RUSSIAN CONVICTS AT SAGHALIEN

R. C. Woodville

MUTINY IN A FIRING SQUAD

Execution Party Refuses to Fire on Condemned Men and Shoots Officers Instead.

(ASSOCIATED PRESS CARICATURES.)

LONDON, July 11.—It is reported that 23 mutineers at Liban were condemned to death. The firing squad detailed to execute them mutinied, turned about and shot twelve officers. Cossacks were summoned and in the fight that followed 30 were killed.

SEBASTOPOL, July 11.—The torpedo boat in the hands of the mutineers has refused to surrender. The Kustenji has arrived and its crew has been arrested.

THE JAPANESE INVASION OF SAGHALIEN ISLAND

TOKIO, July 11.—The Russian forces have withdrawn into the interior of Saghalien. Many Russian political prisoners have been set free by the Japanese troops.

CONSULAR REPORTS.

WASHINGTON, July 10th, 1905.

To the JAPANESE CONSUL GENERAL, Honolulu:

Admiral Kataoka's report runs as follows:
Our squadron arrived in the Saghalien waters at daybreak of the 7th inst., and after sea-clearing operations, our transports and a part of the squadron approached the coast.
Our squadron arrived in the Saghalien waters at daybreak of the 7th inst. and occupied the position as was previously determined; thereupon a part of our army also landed and relieved the naval detachment. In the meanwhile the enemy's fort on the height south of Korsakov opened fire on our ships which were engaged in the clearing of sea, but later successfully effected operations, as was prearranged. No damage to our squadron.

Early on the morning of the 8th inst., three warships and two destroyers were dispatched to assist the movement of the army in occupying Korsakov, but they found Korsakov already occupied by our army. The destroyers entered the Chitose Bay, formerly called the Rossei Bay, when the enemy opened vigorous fire with field guns, which were, however, finally silenced.

TAKAHIRA.

WASHINGTON, July 10th, 1905.

To the JAPANESE CONSUL GENERAL, Honolulu: (Official Report)
Our Saghalien landing army occupied Korsakov early on the morning of the 8th inst. without much resistance. The Russians burnt the town of Korsakov and retired to the position near Soloivka, about seven miles north of Korsakov, where they again attempted resistance, but being dislodged by our pursuing force, retired towards Vladimirovka, about 22 miles north of Korsakov. In this engagement we captured four guns and a quantity of ammunition. No damage on our side.

TAKAHIRA.

HE WANTS "BUSINESS"

Mr. Atkinson's Views on Makiki Tract Opening.

"What do those people mean who are kicking at the proposal to open the Makiki lands for small homesteads?" This is the question Acting Governor Atkinson fired at the Advertiser's Capitol reporter yesterday afternoon. "Do they mean business? Do they want the lands settled or not?" the added interrogations came like pistol cracks.

"The talk about former owners taking proceedings to recover the lands is nonsense. Lands once condemned belong to the Government, and the Government can do with them as it has a mind.

"So long as I am Governor I mean business and will open up all the lands possible."

Such is the answer of the Acting Governor to the agitation started in the evening papers against the proposal to open the Makiki reservation to settlement. The idea of such an opening was first broached in an interview with Land Commissioner Pratt published by the Advertiser eight days ago.

Mr. Pratt expressed the opinion that the thousand acres, approximately, now reserved for water supply purposes, if opened to settlement in small parcels

such as could be advantageously cultivated each by one family, would speedily be taken up and the tract changed from wilderness to a garden spot. Thus transformed the lands would yield the Government a revenue in taxes far outweighing their value if retained for the sake of furnishing a portion of the city's water supply which is not very great, either present or prospective, in the Commissioner's opinion.

One of the objections, indeed the only tangible one, offered to the scheme is that if the Portuguese took most of the lands for vineyards, as Mr. Pratt believed would be the case, a choice residence district would be spoiled. Mr. Atkinson referred to this objection while discussing the matter, the gist of his reply being that he did not believe in playing any favorites, and if the Portuguese paid for the land and made good use of it there was no reason in the world why they should not have an equal opportunity with everybody else to improve their conditions of life. Meantime the Government Survey is at work on the preliminaries of having the Makiki lands opened.

SHERMAN BAN INTO A LIVELY TYPHOON

The transport Sherman had an encounter with the wind on her trip up from Manila to Nagasaki which the passengers will remember for some time to come. While off the coast of Formosa the troopship ran into a well developed typhoon. The captain steered away to avoid the worst of it, but nevertheless, the vessel was hoove for several hours. The passengers were pretty well shaken up, but as the old Sherman was in the hands of a captain who has had much to do with typhoons during his long service with transports, the vessel came out unscathed.

IMPRESSED WITH TAFT

Governor Carter Sends a Significant Message.

"I am more impressed than ever with the importance of the Taft party."—Governor Carter.

This expression of opinion by the Governor, after meeting Secretary Taft and party in San Francisco, was conveyed to Acting Governor Atkinson by cable the latter part of last week. Governor Carter's estimate of the value of the approaching visit of the Taft party to Honolulu must in turn, upon this publication thereof, be accepted as exceedingly important by the business community's committee charged with the reception and entertainment of the distinguished Philippine expedition upon its passing call at Honolulu.

Benefits to the Territory and its capital and chief port which have sprung from Mr. Taft's previous tarrying here, when on his way home from a successful term as Governor General of the Philippines, are too abundant to be recalled in a moment. Sufficient to say that of the various Federal improvements, calling for large outlays of money and promising great local benefits, which have either been started

or are assured of early undertaking, few if any but have had the friendly and enthusiastic aid and influence of Secretary Taft in their promotion.

MRS. POTTER BANKRUPT.

LONDON, July 1.—Mrs. James Brown Potter's household effects and furniture were sold at auction on Friday under a bill of sale which she signed. "To pay the poor people working in the theater." Nothing was omitted from the comprehensive catalogue, from "six brownware teapots with one or two covers" in the kitchen to a new Panhard motor car in the coach house.

Other items included an old Chinese screen presented to the actress by the late Li Hung Chang, Collier's portrait of Mrs. Potter as Miladi, three horses and four carriages. Bray Lodge itself will be sold next Thursday.

HOME-BOUND ARMY PEOPLE AT HOP

The Fourth Infantry Band gave an excellent concert in the park of the Hawaiian Hotel last evening. The band, which numbered about 35 pieces while in the Philippines, has only about twenty-one players present, and will be again recruited up to its maximum strength on arrival at Fort Thomas, Ky. The band is one of the best in the army.

The infantry band played during dinner time at the Hawaiian and alternated later with the Ellis Quintette club during the period when dancing was enjoyed. The dance was given in honor of Major-General Randall, U. S. A., Col. Ray of the Fourth Infantry, Captain Litchebrant of the cavalry detachment, and Captain Taggart, quartermaster-captain of the Sherman. The officers and ladies of the transports Sherman and Warren were present and enjoyed the hospitality of Manager and Mrs. Fred. Church.

MANY DEATHS FROM HEAT AT HOME AND ABROAD

ROME, July 11.—There were 108 cases of sunstroke in this city yesterday and nineteen deaths.

NEW YORK, July 11.—Sunstroke caused ten deaths yesterday and many prostrations.

PITTSBURG, July 11.—There were seven deaths from heat yesterday.

PRUSSIAN MINE TRAGEDY.

DORTMUND, July 11.—A fire has occurred in a colliery here and thirty-nine miners, who were cut off, are believed to be dead.

ROYALTIES TO MEET.

STOCKHOLM, July 11.—King Oscar and the Crown Prince will sail July 13 to meet the Kaiser at Gefle.

RAIN STOPS WARFARE.

SIHINGPAI, July 11.—It is raining in torrents and all activity at the front has ceased.

CZAR AND MURAVIEFF.

ST. PETERSBURG, July 11.—The Czar has received Count Muravieff in audience.

BERGSTROM MUSIC CO.
ODD FELLOWS' BUILDING

RADIUM AS A LIFE PROMOTER

LONDON, July 1.—The experiments of Prof. Burke of the Cavendish Laboratory at Cambridge University in producing artificial life by the use of radium have been widely discussed all the week. A majority of the well-known scientists here have been interviewed by the newspapers on the subject, but they are very reticent, and while declaring that any definite pronouncement now would be premature evidently show little inclination to credit Prof. Burke with having accomplished what his friends somewhat too readily claim.

Prof. Burke's cultures, it is said, "are apparently capable not merely of growth, but also of sub-division and possibly of reproduction, but they certainly decay."

When portions are removed from the influence of radium and placed upon fresh portions of sterilized bouillon it is stated that they continue to grow, from which it is inferred that the influence of radium is only initial, and that when the spark of life is imparted to dead matter the product becomes a separate entity. If all this be true we have not spontaneous generation, but generation which can be produced by a chemical substance, without any of the attributes of living matter, as such matter has hitherto been defined.

It has been suggested that the bouillon used by Prof. Burke is not thoroughly sterilized, but a man of his experience and position may be trusted to see that there is proper sterilization. Still, sterilization is manifestly a relative term. The presumption that all living things have been killed in the bouillon, though true according to tests hitherto applied, may not be true when the substance is brought into contact with radium. It must be remembered that Prof. Burke's own statement is that at present what has been done suggests the validity of products conforming to Herbert Spencer's definition of life.

The Cambridge correspondent of a morning paper suggests that Prof. Burke has been hoaxed in the matter, but does not suggest how. He describes Burke as a man of undoubtedly great gifts but curious eccentricities. He recounts some of these, with examples of practical jokes played on him, such as a bogus correspondence with a non-existent German professor. None of these has any direct bearing on the present discovery, though apparently they are conducive to the Cambridge people not taking Burke as seriously as they might otherwise.

