

GRAVEL SLIDE MAYER DENIES COUGES DAM CHARGE OF DAM HART

Part of Famous Nuuanu Structure Washes Away.

Over a thousand cubic yards of the Nuuanu dam slid out and came down the Nuuanu stream on Wednesday. This is about the amount of earth put in position during the time the seven thousand dollar pump of Howland's was trying to work and it is the gravel brought down by this expensive sluicing that was the indirect cause of the latest stunt of the big work. The direct cause of the wash-out was an order given by Engineer in Charge of Construction B. Franklin Howland.

As a result of the washout the heavy redwood core wall, put in according to the recommendations of Engineer Kellogg, has been jammed out of plumb and is probably smashed along the bottom. It is a pretty little mess and will cost the taxpayers of the Territory perhaps a thousand dollars in all. Rains have been frequent of late up Nuuanu valley and the sluicing pond had filled up within a few inches of the top of the sluiced-in embankment on Tuesday last. This embankment is formed of the material brought down from the hillsides in the two sluicing flumes—one carrying water from the stream on the Walkiki side, the other having been used before the engine of the Howland pump got smashed to flume the pumped water. Mention has been made incidentally on several occasions of the fact that the material being sluiced in by the Howland pump carried too high a proportion of gravel to be classed as good material, although the officials of the Department of Public Works declared that the material was ideal. The matter of the gravel has been (Continued on Page Two.)

Accuses Clerk of a Big Shortage in His Accounts.

George H. Mayer, manager of the local offices of the Standard Oil Company, who was accused in the confession made by Lionel Hart of complicity in the forging of certain oil orders and the destruction of some original orders, yesterday appeared before the jury in the kerosene warehouse fire inquest and denied point blank the allegations made against him. He further made a statement that Hart was a defaulter to the extent of \$1700 of Standard Oil money.

Things moved rapidly yesterday in the resumed fire inquest. The night before Hart made his confession and had been arrested, and early yesterday morning Mayer was brought to the police station by Chief Taylor and Officer Reeves, having been found at a house on Tantalus. He was kept secluded until the inquest reconvened and was not told the particulars of the Hart confession, the authorities wishing to have him hear the facts alleged from Hart himself.

The two confronted each other as soon as the jury met, Hart repeating some of the things he had said the night before, particularly the fact that he had made out false orders and destroyed other orders at Mayer's dictation.

Mayer under oath denied this absolutely.

"I did not give Hart orders to destroy the orders or the records," he said. "The printing of the new books at the Star office was done at my order, as Hart had told me that the office was out of order books. An order book was first made without stubs, and I ordered him to have some made with stubs."

In answer to a question by Breck (Continued on Page Seven.)

VANCOUVER LABORERS WILL SHIP SAMPLE ASIATICS TO THE CAPITAL

A HINDOO LABORER—A SAMPLE OF WHAT VANCOUVER WILL PRESENT TO OTTAWA.

Eight Hundred Hindoos to Be Sent to Ottawa to Impress the Law Makers—India Protesting Against Rioters—Street Car Strike in San Francisco Pau.

(Associated Press Cablegrams.)

VANCOUVER, September 13.—A subscription list has been started here for the purpose of raising a fund to pay the passage of eight hundred Hindoos to Ottawa. The object of this is to impress upon the Canadian lawmakers the undesirability of the class of laborers being allowed into Western Canada. The Canadian Parliament will soon be in session.

NOW INDIA IS PROTESTING.

LUCKNOW, India, September 13.—Indignation meetings are being held here to protest against the attacks made by mobs upon Hindo laborers at Bellingham, Washington, and at Vancouver.

EMPLOYERS MUST ENGAGE WHITES.

The labor unions have ordered employers to replace Orientals with whites.

ASIATICS TO BE DEPORTED.

VANCOUVER, September 12.—A number of Asiatics who arrived at Victoria have been ordered sent back to the Orient on instructions from Ottawa.

The above last despatch, which was transmitted to the head of the immigration department at Ottawa and the afternoon papers yesterday, probably means that the Canadian immigration authorities at Vancouver have received information that some of the arriving Japanese are being brought into Canada as contract laborers, something against the Canadian immigration law. This information has been interpreted in a different way by both orders for the deporting of the laborers issued from the capital. No Asiatics in any number would be on the way to Ottawa, nor is it at all probable that any Asiatics coming from the East to Victoria would be sent back into Canada, such as the despatch was made to read in one of the afternoon papers.

WOOLLEY TO BEGIN CAMPAIGN

Temperance Leader Will Commence Active Work Within a Few Weeks.

John G. Woolley, president of the Anti-Saloon League, will commence an active campaign in the interest of temperance within a few weeks. During the campaign he purposes visiting and speaking at the various Honolulu schools and at other public institutions to which he has been invited. Since coming to Hawaii he has been busy in making a thorough study of conditions here, familiarizing himself with the temperance work that has already been done and attempted, studying the liquor laws of the Kingdom, Republic and Territory, and otherwise putting himself in readiness for the special work for which he has come here.

Yesterday he was present at the regular monthly meeting of the Anti-Saloon League and addressed the members. He stated that in looking over conditions in Hawaii he had found that the cause of temperance was gaining ground here and that the principles of temperance were beginning to be better understood among the people, especially among the native Hawaiians. He made the announcement of his coming campaign as above.

At the meeting Mr. Woolley was elected a delegate to attend the meeting of the Hawaiian Evangelical Association, to meet at Lahaina on September 20.

As a member of the league, to succeed Rev. G. D. Edwards, the Rev. Mr. McKeever was elected.

WARRANT OFFICERS FEAST.

A party of twenty of the warrant officers of the Big Four gave a "beef-steak" at the Seaside Hotel last night, which will go down in the annals of the hostelry as one of the most joyous occasions ever celebrated in Honolulu. All were equipped in cook's caps and aprons and were divided into four sections. Those in one class had to tell a story, or pay some exacting penalty. The next would have to sing a song, the third to recite something apropos and the last had to do some funny stunt which must be adjudged satisfactory by those present.

Needless to say the fun was fast and furious and from the time that the feast was started until it wound up about half past ten, there was not a slow minute.

MOORE LEAVES BY THE HILONIAN

Proprietor of the Palace Saloon Who was Out on Bail Departs.

Another man who went on the Hilonian unannounced and unexpectedly is J. D. Moore, the proprietor of the Palace restaurant at Richards and Merchant streets. Moore was out on \$100 cash bail on a charge of violating the liquor law by selling liquor on Sunday, and it is expected that his case will come before the Territorial grand jury at any day now. Moore had also begun an injunction suit to restrain the Board of License Commissioners from taking any action to rescind his license. Judge De Bolt decided in favor of the License Board, and the case is now in the Supreme Court.

Moore's name does not appear in the passenger list of the Hilonian. At his restaurant it is said that he went to San Francisco to be gone a month or two, and that the restaurant, which is licensed to serve drinks, is being run by the Seattle Brewing Company under power of attorney.

HON. CECIL BROWN'S WIFE PASSES AWAY

Mrs. Cecil Brown, wife of the president of the First National Bank in Honolulu, died yesterday after a short illness, at the age of 54 years. Her funeral will take place at 3:30 this afternoon, from Kawaiahao church to Nuuanu cemetery. Mrs. Brown was educated at the Milliani school in Honolulu, conducted by Mrs. Davison (now Mrs. A. A. Montano), and at Makawao seminary, and was well known and esteemed. Before her marriage to Hon. Cecil Brown she was the relict of the late M. Dickson. The pall-bearers at the funeral will be M. P. Robinson, Bruce Cartwright, Samuel Parker, Abraham Fernandez, C. W. Booth and Jas. W. L. Maguire.

ALUMNI PLANS FOR BIG WEEK

The Twentieth Anniversary of Founding Kamehameha Schools.

The plans for the reception to be given Mr. and Mrs. W. B. Oleson by their former pupils of the Kamehameha Schools were discussed at length at a meeting of the Alumni held last night in the Kamehameha Girls' School, which was presided over by S. W. Spencer, chairman of the special Oleson committee. The meeting was largely attended and the interest shown in the plans for greeting the returning first principal of the schools was general.

It is proposed to devote a whole week to the celebration of the twentieth anniversary of the founding of the schools, commencing on Sunday, December 15, when memorial services will be held in the Bishop Memorial chapel in the Kamehameha grounds. Following this the members of the Alumni and the pupils of the schools will march to the mausoleum and decorate the grave of the founder of their school. The following week will be given over to various exercises at the schools, including a reception to Mr. and Mrs. Oleson, a day of sports, a luau on the campus and other congratulatory affairs.

The committees are taking up the matter of reduced fares for members of the Alumni on the other islands, in order that as many of them as possible will be in Honolulu for the anniversary events.

After the celebration the Olesons will make a tour of the islands and a series of receptions in their honor will be arranged at the various towns to be visited.

MONEY ABSOLUTELY CORRECT.

An examination of the books and accounts of Tomilms and Pittenger, the youths who left mysteriously on the Hilonian, show that so far as money matters are concerned there is no reason why either should have attempted to conceal the fact of their departure. The books corresponded to the money collected and turned over to a cent.

TEACHERS DROP OUTSIDE WORK

Meeting of the Board of Education and What was Done at it.

A meeting of the Board of Education was held yesterday afternoon. C. E. Copeland, principal of the Waiuku school, wrote a long letter to the board setting forth that when he was sent to that school three years ago, it was on the promise of a salary of \$1800 a year. But the 29 per cent. cut came just at that time and he really only got \$129 a month. Now that salaries are raised he thought he ought to get the \$150 a month. But instead of that he was getting only \$125 a month which, less the three per cent. cut, made his actual salary \$121.25. He asked that his salary be put at the \$1800 a year, or \$150 a month.

He also argued that the rate he was getting was what he would be entitled to as principal of a purely elementary school of the same enrollment, while his school was doing high school work.

The board took the position that, having established a schedule carefully worked out, designed to systematically do justice to all teachers, and as he had been given the salary according to this schedule, it could not grant his request, notwithstanding the board felt that he had much claim on its consideration.

