NO MONEY FOR BACKERS

Band Will Lose Chance to Make Good on Coast.

The cablegram which reached here yesterday to the effect that if the band were allowed to remain in San Francisco until a steamer following the Korea no aid would be needed was received with joy by the angels, not because there was much hope of their getting back any of the gold they had advanced but because it would have reduced the amount of their responsibility in the matter of back salary to the men.

"But when they read that the Governor would have his tooters, who, by the way, are employes of the county and not the Territory, here for display on Thanksgiving Day they felt that the day was a colder one than any experienced by the duck covered band boys in a Colorado mining town," said a merchant. "The Governor spoils what would otherwise have been a restful night. Now they must figure out the defense they must put up in the event of their liability under the law of copartnership being decided by the court for it seems improbable that the boys will allow the opportunity to pass.

"If any one could read the thoughts of James Morgan, one of the musical angels, when he was cabling he would probably have learned that it would have been his wish that the boys remain in San Francisco which is under certain obligations to the Hawaiians for the generosity shown in the time of trouble. Not because he would give San Francisco an opportunity to reciprocate but because it would in all probability save Mr. Morgan and his colleagues some anguish—and dollars. It would have been the means of relieving a portion of the distress of the band boys for they would have had enough out of the last stand to purchase tobacco and other little delicacies which they have been without, according to advices, for weeks and weeks."

"The appearance of the band with Berger at the head of the procession on Thanksgiving Day will certainly have something of the flavor of opera bouffe and each thawed-out fluter will have an opportunity during the beats between the bars to compare the warm, home-treatment with that of the frozen States where for days and days icicles formed the piece de resistance of the meal. But one thing more is needed and that is Joe Cohen. He is needed to show the public what thrift and enterprise will not do for a man. Some one has remarked that Joe will never come back to Hawaii but those who know him best say that within twenty-four hours after the band returns, Joe will be on the corner telling what he could have done if he had not been interfered with."

The report of the meeting of the Chamber of Commerce the other day was lacking in one particular: that referring to the remarks made by L. Tenney Peck relative to the responsibility of the Chamber in the returning of the band. What he said was that as an organization the Chamber had nothing in common with the return of the musicians and he moved that it be dropped by them and taken up individually by the members. That motion was carried with but one dissenting voice and to show that the members were in sympathy.

FLIMSY GROUNDS FOR THE PROPOSED NEW ELECTION

The grounds upon which Judge Gear may ask for a new election are supposed to be the addition of the shelves to the booths in the polling places. These extra shelves, or accommodations, were put in after the inspectors of all political parties had agreed to the addition and the plan had received the approval of the Governor.

JOHN LANE TALKS.
"That is the only ground upon which they may make a claim," said John Lane yesterday, "and I believe the Supreme Court will have to order a new election. It is clearly against the provisions of the election law to have more than three booths."

When asked if he did not think it would be as well to start all over again and have a new convention, Mr. Lane said:
"There are some weak brothers in the list of candidates and if they are to have another election it would be as well for them to sift themselves out. Men who were beaten by a small majority would have a fighting chance for

BATHED IN AMMONIA

Ice Works Engineer Meets With Odd Accident.

Through the bursting of an ammonia pipe in the Markham ice works in Kewalo shortly after noon yesterday, the engineer in charge was badly burned about the arms and face. The engineer stuck to his post, however, and refused to go to the hospital or anywhere for medical treatment until he had stopped the flow of ammonia from a pipe.

A plug was being attended to by the engineer when the accident occurred. The stuff flew out with considerable force and streamed over the man's hands and sprinkled his face, but his eyes were not touched.

Kewalo was filled with a pungent odor for some time after the accident.

IS CHILLINGWORTH DISQUALIFIED?

Yesterday afternoon the Advertiser inquired of the Attorney General's office relative to the report that Charlie Chillingworth had not resigned as notary public. Deputy Attorney General Fleming answered that he thought the resignation had been filed, but would look up and advise this paper later. Not hearing up to a few minutes before seven o'clock, Attorney General Peters was communicated with by telephone and answered that he was reasonably certain that Chillingworth had resigned several months ago. A few minutes after this telephone message was received at this office, Mr. Peters again rang up and informed the Advertiser that he had just been told over the phone by Deputy Attorney General Fleming that he and the chief clerk of the department had carefully searched the records and no resignation from Mr. Chillingworth could be found. If none is there, this will invalidate the election of Mr. Chillingworth, as there is a provision in the election law covering such failure.

The law is as follows:
Disqualifications of Government Officers and Employes, Organic Act.

Section 17. That no person holding office in or under or by authority of the Government of the United States or of the Territory of Hawaii shall be eligible to election to the Legislature, or to hold the position of a member, while holding said office.

Note.—Notaries and similar officers were held within inhibition of somewhat similar provision of Constitution of 1857. To be eligible, officer must resign before, not after, election. In re notaries, 8 Hawaiian Reports, 561.

The steamer Mauna Loa arrived yesterday morning from Kona and Kau ports. The weather was fine the entire trip. The purser reports heavy showers in Kau on Wednesday night.

Siemens the Thug

JOHN SIMPSON, OR SIEMSEN, THE HAWAIIAN MURDERER, UNDER ARREST IN SAN FRANCISCO.

Siemens's murderous career is by far the most atrocious ever recorded and although only of short duration it is full of crimes brutal beyond description. He has confessed to the Dr. Leland hold-up early in August, to the killing of John Pfitzner the McAllister street merchant on August 19; to the murder of William Friede whose brains were beaten out at his place of business on Market street during the afternoon of September 14; the slaying of M. Murakata, the Japanese banker, and the battering in of the skull of his unfortunate cashier, A. Sasaki, who attempted to save the gold of his employer in the Kimmion Kinkoat, O'Farrell and Webster streets, during the noon hour of October 3.

Johnny Siemens is keeping up his reputation as a prevaricator and shies at the truth with as much vigor as he did when he lived here in the islands. He is in no way related to August Dreier, and his father died long ago, a suicide, back of Oahu Prison. He was a pioneer planter with Joe Marsden at Honokaa.

When Siemens went to the Philippines it was aboard a transport as a stowaway, or a helper with the mules. On reaching Manila he was with a white boy and they both entered the employ of a Chinese who kept a restaurant. Shortly afterward word was received by his friends in Hilo that Johnny had been shot six times while making a brave rescue of a Government mule team. He was looked upon as a hero and the people in the metropolis of Hawaii were willing to forget his theft of the pair of old shoes from a roommate and that his only prominence prior to that episode was gained in the prize ring.

Later on some Hiloites who were in Manila at the same time with Siemens returned and in answer to questions regarding the health of the young fel-

low learned that he was all right, had never been on the firing line and his stunt in the Philippines was shooting craps and biscuits.