EVERYTHING IS LOVELY

Oahu County Republican Machine's Cogs Readjusted.

Readjustment of the cogs slipped in the county election campaign constituted most of the work done at the monthly meeting of the Oahu Republican County Committee yesterday. Owing to the rule barring anyone from holding a seat in both the Territorial and the county governing organizations, there were vacancies to be filled. Chairman Lorrin Andrews having withdrawn from the county campaign at a time between the convention and the election, there had been some talk about his action and now he wanted the talkers to have it out with him forthwith. Then there was a protest against the sitting of Wm. K. Isaac from delegates of the Tenth Precinct of the Fifth District who had procured his expulsion from the Fifth District committee. Lastly, there was the case of Sam Johnson, who chose the Territorial in preference to the county organization but now wanted back in the latter.

No accident resulted from any of these live wire situations. All of the vacancies were filled. Mr. Andrews was confirmed at the head of the committee. The Fifth protesters had their presentment against Isaac quietly tabled on motion of a leader in their district, seconded by a man from the Fourth who had just before suggested an investigation. Sam Johnson had his desire to rejoin the county machine crew gratified without demur.

There were 28 out of the 30 members of the committee present, either in person or by proxy, the roll call showing thus:

Fourth District—1st precinct, W. C. Roe and S. M. Kanakanui; 2nd, John Waterhouse and Harry E. Murray; 3rd, C. W. Booth and B. F. Wright; 4th, A. H. Moore and E. W. Quinn; 5th, Sam Johnson and J. J. Belsler; 6th, L. Andrews and W. F. Drake (proxy); 7th, G. Chalmers (proxy); 8th, Chas. Hustace and Chas. Zeigler; 9th, J. C. Quinn; 10th, Geo. Makalemi and J. W. Cathcart.

Fifth District—1st precinct, Leleivi (proxy with Andrews); 2nd, W. W. Goodale (proxy with Adams); 4th and 5th (Ewa and Waiānae), absent; 6th, S. Hookano; 7th, Keany; 8th, S. C. Dwight and Lot. K. C. Lane; 9th, M. C. Amama and E. Henriques; 10th, Joe Ricard and Wm. Isaac; 11th, B. P. Zebian.

Chairman Andrews at the outset read letters from precinct nominating committeemen to fill vacancies. Johnson and Belsler were named by the Fifth of the Fourth. Keany was sent by the Seventh of the Fifth in place of J. Perh, resigned. The Tenth of the Fifth gave the seat originally held by Ed. Kealoha to Isaac. B. J. Wright was the choice of the Third of the Fourth to fill the place vacated by R. N. Boyd. Next the chairman read the protest from the Tenth of the Fifth, which was signed by Wm. H. Crawford, J. H. Kanehuni, Chas. Kanekoa and C. H. Clark. Its grounds were alleged irregularity of the club meeting that nominated Isaac and the expulsion of both Isaac and Kealoha by the district committee.

J. C. Quinn expressed the opinion that, as Isaac had been expelled, an investigation should be held. But when E. R. Adams, a Fifth District man, moved that the protest be laid on the table, Quinn seconded the motion. The motion carried by a goodly majority without debate.

Mr. Andrews, after some remarks on the ratification meeting Wednesday evening to be addressed by Congressman Hepburn and Territorial Chairman Robertson, brought his own personal matter pointedly before the committee. Chas. Hustace had told him, the chairman stated, that different members of the committee had spoken to him about his (Andrews') action in the county campaign and expressed themselves as having no further confidence in him. He himself had heard from other members of the committee reports of similar utterances.

It was absolutely necessary, Mr. Andrews proceeded, to have harmony in the organization and that matter about himself must be settled then and there. If, therefore, he had lost the confidence of the committee let the fact be declared in a regular manner and then he would be willing to get out.

Mr. Hustace said he had confidence in Mr. Andrews and he would not withdraw anything that he had said to the contrary.

Mr. Waterhouse reminded the committee that when Mr. Andrews withdrew from the county campaign he offered to resign from the committee.

Representative E. W. Quinn moved that the committee unanimously endorse Mr. Andrews as chairman. Remarks having been made by others, conveying expressions of confidence in the chairman, the motion carried.

Chairman Andrews appointed W. F. Drake, Sam Johnson and Wm. K. Isaac to fill vacancies on the executive committee.

DON'T WAIT UNTIL YOU NEED IT.

Do not wait until some of your family is taken with a violent attack of colic or diarrhoea. A bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy at hand when needed has saved many a life. Procure it at once. For sale by Benson, Smith & Co., Ltd., agents for Hawaii.

PRETTY SKIRTS FOR OUTDOORS AND IN

We have just received from New York the very latest in LADIES' SKIRTS, and they will be placed on sale this week at extremely low prices.

They Are All Artistic Creations,

and in ordering we insisted on good material, good tailoring and good trimmings. Even though it's only a simple little walking skirt at \$5.00, it has an air of refinement and good taste that gives it distinction. Among our new stock are skirts in

BRILLIANTINE, MOHAIR, CHEVIOT, FANCY WORSTED AND PANAMA VOILE,

and each has that air of elegance that comes from good material, well tailored.

MAUI HAS BUSY DAYS

Plenty Doing On the
Island of the
Valleys.

MAUI, July 8.—Though showery on East Maui, the weather was bright and fair at Kahului and the Maui Racing Association had a most successful day on "the glorious fourth" with their races at Spreckles' Park.

There were crowds of people in the grandstand and vicinity and much excitement and interest were aroused by the various events, which, for the most part, were well contested.

Several races on the program were not filled, but the following were run:

1.—Half-mile dash; free for all Maui bred horses. Won by "Racery" in 54 seconds.

2.—Half-mile dash; maiden.—Japanese race. Post entries. Purse, \$25. Won by "Lady," a Lahaina horse, in 57 seconds.

3.—Trotting and pacing to harness; mile heats, best 2 in 3; 2:15 class. Purse, \$150. The contestants were "Dillon Jr.," "Cyclone" and "Denny Healey." Won by "Cyclone" who made the first heat in 2:26 1-2.

4.—One mile dash, running race; free for all. Purse, \$175. Won by "Racine Murphy" in 1:52 1-2.

5.—Three-eighths-mile dash; Maui bred maidens. Purse, \$50. Won by Thos. Lóyd's "Sis. Hooligan" in 40 seconds.

6.—Mile race, catch weights. Purse, \$40. Won by the Makawao mule, "Piholo," entered by Jas. Wilson.

7.—Trotting and pacing to harness; mile heats, best 3 in 5; 2:17 class or better. Purse, \$175. The contestants were "Cyclone," "Denny Healey" and "McKinley." Won by "Cyclone" in two heats, his opponents being distanced in the second heat.

8.—Trotting and pacing to harness; mile heats, best two in three; green horses. Purse, \$100. Won by G. L. Keeney's "Silver Top."

The judges were Geo. Weight, T. B. Lyons and Geo. Mayfield; the timekeepers, Ferd. Hons and W. R. Boote, and the clerk of the course, Harry Copp.

MAKAWAO PICNIC.

It was a sort of a red, white and blue day at the Makawao picnic on the 4th. The stars and stripes floated above the polo house, the interior and exterior of the grandstand were gayly decorated with bunting, the uprights from which the rings for tilting hung were wound with red, white and blue, the shed-like lanai at the Seminary, where the lunch was served, was profusely adorned with the patriotic colors, and pretty ribbons in the American tints were sported by the ladies, the men and the children. The picnic was largely attended and was a great success, despite the morning showers, which prevented the Puunene baseballists from putting in an appearance.

After a scrub game of ball between nines selected on the field, an excellent lunch was served on the premises of Maunaolu Seminary.

Then came the tilting tournament on the polo grounds, in which the following men contested: Lorin Smith, C. C. Krumbhaar, Wm. Engle, G. S. Aiken, G. W. Wilbur, Geo. Henderson, Fred. A. Baldwin and J. Nicholson. The contestants had three chances each, the runnings to be made in 8, 7 and 6 seconds. First, Krumbhaar and Engle tied, three rings each, but in the next trials Engle won and took the silver cup for a year. This trophy was held last year by J. B. Thompson of Puunene.

At 3 p. m. the polo game was called with the following line-up:

Yellows—

No. 1—G. W. Wilbur.

No. 2—W. Engle and J. B. Thompson.

No. 3—G. S. Aiken.

No. 4—C. C. Krumbhaar (captain).

Reds—

No. 1—H. A. Baldwin.

No. 2—Fred. Baldwin (captain).

No. 3—E. Peck and J. Reed.

No. 4—D. T. Fleming.

The score by periods was as follows:

1st: Reds, 3 goals; Yellows, 1 goal.

2nd: Reds, 1 goal; Yellows, 1 goal.

3rd: Reds, 2 goals; Yellows, 1 goal.

4th: Reds, 2 goals; Yellows, 2 goals.

Total: Reds, 8 goals; Yellows, 5 goals.

During the second period the Yellows forfeited half a goal owing to a foul, so the result finally stood 8 to 4-1-2 in favor of the Reds.

Four periods of fifteen minutes each of actual play constituted the match, which was most interesting from start to finish, despite the fact that the Yellows were outplayed by the Reds.

The many crack ponies present were much admired and the red and yellow silk vests worn by the players made a pleasing contrast with the green sward of the closely-cut grounds.

H. B. Weller acted as referee and W. O. Aiken as timekeeper.

THE K. OF P. BALL.