Mrs. Anna B. Tucker asked the board for an increase of salary from \$125 to \$150 a month on the ground of her years of service and the work she did and the increase of work brought about by the departure of Mrs. Yarnley. There was a division in the board as to whether her position at the head of a department did not entitle her to rank with a principal and so be entitled to the salary asked. Superintendent Babbitt favored the salary asked on the ground that, to his mind, the duties of her position and the qualifications required, the hours put in and the number of pupils taught, together with the fact that she taught the teachers as well as the pupils, entitled her clearly to rank with principals of schools entitled to the larger salary. Mr. Carden agreed with the superintendent. Mrs. Dowsett did not wholly agree with this and, moreover, (Continued on Page Four.)

SAN FRANCISCO CAR STRIKE IS NOW ENDED

SAN FRANCISCO, September 13.—The trade unions have formally rescinded the order fining any of their members found riding on the street cars here while the strike was in progress. The fine amounted to from twenty-five to fifty dollars for each offense.

This rescinding order on the part of the unions practically brings the strike to an end, the United railroads having defeated the strikers.

WEALTHY SEATTLE JAPANESE KILLED.

SEATTLE, September 13.—Tsukuno, one of the wealthiest Japanese in this city, was killed yesterday in a railroad accident, being run down by a switch engine.

BIGGY NOW CHIEF OF POLICE.

SAN FRANCISCO, September 13.—Biggy has been named as Chief of Police to succeed Dinan, discharged by the new Board of Police Commissioners.

FORD JURY COMPLETED.

SAN FRANCISCO, September 13.—Twelve tentative jurors have been secured for the trial of Tiley Ford, the attorney and secretary of the United Railroads, under indictment for bribery of the San Francisco old Board of Supervisors.

CARRIED OUT HIS ORDERS.

CASABLANCA, September 12.—The French and Spanish army has routed the Moors again, at Taddert.

On Wednesday orders were issued from the War Department in Paris for General Druide to make a decisive attack on the Moors. The above despatch indicates that he has followed out instructions to the letter.

FEDERAL SERVICE MAN TAKES CHARGE.

SAN FRANCISCO, September 12.—Dr. Rupert, of the Federal Service, United States Marine Hospital Service, has arrived here to take charge of the plague situation.

TAFT EMBARKS FOR ORIENT.

SEATTLE, September 12.—Secretary of War Taft sailed today for Manila, on the Minnesota.

BURTON NOW G. A. R. LEADER.

SARATOGA, N. Y., September 12.—Charles G. Burton has been elected commander-in-chief of the Grand Army of the Republic.

Women and Girls

Who suffer every month from Cramps, Backache, Headache, Vomiting, Dizziness or Fainting spells should know that if a few doses of the Bitters were taken at the first symptom they would save all this unnecessary suffering. Always keep a bottle of

HOSTETTER'S Stomach Bitters handy and you'll always enjoy good health. Thousands of other sickly women have found this true. It also cures

Insomnia, Poor Appetite, Sleeplessness, Indigestion, Dyspepsia, Constiveness, Biliousness or Malaria, Fever and Ague.

We hope all sickly men and women will try it at once.

POSTERS FOR FLORAL PARADE

Honolulu Artists Working Out Designs for Advertising the Big Event.

The posters for the next annual Floral Parade, which is coming off in February next, are to be the very best that the artistic talent of Honolulu can produce. In response to the request of the members of the Promotion Committee for assistance in the designing of advertising matter appropriate and suitable for the big parade, several of the leading artists of the city are working out tentative designs to submit. D. Howard Hitchcock and James Wilder are collaborating on one design and the members of the Kihohana Art League are at work on others, so that the committee is assured of something quite out of the ordinary and of a designed poster that may be sent with pride to the mainland.

This was the pleasing announcement made at the meeting of the Promotion Committee yesterday by Secretary Wood. At the meeting a general discussion of the work to be carried on was indulged in. The matter of placing an order with the Gazette Company for one or more thousand numbers of "Picturesque Honolulu" was gone into, although it was not definitely settled as to how many copies of the edition would be secured. Secretary Wood stated that such a publication was of great benefit for advertising inasmuch as it gave the reader a correct idea of what could be done in Honolulu in the way of artistic printing and book making.

The month's accounts were passed. These aggregated \$771, of which \$416 was for mainland accounts. The regular report of the secretary dealt with a number of interesting subjects, the good promotion work being accomplished through the sending of Hawaiian pine to Chicago being especially referred to. The report was:

SECRETARY'S REPORT.

Chairman and Members of the Hawaii Promotion Committee.

Gentlemen: From letters to hand by the Persia it is evident that the local Agricultural Experiment Station has been most successful in its trial shipment of pineapples across the Rockies. We were fortunate in being able to enlist the interest of the Commercial Association of Chicago, whose Foreign Trade Committee made special arrangements for receiving Mr. Higgins and his car of island fruit. A letter from a member of the association, dated August 28, says:

"We have a telegram from Mr. Higgins saying he will be here the 30th." Receipt of the printed matter and photographs we sent was also acknowledged, of which a careful distribution was made among the different newspaper men, thus providing them with suitable material for write-ups upon Mr. Higgins' arrival. In closing his letter, our Chicago correspondent says: "Inasmuch as Chicago is the greatest fruit market in the United States, I believe that this experiment will be productive of general good results."

Our plan of advertising Hawaii's pineapple industry by means of photographs displayed at different county fairs is apparently meeting with success.

A letter from the secretary of the Washington County Fair Association, dated Fayetteville, Arkansas, August 29, says:

"I am just in receipt of yours of 14th inst., also photograph of a Hawaiian pineapple field, which is most interesting. I exceedingly regret that it will not be convenient for you to exhibit at our county fair. I will, however, give your picture proper space with card attached, as requested."

The editor of the Bismarck, N. D., Daily Tribune, writes under date of August 29, acknowledging the receipt of different pamphlets, saying further:

"We shall be pleased to receive additional illustrated publications relating to your country and will review the same for the benefit of our readers, many of whom will doubtless visit your islands in the future."

Mr. Harry L. Paddock, American Consul at Amoy, China, writes acknowledging receipt of our folders, which he states have been placed on file in the consulate.

The secretary of the Atlantic City (N. J.) Bureau of Information writes under date of August 23:

"The photographs of your last Floral Parade have been neatly framed and occupy a very conspicuous place in my office, where everyone who enters can see them. They have attracted much favorable comment, and, as you have doubtless noticed in copies of the Atlantic City Evening Union I mailed you, several of the photographs were reproduced in that paper."

The New York agency of Thos. Cook & Son writes under date of August 27:

"We find much enquiry for travel on the Pacific, including Japan and around the world. Our first tour for this season is scheduled to leave San Francisco by the steamship Korea, September 24."

Mr. W. H. Simpson, advertising manager of the Santa Fe, in a letter to hand by the Persia, says:

"The corrections for map of Hawaii have been received and are being made on the Santa Fe's red wall map. I will see that you receive a number of these maps as soon as they are finished."

Mr. Charles S. Fee, passenger traffic manager of the Southern Pacific, writes under date of August 28:

"Your letter of August 2 received relative to giving Hawaii representation in our advertising matter. You may rest assured of our hearty cooperation in this respect."

By the steamer Persia we forwarded an additional supply of our general folder "Hawaii" to the agents of the Pacific Mail Steamship Company at

Yokohama, Shanghai, Hongkong and Colombo. We also sent a supply to Cook's agencies throughout the Orient. Respectfully submitted,

H. P. WOOD, Secretary.

The Advertiser goes into the homes of the purchasers of the articles you have to sell. There is room here for your advertisement.

"BABBITT'S BROOM" AND LIKE THINGS

HILO, Sept. 9.—"Babbitt's broom" has been a joke around Hilo for some time. Superintendent W. H. Babbitt, of the Department of Public Instruction, is said to have once shipped a broom to a school in Hilo. Evidently it had been reported to him that the school house needed sweeping. At any rate Babbitt, so the story goes, sent the broom.

At current market rates the Honolulu price of Babbitt's broom was quoted at forty cents. The freight to Hilo, lowest rate, was twenty-five cents. Delivery to school house another quarter, for the teacher could hardly have been expected to have walked three miles to the Kinau wharf and return, carrying the broom on the homeward trip. Had the teacher taken a hack that would have been another quarter, or a total of \$1.15. But the claim is that the cost of delivery in Hilo, at school house as per bill of lading, would only have been \$90. Would have been? Yes. For the broom never reached the school house. It was probably seen on the dock by one of the wharf hands at cleaning up time and naturally put into requisition as company's property.

Ultimately another broom was bought here at 35 cents, less by 5 cents than the prime cost in Honolulu. So that the Territory's account for one broom for the Department of Education stood thus:

1 Babbitt broom.....\$ 0.40
Freight to Hilo..... 0.25
1 Hilo broom..... 0.35

Total\$ 1.00

All this as evidence of the folly of buying many departmental supplies as far away as possible from the base of operations.

Last week the Kinau arrived with numerous packages for Puna, Olaa, Onomea, Papaikou and other nearby school houses, and the local storekeepers at once got interested.

School Inspector Charles E. King said to the Herald:

"It is true that school supplies have been bought in Honolulu and sent to this island that could just as well have been bought here. I have been fighting against this and this year have been able to place orders here. How that lot (at least a dozen packages besides a wheelbarrow) for Papaikou got by me, I don't know. Of course, the text books are ordered in large quantities by the department and all delivered in Honolulu for reshipment, but there is a house here that sells the text books at the same price as the government. Paper, pencils, ink and other ordinary supplies ought to be bought here, and now I have permission to get them."

Among the truck load of stuff for Papaikou there was abundant and unmistakable evidence of the breakage of at least one bottle of ink, so that there will be a damage loss in that consignment, and it is problematical also whether it reached the school house by the opening of the term on Monday.

GRAVEL SLIDE COUGES DAM

Continued from Page One.)

discussed considerably, however, some contending that such material, washed free as it was of earthy matter, was not the proper material for the fill. Howland had his own way about it, however, and persuaded Superintendent Holloway that he was right. Governor Frear and Secretary Mott-Smith were also favored with Howland's views on gravel as a filler at the time the official inspection of the dam was made. And now the gravel has slid out, as was predicted. The only difference between the fears expressed and the reality has been that the gravel slid sooner than had been expected, just as the pump broke down sooner than had been expected.