He left Hilo in 1900 or 1901 and was afterward heard of in San Francisco as robbing the room of a member of a Hawaiian glee club, who were singing there, and for this he was sentenced in 1902 to five years' imprisonment. With the credits for good behavior he was released in something over three years. Since then he has been a bricklayer and hold-up man in San Francisco. His talk about having been cast off by his family is nonsense. He shipped for a voyage around the Horn after he had given up his schooling at St. Louis College and had been working at different occupations. His education was the same as hundreds of other boys have received here and his talent in a poetical way developed after he left school, probably after he went to jail, as his Hilo acquaintances have no recollection of its evidence while he lived there. He was an employe of the Hilo Electric Light Co., as night engineer, and while there he probably picked up a smattering knowledge of electricity. Siemens's mother married again after the death of her first husband and is now living in Pearl City. One brother is in the postoffice in Hilo and the other is driving a hack there.

PATENT LOCKING-BAR PIPE COMES FOR NUUANU DAM

First Shipment to Hawaii of This Type---Chief Engineer Brown Used It.

Nine thousand feet of steel water pipe of the patent locking-bar type were received on the steamship Nevada for use in connection with the Nuuanu dam. The use of the locking-bar pipe is said to be new to Hawaii and is undoubtedly the first shipment of the kind ever received in Honolulu.

The pipe comes from Patterson, N. J., and is almost an exact reproduction of the patent of Mephan Ferguson of Perth, West Australia, who manufactured pipe for the 350 mile line in the Coolgardie and Kalgoorlie mining sections of West Australia. The original patent was taken out in Scotland by a Mr. Ferguson.

The pipes received by the Nevada are of the 30-inch type. Each pipe is

made of two semi-circular sections and these are joined together by two steel rods instead of being riveted. The iron rods run the entire length of the pipe. The two sections are passed into a special machine which holds them into place and in the form of a pipe. The rods are then welded into the pipe edges with a tremendous pressure per square inch. This patent method makes a pipe that retains its full percentage of solidity and resistance to inside or outside pressure. In the case of piping joined by a riveting process there is a percentage of loss in the durability. By the patent locking-bar system no crevices remain through which water may percolate.

COMPOSER OF THE "MAUI GIRL" DEAD

Thomas Sylvester Kalama died yesterday afternoon at 5:22 o'clock at his residence in Paunui. He was one of Fred Waterhouse's right hand men in the late campaign. He became ill immediately after the election. He was a member of the original Kawaiahaule Glee Club. For many years he was a telephone lineman, and for some time was employed at the government electric light station in Nuuanu. Mr. Kalama composed one of the most famous Hawaiian songs, entitled "The Maui Girl."

JAP WOMAN TRIES HARI-KARI METHOD

A Japanese woman tried to commit suicide late yesterday afternoon in the usual Japanese way—by hari-kari. The woman was conveyed to the Queen's Hospital and during the evening she was in a doubtful condition. She is thought to have been mentally deranged for sometime. A nurse was kept with her in her apartments in the building at the corner of King street and Kalakaua avenue. She made an effort to kill herself on Thursday but this attempt was frustrated. Yesterday, while alone, she procured a knife and made a deep incision in her stomach.

Jaeger PURE WOOL Underwear

Winter weather will soon be upon us—the season of coughs, colds, chills, etc. Don't neglect to provide yourself with warm wool undergarments. Be sure to ask for Jaeger's. There is nothing made to equal it.

Animal Wool, which is akin to hair, is the natural selection as the covering for an animal body; and Dr. Jaeger's special investigations and experiments have established the fact that animal wool is the most healthy and sympathetic covering for the human body.

DOMICILING ITS LABOR

Waialua's New Plan Delights Governor Carter.

Waialua Agricultural Co. has made a practical beginning to assist the policy of the Territorial Administration, approved, as it has been largely inspired, by President Roosevelt, looking toward a labor supply domiciled upon the land.

E. D. Tenney, president, and W. W. Goodale, manager of the company, conferred at Waialua the other day about this policy. As a result a central piece of ten acres of land, now covered with sugar cane, is to be surveyed forthwith for subdivision into lots approximately 50 by 100 feet as independent home sites for laborers. Money will be advanced to the laborers for building their cottages. Those now on the plantation will have first benefit of the privilege, but similar advantages of independent homes will be held out as inducements to newcomers.

Governor Carter, while enjoying an outing at Haleiwa, was invited to the conference of the plantation heads and the outcome greatly enhances his enthusiasm for the success of the policy of Americanizing the Territory through the domiciliation of its laboring element.

"Mr. Tenney invited me over to a conference with Mr. Goodale," the Governor said yesterday afternoon. "It was their conference, I was very much delighted with it.

"Their new scheme may complicate things at the start," the Governor continued, "but in the end it is going to build up a village of independent citizens there, who will find their chief employment on the plantation.

"Human beings are naturally gregarious, and they like neighbors, and they like settlements.

"There are two propositions involved in the policy of plantations that are willing to settle labor upon their lands. One is that of having the people own their home lots, whereon they can raise vegetables and other products for the subsistence of their families. The other plan is to have the laborers take up agricultural lands and become cane planters. This latter of course requires a larger area with greater distances between their houses.

"We know of many New England villages which were originally large farms. When farming ceased to pay the owners went into the manufacturing business. Had they dropped into the policy of never selling any land to their neighbors they could probably have kept out saloons, with other undesirable features which towns develop, and evict any laborer whom they thought was disorderly or lazy. In doing so, however, they would have kept their laborers in a state of servitude.

"But, on the contrary, they sold the land to the laboring people and created a body of independent, self-respecting citizens, forming an organized village.

"What I take President Roosevelt's idea to be is that, in affairs of protection to any industry, whatever is done ought to be a means of building up homes of individuals—free, independent, self-respecting citizens.

"So I am more than pleased to see that the attitude of at least this one plantation is favorable to such a result."

pathy with the motion no better evidence is needed than the subscription list published below. Among the heaviest donors will be found the names of members of the Chamber of Commerce. Mr. Peck holding office in two of the corporations. The \$2414.00 raised by Messrs. Galt and Macfarlane is ample to bring the boys home and give them a trifle for luxuries. It will be noticed that the list herewith does not include the \$250 that has been at the head of the Bulletin column for several days. Referring to the return of the stranded players a former showman in Honolulu remarked yesterday: "If I had known Honolulu was so easy I would have started out with a minstrel show long ago. It would have been easy money but this band business has spoiled my chance."

MONEY FROM SOCIETIES.

It will be observed that the list of donors to the band fund contains the name of the Sisters of Hawaii Pono. \$70. The committee in charge of this fund called at the Advertiser office last night to say that the society had voted the sum of \$100 toward the Band Relief Fund and are ready to pay that amount, as it is their mission to look after poor and needy Hawaiians. Inquiry of Mr. Galt brings the information that he had received five subscriptions of seventy dollars each from a representative of the societies and he had received for that amount. It is supposed that the person turning in the sums wished to have the societies all down for an equal amount, and it was not necessary to accept all of the \$100. Besides donating to the band fund, the Sisters of Hawaii Pono are now supporting two old Hawaiians who are without funds.