The grand ball given by the Knights of Pythias on the night of the 3rd in Castle hall, Wailuku, was a great success. There was a large attendance of ladies and gentlemen from all parts of Central Maui. The pianola played excellent music and dancing continued into the wee sma' hours, for it was two a. m. when the last train steamed away eastward from the town.

MAUI SUPERVISORS.

On Saturday, the 1st, the Board of Supervisors of Maui County held its first formal meeting at the county-seat, electing Wm. Henning of Lahaina, chairman. The business transacted consisted in approving the bonds of the county officials and reappointing to office the old police force.

Being in doubt concerning the legality of their action, two sets of commissions were issued to the police, one from the Board of Supervisors and the other from the Sheriff, countersigned by the chairman of Supervisors. The board adjourned from Saturday until Wednesday, the 5th.

NEWS NOTES.

On the evening of the 15th, Puunene plantation will hold its annual "harvest home festival" in the huge sugar room of its mill. The H. C. & S. Co. and the officers of the plantation will undoubtedly make this festivity, which is to celebrate the completion of grinding of the largest crop of sugar ever produced in the Territory, the most elaborate event of the social season.

The Puunene Athletic Association will hold a tennis tournament August 12, probably on one of the Makawao courts at which handsome challenge cups given by the association will be competed for. The contests will be limited to doubles and all Maui tennis players who wish to take part must send their names to reach Mr. J. N. S. Williams of Puunene not later than the 13th, inasmuch as the drawing of players will probably be made at the Harvest Home Festival, the evening of the 15th.

The Makawao Tennis Club will hold a meeting to be followed by an informal dance, at the residence of Mr. D. B. Murdoch, Paia, this evening.

Father Oliver, the Catholic priest who has had charge of the Lahaina parish for some months past, died at Wailuku, early Sunday morning, the 2nd. The funeral took place the following day.

On the 2nd the Kaupakalua Wine and Liquor Co. organized temporarily with the following officers: J. M. Vivas, president; A. S. Medeiros, secretary; A. F. Tarvares, treasurer; and J. R. Souza and Manuel Jose, directors. The \$5000 of capital stock at \$10 per share is to be offered to Portuguese only until the end of this month. It is estimated that the present crop of grapes raised by Kaupakalua residents will produce 10,000 gallons of wine.

The steamer Nebraskan arrived in

Dyspepsia of Women

ABSOLUTELY NEEDLESS AGONY

Caused by Uterine Disorders and Cured by Lydia E. Pinkham's Vegetable Compound

A great many women suffer with a form of indigestion or dyspepsia which does not seem to yield to ordinary treatment. While the symptoms seem to be similar to those of ordinary indigestion, yet the medicines universally prescribed do not seem to restore the patient's normal condition.

Mrs. M. Wright

Mrs. Pinkham claims that there is a kind of dyspepsia that is caused by a derangement of the female organism, and which, while it causes a disturbance similar to ordinary indigestion, cannot be relieved without a medicine which not only acts as a stomach tonic, but has peculiar uterine-tonic effects also.

As proof of this theory we call attention to the case of Mrs. Maggie Wright, Brooklyn, N. Y., who was completely cured by Lydia E. Pinkham's Vegetable Compound after everything else had failed. She writes:

"For two years I suffered with dyspepsia which so degenerated my entire system that I was unable to attend to my daily duties. I felt weak and nervous, and nothing that I ate tasted good and it caused a disturbance in my stomach. I tried different dyspepsia cures, but nothing seemed to help me. I was advised to give Lydia E. Pinkham's Vegetable Compound a trial, and was happily surprised to find that it acted like a fine tonic, and in a few days I began to enjoy and properly digest my food. My recovery was rapid, and in five weeks I was a well woman. I have recommended it to many suffering women."

No other medicine in the world has received such widespread and unqualified endorsement, or has such a record of cures of female troubles, as has Lydia E. Pinkham's Vegetable Compound.

Kahului this morning, bringing Mr. and Mrs. J. P. Cooke and children, Miss Charlotte Baldwin and Sam. Baldwin. By the Kinau of the 6th, Mr. Wren, the new manager of the Kahului store, arrived on Maui.

Another arrival by the Kinau was Z. K. Myers of the Hawaiian Trust Co. He is visiting F. L. Stolz at "Idlewild." Mrs. J. M. Dowsett and three children of Honolulu are the guests of Mrs. Dora von Tempisky of Makawao. Weather—Showery at the beginning of the week.

HALEIWA.

The Haleiwa Hotel, Honolulu's famous country resort, on the line of the Oahu Railway, contains every modern improvement and affords its guests an opportunity to enjoy all amusements—golf, tennis, billiards, fresh and salt water bathing, shooting, fishing, riding and driving. Tickets, including railway fare and one full day's room and board, are sold at the Honolulu station and Trent & Company for \$5.00. For departure of trains consult time table.

On Sundays, the Haleiwa Limited, a two-hour train, leaves at 8:22 a. m.; returning, arrives in Honolulu at 10:10 p. m.

SCIENTIFIC SPECIALS.

It has been discovered recently that the slime or residuum from the thermal springs at the city of Baden-Baden, Germany, contains very powerful radium. Prof. H. Gertel of Wolfenbuttel, Germany, says this radium is 40 times more powerful than that found in the residuum of cold-water springs or in mud baths.

Work for the insane is a special study at the Villejuif asylum, Paris. Painting, carving, sketching and even tattooing are included, and recovery is often due to the employment. In other cases the condition of the patient's mind is mirrored in the work done, aiding the physician in his study of the case more than any amount of discussion or consultation.

The earth's interior, instead of being fluid, is now known to be exceedingly hard and rigid. This is due to the inconceivable pressure, and Prof. T. J. See points out that as the heat is beyond the critical temperature of every known element, the matter must be essentially a gas reduced by pressure to a hardness and rigidity possessed by no substance known to us.

Authorities of the geological survey having charge of the mineral resource work for the territory in question are confident that as a result of the plans mapped out for an examination into the platinum resources of the United States that valuable metal will be found in commercial quality in Utah. The demand for platinum continues to increase, the present market value being \$21 an ounce.

Since the introduction of the incandescent gas burner a new lease of life has been given to gas undertakings, according to the chief engineer of the Manchester (England) gas works. These gas works are owned by the municipality. He says that gas has now been placed in the front row as the cheapest illuminant. The Manchester engineer shows that electricity, light for light, is eight times dearer in Manchester than is gas light. He demonstrated that to produce a light of 1,000-candle power it would cost 3.72 cents if gas were used and 30.1 cents if electricity were the illuminant.

A pretty little hat is of blue straw trimmed with daisies. It must be worn with a gown which it will suit. Daisies, the field flowers, are not good form with elaborate or dress toilets.

ALMOST INSTANT EFFECT

Tired Feeling—Blood Trouble—Grip Cured—Fought Off—Vanquished—The Homes of the Nation Send Their Thanks and Praise for

PAINE'S CELERY COMPOUND

Tunbridge, Vt.—"I began taking Paine's Celery Compound in the spring after having spent a year and a half confined to my bed on account of having pneumonia and a bad knee, due to blood trouble. At the time I began taking your medicine I was very nervous and did not want to see any one—only my own folks.

"The doctors all said that there was not anything else they could do for me, and also said they did not think that I would ever be any better, and if I was better I would never be able to walk again.

"A friend of mine was taking Paine's Celery Compound at the time and I thought I would try it. I took several bottles before I saw much improvement. But soon my nervousness left me. I again enjoyed seeing all who called at the house.

"I kept right on gaining until now I call myself VERY WELL AND HEALTHY.

"I had a light attack of the grippe and I took one bottle of Paine's Celery Compound. It helped me to regain my

EQUALITY BEFORE THE LAW.

A man who desires to get a lesson in mental soundness ought to read President Roosevelt's letter to the Attorney General, in which he concurred with that gentleman in holding that contempt proceedings should be commenced against one of the great railroad corporations, but not against its leading officials, among whom ex-Secretary Shaw had been included. The case was one of differential rates, and the testimony against the corporation seemed to be conclusive. There was not a word, however, in the record, which, directly or indirectly, implicated or tended to implicate the chief officers. On the contrary, Secretary Shaw, who had really given the evidence that started the present scrutinizing investigation into railroad rates, proved by letters, instructions and other documents, that he had steadily opposed the fraud that has now been disclosed.

Private counsel were employed by Attorney General Moody, under instructions from the President, and they requested contempt proceedings against the officers as well as against the corporations. The record was in the condition above described, and, after a thorough examination, Mr. Moody concurred in the recommendation as to the action to be taken against the corporation, but, in the absence of even prima facie proof or indeed of any proof whatever, declined to advise a merely fishing investigation against individuals. Mr. Roosevelt endorsed Mr. Moody's views and completely exonerated Mr. Shaw, even from suspicion, in a letter which is a model of judicial impartiality.

It is undoubted that there have been judges, whose decisions were influenced by personal friendships. There have also been judges who, for fear they might be swayed by their relations with particular attorneys, have leaned against them. Neither class possessed the judicial faculty. The only genuine type of a judge, having the other qualities essential to correct rulings, is that of the man who could be socially intimate with the gentlemen of the legal profession or with other gentlemen, but who, on the bench, was actually and completely oblivious of any personal knowledge whatever either of parties or their counsel. The judges in England, who traversed the circuits, were usually accompanied by members of the bar, dined with them almost nightly, exchanged wit and repartee with them, and, so to speak, lived with them on terms of social intimacy, but, on the bench, they were capable of being governed and were actually governed only by the law and by the facts, when the facts were within their jurisdiction. The same high class of judicial officers has been abundantly represented in the United States.

