HOLIDAY GOODS.

The Perkins Windmill

is now in this country, but in the United States, THOUGHT-ANDS are in use, and on account of their superior strength and easy running qualities, they have taken FIRST RANK among windmills.

They have just received a car load of Mills and can furnish on short notice STEEL GALVANIZED MILLS of R. 10, and 12-foot diameter and WOOD MILLS of R. 10, 12, 14, 16 and 18-foot diameter. We have DIRECT MOTION windmills for places where there are steady strong winds, and geared mills which will run in very light winds, but cannot pump so fast as the direct motion mills. Some of our windmills have oilcd bearings of the most approved kinds, and some the CELEBRATED GRAPPLE BEARINGS which will run for years without any oil; also STEEL GALVANIZED TOWERS, 90 and 40 feet high.

SEND FOR THE Perkins Catalogue

And read the description of the geared mills for farmers and stockmen. With the use of shanking and pulleys they can be made to grind corn or barley, cut fodder, turn a grindstone and saw your wood.

Wooden Towers can be erected if preferred, and we give directions for the timber and erection. We have also Gould's Lifting and Force PUMPS for horse or windmill use. We can furnish redwood tanks, also, of all sizes from 600 gallons to 10,000 gallons made in the best way and of the best clear redwood.

The perfect satisfaction that the Perkins Windmills and the Gould's Pumps have given wherever they have been used and properly adjusted is a guarantee of their success. Try the Perkins Mill and get something that will stand the strongest wind and yet work well in the lightest Southern wind.

SHARPSHOOTERS PRACTICE. Friendly Contest Was Given, Shoot Next Week—Gold Medals. The Sharpshooters were in full force Saturday afternoon to shoot a friendly match among themselves. There was more than usual interest taken in this match, for the reason that the three teams also on the training grounds were arranged for the gold medals contests which will begin in January. The three teams were scored as points. The second runner up with handicap allowance 65 points, and match to everybody surpass the third team average 45\% or a total of 90. A member of the Shooting Club was appointed to be the judge in this match. It was the general opinion that this match would differ by pointing out a few "unknown quantities" in the third team which surprised everyone. He acknowledged that the committee should have worked out the average by algebra instead of arithmetic.

INFANT FOODS

It does not do to change the diet of infants when a food is found to agree with them. We therefore aim to keep a full supply of foods. Here are some we have;

Bartlet's Food

Horlick's Malted Milk

Mellin's Food

Lactated Food

Lacto-Preparata

Imperial Granum

Nestle's Food

Ridge's Food

Lacto-Cereal

Carrick's

You are sure of getting any of the standard infant foods from us.

HAWAIIAN HOSUEN ARMS
Burlington Hotel of Bay District for Pulling Americans.
From all accounts, the Hawaiian horses are not doing very well at the Coast. Those who have tried to say it is owing to the way in which they are handled, while others are just as certain that the horses are not being handled but let alone by those of the Coast. Be it as it may, it is a sore thing that the owners of these horses. With the exception of a few, that are being pulled in the Bay District track, are being badly handled. This is the case with the Bay District track, which is the only track in which the horses are being really handled, and the Bay District track is being run by the Pulling Association, which is started fifth and fourth in each case, being almost lost by the Honolulu, which is started fifth and is closed in at the same place. The Bay District track gives the Pulling Association some credit in having been run by the Pulling Association, which is started fifth and fourth, and is closed in at the same place. The Bay District track gives the Pulling Association some credit in having been run by the Pulling Association.
