A GREAT LAW CASE.

One of the most important actions ever brought in this Kingdom is now pending in the Supreme Court. The reference is to the petition for revocation of order admitting to probate the will of Kelijahonui.

Kelijahonui was one of the ancestors of the Kalakaua family. He died in 1849 leaving a very large estate by devise to his wife Kekauonohi. Kekauonohi married Haalelea, to whom upon her death in 1851 she left her property. Haalelea sold a great deal of it during his lifetime and upon his death the residue was distributed among his

The will of Keliiahonui was admitted to probate in February, 1855. In 1866 a petition was filed in the Supreme Court with a view to setting aside the will on the ground of forgery. A. F. Judd and W. C. Jones were counsel for the petitioner. The evidence going to show that the will was forged was very strong but Judge Robertson who heard the case took the ground, that he would not set aside the will unless the evidence of its rean trust to work for the onable doubt, thus applying a rule of evidence valid only in criminal procedure to a civil case. An appeal was taken but W. C. Jones failed to perfect it, and a writ of error was refused. Thus the case never reached the Court in Banco. In 1890, as readers of the Advertiser will remember, a second attempt was

made to set the will aside on the part of Junius Kaae, claiming under his deceased wife, who was a grand-daughter of the testator. The case excited great attention at the time and was very thoroughly argued, but a plea of res adjudicata was sustained and the petition

And now a third attempt is made to set aside this memorable, much debated will. The petitioner is again Junius Kaae, but he has acquired a new interest by purchase. The defense have set up a plea in bar and a demurrer. The plea is the old one of resadjudicata. The grounds of demurrer are three: 1. Want of jurisdiction (on the

ground that a court of probate cannot reverse its own decrees). 2. Failure of the motion to set forth the new evidence and names of witnesses.

Dole, Judge, is now under consideration.

The case involves the title to some of the finest proportion in this birds is the finest proportion in this birds. The plea and demurrer have been arthe finest properties in this kingdom.

THERE ARE MANY, PERHAPS, I who are not aware that the fireproof filling of Safes is composed largely of water. In event of a fire this water generates steam, keeping the temperature inside the Safe below the point of injury to its contents. Detective filling

By this sorrowful event the marriage relation of Her Majesty with the deceased happily subsisting through many years has been severed and the nation through the death of the Prince Consort has lost a tried and familiar friend.

Therefore, Be it resolved by the Privy Council of State here assembled, that we tender to Her Majesty our profoundest sympathy in this her time of grief and bereavement, and we commend her for comfort and solace to Almighty God.

Resolved, That by the death of the Prince Consort, this Council has lost an honored and esteemed member, one of the eldest in service among us, with whom we now part with sorrowful regret, a member loyal to the Crown, and held in high regard by the nation.

Resolved, That the members of this Council wear the customary mourning. Resolved, That a copy of these Resolutions be presented to Her Majesty and that they be entered on the records of this

TUESDAY,

On the first page is an article copied from the Hilo Record, in which the editors of that paper give their views on political matters, taking, in the main, a fair and independent stand as regards exist-

ing parties. THERE will also be found on the same page, a reference to one of the most important suits ever brought before our Courts-a suit that will affect millions of property, here and throughout the islands, if the contestants succeed in establishing what they claim to be a

fact-that the will was a forgery.

As BEFORE stated in this paper, it is the intention of the agents, in the other three days 85 deg. San Francisco, of the Oceanic S. S.

America and England.

WE ARE writing under the inspiration of one of Edison's incandescent lights, which sheds its soft and mellow rays around the office and composing rooms, and hereafter this paper will be set up wholly by electric light. Thus our readers abroad will see that one of the greatest inventions and blessings of the age has come to stay in Honolulu. Ere long, not only will our manuscript be written and our type composed by it, but all our steam presses will be driven by electricity, as a 10-horse power dynamo for which work is already in our printing house, is now being set up, and we trust will be at work during the present week. These improvements are being made by the Hawaiian Electric Company, which has over three hundred lights in use in the city, with applications sufficient to increase the number to 1,200, as soon as they can fill the orders. The public will see by this that we are determined to secure every improvement that promises to supply better newspapers and work. Next will come the cable.

