The Swindled Missionary.

EDITOR GAZETTE.—I met tell you about

a missionary victim of some sharpers of this

city, Mr. Thomas C. Acton, the Assistant

Treasurer of the United States gave me the

story. Last week Dr. B., a celebrated mis-

sionary in India was walking down Broadway

and a well-dressed man stepped up to him

and said, "How do you do, Mr. Dobson, I am

glad to see you." "I am not Mr. Dobson,"

said Dr. B. "Is it possible that I am mis-

taken?" said the man. "You are, I am Dr.

B.—India. "(Oh! I beg your pardon,"

said the man. "Two days after Dr. B. was

walking down Broadway, when another well-

dressed man came up to him, shook him by

the hand. "How do you do, Dr. B.?" when

did you get back from India? you have for-

gotten your old friends." "I have been away

for some time," said the Doctor, "and I have

forgotten many faces. I presume I knew you

years ago." "I want to hear about your

travels in India," said the man. "Which way

did you go?" "I went to the west coast,"

said the Doctor. "We were walking through

the mountains, and the man said, "By the

way, I have drawn some books of mine in

the mountains, and if you will give me, I will

give you a part of them for your India school."

So they walked into a place, and were re-

ceived by a man, who did not pay much

attention to them. "I'll take those books of

mine," said the Doctor's friend. "All right,"

said they were passed out, and I had been

turned over to Dr. B. for "India." "I think

I will make another drawing, I must do some-

thing more for India," said the Doctor's

friend. "Is this gambling?" asked the

good Doctor. "Oh, no, that is carefully

watched. I am not a gambler, but I have a

number of tickets the man who seemed to run

the place said, "You had better pay for your

tickets." "Very well," said the Doctor, "I

will pay for them." "Very well," said the

Doctor, "I will pay for them." "Very well,"

said the Doctor, "I will pay for them."

off from time to time, while the sugar is boiling.

When sufficiently boiled it is run off into a

wooden cooler, about 7 1/2 long, 4 1/2 wide,

and 1 1/2 deep, and while in the hot liquid state, a

man begins to stir it about with a piece of wood

about 1 1/2 long and 1 1/2 thick, attached to a

handle about 4 1/2 long. With this

wooden instrument the liquid is kept in constant

motion, until it begins to granulate and cool,

and when cool enough several more mix and rub

it with their hands until all the lumps are

broken and the sugar becomes all of one colour,

which is dark well. It is then put in baskets

and sold to sugar dealers, who put it up in mat

bags, and bring it to market for sale to mer-

chants for all purposes. The sugar principally

exported to foreign countries is what is known

as "clayed" sugar, and is made as follows:—

When the juice is boiled to a proper consist-

ency, the white of two eggs are put into each

pan, which serves as a clarifier; when suffi-

ciently boiled it is run off into small-shaped

earthenware jars, which are placed in rows

under a trellis of grape vines, or other

trellis or empty jars. When sufficiently dried

the jars are taken away in a dry place, where

they remain from thirty to forty days, accord-

ing to the state of the atmosphere. The cor-

nings and straw bungs are then removed, and

each jar will be found to contain three qual-

ities of sugar, the upper part white, the next

light brown, and that at the bottom dark-brown.

The drainings are used for distilling purposes,

and also for making cement. Two distinct

qualities of sugar are grown in China—one a dark

purple, which is better than the other for sugar-

ing, and is principally cut up and sent to

Europe in its raw state.

## LATEST FOREIGN NEWS.

Per U. S. S. *Suez* from San Francisco dates to the 15th inst., inclusive, have been received and which thus anticipate the news per P. M. S. S. *Zetland* from Australia, bearing cablegram dates of the 15th inst. Nothing of special interest appears in the way of Colonial news.

CAIRO, October 3.—It is believed that English counsel, sent by Wilfred Blunt to defend Arabi Pasha, will be desired access to him, the Egyptian Government being of the opinion that legal assistance from such quarter will be of no avail, since the pleading will be heard in Arabic.

PARIS, October 5.—A Paris newspaper says it is understood that England is negotiating for the purchase of two hundred thousand Suez Canal shares.

