THE OUTLOOK FOR ROBERTS

Fort St., (McInerny Blk.); Member Picturesque Account of Cronje's Sur-Honolulu Stock Exchange. render--The Boer General Tries Afterwards to Escape.

> ST. PETERSBURG, Feb. 28. The newspapers here outdo the rest of the Continental press in bewailing General Cronje's de-feat and in virulently abusing Great Britain. They declare that the Transvaal has fully demonstrated its rights to compiete political independence with an outlet to the sea. They suggest that the best help for the Boers would be to create a diversion against Great Britain elsewhere, and maintain that it is the duty of Europe to inter-vene and "end the most infa-mous of all the wars England has ever waged for predatory purposes.

LONDON, Feb. 28, 2:40 p. m .- General Buller's account of the tremendous resistance he is encountering in his efforts to reach Ladysmith has brought Merchants, Honolulu, Hawaiian public interest with a sharp turn from omplacent contemplation of Lord erious conditions still existing in Natal. Though General Buller's lengthy dispatch is construed as a victory bravely won, the commander of the forces in Natal has so often reported imilar victories without achieving his main objective that the public has the long list of casualities always following any apparent gain by General Buller is awaited with dread and anxiety which temporarily rob his partial success of its acclaim.

However, it is the generally accepted belief that General Buller is determined to reach General White this ime, and though the stages are disappointingly slow, the nation consideratery walts news of the relief of those s,000 besieged troops.

General Builer's report shows there is argent need of Lord Roberts exertoff the Boers from Natal to the Free State. That he will do so, and is quite like.y doing so by marching on Bioemfontein, is regarded as almost certain by the military critics here. With the additional 600 Boers reported risoners at Kimberley, it seems that the number of men captured by Lord Roberts nearly reaches 5,000.

The crime was committed just outside the Pacific saloon, on King street. Liquor entered into it. Honolulu made a red record in the plunged it into Jackson's heart. Cockett made at him and he in turn was stabled on the left side below the nippie. A policeman saw the stabbing and caught Ester almost as he drew

the knife from Cockett's body. Ester was taken to the police station, a crowd following and threaten-. ing to lynch him. Cockett, though terribly wounded, picked up the knife which had fallen from the negro's hand and rushed after his assailant. Had he caught him before he reached the station he might have saved him from trial by the authorities. But en-feebled by his wound he failed, and the knife was taken from him as he rected into the station.

Jackson and he were hurried to the hospital, the former dying as he was removed from the wagon into the hospital yard. Cockett, whose nerve was superb, supported his dying friend's head during the ride, and only when too weak to sit up longer would he al-low the attendants to put him to bed. He is still in ignorance of Jackson's death, and, for fear that the shock might retard his recovery, he is being kept in ignorance of that fact.

The negro was shortly afterward ta-ken to the hospital by Deputy Marshal Chillingworth. There he was con-fronted with Cockett, who identified him as the slayer of Jackson and his own assailant. Ester, when he saw Cockett, said under his breath, "I did it in self-defense." He showed no remorse at the murder of Jackson, but was fairly calm and rather disposed to make light of his crime. He was slightly under the influence of liquor.

Outside the police station when he was returned the crowd lingered, muttering threats against him, and loth to go away from the building in which he was incarcerated. Chillingworth marked the temper of the throng and at 8 o'clock, fearing threats might turn to action, had Ester removed to the prison for safekeeping.

PAARDEBERG, Monday, Feb. 26 (Delayed in transmission) .- On this, the eighth day of General Cronje's resistance, General Smith-Dorrien has worked up the river bed to within 200 yards of the Boer laager, squeezing the enemy into a more and more confined

The stay of the British here has not been in any way due to General Cronje, but in order to get supplies and rest the troops, which had become abso-lutely necessary. Now there are daily arrivals of large convoys, adowing full rations to the men, which had at best been intermittent during the last three days. A heavy rain has caused great discomfort to the British, but greater to the Boers and cold winds have killed many sick animals. Las night the river rose and brought down a great number of dead Boer horses.