On Tuesday the water from the fluming and the flow from the watershed of the sluicing basin had banked up behind the sluiced-in wall until it was thought by the contractor and the government inspector that the danger point had been reached. An inspection of the wall showed that the part of the wall made up of the gravel was leaking badly and it was thought best to relieve the pressure of the water and provide for any further inflow. Orders were given, accordingly, for the cutting of a temporary spillway through the solid bank of the pond. This would drain off a part of the accumulated water and allow any that might come in later to escape.

The digging of this spillway was begun on Tuesday morning. In the afternoon Howland junior appeared and ordered the men to stop work on their digging and to fill back the earth they had taken out. Although remonstrated with by the government inspector he insisted that the work was unnecessary. That night the wall gave way from the pressure of the water behind it, cutting down the wall to the level of the riprap work and draining out a large quantity of the good earth which had been sluiced in to position next the core wall. The result of this has been that the filling on one side of the core wall is gone, leaving the filling on the other side to press it far out of plumb.

To straighten the core wall it will be necessary now to take out the filling in the trench on the makai side, refill on the mauka side and let the earth shove the wall back into shape.

ANOTHER GANG OF COUNTERFEITERS

Marshal Hendry Again Makes a Very Important Capture.

United States Marshal Hendry returned yesterday morning from Hawaii with four prisoners and a quantity of counterfeiting apparatus which it is believed fully accounts for all of the spurious coins which have been in circulation in the Territory, especially on Hawaii and Maui, for some time past.

These captures were the result of a great deal of hard work and of careful planning and patient investigation on the part of Hendry and United States District Attorney Breckons. Five and ten dollar counterfeit gold pieces of very excellent mintage and good appearance have been detected in circulation for some time. The minting and milling is good enough to escape any but the most careful inspection, the weight and ring are of course defective.

Marshal Hendry went to Hawaii on information contained in a wireless message from Deputy Sheriff Rickard. He found that three Koreans, Chu Hong Yong, Kim Aeon Moon and Pa Hu No had been arrested at Kukuihaele by a clerk in Lindsay's store on whom they had tried to pass some of the spurious coin. The men were placed in jail, where they confessed and implicated their leader, Kong Chi Soon, who was found asleep in a cave on the land of Kapulea between Kukuihaele and Honokaa.

With Kong Chi Soon was captured a great lot of counterfeiting apparatus, including two sets of dies for \$10 gold pieces and one set for \$5 gold pieces, an electro-plating apparatus and other material and appliances.

These four men were all given a hearing before Commissioner Hatch yesterday afternoon.

It is now pretty certain that there have been two gangs of Korean counterfeiters, each operating independently of the other at least for a time. And there is some indication of a rivalry between them as to which can do the best work.

The leader of the first gang was Kim Bong Chuen, who was arrested some weeks ago on Hawaii, and who has been in jail here since, and has demonstrated his expertness as a coiner by making coins for the instruction of the federal authorities.

COUNTRY CLUB ANNUAL MEETING

The first annual meeting of the Oahu Country Club took place yesterday evening at the makai pavilion of the Young Hotel. The reports of the various officers were read and approved by the members present, the treasurer's report showing that the club was in good financial condition. A letter from E. Faxon Bishop, the retiring president, who was unable to be present, was read, going over the various noteworthy events in the first year of the club and congratulating the members on the enthusiasm which has been shown.

After the general business of the meeting had been completed the election of officers for the coming year was held. The following officers were elected, in each case unanimously: George R. Carter, president; J. P. Cooke, vice president; E. A. Mott-Smith, second vice president; J. O. Young, treasurer; D. W. Anderson, secretary; E. M. Campbell, auditor; Frank Halstead, S. G. Wilder, E. O. White and A. T. Brock, directors.

A CONSCIENCE FUND.

A man in a small Western town bought a quart of milk, and, on arriving home found it was adulterated with water. The next day he posted in different sections of the town the following notice:

"I bought a quart of milk yesterday which I found to be adulterated. If the scoundrel will bring me another quart I'll not denounce him."

The next day he found three quart cans on his doorstep. There were three dairymen in town.

MISTRESS FASHION'S EVENING COAT

For the first time in history the ladies of Honolulu have an opportunity to inspect, and buy if they wish, evening coats that have been brought to them direct from the modiste's shop in Paris. No handsomer garments have been seen here, and no more fetching finish to an evening costume has ever been devised. Pastel shades are vogue in Paris and the fashion has extended to London and the continent; in time it will reach New York. We are in advance of most places because we personally selected each garment, picked only those with a positive individuality and brought them with us on the trip over so as to be timely. Whatever we have gained by this item of personal attention will be shared with you. If you wish a coat that will be different from anything in the country buy now; there is not a duplicate here.

Quality is evident everywhere, from bottom hem to collar trimming, nothing skimpy, nothing that suggests anything but richness and elegance, and never since this material was invented has chiffon broad-cloth looked so well. The antique lace for the trimmings and the peculiarly elegant buttons add to the beauty of these creations. Pastels run in the light shades of dove, silver grey, pink, pale blue and green. A white evening coat is a picture in itself.

These coats will be on show in our windows today. They are worth seeing, worth buying and worth taking a long journey to inspect even if you do not wish to buy. You are welcome in any case.

WHITNEY & MARSH

A RAINIER TOAST

The Hula Girls went on a strike,
The Navy Lads to tease,
For they had never seen their like
In any other seas;
The nation's dance they thirsted for,
But that they couldn't get,
So RAINIER down their throats they pour
And find it better yet.

Here's to the Navy Boys!
They know a good thing.

PUBLIC SCHOOL TEACHING FORCE

A Full Roster Including the Position of Each Teacher.

A complete list of all the teachers in the public schools of the Territory, together with their positions and salaries, has been prepared by the Superintendent of Public Instruction and was presented to the meeting of the Board yesterday afternoon. It is given here with except as to the salaries. These are according to a regular schedule approved by the Governor, and the salary of any teacher can be learned by enquiry at the Department. They are withheld here at the request of the teachers themselves and because it is not considered necessary as a matter of news to go into what is to all intents and purposes a private matter:

Mrs. Helen Kelsey, Wailupe; Mrs. Ellen Kenway, Miss Mabel Kinney, Waikiki; Mrs. M. D. Brown, Miss Agnes Creighton, Manoa; Miss Helen Robertson, Miss Emma Puuhau, Moiliili; Miss Allie M. Felker, Miss Ethel Mounarrat, Mrs. J. H. Davis, Miss Mary Aylett, Miss Isabel Weight, Mrs. Eldora Deacon, Miss Clara Gurney, Miss Ethel Wolfe, Miss Nellie McLain, Miss Emma Lyons, Miss Agnes Judd, Miss Bernice Cook, Miss Ella Goo Kim, Mrs. Isabella Creighton, Mrs. Katherine Winter, Kaahumanu; Mrs. Mary Ginn, Miss Lulu Cameron, Miss Louisa K. RAILROAD WORK STARTS.
HILO, September 9.—Contractor Isuzu is losing no time in making the new roadbed from Glenwood to Thirty-one miles. Ten days ago the first pick and shovel work on the contract was begun at a point half way between the two termini working toward Glenwood, with fifty men. When the full force is operating there will be more than one hundred men at the work.
Part of the roadbed will be over lava and rock, there will be several cuts and naturally considerable blasting. Contractor Isuzu has to lay his own portable track and furnish small cars for removing material where necessary, and of course there are level sections requiring little or no unusual labor to compensate for the difficult parts. He has secured considerable of the available supply of picks, shovels and wheelbarrows in Hilo, and has started out determined to finish the work on time.
When a girl talks to a man on the street, and he leans up against a wall while he talks, that is the kind of man to shake, and shake promptly. If a man hasn't the energy to stand up without a wall to lean against, he hasn't enough energy to make him worthy of any girl's chase.
As a rule, the conversation of a woman who uses the word "swell" a great deal, doesn't entertain anyone over sixteen.

MOTHERHOOD
The first requisite of a good mother is good health and the experience of maternity should not be approached without careful physical preparation, as a woman who is in good physical condition transmits to her children the blessings of a good constitution.
Preparation for healthy maternity is accomplished by Lydia E. Pinkham's Vegetable Compound, which is made from native roots and herbs, more successfully than by any other medicine because it gives tone and strength to the entire feminine organism, curing displacements, ulceration and inflammation, and the result is less suffering and more children healthy at birth. For more than thirty years
Lydia E. Pinkham's Vegetable Compound
has been the standby of American mothers in preparing for childbirth. Note what Mrs. James Chester, of 427 W. 25th St., New York says in this letter:—Dear Mrs. Pinkham:—"I wish every expectant mother knew about Lydia E. Pinkham's Vegetable Compound. A neighbor who had learned of its great value at this trying period of a woman's life urged me to try it and I did so, and I cannot say enough in regard to the good it did me. I recovered quickly and am in the best of health now."
Lydia E. Pinkham's Vegetable Compound is certainly a successful remedy for the peculiar weaknesses and ailments of women. It has cured almost every form of Female Complaints, Dragging Sensations, Weak Back, Falling and Displacements, Inflammation, Ulcerations and Organic Diseases of Women and is invaluable in preparing for Childbirth and during the Change of Life.
Mrs. Pinkham's Standing Invitation to Women
Women suffering from any form of female weakness are invited to write Mrs. Pinkham, at Lynn, Mass. Her advice is free.

FRIDAY : : : : : SEPTEMBER 13.

ATTITUDE OF JAPAN.

Japan's attitude toward Canadian objections to the unrestricted admission of her laboring class into the Dominion would appear to be identical with that she assumed with regard to the United States labor agitation for Japanese exclusion, which, scattering and desultory before the San Francisco school episode, became general and intense after that occasion. About twelve days prior to the Vancouver disturbance Hon. T. Nosse, consul-general in Canada for Japan, made pretty clear his view of the matter. He said that the enactment of any Japanese immigration law in Canada would immediately give rise to an international question between Great Britain, Canada and Japan, because, under the treaty of friendship, commerce and navigation made last year between Japan and Canada, the latter country was bound to give the Japanese the same freedom of entry, residence and business occupation as the Dominion extended to any European nation—to say nothing, Mr. Nosse added, of Japan's position as an ally of Britain to which bond Canada was herself a party. Japan, moreover, would never entertain any idea of allowing her people to be discriminated against. This sounds familiar after the utterances of the Japanese press, both at home and in Honolulu, upon the compromise patched up, after the San Francisco affair, whereby Japanese laborers having emigration passports to Hawaii, etc., from their government, were excluded from the United States mainland.