GLEE CLUB CONCERT FOR BERGER'S BAND

The Alexander Young Hotel roof garden was resplendent last evening with red, white and blue electric lights and the two dancing pavilions were gay with a merry throng who danced from early until late, the occasion being a benefit for the Hawaiian Band given under the auspices of the Royal Kawaihau Glee Club.

The Glee Club boys in their attractive uniforms of white, with red sashes, were present in sufficient numbers to provide a complete orchestra for each pavilion. There were two halves to each number on the program, the first in the makai pavilion and the second in the mauka hall. It was an excellent arrangement and with many encores throughout the evening the Oliver Twist penchant for more was satisfied.

The pavilions were attractively decorated with the American and Hawaiian colors. The roof garden was given gratuitously for the entertainment by Manager Hertsche of the Young Hotel. The proceeds amount to a large sum and will be devoted to the relief fund for the band unless those who collected the already large fund feel that the money might be devoted to some other worthy cause in Honolulu. Christmas is coming along and there are many poor people in Honolulu—Hawaiians—who could be given a happy celebration.

The members of the club, of which S. N. Naimon is manager, comprise Charles Kamukahi, Chas. Paaluh, Wm. Kahaawini, James Crowell, Jos. Puou, John Paalua, Peter Kalaluh, Lima Kahaumale, George Pio, John Paaluh, David Kaamoana, James Hicks and Charles Macfarlane.

CARMEN'S SHIRT WAIST DANCE TONIGHT

At eight o'clock this evening the gong will ring in Progress hall for the grand march which will open the second annual ball of the employees of the Rapid Transit company. The event, which takes the form of a shirt waist dance, promises to be a remunerative one, the proceeds going to the benefit fund of the carmen. The sale of tickets has been large and the hall will be crowded. An arrangement has been made for late cars on all lines, so that the ball will last until midnight at least. The various committees in charge include the flower of car battalion.

Can't Be Separated.

Some Honolulu People Have Learned How to Get Rid of Both.

Backache and kidney ache are twin brothers.

You can't separate them. And you can't get rid of the back ache until you cure the kidney ache.

If the kidneys are weak and strong, the rest of the system is pretty sure to be in vigorous health.

Doan's Backache Kidney Pills make strong, healthy kidneys.

S. Hanouang, of this city, is a Custom House guard. He writes: "Having been afflicted with an aching back for some time, I procured a supply of Doan's Backache Kidney Pills at Hollister Drug Co.'s store, and used them. The results were most satisfactory and I know that the pills are a valuable medicine for a lame back."

Doan's Backache Kidney Pills are sold by all druggists and storekeepers at 50 cents per box (six boxes \$2.50) or will be mailed on receipt of price by the Hollister Drug Co., Ltd., Honolulu, wholesale agents for the Hawaiian Islands.

Remember the name Doan's and take no substitute.

SYMPHONY SOCIETY MUSICAL TONIGHT

The Honolulu Symphony Society gives a musicale this evening at Halealea Lawn commencing at 8:15 o'clock. It is strictly invitational. The program is a selected one, and on this occasion Mr. Rudland Bode will appear as conductor of the orchestra. The program is as follows:

MEDICAL MEN WILL HOLD SESSION TODAY

The fifteenth annual session of the Hawaiian Territorial Medical Association will begin at 2 p. m. today at the University Club. The session will be opened by Dr. A. W. Morton of San Francisco, surgeon of the Santa Fe Railway, and originator of the spinal cocainization method in anesthetics as opposed to inhalation. He will read a paper on the treatment of appendicitis.

President J. T. Wayson will make an address and there will be papers by Dr. L. E. Cofer on "Remarks on Quarantine and its Development in the United States by the U. S. Public Health and Marine Hospital Service"; Dr. E. S. Goodhue on "The Climate of Kona"; Dr. R. Wilkinson on "A Case of Potts' Caries Complicated with Paraplegia"; Dr. C. G. Smith on "Hernia in the U. S. Navy"; Dr. C. B. Cooper on "Hawaii's Duty to Join the General Movement in the United States for Advancing the Standard of Medical Education"; Dr. A. N. Sinclair on "Medical Men and Medical Laws."

This evening a number of papers will also be read.

Tomorrow morning at 9 o'clock there will be a demonstration of Medullary Nucleosis by Dr. A. W. Morton; clinics, Drs. Judd and Hoffmann.

At noon tomorrow the society and its friends will be the guests of Dr. L. E. Cofer at Quarantine Island. The launch will leave the foot of Fort street at 12 noon. Luncheon will be served on the island.

ROTTEN PEACHES WERE VERY CHEAP

The style of Mrs. Wiggs' quaint phraseology, which will be heard in the dramatization of "Mrs. Wiggs of the Cabbage Patch," at the Opera House next Thursday and Saturday evenings, may be best judged from this letter from her to the rich young lady whose mission in life is to aid the Cabbage Patch residents: Dear Miss Lucy the basket of cloths

PUMPKIN VINE CENSUS.

One of the most delightful episodes in the drama of county government, Hawaiian to the very essence, is the story of Chairman Smith and Mr. Paele of the Board of Supervisors, and of the distinguished Mr. James Cullen of Waiahole, and how one of them collected data on tree life in Hawaii at a cost to the public of \$60 per month for the benefit of an Eastern man who expects to get the information for nothing.

It appears that, about the first of the present year, a stranger, living some 5000 miles from Honolulu, wrote to the Board of Supervisors asking for facts about our indigenous flora. Whether he enclosed return postage is not given us to know. At any rate when Chairman Smith read the Eastern man's request, he made up his mind to gratify it regardless of time. It was open to him, of course, to call up the Board of Agriculture and Forestry and suggest that it send a forestry bulletin to his correspondent, but that was too small potatoes for Mr. Smith. He wanted to do the thing in a dignified way. So he requested each Supervisor to write of the tree life in his district and report to Jack Lucas. It is not yet known what Supervisors Smith and Lucas did themselves, though rumor has it that Jack went so far as to examine a hat tree and that Smith inspected some grafted stock at the wharf. As to the outside Supervisors, only one has yet reported and he has done so in a manner so startlingly original as to make himself the central figure in this veracious tale. We speak respectfully of Supervisor Paele.

Mr. Paele has a friend and political henchman at Waiahole, in the person of James Cullen. With the gravity due so important a matter as tree life, Supervisor Paele, sitting as a quorum, appointed Mr. Cullen a "Secretary of Forestry" at \$2.50 per day and told him to find out all about tree life that he could. Mr. Cullen had known something of "Palm Tree" life and he entered upon his per diem task with avidity. He kept at it for two or three months—we are not given exact dates—when the Board, in a spasm of envy, cut him off the payroll. But a great work had been accomplished and it shall not be lost to the world. It is soon to reach the Board in the terms of a formal report.