When the history of Roberts' move ment is written it will be found that the marching power and magnificent endurance of the British soldier is as great as ever. The march itself as seen on the map would be nothing very marvelous, but it must be remembered that the whole original plan of march was changed when General Cronje made his magnificent night trek on the 15th. The whole army swang to the left in hot parsuit. Some of the regiments marched twenty-seven miles in twenty-four hours, outstripping the transport supplies and living for days on almost quarter rations. Yet the fatigue and incessant hardship were borne with wonderful cheerfulness. There has been a drenching rain for the last three days, the men lying fully exposed to the rain and the subsequent cold winds, all of which proved the admirable plack and endurance of the

# Desperate Fighting Ahead.

NEW YORK, Feb. 28 .- A dispatch o the Tribune from London says:

The effect of this victory upon Sir Redvers Buller's campaign in Natal was discussed by veterans last night with intense interest. It was generally conceded that while General Joubert's roops would be disheartened and General Buller's soldiers would be inspired to emulate the example of their more fortunate comrades in the west, there would be more desperate fighting in onsequence of Lord Roberts' success. General Joubert now has no motive for an immediate retreat, since it is too affairs are concerned. Short of this I late to effect General Cronje's deliver-am convinced that England eventual-ance. There was no official news from General Buller when the War Office closed at midnight and the press dispatche were fragmentary and inconclusive. It was clear that there had been a week's heavy fighting, with serious losses on the British side. The Boers were apparently reinforced Friday and made a determined effort to drive back the British brigades. General Bulier's men only held their ground after desperate fighting and they were exposed to a heavy fire from the loor guns. Miliwriters are beginning to criticise General Buller's tactics in putting forhis lines and not massing his troops for an attack but these strictures are unjust when the reports of operations are in the main intelligible.

might stick a pin to the head into my left hip and I would not feel it. I was unable to do any kind of work, and had to be turned in bed. I fully made up my mind that I could not be cured, as I had used all kinds of medicine and had tried many doctors. At last I was advised to try Dr. Williams' Pink Pills for Pale People, and I very reluctantly commenced their use last September. Before I had finished my first box I began to feel much better, and by the time I had used six boxes the paralysis disappeared; and although two months have passed since I finished my last box, there has been no recurrence of the disease." THE CABLE BILL.

Time Limit is Extended for Two Years.

WASHINGTON, Feb. 27 .- The Pacifcable bill was considered by the House Committee on Commerce today and much progress was made with the expectation that the final form of the measure would be secured during the day. As heretofore decided, the bill of Mr. Sherman of New York, authorizing the Postmaster General to contract with an American cable company to transmit cable messages to Honolulu the Philippines, Japan and other Pa-cific points, was the bill considered.

The provision that the cable shall be laid "from a suitable point on the Pacific Coast" was changed to the specific provision that it be from a point at or near San Francisco.

Mr. Corliss of Michigan secured the

nsertion of the following provision: "That the cables shall be first-class in material, construction, equipment and operation, and capable of transmitting not less than 130 letters per minute. They shall be of American manufacture and laid and maintained by ships flying the American flag; pro-vided if, after the advertisement, it appears to the satisfaction of the Postmaster General that a cable of American manufacture cannot be laid within the period herein prescribed after the award is made, said cable may be s

ured from foreign markets."

Another change fixed the time of completing the line to Honolulu at January 1, 1902, instead of 1903, and the line to Manila and Japan by July 1 1902, instead of 1903.

# TARIFF DUTY LEVIED

Free Trade With the Mainland Denied to the New West Indian Possession.

# •••\*\*\*\*\*\*\*\*\*

WASHINGTON, Feb. The Porto Rico tariff bill was passed today by a vote of 172 to 160. The bill provides that ar-ticles imported into the United from Porto Rico, or into Porto Rico from the United States, shall pay a duty equal to 15 per cent of the duty that would be payable on like ar-ticles imported from other countries. Goods of American manufacture going into Porto Rico shall pay an internal revenue duty equal to the internal revenue duty imposed in Porto Rico on like articles manufac-tured there; and goods of Porto Rican manufacture imported into the United States shall pay an internal revenue duty of the same amount as goods of American manufacture pay.

WASHINGTON, Feb. 28 .- In the vote upon the Porto Rican tariff bill in the House this afternoon Representative De Vries of California broke away from the Democrats and voted with the Republicans. Only two other straight Democrats stood with Mr. De Vries in favor of the bill imposing 15 per cent tariff upon Porto Rico. When Mr. De Vries cast his vote he was greeted by applause from the Re publican side.

\*\*\*\*\*\*\*\*\*\*\*

After voting Mr. De Vries made this statement to a correspondent:

"I cast my vote in accordance with what I deem to be for the best interest of the district I have the honor to represent and the best interests of the State of California."