LONDON, October 5.—The returns issued by the Board of Trade shows that during September British exports decreased, as compared with that month of last year, £20,000, while the exports increased £22,000, as compared with the same month.

NEW YORK, October 5.—The *World's* London cable says: The comet is all the talk in scientific circles at present, and it is being regarded with considerable apprehension. Richard A. Proctor, who denied that it was the comet of 1843 and 1881, now finds that he made a mistake in his calculations, and so has withdrawn his statement. More cautious astronomers than he have no doubt of the identity of the comet, and believe that it will return at the same time in October, 1883, and will then fall into the sun, with results which will enable us to dispense with the future publication of the newspapers of the world. I am assured that this is the opinion of the most eminent scientists of the day. Mr. C. Piazzi Smith, the clever Astronomer Royal for Scotland, in particular, having made no secret of his belief that the end of the world is at hand.

HAVANA, October 5.—Since January 1st, the Board of Freedom has declared free 20,000 slaves, in accordance with the Emancipation law.

NEW YORK, October 5.—Professor Joseph Price, for many years a mining expert on the Pacific Coast, is here. To your correspondent he said that in his opinion the output of the gold mines would be about the same as they had been for a number of years, between sixteen and twenty millions. It was a mistake, then, to suppose that there was a business depression on the Pacific Coast. Immense quantities of coal and iron ore had been discovered in Washington Territory and Oregon, and that would be a new source of wealth. The wheat crop this year is considered as worth forty millions, but in spite of the grain, the minerals and valuable lumber, he considered that much of the future wealth of California would be derived from grapes and raisins. Every year the wine manufacturers were becoming more expert, and consequently are making a better quality of wine, and in like proportion the prejudice against California wine is rapidly dying out.

LONDON, October 5.—As a concession to the feelings of the Catholic clergy throughout Ireland, all the Bishops except Archbishop McCabe extended a general permission to the priests of their dioceses to take part in the Mansion House election meeting, and in the new Labor League and the Industrial Union, founded by Parnell. Several of the minor church dignitaries consequently became presidents of branches of the League, and will, in that capacity, participate in the Dublin Conference.

WASHINGTON, October 5.—Secretary Lincoln and Chandler have gone to New York to be present at a Cabinet meeting. It is rumored Folger's resignation will be accepted and his successor named. His successor will probably be Senator Jones of Nevada, or John C. New, now Acting Secretary of the Treasury.

NEW YORK, October 5.—The cricket match between the Australian XI and 18 players chosen from clubs in and around New York was played to-day. The day's playing resulted in 110 runs for the Australians and only 27 for the Americans.

LONDON, October 5.—At the Newmarket races to-day the Cleverest stakes were won by Hatterton; Gairloch second, Ansonia third. Twelve horses won, including Lordlier's Massicot and Keene's Profit.

The Dillon stakes were won by Lord Bradwell; Keene's Blonch second, Kilmelard third. The Nursery stakes were won by Belle Henriette; the Square second, Daphne third.

ALEXANDRIA, October 5.—The committee appointed to inquire into the June outrages have held their first sitting to-day and discussed the preliminaries of the investigation. Another committee is sitting at Ibrahiah with closed doors investigating outrages committed in other parts of Egypt during the rebellion.

CAIRO, October 5.—Sultan Facha, President of the Chamber of Notables, thinks Turkish intervention in Egypt would mean anarchy. He maintains that the root of joint control is extravagant and that £400,000 ought to be saved annually by the substitution of efficient native for foreign officials. He thinks that the mass of the population is unfit for a representative government.

CAIRO, October 5.—Considerable dissatisfaction exists among the officers and men of other British regiments in Egypt at the singling out by General Girdlestone of the Royal Irish for special mention in his dispatch of September 15th to the War Office, giving his report of the battle at Tel-el-Kebir.

NEW YORK, October 5.—A Washington special says: One of the Sunday newspapers has declared that Gessner's skull was stolen from the Medical Museum before the skeleton had been mounted, and that another skull has been put in its place.

LONDON, October 5.—Tenders were opened at the Bank of England to-day for £2,000,000 worth of Indian four per cent debentures. The loan was covered twice above par.