President Roosevelt, himself a comparatively young man of a strenuous type and who has done more to promote a moral view of official life than any man of this century, in the letter referred to has shown so perfect a discrimination between right and wrong, so accurate an estimate of equality before the law, that he has ranged himself beside the greatest judges of ancient or modern times. He expresses his views with the utmost clearness and precision, and, while distinctly stating that the fact that a former railroad vice-president was a member of the cabinet would have no effect whatever in relieving him from responsibility for illegal conduct, he also plainly announces that official relation to the government is not a reason for the preferment of charges, without evidence to sustain them, that would not be brought against a person in private life. The balance is held with a firm and even hand, and the inherent right of every citizen of the United States to the protection of the law, without reference to wealth or station, is not only announced but practically recognized and enforced.

It is the definiteness of the President's letter, its full recognition of every existing and relevant fact, its disregard of every consideration except justice within the law, and its manly expressions of confidence in a cabinet officer who had proved himself true under all conditions, which maintain a standard that marks a new era in administration and impresses the judicial quality upon the record of executive action. Mr. Roosevelt has been equally strong and equally true upon every occasion when the sincerity of his expressed views has been tested. No condition of wealth or of poverty, of weakness or of power, has affected his judgment, but, without regard to consequences, he has logically carried high ideals and standards of official life into practice, and has thus raised the conception of citizenship and vindicated the integrity of our national institutions.

A BAD NEWS SERVICE.

The remarkable series of lies cabled about the battleship Potemkin should bring the Associated Press and Reuter's agency together on some proposition to secure a responsible European news service. The news sent from the United States to Europe, save some of that cabled by special correspondents, is very near the truth but the news sent out from Europe is so often the product of rumor as to discredit the value of all unverified public intelligence from there. It is said, for example, that not a single sensation sent across the sea from London and Paris concerning the Oriental war has turned out to be true. Instance the alleged Japanese loss of four battleships in front of Port Arthur at the beginning of the war and the recent "destruction" of the Gromoboi with Admiral Skrydloff on board.

As to the Potemkin she has been reported as bombarding cities which she never touched; as being joined by vessels which were far away and in loyal hands; as heading for ports she had no apparent desire to reach; as surrendering to an admiral who took her away and now as having been sunk before the admiral came. A responsible news agent at Odessa and Theodosia ought to have been able to tell the exact truth day by day; but Reuter's seems to have accepted every weird yarn which came to hand about the Potemkin and put it on the cable.

True, in this world of rumor and contradictory testimony, a daily paper hastily prepared, cannot hope to be always accurate; but a news agency having the field to itself has time to investigate and ought not to be deceived about such important matters as the bombardment of cities or the surrender, in a port which is on the wire, of first-class battleships.

WE MAY GET CHINESE.

It is quite possible that Hawaii and the Philippines may get the Chinese labor they are after through a compromise between the American commercial and labor elements.

The issue is joined on the mainland in this way: The exporters insist with the approval of the President upon fair treatment for the Chinese so as to hold a \$44,000,000 trade with them. The labor men say that they will go Democratic if the anti-Chinese bars are let down. What more natural, therefore, than a compromise arrangement to let Chinese students, merchants and travelers only into the mainland and Chinese labor into the Philippines, Panama, Hawaii, Guam, Samoa, Alaska, etc., removing also the treaty provision between the United States and Cuba forbidding the latter to import Chinese, and debarring all Chinese labor from the United States proper. Everybody ought to be satisfied with an arrangement like that.

In an interesting leader on Father Bachelot and his useful gift to Hawaii, the Star spells algeroba with an "e" as its fourth letter. The same error is made on the Bachelot sign at the mission. It is an instance of a bad habit firmly fixed like the local pronunciation of the Japanese name Naniwa. Nearly every white resident who was here when the Naniwa made her local calls calls the trim cruiser the Naneeva. And nine out of ten make the "algeroba" mistake.

The mosquito pest is gradually getting back to its old status. At one time it was so well under control that tourists ceased to complain and residents almost forgot the existence of the stinging insects. Lately, however, the collection of tin cans has been given up and householders have neglected to inspect their yards for standing water. Unless something is done pretty soon along the old lines Honolulu will resume burning buhach and slapping itself.

Three classes of foreign labor will compete in canal digging at Panama, Chinese, Japanese and Italian. Those who show up best will naturally give their country the preference in future labor requisitions.

A Hepburn plank for the next national Republican platform: Free admission of Chinese cooks.

NOW IT'S THE CYCLOPEDE.

LONDON, July 1.—Life will be made very pleasant for those disinclined to worry and exercise, when Mr. J. F. Bentley, of Ludgate Circus, puts on the market his patent "cyclopede" and physical exerciser.

The machine with the high sounding title is a glorified hobby horse such as our ancestors used. These eslimable people would be indeed pleased could they but see our tendency toward reversion to some of their household gods like the crinoline and the hobby horse. It is easier to "cyclopede" than to walk, and cycling is violent exercise compared with "cyclopeding."

It is primarily an open air physical exerciser, and secondarily an aid to locomotion. The machine is propelled by the feet and the rider can thus at any moment apply an effective brake. It requires less exertion than walking, while progress is twice as rapid. He was able to accomplish a speed of between eight and nine miles an hour with ease on an up-and-down road. Thirteen and one-half miles an hour has been accomplished by an expert.

When the machine has been started, an occasional push with a walking stick is efficient to keep it going at a moderate speed. Uphill it is easier than either riding or pushing a bicycle, and down hill, owing to the absence of the gearing, it runs considerably faster.

The machine weighs under twenty pounds and is sold for 3 guineas. The inventor considers that he will be able to place a machine on the market at about 30s. How to adapt the machine to the requirements of women is a point which the inventor is now working over, but he is determined to solve the problem.

A MISTAKE AS TO COLOR.

NORFOLK, July 1.—Four midshipmen of the Brazilian cruiser Benjamin Constant were requested to leave the Meddo cafe here because other guests of the place mistook them for negroes. Lieut. Florent, the spokesman for the party, declared that they did not comprehend the cause of the confusion they created in the dining room, but when it was explained in Portuguese they were very glad to leave. They went to the Monticello, the largest hotel in the city, and were entertained with all the courtesy which is shown to other guests.

Barton Myers, the Brazilian Consul here, said that the incident had not been referred to his notice officially and he supposed it would not be, as the officers are of Spanish descent and all educated and cultured naval officers. The cadets from the ship have had shore leave and have been going about the city freely and behaving with more propriety than the average sailor behaves after a long voyage.

THE BERNICE PAUHI BISHOP MUSEUM, KALIHI, OAHU.

Residents of Hawaii Territory and strangers visiting Honolulu are hereby notified that the above named Museum will be open to inspection on **FRI-DAYS** and **SATURDAYS** of each and every week of the year, and also upon **ALL PUBLIC HOLIDAYS** (Thanksgiving and Christmas excepted), between the hours of 10 o'clock a. m. and 5 o'clock p. m., from the 31st day of March to the 31st day of October, and from 10 o'clock a. m. to 4:30 o'clock p. m. from the 1st day of November to the 31st day of March of each year until further notice.

Tourists arriving in Honolulu by through steamers on other than the regular visitor's days hereinafter designated (Sundays and Thanksgiving and Christmas excepted) and leaving prior to the days set apart as regular visitor's days may be admitted to the Museum on **SPECIAL PERMITS**, issued during office hours from the general office of the trustees, No. 77 Merchant street, next door to the banking house of Bishop & Co.

ADMISSION TO MUSEUM FREE. Electric cars bound west on King street pass the Museum every ten minutes during the day. Honolulu, T. H., June 12th, 1905. **PER ORDER.**

Premo Reflecting CAMERA

For many years the word "PREMO" has been identified with all that is best in camera construction. Today it covers a broader field than ever before, as Premo Reflecting Cameras have taken a place of importance in photography. This camera is invaluable for making exposures where great rapidity is required. It will be found of great value for photographing any moving object where it is essential for successful results that the object be centered and the exposure made at the same time. We shall be happy to afford you a demonstration of this camera's fine work.

WEEKLY CROP BULLETIN.

For the Week Ending July 8, 1905.

GENERAL SUMMARY.

Normal temperatures for this season of the year have prevailed in nearly all sections of the Group during the past week, attended by moderate trade winds. In most portions of the island of Hawaii, the rainfall was considerably in excess of that of the preceding week, especially in windward sections. Good rains also occurred in windward Maui and portions of windward Kauai, but elsewhere throughout the central and northern islands the weather has continued very dry.

Growing cane needs rain in the Kau and Kohala districts of Hawaii, the Kipahulu district of Maui, and portions of Kauai; but is reported as in good condition and growing well in most other sections. The grinding of mature cane continues, and all of the plantations are busily engaged in planting and other field operations. Pastures need rain in the north Kohala district and the lower levels of the Kau district of Hawaii, and in the leeward districts of all the other islands. Coffee is in good condition, but in the Kona district of Hawaii would now be benefited by a few days without rain. The harvesting of a fine summer crop of pineapples is going on rapidly in all sections, the canneries are all in operation, and heavy shipments of fresh fruit are being made to the Coast. The bulk of the rice crop is now harvested, and the preparation of land for the second crop is in progress. Sisal needs rain in leeward Oahu.

REMARKS BY CORRESPONDENTS.

ISLAND OF HAWAII.

Kaunani—Weather continues favorable for growing crops; pastures and grazing stock in good condition; planting, cultivating, stripping and harvesting cane.—J. E. Gamalison.
Hilo—Weather warm and showery; crops growing splendidly, and pastures in good condition.—L. C. Lyman.
Pepeekeo—Showery nights and warm, sunny days; cutting and grinding cane; plowing, planting, weeding, hoeing and stripping.—Jas. Webster.
Hakalau—Weather warm, with sufficient rain; harvesting and planting cane.—Geo. Ross.