# House Debate.

WASHINGTON, Feb. 28 .- The last WASHINGTON, Feb. 28.—The last day of the struggle over the Porto Rican tariff bili in the House opened at 11 o'clock with nearly every member in his seat and a very large attendance in the galleries. The leaders on both sides were actively engaged in rallying their forces and making computations upon the final vote, which is to be taken under the order at 3 o'clock. Mr. Underwood of Alabama, the Democratic "whip," said the result would be very close and would turn upon the vote of two or three men on the Demovote of two or three men on the Demo-eratic side. Mr. Tawney, the Republi-can "whip," said the bill would have five votes to spare. He said the main danger lay in the motion to recommit Immediately after the reading of the journal, the clerk began reading the bill for ameadment, under the five-

When section 3 was reached Mr. Payne, chairman of the Ways and Means Committee, offered the following substitute for that section:

"Section 3-That on and after the passage of this act all merchandise coming into the United States from Porto Rico and coming into Porto Rico from the United States shall be enter-ed at the several ports of entry upon the payment of 15 per cent of the du-ties which were required to be levied, collected and paid upon like articles of merchandise imported from foreign countries and, in addition thereto, upon articles of merchandise of Porto Rican manufacture coming into the United States and withdrawn for consumption or sale, upon payment of a tax equal to the internal revenue tax imposed in the United States upon the like articles of merchandise of domestic manufacture; such tax to be paid by internal revenue stamps to be purchased and provided by the Commissioner of In-ternal Revenue, and to be procured from the Collector of Internal Revenue at, or most convenient to, the port of entry of said merchandise in the Unit-ed States, and to be affixed under such regulations as the Commis-sioner of internal Revenue, with the approval of the Secretary of the Treas-ury, shall prescribe; and on all articles merchandise of United States manufacture coming into Porto Rico, addition to the duty above provided in payment of a tax equal in rate and amount to the internal revenue tax imposed in Porto Rico upon like ar-ticles of Porto Rican manufacture." Mr. Payne explained that the substi-

tute did two things—it reduced the duty from 25 to 15 per cent, and it also removed some confusion regarding double taxation. Mr. Payne said he still adhered to the opinion that 25 per cent would be better than 15 per cent, because it would raise more revenue, but 15 per cent was better than nothing. In answer to a question as to how much the bill, as amended, would raise, Mr. Payne said the estimate for the original bill was \$1,700,000. If that estimate was correct, the amended bill would raise about \$1,250,000 per annum.

Mr. Payne took occasion to reprove some of his critics who had complained that he had given no explana-tion of his change of front. His speech and his report, he said, gave a full ex-planation. He had believed in free trade with Porto Rico at one time, but subsequent information had convinced

him that the duty proposed by the pending bill should be imposed.

Mr. Berry of Kentucky said the amendment proposed petty instead of grand larceny for the people of Porto Rico. He ridiculed the laborious de-

"I believe now we should follow the lead of the President," said he em-chatcally, "and I will vote for this hill."

This statement electrified the House. The Republicans, without waiting for him to finish his sentence, rose en masse and cheered, while the Demo-crats sat stunned and dazed. Mr. Cummings stood with arm upraised until the Republican appliese ceased. "I will vote for this bill," he con-

tinued, addressing the Republican side, "provided it is amended in accordance with the advice of the President for absolute free trade with Porto Rico.'

It was now the turn of the Demo-crass to cheer, and for several min-utes they made the rafters ring. At 3 o'clock Mr. McCall of Massachu-setts, on behalf of the minority, offered as a substitute the bill for free trade with Porto Rico, originally in-troduced by Mr. Payne, and the yeas and nays were ordered.

Train Wreck and Fire in a Western Blizzard.

KANSAS CITY, Feb. 28 .- The bliz zard prevailing throughout Western Missouri was the direct cause of a train wreck last night on the main line of the Missouri Pacific Railroad, in which at least two persons and, possibly, others, were killed, and several others

were badly hurt.
The fast St. Louis day express, due to arrive in Kansas City at 5:45 last even-ing, was delayed by a freight train, which stuck in a snow drift two miles south of Independence, Mo., about twelve miles out of Kansas City. The St. Louis local passenger train, running forty minutes behind the fast express, came on through the blinding snow-storm and crashed into the express train ahead, the engineer having failed in the driving snow to see the danger signal which the first train had sent

back. Such was the force of the collision that the parlor car, which was in the rear of the first train, was literally cut in two. When Engineer Frank Ray-mond and his fireman escaped from the wreck they crawled out through the windows of the parlor car. Fire added to the horrors of the wreck, coals from the furnace of the shattered engine having fallen among the debris of the splintered coach and soon the whole wreck was ablaze. Two or more persons, it is believed, were burned.

# Mr. Silliman Fills Judge Stanley's Place.

Clever Man From Michigan Commissioned by President Dole to the Circuit Bench.