DUBLIN, October 5.—Owing to the alarming increase of pauperism in South Ireland, the Dublin Union has taken the lead in a proposal to send 1,000 able-bodied men and women to Canada at a cost of £7,000.

## LATEST FOREIGN NEWS.

Per "City of New York."

MONTREAL, Oct. 15th.—The Customs officials here have seized about ninety thousand dollars worth of machinery, imported from Chicago, being fraudulently entered at the Custom House for duty at fifty per cent below the actual value.

LONDON, Oct. 15th.—Courtney, M. P. in his speech last night said the policy of the Government was to detach Egypt from the Sultan, to look after the Suez Canal, and to allow the Egyptians to "stew in their own juice," and in so doing to warn the Khedive that his future position depended upon his management of affairs.

LONDON, Oct. 15th.—An account is published of two cremations, the first which have taken place in England. The bodies were those of Lady Harbham and Mrs. Harbham, who died in December in 1877 and 1876 respectively. They both expressed a wish that their bodies should be cremated. The remains were kept in mortuary until preparations for the process were completed. Last Sunday the remains, inclosed in substantial

coffins, were placed in the furnace on plates of iron and fire brick, and reduced to ashes.

WASHINGTON, Oct. 15th.—The charges made by Commander Pearson of the United States steamer *Wachusett*, stationed at Sitka, Alaska, against Government Morris, Collector of Customs of that district, have been referred by the Secretary of the Navy to the Secretary of the Treasury. The charges are of a serious character, including fraud upon the Government in connection with the importation and sale of liquor, drunkenness, ruthless slaughter of Indian dogs, arbitrary and aggressive conduct toward the natives, as well as officers of the Government having business with him.

LONDON, Oct. 15th.—A Paris dispatch says, Prince Romanoff, in a recent interview with politicians, said that he believed England intended to secure a majority of the shares of the Suez Canal Company so as to oust M. De Lesseps.

NEW YORK, Oct. 15th.—The New York and Brooklyn Association of Congregational Churches met again to-day and prepared a resolution asking Beecher to reconsider his action in withdrawing from the Association and expressing concern over it in his belief.

WASHINGTON, Oct. 15th.—The Smithsonian Institute has received from the Academy of Sciences the announcement of the discovery by Schumacher at Athens, on the 8th of October of a comet with same motion in right ascension and declination.

ROCHESTER, N. Y., Oct. 15th.—Dr. Lewis, Superintendent of the Warner Observatory, says the new comet discovered by Dr. Schmidt at Athens is unquestionably a fragment of the great comet, which was broken off at its perihelion passage. This proves that the great comet must have grazed the sun and have passed through a terrible crisis. This is the second instance on record where a comet has been disrupted, the first one being Biela's comet of 1845.

PORT SAID, Oct. 15th.—It reported that the authorities of the canal have prohibited the employment of any one who worked for or assisted the British forces. Consequently, many are thrown out of employment.

PARIS, Oct. 15th.—A dispatch from Mont oval-Mines reports that the gendarmes discovered fifteen dynamite cartridges, with lighted fuse attached, hidden near a school house. The fuse was extinguished without an explosion. Two thousand troops have been stationed in the neighborhood of the town.

PARIS, Oct. 15th.—Eighty Frenchmen, assisted by 1,600 African laborers, are about to commence the construction of a railway between the Niger and the Senegal Rivers. Their operations will be protected by a military column, which will plant the French flag and erect two forts on the Niger.

SAN FRANCISCO, October 15.—The son of a Sandwich Island sugar planter, was relieved of some money and a watch at a questionable house in San Jose Saturday night.

BERLIN, October 15.—Emperor William is slightly indisposed in Baden.

PHILADELPHIA, October 15.—Frank Queen, proprietor of the *New York Clipper*, died this afternoon of paralysis of the brain. He was 55 years of age.

LONDON, October 15.—The German ship *Constrata*, Captain Knudsen, came in collision with the steamer *City of Anson* fourteen miles off the Eddystone lighthouse and both vessels were sunk. All of the *Constrata's* crew and four belonging to the *City of Anson* have landed at Cardiff. The destination of the *City of Anson* is not given. The ship *Constrata* was last reported at Bremen on September 21, bound for New Orleans.

