MRS. JANE STANFORD DIES AT MOANA HOTEL

Circumstances of Her Death Suggest That She Was Poisoned.

Told Mrs. Henry Highton She Left San Francisco Because of Attempt Made There on Her Life.

WASHINGTON, D. C., Feb. 28.—The House of Representa
tives has passed the bill providing for the scientific investigation of legacies, with special reference to Hawaii Territory.

WASHINGTON, Feb. 28.—The bill amending the Hawaiian Government Organic Act has been favorably reported to the Senate.

This measure provides that officials be chosen with the approval of the Governor and the Legislature.

JAPANESE REPULSED

MUKDEN, Mar. 1.—The battle is progressing along the whole front. The Japanese attack has been repulsed. The Russian counter-attack has sent a belt across the Shikasi in the center of the Japanese line.

NEW JAPANESE LOAN.

TOKIO, Mar. 1.—It is believed the new loan has been doubly subscribed.

AFTERNOON REPORT.

TOKIO, Feb. 28.—The Japanese have defeated over ten thousand Russian troops at Tsushikawa. The Russian loss amounts to seven killed and wounded.

WASHINGTON, February 28th, 1905.

(Received at 11:30 p.m.)

To the JAPANESE CONSUL, Honolulu:

Our hurried account of the battle is as follows:

"Our detachment attacked on the 23rd instant the enemy in Chagaborg, 90 miles east of Peking. After maneuvering, the steep nature of ground and the melting of ice in the Tanshuo greatly hindered our movements, but by noon our line was managed to press closely the enemy's position and deliver fierce forces on the enemy consisting of several battalions with many guns. The enemy, holding strong positions with several lines of defensive works, offered stout resistance. At the break of the 24th in
ternal we received attack followed by grenades fighting and by the evening Chingchou fell into our hands. The enemy routed north
ward, burning Chingchou and leaving behind 30 dead. We captured three machine guns and a number of rifles and ammunition. The enemy's loss is considerable. There is no case of fighting in our army."

TAKAHIRA.

WANTED A CORNET

French Count Hunted for One in Vain.

Count Henry Prevost de Bretonvilliers, number of the графство Bretonvilliers, Paris, with permission, arrived in London Friday night on a

passenger train. He is on his way to Paris, and the Château de

Lebanon House, with his family, and passed through the station on the steamer bound for England. The station is a town near the

end of the world in the interest of the geographical society, and will not

attract the United States before returning to that place.

The Count, who is of French birth, is reported to be in the

power of the United States, and is likely to be seized by the

American military authorities. The Count is reported to be in

the interests of the geographical society. The station is a

town near the

end of the world in the interest of the geographical society, and will not

attract the United States before returning to that place.

Mr. Stanford's Death.

Last week, in a letter to the City Council, Mr. Stanford wrote that, if he were to return to his duties, he would leave his place in the Council to another member. He said that, if he were to resign, his term would expire in January. The letter was signed "J. Stanford, Mayor of the City." Mr. Stanford said that he would not seek re-election in the city next year. He said that he would continue to serve as a member of the City Council until January, when his term expires.

Mr. Stanford's resignation was accepted by the City Council last Monday. The Mayor of the City, in a letter to the City Council, said that he would accept Mr. Stanford's resignation and that he would appoint a temporary successor. The letter was signed "J. Stanford, Mayor of the City." The Mayor said that he would make the appointment at the next meeting of the City Council.

Mr. Stanford was a member of the City Council for the past six years. He was born in this city and has been a resident of this city for the past 20 years. Mr. Stanford is a graduate of the University of California and has been a successful business man in this city for many years.

Mr. Stanford's resignation has been accepted by the City Council, and a temporary successor will be appointed at the next meeting of the City Council.

INOCUBATOR BABY THRIVES AT THE MATERNITY HOME

An interesting experiment with a wife of girl-babyhood, being carried on at the Kapalama Maternity Home. In the inauguration, which was the gift of Miss Alice Campbell about a year and a half ago, there is a babe of Hawaiian descent—a six-months' bit of humanity—which came into this world on December 25. It was immediately placed in the incubator, and has remained there ever since.