Reuben D. Silliman has been appointed Acting Second Circuit Judge of the First Judicial Circuit, to hold office during the disability of Judge Stanley. President Dole made out his commission yesterday and he will assume his duties at once. The congested condition of the Circuit Court calendar impelled the members of the bar to petition for a temporary judge,

with uniform approbation. Judge Siliiman is a young man but skilled in the law and a student of affairs. He comes from Michigan, where his father was a leading doctor big firm there. He always had a taste for Black-

stone and left commerce to take a course in law at the University of Michigan, from which institution he was graduated in 1894. Admitted to the bar, he practiced for two years with Draper, Davis & Hollister, prominent lawyers of Duluth, Minnesota, and at the end of that time hung out

his own shingle.
Pleasure-bent, Judge Silliman came to Honolulu in the winter of 1897-98 and fell a victim to the fascinations of Island life. He turned over his Du-luth office to his clerk and, associating himself with J. A. Magoon, became a resident of this city and a bright light in its courts. His elevation to the bench will delight many friends.

### WHAT TO DO UNTIL THE DOCTOR ARRIVES.

It is very hard to stand idly by and see our dear ones suffer while awaiting the arrival of the doctor. An Albany (N. Y.) dairyman called at a drug A Japanese laborer named Iwashita store there for a doctor to come and Katsujiro was accidentally killed near see his child, then very sick with croup. Not finding the doctor in, he left word for him to come at once on his return. He also bought a bottle of Chamberlain's Cough Remedy, which the doctor should arrive. In a few hours he returned, saying the doctor need not come, as the child was much better. The druggist, Mr. Otto Scholz, says the family has since recommended Chamberlain's Cough Remedy to their neighbors and friends until he has a constant demand for it from that part of the country. THE SOUTH AFRICAN CAMPAIGN

Interest in the Hoer war turns again to General Buller who is finding the road to Ladysmith no primrose path of dalliance. Accomplished as this soldier is and brave as his men assuredly are they cannot do miracles; and to force the passes of a range of mountains which bristles with well-served guns and conceals some thousands of the best marksmen of the world is a task beyond the average capacity of Generals who stand in the front rank. It was noticeable in Napoleon's campaigns that he rarely ventured to make war among mountains and when compelled to do so, as in Spain, did not add to his laurels. It was his strategy to lure armies out of the hills and intrenched cities and meet them on the open plains where the best maneuvering would win. In later wars attacks on strong positions, especially on high ground, have been productive of discouraging results in all cases where the defending force was ample and knew its business. How the Union soldiers were sacrificed in assaults at Fredericksburg, Vicksburg, Petersburg and Port Hudson and the Confederates at Malvern Hill and Gettysburg; how handeben was checked at Pleyna and Shipaa pass and kept there until he su-stituted strategy for charging columns; how the Boers have held out against the British on the Tugela and the British against the Boers at Ladysmith, Mafeking and Kimberley, are circumstances which ought to rule attempts to storm strong and wellmanned defensive positions out of the code of civilized warfare, and bring about the substitution of strategy and siege.

Happily the strategic recourse is now being followed by the British Generalin-Chief. His march on Bloemfontein has no more important object than to weaken the force confronting Buller and to compel the abandonment of the mountain range between Natal and the Orange Free State. If Roberts reaches Bloemfontein, invests it and starts a second army corps northward on the line of the railroad to Pretoria, the mountains which Buller is trying to scale will of course have to be evacuated by Joubert's army. Already many Boers have left them; perhaps enough have by this time hurried to meet Roberts to render the task which Buller has set for himself less desperate than it has been hitherto.

The crucial point in the present British campaign ought to be reached very soon. A new point of contact must soon appear in the vicinity of Bloemfontein and the numerical odds in favor of Roberts will not be so great as they were at Paardeberg. The strength of the Boers in the Free State is supposed to be about the same as that of Roberts' present corps. It is possible the Bloemfontein, in which case Lord Roberts will have something of the same kind of a problem to deal with that Buller is meeting on the Tugela. It will probably please him better if the Boers choose to come out in the open and fight, but one may safely-imagine that they will be too wary for that.

# THE PORTO RICO VOTE.

The Porto Rico tariff bill has pass ed the House by a small majority and has yet to run the gauntlet of a vote in the Senate. If it becomes a law it will by automatic process, establish Porto Rico as a colony, Organized as a Territory, Porto Rico could not be discriminated against in the United States tariff or permitted to have a tariff of its own. The Constitution on that point is clear. But colonially established Porto Rico could go along under the same fiscal and other relations with the United States that Jamaica bears towards Great Britain.

