A.P. Upshur, Navy Sec. States Secretary, has audited
1842 letters to Dept. of Navy from Capt. Audley, 1842.

Meeting of auditors & principal officers.

The result satisfied everybody, with general conduct
of our Courts toward these people, have been perfectly correct
and unexceptional. - that he in the heart of saying what little
respect to either the laws or jurisdiction of the blacks, is disre-
t ected and unsuitable in his official circumstances, and consequently
exceedingly unpopular with them.

Some idea of the character may be formed from the fact that he
proposed to me to demand of the Turtles Government or a statement
for what he calls the "attire" consideration by the consular persons
that they should appropriate a lot of ground & erect a building.

A.R. in reference to the American Consular Residence.
Regarding the protection as highly honorable, I propose
promptly to send it, and as this was the only ambition on which
would consent to have the affair adjusted, & left it to him afterwards.

Demand not readily voluntary or part of natives - not good for commerce but denied by F. or to stipulate terms in these native. Macheel + Carson refuse to ask for F. protection - many Americans in attacks due to British belief that under terms of G.B. F. cannot contribute as against independent & no excessive taxes, no restrictions to trade. Very important export duty + no treaties with F. If protectorate accepted, these unfortified Americans entitled to indemnity, suggests U.S. protest against Protectorate force. F. demands nothing for other Protectorate in years of possession. "With the least valuable resources the islands have not abandoned materially to any form, but have always been a source of expense to the home government which has another Tahiti under officials against whom there have always been more complaints than against the native government of the Hawaiian Islands."
