. The inspector believes that they will have their hands full when Saturday arrives. Mr. Hutton is assisted by Deputy Inspectors Jack Roberts, Carl Pedersen, James Heiple and George Quintal.

The office is a large, cool room on the makai-waikiki corner of Nuuanu and Merchant streets, on the Ewa side of the police station. All persons who intend to purchase more than six quarts of beer, one quart of gin, one quart of any other intoxicating liquors, three quarts of Chinese wines or one gallon of sake, must call at the inspector's office and present a signed requisition for the goods. This will be approved and stamped by the inspector, and the purchaser may then buy the goods from a wholesaler. No violations of the new regulations have yet been reported.

TOWNS CHOSEN FOR REPRISALS

LONDON, Oct. 23.—It is the intention of Great Britain to exact reprisals from German cities and towns for the Hun frightfulness which through night air raids has been killing and maiming the women and children of various English cities and most especially London. Already two cities have been selected as objects of attack.

Sir George Care, speaking in the house of commons yesterday, laid especial emphasis on his assertion that it is the intention of the British government to exact reprisals for Hun air attacks by raids in kind upon various German cities and towns and he announced that two German towns had already been selected for the first of such raids.

Dinner Dansant

Ethel, dear, tell me honestly, did you return the engagement ring when you broke your engagement with Jack?

"Certainly not! My feelings toward the ring have not changed as they have toward Jack."—Life.

ADDITIONAL TELEGRAPH NEWS

COASTWISE TRADE LAW FORMALLY SUSPENDED

(Associated Press by U. S. Naval Wireless.) WASHINGTON, D. C., Oct. 23.—Coastwise trade was yesterday formally opened to foreign shipping by a resolution of the shipping board, the official action necessary to make effective the act passed by congress during its closing days.

Under the resolution of the shipping board and the provisions which are laid down it will be necessary for shipping companies to register such foreign built vessels as they may desire to use for coastwise trade. Upon such application for registration licenses are to be issued for the vessels for which they were sought. In this way there will not be a general opening up of the coastwise trade to all foreign built shipping, but a supervision of those that are to be permitted to enter may be maintained.

At the same session of the board the appointment was made which will render the resolution operative. A special department is created, and of this department Edward Carry is named as director and will make the appointments of such subordinates as may be required.

PASSENGER BIPLANE MAKES NEW RECORD

(Associated Press by U. S. Naval Wireless.) MINEOLA, Oct. 23.—A new record for a long distance flight with passengers was made from here yesterday by Lieut. Resnati in a Caproni biplane.

Carrying eight passengers the biplane flew from here to Hampton Roads, 225 miles, in four hours and 11 minutes. This is a new record for a biplane carrying more than two passengers.

TACOMA POWDER MILL EXPLODES; NO DEATHS

(Associated Press by U. S. Naval Wireless.) TACOMA, Wash., Oct. 23.—A black powder and cordite plant of the Dupont company a few miles out of here blew up last night from unexplained causes.

No casualties were reported.

MONEY DEAL OFF

(Associated Press by U. S. Naval Wireless.) WASHINGTON, D. C., Oct. 23.—Announcement was made by the treasury department last night that the deal that had been arranged for the purchase of large quantities of Mexican pesos was off because of certain conditions which Mexico sought to exact, and which conditions were not announced.

Fox Trot Prize Dance

On the Roof next Wednesday, Oct. 24, there will be a prize Fox Trot contest, and the fortunate winner will receive a beautiful silver loving cup donated by Monte Carter of the Bijou company. Table reservations may be made in advance.—Adv.

RAILWAYS PLEADING FOR FINANCIAL AID

(Associated Press by U. S. Naval Wireless.) WASHINGTON, D. C., Oct. 23.—Raises in railroad freight rates loomed large as a possibility yesterday when the inter-state commerce commission granted a reopening of the hearings for the 15 per cent increase which had been asked and refused.

The action of the commission is the result of the urgent pleas of the Eastern railroads for financial assistance. This plea has been repeated ever since the refusal of the commission to grant the raises that were asked and have become more than ever urgent since the strain of meeting war transportation has fallen upon them. The roads insist that more rolling stock, more trackage and more of other equipment is essential to properly meet the needs of the government, that under present rates it is impossible to operate with profit, especially owing to higher wages and other higher cost of operation, and that if the needed equipment is to be purchased the railroads must be permitted to earn sufficiently to make the payments for them.

The first hearing will be held November 5.

ANNOUNCES HOW RED CROSS FUNDS DIVIDED

(Associated Press by U. S. Naval Wireless.) ST. LOUIS, Oct. 23.—Apportionment and appropriation of the Red Cross funds were announced last night by Manager Harry Gibson.

Millions of dollars of the Red Cross funds will go to France to meet the needs there where the demands upon the American Red Cross will certainly be the heaviest and the most urgent but thirteen and three-quarter millions from the funds will be apportioned among the other Allies according to their needs.

In the United States four millions will be utilized in and about the local cantonments where the national army will have its preliminary training and three-quarters of a million will be applied to local chapters where special need has been found. Four millions more will be utilized for hospital work near the cantonments and three-quarters of a million was restricted to certain particular uses by the donors.

GOVERNMENT BAN ON GASOLINE DUE NEXT

(Associated Press by U. S. Naval Wireless.) WASHINGTON, D. C., Oct. 23.—Oil and petroleum products, such as gasoline are to be among the next articles put under government control. It was announced last night that this control will be put in operation by the fuel commission under a proclamation which is to be issued within the next few days.

It is not believed that it will be necessary, the announcement said, to take drastic steps to fix the prices for it is believed that a satisfactory agreement relative to the prices will be reached between the fuel control commission and the producers.

BOOBY HATCH IS BACKGROUND FOR NEW BIJOU SHOW

The squirrels sure would have had a great feast at the Bijou last night if they had been on the job. When Izzy walked into the bughouse and bumped up against Calamity Jane, Dago Red and Edwin Booth and numerous other inmates of the booby-hatch, it was just like lighting a short fuse on a keg of giant powder. And it didn't take long to start things. Raving maniacs, strong-arm guards, frantic doctors and nurses, and poor Izzy, a lone officer trying to keep order in an insane asylum, presented a kaleidoscopic view of the western front. And the chicks, of course, were out in full force. When the chicks danced out in the first number some one in the audience murmured, "If this is the bughouse, I want to be a raving nut."

The songs and dancing numbers were original bits of entertaining. The chorus had a lot of new and startling costumes, the lines of the play were quick and snappy, and although there were plenty of nuts in the bughouse none of the chestnut variety were noticed.

Ethel Davis, of course, made a tremendous hit with the first-nighters, as she always does. She had several new songs, "Here Come the Married Men," making the hit of the evening. Betty Butterick brought down the house with her number, "Somewhere a Voice Is Calling."

Monte Carter and Lou Davis staged a drama all by themselves. It was a modern version of "Othello," with Izzy playing the lead—Desdemona.

The production lasted for 10 minutes until the uproars from the audience drowned out the performers. Even Lou couldn't keep from laughing. The trio made another hit. When they sang "Maggie Doole Learned the Hulle Hulle," Izzy romped on the stage, and the audience, remembering his hula of the week before, tried to persuade him to give another exhibition. Izzy failed to come across, and contented himself with instructing one of the trio how to dance the Yiddish gaztsoche.