The relation which the enactment of the Porto Rico tariff bill would have to the future of Hawaii depends on the fate of the Cullom bill. If that m asure becomes a law, Hawaii will have the same tariff rights that are enjoyed by Arizona and New Mexico. That is to say our imports or exports from and to the United States cannot be taxed. On the other hand if the Cullom bill should fall. Hawaii would probably fall into the colonial class with Porto Rico, Guam, Tutulia and the Philippines and possibly Alaska. So organized our sugar would be made to pay duty on the Mainland and our labor would be left to our own methods of regulation. Whatever gain might accrue from the last-named privilege would be more than counterbalanced by the loss in the selling profits of the

Happily the Cullom bill seems to be holding its ground and, at last accounts, with favorable prospects for BRAPPEARANCE OF PLANTS.

ragine cases were realized prainting, resignations were filed awar to A Chinese victim was found in the sig. drawn upon when needed. Then nest unantisfactory, the stables being arried on by Chinamen in the usual lithy way. Opposite is a large shack sed as a gamining den and for worse isti the den and people from the den ecura the calls, it is not improbable hat a new center of infection has been ieveloped which will soon call for the emeny of fire.

It must have long since occurred to he general public that there is immiient need of special laws governing he construction and location of stables in this city. As a plague center the average Honolulu stable belongs to the most serious type. For want of concrete floors, drains to carry away iquids and some proper and immediate disposition of manure, and because of attractions such places have for rats, ooth brute and human, livery stables and barns require a classification of their own in the building regulations of Honolulu. Without attempting to go into all the details, we think it would be practicable to banish public stables to the extreme outskirts of the ity and require them to maintain cerain standards of cleanliness. Owing to the telephone and the ease with which stables may maintain offices in the heart of the town, no injury need accrue to the business of liverymen by compelling them to take their barns and stock into the suborbs. In the case of the Chinese stables, now in quarantine, their location would have been fairly suitable, save for the proximity to the jail; but with the average livery stable the position is quite different.

It is, of course, a matter of the deepest regret that another plague case has cut the record of clean days, but a study of the schematic chart published in these columns last week shows that he pestilence is really at a low ebb and may soon be expected to disappear. The only thing to do is to coninue the fight, remove possible centers of infection, extirpate plague spots, keep the town clean and prevent the erection of insanitary shacks.

# MUNICIPAL GOVERNMENT.

The science of government is a study of the ages but that of municipal government is comparatively new. It is only of late that the danger to the whole body politic from the dry rot of great cities began to attract the eye of the political student. In the United States municipal methods were not seclously pondered until New York City supplied an incentive in the Tweed scandals; and then began a ferment of deas which early took the concrete form of the Brooklyn City Charter and inally produced a large number of exsellent laws for the government of cites of which the Charter of San Franisco is perhaps the latest type.

It is a recognition of the fact that he scandals of city administration have mainly come of divided responsibility that most of the reform charters turn on the pivot of one-man power. It was found that city departments anwerable in the main to themselves and remotely to the grand jury, with he Mayor restricted to an advisory capacity or given a limited and overrulable right of veto, easily bred bad government. When things went wrong to one could be punished. Usually here was a ring which took a hand in all schemes of plunder but in which not a single member had so exceeded the rest in wrong-doing that, when exposure came, he could be segregated and put in jall; nor was it possible, owing to peculiarities in the charter, to punish all together. The result was a saturnalia of misrule in which one offender hid behind another and all kulked behind a criss-cross screen made of the reddest of red tape. Citizens who wanted reform and who

believed it possible soon hit upon the expedient of one-man power. Of course there was a tremendous outery from the political beasts of prey. Every scalawag in polities invelghed against "aristocracy" and "tyranny" in the veriest cant of socialism. It was pointed out that a Mayor with all the say would be un-American-a graft from O.d World despotism and an offence to representative government. For years the argument prevailed, but as the scandals of city government went from bad to worse the people determined to try the plan of concentrated esponsibility. "Let us frame a charer," they said, "that will give the Mayor power to appoint and remove the heads of municipal departments. We can then look to him for good government and if he does not give it to us he will at least be unable to shift the responsibility upon other choulders. We can hold one man to account and compel him to do right or take the risk of Impeachment."

Brooklyn was among the first to ge a reform charter and a Mayor to match. The incumbent was the famous Seth Low, now president of Coumbla University. After taking his under observation seven days. Sanitary conditions there are with the result that Brook yn became as famous in America for good government as Glassow was in Europe

The pace having been set, may by all American cities which have gone in at urposes. As people from the s.ables all for municipal reform have copied the Brooklyn organization, Greater New York has had to have a more complex system, somewhat resembling the government of a State, but the dea of one-man power has been measarably preserved. Mayor Van Wyck has more personal authority within his sphere than Queen Victoria has in hers. In the latest charter, that of San Francisco, Mayor Phelan exercises responsibilities of the most definite character. He appoints and dismisses and so far, as in the other cases of one-man authority, he has conserved the ends of good government. For the first time in its history San Francisco is a city where there is a direct relation between the amount of money raised by tax and the sum judiciously and honestly expended.