THE CENSUS DISTRIBUTION,

We have already noticed the census tables as far as were published in the early part of August, and we are now in a position to compare the numbers of the various nationalities as to distribution throughout the different islands of the group, with a view to ascertaining how the migration going on amongst the people is affected or directed by new industries or centres of production.

In 1884 the total population of Oahu was 28,068, in 1890 it was 31,194, a gain of 3,126, but if we compare the numbers, NATIVE ONLY, in the district of Honolulu we find they have decreased 441 or nearly 5 per cent, but the total loss of native population amounts to 14 per cent, therefore the country districts have lost either by death or migration far more than the capital.

The Chinese whose numbers have decreased by 2,638 have largely quitted the capital districts, one-half of the whole diminution coming out of Honolulu

The Japanese who have increased altogether by 12,244 have only added 340 of this number to Honolulu, where they are mostly employed as domestic servants or as

laborers on the railroads. The Portuguese on the other hand with a diminution in their number of 775 have increased made on the route which he has laid enormously in the Honolulu and Hilo districts, these two districts alone now mustering 3,287 out of a company his wife and children, who

total of 8,602. Still we must consider the population to be better distributed than it was in 1884, the withdrawal of Hilo must be a relief to those with whose trades or business the Chinese competed, and neither Portuguese or Japanese have taken their

hands. The meteorological record for August is in no sense remarkable, except to show the continued drought to which this district in common with many others both in Oahu and Maui has been subjected. Only 1.35 inches of rain were registered during the month, of which 0.30 fell on the 9th.

The report for the week ending on the 5th inst., gives a rainfall of .26 in., and at the present writing there is a promise of further showers. The heat has been very oppressive, with a maximum thermometer for four days of 87 deg.,

PERSONALS.

Mr. Arthur C. Alexander, whose marriage, in Oswego, N. Y., to Miss Mary E. Hillebrand, of this city, we published last week, is the second son of Prof. W. D. Alexander, of the Survey service, and is an instructor in the Yale Scientific School, having charge of the department of elec-tricity. Mr. Alexander and his bride will make New Haven their home.

Mr. William Lewers, who, for a while, was a favorite salesman with the ladies shopping at Egan & Gunn's, in this city, is, we learn, purchasing a stock of the latest European styles of dresses, which will in a short time be open for inspection by the ladies at the new and elegant store of the above firm. The Myrtles Easily Defeat the Healanis-A Swimming Contest. A number of members of the Myrtle

and Healani Boat Clubs together with some guests, among them quite a number of ladies, assembled yesterday afternoon at the Myrtle Club House to witness the race between junior crews of the two clubs. Some excitement had been looked for, but the race was a wall over for the Myrtles from the start. The crews were as follows: Myrtles- O. Sorenson (stroke), Armstrong, G. Ross, G. Angus and Arthur Wilder (coxswain). Healani-L. de L. Ward (stroke), C. Holt, F. Hammer, A. L. Atkinson and Chas. Herrick (coxswain). The boats were started at 5:35. Shortly after coming out from behind the O. S. S. Co.'s wharf, the Healani's boat, the Poomaikelani, seemed to have a slight lead. The Myrtle's crew in the Alf. Rogers were pulling a slow stroke, only thirty to the minute. They spurted, crawled steadily past the Healanis, and passed the lighthouse with a lead of a boat's length—lustily cheered from the boathouse as they went by. lead was steadily increased until all excitement over the race disappeared. The turning of the spar buoy was accomplished in 18 seconds by the Myrtle boat, and the total distance from the lighthouse around the buoy and back in 11:18. The Myrtles led at the lighthouse by 40 seconds.

During the race the spectators at the boat house amused themselves tossing coppers to the kamalii in the water. A big black dog and a small black boy were excited by the efforts of the crews swimming match on the spot, which was closer and more exciting than the boat race.

The hot weather last week knocked every semblance of inspiration out of the advertisement writer's head, but business goes along just the same, no matter how the weather is.