"Izzy at the Bughouse" is a great prescription for chasing away that grouchy feeling. The house was filled last night, and the box office had three people working overtime to accommodate the rush. The show will run tonight and tomorrow.

TONIGHT *Liberty* **TONIGHT**

Bolo Pasha's Corrupt Trail

William Randolph Hearst is busy explaining why he should have enjoyed the social favors of Bolo Pasha, the kaiser's lately discovered newspaper briber. He refuses to admit that the policy of his papers in their obviously pro-German tone in any way reflected an opinion influenced by an exchange of after dinner courtesies and various conversations.

It is interesting and important, however, for Americans to know that the exposure of this same Bolo Pasha and his relations with the peace propaganda of France, his influence with the Minister of the Interior Malvy, and the scandalous Caillaux was what brought about the reorganization of the French ministry and the elimination of what Roosevelt would call shadow Huns or worse.

A resume of recent events in France which enables a clearer understanding of the governmental changes in that country is given in the Literary Digest. As one follows the course of Bolo Pasha and his known accomplices in France he cannot fail to be struck with the similarity of sentiments expressed by Hearst journals on our side of the water. Bolo Pasha must have had a most remarkable mental power to have reached so far.

The summary as given by the Digest is given at length, not alone because it assists in reading the despatches from France, but for the further and perhaps more important aid it furnishes in interpreting the activities of the shadow Huns in our own country and identifying them indeed in our own midst. The Paris correspondent of the London Daily Chronicle neatly summarizes the situation for us when he writes:

"The man behind the French ministerial crisis is Mr. Georges Clemenceau, the veteran polemist. His attacks on Mr. Malvy, the minister of the interior, have been of such point and purpose that the Ribot cabinet had to fall. Mr. Clemenceau's attack on Mr. Malvy was inspired by the thought that the minister was not sufficiently severe on German intrigue in France. This was partly founded on the minister's supposed connection with the notorious Almeréyda, the editor of the Bonnet Rouge, whose death in prison (at his own hands, according to the official inquiry) is still occupying attention. Without in the last impugning the good faith of Mr. Malvy, his critic suggested, both in his striking speeches in the senate and in his articles in his journal, that he was morally assisting the wrong sort of propaganda in France. And to make the matter plain, it may be said that Mr. Malvy, in common with many other members of the powerful Radical-Socialist group, appeared to look kindly upon the efforts of certain journalists (among them Almeréyda) to promote an atmosphere of peace."

Behind Almeréyda looms the sinister figure of Mr. Joseph Caillaux, the French politician around whose name gathers a cloud of scandals. He seems to have financed the Bonnet Rouge, which, says the London Times, "was an extremely scurrilous publication which in March, 1914, was transformed into a daily evening paper," with Almeréyda as its editor. The Times proceeds:

"Throughout the war Almeréyda made himself the champion of every pacifist and anti-patriotic idea. His campaign in favor of the enemy was conducted with a certain coarse cleverness, and by methods of more or less frank insinuation. When The Times revealed the nature of Mr. Caillaux's recent visit to Rome the Bonnet Rouge began a violent campaign against The Times, accusing it of conducting an anti-French campaign. Mr. Clemenceau, in his speech in the senate on July 22, devoted quite a lot of attention to the activities of Almeréyda and his relations with Mr. Malvy, the minister of the interior. He showed that Mr. Malvy, at the beginning of the war, had refrained from taking measures against a few thousand individuals who by their past history and their anti-militarist and anti-patriotic agitation, had been acted down on a special list—List B—as persons likely to hinder the mobilization. High up upon this list figured the name of Almeréyda."

The motive force of the Bonnet Rouge, says The Times, was German money obtained from a certain Marx, a banker of Mannheim, and paid into Switzerland. On the propaganda conducted by the Bonnet Rouge, The Times says:

"It is no secret that the propaganda has increased in openness, and at the date of Mr. Clemenceau's intervention in the senate had become a scandal to all good Frenchmen. Nearly all the more open forms of this pacifist propaganda and of these attempts to cause trouble with the working-classes have radiated from the Bonnet Rouge. The checks found on Duval, Almeréyda's manager, have been traced to the Bonnet Rouge, and without doubt Almeréyda was the chief figure in this matter."

It was not left to the foreign press to connect Mr. Caillaux with this web of intrigue, for Senator Charles Humbert, the owner of the Paris Journal, has roundly charged that he is the center of the pacifist propaganda for a "German peace." This came about through the activities of an adventurer, a certain Bolo Pasha, a friend of the ex-Khedive of Egypt, who, the Action Française tells us, has been arrested, and it charges that "the German government had turned over to Bolo. . . \$8,000,000 to subsidize the French press in favor of a German peace." And no less than \$2,000,000 of it "has been traced back to the Deutsche Bank." The Paris Journal was one of the papers that Bolo Pasha attempted to suborn, and the Paris Figaro links up Almeréyda, Caillaux, and Bolo together:

"Mr. Caillaux became the patron of the Bonnet Rouge eight days after the murder of our esteemed editor, Gaston Calmette, and made regular contributions. . . . Another illuminating fact is that Almeréyda's death a personal telegram was sent to Caillaux at Mamers by Mr. Clairé announcing Charles Humbert's reply to the accusation brought against him for accepting Bolo Pasha's \$1,100,000. What are these intrigues that Mr. Humbert denounces and upon which Justice persistently closes her eyes? Mr. Humbert speaks plainly; he says he knows of men who tried to turn the Journal into an accomplice of the enemy. "Who are these men? Whence came that \$1,100,000? Who is the high political person who, according to Mr. Humbert, stands sponsor for the patriotism and honor of Bolo Pasha?"

Mr. Malvy, it appears from the Paris Victoire, was the "high political person" who vouched for Bolo Pasha. This, along with his connection with Almeréyda, was too much; he resigned from the

Ribot cabinet, and the cabinet failed to survive. In the reconstruction the contention that Mr. Caillaux aimed at power—made by the Figaro and the Journal—seems to be borne out. The Paris papers tell us that the Socialists—led by the Radical Socialists, Mr. Caillaux's group—tried to take advantage of the situation to gain power by refusing to associate themselves with the new premier, Prof. Paul Painlevé. The attempt failed, and for the first time, we are told, in twenty years a new ministry has been formed without a single Socialist member.

The Value of Your Bond

Editor Star-Bulletin:

Will you allow a suggestion in regard to the bond-selling campaign? It seems to me that all the papers have overlooked the main point—the big inducement to buy, after patriotism.

Here is the idea: We buy bonds and pay for them with a dollar that buys only half what it normally should. For example: In 1914 one dollar meant five pounds of bacon (at retail), four and a half pounds of ham (Armour's), 30 pounds of flour, 16 pounds of cotton, etc. No use to say what a dollar means now. We all know only too well.

When the war is over the price of almost every item will fall rapidly, and in about three or four years the little \$100 bond will buy fully twice—possibly three times as much as now.

Now, since a dollar is only worth what it will buy, you can easily see we are really buying our bonds at about forty or fifty cents on the dollar.