Mr. Nosse went on to discuss the special arrangement between Japan and Canada, by which he mentioned the Canadians claimed Japan was still bound, under which the number of Japanese entering the Dominion was restricted to 500 or 600 a year, exclusive of merchants, students and about 3000 Japanese that had been naturalized in Canada, together with the families of these Japanese Canadians. Flatfootedly, the consul-general stated that there was no obligation on the part of the Mikado's government to observe this restrictive arrangement. He said it was a purely voluntary restriction on the part of the Japanese government, out of sympathy for the Canadian government, for the benefit of Japan's own people and with the desire of preventing any irritation on the part of British Columbia by the flooding of the labor market. Mr. Nosse concluded with the assertion that the understanding had been faithfully observed by Japan and he had no fear of its being departed from by the Dominion government.

Nevertheless, as has been published by the Advertiser, the Minister of the Interior of Canada, after investigating Asiatic immigration in British Columbia, rather plainly suggested that Japan had evinced bad faith relative to the arrangement in question. At least he had discovered the prevalence of a strong suspicion in that province that the dumping of large steamship loads of Japanese from Hawaii was part of a preconcerted movement to flood the country with that nationality. There is no doubt that the abrupt incursion of Japanese laborers from here precipitated the grave situation now existing between Japan and Canada which involves Great Britain in a ticklish diplomatic affair with her ally in the Far East. Those responsible for that human traffic between Honolulu and Vancouver, both in Japan and here, may take what satisfaction comes to them from the reflection that they have immensely promoted the cause of Japanese exclusion both in the United States and Canada.

PROBABLY GROUNDLESS APPREHENSION.

Rumors are reaching Kanae, according to the Garden Island, that dissatisfied liquor dealers of Honolulu are "going to break the new liquor law." The Libue paper credits the theory that almost any law can be smashed by a lawyer of sufficient acumen. It says the result of bursting the new liquor law would be that the public should "have to tolerate the disgraceful conditions that were the rule during the period just finished." The Garden Island concludes with the following pathetic appeal to the smart limbs of the law: "If there are weak points in the liquor law, as there are in the rest of our statutes, the professional lawbreakers would do a graceful act and earn the gratitude of the community if they would turn a deaf ear to the call of the dollar with a liquor axe to grind."

There is probably little reason to fear that the liquor sellers who have been granted licenses under the new law will, at this late stage of the game, make any attempt to have the law judicially declared void. If they did carry out any such project, the executive would still hold a fairly serviceable whip hand. Both wholesalers and retailers might find that such general powers of regulation as the old law contained could be utilized in ways that would make their fresh start a matter both difficult and expensive. Governor Carter, at all events, was able to worry some of them enough to make them cry out for the old law's amendment. Neither wholesalers nor retailers, however, are likely repining for a reversion to the destructively fierce and largely disreputable competition that characterized the entire trade under the old law. Most of those who have run the gauntlet of the Commission, with its somewhat broad powers, and emerged with their parchments tucked under arm are business men of sufficient astuteness to know when a thing is good enough to be let alone.

ORIGIN OF THE VANCOUVER RIOT.

Some idea of the magnitude of the Vancouver demonstration against Asiatics may be formed from an account of what it was going to be, which is found in a dispatch of August 27 from that city which appears in the Victoria Colonist. It states that Vancouver's fifty-eight labor unions would participate in what promised to be "the biggest anti-Asiatic demonstration in the history of the coast" on Saturday, September 7. Reference was made to a resolution unanimously passed at the last meeting of the Asiatic Exclusion League, deciding to bring out the band wagon at the head of a parade that the league intended to hold, "to awaken the heart of the province to the growing proportions of the flood of Orientals." The committee then appointed had been at work organizing the demonstration. A request was to be made of the city council to grant the use of the city hall for the evening of the demonstration, when prominent business and professional men would, it was expected, address "the biggest anti-Asiatic meeting ever held on the coast." It is stated in the dispatch that the fifty-eight unions have a membership of nearly 7000 and if one-seventh of these followed their marshals in the parade there would be one thousand, while those in sympathy with the movement, all being invited, would add at least five hundred more.

There, surely, was the setting for a serious outbreak, which only needed a certain amount of hot-headed oratory to incite. It, moreover, shows a breadth and depth to the movement indicating, as this paper has already said, that it will not end with apology and indemnity for the actual wrongs perpetrated. The movement represents a public opinion that neither the Imperial nor the Dominion government will disregard in the discussions of the treaty with Japan which are bound to ensue.

The picture or souvenir postal card is probably doing more to make the world known to the untraveled than all the geographies and gazetteers. There is scarcely a village anywhere in the domain of the Postal Union that has not had its picture taken for a postal card impression in black or white or in colors, and thus its humble fame has been carried over seas and introduced to the four corners of the Union. All the aliens and prodigal sons can not return for the old home week celebrations, but, thanks to the man who invented the picture postal card, they may be reminded of the old home scenes at an expenditure of a few cents.

Prince Wilhelm of Sweden, in an exhausting itinerary of sight-seeing in New York, walked fearlessly on the unprotected edge of the topmost completed floor of the Singer building, twenty-nine stories above the street. Yet when asked the next day to mingle with a howling horde of brokers on the floor of the Stock Exchange, his nerve was not equal to such an ordeal. He viewed the trading from the members' gallery, but positively declined urgent invitations to go on the floor. It takes a Roosevelt to be unafraid of the Wall Street bulls and bears.

Referring to Governor Frear's second trip to the Kapaia lands, the Garden Island expresses itself as dubious of the satisfactory settlement of the question in Honolulu. It proposes a commission of experts who are familiar with all the conditions—land values, water economy and so forth—to take up the matter and, presumably, advise the executive what to do about it. The Kauai paper must be anxious to have a Nuuanu dam started on its island.

An Industrial, Not Labor, Problem.

Collier's, August 31.

The Pacific Coast (which rightfully includes British Columbia) is divided on the Japanese question. The business men and officials of Washington and Oregon can say nothing too kind of the Little Brown Brother. On the other hand, British Columbia stands with California against Japanese immigration. Several years ago, agitation from its Pacific colony caused the Imperial Government at London to approach Tokio with tenders on the immigration question. The Japanese, needing the friendship of England and the English navy, promised to restrict emigration from Japan to Canada—and did it. Last July, however, a Hawaiian company chartered the tramp steamer Kumeru, loaded her with twelve hundred Japanese, many of them just arrived from Yokohama, and sent them into British Columbia. Since they came not from Japan but from an American possession, the Japanese Government had no control over their movements. Vancouver, where they landed, became a storm center. R. G. MacPherson, member of the Colonial Legislature, rushed down to the docks to see what he could do to stem the tide. Failing to keep them out, he insulted the Japanese Consul with a graft charge, and went his way to agitate. Kier Hardie, Socialist agitator, went to British Columbia, hired a hall and lectured. It roused labor M. P.'s from north, east, and south, and the Vancouver newspapers are vociferous yet. The experience of British Columbia with the Japanese question proves that Japan does not always take a proposal to limit immigration as an insult, and, further, that the special Californian dislike of the Japanese may have deeper roots than mere local peculiarities of psychology. It is an industrial problem, not a labor problem, which the Japanese have created on the Pacific Coast. In that, it differs essentially from the old Chinese trouble of Dennis Kearney's time. The Chinaman was essentially a laborer at cheap and common tasks; he showed little capacity for advancement. The Japanese, on the other hand, are industrial climbers, ambitious to control every industry which they enter. Probably no other body of immigrants has done so well in so short a time. They began to invade California in large numbers only six or seven years ago. Already, they have practical control of such prosperous farming communities as Vacaville, grown rich by its dried fruits, and Florin center of the winter strawberry industry. Their business men are acquiring farms in the country and buildings in the cities; their workmen are organizing to keep up the price of Japanese labor. Already the Japanese barbers and millmen in the Northwest have their unions, and already they have won strikes for higher wages. "Japanese cheap labor" will exist no longer than the Japanese can help. The question will be one of straight industrial competition all along the line.

TEACHERS DROP OUTSIDE WORK

Continued from Page One.

until it was definitely known whether the funds of the board would permit a restoration of the three per cent. cut she did not think that any salaries should be raised except strictly according to the schedule. The request for an increase was therefore denied. Mrs. Lucy Wright of Maui asked for an honorary life certificate, as she had been a teacher for fifteen years. Superintendent Babbitt suggested that it would be better for her if she should continue to take examinations and finally secure a first-class certificate. School Inspector Charles E. King made a detailed report of the plans and preparation for the opening of the schools on the Island of Hawaii.

In regard to the resolution of the board putting itself on record as opposed to teachers engaging in outside work likely to interfere with their best work for the schools, Superintendent Babbitt said a number of teachers had been in to see him. In practically every case the teachers had shown a splendid spirit of acquiescence and agreement with the board. His idea was that not every temporary or casual outside employment was included in the resolution. He felt, however, that every regular employment requiring a definite and set time and punctuality in its performance could not fail to be in the long run a detriment to school work. Many of the teachers had made a strong argument in behalf of the particular employment they had outside their school work, but wherever it came within the definition Superintendent Babbitt had laid down, the wishes of the board had been cheerfully acquiesced in. Superintendent Babbitt reported fully the appointments he had made and the arrangements concluded in order to be able to open every school in the Territory with a teacher in every room on Monday, and he believed he had accomplished it. He said that his experience had more than ever convinced him that the true policy of the board lay in not giving leaves of absence to teachers to begin their vacation before the end of the schools in June or after the opening of schools in September.

On motion the arrangements and appointments made by the superintendent in this behalf were approved. The board then adjourned.

Nothing in medical science is more direct and more reasonably certain than the action of Dr. Williams' Pink Pills in cases of anemia, a disease which is literally a condition approaching bloodlessness and which, if neglected, inevitably results in decline and death. Anemia is stealthy in approaching its victim and often is well advanced before it is detected. On this account it is necessary to begin treatment as soon as the first symptoms are noted.

An Albany Teacher Cured.