And hot weather creates stronger desires than ever for ice cream. Make it at home then and save money. The time don't count to your servants, and thirteen minutes is not very long, anyhow, to freeze cream. That's what the White Mountain Freezer will do, and do it well, too. Barefooted Bill still keeps

on his travels and you have not yet bought a Safe-probably. After he gets into the house or store, walks off with everything but your family, to generous emulation and organized a you'll calculate to get one. Better do it now and save money. Don't postpone the matter, because someone says in the papers "We must have detectives." Suppose they get 'em, will they get the burglar? We think not. A detective from the Coast would not amount to shucks. Better not wait longer, buy a Safe now.

shortly, and you may not have thought much about presents. What about the Brass Tables with onyx tops that we have. A beautiful ornament and usevase of flowers or a statuette on it.

We have other things just as useful and pretty, for such occasions. Come in and look around. There's always some one to wait upon you whether you purchase or not.

We said something about a lot of new lamps to arrive last week. They did'nt come, but they'll be here this week, sure. We have plenty as it is, but this is a new lot. can suit you in lamps if anyone can.

Stoves, Ranges, Tinware and Agateware are things used every day. We have been careful in our selection of the stock we offer, and we believe we have the largest and best ties sold, we believe the public thinks with us. There's scarcely a utensil made in Agateware that we have not on our shelves. It is cheaper, better and cleaner than anything manufactured for the same purposes.

If you've been buying any pictures lately you will want to hang them. Be careful in selecting the cord for the purpose. Get the best in the beginning and you will avoid broken frames. We have a wire cord made especially for a climate like this, and is guaranteed not to rust or break.

It's the same with everything else, you get good value in everything you buy.

A Clear Case of Snicide.

Yesterday morning at 9:50 a telephone message was received at the Police Station, stating that a Portuguese by the name of Jno. Onellis had jumped into the pool below Kapena Falls. Assistance was immediately sent and the body recovered and taken to the house of the drowned man, near the Pauoa road, where he lived with his married sister. No regular inquest was held, as it was a clear case of suicide. The man, although otherwise sufficiently robust, had been a sufferer for eight years from cancer in the cheek. He had lost his wife about a month before and was left with four young children, who are now orphans.

Marriage Bells.

Yesterday evening Miss Julia Paty and Mr. J. J. Egan were united in marriage at the residence of the bride's parents, the Rev. Dr. Beckwith officiating. DEFIES THE POLICE.

Barefooted Bill Visits a Number of Mercantile Firms. Sunday night was celebrated by Bare-

footed Bill, or some one of the company of burglars who are grouped under his Wichman's watch club drawing name, in breaking into the stores of Theo. H. Davies & Co., M. Phillips and H. W. Schmidt & Sons. The entry at Davies & Co. was effected by the skylight opening into the garret, and from there by a trap door in the ceiling of the storeroom. The drop to the floor was a long one, but it was effected in some way of which no trace was left. The visit to offer 500 tons best Scotch splint coal Davies & Co. was a perfectly fruitless one, nothing having been missed. A Hon. J. S. Walker and several others left on Monday, per steamer Mokolii, for Lanai.

Draf I. W. Varnellanda and several but new boots squeak and are not suited to the wants of burnels. A pair of boots was carried as far as the door, but was left there, just inside the iron shutters. The burglar was doubtless weary of being called barefooted, but new boots squeak and are not suited to the wants of burnels. to the wants of burglars. A good deal of ingenuity was shown by

this energetic night visitor at H. W. Schmidt & Sons. The entry was effected Hustace, Morgan & Hitchcock announce a big cut in the price of firefrom an inner court-through a barred burglar ever got as far as the window at all is a mystery. In the lower part of the store he pried open several drawers, opening one desk from the top by smashing the cover, but nothing was found but papers which he managed to disarrange. Cigars were in this desk, but none were missed. The burglar The Justices of the Supreme Court | carried several bottles of wine from opened a bottle of Madeira, but did not taste it. It was California Madeira and possibly not suited to his palate. About eleven feet above him and the same distance to the left was the main wall of the stores except an advertisement of a sure fronting on the street. The burglar cure for colic and cramps in the wished to scale this wall. A joist projected from it about three feet, doubtless for hoisting up merchandise. This furnished the hint needed. The burglar turned into the store again, unrolled a long, narrow piece of figured cloth and making it fast to the iron hinge, threw it from the window over the joist. It was a hard throw, but it succeeded; the end of the roll passed over the joist and fell to the ground, which it more than reached. Fastening a second roll of stout cloth to the hinge, the burglar lowered himself to the bottom of the court, where he grasped the first strip, climbed it hand over hand, and in a