Suppose you take up the idea and use it in Wednesday's Star-Bulletin.

With best wishes, cordially
J. C. BALLARD, M. D.,
Capt. M. R. C.

Fort Ryger, T. H., Oct. 27, 1917.

Not only does this paper take up the idea, but also cordially recommends it to the serious thought of every reader.

The value of the Liberty Bonds increases with every passing day.

Big Men For Big Jobs

Supervisor Ben Hollinger makes a great mistake when he says that a combination of the water works and the street departments, which might be comprehended in the term, public works of the city, is too big a job for one man.

That all depends on the size of the man.

Thus far in the progress of the City and County of Honolulu the policy has been to put small men in office and try to shove the job down to their size. Or, if a good-sized man did land in office, hold him down through a supervisor who was possessed of the insane idea that a department head should not make a move till he, the supervisor, was notified. There has been a surplus of little men.

What this city needs is big men for big jobs. And when the men named show they are not of the right size, they should be given the opportunity to seek fields of endeavor that fit them.

The cry is heard that the Hawaiians should have the offices, and it has become so general and the cowards who are not willing to tell the truth have been so numerous that there has been an utter disregard of the consideration of capacity, training for the position, ability to do the work.—Star-Bulletin.

The Advertiser's Bystander said this some years ago and a howl went up that echoed through three general elections. Stump speakers demanded that the editor of The Advertiser be used to decorate a telegraph pole and the opposition press led all the rest in denunciations. Today the idea expressed in the quotation is the accepted one. How times have changed when the truth excites applause instead of maledictions.—Advertiser.

Those who thus seek to call attention to an ancient spasm of virtue should always bear in mind that martyrs are never really appreciated till they are dead. The point involved is one of efficient judgment in knowing when to make a move so that it will count.

This paper is not informed of why Fred Harvey has been placed in charge of the survey for the belt road reconstruction on "the other side" of this island. It does know that Mr. Harvey has devoted much of his time to public work of this nature, and though the public has not heard of him frequently, he has carried his tasks through promptly and well. Doubtless this is the reason he has not been posted for public gaze.

Ambassador Morris has won a splendid advantage in advance by making a good impression on Tokio before reaching there. His declaration that he would always strive for the welfare of both countries, which preceded him to the Japanese capital, has the ring of the righteous new diplomacy, a diplomacy that is going everlastingly to supplant the disreputable "made in Germany" brand.

An honest confession is good for the sugar-bowl—at least Sir John White-Todd must have thought when, in asking Brother Jonathan to supply John Bull with sugar, he made the disclosure that John wasted one-quarter of the sugar imported into his island.

It will be fine business for Kauai to have more homesteads along with the long-sought Waimea river embankment. To call the law providing for the double boon a "joker" is like a laugh in the wrong place.

Mr. Graves of Wells, Fargo makes the happy suggestion that the freight embargo is probably not meant for the islands. Hawaii has always had a way of being excepted so as to be saved serious interference with any of the things it really needs.

SUMMER COMPLAINT

With apologies to K. C. B. of the Hearst papers

MR. JULIUS UNGER
MANAGER
M. A. GUNST & CO.
DEAR JULES
SOME TIME ago

YOU ADVOCATED the
PENNY

AND WE got them
AND IMMEDIATELY

YOU TOOK the
OWL CIGAR

WHICH WAS brown for
40 YEARS or more

AND PAINTED it
WHITE AND charged

SIX CENTS for it
AND ITS worth

A CENT I know
TO PAINT an
OWL THAT is

BROWN
WHITE
AND I know you can

DO THINGS and I'm not
KICKING ABOUT the

EXTRA PENNY
BUT LISTEN

JULE
WHEN I pay

SIX CENTS for a
WHITE BIRD or a
BLUE DUCK or

ANY KIND of a smoke
LIGHT IT and

STEP ON a car

TO GO home

AND HAVE to throw

AWAY A

PERFECTLY GOOD smoke

BECAUSE IT says

"NO SMOKING"

I GET sore

SO DO all of us

SMOKERS

AND YOU ought to

HELP US all out

AND SEE somebody in the

RAPID TRANSIT Co.

AND ASK them to

ALLOW US men only

THE REAR benches or

HOOK ON a

JIM CROW car like

IN TEXAS

AND PUT up a sign

FOR MALE SMOKERS

SO THE Filipino and

OTHER LADIES

WHO SMOKE

DON'T BEAT us to it

AND YOU CAN promise the

CAR COMPANY

INCREASED RECEIPTS and I

PROMISE YOU a

VOTE OF thanks

FROM ALL of us who

SMOKE AND ride in

HONOLULU

I thank you

Fish.

Fewer Eggs are required with ROYAL BAKING POWDER

In many recipes the number of eggs may be reduced and often left out altogether with excellent results by using an additional quantity of Royal Baking Powder, about a teaspoon, in place of each egg omitted. The following recipe is a practical example:

Chocolate Layer Cake

1 1/2 cup shortening
1 cup sugar
1 cup milk
1 1/2 cups flour
4 teaspoons Royal Baking Powder
1/2 teaspoon salt
1 teaspoon vanilla
1 egg
DIRECTIONS—Cream shortening; add sugar gradually, beaten egg, one-half the milk and mix well. Add one-half the flour which has been sifted with salt and baking powder, the rest of the milk, then the rest of the flour and add flavoring. Bake in greased layer cake tins in moderate oven 15 to 20 minutes.

The old method called for 3 eggs

CHOCOLATE FILLING AND KICKING
2 cups confectioners' sugar, 1 1/2 ounces unsweetened chocolate
boiling water (1 1/2 squares)
1 teaspoon vanilla 3/4 teaspoon grated orange peel
To the sugar add boiling water very slowly to make a smooth paste. Add vanilla, melted chocolate and orange peel. Spread between layers and on top of cake.

New book of recipes which economize in eggs and other expensive ingredients mailed free. Address Royal Baking Powder Co., 135 William Street, New York, U. S. A.

Bacon—He says he's got a lot of "Get 'em in the war!" medals.

ELEVEN EVENTS START SERVICE SWIMMING MEET

Big Entry List is Recorded for Army, Navy and Marine Corps Tourney at Y.

SOLDIERS, sailors and marine corps men will compete tonight at the Y. M. C. A. tank in the opening round of the big All-Service swimming meet. Eleven events are scheduled tonight and more will be pulled off tomorrow night. The relay race will be one of the big features of the evening, entries having been received from Fort De Russy, Fort Kamehameha, the navy, and the engineers as well as a number of unattached teams. The races will start at 8 o'clock. Prelims Staged.

Preliminaries were staged at the pool last night, in the 20-yard championship, the 100-yard championship, the 50-yard novice and the 20-yard novice. In the fifty dash of the preliminaries Pingry and Cunha staged a thrilling race, finishing in a dead heat.

Some interesting novelty events are on the card tonight including a full equipment race. Dennis O'Brien of the Alert is arranging a sparring contest. Cups have been put up for the relay and ribbons for the other races.