Honouliuli—Light showers and abundant sunshine; crops all looking well; planting, hoeing and harvesting cane.—W. K. Andrews.
Laupahoehoe—Warm weather, with light winds and heavy showers; plenty of water available, and all crops looking well.—E. W. Barnard.
Paauihau—Weather warm all week, with good rains on evening of 3rd and all day of 4th; coming cane crops being stripped and cultivated.—H. Glass.

Honokaa—Weather warm, with light winds; good rain on 4th.—C. H. Bragg.
Niihau—A favorable week, with abundant warmth and rain for cane growth; improved condition of growing crops is noticeable; plowing and fertilizing rations; planting, cultivating, hoeing, reaping and grinding.—Robt. Hall.
Kohala Mission—Rainfall insufficient during week, and cane suffering in the drier parts of the district; moderate winds.—Dr. B. D. Bond.
Puakea Ranch—Weather fine and warm, but more rain is needed.—A. Mason.
Puuhiue—Weather warm, with light rains and strong trade winds at night; stock fattening fairly well.—S. P. Woods.
Kamuela—Cool weather, with fresh northeasterly wind; .72 inch of rain during week.—Mrs. E. W. Hay.
Puuwaawaa—First part of week marked by very high winds and quite heavy fog; heavy shower on 6th.—Robt. Hind.
Honokahau—Wet weather continues.

the rains being heaviest through the central country and lighter at higher and low levels.—F. R. Greenwell.
Kealahou—Partly cloudy and warm; rain every day, amounting in all to 3.00 inches.—Rev. S. H. Davis.
Kealahou—Rain every day during week; a few fine days would now be beneficial to the coffee trees and would also make weeding easier.—Robt. Wallace.
Kau—1.45 inches of rain during week; water supply good, and pastures in fair condition.—F. H. Hayseiden.
Naalehu—Very dry yet, and crops at a standstill; moderate winds during the week.—G. G. Kinney.
Pahala—The past week has been hot and dry, with a continuance of strong trade winds; young cane and pastures are somewhat dry in consequence.—H. D. Harrison.

ISLAND OF MAUI.

Kipahulu—Nice weather for young cane and planting, but rain inadequate for big cane; plowing, planting and weeding 1907 crop.—Andrew Gross.
Nahiku—Watermelons, grapes and mangoes are in abundance at Nahiku this week; weather continues warm, and the young rubber trees are growing rapidly.—C. O. Jacobs.
Hualo—After nearly a week of warm weather without rain, daily showers have commenced again; summer growth of vegetation has begun again, but more moisture is required than has fallen during the past two weeks; irrigation ditches are barely supplied to full capacity.—W. F. Pogue.
Haiku—Weather during most of week warm and sunny with moderate rains, very favorable for the ripening of pineapples and general vegetable growth; the canning of pineapple fruit began this week.—D. D. Baldwin.
Pala—Very dry during fore part of week, but nice showers during the middle and latter portions; clearing land, plowing, harrowing, cultivating, fertilizing, irrigating and weeding.—J. J. Jones.
Makawao—Weather quite cool with showers and moderate trade winds during most of week; pastures and stock continue in good condition; no rain in Kula section, and lower lands very dry.—E. H. Bailey.
Kahului—Fine weather all week; .20 inch of rain.—R. W. Filler.
Kihel—Weather throughout week somewhat cloudy and not so warm; slight increase in supply of ditch water from windward, but not sufficient to stop pumping; plowing land, planting cane, and cutting back ratoons of 1907 crop.—James Scott.
Olowalu—Warm weather with light northeast winds; heavy showers in mountains during latter part of week; cane growing well, but pastures dry.—Geo. Gibb.
Kaanapali—Fine, mild weather during week with occasional showers; all growing cane looking well, but pastures in need of more rain.—Wm. Robb.

ISLAND OF OAHU.

Ahulimanu—Crops, pastures and stock in good condition.—E. Knust.
Maunawili—Pastures in fair condition; coffee is doing well, and will be much benefited by the heavy shower which fell during the night of the 7th.—John Herd.
Waimanalo—Warm weather during the past week, with occasional light showers.—A. Irvine.
Ewa—temperatures somewhat lower than during the preceding week; no rain.—Ewa Plantation Co.
Sisal—Conditions remain unchanged; variable winds with several light showers; sisal still needs rain.—Wm. Westrich Jr.
Waiānae—The weather continues dry and somewhat lighter than the Waiānae district.—F. Meyer.
Waimanalo—Light showers during week; summer crop of pineapples being harvested rapidly, and all hands are engaged packing fruit for Coast

shipments; plants in good condition.—B. O. Clark.
Kahuku—Fine weather continues, with moderate trade winds and light showers at night; nights cooler during latter part of week; steadily planting cane; fertilizing; clearing and plowing new land; harvesting and milling cane; marketing rice and watermelons.—R. T. Christophersen.

ISLAND OF KAUAI.

Makaweli—Cloudy and comparatively cool all week; dry here, but good rainfall in the mountains; plowing land and grinding cane.—Hawaiian Sugar Co.
Elele—Weather dry and warm; plowing and preparing land and planting cane; total rainfall for the week, .09 inch.—McClyde Sugar Co.
Koloa—Good growing weather, but crops in need of rain.—P. McLane.
Keala—As a result of last week's rains, cane and pastures are doing well; planting continues.—W. Jarvis.
Kilauea—Warm weather with showers all week; conditions very favorable for the growth of cane.—L. B. Boreiko.
Hanalei—First crop rice nearly all harvested, and fields in different parts of valley are being plowed for second crop; pastures continue to look well.—E. G. K. Deverill.
A. McC. ASHLEY,
Section Director.

Goodness and Freshness

are two very essential elements in groceries and customers demand them every time. We pay particular attention to these points and that the public realizes and appreciates our position in the matter, our rapidly growing trade conclusively indicates. In order to secure absolute freshness we keep only enough stock on hand for immediate demand, receiving consignments of goods by every steamer. We handle only the very best lines of goods and are constantly adding to our list of choice agencies. Cleanliness is the keynote of the management of our store and our delivery system is as nearly as perfect as we can make it.

FUNNY STOCK.

Some of the Freaks to Be Found on a Pennsylvania Wild Animal Farm.

Come good crops or bad, the wild-animal farm does a thriving business. Its cosmopolitan population, gathered from Asia, Africa, India, from every clime, do not take kindly to farm work. The camels refuse to plow; no amount of urging will induce the zebras to do the work of horses; nor will the yaks or the sacred cows do the work of ordinary oxen. Actually the farm is a great animal boarding house, with "boarders" from all over the world. The farm, which comprises some 300 acres, is located near Allentown, Pa., says Francis Arnold Collins, in St. Nicholas. Its population last year numbered more than 300 "heads" of different kinds of stock and comprised a large and fairly complete menagerie.

During the summer months the entire population of the wild-animal farm travel about the country in the vans of the "Greatest Show on Earth." Early each fall the animals return to their quiet Pennsylvania farm to enjoy a well-earned vacation. It is a great day for the countryside, for miles in all directions, when the circus comes to the country. The great herds of camels, dromedaries, yaks, buffalo, llamas, and the rest, are shipped to the nearest railroad point and paraded across country to their winter quarters. The caravan makes a very pretty picture as it moves slowly along, up hill and down dale, over the quiet country roads.

The winter residents of the wild-animal farm are known in the circus as the "led stock." In the cross-country march to the farm it might more correctly be called the "pulled, pushed, or hauled stock." The journey is usually very exciting. In the various parades of the Barnum & Bailey circus throughout the country, these same animals will remain passive in the streets of great cities, no matter how loudly the band may play, the calliope whistle or the small boys shout. But, strange to say, a quiet country lane affects them very differently, and they will balk as if a camel can, shy at the most innocent bush or tree, crash through high fences or hurdle them, and go flying over the surrounding farms, to the consternation of the farmers. The caravan starts on its journey promptly at sunrise, and it is usually late in the day before the farm is reached and the last unruly runaway rounded up and safely stabled.

INDIA JUGGLERS' TRICK

What They Learned from Watching the Brilliant Butterflies in the Jungle.

One of the bewildering tricks played by the famous jugglers of India is that of making a boy disappear before the eyes of the spectators. One moment he is in plain view, dancing around with his bright red or green garments fluttering wildly; the next instant he fades away, and though there is absolutely no place in which he could hide, nobody can see him anywhere.

This trick has been borrowed by the jugglers from an Indian butterfly. The butterfly has such gorgeous blue and red wings that it is almost dazzling and when it flits through the jungle even the dullest and most careless eye is attracted instantly by it.

Yet the moment it settles on a twig it disappears utterly, and those who are not aware of its secret may search as they will they cannot find it.

The secret is that the under side of those gorgeous wings is not gorgeous at all, but is the exact color and shape of withered leaves, so the moment the insect folds its wings its glowing colors vanish, and it looks exactly like any one of the thousands of leaves.

The trick of the jugglers is worked by the same simple means, says the Boston Globe. The brilliant clothing of the dancing boy has a reverse side that is pure white. At the proper moment the boy flutters his garments wildly, reverses them, and squats close to a white wall or against a group of white-clad jugglers.

At the same moment he rubs white powder over his face, and by this ludicrously simple trick he deceives the sharpest sight.

Fun with a Comb.