Miss Jennie E. Bouton, a teacher, living at 45 Second street, Albany, N. Y., says: "Confinement in the school room brought on anemia. Any exertion made me short of breath and I had to stop at nearly every step on going up stairs. I had no color in my cheeks or lips and my ears were transparent. I had dull headaches and faint spells. I had a doctor but received no real benefit until I tried Dr. Williams' Pink Pills. They cured me and I have never been ill since."

Dr. Williams' Pink Pills

cure anemia and all anemic conditions because they actually make new blood. They are not a cure-all. They do this one thing and they do it well—they make blood.

PENNS SHOULD WIN THE SERIES

Maryland and Colorado Are Beaten in Games for Hongkong Cup.

From the present indications the baseball team from the cruiser Pennsylvania, which has succeeded in winning both games which it has played, should win the championship of the Big Four. Yesterday, in the best game which has been seen in the series, they defeated the Maryland by a score of 7-3, and will play the final game of the series with the Colorado today. In the first game of the day the West Virginia defeated the Colorado by a score of 13-11, after a game which was full of hard hitting, with errors strewn around to such an extent that scoring was easy for both teams. Hard batting in the ninth inning was responsible for the West Virginia victory and gave them the only game which they have won in the series.

The feature of the first game was the batting of Snyder, the West Virginia's catcher. His home run, in the last of the eighth, was the winning of the game. It was a long drive to right and brought in three runs, which clinched the victory for the flagship. In the second inning a three-bagger which Snyder made was also productive toward bringing the score into good shape. Erickson started out in the game as the slab artist for the Colorado. He was hammered for six runs, though poor fielding took a share of the responsibility. Edwards was then put into the game and got his medicine, too, though not to as great an extent in any one inning.

Mooney, who caught for the Colorado, put up a great game at the bat. He hammered out a three-bagger and a two-base hit, both of which added to the score of his team. Sipple, in center-field, made a beautiful catch of Snyder's long fly in the third, which called forth applause from all present. Bird, in the left field for the Colorado, also made some fine catches of

DONE BY TRYING.

Nobody can tell what he can do till he tries. When a thing ought to be done the modern spirit moves us to keep working away at it until it is done. In the face of this idea the "impossible" vanishes. Where there's a will, there's a way. "If we could but rob cod liver oil of its sickening taste and smell and then combine it with two or three other ingredients we should possess the best remedy in the world for certain diseases that are now practically incurable." So said a famous English physician twenty-five years ago. "But it will never be done," he added. "You can no more turn cod liver oil into a palatable medicine, than you can turn the Codfish itself into a Bird of Paradise." Yet he lived to admit that in WAMPOLE'S PREPARATION the "impossible" had been accomplished. It is palatable as honey and contains all the nutritive and curative properties of Pure Cod Liver Oil, extracted by us from fresh cod livers, combined with the Compound Syrup of Hypophosphites, Extracts of Malt and Wild Cherry. This remedy is freed from the bad peculiarities Dr. Frothingham so detested, and it is precisely the splendid medicine he wished for. Use it freely and confidently for Hysteria, Wasting Complaints, Anemia, Blood Impurities, Asthma, and Throat and Lung Troubles. Dr. W. H. B. Aikins, Physician to Toronto General Hospital, says: "I am much pleased to state that the results from using Wampole's Preparation of Cod Liver Oil have been uniformly satisfactory; it appealed to me as being prepared according to correct scientific principles." It increases the appetite and influences the digestion of food; it is delicious to take, will not disappoint you, and is effective from the first dose. One bottle convinces. At all chemists.

CHANGE BATHS INTO THEATER

On Monday and Tuesday evening the Hotel Baths will be transformed into a theater to accommodate the crowd that wants to see the pictures of the Gans-Nelson fight. The water will be drained from the tank and the same transformed into a theater pit where chairs will be placed. The seating capacity will then be ample to supply the demand. The sporting public of Honolulu is anxiously awaiting a chance to see the wonderful 42-round fight that was pulled off at Goldfield. An encounter lasting for three hours and a clean film one and one-half mile long, showing every blow and move made by the two greatest light weights who ever crawled into a prize ring, will be seen. It will be a show well worth double the prices that are being asked. Men have spent all sorts of money to get a chance to see fights that proved failures, only lasting one or two rounds. This affair went 42 fast rounds that were each and every one brim full of fighting. Gans won the match on a foul after a hard, grueling fight. The pictures, as stated above, cover the entire fight from the time the men entered the ring until Geo. Siler, the referee, pointed to Joe Gans as the winner. Seats are on sale now. Ringside seats 50c., 75c., \$1.00.

SWIMMING AT HOTEL BATHS

When the sailor boys from the fleet witness the Honolulu swimmers and divers at the Hotel Baths tomorrow night they are sure to sit up and take notice. Aquatic sports followed by a motion picture show will be the bill. Admission 25c.

One trouble with independence is that some men think they must make fools of themselves to show it.

KOPKE WINS OUT IN WEEKLY SHOOT

A Close Contest for Gunners of Local Shooting Club.

The weekly shoot of the Hawaiian Gun Club, which took place at the Kakaako traps Wednesday afternoon, brought out another candidate for the challenge cup. E. Kopke made a score of 22 out of 27, and for the second time his name will be placed on the cup. At present there are four men who have won twice each, Kopke, K. B. Porter, J. W. Harvey, and J. Connor. If any one of the quartet wins a third time he will win the cup for keeps and a new trophy will be put up. W. E. Wall did some nice work in the match, scoring twenty out of twenty-one. Harvey fell from his clean score record, making nineteen out of twenty. The scores of the day were:

E. Kopke 22 out of 27
W. E. Wall..... 19 out of 20
J. E. Whitney..... 19 out of 25
T. Treadway..... 13 out of 22
J. Connor..... 18 out of 22
K. B. Porter..... 17 out of 20

AUTO NOTES FROM COAST

A racy-looking roadster will be added to the Rambler line for 1908. The body will be mounted on the four-cylinder chassis of the new model 34, and will have the usual low seats placed well to the rear, with a third rumble seat. The steering pillar, guards and dash will be built in harmony with the body lines. Tires will be 36 inches by 4 inches. The engine will be rated at 30 horsepower.

"A regular Government star route conveyance," was the remark of Secretary Taft to Postmaster-General Meyer as they stepped into the Government White steamer at Oyster Bay railroad station the other day. A few minutes later they had been whisked to President Roosevelt's home at Sagamore Hill, three miles away. The sign automobiles allowed," does not apply to the two White cars in the Government service and the machine did not stop until it reached the house. "I wish Sagamore Hill was further away from the station," said the affable Secretary of War. "Well," replied the President, "it is quite a way from the station at Long Island City, and when you return there is no reason why you should not go back all the way in the machine." And return in the machine he did, not only to Long Island City, but over the ferry, across New York and over the second ferry to the Pennsylvania station at Jersey City.

STANFORD GIRLS TO BE ARCHERS

STANFORD UNIVERSITY, Aug. 31. —Soon the athletic members of the fair sex at the university will be given practical lessons in the art of shooting arrows. Not only will they be made deft of hand and quick of eye in the working methods used by Cupid of old, for sports more manly will be introduced into the curriculum of the Roble gymnasium. Cricket will be part of the regular work of the gym-workers who care for the game, and an effort is being made to organize two teams of volley ball. If the attempt is successful games may be arranged with outside teams. Hockey, which became popular last year, will be continued. Only those girls who pass a rigid physical examination will be allowed to try out for any of the teams, while the others will be given special work in the gymnasium. For each hour spent upon the field one unit of credit will be given. A correspondence school of music could gain great popularity if the students could be induced to do their practicing by mail.

HILLO MAY HAVE GREAT WORKS

Captain Otwell's Doings Give Rise to Hopes Beyond Breakwater.

HILLO, August 2.—"Advertisements calling for tenders for the construction of the Hilo breakwater will be, I expect, published in the newspapers in November. The law compels that they be published for thirty days. In a work of such magnitude as the breakwater it may be advisable to publish them for sixty days. That would be into January. I see no reason why the actual work of construction should not begin here in February or in March at the latest."

These were the cheering words told by Captain C. W. Otwell to the Herald, on Friday morning last, before he went on the Kinau, words that will be welcome to every well-wisher of the Island of Hawaii.

This was Captain Otwell's last visit to Hilo in connection with the breakwater before the final plans, specifications and recommendations are sent to Washington. He said:

"It takes two months to get an answer from Washington on a project of this kind. That is why I say the advertisements will be published in November. The papers will go forward as soon as I return to Honolulu."

"No, I cannot tell you whether the breakwater will be that known as the 'outer' or the 'inner' one, not yet. That can only be determined in Washington."

"At present, also, it is not decided what form the advertisements calling for tenders will take, whether I will ask for bids to include material, machinery, labor and, in fact, the whole of the work, or whether I will build it myself and only call for bids for the necessary material. The form of the tenders has not been determined."

As soon as Captain Otwell and Engineer Burbank arrived here, on Wednesday afternoon, they went to the top of the Hackfeld building, then to the top of the hill where the old cemetery is. At the latter place they found that the growth of trees prevented the observations they expected for range light sites.

On Thursday morning a visit was paid to Puna. A ledge of rock was examined there, also at eleven miles in Shipman's pasture on the Puna road. On Thursday afternoon the Federal engineers went to the lighthouse site at Pepeekeo, incidentally also studying range light sites and examining rock along the coast. These observations enabled Captain Otwell to say: "I believe I have found rock that will be suitable for the construction of the breakwater."

As a matter of fact there are several places where the rock comes up to specification requirements, so there will be no trouble on that score.

That Captain Otwell was so interested in lighthouses and range light sites in the neighborhood of Hilo suggests that the Federal government may have more projects in view for this island than have yet been disclosed. He was willing to admit that Reed's bay would be a good spot for dry docks, but beyond this he would go no further.

As Congress will meet again in less than three months, no harm can be done by the enterprising people of this island getting together and putting into shape any suggestions for improvements for Hawaii in order that they may be in the hands of the Delegate when he leaves for Washington.

SHAKE WAS SHARP BUT NOT PROLONGED

HILLO, September 9.—Some made a rush for their babies. Others made a rush for the doors. This was when the earthquake shook up Hilo at 6:42 o'clock on Friday evening last.

Of course mothers first thought of their little ones. So did Postmaster Desha who stowed one under each arm and started to make a hurried call across the street. But the earth was still once more, before he reached the door, and the visit was postponed.