Entry List

Tonight's events and the entrants are:

- 25-Yard Championship — Dodge, O'Brien, Cunha, Alert; Pingry, De Russy; Granrose, Fort Kamehameha.
- Plunge for distance—Guyot, Azlin, Tensley, Goetz, Pingry, De Russy; Kirk, O'Brien, Carter, Malle, Machado, Navy; Buchanan, Carroll, Chich, Terry, Engineers; Wandry, unattached.
- 50-Yard Novice—Granrose, Fort Kamehameha; Guyot, De Russy; Whited, Navy; Carroll, Engineers.
- 100-Yard Breaststroke—Nelson, De Russy; Broome, Navy.
- Buchanan, Carroll, Engineers; Wandry, unattached.
- High Diving—Guyot, Sanders, De Russy; Schmidt, Fort Kamehameha; Romas, Navy; Chich, Engineers.
- 100-Yard Championship — Pingry, Hensley, De Russy; O'Brien, Alert; Carroll, Engineers.
- Six-man relays, each man swimming 40 yards—De Russy; Pingry, Goetz, Guyot, Simmons, Johns, Hensley, Panzer, Heinze, Azlin, Snyder, Bryant.
- Fort Kamehameha: Bennefield, E. Von Berg, H. Von Berg, Salmon, Smedstead, Riley, Granrose.
- Navy: O'Brien, Murphy, Whited, Romas, Cunha, Dodge, Carter, Malle, Machado.
- Engineers: Buchanan, Branf, Carroll, Carroll, Klapp, Kosita, Terry.
- Three novelty events.

TWO BASKETBALL GAMES TONIGHT

Intermediate basketball will hold the floor tonight at the Y. M. C. A. gymnasium. Two games are scheduled in the middle league. The G. R. team will play the Knights of Kahahameha and the Washingtons will tackle the Rockies.

The latter two teams have been working out under coaches and a stiff battle is expected. The Kams and G. R. team will take the floor first at 7:45 o'clock. The Washingtons and Rockies will follow.

The standing to date are: M. S. won 1, lost 0; G. R. won 1, lost 0; Knights of Kahahameha, won 0, lost 1; Rockies won 0, lost 1; Washingtons, won 0, lost 0.

Y. M. C. A. GRID SQUAD LOOKS GOOD, JUDGING FROM FIRST WORKOUT

A good turnout marked the first practice of the Y. M. C. A. football team yesterday afternoon. By the end of the week the squad, which is composed entirely of veterans, should be in good shape and going fast, ready for their first game with the 32nd infantry a week from Saturday.

Plenty of line material is available, especially tackles, but there is a problem in the composition of the backfield and the securing of a pair of ends. "Shorty" Ross, who is now at the training camp, may consent to take a workout with the team, as well as Don Ladd, both of whom would make good ends for the team. Bibee may turn out for end, and Wiley, an old Chicago player, is working out for the right wing.

In the backfield are Darnell, the coach of the Honolulu military academy, who played under Doobie at Washington; Davis and Pammel from Iowa state at Ames, and Albrecht, from Nebraska. Albrecht and Darnell may be sent to line positions, leaving several vacancies in the backfield. In the line are Brush at center, Kamper, from Kansas university, Von Holt from Yale, Whitcomb from Washburn, Carroll, Walker, Hedrick, from Kansas Aggies; McCrillis and some others.

TOWNERS PLAY TOMORROW

Harry Melim's Town Team will stack up against the All-Stars of the 25th Infantry company of Fort Armstrong at the Moiliili field tomorrow afternoon at 3 o'clock. A good battle is promised. The soldiers went down to defeat the last time the teams met and are on toes to beat the Towners.

Way matter: the price of much necessary material having soared skyward, but, still, there is every indication that before long the work will begin in earnest. The enlarged plant of the Hilo Electric Light Company and the proposed further additions to the "juice" producing apparatus is expected to hasten the beginning of the work on the street railway for this city.

TENNIS MEET ENTRIES CLOSE NEXT FRIDAY.

Entries for the annual tournament of the Hawaiian Tennis Association will close on Friday noon. The meet will begin Saturday afternoon on the courts of the Hawaiian Polo Club at Kapo-lani Park. The tourney this year will be in the nature of a patriotic meet.

There will be no championship play cups awarded and no admission will be charged. The matches are being played on Saturday and Sunday in order to enable the men in training at the officers' reserve camp to take part. The entry book is now at E. O. Hall & Sons.

Sid Cavill Says Crawl Stroke Is Not Understood

SAN FRANCISCO, Cal., Oct. 15.—Sid Cavill, the Australian swimmer who, with his brother, claims to have originated the crawl stroke, states that the difficulties of the stroke have been very much exaggerated and a wrong conception given it by a number of writers who have tried to explain it.

As a matter of fact, to its simplicity is due the speed which can be gotten out of it. There is no extra motion, according to Cavill. Much stress, he says, has been placed on the action of the legs and feet, whereas these take care of themselves. The power and propelling force lies practically entirely in the arms and the motion of the legs is more of a stabilizer than anything else. They keep the body flat along the surface of the water.

One of the principal tricks of the stroke which the learner must master consists of knowing just when to breathe. The position of the body brings the water up to the eyes, the mouth and nose being submerged. A little instruction in regard to this will quickly show the beginner the moments during the stroke when the breath should be exhaled and inhaled.

HILO TEAM ENTERTAINED.

(Special Star-Bulletin Correspondence) WAILUKU, Maui, Oct. 20.—R. A. Wadsworth, chairman of the athletic committee of the Maui County Fair & Racing Association gave a dinner to the visiting Hilo Y. M. I. ball team, the Maui team and members of the committee on Tuesday evening at the Grand hotel. Directly after the dinner Mr. Wadsworth took the whole party to the Orpheum theater show.

NAME CHANGED

The name of the Criterion Fishing Club has been changed to Makapu'u Fishing Club. This action was taken at the regular quarterly meeting of the association last Sunday.

Old Swimming Rivals to Meet Nov. 4

DUKE KAHAMAMOKU.

DUKE KAHAMAMOKU AND LUDY LANGER TO RACE MILE AND A QUARTER

DUKE KAHAMAMOKU, the world's champion swimmer, and Ludy Langer, noted water speed demon, old rivals, will meet again on November 4 in a mile and a quarter speed race from Castle's pier to the diving stand at Waikiki beach. The occasion will be the opening day of the first Outrigger Canoe club swimming meet, entries for which are now being received. Langer signified his intention of entering the race against the Duke to the officials of the club today.

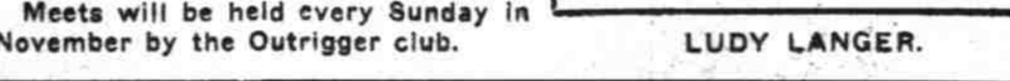

In the preliminary trials over the distance on Sunday afternoon when eight swimmers finished, Duke Kahamamoku led the field all the way and crossed the finish line 200 yards ahead of the next man. The Duke demonstrated that he hadn't lost any of his speed and satisfied the officials that he is in the pink of condition. Kid Cooke finished second and swam a beautiful race.

Others who finished were H. Harvey, D. H. Simple, A. H. Tarleton, Gay Harris and Miss J. Hopkins.

The feature race will be an open event with a cup for the winner and a gold medal for the first Outrigger member in the race to cross the finish line.