SAN FRANCISCO, October 15.—The United States steamer *Wachusett* arrived in port from Sitka yesterday, after a passage of fourteen days via Victoria all well.

LONDON, October 15.—Wilfred Blunt has offered to go to Egypt and ascertain the fate of Professor Palmer and the officers who were sent to purchase comets from the Bedonias at the beginning of the war, and whom, it is feared, have been murdered.

St. Petersburg, October 15.—A new Russian loan of \$5,000,000 in rounded three per cent bonds at 90 will be issued immediately by the Rothschilds.

LONDON, October 15.—Barry Sullivan, the actor, has consented to be nominated to Parliament by his Irish constituency on Home Rule principles.

PROVIDENCE (R. I.), October 15.—The Turkish Government has made a demand upon the Providence Tool Company for \$5,517 rifles, with bayonets and scabbards, manufactured by the Tool Company for the Turkish Government, and held, as alleged, in store by said company for Turkey.

NEW YORK, October 15.—A cable special to the *Herald* from St. Petersburg says: A thick fog, smelling of burning turf, has covered the whole of St. Petersburg since yesterday. A vast circle of incendiary fires, extending from Finland to the Baltic, is said to surround the capital, and to include within its circumference Gatchina, where the Emperor now is. The fires are in the woods, under which are turf and pitch, and they may last for a long time. They are attributed to the nihilists.

PARIS, October 15.—An Ibrahiah correspondent telegraphs: De Farava, the Ibrahiah of Kofimes, arrived here, en route for St. Petersburg, on October 17th. He left Ibrahiah in September, when news from the Lena delta had arrived, saying that the Harter party were all well. Nothing had been ascertained of the fate of Lieutenant Chipp of the *Jennette*. The steamer *Lena* was expected daily, bringing letters from the delta.

CHICAGO, October 15.—The Tribune devotes considerable space to the California sugar monopoly and Newman's candidacy for Congress. After reviewing the history of the combination of refiners and the Pacific Railway Company the Tribune says the treaty with the Hawaiian Islands has developed into an enormous scheme. It covers great tracts of land, and has been practiced remorselessly upon the people and has created a gigantic monopoly which is now able, from its great accumulations, to defy public opinion. The treaty ought to be brought to a close by notice in 1884.

WASHINGTON, October 15.—Danenhower to-day testified that everything was done that was possible to avoid the loss of the *Jennette*. No ship could have survived under the same circumstances. Had witness been in command of the *Jennette* he would have tried to get her out of the pack on the evening of September 6th. The prospects of success would have been good.

CAIRO, October 15.—The Ministry have ratified the agreement between Borelli, the Government lawyer, and Broadly and Neger, Arabi Pasha's counsel, in regard to the course of procedure in the coming trial. Broadly declares that all the elements of a fair trial have now been secured, the new conditions being more favorable for the defense than those allowed by an English court-martial.

VICTORIA (B. C.), October 15.—Miners working in a lake at Cassiar, found about 30 Chinese coins strung on a wire six feet below the surface. The wire crumpled to pieces on exposure to the air. The coins are said by the Chinese to be over three thousand years old. The question is now asked: "Were the Chinese the first settlers of this continent?"

SEATTLE, October 15.—S. C. Carlsen, a Bostonian and Michael Broderick an Irishman, both seamen

on the bark *Emerald*, from Honolulu, at Port Gambier, last Wednesday, got into an altercation which subsequently resulted in Carlsen stabbing Broderick, inflicting severe, but probably not fatal wounds.

CAIRO, October 15.—The state of the natives is most unsatisfactory. Underlying a thin stratum of fear there is a deep hatred among them of Christians.

## GRAND RE-OPENING!

At 103 Fort Street.  
Ladies' Attention Solicited.

MRS. W. H. WILKINSON BEGS LEAVE  
to state to her numerous friends and patrons, both in Honolulu and on the various Islands, that she has just returned from California, where her time has been spent in selecting one of the most complete and choicest Stock of

## LATEST FOREIGN NEWS.

Per O.S.S. Suez from San Francisco dates to the 10th inst., inclusive, have been received and which thus anticipate the news per F. M. S. S. Zoolia from Australia, bearing cablegram dates of the 8th inst. Nothing of special interest appears in the way of Colonial news.