Every boy and girl using a comb to smooth out their tangled locks on a cold morning has heard and wondered at the electricity that crackles as the comb passes through the hair. This property of the comb can be used in an interesting little experiment. Cut out a lot of little paper figures. On the next cold day, when your hair begins to snap and stand on end in its effort to follow the comb, hold the comb over the figures. The little puppets immediately appear to be endowed with life. They commence to jump and dance, or stick to each other and the comb as if fastened with glue. Often a little figure will stand on its head; another, fixing himself by one hand, hold his tiny form upright in a comical fashion; sometimes they will form themselves into long strings and go through all manner of seemingly intelligent movements.

Biggest English Poultry Farm.

Gen. Booth is very proud of his colonizing farm at Hadleigh, and well may be, for it is the biggest poultry farm in England, and houses over 2,000 birds. Last year 18,340 eggs and 1,185 birds were sold and 2,286 chickens reared. Out of 104 birds exhibited 93 took prizes, and close on £800 was reported in sales.

J. HOPP & CO.

A LOT OF NEW THINGS

OLD HICKORY—Something new, odd, and dainty—decidedly artistic—in the way of porch and lawn furniture. Can be left out in all kinds of weather. It is a line of fashionable rustic furniture. It is made only of hickory, the strongest of American native woods, the bottoms and backs being plaited by hand and being of very strong inner hickory bark. For a den or lanai or even for your lawn there is nothing more odd than this.

NEW WEATHERED OAK SET—By the "Sonoma" we received a fine weathered oak dining-room set, consisting of a table, an odd buffet, a leaded glass china cabinet, two arm chairs, and eight regular dining chairs, these latter having green leather seats, which go well with the dark color of the oak.

We also received a very handsome golden quartered oak sideboard and a china cabinet—about as good as can be made in any furniture factory.

RUGS—New lot of all sizes of rugs, including fine Wilton's of all sizes.

WICKER CHAIRS And ROCKERS—A lot of cheap wicker work in the way of chairs and rockers is disposed of every year in Honolulu. Some of it lasts for a couple of months and some as long as a year, but the best on the market—that advertised in all the magazines—and the best of American make, made in American factories from the best Ceylon rattan, will last for years. We have a new lot of the American goods in chairs and rockers, of all patterns, shapes and sizes and at reasonable prices.

AND EVERYTHING ELSE NEEDED IN ANY CLASS OF HOUSE FURNISHING.

ARRIVAL OF TRANSPORT WARREN BY AUTHORITY.

ARMY TRANSPORT WARREN WHILE HAVING HER PROPELLER REPAIRED HERE FOUR YEARS AGO.

With one of her propeller blades missing the United States army transport Warren came into port at 2:15 o'clock yesterday afternoon from Manila and moored along side Naval dock No. 2. The blade flew off about four nights ago while the transport was in the vicinity of Bird Island.

Whether or not the transport will have to remain here for repairs has not yet been determined. The vessel can steam to San Francisco all right, although her speed will be about one knot less than usual. If it is decided to make repairs here, the cargo of 2500 tons of coal, intended for the Honolulu army quartermaster's department, can be utilized to good effect in depressing the bow and elevating the stern so that the workmen can get at the propeller.

About four years ago the Warren had a similar experience here. After leaving Honolulu for Manila she returned in about two days' time with two propeller blades missing. Coal and pig iron were piled high on the forward part of the ship and all portable and heavy materials in the stern were removed. This brought the stern out of the water and repairs were made without much difficulty.

The Warren left Manila shortly after the Sherman on the present trip and coaled at Nagasaki. While in the vicinity of Japan the Warren encountered the tail end of a typhoon, the same into which the Sherman ran near Formosa. The remainder of the trip was without incident.

The Warren is in command of Captain A. N. Walton, formerly marine superintendent at Manila, and at other times was on the transport Dix and Egbert. Captain Walton was surprised to find the Stanley Dollar in port. The Dollar was formerly the army transport Egbert. Before that the Dollar was his steamer Missouri. She was the center of an incident at one time in her career which brought her captain into considerable prominence. The Missouri ran across a German steamer which was foundering, and Captain Murphy removed the passengers and crew to his vessel and brought them to London. The transfer was accomplished without difficulties.

The transport carries a number of through cabin passengers from Manila and Nagasaki who were unable to get transportation on the Sherman. The vessel will be here about eight days.

The other officers of the Warren are as follows: Edward Le Sack, first officer; J. J. Murphy, second officer; Arthur H. Dutton, third officer; J. J. Hughes, chief engineer; J. G. Armstrong, first assistant engineer; B. Free, second assistant engineer; John Neil, third assistant engineer; Thomas E. Adams, quartermaster's agent; C. C. Cox, commissary; C. A. Wareick, surgeon.

The above illustration shows the vessel when she was in port before having her propeller repaired. The coal on the bow was used to depress the bow.

WORKING ON ALAKEA SLIP.

Lord and Belser's big dredge Governor was put to actual work yesterday in dredging the new Alakea slip, and by evening had worked in a good distance beneath the flooring of the old Mall wharf. Black sand and mud were mainly encountered. Two big dippers were sufficient to fill each of the cars. A train of seven cars made up a load for the locomotive. The stuff is being carried into Kakaako to fill up lowlands, some of which will be filled

in until they are about eight feet above the surrounding country.

Crowds watched the dredging operations all day. The machinery worked well and the crews are taking hold of the work in good shape. During the afternoon one of the dump cars, loaded with muck, ran off the track, but with the assistance of one of the locomotives was put back on the track without much difficulty.

The real dredging work will begin when the dipper encounters the coral substance further inland. This is the hardest material dredgers have to meet. When the Bishop slip was being dredged the coral had to be blasted out.

ARTILLERY GOES TODAY.

About all of the baggage and equipment of the 28th and 92nd companies of coast artillery, which have been stationed at Camp McKinley, has been stowed aboard the Sherman and the artillerymen will leave in the troopship for the coast this afternoon. All the officers who have been stationed at Camp McKinley, excepting Dr. Baker, give way to the new commandant, Major Van Vleet, and the officers of the two companies of the Tenth Infantry, now in camp there. The Sherman sails at 5 p. m. today.

NEW MAUI S. S. SERVICE.

WAILUKU, July 7.—The people of this island are to be congratulated on the new steamer service, which affords two regular mails per week each way. With the new arrangement, mail by the Mauna Loa will reach Honolulu in time for reply by the boat leaving Honolulu in the afternoon. It will also be a great convenience for those who travel frequently, inasmuch as steamers are going to and from here (and twice a week). It seems though as if the merchants of Central Maui would not appreciate the change so much. All freight from Honolulu destined for Central Maui always comes by the Kahului route, and with the new schedule this freight will arrive at Kahului on Saturday morning. If any of the big A. H. Steamers are in port at Kahului, the probability is that freight

will not be delivered until the following Monday. This would not be appreciated, more especially where perishable goods are shipped.

No doubt this question has already been discussed, and the Kahului Railroad Co. will, in all likelihood, be able to cope with the situation. With the change in steamer schedule, the First National Bank of Wailuku has announced that its doors will be closed on Saturdays at 1 o'clock, following the lead of the Honolulu banks in declaring a half holiday on Saturdays.

SHIPPING NOTES.

The Stanley Dollar cases will be heard in police court today.

Customs Inspector Herman Dinklage leaves today on the Sherman to spend his yearly vacation on the coast.

Dr. Cofer has received no word from Washington about the opened bids for the quarantine wharf, etc. The wharf piles will be encased in cement from the harbor bottom up to protect them from the destructive teredo navalis.

The gunboat Bennington got her flags all right. The flags were sent to the naval station early in the day and were placed aboard the Bennington's launch when it arrived at the naval dock in the evening. Captain Young will have the proper flag to salute the Costa Rican government on arrival there.

The passengers of the Manchuria will not be delayed in landing at Honolulu. Major Guy Edie, the army surgeon, traveling with the Taft party, will pass the passengers, and if there is no sickness aboard will present his report to the boarding surgeon. This will greatly facilitate matters. The Manchuria is to be moored alongside naval dock No. 2 on the Waikiki side. The vessel will probably leave at 6 p. m. the day of arrival, giving the Taft party about ten hours ashore.

CONTRACTED CHRONIC DIARRHOEA WHILE IN THE PHILIPPINES.

"While with the U. S. Army in the Philippines, I contracted chronic diarrhoea. I suffered severely from this terrible disease for over three years and tried the prescriptions of numerous physicians, but found nothing that did me any good until I tried Chamberlain's Colic, Cholera and Diarrhoea Remedy, two small bottles of which entirely cured me and I have since had no return of the disease."—Herman Stein; 212 N. Union Ave., Pueblo, Colorado, U. S. A. For sale by Benson, Smith & Co., agents for Hawaii.

As a result of Acting Governor Atkinson's visit to the Settlement in the gunboat Bennington on Sunday, Superintendent of Public Works Holloway will at once go ahead with the construction of the home for non-ferocious children of leper parents, for which there is a loan appropriation of \$5000. There are 70 such children at Kalaupapa. The home is to be at Honolulu.

Board of Agriculture and Forestry.

NOTICE OF INTENTION TO CONSIDER THE SETTING APART OF CERTAIN GOVERNMENT LANDS IN THE DISTRICT OF HILO, AND OF PUBLIC HEARINGS, CONCERNING SAID SUBJECT MATTER.

Notice is hereby given that under the provisions of Chapter 28 of the Revised Laws of Hawaii, a public hearing will be held by the Acting Governor of the Territory and the Board of Commissioners of Agriculture and Forestry, on Wednesday, July 19, 1905, at 2 o'clock p. m., in the office of the Board of Commissioners of Agriculture and Forestry, on King street, in Honolulu, Island of Oahu, to consider the setting apart of the government lands lying between the Lava Flow of 1855 and the Hilo-Hamakua District boundary line, and between a line drawn approximately parallel to the Coast from an elevation of about 1750 feet at the east end, to an elevation of about 2000 feet at the west end, and a line approximately along the top of the woods, in the District of Hilo, Island of Hawaii, as a Forest Reserve.