H. Kruger and J. Kelei of the Hei-lani Yacht club are also expected to enter.

Meets will be held every Sunday in November by the Outrigger club.

LUDY LANGER.

WHAT'S THE USE?

Shy Sther says:—If you Don't give a Fellow advice When he asks For it, He Thinks you're A tight guy And if you do Give him good Advice he'll Listen but won't Follow it, anyway. So, What's the Use?

He burst into the room with the awful tidings that the price of cigars had increased as if we didn't know smoke always went up, anyway!

With women street-car conductors, women elevator operators and women taxi drivers you gotta admit there's nothing slow about women nowadays except perhaps the fact that it takes the average woman thirty-five years to reach the age of twenty-one.

When the earth's last job is completed With everything put in place; And the final war has ended And progress comes to every race. We shall rest—and faith we shall need it But just as our sleep seems sure Someone will start the whole racket over With "What is an amachoo?"

After watching those wrestling matches at Moiliili Field it is hard to realize that this is part of a country that George Washington fought so hard to save.

Dick Whitcomb says that you never see a guy playing solitaire who didn't believe that a small but class field was entered. Dick's great on the get-together-boys stuff!

Autumn—This is the time of the year that the leaves are losing their envy and the papers are printing the color of the fullback's ears and the shape of his forehead, if he has any. Publicity is at a premium and you either have to kill your uncle, catch a German spy or come back from the war to get a mention. It's a tough world Ignots, 'tis.

PLANS FOR BIG KILAUEA-HILO RACE COMPLETE

(Special Star-Bulletin Correspondence) HILO, Oct. 23.—That Honolulu and Hilo are unanimously in favor of the Kilauea-Hilo relay race, which is scheduled to be run January 6, is apparent by the whole-hearted support accorded the project. The enthusiasm among local runners is a direct assurance that the race will be a success, while advices from Honolulu indicate that the athletes of that city are likely to send several teams over to endeavor to lower the colors of the Hilo boys.

The plans for the race are now practically complete; in fact, a sub-committee is at the present moment putting the finishing touches on the rules and regulations governing the race. The course has already been decided upon. Starting makai of the Volcano House the runners will proceed via the Volcano road to Richardson street, turning to the right and straight into Mooneau park, where a special course will be laid out. Around this the participants will run twice, making the

Three-Fingered Brown Is After Fed Set Salary

CHICAGO, Oct. 15.—Seeking to recover \$8000 alleged to be due him in back salary, Mordecai Brown, the three-fingered pitcher, has filed suit in the United States district court here for the appointment of a receiver for the defunct Federal league.

Louis J. Behan, counsel for Brown, said tonight that when the Federal league signed a peace agreement with organized baseball, the league's assets were distributed among the clubs of the National and the American leagues. Brown wants these assets collected and a receiver appointed for them. Charles H. Weeghman, president of the Chicago National, who owned the Chicago franchise of the Federal league, and P. D. Ball, president of the St. Louis Americans, are among the twenty-nine persons named as defendants. Ball was president of the St. Louis Federals. Officials of all Federal league clubs also are named as defendants.

Brown deserted organized baseball and signed a three-year contract at a salary of \$7500 a year to manage the St. Louis Federals. He subsequently was released and the league, it is claimed, agreed to meet the obligations of his contract.

The Hawaiian association of the A. A. U., which has its headquarters in Honolulu, has signified its intention to cooperate with the local committee in a manner which admits of no denial.

Since the event is to be contested under A. A. U. regulations, it is necessary that each proposed runner, if not already a member of the A. A. U., secure an A. A. U. card.

In order to admit of the A. A. U. officials scrutinizing all entries in plenty of time for captains of teams to make any changes in their teams which may be found necessary or advisable, it has been decided to have entries close with the local committee on December 19th. The teams will be permitted to include one substitute.

Prizes Ordered

Chairman R. T. Forrest, of the local committee, has already sent orders for the prizes for the relay race. The first prize consists of a massive silver cup for the winning team, while the members of this team will also receive an attractive medal, and the members of all other teams to complete the 31 miles within three hours and forty-five minutes after starting will be awarded a silver bar suitably inscribed.

Gertie—You ought to get something for that cold Bertie.

Bertie—Well, how much will you give me?—Sketch.

ARROW COLLARS 20¢ 2 for 35¢ 3 for 50¢

GUERT-PEABODY & CO. INC. MAKERS

ONE HUNDRED AND FOUR MERMAIDS ENTER MEET.

Preliminaries for the 50-yard novice and 20-yard for girls under 15 will be held at the Y. M. C. A. tank Friday night. The big women's swimming meet for which 104 entries have been received will be staged on Saturday night.

The meet is for the benefit of the American Red Cross and will be featured by several novelty events. No medals will be awarded; ribbons being substituted. Two cups have been put up and the committee will gladly welcome additional donations as prizes.

FINANCIERS GO DOWN TO AUTOS

In one of the best games staged this year on the Y. M. C. A. bowling alleys the Auto Factors torpedoes the Financiers' Five, by total score of 2685 to 2514. Both teams put up a sensational game, the money makers nabbing the first game by a score of 906 to 779 and the haul drivers coming back in the next two and breaking the bankers.

Wikander had the high total of the evening with 886 while Tinker was high in the single game with 211. Andrews was next man with a total of 547 whole. Ho was right behind with 529. Cooper, Meyer and Canario also rolled well.

The Pineapple Factors and the Printers will play a postponed match at the "Y" alleys tonight. The battle will start at 7:30 o'clock. The fruit-growers look better and should give the Printers a run for the honors.

BASKETBALL GAME AND DANCE TO BE STAGED TO SEND ALERTS OFF

To show that Honolulu appreciates good clean sportsmanship, a benefit basketball game and dance will be staged Saturday night in the Armory at which the sailors of the submarine and the crew of the mother ship "Alert" will be entertained and given a send-off. A dinner earlier in the evening will be served to the members of the Alert, and Teds basketball teams which will compete.

A committee in charge of arrangements, consisting of Glenn Jackson, Harry Decker, Dick Whitcomb, J. P. Morgan, J. McCullin, J. Vrooks, Bill Bibee, Mike Jay and Sergeant, J. A. Brush, at a recent meeting decided that an admission fee of one dollar would be charged for the dance and game, the proceeds, after expenses had been paid, to be turned over to the Red Cross. During the last few weeks there has been talk of "what should be done to entertain men in service here" and the answer is that all those who have thought of that problem should turn out to the dance and basketball game Saturday.

HONOLULU BOYS HAD SNAP WITH BOSTON CRACKS

Island Swimmers on Cruiser St. Louis Give Exhibition and Trim Naval Cadets

HOW four Honolulu boys, R. Boyd, H. K. Chan, Victor Kaha and J. Gilman, members of the crew of the cruiser St. Louis, demonstrated that Hawaii is the home of fast swimmers, by trimming a naval cadet relay team from Bunkin Island in the swimming championship of the N. E. A. A. U. at Boston last month, is contained in a letter enclosing a clipping from Frank H. Wright received here by John Soper.