Cairo, October 21.—It is believed that English counsel, sent by Willard Bunt to defend Arabi Pasha, will be denied access to him, the Egyptian Government being of the opinion that legal assistance from such quarter will be of no avail, since the pleading will be heard in Arabic.

Paris, October 2.—A Paris newspaper says it is understood that England is negotiating for the purchase of two hundred thousand Suez Canal deputation shares.

London, October 2.—The returns issued by the Board of Trade shows that during September British imports decreased, as compared with that month of last year, £55,000, while the exports increased £22,000, as compared with the same month.

New York, October 2.—The World's London cable says: The comet is all the talk in scientific circles at present, and it is being regarded with considerable apprehension. Richard A. Proctor, who denied that it was the comet of 1843 and 1880, now finds that he made a mistake in his calculations, and so has withdrawn his statement. More cautious astronomers than he have no doubt of the identity of the comet, and believe that it will return at the latest in October, 1883, and will then fall into the sun, with results which will enable us to dispense with the future publication of the newspapers of the world. I am assured that this is the opinion of the most eminent scientists of the day, Mr. C. Piazzi Smith, the clever Astronomer Royal for Scotland, in particular, having made no secret of his belief that the end of the world is at hand.

Havana, October 2.—Since January 1st, the Board of Freedmen has declared free 20,000 slaves, in accordance with the Emancipation law.

New York, October 2.—Professor Joseph Price, for many years a mining expert on the Pacific Coast, is here. To your correspondent he said that in his opinion the output of the gold mines would be about the same as they had been for a number of years, between eighteen and twenty millions. It was a mistaken idea to suppose that there was a business depression on the Pacific Coast. Immense quantities of coal and iron ore had been discovered in Washington Territory and Oregon, and that would be a new source of wealth. The wheat crop this year is considered as worth forty millions; but in spite of the grain, the minerals and valuable lumber, he considered that much of the future wealth of California would be derived from grapes and raisins. Every year the wine manufacturers were becoming more expert, and consequently are making a better quality of wine, and in like proportion the prejudice against California wine is rapidly dying out.

London, October 2.—As a concession to the feelings of the Catholic clergy throughout Ireland, all the Bishops except Archbishop McCabe extended a general permission to the priests of their dioceses to take part in the Mansion House anti-sectarian movement and in the new Labor League and the Industrial Union, founded by Parnell. Several of the minor church dignitaries consequently became presidents of branches of the League, and will in that capacity, participate in the Dublin Conference.

Washington, October 2.—Secretaries Lincoln and Chandler have gone to New York to be present at a Cabinet meeting. It is rumored Folger's resignation will be accepted and his successor named. His successor will probably be Senator Jones of Nevada, or John G. New, now Acting Secretary of the Treasury.

New York, October 2.—The cricket match between the Australian XI and 25 players chosen from clubs in and around New York was played to-day. The day's playing resulted in 110 runs for the Australians and only 27 for the Americans.

London, October 2.—At the Newmarket races the Camarock stakes were won by Hesperus; Garfield second, Acropolis third. Twelve horses ran, including Lordard's Massicot and Keene's Protest.

The Dublin stakes were won by Lord Brodrecht; Keene's Broughless second, Rhineland third.

The Nursery stakes were won by Belle Henrietta; the Square second, Daphne third.

ALEXANDRIA, October 2.—The committee appointed to inquire into the June outrages here held its first sitting to-day and discussed the preliminary of the investigation. Another committee is sitting at Tanah with closed doors investigating outrages committed in other parts of Egypt during the rebellion.

Cairo, October 2.—Sultan Pasha, President of the Chamber of Nobles, thinks Turkish intervention in Egypt would mean anarchy. He intimates that the best of joint control is extravagant and that £200,000 might be saved annually by the substitution of efficient native for foreign officials. He admits that the mass of the population is unfit for a representative government.