It was two months before the infant began to react, by mechanical means, to the external stimuli and the inner heat. We have received a very fine list of the very latest style and have them on sale at our store.

Favorable Report for Hawaiian Sugar Company

No extra dividend to be declared—$13.80 tons per 1904—17,088 Tons Estimated for 1905.

At the annual meeting of the Hawaiian Sugar Company held at the Mahina Hotel, Honolulu, Tuesday, February 28, 1905, the reports presented were of a very favorable character. The stockholders were present in large numbers.

It has been brought to the attention of the directors that the sugar is not selling at a price that will enable them to reap the profits of the year. It is now selling at $13.80 per ton, which is not sufficient to cover the costs of production.

The past year has been one of great prosperity for the sugar growers. The weather has been favorable throughout the year and there have been no severe cold snaps or heavy storms to damage the crops. We have a little clear of water for several months during the first part of the year, but since the completion of our new Odlott Creek, we have had an ample supply of water for all our needs, and have had at times considerable surplus, which we have sold to the Multibeck Sugar Co.

The damage done by the beetroot this year has been quite the least that we have experienced for the previous year, this decrease in damage is due principally to the care, and also to a general increase of crops. In most parts we find more moisture in the fields than heretofore.

Hawaiian Sugar Co.'s cane placed a ton at $13.80 canes.

CROP OF 1904

This crop yielded the following:

Sugar from Hawaiian Sugar Co.'s cane—11,490,000 tons

This crop yielded a little short of the estimate, but considering the very dry weather we had in 1904 during the growth of this crop, it is not surprising. I have been in the beetroot business for 30 years, and I think that the beetroot this year was no more than average in quantity. I think also that it was not as healthy as we had expected it to be. But it is now time to let that all go. Let us consider the crops of our season starting right along and planting the 1905 crop, using tons for seed.

The yield of this crop is estimated as follows:

Sugar from Hawaiian Sugar Co.'s cane—11,490,000 tons

Roots and Rattans—2,600,000

Grand total—17,088,000 tons

The cost of the Odlott Creek and the extension of the same over the cane was $17,088,000.

With our present water supply from the Odlott Creek and Hanapepe irrigation, the weather was very dry, and the dry weather, and the lack of water, made it that in a very dry season we shall have enough water to plant 100 million tons of cane.

At a meeting held in Honolulu June 21, 1904, by the Directors of the Hawaiian Sugar Company, it was decided to add a twelfth roller mill to our present factory, this mill will in course of construction by the U.S. Government. We now have a contract to supply the filter presses, washing machines and other machinery.

We have been fairly well off for labor during the year. Our Koreans have been more acts, and I think that they have been accustomed and accustomed to the conditions on these Islands, they will improve in their work, and become valuable as plantation laborers.

Successful Concert in Aid of St. Andrew's Organ Fund.

The recent sale of the organ fund of the St. Andrew's Cathedral was a splendid success. The overflow of the audience was considered as containing an unusual large number of persons of every social and religious status. The sale was opened after 4 o'clock, and the doors were closed at 6 o'clock, but large numbers were turned away because of the overflowing of the main hall and the lecture room, which was completely, filled.

The number of bidders was very large, and the competition was keen. The most popular items were the organ pipes and the organ case, which were sold at very high prices. The sale was conducted by Mr. Horace W. White, who was ably assisted by Mr. Robert H. McFadden, who has been the secretary of the organ fund committee.

The proceeds of the sale will be used for the purchase of an organ for the cathedral, and it is hoped that the organ will be ready for use in time for the Christmas services.

One Whole Store Devoted to Trunks

Kinds that will stand the wear and tear of time.

For travelling you'll want a trunk you can live in, and live with, and which will be admissible to baggage men's treatment, and bring your belongings safe home again.

Forty styles of them, but our trunks have them.

We also have a splendid line of suit cases, traveling bags, valise, and trunks, etc.

Our trunk department occupies one story by itself.