Secretary Cullen, it appears, is not the man to let anything good escape. Whatever tree life or vine life or shrub life there was in Paele's district he meant to spot even if it doomed him to stay on the payroll for ten years. So he went to work, tree by tree. Visiting Mr. James Stewart's residence at Kahaluu, he reported with fine accuracy as to numbers of trees and vines and showed a precient anticipation of the reformed spelling in his description of species. Even the one pumpkin vine on the Stewart premises did not escape. Mr. Cullen arrived, as he says, at the Stewart place exactly at 12:29 p. m. on January 30, 1906, and found:

- "Bestill tree 1, Calabash tree 1 Eucalyptus tree Coffee trees 5 Cocconut tree 1 Fig tree 1 Golden shower trees 2 Iron wood trees 6 Java plum trees 4 Kukui tree 1 Mango trees 7 Ohia or mountain apple tree 1 German Lehua red trees 8 German Lehua white trees 5 Orange trees 4 Oleander trees 2 Pomegrante trees 2 Pear trees 18 Peach trees 2 Papaya trees 28 Pride of India trees 3 Ponciana regia trees 3 Puhala or screw pine tree 1 Roseapple tree 1 Silver oak trees 2 Small orange china orange tree 1 Straw Barry guava tree 1 Shaddock tree 1, 1 tree 1 do not know the name. Total amount of trees are 114. Chinese flower vine 2 Stephanotis vine 2 Buganverillet vine 1 Nastertion vine 1 Single Alamanda vine 1. Total amount of flowers vine are 9. Blue Bells flower plants 1 Bugonia 5 kinds plants 17 Easter lily flower plants 1 Golden lily flower plants 3 Purple lily flower plants 2 Hydrangea lily flower plants 3 Pasmine flower plants 3 Gardenia double plants 7 Gardenia single flower plants 12. Total amount of plants are 49. Chinese Jasmine 2 Geranium 4 kinds red 13 China aster white 5 China aster pink 12 China aster purple 1 Kahili flower plants 2 Maile foreign plants 1 Plueneiria plants trees 12 Rose plants red 1 Rose plant yellow 2 Rose plant pink 1 Star lilies 3 Rose Button hole white rose 1. Total amount of flower plants are 105. Canna plants 3 Croton plants 4 Palm plants Chinese taro plant Fancy taro plant Chillipper plants 18 Ti leaf or lai plants 95. Total amount of plants 120. Maidenhair 5 Bird's nest 6. Total amount of ferns are 11. Pumpkin vine 1 New Zealand Banana trees 12. Total amount of Banana trees are 12. Left Stewart's at 4:19 p. m."

We can not say just what Mr. Cullen's report has cost Oahu county all told, but that is a matter of detail. The privilege of knowing the exact wealth of Mr. Stewart in garden flora, will be worth all it cost to the taxpayers and may aid the assessor in his arduous work; though we fear that so much of the enumerated tree life is exotic as to disappoint the probable hopes of the Eastern scientist regarding indigenous growths. However he can not complain. Whatever the information may cost the County, it will cost him nothing; and in happy contemplation of Mr. Stewart's pumpkin vine and of "1 tree of which I (the Secretary of Forestry) don't know the name," he may realize that our Board of Supervisors aims to please and is only too glad to know when anything is wanted.

By way of postscript may we modestly inquire whether Mr. Cullen's time between his arrival at Stewart's place, at 12:29 p. m. and his departure at 4:19 p. m. counted as one full \$2.50 day?

Thomas C. Platt, the senior senator from New York, may resign his office. Twenty-five years ago he gave it up under the cloud of a great personal scandal. One of the New York papers, commenting on the event, said that there was "scarcely a bubble on top of the mud that had closed over Platt." Five years later, however, the ex-Senator was the undisputed boss of the Republican party in New York and sixteen years later he re-entered the Senate, of which he is still a member. Since the insurance inquiry, his political prestige has gone and the circumstances attending his recent domestic overturn, affect his personal standing. If Platt resigns he will do the only thing left him to satisfy the Republican party of New York.

A wise provision in the will of William Ziegler, the baking powder millionaire, was that denying his adopted son control of the principal of a vast bequest until he reached the age of forty. It is customary in such matters to consider a male heir competent at twenty-one, but it is a custom more honored in the breach than the observance. In eight cases out of ten a lad of twenty-one is no more fitted to manage a fortune than one of seventeen. To give him great properties is to make him the prey of sharpers and of his own coldness. At forty a man begins to acquire financial sense, if he has capacity for it at all; but at twenty-one he is not a safe custodian of \$30 a week.

John Simpson or Siemsen seems to have been a Hawaiian who left his country for his country's good. It is highly fortunate for us that the average islander, when he makes up his mind to lead a life of crime, goes to the populous places on the mainland, where it is easier to hide. Here a native criminal can not long "lie out" without being recognized and reported by people of his own race. It is different with our Asiatic population where the tendency is to conceal a criminal of its own blood with every device known to Oriental cunning.

We suggest that the money raised last night by the Glee Club and that procured elsewhere in excess of the needs of the Hawaiian band, be used to the relief of the impoverished families of the band boys. Much has been heard, pro and con, about the sufferings of the band but nothing has been told about the destitution of the mothers and wives of the native musicians, who have been deprived for six months of the services of their bread-winners.

Sheriff-elect Iaukea, having nothing to be ashamed of, has filed a full statement of his campaign expenses. It is a modest, clean showing, such as will enhance his good name among his neighbors. The more people hear from Iaukea and the more they see of him, the better are they satisfied that they elected him.

Why should Sheriff Brown not desire to publish a statement of his election expenses?

THE NEW ELECTION PLEA.

"Wouldn't it be glorious," to borrow the pet phrase of a contemporary, to seek a new County election on the ground that the ballot box inspectors of both parties had supplied enough booths to enable all the voters in overcrowded precincts to exercise their rights of suffrage?

Yet this is the heinous offense which, it is said, counsel for the Brown betting ring will cite as legal cause why Brown should have another try at the expense of the taxpayers and in jeopardy of his colleagues on the County ticket who were elected.

A noble civic spectacle, isn't it? However, in the light of the Advertiser's exposure of machine plans just before election, it may be quite true that the five booth proposition worked the final undoing of Brown. As this paper pointed out, the Sam Johnson forces in one precinct were strong enough, if they got into line at 5 a. m. as was said to be their purpose, to hold three booths thirteen hours, or four hours more than was necessary. After this conspiracy was revealed, the five booth plan was adopted at the suggestion of the Governor. Of course it gave Brown's competitor a lot of votes he might not otherwise have had and one can readily see why Brown and the betting ring should want a three-booth election now and want it badly.