It was a lively little shock while it lasted, only a few seconds, lively enough to let everybody in Hilo know that something unusual had happened. It was a long, steady motion that swayed houses perceptibly, made the timbers creak and the foundations strain. But it was soon over and pictures settled back against the wall, tea and coffee stopped from spilling over into the saucers, liquids in full bottles that had been dripping over returned to their normal steadiness. Only in Kennedy's jewelry store, on Front street, is it known that a few pieces of cut glass moved from their place, and a couple of articles of silverware fell on their sides. Yet in the Hilo Drug Store, close by, nothing moved at all, so far as could be seen.

First reports by telephone came from Laupahoehoe, then Kau was heard from. These were at once sent to the Herald. Next morning Hakalan reported a lively terrestrial movement, while Kohala seemed to have excelled in shakes. E. Faxon Bishop came in from Papaikou and said it was as bad as he wanted. Waimea felt it. In fact the tremor showed no discrimination but let its presence be felt all over the Big Island.

One man in Hilo, who has been living on Hawaii for nearly thirty years, said:

"It was the worst shake I have felt since '82."
 Other old timers would not go back as far as that, but they shook their heads and acknowledged that "it was a bad shake all right, the worst we have had for many years."

LOCAL JAPANESE PRESS OPINION

Vancouver Trouble Does Not Give Emigration Backers Common Sense.

The comments of the local Japanese papers upon the Vancouver riot vary according to their colors. The Daily Chronicle says:

AN EMIGRATION BACKER.

"The trouble in Vancouver is well nigh a drop in the ocean, in its degree of seriousness, compared with that of San Francisco. In the present trouble a prompt adjustment of the situation is promised us by the British Government, and we may rely upon the promise of our ally for a responsible solution of the trouble, which is neither so deeply rooted nor well organized as was the case in California."

"A certain vernacular paper entertains a pessimistic view on the situation and tries to find the cause of the trouble in the emigration of our countrymen from Hawaii, thereby trying to justify Consul Morikawa in his attempt to check the emigration tide of the Japanese laborers. We can not agree with the sycophants who always bow low to consuls and foreigners. In our free and independent opinion, we think Consul Morikawa has been sending all kinds of false and exaggerated reports merely to misguide us; else, ere this, we would have heard of starving Japanese beggars among the passengers of the Kumeric and the Indiana. As the situation stands at present we do not see any grave difficulty either in the settlement of the present trouble or in the way of future emigration."

CAUSED FROM HAWAII.

The Hawaii Shinpo believes that "the direct cause of the trouble is in the Kumeric immigrants, who brought about a general anti-Japanese feeling on the Pacific Coast," and goes on to say: "We are rather inclined to believe that the present trouble was prompted by the American unionists, who are proud of their recent successes in California, and that they took the chance of Mr. Ishii's visit for the manifestation of their feeling toward Japanese laborers."

A HEADSTRONG VIEW.

The Nippu Jiji regrets the occurrence, but it believes that "the trouble was brewed up at the instigation of the American labor unionists," and does not think that "the cordial relations of the allies would suffer on account of the present trouble." However, Jiji is offended at the Jiyu Shimbun, which is of the opinion that "as long as Japan's fundamental policy—that of sound industrial expansion—is not hindered, a reasonable restriction should be put on the number of its coolie immigrants and the emigration of Japanese from Hawaii ought to be stopped, in order to avoid any further friction with friendly powers. The Nippu compares this opinion with a theory of a man giving up his property to another because he had to surrender on other occasions."

THOSE TO BLAME.

The Jiyu Shimbun retaliates against the Nippu's attack and says: "We have no doubt that the Dominion Government will prevent the recurrence of the riot, and that the damages may be paid, and that the apology may be announced, but will they save all causes of trouble? We say no, in spite of the shortsightedness of Jiji, which is foolhardy enough to believe that the immigration must be pushed to its goal because there is nothing in the treaty stipulation to prevent it. We have warned against unrestricted exodus of Japanese from here because we believed that there was nothing more detrimental to our general interest—in that it counteracts the policy of our government. We are sorry that we are made prophets in regard to the Kumeric exodus, but will venture to prophesy again that, until the emigration of our countrymen is made to accord with the regulation of our government, the trouble will never cease; therefore, the new understanding between Ottawa and Tokio shall be in the form of restriction, much to our regret. But who are to be blamed?"

WHAT WILKINS SAYS OF HAWAII'S JAPANESE

"The statement of Governor Carter, made while in the United States, that there is no bitterness of feeling against the Japanese in the Hawaiian Islands is not true, so far as I have been able to determine," said Johnson T. Wilkins, a planter, who went out from Louisiana seven years ago and now resides in Honolulu. He is stopping at the Arlington.

"The truth is," continued Mr. Wilkins, "that many thousands of Japanese have been coming to the islands during the past year or two with the single idea of gaining final admittance into the United States, where their opportunities for advancement are much greater than they can possibly be either in Japan or Hawaii. They secure work of various sorts as laborers on the sugar plantations and as domestic servants. For a long time Americans who live in the islands looked upon this migration as a plan of the Japanese government to put enough men there to overthrow American control in the event of war between Japan and the United States. Stories went the rounds of Japanese drilling at night. All this enhanced a feeling of antipathy toward the Japanese which is racial, and always prevails when the white and yellow races are thrown directly into competition. My own opinion is that Japan's intentions were entirely peaceful and that the migration was caused by the desire of the Japanese to get into the United States eventually. However, many people over there disagree with me."—Washington Post.

MARINE

Yesterday morning Admirals Dayton and Very made a run down to Pearl Harbor in Admiral Dayton's steam launch. The various points of interest were pointed out to the visiting naval officer by Admiral Very and he appeared to be very much interested in the work which was to be done, if money shall be appropriated by Congress.

In speaking of the trip Admiral Dayton said: "We had a very pleasant trip to Pearl Harbor and I was interested in the site of the proposed naval station. It is a beautiful body of water and appears to be admirably fitted for the use of the navy. I am very glad to have had the opportunity to visit the harbor and to see its advantages for myself."

FAST COALING.

The officers of the Big Four express themselves as very much pleased with the coaling which has been done in this city. Approximately 6000 tons of fuel has been placed on board the four-cruisers in five days, an unusually good average. The officers of the fleet state that they have not received coal in such good time since they left New York on their long trip through the Suez canal to finally reach this port.

The Pennsylvania, the last of the vessels to coal, took in her complete supply Wednesday night and yesterday the men on board were busy scrubbing the decks and getting the vessel back into shape once more after the clouds of black dust which have settled on her. Painting and scrubbing occupied the entire day and will be kept up today till the big war-ship is in the condition which is customary in the American navy.

RECEPTIONS AND TEAS.

Two of the cruisers were in full regalia yesterday and the social side of naval life came to the fore. On board the Maryland the Hawaiian band played during the afternoon and the officers of the ship entertained a number of their friends at tea. The flagship West Virginia was prettily decorated with flags and bunting and a party of fifteen young ladies of this city were entertained by the officers of the wardroom. Afternoon tea was served on the after deck and a pleasant hour was enjoyed by all.

This afternoon the officers of the squadron will be entertained at tea by the officers and ladies at Fort Shafter. Arrangements have been made for the cars to be met by conveyances which will take the guests to the new army post.

THOMAS DUE SATURDAY.

The transport Thomas, coming here from San Francisco with troops on board for the Philippines, left the Coast port last Saturday afternoon or early Sunday morning. The Thomas

MAYER DENIES CHARGE

Thompson, his attorney, who was present. "The shortage amounts to about \$1700," continued Mayer. "I tripped him up on an order of 300 cases which were sent to Ewa. I asked him if he was short in his accounts, and he said that he had not taken anything, while at the same time I had it in black and white that he had."

will bring a large shipment of treasure, in the shape of coin for use in the Philippines, which has been coined at the mint in San Francisco. She will take on 750 tons of coal while here and will be at the Channel wharf, as was the Sherman when she was here last week.

MAY GO DIRECT.

The general impression in this city seems to be that the transports Warren and Crook, which have been placed on the run to Manila on account of the large number of troops who were sent out to the island possessions, will not stop here on their way back to the Coast. It seems that they will take large cargoes of coal to the Coast and will in all probability make the run from the Orient direct to San Francisco.

Another rumor, which seems to have a great deal to back it up is that the larger transports, the Logan, Sherman and Thomas, will be laid off for repairs as soon as the Sheridan is back on the run. They all need a thorough overhauling and will have much work to be done before they are put back in the service.

The Sheridan is at present in the dry dock at Mare Island and the work on her is being rushed. It is expected that she will leave San Francisco for this city for the regular trip on January 5. The temporary repairs which were made here by diver Paddy Kernan have excited the admiration of the naval men at Mare Island, who would hardly believe that such good work could be done under water. It is stated that the plates which were repaired tightened on the way to San Francisco instead of becoming looser and that the vessel was leaking less when she arrived than when she left Honolulu.

HILO SHIPPING.

HILO, September 9.—There is evidently a glaring error in the last report of the Bureau of Statistics of the Department of Commerce and Labor at Washington, in regard to the movement of shipping at the port of Hilo. The official figures published last week, gave the number of entries at Hilo as 35 and the clearances at 29. The report of Harbor Master Fitzgerald, made to Superintendent Holloway, for the year ending December 31, 1906, gave the entries at 53 and the clearances at 51. These figures do not include any of the Inter-Island steamers or schooners, nor do they include large vessels coming from Honolulu, such as the Enterprise when she has gone there, or sugar ships such as the Kenilworth, Banglora and Mohican, coming here for cargoes.

Comparing the Washington official figures with the actual and correct ones of this port, for the same periods ending June 30, 1907, they stand as follows: Entered. Cleared. Correct.55 54 Official.35 29 Difference.20 25

In the "correct" figures of vessels entering at Hilo are those that came from Pacific Coast ports, Australia, Japan and China; while the clearances were for coast ports, Delaware Breakwater and, during the first six months of this year only, for Salina Cruz.

The Enterprise took a consignment of 25 sample cases of pineapples, the first lot from the Hilo cannery. The S. S. Alaskan took 22,184 bags of sugar from Hilo for Salina Cruz, leaving on the evening of September 7.

AMERICA MARU DUE.

The Toyo Kisen Kaisha steamer America Maru, coming from the Orient should arrive this afternoon. She will probably leave for the Coast this evening taking mail but no passengers or freight.