Honolulu is nearing the time when the uppermost question is to be the municipal one. Whether the Islands are organized as a Colony or a Territory, the cities and towns of the group must have home rule. The era of elaborate paternalism has been outlived. It behooves us all, therefore, to go into the study of modern municipal charters with thoroughness and zeal so as to reach a seasoned judgment when the time comes to adopt a local system. Especially should we consider the question of an autocratic Mayor in the ight of our peculiar social development and racial surroundings. The reasons for and against should be carefully weighed. It is a propitious sign that we are beginning to have lectures on municipal government, but a propstate of public spirit will not be reached until the subject becomes absorbing enough to enlist all the best minds in the country of whatever shade of politics.

The German iconoclasts who went to bear and hiss the Kaiser's new play at Berlin seem to have enjoyed the chance to mortify him. Such opportunities, owing to the less majeste laws, are few and far between. Street crowds cannot hiss the Emperor without running risks of a police or cavalry charge; nor are men permitted to disparage his talents in the German press. But when it comes to sitting in a the ater and coughing down an Imperial play, the field is wide open. Even the Kaiser could not think of arresting an audience for not liking his dramatic works. Probably the night of the presentation brought out a large body of socialists intent on getting even with their sovereign, a feat which they seem to have easily performed.

After some deliberation I decided to se corrugated iron for the rat-proc fence. It will cost about one-third more than wood, but we have arranged to use the iron without punchin-holes in it, so there will be no troub! in selling it back to the plantations at about first cost. Hy using the lines of ences now standing we can save bur freds of posts and it will cost scarcely anything except for labor. The sheets of iron are placed vertically, being sunk into the ground about fifteen inches, and the edges overlapping, which gives a fence that is, I taink, absolutely rat-proof.

The new cottages we are building will no doubt be available for laborers quarters and Mr. Baidwin tells me that he is quite sure the plantations will be willing to take them at a reasonable price after the Government is through with them. Much valuable work has been done already by the several agents above mentioned, individually, who received the unanimous support of the Hana Citizens' Sanitary Committee at a mass meeting held February 11, but, owing to the almost utter isolation of this district from the remainder of Maul, from geographical position, lack of roads and infrequent steamer communica-tion, it was deemed necessary, in order to carry on the work of sanitary reforms and of guarding the landings and oads, to act as an organized body with official recognition as such from the Board of Health in Honolulu.

Therefore, the undersigned hereby respectfully request of the Board of Health the following:

1. Official recognition as the Hans Research Board with full powers to act, in Hand to be governed of course by the existing regulations of the Board of Health.

I don't think that Jackson knew Ester, as he said, 'I can't loan you any money. I don't know you." "The negro replied, 'The bartender

knows me, and if you will let me speak to him, I can get it from him.' Jackson made some reply, I don't know just what, and Ester walked into the saloon. I said to Jackson that it was foolish to lend a man money that was not his friend, and asked him if I should not go into the bar and warn the bartender not to give Ester the dollar on his account. We walked in together. Before this Ester had shown me a paper which he said was an I. O. before Jackson and Ester not to trust Ester on Jackson's say.
"This brought on warm talk and

names were passed to and fro. Ester passed out the door that led into the alley. We went after him."

# How the Murder Happened.

Bartender French corroborates Cockett's statement of what went on in the saloon up to this point and further happenings he did not see. Policeman Halelan, who was midway between Nuuanu and Bethel streets on King street, saw the three men come running out of the alley, Jackson being closest to the negro.

Cockett continues, "I saw Jackson knock down Ester with his fist twice. My aim was to prevent any more trouble, and I kept right on after the . I mixed up with them and the first I knew of any stabbing was when a po-liceman informed me of it. I saw Jackson stagger and drop to the car-track as 1 closed in."

Policeman Halelau rushed for where He saw the pegro knocked down and saw Jackson fall later. He caught the negro and called to Cockett to pick up bleeding. Here the most dramatic in-oldent of the whole affair occurred. The The three wife of Jackson was passing on the car with Henry Vierra at the moment her husband felled Ester and Vierra took bodily from the car to the spot.