Cairo, October 2.—Considerable dissatisfaction exists among the officers and men of other British regiments in Egypt at the signing out by General Wolseley of the Royal Irish for special mention in his dispatch of September 15th to the War Office, living his report of the battle at Tel-el-Kebir.

New York, October 2.—A Washington special says: One of the Sunday newspapers has declared that Crittenden's skull was stolen from the Medical Museum before the skeleton had been mounted, and that another skull had been put in its place.

London, October 10.—Tenders were opened at the Bank of England to-day for £2,000,000 worth of Indian four per cent debentures. The loan was covered twice above par.

Dublin, October 10.—Owing to the alarming increase of pauperism in South Ireland, the Dublin Union has taken the lead in a proposal to send 1,000 able-bodied men and women to Canada at a cost of £7,000.

## LATE FOREIGN NEWS.

Per "City of New York."

MONTREAL, Oct. 12th.—The Customs officials here have seized about ninety thousand dollars worth of machinery, imported from Chicago, being fraudulently entered at the Custom House for duty at fifty per cent below the actual value.

London, Oct. 12th.—Cortney, M. P., in his speech last night said the policy of the Government was to detach Egypt from the Sultan, to look after the Suez Canal, and to allow the Egyptians to "share in their own pain," and in so setting to work the Khedive that his future position depended upon his management of affairs.

London, Oct. 12th.—An account is published in a book at Cassier, found about 30 Chinese coins strung on a wire six feet below the surface. The wire crumbled to pieces on exposure to the air. The coins are said by the Chinese to be over three thousand years old. The question is now asked: "Were the Chinese the first settlers of this continent?"

SEATTLE, October 21.—S. C. Carlson, a Russian and Michael Bruderic, an Irishman, both seamen

coffins, were placed in the furnace on plates of iron and fire brick, and refined to ashes.

WASHINGTON, Oct. 12th.—The charges made by Commander Pearson of the United States steamer Wachusett, stationed at Sitka, Alaska, against Governor Morris, Collector of Customs of that district, have been referred by the Secretary of the Navy to the Secretary of the Treasury. The charges are of a serious character, including frauds upon the Government in connection with the importation and sale of liquor, drunkenness, ruthless slaughter of Indian dogs, arbitrary and aggressive conduct toward the natives, as well as officers of the Government having business with him.

London, Oct. 12th.—A Paris dispatch says Prince Bismarck, in a recent interview with politicians, said that he believed England intended to secure a majority of the shares of the Suez Canal Company so as to oust M. De Lesseps.

New York, Oct. 12th.—The New York and Brooklyn Association of Congregational Churches met again to-day and prepared a resolution asking Beecher to reconsider his action in withdrawing from the Association and expressing concurrence in his belief.

WASHINGTON, Oct. 12th.—The Smithsonian Institute has received from the Academy of Vienna the announcement of the discovery by Schmidt at Athens, on the 24th of October of a comet with same motion in right ascension and declination.

ROCKWELL, N. Y., Oct. 12th.—Dr. Lewis, Superintendent of the Warner Observatory, says the new comet discovered by Dr. Schmidt at Athens is unquestionably a fragment of the great comet which was broken off at its perihelion passage. This proves that the great comet must have grazed the sun and have passed through a terrific crisis. This is the second instance on record where a comet has been disrupted, the first one being Biela's comet of 1846.

Four Sam. Oct. 17th.—It reported that the authorities of the canal have prohibited the employment of any one who worked for or assisted the British forces. Consequently, many are thrown out of employment.

Paris, Oct. 17th.—A dispatch from Montpelier-Mines reports that the gendarmes discovered fifteen dynamite cartridges, with lighted fuse attached, hidden near a school house. The fuse was extinguished without an explosion. Two thousand troops have been stationed in the neighborhood of the town.

Paris, Oct. 17th.—Eighty Frenchmen, assisted by 1,400 African laborers, are about to commence the construction of a railway between the Niger and the Senegal Rivers. Their operations will be protected by a military column, which will plant the French flag and erect two forts on the Niger.

SAN FRANCISCO, October 15.—The son of a Sandwich Island sugar planter, was relieved of some money and a watch at a questionable house in San Jose Saturday night.

