OFFER THREE BUILDINGS TO OAHU COUNTY

"There has been no deliberation yet as to where the new county government will establish its headquarters," said supervisor-elect George W. Smith yesterday. "We have already been offered several buildings, but of course the matter must still be considered before a decision can be made."

"The new Board of Supervisors will have a meeting preliminary to the meeting of the newly elected county officials. The county officers will be organized at the regular meeting of the Board of Supervisors, which has been fixed for the first week of August."

"We have been offered a building at Waimea, just below the courthouse, with a field of view of the ocean, and a magnificent view of the wide sweep of the mountains behind it. The building is in very good condition, with a number of rooms, including a central hall, and I believe it will be suitable for the purpose."

At the polls the hall and the police, Mr. Smith said, "I do not know, of course, whether the Territory will take the public parks and the police department over to the county, but, yes, that is all. The property is there to be had, and I believe it will be purchased."

BIG LOT OF CONTRACTS
BEFORE JUNE THIRTIETH

Hilo to Have Its New Jail—Hawaii and Maui Roads—New Reservoir.

There are a great many places in the world where public improvements are not made simple, but are complicated with a thousand queer ideas. It is a vast improvement, therefore, to have a city as Hilo, in Hawaii, where the monthly board of the public works shows a balance on the credit side that is enough to keep open many a better engineer's mouth.

In Hilo, not only is the city building being erected, but the new jail, with all its variety of details, is ready for the contractor, and the various improvements are in process of construction. A new bridge and road are being built, and the city is rapidly becoming a place of importance.

NEW RESERVOIR.

A new reservoir is being constructed, and the city is being supplied with water from the mountain springs, which will be a great improvement. The old reservoir was too small, and the new one will be a great benefit to the city.

Yours sincerely,

J. D. EASTON, Secretary.
NOTABLE SOCIETY WEDDING LAST NIGHT

Alice Campbell Becomes the Bride of Walter Maclachlan.

The Roman Catholic Cathedral was beautifully decorated last night for the marriage of Miss Alice Hunter and Mr. Walter Maclachlan. The wax-lights shot from the sides of the gilded chandeliers cast a flood of light on the gold and silver articles that adorned the great mass pillars, and by the same means set the great organ and its many pipes in a blaze of light. The marriage service was officiated by Rev. W. R. Robertson, R. O. C. M., of St. Peter's Church in Honolulu, and the couple were united by Rev. R. R. Ewing, R. O. C. M.

The reception was held at the Royal Hawaiian Hotel, and the Mall, Garden and French doors were hung with red carnations and red ribbons. At 11 o'clock all the people present went to the Hotel in a train of carriages.

The bride was very beautiful and in the height of her beauty. She carried a bouquet in the form of a spray, which was richly flowered with lilies and the rose. She was in a full-figured gown of white chiffon which was very becoming to her. Her hair was worn low and was in keeping with the dress. The gowns worn by the bridesmaids were of the same description as that of the bride. The accessories were similar. Miss Alice Hunter and her mother were the only other persons present, the rest of the guests ranging from thirty to forty in number. Miss Alice Hunter was in a very charming dress which was very becoming to her. The accessories were similar. The guests ranged from thirty to forty in number.

SPORTS.
GINI THURSDAY AND EAT AT 7:30.
Both the Basque and Martin crews are expected to be in good condition this week, and we may expect a good
match between these two teams, who will contest in tonight and Thursday. Both will probably be
contenders for the title of the two clubs, and there is nothing to indicate that the game will not be
a close one. If the weather holds up, it is probable that there will be a large crowd present to see the
game. It is hoped that the ground will be in a good condition and that the game may be played
on time.