Abel Ruef was denied the District Attorneyship of San Francisco, not because he was indicted but because the Acting Mayor had no authority to remove the elected District Attorney. The attempt to give Ruef the office was a ring scheme to put him in possession of the graft evidence which had been secured for his own and Mayor Schmitz's indictment. It was a desperate piece of impudence which was foiled by an honest bench. Incidentally the people did their part on election day in preserving a bench of character by defeating the Ruef candidates for judgeships.

Reports from Explorer Peary, printed in the New York Sun, show that he set his peg of discovery nearer the Pole than Hilo is to Honolulu—about 22 miles nearer, in fact. He was 174 geographical miles from the Pole when he had to stop and fight his way back to his ship. People of arctic experience say the feat is a splendid one and it is believed there will be no lack of money to back the explorer in another attempt next year.

As the Governor has ordered the band home to take part in a National Guard inspection on Thanksgiving day and as the merchants have provided the funds, the band's troubles seem practically over. This may also mean that Mr. Cohen's have been simply "continued in our next." It is reported that the tour will have a legal aftermath in the form of suits for salaries against him.

One of the features of the Sunday Advertiser will be William J. Bryan's description of Christian missionary work as he saw it in his journey around the world.

PATENT LOCKING BAR PIPE

(Continued from Page One.) One end of each pipe is encircled by a steel band about four inches wide riveted and clinched. The opposite end of the pipe is pierced with rivet holes so that when two pipes are joined the band is riveted at the junction.

It is claimed that this pipe is the most durable and satisfactory pipe for water systems.

James Brown, chief engineer of the British steamer Isleworth now in port, has been interested in the locking-bar pipes discharged from the Nevada because he was chief inspector of the Coolgardie Water Supply Company during the installation of the locking-bar pipe line. Mr. Brown has a large number of photographs of the work done in West Australia. Some of them show trainloads of pipe and others the pipe being laid with the band-clinching machinery in operation at the junction of the pipes.

In the Coolgardie system the bands were not riveted at all but were clinched and soft lead was poured in and tamped to fill up openings, if any.

In that line 65,000 pipes were used. The line passed through a rough country, the highest point above sea level being 1500 feet. Through this pipe line 5,600,000 gallons of water are supplied daily. The power is furnished by a fine battery of engines and boilers.

Mr. Brown came across Mr. Muirhead of the Inter-Island Steam Navigation the other day, and after some conversation, they found that they had worked together in Scotland about a quarter of a century ago. Mr. Muirhead, in this conversation, asked the chief engineer if he had ever known a man named Brown working many many years ago in a certain machine shop in Scotland. That brought out the fact that the Mr. Brown referred to was none other than himself. He had sent to a neighboring shop for a skilled machinist and Mr. Muirhead was sent to him and worked under Mr. Brown's direction.

THE KAPIOLANI MODEL YACHT CUP AND THE DESIGNS OF SOME PAST CONTESTANTS.

HOO MANAO THE WINNER

Many Small Yachts Race for the Kapiolani Cup.

The usual miniature yacht races were held in the harbor yesterday morning in commemoration of the birthday of King Kalakaua.

There were nine entries and the tiny craft sailed over a course starting from an imaginary line from the lighthouse to Bishop's wharf, out through the channel, around the bell-buoy and back to the starting line.

Captain Ekela Mahuka's La Hoomanao won the race easily, finishing before the other boats were more than half way through the channel on the homeward run.

The historic Kapiolani cup goes to the winner.

La Hoomanao cut the record for the course yesterday from 1 hour and 22 minutes to 1 hour and 17 minutes.

The White Star, winner of last year's race, made the previous best time.

The race was witnessed by a large number of Hawaiians and others.

The judging was done by Messrs. E. A. C. Long and George Shaw and E. K. Lilikalani officiated as timekeeper.

The entries were as follows:

1. Wahikaahuua, 44 inches long, Captain Mana Long.
2. La Hoomanao (the winner), 41 inches, Captain Ekela Mahuka.
3. Lihoiho, 44 inches, Captain John Defries.
4. White Star (last year's winner), 45 inches, Captain Abram Kalekai.
5. Haulani, 45 inches, Captain John Lii.
6. Hoku Lela, 45 inches, Captain Nanaeleua.
7. Nakala, 45 inches, Captain Kamehameha Schools.
8. Poni Moi, Captain Parker, Jr.
9. Lady L., 35 inches, Captain Kalaniana'ole.

A luau was given at Prince Cupid's Waikiki residence yesterday afternoon in connection with the event.

The Honolulu Miniature Yacht Club was organized in 1895 for the purpose of commemorating the interest shown by King Kalakaua in aquatics of all sorts.

The late Queen Dowager Kapiolani presented the cup to be competed for

on November 16th of every year, that date being the anniversary of Kalakaua's birthday.

Ten regattas have been held and the cup has been won as follows:

- 1896—Prince Cupid's Lady L.
- 1897—Kaauiwa's Healani.
- 1898—Prince Cupid's Lady L.
- 1899—Prince Cupid's Lady L.
- 1900—Kalino's Nauemalie.
- 1901—Prince Cupid's Lady L. II.
- 1902—John Lii's Haulani.
- 1903—John Lii's Haulani.
- 1904—John Lii's Haulani.
- 1905—W. A. Hall's White Star.
- 1906—E. Mahuka's La Hoomanao.

The "socker" season opens at the baseball park this afternoon. The first game will be between the Mailes and the Y. M. C. A.; kick off at 2:30.

The second game is between the Diamond Heads and Infantry; kick off at 3:45. The Infantry are a quick lot of players and may have a surprise in store.

Teams chosen are as follows:

Mailes—Goal, Belsler; backs, Anderson, McGill; half-backs, E. Kellett, D. Center, Davis; forwards, Jamieson, Gray, Catterall, F. Bailey, Ed. Kea; reserves, Harrison, H. Bailey, J. Kea.

Y. M. C. A.—Goal, Beardmore; backs, Turner, Macaulay; half-backs, Dixon, Ziegler, Blackman; forwards, Waterhouse, Oss, Churton, Robbins, Martin; reserves, Super, Spalding, Foss, Martin, Johnson.

Infantry—Goal, Thompson; backs, Swift, Dougherty; half-backs, Kimbal, Kolb, Bishop; forwards, Landis, Smith, Moon, Van Vliet, Ewing.

Diamond Heads—Goal, Chilton; backs, Grune, R. Clark; half-backs, J. Clarke, Ed. Desha, J. Anderson; forwards, Fernandez, Woo, Burden, Geo. Desha, A. Williams; reserves, M. Anderson, H. Sheldon, S. Chillingworth.

MADE WINNING ON CUP RACE

So far no instances have come to light of local sportsmen having profited over the running of the Melbourne cup.