NEW LEAGUE TO OPEN SUNDAY

A meeting of the Atkinson Baseball League, which has been organized recently, was held last night, at which the final arrangements were made for the opening of the season. The first ball will be pitched over the plate, or, rather, at the plate, by ex-Secretary A. L. C. Atkinson. Col. Sam Johnson will be the batter who will endeavor to make a home run on this occasion.

CATHCART DEFENDS HIS CHOICE.

In a further statement of his position regarding his proposed appointment of Arthur M. Brown as the prosecuting attorney for the police court, County Attorney Cathcart said yesterday: "I have said that my proposed appointment of Mr. Brown was approved by the District Magistrate and by the Sheriff, and this statement is absolutely true. I stated subsequently to both the District Magistrate and to Sheriff Jansen, that unless they approved that appointment, I would not appoint Mr. Brown."

Headaches and Sleeplessness

MRS. G. W. RORER.

Mrs. G. W. Rorer, of Rockville Center, L. I., suffered so from headaches and nervous trouble that she could not sleep.

She has failed to derive any benefit from the many other remedies she tried. She has been completely cured and restored to health, and now enjoys restful sleep, thanks to DUFFY'S PURE MALT WHISKEY.

Mrs. Rorer is 64 years of age and cannot say too much in praise of this great family medicine.

"I have been a constant sufferer from headache and nervous troubles, sometimes lying awake at night. I saw your advertisement in the paper and made up my mind to try your medicinal whiskey, and it did me so much good that I continued it, but now only take it in the evening and at noon time. I think that it is better than any medicine I can get. I have not had the doctor once since I commenced using it. I thank you again and again for the good it has done me. My age is 64 years." —MRS. G. W. RORER, Rockville Centre, L. I., Dec. 3, 1906.

The above unsolicited testimonial of Mrs. Rorer is similar in its words of praise to many letters received daily from men and women throughout the world, in all walks of life, who have been permanently cured by DUFFY'S PURE MALT WHISKEY, the greatest of all medicines.

Duffy's Pure Malt Whiskey

It is recognized everywhere as the unfailing specific for the cure of consumption, nervousness, typhoid, malaria, every form of stomach trouble, all diseases of the throat and lungs, and all run down and weakened conditions of the brain and body. It restores youthful vigor to the old by nourishing and feeding the vital forces of life, and maintains the health and strength of the young. It is a food already digested. It is prescribed by doctors of all schools, is used in all the leading hospitals of the world, and is recognized as a family medicine everywhere. It is absolutely pure. Medical advice and a valuable illustrated booklet on diseases sent free. Our guarantee is on every bottle.

Duffy's Pure Malt Whiskey is sold by all first-class druggists, grocers and dealers, or direct, in sealed bottles only. Price \$1.00. See that the "Old Chemist" trade-mark is on the label. Look for it carefully, and refuse substitutes. It will cure you after all other remedies have failed. Duffy Malt Whiskey Co., Rochester, N. Y.

SAYS ARMSTRONG IS IN CONTEMPT

Because He Still Draws Water From an Enjoined Pipe.

Proceedings were begun in the Circuit court yesterday to have James Armstrong found guilty of, and punished for, contempt of court. The proceeding is in the case of the Oahu Railway & Land Company against Armstrong. An affidavit by A. W. Van Valkenberg, secretary of the railway company, alleges that Armstrong has violated the injunction against him issued in this case. The injunction restrained him from maintaining a certain pipe line across Lehua avenue, Pearl City, so far as the same is within the land of the railroad company, and from carrying water across said land through said pipe. It is alleged in the affidavit that in spite of this injunction Armstrong has continued to use the pipe and to maintain it.

MILLS APPEALS. The plaintiff has appealed from the District Court in the case of Harry T. Mills vs. E. H. Lewis. SUED ON A NOTE. William H. Nicholl and Henry Hobson, doing business as Hobson & Nicholl, by their attorney, E. M. Watson, have brought suit in the Circuit Court against Mrs. Ethel M. Taylor for \$900, balance due on promissory notes.

WILL SUE SCORES OF DELINQUENTS

Tax Office Preparing Papers in Hundreds of Tax Suits.

Tax Assessor Holt and his office force are busy preparing to begin a large number of suits for taxes. These suits, which will number several hundred, will be brought in the district courts according to where the taxes are due or the delinquents reside. On the average there is about sixty or seventy thousand dollars of taxes delinquent each year in Honolulu. For many years the amount delinquent each year exceeded the amount of delinquent taxes collected each year, so that there accumulated an immense amount of taxes which stood on the books as delinquent. Of course a great deal of this never can be collected. The delinquents have died or moved away, leaving no property or assets out of which they can be collected. A great deal of it, however, can be collected by diligence and energy, in the opinion of Tax Collector Holt. The collection of delinquent taxes last year amounted to about \$80,000, which was more than the average annual amount that becomes delinquent. "I believe that the most successful way to collect delinquent taxes, especially personal taxes," said Collector Holt, "is to send a persistent collector out after them. Keeping after the delinquents is more successful than any other means. That is why I proposed to the Board of Supervisors that it make an appropriation for this purpose. I am sure it would greatly benefit the county. I have just had a conference with County Attorney Cathcart in which I urged the advantages of this means."

MASTER CRITICIZES LONG'S FINAL ACCOUNT

M. T. Simonton as master, to whom was referred the final accounts of Carlos A. Long, administrator de bonis non with the will annexed of the estate of Robert William Holt which was filed April 27, 1907, yesterday filed his report. The delay in the report is explained as being due to the pendency of an appeal to the Supreme Court in a matter affecting the estate. The master recommends that for overpayment of income account the administrator be surcharged with \$163.17; that commissions be allowed to the extent of \$4381.83; that the administrator justify himself in the large expenditure on principal account, and that a supplemental account to date be required. The master holds that the administrator is crediting himself with commissions on a principal sum of \$27,273.84, when as a matter of fact there is no such sum in existence for the reason that half of it was long ago settled on certain heirs of the testator and a part of it was paid out in commissions long ago.

A Worse Fate.—It is related that a man in a hurry for a train rushed for lunch into the first handy restaurant. It was not a fashionable restaurant. It was not even a good restaurant. To his surprise and horror he recognized in the waiter an old school and college friend. "God heavens, my dear fellow!" he cried, "how did you come to this?" "Oh, it's not so bad as you think," said his friend. "I only wait. I don't dine here."—Punch.

SAW WOOD AND SELL HARNESS

Wide Scope of Business for the Union-Pacific Transfer Company.

Articles of association of the Union-Pacific Transfer Company, Ltd., were filed with the Territorial Treasurer yesterday. These set forth that the business of the Union Transfer Co. of the Hustace-Peck Company and the business of the Pacific Transfer Company of which A. D. Scroggy is the owner have each been sold to the new company, the Union-Pacific Transfer Company, in exchange for its \$20,000 of capital stock to be issued, 75 shares of the par value of \$100 each to the Hustace-Peck Company, 75 shares in the name of A. D. Scroggy and 50 shares in the name of treasury stock to be held for the benefit of the stockholders of the new company. The Hustace-Peck Company sells to the new corporation in exchange for this stock twelve horses, ten wagons, eight sets of harness, three spring drays, one extra set of harness, one piano moving truck, two other trucks, tarpaulins. The Pacific Transfer Company transfers nine horses, nine sets single and double harness, six single drays, two wagons, one handcart, five-horsepower motor, five 26-inch saws, belt, buildings, tools, with wood and coal plant, hand truck, five tarpaulins, chest of tools, furniture, fixtures, signs, stationery and a lease of the Bulletin building at a rental of \$1500 a year.

The \$20,000 of the capital stock of the new company is represented by twenty-one horses and mules, \$4200; twelve wagons, nine drays, harness, tools, wood and coal plant, furniture, fixtures, tarpaulins, piano truck, leasehold, and goodwill, \$11,020; fifty shares of Union-Pacific Transfer Co., Ltd., fully paid up, \$5000; a total of \$20,000. The purposes for which the corporation is organized is to carry on the expressage and transfer business in all its branches, to deal in hay, grain, feedstuffs, coal, wood, lumber, and building materials, and in such other merchandise as may be useful or convenient; to conduct and carry on sawmills, planing mills, to manufacture and generate electricity, steam or other power for the operation of machinery, to acquire and dispose of the stocks and bonds of other corporations; to deal in vehicles, harness, saddles, to carry on horseshoeing, and to carry on and engage in agriculture, manufacturing and mercantile pursuits which may lawfully be done for the purposes aforesaid or any of them.

The capital may be increased to \$50,000 and the officers of the company are J. F. Morgan, president; C. J. Campbell, vice president; W. H. Smith, secretary; O. D. Scroggy, treasurer; and Frank Hustace, auditor.

LUNALILO HOME TRUSTEES HALT

Are Cautious About Endangering the Whole Estate of the Home.

The award of contract for the construction of the Makiki slopes road has not been formally awarded yet, and the contract will not be signed until the question of a right of way through the property of the Lunalilo Home is settled. The road as laid out goes through a corner of the grounds of the Home. Under the deed by which the trustees of the Home hold the property it is provided that if it shall ever be used for any other purpose than the purpose of the Home, it shall revert to the government. For this reason the trustees are very careful about such matters and, before giving the right of way required by the proposed location of the road, are taking legal advice and going very cautiously. It is thought, however, that the right of way will be granted. If it is not, either the property required may be condemned, or the location of the road may be changed. It is hoped, though, that this will not be necessary, as the road as now planned gives the best grades and the cheapest construction, besides meeting the requirements of convenience and scenic attractiveness better than any change would permit it to do.

MARY KELLY'S OFFERING.

The congregation of a little village church, says Judge, had been untiring in their efforts to raise a certain sum of money much desired by the pastor, to be used in beautifying their place of worship. During evening service, shortly after a most generous and unexpected amount had been placed in the good pastor's hands, he was quite overcome, and praised their kind and generous impulses, explaining that, no matter how small the offering, God would reward them. "Take, for instance," said he, "the case of little Mary—poor, but generous—who wanted to contribute; and nothing affected me so much as when little Mary Kelly walked down the aisle and laid an egg on the altar." Since the short sleeves became fashionable, there should be more recompense in kitchen work. Rolling up the sleeves must give one such a stylish feeling.