The clipping reads: "Boston swimming enthusiasts had a chance today to see what great swimmers the Hawaiians are, four of them competing as a relay team from the cruiser St. Louis. Each relay had to swim 100 yards. The first relay brought Boyd and Taylor of this country and though Taylor showed great speed, Boyd finished with a five-yard lead. Chan, who started the second relay, increased the lead to 15 yards, and Kan, who came next brought the lead up to 25 yards. J. Gilman took the last relay and put up a real exhibition of speed.

Some Finish

"He increased the lead to 50 yards, then slowed down a bit so as not to make the victory too much of a walk-over and after allowing his opponent to come up, speeded again and crossed the finish line 50 yards ahead. It was the fastest swimming that Boston fans had witnessed for some time, and the applause was tremendous."

The clipping also shows the pictures of the four men of the team as printed in one of the Boston newspapers. Wright's letter concludes with the remarks that all the island boys on the St. Louis are getting along fine and waiting for a chance to pull the kaiser's mustache. He sends his regards to all.

Riga, Now In Hands of Germans, Third Seaport of Russia

Import and Export Trade Totaled \$100,000,000 Before the War

"Not even the greatest optimist can fail to realize the seriousness of the blow to Russian arms in the fall of the Baltic seaport of Riga," says a bulletin issued by the National Geographic Society from its Washington headquarters.

"With an import and export trade totaling \$100,000,000 two years before the outbreak of the world war, Riga became the third seaport of the Russian empire and the second seaport of the Baltic, being surpassed in volume of business by Petrograd.

"The city is divided into several sections. The old town has narrow, winding streets, while the Petrograd and Moscow suburbs are well-built, modern sections. All of these divisions of the city are situated on the right or east bank of the River Dvina, while the Mitau suburb is on the left bank. The two banks are connected by a long floating bridge, which is removed during the four months of the year when the river is frozen over.

"Riga is situated ten miles above the mouth of the Dvina, and is 363 miles by rail southwest of Petrograd. Vessels of light draft reach the city proper by means of a canal, but the chief harbor is on the shores of the Baltic.

"The importance of Riga as a seaport is due in a very large measure to the fact that by means of the Dvina and numerous canals it is connected by water with the basins of the Volga, which flows into the Caspian, and the Dnieper, which enters the Black sea. Thus, practically the whole of Southern, Central and Western European Russia can find an outlet into the Baltic through this port. In addition to the cheap water transportation, a railroad runs across Russia from Riga to Smolensk and Tsaritsyn, almost bisecting the empire.

"Riga is a great storehouse for Russian wheat, oats and hemp, three items which constitute a large portion of the city's exports. It is also the chief port for the vast timber products of the province of Volhynia. Flaxseed, eggs, hides and skins are shipped from here in great quantities. The chief articles of import are machinery, cotton goods, coal and groceries.

"The shipping industry did not constitute Riga's sole activity before the war, however. It manufactured products including machinery, leather, railway cars, candles, tiles and glass, amounting in value to \$30,000,000 annually.

"The growth of Riga during the last thirty-five years has been phenomenal. In 1881 its population was 169,000; today it has more than half a million. Of this number 47 per cent are Germans, 23 per cent are Letts and only 25 per cent are Russians. It is not hard to imagine, therefore, how difficult has been the problem of the citizens loyal to the new republic during the last few months. It is also worthy of note that the Germans of Riga are on the whole of the most prosperous merchant class together with a considerable number of the Prussian aristocracy.

CAPT. WM. FILMER IS PORT CAPTAIN

When the Shinyo Maru passed through here last week found for the Orient officers of that vessel stated Captain William C. T. S. Filmer, for 20 years skipper of the ship, had been given a position ashore as San Francisco port captain for the T. K. K. line.

Captain M. Nagano succeeded Captain Filmer as master of the Shinyo, after officials of the T. K. K. line had vigorously protested against Captain Filmer's removal, in keeping with the orders of the Japanese government, which is requiring the removal from command of all foreign sea captains from vessels for which the government grants a subsidy.

The Shinyo and Tenyo are two of the T. K. K. liners which are subsidized by the Japanese government.

SEA CAPTAIN ADVISES CREW HOW TO MARRY

Capt. Kori of Yokohama, for nearly 40 years a veteran skipper of the Nippon Yusen Kaisha and who retired from active service with a pension recently, is reported to have been as good a navigator as he was a wise selector of good wives for many of his crew. Since seamen spend most of their time on the sea, returning home only once a month or even once each half year, all wives of seamen should be of the most solid character, resisting all temptations, Capt. Kori declares.

Capt. Kori does not regard the go-between system, long followed in Japan, as a perfect and ideal one. Many defects follow the marriages arranged by the go-between system, he thinks. Capt. Kori therefore made a careful study and devised his own system, which he believes to be better than any now existing. Yet his own system is a very simple one.

Whenever a man finds a woman whom he wishes to marry, Capt. Kori went on to say, he is to follow her for a certain distance carefully, studying how she walks. If that woman walks straightforwardly without paying any attention on the roadside, she will be an ideal wife, Capt. Kori said he believed that any woman who walks recklessly and then at other things on the streets, is in ninety-nine cases out of a hundred of a fickle character and will never be suited to become the wife of a seaman who will be away most of the time.

Capt. Kori, however, emphatically advised one more thing before a final decision is reached, that is, that it is also important to have glimpse of one's prospective bride from ahead of her, for many women who walk straight often are squint-eyed or have flat noses.

MAUI NEWS

(Special Star-Bulletin Correspondence.) WAILUKU, Maui, Oct. 22.—Mr. and Mrs. James Cumming of Paia entertained twenty of their friends in celebration of their tin wedding last Tuesday evening. After the supper the party adjourned to the Makawao Union church for the organ recital of Miss Harrison.

At the home of Miss Nellie Crook of Makawao a very pretty wedding took place a week ago Saturday when Rev. Father Francis of Paia united in marriage Dr. Wah Lam, a dentist of Honolulu, and Miss Elizabeth Tam Sing of Maui. The house was beautifully decorated for the occasion and after the ceremony refreshments were served. Later at the Tam Sing home dinner was served in honor of the bride and bridegroom. Dr. and Mrs. Wah Lam will reside in Honolulu.

Miss Miriam MacMillan, head nurse of the Paia hospital, was tendered a farewell reception by her many friends before leaving for Honolulu last week whence she sails for the French front, where she joins a Red Cross unit.

Mrs. Alice Bevins, mother of Elmer R. Bevins, county attorney for Maui, arrived on the last Wilhelmina from the coast for a visit to Mr. and Mrs. Bevins at their Wailuku home.

Harry C. Mossman, clerk of the Wailuku tax office, has been promoted to the position of deputy tax collector.

Mr. and Mrs. P. W. Alston of Wailuku gave a most delightful party at the tennis court of the Wailuku sugar mill last Friday evening. The guests consisted mostly of the employees of the Wailuku Sugar Company and all were asked to come in their tennis togs. The affair was called an Olympic party, and stunts of all kinds were pulled off which kept the guests roaring with laughter.

Another—Joan, dear, have you been doing anything to this ink? Joan—Yes, nummy; I put some water in to make it write weak. I've been writing a letter to Daddy—and I wanted to whisper something to him! —Passing Show.