H. G. Robinson and his brother M. G. Robinson, the wireless telegraph promoters, who were in Honolulu for some time recently, backed Polseden both for the cup and the Derby. They cleaned up between them in the neighborhood of \$30,000.

The Robinsons went to San Francisco by the S. S. Sierra.

FUN TONIGHT.

Always lots of fun on Saturday night at the Queen street rink. Besides the band concert tonight, there will be special stunts by Prof. Davenport, the fancy skater.

Lasting Results From Using NEWBRO'S HERPICIDE

"I feel it my duty to publish my very gratifying experience with Newbro's Herpicide. Some time ago I had typhoid fever and as is usual in this disease my hair began to fall out very rapidly. I spoke to my physician about it and he said he would prescribe something. My scalp felt better after the first application of the remedy, which proved to be Newbro's Herpicide. My hair stopped falling out and as the remedy cooled and comforted my scalp I used it quite often. After my sickness I continued to use Herpicide, not because I needed it, but because it appeared to be a delightful dressing and kept my scalp clean and white.

"I prize my hair very highly and have always taken great pains with it and as a result it is very fine and abundant. After using Herpicide a number of weeks, I noticed that my hair was growing rapidly and it now measures over five feet in length. I hope that others may be benefited by your excellent remedy."

(Signed) MRS. M. A. McINTYRE,
1463 Brush St., Detroit, Mich.

While it is not natural for everyone to have extremely long hair, it is possible for every lady to have beautiful hair, for when the scalp is not diseased, the hair will grow naturally and abundantly.

The chief disease of the scalp is dandruff—which is highly contagious—and dandruff is now known to be caused by an invisible vegetable growth called the dandruff germ. Ordinarily, the first signs of scalp infection are dryness, dullness and brittleness of the hair, although the disease sometimes causes excessive oiliness. Following this, the hair loses its lustre, the scalp itches more or less and dandruff appears. Falling hair and baldness represent the last stages of hair destruction.

Newbro's Herpicide—the original remedy that kills the dandruff germ—will cure any stage of this disease except chronic baldness, which is incurable. Herpicide not only destroys the dandruff germ and stops falling hair, but it is a most exquisite hair dressing, making the hair light and fluffy and giving it a silken gloss. Almost marvelous results sometimes follow the continued use of Herpicide. It stops itching of the scalp almost instantly. At Drug Stores—Send roc in Stamps to The Herpicide Co., Dept. N, Detroit, Michigan, for a sample.

HONOLULU WOMAN SAID SHE WOULD KILL A MAN

Several former Honoluluans are in trouble in San Francisco. Among the refugees in Jefferson Park is a Mrs. Toogood, Oliver Johnson and Mrs. Toogood's daughter Adelina. The trouble is over Adelina, a man who was paying attention to her, and Mr. Johnson. Mrs. Toogood for some time kept a little hotel at Pearl City. Oliver Johnson was well known about town. The Examiner publishes the following story concerning their domestic infelicity, accompanying it with an illustration of the Toogood's shack in Jefferson Park:

"If Joe Ott doesn't marry my daughter Adelina, I'll have to kill him, that's all," is the matter-of-fact statement of Mrs. Henrietta Toogood of 2 G street, Jefferson Square Refugee Camp.

Joseph Ott is twenty-one. He lives in a tent in Jefferson Square and he is making plans to go to Germany and fight for his share of a large estate alleged to have been left by his father. He met Adelina Toogood, aged fifteen, in the park, and they became friends, often going to the theaters together.

Oliver Johnson, a relative of the Studebaker family of wagon fame, and who told the police he was Adelina's stepfather, has boarded with the Toogood family for seven years. He objected to the attentions of Ott, so the young man adopted the tactics of whistling outside the Toogood tent when he wanted to see Adelina. The girl always answered the signal, and when Johnson discovered that the love affair was still going on despite his warnings, he chased Adelina with a carving knife, according to the story of the girl, and her mother beat her.

CLAIMS SHE WAS BEATEN.
She decided to leave home Saturday night, and she went across the bay with Ott to avoid a beating. When she returned home Monday she says that her mother mistreated her again, so yesterday morning she started to San Pablo with Ott, with the intention of staying with a relative, Benjamin Montoya.

When the girl disappeared yesterday Johnson informed the police that Ott was abducting his alleged stepdaughter, and Sergeant Campbell of the Harbor Police Station stopped the pair at the ferry.

Ott said yesterday that he resented Mrs. Toogood's treatment of her daughter, and said that Johnson frequently abused her.

"She said she wanted to go to relatives," Ott said yesterday. "So I told her I would take her there. We like each other pretty well, and if the girl is not treated right at home and she wants to leave, that is her own business. If Johnson and Mrs. Toogood had not interfered there would be no trouble at all. When they beat Adelina because she went with me I thought I had some interest in her protection. She is a good girl and does not deserve such treatment, so when she asked me to take her to San Pablo I said 'Sure,' and that is all there is to it, except that Johnson notified the police and we were stopped. When the police learned the facts in the case they let us go again."

"MIGHT MARRY JOE."

"I like Joe," said Adelina, "and my mother beats me because I go to shows with him and for walks. Johnson beats me when he gets drunk, and calls me names, and I decided not to stand it any longer. We lived in Honolulu until last year, and my mother kept a hotel. Joe never said anything to me about getting married. Would I marry

him? Probably I would—if Joe asked me."

Adelina is a stenographer. She has the pretty olive complexion of the Spanish of Andalusia, and the black hair and eyes of the south.

"I didn't like the way that Ott fellow came around the house whistling at night. Adelina has always been a good girl, and now that he has acted in a way that is against her reputation, he ought to marry her. I don't know much about him and I told Adelina that she ought not to go with him. If he don't marry her now I'll have to kill him—just kill him, that's all."

So Joe keeps his weather eye on the Toogood tent and Adelina watches him out of the window. "Perhaps she may kill me," said Joe. "Who knows? But as long as she is on my trail with a knife, how can I propose to the girl or marry her?"

So there is an unfinished chapter to the romance.

With the departure of the American-Hawaiian steamship Arizona from Puget Sound for Honolulu, the new Tehuantepec railway schedule for the American-Hawaiian line goes into effect. The Arizona is already on the way to this port. She will load sugar at Honolulu, Kahului and Hilo and will then proceed to Salina Cruz, the Pacific Ocean terminus of the railway. The sugar will be transhipped by rail across the isthmus to Coalzacoalos, the Atlantic Ocean terminus, and will be reloaded into another American-Hawaiian steamship and forwarded to New York. The trip either way will consume about thirty or thirty-two days. The present trip around the Horn from Hilo to New York takes about sixty-two days.

It is the intention of the company, however, in the case of New York freight destined for Honolulu, to forward it via San Francisco. That is, the vessel which takes on the cargo at Salina Cruz proceeds first to San Francisco and then to the Hawaiian Islands. This route will take about forty-four or forty-five days.

