ON NEUTRALITY

Thurston Writes of Hawaii's Attitude to U.S.

Should This Government Make Decision on Annexation?

Washington, May 22, 1919

EDITORIAL—We see that you are seriously considering the advisability of Hawaii. If that should be the case, we understand that you have been consulted upon it. We should like to know when you have come to a final decision, and if you have come to any decision at all.

Your decision is of the utmost importance to the welfare of the United States, and to the securities of the world.

There is no question that Hawaii is a part of the United States, and that the American people are entitled to its protection.

The island has been in the possession of the United States for more than a century, and during that time it has been the most important portion of the United States territory.

The Hawaiian people have always been faithful and loyal to the United States, and they have always been entitled to the protection of the United States.

We trust that your decision will be a wise one, and that it will be in the best interest of the United States and the Hawaiian people.

We hope that you will promptly take your decision, and that you will make it known to the public.

H. HACKFELD & Co., Ltd.

SOLE AGENTS

HAWAIIAN PLANTATION

PAAULU, HAWAII, H. I.

Mr. J. G. SPENCER,

FASCICULAR PACIFIC HARDWARE CO.

DEAR SIR—The Secretary Disc Flow I purchased from you is giving satisfactory service. We are using it to blow out large bags of lycopins. It has three feet high and very thick. Your pump turns out completely clear, at the same time plowing the land fourteen inches deep.

I feel satisfied with this. I have the draft for the box shot up to six feet, and it is in use daily.

With the old plow, the field is not plowed to good much, and the water that is plowed in takes only 60, and they are not tilled at night.

Please send me another plow by first schooner leaving this island. You are at liberty to use in any way you may see fit.

Yours truly,

A. LIGAOTE

T. E. HALL & SON, Ltd.

Remington Standard Typewriter!

WHAT IS IT?

A simple, compact, and durable machine, which successfully performs the work of the post, with a tremendous saving of time and exertion.

WHAT WILL IT DO?

It produces, with speed and certainty, in clearly legible printed characters, as many copies of any kind of writing excepting such as must be done by hand.

TO WHOM IS IT USEFUL?

To every one who has any writing to do. In business circles its desirability is assured. Lawyers and journalists cannot do without it. Professional and scientific men realize its worth to them. The author and thinker find it invaluable. It conserves the most potent kind of energy, that of the brain—reducing to the minimum the mechanical labor of writing, and distributing among the forces of both hands. Weitzer's cramp disappears where it is used. It presents the printed appearance of the handwriting of the writer.

WHO CAN OPERATE IT?

Any one of ordinary intelligence. A few very trivial things one may write upon it readily. Therefore it is only a test of practice.

Quality Repairing.

There is no big a difference in factories as there is between selling cheap furniture and good furniture.

For more or less to any article left with us to be repaired or upholstered our shop and give us a fair chance to do our best work and price the same as it is to sell new furniture. New furniture we want you back to your old furniture. The grade we sell is kind in kind.

By stating the latter it is as if should be the last that added repair would accomplish, consequently our prices are increased with the class of work done.

For all we are doing our equal work.

FEATHER PILLOWS AND MATTRESSES.

If you have not used any pillows or mattresses removed by us, we would suggest a change of them every year after passing through our hands.