A map and description of the said land proposed to be set apart as a Forest Reserve are on file in the office of the Superintendent of Forestry, in Honolulu, where they are open to the inspection of the public.

At the said time and place all persons who so desire will be given full opportunity to be heard upon the subject matter of this notice, and to present evidence and arguments, in person, by proxy, or by letter, either for or against the setting apart of said lands as a Forest Reserve.

A. L. C. ATKINSON,
Acting Governor of Hawaii.
Honolulu, Oahu, July 3, 1905.

COMMISSIONER'S SALE.

Under and by virtue of the power conferred by a Decree of the Circuit Court for the First Judicial Circuit, Territory of Hawaii, signed and filed July 13th, 1899, in the cause of M. F. Scott, et al., in equity, vs. E. N. Piliipo, et al., the undersigned proposes to sell at Public Auction, on Saturday, the 15th day of July, 1905, at 12 o'clock noon at and in front of the Court House at Kailua, Island of Hawaii, Territory of Hawaii aforesaid, all those portions of the Ahupuaa of Holoalua 1 and 2, situated in the District of North Kona, Island of Hawaii, Territory of Hawaii aforesaid, lying makai of the tracks of the Kona Sugar Company's railroad, and makai of the Beach Lots; comprising in all twenty-six lots and being the same which are laid out and located on Diagram or Plan, which may be seen, at Mr. W. A. Wall's office, in Waity Block, 74 King St., Honolulu. Said sale to be made by separate lots, and to the highest bidder for each and every lot.

Dated at Honolulu, T. H., this 13th day of June, 1905.
W. A. WALL,
Commissioner under the aforesaid Decree of the said Court for the First Judicial Circuit.

IN THE CIRCUIT COURT OF THE FOURTH CIRCUIT, TERRITORY OF HAWAII, AT CHAMBERS-IN-PROBATE.
In the Matter of the Estate of Annie T. K. Parker, a Minor.
Order of Publication and to Show Cause on Guardian's Application to Sell Real Estate.
On reading and filing the petition of Alfred W. Carter, the guardian of the property of Annie T. K. Parker, a minor, praying for an order of sale of certain real estate belonging to his said ward, which said real estate is situated within the Fourth Judicial Circuit of the Territory of Hawaii, and consists of the following described pieces and parcels of land:

- 1.—Land contained in Grant 3112 to J. P. Parker in Kaaoki, Hamakua; area 125 acres.
- 2.—The land in Paauhau, Weha, Makakuolo, Keahua, and Kalopa, within the boundaries of the lease of J. P. Parker and S. Parker to W. G. Irwin & Company, dated July 1, 1896, of record in Liber 101, page 175; total area, 1074.50 acres.
- 3.—The lands of Weha, Makakuolo and Keahua, adjoining the land before described; area 745.1 acres.
- 4.—One-half interest in the Kalopa Crown Land held under lease known as General Lease 101, on file in Public Lands Office, expiring July 1, 1916; area 1905.6 acres.
- 5.—The land in Kalopa described in L. C. A. 8408 to Kueha, 10 acres.

And set forth certain legal reasons why such real estate should be sold, to-wit, that it appears that it would be for the benefit of the said minor that a portion of her real estate should be sold and the proceeds thereof should be invested in some productive stock or other investment.
It is hereby ordered that the heirs and next of kin of said ward and all persons interested in the said estate appear before this court on Saturday, the 12th day of August, A. D. 1905, at 10 o'clock a. m., at the court room of this court in South Hilo, Island and Territory of Hawaii, and then, and there show cause why an order should not be granted for the sale of said estate.

And it is further ordered that a notice of this order be published for at least three consecutive weeks before the said day of hearing, in the Hilo Tribune, a newspaper published in Hilo, and the Pacific Commercial Advertiser, a newspaper published in Honolulu, the last publication to be not less than ten days previous to the time therein appointed for said hearing.
Done at South Hilo, Island and Territory of Hawaii July 1, 1905.
(Signed) CHAS. F. PATRONS,
Judge of the Circuit Court of the Fourth Circuit.
(Signed) A. S. LE BARON GURNEY,
Clerk.

(Seal) CARL S. SMITH,
Attorney for Petitioner.

FREE TO MEN!

A BOOK FULL OF FACTS ABOUT

DR. McLAUGHLIN'S ELECTRIC BELT FOR WEAK MEN
I KNOW THAT NO MAN REMAINS A WEAKLING BECAUSE HE WANTS TO: I am sure that you want to overcome every indication of early decay that has shown itself on you. I don't think the man lives who would not like to feel as big and strong as a Sandow, and I know that if you have a reasonable foundation to build upon, and I can make you a bigger man than you ever hoped to be. I want you to know that, you who can't believe it, and I want you to have my book, in which I describe how I learned that manly strength was only electricity and how I learned to restore it; also I want to tell you the names of some men who will tell you that when they came to me they were physical wrecks and are now among the finest specimens of physical manhood.
I want you to read this book and learn the truth about my arguments. If you are not as vigorous as you would like to be, if you have rheumatic pains, weak kidneys, loss of vitality, prostatic troubles, nervous spells or any ailment of that kind that unmans you, it would assure you future happiness if you would look into this method of mine. Don't delay it, your best days are slipping by. If you want this book I send it closely sealed, free, if you send this ad.
DR. M. G. McLAUGHLIN, 906 MARKET ST., Above Ellis, SAN FRANCISCO, CAL.

CHOICE STOCK. PERSONALLY SELECTED BY W. E. Bellina four thoroughbred Durham bulls, a number of fine bred milch cows and 600 thoroughbred chickens.

WAIALUA RIOT CASE

Two Men Exhibit Their Wounds in Assault Case Trial.

Leong Chee was on trial before Judge De Bolt yesterday for assault with a deadly weapon on Chun Say. The weapon was a loaded revolver and the assault was alleged to have been committed at Waiialua on July 27, 1904.

ANOTHER BATTLE IN PARKER CASE

All day long yesterday Judge Lindsay's courtroom resounded with a forensic battle over J. S. Low's petition for an order allowing \$2000 on account of counsel fee and \$570 costs of court in the Annie T. K. Parker guardianship case.

THE FUNDAMENTAL LAW OF HAWAII CONTAINS:

- 1. The first Constitution of Kamehameha III, 1840, including the previously issued Bill of Rights.
2. The first laws of Hawaii, enacted under Kamehameha III, (1833-1842), published together in 1842.
3. The law creating and principles guiding the Land Commission.
4. The second Constitution of Kamehameha III, 1852.
5. The Constitution of Kamehameha V, 1864.
6. The Constitution of Kalakaua, 1887.
7. The Proclamation and orders incident to the establishment of the Provisional Government, 1893.
8. The Constitution of the Republic of Hawaii, 1894.
9. The treaty annexing Hawaii to the United States, 1897.
10. The Resolution of the Hawaiian Senate ratifying the annexation treaty, 1897.
11. The Joint Resolution of Congress annexing Hawaii, 1898.
12. The documents and procedure incident to the transfer of the sovereignty and possession of Hawaii to the United States, 1898; and the executive orders of President McKinley, relating to the government of Hawaii, issued during the transition period between the date of annexation and the passage of the Organic Act, 1898-1900.
13. The Act of Congress organizing Hawaii into a Territory, 1900.

The act passed by Congress creating a government for Hawaii repeals and amends scores of civil and criminal statutes previously enacted by Hawaiian legislatures. No man knows what is in the Organic Act except through the medium of an index. The previously printed copies of this law in use in Hawaii contain only 657 indexed subjects.

Hawaiian Gazette Company, Honolulu, T. H. Enclosed herewith find five dollars to pay for one copy of the Fundamental Law of Hawaii, which please send to Name..... Address..... Cut this out and mail it to the Hawaiian Gazette Company, Honolulu, T. H., with \$5 and the Fundamental Laws of Hawaii will be immediately mailed to you, postage prepaid.

the attorneys for the guardian already named and watching the proceedings are A. G. M. Robertson and J. J. Dunne, while former Justice W. A. Whiting appears as associate counsel for the petitioner.

RAPID TRANSIT DEFENSES. A general denial is the answer of the Honolulu Rapid Transit & Land Co., filed by Castle & Withington, in the damage suit brought against the Mutual Telephone Co. and itself by Goo Shee, widow of Chang Yee Tong, for the death of her husband from live wires in the street.

APPEAL ADVANCED IN IMPORTANT CASE

C. W. Ashford has filed in the Federal Court assignments of error in the petition of Emma L. Kaipu for a writ of habeas corpus to take her daughter out of the custody of the Board of Health. The first alleged error was in overruling the demurrer to the return, the second in dismissing the petition and ordering Maikala Kaipu remanded to the custody of the Board of Health and the third in having ordered, rendered and entered judgment in the case.

DIVORCE LIBELLEES CANNOT BE FOUND

Henrich Carl Schmidt has brought suit for divorce against Marie Theresa Schmidt, for the cause of desertion for more than three years. The parties were married January 15, 1902, and lived together at Ewa from January 23, 1902, to April 8, 1902. Thompson & Clemons are libellant's attorney. Return of summons is to the effect that libellee cannot be found, having gone to foreign parts.

PINEAPPLES TO THE COAST.