FIRE ON THE SIERRA.

The liner Sierra, Captain Houdlette, arrived early yesterday morning from Australia, New Zealand, Samoa and Hawaii. On board were thirty-one cabin, sixty-five second cabin, and sixty-five stowage passengers, the former including M. Robinson, from Sydney, and his brother, H. J. Robinson, from Honolulu, who have been working in those cities in the interests of the Marconi Wireless Telegraph Company. At 6:15 o'clock last Thursday morning, when the Sierra was almost half way between Honolulu and this port, a slight fire was discovered in hold No. 3, in the after part of the steamer. The fire was extinguished within fifteen minutes, before any of the passengers knew anything about it. A quantity of glue stock, from Sydney, was damaged. There was no excitement on board.—Chronicle.

CAPTAIN RINDER.

Captain John H. Rinder, formerly well known here as the commander of the liner Coptic, and later of the Mongolia, has been appointed assistant superintendent of the Pacific Coast Steamship Company, with headquarters in this city. Captain Rinder, after leaving the Mongolia, took command of the big steamer Minnesota of the James J. Hill line, running between Seattle and the Orient, and only lately left that service to return here and go into the employ of the Pacific Coast Steamship Company. He is regarded as an exceptionally talented master mariner, and his return to San Francisco is welcomed.—Chronicle.

SENT CREW HOME.

The Chinese crew of the British steamer Islesworth, now in port, was released during the week and sent back to China on the Japanese steamer which left a few days ago. The crew was under contract for a certain period which was completed while the steamer was in port. A clause of the contract compelled the steamship people to return the crew to the place where they were originally shipped. The steamer is taking on a mixed crew from here and will leave today for British Columbia. The vessel's engines and boilers have been considerably repaired here by Catton, Neill & Co.

SHIBATA MARU HERE.

The Japanese S. S. Shibata Maru arrived yesterday morning from Kobe with eighty tons of cargo and two hundred immigrants. The vessel bid on an offering of over a thousand tons of cargo but was underbid by a competitor. The vessel left Kobe on November 3. She has a European captain, chief engineer and first assistant engineer, the other officers being Japanese. The Shibata Maru is moored in the Bishop slip. This is her first trip here.

HAS TURKEY GOBLERS.

The American-Hawaiian steamship Nebraska leaves San Francisco for Honolulu direct on November 20. This will be a Thanksgiving and Christmas boat as far as the cargo is concerned. A large part of the freight comprises holiday stocks for the stores. Included in the cargo list is a large consignment of big turkey gobblers.

SIBERIA DUE MONDAY.

The Pacific Mail liner Siberia is due from Yokohama on Monday morning and will be despatched for San Francisco Tuesday forenoon. The boat brings 1700 tons of freight for Honolulu. She has accommodations for about forty passengers from here.

The S. S. China is due to sail today from Yokohama for Honolulu and San Francisco and is due at this port November 26.

TO TAKE LAWTON'S RUN.

The Mare Island yard forces are concentrated on the Buffalo, which is to be completed on the 25th, after having been under repair here for over a year. Four new boilers have been built and installed and the machinery has been

given a thorough overhauling, amounting to something like \$175,000. She is to take the place of the Lawton on the run to the Philippines.

MAY TAKE THE MONGOLIA.

It is believed that Captain Curtis, now in command of the Panama liner City of Paris, will be given command of the big steamer Mongolia, scheduled to sail on November 24th for the Orient. Captain Curtis is expected to arrive today from the southern coast.—Chronicle.

SHIPPING NOTES.

The Sierra, due here next Wednesday, will be the next mail boat to arrive from San Francisco.

On Tuesday afternoon last, at 5:30 o'clock, the Hongkong Maru sighted the transport Sheridan in tow of the Buford and Slocum about 670 miles from Honolulu. She was making about seven knots per hour. The Sheridan had sails up to steady her.

The following freight was brought from Hawaii and Maui by the Mauna Loa: 3236 bags A sugar, 1189 bags coffee, 180 bags beans, 60 bags taro, 9 bags ginger, 44 cases honey, 16 kegs butter, 71 pieces kon lumber (455 feet), 7 bales wool, 2 horses, 33 bundles hides, 1 canoe, 11 hogs, 30 head cattle, 73 bunches bananas, 232 packages sundries.

HULA HULA AT WAIKIKI

Kalakaua's Birthday Is Celebrated With Eclat.

The members of the Kaonohiokala Society had intended to celebrate King Kalakaua's birthday yesterday by a big parade of pa-u riders.

On account of the wet weather, however, the pa-u riding feature was omitted and a large number of the members of the society rode through the principal streets of town in a trolley.

The crowd left Mrs. L. K. Puahi's Waikiki residence at noon and came to town along the Waikiki road to King street. They proceeded along King to the Capitol, through the grounds to Hotel, to Palace Walk, to Beretania, to Washington Place, where they paid their respects to the Queen, thence to Beretania avenue, to Rich-

STORIES OF THE TOWN.

There was a steamer in from the Colonies on Wednesday. The fact was made apparent on the streets as soon as the passengers had disembarked and wandered uptown.

The turned-down-all-round Panama sent a whiff of Sydney down Fort street and on street corners fantastically figured and fitting gowns of antediluvian aspect heralded the coming to port of a Royal Mail liner.

A bunch of strangers, men, women and children, traveling round town together for protection, wandered from the evergreen marvel of a bootblack's stand to gaze in awe and wonder at the elevator of the Young Hotel.

Regarding the dial whereon a metal hand indicates the progress of the lift from floor to floor, one of the visitors pulled out his watch and compared it with the elevator dial.

"I didn't know that there was such a bloomin' difference between Sydney and 'Onolulu time," he remarked to his friend, as he set his timepiece.

HOUSE-NUMBERING ETHICS.

To no one does the erratic house-numbering of Honolulu appeal more strongly than to the directory man.

Not long ago a compiler of these annuals of inaccuracy was working along Beretania street. He got the name and profession of the dweller at No. 163 and moved on to the next residence which he found numbered 3762. The house next to this was No. 165.

The directory man made a call at No. 3762, which he found tenanted by a Japanese.

"How did you get that bungo on the gate?" queried the collector of addresses.

"Oh," replied the Jap, "before I live Nuuanu street and when I move Beretania street I bring my old number with me so my friend know where I stop and I no waste money buy new number."

It is far from improbable that the Jap has furnished the reason for the freak numbering with which Honolulu streets are afflicted.

Blended Whiskeys

are considered by connoisseurs to be superior to what is known to the trade as two stamp goods. The I. W. Harper whiskey stands at the head of this class of liquor and it is becoming the favorite of the men who know the best points in whiskey.

WE HAVE the celebrated Harper Premium A A A put up in imported amber bottles five to a gallon. And the equally famous Old Continental, hand-made sour mash, in full quart flint glass containers. Each bottle is covered with wire mesh.