\$2 automobile veils, special, at Sachs' for \$1.65.

FINE ALLIGATOR PEARS.

HILO, September 9.—As a producer of alligator pears, A. Richley of Riverside Park is not willing to take second place. He brought to town a couple of shoots from one of his trees, with two large pears on each shoot, fine and evenly grown fruit with rather thick skin, a good shipping variety. The tree from which they were picked is five years old, and by actual count it had on it over three hundred pears. The flesh and flavor were all right too.

The Alexander Young Hotel Cafe, on the sixth floor, will serve an "a la carte" supper Saturday night Sept. 14, between the hours of 10 p. m. and 1 a. m.

There are different ways of being shaken, and the kind a man gets when his friends discover he is a Christmas tree hurts just as badly as the other kind.

LOCAL BREVITIES.

The Misses Rice have resumed their pianoforte teaching at 655 Beretania avenue.

L. M. Baldwin, Maui's county treasurer, arrived in the city yesterday on the Claudine.

Honolulu Lodge 616, B. P. O. E., will meet in the lodgeroom, King street, at 7:30 this evening.

Bishop Restarick and party will leave for the Coast on the Siberia and not on the Moana as has been stated.

Miss Eva Stevens, who has been spending the summer in Chicago, will return to this city on the Sierra on her next trip.

R. S. Johnson, A. Anderson and Father Stephen were among the returning passengers to arrive on the Claudine yesterday.

Consul General Salto called upon Admiral Dayton yesterday, being received aboard the flagship with a salute of nine guns.

Members of Kaahumanu Society are requested to attend the funeral of their late sister, Mrs. Cecil Brown, at 3:30 p. m. from Kawaiahao church.

The regular meeting of the Board of Supervisors of the Free Kindergarten and Children's Aid Association will be held this (Friday) morning in the Y. W. C. A. rooms.

A battalion of marines from the U. S. S. West Virginia paraded in Aala park yesterday, making a fine appearance. These parades will be made daily during the stay of the squadron in port.

The Japanese Benevolent Society desires to thank Mrs. W. G. Irwin most cordially for her generous donation of five hundred dollars to its funds.

Symphony Orchestra rehearsal this evening.

A Japanese, who was making a sketch of one of the cruisers yesterday, had his drawing taken away from him by a bluejacket, who objected to any observations of the ships of that sort.

There have been twenty-six marriages of Japanese immigrants at the immigrant station so far this month. Eleven of these were on September 9. Rev. G. Motokawa was the officiating clergyman in all cases.

The Hawaiian Women's Club will meet tonight at the Kamehameha Girls' School at 7:30. This will be the first meeting of the club since the summer vacation and a full attendance of the members is requested.

Among the larger transactions recorded yesterday are a release of chattel mortgage from Bank of Hawaii to A. D. Scroggy for \$4000 and a mortgage of land at Waikiki from Lam Wo Sing and wife to Bank of Hawaii for \$10,000.

Midshipman Lando, the first graduate from Annapolis from the Territory, who is now on the U. S. S. Colorado, was given a luncheon yesterday by Senator W. O. Smith. A number of his brother officers and some prominent townsmen were among the guests.

John G. Woolley will conduct services on Sunday morning at half-past ten o'clock on board the U. S. S. Maryland, to which services the officers and men of the other cruisers will be invited. Chester Livingston will sing during the service.

Dick Burns, who for several years has had charge of the receiving station at Kailhi, has been removed from the position by President Pinkham for the improvement of the discipline of the place. Already there are a considerable number of applicants for the job, which pays \$70 a month.

The divorce proceeding of Correa vs. Correa occupied the whole day in Judge De Bolt's court. The plaintiff, Mrs. Correa, alleges cruelty in that her husband used profane language to her and accused her of unfaithfulness. The cross-examination of the complainant by A. S. Humphreys was the feature of the day's proceedings.

The boys under arrest for stealing brasswork from the stores of the U. S. Lighthouse Service deny being the guilty ones who took certain property of the Territory located among the junk at Rosenberg's. The police are inclined to believe that the boys are telling the truth and are on a search for the real thieves.

To a man, about the shortest season in the year is the time between fall millinery and Christmas.

YOU'VE GOT TO DIE

and you can't take your property with you. Unless you make a will, your wishes as to its distribution will be ignored; the court will divide what the lawyers leave. We make a specialty of handling estates. Name us as your executor, or coexecutor with a friend, and we will draw your will free of charge.

HENRY WATERHOUSE TRUST COMPANY, LTD.

MEGATHARIAN MINSTRELS FOR MONDAY EVENING

The boys of the U. S. flagship West Virginia will tell you that if there is a megatharian minstrel show today as there was in the days of the late Jack Haverly, it is to be found only on that ship. And, better still, the "Jolly Tars" are prepared to prove their claims to the title and will do so at the Hawaiian Opera House next Monday evening. The boys will give a combined vaudeville and minstrel entertainment for the benefit of the Free Kindergarten and Children's Aid Society, and a crowded house is assured. The members of the company are all trained artists, can sing and dance as well as some of the best professionals, and have a fund of funny stories and jokes which are guaranteed to be in original packages to be opened on the night of the performance and then destroyed. The box plan will be opened at Wall, Nichols Co.'s this afternoon. Tickets \$1, 75c, and 50c.

NAVY DANCE AT THE SEASIDE

There will be a dance given tonight at the Seaside Hotel in honor of Admiral Dayton and the officers of the "Big Four." All friends of the army and navy and of the Seaside are cordially invited. On Monday night a hop will be given for the four cruisers at the Seaside Hotel, and on Wednesday night the Mardi Gras for the benefit of the polo team. On Sunday afternoon and evening a concert will be given at the Seaside in honor of the 6th Cavalry, who will arrive on the transport Thomas.

CHRISTIAN ENDEAVORERS OF FLEET ENTERTAINED

Navy uniforms were much in evidence at Central Union church last night. The rooms were crowded at a reception to the Christian Endeavorers of the warships. The Christian Endeavor societies of the Christian church and Portuguese Protestant church, together with the Methodist Epworth League assisted the Central Union Christian Endeavor in entertaining the guests.

The following program was rendered:
Solo—The Singin' Skule.....Decoto
Recitation—The New Servant Girl...
.....Miss Louisa Melim
Recitation—The Teamster..Jess Dutot
Solo—In May Time.....
.....Miss Nellie Waddington
Recitation—Baby in Church.....
.....Miss Lydia Dias
Recitation—Uncle Mose and the EGGS.....Miss May E. Paty
Solo—Sailing.....Rev. Chas. Hyde
Speeches, sociability, refreshments, etc., accounted for the rest of the time. Every number was encored. There is an organized Christian Endeavor society of over forty members on the West Virginia. The evening showed that Christian Endeavor on land and sea mix well together.

DELICIOUS COCA COLA.

This refreshing beverage now bottled exclusively by Hawaiian Soda Works. Order a trial case. Phone 516.

When a man tells us his theories of government, we have noticed that he has a mighty jazy way of leaning against the store in front of which we happen to meet him.

If you want something better in bread try that made by Alexander Young Cafe.

EASIEST IN THE WORLD TO CLEAN

This is one of the prime considerations in buying a refrigerator. The

LEONARD CLEANABLE

is so arranged that every part can be lifted out and the entire interior surface can easily be reached for cleaning. Besides, the Leonard is the strongest made and most scientifically constructed refrigerator in the market.

TO OPEN MORE KAU HOMESTEADS

The Land Near the Thompson Settlement Association Lots.

At a conference with Land Commissioner Pratt yesterday afternoon, Governor Freat approved the opening of a tract of land in Kau, Island of Hawaii, adjoining the land recently taken by the Thompson Settlement Association.

Applications for land in this region have been coming in lately in considerable numbers, and there is land available there for settlement. It is the present plan of the Land Commissioner to open up about a dozen lots, though the exact number and their size have not yet been determined. These lots will be offered on the right of purchase lease plan, open to any citizen of the United States.

Land Commissioner Pratt thinks that under most circumstances the opening of land in this way is better than by the Settlement Association plan, as it throws the land open to any citizen who desires it, and does not restrict the right of application to the particular individuals of a settlement association. In the opinion of the Commissioner the settlement association plan has its advantages for the Territory only in particular circumstances.

ENGINEERS ELECT OFFICERS FOR YEAR

At the annual meeting of the Hawaiian Engineering Association, held last evening, the following officers and directors were elected to serve for the ensuing year:

A. Gartley, chairman; C. G. Ballentyne, vice chairman; E. G. Keen, secretary; A. B. Arleigh, treasurer. Directors: L. E. Pinkham, E. Kopke; Marston Campbell, Director for Hawaii; D. E. Metzger; for Kauai, Norman Greig; for Maui, Wm. Seabry.

The annual banquet will be held at the seaside Hotel on Saturday evening next at 7 o'clock. The members are to meet at the rooms of the association on Saturday at 6:15 p. m. and go by special car or cars to the hotel, where the banquet will be awaiting them.

SUGAR IN ARGENTINA.

HILO, September 9.—Senor Don Diego Croll, formerly chief engineer at Olaa plantation, and now superintending engineer of three sugar factories in Tucuman, Argentine Republic, writes as follows regarding conditions there:

"The conditions are entirely different to Hawaii, as we have heavy frosts. Last night it was 2 deg. below zero, centigrade.

"We start to grind in the middle of May, as a rule, and do not stop until finished, working Sundays, holidays, etc.

"The grinding season only lasts from 90 to 120 days and by the end of that time the cane has gone sour. It is only nine months growth, and the average sucrose in cane is 12 per cent and fiber in cane 8.5 to 9.5, so that you see we have to use considerable wood, and it costs \$4.50 gold a ton, but they get fancy prices for sugar down here. Just now it is about \$185 gold a ton. This factory is about the capacity of Olaa, and they have 250 men day time and 190 night time, working day and night, Sundays and holidays included, during the grinding season, the office force numbers nine, and they work until 10 p. m. during the grinding season.

"Wages paid are higher than in Hawaii, the peons getting from \$1 to \$1.50 gold per day."

Mr. Croll wishes to be remembered to friends in Hawaii.

The heartache that follows the intoxication of an unrequited love isn't nearly so real as the headache that forms the aftermath of a plain drunk.
