For Planters!
AVERY'S STUBBLE SHIVER is the peer of all sugar planters. Two miles can throw the stubble out loose enough to plant any crop and not interfere with the cultivation. Its features of advantage are:
1. Metal wheels with revolving hub boxes.
2. Solid steel teeth.
3. Great strength, with unusual lightness.
4. Improved flanges, with movable teeth.

We also handle AVERY'S STUBBLE SHIVER. The planter will recognize the superiority of this shaver over all others at a glance. The knives can be raised or lowered with ease, with經過, with one lever, without stopping the team. They can be regulated to shave at any one of the most efficient shavers by simple adjustment so that it is impossible for the mules to be cut by them.

AVERY's IMPROVED GEAR CULTIVATOR, and the above mentioned Shavers and Diggers are in stock. The Oahu Sugar Co.'s plantation, the Waimanalo plan, on the Hakalau plantation, where they have given great satisfaction: and testimonials to that effect are on file in our office.

Planters should order early so as not to be delayed in their work. We have a large stock on hand, and are offering them at greatly reduced prices.

J. H. BAIR T
Jeweler and Watchmaker,
In This Climate

where there is a great demand for the services of Phaluger, upholstered furniture is not sought after to any great extent. Besides the frivolity and lack of house beauty that adds to the discomfort of the home, a comfortable, well-furnished home is unattainable by the lower classes. For this reason then, the introduction of the modern upholstered furniture is toward comfort furniture.

Wicker Ware Chairs

and couches fill the bill and are in great demand. At Eastern summer resorts some people furnish their homes throughout with wicker and rattan furniture, and the results have been satisfactory. We have

Straight Chairs

and Rockers

in an endless variety of shapes. Some fancy ones are works of art. These goods differ in fifty ways from the cheap goods manufactured in China. They are better finished and designed for American homes. The Chinese have not the imagination to design the wicker in the same excellent manner as we Americans, nor have they the same means to weave the beautiful designs. Our goods are genuine.

American Goods.

For a very small cost, this style furniture can be furnished to imitate natural wood and by this means, whatever signs of crudity may appear to the untrained eye, is obliterated.

Your impression of this ware will be satisfactory to us.