We feel that we can recommend these goods as superior products, something you may offer to your friends. For bar trade it is the best whiskey and a trade bringer.

ards, to Hotel, to Bishop, to King, to Nuuanu, to Beretania, to Fort, to Queen, to Richards, to King, and thence to Kaplani Park, which was reached at 2:30 p. m.

Among those in the trolley were Mrs. L. K. Puahi, Joe Fern, Mrs. Kaleo, Mrs. Makia, Mrs. Johnson, Mrs. Hilo Keama, Mrs. Nekapahu, Mrs. Maluahi, Mrs. Kamaka, Miss Minnie Hual, Mrs. Hattie Thompson, Kaimimoku, Mrs. Lily Stahl, Mrs. Paaniani, Mrs. Katie Stahi, Mrs. Haadou, Kaleimamo, David Kamaalewa, Nakike.

At 6:30 p. m. the members of the society sat down to a sumptuous luau at Mrs. Puahi's place.

An exhibition of ancient Hawaiian dancing followed the feast and was witnessed by a large and select crowd, including a number of tourists.

The dancers were Miss Minnie Hual, Mrs. Hattie Thompson and Mrs. Emily Sam Aho, three of the most expert hula artists in the Territory. Joe Kamaka pounded the necessary accompaniment on the gourd as only he knows how.

The dance took place on the lanai of the house, which was gaily decorated with Hawaiian flags, lanterns and greenery. It can safely be said that a more successful hula has not been brought off in Honolulu for a long time past.

A quintet club was in attendance and sang and played during the intervals between the hulaing. Those who felt so inclined waltzed or danced the waltz to the sweet stringed music.

At a late hour the party broke up, having spent a delightful evening and with nothing but good things to say of Mrs. Puahi's charming hospitality.

BY AUTHORITY.

TENDERS WANTED.

Tenders will be received at the Attorney General's office, till 12 o'clock noon, on Wednesday, November 29, 1906, for furnishing the Oahu Prison and Honolulu Jail for one year, beginning on Saturday, December 1, 1906, with the following supplies at such times and in such quantities as may be required.

FEE TO BE REFUNDED

Seattle Brewing Co. Wins Case--Other Court News.

"A statute which provides that no foreign corporation with certain exceptions, which does not invest and use its capital in this Territory," shall have an office in this Territory, unless it first pays a prescribed annual license fee.

In the opinion the ideas that a foreign corporation must invest all its capital here and that its business must be solely foreign or interstate to bring it, in either case, within the exemption from the license fee, are discounted.

The Palama property in the foreclosure suit of Hawaiian Trust Co. vs. Mille Morris, the sale of which by Commissioner Simonton has been postponed from time to time, is not to be sold. At last postponement it was intimated that an effort was being made to lift the mortgage. Yesterday the mortgagee declared the sale off.

Rev. W. C. Poole of Berkeley, Cal., who filled the pulpit of the Methodist church last Sabbath with so much satisfaction, will preach tomorrow, both morning and evening, in the same church. The pastor, Rev. John W. Wadman, departed last evening by the Claudine to Maui for a visitation of the mission stations located on that island.

Territorial prisoners working on the county bathing resort at Kaploloani Park saved a young Japanese woman from drowning on Thursday. While bathing the woman had gone too far and her clothing caught on the jagged coral, holding her fast while the breakers rolled over her head. A boat manned by prisoners put out and rescued her.

A TRIBUTE TO THE GAZETTE COMPANY

The principal organ of the printing trade, The Inland Printer, says: Many printers fail to appreciate that just as good papers are published at such points as the Hawaiian islands as are found in nearly any city in the United States. The Pacific Commercial Advertiser, of Honolulu, has celebrated its fiftieth anniversary by the publication of a special number of 120 pages and cover, that would be a credit to any plant. The photographs shown herewith give a good idea of the force employed by the Hawaiian Gazette company, which publishes the Advertiser and five other papers. The company employs about 100 men and women, has eight presses and four linotype machines."

LEFT A COUSIN IN HONOLULU

The subject of the following obituary notice from the Sunday Courier-Journal Toledo, Ohio, was a cousin of Mrs. Carrie F. Bush of Honolulu:

"The many friends of Jay C. Tillinghast will be shocked to learn of his death last evening at 9 o'clock at his late residence, 411 West Bancroft street. Mr. Tillinghast had been suffering from nervous prostration for the past seven months, but his illness was not considered as being of a serious or dangerous form until about a week ago when he grew worse and the attending physician ascribed his death as being directly due to congestion of the brain.

"At the time of his death, Mr. Tillinghast was 42 years of age, and was one of Toledo's best known business men. In partnership with his brother Edward M. he had conducted the Toledo Saw Company for a number of years, succeeding to the business established years ago by their father. He is survived by a widow who was formerly Miss Zelia Rice, of Ottawa, a niece of General Rice; his mother, Mrs. Sarah Tillinghast; two sisters, Mrs. Hendrik Brusse, wife of the manager of the Associated Press at St. Paul, and Mrs. Dr. Harry Ballard, of Hartford, Conn.

"Mr. Tillinghast was a member of the various Masonic bodies, including Sanford L. Collins lodge, Toledo Chapter, St. Omar Commandery, Scottish Rites Consistory and Zenobia Shrine."

INSPECTOR WELLS IN CRITICAL STATE

H. M. Wells, school inspector for Maui, was still in a critical condition at Puanene hospital on Thursday when his brother, W. I. Wells, principal of Kapakalua school, wrote a letter to Superintendent Rabbitt of the Department of Education.

The cliff over which Mr. Wells fell

was twenty feet high. He lay undiscovered at the foot of the cliff from Sunday night until 3 o'clock Tuesday afternoon. His right leg was broken and his head injured, "how seriously," his brother writes, "is not yet fully known. We brought him to the hospital yesterday, which meant five and a half hours' ride over a rough road. He has hardly spoken a rational word since found, and answers questions, if at all, with but yes or no."

At first it was thought there was a small fracture of the skull, but Dr. Sawyer of Puanene was called in and, after a consultation, it was decided that the indications were in favor of no fractures. Nevertheless the skull was denuded in one or two places and there were serious contusions in other spots, making it a very critical case.

Mr. Wells acknowledges the good offices of Mr. Vincent, the Kula teacher from whose house his brother started for Mr. Dowdle's, as well as those of Mr. Dowdle in behalf of the injured man.

Rev. E. B. Turner's sermons tomorrow at Central Union church will be as follows: Morning, "The Good Samaritan: A Twentieth Century Interpretation"; evening, "Sowing and Reaping."

Premo Cameras

The popularity of the Premo is due to just one fact—its superiority over all other instruments.

With the invention of the film-pack, the Premo is adapted for use of either plates or films, and has advantages that are offered by no other style of camera.