LOG LINE SAVES 'MAN OVERBOARD'

An extraordinary incident of saving a "man overboard" during a dark night and in a gale of wind took place on the steamer Lehua, while about half way on her trip from Dutch Harbor for San Francisco, reports the Coast Seaman's Journal. By luck or a regular "frank" of chance the man in the water managed to come in contact with the log line and slowly slide to the end. Fortunately his going overboard had been observed. So the engines were promptly stopped and a man detailed to haul in the log line to prevent her fouling the propeller. After a tug or two at the line and a few lusty shouts from the end, everybody on deck knew what had happened and the fortunate candidate for an almost certain and untimely death was safely landed on deck. The name of the lucky man is L. M. Andreassen, a member of the Sailors' Union of the Pacific.

HONOLULU STAR-BULLETIN, TUESDAY, OCTOBER 23, 1917.

PRICE OF MILK GOES UP; FEED REMAINS SAME

Dairy Assn. Says Increased Running Expenses and Demands of Producers Cause of Boost; Figures Show That Cost of Stock Feed Has Changed Little

Increased running and overhead expenses, heavy advances in the price of all material used in the bottling and handling of milk, and the demands of the producing dairymen that a higher price be asked, combined to force the Honolulu Dairymen's Association to put new milk prices in effect on November 1.

This was given as the cause for the advance in the price of bottled milk to 15 cents a quart, by S. W. Smith, manager and treasurer of the association, to the Star-Bulletin this morning. The association has notified the public that commencing November 1, common milk will be raised to 8 cents a pint, 15 cents a quart; Jersey milk to 9 cents a pint and 17 cents a quart, and baby milk to 10 cents a pint and 20 cents a quart.

"The producers informed us some time ago," said Mr. Smith, "that unless we raised our prices they could not keep going, and would withdraw from the association. This threatened a milk shortage and we had to raise the prices. As soon as we can lower them again we will do so, without any urging from the consumers."

Mr. Smith stated that the association is receiving 70,000 quarts a milk a month less than it has been prior to the increase in feed cost, several months ago. The producers have been compelled to dispose of some of their herds, as the upkeep was too expensive. Accordingly the supply of milk has dropped considerably. Fifteen producers notified Mr. Smith, that unless they got more for their milk, they would withdraw from the Dairymen's Association. With milk at 15 cents a quart, the producers will receive between 9 and 10 cents.

The comparative prices of feed since July, 1917, present some interesting facts. Middlings, the principal feed used by the dairymen, cost \$95 on July 3, this year. Last week middlings were quoted at \$65. Alfalfa, middlings were quoted at \$65, next in importance to the producer, was quoted at \$35 in July. Latest quotations place it at \$28 a ton. Barley, on July 3 was quoted at \$58. Last week it could be bought for the same price. Wheat sold for \$100 on July 3, while last week one could carry away tons of it for \$85 a ton. According to the association officials, however, the producers demand higher money for their milk, and accordingly got it. Mr. Smith quoted the present milk prices in force in several of the mainland cities.

San Francisco milk is at 15 cents, St. Louis milk at 17 cents, and Chicago milk at 13 cents a quart. Milk at the present time costs 9 3/4 cents a quart to produce, according to Mr. Smith's figures. Honolulu milk is getting certified milk cheaper than in New York, he declared. Certified milk in New York is selling for 18 cents, while ordinary milk is quoted at 15 cents. All milk sold by the Dairymen's Association here in Honolulu is put through the tests demanded by the New York board of health. This is the regular, or common milk, which the association will sell for 15 cents a quart.

Mr. Smith stated that the cost in the increase of milk was largely due to the cost of producing and selling bottled milk. Wholesale milk is now selling for 11 cents a quart, and the directors are discussing raising the price. It will probably not advance more than one cent. The reason for the cost in bottling milk is given according to the following data:

Fifteen months ago the Dairymen's Association paid from \$575 to \$657 for a carload of gas annealed milk bottles. Today they are paying \$1000 per carload. Fuel bills amounted to \$100 a month 15 months ago, but the fuel expenses now run up to \$320 a month. Such small items as caps for the bottles cost \$1150 a year, and the loss by bottle breakage amounts to \$12 a day.

It was stated that if the territorial board of health would allow a 3.5 test for milk as a local standard, prices would drop. In the majority of mainland cities, the standard is 3 per cent. Out of 400 gallons of milk, \$40 worth of cream is taken out by the tests. Local milk tests for 3.5 and 3.8, but the board of health does not permit the dairymen to lower the standard to 3 per cent milk. Milk is delivered to the customer in the same condition that it is received from the producer.

250 ADDITIONAL ARTICLES ADDED IN EMBARGO LIST

How stringent is becoming the export embargo on any article which might be of use to Germany is shown in the latest embargo list of goods which are prohibited of shipment to any of the Central Powers or the neutral countries of Europe by the treasury department, received last Saturday by Raymond Sharp, acting collector of customs.

A striking example is the inclusion of carrier pigeons in the list. As is known, carrier pigeons are made to do their bit in their use by the signal corps. Like all war material there is wastage among the pigeons, and so now Germany is to be prevented from getting new supplies through the neutral countries from America. Likewise the American supply is to be retained for our own use.

In the new embargo list there was added about 250 more articles, ranging in variety from almost every known article which might be made to serve our enemies, in its original form or if remade.

For instance, the export of printers' type—made of lead—is one of the "peace" articles which is now considered "war goods."

LITTLE N. Z. CITY GAVE MORE THAN MILLION IN LOAN

Honolulu will have to get up and go some with her subscriptions to Liberty Bond loans today if she expects to get very far ahead of the per capita subscriptions made by her Little Antipodes sister, Gisborne, New Zealand. Douglas F. Brewster, a New Zealander, who is in Honolulu for his health, said today that the loan which closed September 2 had subscriptions from the town of Gisborne alone aggregating 294,000 pounds, or about \$1,400,000, which means more than \$1000 per capita.

"And this does not take into account the subscriptions made by Gisborne residents whose business interests are outside of Gisborne," says Mr. Brewster. "Those subscriptions were credited to the district in which the business is located. This means Gisborne alone, which, depopulated as she now is by the war, has not more than 12,000 people, the majority of whom are children and women. And then, too, she has so many other demands made upon her in the name of the war. I reckon there's never a day when there isn't some cause or other before the people calling for money. Most of the charitable contributions go into some sort of fund for the returned soldier, or his brother at the front."

JAIL TWO AS SUSPECTS.

H. Harrison and A. Coakley, two local young men, were arrested by Chief of Detectives McDuffie yesterday afternoon and booked for investigation. It is alleged that they are responsible for the frequent thefts at the Honolulu Iron Works, where quantities of rubber hose and supplies amounting to \$275 had been stolen. Coakley and Harrison are watchmen at the iron works. They are detained at headquarters pending further investigations.

Sister Susie—Why did you allow that horrid young man to kiss you?
Maise Susie, the idea!
Susie—Oh, you needn't "idea" me! One side of his face is powdered and one side of yours isn't!—London Answers.

"I Can Invent No More, Your Majesty"

WARM CLOTHING READY TO BE SENT SOLDIERS

Sweaters, wristlets and mufflers to be sent to the Alert and the Schurz are coming into the Beretania street Red Cross depot in large numbers. With what is already on hand 80 sweaters, 50 mufflers and 55 wristlets are ready to start on their long journey to the front whenever it shall please the government to send them. All having any of these garments on hand are urged to get them into the Red Cross headquarters as promptly as possible.