BERLIN, October 15.—Emperor William is slightly indisposed in Baden.

PHILADELPHIA, October 15.—Frank Queen, proprietor of the New York Clipper, died this afternoon of paralysis of the brain. He was 60 years of age.

London, October 17.—The German ship Cosetta, Captain Koschke, came in collision with the steamer City of Astoria, fourteen miles off the Eadystone lighthouse, and both vessels were sunk. All of the Cosetta's crew and four belonging to the City of Astoria have landed at Cardiff. The destination of the City of Astoria is not given. The ship Cosetta was last reported at Bremen on September 21, bound for New Orleans.

SAN FRANCISCO, October 15.—The United States steamer Wachusett arrived in port from Sitka, yesterday, after a passage of fourteen days via Victoria all well.

London, October 15.—Willard Bunt has offered to go to Egypt and ascertain the fate of Professor Palmer and the officers who were sent to purchase canisters from the Redoubts at the beginning of the war and whom, it is feared, have been murdered.

St. Petersburg, October 15.—A new Russian loan of £5,000,000 in nominal three per cent bonds at 90 will be issued immediately by the Rothschilds.

London, October 20.—Barry Sullivan, the actor, has consented to be nominated to Parliament by his Irish constituency on Home Rule principles.

PROVIDENCE (R. I.), October 20.—The Turkish Government has made a demand upon the Providence Tool Company for \$8,617 rifles, with bayonets and scabbards, manufactured by the Tool Company for the Turkish Government, and held, as alleged, in store by said company for Turkey.

New York, October 21.—A cable special to the Herald from St. Petersburg says: A thick fog, smelling of burning turf, has covered the whole of St. Petersburg since yesterday. A vast circle of incendiary fire, extending from Finland to the Baltic, is said to surround the capital, and to include within its circumference Gatchina, where the Emperor now is. The fire are in the woods, under which are turf and peat, and they may last for a long time. They are attributed to the nihilists.

Paris, October 20.—An Irkutsk correspondent telegraphs: De Farva, the Ispravnik of Kollima, arrived here, en route for St. Petersburg, on October 17th. He left Irkutsk in September, when news from the Lena delta had arrived, saying that the Harbet party were all well. Nothing had been ascertained of the fate of Lieutenant Chipp of the Jeannette. The steamer Lena was expected daily, bringing letters from the delta.

CINCINNATI, October 20.—The Tribune devotes considerable space to the California sugar monopoly and Newman's candidacy for Congress. After reviewing the history of the combination of refiners and the Pacific Railway Company the Tribune says the treaty with the Hawaiian Islands has developed into an enormous scheme. It covers great tracts of land and has created a gigantic monopoly which is now able, from its great accumulation of money, to defy public opinion. The treaty ought to be brought to a close by notice in 1884.

WASHINGTON, October 21.—Danenhower to-day testified that everything was done that was possible to avoid the loss of the Jeannette. No ship could have survived under the same circumstances. Had witness been in command of the Jeannette he would have tried to get her out of the pack on the evening of September 6th. The prospects of success would have been good.

Cairo, October 21.—The Ministry have ratified the agreement between Borellini, the Government lawyer, and Brandy and Nupor, Arabi Pasha's counsel, in regard to the course of procedure in the coming trial. Borellini declares that all the elements of a fair trial have now been secured, the new conditions being more favorable for the defense than those allowed by an English court-martial.

VICTORIA (B. C.), October 21.—Miners working in a bar & at Cassiar, found about 30 Chinese coins strung on a wire six feet below the surface. The wire crumbled to pieces on exposure to the air. The coins are said by the Chinese to be over three thousand years old. The question is now asked: "Were the Chinese the first settlers of this continent?"

SEATTLE, October 21.—S. C. Carlson, a Russian and Michael Bruderic, an Irishman, both seamen

on the bark Emerald, from Honolulu, at Fort Gamble, last Wednesday, got into an altercation which subsequently resulted in Carlson stabbing Broderick, inflicting severe, but probably not fatal wounds.

Cairo, October 21.—The state of the natives is most unsatisfactory. Underlying a thin stratum of fear there is a deep hatred among them of Christians.