Tropic Fruit Company's selected pineapples, to any Express Office in the United States. Leave orders with B. O. Clark, Wahiawa, or F. C. Enos, at Wells, Fargo Express Office.

SOME CASES IN PROBATE

Baldwin Mehner's Will, Magoon and Other Estates.

Judge Lindsay appointed H. Schultze, under bond of \$2500, as executor of the will of Baldwin Mehner. Anahia Mehner having renounced the trust as executrix named in the will. The estate is valued at \$4604, of which \$2470 represents real property and the rest stocks, cash, etc. In the will the wife, besides being named as executrix, is made the devisee for life and three daughters are named as residuary devisees.

Manuel Pedro Ferreira petitions that letters of administration be granted to Edward Watson on the estate of Manuel Pedro Ferreira, deceased, son of petitioner. The estate is valued at \$10,000, consisting of "a claim against the Honolulu Rapid Transit & Land Co., a Hawaiian corporation, for the wrongful killing of said deceased."

Judge Lindsay appointed John D. Paris as administrator of the estate of Isaac H. Sherwood, deceased, under \$200 bond.

The receipt for legacy and release executed by George C. Allen, sometimes known as George C. Fyre Allen, to the executors of the estate of S. C. Allen, deceased, for the consideration of one dollar in full satisfaction of any and all claims arising under decedent's will, has been filed in the Circuit Court.

Tests Patience

The Most Patient Honolulu Citizen Must Show Annoyance at Times. Nothing spoils a good disposition. Nothing taxes a man's patience. Like any itchiness of the skin, Itching Piles almost drive you crazy. All day it makes you miserable. All night it keeps you awake. Itch! Itch! Itch! with no relief. Just the same with Eczema. Can hardly keep from scratching it. You would do so but you know it makes it worse.

Plenty of proof that Doan's Ointment will cure Piles, Eczema or any Itchiness of the skin. Frank Leibly of 326 S. Main st., Wilkesbarre, Pa., U. S., says: "It is with much pleasure that I testify to the merits of Doan's Ointment in cases of itching piles. I suffered from that tormenting affliction for the past year. I tried nearly everything that was recommended to me and what I saw advertised, but I could get no relief. Finally I procured Doan's Ointment. After a few applications I was much relieved, and, continuing the treatment, I was soon completely cured. I have felt no signs of that intolerable itching since, and it is four months ago since I used Doan's Ointment. To say that I was delighted is only half expressing my enthusiasm. I recommend this remedy whenever the opportunity is presented. You may publish my statement at any time and I can always be found at 326 S. Main street, and will vouch for the same."

Doan's Ointment for sale by all dealers; price 50 cents. Mailed by The Hollister Drug Co., agents for the Hawaiian Islands. Remember the name DOAN'S, and take no substitute.

JERSEY'S SNAPPER FARM.

Turtles Carefully Nursed There Until They Reach Imposing Size, Then Shipped Away. Philadelphia, Pa.—New Jersey boasts of the biggest snapper farm in the world, that grows the biggest snappers that ever paddled about in a muddy creek. The farm is at Tuckerton.

In a shipment of snappers sent from the farm and received in this city recently were several that were as large as the top of a small tub, and that weighed considerably more than 50 pounds. They were consigned to a dealer at Front and Spruce streets, and he sold them all before noon. No other kind of flesh, fish or fowl is said to find so ready a market at this season as snappers.

The turtles are very carefully nursed at the farm where they are raised. All are marked in infancy, and a record of their ages is kept. Some chefs like yearling snappers, others prefer them two, three, or even five years old, while still others like the tender young ones of about six or eight months. The yearlings are said to make the best soup and a good, big one, will make enough of it to serve a banquet.

Japs Lucky All Around. A volcano has made Japan larger by giving her a new island. The stars in their courses are fighting for the Japs.

MUSIC, MOONLIGHT SURF AND BREEZE

Saturday night will see a large portion of the local community traveling Waikikiward, their destination being the grounds of Jas. B. Castle, where the concert of the Honolulu Symphony Society is to be given.

A most attractive program has been arranged, every number of which will be well worth hearing. Some of the selections to be rendered are new to Honolulu and are as notable from a musical standpoint as they are new.

The evening will be moonlit and the Castle grounds, always beautiful, will be further beautified. Then there will be the murmur of the reef and the kiss of the sea breeze to tempt people to the concert, and the combination of attractions will be hard to resist.

Tickets of admission, price 50 cents each, may be obtained at Ehlers & Co., Wichman & Co., Hobron Drug Co., Hollister Drug Co., Benson & Smith.

The visit of the Taft party is the local event of the week. It is an uncommon happening.

The dispensing of good beer at the CRITERION is an every day event.

It is a common happening. Honolulu gets distinguished visitors once in a while.

Thanks to the CRITERION'S special process the town is served with a perfect glass of beer all the while.

O. J. McCARTHY, Proprietor,
Corner Hotel and Bethel Streets.

BUSINESS LOCALS.

Look in our window and see photos of buildings in the construction of which Golden Gate cement was used. Lewers & Cooke.

Fisher, Ables Co. will sell at their salesroom, Wednesday, fantail pigeons of superior stock, also game chickens and office rails and partitions.

Have electricity installed in your home and read to your heart's content without fear of impairing your eyesight. Hawaiian Electric Co.

Take out a burglary insurance policy with the Pacific Coast Casualty Co. It will pay you, if only to secure freedom from worry. Hawaiian Trust Co., Ltd., agents.

A choice lot of household furniture will be sold at auction today by the Fisher, Ables Co., at 1182 Young street, near Pihiko. See list of same in this paper.

K. Fukuroda, straw hat manufacturer and dealer in Japanese and American dry and fancy goods, has received a very complete line of same by a recent steamer.

THE MOLOKAI TRIP.

The party conveyed to and from Kalaupapa by the Bennington, through the courtesy of Capt. Young, consisted of Acting Governor Atkinson, Health President Pinkham, Land Commissioner Pratt, William Haywood, C. A. Brown and A. Gartley. The Settlement band entertained the visitors on Sunday, they having been received at the landing by the Kalaupapa Athletic Association. Partly to gratify the inhabitants, who wanted to see the warship shoot, and partly to redeem a friendly threat to "Governor Jack," Capt. Young had a salute of 17 guns fired as the Acting Governor embarked for home.

Local Democrats are planning the special entertainment of Democratic members of the Taft party.

LOCAL BREVITIES.

Mr. James W. Girvin has entered upon his duties as Librarian of the Advertiser.

Regular meeting tonight of Excelsior Lodge, I. O. O. F. Visiting brothers cordially invited.

Chas. R. Hemenway, trustee in bankruptcy of W. C. King, was discharged by Judge Dole yesterday.

C. J. Hutchins has received a cablegram announcing the death at Los Angeles of his uncle, C. J. Sheperd, on his 61st birthday.

Court Camoes No. 8110, A. O. F., meets this evening at San Antonio Hall at 7 o'clock sharp. There will be an installation service.

High Sheriff William Henry was on the Koolau side of this island yesterday, inspecting the jails. He will return some time today.

Col. and Mrs. McClellan will not leave on the Sherman. Col. McClellan has been directed to await the arrival of the Secretary of War.

It is said that Governor and Mrs. Carter went to Seattle to visit Mr. and Mrs. Strong before they proceeded on their journey to New York.

The Hawaiian Sugar Planters' Association will tender a banquet this evening at the Alexander Young Hotel in honor of Hon. W. P. Hepburn.

Kusakabe, who was arrested on Maui for having part in the sale of a girl, was released by U. S. Marshal Hendy yesterday under a bond in \$1000.

The funeral of the late James Dean will take place from the undertaking parlors of H. H. Williams at 2:30 this afternoon, the burial to be in Nuanu cemetery.

J. J. Dunne for complainant allows the defendants in the suit of Elise Neumann against Whiting & Robinson, bill for accounting, time to plead until July 24.

There will be an important special meeting and rehearsal of the Kamehameha Alumni Association this evening at 7:30 o'clock. All the members are requested to be present.

McBryde Sugar Co. directors have accepted the Bank of Hawaii's proposition to float the company's bonds, but all the preliminary details of the scheme are not yet concluded.

The Alexander Young hotel corporation may contest the constitutionality of the new liquor law in its prohibition of open hotel bars on Sunday which County Sheriff Brown is enforcing.

The July number of the Honolulu Times has been exhausted and the August number will be out in two weeks, enough ahead of time to give its Editor, Miss Prescott, a vacation.

The Board of Supervisors of the County of Oahu has passed a resolution to the effect that all communications requiring the consideration of the Board be addressed to the county clerk.

The Kauai Republican County Committee has put on record its regret at Governor Carter's resignation, its hope that he will reconsider it and, in case he does not, its endorsement of Henry E. Cooper as his successor.

Employees of W. W. Dimond & Co. were given their annual luncheon at Niu on Sunday. About 45 enjoyed the feast. An orchestra out of the establishment furnished music. Manager Berndt and others made speeches.

The Attorney General's Department is requested to furnish the Department of Commerce and Labor, Washington, with a summary of the Territory's taxation laws. It is to be used in a volume covering data of all states and territories.

Arthur Harrison was yesterday awarded the contract for setting up a new tubular boiler at the Kaimuki pumping station at his bid of \$199, the other bids being \$255 by John Walker, \$319 by A. Sinclair, \$316 by William Dunbar, \$349 by Wm. Abbey and \$469 by J. Logan.

There will be a regular meeting of Court Camoes, No. 8110, A. O. F., this evening at 7 o'clock, for the purpose of installing officers for the ensuing term. After the installing ceremonies there will be a social to which all members of Camoes Circle and of Court Lunallo, are cordially invited to attend.