A knitting class, under the direction of Mrs. Arthur G. Smith, has started in the throne room. Only sock-knitting, which requires the use of four needles, will be taught, as it takes more socks than any other kind of knitted wear for the soldier. The class is open for a number more pupils.

New workers are coming in all the time, but Mrs. Damon says there's always room for more.

SIMPLE WASH REMOVES RINGS UNDER EYES

Honolulu people are startled how quickly pure Lavoptik eye wash relieves blood shot eyes and dark rings. One young man who had eye trouble and very unsightly dark rings was relieved by ONE WASH with Lavoptik. His sister also removed a bad eye strain in three days. A small bottle Lavoptik is guaranteed to benefit EVERY CASE weak, strained or inflamed eyes. Pure aluminum eye cup FREE. The Hollister Drug Company.—Adv.

A \$500 Liberty Bond has been purchased by the Morning Music Club with funds of the organization. Other local organizations are considering aiding the loan.

MISS EDNA LLOYD IS BRIDE OF V. C. LIETSE

Announcement was made today of the marriage last Thursday evening of Miss Edna Lloyd and V. C. Lietse at the Catholic cathedral. The ceremony was performed by Rev. Patrick St. Ledger and the bride was given away by her brother, James W. Lloyd. The bride is a Honolulu girl with a large island acquaintance. The groom's home is in Marlon, Ind., and he has been making an extended visit in Honolulu, during which he formed an acquaintance with Miss Lloyd. While the wedding was not a secret to the bride's family, it was kept secret from many of her friends until it was announced today. Intentions of the bridegroom to leave for the war front with an American contingent are not altered by the wedding, it is asserted.

There is a demand for trained nurses just now that bids fair to be greater than the supply. This morning there's not a nurse who could be called upon for a new case, every nurse in town being employed, and one or two who have given up the practice of nursing, having been called back to the work. Ten of these nurses are on typhoid cases in the Queen's, Fort Shafter and Schofield.

F. A. SCHAEFER TAKEN TO QUEEN'S HOSPITAL

F. A. Schaefer, one of Honolulu's oldest and best known business men, was removed to the Queen's hospital last night. Mr. Schaefer has been ill for several days with a complication of troubles attributable to his age. He is now 81. Mr. Schaefer is the father of Mrs. Harold Castle, Miss Pauline Schaefer, whose engagement was recently announced; Mrs. Irmgard Elgin and Capt. Gustav Schaefer of Schofield Barracks.

ARE WOMEN NATURALLY DESPONDENT?

While there are women who seem always despondent and depressed and expecting misfortune, that is not woman's natural condition. Such unfortunate suffer from ill-health. An abnormal condition of the system expresses itself in nervousness, sleeplessness, backaches, headaches and despondency.

If all ailing women would make faithful use of that grand remedy for woman's ills, Lydia E. Pinkham's Vegetable Compound, there would be little occasion to ask if despondency is natural to woman.—Adv.

FINAL DRIVE FOR FOOD PLEDGES IS HELD THIS WEEK

(By Associated Press)
SAN FRANCISCO, Cal.—(By Associated Press.)—That the final drive for food conservation pledges will be made during the week of October 21 to 28, is the message received from the food administration at Washington, by Ralph P. Merritt, Federal Food Commissioner for California recently.

The enrolment campaign is organized by states and most of the states have already completed their preliminary arrangements for assuring the complete success of the effort within their borders. A house to house canvass of the twenty-two million families in the United States and the enrolment of every man and woman of this nation in a mighty food conservation army that will win the war is the task that the Food Administration has undertaken for the week of October 21 to 28.

Herbert C. Hoover the United States Food Administrator today formally announced this final campaign that will enlist every citizen in the world war for democracy. In a personal statement and appeal he sets forth the problem and its solution.

"On the success of this unprecedented adventure in Democracy," says the Food Administrator in his appeal, "will largely stake the issue of the war." "Food will win the war," is the battle cry. Nearly two million women have taken the pledge to furnish the food our allies and overseas armies require, and already they are visibly increasing the available supplies. The small amounts which each individual is asked to save through substitution and avoidance of waste when multiplied by millions becomes an effective total. The whole problem will be solved if the American people will eat less of the foods which because of their concentrated nutritive, must be sent abroad, and more of other foods of which there is abundance.

The foods that must be saved are wheat, beef, pork, dairy products and sugar. Those that should be used generously are fish, poultry, vegetables and all cereals except wheat.

H.E. VERNON ASKS CORRECTION OF EMBARGO RUMOR

Local Agents of Santa Fe and Southern Pacific Say Action Will Not Affect Territory; Cargo is Moving Steadily

No information regarding the reported embargo on freight destined for Honolulu imposed by the Santa Fe and Southern Pacific systems had been received by H. E. Vernon and E. J. Hardesty, respective agents in Honolulu. Both declare, however, that the reported embargo will in no way affect the territory.

Mr. Vernon late Saturday afternoon sent the following radiogram to the Santa Fe agent in San Francisco: "Please request Associated Press to correct its statement today (Saturday) that we have embargoed freight for Hawaii on account of lack of vessels or other causes."

A cablegram received yesterday by Mr. Vernon from San Francisco, dated October 20, last Saturday, says that seven cars of merchandise and 16 carloads of other freight cleared San Francisco "yesterday," or Friday. Upon telephoning Castle and Cooke to ascertain if one of their vessels had left San Francisco, Mr. Vernon was informed that one undoubtedly had left on Thursday. He believes the cablegram was probably delayed in transmission.

"This certainly shows a healthy condition so far as the territory of Hawaii is concerned," says Mr. Vernon.

Rich Pure Milk from specially selected herds—and germ-free

Quality in Condensed Milk starts with the cow, and the dairy produce of New Zealand is recognized as the world's highest grade. New Zealand's dairy legislation is the world's model—strict Government inspection and supervision is applied to every farm. For this reason New Zealand's butter and cheese tops the world's market.

The pastures of Southland are amongst the richest and best in New Zealand, and it is here that the herds that supply Highlander Milk are situated. The milk is taken from the cows under exceptional conditions of cleanliness, and it is then forthwith filtered and cooled at the dairies. Next it goes to the great Highlander Condensaries where cleanliness reigns supreme. Here again it is treated by the most modern scientific methods and apparatus.

Highlander Milk

Condensed Milk

I subjected to a scientific process which destroys all disease germs and leaves it absolutely germ-free. Evaporation in vacuo removes the useless water, the purest No. 1 Cane Sugar is added, and the milk is packed in seamless solderless sanitary tins. Do you wonder that the finest Condensed Milk in the world is the result? For purity, for quality, for richness, for flavour, for economy, Highlander is supreme. Even though you are satisfied with the milk you are now using, you owe it to yourself to try Highlander. There are hundreds of recipes in the big 20-page beautifully illustrated Highlander Cookery Book. Write for a FREE copy to the address: Highlander, Dept. A, Fred L. Waldron, Ltd., Agents, Honolulu.