She saw her husband throw up his hands and shrick, saw the blood gush from the wound over his heart, and with a wild cry of "Auwe! Auwe!" she swooned as he stretched out in the agony of death.

# A Sad Sight.

Vierra gives a graphic account of how he and Mrs. Jackson happened on the scene of the murder. He says:

Jackson had a host of friends, made by his genial disposition and the hap-py faculty he had of pleasing all by his manner. He was well known as a comedian of no mean ability and a musician. For a long time he has been identified with the Star baselson team, whose pitcher he was. He has been married some three years. He was about 27 years of age, was born here, and has worked for the Munual Telephone Company, Honoiulu Fire Department and, at the time of his death, was employed as bookkeeper by H. F. Bertleman, the contractor.

# Ester's Bad Record.

Ester is said to have a bad record. He is a hard drinker and has been in hot water several times. It is alleged that he has attempted the lives of others in Honolulu before he plied his murderous knife on Saturday, Al Moore, a cartender at the Cr.terion saloon, and Captain J. W. Pratt, chief clerk of the Bureau of Water Works, are said to have been attacked by Ester in the past few months. He has an ungovernable temper and is in police parlance, a "bad man."

The knife which he used on Satur-day is a murderous weapon. It might be called a pocket knife inasmuch as it can be carried in the pocket but the blade which drank the blood of Jackson and Cockett was never designed for any peaceful purpose. It is as keen as a razor and pointed like a stile to.
At the Police Station it is still red with

Charlie Dickerson, driver of hack 120, who stands on Union street, near Hotel etreet, says that a little more than an hour before the stabbing Ester got the knife from him. Ester had borrowed twenty-five cents from him with the knife as a pledge, and about 5 o'clock asked for it, tendering a quarter to Dickerson. He made no particular remark, but receiving the enife walked away.

# Does Not Like Cooper's Visit.

Health, Honolulu,
Dear Sir: It is my duty to let you
know that the whole of Kanai's population is indignant about Attorney
General Cooper's recent visit here, and requests through me that nobody be allowed to land here without having been quarantined for the proper length

ime.
Respectfully yours,
C. WOLTERS.

Lihue, March 16, 1900. Editor Advertiser: Your contemporary, the Star, has seen fit to publish an interview with Mr. Cooper after his return from this Island.

As the statements therein are absolutely false and misleading, I beg permission to use your estimable pa-per to dispel the illusion Mr. Cooper's assertions may have created in the

minds of the public.

The Star says the Attorney General was received by the people of Kauai with open arms, a double team being with open arms, a double team feelig in readiness to drive him from the landing, etc. Now, as a matter of fact, nobody on the Island, with the excep-tion, perhaps, of Mr. Coney, knew or believed Mr. Cooper would come, and the greatest indignation prevailed when it became known that the sheriff had allowed Mr. Cooper to land without even taking the trouble, or having the good sense, to consult his fellow-members of the local Board of Health before sending a carriage for his chief in the Police Department. I can as-sure you, Kanai people do not feel hap-py over such high-handed proceeding of a member of the Board of Health, which they feel all the more as this latend has so second only by avoided to Island has so scrupulously avoided to embarrass that body during its many

I doubt not that other pens have already or will yet be used to condemn the action of the Board of Health, especially so as the members of that Board seem to have been so impressed with their own wrongdoing that they had to propose as an excuse of sending their august colleague—Board Health business!

Has it been considered what it would mean to have the plague brought to this Island? If Honolulu, unfortu-nately, cannot cope with that disease, what are we to do here with one med-ical man for every 2,000 or 3,000 people. should the plague break out here? Yours truly,

The writer of the above-given letter sends us his name therewith, as a guarantee of good faith. It is that of one of the responsible citizens of

The following letter touches another phase of Mr. Cooper's visit:

Honolulu, March 9, 1900. Editor Advertiser: Your interview with H. E. Cooper makes that gentle-man say that all but 1,200 acres of the land of the McBryde plantation—which zens of Quincy, Mass. This monument he seems to have been inspecting while is inscribed: held in fee simple. According to Allan Herbert's Forestry report, made, I think, after the President's land order was issued, there are 4,000 acres of Government land in the midst of Mc-Bryde, held a rental of \$330 per year until 1909. How, then, can all but 1,200 acres be held in fee simple? What I want to ask of the Advertiser is whether the Government can have made any secret transfer of the greater part of the 4,000-acre tract since Mc-Kinley interfered?

HOKU.

[Certainly not. Were such a thing possible the transfer would be good for nothing. Mr. Cooper, who was reported accurately, probably slipped a cog of recollection .- Editor.]