moment found himself on the roof. The burglar boycotted Sproull's and Nolte's and stepped on over the roof to M. Phillips', the store lately occupied by G. W. Macfarlane & Co. Here an entry was effected, as at Davies & Co's., by the trap door. The burglar fitted himself with a new hat and a suit of clothes of dark blue serge, and then went down stairs and opened drawers, prying the Yale locks open and getting at the others by boring three holes with a brace and bit just above the lock. The drawers contained nothing but papers of no value to a thief.

"August Flower"

I had been troubled five months with Dyspepsia. The doctors told me it was chronic. I had a fullness after eating and a heavy load in the pit of my stomach. I suffered frequently from a Water Brash of clear matter. Sometimes a deathly Sickness at the Stomach would overtake me. Then again I would have the terrible pains of Wind Colic. At such times I would try to belch and could not. I was working then for Thomas McHenry, Druggist, Cor. Irwin and Western Ave., Allegheny City, Pa., in whose employ I had been for seven years. Finally I used August Flower, and after using just one bottle for two weeks, was entirely relieved of all the trouble. I can now eat things I dared not touch before. I would like to refer you to Mr. McHenry, for whom I worked, who knows all about my condition, and from whom I bought the medicine. I live with my wife and family at 39 James St., Allegheny City, Pa. JULY TERM, 1891.

THE KING VS. WILLIAM JOE AND KALAWAIA.

BEFORE JUDD, C. J., BICKERTON, ANI DOLE, J. J.; M'CULLY, J., ABSENT. Agreed to be submitted on briefs

(1) The Court will not consider the constitutionality of a law unless its repugnancy to the Constitution is pointed

without argument.

out by counsel (2) Where the defendants are charged under Chapter 40 of the Laws of 1886 with being by night without lawful excuse in an enclosed premises, it is not neces-sary for the prosecution to show that they are vagrants and have no visible means of subsistence.

(3) The evidence sustains the charge.

OPINION OF THE COURT BY JUDD, C. J The defendants were at the last term of this Court convicted by the jury on their appeal, on a charge of violating Chapter 40 of the Laws of 1886, by being found by night without lawful excuse in or upon the en-closed yard or houses of the Kapiolani Home in Honolulu. At the close of the case for the prosecution, the defendants' counsel moved the Court to discharge the defendants on the following grounds:

(1) That the law under which the defendants are charged is unconsti-

tutional. (2) That there is no evidence that either or both of the defendants are vagrants, or that either or both of them have no visible means of subsistence within the meaning of the

(3) That the facts are not sufficient to bring the case within the charge. This motion was denied, and the question brought to us by the bill of exceptions is whether it should have

been granted. The second ground for the motion to discharge the defendants is fully covered and disposed of by our opinion in this case decided February 10, 1891. We held that the statute in question (Chapter 40 of the Laws of 1886) adds to the previous law, Chapter 37, Penal Code (which punishes vagrants), several offenses which are acts, such as soliciting alms, subscriptions or contributions under false pretenses, or entering by night without lawful excuse a dwelling house, warehouse, outhouse or enclosed yard, etc. We said "va-grancy being a status rather than an act, a person found guilty of the last mentioned offenses and punished therefor, is not thereby convicted of vagrancy even though the two classes of offenses are defined in the same act and punished with the same penalties."

On the first ground that the Act in question is unconstitutional, counsel for defense having failed to file any brief, we are left to conjec-ture the grounds upon which this Act may be attacked. It is not for the Court to proceed to the discussion of so serious a matter as the Plumbing, Tin, Copper and Sheet Iron Work, constitutionality of a law, unless its repugnancy to the Constitution is pointed out by counsel. For this

reason we pass the point by.

In answer to the third point, we find that the evidence was conclusive that the defendants were found by night on the enclosed premises of the Kapiolani Home in Honolulu for children of leprous parents, and that no lawful excuse therefor was shown by them. We therefore overrule the exceptions.

Deputy Attorney-General Creighton for the Crown; Messrs. Rosa and Kaulukou for defendants. Honolulu, August 26, 1891.