Evidently the writer of the following communication had not seen the statement in the local press that Mr. Cooper's departure for Kauai was not preceded by either personal quarantine or fumigation:

Lihue, March 10, 1900. Editor Advertiser: Please inform your many readers here whether the time of quarantining the Attorney General was shortened to let him catch the first steamer to Kauai? If so, we want to kick and kick hard. At last news from your city, Mr. Cooper was attend-ing meetings of the Board of Health, and as we figure it if he went into camp just after he was heard from at the meetings he could not have spent more than six or seven days in quarantine anyhow. Please investigate. If some people are detained full time and offiers allowed to travel after a short detention or none at all, we want to know about it and set up a shotgun

None of us know why Cooper came, anyhow. He was not needed or wanted, and his Board of Health business was a blind. He spent most of his time I used Doan's Ointment. To say that inspecting plantations. Whether he got any letters in favor of making him Governor I do not know, but judging from the indignation his coming caused SYREX. I guess he didn't.

# THE KAISER'S PLAY.

### It is Received With Hisses and He Leaves His Box.

BERLIN, Feb. 28.-The first presentation of "Der Isensahn" (The Iron Tooth) at the Royal Theater, was a notable event, socially and artistically. All the tickets had been sold nine days igo, and the house was packed.

Emperor William appeared during the second act and sat almost unob-served and quite alone in the royal orchestra box, screened by the drapery rom observation.

After the first act there was com-plete silence. After the second and third there was rather vigorous ap-plause, but from the parquet, where the critics and literary people sat, and from the second and third galleries. there came a piercing storm of hisses. The Emperor, whose collaboration with Captain Lauf in the play is well known, was high displeased. Captain Lauf took a cup of tea with His Majesty after the third act, having twice answered calls from the boxes and elsewhere, and having come before the curtain as pale as a ghost. Then he, with the Emperor, left the theater, which causd a sensation.

Neither the Empress nor the Imperial Princes attended, quite contrary

to the previous arrangement. The public verdict of the play is that it is verbose, although containing fine dramatic passages, and too palpably glorifies the Hohenzollern hero, who mut down the Ballanania. who put down the Berlin rebellion in 1447. The acting was excellent throughout, especially that of Herr Matkowski as Frederick of Hohenzo lern and of Fraulein Poppe.

The Cabinet took up consideration of items in the Interior Department, un-der the new appropriation bill, which occupied the remainder of the session. Later in the day Minister Alexander Young was seen in regard to the appropriations required for his depart ment. It is exceedingly unfortunate sald Mr. Young, for both the Executive and the people of Honolulu that we are deprived of legislative action at this time when so much is pressing the country for attention. The Executive, as no doubt the Council of State, shrink from appropriating such enormous sums of money as will be required in the near future for public works.

There are two things which are at present very much needed. One is the extension of the north end of the harbor, as proposed by the Executive to the Washington Government; the other s the construction of a dock surrounded by a sufficient area of land to an swer for discharging and storing lum-ber. Such a place could be found lying between the marine railway and the large quarantine dock just built. It is hought it would be comparatively easy to dredge there reaching as far inland as the Alamoana road. There is a as the Alamoana road. There is a large unoccupied area of the Bishop es-tate mauka of the Alamoana road that would answer well for the storage of

lumber. However, continued Minister Young, the Executive does not feel itself warranted in asking for such large sums of money as will be required to carry out the improvements and extensions of streets as have been projected by the department. A sum of money of prob-ably one third of what has been asked will likely be recommended. The Executive, however, will follow as liberal a policy in appropriations as is safe until the legislature meets. There is a large amount of road work to be accomplish-

Stone bridges are recommended where ever steel is not to be used; no more vooden bridges should be built.

With the reduced appropriation which is to be made Minister Young will do the most that can be accom-plished. First, said he, King street will be widened to sixty feet and put in first class order from Nuuanu bridge to the Tramways stable. there is Queen street: here a thorough job must be done from the Nuuanu bridge to the east end. That section of Queen street from Fort to the Nunanu bridge is in a ve bad condition and bridge is in a very bad condition; some parts of sit need grading to the official level with new bottom and top construction of the heaviest kind Heavy traffic demands this and it must be done. Had the legislature been a possibility, hituminizing of all of Queen street would have been recommended. This improvement would probably have been carried as far as Punchbow

In street extension Beretania should be carried to the junction with King reet; the street should also be widend as laid out in the survey. All the arbor front between the streets proper d the wharves should be kept in per feet order in the meantime. Allen street should be completed as well as Alamoana street which joins the form er and runs through Kakaako, past the new iron works, along the waterfront. The latter street should be heavily macadamized suitable for any kind of
